Wilson Speaks of The League and Ireland

The First Statement of President's Views

Says Irish Case Can Be Taken Up Under Article 2, Which Creates Forum—Why It Was Not Taken Up at the Peace Conference

On Board President Wilson's Special, Sept. 17.—Setting forth publicly for the first time his interpretation of the League of Nations covenant as it affects Ireland, President Wilson said in a statement today that the league would constitute a forum before which could be brought all claims for self-determination which are likely to affect the peace of the world.

"The covenant would not bind the United States to assist in putting down rebellion in any foreign country," he asserted, "nor would it limit the power of this country to recognize the independence of any people who seek to secure freedom."

He said Ireland's case was not heard at Versailles because it did not come within the jurisdiction of the peace conference.

The president's statement was in reply to a series of questions sent to him by the San Francisco Labor Council. It is understood that within a few days he will reply similarly to the questions put by other labor bodies regarding the League and the representation of the British dominions in the league assembly.

His Answers in Full.

The president's statement detailing the labor council's questions and his answers follows:

1. Under the covenant does the nation investigate itself to assist any member of the league in putting down a rebellion of its subjects or conquered peoples?

Answer.—It does not.

2. Under the covenant can this nation independently recognize a government whose people who seek to achieve or have achieved their independence from a member of the league?

Answer.—The independent action of the government of the United States in a matter of this kind is in no way limited or affected by the covenant of the League of Nations.

3. Under the covenant are those subject nations or people only that are mentioned in the peace treaty entitled to the right of self-determination, or does the league possess the right to accord a similar privilege to other subject nations or peoples?

Answer.—It was not possible for the peace conference to act with regard to the self-determination of any territories except those which had belonged to the defeated empires, but in the covenant in the League of Nations it has set up, for the first time, in article II, a forum to which all classes of self-determining peoples are likely to be referred.

4. Why was the case of Ireland not heard at the peace conference? And what is your position on the subject of self-determination for Ireland?

Answer.—The case of Ireland was not heard at the peace conference because the peace conference had no jurisdiction over any question of that sort which did not affect territories which belonged to the defeated empires. My position on the subject of self-determination for Ireland is expressed in article II of the covenant in which I may say I was particularly interested, because it seemed to me necessary for the peace and freedom of the world that a forum should be created to which all peoples could bring any matter which was likely to affect the peace and freedom of the world.

5. Why was the case of Ireland not heard at the peace conference? And what is your position on the subject of self-determination for Ireland?

PLAYING WITH LITTLE RIFLE, BOY IN DIGBY ENDS HIS LIFE

"Isn't it Funny," He Said, That People Shoot Themselves This Way

Barrel in Mouth and Stock Between Knees, Triggers a Click and a Report and He Falls Back Dead

(Special to Times)

Digby, N. S., Sept. 17.—"Isn't it funny that people shoot themselves this way," were the last words of Harry Kyleman, sixteen-year-old son of Frank Kyleman, formerly of Digby, but now of Brighton, who accidentally shot himself in the kitchen of the Winchester Hotel last night.

On Sunday he was visiting a friend and borrowed or bought a 22-calibre rifle, almost a toy. "Boy-like, he had been playing with it a lot during the week, and last night was teasing with it the kitchen staff at the Winchester, where he was employed. Tired of this at last he sat on the table and placed the barrel in his mouth with the stock between his knees. He had said the words quoted when his trousers caught the trigger. The faint click was heard and he fell back dead with the bullet in his brain. Beside his father, he leaves two half-brothers, Benton and Lenden Fleet, both of this town.

ITALIANS CUT OFF FIUME AND WILL LET NO NEWS GET OUT

Prefect of Vienna Loses His Place For Giving Aid to D'Annunzio

Republican Party Declares it a Fine Thing to Have Occupied City, But it Can't Rest at That—Jugo-Slav Statement

London, Sept. 17.—Fiume has been isolated from the world by the Italian government, which is apparently taking steps to meet the situation that has arisen through the action of Captain Gabriele D'Annunzio in forcibly taking possession of the city and forcing Allied and Jugo-Slav forces to leave. The veil of the censorship was drawn yesterday, and since that time little has been learned of events in the city.

Investigation of the incident has shown, according to advices, that the plan to seize Fiume originated in Venice, the prefect of which city is said to have been involved. Artillery forces in Venice, which were preparing to join the D'Annunzio forces in Fiume, are reported to have been induced to return to their barracks. The prefect has been dismissed from office.

Rome, Sept. 16.—The republican party has passed the following resolution relative to Capt. D'Annunzio's coup at Fiume:—"The temporary liberators of Fiume were carried away by noble impulse rather than political calculation. They thus deserve the sympathy of the nation, although it is an illusion to consider the accomplished fact of the occupation of Fiume as final."

Paris, Sept. 17.—(By the Associated Press).—The Roumanian army has begun to withdraw from Budapest, a steady movement trains being in progress. It is believed that the retirement will be completed within a fortnight.

As Hiram Sees It

The Settlement, Sept. 17.

"Hiram," said the Times reporter, "has carried in my mind a vivid phrase in which the historian describes the descent of the Iroquois upon a little French community in Quebec, in the pioneer days with which they came down like 'ravening wolves.' I was on a steamer when she arrived down river at Injuntown, and I saw the traders rush down the gangplank before the last of the passengers was off. They were looking for eggs and butter and produce to suit themselves. They few around that freight deck like a bunch of terriers after a rat. One of them asked me if I had anything to sell, and eyed me with eridient suspicion. My history came back to me. Here were the 'ravening wolves.'"

"Yes, sir," said Hiram, "you said it. 'They go in packs at Injuntown. I've seen 'em in the country market, too. It's always been a wonder to me you folks in town didn't get the 'em—' put a bounty on their hides."

"Of course," said the reporter, with a sly wink at Mrs. Hiram, "there are some people who say the farmers are worse than the traders."

"He better not say it to me," declared Hiram, with considerable warmth. "If I got twice as much for everything I sell, I'd sell it to you. I wish some of them fellers—no, sir, I wish that O'Connor ud quit talkin' so much an' clap list one proffiter in jail—"

O'Connor Takes Grip On Hamilton Grocer Who Sold Too High

Sends Facts in Ontario Case to Attorney-General With Advice to Prosecute Retailer and Also Summons Wholesalers

Hamilton, Ont., Sept. 17.—If there was any doubt as to the power of the board of commerce represented here by the Ontario Grocers' Association, it was dispelled yesterday.

On Mr. O'Connor's order a policeman appeared before the board with Geo. Pollock, a local grocer, who was charged with taking an excessive price for sugar. He admitted this and Mr. O'Connor said Pollock was guilty of an injustice, and that he would refer the facts to the attorney-general with advice that criminal proceedings be taken against Pollock.

Mr. O'Connor also instructed the constable to bring before him Gorin and Hyde, from whom he bought the sugar. Pollock sold the sugar for \$15.75 a hundred weight and paid to Gorin and Hyde \$18.

Nation Awaits Lloyd George Speech Tonight

Lot of Things People Want to Hear About

Political and Economic Unrest Make for Interest in What He Has to Say—Rumor of Attempt to Get Together Younger Unionists and Labor Party

London, Sept. 17.—(By the Associated Press).—Premier Lloyd George returned to England last night after his vacation at Deauville, France, and a brief visit to Paris. Tonight he will deliver an address at the London City Temple and in view of the extreme political and economic unrest prevailing in the country, it is awaited with the keenest curiosity and interest.

Among the many topics which the public is eager to hear the premier discuss are the Russian tangle; Ireland; the reduction of national expenditures; industrial developments, the probable dissolution of parliament, and a general election. An election would be particularly welcomed, but it is doubtful if the premier will speak on that subject tonight, it being suggested that he will probably avoid controversial topics as far as possible. In view of the fact that the speech will be addressed to the International Brotherhood Congress, the premier will probably confine himself mainly to elaborating his recent appeal to the nation to co-operate in the establishment of a new order, leaving other matters for addresses he has promised to deliver elsewhere.

