Inquiry at Berlin Brings Out Matters of Interest

Russian Money to Bring Revolution in Germany—Effort to Fix Blame for Publication of Kaiser's Speech on Eve of Hun Peace Proposals

Berlin, Nov. 18.—(Associated Press)—In a statement to the press, Dr. Helfferich, former vice-chancellor, upholds his refusal to answer a question submitted to him by Deputy Cohen on Saturday saying that Herr Cohen accepted money from M. Joffe, former Bolshevik ambassador to Germany, and quotes the official Wolff Bureau as declaring that Herr Cohen, in December 1914, said he had gladly accepted Russian money for bringing about a revolution in Germany, and had used it for that purpose.

An attempt made was to fix the blame for the sending abroad of the text of former Emperor William's speech in Alsace on the eve of the German peace proposals in December, 1914. This resulted in the discovery that the original order issued to the Wolff Bureau was destroyed during the occupation of the newspaper's offices by the Spartacists last winter. The sub-committee desired to run down the responsibility for publishing the former emperor's declaration that Germany would be satisfied only with a "victorious peace" at the moment Dr. Bethmann-Hollweg, then imperial chancellor, was planning a peace proposal, and a controversy ensued between Dr. Helfferich and Deputy Bonn, the latter charging the German government with a failure to "cultivate" President Wilson, who, it was said, "was a different individual later, but at that time might have been won over to the attempted peace action."

Count von Bernstorff, former German ambassador at Washington, declared the United States would have remained out of the war if President Wilson's mediation had been accepted, whereupon von Bethmann-Hollweg exclaimed: "Even the United States in the war did not make the Versailles peace necessary. I did not desire to participate in a 'hate' far the soul of President Wilson, and in view of all elements entering into the situation, I could not conscientiously render Germany any assistance in the present peace undertaking late in 1916 and early in 1917."

Finally, in a broad, impassioned statement to the sub-committee, von Bethmann-Hollweg declared: "After the ending of the war, it was an imperative duty to assert that he based his action on the world situation at that time after carefully weighing all considerations."

FACT THAT LAST YEAR'S LOAN WAS NOT TAXABLE IS BEING CRITICIZED

Some Figure That Country Loses Quarter to Half Million Dollars Annually

Montreal, Nov. 18.—A despatch to the Gazette from Ottawa says:—The success of the Victory Loan has revived the criticism of the non-taxable loan of last year. With many a strong patriotic desire to emulate by contribution at home the splendid sacrifices of our army in the field, "if over \$600,000,000 could be subscribed under present conditions," it says, "many believe that a previous mistake was made last year to secure a similar amount and that the national revenue will suffer thereby for a long time. How much was lost to the revenue by last year's non-taxable loan cannot be estimated with accuracy, but it is placed at a quarter of a million to half a million dollars annually by well informed people."

PHYSICAL EDUCATION IN PUBLIC SCHOOLS

A. A. U. of United States Decides in Favor of it

Boston, Nov. 18.—Samuel J. Dallas of Philadelphia was re-elected president of the Amateur A. U. of the United States and New Orleans was selected for the next convention at the annual meeting which closed last night.

The union amended the constitution to permit refusal of registration to girls favoring state and federal legislation to establish in the public schools a universal system of physical education. It was voted to urge the addition of catch-can wrestling to the Olympics, and to send an American team of athletes to Antwerp for the renewal of the Olympic games to be held there next year.

The union also voted to recommend to the international Olympic committee that the Antwerp games be held between August 15 and September 1.

More Arrests Are Made In New England In Campaign Against Reds

Lowell Store Window With Objectionable Placard

DR. GRINELL IN BOSTON

Speaks of Project to Dam Straits of Bellisle—More Dictographs in Officials Offices—Allegation of British Propaganda Against U. S.

(Special to Times).
Boston, Nov. 18.—Konstanty and Felix Dobrowski of Lowell are under arrest in charge of displaying a placard in a store window in that city which makes a direct appeal to the radicals to "arise, avenge her death." On the placard is a picture of the head and shoulders of a dead woman and on her forehead a wound is noticeable. The woman, according to the placard, was killed during the outbreak in the Pennsylvania coal fields. The arrests were made under the state anti-anarchy laws, an emergency act passed this year by the legislature.

As a part of his determination to rid Middlesex county of "Reds," District Attorney Tufts convened a special session of the grand jury in Cambridge yesterday. The testimony of several men was introduced; the picture presented to the grand jurors and they voted in favor of returning indictments against the two men.

They were arrested at their homes and pleaded innocence as to the harmfulness of the picture. Konstanty admitted having attended meetings in Lowell where radical literature was distributed and where speeches were made advocating the overthrow of the present government. He is a subscriber to The Voice of Labor, a radical publication issued in New York, and received it each week in a sealed envelope. He also admitted reading the placard in the store window.

District Attorney Tufts fixed bail at \$5,000 in each case, and because the defendants could furnish it they were locked up in the East Cambridge jail. Today the prisoners were arraigned and held.

Bellisle Straits.
"The damming of the Straits of Bellisle is what they are talking about now," said Dr. W. T. Grenfell, the Labrador missionary, yesterday prior to his departure for Liverpool. "The promoters are trying to obtain government aid," he added, declaring that to shut out the polar current would result in obtaining ice-free navigation through the Gulf of St. Lawrence the year round and make Nova Scotia and Cape Breton warmer. The passage, however, is nine miles across and forty fathoms deep in the centre. To make it practicable from an economic standpoint they should have set the German prisoners of war to work on the project.

It developed today that prominent lawyers are organizing a movement to bring before the legislature resolutions calling for the revocation of the Watch and Ward Society's charter and the organization of a Suffolk county bar association to supplant the present Boston Bar Association.

More Dictographs.
The proponents of the Watch and Ward had already announced that they would take their side to the supreme court. A new development is an intimation that dictaphones were installed in other Boston offices before the dictaphone evidence against Pelletier and the result of which has caused the effort to throw him out.

A telegram from Quebec received by Geoffrey L. Cabot is that part of the dictaphone evidence against Pelletier has been stolen from his office, but the loss is not great as it has been corroborated by others. The chief papers have been photographed and placed in a safety vault.

The officers' club of the Boston fire department has had a scare thrown into it by the downfall of the police union and the rejection of the two proposals by the city council. The club has decided to surrender its charter for application with the International Association of Fire Fighters, an American Federation of Labor organization. The club will return its charter obtained from the state.

Allege British Propaganda.
Now the shoe is on the other foot. To offset the talk about Irish propaganda flooding the country and to back up the attack against Admiral Sims for his denunciation of the treatment of American sailors in Ireland the advisory committee telegrams to Senators Lodge and Walsh urging that they bring to the attention of congress the alleged activities of British propaganda in Massachusetts against the faith and pride of the United States in this country.

It is contended that at the Middlesex County Teachers' Convention on Oct. 31 four out of five speakers were British propagandists, one a member of parliament in the State House, ex-Secretary Redfield of the department of commerce was reported in the daily press as uttering false statements in line with an official British propaganda programme.

HON. M. CARVELL AND THE TELEGRAPH COMPANIES
Winnipeg, Nov. 18.—The Great Northwestern Telegraph Company must be allowed a rate sufficient for them to live, and the Canadian Pacific telegraphs will then claim the same rate," so said Hon. F. B. Carvell, chief commissioner of the Canadian Railway Board of Commissioners at yesterday afternoon's inquiry into the application of Canadian telegraph companies for increased tolls.

As Hiram Sees It

"Hiram" said the reporter, "to pursue our religious discussion of yesterday. I have been requested to submit to you a nice point in theology. I am not sure that it is theology, but rather suspect that such is the case. Some people who were holding a series of dances wanted a piano. They were told they could have one which was to be found in a certain room in a public building. They sent for it, and danced to its inspiring strains. An evening or two later another assembly of people gathered in the public building to begin a series of evangelistic services. They found no piano, although one had been specially tuned and sent there for the occasion. Enquiry revealed the fact that the piano taken for the dancers. Their expression had gone to the wrong room in the public building and took away the wrong piano. With the aid of another expression man and a policeman it was forthwith seized upon and replaced in the public building to provide accompaniment for hymn tunes."

