BRITISH HOUSE PROROGUED TODAY.

End of One of Its Stormiest Sessions. Speech From Throne Hopes for Peace Between Russia and Japan—Scandinavian Trouble Referred To.

LONDON, Aug. 11.—Parliament was prorogued this morning after a chequered session which will long be remembered for the unprecedented number of votes of censure and motions for adjournment moved with a view to the embarrassment of the government. The session produced two measures of sociological interest, the Aliens Act and the Unemployed Workmen Act, the latter creating facilities for the providing of the work for all able bodied applicants, and the conflict between the Scottish Church was also settled. Otherwise the work of the session was mostly of a routine character.

Not more than 50 members of the House of Commons assisted today. They were summoned to the House of Lords where there were only two peers besides three Royal Commissioners. The Lord High Chancellor, the Earl of Halsbury, read King Edward's speech, the most interesting clauses of which, from an international point of view, referred to the peace negotiations and the crisis in Sweden and Norway.

Regarding the peace negotiations the speech says: "Negotiations, due to the initiative of the President of the United States, are about to be entered upon between the Russian and Japanese governments for the purpose of terminating the deplorable conflict proceeding in the Far East. It is my earnest hope that they may lead to a lasting and mutually honorable peace."

Then, as usual, there will be the comic features, all the local and despatch news and the special cable news from all the world, received exclusively by the STAR in this province. THE TROUBLE IN MAINE.

The Portland Press, one of the best informed and fairest papers in Maine, discusses interestingly the recent disputes between St. John river and American lumber operators around Chamberlain Lake and comes to the conclusion that the St. John men have a substantial grievance and that measures should at once be taken to decide the status of both and see that each gets fair play.

The situation, says the Press, is peculiar, involving international and important issues. A glance at the map shows that the St. John, which after the St. Lawrence, is the chief river of the maritime provinces, takes its rise in Maine and receives its main tributaries thence, the most important tributary from the Canadian side being the St. Francis. The head waters of the St. John or Wolastook, as it is still called on some maps, are in the northern part of Somerset county, but east of it, and flowing in a parallel northerly direction is the Alleghash, the largest of the tributaries. The Alleghash is the outlet of a remarkable system of lakes, mostly in the northern part of Piscataquis county including the five lakes, Umsakia, Churchill, Chemquaasabamook, Heron, or Eagle, Chamberlain and Alleghash. Chamberlain is the largest of these, and the row is over the diversion of the outflow of this into the East Branch of the Penobscot. A short distance south of Chamberlain and flowing into it is a small lake called Tolo, which may be regarded as the upper source of the Alleghash. East of Tolo and but a few miles away is Webster pond, in which the east branch of the Penobscot takes its rise. Given a canal between the two and a dam at the natural outlet of Chamberlain, and the water intended by nature to flow to the sea by way of the St. John is turned down the Penobscot.

That is what has been done, and that is why some of the St. John people, being in danger of having millions of their logs hung up on account of low water, have moved to take things into their own hands and blow up the dam with dynamite.

Commenting on these conditions the Press points out that the Ashburton Treaty, of 1842, guaranteeing unobstructed navigation of the St. John applies here as it did in the Van Buren clash of last spring. As the diversion of the water from Chamberlain Lake has undoubtedly impeded the transportation of lumber down the river. It concludes, "the possibility of further collision makes the situation serious, and as the St. John river operators are in danger of large property loss on account of the low water, and as they believe they are deprived of water to which they are rightfully entitled, it is seen that they have a substantial grievance. There are no two ways about it. The meaning of this treaty, which has been the fruitful source of bickering ever since it was negotiated, will have to be settled somehow, through fresh negotiations and perhaps the establishment of an international commission. It will not do to have these quarrels perpetually springing up between clashing lumbering interests."

The easiest method of settlement of these disputes would have been the one suggested last spring—hand it over to the recently appointed international waterways commission. But Maine lumbermen whose interests are apparently better served by a continuance of present conditions had influence enough at Washington to prevent this and to postpone any action whatever. Under the circumstances when the St. John river lumbermen are losing heavily by the illegal action of their competitors and have no present redress, it is easy to understand the violence which has occurred and it is practically certain that unless some move is soon made toward a permanent settlement, by a commission or in the courts, there will be more violence and perhaps bloodshed.

