29TH YEAR

4000 ACRES WILE BUT NO CASH SUBSIDY

What Govt. is Willing to Do to Assist C.N.R. Line to Sudbury—Mr. Mackenzie is Disappointed.

C.N.R. WANTED: Guarantee of bonds, or land grant of 7500 acres and \$3000 cash per mile.

GOVERNMENT OFFERS: 4000 acres a mile, being about one-half the "clay belt," at present regarded as valueless, minus any rights to minerals and pine timber thereon.

Four thousand acres a mile for the 500 odd miles between Sellwood and Sudbury is the subsidy to be offered the Canadian Northern Railway by the Ontario Government, mineral rights and pine timber to be retained and the land to be given in the clay belt and not in the mineral region.

So Sir James Whitney, before the rising of the legislature yesterday evening, announced the policy of the government towards the Canadian Northern Railway in response to the request of the railway company for assistance.

Sir James displayed a diagram with the assistance of two pages who stood on chairs near the bar of the house.

The C. N. R. which is now partly built west and northwest from Sellwood had made application for railway aid. They made alternative requests in the first place for the portion of track from Sellwood along the north of Lake Superior down along Lake Nipigon to Fort William.

As an alternative the railway asked for a grant of land and a cash subsidy.

The government decided to decline at once any proposition looking to a government guarantee and declined also to look favorably on a land subsidy and cash bonus combined.

The proposer adopted by the government was to offer the company a certain amount of land and he proposed to show why. The suggestion of Allan Studholme that immigrants should be put on the clay belt was measure in sight.

Propositions Compared. Sir James' main argument with which he concluded his speech was that while the government might build an extension of the T. & N. O. Railway westwards the people would value more highly a proposed to give the Canadian Northern Ry. 1,500,000 or 2,000,000 acres, which were now valueless, than the proposal to spend \$25,000,000 in building a government road.

The proposed line from Sellwood to Sudbury ran the country partly through agricultural. From Sellwood thru the lower part of the clay belt was 475 miles.

"We have decided not to assent to any proposition for a guarantee or gift of lands and cash subsidy. But we propose to say to the railway, and, mind you, we are not at all sure what the railway will say in reply, 'If you begin on the clay belt, we will run the road approximately along the line indicated we will give you 4000 acres of land in the clay belt for every mile of road built.'

"We will retain the right to say when the portion of lands given to the company shall be put on the market, and at what price it shall be sold."

To Help Immigrants. It might be said that the road was already in existence and that this connecting link would have to be built anyway, argued Sir James. He thought it would be better, someday, but here came in Mr. Studholme's remark. What were they going to do with the immigrants who came into the province and had nowhere to go?

"I think it is our bounden duty to bring about a condition of affairs which will enable them to enter into this fertile land and become dwellers there."

The time had arrived to stop grants in cash and land. All the old government, federal and provincial, seemed to have run side by side in giving away grants of land and subsidies of money. Many of the enterprises had no foundation. Some of them hoped to sell their charter and often did that.

The present government thought it should be stopped and it stopped. Some exceptions were expected, but he wished to be perfectly frank and did not claim this to be an exceptional case. The Manitoulin Railway was such a case where the people were tied up in winter.

It was necessary to explain the

GERMANY VERY ANXIOUS TO GET CANADA'S TRADE

Extensive Campaign is Planned, Including the Visit of an Influential Delegation.

LONDON, March 18.—(C.A.P.)—Berlin, it is stated that the German-Canadian Economic Association intends to send a delegation to Canada for the purpose of lobbying in favor of German-Canadian trade relations.

The delegation will include representative business men and they hope to reach Canada while the Dominion parliament is in session, and lay before it definite suggestions for relieving the impost which German trade is now suffering.

The association has ambitious plans for furthering German trade interests in Canada, and it is preparing to promote them in a characteristically systematic fashion.

Arrangements are proceeding for booming Canada through Germany by means of public lectures, literature, etc. will be advertised and the wide reaches of the Dominion as homes for German emigrants will be glowingly depicted.

Canada, it is hoped, will in its turn not be ungrateful and will gradually develop a taste for ware "made in Germany." German newspapers also will dispatch special commissioners to Canada this summer.

It is believed negotiations for a tariff power standard; rather upon a quivering morass.

The danger is a threat to our very life. If ever a fact was apparent to any nation that its continuance in prosperity and dignity lay in the maintenance of its great past and noble traditions—its dependence on the maintenance of its life in quantity and quality.

"Now comes the shock administered by the government themselves. The development of German resources will amaze the nation, but unfortunately it has amazed the government first. The nation can no longer sleep, it must shake itself like a strong man and face the facts of its intolerable position."

Must Keep Peace With Rival. The Westminster Gazette says: "What we have to contemplate is the addition of four to the number of German ships which we had expected to be in competition by April, 1912. That addition must be met on our side, if it is to be met at all, by laying down four additional ships in time for them to be in commission by the same date."

The Evening News says: "The debate in parliament on the navy estimates must occasion grave universal concern. Well might the ministerial front bench flinch under Mr. Balfour's words. The German program had admittedly eluded our calculations, yet here we are providing for four new Dreadnaughts—which, even when they are certainties, will only place us on level with the one power standard."

More than that, says the news estimates show, the outlay on new constructions of armaments is less than that of Germany for the first time in English history. It is a bad moment for such a precedent when our responsible leaders seem to admit by a sort of tacit consent that the two power

BANK SECURES TRUST CO.

MONTREAL, March 18.—(Special.)—It is understood that the Montreal Trust and Deposit Company, of which Mr. Robert Archer is president and a capital of \$1,000,000, has been purchased by interests friendly or closely allied to the Royal Bank of Canada.

The story on the street has it that an offer of \$135 per share was made, but that the trust company held out for \$150, and that a compromise has been reached.

Banks generally are looking after trust companies as allies, and the Bank of Montreal has the Royal Trust, and the Commerce has the National. The Montreal Trust and Deposit Company are Hon. E. F. Pearson of Halifax, and Hon. J. G. Macdonald, and Lt.-Col. Hector Frost of this city.

Rodolphe Forget, M.P., and president of the Montreal Stock Exchange, has resigned as director of the Provincial Bank of Canada and has been replaced by Dr. E. P. Lachapelle of Montreal.

ROSEBERY'S NEW SOURCE OF ALARM

Is Territorial Defence Adequate?—London Journals Comment Seriously on McKenna's Announcement.

LONDON, March 18.—(C.A.P.)—The Times and the Daily Mail write the Times that the announcement in the commons on Tuesday was the most critical he remembers. Its gravity lies not so much in the question of the navy that is to be secured, because as soon as the nation realizes the threat to its predominance, it will vote all that is possible, "but what," he says, "becomes of the blue water school with which most of us are in sympathy? Their argument is based on the fact that we had a predominating fleet, which made the islands practically impervious to invasion; that that fact now should be relegated to the region of doubt in the matter of security is not permissible, and so the result of the revelation in the commons is to make us enquire anew strictly into the validity of our arrangements for territorial defence.

Are they adequate? Will the territorial army, even if its ranks be filled, be sufficient? "Those are the real practical, urgent questions to-day."

In the house in common to-night the opposition speakers made a strong effort to force the hands of the government into giving a guarantee that four "conditional" Dreadnaughts should be laid down. Premier Asquith forthwith declined to promise anything except that the vessels would be built if Germany continued her active construction of warships. He argued that this question of Dreadnaughts had nothing to do with the maintenance of a two power standard.

It is believed that the premier's non-committal attitude will occasion renewed agitation by the part of the press and the public.

Sir Gilbert Parker stated to-day: "We must make up our minds to accept the inevitable result of the growth of the national feeling ourselves and encourage the Dominions to build their small navies so as to bring those navies into a geometrical co-ordination with our own."

The Evening Standard says: "The prime minister and Mr. McKenna have been frank with the house of commons. The country has had to wait for the prime minister's statements made last night. We emerge from a maze, not upon safe ground, not even upon grounds of equality with our rivals, but upon a new set of principles, not upon any summit of a two-power standard; rather upon a quivering morass."

The danger is a threat to our very life. If ever a fact was apparent to any nation that its continuance in prosperity and dignity lay in the maintenance of its great past and noble traditions—its dependence on the maintenance of its life in quantity and quality.

