HOW THE KAISER HOPED TO FORM NEW ALLIANCE AGAINST GREAT BRITAIN

Echo De Paris Prints a Story Today Which Shows That German Emperor's Professions of Friendship for Britain do not Square With His Conduct.

Paris, Oct. 29.—The Echo de Paris this morning publishes a lengthy article giving the other side of the story concerning the negotiations between France, Russia and Germany to call upon Great Britain to put an end to the South African war. It is an interview with Empress William which was published in the London Daily Telegraph yesterday. France joined in the Russian attempt to mediate only as spokesman in the negotiations, in the belief, from previous assurances, that Germany would unite with the other two powers on this basis. Instead, the Emperor replied that intervention by the powers would be a lengthy affair, and that if it was undertaken, France, Russia and Germany must enter into a mutual engagement to guarantee the integrity of their territories. Russia at once saw that this condition would not be favorable to France and designed danger in Germany's sign.

PARTY OF YALE STUDENTS MADE VISIT TO GRENFELL

They Made a Trip to Labrador to See the Famous Deep Sea Missionary—They Sailed His New Boat Saw the Hospitals and Witnessed the Work the English Doctor is Doing in the North.

The first party of Yale undergraduates to ever explore the coast of Newfoundland and Labrador on a semi-medical-missionary tour has just returned to college after having spent the entire summer on the trip.

The expedition was the result of a plan laid by Dr. Grenfell, the English physician and pastor of the Labrador and Newfoundland societies, who has been fighting a battle against the various diseases which are gradually wiping out these sturdy northern races.

At that time he mentioned that he had a boat built in the states to help him in his winter quarters and had some of his staff with him on the coast.

The boat was somewhat of a disappointment because of getting out of order and was unable to make its way to the coast.

PEERS, MILLIONAIRES AND POLITICIANS COMBINE IN BATTLE AGAINST SOCIALISM

Representatives of Wealth and Class in Great Britain Will Fight the Inroads of Socialistic Doctrines—Speakers to be Schooled in Anti-Socialistic Argument.

London, Oct. 28.—It has long been felt by those who know anything of the activity of the Socialistic propagandists that a powerful and well-organized movement was urgently needed to meet and combat the dangers to the State put forward by this party.

One of the most notable features in the scheme is the establishment of a school for speakers. The Socialist agitator as a rule knows his subject well from his own experience and, moreover, often able to silence an opponent who could give a refutation of some fallacious argument.

At St. Anthony Dr. Grenfell has established a mill and saw-mill to employ the local people during the winter.

When the congregation agreed with the speaker, they expressed a desire to contribute to the fund for the building of a new church.

There will be also a publication department, which will supply to all those who desire to have their names in the paper.

CANNOT AGREE IN CHOICE OF A BISHOP

Anglican Synod of Diocese of Montreal Spent Night in Balloting for a Successor to Bishop Carmichael.

Montreal, Oct. 28.—At midnight there is no indication of an immediate adjournment of the synod of the diocese of Montreal, which is trying to elect a bishop to replace the late Bishop Carmichael.

All day the synod has been wrestling with the problem, with the result, apparently, that after three ballots have been taken, the contest has narrowed down to two names.

The latter is regarded by many as the natural successor to the late bishop, while others at the synod are of the opinion that it would be inadvisable to promote a diocesan cleric, and that the interests of the diocese would be better served by the election of an outside cleric.

Shortly after midnight, a fourth ballot was under way with the ultimate result still in doubt.

The election caused the greatest clash between the lay and clerical members of the synod that has occurred in the history of the Montreal diocese.

An excellent concert was given in the school room of the Mission church, Paradise row, last evening, under the auspices of the men's association of the church.

PREMIER HAZEN

The Standard asserts that Premier Hazen rendered a public service by reading the Hayes affidavit. It was not necessary for Mr. Hazen to read the document. Mr. Hayes was there himself, and sat just behind the premier. He could have read it himself. Mr. Hazen assumed responsibility for what appeared in the affidavit, including the falsification of a date and the failure to have it changed before it was telegraphed all over the country to create the impression that the minister of public works had asked for and received a bribe. Mr. Hayes has not since opened his mouth on this subject, nor did he appear on any platform in St. John during the rest of the campaign.

ATHLETIC SPORT

At the formal opening last evening of the new quarters of the Irish Literary and Benevolent Society, upon which that organization is to be congratulated, Mr. James Barry pleaded for greater interest in athletics by members of Catholic societies, so that field sports could be held under their auspices in summer. On the sporting page of today's Times is quoted from Halifax papers an account of how the Mayor of that city, with representatives of athletic organizations and many thousands of citizens turned out to do honor to the victorious runner from that city who had just returned from the great road race in Montreal. St. John might well take a lesson from Halifax. Interest in athletic sports can easily be developed if the citizens desire practically abandoned in St. John until last year the Every Day Club secured their present grounds and endeavored to revive amateur sport. They held two meets last year. This year they held three afternoon and two evening meets, culminating in the splendid field sports and road race on Oct. 10th, which were the most successful and attracted the largest attendance of any field sports held here for some years. The Every Day Club has but few really active members, and they are working men. They are not backed by any society, nor can they make any special appeal for patronage. If under these conditions they have been able to do so much, what could not an organization with a large and influential membership do for the development of clean sport?