London, Sept. 17.—Informal discussions are afoot as to the possibility of a working agreement between the younger members of the Unionist party, headed by Lord Robert Cecil, and the parliamentary labor party, according to the political correspondent of the Central News. He adds that Premier Lloyd George has an ambition to lead such a combination and, now that the premier has returned, "the whole situation is full of striking possibilities."

"Such depends," says the correspondent, "upon how far the labor party will meet advances being made to it in the reconstruction of the industry."

London, Sept. 17.—The press association has issued the following apparently authorized statement from Downing street, where Premier Lloyd George returned last night:—"William C. Bullitt's statements appear to be a garbled account of private conversations with Mr. Lloyd George at a breakfast, after Mr. Bullitt's return from Russia, together with a mixture of conversations with other people. In the opinion of the premier some of the statements are so ridiculous as to carry their own refutation on the face of them, as for example, the statement that he had intended to send Lord Lansdowne to Russia as ambassador."

"But, apart from examples of this kind, the suggestion is that the narrator's memory was hopelessly at fault. While it is not suggested that Mr. Bullitt did not talk with the premier, it is categorically denied that any statement was given for publication and the whole account is authoritatively declared to be absolutely inaccurate in important particulars, and grotesque."

Bullitt testified before the United States foreign relations committee at Washington last week that he had discussed with Lloyd George the peace proposals offered by Lenin, the Bolshevist premier. But when the premier returned to London, Bullitt said, he announced that the Soviet government had made no peace overtures. Bullitt said that later he met Philip Kerr, the premier's secretary, who apologized for the premier's statement and explained that Lloyd George intended to make peace Lenin's offer, but was forced to adopt a different policy under pressure from Lord Northcliffe and Winston Churchill, secretary of war.

ABOUT RHEUMATISM

What Thousands Have Found Gives Relief From This Painful Trouble.

Rheumatism is a constitutional disease, manifesting itself in local aches and pains, inflamed joints and stiff muscles. It cannot be cured by local or external applications. It must have constitutional treatment.

Take a course of the great blood-purifying and tonic medicine, Hood's Sarsaparilla, which corrects the acid condition of the blood on which rheumatism depends, and gives permanent relief. This medicine combines, with excellent alteratives and tonics, what is generally conceded to be the most effective agent in the treatment of this disease.

If a cathartic or laxative is needed take Hood's Pills. Purely vegetable.

SISTINE CHOIR, NOW AT NEW YORK. First Foreign Visit in 1,600 Years—Boys Soon Freed by Immigration Officials.

New York, Sept. 17.—The Sistine Choir of the Vatican, possibly the oldest organization of its kind in the world, arrived in New York yesterday and thus broke a precedent of 1,600 years. The American tour of the choir will be the first time since its formation in the fourteenth century that the famous body of singers ever has left the precincts of the Vatican.

The arrival of the younger members of the choir caused a temporary difficulty with the immigration authorities under the law which forbids children under eighteen from landing in the United States unless accompanied by their parents or guardians.

The boys were detained at the landing stage until a special board of inquiry could be convened, when they were released after a brief hearing.

After a series of concerts here, the choir will visit the principal cities of the United States and Canada.

ALLIES' PLANS IN REGARD TO SYRIA. Paris, Sept. 17.—The agreement reached by Premier Clemenceau and Field Marshal Allenby, of the British army, concerning the occupation of Syria provides for the evacuation of all the area north of the frontier between Palestine and Syria on or before November 1 by British troops, according to morning newspapers.

The British will be relieved by French troops, with the exception of the districts of Damascus, Homs, Hamah and Aleppo, which, it is said, will be left out of the area of occupation, but will pass under French influence.

A letter from Rev. W. V. Higgins brings the welcome news that his health is so far restored that he is leaving Honolulu on his homeward journey. All attempts to secure passage direct to Vancouver proved unavailing. As he and Mrs. Higgins expected to sail Sept. 1, they may have reached San Francisco already. He has been advised to consult a specialist at Los Angeles, and it may be some months yet before he reaches Canada.

IF YOUR EARS RING WITH HEAD NOISES

If you have roaring, buzzing noises in your ears, are getting hard of hearing and fear Catarrhal Deafness, go to your druggist and get 1 ounce of Parmitin (double strength), and add to it 1/4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal trouble of the ears, is hard of hearing or has head noises should give this prescription a trial.

News Notes About Prominent Baptists

(Maritime Baptist.) Rev. A. C. Archibald spent his vacation at the summer home of the Archibalds at Deep Brook, N. S. He has now returned to his work at Lowell, Mass.

The Wolfville church is rejoicing that Dr. MacDonald has yielded to its solicitation and will assume his pastoral duties on Oct. 1.

Rev. F. F. Foshey has accepted a call to the Fairfield Baptist church, Maine. For a year or more he has been in Y. M. C. A. work. After graduating at Acadia he was pastor for a time at Aylesford, Me. After a short pastorate there he entered upon his theological course at Chicago.

Rev. A. Judson Hughes, pastor of the First Baptist church of Everett, Mass., has been spending part of his vacation in this his native province. He has had a long and notable pastorate at Everett. He is nephew of the late Rev. J. H. Hughes, whose name is still so well known in many parts of New Brunswick.

We have received an announcement of the engagement of Rev. H. T. Wright, now pastor of the Emmanuel Baptist church, Winnipeg, to Miss Ruby Stent of Carleton Place, Ontario. Rev. Wright is a native of Liverpool, N. S.

The happy circle of retired ministers at Wolfville will soon be enlarged by the addition of Rev. F. E. Roop, who has purchased a home and will retire from the pastorate at Melvern square.

Rev. Gideon Swin was in St. John last week, calling upon friends and attending to matters of business. He is ministering to the churches at Dover and Shediac and reports a good interest in each congregation.

Rev. L. J. Dingley has bought a home at Windsor, N. S., and will soon move his family there. We are glad to announce that he will continue his work as pastor-at-large in New Brunswick under the direction of the Home Mission Board.

The Charlottetown Guardian of Sept. 10 contains a brief report from correspondent of a service at North River, where Rev. H. R. Bell is pastor. The writer declares that the sermon was one of the best he ever heard. He also gives high praise to the musical part of the service. The North River field is evidently prospering under Pastor Bell's faithful ministry.

Earl MacPhee, who enlisted for service overseas while a student at Acadia, has been spending a few months at his home on Prince Edward Island. While on active service he was severely wounded in the arm. Since the armistice he has been a student at Edinburgh University. He plans to return to Scotland in the near future to spend another year at that famous institution of learning.

Rev. Johnson L. Miner, Ph. D., is back again at his work as pastor of the Roxborough Baptist church, Philadelphia. Part of his vacation was spent with his father, Deacon James Miner, of the Point de Bute church, now residing near Amherst. After visiting these provinces he and Mrs. Miner finished their vacation at Asbury Park and Ocean Grove.

A letter from Rev. W. V. Higgins brings the welcome news that his health is so far restored that he is leaving Honolulu on his homeward journey. All attempts to secure passage direct to Vancouver proved unavailing. As he and Mrs. Higgins expected to sail Sept. 1, they may have reached San Francisco already. He has been advised to consult a specialist at Los Angeles, and it may be some months yet before he reaches Canada.

TWO TREATIES YET TO BE DISPOSED OF

Paris, Sept. 17.—Rumors are current here again that the peace conference will adjourn soon until the beginning of next year or until next spring. There are strong reasons to suppose that there will be an adjournment until the Bulgarian and Hungarian treaties have been disposed of and until Galician matters have been straightened out.

The Bulgarian treaty was to have been handed to the enemy delegates yesterday, but objections were presented by

THE BEST QUALITY AT A REASONABLE PRICE

What is the Best Watch Made? That is a personal question. A watch that is best for George Smith may not be the best for John Brown.

You ought to have the personal advice of an expert when you buy a watch. You are much more likely to get a satisfactory timepiece if you do.

