

gins' story had been told, then both boys would have been together in the dock.

Goodspeed's Position.
Goodspeed was not upon trial now, but if the jury found him equally guilty with Higgins it was their duty to say so and he would then be placed on trial for murder as well as Higgins.

Mr. Mullin objected that Mr. McKewon had no right to tell the jury what the crown intended with Goodspeed.

Mr. McKewon—"We are here to ferret out this crime, covering none, sparing none."

Mr. McKewon then pointed out the difference between an accomplice and an accessory. There were very strict rules of evidence in reference to an accomplice. Goodspeed now stood as an accessory after the fact, and may be an accomplice. It was only in Higgins' guilt that Goodspeed was a witness.

Mr. McKewon here diverged from the main matter of the case to pass upon certain strictures which Mr. Mullin had made upon the police force. He (McKewon) commended the work of the force and held out that in regard to the commission of the crime the boys were in custody. It had been said that the police had heard Goodspeed's story and had asked nothing of Higgins. That was incorrect. Higgins' counsel had been asked by the attorney-general if he desired his client to make a statement, and yet no statement was made.

Mr. Mullin—"The responsibility for that was mine."

Higgins' Opportunity to Speak.
Mr. McKewon, continuing, said that at the preliminary examination the same opportunity had been given, but there was no acceptance. The grand jury took the case and his learned friend arose and asked for expert evidence. Not a murmur of Goodspeed's guilt there. He came to the statement from Higgins, a statement which an innocent boy would have broadcasted if he had known the truth. He had no opportunity to speak.

was not to hunt up a victim but to clear the matter up; to give the community to understand that these crimes could not go unpunished.

"What would the effect be if these boys should go out into the community unpunished for their crime? Higgins' guilt was shown by his anxiety about his revolver, by his declaration that he would go away."

That "Sing-song" Story.
He referred to the noticeable difference in the manner in which Higgins and Goodspeed told their stories. Goodspeed's was not told in the sing-song style which characterized Higgins'.

Goodspeed's story was told in a conversational style, while everyone noticed the method employed by Higgins. His story was like a recitation, with the familiarity which could only be acquired by learning a story that had been written out.

On Monday a paper had been taken from Higgins by Mr. McKewon and passed to Mr. Mullin.

The Prisoner Speaks.
Mr. Mullin—"Why didn't you read it?" Before Mr. McKewon could reply, Higgins pulled a crumpled ball of paper from his pocket, held it aloft and said without a tremor:

"Here's the paper, Mr. Mullin." Mr. Mullin advanced, took the paper from the prisoner and handed it to Mr. McKewon, who put it on the table in front of him without unfolding it.

Continuing, Mr. McKewon said: "The prisoner was furnished in his cell with a copy of The Daily Telegraph containing the depositions."

Mr. Mullin interrupted by addressing the court and said: "I gave him a copy of The Telegraph containing the depositions because The Telegraph had the best account of the depositions, an absolutely correct account. Higgins' family are poor people and I content I was acting within my rights in giving my client the paper. I protest against my learned friend's argument on this line."

Judge Landry replied that he would not interfere with Mr. McKewon's argument.

Mr. McKewon, turning to Mr. Mullin, said: "If he had The Telegraph containing the depositions what necessity was there to give him a written copy of them?"

Mr. Mullin replied, "When I gave Higgins the written statement I forgot I had given him The Telegraph. Do you believe me now or do you want to dwell further upon this?"

Mr. McKewon replied to the effect that he had every confidence in Mr. Mullin's veracity.

Not the Tanyard Language.
Continuing, Mr. McKewon pointed out that it was incredible that an innocent boy should write such a story out, as Higgins admitted he had done, instead of testifying to his memory for it. He called attention to the phraseology of Higgins' statement which was not the language of the tanyard. All the circumstances pointed to the one conclusion. The jury should consider the method in which Higgins told his story as if it had been carefully studied.

Passing on to the occurrence at the park, Mr. McKewon quoted Higgins' story to the effect that he had gone into the bushes and while in there a quarrel had arisen between Goodspeed and Doherty. It was an unlikely story but as far as a motive was concerned it could not be faulted. Higgins' statement was that Doherty and Goodspeed quarreled over the possession of the revolver. Doherty ran to get a stone and Goodspeed fired three shots into him, but it did not seem as if Goodspeed would shoot him then. It would have been time enough when Doherty had faced him with the stone.

It was a practically motiveless murder, but the rules of motive could not be applied to these boys as to men. Whether it would be reasonable that Goodspeed should shoot Doherty for no motive was a matter for the jury. He expressed doubt as to whether all the facts of the tragedy had been brought out.

Goodspeed's admissions on the stand were bad enough to shock all who heard them. He told one thing beyond question, and that was that if he had gone on the stand and denied them, Mr. Mullin had held up Higgins as a boy of stainless character, but Mr. McKewon would have the crown had all the truth in connection with the Brownville matter. "Would two boys," he queried, "take a third story with them to Brownville and give him no intimation as to what they intended to do? Would they leave him in a car while they go away and commit a murder and then come back and give him part of the booty?"

About That Money.
Then there was the matter of the \$250 gold piece which Higgins at first said he earned on his return from Brownville by choring around and with which he bought the revolver. When he found he could not let himself enough time between his return from Brownville and the date of his buying the revolver to earn the money he changed his base and said he had earned part of it before going away and left it here. At another stage he said he had taken all his money to Brownville with him and here the witness had contradicted himself.

As to the time of the return of the boys from the park Goodspeed and Higgins told different stories. In his story Goodspeed was corroborated by Mr. McGinley and although Mr. Mullin argued with vehemence and much clamor in his effort to discredit this evidence it did not follow that it was untrue. He thought the jury were much impressed by the straightforward and truthful story told by Mr. McGinley. Then there was the evidence of Mrs. Goodspeed and Mrs. Marshall, both of whom told straightforward stories.

He Reproves Mr. Mullin.
He did not approve of Mr. Mullin's treatment of witnesses. It was hardly right that every one who differed from the opinion of the lawyer should be denounced as a liar or perjurer. Witnesses were sworn to tell the truth while the counsel were only restrained in their remarks by their ideas of propriety. The evidence of Leslie Singer was also important and bore every appearance of truth. It fitted in well with the story told by Goodspeed.

Mr. Mullin had gone out of his way a great many times to say the case would have been conducted differently if the attorney-general had represented the crown. He was prepared to admit his own limitations and incompetency as hinted by Mr. Mullin.

Mr. Mullin here announced that he had not intended to charge Mr. McKewon

with incompetency and if he had done so he would apologize.

In reference to the exclusion of Mr. Barry in his whole conduct of the case Mr. McKewon said he had not attempted to lead the witness. As to the disposal of the revolver Mr. Mullin had raised the point that it could have been thrown into the artificial pond in the park. Mr. McKewon contended that this pond had been known to run dry and itself was sufficient reason for Higgins' having thrown the weapon into the Marsh creek. In reference to the medical testimony Mr. McKewon said that in all testimony of this kind there is the widest latitude for opinion. Doctor White himself had said upon the stand that he couldn't really tell within a minute how long Doherty might live after such wounds were inflicted.

In conclusion, Mr. McKewon said: "The stories the two boys tell reveal a condition of affairs which must be brought to a halt. The prosecution of this young man is the most important duty I ever had in criminal law. If my own feelings had been allowed to have mastery I would have permitted these boys to escape into the United States, but here they are. We are obliged to do our duty. There is a duty resting upon the crown in this case to see it to an end and it shall be done."

Mr. McKewon's Last Word.
"No one here has stronger feelings of sympathy for the unfortunate boys than I have. I do not know how easy it is to go astray and that transgression and penalty go hand in hand. If the jurymen take their sense of justice with them to the jury room the path of duty will be the path of safety."

"Your verdict is the judgment of your consciences. Take all the facts in favor of the prisoner, but follow the line of your convictions no matter what they may be."

"While the circumstances of the murder are such as to shock us they should not influence us in our work. There is one thing which can never get away from us and that is a sense of duty solemnly laid upon us by the law. We will be confronted by our sense of duty to pain us where we are unprepared and to aid us where it has been done."

Mr. McKewon then sat down and Mr. Justice Landry announced that he would let the jury to the jury whether he would deliver his charge now or adjourn the court until the morning.

The jury decided in favor of an adjournment and court was adjourned until this morning at 10 o'clock.

The Juror's Charge.
Mr. Justice Landry commenced his charge to the jury at 10:15 Wednesday morning and spoke of the fact that he had repeatedly told that their duty was to take the law from the judge and judge of the facts from the evidence which was presented to them in that position in the present case. There was not much law to be considered in this case. The jury know what the law is and what their duty is as well as he could. He read the definition of murder as set forth by the Criminal Code and showed that murder is the unlawful killing of a human being with malice aforethought. It meant to cause death or to be reckless whether or not death ensued as a result. It was for the jury to decide whether or not the defendant was guilty of murder. He then read the definition of manslaughter and said that manslaughter was the killing of a human being without malice aforethought. It was for the jury to decide whether or not the defendant was guilty of manslaughter.

