Death Roll

A Large Number of Prominent Persons are Passing Away

JOHN MACCLOSKEY

On January 24th at Emerson Hospital, Roxbury, Mass. occurred the death of John MacCloskey in the 79th year of his age. He was born at Northport, Cumberland, Co. in 1841. He lived at Margarettville, N. S. for a number of years afterwards removing to Boston, where he resided until his death. In faith he was Presbyterian uniting with that church in Boston, under the ministry of the Rev. Graham. He was a man of excellent character, honest and up right in his dealings. His word was considered as good as his bond. He lived a faithful christain life, and will be lovingly remembered and sadly missed by all who had the privilege of his acquaintance. The funeral service conducted by the Rev. McKnight, was held in the church at Roxbury, and in spite of the inclemency of the weather was quite largely attended. His wife, who was Miss Elizabeth Archibson, and one son, predeceased him by several years. He is survived by four daughters, and one son: Mrs. Robert Spencer, Mary Rhoads, Miss Jennie and Arthur MacCloskey, all of Boston, and Mrs. Caleb Slocumb, Brooklyn, N. S. The floral tributes both from relatives and friends, were very beautiful. The remains were accompanied to N. S. by his son Arthur and were interred in the Presbyterian Cemetery at Melvern Square.

is survived by three children, Mildred, wife of Charles Milbury, of Delap's Cove, Minnie and Clifford at home. Her two brothers, Bernard and Fred left Tuesday, to attend the funeral. Much sympathy is felt for the bereaved family.

NO AUTO LICENSES ARE NECESSARY

To Carry Passengers Outside of Incorporated Towns

LUNENBURG, Feb 14—A decision of considerable interest to automobile owners, who carry passengers for hire, has just been filed by Judge Forbes in the case of the King vs Frank U. Mader, of Mahone Bay, Mr. Mader was convicted and fined in the Mahone Bay Police Court for carrying passengers without a license from Mahone to Lunenburg, on the day of the Fisherman's Picnic, from which conviction he appealed to the County Court. The decision is to the effect that a person operating a motor vehicle is not obliged to take out a license to carry passengers outside of an incorporated town and that the Act requiring the taking out of a license only applies to trips within the limits of the town.

It was argued on behalf of the prosecutor that Mr. Mader was liable for operating within the Town of Mahone, from the dwelling of the passengers to the town limits, but the decision is to the effect that the service charged for was given for the continuous passage from Mahone to Lunenburg, and that the accused was not liable for that fraction of the trip which happened within the Mahone limits. Hence it is not necessary for the owners of cars to take out licenses in towns except for short trips wholly within the limits of the towns. C. W. Lane, K. C., was solicitor for F. U. Mader, and Arthur Roberts, K. C., for the Town of Mahone Bay.

(The above evidently refers to town licenses regulating fares, etc., and does not in any way interfere with the provincial laws regarding regular chauffeurs' licenses.—Ed.)

Judge Savary Oldest Member

An Ottawa despatch on Friday announcing the death of Sir James Grant, mentioned that he was the sole survivor of the first Parliament of Canada. This part of the despatch was an error, as Sir James was the last survivor but one.

The only survivor of Canada's first Parliament is Judge A. W. Savary, of Annapolis who was a member for Digby from 1867 to 1875. Judge Savary was born at Plympton, Digby County, October 10, 1831.

In 1857 he became a member of the New Brunswick Bar, practising in St. John from that year until 1862. In that year he removed to Digby, becoming one of the leading members of the Provincial Bar.

In 1867 he was elected to the House of Commons, where he moved the address in reply to the speech from the throne in 1870, and was complimented by the Duke of Connaught and others who were present.

Judge Savary sat in Parliament with Sir John A. Macdonald, Joseph Howe, Sir Charles Tupper, Sir Leonard Tillery, Galt, McGee, Cartier, Dorrion, Archibald, Holton, and others of the great leaders of the past, and was a personal friend of them all. In 1876 he was appointed by the MacKenzie Government, County Judge for Annapolis, Digby and Yarmouth fetiring in 1907.

A THOUGHTFUL ACT

The Kentville Advertiser says: The Young-Adams Co., which filled a two-day's engagement at the Strand Theatre last week, drew large houses of pleased patrons. On Saturday afternoon the Company presented the play "All of a Sudden Peggy", at the Recreation Hall. N. S. Sanatorium, for the entertainment of the patients. It was greatly enjoyed, this kindness on the part of the Company being much appreciated.

