-There has been a singular laxity ci the part of the guardians of the public mocals in regard to the publication of Hardly a paper of any class but admits to its columns matter in the shape of advertisements which would not be admitted in any other form. Certain patent medicine firms are the worst offenders against decency and good taste. Unpleasan subjects of a private nature are treated with disgusting detail, and perhaps one quarter of a page of a weekly with this loathsome literature. And these papers, religious periodicals as ment have at last established a cen sorship of the postal authorities. Postmasters throughout the country are to Le instructed to forward to the Post Office Department without delay, any advertisement which comes to their at tent on which is even suggestively ob sc.ne er indecent. Judge R. Goodwin, who succeeded Assistant Atto.nev-Gen eral Robb as Attorney-General for the Post Office Depertment, is to be the sailings. censor who will determine whether an advertisement is fit to appear in public. An objectionable advertisement will he forwarded to the Association of American Publishers, and through that association the newspapers will be in formed that the advertisement cannot appear after a given date. Any news pager disregarding the Post Office Department's injunction will be held up

in the post office where it is mailed. Each will be dealt with separately toth with repard to the medicine adtisement.