You get that advice here. We realize that having you satisfied is worth more to us than the profit on the watch. We want to fix you up so satisfactorily that you will tell your friends that you got the best place to buy a watch.

Naturally that means that our prices as well as our watches and service, must be satisfactory.

DISCIPLINED BY CONVENTION

United Mine Workers Deal With Illinois Unions For Unauthorized Strikes

Cleveland, Ohio, Sept. 17.—The convention of the United Mine Workers of America yesterday disposed of the Illinois strike problem, refusing seats to the contesting delegates by a vote of almost eight to one and thereby sustaining the action of the international and state mine officials in depriving twenty-five Illinois local unions of their charters for indulging in unauthorized strikes. The vote was taken after a two days' debate.

Joseph Herrmann, overseer of the mine at Altam, Ill., says that by covering the legs of his cows with stockings at milking time he has increased his output one quart per day per cow.

To Men Earning \$1500 a Year or More. Would you consider it a sacrifice to set aside 50 cents a day to provide for your family in the event of your death? Certainly not! Well, 50 cents a day will purchase for a man 30 years of age as much as \$10,000 of Imperial life insurance, payable to his family next month—if he should die that soon. The money might mean to his wife and family all the difference between comfortable independence and destitution. Won't you make such a sacrifice for your family's sake—now, while you are insurable and can spare the money? ODDFELLOWS FOR 18TH TIME REFUSE TO CUT DOWN THE AGE LIMIT. Baltimore, Sept. 17.—Prominent members of the Independent Order of Oddfellows from every section of the country attended a banquet last night tendered to Harry V. For the eighteenth time of each succeeding annual session of the Sovereign Lodge the amendment to reduce the age limit for entrance into the order from twenty-one to eighteen was defeated as was also an amendment to meet biennially instead of annually. A big parade was held today. Upwards of 40,000 members of the order were in line. No Jobs for Objectors. POPE APPEALS FOR AID FOR THE GERMANS

Chicago, Sept. 17—German Catholics are urged to help in bringing about the "real reconciliation of nations" in a message from Pope Benedict to the sixty-third meeting of the Central Verein of German Catholic societies here. "Moreover," reads the message, "knowing the dreadful conditions under which your brethren in Germany are now living, the sovereign Pontiff implores you most fervently to lend them every assistance, material as well as moral and in the quickest and most effective way, especially facilitating the early resumption of commerce and all those benefits that naturally follow in its wake."

Colonel of 64thth Charge.
New York, Sept. 16—Among the large number of military passengers arriving on the S. S. Celtic are forty-nine Canadian officers and their wives, most of whom were war brides.
The returning military personnel will be in charge of Lieut.-Colonel Montgomery Campbell, who left New Brunswick with the 64th Battalion, and Captain W. A. Knox, adjutant.

Victories of Peace

If Canada is to share in the Victories of Peace she must translate into industrial activity the spiritual valor of her men. War developed untold possibilities in human energies.

They and we know the part that engineering played in war, but they and we know that its part will be infinitely greater when applied to the arts of peace.

Men who did big things are not going to let their energies lie fallow because the conflict is done. Already they are grasping industrial opportunities, and the driving force and the unconquerable spirit that kept them at the big task overseas will make them formidable competitors here.

We welcome them back into industrial life, and we offer them the best that we have to aid them in re-establishing their industrial footing.

Men contemplating new enterprises or the re-establishment of old industries are invited to visit us and draw upon our experience in all matters pertaining to Power Transmission Engineering.

We have made great strides in productive capacity in the past four years; and we are eager to match this capacity with the initiative and ability of new forces in the industrial world.

HIGH PRICES AND WAGES

Although the vice-chairman of the Board of Commerce is of the opinion that low prices have gone forever, he helps to dispel the gloom which such an announcement might cause among those who have been hoping for substantial reductions by his statement that the maximum in high prices has been reached and that the board will permit no increases in the price of any commodity.

THE KINDERGARTENS

It is an encouraging sign to note that the attendance at the opening of the free kindergartens this season has established a new record and it goes to show that the work of the association is being appreciated.

The secretary, reporting on a special appeal for funds which had been made, said that the response had not been so cordial as had been hoped for.

We are living in an age when education counts a great deal in all walks of life and what better ground is there for laying the foundations of beneficial knowledge than these children provide.

Many of our citizens have supported the kindergarten association admirably, but there is plenty of need for more assistance and it is fitting that all should lend a hand to carry on the good work while we are here, and if possible to leave, when we have gone, some contribution to a cause, the aims of which are most exemplary.

THOSE COUNTY ROBBERIES.

To the Editor of The Times: Sir—Following a letter put in The Telegraph regarding the activities of some person or persons robbing various places in the county in which my name was connected with W. Butterfield, I wish to advise him through the medium of your paper and any others whom it may concern, that as county constable I am duty bound to serve papers and when given notice to perform the person authorizing me to do this particular work is supposed to pay this service.

The limitation of prices will have the effect of steadying the market and giving all hands opportunity to catch their breath and see where they are headed.

I asked Mr. Butterfield if he would retain me in this matter and pay my salary and expenses, but he refused. I had then no alternative but to let the matter drop, and though Mr. Butterfield advised me that he had been up, or up and out at 1 a. m. several mornings and had seen a person whom he suspects going to his house with a bag which he presumes contained stolen property, yet with these facts before him, had he been so desirous of putting a stop to these robberies what was the reason he did not see fit to compensate me for my time?

One paragraph in his letter states that in his opinion I am not the right man for that business, and so he will not pay my wages. To this I take exception as I believe I have all the courage and common sense necessary to do the work for which I have contracted.

Thanking you for allowing me the privilege of replying to Mr. Butterfield, I am, Yours respectfully, CYRIL MOORE.

Dominion Happenings of Other Days

The Siege of Quebec.

When Generals Wolfe and Montcalm fell in the battle of the Plains of Abraham on Sept. 13 the commands of the two armies passed into new hands. General Townshend became chief of the British force; the French force had a division regarding its leadership.

He was in a terrible plight. Only recently he had left sick bed, but his heart was as stout as his body was weak. So while others were talking of surrender on the three days following the battle, he prepared for the storm of Quebec. He knew it would be the next enterprise the British would undertake.

An Electric Township.

One of the most interesting of the national housing schemes so far put in hand by the Public Utility Societies in England is that known as the Swanpool Garden Suburb near Lincoln.

The lighting, heating and cooking arrangements will be supplied by means of electricity and waste steam from adjacent works, and on completion the suburb will be a little township without a coal fire, without a gas fire, and with no chimneys, no gas pipes, and no gas cookers.

Swanpool suburb is intended mainly for the use of the employes of a large engineering and waste steam firm and steam from the works will be utilized in the installation of a combined system of central heating and hot water supply.

Electricity, generated at a central station, will be supplied to each house for lighting and cooking purposes, and will also provide street lighting and power for laundries, sewage pumping and other public works.

It is estimated that the installation of the water and electric works in each cottage will cost \$55, but as a set-off against this expenditure there will be a saving estimated at \$24 per cottage, an expenditure of \$30 and an additional \$250,000 for the 3,000 houses which will comprise the completed suburb, and will be erected by the engineering firm referred to has taken a leading part in the promotion of the Public Utility Society, and has subscribed \$100,000 in loan stock.

The scheme is run by a committee of twelve members, including a number of the workpeople, who will occupy the houses. In addition there is a woman's consultative committee for the purpose of giving advice as to housing from the woman's point of view.

Against Roadside Advertising.

Washington Star.—Billboard and roadside advertising have been under criticism for many years. The weight of adverse criticism has increased and now the United States senate is holding a hearing on the subject.

Local Daylight Saving.

Bangor Commercial: The start to bring about local daylight saving in the city of New York has been made by the executive committee of the merchants' association, who advocate the passage of an ordinance for local daylight saving if such as a passage of an ordinance for similar action throughout the eastern time zone will be undertaken.

Too Busy For Justice.

Brentford Expositor.—In a Georgia town three negro churches and a negro lodge room have been burned down by a white mob, which completed its job by throwing a negro into a burning church and burning him alive.

