EDITORIAL NOTES.

It is reported that the contract for a fast Atlantic steamship service will be given to the Canadian Pacific Railway Company. The British press are favorable to the scheme.

Prince Bismark has had an interview with Emperor William and may be called to form a Ministry. The present regime does not come up to the demands of the Kaiser, and an iron hand is necessary to carry out the measures desired. Whether Prince Herbert Von Bismark can wield the same despotic sway as his father did in Germany is still an unsolved problem.

Britain has been strengthening the military forces in South Africa and taking vigorous measures to put herself in a position to assume the aggressive if necessary, on behalf of the Uitlanders in the Transvaal. As a result of this, or perhaps on account of wiser counsels, Kruger and the Volksraad are making more liberal concessions to the Uitlanders than was thought possible a few days ago.

Dreyfus has landed in France and is better mentally and physically than was expected from the reports received of him while in exile. Madame Dreyfus is permitted to see him daily and his counsel visit him in prison regularly with a view of preparing for his second trial. There seems to be no doubt but he will be acquitted.

The Pacific Cable scheme is now more likely to receive the active assistance of Britain than appeared a few weeks ago. The delegation representing the Eastern Telegraph Companies have not met with much encouragement from Mr. Chamberlain and Sir Michael Hicks-Beach in their efforts to block the all British cable scheme, and it is expected that measures will be perfected soon to secure the laying of the cable.

Judge Osler has written the County Attorney of the County of Ontario asking why the persons named by the Court at the late election trial have not been brought to trial. The County, irrespective of party, desires that all those who have been guilty of bribery and corruption at the late elections should be punished, and the sooner the criminals be brought to trial, the better for the liberal party. It will not do to let such a gang escape the just consequences of their corrupt conduct.

The Attorney-General's Department, Toronto, has instructed the Crown Attorney of Ontario county to enforce the law against bribery in the case of the agents of the two candidates in South Ontario at the elections held at the Riding. Nine of Mr. Dryden's agents were reported by the judges as guilty and 16 of Mr. Calder's agents. Each person will be summoned to appear before a special court of two judges and tried for the corrupt practices at these elections. Each person found guilty will be fined or sent to jail and disqualified for eight years from either voting or holding a public office.

Mr. Owen Heffernan, who resides on lot 4, con. 10, Nichol township, struck a bright idea last year and made an experiment that may prove profitable to the farming community. Owen keeps hens, but found difficulty in getting early chickens. Necessity put Mr. Heffernan into deep thought. The idea finally struck him that crows hatch early. Immediately acting on the idea, he climbed into a tree near his home, where a crow's nest was located. He quickly exchanged eggs; depositing in the next three gathered in his barn. The idea worked like a charm, and in about three weeks three chickens were sheltered under mother crow's wings. This year Owen tried the same experiment and three more chickens were added to his stock.

THE MODERN LAUNDRY.

GREAT ADVANTAGE AND CONVENIENCE OF THE INSTITUTION.

Prompt, Clean and Stylish Work Which Gentlemen Appreciate.

The demand for prompt work, thoroughly done and stylish in effect, created the modern steam laundry. It is absolutely impossible to launder shirts, collars and cuffs at home in a manner to satisfy the tastes of well-dressed gentlemen. The adapting of machinery and the economy of labor has caused this to be effected. Our well-dressed young men can now have their laundry work done to suit them and done promptly on time, at less expense all around than if done at home, not to speak of the worry and friction which are saved.

The Parisian Steam Laundry of Ontario, Limited, Toronto, Hamilton, and London, offers this very necessary finishing to all who would appear well dressed. By leaving their orders at the agency in this town, our young men can be certain of having them executed in quick time and in the very best manner. The far-famed "Parisian" is an old-established laundry, and it has the most complete machinery in America. It is conducted by people who have made the business a life-study, and who seize upon every new improvement and turn it to the benefit of their customers. This the abundant capital of the concern always enables it to do. Shirts, collars, and cuffs from the Parisian Laundry retain their shape and cleanliness twice as long as when laundered in inferior places.

The "Parisian" guarantees the best work to be had anywhere in the world, and at prices which defy competition. There is no reason why this should not be so, when we consider the extensive facilities and long experience it has enlisted in the business. We do not deem it necessary to advise the young men and older men of our town who wish always to appear well-dressed to "get the best" in laundry work when the best costs no more than what is far inferior. So that it will not be required to urge them to send their work to the Parisian Laundry. The foregoing facts are enough to convince all interested that it is their best policy to do so.

LIVE STOCK MARKETS TORONTO

There was a very good trade done in cattle at the Western Market this morning. The arrivals were heavy, being 60 carloads, made up of 1,000 cattle, 500 sheep and yearlings, 75 milch cows, 60 calves and 1,200 hogs.

