## GOVT. MAY CURB THE CEMENT MERGER

### House Will Be Asked to Discuss the Advisability of Removing the Customs Duty.

OTTAWA, Nov. 16.—(Special.)—The commons spent a quiet afternoon today, the only matters of importance being the introduction of bills to amend the Railway Act by Mr. Lester and a statement regarding the cement merger by the minister of finance. There was no question put by Mr. Bradbury that government action of some kind will be taken.

F. D. Monk is evidently still smarting under the attack made upon him by the premier yesterday, for when Sir Wilfrid moved the adjournment of the house, he protested that the government should be ready to proceed with its business, and he declared himself dissatisfied with the reply that there was no government business to go on with.

Some interesting information was given at question time. Bradbury (Selkirk) having requested information regarding the cement merger, Mr. Fielding said that the government had been made aware of it through notices in the public press. The allegation made that, as a result of the merger, the price of cement had gone up, was disputed. There were two ways of dealing with it. One was by the abolition of the customs duties, and the government proposed during the session to make the law dealing with this matter effective. The other method was by prosecution under the criminal code, a matter which was in the hands of the attorney-general of the provinces.

U. S. Navy on the Lakes. Sir Wilfrid Laurier told Col. Worthington (Sherbrooke) that the government did not consider that information being sought by the department of militia regarding United States training on warships on the great lakes should be made public pending diplomatic action. However, the question of the tonnage and armament of these vessels had relation to the Rush-Bagot agreement of 1817. The question of the admission of the vessels had been decided by the governor-in-council.

Foster was told that the royal mint to date had cost \$344,622, \$35,000 would be spent on the building and \$32,000 for equipment.

Hon. G. F. Graham said that the Royal Ste. Marie Drydock and Shipbuilding Co. had made an application for the subsidizing of a drydock and shipbuilding yard at the 800. The dimensions of the proposed drydock are 620 feet long, 32 feet wide at the bottom, 38 feet at the top and 17 feet 6 inches deep at low water.

Veterans Land Grant. Dr. Roche (Montreal) was informed that 6645 South African veterans warrants had been issued, 420 warrants had been issued for land personally by veterans, and 2488 substitutes had been registered.

Hon. Mr. Graham stated to Capt. Wallace (Central) that no special vote had been taken on the Newmarket Canal. The chief engineer allotted for the Haldard River division of the Great Canal in 1909-10, \$50,000 out of \$1,000,000. The amount expended since December, 1906, was, contractors' estimates, \$48,870; engineering pay lists \$289.

Mr. Paquet discovered that the board of management of the Intercolonial Railway were paid \$3000 each, except M. J. Butler, deputy minister of railways, who received nothing for his services.

Mr. Wallace, was informed that the Markham post office building site cost \$100, and the furnishings \$174.

After the Railways. G. A. Lancaster (Inverness) introduced three bills to amend the Railway Act. Proposing that the time of appeal from a judgment of the board of railway commissioners should be five months, and that it should be left to the judgment of the board whether to appeal should be allowed or not. He also wanted to make it clear that the railway board shall have the power of discretion to order the protection of live crossings by railways at the latter's expense.

Hon. Mr. Graham insisted it was evident that this was a subversive of one of the principles of the bill passed last session, but Mr. Lancaster was as emphatic that the railway commission had power only in some cases.

Anti-Gambling Bill. H. H. Miller (South Grey) introduced his anti-gambling bill. He explained that its object was not to suppress betting, but the business of betting and gambling on race tracks.

M. Y. Melean of Huron gives notice of a resolution calling for the appointment of a special committee of five members to revise the rules of parliament, with a view of simplifying the procedure, curtailing unnecessary discussions, and thereby shortening the sessions and curtailing the expense. The committee to have power to sit during the parliamentary recess and report to parliament at its next session.

**WANT CANADIAN COAL**

VICTORIA, B. C., Nov. 16.—Cable advices have been received by the captain of the Melbourne, from Sydney, Australia, that the cargo of all the bulk coal that can be carried on the return voyage, owing to the coal shortage in Australia. The message stated that the price of coal had risen from six shillings a ton to sixty shillings.

## LET PEOPLE FIRST APPROVE OF BUDGET

### Lord Lansdowne Gives Formal Notice of Intention of Lords to Reject Finance Bill.

LONDON, Nov. 16.—In the house of lords to-day, Lord Lansdowne leader of the opposition, gave the formal and expected notice of his intention to move for the rejection of the budget bill when it comes up next Monday. His motion, he said, would be expressed thus: "I move that this house is not justified in giving its consent to this bill, until it has been submitted to the judgment of the commons."

The terms of Lord Lansdowne's motion were communicated to Premier Asquith and discussed by the cabinet council. The Unionists anticipate that 200 peers will support Lord Lansdowne, while the supporters of the government number only 40. On the rejection of the budget bill it is expected that the premier will move in the house of commons a resolution strongly condemning the peers' action, affirming the sole right of the house of commons to deal with matters of taxation and declaring the peers' attempt to force a dissolution to be unconstitutional.

What further course Premier Asquith will take is not yet known, but it is quite unlikely that the cabinet will resign unless the government is defeated in the election. Therefore, it is suggested that conference of party leaders should be held to devise means. Mr. Balfour, the leader of the opposition in the house of commons, is understood to be engaged to deliver a speech at Manchester to-morrow night, which probably will outline the Unionist party's election manifesto.

In the meantime, Winston Spencer Churchill is first in the field with a manifesto from the Liberal standpoint. In a letter on the subject, he claims that the power to force dissolution is the prerogative of the crown, and that finance is the exclusive privilege and right of the commons. Therefore, he argues, the rejection of the budget is a double invasion by the lords, both of the royal prerogative and of the commons' privilege, and further if the lords establish at the general election their right to control the country's finances, they will force the dissolution of parliament every year.

The election campaign will now be carried on with redoubled energy. The chief Liberal who to-night issued an urgent appeal to the labor party, involving friendly agreement with the object of avoiding triangular contests, which already have lost several seats for the Liberals.

The Liberal newspapers describe Lord Lansdowne's motion as an act of war.

**NEW WESTERN RAILWAY**  
From Lake Winnipeg to Port Churchill, Ill. in Hudson Bay.

MONTREAL, Nov. 16.—(Special.)—An application will be made to parliament for a charter to construct a railway, extending from 100 to 200 miles from a port on the north shore of Lake Winnipeg, to connect with the proposed railway from the Pass to either Port Churchill or to Nelson, somewhat to the south. Smith, Markey, Skinner, Puseley and Hyde, Montreal, are solicitors of the enterprise, representing western men who dream of a land and water route from the City of Winnipeg to Hudson Bay, irrespective of the proposed route.

It is generally known in engineering circles that by the opening of next season's navigation the great undertakings on the Red River, known as the St. Andrew's locks, near Selkirk, will be completed, permitting steamers from all the ports on Lake Winnipeg to land wood cargoes at Winnipeg, thus saving the citizens in their fuel bill alone a round million dollars a year.