"Now comes the shock administered by the government themselves. The development of German resources will amaze the nation, but unfortunately it has amazed the government first. The nation can no longer sleep, it must shake itself like a strong man and face the facts of its intolerable position."

Must Keep Peace With Rival. The Westminster Gazette says: "What we have to contemplate is the addition of four to the number of German ships which we had expected to be in competition by April, 1912. PREMIER WHITNEY: Bah! a bunch of crackers, thrown by a bunch of fakirs.

CANADA HAS TO HELP IN REVISING U.S. TARIFF

Pulp Not "Free" Until Ontario and Quebec Prove Generous—Lumber and Coal Provisions Similar

NEW YORK, March 18.—(Special.)—The Herald's Washington correspondent discussing the Payne tariff bill says: "Do the newspapers get free pulp? Now you see it, now you don't. It is a matter of comment that there are strings tied to some of the articles let in 'free.' Pulp is 'free,' but there is a provision that any country or province that imposes an export duty or tax shall pay the old rate."

Ontario prohibits the exportation of pulp wood. This means that until that is remedied by the parliament of Ontario, pulp will pay one-twelfth of a cent a pound; the present duty of 65¢ a cord on pulp wood cut on crown lands. When such wood is ground into pulp in Canada there is a rebate allowed of 25¢ a cord. This in addition to the one-twelfth a pound imposed there will also be an additional duty under section 2 of the new bill of 25¢ a ton on pulp. The same provision applies to print paper.

The new bill will not give the publishers of cheap newspapers any relief until they induce the Dominion and provincial parliaments of Canada to modify their export laws regarding wood and pulp.

This is also true of lumber. The duty in the bill is cut to one dollar from two dollars on some classes of lumber and from one dollar to fifty cents on others. Under the Payne bill, which takes cognizance of the export tax on Canadian lumber, 20 per cent is added if that tax is not abolished. Thus, until Canada revises its laws lumber that appears to be in course of being shipped to the United States will pay \$1.20 per cord, and that appears to pay 50¢ will pay 60¢.

Similarly as to coal. New England will not get free Canadian coal under the Payne bill unless Canada says so. The provision is that bituminous coal can come in free from any country that imposes no duty "on like articles" exported from the United States. Canada imposes 55¢ on American bituminous coal, and 55¢ on English coal. Until that tariff is removed 75¢ a ton would continue to be collected on Canadian coal under the Payne bill.

OBBLITERATE PARTY LINES

Congressmen Will Fight for Their Own Districts.

WASHINGTON, March 18.—That party lines will be obliterated during the consideration in the house of the Payne Tariff Bill was indicated by the action of Representative Broussard of Louisiana in withdrawing to-day from the meeting of the minority members of the committee because he differed with their views on the tariff.

With few exceptions, each member of the house will fight for the interests of his home district.

Unless a gag rule for the prevention of unlimited amendments under the five minute rule is brought in, the minority members of the ways and means committee will not report a separate bill. Their reports will be drafted by minority leader Clark, and will severely criticize the wool schedule in the new bill. It is contended by the Democrats that it has not been cut sufficiently to place it on a revenue basis.

The inheritance tax, Philippine free trade, internal revenue and maximum and minimum features of the new bill, are endorsed by the minority leaders. Any serious measure by Democratic congressmen.

A number of Democrats will join continuing in favoring the continuation of the duty on lumber. The fight for free lumber will be headed by Champ Clark, it is understood. It is not thought there will be any serious opposition to the tariff placed on tea.

Great Britain and France will be the first countries to secure the benefit of the minimum rates on duty named in the Payne bill.

CONDUCTOR ARRESTED FOR USING "DIGGER"

Thomas Harrison, an Employee for Twenty Years, Charged With Theft From Fare Box.

Another street car conductor has been arrested charged with using a "digger." Thomas Harrison, 201 Markham-street, was taken from a Queen and Dundas car at Richmond and Victoria-streets at 8:30 yesterday afternoon by Detectives Murray and Guthrie. Another man was put on the car. Harrison was taken to police headquarters.

When searched two marked yellow tickets were found in his vest pocket, which the company's officials say were put into the box earlier in the afternoon. Harrison was charged with using a "digger" to get into the fare box.

Harrison said that he had never used this for that purpose.

Division Superintendent McCullough, who swore out the warrant charging Harrison with theft yesterday afternoon, said that this was an unusual case and that the company did not believe that the practice was general, as was the case some years ago.

Harrison has been employed by the company for twenty years, lives with his wife and family at the Markham-street house.

He was admitted to \$400 bail.

OBBLITERATE PARTY LINES

Congressmen Will Fight for Their Own Districts.

WASHINGTON, March 18.—That party lines will be obliterated during the consideration in the house of the Payne Tariff Bill was indicated by the action of Representative Broussard of Louisiana in withdrawing to-day from the meeting of the minority members of the committee because he differed with their views on the tariff.

With few exceptions, each member of the house will fight for the interests of his home district.

SCHOOL BOY KIDNAPPED \$10,000 RANSOM ASKED

Two Men Drove Up to School and Said That Son of Prominent Attorney Was Wanted at Office.

SHARON, Pa., March 18.—William Whitley, son of James P. Whitley, a well-known attorney and former Republican candidate for congress, was kidnapped by two men to-day and later his parents received a letter demanding a ransom of \$10,000.

About 9:30 this morning two men drove up to the boy's school in a buggy and told the janitor that William Whitley was wanted immediately at his father's office. As the teacher was putting on the child's coat she remarked to him, "I hope they are not kidnapping you."

That was the last seen of the boy. The father, James Whitley, was in New Wilmington, Pa., to-day.

When William failed to return home at noon, Mrs. Whitley went to the school and there learned that her son had been taken away by two men. About 1 o'clock this afternoon the postman left a letter at the Whitley home addressed to Mr. Whitley. It demanded \$10,000 ransom.

The letter instructed Mr. Whitley to advertise where the money could be secured.

The police have sent out a description of the men, who are said to be Italians, and have asked the police of nearby towns to cooperate in catching them.

Mr. Whitley is a brother-in-law of F. H. Buhl, the millionaire from major factor. Young Whitley is 8 years old.

The note received at the residence said: "We have your boy and will return him for \$10,000. Will see your advertisement in the papers. Insert in Indianapolis News, Cleveland Press, Pittsburgh Dispatch, Youngstown Vindicator. 'A. A.' will do as requested. J. P. W. 'Dead boys are not desirable."

The penmanship and spelling of the note indicated it had been written by a man of fair education. Mr. Whitley decided to comply with the conditions of the letter and sent for publication to each of the newspapers specified the not it directed him to insert.

Chief of Police Crains to-night received word that the rig in which the child was taken away had been recovered at Warren, Ohio, with the child's name and openness of the abductor attributed his success in getting the child out of Sharon without exciting serious suspicion.

Mayor of Vancouver Will Take Toronto Bride on Return Trip.

Last week C. S. Douglas, mayor of Vancouver, real estate broker, a thoroughly naturalized westerner, convinced the Dominion Government that Vancouver harbor should be improved forthwith, and the dredges will be at work shortly.

While in Ottawa he was introduced to Mrs. Manly, widow of the late principal of Jarvis-street Collegiate Institute.

This week Mr. Douglas renewed his acquaintance in Toronto, and next week there will be a marriage at St. Augustine's Church.

Mr. Douglas is one of the prominent resident of the Pacific province, and Mrs. Manly one of Toronto's society's most esteemed representatives, so that hearty congratulations are in order from the large circle of friends of both.

CONFIDENTIAL FAILS OF DEFERRED ELECTION

Did Martin Burrell and Others, and Tho House Divided 46 Wrong Way, Practice Was Not Practically Defended.

OTTAWA, March 18.—(Special.)—The house divided to-night on Martin Burrell's motion concerning the practice of deferring elections beyond the regular day. Forty-six was the majority rolled up, being one less than the Liberal majority in a full house.

Sir Wilfrid Laurier was at home, not having recovered from his indisposition, but he was paired. Mr. Sifton appeared in the house for the first time since he met with the accident while riding at Washington. He was applauded by the Liberals.

