ITALY ANGRY.

Troops Protect Austrian Embassy in Rome. A PROTEST.

The Innsbruck Affair Leads to a Great Patriotic Demonstration in the Eternal City.

Rome, Nov. 19.—An impressive meeting to protest against the Innsbruck affair was held last evening at the Quirino theatre. The stage was decorated with the banners of Italian cities that are still subject to Austria.

Among the notable people on the stage were Blonstjerne Bjornson and his wife, whose appearance was greeted with tremendous applause.

The theatre could accommodate only a small part of the crowd that were unable to keep in order the thousands that besieged the entrance.

The meeting was opened by Professor Sichel, president of the club of former deputies of Trent and Trieste now living in Rome.

After the meeting the crowd, as if in obedience to a command, made a rush for the Austrian Embassy and consulate, situated in the Piazza Colonna, in the centre of Rome.

At Mukden. Mukden, Nov. 18.—On the morning of Nov. 17, after a long silence, the distant roar of cannon was heard.

The Red Cross is making extensive preparations for the transportation of wounded from fields of battle.

St. Petersburg, Nov. 19.—The negotiations on the subject of the Anglo-Russian convention are practically concluded.

After the meeting the crowd, as if in obedience to a command, made a rush for the Austrian Embassy and consulate, situated in the Piazza Colonna, in the centre of Rome.

At Mukden. Mukden, Nov. 18.—On the morning of Nov. 17, after a long silence, the distant roar of cannon was heard.

The Red Cross is making extensive preparations for the transportation of wounded from fields of battle.

STOESSEL CONFIDENT

That He Can Hold Port Arthur if Supplies Can Reach Him— Russian Reservists Leave the Country to Escape Service in the Army.

London, Nov. 19.—The Daily Mail's St. Petersburg correspondent says that General Stoessel's last report expresses firm conviction that he will be able to hold out at Port Arthur until the second Pacific squadron arrives in March on the condition that he is supplied with munitions and stores.

At Mukden. Mukden, Nov. 18.—On the morning of Nov. 17, after a long silence, the distant roar of cannon was heard.

The Red Cross is making extensive preparations for the transportation of wounded from fields of battle.

WINTER PORT NOTES.

The Royal mail steamship Ionian which arrived at Halifax yesterday afternoon, to begin the winter port business sailed from the pier this morning at 7 o'clock and will be due here to-morrow afternoon.

A large quantity of western freight has arrived and is now stored in No. 2 warehouse. Nearly all the off-hand goods are stored in the No. 2 warehouse.

About the city to day a large number of cattle and salted herring are being handled from this port. All arrangements have been made for the west end, for handling the freight with quick despatch.

The steamer Ionian made a good passage from Liverpool to Halifax, and has about 1,200 tons of cargo to discharge here for local and western merchants.

W. A. Walworth, and W. McGiffin of the Allan line, are expected today and will get matters ready for the commencement of the season's business. The government dredge has, for the past few days, been removing material at the entrance to the Protection slip, while the dredge has been removing material along the front of the wharves.

Theodore Bernard, better known as "John the Greek" arrived in the city today, and will officiate during the winter season. Mr. Bernard is one of the most obliging officials to be found in the winter port.

W. J. McGiffin, marine superintendent, J. McDermott, walking foreman, Daniel Callahan and Jas. Joyce, of the Allan line, have arrived in the city from Montreal in connection with the winter port business.

The Halifax Herald prints an interview with an unnamed St. John man who predicts that the winter port season will be very big. The Herald adds: "Of course, some of the steamer referred to in the article is not yet in the port."

"Indeed, the prospects are not bright. There are many reasons for this, chief among which is the dullness of the English lumber market."

FINANCIAL. MOLASSES MOVING UP.

In Sympathy With the Rise in Sugar—The Reason For It.

The sharp advance in sugar has caused an upward movement in molasses, which had been very firm for some time past. The price asked for round lots of Barbados molasses in Montreal today shows a recent advance of four or five cents per gallon.

Notwithstanding that the receipts have been fairly large daily they are composed to a considerable extent of the medium grade centrifugals, which in large lots and which make up most of the daily manifests. The high price of sugar is having a decided effect; that it induces the planter to make as much sugar as he possibly can, and as a result he is turning out more molasses than he can dispose of.

At present the product is going as much as possible into sugar. The sugar holders of molasses are decidedly firm, and would not be surprised to see an advance in the price here.

At present the product is going as much as possible into sugar. The sugar holders of molasses are decidedly firm, and would not be surprised to see an advance in the price here.

THE MAKING OF PORTER.

Porter—otherwise stout—is a malt liquor of Irish origin. The malt of which it is made is roasted brown by a secret process, which the Irish maltsters have carefully guarded.

The best Irish malt, imported from Dublin direct, is used in the manufacture of Caring's Porter. This porter is one of the purest malt liquors manufactured, and is recommended by physicians in cases where a malt tonic is needed.

AMUSEMENTS. York Theatre.

A BIG COMEDY BILL. WEEK OF NOV. 21st.

Headed by HARR AND EVANS, Character Comedy Creators. BURKE and DEMPSEY, Two Real Comedians. BELMONT and O'BRIEN, Leading Travesty Artists. JOHN M. IRWIN (Young Sharkey), The Heavy Port.

ALICE A. THORNTON, The Dancing Sunbeam. WILLIAMS and MELBURN, He and Lady Bug. "Says" added attraction. MADSON BROTHERS, Musical Culture "Par Excellence."

Matinee's daily (except Monday) 2.30. Matinee, 10c, 15c, any show. Night, 15, 25, 35c. Phone 1882.

SPECIAL—Prof. Walberth and his wonderful "Sip" White Horse will be at York Theatre Nov. 28th.

Opera House. Matinee 2.30. TONIGHT. THE DAILEY CO.

—IN— America's Greatest Play. ARIZONA.

Matinee—Wednesday and Saturday. Evening Prices: 15c, 25c, 35c and 50c. Matinee Prices: 15c and 25c.

Watch for the \$1,000 Automobile Gift. You might be the lucky one!

With every dollar purchase of reserved seats, two numbered coupons will be issued for the drawing which will be held at the close of the Dailey Company's season.

"Says" drawing will take place at the close of Dailey season. Coupon holders should be careful of their numbers and not mislead. Those holding coupons and who are obliged to leave the city should register numbers and address at Opera House box office. If "Says" is not claimed one month after date of drawing, a second drawing will be held.

The paper that reaches the home is the paper you should advertise in. The Evening Times does this. Advertise in its columns and increase your business.

THE ST. JOHN EVENING TIMES, SATURDAY, NOVEMBER 19, 1904.

THE ST. JOHN EVENING TIMES

ST. JOHN, N. B., NOVEMBER 19, 1904.

The St. John Evening Times is published at 19 and 21 Castlereagh street every evening, (Sunday excepted), by the St. John Times Printing & Publishing Co., Ltd. A company incorporated under the Joint Stock Companies Act. Co. Ltd. A company incorporated under the Joint Stock Companies Act. Co. Ltd. A company incorporated under the Joint Stock Companies Act.

THE WINTER PORT.