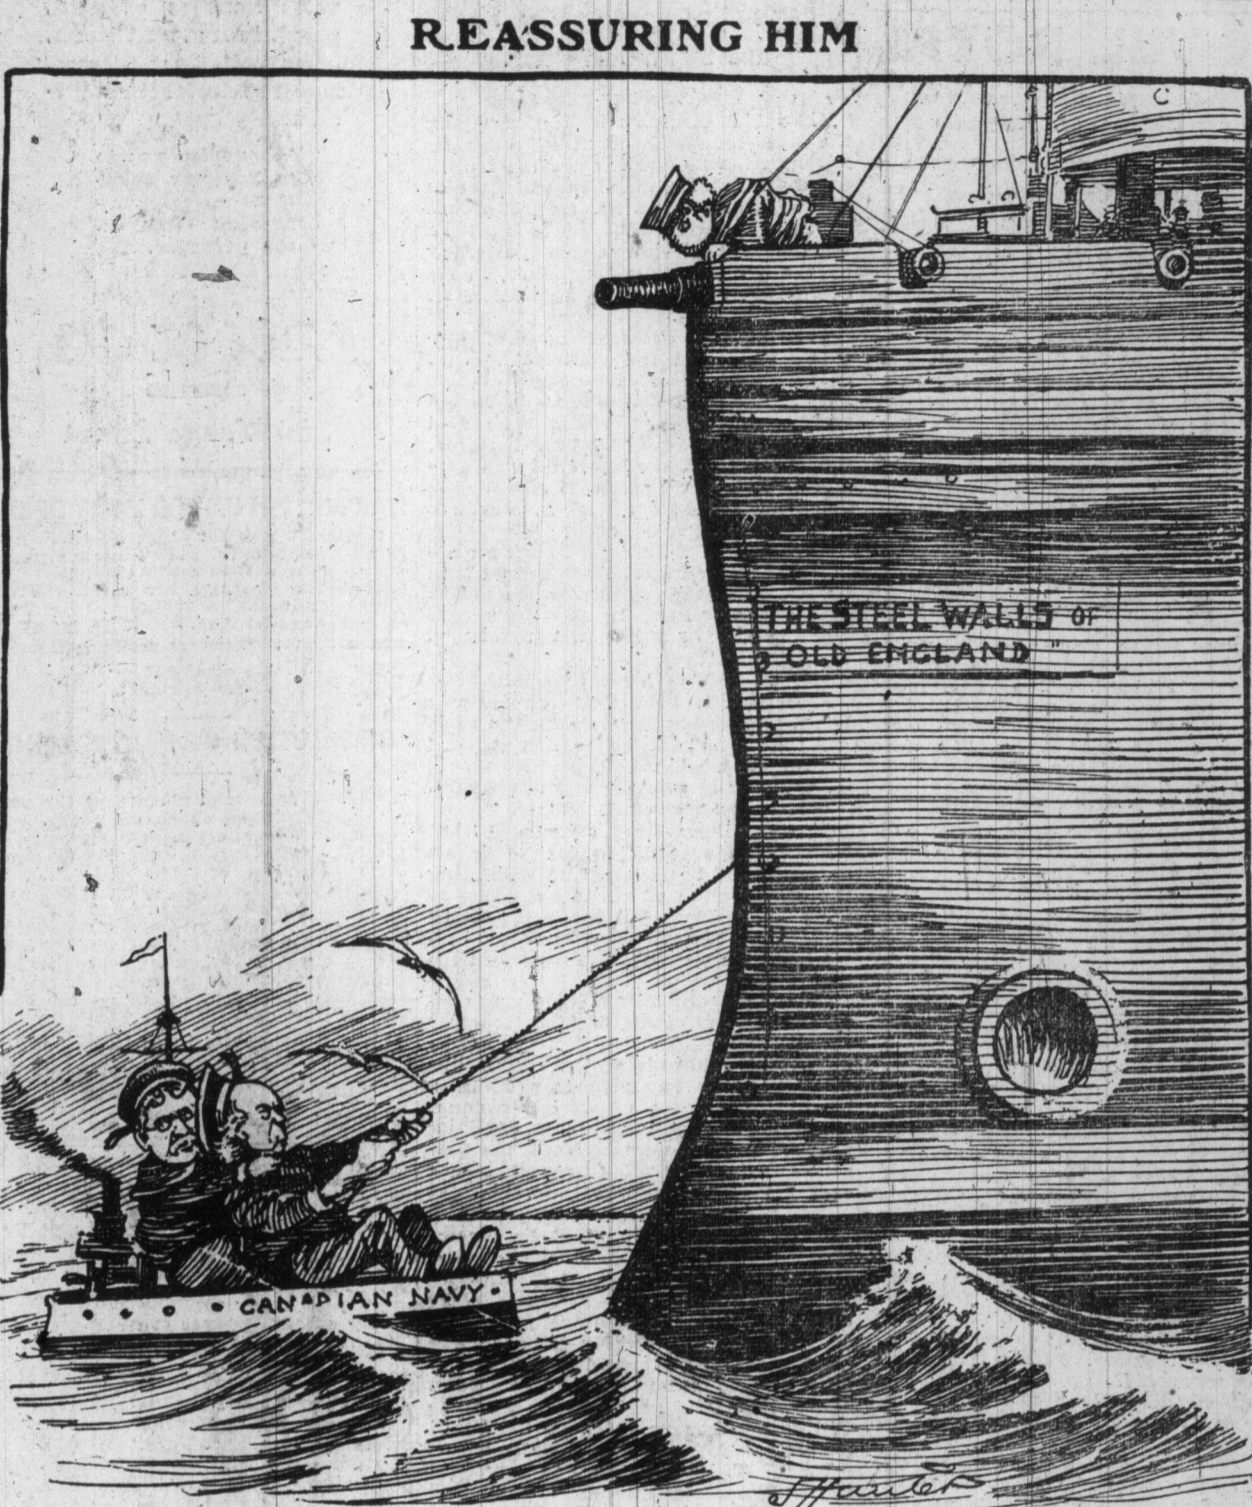

**THE SENATE AND THE NAVY**  
Hon. G. W. Ross Would Have It Made in Canada.

OTTAWA, Nov. 16.—(Special.)—The senate to-day commenced a series of speeches on the address in reply to the speech from the throne. Senator G. W. Ross, in moving the address, dwelt largely on the question of naval defence, and actually, a national, her nationality should be rounded off by the creation of an efficient navy. He believed Canada should build her own navy in her own shipyards. Armor plate and everything, except perhaps the armament, should be built in Canada.

Senator Boyer, who seconded the address, approved of the naval resolution adopted by parliament last session. As for a direct contribution to the British navy, it was not his business to dignify a country to hire others to defend it.

Sir Richard Cartwright said the independence bill would be introduced in the senate so soon as the debate on the address was over. It would be substantially the same bill as last year with a few minor changes.

Rev. J. L. Gordon, formerly of Bond-street Congregational Church, Toronto, may be a citizen's moral reform association candidate for the Winnipeg mayoralty.

## PHONE TRUST ABSORBS WESTERN UNION TEL. CO.

### Will Effect a Huge Saving in Construction and Operating Expenses, Say the Officials.

NEW YORK, N.Y., Nov. 16.—The control of the Western Union Telephone Company passed to-day to the American Telephone and Telegraph Company, and a long step was taken toward the merging of the telephone and telegraph companies into a corporation with a capitalization of nearly \$1,000,000,000.

Theodore Vail, president of the telephone company, said: "There is much to be gained by the joint construction and maintenance of plant, and by its common use to the greatest possible extent, but the greatest advantage will follow the placing of the millions of telephone subscribers in close and reliable connection with the receiving and dispatching offices of the telegraph companies."

Official denial was given of reports that President Clowry, and Assistant General Manager Barclay would resign from the enterprise. It was reported that William H. Baker, formerly vice-president and general manager of the Postal Telegraph Company, would become general manager of the Western Union.

The Western Union, one of the pet properties of the late Jay Gould, has been in the Gould family for a generation, and it was by the sale of Gould stock to-day that the merger was accomplished.

The history of the telephone company dates back to before the civil war, but the Bell company is of comparatively recent origin. Both companies pursued the usual method of absorbing smaller companies. The actual figures issued here to-day are as follows:

Telephone system: Total assets, \$80,044,200; capital stock, \$31,137,300; bonded debt, \$28,680,500; property account, \$54,045,500; gross earnings, \$10,124,086.20; net earnings, \$30,541,072; net earnings, \$7,347,107; miles of wire, 1,382,500.

The telephone system annually transmits 4,566,000,000 messages, the Western Union 68,053,000.

The smaller companies acquired by the Western Union have been the Bell Telephone Company, the Associated Corporations engaged in the telephone business, the majority of whose stocks are in the treasury of the parent concern, are: New York Telephone Co., \$50,000,000; New England Telephone and Telegraph Co., \$31,700,000; Bell Telephone Company of Pennsylvania, \$31,150,000; New York and New Jersey Telephone Co., \$25,400,000; Southern Bell Telephone Co., \$21,400,000; Cumberland Telephone and Telegraph Co., \$18,000,000; Chicago Telephone Co., \$17,500,000; Western Telephone and Telegraph Co., \$16,000,000; Bell Telephone Co. of Canada, \$12,500,000.

## REASSURING HIM

### SENATOR KEPT DIGNITY BUT LOST LUNCHEON

### Hon. Mr. Landry Tells the Senate Just What Happened at Spencerwood and Why.

OTTAWA, Nov. 16.—(Special.)—In the senate to-day, Senator Landry called attention to a report in the Montreal Herald of 10th, which credited Senator Landry with having created a scene at Spencerwood, at a luncheon by the lieutenant-governor, by re-appearing having been placed below Judge Langelier at the table.

Senator Landry, pointing out that Judge Langelier was the sergeant-at-arms of the Quebec Legislative Council, showed the question of precedence between a senator and a deputy lieutenant-governor had been raised by Senator Landry in connection with the opening of the legislature, and that the question had been referred to a committee for decision.

Before accepting the invitation to the luncheon, Senator Landry wrote the lieutenant-governor, A. D. C., pointing out that Judge Langelier was not entitled to rank as chief justice, nor as deputy governor for there was no such position in the opinion of the lieutenant-governor.

Senator Landry said that he believed his duty to attend and he had written, accepting and intimating that he expected to be placed before Judge Langelier. Accordingly, he went to the luncheon. He did not want to displace Judge Routhier, and he did not want his place because it would leave him below Judge Langelier. He had not created a scene, but merely left after giving the A.D.C. a letter to the lieutenant-governor declining the invitation because his rank as a senator had not been recognized. He had not taken this stand for personal reasons, but to maintain the rights of the senate.

Sir Richard Cartwright said he was sorry Senator Landry had lost his dinner. He would have the question of precedence investigated.

## DIVERSE OPINIONS ON THE NAVAL POLICY

### Representative Canadians, Agreeing That Aid Is Imperative, Differ on the Course to Be Followed.

The discussion in the house of commons on Monday concerning Canadian attitude toward the Empire's defence has quickened the general interest, as the expressions of opinion herewith show.

MONTREAL, Nov. 16.—(Special.)—Altho the papers here have not given full reports of W. F. Maclean's speech at Ottawa on the address from the Brown, there is a general feeling expressed that the member for York voiced public sentiment very faithfully when he came out in favor of a cash contribution to the naval defence of the British Empire.

Robert Meighen, president of the Lake of the Woods Milling Co., and one of the closest observers in imperial matters, as well as being the father of the imperial preference resolution in the Montreal Board of Trade, shares the opinion of The World's editor, saying that eight millions of people can well afford to give six or eight millions of dollars to the cause. He also believes that in five years England will have adopted a strong protective policy, and while their duties will go up against the world, they will only tax Canada 10 per cent. The Dominion, he says, will then be sending farm produce to Britain, to the value of three hundred millions, to the great market of the world, and that means a straight contribution of thirty millions.

Now is the Time. All this, Mr. Meighen adds, would be avoided if Canada would only recognize her responsibility to the Empire, and make a generous contribution at once, otherwise she will pass for a hand of parasites. He would not pronounce himself on the question of the Canadian navy, but was against Mr. Monk's argument in toto.