"I danced to some hymn tunes when I was young," said Hiram.
"But that is not the point," said the reporter. "The question I am asked to submit to you is this: If I were moved to repentance by music with an accompaniment on a piano that had been hampered out of the onestep and the fox-trot—would it be genuine and lasting? Or, on the other hand, if I danced the one-step and the fox-trot with the music of a piano dedicated to evangelistic purposes, would my feet be taking hold on death or pointing toward the better land?"
"They say," said Hiram, "that away back in the Middle Ages, when the schoolmen used to think they knew a lot more than they did, they argued about how many angels could stand on the point of a needle. If them fellers left any deep and serious questions up an' let me answer your questions. I ain't got time."

Flag Trouble In Hospital In Rutland Where Sister of Beaverbrook Has Charge

Rutland, Vt., Nov. 18.—Mayor Dunn heads a committee which was invested with power at a meeting of the aldermen last evening to investigate a remark said to have been made by Miss Annie Aitken at the Rutland Hospital to the effect that the American flag is a "rag."

The American nurses went out on a half day strike several days ago following Miss Aitken's refusal to apologize and the refusal of Miss Annie Aitken, the superintendent, another Canadian, to discharge the nurse.

The investigating committee will look into the conditions at the hospital under management of Miss Aitken. She is a sister of Lord Beaverbrook, Sir Max Aitken. Miss Aitken, it is said, received her diploma, although she had not finished her time. Miss Aitken is responsible for the award.

G. W. V. A. TO ASK GOVERNMENT FOR AN INVESTIGATION

Matter of Charges About Food Sent to Soldiers Overseas

No Action Had Been Taken When D. D. McKenzie Asked For It—Returned Men Now Propose To Press For It

Ottawa, Nov. 18.—The Great War Veterans' Association intends to ask for an investigation into the charges made in the House of Commons that food alleged to be unfit for human consumption was canned and shipped to the soldiers in France. The charge was made by D. D. McKenzie, leader of the opposition, who asked for an investigation, but the government took no action.

The dominion command of the G. W. V. A. now intends to press the charges and ask for an investigation. The dominion command has in its possession some documents bearing on the case, and in the current issue of "The Veteran" prints the charges under the heading "Was Graves and Corruption Caring for Soldiers?"

It characterizes the story, if the charges are true, as being "the most diabolical and cold blooded dividend-raising plot ever hatched by soulless profiteers."

A fac-simile, published for the first time, of a letter written by the Hersey Company, Limited, Montreal, in which the company is printed in "The Veteran." This is an amazing document, the Veteran says. It is written on the Dominion Commanders, and reveals conditions, which, if true, are said to be revolting.

PATIENT FROM THE PROVINCIAL HOSPITAL ON SMASHING TOUR

Store of T. McAvity & Sons and Several in Other Parts of the City Suffer

Frank Pierce, who has been a patient in the Provincial Hospital, Lunenburg, escaped yesterday afternoon and before he was caught this morning had done considerable damage and caused much excitement. He was arrested this morning at 7:30 by Policeman Thomas just after a plate glass window in the store of T. McAvity & Sons, Ltd., had been broken. It was learned afterwards that the store of George Worrell, Haymarket square, Gilbert's second-hand store in Mill street and Williams' second-hand store in Dock street had been visited and plate glass windows broken and the stores ransacked. In Mr. Worrell's store a suit, similar to that worn by hospital patients, had been found, and it is presumed that he had gotten rid of his asylum suit there.

On being questioned by the policeman he is said to have replied that he was trying to get a revolver to shoot the man who was an escaped patient. After communicating with the Provincial Hospital arrangements were made and he was taken back to the hospital.

It is contended that the defendant has since done a considerable amount of electrical business in St. John. The agreement was for the defendant, was not in court for this morning. Daniel Mullin, K. C., appeared for the plaintiff. The court adjourned to 2:30 p. m. for the examination of further witnesses.

PRINCE REACHED NEW YORK TODAY

A Big Reception—Five Days There and Then For England

New York, Nov. 18.—The Prince of Wales arrived at Jersey City at ten o'clock this morning on a five days visit to New York. Nearly an hour before he arrived the section of the Pennsylvania terminal, Jersey City, reserved for his train had been cleared of all spectators.

There were no decorations on the pier, the guest of honor and 150 uniformed Jersey City policemen standing the only touch of color to the occasion. The reception at the pier was an informal one, the formal welcome of the city of New York being extended at the Battery, where the prince and his party were taken in barges of the battleship Pennsylvania, the flagship of the Atlantic fleet.

A cheering throng greeted the prince as he stepped from the barge at Battery Park at eleven o'clock. After a brief exchange of greetings with members of the mayor's reception committee he was driven through the financial district up Broadway to the city hall where a formal welcome of the city was extended by Mayor Hylan.

Thousands of people were massed in the city hall plaza. The British flag and the American flag shared equally in the decorations over the portals and in the aldermanic chamber where the official ceremonies took place. The police band played during the ceremony.

TALK ABOUT PROHIBITION ACT

N.B. Temperance Alliance Session in Fiedericton—Some Opinions (Special to Times)

Friederickton, N. B., Nov. 18.—The New Brunswick branch of the Temperance Alliance opened its annual meeting here this morning in the Brunswick street Baptist church. Rev. Thomas Marshall occupied the chair until President Donald Fraser arrived. The report of Field Secretary F. E. Boothroyd and the report of the executive presented by Rev. Thomas Marshall were received. Secretary Rev. C. Fleming was unable to be present, and Rev. Mr. Boothroyd acted in his place.

The report of the field secretary referred to the evil reaction upon the prohibitory act of the use of extra-legal means in Ontario, Quebec and the beginning of the war there had been a great expansion on the work of the alliance.

Mr. president Thomas Marshall in the report of the executive referred to the immense strides made by the prohibition movement in Ontario, Quebec and the United States since the convention held in last December. In New Brunswick there had been organization work and the Temperance Alliance had been established. Rev. Mr. Boothroyd, field secretary, the absence of legalized sales for beverage purposes and the reduction in the number of saloons, were the chief points of the alliance had been crowned with success. There had been a marked absence of drunkenness at public gatherings, such as exhibitions, races, etc.

Friederickton, Nov. 18.—The executive committee of the Temperance Alliance meeting declared that "unfortunately there are members of the medical profession who are continuously and notoriously violating the prohibitory act in the sale of prescriptions and recommended that the names of such offenders should be published and that the medical council should take action. On the subject of the sale of extracts the report declared that some manufacturers were "violently manufacturing and selling for the purpose of its use as a beverage."

It was said that certain magistrates persist in imposing only minimum penalties for the violation of the law. Recommendations are included that persistent violators be given the full penalty of imprisonment and that retail and wholesale vendors where convictions have been made forfeit their licenses with renewal impossible for at least three years and that "no influence, of any kind, however powerful and strong, should be allowed to bring about its renewal and so override the clear provisions of the law."

In view of the many and persistent efforts to discredit the law and to prevent its proper enforcement, and in view of the prospect of a referendum, the alliance would urge upon all friends of temperance the necessity of presenting a united and aggressive front, so as to ensure a crowning victory.

NOT A ZOO. A resident of Queen street was puzzled for some time the other evening on his return home as to the reason for the placing of several Teddy Bears in the flower beds in Kings square. Paris, Nov. 18.—Regardless of the American government's attitude, the peace treaty of Versailles will be put into force, according to the prevalent view here today following receipt of the report that President Wilson might withdraw the treaty from the United States senate.

A FRIEND OF THE BIRDS. There is an old gentleman in the city who has made himself a great friend of the pigeons in the city and he can be seen almost daily in King square feeding them. He usually stay after he has left, picking up the odd crumbs which fall about during their meal time. Yesterday, however, they did not seem satisfied with their ration and as a result the man attracted considerable attention in Charlotte street as he passed along followed by a large gathering of his feathered friends. They perched on his shoulders and hat and could not be persuaded to leave until he had scattered more food in the street for them and disappeared while they were engaged picking it up.