Goodspeed.
The next question of law dealt with the crime of an accomplice. In law, each evidence was admitted and need not be corroborated. If the evidence in itself was sufficient to convict a witness should be called to the stand. In the examination of the evidence of an accomplice the jury should scrutinize it with more care than the evidence of other witnesses, because an accomplice to such a crime might not think that perjury would add much to the grave crime. He might not allow scruples of conscience to be a bar to his testimony. The jury should be careful. Yet if there was sufficient surrounding the testimony of an accomplice, in the way of other evidence, the jury should believe that he told the truth. In that way the evidence of an accomplice would be a link in the chain of evidence. In the present case his honor thought that it was not necessary for the jury to decide as to whether the evidence of an accomplice was admissible. There was an abundance of other testimony for the jury to consider whether it corroborated Goodspeed's evidence. The jury should take into consideration all the elements he left to the jury and whether the expressions he used conveyed to the jury any impression it was not his duty to influence them.

In reference to the value of Goodspeed's testimony, his honor pointed out that the evidence of persons charged with crime was not entitled to the same credence as the testimony of respectable citizens. But the most hard-hearted juror would not be able to speak the truth. If the jury should believe they did speak the truth, then their evidence would be strong.

The duty of the jury, as admirably pointed out by the counsel for the crown, was to search out the truth irrespective of consequences.

Jurors should not consider whether laws were just or not and they would not be worthy citizens of any country, if because they should think the laws were unjust they would not perform their duty. Having taken the oath to discover the truth they had nothing to do with the punishment of any offender, because their duty was simply to uphold the law. If it suited his purpose, and there was no reason why he should not tell it.

Both in the Same Position.
This applied to Higgins and Goodspeed, who were both practically in the same position. Higgins had the stronger accusation against him, and both were willing to be, but yet were unable to speak the truth. If the jury should believe they did speak the truth, then their evidence would be strong.

tion he held and his course would be to resign from the bench.

Justice.
The jury had nothing to do with the result of their verdict and they should not be guided by sympathy. What they were sworn to arrive at was justice, not mercy. The time for mercy was after an admission of guilt and repentance. They were to give justice between themselves and the prisoner, the justice that would not allow an innocent person to go to the gallows or a guilty one to escape punishment.

Reviewing the testimony, his honor thought there was an abundance of corroborative evidence, but he would submit to the jury whether without the evidence of Goodspeed or Higgins there was not enough testimony to find that the party charged was guilty.

Then they were reminded that the prisoner was a man of Doherty. For some time they had been going together and the jury could conclude what each individual had done. The two people, what should two young men without any visible means of support be doing for? If they were doing for the perpetration of a crime they would add to the evidence.

The Threat.
He directed the jury's attention to statements made by Higgins while the prisoner and Doherty were in the park. What did the prisoner say of the murdered boy? On one occasion he said he would square with him. That was another step in the unravelling of the mystery. Again, he said he didn't like to have Doherty around as when he was around the police were on his track. He asked the jury to consider why it was that Higgins did not want Doherty around, and that would naturally do to get rid of him.

Then they were reminded that the purchase of a revolver by the prisoner. That seemed to be proven beyond peradventure. What was his liver? What did he want it for? How long did he have it? Afterwards he purchased cartridges. The purchase of the revolver was under peculiar circumstances. It had been purchased by another person for the prisoner. Higgins gave as a reason for this that he was too small to sell it to him. He was not too small to use it. After the purchase of the revolver and cartridges there was the proof of the prisoner's carrying it. He had it in the park on August 1, and there, according to the statement of King, he was anxious to conceal it. When King asked what he had there, Higgins replied that it was none of his business.

Cautious.
His honor here diverged to caution the jury against the evidence of many of these boys on the stand. They were chums of Higgins, and he asked the jury to consider all these boys did not talk of this time. Is it possible that they were not proud of it? It would be remembered that King (the boy who shot Higgins) testified that he had seen Higgins and get him to deny that he had told a reporter he had seen the prisoner with a revolver.

Showed the Strain.
While his honor was thus clearly drawing the attention of the jury to points given by the witness, Higgins said, "I was in the park on August 1, and there, according to the statement of King, he was anxious to conceal it. When King asked what he had there, Higgins replied that it was none of his business."

His honor then exhorted the jury to give the prisoner the benefit of the doubt. If Higgins committed the crime in the manner claimed by Goodspeed, there must have been a motive for it. Goodspeed led the jury to believe that he had seen the hill, where the murder was committed. Just at that time Doherty overtook him and the shots were fired. If there was an organized gang of boys and it became necessary to put one of them out of the way, and if Higgins and Goodspeed were selected to do the killing, a motive might be found.

He referred to the moral condition of the boys and hinted that their morals had been perverted by the literature they read. The jury should carefully consider the stories of both boys and see which one was most nearly corroborated. Higgins had the advantage of knowing what top speed had said, and if guilty he could improve upon the weak points in Goodspeed's story.

A Telling Point.
The position of the body when found corroborated Goodspeed's version of the shooting. On the other hand, Higgins' statement was somewhat strengthened by the medical testimony.

He then pointed out that both boys were guilty of murder, then the prisoner could not escape.

If Goodspeed were found guilty, then Higgins would be found guilty, but there was no evidence on which he could be charged with this crime.

If Goodspeed committed the murder as he claimed, he would be found guilty. It was natural to find Higgins helping him to conceal the body.

Some attention was paid to the way the body was found. It was found in the park, and it was found in the same position as it was found in the park. It was found in the same position as it was found in the park.

"Was Higgins afraid of Goodspeed, a much smaller lad?" asked his honor, "that he submitted to his alleged threats, or were both of them equally guilty?"

"When they went back Monday morning was it to look at the body or for the purpose of burning it? Each boy says he was too fainthearted to go near the body, and each claims to have waited in the lane while the other went to the body. Why did one of them remain in the lane while the other was passing through it? We may be seen, one of us had better remain here and watch—that is the natural conclusion."

"Gentlemen," said his honor in closing a wonderful array of nearly two hours' duration, "the law is not for the punishment of criminals, but for the protection of society. Imprisonment is not for the punishment of one person, but for the protection of society. Do not consider the fact of the more prominent of the case, and give your verdict on the truth. If any reasonable doubt arises from the evidence give the prisoner the benefit of that doubt. If you feel that he is guilty you are bound to find him guilty, irrespective of consequences."

The jury retired at 12:10 and Judge Landry adjourned court until 2:30.

It was thought the trial of Fred Goodspeed, indicted as an accessory after the fact, would commence Thursday morning, but after the formal court opening, Goodspeed's counsel, Scott E. Morrell, applied to have the case postponed.

"This was because that as in the case of Higgins, the court may reserve a case, and further that as matters were not in issue in readiness to proceed, he was desirous that the trial stand over until the next Circuit Court."

In case of an appeal being sustained and through the fact of Goodspeed being

disappointed yet brilliant arranging of circumstances and facts which helped in one part the scales of justice to weigh against his life or liberty in the other.

Quickly, almost spontaneously, his honor placed in proper perspective the facts. "What was his statement to Alexander?" he asked. "Unless you deny it I'll fix you, too." What does that mean? Then his remark on the way to the coroner's office, "I'll get you in the office tonight, I'll skip." What caused him to go away? Why did he leave when Goodspeed's story had not yet been told? Then his subterfuge at McAdams, his flight of the wrong name and a fictitious address. Was that a carefully preconceived concoction or was it the material emanation of an active mind ready to answer quickly and plausibly any awkward questions?

A Terrible Analysis.
"Arrested McAdams he denies everything. Then watch his conduct when arrested. Absolute silence. Is that the action of an innocent person or would an innocent person not now feel justified in having had up to other long enough but it was now time to clear his own skirts? Nothing but silence until he consults his counsel. If he believed his silence the best way to establish his innocence that is for a jury to say. Suppose he had a knowledge of his guilt. Can you imagine by design or accident a defence which presents greater difficulties in the way of the jury than the evidence of the wrong name and a fictitious address? Or has it been a developed plan by a very shrewd young boy who thought he could escape in the confusion which would result from his defence so hastily sprung?"

"If you find Higgins guilty your verdict would be upheld by the basis of circumstantial evidence."

Continuing, his honor showed that Higgins had denied very little of the circumstantial evidence. One question which would be pertinent was, did Higgins and Goodspeed keep the crime to themselves? It was a conspiracy and the circumstances were all in the hands of the boys. Higgins' revolver in his hand, pointing it at a companion and saying, "I'm Henry Tracy." "What does that mean?" said his honor. "These boys have been poisoning their minds with pernicious literature showing the benefits of the crime. He held up for emulation. Such being the case, would not these boys naturally be afraid of the deed? Would they not refer to their companions and brag of their brave act? It is deplorable that such a condition should exist."

Why was the hero among these boys who the body was found? Was it Higgins or Goodspeed? Who was the centre of attraction? Who was followed about by the other boys? Is it possible that all these boys did not talk of this time? Is it possible that they were not proud of it? It would be remembered that King (the boy who shot Higgins) testified that he had seen Higgins and get him to deny that he had told a reporter he had seen the prisoner with a revolver.

