**REGULAR MEETING
 TOWN COUNCIL**

The regular monthly meeting of the Town Council was held in the Town Office on Thursday, June 18th, 1925 at 8 o'clock p. m. Present:—Mayor: John Russell, Ald. Atkinson, Creaghan, Mackay, Ritchie and Sergeant.

A communication from "Municipal Canada" acknowledging receipt of the Town's contract for advertising was read and ordered filed.

A letter from the Town Clerk, St. Stephen, enclosing bill for \$78.60 for relief and transportation furnished Minor Coakley and family, was read and on motion of Ald. Creaghan seconded by Ald. Sargeant, was referred to the Finance Committee.

The following bills were passed and ordered paid.

PUBLIC WORKS COM.

POLICE COM.

Stothart Mercantile Co. Ltd. 56cts.
 The Chairman of the Public Works Com. read a letter he had received from Mr. W. U. Appleton, Manager C. N. R. stating that the C. N. R. could not accept responsibility for the disposal of water now being discharged on Highway from Railway property and the matter was referred back to the Committee to further press the Town's claim in the matter. The Chairman also reported that the Public Works Com. had done practically all the new work possible with the funds at their disposal and that after purchasing a carload of Calcium Chloride they would have to confine their activities to usual repair work. On motion the Council adjourned.

ALMOST INTO THE RIVER

A Flat car, became loosened last Saturday morning on the railway siding and almost went over the end of the wharf into the river. The wharf at this point is in a disgraceful condition, never having been repaired since the fire which destroyed the old Hickson mill property. A crew of men with a crane were put to work to place the car back on the rails. Perhaps the C. N. R. will now take steps to have this wharf repaired before more serious damage results and the country put to more expense.

**RAIN INTERFERES
 WITH BASEBALL**

Owing to the heavy rain, which fell last Friday afternoon, the scheduled game of baseball between Newcastle and Nelson, which was to have been played here was postponed. Weather permitting, this game will be played in Newcastle to-morrow evening, Wednesday, June 24th.

Baseball fans were disappointed again last night, when the scheduled game between the locals and Chatham on the Soldiers Memorial Field diamond had to be called off on account of a heavy shower of rain, which began falling shortly after play had started.

McKenzie and Chester Murray were the battery for Newcastle and Jenkins and Keoughan for the visitors. Green was umpire-in-chief and Mayes looked after the bases.

Considering that the weather looked threatening a large number of fans were in attendance and they were a disappointed looking crowd when after each team had one inning, umpire Green called the game off.

Chatham was first at bat and secured three runs, none of them scored but scored on errors on the part of the locals. When Newcastle came to bat, each man up went determined to use the stick and this they did strenuously, scoring three runs, giving each team three scores, when the game was called on account of rain.

**PROHIBITION
 INSPECTORS GET
 THEIR QUARRY**

Prohibition Inspectors Quartermain, Walsby and Sutherland motored to Quarryville early Monday morning and succeeded in arresting Frank Duffy of White Rapids, a man whom it is said has been terrorizing that section for the past year and a half. On the arrival at the house in which Duffy was staying an inspector was placed on guard at each window, while Inspector Quartermain went into the house. As soon as Duffy saw the officer he jumped clear through the window and landed in the arms of one of the inspectors, with Inspector Quartermain following him through the window. The three officers had very little difficulty in subduing their prisoner and brought him to Newcastle and lodged him in jail. It is said five charges are preferred against the prisoner and the residents of the locality in which he lived and carried on his doings are well pleased that he has been apprehended.

**HIGH SCHOOL EXAMS
 ALL THIS WEEK**

The High School Entrance Examinations conducted by the New Brunswick Department of Education began yesterday and will continue all this week, closing on Friday afternoon. The examination here will be under the direction of Mr. J. H. Barnett, Principal of Harkins Academy and Mr. D. J. Gulliver, the order of examination will be as follows:

- Monday, A. M. Geography; P. M. Composition.
 - Tuesday, A. M. Arithmetic, P. M. Drawing.
 - Wednesday, A. M. Algebra, P. M. Nature and Health Lessons.
 - Thursday, A. M. English Grammar, P. M. History.
 - Friday, A. M. Latin, P. M. Reading Division 1 on the examinations will be classified on a minimum of 655 marks, Division 11 on a minimum of 500 marks, Division 111 on a minimum of 333.
- Examiners are to report to the School Board and to the Chief Supt. of Education not later than July 15th.

**JACK DUTCHER WINS
 BOX OF CIGARS**

Mr. Reid of Moncton, superintendent in charge of the building of the new High School here has very kindly donated a box of choice cigars to the player on the Newcastle team who struck the first home-run. Jack Dutcher, the snappy centre field player for Newcastle won this distinction in the first inning in the game between the locals and Loggieville at Newcastle on Monday, June 22nd and the manager of the local team has handed the prize over to the winner of it. Needless to say, both the management and the players appreciate this kind of encouragement and extend to Mr. Reid their sincere thanks for his kindness and interest in the local ball club.

**ANOTHER PULP MILL
 IS MENTIONED FOR
 THE NORTH SHORE**

A paper mill on the St. John river and a pulp mill on the North Shore are believed to be included in the International Paper Company's plans for developing in New Brunswick. A. R. Graustein, of Boston, on his first visit to Fredericton as President of the International Paper Company, says the Fredericton Gleason, revealed the company's intention to establish a paper mill in New Brunswick when the Grand Falls on the St. John river are developed. This is regarded as meaning that the International Paper Company will establish a mill on the North Shore, where some use of the limits of the Miramichi Lumber Company and the Dalhousie Company will be shipped to the mill to be established on the St. John river.

**SAYS BIG GAME
 PLENTIFUL, LOTS
 OF PARTRIDGES**

Big game are plentiful and partridge are unusually thick this year, according to William P. Buckley, a well-known guide, who was in Fredericton last week on his return from an extended trip on the Spednic waters. He stated that he experienced the best fly fishing on these waters during his trip that he had ever found in New Brunswick.

Mr. Buckley was accompanied by the fifteen-years-old son of Thomas Hurney, of New York, and the two spent a great deal of their time in the woods securing photographs of big game life. Mr. Buckley predicts that from present indications there will be lots of big game for the fall season while the partridges in the district, he said are very thick. The flocks of young partridge which were seen quite frequently were especially large.

On one occasion the two negroes had the unusual experience of being violently attacked by a partridge hen which endeavored to attract their attention from a flock of young ones. Naughtily a partridge hen will do everything possible to attract the attention of the hunter.

**LET'S LOGS STICK
 RATHER THAN MEN
 WORK ON SUNDAY**

Wallace Johnston, of the Little South Esk Miramichi, one of the largest lumber contractors in Northumberland, N. B., although taking some of the biggest contracts for cutting and driving logs, has never yet allowed his men to work on Sunday.

This year he cut several million feet and driving was hard on account of scarcity of rain. He allowed the drive to stick rather than have the crew work on Sunday.

