WANT THE WATER ANALYZED
THO ASSURED IT IS PURE

Special Committee Hears Evidence on Filtering Basins—Shooting Tournament Closes.

Hamilton, Aug. 10.—(Special).—The special committee named to investigate the charges against the filtering basins met this evening and took the evidence of Colvan Eagner, Sidney C. Walling, ex-Ald. Morgan and James McFarlane, engineer at the beach pumping house. Mr. Walling was the only citizen who answered to the advertisement of the committee for people with complaints against the system.

We Are Within the Limit when we say that we have fully five hundred pairs of Men's Pants of the best value in Toronto for \$2.50 a pair. We pride ourselves upon our \$2.50 values, and allow no one to beat us.

YOUR COLUMN

The Toronto World wants its readers' ideas. Write a letter when you are displeased, and also when you are pleased. Don't make it longer than two hundred words. This is your column.

AS TO DOCTORS.

Editor World: I would be very sorry to say or do anything that would injure the meeting of the British Medical Association to be held at Toronto August 21-25. At the same time I must protest against the composition of the executive, the qualification for a seat therein evidently being that the doctor is hon. M. P. or M. L. A. On comparing the executive list with the membership list issued a few weeks ago by the British Medical Journal you will find very few names on both lists. The British Medical Association has for its chief object the advancement of scientific medicine, an object that is not of vital importance to our Canadian doctors who by devoting special attention to ward politics and kindred matters, and by all sorts of by-paths and crooked ways at last succeeded in gaining the hon. M. P. or M. L. A. These are not the men who are doing the work of the physicians and surgeons in Canada today, nor are they fit representatives of the profession. The members who visit us from Great Britain, as well as the guests from the U. S., will be forced to conclude either that all the doctors in Canada are in politics or that what few are not are of no account. It is interesting to know how many members of the executive are members of the B. M. A. An Old Member.

FAVORS HIGHER PAY.

Editor World: I see by your issue of this morning that the carpenters are likely to strike for higher pay. I am surprised that these mechanics have not skinned over the traces before this, and it can only be because they have cautious leaders and are an exceedingly patient body of men. Compared with any other of the building trades the pay of the carpenter is far below what it should be. It is not much more than half that of the bricklayer or plasterer and but little in excess of that of the laborer who has no apprenticeship to serve or tools to supply. I am not interested in the building trade myself, but being desirous of seeing a fair all-round deal, my best wishes are that the carpenters will win, even if it has to be accomplished at the expense of a struggle. Fair Play. Toronto, Aug. 8.

ONE OF THE GRUMBLERS.

Editor World: After standing in line for an hour and 20 minutes in order to get tickets at the Bell Piano Warehouse, we are told that nothing was taken there less than 40. Now, why should the citizens of this "great city" be subjected to such treatment, treatment such as is given out to the low-down, ignorant masses the world over daily. As I stood in line I noticed Rev. Wm. Briggs stop a moment and look on. What were his thoughts? We have a \$2,000,000 city hall and a council therein. Are they thoroughly incompetent to look after the interests of the people, so that they could get a rick-off and then say to themselves: "Great is all," and at the same time enjoy a reserved seat? Is there not a lot of podnappery about this kind of thing? Has Dickens and his fellows lived in vain? Why could there not have been four officers through the city where tickets could have been sold at the nominal price? For Decency.

GIRL'S BODY IN UNDERBRUSH.

Santa Monica, Cal., Thursday.—The unidentified body of a young woman, well dressed, with blond hair, was found in the underbrush in Santa Monica Canyon, a mile above Port Los Angeles, yesterday. The girl had been dead a month or more, and the likelihood is that she was murdered, as there is a bullet hole through the head. No weapon was found anywhere near the body. Capt. Harry Schmees of the Chippewa was taken suddenly ill yesterday. His place was taken by Capt. McGiffin.

At par, but they claim that it was for the purpose of meeting liabilities, and not for the purpose of outwitting the minority shareholders. Betram & Sons, Dundas, will make another large addition to their works. Make Good or Apologize.

At a special meeting of the county council this morning a lengthy communication from ex-Warden Kenrick was read, in which he demanded that County Councillor Collins either make good his imputations about the recent audit or else apologize. Mr. Kenrick intimated that if an apology was not forthcoming he would start a slander.

The Toronto and Niagara Power Co. is trying to come to terms with the residents of the south side of the river. Hon. J. S. Hendrie will leave for the old world next week.

Homebreakers Caught. Two men giving their names as William Blood, Montreal, and Mike Dwyer, Toronto, were caught today carrying goods from the home of W. Thompson, 215 York-street, and were placed under arrest on the charge of housebreaking and theft. It is likely other charges will be brought against them.

James Henry was this morning sent down for a year for picking the pocket of Thomas Keough. The Toronto Daily and Sunday World delivered to any address in Hamilton before 7 a.m.; daily, 25c a month; Sunday, 5c a copy. Hamilton office, Royal Hotel Building. Phone 965.

Mardi Gras Cigars, to today at Billy Carroll's Opera House Cigar Store.

THE SAME McGUIRE. "Slabsy" McGuire, well-known in various circles, will appear in police court this morning. He will answer, first, to the charge of being drunk, and then he will be accused of having assaulted a police officer who arrested him. He is not a stranger to the procedure.

THERE'S AN ALL ROUND DENIAL

Attorney-General Issues Statement re "Right of Way" Matter.

The efforts of The Globe to besmirch C. B. Smith respecting the lease of the mineral rights of the Temiskaming right of way have not been crowned with success. Mr. Smith denies the insinuations in toto, as does Hon. Mr. Montford.

Acting Premier J. J. Foy has given the following statement to the press: "It is to be borne in mind that the informal expression of opinion of how a tender that might be a trifling and insignificant amount over the Ottawa syndicate might probably be viewed, was given in answer to the contention of the syndicate's representative when he was arguing that in view of their expenditure and their investigation and the publicity given to their offer it would be unfair to them to have a competing offer by men who merely used the brains and information of the Ottawa men and who would happen to go a little better than they in a bid."

"After the tenders are in and dealt with the matter will be public property, and it is the height of folly to suppose that a government would award the contract to the lowest bidder on terms that would be proper and meet with public approval. The Globe's headline is utter bosh," which says that the charge is made that the ministers promised to disregard higher tenders in the new offers."

A curious complication has arisen out of the transaction. The Dixon syndicate paid in \$50,000. This sum was not deposited as security for a tender; it was the performance of a written contract. They now claim that the crown, having accepted a part payment—indeed, the entire payment due—is estopped from rescinding the contract. Application may be made to the attorney-general for a fiat permitting suit to be filed in the exchequer court to determine a specific performance of the contract.

The government is prepared to admit that the syndicate is entitled to some consideration, but will contend that its remedy is restricted to an action for damages.

CENTENARIAN ROUTS THIEVES

Woman of 104 Encounters Two Burglars in Room and Shows Courage.

Rochester, Aug. 10.—A remarkable case was heard before Justice Benedict of Brockport this morning. The complainant was Mrs. Mary Dean, 104 years old, as active and mentally sound as a woman half her age. The defendant was Roxey Halstead, charged with burglary in the first degree. On the night of June 29 Mrs. Dean discovered two burglars in her home. Being a woman of courage she threw a lighted lamp at the intruders and they fled. The burglars were arrested. The case was adjourned.