William Fanshull, president of the Eastern Townships Bank, advocates the same policy as Mr. Maclean, saying that Canada will never be able, within ten years, to do anything in the way of building a navy, unless she should let us attempt to build a Canadian navy, but was against Mr. Monk's argument in toto.

Several other gentlemen expressed themselves in the same way, except that they thought the nation should contribute the cash and let it rest at that.

Rodolph Forget, M.P., it is understood, is favorable to a cash contribution, but he would like to see training ships placed in Canadian waters, so that hardy, active Canadians can be trained to participate in the royal navy.

Wouldn't Attempt Both. ST. JOHN, N. B., Nov. 16.—(Special.)—News from here is that Maclean excites more interest than here. In expressing his opinions to-day Mayor Bullock said: "I heartily agree with W. F. Maclean, M.P., when he says that Canada is at the parting of the ways, and must either set her face against co-operation in imperial affairs or join it. I believe with him, too, that Canada is in honor bound to follow the latter course and share the responsibilities and burdens with the mother country. I am, however, strongly in favor of centralization in this matter. Let us have a navy of our own, giving our whole thought and our entire contribution to it, or else let us cast aside all idea of a Canadian navy and make a cash contribution to the British navy. Under no circumstances let us attempt both. Personally I strongly favor a Canadian navy."

Rev. J. J. McCaskill said: "I support Mr. Maclean in his idea of a cash contribution to Britain's navy, but I agree with no man who says, 'Let us have a Canadian navy.' The mad race for Dreadnaughts will be past before Canada could build a navy that would be of any assistance in case of war. The present course of England and Germany will, if persisted in, lead them straight to national bankruptcy. It is a simple problem of mathematics. Canada will contribute much more to the assistance and stability of the Empire by studying ways and methods for internal development, and preparing an asylum here for the oppressed of all nations, where the blind may receive their sight, the lame walk, and the misguided find direction. The best contribution we can bring to the subject is a clear vision.

Relieves no Burden. "A Canadian navy willtake nothing from the burden of the British peasant or from the burden of the German peasant, and it is impossible that the toilers of both those countries will much longer allow their rulers to pursue a course of national suicide. In reference to a Canadian navy, our present parliament has no mandate from the people for this step. The

**Fight in Chinese Restaurant—Mayor's Recent Actions on Power Bylaw—Happenings.**

HAMILTON, Nov. 16.—(Special.)—There was a lively row at a Chinese restaurant at 215 North James-street, conducted by Leon Young, this evening. Jack Teepe, North Hughson street, went into the place about 8 o'clock to get a meal, and had trouble with one of the waiters. Teepe claims that the Chinaman broke a bottle over his head, inflicting a couple of lacerations that had to be sewed up at the city hospital. He applied for a warrant for the arrest of the Chinaman William Smith, ex-city foreman, went to the rescue of Teepe.

The Liberal Association this evening elected the following officers: P. D. Greer, P.C., president; Jos. Kirkpatrick and John Lennox, vice-presidents for West Hamilton, and Chas. G. Cooper, Peter Armstrong, W. J. Atchison, Fred Littlewood and W. M. McClelland members of the executive; Aid. Gardner and Arthur O'Heir, vice-presidents for East Hamilton, and Calvin Davis, R. T. Land, Aid. Robson, Jas. Matthews and R. B. Speers members of the executive. President Greer presented the association with a copy of W. J. L. Forster's portrait of Laurier.

Rev. Dr. Walls, Caledonia, had two calls, one to Lachine, and another to Drummondville, this afternoon. With the approval of the Hamilton presbytery, he accepted the latter. December 20 was set as the date for the induction of Rev. J. M. Dickie at Port Colborne.

**Methodist W.M.S.**  
 The annual district convention of the Women's Missionary Society of the Methodist Church was held this afternoon and evening in First Methodist Church. The district organizer, Mrs. Wm. Crawford, who presided, resigned, and Mrs. Theo Parr was elected as her successor. Mrs. Andrew Ross was appointed secretary-treasurer. Mrs. Gay-fer conducted a "quiz" conference. Miss Scott delivered an address. In her valedictory address, Mrs. Crawford reported that receipts for general missions amounted to \$118,917, an increase of \$2,000 over the previous year.

It is reported that the Watkins store has been sold, and that the purchasers are H. B. Clifton & Co., proprietors of one of the big New York stores.

### Intestinal Indigestion

A Form of Dyspepsia Usually Resulting From the Inability to Digest Starchy Foods.

There are a great many persons who are victims of what is known as intestinal indigestion, a disease which is due to the fact that the starchy foods are either partially digested or not digested at all, and the result of this trouble may be either an obstinate constipation or a torrid diarrhoea.

This inefficiency to digest starch is called "amylaceous dyspepsia," a disease which is much in evidence. Americans are notoriously poor digesters of starch, and as starchy foods, such as potatoes, rice, bread, etc., are digested in the small intestine, and not in the stomach proper, as is generally supposed, it can be readily seen how intestinal indigestion will usually produce diarrhoea.

In the small intestine the pancreatic juice acts upon the starches and ordinarily, in a state of health, possesses the power of converting every particle of grape sugar and dextrose. Starch must be so transformed before it can be used in the animal system. Remaining unchanged starch, if either passes through the alimentary canal, and proves a useless burden to the system, because it resists absorption, or causes intestinal indigestion, the food products becoming acid through putrefaction, which often sets up a catarrhal inflammation of the intestine, resulting in diarrhoea.

In a complaint of this character many persons use paregoric, Squibb's bismuth and tannin to relieve the diarrhoea, all of these remedies being powerfully astringent, and they stop entirely in the small intestine, and which the trouble suddenly "booming up" the morbid secretions, throwing the toxic intestinal poison back on the system, and often causing death through auto-intoxication.

**STUART'S DYSPEPSIA TABLETS** contain among other powerful digestives, a substance called diastase, which thoroughly digests every particle of starchy foods in the small intestine, and prevents the possibility of intestinal indigestion, no matter how excessive may be the amount of food eaten.

These tablets also contain calcium carbonate, which is a mild though effective sub-astringent, and which relieves and cures the diarrhoea by easy stages. It does not act with such suddenness as would cause poisoning of the system, but on the contrary, by its antiseptic properties, all toxins, intestinal germs and poisons always present in intestinal indigestion and diarrhoea, are destroyed.

Not only are the starches digested by the use of Stuart's Dyspepsia Tablets, but through the action of other ingredients they contain, albuminous food-like meat and eggs are also digested. Thus they cure indigestion of any kind. Buy a package from your druggist to-day for 50 cents and send your name and address for free sample package. Address: F. A. Stuart, Co., 159 Stuart Building, Marshall, Mich.

Adam Beck, chairman of the commission, urging the pro-Cataract views and altho the ratemakers on three occasions have voted for the full contract with the commission, he says in his letter that they are asking for the concessions he is demanding.

The Ontario Railway and Municipal Board has given a decision in which it holds that the Hamilton Street Railway must repair the pavement beneath its tracks and for a distance of two feet outside of the rails. The company disputed its liability for the space two feet outside. A large sum is involved. The company will likely appeal.

Charles Smith, charged with carving Fred Peterson with a razor, was found guilty by Judge Most of carrying a dangerous weapon, and fined \$25 for three months. James Wise, East Flamboro, was fined \$50, or six months for assaulting the three-year-old daughter of James O'Grubrich.

### CLAIM YOUTH IS INSANE

**And That's Why He Shot Policemen—Wilcox's Majority.**  
 WINDSOR, Nov. 16.—(Special.)—Richard Kraft, a Berlin youth, charged with attempted murder on May 6, was brought to trial this afternoon before Justice Magaw at Sandwich. He is accused of shooting Sgt. Reid, of the London police, and Janitor Quady, who related the circumstances. Kraft had been arrested for theft of a bicycle, and fired at the men in escaping from the police station. Later he is not entirely recovered.

Mrs. Kraft, mother of the prisoner, gave evidence thru an interpreter from Detroit. An effort was made to show that the prisoner is subject to epilepsy, and counsel for accused, Barrister Hanna and Clay, will attempt to show temporary insanity. This will be opposed by Drs. R. Bruce Smith, and H. R. Casgrain, jail physician, who assess Kraft as sane.

A. P. E. Panet, returning officer, opened ballot boxes this afternoon and at 10 o'clock Oliver Wilcox elected by 88 majority.

### A STANDARD ARC LAMP

Niagara Power Municipalities Considering Uniform Equipment.  
 A special committee dealing with the standardization of equipment reported yesterday's meeting of engineers, representing the 12 municipalities in the Niagara Power Union, in favor of the adoption of a luminous arc lamp in business districts and a similar type in business districts and a similar type in residential districts, the latter to be placed from 125 to 150 feet apart, to overcome any interference of trees. E. I. Sifton, electrical engineer, of London, Ont., was asked to prepare a bylaw for the protection of the wiring. The engineers will meet again this morning.

### POPE'S EPISCOPAL JUBILEE.

ROME, Nov. 16.—The episcopal jubilee of Pope Pius X, occurred to-day. Many messages of congratulation and well-wishes reached the Vatican. The pope desired to spend the day quietly. The rumor is persistent that Monsignor Falconio, apostolic delegate at Washington, will be created a cardinal.

**More Playgrounds Needed.**  
 At the meeting of the executive committee of the Toronto Playgrounds Association yesterday afternoon in the city hall, was decided to have Dr. L. G. Gulch, of New York, represent the association early in December in Association Hall, on supervised playgrounds.

The establishment of a playground at Arnold-square was recommended, and a petition will be forwarded to the city council, that building be set aside for a skating rink in Exhibition park.