SUMMER'S END.

My garden's very gay: Vines and flowers all In a pined array Play at carnival.

But if you will come You'll hear the cricket cry, Telling Summer-time, "Good-bye! Good-bye!"

I see the first red leaves, And brown leaves fall; The birds now come in flocks— They do not sing at all!

Grapes have a pleasant smell, And I know of a place Where they hang white and sweet Against the leaves like lace!

Coxcomb, like the cry Of a wounded thing, Lifts its red head high, A late blossoming.

Beloved of honeybees, The orange marigold, Aromatic spreads Fold on stary fold.

In the vine throng Fer fringed asters are, Each one with a heart Like a friendly star.

Sometimes, now, it seems That the garden tries To give us she can For me before she dies.

If you will visit me You'll hear the cricket cry, Telling Summer-time, "Good-bye! Good-bye!"

No Monoplist. "That girl in the breakers is evidently in distress. Why don't you swim to her?"

"It would be very hard form. I rescued her yesterday."

"I am told Mr. Jaggs is your avuncular relation."

"Ain't nothin' of the sort. My uncle is as sound as a dollar."

"Is she a classical player?" "Most classical what is. She can play Beethoven in jazz."

"Did you have a fine time on your motor trip?" "I should say so. Fifty dollars and costs every where we stopped."

"Can you see as well with one eye as with the other?" "Better, sir."

"Colonel Oldeby has at last married off his six daughters."

"How do you do that?" "He has married off his one daughter seven times."

A Breach of Custom.

"Now, Ezra, you are mighty keener when you get the city. The papers is all the time tellin' of men bein' arrested 'ribb' drink and disorderly. I know you never tech a drop of lickin', but you do be powerful disorderly."

No Cause for Rejoicing.

A certain old lady, who was about to celebrate her golden wedding, said: "Pat, it will be our golden wedding next Wednesday. We should mark the occasion. Shall we kill the pig?"

Her husband looked up in surprise. "Kill the pig? What's the good of murdering an innocent pig for something that happened fifty years ago?"

MANY WANT TO TALK ON TREATY

French Deputies to Speak For or Against Ratification

Clemenceau to be Heard on Thursday or Friday and Outline Policy—Election Prediction is Defeat of 300 of Present House

Paris, Sept. 17.—(By the Associated Press)—Forty-six deputies desirous of explaining the reasons why they would vote for or against the ratification of the peace treaty, inquired their names on President Deschanel's blotter when the debate was resumed in the Chamber of Deputies yesterday afternoon. The list is still open and growing daily.

M. Viviani, minister of commerce, opened the debate yesterday, replying to the criticisms of former Minister of Public Works Puchon on the economic clauses.

M. Tardieu, Lecloucheur, Klotz and Clementel have explained before the chamber the reconstitution financial and economic clauses of the treaty, and the premier feels that his address should aim higher than a mere explanation of the treaty; that it should outline the French government's programme, if his administration is returned in the impending elections.

The election date, which was semi-officially announced as Oct. 26, has not yet been fixed. Nov. 11 is mentioned now, but without enthusiasm.

The mandate of the chamber terminated in May, 1918, and the deputies since then have been drawing stipends and expenses, to which they are not entitled according to the French constitution.

According to the estimates and reckonings of all parties, 300 deputies actually sitting at the present time will not be returned.

ITALIAN HOLDS RECORD AS MOTHER OF 62 CHILDREN
London, Sept. 17.—The honor of being the mother of England's biggest family held by Mrs. Mary Jones of Chester, who had thirty-three children, is eclipsed by Signora Gionetta of Nocera, Naples, who in nineteen years of married life gave birth to sixty-two children. Fifty-nine of the children were boys and three girls. In nine years she had eleven sets of triplets, three times she had four at a birth, and on one occasion she gave birth to five boys and one girl. The case is quite authentic and seventeen years ago a petition was presented to the Italian government asking for an annual pension for the woman who held the world's record for births.

Grocers Protest.
The Retail Merchants' Association has questioned the right of the Board of Commerce to limit the retail profit on sugar to one cent per pound, according to a wire received in the city yesterday from the dominion secretary. The retailers claim that this is not sufficient margin to cover overhead cost. Grocers say that sugar has never been profitable to handle and that it has been dealt in for the convenience of customers, and if their profits are reduced they will have to make up the difference by raising the prices of other commodities. The retailers also figure that they do not clear

their overhead charges on the sale of bread.
Sydney Veterans' Resolution.
Sydney, N. S., Sept. 17.—At a meeting of the local G. W. V. A. last night a resolution was unanimously passed expressing approval of the action of the dominion executive in pressing for a royal commission and confidence in their stand on the matter.

TO INSPECT FOOD
As a consequence of amendments to federal legislation last session the Inspectors of Weights and Measures here are now busily engaged in a new branch of the work which comes under their supervision as a sub-department of the Dominion department of Trade and Commerce to which they are now at-

tached instead of the Inland Revenue department as formerly. This new activity in the broadened scope of the department of weights and measures is the inspection of the commodities sold in packages of a specified weight, such as butter, oleomargarine, tea, sugar, flour and so forth. Formerly the inspection was limited to the scales, weights and measures with which these parcels and bulk commodities are measured for sale.

DIRECT ACTION THREATENED BY LABOR LEADERS

Ottawa, Ont., Sept. 16.—A threat of "direct action" to enforce legislation making the eight-hour day and forty-four-hour week compulsory all over Canada, which came from more than one source, served to liven up the afternoon session of the National Industrial Conference held in senate chambers.

The recommendation in favor of shorter hours was still before the house when adjournment was had and Senator Robertson, chairman of the conference, warned the delegates that there must be more speed in order to finish with the agenda by Saturday.

M. P. White, of Toronto, general manufacturer, presented a paper on hours of labor in which he pointed out the vital need of more production and expressed the hope that very serious consideration would precede any decision to reduce the hours of labor.

In passing, Mr. Bruce, stated, that the conditions in New Brunswick mines were intolerable. Here, he said, the attempt was being made to mine coal with unsatisfactory equipment, and the ventilation of the mines was bad.

Mr. Bruce advocated the appointment of a committee to conduct an investigation into the existing industrial laws for the purpose of co-ordinating them.

He suggested that it should be made up of three representatives from each province, one representing labor, one the employers and one the provincial government.

J. R. Shaw of Woodstock, of the employers group, expressed grave doubt as to the feasibility of co-ordinating the labor legislation of all the provincial governments and the federal government.

He had, he said, been chairman for a number of years of the legislative committee of the Canadian Manufacturers' Association, and he knew how difficult this work of co-ordination was.

Task Too Great. It had taken years and years to draft bankruptcy act which should apply to the whole dominion.

Finally John Bruce moved, seconded by J. R. Shaw, that the subject matter of the debate be referred to the committee appointed for considering such business with instructions to draft a definite resolution. The motion carried.

Commissioner's Report. The next item on the agenda, was the consideration of the royal commission on industrial relations on hours of labor.

J. A. McClelland of Montreal, reviewed past history, declaring that the workers in demanding shorter hours were seeking to promote the health and happiness of all classes of labor.

Mr. McClelland said there was a need in Canada for the eight-hour day. There was no underlying need or attempt to curtail output in the demand for a shorter working day, said Mr. McClelland.

The committee on labor on the matter proposed to bring forward a recommendation, and then let the discussion take its course.

James Shaw, of the employers thought there was no need for the committee to attempt to dig up files and evidence on the different questions, but it should

QUEEN OF HOLLAND SAYS DUTCH WILL DEFEND RIGHTS

The Hague, Sept. 16.—In a speech from the Throne opening parliament, the Queen declared she had been called upon emphatically to defend the nation's rights, interests and integrity, and that she was in entire accord with the Dutch people concerning the question at issue.

The provinces of Limburg, Zealand and Flanders, she declared, had displayed great fidelity and devotion to the national unity.