While his honor was thus clearly drawing the attention of the jury to points given by the witness, Higgins said, "I was in the park on August 1, and there, according to the statement of King, he was anxious to conceal it. When King asked what he had there, Higgins replied that it was none of his business."

His honor then exhorted the jury to give the prisoner the benefit of the doubt. If Higgins committed the crime in the manner claimed by Goodspeed, there must have been a motive for it. Goodspeed led the jury to believe that he had seen the hill, where the murder was committed. Just at that time Doherty overtook him and the shots were fired. If there was an organized gang of boys and it became necessary to put one of them out of the way, and if Higgins and Goodspeed were selected to do the killing, a motive might be found.

He referred to the moral condition of the boys and hinted that their morals had been perverted by the literature they read. If any reasonable doubt arises from the evidence give the prisoner the benefit of that doubt. If you feel that he is guilty you are bound to find him guilty, irrespective of consequences."

The jury retired at 12:10 and Judge Landry adjourned court until 2:30.

It was thought the trial of Fred Goodspeed, indicted as an accessory after the fact, would commence Thursday morning, but after the formal court opening, Goodspeed's counsel, Scott E. Morrell, applied to have the case postponed.

"This was because that as in the case of Higgins, the court may reserve a case, and further that as matters were not in issue in readiness to proceed, he was desirous that the trial stand over until the next Circuit Court."

In case of an appeal being sustained and through the fact of Goodspeed being

indicted as an accessory, it would make material difference.

Mr. McKewon Consents.
Mr. McKewon here announced that the procedure presented difficulties. Under the present law Mr. Mullin had the right to be heard before the Supreme Court en banc which meets in November. In regard to Goodspeed, Mr. McKewon said that as he had his own evidence was guilty of breaking and entering the crown intended to indict him for the offense, which would necessitate a presentation to the grand jury which would have to be summoned.

Mr. McKewon thought therefore that as notice of appeal had been given by Mr. Mullin, and to hasten the procedure rather than to hinder it, it was best for the crown to consent to the postponement.

His honor considered it might require a long time for the trial of Goodspeed, if proof had to be given that there was a principal in the Doherty murder. He therefore thought it best that the trial stand over till the next Circuit Court.

Mr. Mullin, when asked in regard to Higgins said he had received notification from Judge Landry to appear at court this morning. He was not in position to state decisively what course he would pursue but was considering the advisability of making application for a reserve case.

Higgins Unchanged.
Of what goes on in the outer world Higgins and Goodspeed seem to know little and care less.

THE SEMI-WEEKLY TELEGRAPH, ST. JOHN, N. B., SEPTEMBER 27, 1902.

A PASTOR'S WIFE CURED OF PELVIC CATARRH.

She Suffered for Years and Felt Her Case Was Hopeless—Cured by Peruna.

MRS. ANNA B. FLEHARTY, recent Superintendent of the W. G. T. U. headquarters, at Galesburg, Ill., was for ten years one of the leading women there.

In a letter written from 401 Sixty-seventh street, W., Chicago, Ill., Mrs. Fleharty says the following in regard to Peruna:

"Having lived a very active life as wife and working partner of a busy minister, my health failed me a few years ago. I lost my husband at the same time, and gradually I seemed to lose health and spirit. My daughter, a confirmed invalid, and we both felt great need of an invigorator.

"One of my neighbors advised me to try Peruna. A bottle was immediately secured and a great change took place in my daughter's as well as in my own health. Our appetites improved very greatly, and restful sleep soon improved us, so that we seemed like new women.

"I would not be without Peruna for ten times its cost." Mrs. Anna B. Fleharty.

"What used to be called female disease by the medical profession is now called pelvic catarrh. It has been found by experience that catarrhal diseases of the pelvic organs are the cause of most cases of female disease.

Dr. Hartman was among the first of America's great physicians to make this discovery. For forty years he has been treating diseases peculiar to women, and long ago he reached the conclusion that a woman entirely free from catarrhal affection of these organs would not be subject to female disease. He therefore began using Peruna for these cases and found it so admirably adapted to their permanent cure that Peruna has now become the most famous remedy for female diseases ever known.

Everywhere the women are using it and praising it. Peruna is not a palliative simply; it cures by removing the cause of female disease.

Dr. Hartman has probably cured more women of female ailments than any other living physician. He makes these cures simply by using and recommending Peruna.

Mrs. E. L. Brown, 329 Elliott street, Memphis, Tenn., writes:

"I suffered for several years with headache brought on by nervous prostration. I was also afflicted with insomnia. I would get up in the morning more weary than when I retired and I used to dread the approach of night. Peruna came into my home as a welcome guest, and within three short months I was like another woman. I have now enjoyed perfect health for over a year, and those who have suffered as I did will know how happy I am."—Mrs. E. L. Brown.

Mrs. Esther M. Milner, De Graff, Ohio, writes:

"I was a terrible sufferer from female weakness and had the headache continuously. I was not able to do my housework for myself and husband. I wrote you and described my condition as near as possible. You recommended Peruna. I took four bottles and was completely cured. I think Peruna a wonderful medicine."—Mrs. Esther M. Milner.

Congressman Thad. M. Mahon, of Chambersburg, Pa., writes:

"I take pleasure in commending your Peruna as a substantial tonic and a good catarrh remedy."—T. M. Mahon.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

ST. JOHN TO HAVE ALLAN SERVICE AGAIN THIS YEAR.

Foreign Freight Agent of the C. P. R. Announces That He Has Concluded Arrangements for an Exceptionally Good Winter Passenger and Fast Freight Service for This Port—Immense Business Expected.

SOME DETAILS CONCERNING THE SAILINGS.

Montreal, Sept. 25.—(Special)—John Corbett, foreign freight agent of the Canadian Pacific, reported today that he has concluded arrangements with the Allans for an exceptionally good passenger and fast freight winter service from St. John, during the coming winter.

The Parisian will be the first steamer. She sails from Liverpool for St. John on November 6, and leaves on the return voyage on the 22nd. She has a cold storage accommodation of 7,000 feet.

She will be followed by the Bavarian from Liverpool on the 18th, St. John on the 29th, with 25,000 feet of cold storage. The Tunisian leaves St. John on December 6th, with 25,000 feet for cold storage freight; the Corinthian on December 13th, with 10,000 feet; the Pretorian on December 20th with 15,000 feet, and the Parisian on December 27th with 7,000 feet.

The sailings for January and following months have not yet been arranged.

Vast Business Expected. Mr. Bosworth, freight traffic manager of the Canadian Pacific, looks for an exceptionally large export business in view of the immense wheat and corn crops in the west.

He also thinks there should be a good import trade, taking into consideration the large amount of steel and metal freight coming from the other side, and the continued demand for it in Canada and the United States.

The company, he says, will be in a much better condition to handle freight and passengers there this year, as the yards, docks and buildings have been and are being constantly improved. The sailings of other lines from this port are being arranged for.

DAHOME'S PASSENGERS ESCAPE PELLE'S WRATH.

The passengers by the West Indian steamer Dahome, which arrived in port yesterday morning, report that during the last eruption of Mount Pelee by which, according to the despatches, 2,000 persons lost their lives, the steamer was passing the island of Martinique.

On approaching the island it was observed that the volcano was in active eruption. About a quarter past 1 o'clock in the afternoon a great darkness set in which lasted for some 15 or 20 minutes.

At the same time great volumes of grey ashes fell on the deck. Considerable excitement prevailed on board the steamer and not a few were greatly alarmed when it became dark.

The onboard persons on board the steamer were very much frightened, and fell upon their knees and offered up prayers to God for their safety.

The passengers had little idea that nearly 2,000 persons had lost their lives as a result of the eruptive violence which had been observed.

None of them had ever observed such an awful spectacle before and although they had heard and read much regarding the previous eruptions still the sight of this volcanic violence brought home to

their minds more vividly the fearful fate which must have befallen the stricken city of St. Pierre.

Those who witnessed the eruption have no desire to see another and the occurrence left an impression on their minds which will be difficult to remove.

The steamer brought the mails, a large freight and the following passengers: Rev. J. B. Cropper, Demerara; Mrs. C. Wainwright, David Marshall, Rev. and Mrs. Alex. Ramsey, Kingston; Charles Buisiere, Toronto; R. L. Simpson, Montreal—from Trinidad; Miss M. F. Grimer, St. Kitts; C. A. Jones, Miss M. Jones, R. A. Ferguson, John R. A. P. Pitts, Capt. W. C. A. Nicholson, R. A., Miss M. H. Wainwright, Bruce McKay, A. J. Moser, Mrs. H. L. Love, Staff Sergeant Seabrooke, Bandmaster Houghman, Mrs. and Miss Houghman, Corporal Case, Captain and Mrs. McNally, Peter Simat and Mr. Herd—all from Bermuda.

She also brought two Chinamen, Goo Han Hu and Lang Choo Xou, who are going to Montreal. Many of the passengers who came up are tourists.