### Thaw Visits New York.

NEW YORK, Nov. 16.—Harry K. Thaw was brought to New York to-day to testify for his mother in resisting a suit for \$7000 for services rendered brought by Dr. Allan McLane Hamilton, an alienist. At noon Thaw protested so vigorously in the street with Dr. Baker of the asylum that he was permitted to lunch at a certain well-known restaurant that a large crowd gathered.

### Bues Madame Steinhilf.

PARISH, Nov. 16.—Frederick B. Burleigh, an American newspaperman, at one time accused by Mme. Steinhilf of complicity in murder, to-day brought suit for \$4000 damages for alleged false accusations. Rent Controller is believed to have also accused of the crimes by his mistress, threatens to institute a libel suit against her.

### Fatal Fire in New York.

NEW YORK, Nov. 16.—At a fire in Globelille's wallpaper plant on West 44th-street late to-day one girl is believed to have been burned to death and three firemen and a policeman are suffering from burns received rescuing the 115 employees. An explosion of chemicals started it. Many men and women leaped from the windows.

### CITY HOPES TO PREVENT OVERCROWDING OF CARS

**Ald. Church's Plan to Secure Legislation Approved by Fire and Light Committee.**  
 That Ald. Church's idea of stopping the over-crowding of street cars by legislation, which will class the trolley car as a building and hence subject to the same control as theatres, churches or other public buildings, is worth a trial, was the view taken yesterday by the fire and light committee, in recommending that such legislation be sought.

Ald. Church declared medical evidence supported the contention that crowding in street cars spread disease germs, and that hence the city had a right to interfere. It might be said that the company had vested rights, but so also had the churches and theatres. The law prevented steam cars and streetcars from being over-crowded, so why not street cars?

The Ald. McKillop argued that such an application would be paid to the Ontario Railway Board. It meant asking the railway to add more cars and the city had no power to compel this.

**Could Override Agreement.**  
 Ald. Church held that the railway board had nothing to do with the case. All that was wanted was a general act for the whole province. This would have power to override any agreement.

**Transfer of Authority.**  
 City Engineer Rust announced that he was quite ready to appoint his authority in the matter of regulating the construction of street headings to the city architect, but the latter stated that his inspectors were already overloaded. He was asked to report on the assistance needed.

On the assessment commissioner's recommendation it is decided to set the following fire brick limit in Riverdale: North boundary, the centre line of Denforth-avenue; eastern limit, a 120 foot street fronting Denforth-avenue; south limit, the centre line of Bathurst-avenue; and the western limit, the present fire limit, extending several blocks east from the latter.

**Looks Like Drayton.**  
 That H. L. Drayton will be recommended for the office of city councillor by the board of control, at a salary of \$1000 a pretty well mean salary. The board had a private meeting yesterday, at which the name of Mr. Drayton was mentioned. He has stated that he is not unwilling to accept the appointment, but will be openly nominated by the board of control.

W. T. Parry, who was appointed jail surgeon early in the year, wanted the board to reimburse him \$30 he paid to a substitute during his absence on a medical leave of absence. The board voted for the grant.

The board agreed to allow the city to acquire a building permit should it be unwilling to accept the appointment of Mrs. Mary Lane, who wants to erect a large boarding house on Iron-ore-street, near the Island, against the wishes of residents.

The suggestion of Dr. Allan Hazen that all water services should be metered, is being considered by the Waterworks Engineer. He says that if 60,000 meters were installed the cost would be about \$720,000, but that the attention to leaking taps would compensate for the outlay.

**Save \$18,000 on Bridge.**  
 Chief Engineer Mountain of the Dominion Inland Navigation Commission saw the city engineer yesterday afternoon respecting a proposed change in the plans of the high level bridge at the Queen-street crossing of the Don, or Queens-avenue. He stated that the claims that by using prestresswork instead of solid filling for a portion of the bridge, \$18,000 can be saved. Mr. Mountain is not at all sure, but the manager Arthur Hewitt of the Consumers' Gas Co. has written the mayor inquiring of the company's practice of refusing to accept the appointment of security from intending consumers. He declares that the system is used by gas companies everywhere, and that indiscriminate credit would mean heavy loss annually to the company.

Too Many Voters to Each as Present Constituted.  
 GALT, Nov. 16.—(Special.)—How many other towns are in the awkward position of Galt in respect of failure to comply with the Voters' List Act as to the creation of polling subdivisions? Aid. Webster startled the council when he announced that all elections for the past year have been taken in ward four, 280, and in ward five 880. The mayor ventured the opinion that the irregularity might be serious in regard to money by-passed. Sixty wards would be necessary to make the use of twelve polling subdivisions, the attorney-general's department must be appealed to.

### CITY HOPES TO PREVENT OVERCROWDING OF CARS

**Ald. Church's Plan to Secure Legislation Approved by Fire and Light Committee.**  
 That Ald. Church's idea of stopping the over-crowding of street cars by legislation, which will class the trolley car as a building and hence subject to the same control as theatres, churches or other public buildings, is worth a trial, was the view taken yesterday by the fire and light committee, in recommending that such legislation be sought.

Ald. Church declared medical evidence supported the contention that crowding in street cars spread disease germs, and that hence the city had a right to interfere. It might be said that the company had vested rights, but so also had the churches and theatres. The law prevented steam cars and streetcars from being over-crowded, so why not street cars?

The Ald. McKillop argued that such an application would be paid to the Ontario Railway Board. It meant asking the railway to add more cars and the city had no power to compel this.

**Could Override Agreement.**  
 Ald. Church held that the railway board had nothing to do with the case. All that was wanted was a general act for the whole province. This would have power to override any agreement.

**Transfer of Authority.**  
 City Engineer Rust announced that he was quite ready to appoint his authority in the matter of regulating the construction of street headings to the city architect, but the latter stated that his inspectors were already overloaded. He was asked to report on the assistance needed.

On the assessment commissioner's recommendation it is decided to set the following fire brick limit in Riverdale: North boundary, the centre line of Denforth-avenue; eastern limit, a 120 foot street fronting Denforth-avenue; south limit, the centre line of Bathurst-avenue; and the western limit, the present fire limit, extending several blocks east from the latter.

**Looks Like Drayton.**  
 That H. L. Drayton will be recommended for the office of city councillor by the board of control, at a salary of \$1000 a pretty well mean salary. The board had a private meeting yesterday, at which the name of Mr. Drayton was mentioned. He has stated that he is not unwilling to accept the appointment, but will be openly nominated by the board of control.

W. T. Parry, who was appointed jail surgeon early in the year, wanted the board to reimburse him \$30 he paid to a substitute during his absence on a medical leave of absence. The board voted for the grant.

The board agreed to allow the city to acquire a building permit should it be unwilling to accept the appointment of Mrs. Mary Lane, who wants to erect a large boarding house on Iron-ore-street, near the Island, against the wishes of residents.

The suggestion of Dr. Allan Hazen that all water services should be metered, is being considered by the Waterworks Engineer. He says that if 60,000 meters were installed the cost would be about \$720,000, but that the attention to leaking taps would compensate for the outlay.

# S. MACDONALD STATUE UNVEILED IN QUEEN'S PARK

## "As Pure a Statesman as Ever Lived," Tribute of Sir James Whitney.

Despite the tempestuous weather, a large and representative gathering attended the unveiling of the monument to the memory of the first premier of the province, Hon. John Sandfield Macdonald.

The speeches took place in the legislative chamber. At their conclusion, the lieutenant-governor declared the statue unveiled. At the same time the flags in which it had been draped were removed, disclosing the handsome \$10,000 bronze statue on its pedestal of granite backed by a semi-circular arch of the same material.

Among those present at the ceremony were: Miss Langlois of Quebec, the sole surviving daughter of the late premier, Alex. S. Langlois of Cornwall, and Eugene Langlois of Montreal grandsons, and the thirteen surviving descendants appointed by him, F. G. Glackfleyer, A. H. Sydney, Col. J. H. DeLamere, Col. A. Brown, G. B. Kirkpatrick, Edward Jenkinson, F. C. Fisher, J. P. Edwards, Dr. Hodgins, H. Sproule, Messrs. Kent, Ross and Alley.

Representatives of the eastern part of the province, from which Hon. J. Sandfield Macdonald came, were: Sir James P. Whitney, Hon. Col. Matthew, Senator Edwards, Senator Derbyshire, D. B. Macdennan (Cornwall), John A. McDougall (Cornwall), James

# YOUR BLOOD IS POISONED

## If You Suffer From Headaches or Neuralgia.

Frequent attacks of headaches or neuralgia are nature's warnings of blood poisoning. The pain is due simply to the tortured nerves, inflamed by the blood being overloaded with impurities, because of inactive bowels, kidneys or skin.

There is usually chronic constipation and the foul matter, instead of passing from the body, is absorbed by the blood. The kidneys are not as strong as they should be and fail to filter from the blood the necessary amount of impure matter.

Instead of the skin throwing off one and a half pounds of waste matter every day, it becomes inactive and does only half its work, leaving three quarters of a pound of this waste to poison the body. Headache powders and pain killers simply numb the nerves and have no helpful action on the organs causing this poisoning of the blood.

To cure headaches and neuralgia, the blood must be purified, which can be done only by making the kidneys, bowels and skin healthy and active.

"Fruit-a-tives" made from concentrated and intensified fruit juice, is the greatest blood purifying medicine.

"Fruit-a-tives" or "Fruit Liver Tablets" is a scientific cure for headaches and neuralgia, and never fails to cure because "Fruit-a-tives" stops the cause of these troubles.

Note and Comment

An untoward feature of Rugby games played by 'Tigers' or 'Riders' is the practice of betting and the manner of affecting the odds.