VISIT TO COBURG STREET CHURCH SOCIETY

The Tabernacle Baptist Young People's Society paid a visit to the Coburg street Baptist church, where they rendered a pleasing programme to a large audience. Mrs. R. D. Coggin, president of the Tabernacle society, was in the chair. The subject for the evening was "Co-operation in Christian Service." A splendid spirit prevailed and the meeting was helpful and much enjoyed by all. The service opened with a song, after which a prayer was offered by Deacon Owens and a Scripture lesson was read by the president. A paper by Miss Mary Owens and one by Miss Lizzie Young were read, followed by an address by R. V. Copp, after which the pastor of Tabernacle church, Rev. A. Lawrence Telford, offered a prayer. A duet was pleasingly rendered by Peter Murray and Miss Ethel Keirstead, followed by song and general testimony. The service closed with an address by Peter Murray. It is expected that the Coburg Young People's Society will make a return visit to Tabernacle church in the near future.

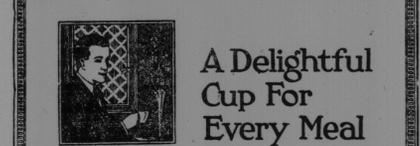

DISAPPOINTED OVER LLOYD GEORGE'S SPEECH

London, Nov. 18 (C. A. P.)—Morning newspapers express sharp disappointment with Premier Lloyd George's statement in the House of Commons yesterday regarding Great Britain's policy toward Russia. The London Times says it is almost ashamed to comment on the debate "which went far to undermine the prestige of the British name in Eastern Europe."

The Telegraph says it "awaits with misgiving the political consequences of a policy which means an immediate accession to the prestige of the viceroy in Europe."

The Morning Post says Lloyd George announces in fact the defeat of the Allies in the east.

THE AWAKENING SPIRIT.

At the Rotary Club luncheon yesterday and at the Knights of Columbus banquet last evening voice was given to the new spirit that is beginning to make itself manifest in St. John.

Let the good work go on. Let us have a real forward movement in St. John. The city has a very small debt per capita. It can issue bonds and its own citizens will purchase them.

HARBOR COMMISSION.

If the people are asked to vote on harbor commission they ought to have several definite assurances. They should be told whether the provisions of the act throwing the whole burden of the harbor on its traffic are to be carried out.

SUBS FOR \$3,260,000.

The Nemours Trading Corporation of Delaware has been named defendant in the two largest suits for compensation and damages combined that have ever been brought by individual employees against employers in the New York Supreme Court.

Each plaintiff alleges that on November 6, 1918, the defendant refused to permit him to continue his work under the alleged contract of employment, and that on that date there was due him for services rendered the sum of \$8,150.

It is said that Dr. Murray MacLaren, C. M. G., will sail for Canada on the S. S. Metagama on next Wednesday. He has been overseas for five years, going over with the first contingent, and has served in most every capacity in his line of work.

AN INTERESTING SUGGESTION.

An interesting development in labor circles in the United States is recorded in the following despatch from Atlanta, Georgia:— "Recommendations to the American Federation of Labor that strikes be stopped and that the money spent on strike benefits and other expenses connected with walk-outs be used in a nation-wide campaign to educate the American public on the principles of organized labor were before the executive committee of the Atlanta Federation of Trades today for action.

The editor of the Clerk, the monthly journal devoted to efficiency, industry and good-fellowship among the clerks of St. John, writes that they stand for a forward movement, and adds the significant remark that among them are the merchants of tomorrow.

The extreme radicals in French politics were almost wiped out in the general elections. The heart of the country is sound, and the way paved for a sane policy of reconstruction.

The request of the miners in the Nova Scotia collieries for boards of conciliation indicates dissatisfaction with present conditions. The public will hope no interruption of the coal output will occur when there is a possibility of a shortage in Canada before spring even under the most favorable conditions.

Premier Drury of Ontario is sound on the question of prohibition. He is in favor of a referendum on the question of the importation of liquor into Ontario, and in view of the recent referendum there is no doubt of what the result will be.

The discontinuance of the unemployment allowance to civilian workers in England indicates that industry is gradually getting back to a normal condition.

It is now agreed that a grave blunder was committed last year when the Victory Loan was made non-taxable. The present taxable loan was just as successfully negotiated and there is no loss of revenue.

The Nemours Trading Corporation of Delaware has been named defendant in the two largest suits for compensation and damages combined that have ever been brought by individual employees against employers in the New York Supreme Court.

In each complaint it is alleged that on June 16, 1918, the defendant established a clock department and that the plaintiff was engaged as associate manager with the understanding and agreement that he would receive one-half of the net profits of the department for the services to be rendered.

Each plaintiff alleges that on November 6, 1918, the defendant refused to permit him to continue his work under the alleged contract of employment, and that on that date there was due him for services rendered the sum of \$8,150.

THE EMPLOYER.

The man who owns the posthole works gets sympathy from none; and with the artisans we sigh when they tell of how their children wait for pie and oysters on the shell. But for the owner of the place no pity can we spare, though furrowed is his weary face, and graying is his hair.

MURDER OF THOMAS SCOTT.

One of the most dastardly crimes committed in the revolt which Louis Riel led in the west was the murder of Thomas Scott, a man who had in some way won the hatred of the rebel leader.

He was one of the prisoners who had been taken at Upper Fort Gary and locked up in the Hudson's Bay post. Sir Donald Smith, afterwards Lord Strathcona, in telling of the death of the man, said he arrived at Riel's head-quarters and complained of the insolent manner of the captives and declared he feared it would be necessary to shoot one.

A few minutes before 1 o'clock that day poor Scott was led forth to be slain. The firing party of six men was half drunk. Scott fell severely wounded and then one of the men in charge of the party shot him through the heart with a revolver.

The Times demand by very best. The sweetest song, thy truest word, Seek not to shun thy high best, Nor hold it for a thing abhorred.

THE TIMES DEMAND.

(Rev. George Scott.)

The fond traditions of the past Which satisfied our fathers' mind Into the furnace have been cast, And shall emerge as gold refined.

But purged from dross, all worthless schemes, All that is dying it shall die, Autocracy's perverted dreams Which fostered inequality.

Pale ghosts of elemental laws, Survivals of the reign of might; Spectres which frown on freedom's cause Shall in the dawning take their flight.

Be yours to give a nobler trend, To mould the seething forms of thought, All social wrongs to crush and rend, Lest truth and right should come to naught.

Say not the task transcends thy powers, Men of clear thought and busy hands, Ten million rain drops make the showers, Which fructify the desert lands.

Build where thou art so strong and sure On broad foundations truly laid, Though toil be hard see thou endure Calm and erect and unafraid.

The times demand thy noblest thought, Thy truest word, thy firmest deed, Let not thy visions come to naught, See thou enjoy the victor's meed.

GOING TO HELP THE SERBIAN CHILDREN

(New York Evening Post.)

One of the interesting people who are setting out to join the Serbian Relief Committee is Mela Anderson. Bound for Salonica, en route to Chacabak, Serbia, Miss Anderson is full of enthusiasm for her new programme.

But Miss Anderson has courage. She and the eleven relief workers who are setting out to join the Serbian Relief Committee's commissioner for Serbia, William J. Doherty, will begin their benevolent activities sixty-five miles south of Belgrade, where the government of the new kingdom of the Serbs, Croats and Slovenes has given for the use of the committee a tract of fertile land and military barracks which housed a thousand men during the war.

Serbian children cry from misery, they wander about the country in ragged, hopeless bands, sometimes sleeping on church doorsteps, sometimes on the floor of a hospitable peasant's cottage who invites them to come in out of the cold and lie down among his own numerous brood.

The Serbian children are neither naturally backward nor deficient, but there are many of them who are broken in health by the hardships they have endured, and many crippled and mutilated.

SKIPPER GETS UP THE ST. LAWRENCE WITHOUT PILOT
Montreal, Nov. 18—The remarkable feat of running a ship nearly up to Quebec without a pilot was performed by the skipper of the Joazeira, a vessel which has come here for the Brazilian government, and has a crew of that nationality. It is said that the captain had never been in the St. Lawrence before, and that he was unaware of the regulations and ran right past the pilots' ground. The only disadvantage he suffered was that he happened to run short of coal and was stranded for the last lap and had to be towed into Quebec. The ship was obliged to pay a pilot's fee.