THE FIRST DAY OF SUMMER

Sunday, June 21, was the first day of summer and the weather man supplied a day very appropriate to the occasion. With the sun smiling most of the day the only effect of the short spell of cloudiness at noon time was to cool the air somewhat. Citizens who were fortunate enough to have the use of automobiles made good use of them and many parties drove to the shore or to other parts of the country.

Fielding Services Given Recognition

A signal recognition of the long and distinguished public service of Right Hon. W. S. Fielding, Minister of Finance, is provided in the supplementary estimates tabled in the House of Commons by Hon. James A. Robb acting Minister of Finance. An annuity at the rate of \$10,000 is asked for, that annuity to commence upon his retirement from public life and to continue thereafter at the above rate during his lifetime.

It is about 18 or 20 months ago that Mr. Fielding, owing to illness, was compelled to relinquish active connection with the administration of which he had been a member since its formation in 1921. Since that time he has been unable to take any part in public affairs while at the same time he has retained his intellectual vigor and continues to manifest a lively interest in the business of Canada's Government.

As his health will not permit him to take any part in the forthcoming election it is evident that his tenure of the Nova Scotia seat—Queens—will terminate with the dissolution of this fourteenth parliament, and when that time comes he will, it is understood, tender his resignation both as member and as Minister of Finance. Until that time he will have continued to draw his salary, as minister and his indemnity as a member, and the sum asked for in the estimates is to provide for his needs after the dissolution of Parliament.

Finding Of Court On Eight Hour Day

The enactment of an eight hour day law lies generally within the competence of the provincial legislatures, but the authority vested in the legislatures does not enable them to enact an eight hour day law in relation to servants of the Dominion government, or for parts of Canada not within the boundaries of the provinces. This, in substance, is the finding of the Supreme Court of Canada on whether the Dominion parliament has jurisdiction to pass an eight hour day law.

CANADA TO HAVE NATIONAL FLAG IN NEAR FUTURE

Canada is to have a new flag which will be recognized as the flag of the Dominion, the Government has passed an Order-in-Council appointing a committee to consider and report on the most suitable design for a Canadian national flag for use ashore.

A distinctive Canadian flag has so far authorized for use only by Canadian government owned vessels and by other vessels of Canadian registry. In the former case the flag is the Blue Ensign with the Canadian arms in the fly, while merchant vessels of Canadian registry use the Red Ensign with the Canadian arms in the fly.

New Zealand has had a flag of her own since 1901, while the Australian flag was approved by His Majesty in 1903. At present under an Order-in-Council passed some years ago, the Red Ensign with the Canadian arms in the fly is flown over the office of the Canadian High Commissioner in London as well as other Canadian offices abroad, but the flag has never been authorized.

The committee has three suggestions before it at present. The first is to continue the use of the Red Ensign with the Canadian arms as Canada's national flag. The second is to use the Union Jack with the Canadian Arms in the centre. The third is to adopt an entirely new design.

"Deadline" Is Newspaper Slang For Closing Time

A newspaper must be printed on schedule time so that the circulation department may properly distribute the edition.

Subscribers expect their paper at a specified time. Mail trains must be caught with mail editions.

Therefore there must be a hard and fast "deadline" for advertisers beyond which no advertising copy can be handled for the forthcoming issue.

The following tabulation shows the closing date—the "deadline" for advertisers using space in well-known magazines.

Saturday Evening 5 weeks before publication.

Life 3 weeks before publication.

Colliers 4 weeks before publication.

Literary Digest 2 weeks before publication.

Liberty 5 weeks before publication.

In newspaper offices, early copy is requested of advertisers—1 day before publication. Think of it! Only one day rather than a month or five weeks! Is it unreasonable?

Advertisers who offer advertising copy five minutes before the "deadline" on the day of publication are unmindful of the printing miracle which is accomplished if and when their copy can be accepted. Space in the newspapers of Great Britain must be ordered a year in advance and copy submitted weeks in advance.

What American newspapers call "early copy" could not be handled at all by English newspapers nor by the great magazines with magnificent facilities.

Be reasonable therefore, be considerate of newspaper mechanical employees. Do not force printers to superhuman physical labor during the hour or two before the presses start. SEND IN EARLY COPY—PLEASE!—not later than 12 o'clock Noon of day before.

A Cure For Hay Fever Is Announced

London specialists on diseases of the eye, nose and throat were inundated by the inquiries today following the publication of a report that one of their number, whose name was not given, had perfected a cure for hay fever.

According to the report, a certain specialist has discovered a method of putting pollen into a solution and spraying the inflamed membranes, using a motor driven pump. The treatment is said to bring instant relief and in the majority of the cases a permanent cure.

Patients who have suffered annual attacks of hay fever have tested the treatment by working in hay fields after using the solution and even sleeping in tents pitched in fields where the air was laden with pollen, and have suffered no relapse.

England's hay fever season began this week, forcing many people to seek relief by leaving the country but for those who are unable to run away there may be relief from the disease in the new treatment.

The specialist refuses to allow the newspapers to publish his name until the end of the season. Then, he believes, he will have improved the method of treatment and will have subjected the solution to the most rigid tests. If it is entirely successful he will give the world the benefit of his discovery.

UNDERGROUND SALT CITY

One of the strangest and most interesting places in the world to visit is the wonderful mines of Wieliczka in Poland. The bed of salt stretches for many hundreds of miles below the surface of the earth, and is about twenty miles broad and 1,200 feet deep. This wonderful mine houses an underground city which, in course of time, has been hewn from the rock-salt. There are winding streets, a cathedral, pillared churches, restaurants, monuments, and even a railway station. Most of the streets converge towards this point. Thousands of people live in this underground town, and there are lakes ranging from twenty to thirty feet deep. These are decidedly dangerous to the miners, for sometimes they rise suddenly and cut off the workers. The existence of the workers and their families in this town is not very secure, and there have been many disasters. Masses of salt are liable to fall in avalanches, and there is also danger from explosions which occur in newly-opened parts of the mine. Visitors to the city may descend by a winding stairway cut in the solid rock, or by lift, and there are many cafes where one can eat, drink and dance to the strains of tuneful orchestras.

REAFFIRMED ITS FAITH

The Presbyterian Assembly has adopted unanimously and with very little discussion a resolution proposed by Rev. Dr. J. G. Inkster, of Toronto, reaffirming its faith in the Westminster Confession of Faith and Longer and Shorter Catechism. The Assembly also decided to support missionaries in foreign lands who had decided to remain Presbyterian at the same salaries as they have hitherto been paid.

Ample Room for Each of the Five Passengers

THERE is generous space in the new Oldsmobile Coach for both front and rear seat passengers. There is a full 18 inches between front and rear seats and the handsome, Fisher-built body is as large and roomy as the average sedan. So unusual is the Oldsmobile Coach in the completeness of appointments that the price must seem ridiculously low. Only the combined resources of Oldsmobile and General Motors could make such amazing value possible. A ride in this new Coach will prove a revelation to you. Come in and try it for yourself.