ADMIRAL SIMS GIVES WARNING TO UNITED STATES

PHILADELPHIA, Feb 21—Admiral William S. Sims, orator at the university day exercise of the University of Pennsylvania today to celebrate the birthday of George Washington, criticized the tendency of Americans to resent adverse comment on military unpreparedness of the United States.

"The missing element in Americanism," said the admiral, "is that it does not include adequate solicitude for our safety. The government, to a certain extent, our people, resent criticism of anything American. This is a dangerous attitude that has cost us many thousands of lives and millions of treasure."

After saying his father was a native of Pennsylvania that his mother was a Canadian and happened to be in Canada when he was born, he added: "Perhaps you may be kind enough to consider me also an American, notwithstanding the tide that has been given me by certain unfriendly critics, of the 'leading British admiral in the American navy.'"

In European countries, Admiral Sims said, national defence is a live issue. "The consequence is that the American people know less about the elements of warfare and less about the actual condition of that military forces than the people of any of the great powers," he said. "It must be evident that this attitude cannot be maintained in future without serious risks."

\$20,000 FIRE HITS MONCTON

John Abrams & Son's Machine Shop Totally Destroyed

MONCTON, February 22—Fire which broke out shortly before six o'clock last evening in John Abrams and Sons machine shop on Foundry street, completely destroyed the moulding shop, burned practically all the concern's stock of patterns and caused damage estimated at about \$20,000. The fire started in the moulding shop which was the only part of the works to be completely destroyed. One end of the machine shop in which was stored the bulk of the firm's patterns, was badly gutted. The whole works were flooded with water and the machinery considerably damaged. The firm had about \$12,000 worth of patterns which will be practically a total loss. The firm carried building, patterns and machinery and their loss will be thousands of dollars over and above insurance. Abrams and Sons have suffered from fire some five or six times, three or four times at St. John and Hampton, prior to their removal to Moncton. The concern will repair their works at once.

THE BEST TONIC FOR NERVOUS PEOPLE

Increase Your Nervous Energy by Building Up the Blood With Dr. Williams' Pink Pills.

Nervous people who have not yet developed a disease that can be recognized and treated by the medical profession have the greatest trouble in finding relief. Irritation, headache, sleeplessness, nervous indigestion all these discomforts make life miserable but are endured rather than run a doctor's bill without hope of recovery. Every such sufferer should know the danger of such a condition to the nervous system. Nervous debility and even paralysis may result if the tone of the nerves is not restored by building up the blood. As a tonic for the blood and nerves Dr. Williams' Pink Pills have been used with the greatest success. They have a direct action on the blood and therefore enable it to carry to the nerves the elements they need to fully restore their normal function—and at the same time improve the general health. The benefits that follow the use of this medicine, is shown by the statement of Mrs. Jenny Marr, R. R. No. 3, Port Rowan a well known school teacher, who says: "Some years ago I became greatly run down, and was in this condition for nearly a year. A doctor whom I called in said I was suffering from complete nervous prostration. It would hardly be possible to tell all the symptoms of my case, but anyone who has passed through what I suffered, as I did not seem to improve under the doctor's treatment, I decided to try Dr. Williams' Pink Pills, and the decision was a fortunate one for me, as I soon found some relief through the use of the pills, and after taking eight boxes I was fully restored to health. Today I am strong and hearty, without an ache or pain, and for my present physical condition I feel I am indebted to Dr. Williams' Pink Pills, and can heartily recommend them to anyone suffering from nervous troubles." You can procure Dr. Williams' Pink Pills through any dealer in medicine or they will be sent you by mail at 50 cents a box or six boxes for \$2.50 by writing direct to The Dr. Williams' Medicine Co., Brockville, Ontario.