Word also is given out in Hamilton that considerable betting has already been done on the Varsity game, the odds invariably being given by the Varsity supporters.

In Hamilton and Ottawa they expect to play to ten thousand people next Saturday at Rosedale, forgetting that there is also a Rugby game on Saturday on Varsity field between two Toronto teams, Parkdale and T.A.A.C. for O.R.F.U. honors.

All these teams are interested in the Grey Cup. The winners at Rosedale first play Varsity on Saturday of next week, and the victor meets the Ontario champion the week following.

Final Game of American Tour Played in Brooklyn—In Toronto To-day.

NEW YORK, Nov. 15.—The Pilgrims of England played their final game of Association football of their American tour at Bay Ridge, L.I., to-day, defeating the Crescent Athletic Club, 6 to 1.

The Pilgrims (6)—H. M. Lemoine, goal; J. K. Bayley and F. H. Miles, backs; A. K. Campbell, H. C. Littlewood and G. Simon, half-backs; H. J. East, J. Brown, Sim, G. R. Hoare, E. J. Cotton and W. Davidson, forwards.

Crescent (1)—H. Armstrong, goal; H. J. Charlwood and W. D. Andrews, backs; G. Jeffers, H. Armstrong and J. O. P. Humphreys, half-backs; J. J. O'Rourke, W. F. Jackson, W. C. Clelland, H. M. Kerr and A. E. Clogg, forwards.

RUGBY GOSSIP. Two Rugby games will be played here Saturday, both being play-offs for the championship of their respective leagues.

The City Basketball League met last night at the Central Y.M.C.A. Hall to draw up the coming season's schedule. Owing to Varsity now knowing whether they would be able to play before Christmas, the schedule was left over.

A Shield to Winning Club. Owing to the great rivalry existing between the clubs who will have representatives in the Ontario boxing championships at the Mutual-street rink, a week from Thursday, Friday and Saturday, the Toronto Bowling Club, under whose auspices the tournament is to be held, has decided to award a handsome shield to the club scoring the greatest number of winning points during the tournament.

Royals Establish A City Bowling Team Record

A new city record was established last night and all city bowling teams rejoiced, when the Royal Canadians rolled 263 with 103 as a starter against the Athenaeum. The high single strike is just five pins short of the city record held by the old Troquois of the Toronto League, while the team total of 263 puts all other high scores to shame.

Needless to say with this rolling the Royals won three from the Athenaeum, who, the latter tied them the first game and then lost it on the roll off. In the other games, Brunswicks won three from Beaches, Paynes' three from Parkdale, and Dominions three from Gladstone. Four rollers were over the 200 mark, namely, Hunter 243, Morgan 218, A. Boy 214 and G. Cappe 213. Scores:

What Every Smoker Knows

Every man in Canada knows that the name of TUCKETT stands for all that is best in Cigars and Tobaccos.

It is also a fact that TUCKETT'S "T & B" Tobacco has become a household name in Canada.

It is further well-known that TUCKETT'S "Marguerite" Cigar has today, and had for years, the largest sale ever attained by any cigar in Canada.

What Every Smoker SHOULD Know

Are you aware of the fact that the firm of TUCKETT now makes Cigarettes?

Do you realize that their Cigarette Brands are just as worthy of the approval of the connoisseur as TUCKETT'S Cigars and Tobaccos?

These Cigarettes have been placed upon the market under exactly the same policy that has made famous the other TUCKETT products—a policy that aims to give smokers positively the greatest cigarette value on the market.

Above are shown actual size reproductions of three of the Tucket Cigarette packages.

If your preference is for Egyptian Cigarettes, try "TUCKETT'S SPECIALS"—made from a selection of the choicest Turkish Tobacco obtainable. They sell at 10 for 15 cents.

If you smoke Virginia, try a package of "TUCKETT'S CLUB" or TUCKETT'S "T & B." The first sells at 15c a package of 10, and the latter at 10c.

We know that one or other of these brands is sure to capture your fancy—because we've experimented and tested until we can say, with absolute certainty, that no finer cigarettes than these can be made.

They are really worth 25c a package.

Tell the man behind the counter: "I'LL TRY TUCKETT'S"

### CENTRE SHOT, 4-1, WINS FEATURE AT LATONIA

Defeats T. M. Greene, Favorite, in Handicap Race—Three Favorites in Front.

CINCINNATI, Nov. 16.—Centreshot, backed down from 4 to 2 to 1 at post time, won the feature race at Latonia, to-day, a seven-furlong dash. T. M. Greene was the even-money favorite, and these two faded, neck-and-neck to the stretch, where Centreshot came away and won handily. Greene, the other starter, was never dangerous. Three favorites won. Summary:  
FIRST RACE—Selling, 6 furlongs, purse \$300:  
1. Mae Henley, 102 (Rice), 5 to 1, 2 to 1 and even.  
2. Kyle, 99 (Ramsey), 12 to 1, 5 to 1 and 5 to 2.

# O'Keefe's PILSENER LAGER

"The Beer With A Reputation" Is Better Than Any Imported Lager.

'Imported' does not mean "better". It simply means "higher prices" because of the excessive duty. It is a Government regulation that all Canadian lagers must be brewed only from barley malt, hops and water,—which cannot be said of any American lager. O'Keefe's "Pilsener" costs about half as much as imported brands—and is their superior in every respect—in purity, in flavor, in wholesomeness.

Are you going to pay a higher price for a poorer lager—or are you going to insist on having O'Keefe's? Leading dealers, hotels and cafes have O'Keefe's. "The Light Beer in The Light Bottle" 163

## CANADA AND IMPERIAL DEFENCE.

Much that is being said concerning the proposal to create a Canadian navy is inconsequential and inconclusive. Those who denounce the policy of the Dominion Government do not agree among themselves, and are, therefore, divisible into several classes. There are of them who either expressly or inferentially deny that any obligation rests on Canada to participate in imperial defence, yet in most cases they profess imperial loyalty. Others leave nothing behind their contributions but an impression of bewilderment, since it is impossible to gather from the tenor of their remarks what, in their opinion, the position of the Dominion within the British Empire is or should become. Yet others acknowledge the obligation but differ in the mode of its performance.

In the conduct of this very important discussion affecting a subject of world-wide interest let the basic factor be kept constantly in view. Canada is now at the parting of the ways, and has three courses from which to choose. She may remain one of a partnership of free self-governing British states, acting together for common purposes and mutual defence. She may cut herself adrift, become a separate nation and pursue her own policy, irrespective of all external considerations. She may sink her individuality by incorporation in the United States. Possibly there is a fourth, but it is suggested, indeed, by certain passages that have found their way into print, that of remaining within the British Empire while refusing co-operation and expressing the gravest distrust of the methods, intentions and good faith of the mother country. This need not be considered, since it cannot but be repulsive to any self-respecting Canadian.

Incorporation with the United States may be dismissed, since it cannot be ranked even as a possibility. It is in direct antagonism to the new and vigorous spirit of Canadian nationality. It would, in our opinion, be a retrograde step for Canada to take, and it seems to be favored by some opponents of a British Canada. But they forget that were the Canadian provinces states of the republic they would not escape the burden of "militarism." Canada's choice lies between continuance within the British co-partnership or separation from it. There can be no other, and whichever is adopted, carries with it distinct duties and responsibilities. As a separate nation Canada might elect to stand out as established on the principle of non-resistance, escaping the charge of self-defence and virtually relying on the army and navy of the United States to protect her from attack. But would it be pleasing to patriotic Canadians to have their country remain dependent on United States good-will? Such a relationship could not be permanent. It could only be the precursor of practical absorption into the republic, which would really be in a position to dictate Canada's foreign policy.

The World believes that the great majority of Canadians favor continuance in the imperial co-partnership. They desire with it absolute freedom of self-government and full national control over their home administration and foreign policy. That has been already practically conceded. Does separation from the British states offer any advantage over maintenance of the imperial bond? Canada would be free from imperial entanglements and responsibilities, but would that offset loss of the sense of brotherhood, of the width of outlook, of the experience resulting from immediate personal contact with great imperial questions and conscious participation in the evolution of a system of government which, whatever its faults, responds to the more advanced democratic conditions yet known? It is easy to magnify the blots on Britain's escutcheon and by contrasting them with ideals never realized to make them darker than they are. But where is the country that has done more or so much for the development of the highest known type of civilization yet attained? Canadians who draw disparaging comparisons between the mother country and the Dominion should remember the quaint comment of Dr. Chalmers, made more than half a century ago, after an American orator had descended on the superiority of the new world, "When your lum has reeked as long as ours, it will, maybe, need sweeping too."

If Canada is to be a constituent state of the British co-partnership she must be prepared to accept her share of its responsibilities, including the burden of mutual defence. There is no getting away from that obligation, nor from the responsibilities of nationhood, were Canada to withdraw from the imperial connection. The Dominion has already organized, to some extent, for land defence, and it is in the most inconsistent apparent in the arguments of the opponents of "militarism" that they do not ask for the disbandment of the Canadian forces. Yet that is the logical conclusion of the premises from which they start. For if the establishment of an army is justifiable that of a navy cannot be wrong in itself.

Opinion may easily differ regarding the method by which Canada can best fulfil her obligation as a British state to share in imperial defence. It must not be overlooked that the construction of transcontinental railways, the provision of dock accommodation, the establishment of supply stations and other enterprises of kindred character have all an intimate connection with the problem of efficient co-operation. In these ways, or some of them, Canada has done nobly, and they are all important factors in her own expansion and in increasing her value to the empire. Canada also has created a military force, and has undertaken its reorganization on lines which will bring it into ready conformity with the British standard. There remains the problem of the imperial navy. Without entering into the vexed question of the double standard, it is generally admitted that Britain's insular position, vast shipping interests and extensive over-sea dominions give her the right to maintain preponderance on the ocean, just as Germany's situation obliges her to be the strongest military power in Europe. The measure of that preponderance is a matter of degree, but there will be general agreement that it should be sufficient to protect the United Kingdom from risk of invasion or from loss of the maritime supremacy on which she depends for the security of her food supplies.