Weighmaster D. Walker reports that the total amount of stuff received for the week ending July 1st was:—Cattle, 2,787; sheep and yearlings, 2,603; calves, 125 and hogs 4,307. The weigh scale receipts were \$152 38.

Trade showed a marked improvement in almost every branch to-day, and the market showed more life. The general tone of the market ruled steady to firm. Values for cattle remained unchanged from Friday, with the exception of butchers' grades, which were a little easier. The quality of fat cattle was good, the offerings, including a number of exceptionally good export cattle.

Export Cattle—The market was steady. Although cable advices from Great Britain remained steady, there were a few bunches of heavy exporters offered on the market, which brought a little more than the ruling price. The supply, which was moderate, was about equal to the demand. Choice heavy exporters were quoted at \$4 75 to \$5 per cwt, and \$5 10 per cwt for an occasional bunch of extra choice. Light were in ample supply at unchanged prices, or \$4 60 to \$4 70 per cwt.

Butchers' Cattle—The movement in this line was not very brisk, and the supply was a little drabby. Prices for choice were quoted a little easier, while common grades also showed a decline. The supply of the latter grades was large but the demand was slow, and, as a result, the bulk of the offerings were left over in the pens at the close. Choice selections were quotable at \$4 25 to \$4 50 per cwt, and medium and common grades fetched prices ranging from \$3 25 to \$3 75 per cwt. Inferior grades were slow at \$3 per cwt. The small supply of the heavy export-bulls met with a fairly good demand at steady prices or \$3 75 to \$4 25 per cwt. Light stock bulls were firm at \$2 50 to \$3 per cwt.

Stockers and Feeders—The market for Canadian stockers for Buffalo to-day was not quite so active. The offerings were light, but the demand was fairly active at times. Prices were a shade lower, and heavy stockers were quoted at \$2 50 to \$3 per cwt, and light stock heifers fetched \$2 75 to \$3 per cwt.

Sheep and Lambs—The arrivals of export sheep to-day were a little heavier than anticipated, but the demand was brisk for choice selections. Quotations remained unchanged from Friday and sheep for export and butchers' use fetched \$3 to \$3 25 per cwt. Good butchers' sheep brought \$3 to \$3 50 each and spring lambs were a little firmer at \$3 25 to \$4 50 each. Bucks were quiet at \$2 75 to \$3 per cwt, and lambs brought \$2 50 to \$2 75 per cwt. A heavy run of calves met with a very feeble demand and prices were again a little lower, good veals being quoted at \$2 to \$3 per cwt.

Hogs—A moderate supply met with a good demand in the annex to-day. Prices underwent no quotable from Friday and choice selections were quoted

at \$5 per cwt. Light and thick fats fetched \$4 25 per cwt, and sows were quiet at \$3 per cwt. Stags brought \$2 per cwt.

COUNTY AND DISTRICT.

A mishap occurred at Paisley station on Tuesday night that delayed the Model Farm excursionists from the north for several hours on their way home. The special train arrived here before 10 o'clock with the Paisley excursionists, and was side tracked to allow the regular train, which had the Port Elgin crowd on board, to pass through. It seems the north switch was left open and derailed the engine and tender of regular train as it steamed slowly out of the yard. Another train was dispatched down from Southampton to take the excursionists home. The engine and tender were replaced about 4 o'clock a. m., without any damage.

His own bill was accepted in the sum of one hundred dollars, that he would appear for trial at the next Court of Competent Jurisdiction.

Bryan, Texas, July 3rd.—Reports from the Brazos river continue to show that the raise in the river is unparalleled. Thousands of acres of corn and cotton which was "laid by," are under water, and the loss cannot be estimated until the floods recede. Those who have visited the river bottom at the Jones iron bridge, nine miles south of here, report that horses, household effects, bedding, trunks, hogs and cows, alive and dead, and hundreds of other things were coming down. Parties who went out to investigate the flood situation between the Big and Little Brazos rivers above here report that the two rivers met Friday below Hearne, forming a vast basin of water covering large plantations on which are gins, stores and residences. The same conditions prevail in the bottom beyond the Big Brazos. The river is spreading out opposite and beyond Bryan, principally on the Burleson county road. William, Thomas and Patrick Ward have returned after a 25-mile trip through the overflowed districts between the Big and Little Brazos rivers. They went to a number of neighboring towns in their trip, rowing over and through the plantations. The water was 28 inches deep in front of the stores at Steele. The Hearne and Brazos railroad is probably submerged its whole length and much of it washed away. The people have been gathered together at the gins by the plantation owners and are reported safe. The same plan seems to have been pursued across the Big Brazos in the bottom, and there was only one or two instances of drowning.