A HUNDRED YEARS AGO

A List of Interesting Prices Which Would be Appreciated Today

The good old times! A gentleman living in a New England village recently came across an old account book kept by his father between 1814 and 1841. Some of the items run as follows, and give the reader "that yearning sensation."
June 1, 1820—Eight pounds veal at five cents per pound, forty cents; two pounds butter at twelve and half cents per pound, twenty-five cents.
January 1, 1827—Four bushels potatoes, twenty four cents.
January 1, 1828—Seven, and three fourth pounds codfish at three cents twenty three cents.
August 25, 1829—One gallon of vinegar, seventeen cents.
August 13, 1839—Thirteen and one half pounds cheese at six cents, eighty one cents.
April 12, 1830—One and one half bushels sweet potatoes thirty seven cents.
October 12, 1829—Peck turnips, six cents.
July 2, 1825—Gallon molasses, thirty four cents.
November 6, 1830. Three bushels Fall apples, 37 cents.
The rate of wages is recorded as follows:
July 16, 1822—Two days' shingling house, \$2.
January 4, 1840—Cutting wood, thirty cents.
April 16, 1828—One day making wall, fifty cents.
January 17, 1828—Carting lumber, sixty six cents.
November 1824—Making eight logs and finding staves, thirty two cents.

It must be admitted that wages were pretty low, but so was every thing else.
Day Time Power for Kentville
The arrangement for supplying Kentville with electric light from the large new plant at the Nova Scotia Sanatorium, is now about complete. A satisfactory test was made Tuesday, and this week the required light for night service will probably be obtained from a new source. As soon as arrangements for separate wiring of street lights, etc., are completed, Kentville will have continuous electric service.

A SUCCESSFUL YEAR

Annual Meeting Kings Mutual Fire Insurance Company

The Sixteenth Annual Meeting of the Kings Mutual Fire Insurance Company was held in Berwick, Wednesday, February 4th. President S. C. Parker occupied the chair. The Directors' report was read by Secretary, John N. Chute, as follows:
Your directors have pleasure in presenting the following report:
The past year under review has been the most successful year in the history of our Company. The expansion of business has been greater than any previous year. The total net insurance written during the year, deducting all expired and cancelled insurance, amounts to \$694,157. For the insurance previous years the net insurance was as follows: 1918, 504,076; 1917, \$310,352 1916, \$166,247.

We can also congratulate ourselves on the extremely small amount of losses during the year, viz. \$2,216.75. The losses for the three previous years are as follows: 1918, \$2,494; 1917, \$6,036; 1916, 2,580. It may be interesting to give here the causes of fires which have used our money since our organization. We have classified them as follows: Defective and burning flues \$16,554.03; cause unknown, \$11,983.55; sparks from chimney, \$5,329; fires catching about stove, 5,050.25; lightning, \$4,354.23; from other burning buildings, \$1,827.50; explosion from gas, \$250; ashes, \$470; incendiarism, \$2,102; lantern, \$136.55; lamp, \$45, making a total of \$48,402.26.

This shows that defective flues have cost us over \$1000 per year. Without doubt the total \$16,554.08 could have been saved had chimneys been properly built and kept in proper repair. Can anything be done to eliminate at least part of this loss? Houses are already built, and if we insure we must insure the buildings which exist; but it is not too much for us to expect our agents before writing an application to examine each building carefully, and in case the chimney is faulty, or in case there is not an opening in the risk should be declined. But there is no doubt that many of our applications are written by the agents without an examination of the premises. We have had a number of losses in the past, where, if the buildings had been properly examined, we would not have had the building or the losses. We are now paying \$2 for each new application even though such application is really a renewal of an old insurance, but we expect the agent to personally visit the premises and to instruct and encourage each member to have conditions the safest possible. For destruction of property by fire is a waste, and it is usually the result of carelessness on the part of some one.

The mission of the Insurance Company is not only to reimburse the members in case of loss, but to educate its members so that fire losses will be avoided, and the Company depends upon its agents to do this educational work. Then again we wish to congratulate you on our very substantial financial gains in the last year. Our surplus now stands at \$31,881.48 every cent of which, believe, safely and wisely invested, the interest of which \$1,510.93, is about equal to our expenses outside of our agents' commission. Some few of our members have protested against our increased rate, but in defence we can assure such that our surplus is not too large for the amount of insurance which we carry. Indeed, owing to our serious losses in 1917, it is not likely that we would have been able to make the necessary deposits, \$11,000, with the Department of Finance, Ottawa, as required under the Insurance Act, but for this increased premium.