SORE TOUCH ON McTAVISH.

He is Arrested Because He Got a Better Job.

John McTavish, who, as his name would lead one to believe, is a native of Scotland, he shipped on the good ship Athena, one of those boats belonging to the Canadian Line, which carry much freight and some passengers. McTavish, it is claimed, signed articles for a year. When he arrived in Canada he liked the colony so well that he "yumped his job," and left the boat one shy of an able-bodied seaman. This made the company sore, and they went after this descendant of the clan McTavish and located him working on the Chippewa for more money. He was arrested last night on the charge of being a deserter.

King and Prince Sailed in Race. Coves, Aug. 10.—King Edward and the Prince of Wales were active competitors in today's racing, being among those on board Viscount Inverclyde in the 1000 m. race.

Profitable Over the Jumps. Cincinnati, Aug. 10.—Fifteen favorites were picked in the handicap at the Cincinnati race track today.

Games at Mount Forest. Mount Forest, Aug. 10.—(Special)—Another day of Mount Forest Old Home week was played off at the Mount Forest grounds today.

S. MARIE IN STRAIGHT HEATS. Won Free for All Trot at Buffalo—Three Starters. Buffalo, Aug. 10.—Sweet Marie had little trouble in winning the free-for-all trot, the feature of the fourth day's program at the Grand Circuit meet here to-day.

OLE BEAT LYON AND MARTIN IN BOGEY COMPETITION

Two Tied in Handicap Foursome—Rodger Won Putting Contest.

Fine weather still continues for the Lampton tournament. The handicap foursome and putting competition was the program yesterday. In the former, Dick and Ball are tied with Griffin and Riche for first place, with a net total of 84.

McCarron Beat McCall and All the Other Home Skips Were Down. St. Catharines, Aug. 10.—(Special)—The British bowlers to-day defeated eight rivals on the Welland House lawn, the locals being chosen from the St. Catharines and Niagara Falls by a deputation composed of President McLaren, Secretary Kernahan, R. G. W. Cagolly and William Fiedling.

Football Kicks. The Corinthian Association football team played a picked team in Hamilton yesterday at 5 o'clock at the cricket grounds. They play in Ottawa next Saturday and Montreal on Monday.

Summary Challenge. Sporting Editor World: With reference to W. H. Phelps' letter in Friday's issue, I beg to state that I am prepared to swim other man across the bay yet, but I have not swum across the bay yet, but I could crawl across in the time they took.

Orangeville's Unlucky Thirteen. Brampton, Aug. 10.—(Special)—Orangeville bowlers visited Brampton today, with four rinks, and had a very pleasant afternoon's bowling. Brampton succeeded in winning out by 13 shots. The following were the scores:

Bowling and Billingsgate. Sporting Editor World: The most regrettable incident of the visit of the British bowlers to this city was the indirect admission to the command of an evening newspaper of a communication which was at once a display of petty malice, insolence, inaccuracy and rank ignorance, and among the bowling fraternity has aroused a sentiment of lively indignation and resentment.

CROWN TAILORING CO., Limited. 38 and 40 Adelaide West. A True Lover of the Game.

PANETELAS. We challenge any smoker in Canada to distinguish our clear Havana Cuban made Cigars from the highest priced imported. S. DAVIS & SONS. These Cigars were selected for the recent tour through Canada of H.R.H. Prince Arthur of Connaught.

What's the matter with Ottawa? The compromise Mayor Ellis has made with the price of power for a term of years is in keeping with the common-sense spirit of that municipality and its people.

Mayor Ellis at times has professed to be an advocate of public rights. Frequently he has come out fairly well in the cause of the people; at other times he has acted differently. There may be no accounting for the conditions causing him to deliberate.

It is in this present power matter and to sit in with the corporations to the industry of the public.

In Ottawa, the worst tendency of all is the persistent and open alliance between the Dominion government and the electrical ring of Messrs. Ahearn and Soper. Time and time again the affairs of the Ottawa Street Railway and the Power and Light Company have come up before the government.

Mr. Wilfrid Laurier and his followers have championed the cause of the public, whose part in politics has been always to support the Liberals. The amount of the combine's contribution to the fund of the Liberal party is a matter of open statement among residents of Ottawa and politicians.

In parliament several times a direct appeal has been made to Sir Wilfrid Laurier not to assist the establishing of a monopoly in light and power at Ottawa, but that his duty was wherever legislation was asked that was for the interest of the municipality to deny it, or demand concessions for Ottawa, first, on the ground that the Dominion government is the largest consumer in Ottawa, and second, that the civil servants are the next largest consumers, and so badly paid that the exactions of a monopoly would be burdensome.

This appeal Sir Wilfrid Laurier has dismissed in the most cavalier and brutal manner. And now the Ottawa electric ring has got possession of the municipal plant and the spectacle is presented of the capital City of Ottawa turned over body and bones to the electrical ring; surely this is not the way for Sir Wilfrid Laurier to make it the Washington of the North.

No wonder, in view of these circumstances, that a man like Mayor Ellis, not too forceful in mind, nor over-imbued with resource, should be taken into camp by Mr. Soper, a man by reason of the interests with which he is associated, the chief figure in the big electrical combination that is attempting to dominate the Province of Ontario.

And that is what the matter with Ottawa.

NIAGARA FRANCHISES. In rehabilitating the arguments it advanced in favor of the gratuitous electric supply to the Niagara franchisees, the extent of an additional 125,000 horse-power, The Globe yesterday indignously supplemented them by other contentions based on the existence of the hydro-electric power commission, which, it is hardly necessary to recall, was the creation of the present provincial government. At the moment when the company asked the enlargement of the Niagara Falls Park commission recommended it, and the Ontario government ratified it, the rights of the citizens of the province in the greatest of its natural power resources, were in no way safeguarded. Huge franchise concessions had been made without the slightest protection to the public against stock water-

ing and other artificial ways of extracting excessive profits from the public pocket. Had ex-Premier Ross protected—as he should have done—the interests of the people, his policy would have been very different, and the province to-day in an infinitely better position as regards the production and distribution of electrical power. What Premier Whitney has had to do under handicap of the vested interests created by his predecessor, Mr. Ross could have done more easily and effectively at the time he handed out these franchises with so lavish a hand.

Notwithstanding the special pleading of The Globe, the incontrovertible fact remains that had the enlarged franchise been granted, the Electrical Development Company would have been by so much the gainer at the expense of the people. Its franchise would necessarily have become much more valuable, its opportunities for stock manipulation correspondingly improved, and its influence on the power situation more marked. Its anxiety to secure the enlargement and the fact that the concession was secured from a corrupt government in its last extremity and on the advice of a public body whose chairman was intimately associated with the company, all point to an attempted betrayal of the public interest. As compared with the alleged Murphy deal, in all the enormity of The Globe's version of it, the present of 125,000 horse-power to the Electrical Development Company to do what it liked with, free from public control, and supervision of any kind, was an infinitely graver public scandal.

Premier Whitney has not done and never will do a better stroke of business than he did when in the public interest he canceled the additional grant and prepared the way for his later power policy.