ELECTION RUMORS
There are rumors to the effect that steps are being taken to place a fusion ticket, composed of two Liberals and two Conservatives, in the field at the coming provincial election, in opposition to the Liberal ticket supporting Hon. P. J. Veniot which was nominated at the Liberal Convention here last Thursday.

Rumor has it that four of the following gentlemen will be chosen for the ticket: Mayor J. K. Loggie, S. D. Heckbert of Chatham; Mayor John Russell, D. S. Creaghan, D. P. Doyle, Dr. F. C. McGrath, C. M. Dickson and Wm. J. Maloney of Newcastle; Frank Lavoie of Rogersville and Mr. Stafford Anderson of Ludlow.

It is claimed that the temperance people intend to be very careful to whom they will give their support and the outlook appears that many voters will vote on the personal of the candidates rather than on the political party issues. The result in Northumberland will be interesting.

A STRONG COMMISSION
Hon. F. B. McCurdy's acceptance of the chairmanship of the commission appointed by the Nova Scotia government to inquire into the conditions under which the interests of Nova Scotia have been prejudiced by the economic system of Canada is a striking proof of the sincerity of his motives and a guarantee that the commission will do its work thoroughly. His four associates, one of them a former Saint John man, are well qualified for the task they have undertaken. While the commission is to deal directly with Nova Scotia problems so many of those problems are also New Brunswick problems, that there must be in this province very keen interest in their investigations and a very general hope that the conclusions may point to a practical way of Maritime development within the Canadian confederacy. The commission is the Nova Scotia government's answer to a general feeling, finding voice in many ways, that the province had not benefited under confederation in the measure the framers of the act had intended.

WATCH YOUR WEAK SPOTS
The partners in a business firm were discussing the question as to which member of the staff should be promoted to a more important and better paid post.
"Yes," said the senior partner, "X, as you say, would fill the bill all right if—". He broke off and shrugged his shoulders significantly.
The junior partner understood. X had a "little falling" which upset the discipline of the office. So another man was promoted. X was really the better of the two, and had he not had that "little falling", his employers would have pushed him on long before. The falling? Oh, he was a "lady's man," and the staff was a mixture of men and women.
Perhaps it shouldn't be so, but a

Northumberland Liberals
Nominate, Tweedie, Morrissy,
Price and Savoy

Four, straight Liberal candidates were nominated at one of the largest and most successful Liberal conventions held in recent years. The successful candidates were Charles J. Morrissy, M. L. A. of Newcastle, Adolph Savoy, of Rogersville, and Cleveland Price, of Doaktown. Seven names were placed in nomination, those falling of nomination being J. S. Martin, M. L. A., of Chatham, Stafford Anderson, of Newcastle, and Warden R. J. Gill of Barnaby River.

The big convention, which met in the Opera House, was called to order at 2.30 p. m. by R. J. Gill, county president. The hall was well filled, about 400 being present. There were about 190 delegates in attendance representing every parish in the county. President Gill welcomed the delegates to the convention and reviewed the history of the Liberal Party in the county in recent years and stated that the outlook was very promising for the return of a strong Liberal ticket. The coming election campaign would be a vigorous one and he hoped it would be fought cleanly.

The roll-call of delegates followed and the minutes of the meeting of last September were read by T. H. Whalen, county secretary. These were adopted after which the secretary read a telegram from Premier Veniot regretting his inability to be present and wishing success to the convention. A telegram was received from A. Vanderbeck, M. L. A., asking that his name be withheld from the convention.

A resolution relating to the hydro policy of the Government was moved by C. Donald, of Blackville, and seconded by Cleveland Price. The text follows:
"Whereas, this convention of delegates of supporters of the Local Government, convened from the various sections of Northumberland county, recognizing the tremendous advantages that would come to the Miramichi Valley and to the country as a whole in the possibility of increased and new industries, which are so desirable and so urgently needed, not to mention the inestimable convenience and economy to the farmers for the lighting of the farm and for power purposes; therefore,
"Resolved, that this convention record its approval of the proposed development of Grand Falls, and be it further,
"Resolved, that this convention, considering the interests of this county require that hydro be made available to this county simultaneously with the other sections of the province, deems it necessary that the transmission line from Fredericton across to and down the Miramichi Valley should be erected simultaneously with other proposed lines and that, in order to strengthen the hands of the representatives of the county

"falling"—a very little one, possibly will often cancel a whole collection of virtues.
Think of any twelve men you know in most cases it is their fallings that come to your mind first, not their good points.
Entirely disproportionate and unfair. Certainly; but there it is.
Have you a "little falling"? If you have—and, mind, be honest with yourself—then wring its neck. Be sure it is no help to you. Very probably it has been a great hindrance.
Wring its neck!
A quick temper is a little falling. The "slipping" habit is another. The borrowing of a casual quarter is another. The humor which hurts is another. The list could be extended for pages and then might not include your own special little shortcomings.
If you know what it is, wring its neck. If you have an idea that you might have a little falling but you do not honestly name it, ask your best friend to do the naming. Give him or her, licence to be frank.

in the Legislature, this convention require such candidates as may be selected here today to pledge themselves to insist on this being done, even to the extent of withdrawing their support from the Government in the event of their failure to do so."

Resolutions were also passed affirming support of the Liberal Government at Ottawa and Fredericton. These were in part: "We heartily endorse the policy of the Hon. P. J. Veniot, Premier of New Brunswick, and pledge to him and to the candidates here chosen our united support in the coming provincial election."
"Resolved that this convention, representing a full quota of delegates from every parish in the county, express itself, in complete accord with the administration of the Rt. Hon. Mackenzie King, Prime Minister of Canada, under whose able guidance the west and east are united in advancing the interests of Canada as a whole."

Then followed the nomination of Candidates, seven names being offered. The result of the first ballot was as follows: Morrissy, 117; Price, 103; Savoy, 128; Gill, 61; Tweedie 129; Martin, 44; Anderson, 66. The chairman declared Mr. Martin eliminated and before the taking of the second ballot Mr. Anderson arrived in the hall and asked that his name be withdrawn. Mr. Gill then stated that he would also withdraw his name so as to render another ballot unnecessary. This was accepted by the convention and the high scores on the list, Morrissy, Savoy and Price, were declared the choice of the convention.

The successful candidates all spoke briefly. Mr. Tweedie assured the convention that, if successful, he would work in the best interests of the county. He pleaded for a strong organization. Mr. Morrissy, M. L. A., touched briefly on the issues in the coming campaign and lauded the hydro policy of the Veniot Government and referred also to its good roads policy. He decried the extravagance of the Government; not a dollar was squandered, he asserted. He drew a contrast with the expenditure of the Conservatives when in power.
Mr. Savoy promised his best efforts to the interests of the county. He expressed his belief that the Liberal ticket would be returned by a large majority.
Cleveland Price, the fourth candidate on the ticket, stated that he was confident that Premier Veniot would have four representatives from Northumberland in the next Legislature. Before the close of the convention he election of county officers took place with the following result: President, R. J. Gill, Barnaby River; secretary, T. H. Whalen, P. C. L., Newcastle; re-elected; treasurer, Charles Sargeant, Newcastle. The convention then adjourned.

