

GREATER HAMILTON'S MOST RELIABLE NEWSPAPER

REPUBLICAN CANDIDATE.

Big Convention May Take Five Days to Select Him.

Senator Burrows to be Chairman and Lay Down Platform.

Wednesday to be a Day of Parades and Outdoor Demonstrations.

Chicago, June 15.—The convention to name a Republican candidate for President of the United States is on hand. The gathering in the big Coliseum in Washington—made up of representatives from every State and territory in the Union, as well as the more recently acquired island possessions—will be called to order tomorrow at noon by Harry S. New, Chairman of the Republican National Committee, who will introduce Senator Julius C. Burrows, of Michigan, as temporary chairman. In assuming the gavel during the temporary period of the convention's existence, Senator Burrows will make an extensive speech, designed to embody the keynote of the coming national campaign, and to proclaim the principles and achievements of the Republican party during its many years of existence. When his speech has been concluded Senator Burrows will announce the important committees, including that on credentials, and the convention will adjourn until such time as the latter committee is ready to report.

There is considerable discussion as to the length of the convention, some of the leaders holding to the original estimate of five days, if which to conclude all of the work to come before the delegates and others more optimistic, declaring that three days should see the end of all deliberations and the departure of the convention representatives for home. It is certain that the Credentials Committee will not be able to report the permanent roll until Thursday at the very earliest, and if the "allies" opposed to Secretary Taft insist upon an announced determination of presenting at least 150 of the original 229 delegates to the committee, there is likelihood that the permanent organization may be deferred until Friday, the 19th. Just as soon as the permanent list of delegates is concerned, nominations for President will be in order. The managers of the Taft campaign profess to have not the slightest doubt as to the results of the first ballot and declare they have no apprehension as to the action of the credentials committee upon the merits of contested cases and drawing up its report. Wednesday, the 17th, will be given over as usual to the parades and the marching clubs. This is intended to make interesting the idle hours of the delegates while the credentials committee is passing upon the merits of contested cases and drawing up its report. Practically all of the State delegations are to hold caucuses to-day to select their representatives on the various convention committees.

The situation as to the vice-presidency continues quite remarkable in its aspects of complete uncertainty, and the lack of definite information or decision is serving to encourage the managers of the various candidates that have been openly announced or widely intimated. Senator Dilliver, of Iowa, representative James S. Sherman, of New York, Vice-President Fairbanks and former Governor Franklin J. Murphy, of New Jersey, continue to be the more generally discussed of the vice-presidential possibilities.

The proposed anti-injunction and tariff revision planks in the platform to be adopted by the convention continue to attract the attention and discussion among the party leaders, and are said to be the only points upon which any issue may be raised.

Tariff Plank. The following is the tariff revision plank, proposed by the Taft people: "The Republican party declares unequivocally for a revision of the tariff by a special session of Congress immediately following the work assigned to the appropriate committee, and commends the steps already taken to this end in the work assigned to the committees of the two Houses, which are now investigating the operations and effect of existing schedules."

"In all tariff legislation the true principle of protection is best maintained by the imposition of such duties as will equal the difference between the cost of production at home and abroad, together with a reasonable profit to American industry and the benefits that follow are best secured by the establishment of maximum and minimum rates to be administered by the President under limitations fixed in the law, the maximum to be available to meet discriminations by foreign countries against American goods entering their markets, and the minimum to represent the normal measure of protection at home, the aim and purpose of the Republican policy being not only to preserve without excessive duties that security against foreign competition to which American manufacturers, farmers and producers are entitled, but also to maintain the high standard of living of the wage earners of this country who are the most direct beneficiaries of the protective system."

"Between the United States and the Philippines we believe in a free interchange of products with such limitations as to sugar and tobacco as will avoid injury to domestic interests."

JAMES M. SHUMAKER, WILLIAM L. MATHUELS, JOHN M. SANDERSON, WILLIAM P. SNYDER.

Harrisburg, Pa., June 15.—After deliberating for twenty-two hours, the capitol jury at 9.30 a. m. on Saturday acquitted Congressman H. Hurl Cassell, and Architect J. M. Huston, charged with conspiring to defraud the States of Pennsylvania in the metallic furniture for the State capitol. In his charge, Judge Kunkel directed a verdict of not guilty as to ex-Treasurer W. L. Mathews, James M. Shumaker and W. P. Snyder. When the negro foreman of the jury had handed up the verdict Judge Kunkel discovered that the costs had been put on the commonwealth. He told the jury they must either pay the costs upon the defendants or the prosecutor of the county, and suggested that they retire and place the costs properly. The name of County Detective James T. Walter, representing the commonwealth, appeared on the bill as prosecutor and he was ordered to pay the costs. The defendants were not in the court room when the verdict was rendered.

Flow of Lavo.

Auckland, New Zealand, June 15.—Advice received here state that for three nights, beginning May 10, there was a remarkable volcanic outburst on Savaii, the largest of the Samoan Islands. The first eruption was followed by the greatest flow of lava in the history of the island, it being estimated at nearly three thousand tons per minute. Soon there was an almost continuous sheet of lava, eight miles wide and from six inches to six feet deep, flowing down the mountain side. It overflowed the cliffs, destroying many native houses in its way, dropping into the ocean and causing an immense uprising of steam.

AUTO ACCIDENTS.

Saturday Seems to Have Been a Jonah Day.

Automobiles had Jonah days on Saturday. Besides the sad fatality at King and Wellington streets there were two minor accidents. Mr. J. Moodie's car ran down a man at King and James streets on Saturday night, and one of the wheels passed over his chest. The injured man was taken to the City Hospital by Constable Barrett where it was found his injuries were not serious, but that he had sustained a severe shock. He gave the name of Solomon Capolar, 79 Canada street. The injured man will have to stay at the City Hospital for a few days till he has regained control of his nerves again.

Saturday afternoon J. M. Young, of the Canadian Colored Cotton Co., was driving his machine down Fitzgibbon street and in turning upon King William street it slewed. The driver momentarily lost control and it mounted the sidewalk and struck a post in the rear of Wood, Vallance's Building. Other than damages to the outside of the car there will be little loss. Mr. Young escaped injury as did the others in the machine.

HIT BY LIGHTNING.

Thrown Down and Knocked Unconscious But Still Lives.

Malone, N.Y., June 15.—Ernest C. Gleason, a well-to-do farmer, who lives just outside this town, has the distinction of having been struck by lightning and living to tell of his experience. With his two daughters, Gleason was sitting on the veranda of their home last evening during an electrical storm, when a bolt of lightning crashed into the group. All three were thrown to the floor by the shock, but with the exception of Gleason none were seriously hurt. His left side was paralyzed and he was unconscious for several hours, but to-day he was reported to be well on the way of recovery.

Mr. D. D. Hay, registrar of deeds for North Perth for over twenty years, passed away unexpectedly at Stratford on Saturday evening. Mr. Hay had been ill for a few weeks.

TORY OFFICERS COMMITTED.

Sent Up For Trial in the Ballot Case.

Returning Officer Got First Tip From the Chief

And Immediately Sought Out Dillabough.

The famous ballot selling scandal which caused a sensation here the day before the elections was up in Police Court this morning before Magistrate Jelfs. L. G. McCarthy, K. C., a Conservative lawyer of Toronto, appeared for the accused men, and pleaded not guilty. Magistrate Jelfs said he had no jurisdiction over the case, and that it would have to go for trial in any event. Dillabough's case was taken up first. He was charged with interfering with ballots for use in the elections.

Alexander H. Moore, deputy returning officer for West Hamilton, was the first witness called. He produced the writ for the election, which was put in as an exhibit. He said he heard Dillabough was selling ballots, and he went to see him Sunday, June 7, and asked him for the ballots, but Dillabough said he had returned them to the man he got them from, Lawson. He took Dillabough down to Lawson's with him, and Lawson admitted having received them back from Dillabough after having given them to him previously. The ballots were delivered to Lawson on Thursday, prior to the elections, and Col. Moore said he had discharged both men, and collected all the election material. To Mr. McCarthy Col. Moore said he gave Lawson 200 ballots, and that he got a receipt for them. Lawson would have to make a return of all unused ones to him. There were 147 voters in that division, he said. The book produced was Col. Moore's, and he said that Dillabough had the book on the Sunday night that Dillabough had coaxed the ballots from him, but that it was only for a bluff.

E. W. Moore corroborated his brother's testimony. William S. McLaughlin, salesman at Gardner & Thompson's, said he was Liberal chairman of ward 5 at the last election. He said he saw Dillabough on Saturday night. Dillabough asked him if he wanted to buy some ballots. The first time was at the Grand Opera House Hotel, Dillabough came to him, and calling him aside offered him some ballots. The second time was in the store on Saturday night. Dillabough called him to the back of the store, and again offered him the book of ballots. He laughed at the price asked, \$100, and Dillabough said he would see him on Sunday in Carroll's at 11 o'clock. McLaughlin said he saw the ballots and Col. Moore's stamp on them.

To Mr. McCarthy he said he had known the defendant all his life, and had also known his father. Witness said he was joking when he asked the defendant what he wanted for the ballots. Mr. McCarthy asked him if it was a joke on the part of Dillabough when that individual named the price. "It's up to him to say," said the witness. Witness said he ran over to the Liberal Club a short time after Dillabough had left his store, and told Mr. George McMahon about the case. He was advised to get the ballots, and have a witness on hand, but he said he did not wish to handle the ballots at all. He said he used his own judgment in what he did later. Witness said he was accused of complicity in the scandal, and he went to Toronto with a Globe representative, solely to put the matter in the Globe, and set himself right.

Mr. McLaughlin said the way the ballots would be of use would be to buy votes outside the booth and hand over the ballots to the voters, then get the blank one from inside from the voter. Thus one ballot would cover the whole division.

Lawson was then called upon to face the charge of tampering with the ballots for use in the Ontario elections. The only evidence put in was that of Col. A. H. Moore, and he told the story in the sum of \$400 each. Mr. McCarthy, after the commitment had been made, asked his Worship if he thought there was evidence of the men taking the ballots for fraud, but the Magistrate held this was not necessary.