If the original grants to the power companies, without restriction or control, were against the public interest, to authorize the appropriation of a further 125,000 horse-power would simply have aggravated the first wrong by increasing the value of the franchise to the company, and if the province had resolved to expropriate the cost to the public would have been very much greater. In fact the more this matter is considered, the more plainly it appears that the downfall of the Ross government alone prevented the sacrifice of another large slice of the provincial power domain to corporation greed.

EASE OR DUTY. The World confesses to a degree of surprise at the developments in connection with the Ontario municipal and railway board, and we beg to draw the attention of the acting premier, Attorney-General Foy, to the peculiarities of the situation.

The commissioners have been appointed on pleasure, and removable only on cause, but if they do not move in the public interest with speed and dispatch the cause is present and reconstruction is in order. It is their duty to show the public that they have been created to do something more than draw a public salary.

They are supposed to protect the public and to see that the roads obey the law. They must protect the public by their decisions and their orders, and not by telling a citizen if he thinks he is entitled to a two-cent passenger rate that he can enforce it in a court of law. That will not do. In the parlance of the street, it is up to them to get busy on the job.

As to Commissioner Kitson, whose life up to this time has been in the avenues of merchandise, we are not in a position to judge. If we are to judge Chairman Lettich by the actions of his late legal partner, R. A. Pringle, M.P., in the service of the corporations, in parliament, we must confess to very little faith in him. As for Mr. Ingram, he has yet to prove that he is ready to take the public view of a railway issue.

But none of these things are a bar to their serving the people and the province, provided they start in to do the service. But they must do more than sit in an office or go off for holidays and wait for the public to pull their door-bell. A board appointed two months ago ought to be fully organized and ready to do business by this time.

A man that starts a new job by going on a summer vacation thinks more of his ease than his duty.

POWER COMPANY CAPITAL. What the citizens of this part of Ontario have got to realize in connection with the electrical power situation is that just now an active propaganda is being prosecuted on behalf of the Niagara franchise-holding companies. The schemes of these companies have been meantime effectively defeated thru the creation of the hydro-electric power commission and an organized effort is now in progress to break the municipal solidarity requisite to enable the commission to fulfil its purpose. With that attempt, are unceasingly being made to discredit the terms of the report and to reopen the Niagara field of operations to free exploitation by the private franchise holders.

Arguments are put forward on behalf of the power interests to the effect that the commission must deal fairly with both the power producers and the power consumers and must not depress prices below the level of reasonable position seems plausible enough, but it assumes the vital point at issue, that the capital on which they desire to earn dividends corresponds to the proper cost of their undertakings. Too much is being made in interested quar-

The Well-Known Name

Black, Mixed or Green. At all grocers 25c, 30c, 40c, 50c and 60c per lb. Highest award St. Louis, 1904.

Consider what would have happened had Niagara power been utilized under public ownership and control, and in pursuance of a well-considered plan. The capital invested would have been the actual cost of construction and installation, and the price to the consumer would have been fixed at the lowest sum necessary to meet the expenses of working, to provide for a sinking fund and other appropriate charges, and return a reasonable revenue to the state. There would be no questions about stock watering and no ingenious attempts artificially to increase the capital at the public charge and compel the same public to provide the revenue necessary to yield a return upon it.

But why should power consumers be expected or compelled to provide dividends on millions of dollars in excess of genuine capital expenditure and representing a franchise value properly belonging to the people? So far as Niagara is concerned, the public have still the right to enter the hydro-electric field, and this right, along with the power of expropriation, is the big stick by which the demands of the private companies can be kept within bounds. This whole controversy will have value for its educative influence upon the electors who have in the history of Niagara power the best possible commentary on the value of the principle of public ownership and control of public utilities and resources.

The Kingston Whig calls The World a mascot for the Liberal party, which is a word of praise from a hoodoo.

The Globe may find, in the fact that Premier Whitney is to spend a day with General Booth, food for repentance.

In the race of words over the Temiskaming right of way, The Telegram's three best bets are Foy, Dickson and The Globe.

The London strikers who are denied employment by the Street Commissioners know what it is to strike out, on the second strike.

There was much regret expressed over the fact that owing to urgent business elsewhere, P. T. Barnum was not at the circus yesterday.

Having in mind the fence around the apple orchard, the small boy believes the carpenters are putting up a good defence in picketing their jobs.

COUPLE RESIST LAW. Mr. and Mrs. Shackleton Fined for Obstructing Bailiff.

Bowmanville, Aug. 10.—(Special.)—In the police court here yesterday, Richard J. Mallory, bailiff, brought action against Richard Shackleton, farmer, of Lotus, Manvers Township, and his wife, for resisting and obstructing him in the execution of a distress warrant and seizure under an execution of the division court.

Police Magistrate Horses' fine! Shackleton \$20 and \$10.20 costs, or two months in jail. Mrs. Shackleton was allowed to go on suspended sentence by giving a bond of \$20 to obey the summons of the court when called upon.

CIRCUS AND STREET CARS. Complaints Come From Broadview-Avenue District.

In the northeast end last night complaints were rife over the street railway arrangements, which were of a most unsatisfactory nature, owing to the circus. Broadview line was used to hold stalled cars some of the time. At other times passengers were dropped at Gerrard-street corner. A stub line was run from Gerrard to Danforth-avenue and not protected by a fence. Many people got unnecessarily wet thru the economical arrangements of the company.

RUN OVER BY COAL CART. Galt, Aug. 10.—(Special.)—Gordon Galt, 9 years old, son of a newly-arrived immigrant, was run over by a loaded coal cart this afternoon and sustained probably fatal injuries.

Saturday to Monday Outings. Delightful for health and pleasure. To St. Catharines, \$2.25; Grimsby Park, \$1.85; Port Dover, \$2.55; Orillia, \$2.75; Cobourg, \$2.45; Fenelon Falls, \$2.55; Bobcaygeon, \$2.65; Burlington Falls, \$2.50; Guelph, \$1.60; Goderich, \$4.15; Oropesa; tonate rates to points on Muskoka Lakes, Lake of Bays, and Georgian Bay. Good going all trains Saturday and Sunday, returning Monday. Secure tickets at Grand Truck offices.

Exhibition Tickets. The advance sale tickets for the Industrial Exhibition six for a dollar can be had as usual from A. F. Webster, northeast corner King and Yonge streets.

FARMERS IN EMBRYO AND JUVENILE GARDENERS

An Example Set by Devastated Baltimore That Toronto Might Follow.

Baltimore, Md., Aug. 1.—If Baltimore is not noted for its beautiful gardens in 15 years' time, it will not be because the "young ideas" are not shooting in the direction of flowers, vines and gardening generally. Gardens have been attached to some of the schools in the city for several years, and so successful have they been that the Playground Association has taken hold of them for the summer and a superintendent has been appointed. During the school term some rate parents came to the schools and complained that they weren't planning to make farmers of their children, but on the playgrounds, where they are supposed to do nothing but play, the work is entirely successful.

Control Their Little Plots. The children are given plots of ground about 51-2 by 4 feet, and this is absolutely their own, to do with as they please, so far as the choice of crops is concerned. But most of them are so ignorant of "farming" that they are glad to follow the advice of the superintendent, so the same general plan is followed. The bed generally has a row of flowers around it, and running north and south are rows of vegetables. It is in these that they display their individuality. The lad who is especially fond of cabbages elects to plant nothing but these, and a little miss, who believes that variety is the spice of life, plants string beans, a tomato vine, a few lettuce seeds, and five radishes and finishes the motley collection with a border of nasturtiums.