Burrell moved "that this house is of the opinion that for the purpose of ending the elections to exercise the full rights and privileges of their franchise, the general elections should be held on the same day throughout all the provinces of Canada." Under the system of deferred elections the franchise was a crippled, a maimed thing, which has been robbed of half its value.

He would not take the ground that in the past all deferred elections had been unjustified, but he did hold that the 4000 electors in constituencies where elections had been deferred had been practically disfranchised. The opinion of these people had been stifled in the past all deferred elections had been unjustified, but he did hold that the 4000 electors in constituencies where elections had been deferred had been practically disfranchised.

It was possible to hold all the elections on the same day. In 1900 the Yale-Cariboo province was not recognized with the others. In 1905 the election was deferred.

Referring to a previous debate on the subject of Mr. Burrell showed that it had been argued by Mr. Macpherson and Mr. Gallinger that Comox-Atlin was the most inaccessible riding in the province. The recent by-election in Comox-Atlin had a seat for Mr. Tempieman only 29 days elapsed from the issuing of the writ to the day of the election. It was possible to send the writ by wire, and thus save six or seven days.

Mr. Burrell proposed a fixed term, as in the United States.

Matter of Geography. Mr. Congdon (Yukon) said the matter was not one of geographical justice, but one of geographical considerations. He agreed that the elections should all be held on the same day, but it was not practical in the Yukon, and he proposed to submit some amendments to the election act to provide that the return of the writ would be communicated with by telegraph.

Mr. Fielding said the principle of simultaneous polling was accepted by all parties, but owing to geographical conditions it was impracticable. Mr. Burrell had adopted the way which was the least calculated to bring about the reform desired. He could have introduced a bill to remove the exceptions to the act, but he chose to bring another position and introduce a resolution which must be regarded as a solution of confidence motion.

Mr. Atank recalled instances of government supporters submitting a grievance in this way and the government accepted the resolution with good grace. Deferred elections were a substantial grievance. In Gaspé, Chicoutimi and Saguenay there was no serious content until the election would be impossible. The constituency was three-quarters as large as Ontario. The only communication was by steamboat and dog train. He had had to fight for his life in every general election in Gaspé.

Hon. Mr. Tempieman agreed that it was possible to have the polling in Kootenay on the same day as other parts of the Dominion, but in Comox-Atlin (the minister's own constituency) it would be impossible. The constituency was three-quarters as large as Ontario. The only communication was by steamboat and dog train. He had had to fight for his life in every general election in Gaspé.

Hon. Mr. Tempieman agreed that it was possible to have the polling in Kootenay on the same day as other parts of the Dominion, but in Comox-Atlin (the minister's own constituency) it would be impossible. The constituency was three-quarters as large as Ontario. The only communication was by steamboat and dog train. He had had to fight for his life in every general election in Gaspé.

One Candidate's Protest. Mr. Goodeve said that in his own constituency his Liberal opponent, months before the election, declared that deferred elections were vicious in principle and unfair in practice, and he pledged himself that the election would be held on the same date as elsewhere in Canada. But the Liberal committee urged that the election be deferred so as to gain political advantage. The Liberal candidate declared that he had written and even wired to the government at Ottawa that his personal and political honor were at stake, but despite this the government purposely delayed the writ.

Ralph Smith pointed to Mr. Burrell's election as a disproof of his argument that deferred elections were invariably favorable to the government returned at the general election. He hoped, however, the government would reduce the number of deferred elections. He did believe that there had been any necessity for one in Kootenay.

Mr. Foster argued that deferred elections were the enemy of the country, because it gave the opportunity for the

STRANGE MAN IN ALLEY WAS NOTICED BY WOMEN

Just About the Time Ethel Kinrade Was Murdered—Council Discuss Annexation.

HAMILTON, March 18.—(Special.)—The police claim that they have been unable to locate the two witnesses that George S. Lynch Staunton, K.C., says he has who will swear that they saw a man coming out of the Kinrade home shortly before 4 o'clock on the afternoon of the murder. Mr. Staunton declined to divulge the names of the witnesses, but expressed considerable surprise that the police had not come across them.

Between Caroline and Hess on Markland street live Mrs. Cassels, 162 Markland; Mrs. King, 164 Markland; and Mrs. Taylor, 166 Markland. They are about half-way in their block on Markland street as the Kinrades are in their block on Herkimer street. The name of the alleyway is straight, connecting between the Kinrade backyard and the backyard of Mrs. Cassels, Mrs. King of Mrs. Taylor, and the distance altogether is about a block.

Mrs. Cassels states that on the afternoon of the murder, just before 4 o'clock, she was upstairs in her room, and saw a man come up thru her back yard from the lane, pause a moment, and turn east. That is all she saw, and all she noticed about the man was that he had no overcoat on. Mrs. Taylor says she stopped a minute, took a quick look into the alleyway, and saw a strange and frightened man who was afraid to go to the door.

Mrs. King is quoted as saying that the man ran in from the front door of the alleyway and went thru the gate. He was medium height, fair complexion, and looked as if he might have sandy hair. He had no overcoat on, nothing but ordinary clothes, and he had no mitter or hat on.

He went thru the gate into Mrs. Taylor's backyard and ran up the steps, and knocked over the door in rapid succession, then tried the door. The next thing he did was to run down to the bottom of the steps and take something out of his pocket and lay it down there. Then he took a quick look at her window and at Mrs. Taylor's window and put his hand in his pocket and pulled it out two or three times. Then he seemed to pick up whatever he had put down and went out thru the alleyway. When she heard of the murder she suspected this man and Mrs. Taylor telephoned the police about it.

It is probable that before the inquest is closed Mrs. Kinrade and her daughter Florence will be recalled to the witness stand.

Fireworks Explode. There was an explosion about 7 o'clock this afternoon in one of the small sheds used by the W. Hand Company, West King street, for manufacturing fire crackers. The roof of the building was blown off and the workman, Leg O'Brien, who had been filling cannon crackers, was blown out thru the door. He was burned about the back of the neck, but was not seriously injured. The loss was not heavy.

At a special session this evening the council appointed a sub-committee to consider the application for annexation that was presented by 576 of the 720 property owners in the district below Herman street as far as a quarter of a mile east of Ottawa street, but not taking in the jockey club. Ald. Morris thought they should stay at Ottawa street, which would provide for the growth of the city for one hundred years. Mayor McLaren said he would be much disappointed if the city did not extend about four miles east in the next ten years. The mayor announced that he had written to the Ontario Pipe Line Company, which has been imposing a monthly minimum charge of \$1 for natural gas, although its franchise does not permit it to do so. The company promised to do away with the charge, except from May 1 to Oct. 1, and to reduce it during that time to fifty cents.

MORE SALARY INCREASES

School Trustees Can't Leave Well Enough Alone. It was the toughest kind of proposition; but by dint of prolonged and heated argument, Trustee Dr. Bryans and a few other "fair play" advocates managed last night to get the board of education's consent to reconsider of education's consent to reconsider of teachers who claim that more of a salary increase is coming to them than was provided in the management committee's report.

About \$4500 would be added to the pay list. The only special cases dealt with by the management committee were W. L. Macdonald, Riverdale, and A. E. Jewett, Northwest, who were granted \$1000 and \$200 respectively.

Among the trustees of motion introduced were: Davis; that any teacher who is not satisfied with his salary as laid down in the schedule be asked for his resignation; that all senior four pupils be required to pass the regular entrance examination before being allowed to attend fifth book classes.

Simpson: That the schools be opened and closed a half hour earlier during May, June, September and October; that drinking fountains be installed in all schools; that high school fees be abolished.

Houston: That the solicitor and building superintendent proceed at once to acquire the Borden-street site for a technical high school; that the Borden-street site be offered for sale.

Miss Martin: That a high school be established exclusively for girls.

Brown: That Park School be either rebuilt or enlarged. A deputation from Withrow-avenue school protested against the proposition of placing a woman in charge of their school.