Consumption Cure.

Havana, June 15.—In the town of Alcaides, province of Matanzas, Victor Nakarro, a negro lad, arrested on the charge of complicity in the kidnapping of Luisa Vander, a white child, who recently disappeared from her home, has confessed that the girl was the victim of a band of Brujos, or negro wizards. He said that he and one of the wizards named Marin, who also, has been arrested, entered the house and abducted the girl, who was murdered for the purpose of using the blood of her heart to cure an old negress of consumption. Members of the rural guard are scouring the country in pursuit of others of the band of Brujos.

DID \$1,000 DAMAGE.

Saturday Night Fire Destroyed Rolling Mill Washer Building.

There was quite a fire late Saturday night, which did about \$1,000 damage to the washer building at the Rolling Mills, foot of Queen street. The fire was caused by spontaneous combustion, and started in a store room at the end of the shed where the washers are made. As both buildings are frame it was only a short time till the whole affair was in a blaze. The fire department was called out and soon had the fire under control, but the roof of the washer building had burned off and the small shed was completely destroyed. The machinery, of which there was considerable, in the washer building was not damaged other than that which the water will do, but all the belts were burned, and the benches in the place are destroyed. The burned building stood between the new shop and the G. T. R. yards, and will have to be reerected before work can be carried on in it again.

Arrived on Saturday. Ox tongue, lamb's tongue, lunch tongue, pickled pigs' feet, sliced bacon, lobster in glass jars, Grimsey tomatoes, limes, watermelons, butter beans, new potatoes, pineapples for preserving, new coconuts, jello ice cream powder, Lazebay Bath olives, biscuits, Veda oatmeal biscuits, Bain & Adams, 89-91 King street east.

For Quenching the Thirst. Batger's lime juice cordial, in 25 and 35 cent bottles, West India lime juice in 15 and 25 cent bottles, English fruit salts 40c a pound, Sherbet and citrate of magnesia 30 cents a pound, Lemonade powder, 15 cent packages, very handy and delicious.—Parke & Parke, druggists.

DO NOT BLAME THIS TRAMP.

Rather Inclined to Accuse Anti-Local Option Fanatic.

John Lyons Barns Burned, Causing Loss of \$3,000.

Tramp Warned Family and Worked Hard at Fire.

The anti-local option people in Ancaster Township are having a lot of misdeeds laid at their doors. Early yesterday morning, an hour or two after Sunday midnight, the barn adjoining John Lyons' house on the Hamilton and Ancaster road, a short distance west of where this road intersects the Dundas road, was totally destroyed by fire. A tramp who was allowed to sleep in the driving shed over night had a narrow escape from being burned with the barn and had only ten seconds' time to get out of his bed when he awoke. He immediately ran to the house and warned the family who were all in bed, and as he had such a narrow escape he turned out and worked with them hard to save the machinery and animals. Most of the stock was saved, but the barn was a total loss. This little piece of incendiaryism is laid at the doors of some of the men of the township who fought against local option. When the campaign was on John Lyons and Messrs. Lewis and Burton, of the same township worked hard to get local option and it was passed. There were many dissatisfied ones and when some time later the two latter gentlemen's barns were destroyed by fire of plainly incendiary origin the owners were not long in blaming the anti-closureps. This latest outrage can hardly be blamed on to the tramp as he worked hard to get the fire out and as he had such a narrow escape himself. The loss is estimated at about \$3,000, and the insurance \$2,000. Mr. Lyons was warned, at the time the other men's barns were burned, that he would share a similar visitation. Mr. Lyons stated yesterday that it had not been for the tramp his house would have been burned, too, and he or some of his family might have perished. As a precaution, however, the tramp was taken into custody and removed to the Dundas cell. He gives his name as William Duerden, says he is an Englishman who has been in this country two years, and that he left Oshawa last Wednesday. He will be held, pending developments.

Authorities Will Investigate. Toronto, Ont., June 15.—(Special.)—An investigation will be made in regard to the mysterious fires in Ancaster township in view of the general opinion that they were caused by incendiaries. The authorities in Ancaster notified the Attorney-General's Department this morning of the affair, and asked by telephone that a provincial detective be sent. The department will comply with the request, and Detective Reburn will in all probability be selected to take up the case.

BRUTAL ASSAULT

By a Football Player Upon a Peacemaker.

A brutal assault was committed Saturday afternoon at Victoria Park during a game of baseball by a local boy on a man named Mervin Williamson, Market street. The Eskines, of this city, were playing with a team from Aldershot, and the Aldershot team had a big Indian scoring for them. During the game a doubtful hit was made and the scorer for the Aldershot team insisted it was a foul. A young man in the crowd who had a quarrel with the team at the bat when the hit was made walked up to the Indian and struck him. Williamson walked up to act as peacemaker. He had just reached out to take hold of the local man when that worthy turned on him and knocked him down. Not satisfied with merely knocking him down, he kicked him several times. Williamson was left lying on the ground with a broken wrist and a bruised and bleeding face, and with several teeth knocked out. All these injuries were called of kicks. Constable Barrett was called and took the man to the City Hospital, where his injuries were attended to. He was later removed to his home. The police are looking for the assailant. He is alleged to be a well-known football player, who has been in trouble of the same sort before.

WHY NOT CLAIM IT? G. T. Conway, staying at the Dominion Hotel at present, is an unlucky individual in the matter of headgear, at any rate. On Saturday evening when he went into supper at the hotel he left a \$4 straw hat on the rack. Somebody took his Merry Widow and walked away with it. Conway went out and bought a \$5 stiff felt hat. Last evening he went into supper and left his hat on the same peg. When he went to the hat rack again he saw nothing but empty pegs. He notified the police, and in the meantime has bought another hat. He intends to wear this to supper to-night to try and save it.

Mr. Philpott expects to be in his own pulpit for two Sundays in July.

DASHED INTO AUTOMOBILE.

Little Girl Killed While Returning From Picnic.

Glady's Garrod Tried to Cross in Front of Car

And Neither Saw Auto Nor Was Seen by Chauffeur.

A sad fatality occurred on Saturday afternoon, about 6 o'clock, Glady's Garrod, the seven-year-old daughter of W. H. Garrod, 225 Main street east, losing her life as a result of injuries received by being struck by an automobile at the corner of Wellington and King streets. Glady's, together with her mother, sisters and brother, was returning home from spending an afternoon at an outing on the mountain at the East End Lucerne, and were on car No. 119, in charge of D. E. Bell and Robert Merrington. The car stopped at the corner and Mrs. Garrod and her children all got off. Little Glady's had a granite dinner pail in her hand, and when she got off the car, ran around the front of it. Just as she was about to cross the track to reach the south side of the street, Mr. Leslie Crooks with his mother, Mrs. Thos. Crooks, and sister, Miss Grace Crooks, and the chauffeur came up on the south side of the street car in their automobile. They had turned out from the right side of the street to avoid the people who were getting off the car, and when they had turned to the left side of the street, the chauffeur could see no obstruction ahead of him. Just as the automobile reached the front of the street car, Glady's ran directly in front of it. The dinner pail struck one of the lamps on the machine, scattering the contents over the pavement. The little girl was struck by the mud guard and thrown to the ground. She never moved after being struck, and Mr. Crooks and another gentleman who witnessed the accident, carried her into the Mill's drug store at the corner. Dr. Belfrage happened to be near at hand and took her to the City Hospital in his automobile. Mr. Crooks hurried down in his automobile for Dr. Arnott, and took him to the Hospital. It was found that the little one had sustained a fracture of the left side of the neck of the machine, that an operation of trephining would be the only measure that might save the girl's life. This was performed, but it was found that no hope could be held out, and the parents were notified about 8:30. She died about 11 o'clock on Saturday evening.

The accident happened so quickly that there were very few who really were witnesses. It was quite unavoidable, as the chauffeur had not the slightest intimation of the proximity of the child, she being hid by the street car, until she had darted out in front of the machine. The auto was under control, and was stopped immediately. A wagon was standing in front of the Bank of Hamilton, closing the space on the north side of the street. The chauffeur had stopped the auto at the corner to see that everything was clear, and was starting again, going up along the south side of the car. That the danger was unforeseen was quite apparent, as there was not even a cry of warning given to the little one before the accident occurred.

Mr. and Mrs. Garrod are heartbroken over the loss of their child, who was a bright little girl. Mrs. Crooks and her daughter are prostrated over the result of the accident. A jury was summoned yesterday morning and met at noon at the Hospital, under Mr. Nichol, coroner. Mr. George Moore was chosen foreman of the jury. The other members were Wm. Larkin, Geo. Britt, John Leith, Robert Stewart, R. Breyers, Jos. Lees, Jos. Smith, Wm. Davies, Geo. Stokes, John Atkinson, John Dunn, James Singer, W. K. Corp and John Cuzner. P. C. Alex. Campbell was in charge of the inquest. After viewing the body the inquest was adjourned until Wednesday night at 8.15 at No. 3 Police Station.

The funeral will take place on Tuesday at 2 o'clock from her parents' residence, 225 Main street east, to Hamilton cemetery, where the interment will take place. Mr. Crooks' car is a new Russell machine and the man driving it is an expert sent here with the car to handle it till the owners get into the way of it. The police say the driver stopped the car in commendable fashion.

NATURAL GAS CASE.

Plaintiffs Get Judgment and Defendants Awarded Penalty.