Everything Flourishing. Everything is growing finely in the gardens now, and all there is to do is to keep the weeds down, and the dead leaves picked off the flowers. This must be done before the "crops" are gathered. And if one wants to see a really joyous countenance, let him look at a small boy on his way home with the first quarter of a peck of string beans or other vegetable which he has "raised."

Some of the gardens in the heart of the city are mere patches of ground in the rear of the school, and in these the beds are not so large, but in none of them is there any "observation gardening." The children are allowed to work, and the results they accomplish are really wonderful. From one of the larger gardens over 18 bushels of string beans have been gathered and taken home by the children, besides other vegetables. Several boys have joined their land and have quite a patch of tomatoes. The children come to these gardens in swarms, and they are brighter with anticipation, as they receive the seeds which they are to be allowed to plant with their own hands. One day some little ones were given beans, and with infinite care, they patted the earth down nicely above them. The next day they came to the teacher and said: "Say, them beans ain't no good—they ain't come up yet."

Like to Dig in the Ground. Children come to the gardens who do not care for the playgrounds (games are babyish to these children, who consider themselves grown up at 12), but they all love to dig in the ground, and they watch with bated breath to see the garden grow. Many of them firmly believe that if they are but patient enough they will see the plants shooting in the air.

When the "garden lady," as the children call the superintendent, is seen coming down the street a cry of "Here she comes!" is heard all around, and the passersby may not know exactly who "she" is, from the way the children come tumbling out of the houses they might expect to see the Pied Piper of Hamelin and hear the dulcet strains of his magic flute.

One enterprising young miss. One little girl cannot come to the garden unless she brings the baby, so "Bennie" is tucked away in the gurgler and is given a radish to keep him quiet while "digger" digs. She will proudly tell you that she has a garden at home, too—that the garden lady gave her seed and that the string beans will soon be ready to pick. The children are encouraged to have gardens at home, and many are the times that the "garden lady" is asked to go home and see what the children have accomplished. Stories are told them, while they are resting, between the rows of plants, of the adventures of the gods, and of the life of Ceres, the goddess of the harvest. But the children don't know all things about all plants, yet, as was shown a few days ago, when a large boy began to dig around the roots of a tomato to find the fruit, thinking that they grew like radishes.

Waging War on Weeds. A visit to one of the larger gardens the other afternoon showed about as children hard at work. The recent rains have been extremely beneficial to the weeds, and the boys and girls were waging war against them. They were waging war in patience, persistence, honesty and all the other virtues of which they were worked, for the weeds were there without number, and it was such a temptation to leave the root in the ground when the top broke off. But they have probably learned that this but makes more trouble for themselves, for they generally went back and dug it out.

One small boy had had his garden robbed—completely despoiled—and he stood by with clenched fist and blood in his eyes, wishing for a "chance the feller what did it." A discarded garden was hastily given him lest he go on the warpath then and there, and he worked off some of his wrath in getting it in shape.

Corn, tomatoes, potatoes, string beans, beets, radishes, kohlrabi and lettuce are some of the vegetables grown here, and most of the children have edged their gardens with a row of nasturtiums. These are now in full bloom, and as they must be picked if they are to keep on blooming, the children gather great handfuls, take home, and to present to the visitors.

Some Dinner Tables Supplied. After the weeds are out of the garden, the dead leaves picked from the flowers and the garden paths nicely cleaned, the "crops" are gathered, and most of the children have enough of some kind of vegetable to supply the family dinner table. The larger boys are divided into a wheelbarrow gang

MARINE

Port Colborne, Aug. 10.—Down—Imperial Sarnia to Montreal, oil, 2.40 a.m.; Cuba, Toledo to Montreal, general cargo, 10.15 a.m.

Up—Langdon, Ogdensburg to Chicago, general cargo, 4 a.m.; Gov. Smith, Ogdensburg to Chicago, general cargo, 6 a.m.; Midland Queen, Kingston to Fort William, light, 7.30 a.m.; Carleton Place, Ogdensburg to Erie, pulp wood, 11 a.m.; Lhorter and barge, Belleville to Erie, light.

Wind—Northwesterly.

Kingston, Aug. 10.—Schooners Youel, Fairhaven, coal; steamer India, Marquette, ore; tug Bronson, light barge; schooner Metzner, Oswego, coal; schooner Sufel, Charlotte, coal.

Cleared—S.S. Westmont and consort, Fort William, light; tug Bronson, Montreal, laden barge; tug Emerson, Charlotte, light barge; schooner David, Duluth; light; schooner Acadia, Sodus, light.

Midland, Aug. 10.—Arrived—Steamer Winona, passengers and freight, from GoHome Bay; steamer Maud D., passengers and freight, from Honey Harbor.

Cleared—Steamer City Queen, passengers and freight, for Honey Harbor; steamer Yonkers, passengers and freight, for GoHome Bay and intermediate points; steamer Maud D., passengers and freight, for GoHome Bay.

Port Dalhousie, Aug. 10.—Passed up—Steamer Cataract, Quebec to Erie, wood; steamer L. S. Porter, Belleville to Cleveland, light; schooner Isabel Reid, Deseronto to Codrington, light; tug Emerson, Charlotte to Buffalo, light; steamer Montague, Oswego to Chicago, light barge; Steamer Sarnia, Toronto to Erie, light.

Down—Steamer J. S. Keef, Duluth to Kingston, fax seed; Steamer Imperial, Sarnia to Montreal, oil wood; Buffalo—South; light.

Buffalo, Aug. 10.—Pressed by an increase of Lake Superior business, the Northern Navigation Co. of Collingwood and Sarnia, Ont., has added to its fleet of passenger and package freighters by the purchase of the steamer Cuba of the Red Star Line of Buffalo. The steamer will run to Montreal, Port Arthur and Fort William.

Ingersoll's New Mayor. Ingersoll, Ont., (Special.)—J. Anderson Coulter was this evening declared mayor of Ingersoll by acclamation to succeed the late James P. Soper.

WHAT STRANGE MYSTERIOUS POWER DOES THIS MAN POSSESS?

Professor of Astrology Invents System by Which He Quickly Reads the Secret Characteristics and Lives of People Though Thousands of Miles Away

Sends Letters to the Sick and Unsuccessful in All Parts of the World in Which He Advises Them on Affairs of Life.

Offers Free Readings to All Who Write and Send Date of Birth.

Prof. Albert H. Postel, author, lecturer and traveler, has completed arrangements by which he hopes to render a great service to the sick and unsuccessful throughout the world. Thousands of men and women in all walks of life are seeking the advice of this eminent astrologer, and many voluntarily send thankful letters, highly praising the professor for his kind and helpful services. The following are some of the letters received by Prof. Postel:

Mr. Fred Brash of Dunsmuir, Calif., writes: "I feel it my duty to thank you for the Horoscope you have cast for me. The knowledge of myself you have revealed to me is wonderful, and is, I am sure, of inestimable value to me. I will study my Horoscope and chart carefully."