Surely if our members get their insurance for half what it would cost them in a Joint Stock Company they should not be dissatisfied. As previously stated the usual charge of the Joint Stock Company is twice our rate. Then there are a few non tariff Companies that insure for slightly less premium. It is safe to say we have saved our patrons not less than one-third of their premium; based on this the savings to our patrons would amount to \$53,000. This amount plus the \$31,000 surplus on our books, makes a tidy sum of \$89,000 an amount of saving which certainly justifies our existence. You will notice also that our total net insurance now amounts to \$2,955,459. While there has been carelessness on the part of a few of the agents, your directors wish on the whole to express their appreciation of the faithful work of the agents.

It is claimed by Joint Stock Insurance Companies that farm buildings are the least desirable risks; but we believe that we have demonstrated that farm risks, properly selected by reliable agents, are the most desirable. If each member of the Company will realize that we are united for our mutual benefit and protection and will use every precaution for the protection of their buildings from fire, there is no doubt but that the Kings Mutual will be in the future, what it has been in the past, the cheapest and best means of insuring our farm buildings. All of which is respectfully submitted.

President, S. C. PARKER. Vice President—J. W. HUTCHINSON. J. W. HUTCHINSON. Officers were elected as follows: Directors: S. C. Parker, J. W. Hutchinson, S. V. Sanford, H. S. Shaw, G. W. McLean, M. K. Ellis, P. L. Morse. President—S. C. Parker. Vice President—J. W. Hutchinson. Secretary—Treasurer—John N. Chute. Acting Secretary—Flora A. Best.

WHY SOME TOWNS GROW

The reason why some towns grow is because there are men of push and energy in them who are not afraid to spend their time and money to boom their town. They erect good buildings, organize stock companies and establish factories, work for public improvements and use every means in their power to induce people to locate in their city. Wherever they go they tell of the advantages of their town, they write about them in every letter, they send circulars and newspapers to all whom they think they can get to visit the town, and when any one visits them treat him so kindly that he falls in love with them and their town at once. It is enterprise and every one pulling together that makes a progressive town, and don't let the fact escape your memory. To hear every person saying something pleasant about its people and interests is the surest, quickest and easiest way to make a town attractive to a stranger. One of the best ways in which to make it attractive with that sort of attraction that will draw other people to it is for every man and woman to have a pleasant word for the people and the town generally. Talk up your town if you would have it do well. Talk up your town if you would have others come to you. Talk up your town if you feel an interest in it. There is no better way to do it. And many a time one little word of unpleasant reference to something that does not suit you and not particularly concern you as to that matter, will turn a good man's influence away from your town and may even drive him away. At your own fireside talk up your town. Among your neighbors talk up your town. When you come in contact with strangers, talk up the most potent agency ever set in motion for helping your town.

Given to Professor Hamilton of Hampton, N. S. East Middle LaHave, May 24, 1914 Prof. B. S. Hamilton: DEAR SIR: Our boy, at the age of eight months, was stricken with a complaint, going around amongst the children of Lunenburg Co. that the doctors called spinal meningitis, which left him in a crippled condition for nine years. There was also present John Crair, a veteran Oddfellow from Yarmouth, who came all the way to be present.

There were also present Brother Will Clark, Deputy Grand Master, as well as other officers of the Grand Lodge. THE CRITIC

My father says the paper that he reads ain't put up right. He finds a lot of fault, he does, perusing it at night. He says there ain't a single thing in it worth while to read. And that it doesn't print the kind of stuff that people need. He tosses it aside and says it's strictly "on the bum".

He says ought to hear him holler when the paper doesn't come.

He reads about the wedding and he snorts like all git out.

He reads the social doin's with a most derisive shout;

He says they make the paper for the wimmen folks alone.

He'll read about the parties and he'll fume and fret and groan.

He says of information it don't contain a crumb—

But you ought to hear him holler when the paper doesn't come.

He's always first to grab it, and he reads it plumb clear through.

He doesn't miss an item or a want ad—that is true—

He says "They don't know what we want, them darn newspaper guys; I'm going to take a day sometime and put them wise.

Sometimes it seems as though they must be deaf and blind and dumb"—

But you ought to hear him holler when the paper doesn't come.