With the arrival of the first Allan line steamer the winter port season of 1904-5 practically opens today. The railway and steamship authorities state that they expect the business this winter to be at least as large as last year's, and it may be larger. This means of course that employment will be given to a large number of men, and the weekly outlay for wages and supplies will be large and of universal benefit. It is money that goes into direct circulation.

As usual, the city council is not apt to take with its work. The two new warehouses on the east side of the harbor, which are being built to accommodate a portion of the winter trade, have not yet been finished. The reason they are not ready is the fact that the council did not decide until the eleventh hour to have them erected. The new ferry steamer will not be ready for this winter's traffic, and only a few days ago it was discovered by the aldermen that one of the old ferry boats needed considerable repairs, although if the one on the water should break down the traffic would be seriously interrupted.

Tragically everything is in shape for the steamers, at the Sand Point wharves and warehouses, and for the next few months that locality will be one of the most interesting as well as one of the busiest portions of the city.

A LESSON APPLIED.

The Halifax Chronicle vigorously assails Goldwin Smith, for some rather contemptuous observations made about the maritime provinces. Dr. Smith, it appears, declared that these provinces, which he knows nothing at all, are notoriously backward and undeveloped, and asserted that Ontario holds out alone, the milch cow against the rest of the confederation.

This has aroused the anger of the Chronicle, and the editor recounts the sacrifices of maritime province people in the interest of canal and railway building in the west.

In an article more than a column in length the Chronicle denounces the frame of mind which would array the maritime provinces against the rest of the country. This is excellent. The Chronicle is the paper which boasted after the election that St. John "had had its fling" when all that the people of this city had done was to express their views to the polls. They had a right to do so, but the Chronicle evidently believed their right to be limited to a perfect harmony with its views.

There has also been belittled a suspicion that the Chronicle was some what one-sided in discussing winter port matters. Indeed, in the article under review the G. P. B. is denounced as "a delusion and a fraud so far as the maritime provinces are concerned, terminating as it does at Montreal in summer and at American ports in winter."

Surely the good and broad-minded editor of the Chronicle knows that St. John is the Atlantic terminus of the C. P. R., and that it is not "an American port." It must at some time have come to his knowledge that steamships from Liverpool, London, Manchester, Bristol, Glasgow and Irish ports come to St. John in winter for freight provided by the C. P. R. Only yesterday a steamer left Halifax for this port to begin the winter service.

The omission of any reference to St. John in connection with transcontinental railway matters suggests a doubt, which seems to be confirmed by the following statement: "At present, for the first time in the history of the Dominion, all the provinces in a way to receive what they regard as a fair measure of consideration as a part of the Union."

This, of course, refers to the fact that Nova Scotia has returned eighteen supporters of the government. Can it be that when the editor of the Chronicle speaks of the maritime provinces he means Nova Scotia? And that when he speaks of the terminus of transcontinental railways he thinks only of Halifax? It would appear so. And yet he chides a Toronto man for sectionalism.

We may hope that on second thought he will apply to himself the wise counsel given to Goldwin Smith, and realize that the interests of Nova Scotia, even if there be a mutual business rivalry, are not exclusive of those of other portions of the lower provinces.

A FINE BOAT.

Sooner or later St. John will add a fine boat to its fire-fighting appliances. The property on the harbor front is increasing in value every year, and the city itself is largely interested. In view of the extension of the waterworks system to Loch Leamond, and the purchase of the chemical and combination engines, the council is

frightful. For weary months men on both sides have sundered, have been comrades go down beside them, and have felt the vengeful thrust of strife. It is to the last degree probable, if the final issue is to be settled man to man in the bloody trenches, that quarter will be asked or granted on either side. For this reason Russia, seeing the case hopeless, should yield to the inevitable and surrender Port Arthur.

The Halifax Chronicle quotes the following from the Toronto Globe: "No part of the Dominion occupies a more interesting position at this moment than the City of St. John, New Brunswick. It has side-tracked itself for no good reason, because the National Transcontinental Railway will certainly make use of the St. John harbor if the people there will let it do so."

The amount asked were too great, however, the council could meet the difficulty by providing a boat of its own, and if necessary going into the towing business to meet the greater part of the cost. It is suggested that the effect should be to foster quotations from organs of existing craft. The question is one that should not be entirely overlooked by the council.

ENTHUSIASM AND GROWTH.

The Portland, Maine, Advertiser in an article on the growth of that city, takes a most cheerful view of the conditions and the prospects. For example: "The railway facilities are being broadened from year to year, the hotels are preparing to take care of more people. The port is rapidly gaining to be known as a place of importance, and the next half dozen years ought certainly to see a very great extension of our foreign trade, and of the consequent volume of shipments in and out of this magnificent harbor. Hand in hand with these conquests of peace go the elaborate military defenses erected by the U. S., and the probability that before long Portland will be the center of the coast artillery system on the northeastern Atlantic shores."

MAN AND WIFE FOR 66 YEARS.

Congratulations Due to Mr. and Mrs. James Dunfield.

Mr. and Mrs. James Dunfield, of Portage, King Co., have probably the distinction of having lived together longer than any other couple in Canada. They were married in 1838 and have never had a quarrel more than sixty-six years. Mr. Dunfield is eighty-eight years of age, a descendant of the Lovellists, having been born on Oct. 17, 1816, at Sussex, so called—now Penobscot. That he bears well the weight of his four score and more years is plain from his hearty appearance. When he was but three years old his parents removed to Portage and there, on the one farm he grew to manhood, passed the prime of his life and progressed on the descent into honored old age, always holding the respect and esteem of his neighbors.

WEST END NOTES.

Men are still at work clearing up the debris of the former site of the Church of the Assumption. Quite a number of fishing schooners have sailed for home ports down the bay with their cargoes of fish. They will lay up after this voyage. Charles Nichols, formerly of west Kentville, arrived home, yesterday, at noon, to attend his father's funeral which was held from the ferry docks on Rodney wharf, in a bad condition and needs repairing. The new air rink, will open for skating next week. The services in the Roman Catholic church tomorrow, will be conducted by the pastor, Rev. B. N. Noble. Sunday school at 2.15 p. m.

MIRAMICHI LOG CUT.

The Newcastle Advocate says: About half the usual number of men are now in the Miramichi woods. This number will not be increased. A prominent operator told a reporter that just about half of the wood cut would come out of the woods. Every day, Parker, usually a large operator, is not cutting at all this winter and other operators will curtail their cut considerably over one-half, while others again will cut more than one-half.

A NOVA SCOTIAN.

Captain Harry M. Sealey has lately been appointed inspector of hulls for the port of New York in place of the one removed on account of the Slocum disaster. He has held a similar position in Boston the last two years and is now in a minor position before going to Boston.

THE OIL WELLS.

The New Brunswick Petroleum Co. has suspended boring operations for the winter but the pumps on the present wells will probably be kept going all winter. The Kent Oil Co. has had bad luck with its machinery since striking oil, and little or nothing has been done since. It is expected, however, to shoot a well shortly and keep up the operations as long as possible this fall—Richibucto Review.

TO TIMES READERS.