From Theodore Schmitt, 471 Third-Ave., Elizabeth, N.J.: "I cannot thank you enough for what you have done for me, nor how I can repay you. I am very well satisfied with my Horoscope. Everything is told as though you had known me."

While Prof. Postel is modest and unassuming, it is clearly seen by a glance at his features that he is a man of lowly pretension, open-hearted, generous and has a kindly feeling toward humanity. He has received one of the readings similar to those which Prof. Postel is sending to all those who desire to know the meaning of their lives, and how they were born, and it is truly amazing how accurately he describes the life of an individual with only the date of birth and his superior knowledge of astrology to guide him.

After reading all down and write at once, stating the date of your birth, and you will receive by return mail your reading and copy of Prof. Postel's interesting booklet entitled "Your Destiny Foretold." Address your letter plainly to Prof. Albert H. Postel, Dept. 42, No. 128 West 24th St., New York, N.Y.

T. EATON CO. LIMITED

DURING AUGUST STORE CLOSSES SATURDAYS AT 1 P.M. High Grade Summer Suits, \$4.98

Liberal terms. and a paper gang, and besides attending to their own garden, they go about and keep the whole place looking bright and clean.

The "garden lady" fits hither and thither, dropping a suggestion here and there, praising the successful ones and encouraging the downcast gardener to try again, and frequently takes the hoe herself that the child may see just how the work should be done. As the visitor left, she was standing by the embryo farmer who had been robbed, as he valiantly wrestled with the weeds in the discarded garden.

CONVICTS STEAL LOCOMOTIVE. Run Ten Miles From Camp Pursued by Guards.

Atlanta, Aug. 10.—Four long-term homicide convicts stole a locomotive at the Milltown lumber plant, pulled the throttle wide open and flew down the Milltown Railway at high speed.

As the locomotive dashed thru the convict camp a volley was fired by the guards. Bullets struck the engine and tender, but the convicts were unhurt. A long lead and were not overtaken. The world as America's most beautiful summer resort. Perhaps nowhere in the United States can one find such a combination of rare scenery and healthful atmosphere as among these hills. The Boston and Maine Passenger Department publishes some beautifully illustrated literature concerning this region. The descriptive book, "Among the Mountains," describes in detail this entire region, while the magnificent portfolio, entitled "Mountains of New England," contains a series of delightful reproductions of photographs of this section. The descriptive booklet will be mailed to any address upon receipt of a two-cent stamp, and the portfolio upon receipt of six cents in stamps.

Home Office - Toronto, Ont. J. L. Blaikie, President. L. Gufman, Managing Director. W. B. Taylor, Secretary.

Money cannot buy better Coffee than Michie's finest blend Java and Mocha, 45c lb.

Michie & Co., Limited. PETERBORO ACCIDENTS.

Peterboro, Aug. 10.—(Special.)—James Dodds, an employe of the Canadian General Electric Company, while working around a block and tackle, was hit on the head this morning by the block. He is suffering from concussion of the brain. It is believed that he will not survive.

A horse tied to a chain attached to an electric light pole was instantly killed on George-street today. A grand wire run down from the pole to the ground, and it is thought the chain rubbed the insulation off the wire. Joseph Collins, owner of the horse, went to release it, and, grabbing the chain, received a shock of several hundred volts, and nearly met death. He will recover.

Only Two More 15-Day Seaside Excursions.—\$10. Atlantic City, Cape May, via Lenox Valley R. R., from Suspension Bridge, Niagara Falls, August 17th and 31st. Tickets only \$10 round trip, allow stop-over at Philadelphia. For tickets, particulars, call L. V. R. Passenger Office, 16 East King-street, Phone Main 1588.

Weak Lungs

It is the old story of a weak throat, a tendency to weak lungs in the family. You no sooner get rid of your old cold than a new one takes its place. Ayer's Cherry Pectoral breaks up this taking-cold habit. It strengthens, heals. Ask your doctor, the very next time you see him, what he thinks of Ayer's Cherry Pectoral for weak lungs. We have no secrets! We publish J.C. Ayer Co., the formulae of all our medicines. Lowell, Mass.

CUBA--THE LAND OF SUGAR. CANADA-CUBA LAND AND FRUIT COMPANY, LIMITED.

\$25 PER ACRE.

Last Chance at \$25 Per Acre—On and After August 15 the Price of All This Company's Land Will be Increased to \$40 AN ACRE

\$25 PER ACRE.

TO THE CAPITALIST.
Absolute security. Land that will in two years be worth five times the present price, which certainly will increase the value of stock proportionately.

TO THE MERCHANT.
If your business or health fails a plantation will give you a handsome return. No laborious work in a climate of perpetual June.

TO THE WORKINGMAN.
An easy way of procuring a home. A future that cannot be obtained elsewhere. Don't fail to write or call. Every information freely given.

The heat in Cuba is never so oppressive as it has been the past week in Toronto. Visitors to the Exhibition should call and see us, when all information will be cheerfully given and literature supplied.

A HOME IN CUBA.
AN OPPORTUNITY like this comes but once in a lifetime. Anyone can have a home in Cuba under our most liberal colonization plan. The way is now open to you. It only remains for you to grasp the opportunity now offered.
Bear in mind, too, that the western farmer who raises twenty bushels of wheat to the acre and gets 75 cents per bushel for it, thinks he is getting rich, while in Cuba \$250 to \$500 per acre can be made with far less effort and uncertainty.

TEN ACRES of good fertile land in Cuba, properly planted in early winter vegetables in the autumn, and properly cared for, with careful methods employed in harvesting and marketing the crop, will yield a net return by spring of from \$600 to \$800 per acre, or \$6000 to \$8000 for the season's work, exclusive of cost of cultivation.
THE CROP from such a tract is marketable in December and January, from thirty to sixty days before the Florida growers have begun to ship, and at a time when the northern markets are practically bare of competing products.

Upwards of 200 people intend to leave for our property during September to make their home amongst numbers, who are already on their Plantations and give most encouraging reports. It is necessary to purchase now to have your Plantation ready for this winter's crop.

ABSOLUTELY NO RISK.
We think we have shown you in the past that you take absolutely no risk when you invest with us. You secure land to-day that will be worth five times its money in one year.

A TEN-ACRE GROVE of orange and grapefruit trees will yield you a profit the fourth year of \$1 per box, or \$900 (90 trees—80 boxes, 90 x 10 acres—\$900).

When your grove comes into full bearing it will pay you from \$2700 to \$5000 a year for life, and it will be worth \$10,000 cash any day you wanted to sell it, and it will be yours.

TEN ACRES planted in pineapples will yield any man who will look after it properly from \$2500 to \$3000 a year returns from fruit and suckers, out of which must come the cost of the actual cultivation, which is not large when once the tract is planted.
How does this compare with farming profits in this country?

THIS OFFER IS GOOD FOR A LIMITED TIME ONLY. PROMPT DECISION and immediate selection of lands and lots is absolutely necessary, and we urge you, for your own good, to avoid disappointment, by making your choice at once if you wish to share in this great allotment of land.

WE CANNOT keep this offer open always, as the Plantation Tracts we have to dispose of are limited in number.
WE RESERVE the right to withdraw this offer at any time, or to increase the price of our land.