Rome, Nov. 18—The Vatican will officially call the next consistory in the middle of December. Besides the new cardinals it is already known the Pope will create, Monsignor Soldevilla Rome Rodkrolo, archbishop of Saragossa and Monsignor Dalbor, archbishop of Posen, will be elected to the cardinalate. Confirmation of the red hat on Monsignor Francesco Ragonelli, nunci at Madrid, is uncertain, as the Spanish government insists on his remaining at his present post.

Ayres Finds It Pays to Advertise His "Ads."

The average store would not think of advertising the fact that it had made minor improvements in the physical condition of the establishment, but L. S. Ayres & Co., of Indianapolis, recently did that very thing in a style impressive enough to cause comment. Like most stores in the same line, Ayres & Co. use big space in the daily papers to feature their various bargains. The location of this advertising depends on various elements, and varies from day to day. The company, however, reserves the upper left hand corner of the last page of one of the big afternoon dailies for little chats with the public, incidentally taking advantage of the opportunity to direct attention to its main advertising on another page, the location of which is ascertained from time to time by the exact page number in the smaller space.

FALL WHEAT REPORT FROM OVER DOMINION

Ottawa, Nov. 13 - The dominion bureau of statistics estimates the total area sown to fall wheat in Canada for 1920 harvest to be 776,400 acres, as compared with 714,700 acres last year. Unusually cold weather during October was reported from the west. Threshing and fall plowing were held up, large quantities of potatoes were frozen in the ground and in British Columbia thousands of boxes of apples were lost.

Owing to these conditions, only 30 per cent of fall plowing was done in Saskatchewan and in Alberta only 25 per cent. Manitoba shows 64 per cent against 54 per cent last year. British Columbia reports 56 per cent against 51 per cent last year.

In the maritime provinces the proportions are higher. In Quebec 75 per cent was completed and in Ontario 77 per cent as against 64 per cent last year. The average percentage for the whole of Canada is 66 per cent, or 10 per cent better than last year. The area under summer fallow for all Canada is about 6 per cent less than last year.

Mrs. Kenneth Raymond, in the fur coat case, was set up for trial yesterday afternoon. George H. V. Belyea appeared for the prosecution and Daniel Mullin, K. C., for the defence.

K. C. ANNIVERSARY WELL CELEBRATED

Very Fine Function With Large Attendance and Prominent Guests

speeches a Call For The Best That All Can Give in After-war Days—Honor Roll Unveiled by Lieutenant-Governor

The fifteenth anniversary of the founding of St. John Council, 987, Knights of Columbus, was observed in their rooms in Coburg street last evening with a banquet which afforded pleasure and enjoyment to a very large gathering. It was regarded as a very marked success from every point of view. Tables nicely arranged by the Catholic Girls' Guild who did the catering for the event numbered six, one crosswise for special guests and the other five for the members, with one in the centre for the returned members. Every chair was occupied, showing that the assembly was particularly large. William M. Ryan, grand knight of the council, presided with distinction. On either side of him were Hon. William Pugsley, lieutenant-governor of the province; Hon. W. E. Foster, premier; General Macdonell, G.O.C., M.D., No. 7; Rev. Francis Lochary, returned chaplain; Rev. William M. Duke, chaplain of the council; R. D. Wignore, M. P.; Mayor Hayes, R. D. Paterson, president of the Rotary Club; N. P. McLeod, president of the G. W. V. A.; Captain A. J. Mulenhey, Hon. J. B. M. Baxter, Dr. W. P. Broderick, state deputy; William J. Mahoney, past state deputy; Rev. C. P. Carleton and Hon. R. J. Ritchie.

The toast list was as follows: "The King," honored in music; "Our Country," proposed by the chairman, responded to by Mr. Wignore, M. P.; "Our Province," proposed by the vice-chairman, E. J. Henneberry, deputy grand knight, and responded to by Premier Foster and Doctor Baxter; "The Loyalist City," proposed by the chairman, responded to by Mayor Hayes; "The Canadian Expeditionary Force," proposed by the vice-chairman, responded to by Brig-General Macdonell; "Our Soldier Members," proposed by the chairman, responded to by Rev. Father Lochary, Cuthbert Morgan, George Keefe and J. B. Dever; "Our Order," proposed by Doctor Broderick, responded to by W. J. Mahoney; "Our Sister Societies," proposed by the grand knight, spoken to by N. P. McLeod and R. D. Paterson. At the close of the toast list Rev. W. M. Duke called upon Lieutenant Governor Pugsley for the unveiling of the roll of honor which was preceded by an inspiring address on the part of His Honor.

The addresses were of keen interest and were followed with close attention by the large gathering. The reception accorded the various speakers was stirring, cheers greeting them.

The speakers dwelt mostly upon the great work of Canada in the war, the task before her in peace, the future that lay in store for her and the duties of all good citizens to bear their burdens for her growth, expansion and development. They congratulated the Knights of Columbus upon the fine showing of members who had been overseas or in khaki during the war and upon the splendid co-operation they had given to various patriotic endeavors at home and the hope was expressed that the next fifteen years would be even more filled with success for the order than the past.

A toast was drunk in silence in memory of the soldier members who gave their lives overseas, five of whose names are inscribed upon the roll of honor. J. L. Mullaly presided in his usual capable manner at the piano. T. Maunsell O'Neill gave pleasure with the violin and further enjoyment was afforded in vocal solos by Gerald O'Neill, Bates Tapley and Frank Hazel and readings by S. C. Hurley. Special motion picture features were shown and rounded out a fine entertainment programme. Letters of regret were received from Sir Douglas Haam and S. E. Elkin, M. P., at their inability to attend.

The honor roll is a very attractive work of art, a mural design containing the following names:

- Dead—Frank J. Corr, Joseph D. Brown, Maurice Mullaney, Harry Leonard and Remi Peris. Enlisted—Alphonse T. Boudreau, Maurice E. Brosnan, Harold J. Bowes, Joseph D. Corkery, Edward J. ORGANIZED LABOR IS CALLED UN-AMERICAN

Unpatriotic and Greedy, Says Association—Commissioners of Agriculture Say Radical Demands Are Breeding Revolution.

Chicago, Nov. 18.—Organized labor and its demands for shorter working hours and higher pay were represented as unpatriotic, greedy, and un-American in resolutions adopted at the annual meeting of the National Association of Commissioners of Agriculture here.

The representatives of the farmers of every state in the Union warned that "the radical demands of labor are leading straight toward a revolution and to a government not of the people but of one class, many of whom are unable to speak our language or understand the spirit of our American institutions."

The resolution condemning labor was only one of several which denounced the profiteer, endorsed the Farm Loan act, deplored strikes and lockouts of all character and urged the farmers to join one central association for the protection of their interests.

The labor resolution said in part:—"Whereas, many of the leaders of organized labor are endeavoring by intimidation and otherwise to force all individual workers into its range, so that by centralized power it may exact an undue share of the return of such industry and force the employment of its adherents to the exclusion of all non-union labor, and

ASK RETURN OF BODIES.

Washington, Nov. 18.—The war department has received 40,000 requests from relatives for return of the bodies of soldiers dead in France, so Colonel E. W. Anderson, assistant city attorney of Richmond, Va., told the house foreign affairs committee.

Representative Flood, Virginia, ranking Democratic committee member, said that this had caused a "turn-about in the policy of the war department," and that the bodies would be returned as soon as arrangements could be made with the French government.

A delegation from Pittsburg, headed by J. D. Foster, also asked for return of the bodies, but no action was taken by the committee, which was considering a resolution by Representative Bland, Republican, of Indiana, for the appointment of a commission to decide the question.

Major Hooper desires to call attention to a typographical error in his letter to The Times on Saturday in reference to the gift of the Ashburnham branch of the Red Cross Society for the hospital library in Fredericton. The amount donated was \$150, and not \$15 as it wrongly appeared.