THE TWO CHURCHES
NOT TO CO-OPERATE
Rev. Dr. Scott Declares Confidence of Presbyterians Had Been Shattered
Toronto, June 17—Declaring that the wrongs from which the continuing Presbyterian church is suffering are still in process, with thousands of its members "dispossessed and homeless" in the matter of a place to worship, Rev. Dr. E. Scott, of Montreal, Moderator of the General Assembly of the Continuing Church, stated in an interview with R. E. Knowles, journalist and former Presbyterian minister, that the confidence of the Presbyterians was shattered, and that without such confidence there could be no co-operation with the United Church.
Dr. Scott made these observations in relation to his reluctance as moderator of the assembly yesterday to accept the motion of Rev. Dr. Johnson, of Calgary, for co-operation with other Christian churches, particularly with the United Church. Dr. Scott suggested that the "offending party" must first "turn and repent," and added that "forgiveness is one thing, and "trust and confidence" another.

PAYS FOR THE
BY-ELECTION IN
NORTHUMBERLAND
Expenditure of \$50,000 on harbor improvements at Escuminac, N. B., was voted by the House of Commons on Friday. The item was debated some time ago, and was stood over. Opposition developed from some of the Progressive members and from the leader of the Conservatives, Dr. position. Right Hon. Arthur Meighen said that the expenditure was not justified and that eventually the government would have to spend a very large sum to carry out the implied program at this small harbor.
There was considerable debate before the item came to a vote. W. B. Shawhall, Liberal, Northumberland defended the vote and gave the House a review of the work being done there. The item eventually carried, an amendment by D. F. Killner, Progressive member for Edmonton East that the item be reduced by \$49,000 being defeated, 77 to 32. Robert Forke, Progressive leader, and about 20 other Progressive members voted with the government. All the Conservatives voted against the government. An item of \$25,000 for a wharf at Mills Point, N. B., then carried, "on condition" as division actually taking place. Both these items were stood over when an attack was made in a previous committee of the ground that they were to be spent in fulfillment of election pledges. When both items had been declared carried, Hon. H. Stevens, Conservative Centre and over-remarked that vote for "made by section" referring to the Northumberland by-election of last year.

New Shoes For Graduation
On Commencement Day, every girl likes to be prettily dressed. Shoes are most important.
For the Class of '25 we are showing some wonderful creations youthful in every line, and harmonizing with "That School Girl Complexion"
Many different styles in White Buck, White Canvas, Patent Leather, Suedes and the New Melatone Calf.
For the Graduates of the future, we are showing Patent, Black and Brown Oxfords and Patent Straps—Sizes 8 to 2.

HON. F. B. McCURDY HEADS COMMISSION

Hon. F. B. McCurdy, former minister of public works under the Meighan administration, has been selected by the government of Nova Scotia to head the commission of five which will inquire into the conditions under which the interests of Nova Scotia have been prejudiced, it is alleged, by the economic system of Canada.

This commission is the outcome of resolution of Premier Armstrong adopted by the legislature on April 29.

The resolution expressed the opinion that Nova Scotia had not benefited under the provisions of the British North America Act in the measure the framers of that act had intended, and resolved that steps be taken to obtain such modification of the fiscal policy of Canada as would give the province all the advantages due under the terms of Confederation pact. The appointment of a commission to collect data on the subject was included in the resolution.

In addition to Mr. McCurdy, those appointed are: Albert E. McMahon, Kentville, president of the Maritime Board of Trade, and general manager of the United Fruit Companies of Nova Scotia, Limited; D. H. McDougall, formerly vice-president of the British Empire Steel Corporation in charge of operations in Nova Scotia; A. Hanfield Whitman, Halifax, member of the firm of Robt. Jones and Whitman, Limited, one of the leading fish export houses of Canada; and William K. McKean, Halifax, head of a lumbering and export business.

Mr. McCurdy has given out to the press a copy of a letter he has written to the Toronto "Saturday Night" in which he states reasons for his belief that the resolution and proposal of the Nova Scotia government on the matter of obtaining tariff concessions in the interests of Maritime development are not new developments nor without precedent and that they are possible of fulfillment. He answers an editorial in "Sat-

urday Night" on May 23, entitled, "Nova Scotia's Dream children and bases his arguments on sections 121, 122 and 123 of the British North America Act.

CLEAR AIR IS THE HOPE OF LONDON

County Council Would Dispel Fog and Smoke by Electricity.

Idealists, with electricity at their disposal, propose to rid London of its smoke and fog atmosphere and give it the light of the sun in the blue sky during the large part of the time.

This agitation goes back to a national coal strike of several years ago during which London had to draw most of its fires, both industrial and residential. The inhabitants were astonished at the result during those few coalless days. The atmosphere of the city cleared, and for the first time in the memory of the oldest Londoner the sun shone nearly all day, and the air was remarkably clear and exhilarating.

That set the folks to thinking and to talking. During the discussion it was recalled that when Sir Christopher Wren built St. Paul's Cathedral he dreamed of a London of gleaming white stone. Needless to say modern industry and modern methods did not bring the dream to realization; but now super-modern means may be found to fulfill the dream and to terminate London's famous "smoky age."

The London County Council is definitely committed to the idea of transforming London by electricity. They declare that electricity can consume the vast quantities of smoke that constitute most of London's fog and that necessary to clear the streets as well as a waste by suction pumps that electricity can keep people in good health and cure them when they are in poor health, and that electricity can drive the smoke out of the burdens for the housekeeper and reduce it with increased happiness and conserve vitality.

WEDDINGS

WATERBURY-ODONNELL

The marriage took place Wednesday afternoon at 3 o'clock, at the Baptist Church, Newcastle, the Rev. F. E. Bishop officiating, of Miss Ella O'Donnell, daughter of Mrs. Edward O'Donnell to Mr. John G. Waterbury of Wolfville, N. S. The bride, who entered the church on the arm of her brother, Mr. Albert O'Donnell of Jambellton, to the strains of Lohengrin's wedding march, played by Mrs. Arthur Clark, wore a straight-line gown of ivory crepe satin with silver trimmings, and a rope of pearls, the gift of the groom. Her tulle veil was arranged in cap effect with bandeau of orange blossoms and she carried a shower bouquet of Ophelia roses. During the signing of the register Mrs. John M. Clark of Moncton, sister of the bride, sang very sweetly "O Promise Me."