LAND OWNERSHIP is an almost certain safeguard against adversity. HARD TIMES, sickness and old age may come, but he who owns his home is certain, at least, of a port in which to ride out the gale or end his days peacefully in this sailors' "ging harbor."

FORTUNATE, indeed, is the man, or woman, whose ownership of land includes both a home and a living, or means of support. Such land-ownership carries with it not only a place of abode, but also food, raiment and the comforts of life. As a heritage for one's family it is better than life insurance or a bank account. In short, it does what a farm should do.

This Company will undertake to have your plantation cleared, plowed and planted at the mere cost of trees and labor, thus ensuring you a permanent home for the future. No investment is more profitable or so sure as an orange plantation. Trees bear for over one hundred years. Good returns can be made by growing all kinds of vegetables and small fruits (between the rows of orange and other trees), which can be shipped to Havana, New York and Canada during winter months, when everything commands the highest prices.

Bear in mind all citrus fruit land must be a light sandy loam soil. This is the experience of all citrus fruit growers. So many inexperienced judge the light soil of Cuba falsely. We undertake to locate for all our purchasers and will get them expert reports on their location and give them the privilege of exchanging the same into any part of our property so set apart and not already sold. We give you every acre free from swamp or rock. Any low lands are not charged for. You can't get any better or fairer contract than this.

THE BEST OF PRACTICAL ORANGE AND OTHER FRUIT GROWERS, WHO HAVE PURCHASED FROM OUR COMPANY, SELECT THE LIGHTEST OF OUR LANDS AND CLAIM THEM TO BE THE FINEST LAND TO BE FOUND IN CUBA FOR ALL CITRUS FRUITS.

GEO. F. DAVIS, MANAGING DIRECTOR. Head Office: 24 King St. West, Toronto.

ODDFELLOWS' CONVENTION WILL GATHER GREAT THROUNGS

Biggest in Toronto's History From All Reports—Delegates From All Over the Continent.

Preparations for the monster gathering of Oddfellows, which is to take place in Toronto on the occasion of the sovereign grand lodge meeting during the week from Sept. 17 to 22, continue unabated among the city members of this great fraternity. From reports that are being received daily by Ald. Joseph Oliver, chairman, and John A. Macdonald, secretary of the general committee, it is assured that this year's demonstration of the strength of the order will be the greatest ever known in Canada. From all parts of the Dominion and the United States large numbers are coming to the Queen City, while many foreign jurisdictions will be represented.

Col. W. S. Johnston, grand master of Ontario, and department commander of the Patriarchs Militant, has issued an order for a general mobilization of all Ontario cantons of Patriarchs Militant, and also a request that all subordinate lodges shall be present and take part in the parade. Gen. M. A. Raney, commander of the Army of Patriarchs Militant, has also issued a general order to the same effect, and a very large muster is expected.

Many Special Trains. Special trains have been arranged for

by the brethren of Pittsburg, Philadelphia, Washington, Baltimore, Boston, Detroit, Indianapolis, Cleveland, Chicago and other points, and our American cousins who have not heretofore set their feet on Canadian soil are coming in droves to see the "Land of Promise" and greet their brethren on this side of the line.

Toronto will open wide her gates to receive them, and, judging by the complete program that has been prepared by the committee for their entertainment, there will be "something doing" every minute of the week.

A Gorgeous Parade Promised. The grand parade on Wednesday afternoon will be a gorgeous spectacle. It is expected there will be over 3000 uniformed men in line, besides from 10,000 to 20,000 other members of the order. The lodges all over Ontario are organizing excursion parties to come to Toronto on Sept. 18 and 19 to see this great spectacle, and about forty bands will be in line. Very liberal prizes are being offered for the drill contests and drill competitions.

List of Prizes. For Patriarchs Militant—Class A—Minimum canton, twenty-four chevrons and three officers: First, cash prize for best drilled canton, \$750; second, cash prize for next best drilled canton, \$500. Class B—Minimum canton, eighteen chevrons and three officers: First, cash prize for best drilled canton, \$300; second, cash prize for next best drilled canton, \$150. For Stokes gold medal—Ontario cantons only are to compete for the medal. Militant degrees (for exemplification of the degree)—First, cash prize of \$200; second, cash prize of \$100.

The Parade Prizes. (Open to all excepting Toronto City) Cantons—For Class A canton having the largest number of chevrons in line and presenting the finest general appearance and military bearing in the

parade—First prize, cash, \$150; second prize, cash, \$75. For class B canton having the largest number of chevrons in line and presenting the finest general appearance and military bearing in the parade—First prize, cash, \$75; second prize, cash, \$37.50. Subordinate encampments—For the encampment presenting the best general appearance and having not less than fifty members in line in the parade—First prize, cash, \$75. For the lodge having the largest percentage of its members (as per returns June 30) in line in the parade—First prize, cash, \$100. For the lodge presenting the best general appearance in the parade—First prize, cash, \$50. Subordinate encampments—Handsome silver trophy, presented by John A. Macdonald, P.G.M., to the subordinate encampment having the largest percentage of its membership (as per returns June 30) in line in the parade (Toronto district barred). A handsome silver trophy, presented by W. S. Johnston, to the subordinate lodge having the largest percentage of its membership (as per returns June 30) in line in the parade (Toronto city lodges barred). A handsome silver trophy, presented by J. B. King, grand secretary, to the lodge presenting the best general appearance in the parade (Toronto city lodges barred).

Prizes to City Lodges. Handsome silver trophy, presented by Joe Leaver, P.G.M., to the subordinate lodge in Toronto city having the largest percentage of its membership (as per returns June 30) in line in the parade. Handsome silver trophy, presented by W. W. W. to the lodge in Toronto city presenting the best general appearance in the parade.

Grand Parade September 19th. The column will move at 2.30 p.m., and all bands, cantons, encampments, and other organizations who propose participating in the parade are required to be in line in the positions assigned to them not later than 2 o'clock, so that the several divisions may be promptly organized and be ready to move sharp on time.

The route of the parade is as follows: East on College-street to Spadina-avenue; counter-march down the west side of Spadina to Queen and up the east side of Spadina to College; east on College to Yonge, down Yonge to Adelaide, east on Adelaide to Church, down Church to King, west on King to Simcoe, up Simcoe to Queen, and across to Queen's-avenue, where the column will be reviewed by the officers and members of the sovereign grand lodge, and the parade dismissed.

Special Excursion Days. The following arrangements have been made with all railway lines, and also to the Richelieu & Ontario Navigation Co., for transportation to Toronto for special excursion on the above dates from Montreal, Ottawa, Sudbury, Port Huron, Detroit, Buffalo, Niagara Falls, N.Y., and all intermediate points.

Rate—One-way, first-class fare, plus 25 cents, for the round trip. Tickets will be on sale for all trains on Tuesday, Sept. 18, and by morning trains from Wednesday, Sept. 19, and will be good to return up to Friday, Sept. 21. Bands in uniform, under usual conditions, will be carried at one-half first-class fare, plus 25 cents.

An immense program of entertainment has been prepared for the visitors.

FINE NEW STEEL CARS. A new and large industry for Canada is promised in the manufacture of steel cars. The first of an order of five hundred all-round steel, 100,000 pounds capacity, drop-bottom gondolas has just been turned out by the Dominion Steel Car Company of Montreal for the Canadian Pacific Railway Company. The Railway Company has also given an order for 50 ore cars of 100,000 pounds capacity. The increased price of timber and the greater durability of steel cars assigned as the reason for the supplanting of the wooden cars.