At Toronto on Saturday Mr. Justice Riddell gave judgment in American Street Lamp Co. vs. Ontario Pipe Line Co., tried without a jury at Hamilton. Action for (1) an injunction restraining defendants from refusing to furnish natural gas to plaintiffs; (2) a mandatory order for judgment that the defendants make connections of their mains with plaintiffs' lamps; (3) a declaration that plaintiffs are entitled to have the contract made between them and the plaintiffs carried out; (4) damages, and (5) costs. Held, that the contract cannot be decreed to be specifically performed, but that plaintiffs are entitled to damages for the breach thereof. If specific performance be insisted upon, argument will be heard. Judgment for plaintiffs declaring that the defendants had not cancelled the contract at the date of the writ and had no right to do so. They will also, if it be necessary, have a judgment enjoining the defendants from disconnecting their gas pipes, etc. Defendants are entitled to the penalty with interest at 5 per cent. from 13th November, 1907. No costs to C. Smoke or plaintiffs. G. T. Blackstock, K. C., for defendants.

MARGUERITE'S SECRET

In this constrained and painful manner a week passed, and brought the first of June, when Colonel Houston and his family came down to their seat at Buzzard's Bluff. Mr. and Mrs. Helmsstedt were seated at their cold, tete-a-tete breakfast table when Nellie's messenger, Lemuel, came in with a note announcing her arrival at home, and begging her dearest Marguerite, as the sky was so beautiful and the water so calm, to come at once and spend the day with her.

"Yes, my husband had it built just before he brought me home; and the window abuts on my own parlor, and is arranged in memory of the 'celebrated' bay window of your father's library and music-room. The round balcony above it opens from my chamber, which is just over the parlor; both the window below and the balcony above command a magnificent western view of the bay, Marguerite, over the steps, and down the terraced garden, through the orchard and the timothy field, and, finally, to the sandy beach where they found the two negroes rigging the boat."

"Mrs. Helmsstedt will not go, Forrest, so that you may leave the bark. Lemuel, you will take this note to your mistress, and say that we shall be glad to see the family here."

"Dear Philip—Mr. Helmsstedt! what mean you!"

"That you are a prisoner! That you have been such since your last landing, and that you shall remain such—if it be for fifty years—do you hear?—until you choose to clear up the doubt that rests upon your name."

"Mr. Helmsstedt, you do not mean this!" exclaimed the lady, rising excitedly from her seat.

"Not—look, Marguerite!" he replied, rising, and following her to the window, where she stood with her large, mournful eyes now wildly gazing from the bright, glad waters without the darkened room and the stern visaged man within. Look, Marguerite! This island is a mile long, by a quarter of a mile wide—with many thousand acres, with deep, shady woods and pleasant springs and streams, with a fine bathing place, with room, variety and pleasure enough for a home. Your house is, besides, comfortable, and your servants capable and attentive. I say your house and servants, for here you shall be a queen if you like."

"A captive queen—less happy than a free scullion!"

"A captive by your own contumacy, lady. And mark me, I have shown you the limit of your range—this island—attempt to pass it and your freedom of motion, now bounded only by the sea, shall be contracted within the walls of this house, and so the space shall narrow around you, Marguerite, until—"

"Six feet by two will suffice me!"

"Ay, until then, if need be!"

"Mr. Helmsstedt, you cannot mean this—you are a gentleman!"

"Or was that never a fool, or a tool, lady? God knows—Satan knows how strongly and exclusively I have loved—still love! but you have placed me in a false and humiliating position, where I must take care of my honor and mine as best I may. You cannot imagine that I can permit you to fly off, year after year, whither, with whom, to whom, for what purpose I know not, and you refuse to tell! You left me no other alternative, Marguerite, but to repudiate—"

"Oh! no, no, sweet heaven, not that! You love me, Philip Helmsstedt! I know you do. You could kill, but could not banish me! I could die, but could not leave you, Philip!" interrupted his wife, with an outbreak of agony that started cold drops of dew from her forehead.

"Compose yourself, I know that we are tied together (not so much by church and state as by something inherent in the souls of both) for weal or woe, blessing or cursing, heaven or hell—who can say? But assuredly tied together for time and for eternity!"

"God be thanked for that, at least!" exclaimed Marguerite, fervently. "Anything—anything but the death by absence from you, Philip! Oh, why did you use that murderous word?"

"You left me no other word than to repudiate—"

"Ah!" cried Marguerite, as if again the word had pierced her heart.

"Oh—I was about to say—restrain you. I cannot repudiate—I must restrain you. You, yourself, must see the propriety of the measure."

"But, Philip, my husband, do you mean to say that I may not even visit Mrs. Houston?"

"I mean to say that until you satisfactorily explain your late escapade, you shall not leave the island for any purpose whatever."

"Not even to visit Nellie?"

"Not even to visit Mrs. Houston?"

R. MCKAY & CO.

A MYSTERY. TOO OLD AT FIFTY-EIGHT. Old Country Man Could Not Get Work; Was Found in Bay.

Toronto, June 15.—Unable to get work, James Thomas Parrott, aged 58, of 100 Trinity street, shaken off his workers in a pathetic attempt to look younger. Still hankering in his search of employment, all circumstances point to his throwing himself in the bay, where his body was found floating about half-past 6 on Saturday evening. Parrott came out to Canada a year ago from Cranbrook, Kent, Eng., where he had had a fishmonger's business. The very day he arrived in Toronto he was robbed of £34, and, disliking his reception, he went straight back home again, but seven weeks ago he crossed the Atlantic again.

Lately he had had to borrow from his son to pay his rent, and it seemed to break his spirit, as he told Mrs. Murray on three occasions. "I think I should be better dead." Everywhere he went he was told that he was too old. Last Thursday a friend advised him to shave his gray whiskers off, assuring him that then he would get a job before Saturday. The next day he went on the search, clean-shaven.

He had a job in sight, but he failed to get it, and came back terribly downhearted. One job only was offered him, a week's work with a farmer for \$2 and his board, which he would not take.

PETERBORO'S NEW CHURCH. The Corner-stone Laid on Sunday by Bishop O'Connor.

Peterboro, June 14.—The corner-stone of the new Roman Catholic church building, situated on Romaine street, in the south end of the city, was laid with elaborate ceremonial this afternoon by Bishop O'Connor. The sermon was preached by Rev. Father Roach, President of St. Michael's College. The new building is of Romanesque style of architecture, with the material Stony Lake limestone. This is the first building material of the kind brought to the city by the Trent Canal. The building is 54x137 over all, with a tower and spire 157 feet high.

EARL DERBY DEAD.

WAS FORMERLY GOVERNOR-GENERAL OF CANADA.

London, June 14.—The Earl of Derby, formerly Governor-General of Canada, died here suddenly on Saturday night.

Frederick Arthur Stanley, sixteenth Earl of Derby, was a statesman of note as well as one of the great landlords of England. He was born in 1841, a younger son of the distinguished fourteenth Earl, who was three times Premier of Great Britain. He received his education at Eton, and entered the army at the age of seventeen, retiring in 1865, however, to stand for Parliament. He first represented Preston, then North Lancashire, where his family's estates chiefly lay, and latterly the Blackpool division of Lancashire. In 1868, he entered the Disraeli Ministry as Lord of the Admiralty, but lost his position when his chief was defeated by Gladstone. In 1874, when Disraeli's political fortunes came back for the second time, he was made Financial Secretary to the War Office, and in 1877 to the Treasury. In 1878 he became Secretary of State for War, but was forced to relinquish his position when Gladstone came back for the second time. In 1883, in the first Salisbury Administration, he was Colonial Secretary, and in the second Administration President of the Board of Trade. In 1888, as Lord Stanley of Preston, he became Governor-General of Canada, and held that position until 1893, when he was succeeded by the Earl of Aberdeen. He succeeded to the Earldom on the death of his brother, the fifteenth Earl, in 1893. His heir is Lord Stanley, who was Postmaster-General in the Balfour Cabinet.

Kenora, June 14.—The inquest following the terrible accident at Winnipeg River crossing, in which nine men were killed and two injured, as the result of a premature explosion, opened yesterday morning, and after the evidence of C. W. Simons, the sub-contractor, and that of W. G. Munser, father of one of the victims, had been taken an adjournment was made for two weeks to procure the evidence of the injured men, who are expected to be able to testify by that time. They are probably the only ones who will ever be able to throw any light on the terrible affair.

Mr. Simons testified that he acted as foreman for his company, and that he had had eighteen years' experience in rock work, and this was the first accident that ever occurred under him. He, with another powder man and two helpers, were engaged last Thursday in loading two holes, which had been sprung six days previous, and thus were certainly not hot. He had finished his job, having placed 150 pounds of 80 per cent dynamite in, and was back about 30 feet stripping powder for another hole, when, without any apparent reason or warning, the explosion happened. Shorten had placed about 50 pounds of dynamite in the hole upon which he was working, so that there was quite 200 pounds of the explosive discharged. It turned the whole face of the rock over the cut below, where two teamsters and gun muckers were at work, crushing them to instant death. The cut where the victims were at work was about twenty feet deep. Mr. Simons had no theory to advance as to what could have caused the explosion. The powder seemed to be in first-class shape.

W. G. Munser, whose son was one of the killed, did not witness the accident, and could throw no light upon it. He, however, strongly condemned the practice of permitting men to work under a ledge where shots were being loaded.

The names of the dead are: George Munser, aged fifteen years, teamster, English; Harvey Bradley, aged sixteen years, teamster, Canadian; T. Burgess, Canadian; R. Gray, Canadian; C. W. Johnson, German; D. Jakemnyk, Galician; G. Roberti, P. Tribunali and L. Perrebin, Italians.

The evidence of Shorten and his associate will be taken on June 26th.

THE INVENTION OF LITHOGRAPHY.
It is pointed out in a French contemporary that it is exactly a hundred years since the first lithographic press was installed in France. The invention is ascribed to Alois Senefelder, a German draughtsman, officer of Munich, who in 1796 accidentally discovered that calcareous stones possess the property of retaining the impression made by thick ink and transmitting it to paper pressed on their surface. Senefelder, however, did not realize the importance of his discovery, and some years elapsed before the invention was put to practical use.