After discharging the portion of her cargo for St. John and western merchants the steamer will sail for Halifax to discharge the remainder of her freight.

THIRTY THOUSAND HORRIFIED PERSONS SEE AN AERONAUT DASHED TO HIS DEATH.

Awful Tragedy at the Taunton Fair, Where Balloon Collapsed After Ascending—Woman's Wit Saved Female Performer, and Parachute Lowered One of the Men.—The Other is Dead.

Taunton, Mass., Sept. 24.—The 30,000 people who witnessed today's fair of the Bristol County Agricultural Society witnessed a terrible tragedy, which resulted in the death of Louis Girard, one of the aeronauts, who attempted balloon ascension.

One ascension was made safely, early this afternoon, by Professor Stafford alone. At 4.30 a triple ascension by Professor and Miss Stafford and Louis Girard, their assistant, was planned.

No sooner had the balloon been freed when it was seen that something was wrong.

The woman quit looting at once and did not leave the ground.

The balloon shot up rapidly and had gained a height of about 400 feet when Professor Stafford's parachute was seen to drop also.

It spread and Professor Stafford alighted safely, but his parachute had barely left the balloon when the latter ripped in halves and collapsed like a paper bag exploded by a strong hand.

There was a frantic motion on Girard's part as he tried to cut loose, but the lines did not part.

He fell to the earth like a shot, striking with awful force.

The wrecked balloon buried him in its folds. He was unconscious when freed from the cloth, and was removed to the tent of the emergency hospital on the ground, and later to the hospital itself, where he died 20 minutes after arrival.

An examination showed that his spine was broken in two places.

Professor Stafford said Girard was an assumed name, and that the victim had lived in Boston, where his parents are now thought to be. He was about 26 years of age.

ISAAC LOGAN DIES SUDDENLY IN AMHERST.

Douglas McLeod's House Damaged to the Extent of \$1,500—Good Work by Firemen.

Amherst, Sept. 25.—(Special)—About 5 o'clock this morning fire damaged the residence of Douglas McLeod to the extent of about \$1,500. The house was occupied in part by Mr. McLeod, whose household furniture was considerably injured by water, although the bulk of it was removed.

The other portion of the house was occupied by Mrs. Anora Murray, whose furniture was soaked, but not before a large portion was removed by water. She has no insurance.

Mr. McLeod has \$1,500 on his house, \$100 on the barn attached and \$100 on his furniture. The fire is supposed to have caught from the fire—from the position of the fire—and considering the advances made before an alarm was sounded it is almost a miracle that the firemen succeeded in saving any portion of the buildings.

Isaac Logan, of Amherst died very suddenly this morning about 5 o'clock. Mr. Logan, who was in his 80th year, has been wonderfully active especially of late for a man of his years, being able to assist with the work on the farm. Yesterday, as was his custom, he carried the feed to his pigpen, when one rushing toward him caused him to step backward, in doing so he

stumbled and fell, receiving a serious shaking up.

A physician was called and after a thorough examination and attention, left him last night resting comfortably and apparently all right.

Mrs. Logan watched by him until early this morning when he requested her to put out the light as he wished to sleep. About half an hour after she was surprised to find her husband dead.

He was a son of the late Hugh Logan, of Salem (N. S.). He was twice married. His first wife was a Miss Bent, of Foot Lawrence. Two daughters by the first wife survive him, Mrs. Clark, wife of James Clark, inspector of fuel on the I. C. R., Moncton, and Miss Beaulieu, of Barronsfield.

The second wife who survives him was Miss Cahill, sister of Stipendiary Magistrate Cahill, of Sackville (N. B.). There are three sons—Charles T., who resides with his father; Fred M., government inspector, and Elmer, of the general stores department. I. C. R., Moncton, and one daughter, Mrs. Clarence Pugsley, of Barronsfield (N. S.). H. J. Logan, M. P., is a nephew.

Until the office was abolished a few years ago, he was official tidewaiter at Amherst Point. He was a prominent and consistent member of the Amherst Baptist church for very many years. He was a man highly respected in the community.

Old Lady (to workman's wife making jam)—"There are some people who make jam and can't make it keep." Workman's Wife—"Weel, mums, I'm ane o' that kind." Old Lady—"Dear me, I am surprised, how is that?" Workman's Wife—"Weel, mums, if ye can just wait a few minutes ye'll see. There'll be nine o' them name frae the school."

The Country Market.

In the fish market this week there has been a somewhat better variety but the quantity is yet very limited. There is just enough fish in the market at present to supply today's demand. This season has been the shortest in fish supplies that can be remembered.

In the meat and produce market quiet prevails. Lamb is very plentiful but there is no likelihood of a tumble in prices as there is lots of feed and the farmers are not forced to sell. Pork is fairly plentiful but the demand is good and the supply goes almost as fast as it is received.

The cold weather is likely to interfere with the supply of green stuffs. The harvest days are about over for cabbage, beans and cauliflower.

During the week there has been plenty of black ducks on the market. Woodcock is about as plentiful as usual. There has been no moose on the market this week. The following quotations are correct to date:—

Table with market prices for various goods including Beef, Mutton, Pork, Hams, Bacon, Sausages, Butter, Eggs, Fish, etc.

The Robertson, Trites & Co. Store, ST. JOHN, N. B.

SHOPPING BY MAIL

Has become so popular of late years that many buy from samples in preference to visiting the city stores.

They save the expense and time necessary in going and coming, and the unavoidable crowding at counters during the busy season.

Our system of sending out samples is absolutely perfect—each line of goods is put up neatly in packets, showing quality, colors, width, and price.

In Dress Materials particularly this store excels, and we have made special provision for a very large trade in this department.

That's why you can see such a large variety, as represented in the samples we send out.

- Materials for Suits. Materials for Coats. Materials for Skirts. Materials for Waists. Plain Suitings. Fancy Waistings.

- At 25c yd.....49 inch Cheviots. At 38c yd.....40 inch Serges. At 50c yd.....42 inch Satin Cloths. At 58c yd.....42 inch Venetians. At 65c yd.....42 inch Canvass Cloth. At 65c yd.....56 inch Cheviot. At 75c yd.....56 inch Homespun. At 90c yd.....56 inch Frieze. At \$1.15 yd.....56 inch Cheviot. At \$1.50 yd.....56 inch Broadcloth. At \$1.65 yd.....56 inch Zibilene. Coat Cloths. A fine quality of Kersey Beaver Cloth in Black and Colors, at.....\$1.90 yd.

- At 35c yd.....42 inch Cashmere. At 50c yd.....44 inch Henrietta. At 50c yd.....27 inch French Flannel. At 50c yd.....27 inch Albatross Cloth. At 58c yd.....27 inch German Flannel. At 58c yd.....27 inch Silk Spot Flannel. At 85c yd.....42 inch Silk Spot Delaine. Waist Silks. At 50c yd.....Tamaline Silk. In Plain and Stripes. At 68c yard.....Tamaline Silk with Lace Stripe. At \$1.10 yd.....Lace Stripe Toffeta. Black Waist and Dress Silks in great variety.....50c to \$1.50 yd.

In addition to our low prices we give Cash buyers a special 5 per cent. discount off all purchases. Until 31st December we will prepay express charges on parcels of \$5.00 and over. Send for samples NOW while assortment is complete. Please mention this paper.

ROBERTSON, TRITES & CO., 83 and 85 Charlotte Street, ST. JOHN, N. B.

STEEL CORPORATION PUSHING IMPROVEMENTS.

Has \$250,000,000 Working Capital—Favorable Result of Litigation Prevents Delays—To Spend \$12,000,000 at McKeesport.

New York, Sept. 21.—A favorable outcome of the injunction suit that still rests against the United States Steel Corporation's conversion scheme having been fore-shadowed by the decision last week of the New Jersey court of errors reversing Vice-Chancellor Emery in the original suit the steel combine's management has brought fresh energy to the work of perfecting its program of improvements.

The various programs that have been under consideration would have been carried out regardless of how the courts passed upon the proposed conversion of preferred stock into a second mortgage, and the combine has been and is still prepared to meet the cost of these undertakings out of earnings if restrained from issuing the extra \$30,000,000 bonds, but the alternative policy would be slower, whereas the removal of legal obstacles will greatly facilitate the work.

From persons in close touch with the internal affairs of the corporation some additional facts have been learned in regard to the general programme of improvements.

The principal and most expensive undertaking will be at McKeesport (Pa.), where the existing tube mills are to be thoroughly modernized. It is understood that a sum approximating \$12,000,000 has already been appropriated for this purpose. The design will be not so much to enlarge the property as to increase its efficiency.

TWENTY KNOTS, OR EVEN FASTER.

If the Government Will Pay for a Greyhound Service, All Right, Says Sir Thomas Shaughnessy.

North Sydney, Sept. 25.—(Special)—Sir Thomas Shaughnessy arrived here this morning on the steamer Bruce, from New

foundland, and proceeded to Montreal in his private car, Manitoba. He indicated that his trip had been taken with the idea of seeing Newfoundland, which he had not before visited. He had also wished, in his capacity as a director of the Reid, Newfoundland Company to inspect the company's road. When seen here today he could say nothing new on the subject of the Canadian fast line. He had heard nothing from the government since the C. P. R. tender had been submitted. While he personally favored a 20 knot service he could see no objection to a more speedy one, if the government were willing to pay for it.