Toronto Symphony Orchestra. The subscription sale of seats for the Toronto Symphony concert on the 25th has been longer than usual, but the committee of management announces that there will be many good seats at Massey Hall at \$1.50 and \$1.00, which will be available for the public sale of seats commencing 23rd inst. Five hundred rush seats at \$5 each will also be on sale at the door on the night of the concert, and many will no doubt take advantage of hearing the orchestra and that greatest of violinists, Mischa Elman, at these exceptionally low prices. It has been ascertained that in other cities Mischa Elman draws double these prices, but owing to the love of the committee to furnish the best music at the lowest possible rates, no advance has been made in their regular scale of prices.

Sudbury Sleeper is a Success. C.P.R. officials say that the local sleeping car for Sudbury, which was attached to the 10:15 P.M. train, and has only been in service since Sunday, has already proved a success; the berth passengers holding sleeping car tickets to remain in car until 8:40 A.M. A good connection is made for Sault Ste. Marie, St. Paul and Minneapolis, and passengers holding sleeping car tickets to these points can remain in car at Sudbury until arrival of connecting train.

A MASQUE OF EMPIRE

Patriotic Entertainment Given Under Auspices of the U. E. Loyalists.

A successful and attractive entertainment was given last night at St. George's Hall when "A Masque of Empire" was presented under the patronage of Earl Grey, Sir James Whitney and under the auspices of the United Empire Loyalists' Association of Canada.

The performance was opened by an appropriate recitation by William Sauter, "Let Us Forget." This was followed by a solo by Howard Russell. The throne, which was situated in the centre of the stage, under a large Union Jack, was occupied by Mrs. E. J. Macdonald and her daughter, who were dressed as salutors.

A number of little entertainers in various attires representing the crown colonies, sailors and coasting stations came next. These went thru dances and marches that well deserved the applause they received.

Among those who attended were: Col. and Mrs. Grasset, Miss Grasset, Mr. and Mrs. G. T. Denison, Mrs. Macdonald, Mr. and Mrs. W. L. Macdonald.

At the Hotels. The latest arrivals from New Ontario are Mrs. Frank A. Child of Spence, of Elk Lake, at the Walker and Arch. Campbell of Charlton, at the Iroquois.

Mr. and Mrs. C. A. Proctor of Melbourne are at the Queen's Hotel. Among the guests at the King Edward are Antonio Piere (France), Mr. Augar Harper (Paris, France), Mr. H. Wootton and A. C. Wood (London, Eng.), Jos. E. Seagram and Geo. Weagert (Waterloo), and J. H. Junghans, M.D. (Washington, D.C.), is at the Rossin.

D. J. McKenzie of Vancouver is at the Iroquois. Trolley Hit Cab. One of Patrick Maher's rigs was struck by a street car on Yonge-street yesterday. It was overturned, and the driver, R. Benson, with the occupants, May, June, September and October, that drinking fountains be installed in all schools; that high school fees be abolished.

At the regular meeting of the Foresters' Club of the University of Toronto an address was delivered by Prof. C. D. Howe on the organization and work of the United States forest service. Prof. Howe is a recent addition to the staff of the faculty of forestry, coming to the university from the Moore Forestry School in South Carolina.

The Ontario Library Association has named April 13 and 14 for the annual meeting, to be held at the Canadian Institute, "Cordle Chivers, the well-known editor of the "New York," will be one of the guests.

WAS IN BED FOR THREE MONTHS.

PEOPLE SAID SHE HAD CONSUMPTION.

Read how Mrs. T. G. Buck, Bracebridge, Ont., was cured (and also her little boy) by the use of Dr. Wood's Norway Pine Syrup. She writes: "I thought I would write and let you know the benefit I have received through the use of your Dr. Wood's Norway Pine Syrup. A few years ago I was so badly troubled with my lungs people said I had Consumption, and I could not live through the Fall. I had two doctors attending me and they were very much alarmed about me. I was in bed three months and when I got up I could not walk, so had to go on my hands and knees for three weeks, and my limbs seemed of no use to me. I gave up all hopes of ever getting better when I happened to see in B. B. Almanac that Dr. Wood's Norway Pine Syrup was good for weak lungs. I thought I would try a bottle and by the time I had used it I was a lot better, so got more and it made a complete cure. My little boy was also troubled with weak lungs and it cured him. I keep it in the house all the time and would not be without it for anything."

Deceased Two Doctors. Hyren Baker, 85 Cook-avenue, left this city May 2nd, but before going paid two visits to Dr. W. S. Favens, 1209 College-street, to consult him as to his heart. He ran an account of \$5, which he paid with a worthless cheque, for \$7, receiving the change. He got \$1 from Dr. J. MCB Woods, 469 College-street, in the same way. He was arrested by Detective Cronin last night, charged with fraud.

Day's Doings in YORK COUNTY

EXPLOSION AT LAMBTON WRECKERS FACTORY

Fire at Scarborough Junction—Highland Creek Man Skips Out—Suburban Happenings.

WEST TORONTO, March 18.—Thru neglecting to advertise that he had found a watch, Clarence Hatfield found himself face to face with Magistrate Ellis in the police court this morning. The timepiece was lost by Herbert Macdonald a few days ago, who when he was informed of its whereabouts promptly had a summons issued against Hatfield.

Magistrate Ellis dismissed the case. Johnson McClure, one of the pioneer residents of this city, died today at the age of 80 years. He was buried at 38 Uxbridge-avenue. The funeral service was held this evening and the remains will be sent at 7.30 a.m. to-morrow to the Home Road, where interment takes place.

Fire broke out in one of the forges at the Canada Cycle Plant this forenoon at 10.30. The blaze was put out by the company's fire extinguishers.

HIGHLAND CREEK. Former Well-Known Scarborough Farmer Leaves for Paris Unknown.

HIGHLAND CREEK, March 18.—Two hundred and twenty dollars for a large shed of wheat, "Newfoundland" followed. Miss Dorothea Davis, representative of the large fishing industry of that colony, and "Australia," Miss Edith Sawyer, the "Gibson" were represented by Herbert Macdonald and Strathearn Hay, who were dressed as salutors.

A number of little entertainers in various attires representing the crown colonies, sailors and coasting stations came next. These went thru dances and marches that well deserved the applause they received.

Among those who attended were: Col. and Mrs. Grasset, Miss Grasset, Mr. and Mrs. G. T. Denison, Mrs. Macdonald, Mr. and Mrs. W. L. Macdonald, Mr. and Mrs. W. L. Macdonald, Mr. and Mrs. W. L. Macdonald.

COLDS CURED IN ONE DAY

Munyon's Cold Remedy Relieves the head, throat and "cure" sinus immediately. Checks Fever, stops Discharges of the nose, takes away all aches caused by colds. It cures Grip and obnoxious Coughs and prevents Pneumonia. Price 25c. Have you stiff or swollen joints, no matter how chronic? Ask your druggist for Munyon's Rheumatic Remedy and see how quickly you will be cured. If you have any kidney or bladder trouble get Munyon's Kidney Remedy. Munyon's Vitallizer makes weak men strong and restores lost powers.

o'clock, to which all residents in the new school section of Scarborough are invited. Matters pertaining to the election of three school trustees will be discussed as well as other vital questions. It is important that all residents should be present at this meeting. Election March 31.

HAGERMAN'S CORNERS.

HAGERMAN'S CORNERS, March 18.—(Special.)—Considerable interest centres in the auction sale of horses, cattle and implements belonging to J. C. Vaughn to-morrow (Friday) afternoon, at 1 o'clock. The stock is good and everything goes, as Mr. Vaughn leaves in a few days for Alberta. Don't miss the opportunity.

Credit Sale. Friday, March 19.—Credit sale of farm stock, implements, etc. on Friday March 19th, the property of J. C. Vaughn, near Milliken's Corners. Among the horses to be offered is one registered mare in foal (H. D.), a first-class driver, and general purpose horses, together with registered Holstein cattle and grade cows. No cash. Mr. Vaughn is leaving for Alberta.

All sums of \$10 and under cash, on that amount 10 months' credit on approval notes, six per cent. For cash, J. H. Prentice, auctioneer.

J. G. Lindsey, aged 41, of 58 De Grasse-street, employed by the Turnbull Elevator Company, shoved a chisel into his left hand yesterday. Six stitches were put into the gash at St. Michael's Hospital.