LEFT MUCH MONEY.
C. E. Fisher, Dundas, Bequeathed \$28,000—Other Estates.
In the list of wills entered for probate this morning that of Christopher Fisher, of Dundas, is the largest. The amount of the estate is \$27,999.24. His sisters, Mary and Catherine, receive \$10,613.37; another sister, Harriet, \$3,392.62 and a brother, Frank G. C. Fisher, receives the same amount. The estate will not be divided until the death of the mother, who receives a life interest.

The will of Viscount General Heenan has been entered at \$5,312, composed of cash in bank, \$2,000, real estate, \$2,500, and the rest personal. The deceased brothers, Stephen and William, of Jarvis, each receive \$2,166; St. Augustine's Church, the household goods and vestments, valued at \$350, and the House of Providence a gilt chalice, valued at \$100. There was a request in his will asking for the strictest simplicity in connection with his funeral and asked to be buried in a pine or oak coffin.

Mrs. Amelia Wingert, city, \$402.14.

THE HAMILTON TIMES

MONDAY, JUNE 15, 1908.

UNJUST TO THE OFFICIALS.

Behind the scenes City Solicitor Waddell, in negotiating with the street railway people on the subject of the new agreement, is putting up a good fight for the city.

The Herald is daily devoting much space to misrepresentation of this character, and in doing its utmost to place obstacles in the way of an agreement beneficial to the city, it does not scruple to put hired city officials in an anomalous position, and do injustice to the aldermen.

CENTRAL CHURCH.

The formal opening of the new Central Presbyterian Church in the west end of the city yesterday marked an important epoch in the Presbyterianism of Hamilton—a forward step which is believed to be the beginning of greater things for that Church.

HOW NEWS IS MADE.

How delightfully informing is some of the political news published by the Tory organs! Take, for example, the editorial version of the ballot crookedness in East Hamilton on Monday last, given to its readers by the Ottawa Journal.

DEATH OF LORD DERBY.

The death of the Earl of Derby, which occurred on Saturday night, at the age of 67 years, leaves but four living ex-incumbents of the Canadian gubernatorial office.

WHO LIED?

Major Hodgins is coming into his own. In the witness box his published "charges" against the Transcontinental Railway Commission shrank into insignificance, and he was forced to take refuge in blaming them on the reporter of the Victoria Colonist, whom he accused of misrepresenting and exaggerating.

EDITORIAL NOTES.

Besides the doubling of telephone rates to certain mercantile and professional classes in Winnipeg, provincial ownership has brought to the city a loss of \$12,000 in taxes which it formerly received from the Bell Company.

The Toronto Mail and Empire says the Tories have gained about a dozen seats in Quebec. The organ prefers to take its gall by easy stages.

its advantageous position as a seaport and commercial centre. The work should prove useful in placing the claims of Halifax to distinction before the people of Canada.

It is quite useless for the Tories to deny that the delay of public business in Parliament is due to Tory obstruction. On Friday, Mr. Foster admitted it, and declared that it would be continued unless the Dominion Elections Bill were withdrawn.

The Kaiser is again in luck. While he was in Vienna, two women attempted to use a bomb against him, but were arrested while they fumbled with it in getting it out of a bag.

OBITUARY.

Death of H. V. Lucas—Bimbrook Man's Demise. Harry Vernon Lucas died at the City Hospital last evening, aged 23 years and six months, after an illness of about six months.

John B. Clark, an old and highly respected resident of Bimbrook Township, passed away yesterday afternoon, aged 68 years.

Mrs. Mary Maclean will be extended to Mr. and Mrs. William Maclean in the loss of their only daughter, Dorothy, aged five months, who passed away yesterday afternoon at 10 o'clock.

The remains of Annie Reid were laid at rest this afternoon in Hamilton Cemetery, the funeral taking place from her late residence, 358 John street, west, to St. Luke's Church, Rev. E. N. R. Burns officiated at the church and grave.

NEW CENTRAL DEDICATED.

Impressive Ceremony Conducted by Rev. W. H. Sedgewick.

Sermon by Rev. Dr. Herridge, of Ottawa.

Afternoon Address by Rev. R. Whiting, of Centenary.

Standing a magnificent monument to Presbyterianism in Hamilton, and a worthy tribute to the zeal and ambition of the congregation, which, undaunted by the crushing blow that fell two years ago, when the old edifice was destroyed by fire, erected the beautiful new structure, Central Presbyterian Church was formally opened yesterday.

The dedicatory services, beautiful and impressive in their simplicity, were participated in by congregations which filled the big building to its utmost capacity. It was the first view the majority of the people had of the interior of the imposing structure, which represents an outlay of \$120,000, and it far surpassed their fondest expectations.

Rev. W. H. Sedgewick, associate pastor, officiated at the dedication, the congregation standing to chant the responses to the impressive form prescribed by the Presbyterian Church for occasions of the kind. The dedicatory prayer was by Rev. Dr. Lyle, the pastor, while Rev. W. T. Herridge, D. D., of St. Andrew's Church, Ottawa, an eloquent pulpit orator, preached morning and evening.

In the afternoon Rev. Richard Whiting, pastor of Centenary Methodist Church, spoke. The musical portion of the service, arranged by C. Percival Garrett, organist and musical director, was a notable feature of the day.

Before beginning his morning sermon Dr. Herridge took occasion to express his pleasure at having an opportunity of taking part in the dedicatory services with the pastor who had labored so long and faithfully among the people, and with his associate, under whose care he wished Central Church continued prosperity. The congregation he congratulated on the completion of the work. It pleased him to see that in the erection of the church ecclesiastical traditions had been observed, and that it was beautiful and commodious. One might almost call it a cathedral, and there was no reason why Presbyterians should not have their cathedrals. He hoped that the new church would prove a greater inspiration to the people in their service to God to whom it was dedicated. "May God bless you in your home and, give you many years of rich worship in it," he said.

Dr. Herridge is a commanding figure in the pulpit and his splendid sermons made a deep impression. In the morning he preached on "The Value of Knowledge and How to Retain It," basing his theme on words from Rev. xxi. 1, "I saw a new heaven and a new earth had passed away." Referring to John's vision, which was the reward of his yearning for new and better things, he declared that every man had his lot, his longings and hopes. Even though a new heaven and a new earth had never been clearly outlined, one watched for it and it came in the knowledge and grasp of Jesus Christ. Dr. Herridge painted a graphic word picture of the disappointments in the changes of life, within and without, with the passing of the day, the clouds grew and the storm beat down with merciless pity as the first heaven and the first earth passed. To him the chief attractiveness of the apocalypse lay in its promise of new and better things. This was only possible in one's inner development, where the mind could be left, on every side, grasping the knowledge of Jesus Christ, learning more and more the meaning of life, when that which appeared old would assume a new significance and be clothed with a new light and fresh inspiration. There was no reason why anyone should be shut out of this wonderland of joy. We had eyes to see and the way to see was to grasp the knowledge of Christ. Some people were opposed to new things and shut out knowledge.

Life was full of novelty, declared the speaker, despite a class which admired nothing and discarded enthusiasm as a vulgar passion. Few people were born stupid, some took it upon themselves to achieve it, and some were unfortunate enough to have it thrust upon them. The wild hunt for money and reducing life to a sensual delight was a superficial waste and a fundamental vice which ignored the most important side of life. To live a useful life was to retain knowledge. To retain self respect and know the meaning of life it was not only necessary to keep out devils, but to have angels within. While it might be urged that there was not much time for thinking except of practical things it was wrong to make material things the main pursuit of life. Underlying the material was the spiritual which determined the meaning of life. The man poor in material things, who had the hard intelligence, which grasped some of the best treasures of the ages, was better off than the millionaire. Modern civilization was moving on the wrong road if it ever made us forget that there must be seed of noble thought sown to produce a harvest of noble deeds. A line of cleavage would have to be drawn as civilization advanced between mere material parade and the refinement of the cultured soul.

To keep the sense of love to perform some useful service in a world that was full of opportunities. He who was pressed by an honest purpose, benefiting a man, was continually gaining a fresh insight into life and had nothing to fear from an attack of boredom. The man clothed in the Christianlike character dug down to the roots of other souls, which had hitherto passed along life's way unrecognized, grasping retaining knowledge. He who was not gaining in knowledge reached a stage when life must become dwarfed and stunted. If a soul was not awake to the higher visions and ideals which its own tuition placed before it, it revolved on its own axis and did not have the broad sweep of the life around it. A good deal of sorrow was due not to lack of faith but to weakness of moral purpose. One's doubts were not to be dreaded half as much as the unexecuted promises. It was no sinecure to be a Christian. Goodness was not the property of any class. It was something necessary to fight for

and it was this that made it a fitting and proper reward to him who overcame. Shall we turn from Christ or to Him, follow where He leads and by winning our souls prove our immortality. That was the great problem.

Reading the form of dedication, Mr. Sedgewick said: "Dearly beloved in the Lord: God our Heavenly Father, having in His grace, which is in Jesus Christ our Lord, brought to its consummation our work of preparing for the honor of His holy name, a house within whose walls His Gospel is to be truly preached, His sacraments are to be faithfully administered, and prayer and praise are to be offered unto Him, we are now gathered in His presence for the purpose of devoting this house by a solemn act of worship to its proper and sacred use. Let us therefore consecrate ourselves anew to God, dedicating this entire building to His service."

The congregation, rising, chanted the responses. Holy, blessed and glorious Trinity, three persons and one God. Congregation—To Thee we dedicate this house. Minister—Father of our Lord Jesus Christ, our Father Who art in Heaven: Congregation—To Thee we dedicate this house. Minister—Son of God, only begotten of the Father, head of the body which is the church, head over all things to the church, prophet, priest and king of Thy people: Congregation—To Thee we dedicate this house.

Minister—God the Holy Ghost, proceeding from the Father and the Son, given to be our abiding teacher, sanctifier and comforter, Lord and giver of life: Congregation—To Thee we dedicate this house. Minister—Arise, O Lord, into Thy rest, Thou of the ark and Thy strength, let Thy priests be clothed with righteousness and let Thy people shout for joy. Put Thy name in this place. Let Thy eyes be opened towards it and open up the supplications of Thy people when they pray in this place, even in the place of which Thou hast said, "My name shall be there."