BABY'S OWN TABLETS

ALWAYS IN THE HOME

Once a mother has used Baby's Own Tablets for her little ones she always keeps a supply on hand, for the first trial convinces her there is nothing to equal them in keeping children well. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach, thus driving out constipation and indigestion, colds and simple fevers and making teething easier. Concerning them, Mrs. Saluste Pelletier, St. Dumas, Que. writes:—"I have used Baby's Own Tablets for the past ten years and am never without them in the house. They have always given the greatest satisfaction, and I can gladly recommend them to all mothers of little ones." The Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A PLEASANT EVENT

How the Taxis Boys Enjoyed St. Valentine's Banquet

St. "Valentine's Day" was celebrated by the "Taxis Boys" of the town with a big united banquet held in the Baptist social room. There was an attendance of about thirty five boys both old and young.

The banquet was as is always the case where pie, etc. are concerned a great success. The food disappeared so quickly that the ladies who so kindly assisted cast questioning glances from the table to the occupants.

After the meal, everybody adjourned to the school room where each square contributed items in programme of entertainment. The Upraders presented some exceptionally good items including several comic songs, tricks, etc. also a stump speech on "Knives" presented by Jack Wear. Several readings, jokes etc. were given by the other squares including a "Cock Fight" between two Tri Mu's boys who were blindfolded and armed with folded papers. Speeches were delivered by the respective mentors and ministers.

The meeting broke up with everyone feeling satisfied and looking forward to the "next time".

A FAMILY REUNION

Married at Margaretville Forty-Five Years Ago

Lieut. John K. Smith, who has been home for a few weeks, has returned to Lynn, Mass., accompanied by his parents, Mr. and Mrs. W. K. Smith, of Plympton, and master Cleveland Smith, of West Stoughton. They had a very pleasant trip across from Yarmouth to Boston, a passage of fourteen hours on the S. S. Northland. When the boat docked Mr. and Mrs. Smith were met by their children this being the first time their family had ever all been together. From Boston they all went to West Lynn, the home of Mr. and Mrs. W. M. Morehouse, (19 Lowell St) where they had a family reunion. There were thirty set down to dinner including parents, children, and grandchildren. A reception was also given them by Mr. and Mrs. J. F. Pension at their home (145 Western Ave) and a very enjoyable evening was spent with music and singing, a four piece orchestra having been engaged for the occasion. A special feature of the evening was a song by little John Pension. Cake and ice cream was served to about sixty guests. While in Lynn Mr. and Mrs. Smith, celebrated their forty-fifth wedding anniversary at the home of their eldest daughter, Mrs. W. M. Morehouse, their five children, three daughters and two sons all being present, as follows: Mrs. Wm. Morehouse, Mrs. J. F. Pension, Mrs. A. E. Spaulding, Capt. W. H. Smith and Lieut. J. K. Smith. Their nineteen grand children were also present.

The five Pension grand daughters presented their great parents with a large bouquet of beautiful roses. John K. presented his father and mother with a very nice enlarged photo of himself in uniform. The five children presented them with a handsome mantel clock.

The children all entered the parlor together, the oldest and youngest carrying the clock. Mrs. D. Thomas of Montclair, N. J. sister of Mr. Smith made the presentation speech she having attended the wedding forty-five years ago at Margaretville Annapolis, Co. N. S.

Among other presents from the family and friends were cut glass, silver, fancy dishes a large serving tray and many other gifts.

The guests were from Montclair, N. J. New Britain, Conn. Saugus, Mass., Winthrop, Mass., East Lynn, and West Stoughton, Mass., West Lynn, and other points. Cake, ice cream and cocoa were served.

All enjoyed the occasion very much and left for their homes in the wee hours of the morning wishing Mr. and Mrs. Smith many happy returns of the day.

For the benefit of his patients a western doctor announced that he would be absent from his home for a week or ten days. Eastern doctors are not so accommodating.

WINNIPEG MAN HAS GAINED 35 POUNDS

All His Troubles Were Overcome By Taking Tanlac—Feels Fine, Now

"I don't believe there is a man in the world who has been helped by Tanlac more than I have, and if it was possible I would go out and tell everybody personally what this medicine has done for me," said E. J. Coleman, a well known painter and decorator who lives at 195 Michigan, Ave., Winnipeg, Man. "After an attack of double pneumonia about a year ago," he continued, "I got out of bed almost a wreck, was so weak I could hardly stand up, couldn't walk by myself, and now since I have taken Tanlac I have gained thirty five pounds and feel so well and strong that it seems more like a dream than anything else for such a remarkable change to come over a man."