Have You an Unhealthy Skin

IMMEDIATELY your dress or your coat shows sign of wear, you pay attention to it, and have it repaired or renewed. As soon as your gloves wear into holes, you get others.

The mere dead covering to your body, which you can put on and take off, you attend to promptly; but what about your skin itself? Your skin surely calls for more attention than the dead fabrics which cover part of it. You don't give it as much attention, yet you expect it to wear better! See the unwisdom of this?

Winter is just passing. Its cold has split rocks, scarred mountain passes, and iron posts. Yet the delicate fabric of your skin, with its minute pores and blood vessels, its "irrigation system," its "breathing holes," has had to weather it as best it could! You have passed from zero cold to hot rooms; and from hot rooms to freezing air! All tells on the skin.

Can you wonder that you find it blotchy, and with red spots and dark patches here and there? Are you surprised that you have sores, rawness, and chafed places? Perhaps some old sore has again broken out on some part of your body—or some eczema patch is again irritating and painful you. Probably some hidden sore, the result of blood-poisoning, which all unseen and unknown to your friends, is causing you torture day after day!

Let Zam-Buk give you relief. It is made from the healing herbal balm and juices which Nature herself has provided. Zam-Buk is Nature's emollient; Nature's healing and soothing balm. Not only does it possess a natural affinity for the skin, but the skin has an affinity for Zam-Buk. Most of the common sores and embrocations never get beneath the hard cuticle. They are too coarse to be absorbed. Zam-Buk, on the contrary, is readily absorbed; and wherever the skin is injured by accident or eaten by disease, Zam-Buk promotes the growth of new, healthy tissue.

In a sentence, the secret of a clear, smooth, healthy skin, both on face and body, is—keep Zam-Buk handy, and use it daily.

MOTHER GRATEFUL FOR CHILD'S CURE. Mrs. GEORGE BOORMAN, of 906, Selkirk Ave., Winnipeg, says:—"Dimples and sores broke out all over my little girl's face and hands. It was impossible to keep her from rubbing or picking at these sores, and this naturally set up much pain and inflammation. First one ointment and then another was used; but there was no noticeable improvement. A neighbour advised me to try Zam-Buk, and leave off all other remedies. I did as she advised, and a few applications of Zam-Buk soothed the pain and allayed the inflammation. Gradually every scab and pimple disappeared, and the sores were soon healed completely, leaving the child's face smooth and white."

CHEAPER FARM IMPLEMENTS.
 The tariff changes under consideration in the United States include one of reciprocity in agricultural implements. That is, the United States will let in these goods free from Canada as soon as we let theirs in free to Canada. Under this arrangement the manufacturers of each country would have an open market in the adjoining country.

The World has always believed in moderate protection to the agricultural implement concerns of this country; but if the Americans offer reciprocity there will be an agitation among the farmers of the Canadian Northwest such that unless the Canadian manufacturer brings his prices close to those of the American, the government will either have to reduce the duty or accept the reciprocal proposition. The goods, too, must not only be about equal in price, but in quality also.

It is generally understood that the Canadian manufacturers of these goods are at present making enormous profits and are in a position to distribute bonus stock among shareholders if they care to do so. The Canadian farmer is restive under the disparity now existing between the prices of these implements in the United States and in Canada—a disparity altogether in favor of the American farmer as against the Canadian.

The more tariff reduction there is in the United States the greater will be the demand in this country for similar action here.

MR. HALDANE AND IMPERIAL DEFENCE.

Alarm has been expressed in certain quarters that Mr. Haldane's plan for co-ordinating the forces of the empire and creating an imperial general staff means an intention on the part of the British Government to interfere with local control on the part of Canada and the other self-governing states and to use their militia for aggressive purposes. Protests are accordingly being made against the scheme on the ground of "militarism," a vague expression of ominous sound, quite inapplicable to Mr. Haldane's proposal. The memorandum prepared by Gen. W. G. Nicholson—chief of the general staff, makes the nature of the plan perfectly plain, and taken in conjunction with the secretary of war's explanation, shows beyond doubt that there is not the slightest reason in the objections that have been raised.

Under Mr. Haldane's reorganization of the British army an expeditionary force has been provided for overseas work. Upon that force will fall the burden of "militarism," if that word is any way applicable to the policy of a British-Liberal government, or of any British government. As Mr. Haldane

puts it, that expeditionary force has been called into existence because the United Kingdom is responsible for twelve millions of square miles and four hundred millions of human beings—it is the white man's burden of empire. Outside this force there is the second line—what the secretary of war characterized as the local lines—consisting of the territorial army, organized for home defence. It is to this line that the forces of the imperial self-governing states belong and the whole idea is based on the responsibility of each division of the empire for its own defence and the maintenance of its integrity and independence.

This is entirely in accordance with the principle favored by the British self-governing states requiring complete control over their own local forces. It is explicitly recognized by General Nicholson, who, in recommending proposals designed to secure the desired co-ordination as regards training, equipment, etc., adds that the local general staffs "must, of course, be subject in the last resort to the authority of their own government." To ascribe to the imperial government any open or latent attack on imperial state autonomy, as regards the national militia, is to pervert the true object of Mr. Haldane's proposals. All they are designed to do is to "provide a circulation thru the empire of men who are representatives of a school of high military thought, competent to give advice based on a common learning and a common knowledge and a common pattern." That is necessary to operation for a common defensive purpose and includes nothing in the way of "militarism." A strong, self-contained British Empire will make no room for aggression but for peace.

THE WATERWAYS TREATY.

While the waterways treaty as originally adjusted was none too careful of Canadian interests, especially as regards the division of Niagara power, its complexion has been seriously altered for the worse by the adoption of the amendment moved by Senator Smith of Michigan. This directs that the treaty shall be so interpreted as to divide the water power of the Ste. Marie River according to its extent on each side of the international boundary line. If this is to be the rule as regards this river it should apply equally to Niagara, where the configuration of the channel favors the Dominion.

Apart from this, it is of the utmost importance for the future handling of diplomatic negotiations between Canada and the United States, that a firm stand be taken now in the matter of revision by the senate. When the terms of any treaty are satisfactory to the governments on the basis of fair give and take, alterations such as that made by the senate ought not to be accepted without a corresponding advantage to the Dominion. Any other course will simply be taken as an indication of weakness and encourage the U. S. Senate to repeat its familiar tactics. The Dominion Government should either reject the treaty as modified or append a corresponding rider as regards Niagara. In any event the government should stipulate in future that all treaties in which Canada is interested be subject to parliamentary ratification.

IN THE LAW COURTS

ANNOUNCEMENTS.

Osgoode Hall, March 18.
 Judges' chambers will be held on Friday, March 19, at 11 a.m.

 Mr. Alfred Edwin Horace Creswick of Barrie presented his patent as King's witness and was called within the bar.
 Wettlaufer v. Leibler—E. C. Spreeman, for plaintiff, on two motions; G. H.

TONIGHT
Casareno
 THEY WORK WHILE YOU SLEEP

Sedgewick for defendant. By consent, both motions enlarged for one week.
 Donaldson v. James—G. H. Sedgewick, for plaintiff, on motion to continue injunction; G. H. D. Lee, for defendants, asked enlargement. Enlarged for one week.
 Shortreed v. Raven Lake Portland Cement Company—A. E. H. Creswick, for plaintiff, moved for an order for delivery of chattels by the liquidator; A. E. Knox, for the liquidator, raised some preliminary objections to the motion, and on these being over-ruled asked enlargement. Enlarged for one week.
 Lambert, Lambert—S. B. Spencer (Welland), for defendants, moved for writ of attachment to compel plaintiff for plaintiff, contra; B. Strath, for defendants, but not been delivered to his client. Enlarged until April 1 to permit registration of deed and delivery of chattels, and motion may then be resumed if necessary.

Re Distributors Limited (Thurston's case)—A. C. McMaster, for Thurston, on appeal from report of the master, made by him a contributor, asked enlargement; J. A. Macintosh, for liquidator, contra. Leave to move down an application enlarged for one week.
 Hamilton v. Hamilton—G. B. Strath, for plaintiff, moved for judgment pursuant to prayer of statement of claim; no one contra. Judgment declaring conveyance in fee simple and void against plaintiff, and ordering it to be delivered up to be cancelled with costs of action.
 Hayward v. Hayward—A. S. Ball, K.C., for all the adult parties, moved to receive for all the adult parties, moved to receive in the will of Mary A. Hayward; F. W. Harcourt, K.C., for a defendant, contra. Judgment declaring that the devise in the will is of the whole of lot 5, in concession 11 of East Zorra. No order as to costs.