Congregation—Hear Thou in Heaven Thy dwelling place, and when Thou hearest, Lord, give us grace. Another large congregation participated in the afternoon service, when Rev. Richard Whiting gave course, choosing as his text Peter i. 16: "Ye are not your own, ye are bought at a price. He said that the doctrine that man did not belong to himself, but to God, was expressive in the Bible, particularly in the New Testament, and more particularly in teachings of Paul. This was not an arbitrary statement. Very deep reasons were behind it. Three steps leading up to the reason were that we found we were the happiest when we recognized we belonged to someone, and not ourselves; we attained our highest place in life when we recognized the higher claim and tried to live up to it, and we attained the highest power when we most marked, if we were of more use in the world when we recognized that the world had a claim on us; if we were of more use to country, to family or friends when we realized the same thing, surely we were of more use to God when we recognized the claim He had on us. That supreme claim was that He died for us.

MUNICIPAL OWNERSHIP.

Bitter Experiences of Ontario Municipalities.

Most of the Investments Resulted Disastrously.

Forty-Five Defaulted on Even the Interest on Bonds.

(Toronto Mail and Empire.) It is not probable that one man in a thousand knows that Municipal Ownership has already been tried in Ontario, and has failed. The story of the "Municipal Loan Fund" is interesting and should not be forgotten. With the construction of the Grand Trunk Railway, and the Great Western—now Grand Trunk—it was natural that every town, village and township should long for a railway or branch line.

A Millennium. The usual arguments were used, "That trade, commerce and manufactures should be encouraged at all points, creating widespread prosperity and remunerative employment for all." The question was: "Where was the money to come from?" At that date there were only eight Chartered Banks with capital so limited as to be barely sufficient for ordinary business purposes. Borrowing in England was out of the question. Municipal credit had not been established there; some sort of legislative approval became necessary.

How It Arrived. The following is a list of municipal investments and the results under municipal ownership: The township of Bertie borrowed \$40,000. The township of Brantford borrowed 150,000. Huron and Bruce (county) 500,000. Township Canboro 8,000. Township of Moulton and Sherbrooke 20,000. County of Huron 300,000. County of Perth 200,000. Town of Paris 40,000. Town of Stratford (bonds, loss \$20,000) 100,000. Township of Wainfleet 20,000. \$1,378,000

Paying the Piper. The above sums were borrowed in 1853 for the construction of the Buffalo, Brantford & Goderich Railway. Any scheme which those counties, townships and towns had in view utterly failed. The investment proved a total loss. In 1861 those municipalities became financially embarrassed. It required some effort to persuade the Grand Trunk Railway to take the road as a free gift. Having wrecked their fortunes a great corporation picked up the scraps for nothing. Similar Instances Follow. Brockville ran up a railway debt of \$400,000, which proved worthless. Cobourg borrowed \$50,000 for investment in Cobourg & Peterboro Railway—a total loss. Chippawa borrowed \$26,000. Town of Niagara \$280,000. Wreck and Ruin. These accounts were borrowed for the construction of the Erie and Ontario R.R. When Niagara's day of settlement came, the arrears of interest were \$286,000, making a total loss. The Town of Dundas borrowed \$52,000 for the Desjardins Canal. It is there yet, a total loss. In 1854 the County of Elgin borrowed \$80,000. City of London, \$375,000. And a further loan of \$220,000. These sums were borrowed for the construction of the London & Port Stanley R.R., a 26-mile road. All the London put in \$615,000. For some years the city council ran the road. Then the Great Western R.R. leased for twenty years at a small rental, but declined to consider an offer to purchase at any price. It was an utter failure as a municipal ownership scheme, as an investment it was a total loss.

Losses on Railways. The Township of Lanark and Renfrew borrowed \$800,000 for the Brockville & Ottawa Railway. When bankruptcy and day of settlement came, the arrears of interest were \$27,834, making a debt of \$1,427,834. The Township of Elizabeth borrowed \$154,000 for the same road and became bankrupt with a debt of \$282,318. The Town of Guelph borrowed \$50,000—all lost in the Galt & Guelph R.R. The Township of Hope borrowed \$80,000, and Port Hope borrowed \$860,000 for the Port Hope and Lindsay R.R.—a total loss. Money Thrown Away. Township of Norwich borrowed \$200,000. Township of Woodhouse borrowed \$80,000; Township of Windham, \$100,000; Township of Woodstock, \$100,000; Town of Simcoe, \$100,000; in all \$880,000 for the Woodstock & Lake Erie R.R. The present line of railway is not even upon the graded and bridged line of railroad partly constructed by the municipalities. The investment was a total loss. Ottawa borrowed \$200,000 for Bytown & Prescott R.R., now St. Lawrence & Ottawa R.R., usually described as a total loss. Prescott borrowed \$100,000, lost in same railway. The Town of Peterboro borrowed \$100,000 for a branch railroad from Millbrook; a portion of this was saved; a personal bond having been given. Worthless Stocks. St. Catharines borrowed \$180,000 for the Port Dalhousie & Welland Railway, for carriage drives, and the St. Catharines & Welland Canal Gas Light Company. These investments resulted in "no revenue" and "worthless stocks." St. Catharines was scheduled in the list of bankrupt municipalities. And there are others, including cities, towns, counties and townships. Forty-five municipalities failed to pay interest on their debt, and were scheduled as "bankrupt."

Twelve Millions in Debt. In 1872 the municipal indebtedness cre-

ated under the municipal loan fund act amounted to \$12,000,000 with practically no assets. The equivalent of about \$30,000,000 at this date. A number of municipalities were in the hands of the sheriff and the financial standing of the whole Province was seriously affected and endangered. A commission was appointed by the Legislature of Ontario to investigate and report. That report said: "That the debts having been permitted to be contracted under legislative enactment, the municipalities must have legislative relief, and the municipalities got out of the hands of the sheriff and saved the financial standing of the Province." It was then discovered that a municipal corporation has no assets except the taxing power. A settlement was made by which the municipalities undertook to pay (by debenture issue) \$1,500,000, and the Province lost about \$10,500,000.

The Province's Credit. Even one defaulting municipality can seriously affect the credit of the entire province. As late as 1880 some of the wealthiest and most solvent counties which had never drawn into the municipal ownership bubble, had difficulty in borrowing upon debentures for legitimate local improvements. Every municipality in Ontario has a direct interest in guarding against legislation which creates an opening for financial disaster. The average overlooked at the present time when the air is highly charged with electricity and a municipal ownership craze full on, that a precedent has been established that the "previent finance" losses made possible under legislative enactment.

English Financiers Frightened. That the credit of the province was seriously affected, at that time, was too clearly proved by the failure of the late Hon. Adam Crooks, a Minister of the best reputation and high standing, to float the \$1,500,000 municipal bonds in England. None of the English financial houses would touch them, although the indebtedness of the municipality was reduced to an amount so small that principal and interest could be met without increased taxation. The debentures were as good as gold, but municipal credit was gone. Mr. Crooks finally succeeded in getting the Colonial Securities Company, which he was solicitor to take the debentures at a rate to pay 7 per cent. At that date, A. D. 1873, some of the Toronto loan companies were borrowing upon debenture in England at 4 per cent. The word "municipality" spelled "defalcation." It is no surprise after the experience—now apparently forgotten—that the municipalities adopted a safer plan—the bonus system—giving what they could afford, leaving the profits, if any, to those captains of industry who possessed that special knowledge to ensure success and good capital was required. The Mayor of Winnipeg, Mr. Ashdown, recently saved the credit of that city by "veto power." It may be that he had knowledge of these facts.

A Slow Recovery. The province did not recover from this municipal fiasco for more than twenty-five years. Taxes increased; loans of money, on mortgage, ranged from 10 per cent. to 20 per cent. Some localities have not recovered to this day. In 1868 an act was passed permitting lands to be sold for taxes for what was offered, the accumulated taxes being far in excess of the value of the land. Building ceased, the workingmen and young men of the country left in large numbers for the various American cities, leaving the land-owners and house-holders and the various established business and professional interests to grieve and suffer from the depression. Although the average standing of representative men fifty years ago was as high in Ontario, if not higher, than at present, they failed to make their municipal undertakings a success. All had great expectations and were honestly enthusiastic. They embarrassed the entire province and checked progress for a quarter of a century.

Wakfield, Mass. The question of abandoning the municipal lighting plant and purchasing electricity and gas for the town from some private corporation, or the expenditure of \$72,000 to put the plant in first-class condition, is being seriously considered by the town. The average standing of the plant has been a loss for the last few years. A committee of nine has been appointed to investigate the matter and was also authorized to secure the services of an expert at a cost not to exceed \$800, and to report not later than the November meeting. The estimated cost of putting the electrical branch of the plant in up-to-date condition is \$52,000, and an expenditure of \$20,000 will be required for the gas plant.—Electrical World.

A Glimpse of the Millennium. Government ownership of railroads and telegraphs and municipal ownership of public utilities may come some time, but will never come until every phase of the management and operation of the same is put on a strictly non-partisan and non-commercial, and thorough business principles.—Mansfield, Ohio, News.

Remarkable, Indeed! The remarkable showing made by some municipal undertakings frequently is the result of accounting which omits factors which no private concern can ignore and remain solvent.—Chicago Tribune.

The Dream and the Reality. Municipal jobs are usually given out as political rewards. The fitness of the applicant, his faithfulness to duty, his honesty, integrity and industry, are all secondary considerations. His faithfulness and his value to party or faction are of first importance to the party managers, who really run all municipal plants. The result is indifference and extravagance, high costs of production and operation; in short, the complete annihilation of the beautiful theory of the dreamers.—Connellsville, Pa., Courier.