In what way should Canada contribute towards imperial naval defence? Directly in money or by undertaking to build, equip and maintain her own part of the imperial fleet, and to that extent relieving the mother country, or by doing both? Fleets cannot be built in a day—they must be ready agent of the need of the moment. The World thinks there should be the fullest and freest discussion of this matter. Germany and other powers are watching the imperial defence movement with the keenest interest and attention. The moral weight of united action will be great, and it would be very unfortunate if an impression were created that Canada is unwilling to share the burden. The World thinks that a beginning should be made, but only after the most careful deliberation. Contribution to imperial policy will entitle Canada to be heard in the shaping of imperial policy and in the promotion of necessary social and political reforms in the United Kingdom itself.

## EXTRA EXPENDITURE

Unforeseen Occurrences Which Tapped the National Will.

OTTAWA, Nov. 16.—A statement of government general's warrants issued since the last session of parliament on account of the current fiscal year was presented to parliament. The total is \$176,000 and the amount of the expenditure was only \$38,571. The principal item is for the repairs to the Sault Ste. Marie Canal rendered necessary by the breaking of the gates last August. The amount of the warrant was \$125,000 and the expenditure under it to date has been \$37,771. For the representation of Canada at the International Exhibition at Brussels next year \$25,000 was provided and for temporary customs provision at Quebec following the destruction of the customs house by fire, \$10,000.

## Local Option in Essex.

LEAMINGTON, Nov. 16.—Seven towns and townships in Essex County will vote on local option at the January elections. Contests will take place in the towns of Leamington, Essex and Kingsville, and in the Townships of Colchester South, Malden, Sandwich South and Tilbury West. Nineteen hotel licenses may be affected.

## Empire Pageant in 1910.

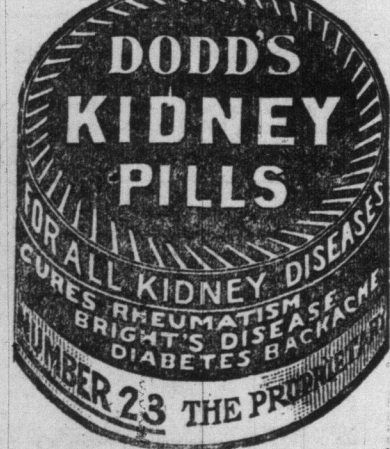

LONDON, Nov. 16.—(C. A. P.)—Arrangements have been announced for the empire pageant in 1910 at the Crystal Palace. The festival lasts three months, and will be carried out on a grand scale. The proceeds will be devoted to the king's hospital fund. Canada is being represented by Earl and Countess Grey.

## GRIEVED OVER FIRE HORROR AND ENDED HIS OWN LIFE.

NEW YORK, Nov. 16.—Loss of his son and nine employees in the fire which destroyed his cigar factory in Brooklyn last week is believed to have been the cause of the suicide to-day of Robert Morrison, head of the firm which conducted the establishment. Morrison's lifeless body was found in the bathroom of his home, where he had turned on the gas.

## Exactly.

Toronto News: In refusing to part with control of their own water power franchise, the ratepayers of Trenton have wisely stood true to the principle of municipal ownership of public utilities and natural monopolies.

3. H. W. Harcourt, K.C., for plaintiff.  
4. Galsusha v. G. T. Railway.  
5. Attorney General v. Devlin.

### Master's Chambers.

Before Cartwright, K.C. Master.  
Tremaine v. Langstaff—H. Spence, for plaintiff Tremaine, S. C. Biggs, K.C., for Wood, F.J. Dunbar, for plaintiff. Judgment: Wood, who on his own counsel was added as a plaintiff, now wishes to withdraw from that position and act by a separate solicitor. The original plaintiff thereupon had motion to set aside the order. It is necessary that the action should proceed as an injunction has been granted against the plaintiff. The proper position of the motion seems to be to make an order similar to that mentioned in the case of Re Matthews (1905), 2 Ch. 469. The respondents for Langstaff, Wood must give security for defendant's costs to date. Defendant must have the costs of the motion as against both parties. The order made. In the cause, in default, action to stand dismissed with costs.

### Divisional Court.

Re Forfar and Canadian Order of Foresters—L. Lee (Hamilton), for the society, moved for an order for payment into court of certain insurance moneys to the credit of two infants. F. W. Harcourt, K.C., for the infants. Order made for payment in and for payment out of a part thereof for maintenance.

McCarthy v. O'Sullivan—McCarthy, for defendant, moved for an order prohibiting further proceedings to enforce judgment in eighth district court of case tried by a jury at the next divisional court at Warton. G. A. Kilmer, K.C., for plaintiff, contra. Sullivan, for committee of lunatic, moved for an order confirming report of clerk in chambers and authorizing payment out of court of certain moneys. No one contra. Order made and payment out ordered.

The King v. Macdonald—An ex parte application on behalf of a writer for a writ of habeas corpus without certiorari. Order made.

Re McLeish—(Elliot & H.) for Union Trust Co., the guardian, moved for an order for the payment of \$100 to infant, F. W. Harcourt, K.C., for infant. Order made.

Re Curry, Campbell v. Campbell—Re Curry, Campbell & Co., for applicants, moved for an order to confirm report and for distribution. F. W. Harcourt, K.C., for plaintiff. Taylor—A. MacGregor, for plaintiff, moved for an order to commit defendant, Taylor, for non-attendance on examination. F. W. Harcourt, K.C., for Taylor, asked enlargement. Enlarged until 19th inst.

Single Court.  
Before Geddes, C.J.  
Lamont v. Wenger—G. H. Watson, K.C., and A. G. Campbell, for defendant, on appeal. J. G. Wallace, K.C., reference directed by the judgment is to ascertain and state what damages, if any, the plaintiff is entitled to recover. The fraud referred to in the pleadings was in respect of two Aylesworths, for defendant, contra. Argument of counsel for the defendant adjourned until 17th inst.

Mandley v. Township of Monk—O. M. Arnold (Brucebridge), for plaintiff, appealed from the judgment of Britton, J., dated 22nd May, 1909. A. A. Mahaffy, K.C., for the defendants, contra. Plaintiff, owner of certain lands in Township of Monk, alleged that they were flooded by defendant's ditches and brought action to have two certain awards declared null and void, for damages for defendants' alleged wrongful discharge of water upon his premises, an injunction restraining defendants from continuing said flooding and a mandamus directing defendants to construct a ditch to carry the said water in its natural course to a proper outlet. The judgment appealed from was for the plaintiff and awarded him forty dollars damages without costs. Plaintiff's appeal therefrom argued and judgment reserved.

### Court of Appeal.

Before Moss, C.J.O.; Oser, J.A., Garraway, J.A., Maclean, J.A., Meredith, J.A.  
Small v. Clarin—J. Eicknell, K.C., and F. Mackleson, for defendants, on appeal from judgment of Anglin, J., at trial. J. L. Coussell (Hamilton), for plaintiff, contra. Argument of appeal reserved from yesterday and concluded. Judgment reserved.

Brown v. Warnock—I. F. Hellmuth, K.C., for Agnes Warnock, on appeal from judgment of a divisional court, dismissing appeal from judgment of trial judge. G. H. Watson, K.C., for Eva Warnock, E. E. A. Du Verney, K.C., for executors, A. H. F. Lefroy, K.C., for J. G. Warnock. J. R. Meredith, for four infants. This action was brought by the executors of James Gregory Warnock, for a judgment decreeing probate of the will of the said Warnock, bearing date 11th January, 1908, in which after bequeathing certain legacies he willed all the rest of his property real and personal to his wife Eva Warnock. The will was disputed by Agnes Wilson Warnock, who claimed to be the lawful widow of the said James G. Warnock. At the trial judgment was given for the executors, the plaintiffs declaring said will to be the last will of the deceased, and passing no judgment upon any of the other matters in the record. The appeal of Agnes Wilson Warnock from the trial judgment was dismissed by a divisional court, and she now appeals to this court. Appeal dismissed. The question of costs reserved.

Beaudry v. Riddell—G. H. Watson, K.C., for defendant, appealed from judgment of Riddell, J. A. W. Anglin, K.C., and Glyn Oser, for plaintiffs, contra. This was an action brought against an insurance agent, claiming \$2500 damages for negligence in not effecting an additional insurance for \$700 on plaintiff's goods, and merchandise, as it is alleged he had contracted to do, and the plaintiff's goods being destroyed by fire, they claim they sustained this loss. At the trial before Riddell, J. on 10th June, 1909, judgment was given for the plaintiff. Defendant now appeals therefrom direct to this court. Not concluded.

BY VOTED THE SENTIMENTS EXPRESSED

BY MR. MACLEAN.

Surgeon-Major Dr. R. N. Norton, an

old soldier of 21 years, and whose fa-

ther served at the battle of the Win-

chester, advocated that Canada make

a gift now of a couple of Dreadnoughts,

leaving the matter of the establish-

ment of a navy as an after consideration.

He considered the cost of a Canadian

navy too great to undertake at this

stage, the question of maintenance

a one being a heavy burden on the

Canadian treasury.

C. E. Britton thought Canada should

create a navy. This move would meet

with more popular approval in Canada

than any other.