A Pipeful of "Lumber" Plug Smoking Tobacco will burn 75 minutes.

"Test it!" Save the Tags they are valuable.

necessarily so much occupied with public business, would be unable alone to give that attention to a criminal case which ought to be given to it. This fact has been recognized by those who have heretofore filled the position of Attorney-General. When the late Governor Fraser was Attorney-General he did not personally attend to the criminal business, but employed counsel throughout the province for the purpose, and we recall to mind the fact that Mr. Pugsley was then employed on behalf of the government to prosecute many important cases. Many of our readers will remember that the McCarthy murder trial—one of the most important criminal cases ever tried in the province—was not attended to by the Attorney-General of the day, but the interests of the crown were looked after by the present Chief Justice, who was then Clerk of the Crown, and the present Judge Hanington. It is true that Mr. Blair, when he was Attorney-General, with the enormous capacity for work which he had, tried more criminal cases than his predecessors, and his example was followed by Mr. White, but these were exceptional cases. It can be said without fear of contradiction that since Mr. Pugsley has been Attorney-General, all the criminal business of the province has been looked after with a degree of care and attention which has given eminent satisfaction.

Not content with making the attack referred to upon the Attorney-General in connection with the criminal case now being tried before His Honor Judge Landry, the Sun makes a statement that he last year received nine thousand dollars from the province for his public services. As one reads from day to day the unfounded charges and the false statements which appear in the columns of our contemporary it is impossible to avoid being amazed at the utter disregard of truth which they display. The Sun knows as well as we do that at the last session of the legislature this statement was made by the opposition and shown to be absolutely false. In order to come anything near the amount mentioned by the Sun it was necessary to include fees on collection of succession duties which were paid to others than Mr. Pugsley, counsel fees paid to other counsel than himself, and also his traveling expenses and fees for his services during the four years that he was prosecuting the claim of the province in respect to the Eastern Extension, in which he was retained before he became a member of the government or even a member of the legislature. Surely it would scarcely be possible for the most bigoted party journal to depart further from the path of truth and fair play than the Sun does in its conduct toward the Attorney-General.

as the representative of justice and the public weal, Mr. McKewen preserved a moderate bearing throughout the case, and his address to the jury will remain as a brilliant sample of forensic eloquence. For the unfortunate youth found guilty of the dreadful crime of blood, nothing but sorrow can be felt, for while the public safety demanded the prosecution of this case to its legitimate conclusion there has been no hysterical cry for vengeance on the wrongdoer, but rather a keen sympathy for the misguided youth whose habits have led him into such a terrible predicament. His youth has naturally appealed to the hearts of the mothers and fathers of St. John and of New Brunswick, and the finding of the jury under such circumstances is the best possible indication that not even the keenest sympathy can deter a jury in this country from doing its sworn duty to the people, for whom these twelve men are chosen to act in criminal matters.

There seems to be some doubt in the public mind as to the penalty which the verdict of murder entails. Without attempting to pass sentence in a case in which certain legal exceptions taken by the prisoner's counsel have still to be argued and passed upon, the Telegraph for the information of its readers quotes Cranshaw's Criminal Code of Canada, section 231:— "Everyone who commits murder is guilty of an indictable offence and shall, on conviction thereof, be sentenced to death."

THE ATTITUDE OF MR. MOIT, M. P. We notice in one of our contemporaries an explanation of the cause which has led to friction between Mr. Moit and the government.

across the harbor from the steamer side, instead of embarking the Sand Point warehouses. It does not quite appear in all these discussions where St. John comes in. This is not a philanthropic plan we presume in which the city is everlastingly play the role of donor, but rather a matter of business. If it be a matter of business it has not yet been made clear to us why the laboring car should be so solicitously tendered to the city.

There seems to be some doubt in the public mind as to the penalty which the verdict of murder entails. Without attempting to pass sentence in a case in which certain legal exceptions taken by the prisoner's counsel have still to be argued and passed upon, the Telegraph for the information of its readers quotes Cranshaw's Criminal Code of Canada, section 231:— "Everyone who commits murder is guilty of an indictable offence and shall, on conviction thereof, be sentenced to death."

October 16 is about as good a date for Thanksgiving as any according to the local opposition there shouldn't be any such day in the province of New Brunswick for the country is going to the infernal how-wows. But we'll celebrate Thanksgiving in spite of the mournful Mr. Hazen.

The Brooklyn Eagle has a cartoon showing "Canada" as a cow that has got through the boundary fence into Uncle Sam's field marked "Alaska," and Farmer Sam is asking Farmer John Bull to please remove his cow. In the cartoon John Bull isn't saying a word, which doesn't seem natural. What he would say if the cartoonist had given him half a chance would be: "It isn't the cow that needs to be removed, but the fence."

NOTE AND COMMENT. Our Conservative contemporaries will spend the next week explaining away the handsome surplus of the People's Railway for the last financial year. Now that the open season for big game has arrived we have a feeling that there should be a codicil to the game laws protecting the hunters from themselves.

Now that the Doherty murder is solved it would seem to be a good time to make another effort to unravel the Oulton mystery. The police have an opportunity to add to their laurels. Speaking about the big wheat crop in Manitoba and the Northwest reminds us of the big exodus from the Dakotas into Canada. Prosperity and increase of population seem to be naturally related.

HELP FOR MOTHERS. Baby's Own Tablets Are What You Need When Little Ones are Cross, Fretful and Sleepless. If a child is cross, fretful and sleeps badly, the mother may feel absolutely certain that some derangement of the stomach or bowels is the cause. And she can be just as certain that Baby's Own Tablets will put her little one right. The Tablets cure all the ailments of infancy, such as colic, worms, and teething troubles. They are guaranteed to contain no opiate and can be given with absolute safety to the youngest and most delicate child. Every mother who has used them speaks of these Tablets in the warmest terms.

THREE CHISEL AT THE SPEAKER. London, Sept. 25.—John Kennis, the noted head of the Protestant Crusade in the Established Church, was seriously injured today by a chisel which was thrown at him after he had addressed a meeting at Birkenhead. Embalmed Beef Alger. Grand Rapids, Mich., Sept. 25.—The candidacy of former Secretary of War R. A. Alger for the U. S. senator to succeed the late James McMillan, was endorsed today by the special Republican state convention called to select a candidate for supreme justice to succeed the late John D. Long.

"Kootenay" Steel Ranges. have every latest improvement, are made from the best grades of heavy steel work, and will do more work with the same amount of fuel than any other range. 30 styles and sizes. Sell at from \$23 to \$43, which is from \$13 to \$25 less than any imported range. Sold by all Enterprising Dealers. Made and guaranteed for five years by The McCLEARY MFG. CO., St. John N. B. London, Ont.

THE SEMI-WEEKLY TELEGRAPH, ST. JOHN, N. B., SEPTEMBER 27, 1902.

LOCAL AND PROVINCIAL.

The Telegraph has received a box of strawberries picked at Jemseg by A. Purdy. They are a variety which ripen very late in the season.

The department of public works is asking for tenders for building bridges at Balfour's Mill, Harvey, Goshen Road, Edin, and Barchard Brook, Edin, all in the county of Albert.

John S. Burns has closed up his shop and is moving to St. John, where he has secured a good position. His many friends will be sorry to hear of his leaving Gagetown.—Queens County Gazette.

Many persons whose houses or offices are heated by hot water are putting in wood instead of coal fuel in view of the soaring price of anthracite. The outlook is that coal will go considerably higher yet. Hard coal is very scarce.

Ernest B. Colwell has made an assignment to W. H. Thorne. There are but few creditors and the liabilities are only \$7,000, while the nominal assets are much more. Financial difficulty is not the reason for Mr. Colwell's assignment. He has for some years conducted an extensive fish business, but for sometime has been in poor health.

The Sussex exhibition, an annual show of no small interest, will be opened on Monday next. The directors say that in all conditions point to a better show and a greater attendance than of any former year. The race days are Tuesday and Wednesday and the fast Sussex track will undoubtedly see some of the best trotting it has known. Every class has fitted.

Sir Charles Parsons, K. C. M. G., and staff, Lieutenant-Colonel Irving and Lieutenant-Colonel Weston, have returned from Sussex and are well pleased with the militia camp there. Lord Dundas, the new commander-in-chief, while at Sussex, secured the highest respect of officers and men and promises to become a very popular commander. He might have visited Halifax, but had to go from Sussex to a camp at Three Rivers (P. Q.)—Halifax Echo.

Thomas Canadian, the famous Indian guide, was in the city Thursday after returning with a local party on a successful moose hunt, lasting over a fortnight. The party spent some days in Canaan and brought back with them a fine bull moose. Twice during the outing Canadian killed

moose to within 100 yards of the party. They sighted in all 10 animals, seven bulls two cows and a calf. Canadian lives in St. Mary's, York county, and has proven himself an excellent huntsman. He says that big game is very plentiful this year but partridge are scarce.