An Unprofitable Monopoly. During the past two years the operating costs of the municipal electric light plant of Verdale, Minn., exceeded the receipts by 35 per cent. If interest and depreciation were taken into account, the loss would be 50 per cent. The plant has a monopoly of the lighting business. The Political Cause. According to the St. Louis Post-Dispatch the lighting committee of the Civic League of that city has reported against the establishment of a municipal street lighting plant "on account of the danger of political abuses, which tend to reduce efficiency and increase cost." A Change in Chicago. According to reports from Chicago all the generating stations of the municipal electric light plant have been shut down, and current is being purchased from the Chicago Sanitary District which utilizes

BANK OF HAMILTON. Simplicity of Method. In no other way does the Savings Bank Department of the Bank of Hamilton appeal more strongly to the average depositor, than in the plain sensible system under which it conducts this branch of its business. All unnecessary formality and routine has been dispensed with, and men and women unfamiliar with opening a new Bank account, find the simplicity of system adopted at each local branch of the Bank of Hamilton, specially satisfactory. Every prudent man or woman should have a Savings Bank account, and whether the deposit is merely one dollar, or a very large sum, the same absence of unnecessary regulations is maintained. An enquiry for the Manager will ensure courteous attention to all requirements. Highest current interest is allowed on each sum deposited and this interest is added to amount on deposit every three months. Branch Offices of the Bank of Hamilton are located throughout the City, and the most conveniently located should be selected when opening a new account. All Branches are open Saturday Evening, 7 to 9 P. M. HEAD OFFICE CORNER KING AND JAMES STS. CITY BRANCHES. Corner Sherman Ave. and Barton St. Corner James and Barton Sts. BOYS DROWNED. TWO ENGLISH LADS NAMED LILLY UPSET FROM SKIFF. Infant Son of Gordon Fraser Drowned Near Brandon—Charles Bisley Falls Off Steamer at Collingwood—Indian's Body Recovered. Cornwall, June 14.—James and Albert Lilly, two young lads only a year or so out from England, were drowned in the St. Lawrence near the foot of the Cornwall Canal on Saturday afternoon. They had started out on a fishing expedition, and their boat was overturned by a cross current. They were inexperienced boatmen, and could not swim; consequently both were drowned. A lad named Archambault made an effort to save them, but turned back when James, the larger of the two, tried to swim. James Lilly was eighteen years old, and Albert, who was a son of John Lilly, was twelve. The latter's body was recovered. Brandon, June 14.—Gordon Fraser, aged two years, was drowned while playing on his father's farm to-day. Mattawa, June 14.—To-night about 8 o'clock Mr. Colley, druggist, with Mr. Taylor, jeweler, took two sisters named Perrier and Miss Brown, boating. Both young men being inexperienced in a canoe, allowed their canoe to drift down near the Mattawa Rapids. Before they could realize that they were going down into the rapids their canoe struck a jam of logs, and the two young men, along with Miss Perrier and Miss Brown, clung to the jam of logs. The oldest Perrier girl jumped just before the jam rapids and drowned. Every effort is being made to find her body. Collingwood, June 13.—While painting the City of Toronto, one of the Northern Navigation Company's steamers, here, Chas. Bisley, a well known painter, was drowned from a fall between the dock and the boat. Brockville, June 14.—The body of Mitchell Barnhart, one of the two Indians drowned three miles west of here on May 29th, was discovered floating late yesterday afternoon two miles below the town and near the asylum.

NIAGARA UNHARNESSED. The Falls on the U. S. Side Ran Free for Five Hours. Niagara Falls, N. Y., June 14.—All the power plants on the United States side were shut down for five hours to-day, and the load of 175,000 horsepower was shifted to the Canadian plants to enable engineers to examine the American abutments of the upper steel arch bridge which the current had undermined, it was thought. The United States Government also took observations of the volume of water going over the American fall when the power houses were not diverting it. So far as the eye of man can distinguish, the American Cataract has lost nothing either in volume or in beauty by the diversion of water for electric power development. Promptly at midnight the gates of the Niagara Falls Power Co. were closed. In spite of the fact that six years have passed since the last examination of the tunnel was made, there was not a brick displaced, nor were there any marks of erosion. Everything was as trim as the day the tunnel was completed. All the time the inspection of the cat-arract and the tunnel was under way the engineers of the International Railway Company in charge of Thomas Pomfrey were hard at work investigating the condition of the North American shore abutments of the upper steel arch bridge. They found the abutments in a much better state than was thought. The trouble has not so much been that the masonry has been washed away, but that the foundation on which the protecting wall rested has been undermined by the current. The international engineers professed to believe that a thorough and sufficient wall might be built to hold the water off, but no decision was reached.

MAN DEAD, WIFE MAY DIE. Brutal Murder Committed in Vancouver on Saturday. Vancouver, June 13.—A water front murder of a most brutal type occurred early this morning. The victim was an Irish fisherman named Pat O'Brien. His throat was cut from ear to ear. He had been dead probably ten hours when the police became aware that a crime had been committed. The dead man's Indian wife was also frightfully injured. Her throat is cut and gashed, and though she was taken to the General Hospital and is still alive, it will be almost a miracle if she recovers. A negro, name unknown, is suspected of the terrible crime. The killing followed a row in which liquor played a prominent part. The police to-night arrested a negro named James Moor, who has been identified as the man seen hanging around the scene of the murder.

CLERICAL TAILORS BUSY. Curious Result of Gathering for Pan-Anglican Congress. London, June 14.—One of the curious results of the great gathering of delegates to the Pan-Anglican Congress is the tremendous rush on London clerical tailors. Hundreds of delegates, especially anxious for the correct ecclesiastical cut of garments, particularly bishops, have overwhelmed clerical tailors with orders. Tailors who are familiar with all the details of clerical garb are rare. Even in London they may be counted on one's fingers, while men who know how to turn out a bishop faultlessly clad are veritable black swans.

Princely Contribution to Fund by Bank of Montreal. Montreal, June 14.—Mrs. R. REJECTED JUDGE'S ADVICE. Jurors Disagree in Prince Edward Island Murder Case. Summerside, P. E. I., June 12.—The trial of Alonzo Doherty for the murder of Joseph D. McMillan, whom he admits he shot as he was walking along the road with a young woman, ended on Saturday afternoon in a disagreement. The jury were out all night Friday and till 10:30 Saturday morning, when they came in and reported a disagreement. The judge sent them back, telling them that the evidence showed the prisoner was not insane when he killed the man, and appealing to them to agree on a verdict in accordance with the evidence. The jury retired a second time, but at 3 o'clock in the afternoon again returned in disagreement, when they were discharged. The jury stood 7 to 5 for acquittal. The new trial will begin to-morrow.

French Scientist Claims to Have Solved Problem of Flight. Paris, June 14.—Prof. Marie Depresse, in a paper which he read before the Academy of Sciences, announced that he had solved the problem of the stationary hovering in the air of a body perfectly free and heavier than air, thus imitating the power of eagles, vultures and other birds, which are able to remain in the air and ascend and descend without beating their wings. Depresse offered to repeat the experiment whenever anyone wanted to see it. The discovery, if confirmed, means that M. Quinton's prize will soon be won.

FINE PARADE FOR SERVICE.

Thirteenth at St. John Presbyterian Church. Veterans of '66, Service Corps and Cadets Also Attend.

Excellent Sermon Preached by Rev. John Young.

Hot weather does not affect the turnout of the 13th Regiment to such an extent as to be noticeable, as was evidenced yesterday in the Sunday parade of that regiment to St. John Presbyterian Church...

Accompanying the regiment were the Veterans of '66, the Army Medical Corps and the Hamilton Collegiate Cadets, who are affiliated with the 13th.

Rev. John Young, the pastor of the church, took pity on the boys in the red coats, and gave a very short sermon, which was fully appreciated by the officers and men.

The minister welcomed the different corps assembled to St. John, and hoped that the service would prove profitable to one and all.

The parade state was as follows: Col. Moore, Major Ross, Capt. Denville, adjutant; Major Herrington, paymaster; Capt. Carter, surgeon; Major Lester, quartermaster; staff sergeants 40, buglers 45, band 58, bearers 8, Colliate Cadets 27, signaller 2, A. S. B. 47, C. 39, D. 38, E. 42, F. 30, G. 36, H. 41, total 473; Veterans 14; A.M.C. 60, total 547.

JOHN TCHERNIAC FOUND DEAD IN GUELPH HOTEL.

Swallowed Repeated Doses of Morphine and Left a Record of His Act and Sensations While Poison Was Working. Guelph, June 14.—Lying dead in bed with his clothes on, John Tcherniac was found in one of the rooms at the Royal Hotel this afternoon.

Another place he states that his only friends are Mr. Black, of Acton, with whom he worked; President Creelman, of the Ontario Agricultural College, and Dr. Cox, of Acton, to whom his watch and clothes were bequeathed.

At 11.19 five more tablets were taken, and the notes state that the difficulty was beginning to have a painful character. One minute, later another note was made, but it was unintelligible, except that five more tablets were taken.

ARE BADLY IN NEED OF RAIN. GRAIN CROPS IN NIAGARA DISTRICT NOT DOING WELL.

Hay Cutting Already Begun—Cut Worm Doing Mischief Among the Tomato Plants.

(Special Despatch to the Times.) Beamsville, June 15.—Farmers in the southern portion of the peninsula are busy cutting and hauling in their hay.

The outlook for the crop is not good, but the growth is very sparse. Whatever may be stated to the contrary, and after a long and arduous outlook for wheat in these same localities for several years, the present one seems a poor excuse for a wheat crop, and this speaks for it in general all the way from the mountain brow, and over an era of twenty-five miles in the vicinity of Wellandport and Fenwick, and over the whole of the best of the growing field crops.

ITALIANS TO DROP KNIFE.

Sir William Mulock's Advice is Being Acted Upon.

Interpreter Scarrone Addressed Meeting in This City.

And Another Will be Held Next Saturday Night.

A movement among Italians, which it is hoped will spread throughout Canada and the United States, was launched here on Saturday night, when sixty of the best people among the foreign colony in Hamilton gathered in St. Mary's hall and pledged themselves to do all they could to discourage the carrying of the stiletto or other weapons by their countrymen.