FREE UNTIL CURED

No man need be weak, no man need suffer from the loss of that vitality which makes life worth living. He can be made strong, energetic, forceful, and light-hearted, confident of his power both in business and society; free from spells of despondency, nervousness, lassitude and brain wanderings. I have a certain cure for Nervous Debility, Varicose, Rheumatism, Lame Back, Stomach, Liver and Kidney Complaints, in my world-famed Dr. Sanden Electric Belt with Electric Suspension, and I will give it absolutely free until a cure is effected. How can I do this? For two reasons. I have the certain knowledge that my Belt will cure, and I have confidence enough in mankind to wait for the money until I prove it. This is what every doctor should do, but I am the only one who has a remedy that will stand such a crucial test. For 40 years I have been curing thousands every year, and have made a tremendous success doing business on this basis. NOT ONE PENNY IN ADVANCE OR ON DEPOSIT, and if I fail it costs you nothing whatever. All I ask is that you pay me the usual price of the Belt when cured—in some cases not over \$5.00. I will leave you to be the judge, and will take your word for results, or for cash I give full wholesale discount. Forty years' continuous success has brought forth many imitators. Beware of them. You can try the original, the standard of the world, free until cured, then pay for it. Call or send for one to-day, also my two illustrated books giving full information free, sealed by mail.

DR. A. B. SANDEN,
125 BROADWAY, ENFRANCO, 11 TEMPERANCE STREET

RATES TOO HIGH.

Toronto Firm Succeeds in Complaint Against Railways.

Ottawa, Aug. 10.—The railway commission has ordered the C.P.R. and G.T.R. to reduce their tolls for eastbound traffic from Toronto to Montreal to those charged for similar westbound traffic between the same points. The tolls to Ottawa and intermediate points are not to exceed those to Montreal. The reduction comes into force on Sept. 10. The complaint was made by Stantion, Limited, wall-paper manufacturers, of Toronto.

The railway commission is issuing an order to allow the Montreal Transition tunnel to cross the line of the C.P.R. by means of a subway near St. Basile, in the County of Portneuf.

Needle Cut From Back. Brockville, Aug. 10.—Clarence Covell, a St. Lawrence State Hospital employee, died last evening at the City Hospital, in which a large-sized sewing needle was removed from his back.

Mr. Covell was resting in bed. Mr. Covell sat down upon the bed in the mattress. Although it pained him for a few minutes, he did not aware that the needle had entered the body. It worked itself up in his back and recently made its presence felt near the spine.

Woman Pay Fire Losses. New York, Aug. 10.—Attachments were levied yesterday on property of the Transatlantic Fire Insurance Company of Hamburg. This action, taken by attorneys retained by the San Francisco mortgagee, was the result of the refusal of the company to pay claims of fire losses at San Francisco on the ground that the destruction by fire was an act of Providence, excepted in its form of policy.

Insane Man Succeeded. Salem, Mass., Aug. 10.—John Kibbey, a patient at the Salem Hospital for Contagious Diseases, became suddenly insane, jumped from a third storey window to the sidewalk below and was instantly killed.

READ AND YOU WILL LEARN. That the leading medical writers and teachers of all the several schools of practice endorse and recommend, in the strongest terms possible, each and every bottle wrapper in the possession of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, indigestion, biliousness, chronic bowels, torpid liver, or biliousness, chronic bowels, and all catarrhal diseases of the digestive tract, is the best possible guarantee of its merit. A glance at this published formula will show that "Golden Medical Discovery" is a concentrated glycolic extract of native medicinal roots and is safe and reliable.

EDUCATIONAL.

UPPER CANADA COLLEGE

Fall Term Opens Sept. 4th

ELLIOTT Business College

Cor. Yonge and Alexander Sts., Toronto

A great school. All graduates get positions. Night School opens Sept. 5. Circuit St. Principal. Phone N. 4419.

2000 GOLD BEATERS STRIKE.

New York, Aug. 10.—A strike of 2000 gold-beaters against the open shop began yesterday. Delegate James McCabe of the Gold Beaters' Union announced that the strike affects ninety-two firms.

It was ordered, he said, for the purpose of driving out the middlemen or small contractors who take contracts from the large manufacturers, and who employ their men on the open shop plan.

For Sick Youngsters. The children from the Sick Children's Hospital were entertained at Ward's Island yesterday by lady residents. Two boats were kindly placed at the disposal of the Ward's Island residents to take the children from one point to the other, and with a view to making the occasion one of special profit to the sick children, the park commissioner arranged for a band concert at Ward's Island in the afternoon. It was the first band concert ever held on this part of the island.

Accident in East End. An accident occurred at Woodbine Beach recently, which has been kept extremely quiet. The victim of the mishap was Thomas E. Kyle, who received a couple of bullets in his leg. It is said that a young man by the name of Smith accidentally discharged the firearm which wrought the damage.

French Warships at Quebec. Quebec, Aug. 10.—Rear-Admiral Route de Lapierre, with the French cruisers Le Desaix and Le Jurlen de La Gravier, arrived in port this morning and anchored opposite the citadel, when the band on board the former and admiral's flagship played the British National Anthem, followed by a salute of twenty-one guns, which was responded to by the citadel guns.

WANT PEACEFUL SOLUTION OF POLITICAL PROBLEMS

New Party Launched at Moscow to Secure Co-Operation of the Moderates.

St. Petersburg, Aug. 10.—The healthiest symptoms of the situation are the efforts now being made at Moscow by the new party of pacific regeneration, ex-Octoberists, to secure the active co-operation of the moderate-minded Constitutional Democrats and unite the progressive elements of society which do not believe in a violent revolution, and to defeat the candidates of the extremists of all parties at the coming elections.

Should the negotiations be successful, it is the intention to issue an appeal to the country, asking all who favor a peaceful solution of the political, economic and ethical problems to sink individual differences, unite and compel the government to realize the aspirations for a constitutional regime, and at the same time save the country from a violent revolution and anarchy. It is the intention to call a convention and begin an active electoral campaign.

Traced to Flying Fighters. The attempts on the lives of Vice-Admiral Doubagoff, ex-governor-General of Moscow, and of General Napolit, commander of the Sebastopol Fortress, have been traced to the "flying" organization of the social revolutionists. Doubagoff's assailant, who was killed by the explosion of his own bomb, has now been positively identified. A was involved in the conspiracy, and who is a daughter of Gen Mischchenko, a member of the military council, while loading a bomb, had three of her

Consuls' Lives Threatened. Beirut, Aug. 10.—A good deal of excitement has been aroused in European circles by the receipt of an anonymous Moslem letter, threatening the lives of all the foreign consuls if this point unless they bring their influence to bear for the dismissal of the present vali, Khalil Pasha, who is charged with taking bribes and oppressing the people.

Miss Taylor Appointed. Miss M. A. Taylor, daughter of Col. Taylor, commandant of the Royal Military College, Kingston, has been appointed classical mistress of St. Margaret's College, Toronto. Miss Taylor is a graduate of Newnham College, Cambridge—Classical Tripos.