REPORT ON THE DARDANELLES EXPEDITION

Difficulties Much Underestimated at The Outset

Preparations Based on Assumption That if Landing Were Made Resistance Would be Slight—Findings of The Commissioners

London, Nov. 18.—(Associated Press)—The report of the commission which has been investigating the disastrous Dardanelles expedition of 1915, made public yesterday, finds that when it was decided to send an expedition to Gallipoli sufficient consideration was not given to measures necessary to success and that the difficulties of the operation were much underestimated at the outset. All the decisions taken and the provisions for the expedition, according to the report, were based on the assumption that if a landing were effected the resistance would be slight and the advance rapid.

The members of the commission believe that the conditions for a military attack should have been studied and a general plan prepared by the chief of the general staff, Lieut. General Sir James Wolfe Murray, while it was the duty of the secretary for war to see that this was done.

The commission recognizes the personal gallantry, energy and determination with which the expedition was conducted, and also that the task was one of the most extreme difficulty, more so as the authorities at home at first misconceived the nature and duration of the operations.

MORNING NEWS OVER THE WIRE

A case that is attracting unusual attention in the United States is that of an enlisted man in the navy, Harry Joseph Harley, aged twenty-six years, who has been sleeping for fifty-one days, during which time he neither had food nor drink. He weighed 186 pounds when he went to sleep and eighty-five when he awoke.

Four armed men raided the Savings Bank in Randolph, Mass., yesterday, stole \$40,000 and made their escape in an automobile.

The International Workers' Conference in Washington yesterday received word that the German delegates to that body would sail from Gothenburg on November 19.

Twenty-two men suspected of being "Reds" were arrested in a raid in New York last night.

The Belgian ministry has tendered its resignation following the recent elections. The new ministry recently elected in Newfoundland with Richard Squires as premier was sworn in yesterday in St. John's.

The London Daily Mail says that in about a fortnight a new Irish measure will be introduced providing for two legislatures with a supreme central senate.

Giolitti, Boselli, Salandra and Orlando, all former premiers, have been defeated in the Italian chamber. The ministerialists won 145 seats.

Victor Bradford of Black's Harbor, had his arm so badly shattered in an accident with a shotgun yesterday that it had to be amputated at the elbow.

TITTONI WANTS TO GIVE UP HIS POST

Rome, Nov. 18.—(Associated Press)—Foreign Minister Tittoni has again expressed a desire to resign. He gives as his reason the state of his health, and the complication beyond his control which has arisen in the Adriatic situation. Another reason is said to be the attitude of President Wilson on the Adriatic problem which the foreign minister declares he has vainly done everything in his power to modify. His colleagues are doing their utmost to induce him to alter his intention.

we found it necessary to make slight increases in price during the war period. GIVES \$750,000 TO STATE

London, Nov. 18.—The Chancellor of the Exchequer has received for cancellation £150,000 of the 4 per cent. funding loan on a thank offering from a man signing himself "F. S. T." The latter some time ago wrote to The London Times announcing his intention of making a thank offering of one-fifth of his estate to the state. "In the firm conviction that never again shall we have a

chance of giving to our country that form of help which is so vital in the present times," he added: "How can the nation be made to understand the gravity of the financial situation, and that love of country is better than love of money? This can only be done by example, and the wealthy classes have today an opportunity of service which can never recur."

The House Painters' Union met in their hall, Charlotte street, last night with President George T. Kane in the chair. Only matters of routine were discussed.

CHIEF STEWARD LEFT THE SHIP

Was so Run-down He Had to Lay Off - Is Wonderfully Built up by Tanlac.

"Well, sir, if I keep on improving like I have in the past few days I'll soon be able to go back on the job," said C. Miller of 36 Mullock street, St. John, New-

foundland, as he purchased his third bottle of Tanlac at Comor's drug store, recently. Mr. Miller is chief steward on the steamer Prospero and states that he had suffered so much, from a complication of troubles, during the past several months that he was forced to lay off, not being able to look after the duties of his position.

"Up until a few months ago," he continued, "I tipped the scales at one hundred and eighty-five pounds and a healthier man couldn't be found anywhere. Then I began suffering from nervousness and indigestion and going down in weight and strength. My stomach got so out of order that I could not eat a meal without just suffering again afterwards and then I got scintillating rheumatism so bad I could barely hobble around. Finally the rheumatism spread until I ached all over. I dropped off forty pounds in weight and was so weak and miserable that I simply had to give up my position on the boat and do nothing but try to find relief.

"It was under treatment for a different time and was kept on a special diet, but never did I get better and begin to pick up until I began taking Tanlac. When my friends told me about Tanlac and urged me to try it I had little idea it would help me, but now I am ready to say I have never seen the equal of it in the sixty-two years of my life. I have only been taking it for a short while but I am already in better shape than I have been for a long time. Why I can eat the biggest kind of meals and never feel a pain or an uncomfortable feeling afterwards and as for the rheumatism, it has left me entirely, for I can walk all over town and never feel a pain in my leg. Why, before Tanlac proved its due to me I would not have believed such wonderful results possible. I am already feeling a great deal stronger and am picking up in weight and strength every day. My nerves have quieted down and I am improving so rapidly that I will soon be able to work again. There's nothing too good to say for Tanlac and I am glad to make this statement for what it may be worth to others who are needing just such a medicine.

Here is another instance of the remarkable reconstructive powers of Tanlac. Mr. Miller is only one of many thousands who have used it with the same wonderful results. Tanlac proved of great benefit to him because it contains certain medicinal properties which enrich the blood and promote a healthy appetite for nourishing food. Tanlac has been very successful in overcoming nervousness and sleeplessness, not from a quieting effect on the nerves, for it has no such effect, but by strengthening the nerves and bringing back the normal state of health through its effect on the life and nutrition of the body.

Tanlac is sold in St. John by Ross Drug Company and F. W. Munro under the personal direction of a special Tanlac representative. (Adv.)

New York Inquiry Brings Out The Story

Intrigue of Years Against The Romanoffs Told of by Matens. "Ambassador of Soviet Republic" - Desire to Upset All Capitalistic Governments

New York, Nov. 17.—Ludwig C. A. K. Martens, "ambassador of the Russian Soviet republic," plotted in Germany and Switzerland with Lenin and Trotsky for the overthrow of the Russian imperial government, so he testified here today. He was deported from Russia after serving three years imprisonment in Germany for his revolutionary activities.

The tale of the plot against the Romanoffs, which covered many years, was brought out by questions put to Matens by Deputy Attorney General Berger. Matens said that upon his arrival in Berlin he was pressed into the German military service and served in barracks. "On what grounds did the German military authorities press you into the army?" he was asked.

"Because my father and mother were German citizens," he replied. On leaving the army, he said he entered the Charlottenberg Polytechnical Institute in Germany, and later became an engineer in the employ of a Hamburg firm. For twelve years, he said, he was engaged in propaganda work plotting the overthrow of the Russian government from Germany. During this period, he testified, he conferred with Lenin and Trotsky in 1901 in Switzerland, and in 1902 in Berlin. He added that part of the propaganda was hatched in France and Switzerland.

He was organizer of the Russian workmen in the revolution in Russia in 1905, he said, and added that his activities were not interfered with in Germany. A. E. Stevens, associate counsel for the committee, asked Matens if it was not true that the Soviet republic wished to overthrow all capitalist governments. "That is their wish," replied the "ambassador." "They wish to change the capitalist system to the socialistic system."

A letter addressed to American workmen by Lenin from Moscow, August 20, 1914, was read into the record, in which he stated that "the revolutionary proletariat of America, in so far as it is an enemy of American imperialism, is destined to perform an important task."

In substance the letter charged that the use of terroristic methods are justifiable in the cause of the proletariat and it is cited that class struggle has inevitably taken the form of civil war.

"If I understand this portion of the letter correctly, it is a statement that the revolution in Germany, the Soviet government," said Mr. Stevens. Martin admitted that such was the case and added that 1,500 commissaries of police officials had at various times been executed in Soviet Russia.