Regarding the League of Nations, the Queen stated that the adherence by Holland was subject to the approval of parliament after the formation of the League. As to the question of national defense, it could not be solved until something definite was learned concerning the international settlement contemplated by the League of Nations.

Belgium has insisted since the opening of the peace conference on a revision of the Treaty of 1839 with Holland by which Holland annexed the southern bank of the Scheldt River and the southern portion of Dutch Limburg, between Belgium and Germany.

The Belgians asked for political control of the southern bank of the Scheldt and certain guarantees safeguarding Belgian economic interests in South Limburg.

MINISTER ASKING THAT SECURITIES KEEP OFF MARKET

Undesirable That Attention Be Distracted From Victory Loan—Workers Come Forward.

Toronto, Sept. 16.—Sir Henry Drayton, minister of finance, who was in Toronto today in connection with the organization for the Victory Loan of 1919, stated that reports from all over the country indicated that the organization everywhere would be strong and complete, and that the great majority of the tried and experienced workers of former campaigns would be found at their old posts, and working with their determination to repeat the successes of the past.

He was particularly gratified with the manner in which the men who were connected with last year's and other loan campaigns had come forward and offered their services.

Sir Henry desired the press to emphasize the national necessity of the success of the loan, on which depends not only the payment of past obligations, but also soldier's gratuities and expenditures in connection with soldiers' land settlement and soldiers' civil re-establishment, and in view of this national necessity, he expressed the hope that municipalities and companies will not, until the Victory Loan is finished, make any offering of securities to the public.

His view is that the investing public's attention should not be detracted in the slightest from the excellence of the security offered by the country or from the necessity of whole-hearted support and co-operation to the fullest possible extent, and that those having other securities to offer will, in fact, best serve their own interest by not entering upon the money market in competition with the Victory Loan, as their true interests apart from all matters of national interest, will be best served by holding their securities until the Victory Loan campaign is finished when their offerings can and will receive the full support due them.

Sir Henry said he was particularly gratified with the manner in which the press representatives and workers of the province of Quebec, at the meetings organized by Mr. Frigon, the energetic chairman for that province, accepted the programme laid down for them and generously responded to the call not only for paid work but for volunteer assistance. The minister is convinced that if the enthusiasm and splendid spirit of unity and co-operation evidenced by the international settlement contemplated by the League of Nations.

MAKE STEAMER A WINTER HOTEL

Plan of Board of Commerce Directors in Detroit to Relieve Congestion. Detroit, Sept. 17.—The board of commerce directors have accepted a tentative offer of the Northern Navigation Company to moor one of its large passenger steamers at the foot of Brush street for the winter as a hotel boat.

The plan was conceived in an effort to relieve Detroit's hotel congestion. It is confidently expected that the arrangement will be worked out by local representatives of the Navigation Company, and only the final stamp of approval of the higher officials, which is the board of commerce, is pending.

The boat hotel scheme as submitted to the board of commerce, which is the definite announcement of this rather novel undertaking may be made.

BUILD NO MORE OR FIGHT US NOW

Lord Fisher Says Britain And America Should Take Action

London, Sept. 17.—Lord Fisher, in his concluding article in the Times, says a period of change is at hand, as sweeping in its character as was either the introduction of steam or the advent of air even now is making such prodigious developments that the only escape for vessels on the surface of the ocean will be to under the water. These types of vessels instantly require great study, research and much experiment.

"We had a submarine carrying a 12-inch gun before the war ended," he declares. "The very day this 12-inch gun was submerged was ready for battle as heard by her own wireless installation a message on a far distant sea."

Lord Fisher concludes that an Anglo-American fight is inconceivable, and asks "Can not the American and English navies dominate the world any time and tell others not to build more or we will fight you here and now?"

Pittsburg, Miss., Sept. 16.—A United States treasury check for one cent, made out to the "City of Pittsburg," has been received by Michael F. O'Neil, city messenger. The check, signed by John F. TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy Stomach and Acid Indigestion.

Doubtless if you are a sufferer from indigestion, you have already tried peppermint, bismuth, soda, charcoal, drugs and various digestive aids and you know these things will not cure your trouble—in some cases do not even give relief. But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little bisulphated magnesia. Not the ordinary commercial carbonated magnesia, but the pure bisulphated magnesia which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment, and makes you feel bloated, flatulent, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat.

MERCHANT SAYS TROUBLE IS OVER

J. E. Settle Declares Tanlac is the Only Medicine He Has Ever Seen That Does What They Say It Will Do.

"Tanlac is the first and only medicine that has done me any good at all since my health failed me about five years ago," said John E. Settle, a well-known merchant at Devon, Halifax, while talking to a Tanlac representative a few days ago.

"Yes, sir, Tanlac is a very dependable medicine," continued Mr. Settle, "and it is the only medicine I have ever seen that does just what they say it will do. I had been trying to get rid of a bad case of stomach trouble for a long time but instead of getting any relief from the different medicines and treatments I have taken, my condition just seemed to get worse all the time. Every time I ate anything I would have awful cramping spells and sometimes I would be laid up for four or five days at a time when these spells hit me. For days after these attacks I couldn't retain anything to eat, not even a glass of milk. I was badly constipated all the time. I was forced to lose a lot of time from my business, and sometimes during my busiest season I would have to be away from my store for a week at a time."

"I had just about reached the point where I was disgusted with medicine and treatments but while looking over the paper not long ago, I saw where a good many people were being helped by Tanlac, so I thought I would see if it would do me any good. Well, sir, it's the honest truth I haven't had a sign of stomach trouble of any kind since I finished my first bottle of this medicine. Why I haven't been so well in years, and in fact, I just feel fine all the time. I have only taken four bottles of Tanlac so far and my trouble seems to have been completely overcome. I eat just anything I want now and I never have any trouble afterwards. I have been altogether relieved of constipation. It is simply wonderful the way Tanlac overcomes this kind of trouble and more. I am a man up in every respect. My entire system is in as good condition as it ever was and I know Tanlac did it."

Tanlac is sold in St. John by Ross Drug Company and F. W. Munro under the personal direction of a special Tanlac representative.

SAYS BRITAIN BY NO MEANS HEADED FOR BANKRUPTCY

Montreal, Que., Sept. 16.—"I think that there is an impression in this country that Great Britain is staggering under the burden of her tremendous debt and that she is headed for bankruptcy and is going to the dogs. I want to tell you as one who has some knowledge of the conditions and more of finance that this is not the case. Great Britain is not going to sit down under the difficulties which she faces today. There never was a time when her people displayed more brain, more nerve, or more enterprise, or were more alive to the necessity of overcoming all obstacles that confront her."

In these words, Sir Charles Hanson, high sheriff of the County of York, in the British House of Commons, and former Lord Mayor of London, raised the enthusiasm of the members of the Board of Trade who assembled at noon today to hear an informal address from one of Montreal's foremost residents who is today her honored guest.

BOY BOND THIEF HELD IN \$10,000

New York Youth's Riotous Living Ends Dismally—Mother And Elder Brother Turn Clerk Ove To Poince

New York, Sept. 16.—Two months of riotous living during which he spent thousands of dollars on the entertainment of boy and girl friends came to a dismal end today for nineteen-year-old Robert A. Borthwick when he was arraigned for stealing \$38,000 worth of Liberty bonds from the Columbia Trust Company, by whom he was employed as a clerk in the bond department of its Bronx Branch at a salary of \$17 a week.

Borthwick was held in \$10,000 bail, and in the meantime the police are looking for two other boys who are said to have shared in the orgy of spending and incidentally to have stolen \$6,100 from their leader.

According to the court record young Borthwick started his career when he borrowed \$1,100 from his mother last spring, the sum representing the total of years of saving. He told her he could double it in Wall street, and she had a mother's faith. The boy says he lost it and stole to make up, but his speculations were not always losses for there is a record of one occasion when he won \$2,500, which he says he spent in a couple of days.

Early in July the boy began to take Liberty bonds from the safe of his employers. With his headquarters at one of New York's big hotels, his treasury, an old newspaper in which he wrapped the proceeds of his thefts and a crowd of boys and girls of his own age to share his splendor, he started out to "see life."

