COAL STRIKE

Will Only End When the Men Give In.

Leading Mine Owners Say This Has Been Their Position From the Start.

NEW YORK, Sept. 10.—John Markie, head of the firm of G. B. Markie & Co., the largest of the individual coal operators in the anthracite field, today made a statement respecting the proposed arbitration between the employers and employees.

"There will be no arbitration," said he. "And no settlement of the coal strike in any way. We have not forgotten our experience on a former occasion. There had been an existence from 1888 an agreement with the men in our employ providing for the settlement in an amicable manner of all differences that arose by arbitration. This was the result of a local strike lasting three months in 1887. In 1887 notwithstanding the existence of this contract for arbitration, the men deliberately broke their agreement and went on strike, which lasted six months. Let us re-establish the arbitration agreement after it was over and went on. In 1897 there was a widespread strike in the Lehigh region, but our men stood by their agreement and never lost a day's work. In 1900, John Mitchell appeared and began a campaign on our property. Our employees presented a list of grievances and I replied and suggested that if our answers were not satisfactory they could demand arbitration under the existing agreement. Mr. Mitchell distinctly opposed any arbitration, asserting that we were dishonest. Father Phillips a well known priest of Hazleton, of his own volition, urged the men to abide by their compact and suggested Archbishop Ryan of Philadelphia as the third arbitrator. Mr. Mitchell opposed all of this, claiming that it was a bluff. A meeting of our employees was held, to which Mitchell came uninvited and made a speech. He asked me publicly if I would abide by the arbitrators' verdict, and when I said we would, he turned to the audience and pleaded with them, urging them to go on strike. Father Phillips and I followed him, urging the men to stand by their agreement for arbitration, and the men refused to follow Mitchell's lead. They came a round of threats, intimidation and violence. Almost daily rioting parties of several hundred men appeared on our property, led by Mitchell's tenants, in the vain effort to compel our men to break their agreement. They inaugurated a reign of terror, which finally resulted in the employees breaking their compact and throwing the projected arbitration to the winds.

"The Hon. M. A. Hanna came into the dispute and secured some concessions. The strike ended and it was heralded as a triumph for Mitchell. Work was resumed under these conditions on Oct. 29, 1900. The result has been the establishment of every kind of trades union in the coal district. From that time on there have been innumerable strikes. Mitchell has become a demi-god and alone is obeyed, so that all ordinary and usual means of discipline are practically disregarded.

"With this history before us I am sure no reasonable man will ask us to engage in any arbitration with Mr. Mitchell or his immediate followers."

NEW YORK, Sept. 10.—President Fowler of the N. Y. Ontario & Western R. R. said this afternoon:

"The strike ended and it was heralded as a triumph for Mitchell. Work was resumed under these conditions on Oct. 29, 1900. BOER DEMANDS.

The Claims Put Forward By the Generals.

Want a Great Deal More Than They Will Ever Get.

LONDON, Sept. 10.—A parliamentary paper issued this morning gives a full account of the recent conference between Colonial Secretary Chamberlain and the Boer generals, Botha, De Wet and De La Rey. Prior to agreeing to the interview which the Boers asked for August 10, the colonial secretary requested a list of the subjects, which it was desired to discuss and the generals forwarded a list of subjects, including the following:

Complete amnesty to the rebels; A yearly grant to all Boer widows and orphans and maimed burghers; Better rights for the English and Dutch languages in the schools and courts.

That equal rights with the British be conceded to burghers complying with the terms of surrender, including the right to return to South Africa.

The immediate release of all prisoners of war.

The reinstatement of the officials of the late South African Republic, or compensation for their loss of office.

Compensation for all loss occasioned by the British troops by the use, removal, burning, or destruction by other means of all private property.

The reinstatement of the burghers in the ownership of their farms confiscated or sold in violation of the proclamation of August 7, 1901.

Compensation for loss of the properties of burghers taken by the British authorities.

Payment of the lawful obligations of the late South African Republic, including those incurred during the war.

The revision of the decision to add a portion of the Transvaal to Natal.

Granting an extension of time for the payment of all debts due by the burghers of the late governments of the South African Republic.

Mr. Chamberlain in reply, expressed great surprise at the number and character of the proposals, pointing out that the conditions agreed on at the time of the agreement were not to be altered.

He said that the proposals were not to be considered, and that they could not be reopened.

A GOVERNMENT BRIDGE

Went Down Yesterday With a Loaded Team.

For Two Years Its Decaying and Unsafe Condition Has Been Pointed Out By Sunbury's Members.

FREDERICTON, Sept. 11.—A loaded team with its driver fell through the draw span of the highway bridge at the mouth of the Oromocto today. The driver, named Batey, was slightly injured, but one of the horses fell on a scow and was killed.