The church was beautifully decorated with cut flowers, potted plants and ferns; the bridal party standing under an arch of green and white. Immediately after the ceremony a dainty luncheon was served at the home of Mr. and Mrs. A. H. Mackay. Mr. and Mrs. Waterbury left on the Limited to spend their honeymoon in the Matapedia Valley. The bride travelling in a rust colored pocket ensemble suit with hat and shoes to match. On their return they will reside in Wolfville, where the groom is a prominent business man.

CHARGES C. N. R. WITH NEGLECT OF MARITIMES

Hon. J. A. McDonald, Moncton, in the Senate has called the attention of the government to the railway situation throughout Canada at the present time and inquired what action the Government was taking to decrease the cost of administration. He said the three great problems for Canada were the railway situation, taxation and unemployment. He was most alarming that we had had to make an investment of \$600,000,000 in our national railways during the past five years. Over centralization of control in our National Railways was equally as serious as our over-railway development. It was impossible for any one man to operate such enormous system as the National Railways from Montreal. No matter how able the present chairman of the National Railways might be, centralization of control and operation had made it impossible for him to be familiar with local conditions. Centralized authority tended to over-systemize the National Railways.

Senator McDonald said the Maritime Provinces had always been opposed to the inclusion of the Intercolonial in the National system. He believed there should be three distinct sections of the National systems, from Fort William west, from Fort William East to Montreal, and from Montreal to the Atlantic. He would have local control and direction by a chairman in each of these systems, and they would be responsible to the Minister of Railways. They could meet in conference with the Minister of Railways to secure co-operation, but not centralization. His personal experience in the Maritime Provinces had proved to him the failure of the policy of centralization on the National Railways. He had found that business was neglected and there was little appreciation of local conditions. He proposed a guide book for the Grand Trunk Railway, a part of the National Railway system, which described the territories served by that railway in Ontario and Quebec and thence to Portland, but there was not a line about the Maritime Provinces.

Senator McDonald said that he would call the attention of the president of the National Railway to Senator McDonald's remarks.

PERSONALS

ANDREW McCABE

The funeral of Andrew McCabe was held Wednesday morning from his late residence, Newcastle, to St. Mary's church where requiem mass was conducted by Rev. Fr. Dixon and interment took place in St. Mary's cemetery. The funeral was very largely attended. A contingent of Railway men preceded the hearse and walked in a body. Maher Bros. of Chatham were the funeral directors.

The pallbearers were five sons and one nephew—Clair, James, Michael, Roger, John and Edward J. Morris. Floral and spiritual offerings were as follows:

Broken Circle—Mrs. Books, Cleveland, Ohio.

Spring—The Seed Grain Division Dept. of Agriculture.

Basket—Mr. and Mrs. R. Mitchell and Mr. and Mrs. J. L. Kennedy, Moncton.

Spring—Mr. and Mrs. J. E. Campbell and Mr. and Mrs. J. E. Keating, Moncton.

Wreath—Office Staff, Fraser Co. Ltd.

Wreath—Brotherhood of L. E. Division 138.

Wreath—Staff of Audit Disbursement Office, C. N. R. Moncton.

Wreath—Newcastle Baseball Club.

Wreath—Mr. and Mrs. Giberson.

Wreath—Fraser Co. Ltd.

Wreath—Mr. and Mrs. James Bedford and family, Moncton.

Mass Cards—Mrs. James Melanson, Moncton; Mr. and Mrs. W. J. Connors, Chatham; Dr. and Mrs. Dolan, Nelson; Margaret and Stewart Deimers, Clare and Annie Deimers, Newcastle; Mrs. Mary Godey, Boston; Clair Dolan, Nelson; Mr. and Mrs. Edward Young, Mr. and Mrs. C. McWilliams and family, Mr. and Mrs. D. S. Creaghan, Mr. and Mrs. C. Kingston and family, The Sisters and pupils of St. Mary's Academy, Mr. and Mrs. H. H. Morris, Thos. and Francis Morris, Mr. and Mrs. P. J. McAvoy, Newcastle; Mrs. Kathleen Hay, Mr. and Mrs. H. D. Morris, Chatham; Mrs. Ada Moore, Moncton.

Mr. Michael Mitchell, Mrs. Joseph Mitchell and little son accompanied by Mr. Albert Farrah of Magdalen Island, left yesterday morning by motor for Boston Mass., where they will visit relatives.

Mrs. J. D. Paulin attended the closing exercises of Sacred Heart College, Bathurst, last week and was accompanied by her son Edouard who will spend the summer vacation at his home here.

Miss Ruth Elder has returned from Edgell to spend the summer with her parents Mr. and Mrs. J. Elder of Millbank. Miss Elder graduated this year.

Mr. and Mrs. Charles Johnston of Ludlow spent Sunday in town the guests of the former's parents Mr. and Mrs. George Johnston.

Mr. Cleo Demers was confined to the house for several days last week with a severe attack of tonsillitis.

Mrs. Godey, of Cambridge Mass. was in town last week attending the funeral of her brother, Mr. Andrew McCabe.

Messrs Edward Dalton, Chas. Sarceant, Joseph Napke, Dr. Jones and Mr. Campbell were motor cyclists to Edgell last week.

Mr. and Mrs. Charles Johnston of Ludlow spent Sunday in town the guests of the former's parents Mr. and Mrs. George Johnston.

YOUR HEALTH

One of the most common of human complaints is neuralgia. Hardly a day passes but some friend says he is suffering from pain of this sort.

The word "neuralgia" means pain in a nerve. Since all pain is made manifest to us by the nerves, we might, with propriety, describe any pain we have as neuralgia.

As a matter of fact, we never give this name to an ache or pain when the cause for the misery is perfectly plain. For instance, if we have an abscessed tooth, we describe the pain as "tooth ache." If we have an ill-defined pain in the face, with no definite cause, we call that "neuralgia."

A diseased kidney may be responsible for pain in the back, which will be called a kidney ache. Pain in the same region without a known cause is called "lumbago," a name for a definitely located neuralgia. Neuralgic pain in the hip and leg is called "sciatica."

Sometimes there are pains which really indicate nerve trouble. Inflammation of the substance of a nerve is of this nature. It is called "neuritis." The pain of a localized neuralgia and of a neuritis in the same region may be exactly the same. In one case, there is a real disturbance in the nerve; in the other, there is a reflex pain which may come from trouble away off somewhere.

Perhaps I can make the character of neuralgia a little clearer. If you hit your "crazy bone" you feel a peculiar tingling in the fingers of the

hand and not in the elbow where the hurt was. The pain is referred to the end of the nerve. The fingers feel as if something terrible had happened to them, when, as a matter of fact, nothing has touched them.

If you have neuralgia somewhere, its location gives you little if any idea where the actual cause for it really is. Most neuralgic pains are reflex pains.

If you have neuralgia you must be suspicious that somewhere in your body is pus accumulation, or a centre of infection of some sort. Infected gums, abscesses at the roots of the teeth, pus-filled tonsils or nasal sinuses, an infected intestinal canal, diseased kidneys or spleen, ulcerated stomach, or even a pus-filled pimple—among this list may be found the cause for the reflex pain.