IF YOU ARE NOT ALREADY A REGULAR SUBSCRIBER TO THE EVENING TIMES, LOOK OVER THESE PAGES OF THIS ISSUE AND CONSIDER IF SUCH A VISITOR DELIVERED DAILY FOR 12 MONTHS FOR 25 CENTS PER MONTH IS NOT WELL WORTH RECEIVING. IF SO, SUBSCRIBE TODAY.

NEWS FROM KINGS CO., N. S.

Pitiful Death of a Baby Boy at Grand Pre.

REV. J. A. CORBETT

Comes to Woodstock, N. B. Although His Congregation Offered to Double His Salary—Why the Nova Scotia Harvesters Came Home—Poultry Very Scarce.

Kentville, Nov. 18.—A terrible accident occurred at the home of Hugh Kennedy, Grand Pre, on Friday last. A tub had been filled with scalding water from the stove and placed near a chair in which a baby boy was supposed to be securely fastened. The child, fascinated by the motions of the water and steam, jumped toward it, and breaking the fastenings fell into the tub. He was quickly rescued, but terribly scalded and died from his injuries on Saturday. The child was one of twins, and was very bright and healthy.

Mr. and Mrs. B. C. Borden of Mt. Allison, spent Thanksgiving at the home of Dr. Borden's father, Avonport.

On Thursday last an auction was held in Grand Pre, when fifty head of cattle shipped there from Antigonish, were sold. This is the fifth carload that has been sold in King's county this fall.

Rev. J. A. Corbett has tendered his resignation as pastor, to the St. John's church, and has accepted a call to the church at Woodstock, N. B. Much regret is expressed at Mr. Corbett's departure, and his people have offered to double his salary if he will consent to remain. The incumbent of an increased salary is not, however, sufficient to make him resign his duties.

In the early autumn, a large number of Kings county boys joined the militia, and are only waiting to meet, many of them intending to make their homes in the land of promise, if all things proved as they had been led to expect. Every man who has been in the militia, and that one writes that he is only waiting to get home, is anxious to buy his ticket. One lady who went out with friends, expecting to remain in the militia, has also returned. She found herself in a pretty little town, where all the water procurable was brought from the spring in the morning and sold at twenty-five cents per barrel. She decided Nova Scotia had more advantages than that town, so she returned.

Poultry of all kinds has been very scarce this autumn. The ladies of Grand Pre, have been obliged to give up a supper, which was to be held at the home of Mrs. J. A. Corbett, because there were no fowls to be had—turkey simply cannot be found—and geese are scarce. Eggs sold at 25 cents.

Mr. Doe, of Hamilton, Bermuda, was at the Mount Allison foot ball team, remained in Kentville for Thanksgiving. Mrs. L. St. C. Saunders, of Middleton, is in Kentville. On Saturday Mrs. J. B. Newcomb entertained in her home a number of ladies at afternoon tea.

The schools at Wolfville, have been closed on account of scarlet fever. Two of the teachers, Miss Yull of Great Village, and Miss Macintosh, have spent their respective homes. The prompt action taken by the health authorities has prevented a spread of the disease, and the schools will reopen next week.

Mr. Edwin Dickey has been obliged on account of illness to give up his practice at Wolfville, and is at present at the home of his father, C. B. Dickey, Upper Canada. Word has been received from Dr. Lawrence, Wolfville, that the bracing vestors are in doing him much good, and he is fast being restored to health. He is at present at Spokane, Washington.

The little son of Charles Ellis of Canard, died at the Victoria General Hospital, Halifax, on Monday last. The little boy, who was but four years old, had undergone an operation for throat trouble, and soon after this was performed, bronchitis developed and caused death.

A NEW LAID FIRM.

A new law partnership has been formed in the city. Dr. A. A. Stockton, M. P., has taken into partnership Milton Price, who was on Tuesday admitted to the bar of New Brunswick.

Mr. Price is a native of Havelock, and is a graduate in Arts of the U. N. B., and a B. C. L. of King's College, London. He was for a short time in the office of Dr. Silas Alward, but for reasons of his studies has been joined on with Dr. Stockton. The new firm will be known as Stockton & Price, and their offices will be the same as are now occupied by Dr. Stockton.

Interesting

For those who want the very Best at the Lowest Prices.

RECOMMEND

Elgin Watches Every Time.

And knowing as every dealer in first class lines of WATCHES do that the ELGIN WATCHES are the most reliable at the price, I have just taken the agency for showing and selling them, and will be most pleased to compare goods and prices with any other goods to be found in the city, for I consider them equal to any, second to none, and best for the money.

A splendid line just opening in Solid Gold, Case Filled and Silver Case, and offered at prices much below that of any other make in reliable goods, and warrant them just as represented. Call and inspect and get prices at.

No. 77 Charlotte Street, W. TREMAINE GARD, Goldsmith and Jeweler.

HEALTH FOR BABY.

Babies that are well, sleep well, eat well and play well, a child that is not lively, rosy-cheeked and playful, needs immediate attention, or the results may be serious. Give an intelligent mother a box of Dr. Williams' Pink Pills for Pale People, and you will be astonished how soon he will be bright and cheerful. For diarrhoea, constipation, simple fever, indigestion, colic, and teething irritation, these tablets have proved to be as poisonous "soothing" medicines do—they get the source of the trouble and cure him. Mrs. E. Benoit, Deerwood, Man., says: "I have used Dr. Williams' Pink Pills for Pale People, and I think them the best medicine in the world. You can get these Tablets at any drug store, or by mail at 25 cents a box by writing the Dr. Williams' Medicine Co., Brockville, Ont. Wise mothers always keep the Tablets in the house to guard against a sudden illness of little ones."

UNDERMINED BY ENEMY.

(London Paper.) A station master by name of Jinks on a railway notable for the frequency and tardiness of its growth of roses, but of virtue also, and endeavored to achieve this combination by "watching and praying." He put on the most edifying his home. Alas! he had a malignant enemy, who, being also a skillful forger, secured a series of such stronger growth and ostentatious but and those overpowered and ultimately triumphed those previously inserted, ultimately triumphed the passengers. "Jinks is a hypocrite."

SPEAKER CANNON'S NOTE.

(Washington Post.) "Talking about promissory notes and financial integrity, and speaking of the House of Representatives, a few days ago, I remember when I was a young man I was wrapped up with a young friend who agreed to give me \$100,000. He had the money, and I was so glad that he should give me a note, to which I wrote a note but I never saw it. He wrote a note but I never saw it. He wrote a note but I never saw it."

PLAYS AND PLAYERS.

A Word About St. John Audiences
... Alleged Immorality of the Stage--Isidore Rush is Dead--
At the Local Theatres--Mansfield's Shylock.