The bridge has long been in a decaying and unsafe condition.

For the past two sessions of the legislature Messrs. Hazen and Gaudet, the members for Sunbury, have persistently called the attention of the board of works to the dangerous state of this bridge, which is on the highway between York, Sunbury and Queens counties. Their efforts have been backed up by government supporters in Oromocto, but all the department would do was to promise an investigation of the condition of the bridge. Since the house rose Mr. Hazen has persistently pressed the matter on the attention of Hon. Mr. Labllois, and only a few days ago urged the following answer to his urgent personal appeal to the department:

"The bridge is in a state of decay and is unsafe for traffic. It is necessary to take steps to make the structure perfectly safe, and also to take measures for the erection of a permanent bridge in the near future."

Mr. Chamberlain concluded with saying that the government would be glad to see the bridge repaired, and that he would have had it repaired as soon as possible.

Ottawa extended a very cordial welcome to Premier Barton and party. The distinguished visitors were conducted to city hall, where a large audience gathered to welcome them.

Mayor Cook presided, having Messrs. Barton and Scott on his right and Forrest and Mulock on his left. The civic address, couched in most friendly terms, drew from Mr. Barton a speech in which he alluded to the struggle for Australian federation. He announced that he would be in Ottawa on his way to Canada to the heart of the Empire—London. Mr. Forrest alluded to the South African war, and eulogized the C. F. R. The party leaves for the coast on Friday.

The militia department is constantly receiving letters from relatives of Canadian members of the South African constabulary, inquiring for allotments of pay which should have reached them according to arrangements made by members of the constabulary, upon leaving for Cape Town. As the force is neither Canadian nor imperial, the department has nothing to do with transmitting such allotments. The constabulary is a South African colonial force, and anxious enquirers are so informed in every case by the departmental letter. In one instance, however, an enquiry made of the military department had a practical result. A lady in Western Ontario writes for the allotment which her son had made to her out of his pay. The department wrote to the South African authorities about it and yesterday a reply came from Lord Milner, high commissioner, stating that the constabulary had been located and communicated with and had promised henceforth to allow his mother 12 per month. He had evidently neglected to keep his promise. Allotments are paid to Canadian beneficiaries direct by the South African administration.

ST. JOHN, N. B., SEPT. 13, 1902.

CABINET CONTROVERSY CONTINUED.

Mr. Tarte's protectionist speeches follow hard upon each other. He closed last week with a high tariff address at Toronto. He opened this week with an impetuous protectionist speech on Monday evening at Montreal.

The minister of agriculture was at the same banquet and made a speech after Mr. Tarte. Mr. Fisher expressed the opinion that the tariff should not be changed in the direction advocated by Mr. Tarte.

A SUSSEX MAN.

Who With His Brothers, Engaged in Lumbering in the West. J. D. O'Connell, of Sussex, who passed through St. John yesterday on his way to Boston and New York, is one of four brothers who have been for some years carrying on extensive lumber operations in the west.

The company operates three large mills, of which one is near Eugene, Ore., and one in Idaho, in the Puget Sound mill. Mr. O'Connell has the big redwood tree in California, which has been largely used. Both grow to an immense size west of the Cascade mountains.

A GERM WORTH CATCHING.

When Mr. John D. Rockefeller's two year old grandchild died in 1900 the oil magnate asked the doctors the nature and cause of the disease. He was informed that the malady was probably caused by a germ, but that the specialists had not been able to discover the character of the microbe.

WHY NOT HERE?

Word has got about that the owners of an industry situated in St. John think of establishing a sawmill here. Several towns have therefore made application for the works and offered them the hospitality of their neighbors.

ECZEMA TORTURE

Would Scratch Till the Blood Would Flow and Suffer Terribly—A Permanent Cure Brought About by Dr. Chase's Ointment

Few people that have not had eczema can imagine the suffering which this terrible skin disease entails. It is most frequently likened to a fire burning into the skin, so keen is the burning and the stinging, itching sensation. If neglected eczema is likely to become chronic, and is very hard to cure. It is not one blacksmith who reacts, that will not yield to Dr. Chase's Ointment, so powerful is the soothing, healing influence of this famous preparation.

NEUROUS PROSTRATION

CURED BY PE-RU-NA

I have found Peruna an ideal tonic. Some months ago I suffered with neurasthenia (systemic catarrh), caused by too close application to office work. My system seemed worn out and I felt far from well. I found Peruna benefited me very much. It built up the entire system and made me feel like a new man. I believe it is well worthy the high praise bestowed upon it.

DETECTIVE RING.

Died at Moncton Wednesday. Was an Active Man on St. John's Police Force.