Northern Ontario Laundry Company v. Buffalo Mines—W. J. Clark, for plaintiff, moved for an order to restrain defendants from polluting the waters of a stream, the waters of which are used by the plaintiff; W. J. Milley, for defendants, contra. Motion enlarged to the trial. Venue changed to Sudbury, and parties to go down to trial there on April 28 next.
 Union Trust Company v. Miller—R. T. Harding, for defendant, Miller, moved to set aside judgment for default, on ground that defendant did not know of trial. J. E. Jones, for plaintiffs, contra. Defendant to be brought to Toronto today to make explicit affidavit as to merits. Affidavit to be delivered to plaintiff's solicitor in morning.
 Law v. Foster—S. H. Bradford, K.C., for plaintiffs, judgment creditors of defendant, moved for a receiver. Order made appointing plaintiff receiver without remuneration and without security. Venue changed to the counties coming to defendant from the estate of D. R. Foster to the extent of the plaintiff's judgment debt.

THE LATE SENATOR GOWAN.

Of the then judicial district of Simcoe, he died after 40 years' service. He fathered many law reforms and was more than once offered a superior court judgeship.
 Justice Gowan was one of the three judges investigating the C. P. R. scandal. It was deemed necessary in the year 1887 to make regulations respecting fees under the common law procedure act, and the judges of the Queen's bench and common pleas were entrusted with that duty, having power to associate with them a district judge. They chose Judge Gowan as their associate. A year later a commission of three—Justice Burns, Vice-Chancellor Sprague and Judge Gowan—was appointed to make rules and orders under the act for assimilating the Canadian law of procedure to that of England. About this time Sir James Macaulay was entrusted with the consolidation of the statutes from 1792 to 1858, and Judge Gowan was appointed to assist him. Judge Gowan received many hearty encomiums for the skill displayed in the Sanfield-Macdonald government. In 1871 he was appointed to enquire into the constitution and jurisdiction of the several courts of law and equity in Ontario.

After confederation, when, to make a criminal law uniform throughout the Dominion, it became necessary to consolidate the different statutes in force, Judge Gowan was one of the commissioners of three appointed to carry out the work, and he was in 1874, when the statute law of Ontario was to be consolidated, Attorney-General Mowat sought the assistance of Judge Gowan. He was appointed to the senate in 1885 and later was made a Queen's counsel, and subsequently the degree of L.L.D. was conferred on him by Queen's College.

In 1890 he was called to the Irish bar. In 1893 he was created a C. M. G. in recognition of long and valuable service in the Dominion of Canada, and in his country's distribution of birth-day honors in 1905, knighthood was conferred upon him.
 From the year 1892 till he resigned his seat in the senate in 1907, he was president of the divorce committee in the senate. He always took a keen interest in public and educational affairs, and was at the time of his death a director in several successful Canadian companies.
 He held numerous tokens and addresses of esteem from public bodies and frequently rendered substantial aid to various benevolent and educational institutions.
 At the same time that Judge Gowan was appointed to the bench he was appointed by the crown one of the trustees of the district grammar school at Barrie. On the death of Rev. S. B. Ardagh, M.A., the first chairman (whose daughter Judge Gowan married in 1853), Judge Gowan was elected his successor.

Although a nonagenarian he kept in close touch with public affairs till a short time ago, and till his last illness possessed a memory and intellect almost unimpaired by age. He was a staunch imperialist, a consistent Conservative, and thru his long and active life maintained a high standard of consistency and rectitude.

He joined the Masonic order early in life and was the oldest living member of St. Andrew's Lodge, Toronto, in religion he was an Anglican. Lady Gowan died over three years ago. The nearest relatives are four nephews and two nieces, namely, H. H. Strath, Toronto; A. G. Strath, real estate broker, Toronto; H. H. Ardagh, barrister, Toronto; Miss Elizabeth Strath, Toronto, and Mrs. A. B. Ardagh, Jamaica.
 The funeral, which will take place at 2 p.m. Saturday, from Ardagh, his late residence, to Union Cemetery, Barrie, will be of a private character.

Hand Crushed in Door.

Thru not knowing that the doors of Toronto closed automatically, W. B. Hicks, aged 22, of Paisley, Ont., farmer, attending one of the city hall courts as a witness, got his left hand jammed in the front door of the city hall yesterday. His hand was badly crushed, especially the first finger. It was attended to at St. Michael's Hospital.

SIR JAMES GOWAN DEAD
CAREER LONG AND USEFUL

At Age of 94 End Comes in His Barrie Home After Only a Few Days' Illness.

BARRIE, March 18.—(Special)—Today the citizens here are mourning the death of their most distinguished citizen, Sir James R. Gowan. The venerable knight had been enjoying his usual health up to 9 o'clock Saturday evening last, when he was seized with a fainting spell, which confined him to his bed. Gradually his strength declined till at 2 o'clock this morning the end came. Despite his more than 94 years, he retained remarkable clearness up to the last.

Sir James Gowan was born in Ireland on Dec. 22, 1815, and in the last 75 years has been a resident in Canada. As a student, he enrolled in the militia in the rebellion of 1837, and participated in the fight at Gallows Hill, afterwards receiving a commission. He was called to the bar in 1839, and at the age of 27 he was appointed judge

BARRED AND LIVE STOCK PAGE

SOIL FERTILITY.

It is useless to deny that the soils of Ontario are being depleted by the ordinary course of farming that is being pursued. Every crop that is taken from the soil carries away its quota of plant food, and every gallon of milk, every ton of sugar beets, every load of grain or barrel of fruit carries away from the farm a measurable quantity of the constituents of plant life.

On many farms this has been going on for a long time, without any attempt being made to restore the original fertility. The soil has become "bear all the 'traffic' would stand," like a depleted bank account, and there is no response to draughts upon it.

It has to be fed. This is a principle that every farmer knows. The conditions of barnyard manures and other fertilizers have been made known to him in view, also everyone who puts the manure on the land does not know why he is so placing it. And ignorance of plant needs has caused many losses.

It is absolutely necessary to the successful farmer then that he know what plants require and how the soil is deficient. These facts cannot all be learned by observation, but by reading and close judgment. Almost the poorest farmer can ascertain information respecting his own soil that would enable him to make it tolerably productive. One good way that The World has before it is to suggest, in a series of field or farm by an experiment this year.

Take several equal sized plots after the land has been well cultivated and drained, and try applying those fertilizers in turn and then comparing your results. Most soils are deficient in one or more of the three essentials, nitrogen, phosphoric acid and potash. A succession of plots with single and combined applications of these will tend to tell the farmer something that he would not otherwise know.

The soil should produce double the average of grains and fodder crops that it is doing, and if by intelligent study and judgment a man can increase his income, he owes a duty to himself, his neighbor and his country to do so.

IT DOES THE WORK.

The farm pages of The World were never used more by farmers than they are this spring. The results in every case have warranted the assumption that more farmers are influenced by an advertisement in The World than that in any other medium.

We have watched for these results, and the added value that an advertisement in The World gives produces big results to the farmer who is afraid to spend a little to publish his goods stands in his own light. There are some expenditures that are productive and this is one of them.

KEEP GOOD STOCK.

Farm stock this year has been selling well. Prices for all stock have risen as high, if not higher, than for many years. Notwithstanding the fact that many are leaving the farm, there are others who believe in the future of Ontario and by sound judgment and persevering industry are making things go well for themselves.

The one lesson that these sales teach to farmers is to keep none but the best stock, and then feed them well. Poor stock always eat their own heads off.

DAIRY HERD COMPETITION

Eastern Ontario Dairywomen's Association Will Give Special Prizes.

The Eastern Ontario Dairywomen's Association has decided to offer special prizes for competition among the dairy herds of Eastern Ontario. They have ascertained that the average quantity of milk per cow delivered to the various factories is but 2700 lbs. The association feels that this average is too small, so they have decided to divide Eastern Ontario into five districts, and to offer for each district a special prize, making a total of \$250, as an incentive to patrons, hoping thereby to raise this average.