A RAY OF HOPE

There is one self-righteous journal in Canada whose hide cannot be pierced even by an adverse majority of sixty. It is the Halifax Herald, which constantly seeks new and larger kinds of type to express its fearsome determination to slay its enemies. The following extracts from an article published the day after the elections are really gems in their way: "Less than three years ago, the Halifax

Herald, impressed with the evils resulting from the illegitimate use of government patronage in demoralizing the electorate, inaugurated a movement for political reform. The Herald believed, and still believes, that the number of grafters and rake-off men in any party number but a small percentage of the whole, and if the honest Liberals and the honest Conservatives could be induced to come together and strike hands for clearer administration methods and for a pure electoral system, abolishing the use of bribery and rum—then a great step would be taken in the way of political reform. The movement for purity and reform, satisfactory as are present results, is only at the threshold of its work. The Herald, encouraged by success, considers it its duty to prosecute the work, day by day and year by year, until the patronage system, with its thousand tentacles, is slain, and bribery at the polls and corruption in the administration have ceased to exist. Brethren, let not your hearts be troubled. The Don Quixote of Canadian journalism is still in the saddle, and the grit windmills will get all that is coming to them, in spite of Monday's mishap at the pump.

ASSOCIATED CHARITIES

The meeting of the Associated Charities in the board of trade rooms this evening should be well attended. The winter season is at hand and there will be the usual problem of what to do with the unfortunate, the unthrifty and the unemployed. In Toronto a special civic committee has been organized to prepare for dealing with the problem of the unemployed. The following are its recommendations, and they may be of value as suggestions here: That only the House of Industry get grants for outdoor relief, and that applicants comply with a "work test," or otherwise show themselves to be deserving. That churches and charitable organizations be asked to co-operate with the executive committee of the Associated Charities by supplying information as to deserving needy persons. That the police commissioners be asked to instruct the chief constable to take steps to deport undesirable immigrants, meaning those who under the Immigration Act are debarr'd from coming to St. John, and who show no desire to be self-supporting. That a temporary employment bureau be established, at which applicants for work may register free, and at which employers may look for employes, the bureau to be under municipal control, but not at the city hall, and that the city clerk report upon the location and organization of the bureau. That the House of Industry consider establishing stations at which the poor may purchase fuel in small quantities at the lowest price. That employment on civic work be given only to those applicants who have been twelve months in the city, and that the regular civic rate of labor wages be paid. That the park commissioner report on grading or other work as relief work, and that the wages paid be 15 cents an hour for a day of eight hours. That citizens be asked to provide winter work and to apply to the employment bureau for workers, giving the preference to those in special need. That the names and addresses of all applicants for work be recorded, and the Never has this city experienced an era in order of enrolment for three days' work at one time. That the city engineer ascertain how much stone can be used in providing work for casual applicants for relief. The Halifax Chronicle says: "Hon. W. S. Fielding's majority in Shelburne-Queens is 400, a gain of 15 over his majority in 1904. This is remarkable in view of the fact that the demands upon him for campaign work elsewhere left him free to devote only a few days to his own constituency. But the people of Shelburne and Queens refused to listen to the cry of the Slanderbrand and stood loyally by Nova Scotia's great leader who has served them so well." The Halifax Chronicle says: "The splendid victory won by Hon. Mr. Pugsley in St. John is a personal triumph for the Minister of Public Works, who has been made the object of the most cowardly assault in the history of Canadian politics. But the people of St. John stood loyal and true to their talented representative and he goes back to Ottawa with almost a solid delegation behind him." The Russian parliament met yesterday, and there are no rumors of bombs or of violence. The work of reform should make some progress in that country in the next few months. There is doubtless much popular discontent, but for the time it is leaderless.

