WEDNESDAY, JUNE 31, 1862. In consequence of the official position which this paper sustains...

Our Sackville Institutions.

After another year of success, and a most encouraging examination at the close...

Had not a pious and learned Archbishop assured us that "there is no such thing as a gift of supererogation..."

The politico-educationalists of England are becoming marvellously philanthropic. They express their faith that the present system is improving education...

On Sabbath morning the Chairman, Rev. E. Botterell, preached with great freedom and power from Solomon's Song, viii. 6...

Take for instance, the older of our Academies. How many hundreds of youth, now occupying positions of trust, honor, and usefulness...

How universal almost, until the foundation of the Female Academy, was the lament of the want of the means of female education...

This is not all. In our Academies religious instruction and training compose the foundation, and many youths of both sexes have, under the blessing of God...

One important object is considered in the general management of our institutions—the health of the students. Gymnastic exercises are combined with ample opportunities for recreation...

The inhabitants of Green Bay, form a providential exception. They were reduced to extremity, but they have had an extraordinary catch of seals as it were at their own doors...

In all other parts of the District, want and suffering have made the year a testing season. Alas! that many who were not enough rooted and grounded in love, should have fainted in the day of adversity...

Bro. DeWolf our Theological Professor, has had eight students under his care, for the most of the time during the year, who have with few interruptions gone through the general course of Theology, Homiletics, and Sacred History...

Before we lay aside our pen, we feel it to be due to the estimable Preceptors of our Female Academy, and to the interests of that institution, to express the sorrow we experienced when we heard of the sudden interruption to her arduous duties from a severe attack of illness.

Letter from Newfoundland.

Mr. Editor.—We have just concluded another of those annual convocations which the members, office-bearers, and especially the ministers of the Wesleyan Methodist section of the Church of Christ look forward to with an interest and anxiety second only to the Meeting of the Annual Conference.

Within the last three years, a number of our dear people, have been called to part with their beloved children, but with them gone home to God, yes, all with them is well, well, forever.

With the financial results of our Tea meeting last year, the Mission House has been furnished with many useful articles, by making our young brother, a success.

Amongst further interesting intelligence, contained in the Report, we find that the following twenty-five Missionaries, and eleven visits of Missions, have been sent out by the Society since the last Anniversary.

Mr. Terry, to Germany; Mr. and Mrs. Piggott, to the United States; Mr. Lissolo, to Italy; Mr. and Mrs. Alton, to Spain; Miss Trellis, to Madras; Miss Ashwell, to China; Mr. Fish, Mr. Hughes, Mr. Sawtell, Mr. Hunter and Mr. Allsop, to South Africa; Mr. Berrie, to Sierra Leone; Mr. Taylor, to the Gold Coast; Mr. Pearce, to Antigua; Mr. Kent, to St. Christopher; Mr. Beck, to Tortola; Miss Hunt and Mrs. Carter, to Barbadoes; Mr. Watson, Mr. Locke, Mr. Sunderland, and Mr. Gleave, to Demerara; Mr. and Mrs. Foster, Mr. Atkins, and Mr. Massey, to Jamaica; Miss Walker, to Honduras; Miss Gaud, to the Bahamas; Mr. Penco, to Newfoundland.

Of this number, Messrs. Stott, Fitcher, Foster, and Alton, who have been honored and usefully employed in various Missions, had again returned home for a season, have been again appointed to the Foreign work.

Misses Eacott, Parks, Ward, Bagley, Evans and Gunnson, School Teachers, have also been sent out.

The following much lamented Missionaries have been removed by death: Mr. Cocking, at Bangalore, India; Mr. Joseph Tindall, at Robertson, Cape of Good Hope; Mr. Shaw, at Antigua; Mr. Pimm, at Torquay, Devon; Mr. Carter, Ocho-Rios, Jamaica; Mr. Van der Horst, at Samana, St. Domingo.

To this affecting record must be added that of nine excellent females, the wives of Missionaries, who have also exchanged mortal life for life.

The following is a GENERAL SUMMARY of the Society's labours and agency:— Central or Principal Stations called Circuits, 173

Chapels and other Preaching Places, in connection with the above-mentioned Central or Principal Stations, as far as ascertained, 1,104

Ministers and Assistant Missionaries, including Five Supernumeraries, 262

had our Sacramental services; and if one such service last year, caused my beloved Brother and Professor Rev. A. McClintock to rejoice in witnessing so many for whose spiritual welfare he has laboured, coming to our sacramental table...

In the army. It was composed almost entirely of new recruits, and reduced by disease to an effective force of 6000 men.

On the 1st inst., the British army, under the command of Gen. Casey, was driven from the front after a long and bloody struggle.

A battalion of two regiments pressed on the face of a steep and rocky ascent, and the men of the right, under the command of Gen. Wassell at the centre, and a third on Gen. Palmer to the left, pouring in at once a fire hot and heavy, and advancing with great resolution in the face of a steady fire of canister and grape from the guns in front and shells from those further to the rear, moving down their ranks in all directions.

Terribly the temper rage, the air almost glowing thick with musket balls. Officer after officer fell, and was borne from the field a wounded man.

The weather during the present month has been favorable for farming operations.

STEAMSHIP "PERRIA" AT NEW YORK. NEW YORK, June 5.—The steamship Perrin from Liverpool 25th and Queenstown 25th arrived this morning.

European political news is unimportant; anxiety for American intelligence, dated from the House of Commons Mr. Midway asked what steps the government intended to take in the case of the steamer Bermuda, seized by the Federal army on her passage from one British colony to another.

The Times says the details of the capture of New Orleans places the surrender in a more creditable light. For the defenders to surrender after such a contest as took place divests them of any reproach.

Dr. Stinson. THE PRESIDENT'S ILLNESS.—We regret to have to say that no statement seems to have been taken in the disease of the Rev. Dr. Stinson. The last week has been one of extreme suffering, and his increasing feebleness of course rendered him unable to attend to his duties.

During his confinement of over five months, various inquiries have been continually made, and earnest prayers presented at the throne of grace in all parts of Canada; for our beloved President has a high place in the esteem of all who know him.

It will be consoling to his much afflicted family, and gratifying to his friends generally, to know that the Quarterly and District Meetings in different places have passed unobscured, and that the cause of the suffering and sympathy and esteem. The Annual Meeting of the Toronto District, which was held at Brampton last week, adopted with much unanimity a similar resolution.

The Blessed Comforter be present with our dear and respected brother, and strengthen his heart with faith and with a joy that is full of glory.—Toronto Guardian.

Death in a Home of the London Poor. A friend of mine, seeking to relieve the poor, came to a flight of stairs that led to a door, which led into a room reaching under the slates.

What for? "Father got drunk, and beat me, because I would not steal."

Application on Manure. There seems to be a good deal of diversity of opinions in regard to the best time of the year to apply manure.

How to Keep a Pig. As the sty is the first thing to be provided, let this be built of rough materials, say six feet square, with a raised floor, sloping in a trifling degree towards the corner near the opening.