REFUSED POSITION AS ONTARIO'S GOVERNOR

Report Says It Was Offered to Sir Geo. E. Foster

Premier Expects to Return to Ottawa by End of Month—Re-organization of High Commissioner's Office in London One of His Tasks

Montreal, Nov. 18.—A despatch to the Gazette from Ottawa says:—Sir Robert Borden will probably return home before the end of this month. He is much improved in health and on his return will immediately plunge into cabinet reconstruction and the next session's program. At present in the United States, in addition to the prime minister, are Hon. N. W. Rowell and Hon. G. D. Robertson at Washington, Hon. J. D. Reid and Hon. J. A. Calder. These ministers and Lloyd Harris, chief of Canadian European trade missions, have all been in conference with the prime minister. With Lloyd Harris, the premier discussed our European trade policy, the re-organization of the Canadian high commissioner's London office, and the successor to Sir George E. Foster as minister of trade and commerce. Sir George, upon his return from overseas, asked to be relieved of his portfolio. He was offered the lieutenant-governorship of Ontario, but declined this appointment.

Sir George Perley, high commissioner, desires to return to Canada. On his retirement it is the general desire among industrial leaders in Canada that this office be re-organized and its commercial scope increased. For this purpose it is felt that one of Canada's industrial leaders should be appointed. At present the supervision of Canada's European trade is under the Lloyd Harris special trade mission but there must be some permanent organization secured and the most feasible method is the re-organization of the high commissioner's London office. Those mentioned for the position are Sir George E. Foster, Sir Charles Gordon and Lloyd Harris.

BAITING THE COMMODORE

(Moncton Transcript.)

Commodore Stewart of the Chatham World, finds fault with the St. John newspapers, because of alleged defects in their reports of the recent Tory convention. The commodore says it would have been better to have allowed the reports to have remained, than for the convention to be subject to the proceedings being mangled from hearsay gossip. The Transcript is thoroughly in accord with the commodore's criticism, but it wonders why the commodore who was present does not himself give an accurate report of that which was said and done instead of finding fault with those who did the best they could.

(Fredericton Mail.)

The worthy Commodore Stewart, who is a recognized authority on international law, parliamentary rules and practice, etc., is annoyed at those newspapers which have been telling the truth as to happenings at the opposition convention. What the independent commodore should do is to give his own candid opinion of the recent gathering and of the manner in which the proceedings were conducted.

Keeps Children Well Makes Them Robust

HERE IS GOOD ADVICE FOR THE HEAD OF EVERY FAMILY.

Rapid growth, work at home and in the school-room, are sure to tax the strength of every child, and often prove the beginning of a chain of weakness that lasts through life. Give your sons and daughters a fighting chance! Give them good home surroundings, fortify them with education, but above all else do everything possible to insure for them perfect health year to year.

Thin, Nervous People Need Bitro-Phosphate

Weak, thin people—men or women—are nearly always nervous wrecks; thus, inability to sleep, indigestion, nervousness, debility and neurasthenia are almost invariably due to nerve starvation.

Feed your nerves and all these symptoms due to nerve starvation will disappear. Eminent specialists state that one of the best things for the nerves is an organic phosphate known among druggists as Bitro-Phosphate, a five-grain tablet of which should be taken with each meal. Being a genuine nerve builder and not a stimulant or habit-forming drug, Bitro-Phosphate can be safely taken by the weakest and most delicate of us.

In substance the letter charged that the use of terroristic methods are justifiable in the cause of the proletariat and it is cited that class struggle has inevitably taken the form of civil war.

"If I understand this portion of the letter correctly, it is a statement that the revolution in Germany, the Soviet government," said Mr. Stevens. Martin admitted that such was the case and added that 1,500 commissaries of police officials had at various times been executed in Soviet Russia.

Any physician will tell the reader that this combination may safely be trusted in the treatment of a cold or the grippe. It is also a combination which does quick and effective work.

MAHOMEDAN COMMUNITY ADVERTISING

Omaha has spent \$15,000 for community newspaper advertising this year and the results are extremely suggestive. In view of the efforts made by department stores to get women of culture for sales work, the stationary sales of school teachers have resulted in the after-work by many members of that profession.

THE BUSINESS COLUMN

(Continued from page 7)

The ad featuring the store improvements, which runs in the same fixed space, was in an intimate vein. "The visitor said, 'you've a remarkably attractive store. It is so clean and cheerful.'"

STRIKING THE HUMAN NOTE

St. E. Ryan, advertising manager for Ayres, believes that the public can be interested in the most minute details of store management, provided it is told in an interesting way.

The same intimacy which is a peculiar feature of Ayres advertising also has made its appearance in classified advertisements for saleswomen. The store might content itself with the usual "Girls wanted for all departments," but an effort is made to put the same human touch in this type of publicity as in that designed to sell goods.

single-inch advertisements was particularly effective. "Early in the present year we began a series of twelve three-inch advertisements, all in a similar style, using the word Omaha for the display and, as a sub-head, 'Where There is Lasting Prosperity.'"

"These advertisements are not designed to pull inquiries, but are informative in character, each being devoted to some salient point about the city. One calls attention to Omaha as the second livestock market of the world, another as the second corn market, another features the fact that Omaha is thirteenth in bank clearings, although thirty-fourth in population, and so forth.

"The growth of the city and the rapid increase in new businesses which have come to Omaha is the 'proof of the pudding'—and also the reason that we intend to increase our appropriation next year."

"Sometimes it is in my arm. Merciful Heaven, how my back hurts in the morning!" It's all due to an over-abundance of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking the advice of Dr. Pierce, which is "Keep the kidneys in good order." Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the hot water, before meals, and drive the uric acid out of the system by taking Anuric. This can be obtained at almost any drug store.

Send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, take heed, before too late. Get Anuric (anti-uric-acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce ten cents for trial pack.

MORE APPLICATIONS FOR ASSISTANCE

Canadian Patriotic Fund Reports Increase in Number Waiting Help

Ottawa, Nov. 18.—The executive secretary of the Canadian Patriotic Fund reports that applications for assistance for dependents of discharged soldiers are daily increasing in number and that more than 300 are now receiving regular monthly allowances. In addition many hundreds of families are assisted each month by compassionate grants rendered necessary on account of sickness or accident in the family, delay in pension or war service gratuity or by some other contingency.

The majority of the women who are receiving regular monthly allowances are deserted wives whose husbands either remained overseas, taking their discharge in England, or, having returned home, left their wives within three months of discharge. The fund also reports that a number of applications have been received from women whose husbands deserted them after being at home for a longer period. To avoid fraud and the chance of collusion, it was found necessary to make the stipulation that desertion must have taken place during the period of the man's military service or within three months of his discharge.

Next to deserted wives, in number, are the widows of men who have died from causes that are not pensionable. In the majority of cases such men have died after discharge from some such sickness as pneumonia. There have also been cases in which the men died during military service but from causes that could not be regarded by the Board of Pension Commissioners as due to service.

Assistance in Sickness. The fund is also assisting the families of a number of men who are suffering from chronic sickness in respect of which no pension is payable. In some cases also allowances are being paid to meet the additional expenses of the extended illness of the wife or child of a returned soldier which the man is unable to meet out of his earnings.

The large number of marriages between Canadian soldiers and English girls has also added its quota to the demands upon the fund, as many of the boys were supporting their mothers prior to their marriage and are now unable to discharge a dual responsibility towards both mother and wife. In some cases the man is unemployed, but this alone does not constitute grounds for relief. The amount of money at the disposal of the fund is too limited to permit of its adequately dealing with the unemployment problem. Other applications that are received come from men who have only seen service in Canada, but who, as a general rule, are also regarded as ineligible for assistance from the fund. Debts incurred during the man's service and unpaid upon his discharge are another reason for many applications which cannot be entertained.

TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy Stomach and Acid Indigestion.

Doubtless if you are a sufferer from indigestion, you have already tried peppermint, bisulphate, soda, charcoal, drugs and various digestive aids and you know these things will not cure your trouble. But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little bisulphated magnesia. It is not the ordinary commercial carbonate, citrate, oxide or milk, but the pure bisulphated magnesia which you can obtain from practically any druggist in either powder or tablet form. It is a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat.