Mr. Scarrone, in addressing his countrymen in their native tongue on Saturday night, said in part: Friends and Compatriots: In calling this meeting I did not intend to satisfy a personal desire of ambition, but I want to execute an order of which I feel highly honored; an order received from the Hon. Sir William Mulock, the Chief Justice, who presided at the trial of Giuseppe Greco, closed recently with his sentence of death as guilty of murder.

OPENING OF NEW RAILWAY.

C. P. R. Road From Toronto to Sudbury Now Running.

Special Train Took Agents to the New Stations.

Road Begun Three Years Ago and Cost \$11,000,000.

Toronto, June 15.—At 1 o'clock in the dark morning hours of Friday last there crawled out from the Union Station...

That was the return of the first Canadian Pacific train to travel through on the new Toronto to Sudbury line and back again. It signified the completion of the last 136 1/2 miles of the most difficult kind of railroad engineering work...

Opening a New Road. When the special pulled out of the Union Station she carried besides the company's officials and the newspapermen, twelve men going up as station agents into the new country.

North of Bala the work of opening and equipping the stations began. There were twelve of them, and twelve agents were dressed, and at a time at Muskoka, Barmesdale, Parry Sound, Peart, Shawanaga, Point au Baril, Naiscontyong, Byng Inlet, Still, Pickett, Rutter and Burwash.

In one case the station and the section man's house were the only buildings in the community, and the woods, dark, untracked, unknown, brushed the sils of the new building, and the train moves out again.

Millions of Pounds Dynamite. There were from four million to five million pounds of dynamite used in blasting for this section of the C. P. R.

There were from four million to five million pounds of dynamite used in blasting for this section of the C. P. R. That means over 2,000 tons, and it is not unnatural to expect interesting features along such a road.

crossing the track gave vistas of the inner woods. Friday evening the train stood for some time on the huge trestle over the Magnetawan River. The sun was sliding behind a sunset cloud, and the disk was creeping over the black water.

End of a Long Work. All the construction men saw in the coming of the "special" was the end of a long work. From the "dagoes" to the tanned boss, from the boss to the poundage engineer, and from the chief himself, they all looked at the passenger coaches as though they were an intrusion.

First of Its Kind in World. This is the first piece of road 226 miles long in all the world, that is, built to so high a standard, that is, 40 curves and 3-10 per cent grades. At the time we were grading we had 5,000 men working on the line with between 500 and 600 teams. We have 1,000 men working now. Our bridges and rails are all from Canadian works.

At several places along the way deer tracks lay in the sand at the side of the road, and when a few miles out from Sudbury a herd of fifteen suddenly crossed the rails and disappeared into the woods farther down. The north trip occupied from 1 a. m. to 12 p. m. Friday. On the return the train left Sudbury at 9 o'clock Saturday morning and arrived in Toronto at 3 a. m. Sunday.

GERMANY ALARMED. FATHERLAND FEARS IT IS BEING ISOLATED. Remarkable Outburst by a Berlin News Agency—Britain Warned to Check Her Sovereign's Ambitions—Visit to the Czar of Threefold Importance.

Berlin, June 14.—Although in response to august inspiration the more important sections of the German press have refrained from a violent expression of opinion in regard to King Edward's meeting with the Czar, it is an open secret that the Reval "entrevue" is viewed with the utmost displeasure, not far remote from concern, in responsible quarters in the fatherland.

A news agency, known to enjoy highly confidential relations with the Chancellor, this week issued an irritatingly violent and personal attack on King Edward. The outburst was so remarkable that the editors of the leading Berlin papers hurriedly got together and decided that it must be suppressed at all costs.

The German military-naval party, which includes practically every commissioned officer in the two services, heartily supports the idea of breaking the artificial bonds which British diplomacy is accused of so sedulously weaving around the despised fatherland.

Some little irritation is manifest over the suspicion with which a section of the German press regarded the meeting, but the acknowledgment by the Berliner Tageblatt that there could be no doubt that King Edward was sincerely striving for the maintenance of the world's peace tended to allay this.

Fun for Times Readers

Heard in Court. Magistrate—You are accused of keeping a vicious dog. Are you guilty or not guilty? The Accused—Y'er honor can take him out for a walk, and if he bites you, you can keep him. I can't say any fairer.

No Excuse. A Johnny-on-the-spot high school boy rushed into the market, and, thrusting \$1 on the counter, said to the man behind the block: "Give me a yard of pork and keep the change." The butcher walked over to the refrigerator, took out three pig's feet and handed them to the boy with the remark that three feet make a yard the world over, and he was much obliged.—Palestine (Texas) Herald.

The Thoughtless Woman. "My wife," growled Kadeley, "is the most forgetful woman." "Indeed?" queried his friend, politely. "Yes; she can never remember in the morning where I left my pipe the night before."—Philadelphia Press.

Experienced. "Never mind, dear," he said, reassuringly, as she raised her sweet face from his shoulder, and they both saw the white blur on his coat; "it will all brush off."

True. Many a man who claims to be self-made was made what he is by his wife. —Johnson City (Texas) Enterprise.

He Was Prepared. The lawyer was doing a cross-examining thing. "Now, sir," he said to the witness, "tell the court how far you were from the accused when he fired the shot."

A Drawing Card. "I wish I knew when the first sheath skirt would be worn in Houston," said a railway man yesterday. "Why?" asked his friend. "So we could arrange excursions."—Houston Post.

A Weather Philosopher. According to the prophets that are runnin' of the sky, we'll likely have some weather in the middle of July.

Reaction. Salesman—Hut, sir? Yes; what kind do you wish to look at? Customer—Well, my wife wears a Merry Widow affair. If you have something that is the exact opposite of it, young man, that's what I want.

Nuncky. But if you question Uncle Joe, His grizzled beard he strokes, Bliss out, "It isn't over yet!" And smokes, and smokes, and smokes.

GERMANY ALARMED. FATHERLAND FEARS IT IS BEING ISOLATED. Remarkable Outburst by a Berlin News Agency—Britain Warned to Check Her Sovereign's Ambitions—Visit to the Czar of Threefold Importance.

Berlin, June 14.—Although in response to august inspiration the more important sections of the German press have refrained from a violent expression of opinion in regard to King Edward's meeting with the Czar, it is an open secret that the Reval "entrevue" is viewed with the utmost displeasure, not far remote from concern, in responsible quarters in the fatherland.

A news agency, known to enjoy highly confidential relations with the Chancellor, this week issued an irritatingly violent and personal attack on King Edward. The outburst was so remarkable that the editors of the leading Berlin papers hurriedly got together and decided that it must be suppressed at all costs.

The German military-naval party, which includes practically every commissioned officer in the two services, heartily supports the idea of breaking the artificial bonds which British diplomacy is accused of so sedulously weaving around the despised fatherland.

Some little irritation is manifest over the suspicion with which a section of the German press regarded the meeting, but the acknowledgment by the Berliner Tageblatt that there could be no doubt that King Edward was sincerely striving for the maintenance of the world's peace tended to allay this.

Beware of Any Physic That Brings Pain

Gripping and pain will never occur unless there is irritation. Salts and harsh pills bring their results by irritating—by causing the bowel fluids to flow.

So pepper in the eyes or nostrils will cause fluids to flow. But it is wise to treat a delicate membrane thus? Do so for a time and the membrane will harden. That is how Nature wards off such attacks. The you need larger doses.

Eventually the calloused bowels fall in their functions entirely. Then you have chronic constipation.

No wise person will ever abuse the bowels in that way. They will use Cascarets. Cascarets never cause pain. That proves that their action is natural. Yet they are just as effective as harsh physic.

If the bowels are calloused, you may need a Cascarets twice a day at the start. But you soon cease to need them at all.

Those who know the injury done by harsh physics never use anything but Cascarets. Cascarets cure the trouble. Cathartics only make it worse.

Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure to get the genuine, with C.C.C. on every tablet. The box is marked like this:

The west-pocket box is 10 cents. The month-treatment box 50 cents. 12,000,000 boxes sold annually.

SEVENTEEN INNINGS AT THE FALLS ON SUNDAY.

The Yankees Won the Game by a Score of 1 to 0.

(Special Despatch to the Times.) Niagara Falls, June 15.—The Hamilton Tigers were defeated in a 17 inning game here yesterday afternoon. The game was the longest on record here. Gianelli and Long were the opposing slabbies, the Yanks' twirler having the better of the battle. Gianelli, who was let out by the London Club two weeks ago, allowed but six hits, and fanned 14. Long was touched up for seven hits and whiffed 11.

The Students could get no farther than third after the second inning, but that inning was a grand success, and on Dossinger's double of scoring a run to the tag. The ball bounced to right field, where Doremus scooped it up, throwing out Bradford from the base.

Two men had been retired in the 17th when the Yankees scored their only run. They got a hit on Brennan's error, second base, and scored on Forensch's drive over second. Sterling, a local boy, backstopped for the Yanks in a clever manner. McCabe was injured in Friday's game at St. Thomas. The score:

FOUL TIPS. On Saturday afternoon the East End Y. M. C. A.'s second baseball nine defeated the St. Phillip's Church team by a score of 11 to 2.

HOW NATIONALISTS LOST. In the Junior Park League at Dundurn Park on Saturday afternoon, the Nationals lost to the Northern Stars.

The public made a record at the H. J. C. track on Saturday—over 6,000 paid admissions.

I expect to see one of the local papers state to-night that Saturday's racing wasn't up to the mark.

The president of the International Baseball League should get into the game. The standing of the teams he has published in his paper for the past ten days has been incorrect.

Many times has this Olympic committee dine that tends to make us smile, but this last action can only be done justice to by loud bursts of laughter.

London Advertiser: Yes, there were a few trains going in out of St. Thomas yesterday, but nearly all of them were minus a "brakie" or a "con." Baseball, by Heck!