One dinner alone, with a vaudeville performance attached, cost \$600. Taxi-cabs carried the gang to fashionable restaurants, to Coney Island and other pleasure resorts. Just before his arrest he had purchased an expensive automobile, which, however, had not been delivered.

At the same time he managed to preserve appearances at home until an accidental proof of his undoing. An older brother went to a closet yesterday to search a suit of clothes for a pencil. By mistake he put his hand in a pocket of the suit, and there he found a roll of bills amounting to \$900. Robert was asleep. George awoke him and the boy confessed. The heartbroken mother and the elder brother went to the hotel, where Robert reserved a room as headquarters for the gang and found \$47,000 in the old newspaper. They then went to the manager of the trust company and Robert's arrest followed.

When the boy was ordered held today his counsel asked the magistrate: "What are we going to do about bondsmen who allow this boy to walk into their offices and gamble on the Stock Exchange? What are we going to do about the business men who bought the bonds from this youth without asking him any questions? What are we going to do about conditions which invite boys to steal?"

COUNCIL GRANTS APPLICATION OF CORONA COMPANY

Fixed Assessment For Twenty Years—No Increase For Magistrate But Council Ready to Pay Retiring Allowance

The common council, at its weekly council meeting yesterday afternoon, agreed to the application of the Corona Candy Company for a fixed valuation of \$40,000 on their enlarged premises for a period of twenty years, dating from the expiration of the present fixed assessment of \$20,000. The resolution was introduced by Commissioner Jones which also embodied that the water assessment in each year during the said period of twenty years be at the current rates from time to time charged to manufacturers. While the commissioners all favored the granting of the concession for the purpose of encouraging industries there was an expression of opinion that a period of twenty years was too long and should be reduced to ten. Commissioners Fisher and Thornton expressed this view as did the mayor, the latter, however, saying that he would not accept the responsibility to vote against the request in view of the need of industries in the city.

The matter of a reply to the police magistrate for an increase in salary was brought up by the mayor who suggested a reply to the magistrate along the line that the city could not see its way clear to grant the increase. A motion to this effect was passed with the addition that the magistrate be informed that the retiring allowance of \$1,500, already offered by the city, is still available if the magistrate should want to accept it.

Mrs. H. Colby Smith and Mrs. F. H. Foster were reappointed members of the Public Library Commission, their terms having expired.

Permission was granted the New Brunswick Telephone Company for the laying of an underground conduit in Waterloo street between Union and Richmond streets.

Commissioner Fisher reported regarding a letter from W. B. Lane, complaining of water running into his house, 160 Wright street and of increased taxation. The report said that the surface water in front of the house was being taken care of necessary catch basins having been installed, and as to the taxes that was for Mr. Lane to deal with the assessors.

He also reported that a fence for those destruction people in Protection street, west side, had asked, was not owned by the city and he suggested that the matter be dealt with by the commissioner of safety as it was considered it involved a certain fire risk. The commissioners agreed that the report should be withdrawn and additional information secured.

The mayor made known that R. N. Dean, St. James street, complained about

A great deep water harbor and docks at St. Just, near Falmouth, are expected to revolutionize traffic between Britain and America.

WAS MISUNDERSTANDING OVER MATTER OF DATE OF THANKSGIVING DAY

North Renfrew Member Was to Have Chance to Discuss it Making Armistice Day That of Thanksgiving

(Special to Times.)

Ottawa, Sept. 17.—As the Canada Gazette has not yet carried the announcement of Oct. 13 as Thanksgiving day there is still a chance that another day may be chosen.

J. E. Peellow, member of North Renfrew, had an understanding with Premier Borden that the debate on his proposed bill to have Armistice Day or the second Monday in November declared Thanksgiving Day, would follow the peace treaty discussion but the premier's illness caused a misunderstanding.

The action of the British parliament in deciding on Nov. 11 as a permanent holiday for celebrating the return of peace may have some influence on action here. It, however, Armistice Day is not chosen this year the nearest to the occurrence, it is not believed it ever will be. Mr. Peellow has been given government assurance that effort would be made to see if the matter had proceeded so far as to be beyond revision.

Copenhagen, Sept. 17.—An important conference has been in session at Riga considering not only peace with the Soviet government of Russia, but with the Baltic federation, according to Swiss Socialist sources. It is understood there has been no actual acceptance of the terms of the Bolshevik government of Russia, but it has been determined that the representatives of Latvia, Lithuania and Estonia have agreed to adopt a common currency and to enter a customs union.

Berne, Sept. 17.—Swiss peasants are developing active opposition to Bolshevik propaganda spread by Swiss Socialists. A meeting held at Fraupfeld yesterday to protest against revolutionary intrigues was attended by 4,000 men.

Paris, Sept. 15.—The president of the Ukrainian delegation to the peace conference has written to M. Clemenceau protesting against attacks by General Denikin's volunteers upon the Ukrainian army which was in pursuit of Bolshevik forces fleeing after the recent capture of Kiev. The letter says that General Denikin is "making use of Entente assistance which was intended to enable him fight the Bolsheviks to penetrate Ukrainian territory with the object of re-establishing the Russian Empire." It also declares that the attack on the Ukrainian army permitted the fleeing Bolsheviks to make their escape.

Ottawa, Sept. 17.—Official denial is given to a published story to the effect that Hon. Mr. Ballantyne recently left the hospital where he was a patient, but found he was not improving as rapidly as he wished and has returned to the hospital for treatment.

Ottawa, Sept. 16.—Following his recent sharp attack of influenza, Sir Robert Borden is not gaining strength as rapidly as his friends could wish, and it is doubtful whether his physician will permit him to return to his duties until next week.

Quebec, Sept. 17.—Le Soleil, the Quebec Liberal organ, yesterday published a despatch from Ottawa, stating that it was rumored there that Romeo Langlois, a Quebec lawyer, has been offered a portfolio by Sir Robert Borden if he will run in Quebec East on a Unionist ticket.

COLGATE'S TALC POWDER FOR PERSONAL APPLICATION

"Light as Colgate's Talc"—passed through a silken mesh

IMAGINE a spider's web which only the shining dew makes clear—then imagine a silkworm's thread as fine.

Imagine a mesh formed by thousands of such gossamer-like threads contained within a single square inch. Conceive this weave to be so fine, so fine that only dust of flower-bloom, or powder as microscopic, could sift through it.

Through so incredibly minute a filter Colgate's Talc is passed. By what other means could come its delicate, breath-like quality—its airiness lighter than thistle-down, lighter than gossamer?

To the tender, sun-sensitive or wind-whipped skin what can be more gratefully cooling, what be gentler or more fragrant than Colgate's Talc?

What talc, while adding its charm to the complexion, merges with it as does Colgate's Talc?

So fine, so very fine it is.

And perfumed to your liking.

Is Sinking Fast.

St. Stephen, N. B., Sept. 16.—(Special)—A telegram was received here tonight from Toronto by J. T. Whitlock, stating that Colonel John D. Chipman of that city, but formerly of St. Stephen, and who has been ill for some little time, was unconscious and sinking fast.

SOLDIER MEMBERS OPPOSE GRATUITY FOR VETERANS

Ottawa, Sept. 16.—Apart from Colonel J. A. Currie, the proposal that all returned soldiers should receive an additional gratuity of \$2,000, did not receive much support from returned fighting men who are members of the house of Commons. Colonel Currie, who moved the adjournment of the house in order that the matter might be discussed, closed a fairly long speech with an unqualified approval of the proposal and also advocated special consideration for university graduates who have served overseas.

Captain R. J. Manion, who won a Military Cross in France and Major D. L. Redman, who was wounded at Ypres, both thought that the seven or eight hundred million dollars involved in the proposal would be more than the country could undertake to pay, but both favored additional aid for men who really need it.

Dr. Manion spoke of the magnificent services rendered by the Canadian corps and thought that many soldiers would not care to sell the great heritage of gratitude they have earned for a mess of pottage. Some system, he said, should be devised to help needy cases and young soldiers who desire to go to college should be aided.