ON HOT DAYS Your first thought might be to regret not having purchased a light summer-weight suit. Your next should be to come and see what we could do for you in that line. And with our newest assortment of summer goods we are prepared to meet every demand.

GOES AGAINST RAILWAY CAN'T OUST THE LESSEES

Decision of Justice MacMahon Allows A. R. Williams Co. to Remain.

The A. R. Williams Company will not be compelled to vacate their premises at York and Front-streets, as required by the Grand Trunk; at least, not for the present.

Justice MacMahon, in giving judgment on the action of the railway to force the company to vacate within thirty days, refused to grant the section of the act relating to the expropriation of land by a railway. It is set forth that such land must be required "forthwith" by the railway and must appear to be going ahead with its new Union Station plans at present, the suit was accordingly dismissed, with permission to renew it when evidence can be shown of the beginning of actual operations.

Fleming for Controller. It may seem a little early as yet for prospective candidates to be giving serious thought to the municipal elections of 1907, but there is the odd chance about taking time by the forelock, in which Ald. Fleming is an evident believer.

From now on, I'm for the board of control," was the announcement made by the genial chairman of the fire and light committee yesterday. Ald. Fleming has not made up his mind to take the leap on brief municipal experience. For five years he has represented ward one, and has served as chairman of an important committee he has shown initiative, particularly in the efforts he has put forward to improve the efficiency of the fire department.

Ald. Fleming is confident that his record in council entitles him to a seat among the "big four." He will depend on strong support, of course, in the east end, but at the same time is hopeful of making a good showing.

To Build in Rear. The chief issue before the fire and light committee yesterday arose out of the application of M. A. and G. R. Harris for permission to build a brick house in the rear of 61 Elm Grove-avenue, Parkdale.

Chief Thompson was sympathetically inclined, pointing out that the lot was a deep one, 478 feet, and that there were no houses on the adjoining property. Ald. McBride and Hay stoutly resisted on the general principle that houses should not be erected in the rear of others. Residents of the locality will be asked to give opinions.

Ald. McBride came into collision with the chief over the latter's report against giving a permit to one Patrick Maher, to install a shoeing forge in his stable on Hayden-street. Ald. McBride protested, whereupon the chief hinted darkly that the alderman's attitude on such matters was affected by private considerations. Ald. McBride selected in kind. The permit was refused.

Replaces Old Ralls. The city's grievance of many months against the street railway on the west-end Street Railway rails on King and Queen-streets, is to be taken up by City Engineer Rust immediately on his return from Grand Monday next. The mayor, on leaving for Halifax yesterday, left instructions to that effect. The city council is expected to meet on a devil strip where it is found necessary to reconstruct the foundation.

It is stated that the company would be willing to sell the rails on the city's agreeing to build new roadbeds. To Appeal "Stops" Decision. The Street Railway have notified the court of appeal, whereby the company must accept the schedule of stops proposed by the city engineer. The city solicitor's advice is that a motion will be made before the court of appeal to-day to obtain a writ to go to the city council. The company is prepared to make the required affidavit that at least \$4000 is involved.

New Theatre. A permit for the building of the new Royal Alexandra Theatre on the old U.C.C. property, on the north side of King-street, west of Spadina-street, was granted yesterday. The structure will cost \$120,000. Among the visitors at the city hall yesterday afternoon were several members of the 23rd United States Infantry, Madison Barracks, New York. The soldiers, who have been competing in the rifle matches at Fort Niagara, declared themselves delighted with their inspection of the civic pile.

WHO MAKES YOUR CLOTHES?

The Vogue Tailoring Co. Limited, a company just organized, is making a strong bid for business. A new store will be opened at 9 West Adelaide-street, one of the most central parts of the city. The capitalization of the new company is \$50,000. Connected with this new enterprise is Mr. S. A. Grant, real estate broker; Dr. W. S. Harrison, alderman, and T. H. Wark. Mr. Wark has had a considerable experience in the tailoring business, and only recently severed his connection with one of the leading tailoring establishments of the city in order to take up his duties as manager of the new company. Extensive alterations are now being made in the new show rooms at 3 West Adelaide-street, and when completed they will be among the most attractive in the city. Of course all garments made will be made to order with a positive guarantee as to fit, style and workmanship.

Little Better Wages. Mahanoy City, Pa., Aug. 10.—United States Labor Commissioner F. Neill has notified the anthracite mine operators and the officials of the united mine workers' organization that the rate of wages for employees of the anthracite fields for August, based on the average selling price of coal at \$2.68 per ton, is two per cent. higher than the wages paid in July.

Reasonable Doubt. Fredonia, N. Y., Aug. 10.—Justice Hooker to-day granted a certificate of reasonable doubt in the case of John Convieta, recently convicted of grand larceny in connection with the alleged cemetery-army scandal at Buffalo. Bail was fixed at \$15,000.

Russia to Build Warships. London, Aug. 10.—The Evening Standard to-day announced that enterprises were being made in behalf of the Russian Government, among British shipbuilders, with reference to the construction of battleships.

84-86 YONGE STREET.

EXHIBITION ENTRIES GROW AND EXTRA LARGE TO DATE

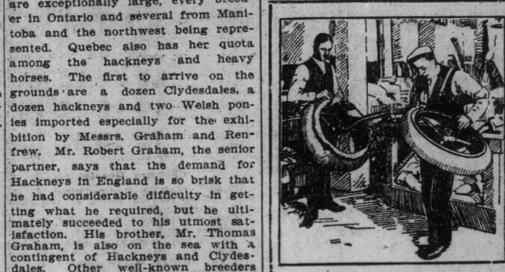

Failure of the Proposed St. Louis Removal to Toronto—Interesting Old Picture.

Entries for the breeding classes in the horse sections at the exhibition are exceptionally large, every breeder in Ontario and several from Manitoba and the northwest being represented. Quebec also has her quota among the hackneys and heavy horses. The first to arrive on the grounds was a dozen Clydesdales, a dozen hackneys and two Welsh ponies imported especially for the exhibition by Messrs. Graham and Renfrew. Mr. Robert Graham, the senior partner, says that the demand for Hackneys in England is so brisk that he had considerable difficulty in getting what he required, but he ultimately succeeded in his utmost satisfaction. His brother, Mr. Thomas Graham, is also on the sea with a contingent of Hackneys and Clydesdales. Other well-known breeders have had importations, so that it can easily be understood that the classes will not only be exceptionally large, but extra special in quality.

Much regret is felt by the executive that the proposition to buy the iron and steel girders from the big building at the World's Fair in St. Louis has failed, the material having been disposed of just a week ago. However, the executive are fully determined to go on with the arena at the earliest possible moment, Architect Gouinlock having the plans well in hand.

A picture about which little has been said, but which will be one of the most enterprising in the grand collection in the art gallery is one painted by G. Thresher, an officer of the French army in 1770, which Sir Purdon Clarke, curator of the Museum of Art, New York, has presented to the exhibition, and which, with Caton Woodville's Dawn of Majuba Day, is to form the nucleus of a national art gallery. The picture represents an Indian in the dress of the St. Lawrence, and shows the Indians of that far-off day were very similar in character and habit to those of the present. Artists who have seen this picture pronounce it of exceptional character and merit.