MAKING UP. Old Ben—Williams, are my eyebrows on straight and is my wig properly trimmed? The man had been trying on some golf trousers, and still in the dressing room, but the tailor thought him queer. SOCIAL EUPHEMISM. First Society Matron—I've just paid \$300 for a fascinating little rag to wear to your bride. Second Society Matron—So charmed. Who is your regatta now?—Life. OVERDOES. Aubrey (after a searching gaze from Bruce)—New old chap, candidly, what's the matter with the tie? Bruce—My dear boy, I should have suggested something less alarming. It hardly gives your face a chance.—Punch. IT LOOKED SUSPICIOUS. "I guess my father must have been a pretty bad boy," said one youngster. "Why?" inquired the other. "Because he knew exactly what questions to ask when he wants to know what I have been doing."—Washington Star. GOOD CUSTOMERS. John D. Rockefeller was advising a reporter one day to be careful and cautious in all business matters. "Look about you," he said. "See that you get your money's worth. If you don't—'If Sullivan, of course, you're proud of his reputation for generosity. Everybody respects his patronage—dear, generous, tobacco, said so forth—and this delighted John. One day at his tailor's he overheard something that gave him food for thought. He had been trying on some golf trousers, and still in the dressing room, but the tailor thought him queer. "What shall I charge Mr. Sullivan for these golf trousers?" John heard the clerk ask. "Right dollars a pair, the same as our other patrons." "Sullivan," said the tailor, in a tone of one thought and unobtrusive, "is a good customer. He always pays up promptly. He never haggles. Charge his bill." WHEN TAFT WAS A POET. Very few persons know that William B. Taft has written poetry. Most people have an idea that a poet is a lean, long-haired creature, who looks like a hawk and has a beard and a few wild curls. The general opinion is that poets are too well fed to be a rider of the street. "Once, before the world had heard about a favorite aunt in Iowa, who knew not of his own birth of the name, who had told his beloved relative 'how all the folks were' and answered her questions and one question, and died with special attention to the fact that he had a pocket full of money, which had he not had he would have been a couple of clippings from the newspaper which had contained his name and address." The poet asked simply, "do they print these things for nothing if you send them in?"

DON'T KISS THE BABY

A Bradford, England, Child Who Must Not Be Kissed, Petted or Fondled. Living with his parents at Bradford, England, is a nine-month-old baby who has never yet been kissed. The place just inside the entrance to the house is a set of rules addressed to visitors and signed by the father and mother. The following are extracts from the rules: Don't kiss the baby. Don't handle baby, unless your hands are very, very clean. Don't bring baby's face close to your own or to your hair. Don't allow baby to touch your face or hair. Don't talk, breathe, whistle, blow, cough or sneeze into baby's face. We want him to live. Don't use your handkerchief to baby's hand, face or mouth. At the foot of the rules is written: "To some these rules will appear comical or stupid, but they are not written as a joke or without thought. Therefore, any person bringing these rules after having read them will incur our displeasure extremely." Many an ugly man has a handsome progeny in a barber shop.

ENGLAND'S PROBLEM OF THE UNEMPLOYED

Premier Asquith's Measure Meets With Much Disfavor and John Burns is Sharply Criticized by Labor Men.

London, October 27.—In the House of Commons yesterday afternoon Percy Alden, Liberal member from Middlesex, offered a resolution as to the Prime Minister's statement regarding the importance of the problem created by the unemployed, and approving the steps taken by the Government in the recent emergency.

Mr. John Burns, Liberal member from Norfolk, moved an amendment to the Premier's proposals which were inadequate. He stated that the present crisis was not a mere temporary one, and that it was necessary to provide a state of affairs which had been clearly foreseen. In concluding, Burns passionately declared that if the worst came to the worst he would go among the women suffrage people, taking the responsibility for the advice he had given.

Mr. John Burns detailed the steps that had been taken to the Premier. He said that by means of loans, sanctioned by the local authorities, public works costing £2,000,000 were being carried out. After several hours' debate Mr. Burns' motion was negatived by 220 to 80, and Mr. Alden's was carried by a vote of 196 to 33.

In announcing the measure of the Government for the relief of the unemployed during the winter, Premier Asquith described it as a "temporary expedient." This kind of criticism has of late been directed from "hand to mouth" relief. Mr. Burns' opinion of the measure is not on record, but it is an open secret that his colleagues in the Cabinet were not in favor of it.

Mr. Burns' resignation was one of the most remarkable in contemporary politics. The receipt of the Premier's proposals was met with, after some days' consideration, by the Liberal members of the Cabinet with the whole assent. Truly it was a significant event in the history of the Government.

Calculations have been made to show that the number of unemployed is likely to amount to some 645,000. Mr. Asquith's emergency measure will provide work for about 45,000, or one in fifteen. The other fourteen he proposes to leave to the charity of the public.

Not many outside the ranks of the Government were surprised by the Premier's announcement. The view was generally held that the Government had done its best, and that the responsibility for the unemployed was now on the shoulders of the public.

WOODSTOCK TO HAVE NOW \$30,000 SCHOOL. Corner Stone Laid Yesterday for Splendid New Building.

Woodstock, N. B., Oct. 28. -This afternoon hundreds of children and parents were present at the laying of the corner stone of the Broadway School, which will cost over \$30,000, and which takes the place of the building destroyed by fire on July 11 last. It will be completed and furnished for the summer term of school.