The following groups of Counties will comprise the various districts, namely:

District No. 1—Peterboro, Ontario, Durham, Victoria, Haliburton, Hastings, less Townships of Sidney, Thurlow and Tyendinago.

District No. 2—Prince Edward, Frontenac, Lennox and Addington, and the Townships of Slidley, Thurlow and Tyendinago.

District No. 3—Leeds, Lanark, Renfrew.

District No. 4—Carleton, Grenville, Dundas.

District No. 5—Glengarry, Russell, Stormont, Prescott.

These special prizes are offered: \$20 in cash—To the patron who furnishes the largest amount of milk per cow to any cheese factory or creamery in any of the foregoing districts from May 1 to Oct. 31, 1909.

\$15 in cash—To the patron who furnishes the second largest amount of milk per cow to any cheese factory or creamery in any of the foregoing districts from May 1 to Oct. 31, 1909.

\$10 in cash—To the patron who furnishes the third largest amount of milk per cow to any cheese factory or creamery in any of the foregoing districts from May 1 to Oct. 31, 1909.

The rules for the competition are: 1. No herd of fewer than eight cows will be allowed to compete. 2. Figures must be taken from the cheese factory books, and the number of cows and the total and average amounts of milk must be certified to by the cheese or buttermaker, and the secretary of the cheese factory or creamery.

3. The average amount of milk per cow must be calculated on the basis of the total number of cows from which milk is sent to the factory during the season of six months, May 1 to Oct. 31, 1909.

4. No substitution of one cow for another will be allowed.

BREAKEY'S SALE.

Next Tuesday another opportunity will be given to purchase farm implements, working teams and district. E. W. Breakey of Newtonbrook will sell all his stock and implements, as he is leaving the farm.

POULTRY RAISING GROWS BARRED ROCKS FAVORED

Visits to Several Breeders' Pens Reveal a Great Interest Taken in Farm Poultry.

Poultry are playing a big part in the farm life of Ontario. What was regarded a few years ago as an addition only to the pin money is now often the leading feature of the income. This has been brought about by the keen demand for years back for eggs and all kinds of dressed poultry. Seeing the returns that can be got from a little care and attention to the feathered members of the farm yard, the farmer has turned his attention into the farm exchequer. Eggs have been retailed for 50 cents a dozen the greater part of the winter, and many farmers are shipping direct to consumers and jobbers their supplies at figures which, though not as high as this, are none the less good.

In the ordinary barn yard fowl there has been a big demand for the utility bird, and consequently the Wyandotte, Rhode Island Red, Orpington and Plymouth Rocks have stood the test well. Perhaps the most widely distributed of all breeds is the barred rock. None has had such a universal approval and no breed has its high prices and special features better worked than this. The judges have been hypercritical. The demand for plumage and form has been incessant. So that to-day the leading strains of Rocks show no black feathers or tendency to such. Whereas in many pens where no thought is taken of the results of mating there has been a noticeable reversion to the original Black Java hen by a very dark plumage, the beautiful and even barring with its snappy appearance draws the attention of every visitor to the pens of our best breeders.

A representative paid a few visits to Wood advertisements this week. Thomas Andrews of the Maple Lane Farm on the broken front of Pickering, which farm lies backing by the sunny beach of Lake Ontario, where the Duffin's Creek swells the flood, has been breeding Barred Rocks alone for nearly 20 years. Unfortunately enough, some few years back, to lose an arm in his farm operations, he perhaps turned his attention more to the development of his favorite breed, and while he is handicapped some, his ambition more than atones for the loss.

Mr. Andrews has always used the double mating system for breeding exhibition pullets and cockers. The pens are kept south and are free from draughts and dampness. The feeding and care of the fowl is a science with him and the results in every case are his snappy appearance fully testified to the attention given. So that his claim that he has as good a flock of birds as can be found in Canada seems within the mark.

There are five breeding pens. The first is a pair of four pullets mated to a cock full brother to the first prize cock in January, 1907, and the first special colored bird and fourth prize cock at the Madison Square Gardens in December, 1907. This is a massive bird of true Rock type, with even all over plumage barred to the skin. He is an excellent sire and has produced a lot of show birds and many of the leading birds at the Canadian shows of his breeding.

The females of this pen are from such sires as Crusader Third, Intruder Fourth and Crusader Fourth, which need no further comment.

In the second pen there is a beautiful silver colored cocker, a son of Crusader Third, who is closely and narrowly barred with excellent back and saddle feathers. He is mated to a female of the above sire and has produced many excellent birds. He expects big results from this pen.

Pullet Mating Pens.

His first pullet-mating pen is headed by a Latham-bred cocker bred from one of his New York prize-winning females. He is a fine bird with good size, nice legs and beak, excellent bay eyes and is a proven prize-winning sire. He is mated to ten close and narrow barred females of good type and snappy in color.

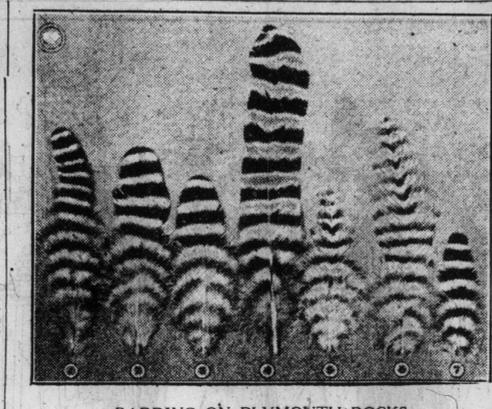

These will certainly give a good account of themselves.

The third pen is headed by a Bright cock—a true Rock type, being extra large and well-colored. He is a proven breeder of excellent stock and is mated to nine females all over the standard. This bird has produced many prizewinners in Ontario and Quebec at the leading shows. Mr. Andrews has had a grade from ocean to ocean.

Another pen of utility birds are certainly of that good order that would commend them to any breeder or farmer who could see them—a fine bunch of even-colored females, headed by a cocker full of good blood. These will no doubt produce buyers, many choice laying fowl, as well as a first-class variety of market fowl. The birds have excellent layers. He thus is enabled to make up choice pens of either pullet or cocker mating types and supply cockeries from that fine bunch that are full of lusty life in one of his pens where he has several together. His postoffice address is Pickering.

Gormley's Favorite Ones.

John Gormley of the Village of Pickering has been breeding in a quiet way for some time from strains of merit on the American side. He added to his flocks a year or so ago by purchasing from the States at prices that seemed so extravagant that he steadily refused the information to his fellow townsmen, but the results have proven the wisdom. His pens is one of the most closely barred birds to be seen and

BARRING ON PLYMOUTH ROCKS.

he claims that he compares most favorably with any one at Guelph, and Mr. Gormley was at Guelph for days studying the breed, one of his pullets having been scored very high by such a judge as Mr. Schwab. The stock was bred by E. L. Miles of Sag Harbor, Long Island, from which pen stock as high as \$150 have been sold. This Montauk strain have won first at all the leading shows. These birds are good layers, and he is not troubled with many setters. The settings of last year to his customers gave much satisfaction.

Jephson Has High Scores.

J. S. Jephson, miller, of Pickering, is another man who has been specializing in Barred Rocks and with Mr. Gormley has secured Miles' stock of the first quality to build on. One of his pullets that is in the breeding pen scored 90 1-2 points by Schwab at Guelph. He has been weeding out the non-layers for a number of years and as a result has a strain hard to beat for productiveness. The fowls have comfortable, clean quarters and a big range, where they get the vitality that ensures fertility in all the hatches. The cock at the head of the leading pen weighs 11 lbs., and is full of Rock quality. A cockerel of 1-1/2 lbs to mate with one pen of select ones will produce something choice from these layers.

Disney's Breeds.

Fred Disney of Greenwood is a chicken fancier, but he does not confine himself to Rocks, although he has some good ones at Hill View Farm. Probably his love goes largely to the Houdans, of which he has an excellent number. The hens are true to type, and have been laying the big white eggs peculiar to this breed nearly all winter, and he claims that they are the farmer's fowl. White Wyandottes, Silver-laced Wyandottes, Buff Orpingtons and Buff Cochins are kept also, and he reports a big business enquiry. As he takes care to ship none but the best, his patrons are well pleased as a rule.