"My stomach was in an awful condition and I suffered so with indigestion that I ate hardly enough to keep alive. My nerves were completely shattered, and just to show you how nervous I was a friend walked up behind me one day and slapped me on the back and I almost collapsed and he had to catch me to keep me from falling. It was out of the question for me to sleep at night, and sometimes my nerves would be on edge so bad that I was even afraid to be alone in a room by myself. My kidneys were out of order and nearly all the time I had a pain across the small of my back, and I lost so much weight that I actually looked like a large bouquet of beautiful roses."

"One day my folks brought me a bottle of Tanlac. But I didn't want to take it because I had taken so many medicines that had done me no good that I was discouraged and didn't care whether I ever took any more medicine or not. But they insisted so that I finally consented to take it, and to my complete surprise I commenced feeling better right away. By the time I had finished that first bottle I had improved so much that I was able to go down town myself and get my second bottle. Now I am on my fourth bottle and I never felt better in my life and can do as hard a day's work as any man. My nerves are steady and I can stand any kind of noise. I eat anything I want, digest it perfectly and don't feel a trace of indigestion or gas, and the pain across my back has completely disappeared. My kidneys are in fine condition and I sleep all night long as sound as a child and get up in the mornings feeling just fine. If any man had told me that Tanlac would do me just half as much as it has I would have laughed at him. As long as I live I will never be able to praise Tanlac enough for the wonderful good it has done me."

Tanlac is sold in Bridgetown by S. N. Weare, and in Middleton by Clifford A. Mumford and in Bear River by L. V. Harris.

CORRESPONDENCE

To the Editor of the MONITOR

DEAR SIR—Will you kindly allow me space in your paper for a few remarks. Last Thursday night, or morning at half past one people of the quiet little neighbourhood of Stoney Beach, were awakened by wild "Hurrahs", calling people by name. Every house was insulted in the place. Everyone raised their windows and listened. It was a most disgraceful affair. Next day we found out a sleighing party from Granville Centre, had been down opposite the Island. You can think how surprised people were. While I believe in young people enjoying themselves, I don't believe in insulting strangers. I wonder how the people of Granville Centre would like it if we people did the same to them. While the churches are begging for the Forward Movement to civilize the heathens in Foreign Lands why not look after the heathens nearer home, such as we were treated to the other night. Thanking you Mr. Editor, for taking space in your valuable paper.

I am truly yours,

Zam-Buk advertisement. Text: 'In medicines, as in every other necessity, the public is satisfied with nothing but the best! This explains the ever-increasing demand for Zam-Buk. Not only is this great balm the best household remedy to-day, but it is also the most economical.' Includes logo for Zam-Buk.

THE GREATEST SHIP. The question is often asked "Which is the largest ship in the world today?" The answer to this is the "Leviathan", which is 907 feet long. The next in size is the "Imperator", of 885 feet, a ship 14 1/2 feet longer than the "Aquitania". The "Olympic" is 16 feet shorter than the "Aquitania", but is 712 greater tonnage. Among war ships the "Renown" and her sister ship the "Repluse" are 750 feet long. These are the largest war ships now in service, but the largest war vessel now in the water is the British battle cruiser "Hood" which is 900 feet long and of 42,000 tons full load displacement. The American Naval Department has designed six battle cruisers of 875 ft. in length. There is also a rumor that the British Admiralty are at work on a ship larger and more powerful than the "Hood". For two generations the "Great Eastern" was the giant of the giants of the seas, and men held their breath with wonder at the mighty hull, whose keel measured 679 1/2 feet and whose displacement was 18,915 tons. Today there are many ships with vaster measurements than this, and in honor to her great architect, it must be said that he was far ahead of his time.