One of the yellowest of New York's yellow journals--a journal that stands for what it terms the "new journalism and which has caused more trouble and brought grief into more homes than any other journal in the world--not even excepting its great and equally unprincipled rival--has recently taken high ground upon what it terms the "immorality of the stage." It publishes a letter signed by "a chorus girl", in which the lady of the stage remarks that a girl cannot be respectable in the dramatic profession; that the stage has ruined more women, who would otherwise have been good women than any other field of endeavor in the world. She goes on to assert that any girl who embarks upon that sea of more becomes the prey of what she terms "bustling managers." The young lady does not sign her name and perhaps it is just as well she is unable to prove her remarkable assertions. If she had signed her letter the object of her diatribe against the wicked stage would not be hard to find. She would perhaps be better advised to convince people that she was not merely seeking after cheap notoriety, but this can hardly be her object. At any rate she is wrong--dead wrong for the stage girls are generally hard working members of society who pay 100 cents on the dollar, have heard of such a virtue as charity and strive honestly to stand four square with the world. There may be cases such as a "chorus girl" describes, but I have never known of them. I have mingled largely with people of this misia world, worked with them, ate with them, played with them, drank with them, and lived with them, shared their sorrows and their joys and esteem it a privilege to count very many of them as my friends. They are very much like the rest of the world, very human in fact. So why assail and stigmatize the whole profession because some members of it have seen fit to follow an opposite course to that which the majority should dictate? "A chorus girl" should remember that "to err is human, to forgive divine." After all to matter of her own concern and even when she has been known to go astray even in the church. So why condemn the stage?

I think, without a doubt, that St. John has the most ill-mannered audiences in the world. It has been my lot to attend many theatres in many cities, but in any of them St. John audiences could find an object lesson in etiquette. I never before have brought so strongly home to me as in the Opera House on Thanksgiving night. The hour set for the curtain to rise was 8.15, but for fifteen minutes after the play commenced, men and women, who would probably be highly affronted if their culture was called in question, trooped into the theatre and disturbed those who desired to pay attention to the performance. They chattered into their seats, chattered, talked, nodded, inquired, and made themselves generally disagreeable. And they were not denizens of the upper gallery either, but men and women of supposed social standing. One would not think so from their conduct. Why an audience in the cheapest theatre on the Boverly would behave better. At the close of the play the same thing was repeated. As soon as it became apparent that the end of the piece was approaching they commenced to doze, their heads were bowed and before the curtain fell prepared to chatter out again. St. John people have a habit of the highest grade of attractions; the attractions could now well ask for a higher grade of audiences.

Whatever criticism I may have made upon the Dalley stock company in my letter last week was well merited; whatever praise I may give them this week is equally deserved. In the Parish Priest and Arizona the company did by far the best work they have yet done. The members of the company delighted their audience at all performances and proved that they really can act when they have half a chance. Of the two plays, I preferred the Parish Priest. To my mind it was the more artistic. The characters were more cleverly drawn and seemed more natural types. Arizona, of course, like all of Augustus Thomas' productions betimes with action and life but, after all, this is not the scene of art in dramatic literature. Arizona was like a picture painted in warm glowing colors. The Parish Priest could be as well compared to a study in subdued tones. It was quiet and restful but always artistic and right here I must pay a tribute to Mr. Mullaney's work in the character of Father Whalen. I have seen Dan Sully in the same role and although he created it Mr. Mullaney does not suffer one whit by comparison.

The York theatre is fast becoming a most popular place of amusement. This week's bill is one of the best Manager Hyde has ever presented here and all the artists are head liners in their special line. No, not all. There was one turn that I certainly did not like and that was the lady of elephantine proportions who, with a gentleman who should have been called in long ago, presented a act which they called "matrimonial sympathy in family jars." They were certainly not by any means up to the standard but the rest of the entertainment was so excellent that this one defect was soon forgotten. Next week another strong bill is promised. Manager Hyde deserves all the success he is achieving and my only wish for him is that he may make so much money in St. John that

Morning News in Brief.

Local.
The I. O. O. F. winter time table changes go into effect on Monday, Nov. 21st. The trainmen have for the past few days been figuring out their location for the coming season. It is understood in railway circles that the Ocean Limited will be cancelled, and the report is that the Ocean Limited will continue to run until after the first of the new year. Superintendent Walls of the telephone company hopes to have all the lines which were damaged by the storm, in running order by tonight. The greatest damage was done on the Fredericton line which was completely demoralized, and had to be practically rebuilt. Two gangs were started, one from Fredericton and one from Hampton. The Fredericton gang had completed their repairs as far as Upper Gasquetown, yesterday, and no doubt all the wires will be in order by tonight. Jack Walker, the boy violinist, has gone to Shelburne N. S., to play in a church entertainment. The C. P. R. telegraph wires are now in shape again, after the storm. Direct connection with Boston was established yesterday afternoon. The following Salvation Army orchestra will leave here for Toronto next Tuesday evening to take part in the farewell services of Miss Eva Booth and to welcome the new convalescent from Canada, Lieut. Colonel and Mrs. Sharp, Major and Mrs. Phillips, Adjutant Payne and Adjutant Beckwith, of the Regent House, Ensigns Sabine, Campbell, Richards, Staff Captain Holman, Brigadier and Mrs. Simcox, Captain Tilly and McGillivray and Lieutenant Wales. Thomas J. Fitzgerald of the C. P. R. telegraph staff, who left here some weeks ago for Winnipeg, is now agent of a company at Regina, with a staff of three, and will be there likely until January. A meeting of the executive of the Fabian League was held last night. These were for present, however, and the election of officers was postponed till Dec. 1, on which evening the subject of local taxation will also be discussed. E. C. Elkin, who reached Vineyard Haven on Wednesday, writes that he found the schooner, "Hessie Parker," which went ashore in the recent storm, high and dry, and that it would be necessary to lighten the schooner before any attempt could be made to get her off the rocks. Victoria section T. H. of T. No. 1, held their weekly meeting in their rooms, Monday evening, last night. Arrangements were made for the anniversary reception on Dec. 16. A committee was appointed to carry out the plans. A fine of \$50 and costs was imposed on Fred. Duceanson, before Justice Masson in Fairville yesterday, way in which the entire lecture presented. It is certainly a novelty in comedy. I have been asked who is the author of Ivan the Terrible, the Russian tragedy in which Sir Henry Irving scored last season. It is the general idea that "Ivan" was written by Count Lyof Tolstoy, the Russian philosopher and philanthropist. This is not correct. It was written by Count Alexis Tolstoy (of the Tolstois are all men of title) and he is more popular in the land of the great white bear than his cousin. His great tragedy was suppressed in Russia for several years as it was not permitted to represent the person of the czar on the stage. When "Ivan the Terrible" was given, however, four years ago, it at once became the vogue. It was written as one of a trilogy and since its success Count Alexis' other two plays, Czar Feodor and Czar Boris have been produced in St. Petersburg.

