Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

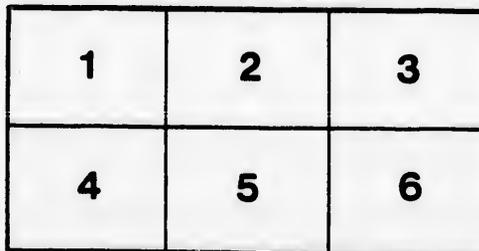

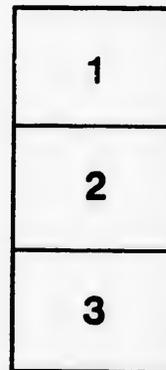

Bibliothèque générale,
Université Laval,
Québec, Québec.

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque générale,
Université Laval,
Québec, Québec.

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

PREFACE.

In submitting these tables to the public, the compiler desires to call the attention of Importers of British Goods to the special advantages contained in this work.

All the calculations have been made with the utmost care, and are guaranteed to be accurate. They are based upon the Legal Standard par of Exchange, or \$4.86.6 to the £ Sterling, instead of the obsolete Halifax currency, which is used as the basis in the books heretofore published.

A separate page is set apart for each rate per cent. of advance, thus enabling the user, after having established the rate, to find at a glance as many costs as required without turning over a page.

These tables have been used by the author for some time past, and it is at the request of several importers that they are now offered to the public.

EXAMPLE:

An article purchased in Sterling costs, say	1/7 1/4
The duty is	30%
Freight and other charges	7 1/2%
	<hr/>
Total	37 1/2%
	<hr/> <hr/>

Turn to page 37 1/2% and find

7 1/4 d.20.21
	<hr/>
Total.. 1/7 1/4	.53.67

Therefore, an article costing 1/7 1/4 in Sterling, upon which charges amount to 37 1/2%, costs laid down 53 2/3c.