You will find that provided you take a little bisulphated magnesia immediately after a meal, you can eat almost anything and enjoy it without any sense of pain or discomfort to follow and moreover, the continued use of the bisulphated magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

ENJOYABLE BANQUET

The members of the maritime sales staff and ladies of the Goodyear Tire and Rubber Co. were pleasantly entertained on Saturday evening at a banquet and dance held at the Manor House when they were guests of the St. John branch staff. A tempting menu was provided and after full justice had been done to it there were several impromptu toasts followed by songs, music and dancing. The table was artistically arranged with yellow and green predominating in an attractive color scheme. A silver basket on a star of ferns, holding chrysanthemums made a very pretty and elegant centerpiece. The evening began with a dance and continued with much singing and about midnight the gathering departed in motor cars for the city.

Sick Headaches Constipation

If you have suffered from constipation for years, tried cathartics and all the usual remedies you ever heard of or read of, without getting relief, if you have been subjected to all the miseries associated with constipation, such as sick and bilious headaches, biliousness, specks floating before your eyes, water brash, heartburn, jaundice and the painful, troublesome, interfering intestinal bleeding, or hemorrhoids, wouldn't you consider it a blessing to be able to keep the bowels in a good healthy condition and prevent the disease getting a foothold on your system.

Milburn's Laxa-Liver Pills are indicated just for this purpose; their regular use relieving the worst cases of constipation. Mrs. Malcolm McDermid, Carton Station writes: "I have been sick for several years with sick headaches and constipation. I tried all kinds of doctor's medicine, but none did me any good. It was a clear and scriptural presentation of a great subject and the large audience which gathered to the meetings are increasing in attendance and interest and will be continued this week and next.

NORMA TALMADGE IN A DELIGHTFUL FILM ROMANCE

"The Way of a Woman" at the Imperial is a Highly Superior Production—On Again Today and Wednesday.

All through the ages, the greatest mystery set before men has been to understand "The Way of a Woman." Often it seems to be merely a matter of caprice; one minute the sun is shining and the skies are blue—the next, dark clouds lower overhead, there is lightning and thunder—then the sunshine again. "Smiles and tears make woman's years," says the poet. A more searching examination reveals to all of us, however, that the poet's views does not represent the whole truth. We have all had mothers and most of us will have wives, if we're not already blessed with them, and so we know what "the way of a woman" really means. It means unselfishness, eternal love, the willingness to sacrifice herself, patience, understanding, sympathy. The spirit of womanhood is the spirit that leads us on to light.

In her latest select picture, "The Way of a Woman," which was adapted from Eugene Walter's famous play, "Nancy Lee," and now playing at the Imperial, Norma Talmadge, the illustrious screen star, reaches new heights of artistic achievement in her characterization of the heroine, Nancy Lee, the beautiful young daughter of the aristocratic but poverty-stricken Lee family of Virginia.

It is a story which grips you every minute and Norma Talmadge's delineation of the whole-souled heroine is one you will long remember. The usual miscellaneous subjects were included in the Imperial's programme—Topics of the Day, Mutt and Jeff and British Weekly—and the orchestra discoursed a delightful programme, rendering as a curtain-raiser the well known sextette from "Lucia di Lammermoor." The same programme today and tomorrow. On Thursday the E. W. Hornung detective story "Bluffs" will commence a three-day run.

An enjoyable basket social was held last night by Dominion Lodge, No. 18, L. O. B. A., in Orange Hall, Simonds street, and a good sum realized for the Orphan's Home in Wright street. F. L. Dettie auctioned the good things.

Watch Teeth Whiten When You Remove the Film

All Statements Approved by High Dental Authorities. This is to urge a ten-day test of a tooth paste which combats the film. High authorities have proved it. Five years of tests have placed it beyond question. Leading dentists everywhere are urging its adoption. Compare the results with your old methods, and let your own teeth decide. Film Destroys Teeth. That slimy film which you feel on your teeth causes most tooth troubles. Every modern dentist knows that Dental science, for many years, has sought a way to end it. That film is what discolors, not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. So the major object in cleaning teeth is to keep them free from film. Old-time methods fail to do that. Teeth still discolor, still decay, as millions of people know. The reason is that brushing does not end the film. The film is clinging. It gets between the teeth, enters crevices and stays. Day and night, month after month, it is a potential source of danger. Now a Way to End It. Science now has found a way to end it. Five years of tests have proved this. The way is now embodied in a dentifrice called Pepsodent. And we urge you to see what it does. Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it. But pepsin must be activated, and the usual method is an acid harmful to the teeth. So pepsin long seemed barred. But science has now found a harmless activating method. It is made use of in Pepsodent. Now millions of teeth are daily cleaned as they never were before. Try the method ten days on yours. Send this coupon for a 10-Day Tube. Use like any tooth paste. Note how clean your teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten as the fixed film disappears. Watch the results for a few days. Read in our book how they come about. Then decide for yourself what tooth paste you and yours should use. Cut out the coupon now.

Free A Ten-Day Tube of Pepsodent to show you its effects. Send the coupon for it.

Schofield, president; E. J. Terry, vice-president; F. C. Holman, second vice-president; H. A. Porter, secretary-treasurer; W. F. Burditt, Alex. L. Fowler, R. R. LARRY DOYLE MAY MANAGE PIRATES. Larry Doyle, the veteran second baseman of the New York National League Club, is now being widely boomed for the position of manager of the Pittsburgh Pirates.

Soon after the world's series, Johnny Evers, who added much to his reputation as a wise baseball man by picking the Cincinnati Reds to win and acting as one of Pat Moran's board of strategy, was mentioned for the job.

One of the sporting writers from New York who recently came here with Irvin S. Cobb on his hunting trip, predicted while here that Evers would not be the choice for the Pittsburgh post.

"Johnny is a wise baseball man all right," he declared, "but then the records show that he cannot even control himself let alone a whole baseball club. No, Johnny Evers will not be the manager of the Pittsburgh club."

The latest to join the boost for Larry Doyle as the Pittsburgh leader is Joe Vila, the New York Sun's sporting writer, who was one of the first to mention Evers for the job. Vila's latest follows: "Doyle can remain with the Giants if he feels like it, but he is ambitious to become a manager and McGraw will be willing to let him go if he can find a suitable position. Doyle has been talked of in St. Louis as the manager of the Cardinals, inasmuch as President Ricketts is said to have grown tired of his duties on the bench. But the handling of the Pirates probably would appeal to Doyle more than an offer from Ricketts."

PLEA FOR MUNITION WORKERS. To the Editor of the Times-Star: Sir,—Would you allow me to say a few words regarding a question of employment in St. John and it is a serious one as the writer knows. Now, Sir, with all due regard for the men who work overseas and their claim for employment on return it seems to me there is another class of workers who also are entitled to some consideration, the munition workers, or as the government called them during the war the men behind the men behind the gun. Speaking from experience as chief inspector of munitions for a period of over three years I assure you there were many men employed on munitions who would gladly have gone overseas but were prevented from doing so by the provisions of the munition board and the contractors. The walls of the shell plants were also decorated with posters and literature urging the men to stand by the laythes and stories told of the men at the crews on the firing line calling for shells and then more shells. The response to those calls I need not mention; it is on record. Then Kitchener said the men on munitions were doing equally as valuable work as the men at the front and all know the desperate straits the army at the front were in for lack of shells in the early days of the war, and we also know who remedied that and enabled Foch to launch his last great drive. Now, Mr. Editor, the writer is an imperial army veteran of other wars and tried to do his bit in this one by sending shells to France, but is now like many others who served in a like capacity entirely ignored when it comes to a question of employment to enable them to support their families, and surely if the men who fired the shells are entitled to consideration, and they are, the men and the women, too, who supplied those shells are equally deserving. England thinks so judging from the way she has found employment and in other ways helped the munition workers after being thrown out of work. Other parts of Canada have considered them too. How about St. John? Trusting this will not find its way to the waste paper basket, like the promises we got, I am, Sir, Respectfully yours, THE MAN BEHIND THE MAN BEHIND THE GUN.