Warden Baker was of the opinion

that a Canadian navy would be only

a play toy and too weak to be of any

use in time of war. A money grant would

assist Great Britain in strengthening

her defence, and make the navy con-

tribute for the protection of all British

possessions.

William Richardson, counties clerk,

advocated a direct contribution. A

Canadian navy would be only

a play toy and too weak to be of any

use in time of war. A money grant would

assist Great Britain in strengthening

her defence, and make the navy con-

tribute for the protection of all British

possessions.

## Cobalts Display Easier Tone But Losses are Immaterial

### Crown Reserve Recovers Its Former Buoyancy--Other Securities Quiet and Generally Inclined to Drag.

World Office, Tuesday Evening, Nov. 16.

Trading in Crown Reserve continued to monopolize much of the attention of speculators and traders on the mining markets to-day. The drive which characterized dealings yesterday was not maintained during to-day's session, the shares recovering much of their loss on the excellent demand which was in evidence at the lower levels. The usual Montreal tendency to place the blame on Toronto holders was indulged in, but local brokers seem to know as little about the accident as their associates at the eastern center, and the matter will be placed among those varieties of the markets which have been so much in evidence of late. The stock sold back to \$5.45, a gain of 10 points from the low figures reached yesterday. Considerable profit-taking was indulged in around these figures and the shares sold back again to \$5.24, closing at that price.

There was no material change in quotations in the lower priced issues, though a general tendency to sag was noticeable. Rochester was heavy around 15 3/4, Little Nipissing, Temiskaming and Beaver sold lower, while several of the other securities showed an inclination to shade off.

The market throughout was heavy and inclined to sag. This is not taken as being indicative of a change of sentiment, however, it being the general opinion that the firm tone which has been in evidence for the last week will characterize dealings for the immediate future.

### Nipissing Report.

The Nipissing report for October shows that the value of ore shipped during the month was \$167,075, as against shipments to the value of \$160,270 in September and \$201,817 in August. The ore mined in October is valued at \$178,197, which is a small increase over either September or August.

### Walper House Must Improve.

Hon. W. J. Hanna issued an ultimatum yesterday to A. P. Pipes and Ed. Hollinger of the Walper House, Berlin. They are given till Dec 5 to make improvements to their property to the extent of \$15,000, or have their license cancelled. Mr. Pipes presented plans and suggested that tenders had been received for improvements to cost about \$18,000, but the minister would have none of it. The changes must be upon the scale suggested by the department.

### Commission Needs Cars.

It is denied that the raising of the demurrage rates from \$1 to \$3 per day per car by the T. & N. O. Commission is a money-making device. It is not much more than the money as the cars which the government want. They claim that people are using them for storage purposes.

## Silverland is Ready For the Railroad

### Country Has Justified Itself by First Year of Development--Conditions That Will Create and Govern Traffic.

GOWGANDA, Nov. 11.—(By the Man on the Trail.)—Let this be Silverland's last year without a railroad. The men who have been sinking capital in this great north country have surely shown their good faith and have disclosed sufficient evidence of the country's enrichment to justify immediate action. If the country does not possess the resources claimed for it, the men who are working there, they would be the first to realize it and to drop their operations without the expenditure of further money. The men whose policy prompted them in the face of natural difficulties to undertake the development of the country did so in good faith, and they have not been less so. It is not the men who are working there, but the larger way would come from the province in reasonable time. Conditions now warrant the building of a railroad. It is needed to open up the country, and until it is built vast sums of money that would otherwise be available must remain in the hands of the men who are working there.

### Build the Road at Once.

Let the railroad be built across Silverland without delay. The time must arrive when it will be a vital factor in the situation. Without the railroad the country is simply a waste of land. There have been possible beyond a certain stage.

### Many Samples of Cobalt Silver Ore

Many samples of Cobalt silver ore have been exhibited at the King Edward Hotel, but few if any have attracted more attention than is now being shown to the samples recently taken from the Waldman mine. The samples consist of four large pieces of practically solid silver, taken from the vein right in the shaft at the 80 foot level. These were shown to the Hon. Mr. Cochrane, minister of mines, Professor Miller and Mr. Gibson of the Ontario Mining Department yesterday morning, and surprise was expressed at these wonderful showings from the Waldman mine in the Gilles Limb.

### Country Has Justified Itself by First Year of Development--Conditions That Will Create and Govern Traffic.

The silver mines created Cobalt, and incidentally Haliburton and New Liskeard found new life in the activities of the mines. A population of probably twenty-five thousand people has been drawn into Cobalt, its sister towns and the country round about. These people had to be fed and clothed. The mines had to secure fuel for their furnaces across the lake at Ville Marie discovered a profitable market and thrived. The people created the traffic and the mines gave it life. The development of the natural resources of the country.

Let the railroad be built across Silverland without delay. The time must arrive when it will be a vital factor in the situation. Without the railroad the country is simply a waste of land. There have been possible beyond a certain stage.

### What Creates Traffic.

That vast amount of traffic is maintained with even the remotest parts of the mining fields is evident on every hand. In scores of camps I have seen new burnished ranges, Oxford, Happy Thought, McLaughlin, Home Grown, Gurney's and all the rest of the familiar line, and it brought home the fact that a mining country is a virgin market that means much to the industrial life of a country.

### At the Boyd-Gordon Mine.

Directly west of the Mann-Ryan properties a group of Elmsira, N.Y., and Buffalo gentlemen are developing the property known as the Boyd-Gordon Mine. While an issue of stock in this company was made for development purposes, it is understood that the Johnson family of Elmira, Dr. Ruskworth of Buffalo, and William Gordon of Glasgow and Toronto retain control.

## SELL ON STRONG SPOTS

### The Cobalt market is not yet out of the trading rut, and until this restriction has worn off prices will witness frequent fluctuations. Investors who are willing to await good profits can afford to ignore occasional weak spells, but to speculators who unconditionally advise the sale of the more speculative stocks on sharp rallies and their repurchase on breaks until the market has taken on a definite upward trend. Ask our advice for the best stocks to buy, either for speculation or investment.

PUBLIC INTEREST GRADUALLY BROADENING.

World Office, Tuesday Evening, Nov. 16.

The result of the proposed coalition of the two large Nova Scotia industrial concerns in today's stock markets was the selling of Dominion Coal and the buying of Dominion Steel, the impression apparently being that Steel shareholders would be more benefited by the amalgamation. Strength at the Toronto Stock Exchange was well maintained again to-day and steady support was rendered to most of the active speculative issues at small advances over Monday's prices. Public interest is generally broadening in this market, and many stocks are reported to be scarce when an actual buying demand presents itself.

Table of New York Stock prices including various stocks like Erie, N.Y. Central, and others with columns for Open, High, Low, and Close.

Children Exist in Rags. W. B. Heck and his wife Meade, 67 Arlington-avenue, were summoned to the police court yesterday by the Children's Aid Society for allowing their children to stray away from school and keeping them in a deplorable condition. William Duncan, the society's officer, declared that the sick children of the accused were found lying in a deplorable manner, clad in rags. Heck claims to be getting \$12.00 per week. The case was adjourned for a week; meanwhile the children go to the shelter.

Wall St. Market Reactionary But Without Much Weakness

Prices Are Shaded in Tuesday's Dealings at New York—Canadian Markets Are Quietly Firm.

World Office, Tuesday Evening, Nov. 16. Continued strength in most of the speculative stocks was the main trait of the dealings at the Toronto market to-day. After considering the Coal-Steel merger proposition, traders have come to the conclusion that Steel is favored in the deal, and strength in Steel common to-day and a heavier tone to Coal was indicative of this decision. Some individuals who take a look into the future are not so sure that this view is correct and are willing to await developments. Outside of strength in Dominion Steel, a general firmness pervaded most of the speculative stocks, with more emphasis placed on the Latin Americans. Sao Paulo made higher prices to-day and strong bids were made for Rio and Mexican Light and Power without drawing out any offerings. The unsettled state of the British investment market is believed to be responsible for the greater attention given to outside securities and London is still an enquirer for several issues listed on the Canadian and London Exchanges. Business at the Toronto market is mainly of a semi-investment nature and only in a few instances can this be classed as purely speculative. On this ground alone brokers contend that the market is still in excellent hands.

Wall Street Pointers. The Bank of New York will ship \$200,000 gold coin to Canada to-day. Annual meeting of Atlantic Coast Line to-day to authorize \$300,000,000 four per cent. gold bonds. Bullion amounting to \$202,000, including 103,000 American eagles was taken into the Bank of England on balance to-day.

General Electric declared regular quarterly dividend of 2 per cent., payable Jan. 15 to stock of record of Dec. 31. The United Metals Selling Co. has advanced its price for copper 1-8, making price 13 1-8. Further important indictments in Rupp investigation expected.

Steel authorities think November business will exceed high figures shown in October. Copper combination story gradually taking more definite form. Earnings American Tel. & Tel. for ten months ended Oct. 31, total \$7,779,800, net earnings \$3,685,000.

The European visible supply of copper reported by cable to-day is 102,950 tons, against 99,280 tons on Nov. 1, an increase of 3,670 tons. The visible supply a year ago was 52,830 tons. The Cambria Steel Co. has advanced the price of bars to \$1.60 per 100 pounds Pittsburgh, which is \$2 a ton higher than the previous quotation, and places its price for bars on a parity with that of structural steel.

Estimated that gross and net revenues of New York Central for remaining three months maintains same rate of increase as for Sept., earnings available for dividends for twelve months to end Dec. 31 next, will be equal approximately to 1-2 per cent. on the present outstanding stock. Joseph says: The concerted strength of Amalgamated, Anaconda, Utah, Tennessee, Nevada Cons., Ray Cons., and Gila, prove conclusively that where there is smoke, there is fire. Hold the Coppers.