Major Redman expressed his satisfaction with the government's decision to name a parliamentary committee. This committee, he said, would report before the end of the session and any necessary money bill could be passed.

Major C. G. Power, Quebec South, another Military Cross winner, thought there was too much disposition on the part of returned men to spend their gratuities before going to work. He was opposed to the payment of any further bonus to returned men. He expressed his disapproval of the plank in the platform of the Liberal party which advocates the payment of cash bonuses to soldiers. The government, in deciding on a committee, he said, was shifting the responsibility to private members.

Major G. W. Andrews was sympathetically inclined toward the soldiers, but did not express a definite opinion as to an additional gratuity. The unrest among soldiers, he attributed to inevitable injustices arising out of war.

Colonel C. W. Peck, V.C., who has more war decorations than any other member disassociated himself from the

question of cheap demagoguery being played to the returned soldier. All the soldier wanted, he said, was a square deal. Something should be done for the men who had served longest.

Captain P. McGibbon said the demand for money was due to unrest which arose from the success of those who who stayed at home.

Speakers other than ex-soldiers, included Dr. Michael Clarke who was inclined to blame parliament for the present situation and favored a gratuity sufficient to put soldiers through the winter months.

The proposal put forward by returned soldiers that a gratuity of \$2,000 shall be paid to every man who served at the front, and that \$1,500 and \$1,000 shall be given to those who served in England and Canada, respectively, would not be considered by the government. Hon. C. J. Doherty, minister of justice, speaking in the house tonight, stated that the parliamentary committee which will be appointed to deal with the new soldiers' civil re-establishment bill will not take up this matter. He stated that the proposition that every returned man, regardless of his financial situation, shall be paid this gratuity, is not in the interests of the country or the men themselves.

Ottawa, Sept. 16.—Mr. Peellow asked in the House this afternoon if it was correct that the government had fixed October 13 as Thanksgiving Day and if this was to be interpreted as an announcement of government opposition to his bill to make Armistice Day, the second Tuesday in November, a permanent Thanksgiving Day.

Hon. Mr. Doherty replied that Thanksgiving Day had been fixed for Monday, October 13, but it did not necessarily follow that Thanksgiving Day would be on the same date next year. Future policy would have to be decided later.

MORNING NEWS OVER THE WINDS

At last night's meeting of the Moncton city council it was agreed that the city take over the utilities of the Moncton Tramways, Electricity & Gas Company for operation by the city. The expenditure is expected to be between \$100,000 and \$150,000.

A hydroplane in the air and a submerged submarine yesterday held conversation with each other off New London, Conn., in the course of a radio experiment. It is considered by naval officials an important advance in naval warfare tactics and for coastal defence.

Seven hundred people are out of employment in St. Stephen and Milltown because of the strike of the employees in the Canadian Cottons Ltd., Milltown.

J. W. Graham, manager of the mills, left last night for Montreal to consult with the directors. The loom-fixers are asking for an increase to 50 cents an hour and a fifty-hour week.

In the presence of crowds of people at the corner of New and Maverick streets, Boston, last night, Jacob David Martin, aged thirty-four, of St. John, slashed his wife, Mary, across the face with a razor. When arrested he said he had not intended to kill her but merely to destroy her beauty as she had left him to go with another man, taking their two children with her. He said they had been living together for twelve years in St. John and that his wife had eloped with a man from Moncton, N. B., last March.

A meeting of the Windsor Chapter of the I. O. O. F. was held last evening at the home of the vice-regent, Miss Eva Newcombe, and in the absence of the regent, she presided. The work done over in showed that the members had not been idle during the summer. Miss Elsie Duval, who will be away from the city attending college, resigned and her resignation was accepted with regret.

USE WIRELESS TO RELIEVE CABLE COMMUNICATION

War-time and Post-war Verbiage Caused Serious Block on Cables—Necessity For New British Cable

London, Sept. 16.—In response to an invitation from Lord Milner's committee appointed to deal with the subject of improved cable facilities, the Empire Press Union selected a small sub-committee to offer suggestions.

In their report to the main committee emphasis was laid on the enormous losses that had been suffered by com-

mercial houses and the newspapers on account of the cable congestion, which was seriously aggravated by the prodigious use of the wires by the government departments far in excess of what the needs of war justified.

On the Eastern service the government wordage rose from the pre-war average of 8,000 words a day to over 50,000, and notwithstanding the appeals made in the House of Commons to the government officials to stop this extravagance, it continued during the war and even after the signing of the armistice. Speeches of members of the government running into thousands of words were cabled out to the Dominion newspapers. Not only were these messages too long for practical purposes, but they constituted a serious block on the cables.

There is so great an urgency for improved communications that, as a provision of large wireless stations can be

more speedily effected than the laying of long sea cables, no time should be lost in utilizing the possibilities of wireless to meet the needs of the hour.

It was pointed out at the same time that wireless is not likely to prove a permanent solution of the difficulty. If subventions have increased communication by mail it is reasonable to expect that a well devised system of cable subvention will also be fruitful of good results. Without the Pacific cable the world would have been paralyzed during the war and this is only one strand of copper wire 8,980 miles long, five miles down in the ocean and it has lasted seventeen years without a fracture in its deepest part. Should it break no one can tell how many months it will be out of commission. In order to make sure of that route being maintained, a new cable should be laid throughout from Banfield to Norfolk Island or at least from Banfield to Panning Island.

This would be an important link in the All Red Route which the Empire Press Union has advocated for years. Some people consider that the government's acquisition of the German cable to America via the Azores now extended to Halifax is sufficient for the Atlantic link of that route, but it is not a quick route and it is in the hands of the bureaucratic post-office who, up to the present, have shown no desire to encourage press telegrams.

British Empire Cable

When the large number of American-owned cables that cross the Atlantic is borne in mind it is not too much to expect that a British Empire cable will soon be laid from Ireland to Newfoundland.

The committee strongly deprecated any interference by the government with the collection or distribution of news.

Referring to the suggested creation of an Imperial news service under government patronage, it was pointed out that such a service could only be a form of propaganda. If the government will help to provide a means of communication the newspapers will furnish all the news that their readers require.

A proposal has been made whereby the world's news would be pooled in London. The committee are satisfied that such a scheme is unworkable, such pooling as is possible being already done by the news agencies, who are prepared to extend their service if the means of communication is improved.

ITALIAN ELECTIONS ARE EXPECTED SOON

People Puzzled as to What Platform Premier Will Adopt

Rome, Sept. 17.—A general election in the second fortnight of November is considered practically certain here. So discussion and speculation are rife as to the programme of the different parties. Giolitti, for the first time since the beginning of the war, will expand his ideas at a great banquet to be given in his honor at Dronero, the chief town of his constituency, on the 28th of this month.

What puzzles a great majority of the people is on what platform the premier will conduct the struggle, it being remembered that his design was to form a cabinet including both Catholics and Socialists. If he did not succeed, it was not his fault. It is an old idea of Nitti that the differences between Catholics and Socialists is very slight. When the present premier was twenty-two years old and had just taken his degree, and when nobody yet foresaw in him a future statesman, he published a volume of 400 pages called "Catholic Socialism," wherein he worked out a theory of similarity between the two principles animating these parties. Some passages are sufficient to show his point of view.

He wrote: "The doctrines held by the early fathers of the Church on the nature of property are perfectly uniform. They all admit that wealth is the fruit of usurpation and consider rich men as withholding the patrimony of the poor. To maintain riches should only serve to relieve the indigent; to refuse to assist the poor was consequently worse than to rob the rich."

Veterans Fall McGraw.

New York, Sept. 17—An error in judg-

the Great star trotter of the year, won
another rich stake here today when he

than 2:05 1/2 to keep in front of Ramco,
his nearest competitor.