Detective John Ring died at Moncton Wednesday morning at his home on Steadman street, after a painful illness of some nine weeks. Dropsy was the direct cause of death, but a complication of ailments set in towards the last.

John Ring was a St. John boy from infant infancy, although he was born in New York, and grew up with a generation that has now pretty much passed away. He was a shoemaker by trade and worked in several St. John factories before he joined the police force in 1875.

In 1882, under the late John R. Marshall, he was appointed detective, a post that he filled with terror to evil doers for a long period. He was a detective of every snook and thief and receiver of stolen goods, and was thus able to put the machinery of the law into instant operation whenever a complaint was put in his hands.

THE AGE OF BRAIN WORK.

In these days, half our diseases come from the neglect of the body in the overwork of the present day. The railway age, the age of the motor car, and the age of the typewriter, have all done their part to exhaust the brain and weaken the body.

It is not only the brain that is overworked, but the body as well. The result is a general debility, which is the cause of many of our most common ailments.

ST. JOHN MAN ROBBED.

Napoleon Leroux was arrested in Montreal on Friday on the charge of stealing a gold watch from a St. John N. B., commercial traveller, and having pawned the same. The prisoner, who is an old man, denied ever having seen the watch before and the traveller would not swear to the identity of the prisoner. The case was laid over.

KINGS CIRCUIT COURT. Grand Jury Found "No Bill" Against Taylor. A Civil Case That Attracts Much Attention - Judge Hanington's Charge - Adjournment Until Next Tuesday.

HAMPTON, Kings Co., Sept. 8.—The circuit court fall term opened at the Court House here this morning at 11 o'clock. His Honor Judge Hanington presiding. The grand jurors were James Lamb, Herbert Wannamaker, John E. McAuley, Hiram W. Folkins, Willard Erb, James E. Hickson, Herbert S. Jones, Daniel McGinnis, George E. Stratton, George M. Wilson, Alexander Campbell, George E. Hendricks, John Whalen, Irvine E. Murray, George H. Barnes, Robert H. Smith, Dennis McDade, Adam Marchbank, H. F. Pickle, P. W. Titus, E. A. Flewelling, E. P. Fullerton, Anthony Dobbin and Isaac Campbell.

In his charge his honor expressed the pleasure he felt in again meeting the grand jurors of this county, and the administration of justice in this community. The attendance of the full panel showed the interest they had in public affairs, and the more that their presence was based on honor and a sense of public duty. The only criminal case he had to submit to them was that of Samuel H. Taylor, charged with larceny of a railway baggage check at Apohaquet, from the evidence presented in preliminary trial, which he had carefully gone over, it appeared that the defendant produced a duplicate check for a trunk which had come by rail from St. John or some place west, but it could not be found. After several visits the original check was found on the counter or desk at the station, and the judge said to that in question, impossible of proof, was found on the defendant's premises, while maintaining order and public quiet against the railway for the recovery of his property. The evidence was very slim, and he, the judge, could not see why the man was indicted. If there was any ground for a claim the matter could have been fought out by a civil suit, but how that could be strengthened or weakened by the defendant having the original check in his possession he could not see. It really looked as though the man had really looked out for himself, and he would not be surprised to find that the man's claim by the railway was not to be found. TRURO, N. S., Sept. 9.—The Grand Lodge Knights of Pythias of the maritime provinces met in annual session here today. J. C. Henry, grand keeper of records and seals, presented his thirteenth annual report. In opening, he suggested that the grand lodge should exact more law prescribing a penalty for failure to have semi-annual reports in the hands of the grand keeper of records and seals by February 1st and August 1st in each year. As to the growth of the order he said: "Our gain has not been as large as last year, but as in other years, after a prosperous term, we have only started to take a fresh start. We have added no new lodges to our roster, but nearly every lodge shows gains in membership and finances. For an exact statement of our growth the following statistics are given, which will, doubtless, be found interesting: Membership June 30, 1901, 1,894. Initiated during the year, 184. Admitted by card, 10. Reinstated, 10. Total additions, 194. Total deductions, 188. Number of members suspended, 48. Number of members withdrawn, 11. Number of members deceased, 11. Total deductions, 70. Membership June 30, 1902, 1,810. Past Grand Chancellors, 22. Knights, 1,327. Squires, 18. Pages, 14. The above shows an increase of one hundred and twenty-two, divided among twenty-five lodges. The ten lodges in New Brunswick show a total of nine hundred and seventy, being an increase for the year of twenty. The thirteen Nova Scotia lodges have a membership of seven hundred and seventy-two, an increase of ninety-nine for the year; and the two Prince Edward Island lodges, with seventy-four members, have made a gain for the year of three.