The annual announcement of St. John Business College is just at hand. It sets forth in clear, concise fashion the aims of the school, and also publishes letters from a large number of business men who are acquainted with Mr. Kerr's students. No pupil gets a diploma from the St. John Business College unless he earns it, and Mr. Kerr's recommendation can always be relied upon as an actual statement of fact. The college is in a flourishing condition and well equipped in every department.

Coroner D. E. Berryman drove to Garnett Tuesday morning and made further inquiries into the death of Edward Garnett, who was shot on Monday. The coroner believes that the boy's death was purely accidental, and has given permission for the interment of the remains. No inquest was necessary. It appears that young Garnett, who was visiting at Rowley's house, was in company with two young children, following Rowley, and was about three yards behind him when Rowley was going through a fence, the trigger of the gun caught and the charge exploded. It is a remarkable thing that both of the small children accompanying Garnett were left unharmed, as the charge went between them and struck the side of Garnett's head, causing his death in a few minutes.

Has Saved Several Lives Robert Norris, who recently saved young Belding from drowning off Leonard's wharf at great risk to himself, is not a novice at such work. Twice before at the same wharf he has saved the lives of two boys. His first experience happened about 15 years ago in the dead of winter. A boy named Breen had accidentally fallen into the icy water and sunk beneath the surface. Without hesitation Norris sprang in, although he wore leather top boots and a top coat as well as heavy underwear and trousers. He dived and with great difficulty brought Breen ashore where he afterwards fully recovered. About 10 years ago Norris saved a boy named Currier, under particularly difficult conditions.

BIG CARNIVAL OF SPORTS ARRANGED FOR ST. JOHN FROM OCT. 6 TO OCT. 11.

Races, Rowing, Yachting, Running, Base Ball, and Band Competitions Will Be Among the Features—Big and Enthusiastic Meeting of Representative Men, at Which Plan Was Decided Upon.

St. John is to have a big autumn carnival and season of sports from October 6 to October 11. That was decided at an enthusiastic meeting of business and sporting men held last evening in the exhibition rooms. B. R. Macaulay presided and D. C. Clinch was chosen as treasurer. The proposal as briefly stated at last night's meeting, is to hold a big week of sports here on the dates named, and as far as can be seen at present the project promises to be a huge success.

Much enthusiasm was manifested at last night's meeting and a large portion of the funds required have already been subscribed. Among the events which it is proposed to hold during the week are horse racing, yachting, rowing and base ball contests. October 7 is the date proposed for the horse racing and this particular branch of the programme is under the control of Dr. T. Fred Johnson, assisted by a committee of horsemen. Three races will be held at Moosepath park on that date and the purse offered will be sufficiently large to attract the best field of horses that has come together in St. John for a long time. A band will be in attendance at the park which will be made as attractive as possible.

The regatta on the harbor is scheduled to take place on October 11, and will welcome professional and amateur rowing races. In the professional four-oared race for cash prizes, an effort is being made to bring to this city a crew from the West End Rowing Club of Boston as well as from the Halifax Rowing Club. These crews will compete with the best local crews and the sport consequently promises to be keen.

As to the amateur races an invitation has been sent to Ernest Heltzer, of Halifax, amateur champion of the maritime provinces, to row James Ross of this city for that title as well. The arrangement of other events has been left to a committee. A portion of a day, will be devoted to yacht racing. Commodore Thomson, of the Royal Kennebec Yacht Club, will be communicated with and an effort made to have the R. K. Y. C. arrange a big race on the harbor which should prove a strong attraction.

For those interested in hand music a grand competition will be held in Victoria Park, in which local and provincial bands will participate. A cash prize of \$75 will be offered for the best band and there will be second and third prizes.

Lovers of base ball will be assured of three days' sport, as the Haverhill (Mass.) team or some other equally powerful aggregation will be brought here to cross bats with the best of the local players. These games will take place on Thursday, Friday and Saturday, October 9, 10 and 11, and promise to eclipse anything of the sort ever seen here.

F. Maclure Scanders has been appointed managing secretary of the association and W. W. Hubbard, manager of the recent exhibition, has been chosen as a director. The meeting adjourned until Friday evening at 8.30, when the committees in charge of the different sports will report.

SEM-WEEKLY TELEGRAPH'S PICTURE-PUZZLE

GO GET THE DOCTOR—TWO OF THEM IF YOU CAN—FIND THE DOCTORS

FINE OUTLOOK FOR THE OIL INDUSTRY.

H. R. Emerson Tells of the Progress Made, and Outlines the Plans of the Company.

Hon. Henry R. Emerson arrived in the city Tuesday afternoon. In conversation with a Telegraph representative he said, concerning the New Brunswick oil fields— "We have as yet but completed the pumping-out. There is now on route from Pennsylvania the last car load of material. It is due here the last of the week. The car contains tubing for the fitting up of the several pumps to be run by one power.

"The company now have three drills at work boring in the district of St. Joseph's College, Memramouc and one near the shore of the Petitcodiac river on the Westmorland side, opposite to the Albert county bridge. A drill platform is being erected on the height of land between the Memramouc and Petitcodiac rivers—nearly directly west from St. Joseph's College.

"Another plant is being operated in a deep hole on the Albert county side and before the last of the month the company will have six complete drill plants in full and active operation.

"The company are also negotiating for the purchase of other drill machinery. During the past few weeks they have received some five carloads of the plant and material required in oil developing operations, and the work will soon be under full headway as it never was before. The tanks for storage pumps are being completed and soon will be put in place."

FAMOUS SINGER FOR S. S. CONVENTION.

His Name is Excell, and He Does—To Meet in German Street Baptist Church.

For some time the executive of the Provincial Sunday School Convention has been hoping to secure the services of E. O. Excell, the great Sunday school singer. They now announce that he will be present in all the sessions of the convention to be held in German Street Baptist church on October 14, 15 and 16.

The name of Mr. Excell is well known by his anthems, hymns, and in many choirs, and by his book of words and music, entitled "Make His Praise Glorious."

His latest book was completed for the recent International Sunday School convention, held in Denver (Colorado). This book, called "International Praise," will be used in the New Brunswick convention and can be obtained at convention by all who wish.

Mr. Excell is not only a great singer but also great in his benevolence of service and gifts to Sunday school work. Professor Hamill and Marion Lawrence well known to us in New Brunswick, say they can never tell the value of this man's work. Delegates from New Brunswick, who heard him at the International Convention years ago, are still in awe of him, and his wishes are gratified. He will be a great acquisition to the convention's usefulness.

DEATH OF MRS. GOUCHER OCCURS AT DIGBY.

Digby, Sept. 23.—(Special).—Mrs. Goucher, wife of Rev. J. E. Goucher, passed peacefully to rest today at her home, after a long illness, which extended over five months.

She was born in Annapolis county 67 years ago. She leaves behind a husband, Rev. J. E. Goucher, of St. Stephen (N. B.), and J. H. Goucher, of Kentville (N. S.), and one daughter, Mrs. Ray Williams, of Yarmouth. One sister, Mrs. Enoch Gibbs, resides at Middleton.

The remains will be sent via tomorrow's express for Truro, where the interment will take place. The husband was pastor of the Truro Baptist church for 19 years, and Halifax and Yarmouth churches for many years, before retiring from a regular pastorate and residing at Digby.

Amherst Winter Fair.

The prize lists for the Maritime Winter Fair to be held at Amherst (N. S.), on the 10th, 17th and 18th December next, are now out, and offer a most attractive series of prizes for fat cattle, sheep, swine and live and dressed poultry. Interesting tests of dairy cows are also arranged. More than \$2,000 is offered in prizes. All who are interested should apply to the secretary, W. W. Hubbard, St. John (N. B.), for a copy.

An agreement has been signed between the town of Amherst and the Maritime Stock Breeders' Association, whereby the former agrees to put up a building suitable for holding winter fairs, horse shows, live stock sales, etc., and in return for this the association guarantees to hold a winter fair in Amherst every year until December, 1912.

Messrs. Rhodes, Curry & Company have the contract for erecting the winter fair building. It will cost \$10,000, and be thoroughly equipped with boilers, steam heating, large auditorium, and with all the facilities for slaughtering animals for the block tests.

Prisoner of a Moose.

FACED A CHARGING BULL MOOSE AND BROUGHT IT DOWN.

W. E. Mason Was the Man Behind the Rifle—Animal Weighed 1400 Pounds.

Antlers Area of Particularly Fine Shape, and Span 55 Inches—The Hunter's Exciting Experience With the Wounded Monarch.

W. E. Mason, of the Canada Permanent and Western Mortgage Company, returned Thursday, after ten days of exciting moose hunting in company with Doctors J. and George Ryan, of Paris, France, and W. W. Lodge. Mr. Mason shot a 1,400 pound moose as it charged him.

The lucky warrior hunters were camped thirty miles northeast of Grand Falls, Victoria county. Setting out one morning Mr. Mason and the guide tramped several miles from camp and came upon the scene of a terrible fight between two bull moose.