Smelters should do better. The Hawley stocks should not be overlooked. Lead is destined for better levels. Rock Island issues are ready for an advance. Good buying is reported in Pennsylvania. Amalgamated may still be bought on reactions.—Financial Bulletin.

Important bullish manipulation is still confined to the metal group, and in view of the selling going on elsewhere, we believe the next good movement in the general list will be downward in connection with money market on any other adverse developments.—Town Topics.

Erickson Perkins & Co. (Beaty & Glascoy) wire at close: The stock market, after periods of firmness, sold off moderately in the last hour and closed near bottom for some of the recent leaders. Amalgamated Copper broke through 83, and St. Paul's Reading and Steel were distinctly reactionary.

No Aviators for Exhibition. Manager J. O. Orr of the exhibition, who, with President George Goodenham, is touring Europe in quest of features for 1910, writes that he is not impressed with the practicability of securing aviators. He saw tests at Blackpool and Brooklands, and the flying machines performed indifferently.

7% A SOUND 7 PER CENT. LUMBERING PROPOSITION

Can You Do Better Than This With Your Capital? Huge fortunes have been made out of lumber, and it is well known and conceded both in United States and abroad, that Canada is in a position verging on a monopoly in lumber production.

The Sionon Company, Limited, is amalgamating several successful lumbering concerns which are actually earning sufficient to pay 7 per cent. on entire Preference Share issue, and in addition to the current earnings of the amalgamated firms, the Company's Holdings of Timber Limits and Water Power carry conviction of great and valuable returns to the Company in the immediate future.

TIMBER LIMITS. Besides a most valuable hardwood limit in Ontario, said to be the best in Eastern Canada, the Sionon Company takes over a limit in British Columbia, consisting of 3538 acres—and estimated to contain 197,000,000 feet of good merchantable timber. Even at present valuation, this will equal in value the Company's ENTIRE AUTHORIZED CAPITALIZATION. Besides this the natural growth of the timber, and its increase in value, will probably in a few years double its present figures. A reasonable estimate is that in six or seven years the development of the timber limits alone will yield profits equal to as much as 200 per cent. on the capital stock.

WATER POWER. Special mention should be made of the great water power on the property, estimated to be capable of developing 12,000 horsepower. Less than 100 miles away is the great City of Vancouver, where power is needed for the large factories and plants. New Westminster, which is much nearer, and more power needed. In fact, within a few years this 12,000 horsepower, harnessed up, should be worth \$500,000 to the Company.

The Company now offers for sale \$400,000 of Preferred Stock, in shares of \$100 each. This Preference Stock is preferred both as to assets and dividends, and will share equally with the common in any dividend in excess of 7 per cent. Thus, if Common draws 7 per cent., the Preferred will be paid 7 per cent. AND 7 per cent., or 14 per cent. The terms apply to the smaller investor as well as the larger. It is very seldom that an opportunity is given to the smaller investors to obtain such favorable terms.

Application for shares should be made at once to any of the undersigned, the terms being: \$20.00 with subscription, \$20.00 on allotment, and \$20.00 monthly till balance paid. Prospectus and full particulars, with application blanks, can be had from any of the undersigned.

ANNEXATION AND SUNDAY CARS TO COME UP

North Toronto May Vote on Both Projects—No Quorum at Council—County News.

NORTH TORONTO, Nov. 16.—(Special.)—Through the fault of Mayor Brown, another attempt on the part of the chief magistrate to convene a meeting of the town council was last night frustrated by the non-arrival of Councilor-elect James Peairs and Councilor Burnaby, Hows and Irwin. It was not thought probable that the three last named gentlemen would be present.

At an early hour this morning the five-year-old son of Mrs. and Mr. J. Huff, 267 Perth-avenue, died from diphtheria.

ished before Christmas. The estimated cost was \$6500.

Marjory McRae of Willoughby-avenue and little girl named Lewis were badly bitten by a dog this morning. Dr. Meiner dressed the wounds.

TODMORDEN

TODMORDEN, Nov. 16.—(Special.)—The meeting of residents held in the Aragon Mission Hall, corner Gamble and Pape-avenue, a few nights ago, will be it is hoped have the effect of improving very materially the conditions in this district. Dissatisfaction was expressed at the fact of the council deepening the ditch on Pape-avenue to four feet, making it a source of danger.

The condition of the Don Mills-road was pointed out as being a disgrace to the township, and a more generous policy will be urged.

SPADINA HEIGHTS

A big district bordering on the north-western corner of the city, and lately designated by the name of Spadina Heights, is said to be greatly in need of better accommodations in the way of lighting, roads and school buildings. The district so named is bounded on the south by the city of Toronto, with its northerly limit about a mile north of St. Clair-avenue.

Trinity College conferred the D.D. degree, at a special convocation last night, on Rev. W. C. White, Bishop-elect to Honan, China, and Very Rev. E. J. Bidwell, Dean of Ontario. Rev. J. P. D. Liwyd was also installed as vice-provost of Trinity.

The main floor of convocation hall was well filled with members of the university and their friends, while the gallery was crowded with members of the student body, who interspersed the speeches with original songs, several of them containing humorous references to members of the faculty.

Dr. White is a native of Norway. He was educated at Wycliffe College. He filled the post of assistant minister at Trinity for a time following his ordination in 1896, before going to Longuons, China, where he has labored for 12 years in the paper colony. He was recently appointed a bishop, and will shortly return under the auspices of the Canadian Church Missionary Society to prosecute his work.

Dr. White said last night that in making him an alumnus of this university, Trinity again gave evidence of the fact that it represented the whole Church of England and not a section of it, because the missionary society under whose auspices he labored was representative of the whole church.

EAST TORONTO Nov. 16.—The Girls' Guild and the ladies of the Willing Workers will meet to-morrow (Wednesday) at the home of Mrs. Chent, when matters relative to the preparations for the bazaar will be discussed.

R. J. Crane of Lindsay is a visitor at the home of his sister, Mrs. W. A. Lynch, Danforth-avenue, East Toronto.

NORWAY A meeting of the Norway Horticultural Society was held in Reid-avenue Presbyterian Church last night. Aid McMillin distributed prizes amounting to \$100, and addresses were given by Frederick Cameron, superintendent of the Toronto parks department, and by Aid. Hiltun. Refreshments were served and a pleasant evening spent.

WEST TORONTO. WEST TORONTO, Nov. 16.—At 8.30 this morning flames and smoke were noticed coming out of the partly finished High Park-avenue Methodist parsonage, and in a few moments the whole wooden interior was ablaze. The firemen quickly responded but the interior was a ready prey to the flames, and the building was gutted. The loss is estimated at \$2000, without any insurance. The origin of the fire is unknown. The building of the new parsonage was commenced on Sept. 14, and was to have been finished before Christmas.

DO JUST WHAT IS CLAIMED FOR THEM That's What Joseph Macklin Says of Dodd's Kidney Pills. They Cured His Neuralgia, Cramped Muscles and Heart Disease From Which He Had Suffered for Two Years.

ST. PAUL DE METIS, Alta., Nov. 16.—(Special.)—"Dodd's Kidney Pills have done for me all that is claimed for them." So says Joseph Macklin, a well-known farmer of this district. "I was ill for over six years with neuralgia, cramps in my muscles, backache and heart disease. I called on different doctors, but got no help. I heard that Dodd's Kidney Pills were meant for just such cases as mine, and bought eight boxes of them. Now I feel just like a new man. I recommend them to all as a sure cure for rheumatism and all troubles arising from diseased kidneys."

Thousands of farmers all over the west relate similar experiences to that given by Mr. Macklin. They find that Dodd's Kidney Pills do just what is claimed for them—cure all diseased kidneys and all diseases arising from diseased kidneys.

Accidental Death. BRANTFORD, Nov. 16.—(Special.)—The coroner's jury investigating the death of Mark Boulder, killed by a falling smoke stack at the malleable iron works, returned a verdict of accidental death.

A Winter Suit for \$15.00

You may go up the scale and down the scale, there's a place you balance just right. You may go up the line and down the line, there's a place you fit in tight. You can pay some less or a great deal more, as think you right and proper. But a suit to fit the average book gets in a fifteen dollars. From Incomplete Rhymes in Prose, by Anon.

Speaking in a more serious vein, we want to emphasize our \$15.00 suits for winter wear. They embody a great many features which should appeal to men who want a degree of fashionable distinction. They are mostly Worsted suits, being built of a solid winter-weight English weave.

The colors are mostly dark, as befitting the winter season—dark brown, bronze, slate, and walnut with self-stripe. Coats 3-button, single breasted, in the newest designs. High-class tailoring throughout. Finished like suits of higher costing materials. \$15.00 Per Suit.

A Good Stiff Hat for \$1.00

That's not much to spend on a decent hat. Yes, but what kind of hat do you call decent? Well, these hats are of English Fur Felt, dyed to hold the color. Three up-to-date styles. Take a look at them, \$1.00

Horse Blankets Should Interest Stable Owners Now

Our Staples Department has always been noted for its blankets. We have a reputation as judges of blankets second to none in the city. Our values in horse blankets this season will assert themselves on sight. Cover your horse—it costs next to nothing, and the poor beast's shivers cost your reputation a good deal more.

Stable Blankets, in heavy kersey, bound all around or striped with Kersey lining, quilted, shaped and strapped, 45 x 70 in. Each, Thursday, 98c. Heavy striped full kersey lined, shaped, strapped and quilted, 65 x 70 inches. Each, Thursday, \$1.25. Heavy kersey, shaped, strapped, bound all around and fitted with stay-on standard size.