Localized or wandering pain mysterious in origin and rather indefinite as to exact area, may be caused by one of the disabilities. Pain in the joints, "rheumatic pains," "growing pains," all the pains called by the generic name "neuralgia," are of this nature. The cause must be sought after, and it may be found in a part of the body remote from the pain itself.

Rest, more sleep, sunlight, fresh air, simple food and freedom from work and worry will help, because the power of resistance will be elevated. But to bring about a real cure the centre of trouble must be found and removed.

WANT LIQUOR TAKEN OUT OF DRUG STORES

The New Brunswick Pharmaceutical Association, in convention at Woodstock passed the following resolution, moved by George Spencer, Moncton, seconded by J. Herbert Crockett, Saint John calling for the stopping of the sale of liquor in drug stores:

"Whereas the sale of liquors in drug stores, under the New Brunswick Prohibition Act, has attracted an element that has caused a degradation of the profession of pharmacy in the eyes of the public and

"Whereas neither can the proper aims of the New Brunswick Prohibition Act be attained, nor can pharmacy regain its proper place in the community under the present system of vendors' licenses in drug stores therefore.

"Resolved that the New Brunswick Pharmaceutical Association in annual meeting assembled, do request the Government to take the sale of liquors out of the drug stores and erase the stipulation of the prohibition act that druggists are entitled to vendors' licenses."

THOUGHT CANADA A LAND OF SNOW

Banff, Alta., June 8—"Outlandish, is what I expected to find Canada.

We in Australia have had the impression that Canada is the backyard to the North Pole, and after coming here with all the rugs and blankets we could gather, my wife and I find a most delightful climate and cities which are more modern than our own." Frank W. Ashby, Secretary of the Manufacturers Association of Australia, thus expressed his surprise as he stepped off the Trans Canada here Thursday afternoon.

Mr. Ashby, who is being sent around the world by the Australian manufacturers' exposition, believes that Canada's greatness is obscured in a tradition of ice and snow, which makes it an ideal home for Eskimos, missionaries and Polar bears. "Many people in other parts of the Empire have the impression that Herschell Island and Baffin Land are linked up municipally with Montreal and Winnipeg," he said. "The best way to dissipate these geographical misconceptions is to encourage more tourist travel from other parts of the Empire. Talking is the best advertisement. It was the talking and advice of those ignorant of Canada which influenced me to bring along a lot of useless paraphernalia which is now stuffing our hotel rooms," Mr. Ashby observed.

NERVOUS BREAK-DOWN

Pains in Back and Legs Relieved by Lydia E. Pinkham's Vegetable Compound

Ford, Ontario.—"I had a nervous break-down, as it is called, with severe pains in my back and legs, and with fainting spells which left me very weak. I was nervous and could not sleep nor eat as I should and spent much time in bed. I was in this state, more or less, for over two years before Lydia E. Pinkham's Vegetable Compound was recommended to me by my neighbor. Before I had taken five doses I was sitting up in bed, and when the first bottle was taken I was out of bed and able to walk around the house. During my sickness I had been obliged to get some one to look after my home for me, but thanks to the Vegetable Compound I am now able to look after it myself. I have taken Lydia E. Pinkham's Blood Medicine in turn with the Vegetable Compound, and I certainly recommend these medicines to any one who is not enjoying good health. I am quite willing for you to use these facts as a testimonial."—Mrs. J. SHEPHERD, 130 Joe. Janisse Avenue, Ford, Ontario.

Nervousness, irritability, painful times, run-down feelings and weakness are symptoms to be noted. Women suffering from these troubles, which they so often have, should give Lydia E. Pinkham's Vegetable Compound a fair trial. All druggists sell this medicine.

RESOURCES OF BRITISH GUIANA

Great Opportunities of Trade With Canada

That British Guiana was rich in all tropical fruit but lacked proper transportation facilities for export trade and that in future all steamship lines to enjoy the benefit of subsidy would have to provide adequate cold storage accommodation, was the statement made by Hon. E. C. Woolford, K. C., of the British Guiana delegation.

The great forest and mining resources of this country were dwelt upon, and he pointed out that British Guiana was a large user of fish exported from the Maritime Provinces and that a local dealer had an agency for one of the valuable commercial woods of the colony.

The main object of the present visit to Canada of the British West Indian and British Guiana delegates, His Honor said, was of course the renewal of the trade agreement hitherto existing between these countries and the Dominion of Canada. Also to make possible an improved passenger mail and freight service between the Dominion and these places. The subsidizing of steamship lines, would be made in proportion to the size and population of the colonies. The principal staple industry of British Guiana was sugar of all varieties but chiefly of yellow crystals. A preference was granted by the Canadian government on sugar exported from British Guiana.

Almost all the flour used in British Guiana came from Canada, and the former country was looking forward to an extension of fruit cultivation in order to supply Canada with the fruits which reaches this country almost entirely through the United States. In order to bring this about it would be a condition of proposed contracts with any steamship companies that they provide ample cold storage facilities which is not the case at the present time.

British Guiana grew every variety of tropical fruit and had both the soil and climate to do it in. The only British possession on the mainland of South America it has an area of 90,000 square miles with only 300,000 inhabitants of which number 60,000 live in the capital of Georgetown on the coast.

Although fish of all kinds were imported to British Guiana from the Maritime Provinces, the importation consisted principally of dry cod, which is largely consumed by all classes of the community.

There are many opportunities for the investment of capital in British Guiana, Hon. Mr. Woolford said, in agriculture, cattle raising and in surrounding districts.

Diamonds are found in large quantities and are of the finest quality and purity. At the present time there was not the necessary capital in the country to attempt deep level mining and production is confined entirely to working alluvial areas.

The country exports bauxite ore from which aluminum is manufactured. The supply in the Colony is believed to be very abundant.

In British Guiana are also great opportunities for quartz mining and at the present moment the country was suffering from lack of means of transportation to the districts where gold can be mined. The Colony proposes to expedite the establishment of the necessary transportation means, either by railway or motor road.

British Guiana is very rich in timber, Mr. Woolford pointed out, principally in Greenheart, largely used in the construction of walls. It is an extremely hard wood and bears exposure to both wind and water.

Another variety, known as Mora timber, is very valuable for sleepers and is being used largely in Canada and in South Africa. Another variety of wood, crabwood, is like mahogany and suitable for the manufacture of furniture.

There's no Question about it!
The people who use **MORSE'S TEA** are the most satisfied tea drinkers in this country. There is no doubt about it!

EASTERN STEAMSHIP LINES Inc.
BOSTON—ST. JOHN N. B. (International Line)

Wednesday sailings leave Eastport 1.30 P. M., Standard Time, Lubec 2.30 P. M. Standard Time day Boston Thursday at 9 A. M.
Saturday sailings direct to Boston, due Sunday about 3 P. M.
Return—Leave Boston Monday and Friday at 10 A. M.
(Daylight Saving Time)
On Saturdays, passengers may leave Eastport for Boston via St. John.
For additional information apply to agents at above ports.