Another admirer of the crested Houdans is H. J. Marquis of Pickering, who has appeared for the first time at the Madison Square Gardens. He desires he claims to have a pen of birds from the Peterson, McAvoy strains that will produce show birds. An American bred cock is at the head of the pen, and he is a royal bird. The hens are fairly dark in color and have splendid feet and combs. A visit to his yard or enquiries will be welcome.

LAUGHLIN'S SALE.

James Laughlin of Cherrywood had a good sale on Wednesday. Auctioneer Powell claims it is one of the best he has officiated at. The horses he sold were largely to the Houdans, three-year-old mares, eligible for registration, sold for \$205, while her mother brought \$215.

Sheep also sold well, grade ewes bringing \$16 to \$20 per pair, and ewe lambs \$10 each. Two Grassmere Gem sows sold for \$50 and \$53. They were good ones and had pigs by side. The implements all went well and prices for some things exceeded the first cost.

SALE CALENDAR.

John W. Breakey's sale of team horses, drivers, implements and milk cows, at Yonge-street, on Tuesday, March 23.

Imported and Can. bred reg. fillies and mares, sale at Union Stock Yards, on Friday, March 26.

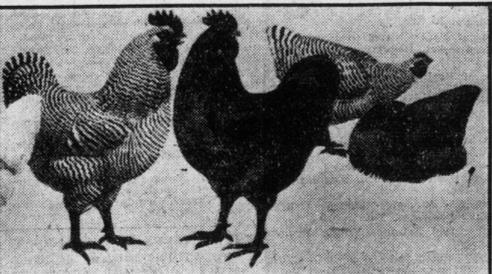

CLYDESDALES FOR SALE.

Buyers of Clydesdale horses will do well to attend the annual sale of Clydesdale horses, at the Union Stock Yards next Friday. Mr. Prouse of Ingersoll supplies 25 fillies, while several others will be sold also.

The arrivals are all on view before the sale and will be good types of this excellent breed of horses.

Morganster, J. H. Morgan, the general that are full of lusty life in one of his pens where he has several together. His postoffice address is Pickering.

John Henderson of Cherrywood got a jolly good lot of team horses on Friday. Prior to his leaving for Winona his friends and church mates met and presented him and his estimable wife with chairs as a token of their esteem. The gathering was a most happy one, and it is much to say, as he said, that he did not have one enemy in Ontario.

BUFF, BARRED AND WHITE ROCKS—THE GREAT UTILITY BIRDS.

CREDIT SALE

The New Things in Suits & Overcoats

Spring Styles for Men Showing in the Men's Store To-Morrow. "NOT how cheap, but how good for the money." That might be said to express the aim and status of the men's store. We emphasize the matter of good taste in men's wear. We don't hold with fads and extremes. Let others do that business. We address ourselves to the sane common sense public - to the man who wants a dignified gentlemanly suit of clothes and the accessories that go with them.

Special Showing of Men's New Spring Overcoats. Men's Spring Weight Coats, made from a dark Oxford grey all-wool imported English cheviot, a handsome durable fabric, Chesterfield style; 47 inches long; lined with fine mohair twill lining; cut loose and roomy; perfect fitting garment. Extra special value, \$12.00.

The New Hats for 1909. Men's Derby or Stiff Hats, in a most complete assortment of all the leading spring, 1909, styles, from the best European and American makers; our lines are most carefully selected, and are dependable hats in every particular, and at prices which will meet almost any purchaser. \$1.00, \$1.50, \$2.00, \$2.50, \$3.00, \$3.50.

1800 Two-Dollar Shirts 79c. 1800 Negligee Shirts, all new spring goods; the majority are traveller's samples; the range of patterns is very broad, including the new 'broad stripe' effects and plain colors; all the popular shirting fabrics represented; a large number are coat style; all have cuffs attached. Sizes 14 to 17. The values are up to \$2.00. (See Yonge Street Windows.)

Men's Gloves and Socks. Men's Gloves, spring wear, grey undressed kid, tan cape leather, dome fasteners, English made, all sizes. Regular \$1.50. Saturday, pair, 95c. Men's Fancy Lisle Thread Socks, German make, fancy patterns, also silk embroidered. Regular 35c, 40c. Saturday, pair, 25c.

A Trimmed Hat for \$5.00. 100 Ladies' Trimmed Hats, splendid designs after the best ideas taken from imported models. The majority of them are for immediate use, both in tailored effects and dressy styles, comprising heavy straw and mohair effects, with a splendid showing of the popular jet trimmed, no duplicates; all colors. Special, Saturday, \$5.00.

Corsets for Saturday. Two models, both right to the minute in style, specially priced as an inducement for you to visit this section Saturday. Both lots came our way at a substantial reduction, and so this is a chance you cannot afford to miss. Phone orders filled.

Thousands of Sample Waists to be Cleared on Saturday. One of the foremost manufacturers of White Waists in Canada has cleared to us his entire sets of 'travellers' samples, 7 sets in all, at about half price, and we are offering them on Saturday in 5 big lots.

A Great Watch Chance. Just 100 of them - each watch is thoroughly guaranteed by the manufacturer and by this store. These are the most popular watches of to-day and are similar in model to a \$10 watch.

The Judgment of Toronto

Verdict Practically Unanimous---The Simpson Idea Triumphantly Vindicated

WE HAVE asked for Toronto's judgment on our Suits. We have waited until a decision became clearly defined. We are now in a position to announce the verdict. Toronto is simply charmed with the Simpson Suits for Spring, 1909! Toronto is delighted with the distinction of the Simpson Suits. Toronto is surprised at the price moderation of the Simpson Suits. Toronto is thoroughly in accord with the tailored simplicity of the Simpson Suits. Toronto emphatically endorses the Simpson Suits.

For three weeks we have been seeking the opinion of our customers. We give above the synopsis of the remarks made by hundreds of ladies who have critically examined our suits right here in the department. In 90 per cent. of those cases the opinion expressed has been backed by purchase, either at the time or later after comparison elsewhere. Three lines in particular have proved successful. Value considered, they are unique. But, apart from mere price, they have a style, an air, a distinction which puts them in a class of their own. We can now with confidence proclaim that the Simpson Suits for Spring, 1909, are RIGHT.

An Opportunity in Dress Goods

25 to 35 Per Cent. Off Regular Prices. WE want you to see our Dress Goods Department to-morrow. Of course many of you HAVE seen it. We want you to come and see it again - to realize it.

It's a wonderful department. So spacious, so rich in all that makes a Dress Goods Department. The aisles, the counters, the light, the quietness of the huge busy place, the undoubted excellence of the choosing manifest in every piece of fabric displayed help to form an impression which, carried away by visitors, will withstand time and any comparison possible on this continent. To make Saturday particularly enjoyable we have accepted a big discount on a quantity of high-grade materials and we will sell them Saturday morning at 65c a yard. As follows:

High-Class Silks Also. A special purchase of rich, handsome Dress Silks came to us at price below regular cost of importation, and the entire advantage goes direct to our customers. 5000 yards Newest Spring Silks, including the most desirable weaves in plain or novelty dress silks.

Groceries Saturday. Fresh Creamery Butter, White Clover Brand, per lb., 30c. One car Fancy Navel Oranges, large size and sweet. Regular 40c per dozen, 31c.

Lisle Gloves 1/2 Price. Women's Lisle Thread Gloves, manufacturer's samples, wrist length, dome fasteners, black, white, grey, mode; all sizes. Regular value 25c, 35c, Saturday 15c.

The Sale of Fancy China

Useful as ornamental. All sorts of china - Japanese, Bavarian, Austrian and English. Much of it is less than half price. Three importers cleared their over-stocks to us and our customers benefit. A large assortment of Japanese Hand Painted Nippon China, Biscuit Jars, Sugars and Creams, Mar-malades, Bon-Bons, Nut Bowls, Fern Pots, Cake Plates, Chocolate Pots, Salad Bowls, Celery Trays, etc. Regular up to \$3.50. Saturday \$1.49.