They stood and gazed with something awe at the broken struggle. The furrowed ground and the deeply sunken hoof marks. Suddenly, from the rear they heard terrific howlings, punctuated with the pounding hoofs of a swiftly running animal.

Mr. Mason, turning sharply, beheld a sight to stir the blood of a sportsman most thoroughly. Within fifty yards of where he stood was a great bull moose bearing down upon him. There was rage in every eye and danger in every stride. But the head was a magnificent one. His big hoofs tearing the forest soil with each bound; his great stately head bent forward, displaying his magnificent antlers, he presented the most dangerous sight to be seen in a Canadian forest—a full grown, full grown, enraged and in full charge.

Mr. Mason swung his 45-70 Winchester quickly to his shoulder and fired at the chest of the target when it was about thirty-five yards away. The bull immediately fell, but it was only a stumble and notwithstanding that his shoulder blade was shattered he arose again far more ferocious than before. He was maddened now and he showed it by his movements. His muscular legs wouldn't carry him quickly enough toward the object of his wrath.

Mr. Mason never lowered his rifle but as soon as the moose was on his feet again he fired a second time, and the moose turned and fled. As he ran the guide ranged two shots into him, and then he was left to view.

The hunters took up the chase and by means of tramped under and above. He was maddened now and he showed it by his movements. His muscular legs wouldn't carry him quickly enough toward the object of his wrath.

BEHEADED BY TRAIN AT SOUTH BAY.

Shocking Death of Matthew Hunter, Who Was Dismembered—The Inquest.

Matthew Hunter, an employe of Randolph & Baker's mill, was beheaded and dismembered by the Boston express, at Boggs' crossing, South Bay, shortly after 11 o'clock Monday night.

The train was running at full speed about two miles west of Fairville when the accident occurred, and Engineer Clark was not aware of the accident until he reached the Bay Shore road house, where he found blood on his engine. He thought however that some animal had been run over, until his suspicion of a more serious accident was aroused by hearing that some intoxicated men had been seen in the vicinity. He made a more thorough examination of his engine, with the result that some section foremen were sent out to investigate.

About half a mile east of South Bay station, the mangled body of a man was found. The remains were scattered over a distance of 100 feet.

At 1 o'clock Tuesday the remains were brought to Fairville and put in the freight shed, and later on an inquest was held before Coroner James Robinson and the following jury: Messrs. Barnett, Stout, Catherwood, Sears, Fox, Hennessy and Sam, of Fairville.

Water cooper and Officer Lawson, who found the body, gave evidence. Dr. J. H. Grey was also called.

After hearing the various statements, the jury, after short deliberation, returned a verdict of accidental death.

A NEW BRUNSWICK ROMANCE.

Miss Greta M. Peters of Moncton Went to Des Moines to Marry Richard Gammon.

In its account of the meeting at the Sovereign Grand Lodge, I. O. O. F., the Des Moines Register and Leader of Sept. 15 has the following— "The arrival of the Nova Scotia and New Brunswick visitors in a special coach yesterday afternoon revealed a romance which will be crowned by a wedding this morning either at the Savery Hotel or the rectory of St. Paul's Episcopal church.

Mr. and Mrs. C. Murray, of Moncton, New Brunswick, were among the party from the eastern British provinces on the special car and with them was Miss Greta M. Peters, the beautiful and accomplished daughter of a neighbor of the Murray family in Moncton. None of the party knew exactly why she was coming to Des Moines, and she was doing it solely for the trip and because she thought it would be a delightful week.

Many of the party, therefore, were astonished when they discovered that she had come to Des Moines to be married. Richard Gammon, of Omaha, is the fortunate young man. He is an accountant in the establishment of the Cudaby Packing Company in Omaha, where he has worked for about four years. He met Miss Peters here and this morning they will be married. It is probable that Dr. Cudaby will perform the ceremony, if he is in the city, and either at the parlors of the hotel or at the rectory.

Mr. Gammon is a Canadian. He was connected with the Bank of Montreal in Montreal and was sent to Moncton (N. B.) about seven years ago to take charge of the bank branch there. Four years ago he came to this country and he and Miss Peters had not seen each other during that period until they met in Des Moines yesterday.

They will remain in the city a part of the week at least, and then go to their future home in Omaha.

The New England, New Brunswick and Nova Scotia party was sufficiently large to take a special car. There were 35 of the party, including the bride. The party left Moncton Friday morning, took a trip through the Berkshires hills, passed through Detroit and reached Chicago Saturday afternoon, coming on from Chicago yesterday morning to Des Moines. Returning the party will leave Saturday morning and will visit in Chicago, Niagara Falls, take the Seneca lake trip, visit Saratoga and Glen Summit, take a trip over the southern coast of Massachusetts and arrive at Boston the following Friday. The party was gotten up by A. S. Pinkerton, C. N. Alexander, Rev. W. F. Dussault, Charles A. Russell and J. E. C. Barnham, among the members were Mr. and Mrs. Murray and Miss Peters, Mr. and Mrs. J. A. Craig, of Yarmouth, Nova Scotia, and 39 others.

IMPORTANT DECISION BY ACADIA COKE & COAL CO.

Directors Authorized Try Close a Transaction Which Has Been Under Consideration.

A meeting of the Acadia Coke and Coal Company (Ltd.), which owns coal properties in Ohio, was held Tuesday at the office of W. H. Trueman, secretary of the company.

The following shareholders from the city and outside points were present: W. H. Barnaby, James F. Robertson, J. Verne McLellan and Capt. C. W. Branson, of St. John; R. F. Randolph, Hon. P. P. Thompson, W. T. Whitehead, M. P. F. I. Morrison, of Fredericton; Wm. Hall and Mark Curry, of Amherst; C. H. McLean, J. W. Lowe, of Lunenburg; R. R. Sanger, Moncton; Henry R. Emerson, president of the company, was in the chair.

The shareholders have under consideration a proposal for the purchase of the property and the directors were authorized to accept the same and carry out the terms of payment of the purchase money.

INDIANTOWN FIRE WAS PICTURESQUE AND VERY EXPENSIVE. Confagration Was a Fine Spectacle—The Name "Star" Was Visible Framed in Fire.

Quick Work Alone Saved the Crew—Northrup's Gallantry Brought the Steamer Sank Before It Could Be Towed to a Beach.

Blazing from stem to stern the steamer Star swung majestically out into the center of Indian town harbor Thursday morning in tow of the tug Wess Laddie and W. H. Murray.

Fire was discovered on the steamer soon after 2 o'clock and before it was completely under control the steamer was burned, two warehouses were destroyed and a machine shop was gutted.

To Isaac Northrup, a deckhand employed on the steamer, belongs the credit of discovering the blaze.

Northrup was sleeping in his berth and was awakened by some unknown agency. His room was full of smoke and there was every evidence that the steamer was on fire.

When the fire began there were asleep on the steamer Isaac A. Worden (the mate), Mrs. Chase, the stewardess, Miss Wilson, the cook, and Charles Coleman, the fireman.

All awoke about the same time and recognized that from the appearance there would be a hot session aboard the Star in a minute, and consequently the proper course for them to pursue was to get out of the ship as quickly as possible.

When the mate, slept in the upper part of the steamer. When he got out of his room and found flames all around him he became bewildered.

Mrs. Chase, the stewardess, was also in the upper part of the steamer. She came out on deck only in her nightgown and with Mr. Northrup's assistance was put on board the tug Wess Laddie.

Miss Wilson and the fireman Coleman were already in safety and Mrs. Chase was the only person left on the burning steamer.

Others seeking the proper means to give their little ones for education, start on the road to success. It is the best. Ask for our Painters' Supply Catalogue.

The warehouse there was a large quantity of upriver freight and Messrs. Nason had a stock of hay, bar paper, flour, bran and feed on the upper floor. The warehouse went like a match before the flames and in a very short time the warehouse and its contents were destroyed.

The morning lines of the Star burned through and the steamer, by this time a mass of flames, drifted against the wharf on which was situated Tapley Bros' coal shed and storehouse.

She hung there just long enough to set fire to this building and then drifted into the slip known as the bed-room.

J. Fred Williamson's machine shop caught at the same time as the Tapley coal shed and it was gutted. Between the coal shed and the machine shop was a building owned by D. D. Glazier & Son and occupied as an office and coal sheds.

By this time great tongues of flame were pouring upward from the domed Star, and clouds of sparks and burning embers were cast in all directions over the waters.

At one time the Star, the Nason warehouse and the machine shop were all on fire and the scene was a most spectacular one.

There was a great scattering of small craft as the blazing mass drifted down the harbor. The tug Wess Laddie and W. H. Murray picked the remains of the Star up and towed her into the stream and up toward Green Head to try and beach her.

While in the stream her paddle boxes were about the only things visible. Her name "Star" appeared in the center of an arc of fire, the chord of which was formed by the line of high water. It could be plainly seen from the wharf. This one word "Star" surrounded by flame and back of that—the blackness of sky and water.

Other craft along the water front were slightly damaged. The bow of the tug Wess Laddie was considerably scorched and the W. H. Murray had a narrow escape.