Monster Tuna Taken in Canadian Waters

As a writer of stirring tales of the Border and the mid-western states in the early days, Zane Grey made an enviable record for himself, but now along he comes with another—a fish story—and better still, presents the proof in photograph, so that his yarn does not take on the semblance of a dream or a good bit of story-telling.

Tuna, weighing nearly half a ton, the reward of ambitious anglers, who fish in Nova Scotian waters, particularly in St. Ann's Bay, off Cape Breton. Three mammoth tuna have been taken from this locality, each holding the world's record in weight. Captain Laurie D. Mitchell's 10 pound tuna held a record for a number of years, till along came I. K. L. Ross of Montreal, well known as an owner of racing horses, director of the Canadian Pacific Railway and his skill as a fisherman. He landed a tuna after a 3 1/2 hours' fight, that measured 9 ft. and 2 in. in length, and 2 ft. in girth, and tipped the scales at 712 lbs., thus winning the honour of record tuna fishing from Captain Mitchell by 2 lbs.

His record seemed secure, when along in August, 1924, came Zane Grey and his brother, R. C. Grey, eager to catch big tuna. They used a Nova Scotian-built schooner, a staunch little craft admirably adapted to their plans and needs. They got three tuna, weighing respectively 638, 684, and then as a climax, the biggest tuna ever landed, weighing 768 pounds. Had they gone in for anything larger, it would have required a C. P. R. freight car to haul it to the cannery at St. Andrews. The time taken to land the first was 6 hours and 10 minutes, for the second, 38 min. which was caught by R. C. Grey, and 3 hours and 10 min. were spent to conquer the record breaker with which Zane Grey is said to have wrested the palm from the C. P. R. director and won the title of champion tuna fisherman.

Other big fish of various species taken in various Canadian waters, include a record pike caught in Big Lac Nominique in the Laurentians of Quebec, weighing 56 lbs.; a 38 1/2 lb. muskellunge caught in 1924 in French River, Ontario, by Samuel W. Franklin of New York City; the world's record speckled trout, weighing 14 1/2 lbs., taken from Nipigon River by Dr. J. W. Cook of Fort William; and a great Northern pike, 4 ft. long with a weight of 21 lbs., which gave Harold Sweester of New York a 45 minute fight on the Nipigon.

Canada's infinitude of rivers and lakes are filled with a vast wealth of fish, many of them of record measurements and weight. The foregoing are sportsmen's records.

Here and There

The entire Province of Prince Ed-
ward Island and adjacent islands
have been leased for oil prospecting
purposes to Henry L. Doherty &
Company, according to an announce-
ment by the concern. The lease has
been taken on option.

Indications are that 1925 will be
one of the best tourist seasons ever
experienced by Montreal. It is esti-
mated that 750,000 people from all
over the continent visited Montreal
last year, while this year the number
is placed at a million.

It is understood that a contract
has been let for the laying of a sub-
marine cable from Vancouver Island
to Suva, Fiji Islands, by the Pacific
Cable Board. This is part of the
"All-red" cable and wireless route
which is being established between
British possessions the world over.

In order to facilitate the work of
the air force patrol radio stations are
being erected at the Pas, Norway
House, Victoria Beach, and Fort
Osborne Baracks, Winnipeg. The
stations will be completed shortly
and will have, it is stated, a radius
of communication all over Canada.

"Judging from the amount of
sound business activity noticeable
here, British Columbia is launching
into an era of constructive develop-
ment which augurs well for her fu-
ture prosperity," comments Grant
Hall, Vice-President of the Canadian
Pacific Railway, who recently spent
ten days on the Pacific Coast.

"So long as the Canadian Pacific
Railway has a dollar left in its treas-
ury, it will fight for the ideals, up-
hold the faith and maintain the pre-
cious heritage of confederation," said
E. W. Beatty, Chairman and Presi-
dent of the Canadian Pacific Rail-
way, when addressing the Canadian
Manufacturers' Association at their
annual convention held at Hamilton
recently.

Eleven hundred pounds of speckled
trout, gray trout and pike were the
trophies taken back to New York
recently by seven members of the
Caughnawaga Hunting and Fishing
Club, private preserves near Mon-
treal, after a two-week stay on the
fishing grounds. The catch included
a 19-lb. gray trout and the average
weight worked out at around eight
pounds.

Frank W. Ashby, secretary of the
Australian Manufacturers' Associa-
tion, visiting here recently, said the
impression in Australia was that
Canada was the back door to the
North Pole. People in the Antipodes
think that Herschell Island and Baf-
fin's Bay are linked up municipally
with Montreal and Winnipeg, he
said. He was surprised to find the
Dominion had a delightful climate
and cities more modern than those
in Australia.

What is stated to be the biggest
log jam in sixty years recently oc-
curred on the Montreal River in a
gorge through which the river flows
into Lake Temiskaming. 300,000
logs were piled up to a height of 80
feet with a width of 250 yards, chok-
ing the river for 300 yards down at
the point where the jam took place.
An army of 100 men, working night
and day for three days, at last suc-
ceeded in breaking the jam with
dynamite.

A three-week tour of Canada by
teachers and their friends, under the
auspices of Dean S. Laird, of Mac-
donald College, will leave Toronto
July 20 on the Canadian Pacific Rail-
way. The party will travel by train
to Vancouver and Victoria, and will
return by way of Southern British
Columbia, across the northern end
of the Prairie Provinces and by boat
from Fort William east. Stops will
be made at all the principal points
of interest.

SUN WIND DUST & CINDERS

Courts Will Decide Who Gets Legacy

The question of whether a legacy
left to the "Presbyterian Church of
Canada" should go to the United
Presbyterians, the Continuing Pres-
byterians, or should be divided or
merely turned over to the next of kin
of the testatrix will be decided at
weekly court in Osgood Hall soon.

William Moore, a farmer of Otona-
bee, Peterborough county, who died
in 1914, bequeathed his estate to his
wife with the request that after she
had used it during her life she leave
the balance to the Home Mission fund
of the Presbyterian Church in Can-
ada. She died in February, leaving
no will, and her executors will raise
the question of the disposal of the
balance, which amounts to \$3,978 in
weekly court.

Stomach Trouble Due To Thin Blood

It Usually Disappears When
the Blood is Made Rich and
Red

Thin blood is one of the most com-
mon causes of stomach trouble. It
affects the digestion very quickly. The
glands that furnish the digestive fluids
are diminished in their activity; the
stomach muscles are weakened and there
is a loss of nerve force. In this state
health nothing will more quickly restore
the appetite, digestion and normal
nutrition than good, rich, red blood.