The St. John friends of Margaret Anglin will be glad to hear that her new stellar venture "The Eternal Feminine" has been most kindly received by the critics, while, from a box-office standpoint, as well, it promises excellent returns. "The Eternal Feminine" came to America stamped with the seal of foreign approval--although this is not always a sign that the success was abroad will be favorably remembered here as a clever member of one of W. H. Lytell's companies. And now another of the dearest, cleverest little women on the stage has passed over the border. Miss Mildred Ruth of Fredericton, famous for heart failure while bathing in the surf, at San Diego Cal. The shock was caused by an immense wave, which carried her into deep water. Half a dozen members of her theatrical company were in the surf, and assistance was at once hurried to her. She was unconscious when brought to shore. Physicians worked over Miss Ruth for an hour in vain. Another member of the company, Milton Heriot, who endeavored to rescue Miss Ruth, was rendered unconscious, but was revived after vigorous treatment. Miss Ruth was especially popular with the members of the profession and her bright and sunny disposition endeared her to all. "The Flute of Pan," by J. O. Hobbes (Mrs. Craigie), with which Olga Nethercole opened her London season at the Shaftsbury theatre, met a very hostile reception. A chorus of "boos," which increased as the play went on, marked the end of every act. All through the thing, the gallery was so unanimous in its disapproval of the performance that Miss Nethercole became hysterical and appeared before the curtain with tears streaming down her face and lifting her arms in mute appeal to her tormentors, but without effect. Miss Nethercole, however, proceeded pluckily with the last act, but amid "boosing," the lights were lowered and the audience dispersed. Billie B. Van the well known minstrel will open in Boston, on Monday, night, in a musical farce. The Y.

Provincial.
F. W. Barbour was in Halifax yesterday and interviewed the mayor who said he considered his action re the Halifax water supply, was in the interests of the citizens. He told Mr. Barbour, who said he was a Canadian and had done most of his work in Canada, that in that case he should reside in Canada. Mr. Barbour left for St. John this evening. In the recent elections in the United States, Dr. Burpee Steves, a native of Summerside, P. E. I. and brother of G. W. Steves, of Portage, H. Leferguy, Summerside, was elected as Lieut. Governor of the State of Maine for 1905-1906. A London cable says that there is no possibility for another cable from London to Australia, according to the opinion of the Eastern Extension Australia and China Telegraph Co. The opposition line is run at an enormous loss to the governments interested. A special meeting of the Great Northern Railway of Canada will be held at Quebec to consolidate the bonded indebtedness of the road. D. C. Cameron, lumberman, Winnipeg; Angus Carmichael, Portage; Hamilton Stewart, Bowd Miller, Quyon (Que.); John Alexander Cameron, Dominionville, and John Dundas Flavell, Lindsay, have been granted incorporation as "The Maple Leaf Flour Mills Company," with a proposed capital stock of \$1,000,000. The chief place of business is to be in Ottawa. The latest report is that Hon. A. G. Blair is about to accept the post of president and manager of the Toronto Hotel Building Co., which will receive a salary considerably larger than the \$10,000 stipend he enjoys as chairman of the railway commission. A Rome despatch says that Ascoli has by acclamation, conferred honorary citizenship upon J. Pierpont Morgan in recognition of his action in restoring to the city the famous Ascoli Cape. Amid the booming of cannon and cheer of a great crowd, which thronged Dufferin Terrace overlooking the Allan Line wharf, Lord and Lady Minto left Quebec at 9 o'clock last night. Nantucket lighthouse was badly battered by the recent storm, which smashed her from plans, but the wireless telegraphy apparatus was unimpaired.

THE FISH DIED.
City Water Too Much For the Inmates of Harley Bros. Aquarium.
The patrons of Harley Bros., who conduct a fine establishment on Main St., miss the fine display of trout at their aquarium. It appears that about three weeks ago some trout were being made by the city in connection with old water pipes. The trout, also bass and perch, were constantly supplied with new water. When the water was changed, they were being effected, the material used leaked up into the aquarium and within a few minutes all the trout were dead. One in the number had been there for five years and by actual weight weighed 21 lbs. Another and another at 21 lbs. Naturally Messrs Harley regret their loss, but now have a supply of the younger fry.

To Loosen the Cough
AND BRING ABOUT A THOROUGH CURE OF COLDS, USE DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE.
It is sometimes dangerous to stop a cough. The aim should be to loosen the cough, relieve the tightness and pain in the chest, and all expectation, so that the obstructing and irritating mass may be passed out of the air passages. (This is exactly what is accomplished by the use of Dr. Chase's Syrup of Linseed and Turpentine. It is not a mere cough mixture, and not intended to stop the cough, but rather to cure the cold. If you have tickling in the throat, pains and tightness in the chest, sensations of irritation, or oppression or suffocation, this great family medicine will afford almost instant relief, and thoroughly overcome the cold which gives rise to these symptoms. Not only is Dr. Chase's Syrup of Linseed and Turpentine a positive cure for croup, bronchitis, whooping cough, asthma and severe chest colds, but is also a preventive of all diseases of the lungs. It has time and again proven its right to a place in every home, and its standing in thousands of families. Dr. Chase's Syrup of Linseed and Turpentine, 25 cents a bottle, at all dealers, or Edmondson, Bates & Company, Toronto. To protect you against imitations, the portrait and signature of Dr. W. Chase, the famous receipt book author, are on every bottle. Mother--Have you informed Mr. Rogers of my design that the ass in the picture must be here as easily 3 minutes to 10 minutes. Prety Daughter--Oh, yes! Mother--How did he receive the information? Prety Daughter--Oh, he thanked me, and said he'd be here as easily 3 minutes to 10 minutes.

JUDGE LANDRY'S SON
Enters into a Legal Partnership in the West.
Hector L. Landry, son of Judge Landry, Dorchester, who left Moncton a few months ago for Moncton, N. B., to take a position in the law office of White Elwood, a leading barrister of that part of the west, has been admitted in partnership with Mr. Elwood. The name of the new legal firm, which went into existence on the 14th inst., is Elwood and Landry. When Mr. Landry accepted a position in the office of Mr. Elwood he did so with the view of a probable partnership in a year's time. By close application to business and by demonstrating his well known legal ability, Mr. Landry has been admitted to partnership at once. Mr. Landry's many friends in the east will be glad to learn of his success in his newly adapted home and will hope to hear of his continuing rapid rise at the bar in the great west. In a letter to a Moncton friend Mr. Landry says he is delighted with the seat and feels that it is the place for a young man. Moncton Times.

PEST COKE CO.
Vermouth, Nov. 18.--The organization meeting of the Pesticide Company, Ltd., was held Wednesday and the following officers were elected: President, Robt. Dale; vice-president, J. B. Wynne; secretary, Malcolm Booth; treasurer, E. F. Parker; directors, Robert Dale, E. K. Spinnay, J. R. Wynne, W. J. Lent and E. F. Parker. Business is likely to be pushed in care and the Pest coke placed on the market. THE TIMES WANTS TO BECOME THE BEST AFTERNOON NEWS-PAPER EAST OF MONTREAL. Business Office Telephone 705.

HARVARD AND YALE ARE READY FOR THE BATTLE.

Biggest Football Fixture of the Year is Being Played This Afternoon—Betting Favors Harvard—Jeff Issues a Denial—General News of Turf and Ring.

FOOTBALL.

Harvard and Yale.

New Haven, Conn., Nov. 18.—The eve of the annual Yale-Harvard football game in New Haven found the city in and about Yale University completely in the hands of the advance guard of the mighty throng which tomorrow will see the gridiron battle, and then hasten citywards to separate to the four quarters of the land.