THE PEACE TERMS.

The Russian plenipotentiaries profess to be shocked at the enormity of the Japanese peace demands as presented yesterday. That also is part of the diplomatic game. For in view of the semi-official advance reports from Japanese sources the terms are very reasonable. The size of the indemnity—politely styled reimbursement—is to be left for future negotiation, the territory demanded is only what is already in Japanese possession and Russia can certainly have no fair protest against the demand that she evacuate Manchuria for she always declared her occupation of that province was only temporary. These are the basis of the Japanese terms. The other demands, such as fishing rights off the Siberian coast, the surrender of all interred Russian ships, the cessation of that section of the trans-Siberian railway from Harbin to Port Arthur and the limitation of Russia's navy in the Far East, will prob-

ably form a basis for compromise. And if Japan is willing to modify some of these conditions the sympathy of the world, even of friendly powers, will not follow Russia in a refusal to conclude peace.

A SUMMER INVOCATION.
Oh, light your hewn fires,
Great Sun, and let her roll!
We've spent the dreary winter
In freezing-limb and soul!
And growing here,
And growing there,
Have prayed for brimstone and hot air!

Shine out, and lure the summer
From many a retreat.
Let slip the rolling thunder,
And boll the rains that beat!
For growing here
And growing there,
We prayed for summer everywhere!

And then, when summer strikes us,
Her fierce heat unrolled,
Just hear us howling, growling
And crying out for cold!
And, winter gray,
Or flowery May,
We'll growl our way to Judgment Day!

—Frank L. Stanton.

"OZONE" ITS BEST FORM.

The prompt and permanent removal of any internal germs is most surely effected by the use of "SOLUTION of Ozone" if it's "the coupon kind." It means the liquefied oxygen is in the most concentrated form and that in addition is given free with either the 50 cent size, or the one dollar size of the Solution a coupon good for a twenty-five cent package of Colery King's. This splendid tonic laxative is needed to obtain the best results in the use of the stringent "Ozone" without lessening its curative properties. The Public Drug Co., Bridgeport, Ont., control exclusively the manufacture of both "SOLUTION of Ozone" and "Colery King."

LOCAL NEWS.

The str. Elaine will have an orchestra on board on her regular trip on Saturday afternoon.

The trustees for the extension of the Shore Line from Carleton to St. John via the cantilever bridge will shortly be begun, and it is hoped that work may be completed by the end of the year. The transfer to the C. P. R. of the control of the railway bridge will not in any way interfere with the use of the bridge by the Shore Line. The sleepers for the road are now being delivered in large quantities by the Ingwood Co., and the new steel bridges have also arrived, so that the officials of the road are kept busy with regular work.

Harding Humphrey, the man who came so near losing his life in the falls Tuesday evening, is slowly improving. Yesterday he attempted to dress himself for the first time, but fell over on the floor in a dead faint. He speaks with difficulty and his lungs are still sore from the terrible ordeal through which he passed.

Col. McLean was yesterday notified that the Canadian Street Railway Association will meet in St. John on Aug. 30th and 31st. There will be between twenty-five and thirty visitors at the meeting, among them being some of the most prominent street railway men in Canada. No programme has as yet been arranged, but several meetings will be held in power equipment, the best style of cars, advantages of developing parks and other pleasure resorts, etc. It is likely, too, that a banquet will be held at the Union Club. The St. John Railway Co. will arrange for the entertainment of the visitors.

A meeting of the I. C. R. employees of St. John was held on Wednesday evening for the purpose of making arrangements for the annual picnic. Little definite progress was made, and the meeting was adjourned until next week. The picnic will probably be held in September. Sussex will be the scene of the outing.

At Welchpool, Campbell, on Monday, the best style of cars, advantages of developing parks and other pleasure resorts, etc. It is likely, too, that a banquet will be held at the Union Club. The St. John Railway Co. will arrange for the entertainment of the visitors.