Grouped around the corner stone were several of our leading citizens. Chairman W. B. Belyea handled the silver trowel, as the contractors, Messrs. McVay, placed the stone. Speeches were made by W. B. Belyea, chairman of the school board; N. F. Thorne and J. T. A. Dibble, trustees; F. B. Meagher, inspector of schools; and F. B. Carvell, M.P., clerk for the county.

The speakers felt that the new building would be a credit to the trustees, to the town, and to the contractor; and one that the children should be proud of. The wish was expressed that in the near future the execution of the will of the late L. P. Fisher, would carry out his bequest and commence the erection of a large structure for school purposes on the present college site, as laid out in the last will of Mr. Fisher. Several hymns were sung.

The Lieutenant Governor's medal for high school entrance, won by Miss Florence Dickinson, was presented to the young lady by Mr. Belyea.

FAMINE IS FEARED UNLESS RAIN COMES. Baptist Mission Board Hears a Report from India.

At a meeting of the United Baptist Foreign Mission Board yesterday, arrangements were made to hold their next meeting in Ottawa. This will take place next week in conjunction with the Ontario and Quebec boards, when matters connected with amalgamation will be discussed.

The treasurer was authorized to forward \$800 to India as a beginning on the funds for the Simons Church at the Viazangan. A letter was received from Edinburgh asking the board to appoint delegates to attend a conference to be held in June, 1910. The board has the matter under consideration.

Correspondence from the field showed that the work is in a satisfactory condition. Rev. Mr. Corey reported baptisms in various parts of his field. The famine is still pressing heavily and unless plentiful rain comes soon the outlook will be desperate.

The Laymen's Missionary Movement committee is in a request that their secretary, Rev. W. V. Higgins, be allowed to devote more of his time to their interests and in this the board concurred.

FOODSTUFFS ARE NOT HIGHER THIS YEAR
In Some Lines There is an Advance but Taken All Around Prices are About the Same as Last Year.

A comparison of the prices of foodstuffs at the present time with the prices a year ago does not show any great change. In many lines the quotations are lower and in a few instances a little higher.

The wholesale dealers report business good but collections rather backward. The excuse offered lately for not paying bills was that the elections interfered with business. Now that this cause has been removed the dealers hope matters will improve.

There has been an exceptionally heavy demand for flour during the past month. The market has been strong and many dealers put off buying; thinking there would be a decline in price. As this did not occur stocks were so depleted that buying was forced and it is the general opinion here now that the prices will not change for a few months at least.

Manitoba flour today are being quoted wholesale at \$6.00 whereas the price at this time last year was \$5.75. Ontario's are selling at 5.50 as compared with \$6.10 last year. The dealers contend that there is too great a difference in the price of Manitoba's and Ontario's today, as there is not such a difference in quality and prices of Ontario's are expected to go higher.

Oatmeal has declined 25 cents a barrel in the past week and cornmeal is a little cheaper.

Granulated sugar is selling at \$4.70 a hundred pounds as compared with \$4.50 at the same time last year.

Dried fruits and nuts are coming in now and the prospects are that there will be a plentiful supply. These lines will cost the consumer less this year than last year.

The potato crop has been exceptionally good and the price range from \$1.25 to \$1.40 per barrel. Apples are also a bountiful crop and are selling at \$1.50 to \$2.00 per barrel for good stock.

Butter is very high now, 28 to 29 cents being asked and it is likely to be higher, as there is not as much butter being made now, the farmers needing their cream to the city where they get as good a price as they would for turning it into butter.

Eggs are quoted at 22 cents but there is likely to be a drop shortly as a great many cases are stored in the cold storage building here. The fine weather has kept the supply good all summer and prevented the boosting of the price.

All canned goods are cheaper this year than they were last year.

LOST EVERYTHING IN THE 'FRISCO 'QUAKE

Daniel Young, told a Sad Story in the Police Court This Morn'g.

In the police court this morning, Daniel Young, a bearded and unkempt man, admitted the charge of begging on Mill St. He claimed to have been in confinement in a San Francisco hospital suffering from kidney disease, and since his discharge in July he has succeeded in traversing the continent without financial disbursements or molestation. His goal is Westville, N. S., where he has relatives, and if liberated, he anticipates no difficulty in reaching the charge of which he is still suffering.

He said he arrived in St. John yesterday penniless and starving, and to secure sustenance he solicited alms. Young is 43 years of age, and when taken into custody had 27 cents on his person. He was remanded until tomorrow.

Gaddis Murphy "gadded" on the streets while intoxicated and met a policeman. Four dollars, or ten days' Bernard Frame, a young man, resented the insinuation that his name was a "frame up" to conceal his identity, and even the parents of William Reynolds would not have recognized him as he sat depondently on the bench. Both were fined \$4.

SPEAK UP MR. HAZEN