The city's streets adjacent to the college campus all the evening were in a wild of both Yale and Harvard men, the latter particularly noticeable because of their manner of wearing a broad band of crimson on their arms.

The vortex was in the New Haven House, the corridors of which for hours were jammed with undergraduates and football heroes of other years.

The social attraction of the evening was the glee club concert in Woolsey Hall, given by the combined Yale and Harvard glee clubs, and to it went the Yale faculty and the most prominent among the townspeople.

The team was given some hard practice in the afternoon behind closed gates when the new formations were tried and they seemed well fagged at the end.

SMOKES AT 134.

Aged Colored Woman Who Still Enjoys Her Pipe.

Philadelphia, Nov. 18.—Puffing her black pipe with zest which showed the satisfaction she took in gratifying her appetite of the wood, Mrs. Mary McDonald competently received the congratulations of her fellow-inmates at the Home for Aged and Infirm Colored Persons upon the attainment of her 134 birthday.

FOURTY YEARS IN MINISTRY.

Address of Presbytery to Rev. J. D. Murray of Red Bank.

The Presbytery of Miramichi at its last meeting passed the following resolution touching on the Rev. J. D. Murray's retirement from the active work of the ministry.

Resolved that this Presbytery place on record its appreciation of the faithful labors of the Rev. J. D. Murray who for seventeen years, successively has held the office of pastor of Red Bank congregation.

Mr. Murray was an earnest exponent of Gospel Truth and ever guarded jealously the moral and spiritual interests of his people, and the effort of the church was to have the best of men with which he was, and must for long continue to be regarded by the people of his own and also of other denominations in the district.

Mr. Murray was compelled to resign his charge on account of ill-health due mainly to his belief in the self-sacrificing character of his labors on behalf of the church.

Mr. Murray was an earnest exponent of Gospel Truth and ever guarded jealously the moral and spiritual interests of his people, and the effort of the church was to have the best of men with which he was, and must for long continue to be regarded by the people of his own and also of other denominations in the district.

CONGRESSMAN MEEKISON, OF OHIO.

Hon. David Meekison is well known, not only in his own State but throughout America. He began his political career by serving three consecutive terms as Mayor of the town in which he lives, during which time he became widely known as the founder of the Meekison Bank of Napoleon, Ohio. He was elected to the Fifty-fifth Congress by a very large majority, and is the acknowledged leader of his party in his section of the State.

Only one day passed the otherwise complete success of this rising star. Catarrh with its insidious approach and tenacious grasp, was his only enemy. After Peru-rin came to the rescue, and legitimated the following letter to Dr. Hartman as the result:

"I have used several bottles of Peru-rin and I feel greatly benefited thereby from my catarrh of the bladder. I had scarcely aged to believe that if I use it a short time longer I will be able to eradicate the disease of thirty years' standing."—David Meekison, ex-Member of Congress.

Over fifty members of Congress endorse Peru-rin as a certain cure. Meekison, ex-Member of Congress.

Address Dr. Hartman, President of the Meekison Bank, Napoleon, Ohio.

THE ST. JOHN EVENING TIMES, SATURDAY, NOVEMBER 19, 1904.

TONIGHT'S ATTRACTIONS.

Dalley Stock Company at the Opera house in Arizona.

Local News.

Battle line steamship Obirona sailed from Truford for Junia and Joromel.

Steamship Mimac arrived at Dalusie last Thursday from Newport, and to load dead.

The Guild of St. Andrew's Presbyterian church held an important meeting next Monday evening.

The prizes for the lucky holders of the lottery ticket at St. Peter's church fair have not yet been drawn.

Registrar Jones reports six marriages for the week ending today and fourteen births, nine males and five females.

St. Andrew's Presbyterian church morning service, Rev. Jas. Burgess. Evening service by the pastor, Rev. David Lang.

A still alarm was sent in yesterday morning for a slight blaze in Charlie Lang's laundry, on Brunswick street. Very little damage was done.

Steamship Dehoma, Captain Luckten, will sail for Bermuda, Windward Islands, and Demerara via Halifax, tonight at 8 o'clock, with a general cargo.

The steamship Manchester Trader sailed from Charlottetown at 6 a. m. today for Montreal. The next trip from this steamer will be to this port from Manchester.

The steamer St. Croix, Captain Thompkins, arrived last night with 38 passengers from Boston, via Eastport, and will sail on her return trip Monday morning.

The Commercial Union Assurance Co. Ltd. of London, A. G. Fairweather, agent, has sent the Times the first calendar for 1905 that has come this way. It is a handsome and convenient one.

Fifteen deaths were reported to the board of health during the week. The causes were Consumption, accident, phthisis, carcinoma of the bowels, diabetes, intussusception, pneumonia, cancer, hemorrhage and suicide.

The 29th of November will be Governor Donnell's birthday, and the citizens of Robbsey will mark the event by a "smoker" at the Pavilion on that evening. An expression will be given to their good-will toward the senator, who has been for 30 years in Canadian public life.

A Champlain Sewing Circle has been organized in the north end. The members are, Miss R. Kierwen, Miss M. Morgan, Miss G. Coll, Miss B. Coll, Miss Z. McDonald, and Miss G. Arar.

The circle will contribute their work to missions, and charitable purposes.

AT THE OPERA HOUSE.

Tonight will be the last chance to witness that most pleasing play, "Arions," by the Dalley Company at the Opera House. The play is certainly one of the best seen here in many years and no lover of a good wholesome night's amusement should miss seeing Arions. Monday night, and for the first half of the week including Wednesday matinee Phipps' successful Comedy "The Magistrate." This bill will prove a good one, and the Dalley Company, judging from the fine impression made in "Arions," will give a splendid performance.

FUNERALS.

The funeral of Miss Ruby Ferguson, took place this afternoon at 2.30, from the residence of John Connors, Minnette street, Interment was at Cedarhill. Rev. G. E. Scott conducted the services, at the home and grave.

The funeral of Hugh Nichols, took place this afternoon at 2.30, from his late residence, Rodding street. The services were conducted by Rev. H. Marr. A large number of friends followed the remains to Cedarhill cemetery where interment was made.

RIVER STEAMERS.

The steamer Elaine, arrived at the wharves this morning, with a purpose of passengers and heavy freight. A bear which was shot at Blunty, owned by Armstrong, was among the freight. It had been tracked to his den by Armstrong, who fired three shots at it, killing it instantly. The Elaine will go up river tonight again, and will continue running until the river navigation is completely closed.

The steamer Clifton, which was to have been laid up this week, is still running as the river, in her course, is still open for navigation.

POLICE COURT.

Edward Holt was the sole occupant of the prisoners' bench this morning. He had been drinking deeply of the juice of the grain and was found by Officer Griffin on Union street between three and four o'clock this morning in an intoxicated condition. He was fined \$2.00 or ten days hard labor.

POLICE REPORTS.

William J. Brophy has been reported for extending a staging over the sidewalk on Brittain street without permission.

There is a dead cat on Duke street in front of D. Watson's stable which should be removed.