At a large gathering of the members of the St. John Council Knights of Columbus last evening, the second degree was conferred upon four candidates. A visitor was E. P. McLaughlin, of Melrose, Mass., a knight of some ten years standing, who was given a hearty welcome to the council chamber and delivered a brief but interesting address. Mr. McLaughlin is a native of Rochester and has been visiting his uncle, John McLaughlin, at that place for some days. He will return to Melrose tomorrow. At the thirty-fifth annual maritime convention of the Y. M. C. A. in Charlottetown, Sept. 14 to 17, among the prominent speakers will be C. T. Williams, president of the Montreal association; Rev. Dr. Warner, chairman of the international committee; F. L. Willis, secretary of the Worcester, Mass. association; and R. C. Morse, general secretary of the international committee, New York. The store of Fox & Allen, general merchants, at Hawkeshaw, above Fredericton, was destroyed by fire Wednesday night. It is said the building and a large amount of stock were burned. At a meeting of the sub-committee yesterday afternoon the plans for the new wharf on the west side were further considered. It was decided to refer the whole matter to the general committee of the council which will meet after the session of the water and sewerage board today.

Red Rose Tea Uniformity

A TEA that is good to-day and poor to-morrow is unreliable. Have you ever noticed variations in the quality of the tea you use? One package good, the next bitter, herby, perhaps weak and insipid. A lack of expert knowledge by the tasters and blenders of that tea produced that result. There was a failure at a vital point, an ignorance of combining qualities in teas, poor judgment in the blending of that maker's teas, a weakness which invariably gives just such results as your poor tea. Every chest of Red Rose Tea is tested at the gardens, again by the Eastern Red Rose shippers, then at the Red Rose warehouse upon its arrival before blending; after that an experimental blend is tested, and the final or actual blend is also tested before being packed. Nothing is left to chance. That is why that "rich fruity flavor" is always present in Red Rose Tea. Why Red Rose Tea is always uniform, why

JAPAN'S TERMS OF PEACE ANNOUNCED.

PORTSMOUTH, N. H., Aug. 10.—Reimbursement for the expenses sustained in the prosecution of the war and the cessation of the Island of Sakhalin constitute the main features of the peace conditions handed by Baron Komura to M. It is hoped that a reply will be received from the emperor tomorrow, in which case M. Witte expects to have the Russian response ready by Saturday, but it is not unlikely that Saturday being the first anniversary of the birth of the Tsarevitch, the presentation of the reply will be deferred until Monday.

PYTHIAN VISITORS WARMLY WELCOMED.

With flags unfurled and to the music of their own band, the Massachusetts 2nd Regiment V. R. K. P. last evening marched through the streets and stacked their arms at the Park Hotel.

As quickly as possible the companies of the 2nd Regiment formed up, under the command of Col. Sawyer, and headed by the Cambridge band, the march began.

The Cambridge City Band is one of the hub's leading musical organizations, and deserves many good words for its excellent playing. The band is composed of twenty-four pieces, well balanced and under an excellent conductor.

The route lay along Prince William and King streets. The greater part of the company are staying at the Park, but a few are registered at the Clifton.

The evening was spent by many of the visiting Knights in an inspection of the city, while at the Park the band played a select programme, and the time was spent in an enjoyable social way.

To-day's programme consists of a ball on the May Queen leaving at 2 p. m., and in the evening a reception at Castle Hall.

The City Cornet band will hold their usual Saturday excursion tomorrow. MCDERMOTT'S PROVOCATION.

His Lawyer Said It Was the Greatest a Man Could Have—Witnesses Describe Assault on Hamilton.

The hearing of the charge of aggravated assault against James McDermott, preferred by Charles Hamilton, was begun in the police court this morning.

D. M. Mullin, K. C., appeared for McDermott, and J. King Kelly for Hamilton, who was in court, his head being enveloped in bandages, his eyes were badly discolored.

Arthur Logan of Pokok Road said he knew both parties. Last Wednesday night he was at home, when he heard shouts of "Murder" and "help!" He ran to his woodshed at the rear of the house and saw Hamilton on the ground. He didn't recognize him as his face was covered with blood. Witness pulled McDermott away, and Officer Perry then came and arrested Hamilton.