AFTER MOTOR TRIP.
George Swanton of 31 Paddock street returned on Sunday after a three weeks' motor tour to New York and other American cities. He was accompanied by his wife and daughter, Madeline, and Mrs. Marguerite Carr. They also visited East Orange, N. J., and Coney Island. While in Boston they visited Mr. Swanton's cousin, Edward E. Carr.

IN HONOR OF MEMBERS.
The Progressive and Enterprise clubs of St. Matthew's church were pleasantly entertained at the home of Austin Galbraith 188 Millidge avenue last evening. The party, composed of forty young people, was held in the parlour of Miss Blanche Turner and Edward Akery who are leaving Saturday to pursue studies at the U. N. B. Refreshments and singing brought the happy gathering to a close.

HOME ON VACATION.
Among the passengers on the Boston boat yesterday was Miss Irene D. Appleby, formerly of Hampton, but now of this city. Miss Appleby has been taking a nursing course in the Noble Hospital, Westfield, Mass., and will spend part of her vacation with her parents Mr. and Mrs. Robert N. Appleby, Tower street, West St. John and also expects to visit her sister, Mrs. F. S. Compton, Hampton. Many friends in St. John and Hampton will be pleased to hear of her return and wish her much success in the future.

WINDOW BROKEN.
A large pane of glass window in the barber shop of Edward J. McGuire, Mill street, in a building owned by Daniel Connolly, was broken this morning. A woman passing down the street at eight o'clock slipped upon a banana peel and to recover her balance clutched at the barber's pole outside the door. While in the act of saving herself she stepped upon another piece of peel and this time the pole gave way, and, toppling sideways, crashed into the window. The woman was unhurt. The window was insured.

HOME FROM PACIFIC.
After having been away for the last few weeks Dr. J. B. M. Baxter, K. C., returned to the city at noon today, accompanied by Allan LeBlanc of Dalhousie, N. B. They attended the convention of the Canadian Bar Association in Winnipeg, and then went on to the Pacific coast. The convention, Doctor Baxter said today, had been most interesting and profitable, and one of the most outstanding features had been the addresses of Lord Finlay of the English bar. As city solicitor, Doctor Baxter went to Ottawa to endeavor to interview some of the members of parliament respecting certain details of the harbor commission bill, but was unable to see any of them, those whom he desired to see either being out of the city or ill.

BOACING CARGO ON THE STEAMER GOV. DINGLEY CHARGED

In the police court this morning, Roy Morrison was charged by Captain Onigalis, of the S. S. Governor Dingley, with breaking cargo and stealing three boxes of chocolates and cigars to the value of \$18. It seems that on the voyage from Boston to Eastport the cargo had been broken and some articles stolen. On investigation it was found that another member of the crew committed the offence and he was given in charge at Eastport. Morrison and St. John other articles were missed and after a search, it is said, the accused was found to be in possession of the goods and on the arrival of the vessel here was given in charge. The case was postponed until the officers of the boat can return to give evidence in support of their charges. One man charged with drunkenness was remanded to jail.

SEPTEMBER BRIDES

(Continued from page 1)

and New York. The many and beautiful wedding gifts received testified to the high esteem in which the popular young people are held by their many friends.

Furlong-Forbes.
A military wedding of much local interest was performed yesterday in the Basilica, Ottawa, by Lieut.-Colonel Rev. A. Sylvester, when he united in marriage Major Gerald Furlong, formerly of this city, and Mrs. Gladys Campbell Forbes of Ottawa. No particulars other than the announcement have been received except the information that the bride and groom have gone on a wedding trip to New York. Major Furlong is well known here and numerous friends will extend best wishes for future happiness. He is still in military service at Ottawa, after three years of excellent service overseas. He and his bride will make their home in Ottawa.

Boyle-Sullivan.
A pretty wedding was solemnized this morning at seven o'clock in the Cathedral of the Immaculate Conception, when Rev. William Duke, with nuptial mass, united in marriage Miss Nettie C. Sullivan of the city to Edward Cornelius Boyle, also of St. John. The bride was beautifully gowned in a brown broadcloth suit with hat to match and carried a white prayerbook. She was attended by her sister, Miss Margaret Sullivan, who wore a suit of navy blue serge with standing collar and hat. The groom was supported by his brother, J. A. Boyle. The groom's present to the bride was a purse. Many beautiful presents were received by the young people, including china, silverware and glassware. After the ceremony Mr. and Mrs. Boyle repaired to their home, 177 Elliott row, where a wedding breakfast was served to relatives. They left on the 12.50 train for a trip through the maritime provinces.

Shanks-Stears.
The wedding of Miss Barbara E. Shanks, daughter of Mrs. Eliza Shanks, 77 Harold street, to Harold Stears, son of Mr. and Mrs. Thomas Stears of Fairville, was solemnized this afternoon at three o'clock, in Carleton Presbyterian church by Rev. J. A. Morrison, the pastor. The church was filled with friends to witness the ceremony. The bride was dressed in white duchesse satin with over-dress of georgette crepe and broad trimming. She wore a bridal veil with orange blossoms. Her sister, Miss Jennie Shanks, dressed in yellow satin with black picture hat, was bridesmaid. She carried a bouquet of pink roses, while the bride carried a shower of white roses. The bridesmaid carried a basket of the bride, in pink crepe de chene with hat to match, was flower girl. The groom was attended by his cousin, Wm. Stears, while Robert Langstaff and Archibald Brown were ushers. As the bridal party entered the church the wedding march was played by the organist, Miss Katie Fox.

Thompson-Gray.
The home of Mr. and Mrs. Alexander T. Gray, 260 Tower street, West End, was the scene of a pretty nuptial event this morning at 7.30 o'clock, when their daughter, Miss Elida Elizabeth, was united in marriage with Joseph Edmund Thompson, son of Mrs. Sarah Thompson, also of the west side. The ceremony was performed by Rev. E. A. Westmoreland, assisted by Rev. Jacob Heaney. The bride entered the room with her father and preceded by little Miss Marjorie Gray, wearing white crepe de chine, and Master Lloyd Westmoreland, in black velvet, strewing flowers before her. She looked very charming in a traveling costume of African brown and picture hat of the same shade, faced with peacock blue and carrying a bouquet of Ophelia roses. The profusion of golden rod with which the rooms were decorated created a most harmonious background for the picture. After the ceremony the many guests present repaired to the dining room, where a sumptuous wedding breakfast was served. Mrs. Thomas Rippey, wearing a brown silk gown and large black hat, and Mrs. Wm. Lilly, in pink embroidered voile and picture hat, poured. Many beautiful and costly presents attested to the popularity of the young people. The groom's present to the bride was a beautiful taupe fox fur. Mr. and Mrs. Thompson left on a morning trip through New Brunswick, Nova Scotia and Prince Edward Island. Among the out of town guests were Rev. E. A. and Mrs. Westmoreland of Taymouth, Miss Margaret Palmer of Kars, Kings county, and Miss Helena Willis of Lewiston, Mass.

PICTURES OF PRINCE
In the September 6 issue of the Illustrated London News, which has recently been received on this side of the ocean, appear some excellent pictures of the visit of the Prince of Wales to the city. Prominence is given to the picture of the tableau given by the young ladies before the stand at Reed's Point.

Why Start a Big Coal Fire When a Little Oil Heater Will Do?

With a **PERFECTION OIL HEATER** rooms without regular heat are made comfortable in short order.

Take it wherever the extra heat is required, and in a few minutes it changes chill to cheery warmth. No trouble and very little expense.

PERFECTION OIL HEATERS cost little to buy and little to use. They burn kerosene, an ideal fuel because it is low priced, easy to handle, and everywhere obtainable. They are handsomely finished, smokeless, odorless and absolutely guaranteed.

Gifts That Make The Wedding Bells Ring Louder

Tendency nowadays is to give gifts of a permanent nature to those severing the ranks of the benedictics. In other words, furniture. Something about furniture that cements affection and love for the giver.

This store has long been the headquarters for things suitable as wedding gifts, and it was never more so than it is at present.

Everything from a Picture to a Parlor or complete home outfit.

Reasonable in price, too, because of modern merchandising methods and price basing.