Our buyer left Wednesday night for Montreal to close a big deal, with a large concern there which stock will be purchased at a very low cash price. The whole stock on arrival here, will be sacrificed, regardless of cost. Montreal Clothing Store.

THE STONE CHURCH.

The High Tea and Sale Will be Held on Nov. 24th. and 25th.

The ladies of St. John Stone church intend holding a high tea and sale in the schoolroom, of the church, on Thursday and Friday, Nov. 24th and 25th. The High Tea will be held on the afternoon of the 24th, and the sale will continue until the evening of the 25th.

The teas of this church are always looked forward to as among the best in the city, and the ladies are determined that this one will not be an exception.

There will be a large array of fancy goods, displayed, and persons desirous of buying, Christmas presents would do well to patronize this sale.

Mrs. A. H. Hamilton, is the president. Those in charge of the various tables will be as follows:

Fancy work—Mrs. Geo. F. Smith, Mrs. H. P. Mackay, Mrs. G. Fred Fisher, Mrs. C. H. Fairweather, Mrs. Jas. Finlay and Miss Murray.

Novelty table—Mrs. Hedley Cooper, assisted by the senior girls.

Dolls—Mrs. Nichols and Mrs. R. B. Emmerson.

Flowers—Mrs. Geo. West Jones, Mrs. Sherwood, Skinner and Miss Grace Skinner.

Candy table—Miss Belle Skinner and Miss Poppe Barnes.

Art table—Frank Fairweather, Misses Oella Armstrong, Elizabeth Miller and Joan Coster.

Art table—Mrs. S. S. Alwood, Miss McQueen and Miss Ethel McAvity.

The high tea will be in charge of Mrs. Fred Sanction, assisted by a large corps of young ladies.

The ladies in charge of the different tables are Mrs. W. W. White, and Mrs. Walker Foster, Mrs. J. H. Frink and Mrs. Gilbert Pugsley, Mrs. Geo. C. Coster and Mrs. Lillian Allison, Mrs. Litchy and Miss Brown.

The decorations of the tea room will be in green.

I. C. R. TIMETABLE.

The Winter Schedule Goes Into Effect Tomorrow.

A. E. Barton, of the advertising department of the Intercolonial railway has been in the city for the last few days in connection with the change of time of the I. C. R. trains.

Mr. Barton says the fall and winter schedule, which goes into effect on Sunday the 20th, instant is practically the same as that of the fall of 1903.

Number 2 train will leave at 7.00 as at present, making connection with the maritime express at Moncton for Pictou and the Sydney.

Number 26 train will leave at 12.15 being one half hour later than at present.

The Sussex express will leave five minutes earlier.

Number 4 train, which during the summer has been the dining express, will now be a mixed train leaving at 13.45 instead of 11.30 as at present.

Number 134, the Maritime express, will leave at 18.00 one hour earlier than the summer schedule.

No. 19 Express for Halifax and the Sydney, St. John at 25.25 as at present.

The local train number 6, for Moncton, will be as before.

The Ocean Limited will be taken off for the winter, but a sleeping car will be attached to number 134 for Quebec and Montreal. The Ocean Limited has done an excellent business since the 24 hour service between Montreal and Halifax has been inaugurated.

The public show by their patronage that they really recognize the superiority of this service between Montreal and Halifax, and since there is a possibility of there being an even better service next spring, there is no doubt that the continuation of the "Ocean Limited" will eventually be assured during the whole year.

OBITUARY.

Mrs. E. C. Irons. Mrs. Ella C. Irons, died at Fredericton, yesterday, aged 43, leaving a husband and two children.

Mrs. Hannah Briggs. At Lakesville, Corner, York Co., yesterday, Hannah, widow of Epimachus, died. Five daughters and three sons survive. Mrs. Charles W. Weddell, of Fredericton, being a granddaughter.

Mrs. N. W. Eveleigh. Mrs. N. W. Eveleigh, of Sussex, died yesterday, at the age of 38 years. She was before marriage a Miss Vauvart, of Queens county. She had a husband and four children survive, and have the deep sympathy of many friends.

The funeral will take place tomorrow afternoon, at 2.30 o'clock. Burial will be at the Upper Corner, and Rev. B. H. Nobles will conduct the services.

The coal steamship, Dominion, 2651 tons register, sailed last night for Louisbourg, C. B. The steamer will return with another larger cargo of coal.

ARCHIE MARVELLE TALKS OF STRANGE PROFESSION.

One of the Contortionists Now at the York Theatre, on the Knack of Tying Bow Knots in Your Spine and Other Similar Feats.

"A contortionist must be born, not made."

This statement was made by Archie Marville who is at the York theatre this week, in conversation with a Times representative today continuing Mr. Marville said, "I have frequently been asked if those desiring to become contortionists are not wrapped in blankets, saturated with oil and rubbed down with a preparation to soften the bones. It is a mistaken idea and to say the least, ridiculous. The secret lies first of all, in natural ability. This must be developed by careful training and almost constant practice. To begin with a contortionist needs a strong mind and a strong body. The earlier in life he starts training the better, and there is little use to begin past the age of twenty. Take a boy twelve or fifteen years old and you will find that his body is more or less limber; in fact at any age under twenty the bones are not set. You then start in to make the body uniformly strong. You develop certain muscles, such as the wrist, stomach and back. A contortionist should have good mind powers, without which he can do little or nothing. The first thing to practice is the forward "split" or spreading the legs in front of and behind the body; then the side split, both of which appear easy but in reality very difficult. Back and forward bending are also of great importance, as is the proper use of the legs. Contortionists, like people in most other professions, have their strong points or specialties. My partner, Frank, is about the best "back bender" I have ever seen; he can stand on his hands as well as on his feet. He is the only man I know of who while standing on his hands can stand on his feet, take a hat from the floor and put it upon his head. This is accounted for, by the fact that nature has endowed him with long lower limbs. I cannot say myself and know exactly what he can do, while my labors have been abundantly rewarded. I have seen to understand, take the training of another man. You can not form the slightest idea of what it is like.

"Charlie, although slightly built is strong and is seen to best advantage in forward bending, and in tying the legs in front of and behind the body, drawing them up to the shoulders and locking the feet back of the head. I have trained Frank myself and reminds me of a young man whom I met some years ago while showing a training exercise in the city of fact was the bully of the town. He was anxious to become a contortionist and I advised him to give up the idea to lock his feet back of his head. I told him to meet me at the theatre one afternoon, when my partner and I took him to the dressing room, got him in a chair, and forced his feet to lock back of his head. He was powerless to unloose his feet, and might have remained there until doomsday. Well, we put him on his feet and told him to come back.

The following afternoon. From that day to this I have never set eyes upon him. He walked from the dressing-room more like an old man of eighty than a mere lad, which he was. After such an experience he had evidently made up his mind that it was not so easy to be a contortionist after all.

"With regard to the use of oil, I might state that an oil is advertised which, it is claimed will render the body limber. This, of course is not true, but those who purchase such preparations are only throwing away money, as in most cases it is nothing more nor less than common sweet oil. As I have already told you, it is utterly impossible to create a contortionist, if his ability is natural then it can be developed, but under no other circumstances.