Turf men have settled down since the passage of the Hughes law in New York State, and the belief that racing will be carried on with difficulty.

With the echoes of the Ketchel-Papke bout still ringing around fistic circles, interest now turns to the light-weight bouts, of which we will have several of interest in the near future.

Several of these are the Joe Gans-Battling Nelson return match at San Francisco, July 4th. The other is the McFarland-Welsh pug at Los Angeles, the afternoon of the same day.

Nelson is counting greatly on the

length of the go against Gans. He figures that because Gans did not actually put him out in their prolonged contest at Goldfield that Joe has only a similar chance now. It must be remembered, however, that Gans was extremely weak, according to his own accounts, just before the battle in the Nevada mining camp.

Gans was obliged to make his weight three times that day and was unable to take much nourishment. This fact hurt him greatly. Few realize how rapidly a boxer, who has had to reduce to a certain weight will absorb nourishment and take on avoirdupois from a comparatively small amount of nourishment.

For instance, Ketchel is said to have taken on more than six pounds by lying down all afternoon before his bout with Papke, after eating a satisfying meal. He also took on strength, which counted heavily in his favor in the course of the bout.

Gans was said to actually weaken through inability to eat a full meal before his long go with Nelson. The latter, on the contrary, was in the best of fettle.

This bout looks as if Gans should be a strong favorite. He seems to have his man out classed, and unless Nelson can get in a wild swing he has small chance to trouble the veteran.

Jockey Nicol had a great day in Hamilton on Saturday in riding well-backed favorites and where the count- ed most for the books except in the last race, which he won on James Crawford.

WILL PUT UP A FIGHT. New York, June 13.—In the early days of this week added interest probably will be lent to the horse racing situation here if the statement is true that legal proceedings will be begun immediately to bring the constitutionality of the new anti-race track betting law to a test.

The present plan is said to be to have three well-known layers of odds arrested so that a general construction of the law may be had. There is no doubt that the present chaotic condition of affairs is injuring attendance at the Grandstand.

Paris, June 14.—Tommy Burns, the Canadian boxing champion of the world, had a tough fight last night with Bozter B. O. Squires. They met at the bowling palace in Neuilly and being the night before the Grand Prix (Sunday), there was an enormous crowd in attendance.

It was their second meeting, Burns having put Squires away before in the first round. Last night Burns sent Squires down for the count in the third, but after that the Australian recovered, and forced the battle somewhat, giving the champion the worst of the exchanges.

By the eighth, but came back fiercely and by a series of body punches scored a knock-out. The winner was enthusiastically cheered.

[Note.—The cable despatch does not state in what round the knock-out occurred.]

BURNS AND SQUIRES AGAIN. Sydney, N. Z., June 13.—A sporting syndicate here has arranged for a fight between "Tommy" Burns, the heavy-weight pugilist, and "Bill" Squires, the Australian fighter. The contest will be for a purse of \$14,000, and is to take place in this city during the visit of

CONTRACT OF THE CATARACT.

Company Submits a Draft to City Council. Adopts Monthly Peak Load as Its Basis.

Gives City Option of \$16 or 10 per cent Under Hydro.

There is little prospect of the power question being settled by the council for another week. The city has received from the Cataract Power Company a contract, embodying its offer to supply power at ten per cent. less than the Hydro Commission, but the aldermen have had so little time to go into the matter that Mayor Stewart does not think they are sufficiently familiar with it to deal with the matter at the special council meeting which he was instructed to call for to-night.

The Cataract's contract is worded very similar to the one which the Government is asking the municipalities to sign. One new concession, and a very important one, which should remove a lot of objection, has been made by the company. It agrees to supply the city on the twenty-minute maximum amount of the peak load for the month instead of by the year.

Under the agreement the company undertakes to at any time after the date of this contract supply fifteen hundred (1,500) horse power, or, as a minimum, 40 per cent. less, ready for distribution at approximately 2,200 volts either two or three phase, and at approximately sixty-six and two-thirds cycles per second frequency.

At the expiration of a three months' written notice, which may be given by the city from time to time during the currency of the agreement, the company agrees to supply from time to time to the city in addition to the said 1,500 horse power, such amounts as may be required up to a further 1,500 horse power, making a total amount of three thousand horse power.

So long as the city faithfully observes the provisions of the agreement, the company will, upon the conditions, for the purposes and within the limits hereinafter stated, supply to and for the use of the city for a term of five years, beginning on the date of the first use of power, hereunder, electric current to the amount of 1,500 horse power, such current to be available for use at all hours every day of the year; and the city agrees to use and pay for the said current the fixed sum of sixteen dollars per horse power per annum, as required at the greatest twenty minute maximum demand for said current, in accordance with and subject to the terms set forth in clause 14. Provided, however, that such twenty minute maximum demand for said current shall not include or be based upon any emergent or abnormal demand caused by purely exceptional circumstances or conditions not arising from the ordinary use of power hereunder mentioned, which abnormal increase shall be specially dealt with from time to time as the occasion may arise.

Provided, however, and it is hereby agreed, that instead of the said \$16 per horse power as aforesaid, the city shall at any time have the right or option to readjust the amount to be paid by the city for power set forth in this paragraph, on the basis of ten per cent. less than the amount that will be charged by the Hydro-electric Commission of the Province of Ontario to any city, town or municipal corporation west of Hamilton or to the terms set forth in clause 14. Provided, however, that any difference in the cost of transmission; provided, however, that the said cost to such other city or town shall include all items of cost, but shall not include payments to sinking fund for repayment of original cost of transmission plant, and the amount of any difference between the city and company as to the price per horse-power, to be arrived at on the said basis, it is agreed that the same shall be calculated and settled on the said basis by the said Hydro-Electric Commission or the Ontario Railway and Municipal Board.

Provided further that in the event of the price for power under this agreement being fixed as aforesaid on the basis of ten per cent. less than the said rates of the Hydro-Electric Commission, the city agrees to pay for three-fourths of the power supplied and held on reserve from the date this contract takes effect and upon notice or notices for further supply of power from time to time whether the said power is taken or not, and when the greatest amount of power taken for twenty consecutive minutes so supplied and held in reserve to pay for this greater amount during that entire month, and when the power factor of the greatest amount of power taken for said twenty minutes falls below ninety per cent. the city shall pay for ninety per cent. of said power, divided by the power factor.

All payments for current to be made on or before the fourteenth day of each month at the company's office for the calendar month immediately preceding such charge for power to commence from the time the same is required and used. The city agrees to begin its use of power within twelve months from the date of this agreement.

The current is to be measured on the main supply circuit at a point near the entrance to the building to be used as the city's distributing station, in volt amperes, 746 volt amperes constituting a horse power.

The current is to be supplied at the exterior of the city's distributing station, and the city agrees to begin its use and pay for the power within ninety days after the company has its plant complete for the supply of power at such distributing station.

The motors and all wiring and appliances within the distributing station, except as otherwise specified, shall be provided by the city, and shall be installed in a manner satisfactory to the Canadian Board of Fire Underwriters.

BALL TEAM IN NEW HANDS

Limited Company Took Possession This Morning. Mr. Addie Richardson is the New Manager.

Entries For To-Morrow's Races at H. J. C. Track.

The Hamilton Baseball Company, promoted by Billy Austin, the mining stock broker, took over the Hamilton team in the International League to-day, from Mr. Fred Paige. The officers of the new company are: George P. Mullens, President, and Henry Russell, Secretary-Treasurer. Addie L. Richardson, who has been road manager of the team for Mr. Paige, has been appointed business manager and Billy Curtis, the third baseman, has been made captain, in place of De Rohm, who will likely be released along with two others. Knotty Lee, of Toronto, will be signed as pitcher and outfielder and two more new faces will be seen on the team when it returns from Niagara Falls.

The new directors have decided to make Friday ladies' day, and hereafter ladies will be admitted to the grounds and grand stand without charge on that day. Boys will be charged ten cents in future, instead of 15 cents.

Manager Fred Paige will take over the Niagara Falls team, as Bill Murphy has become tired of his job of paying salaries out of capital account.

That the Hamilton lacrosse team will have its troubles in trying to defeat St. Catharines on Saturday of next week is shown on Saturday when Joe Timmons' bunch defeated the Tecumsehs, of Toronto, by a score of 3 to 1. Of course, the game was played at St. Catharines, which means a great deal to the C. L. A. champs, who have a reputation of being a tough proposition to handle on their home grounds.

The R. H. Y. C. held a seamanship race for 16 foot dingies on Saturday, the result being as follows: Matheson, McLeod, 1; Judd-Toppe, 2; Pain-Anderson, 3; Shambrook-Jarvis, 4; Kelley-Robertson, 5; Grace-Hunter, 6.

Entries for the handicap singles in the Royal Hamilton Yacht Club bowling section this evening will close promptly at 7:45 and play will commence at 8 o'clock.

Following are the entries for the races at the H. J. C. track to-morrow:

Table with columns for race name, horse names, and odds. Includes sections for 6 furlongs, 3-year-olds and 4 furlongs, 2-year-old maidens.

Mr. Daniel McIntosh died suddenly in his bed in Chalmers Church, Toronto, yesterday morning. He was 77 years of age and resided in Hamilton many years ago.

Miss Evelyn Whyte, New York city, is home on a brief visit to her parents, Mr. and Mrs. A. R. Whyte, 32 West Avenue south.

TEA TABLE GOSSIP.

Queen Street Methodist Church people, Toronto, presented Rev. C.O. Johnson with a purse of \$110 on Friday evening. He leaves for the continent this week.

Rev. R. J. Treleaven was in London yesterday, preaching anniversary sermons in Rev. W. L. Rutledge's church. Rev. R. B. Rowe preached in First Methodist.

A meeting of the committee of the Hamilton Branch of the Quebec Battlefields Association will be held in the Board of Trade rooms to-morrow evening.

Mr. Daniel McIntosh died suddenly in his bed in Chalmers Church, Toronto, yesterday morning. He was 77 years of age and resided in Hamilton many years ago.