To Mr. Mullin: Defendant lived in same house as witness. He was employed by Stetson & Cutler. He never saw him in any row before. The time of the assault was about ten o'clock at night. McDermott has a wood-house but it was in witness's where the affray took place. He didn't notice Mrs. McDermott there at the time but saw her in the yard about half an hour later. McDermott appeared very excited.

To Mr. Kelly: He had heard that McDermott and a man named Nelson Nicholas had been in a row some time ago. Also a police officer had been called in to quell a disturbance between the women living in the house. McDermott was sober on the night in question.

Officer Elias Perry said on the Wednesday night morning he was on duty near Mr. Logan's house, when he heard cries of "Murder! help!" He went in and heard a voice say "God— if you will break up my home will you" and "Hold on don't make a fool of yourself, that's enough." In the woodshed he found Mr. Logan holding Hamilton up. The latter's face was all covered with blood. Some time ago he was called in to quell a disturbance between McDermott and his wife. Officer Merrick and himself arrested McDermott. As far as he could tell the latter was sober but greatly excited.

Mr. Kelly: That makes it worse for him. There might have been some little excuse had he been drunk. Mr. Mullin: He has a far better excuse than drunkenness. He committed the assault under the greatest provocation a man can have.

The case was further adjourned until Wednesday morning next.

POLICE COURT.

Mr. and Mrs. Joseph H. Redman Complain That Harry L. Crump Called Them the Homeliest Couple in St. John.

Two drunks were arrested last evening, one leaving a deposit of \$8 which was forfeited this morning in lieu of his appearance, the other being fined \$4 or ten days in jail.

Mr. and Mrs. Joseph H. Redman of 35 St. Patrick street made a complaint to Magistrate Ritchie as to the conduct of Henry L. Crump of the same address. This morning Mrs. Redman informed the court that there has been a certain amount of bad feeling between the two families for some little time, which culminated in Mr. Crump last night making a complaint to her and calling her a "dirty thing," following it up by saying that "Mr. and Mrs. Redman were the homeliest pair in St. John." Not satisfied with this he went a little further, and said the lady's sister was of questionable character.

Henry then appealed to his honor to be allowed to make a statement, saying it wouldn't take him more than three or four minutes to do so. He added that it was so seldom he came into court, he craved his honor's pardon for any little non-observance of the rules governing it. His honor thought that in Henry's condition it was as well that he should not be sworn. The witness then delivered an oration, lasting about the time specified by himself, and set down at the close, his voice trembling with emotion.

The gist of it was that the broken glass bottles in the back yard. He denied the language attributed to him, and concluded his address in salutation of his wife, by saying "There is no whiter woman in St. John than Mrs. Harry Crump."

His honor put the case back for the attendance of Mrs. Crump, and officer Sullivan, who according to Mr. Crump, could tell his honor all about this couple.

STREET RLY. EXTENSION CONSIDERED.

A meeting of the directors of the street railway company will be held on Monday next, when the matter of the extension of the line to Mulgraveville as asked for by the R. K. Y. C. and Neptune, will probably be considered.

Mr. Earle said this morning that so far no arrangements for the new route have been made. Speaking about the present Paradise Row service, Mr. Earle said that the present arrangement had been undertaken as an experiment, and as yet it had not been given a fair trial. Under present conditions there is now a five minute instead of a ten minute service on the branch line. Mr. Earle said the present arrangement added greatly in handling the rushes at the depot on the arrival of the through trains.

TIP O'NEILL'S ACCIDENT.

The Milwaukee Journal of August 3 publishes an excellent picture of John O'Neill in connection with the report of the game in which "Tip" broke his leg. The Journal says: "Tip" O'Neill made any such a remark before yesterday's game he made good on it.

"Tip" made the first run, and it was by one run that the Brewers won from the Colonels. Tip also broke a leg. And it wasn't any joke, either. Neither to Tip nor to his team. Tip will be out of it for some time. Thereby the Brewers lose one of their most valuable run-getters, for Tip was the fastest man on bases as well as one of the heaviest hitters.