A WORD ON FERTILIZERS. One of the annual problems of the farmer is the selection of the best commercial fertilizer to supplement his barnyard manure. The two factors in the case are those of cost and returns. For a time some of the most important materials were off the market, but with the return of peace conditions, practically all of them are available. In the annual report of the College Farm Superintendent at Truro which will be found in the 1918 year book of the Department of Agriculture, a very illuminating table may be found setting forth the results of applying various kinds of fertilizer on a thirty acre field of run out land, sown to oats. The most striking deduction from this table is that the addition of 100 lbs of nitrate of soda per acre to other fertilizers, acid phosphate, bone meal, slag, lime phosphate, etc., consistently increased the return by about 10 bushels per acre. Nitrate of soda can now be bought at from \$4.00 to \$5.00 per cwt. An application at the above rate, and a little less will be effective, would therefore cost about \$4.50 per acre. An extra ten bushels of oats at the present market price is worth at least \$10. The high price of this material is then more apparent than real. While it costs nearly \$100.00 per ton, it is necessary to use on about one-fifth the amount usually applied of any other grade of fertilizer. The use of nitrate of soda this year looks like good business.

REQUIRED DRESSING. A clergyman was dining in a restaurant one evening, when a woman wearing a bare back gown entered and took a seat at the next table. The padre could not help overhearing some remarks by the lady about his personal appearance. He took no notice until the waiter offered him some mayonnaise salad. Then he said in his blandest voice: "No thanks; I do not require dressing, but I think the lady at the next table does."

Probably not another town in the Province, if indeed in Canada, would rally to the support and appreciation of its Band as has been done by the people (at home and abroad) of Annapolis Royal. CORRESPONDENCE

ANGLICAN FORWARD MOVEMENT

To the Editor of the MONITOR

DEAR SIR: At your request and at the request of the Parish Committee I am enclosing you a statement re this campaign.

Our objective was \$1704.00 and we have raised \$3426.00 thus having more than doubled our objective.

I wish through your columns on behalf of the committee and canvassers, to thank all our Parishioners for their most generous and hearty response and to their most cordial treatment to the canvassers.

The amount realized is far above expectations, and the most gratifying result was only obtained by the efforts of the energetic canvassers and a generous response from the Parishioners.

It is well worthy of note that the amount allotted to us, \$1700.00 was fully raised by individual subscriptions of \$50.00 and under and the larger amounts went to make up our surplus.

We only had one knocker and the following letter received by one of our canvassers from a Parishioner now residing in the United States, to whom he had sent a card, speaks for itself:

"For the following reasons I am unable to send you the cheque asked for:

"I have been held up, held down, rocked on, sat on, flattened out and squeezed, first by the United States Government Federal war tax Excess Profit tax, Liberty Loan bonds, Thrift stamps, Capital stock tax, Merchant's license and auto tax, and by every society and organization that the inventive mind of man can invent to extract what I may or may not possess.

"I have been solicited by the C. A. R. Woman's relief, Navy League, Red Cross, Black Cross, Blue Cross, Double Cross, Children's Home, Dorcas Society, Y. M. C. A., Y. W. C. A., Boy's Scouts, Jewish relief and every hospital in town, then on top of it all came the associates charities, and the Salvation Army.

"The Government has so governed my business that I do not know who owns it. I am suspected, inspected, examined and re-examined, informed, required and commanded, until I do not know who I am, where I am, or why I am here.

"All I know is I am supposed to be an inexhaustible supply of money for every known need, desire or hope of the human race and because I will not sell all I have and go out and beg, borrow or steal money to give away, I have been cursed, discussed, boycotted and talked to, talked about, lied about, held up, hung up, robbed and nearly ruined and the only reason I am clinging to life is to see what in Hell is coming next. I am a tax payer."

H. ETGLES
Chairman Parish Committee, St. James Church.

To the Editor of the MONITOR.

DEAR SIR: Now that the influenza epidemic is again threatening us, I would like to suggest through your columns that instead of closing the churches as was done for a time, last winter, all should unite publicly in private in humble prayer to God to remove the scourge from our midst. We know how He answered prayer during the war, may it not be that He wishes us to realize our dependence on Him in all our affairs.

Have You Got Yours?

Supplies of Gunn's high-grade SHUR-GAIN fertilizers are going rapidly. Raw materials and car shortages make it difficult to keep up the output.

Make Sure of Your Supply

The high prices for 1920 farm produce are causing many farmers to make sure of bumper crops this year, and they are placing their orders now!

They know SHUR-GAIN brings greatly increased yields, and increased yields mean more money. Make the best of those good prices, order your SHUR-GAIN now.