The Esch Bill Passed. Washington, Nov. 18.—The Esch railroad bill, providing for private ownership and operation of rail carriers, under broad federal supervision, was passed last night by the house, 203 to 139. The measure will go to the senate but it will not be taken up there until December.

AIRPLANE IN CHURCH WINDOW DECORATION. London, Nov. 18.—(By the Associated Press)—The church in Spanish Place where King Alfonso attended during his visit to London, has recently received a new window in honor of St. Michael, the patron saint of airmen. It shows an airplane with the inscription, "Defende Nos in Proelio." It is said to be the first window in which a flying machine has been a feature of a church design.

AIRPLANE IN CHURCH WINDOW DECORATION. London, Nov. 18.—(By the Associated Press)—The church in Spanish Place where King Alfonso attended during his visit to London, has recently received a new window in honor of St. Michael, the patron saint of airmen. It shows an airplane with the inscription, "Defende Nos in Proelio." It is said to be the first window in which a flying machine has been a feature of a church design.

Why Stay Fat? You Can Reduce. The answer of most fat people is that it is too hard, too troublesome and too dangerous to force the weight down. However, in Marmola Prescription Tablets, all these difficulties are overcome. They are absolutely harmless, entail no dieting or exercise, and have the added advantage of cheapness. A large case is sold by druggists at \$1. Or if preferred, they can be obtained by sending price direct to the Marmola Co., 964 Woodward Ave., Detroit, Mich. Now that you know this you have no excuse for being too fat, but can reduce two, three or four pounds a week without fear of bad after-effects.

A MEAN WRITER.
An officer of this district recently received through the mail a letter reading as follows: "Get a man's job, the war is over, don't be a sneak all your life." Needless to say the letter bore no signature, but some who have heard of this incident express their opinion of the individual who is afraid to sign his own name.

A MATTER OF JUSTICE.
In the case of William Cummings, charged with giving information to the inspectors, which was heard in the police court yesterday, the report mentioned "Rafferty's beer shop" in connection with this case. In justice to W. L. NOTICE TO ADVERTISERS
The co-operation of advertising patrons is requested in the direction of getting "copy" into the business office on or before 4.30 p.m. on the day previous to publication. Very often the receipt of a large advertisement or even regular changes after that hour serves to dislocate the regular work of getting the paper made up in time to catch the mails—and not infrequently such ads are at the last moment left out.

This situation is not of service to either the advertiser or our readers and we, therefore, request that copy be received in the business office

CHARGE OF FALSE PRETENCES MADE
An Automobile Case Occupies Attention of the Police Court—Other Matters, Too

This morning in the Police Court, Colliwood Brennan was charged with obtaining a car and money under false pretences. Alan Miller, of 178 Marsh road, said the accused was in his shop and said he was in need of money as he wished to go into business and in order to get this money would sell a McLaughlin Sedan which he had with him. The witness told him he would trade him a Chalmers and \$800 for the McLaughlin, which the accused agreed to do. When asked if there was any lien on the McLaughlin car, he said the accused said he had but he owed something on it and he was trying to get a job with the McLaughlin Carriage Company and pay the balance in monthly instalments. The witness said in consequence of information he laid information at the police court and soon after he met the accused in Union street. When asked about the lien he said Brennan declared he did not know he signed one. He went up to the McLaughlin Carriage Company with the witness and it was found that there was a lien on the car. The company asked him if he would pay cash on the car, but he refused to do so, and said he would leave the Chalmers car as security. On investigation it is said it was found that the car had been sold to the night watchman of the Victory Garage and a \$10 deposit had been made. The witness asked if he would be willing to remain there until the Chalmers car was returned, and he said he would, but on further investigation it was declared that he was wanted for a similar transaction in Halifax.

Fred Ellis, who is in partnership with Mr. Miller in the automobile business, said he heard most of the transaction between the accused and the witness, and in his evidence corroborated this.

James McNeil, an accountant with the McLaughlin Motor Car Company, said he sold a car to the accused for \$2,000 and a deferral payment of \$75, November 10, and he paid him \$1,000 in cash and gave a note for the balance, to be paid in ten monthly instalments, and also gave a lien on the car. The case was postponed until Tuesday morning, and the accused remanded.

John Merrick was charged with being drunk and with destroying an overcoat valued at \$40, the property of Policeman Coughlan.

The policeman said on account of the man being a returned soldier he did not wish to press the charge. He said that he was off duty and was coming up town when he noticed the accused creating some disturbance in Hanover street, and he told some people who were nearby to take the lad home, but he became unmanageable and the policeman arrived on the scene again. Before the arrest was completed, he said, the accused had practically destroyed the policeman's overcoat. A fine of \$8 for the charge of drunkenness was imposed, while the other charge was withdrawn.

John Berry was charged with begging from house to house in Waterloo street. Detroit Saunders, who made the arrest, said that one woman had given him ten cents. The accused said he was under the influence of liquor and did not know what he was doing. He was remanded.

Four men charged with drunkenness pleaded guilty and were fined \$8 or two months in jail.

A case against William Webber, who was arrested last night by Inspector Merrick and C. N. R. Policeman Pritchard on the Halifax train, on charge of having liquor in his possession illegally, was called in the court, but the accused did not appear, he was allowed out on a \$200 deposit this morning. The case was postponed until November 26. W. M. Ryan appeared for the prosecution.

DOCTORS OUT FOR A ROYAL COMMISSION
Members of General Public Hospital Staff Want Conditions Investigated

A request for a royal commission to investigate the conditions of the general public hospital has been made in behalf of the twenty physicians composing the staff of that institution.

The idea of those interested in the matter is to bring experts on hospital work to the city to give advice and evidence and to have local testimony as well regarding the local institution. They desire an enquiry into the work of the hospital. This is a measure which has been advocated by the Women's Hospital Aid and has also received consideration from the commissioners since the building is inadequate for modern requirements, and that even a slight epidemic would make conditions serious because of the general crowded state of the hospital.

HOUSING MATTERS
The water and sewerage department expects to have the trenching work for the water and sewerage extension to the new houses in Lancaster street, West End, completed on Thursday. In the meantime the pipe is being laid in the trench already dug.

The contractors are making good progress with the erection of the new houses now being built by the housing commission. This is a measure which is complete for all except one, the foundation for which was completed today. Shingling is being carried out on four, and in one the electric wiring is now being installed. It is expected that by the end of next week the exterior of the whole eight will be about complete. Some of the houses are already spoken for, and it is thought by the commission that the most of them will be taken up before all have been completed.

COMMERCIAL CLUB TO BOOST ST. JOHN
Following the successful Victory Loan campaign in this city there is a movement to form a Commercial Club to boost St. John. In a circular letter inviting young business men to an organization meeting tonight it is said:

"Starting with the rally in the Union Club on Friday evening, the 7th instant, St. John woke up to its possibilities, and as a result its citizens have subscribed to the loan in such a generous manner that the city has gone over the top in a strong and vigorous way, well in keeping with its traditions and history. Born with the realization that when called upon to do so, St. John can do its share and more, there has come a feeling that the energy, local loyalty and enthusiasm of the city must be crystallized and organized, in order to get the results so necessary to place this city where it properly belongs.

"Resulting from this feeling a gathering of several of the representative business men of the community at the Victory Loan Headquarters last week, decided upon the formation of 'The Commercial Club of St. John' as a tentative proposition.

THE GROWTH OF ST. JOHN
To the Editor of the Times:—
Sir:—Writing on behalf of the St. John clerks I wish to express appreciation of your editorial "The Growth of St. John." Being in close touch with our clerking citizens, I am in a position to say that your article embodies their aims. The clerks of today are the merchants of tomorrow. Progress is a necessity to them.

More than 8,000 citizens of St. John rank as clerks and amongst them we have men with many years of business training, holding high positions in the employ of our largest business houses.

It is the intention of the clerks to have a representative at City Hall in the near future. They are going to attempt to house the citizens to a proper pitch of enthusiasm and devote their energies to the growth of St. John.

Yours faithfully,
P. H. BULLER,
Editor The Clerk.