Dr. Williams' Pink Pills act directly
on the blood, making it rich and red, and
this enriched blood strengthens weak
nerves, stimulates tired muscles and
awakens to normal activity the glands
that supply the digestive fluids. This is
shown by an improved appetite and
soon the effect of these blood enriching
pills is evident throughout the whole
system. You find that what you eat
does not distress you, and that you are
vigorous instead of irritable and listless.
If your appetite is fickle, if you have
any of the distressing pains and symp-
toms of indigestion, you should at once
take Dr. Williams' Pink Pills and profit
by the better condition in which they
will put your blood.

You can get these pills from your
druggist, or by mail at 50 cents a
box from The Dr. Williams' Medi-
cine Co., Brockville, Ont.

Horses Arriving For Chatham Meet June 24 And 25

The well-known Fredericton driv-
er, Tom Holmes, has arrived from the
Capital city with a good string
of horses for the Chatham race meet
on Wednesday and Thursday of this
week, June 24 and 25.

Maine and Woodstock horses are
expected daily so that the meet this
week will be a big success. A good
number of entries has been received
and the classes have filled nicely.

ORIGIN OF KILT AND TARTAN

The kilt is not, as many suppose,
the national dress of Scotland. It is
that of the Highlands, and never pop-
ular in the Lowlands. The kilt was
suppressed by Act of Parliament in
1745, after the Jacobite Rebellion,
and though it was tolerated at a
later date, it never became popular
again. The earliest mention of the
kilt is to be found in an obscure
passage of the Norwegian history of
Magnus Barefoot, a king of that
country who came to the Hebrides in
the eleventh century. It appears that
the dress of those days consisted of
a sort of shirt, dyed or painted and
a mantle, the former being the origi-
nal of the kilt and the latter of the
plaid. In "Letters from the North of
Scotland," published in 1725, the
author describes the Highlanders as
wearing "a bonnet made of thrum,
without a brim; a short coat; a
waistcoat longer by five or six inches
short stockings, and brogues without
heels. Over this habit they wear a
plaid, which is usually three yards
long and two breadths wide, and the
whole garb is made of chequered
tartan."

Russian Gold Backs Teaching Of Anarchy

The declaration that Russian mon-
ey was being sent to Canada in an
attempt to imbue non-English-speak-
ing immigrants with the doctrines
of Bolshevism and anarchy, was made
last evening by His Grace Archbishop
Neil McNeil, at a dinner given by the
Fourth Degree Knights of Columbus
in Columbus Hall, Toronto, last week.
The event followed the ceremony in
the afternoon of conferring the de-
gree symbolizing good citizenship up-
on ninety candidates from various
parts of Ontario. His Honor Lieuten-
ant Governor Cockshutt and W. H.
Moore were other speakers.

His Grace, after pointing out that
it was a pressing duty of Canadians
to extend the hand of welcome to
newly-arrived aliens, said that if
they were left in a state of isolation
they would be seriously exposed to
the Bolshevistic influences at work.
An attempt was being made to estab-
lish schools for the inculcating of
Red doctrines.

The Lieutenant-Governor said that
good citizenship could be gained only
by united endeavor. Nine million
Canadians working in unison could
do wonders in carrying out the plans
of their forefathers. He made a
strong plea for regular church-going,
saying that parents owed it to their
children to bring them up as church
goers and thus provide a basis for
good citizenship.

W. H. Moore urged toleration in
religion and nationality. Canada, he
said, was the first part of the British
Empire in which toleration of relig-
ious belief was really practiced.

Keep Hands Off The Senate

Motion by Senator Turgeon
Carried.

OTTAWA, June 17—The Senate
last night unanimously adopted the
following motion by Senator Turgeon:

"That in the opinion of the Senate,
it is inexpedient that any change take
place in the constitution of Canada
as established by the British North
America Act and thereto, as set forth
in the Speech from the Throne at the
opening of the present session of par-
liament, without the unanimous con-
sent of the provinces affected by such
a change to be expressed by the leg-
islatures of the respective prov-
inces."

Senator Beique, discussing this
motion, said he thought the present
discussion would benefit the Senate
as it brought before the country the
good work done by that body.

A PROPHECY COMES TRUE.

No more striking or truly prophetic
words were ever written than the
following from the pen of Sir John
Willison in 1923:

"We must either manufacture the
raw materials of Canada within the
country—thus employing labor,
rearing new communities, providing
local markets for merchants and pro-
ducers, strengthening the national
structure, making the back of Can-
ada strong to bear its accumulating
burdens—or the sons of Canada will
follow these raw materials out of
the country establish themselves
in foreign industrial centres, and
more and more, from year to year,
the national burden will become
heavier and the issue of the great
political experiment in which we are
engaged become more difficult and
uncertain. Every sound economic
and natural reason, therefore, de-
mands that the raw materials of
Canada shall be manufactured in
Canada, and the Canadian people
protected in the possession and con-
trol of their natural inheritance."

The sons of Canada are following
the raw material out of the country
to the tune of nearly 200,000 a year,
according to statements made in
Parliament last week.

If you'd like a little better tea than you

Third Fire Started By Lightning

The third forest fire which has
been caused this season already by
lightning has been reported from
Mullin's Stream on the Sevegle in
Northumberland County. Last week
the Ashton Hill lookout reported
smoke going up at intervals. The lo-
cality was remote and difficult of ac-
cess but the Chief Forester, L. S.

Webb, ordered a party to investigate.
Their report is that lightning struck
a pine stub and set fire. Only a
small area was covered some two
hundred square feet but the fire was
there ready to break out when con-
ditions became favorable with heat
and high wind.
A forest fire at Allainville on the
Tabusintac in Northumberland
County, was reported. A report is to
be made.

Children Cry for Fletcher's CASTORIA

MOTHER! Fletcher's Castoria is a harmless Substitute for
Castor Oil, Paregoric, Teething Drops and Soothing Syrups,
prepared to relieve Infants in arms and Children all ages of

- Constipation
- Wind Colic
- Flatulency
- To Sweeten Stomach
- Diarrhea
- Regulate Bowels

Aids in the assimilation of Food, promoting Cheerfulness, Rest, and

Natural Sleep without Opiates

Proven directions on each package. It is everywhere recommended.

BIRD'S BOARD

New Walls, Quickly!

Many thrifty house owners have finished the
walls of their cottages and bungalows quickly,
economically and durably with Bird's Combi-
nation Wall Board. It may also be used to—

1. Divide large rooms.
2. Refinish old walls.
3. Repair leaky ceilings.
4. Cover walls of basements and garages.
5. Make backgrounds for store windows.

Bird's Combination Wall Board has a cream-
white finish on one side that does not need
painting, and is oak-grained on the other al-
though you may paint it any color you wish.

Combination Wall Board is made by Bird & Son, Limited (Est.
1795), manufacturers of Neponset and Canadian Twin Shingles,
Bird's Ark Craft Roll Roofing, Faroid Roofing and Neponset
Black Building Paper. There's a Bird product for every sort
of building.

We are headquarters for Bird's wall board,
roofings and building papers.