"As to the oil treatment, you may see the hunger of a starving man by rubbing a beefsteak on the outside of his stomach.

"I started to train shortly after graduating from the Summerville, Mass. High school over twenty-five years ago. I was always fond of athletics, but had not the slightest idea how to turn a proper somersault. Charlie Morse, a brother of William Morse, who wrote the opera "Wang," used to practice with me in his father's barn and as the old man was violently opposed to such things we were frequently obliged to hide in the hay when we heard him coming.

"One night we went to see the Magicians who were featured with the "Black Cloak" company, then playing at the Boston Theatre. We made up our minds that we could put together a better act and accordingly I went to the theatre to see the act with "Lotta," who told us that we were marvellous. "Boys," I said, "we will call our act upon his name. Since then I have performed in all the leading theatres of Europe and America, and was here with the Forester show some years ago, and with the celebrated Barnum and Bailey show for three seasons.

"During my career I have met with several accidents, the first of which compelled me to lay up for fourteen months. It is interesting to note after the consideration of the Barnum and Bailey show, which took place March 17th, 1887, I used to turn somersault over thirteen plumb-line, for which feat alone I received five dollars extra for each performance. I was the only contortionist who could do it, and it never occurred to me that the accident was caused by the misplacing of the mattress on which I was to be alighted. I broke the left leg just above the ankle abutting the bones badly. The doctors wanted to amputate the limb, but I would not allow it. I refused chloroform or ether, and simply held a piece of pine wood between my teeth while they were sawing the leg off. I was introduced to the public as a contortionist, and when doing a somersault from one trapeze to another, at a height of six feet, my feet were ground. I missed the second and fell, breaking my skull over the right eye. I have also had my collar bone broken and broke the bones of my right hand.

"I started to train shortly after graduating from the Summerville, Mass. High school over twenty-five years ago. I was always fond of athletics, but had not the slightest idea how to turn a proper somersault. Charlie Morse, a brother of William Morse, who wrote the opera "Wang," used to practice with me in his father's barn and as the old man was violently opposed to such things we were frequently obliged to hide in the hay when we heard him coming.

"One night we went to see the Magicians who were featured with the "Black Cloak" company, then playing at the Boston Theatre. We made up our minds that we could put together a better act and accordingly I went to the theatre to see the act with "Lotta," who told us that we were marvellous. "Boys," I said, "we will call our act upon his name. Since then I have performed in all the leading theatres of Europe and America, and was here with the Forester show some years ago, and with the celebrated Barnum and Bailey show for three seasons.

"During my career I have met with several accidents, the first of which compelled me to lay up for fourteen months. It is interesting to note after the consideration of the Barnum and Bailey show, which took place March 17th, 1887, I used to turn somersault over thirteen plumb-line, for which feat alone I received five dollars extra for each performance. I was the only contortionist who could do it, and it never occurred to me that the accident was caused by the misplacing of the mattress on which I was to be alighted. I broke the left leg just above the ankle abutting the bones badly. The doctors wanted to amputate the limb, but I would not allow it. I refused chloroform or ether, and simply held a piece of pine wood between my teeth while they were sawing the leg off. I was introduced to the public as a contortionist, and when doing a somersault from one trapeze to another, at a height of six feet, my feet were ground. I missed the second and fell, breaking my skull over the right eye. I have also had my collar bone broken and broke the bones of my right hand.

SECOND SECTION

THE ST. JOHN EVENING TIMES

PAGES 9 TO 12.

ST. JOHN, N. B., SATURDAY, NOVEMBER 19, 1904.

THIRTY-FIVE YEARS OF CHURCH LIFE AND WORK.

The Congregation of Carmarthen Street Methodist Church Will Celebrate Their Anniversary Tomorrow... Have Had Many Vicissitudes But Are Now Flourishing... Records of the Pastors.

CARMARTHEN STREET CHURCH.

The thirty-fifth anniversary of Carmarthen street Methodist church, will be celebrated tomorrow. Special services will be held morning, afternoon, and evening. At the evening service Rev. A. B. Higgins, B. A., of Digby, N. S., will be the preacher.

On Monday evening Rev. Mr. Higgins, who was a delegate to the world's Sunday school convention, held at Jerusalem, will give an illustrated lecture on the Holy Land.

DECREASE IN CONSUMPTION. The figures in the United States show improvement. The fact that in 1900 the death rate in the U. S. was 19.6 in each 1,000, that in 1901 it was 17.8, and that for 1902 it is scheduled as having been 17, is due, according to medical authority, to the decrease in consumption.

THE EARL OF MINTO IN THE REBELLION.

He Was Gen. Middleton's Chief of Staff... An Interesting Extract from Col. Denison's "Soldiering in Canada"... He Was Then Lord Melgund.

(Mail and Empire). On the occasion of his farewell visit to Toronto, Lord Minto, in some of the addresses then presented to him, heard references to the part played in the North-West Rebellion and to his fame as a cross-country rider in England.

Col. Denison. As chief of staff to Gen. Middleton, the Earl of Minto, then Lord Melgund, was in the Canadian rebellion of 1855, and on his recent ride across the prairie he must have recalled the hardships he must have encountered when he rode there as a soldier, ever on the alert for the hidden foe.

IMPORTANT TO FARMERS. How to Protect Fruit Trees from Mice—Destroying Weed Seeds.

Destroying Weed Seeds. There are many ways in which weed seeds may be destroyed on the farm, says Mr. G. H. Clark, Chief of the Seed Division.

FOOLS USE WASHES AND SMUTTS. Thinking perhaps they will cure Catarrh—but no one ever heard of genuine cure following such senseless treatments. There is just one prompt and thorough cure for Catarrh and it is Fragrant Healing Catarrh, which goes right to the root of the trouble.

A HAUNTED LOCOMOTIVE ON THE INTERCOLONIAL.

Engine 239...the Man Killer, Said to be Infested With a Ghostly Visitor...Several Engineers Have Been Killed on Her...Has Unenviable Record.

Has the I. C. R. a haunted engine? This question is agitating the minds of the public generally, and particularly the knights of the throttle and their assistants in the cars who are employed on the government railway.

Is this ill-fated engine hoodoo? The general opinion of I. C. R. men is that she is, and this particular locomotive is now looked upon with fear and trembling.

Surrounded by Patrol. "I did not see Lord Melgund again for 14 years, when as Earl of Minto and Governor-General he held his first reception in Toronto, when he reminded me of the early days of my men on their way to the Spinnaway."

THEY PAY FOR FAME.

How Newspapers Are Often Tempted to Accept Huge Bribes.

"Five thousand dollars cash down, if you will insert this notice of my marriage!" That was the tempting offer made by a gentleman to a leading English newspaper some months ago.

EDUATING THE POINT. One Captain Ward, of Portsmouth, an eccentric of the first water, numbered among his peculiarities the fact that he never gave the desired answer to a direct question.

FOOLS USE WASHES AND SMUTTS. Thinking perhaps they will cure Catarrh—but no one ever heard of genuine cure following such senseless treatments. There is just one prompt and thorough cure for Catarrh and it is Fragrant Healing Catarrh, which goes right to the root of the trouble.