The steamer Springfield was lying at the bow of the Star and it was only by the effort of an expertly handled tug that she escaped damage. With the Star, however, was again equal to the emergency and she saved the lives of all on board.

Tapley Brothers' rope house was also insured in the Commercial Union for \$100,000. The warehouse occupied by P. Nason & Son and by the People's Line is owned by Miss Porter. The stock of Messrs. Nason was taken to his room on the second floor, and had his wound dressed. Later he was reported resting easily and the expectation is that within 10 days he will be himself again.

He remained in bed all day and executive business on the train practically was discontinued. The president slept comfortably all through the night until 8 o'clock this morning.

With Mrs. Roosevelt, the president was driven directly to the temporary White House on Jackson Place, where, according to present arrangements, he will remain until able to be on his feet.

The president slept comfortably all through the night until 8 o'clock this morning. He remained in bed all day and executive business on the train practically was discontinued.

Hillsboro, Sept. 24—The little four-year-old daughter of Fred. M. Thompson, accountant for the A. M. Company, met with a serious and almost fatal accident on Tuesday afternoon. Mr. Thompson had taken home a box of sugar coated pills, each pill being an adult dose. The little girl thinking they were candy, ate 17 of the pills before being noticed. The child soon became unconscious and Doctors Marven and Lewis, who were summoned, worked four or five hours with the little one before she was out of danger. She is doing nicely today.

SEPTEMBER NUPTIALS ARE HAPPY EVENTS.

THE KEATOR-SMITH, STEEVES-PUGSEY, LEY, AND OTHER WEDDINGS

The Brilliant Marriages of a Number of Popular Young Society People—Description of the Gowns Worn by the Brides and Attendants.

A brilliant nuptial event took place in St. Paul's (Valley) church at half past three o'clock Wednesday afternoon when J. Gillis Keator, inspector for the Imperial Fire Insurance Company, and Frances Charlotte Sidney Smith were united in marriage by Rev. Canon DeVeber, assisted by Rev. A. G. H. Dicker.

The marriage of Francis Bennett Steeves of the Canadian Drug Company, and Miss Isabella Maud Pugsey, daughter of the late Gilbert R. Pugsey, took place in St. John's church at 6 o'clock Wednesday morning. Rev. J. de Soyres officiated and many friends witnessed the ceremony.

The marriage of Mr. Carman, the organist, and Miss Maud Pugsey, daughter of the late Gilbert R. Pugsey, took place in St. John's church at 6 o'clock Wednesday morning. Rev. J. de Soyres officiated and many friends witnessed the ceremony.

NEURALGIC PAINS.

Are a Cry of the Nerves for Better Blood.

Dr. Williams' Pink Pills Make Rich, Red Blood and Drive These Pains from the System—Read the Proof.

A high medical authority has defined neuralgia as "a cry of the nerves for better blood," and to effectually drive it from the system the blood must be made rich, red and pure. For this purpose there is no other medicine so prompt and sure in result as Dr. Williams' Pink Pills.

These pills make new, rich, red blood with every dose, and impart new life, vigor to the person using them. Mr. John McDermott, Bond Head, Ont., offers strong proof of the certain results obtained from the use of Dr. Williams' Pink Pills in a case of neuralgia.

"I awoke next morning with cramps and pains throughout my body. I was unable to go to work and called in a doctor, who prescribed some medicine, used it faithfully for some time, but did not help me. In fact, I was growing steadily worse and had become so reduced in flesh that I weighed only 138 pounds. As I was not able to work, I returned to my home at Bond Head. Here I used myself under the care of a local doctor who told me that my trouble was neuralgia, and that a thorough purgative was my only chance. I tried several purgatives, but they did not help me. I then read of Dr. Williams' Pink Pills and decided to try them. I had not used more than three boxes before I felt that the pills were helping me. From that time on I gained weight, and after two weeks' trip to Boston and New York, I had recovered my former strength, and have since been able to work at my trade as a carpenter without any trouble."

Dr. Williams' Pink Pills are sold by all druggists and by mail. Price 50 cents per box. Six boxes for \$2.50 by mail to the Dr. Williams' Medicine Co., Brockville, Ont.

George Warwick was groomsmen and the ushers were Messrs. Wm. G. Pugsey, Jr., and T. E. Girvan. After the ceremony a wedding breakfast served at the residence of Capt. Richard Bradley, the father of the bride, Mr. and Mrs. McInnis left for a trip through Nova Scotia and upon their return will reside on the 2nd street.

McInnis-Bradley. Miss Lizzie Bradley and Arthur McInnis, of Manchester, Robertson & Allison's establishment, were united in marriage by Rev. Mr. Howard Wednesday morning at the home of the bride. The principals were unattended and only immediate relatives witnessed the ceremony.

After a wedding breakfast served at the residence of Capt. Richard Bradley, the father of the bride, Mr. and Mrs. McInnis left for a trip through Nova Scotia and upon their return will reside on the 2nd street.

W. W. Page of Halifax and Miss Florence Sullivan, of the Sweet Singer of the St. Croix, Wed.

St. Stephen, Sept. 24—(Special)—The Church of the Holy Trinity, which was handsomely decorated for the occasion, was the scene of a pretty wedding this morning when Florence C., daughter of Postmaster D. Sullivan, was united to W. W. Page, of the Halifax post office.

Although an early hour many friends attended the capital mass and wedding services. When the organ pealed forth a march the groom supported by Vincent Sullivan, brother of the bride, led the bride to her place in front of the altar and awaited the bride, who came up the aisle on the arm of her father and preceded by Miss Alma, who acted as bridesmaid.

The bride was gowned in a traveling dress of a delicate brocade with white motifs and wore a black picture hat. She carried a bouquet of white roses. The bridesmaid wore a white cloth suit, black picture hat and carried a bouquet of pink roses.

Rev. Father Lavery was assisted by Father O'Sullivan, of Halifax, who accompanied the groom from that city. After the services the wedding party left the church to the strains of the wedding march finely rendered by Miss Gertrude Green.

Many very handsome presents of cut glass, silverware and pictures, testified to the esteem of a large circle of friends. The choir of the Holy Trinity, of which the bride was a member, presented a handsome organ table. The groom's present to his bride was a Chickering quarter grand piano, to the bridesmaid a pearl brooch, and to the groomsmen a handsome gold ring. On arrival at the home of the bride, after the church services, a dainty breakfast was served to the immediate friends of the happy couple. The dining room was handsomely decorated in green.

The full University matriculation examinations began this morning. Fifteen candidates are taking them. The examinations will continue Saturday and the results will be announced on Monday. About 25 students who passed the July matriculation examinations will enter on Monday, so that this year's freshman class will number about 40 and represent all the counties of the province excepting Restigouche, Gloucester and Kent. The class includes five ladies—Miss Edith Allen and Miss Stojard, of Fredericton; Miss Rosalie of St. John; Miss Wilson, of Charlottetown, and Miss Turner, of Centerville. The engineering course and have already entered. They are: Robert Winslow, G. C. Torrey, Frank Smith, Richard A. Malloy, J. A. Dunne and Byron Kinghorn, Fredericton; F. S. Thomas, Alex. Thorne, Ernest Clawson and H. W. McLeod, St. John; John D. Melville, Moncton; Fred Goodwin, of Miramichi; B. A. de Acadia, and Mr. Nalder, of Windsor. (N. S.) Chancellor Harrison will not give out the names of the members of the freshman class until the results of this week's examinations are known.

A Pipeful of Anker-Plug Smoking Tobacco will burn 75 minutes.

Save the Tags they are valuable.

THE AGRICULTURAL FAIR.

BEST SHOW IN MANY YEARS WAS HELD WEDNESDAY AT MOOSEPATH PARK.

The Races and the Long List of Prize-Winners in All Classes—Sports During the Afternoon a New Feature.

The St. John City and County Agricultural Society exhibition, held at Moosepath Park yesterday, was one of the most successful yet held by that organization. The stock and produce were on hand early in the forenoon and the fair was in full swing by 10 o'clock. There were more than 100 vehicles at the park and between 400 and 500 persons. A large number occupied seats in the grandstand.

A new feature of the fair was the holding of sports during the afternoon. The first prize was for a horse race. The display was held in the afternoon and the first prize was for a horse race. The display was held in the afternoon and the first prize was for a horse race.

CARLETON COUNTY FAIR BEGINS WELL AT WOODSTOCK.

LIUTENANT-GOVERNOR SNOWBALL OPENS THE EXHIBITION IN A PLEASING SPEECH.

There Are 1,424 Entries by 140 Exhibitors—One of the Best Exhibitions Ever Held in the Province.

Woodstock, Sept. 24—(Special)—The Carleton county exhibition had fine weather for its opening day and a good attendance. At 10 o'clock the exhibition was formally opened by Lieut.-Governor Snowball in a well conceived speech.

The governor was escorted to the stand by the Woodstock band and a guard of honor, under Colonel Vince, Captain Bro and Lieutenant McLean, of the militia.

The president, C. H. L. Perkins, occupied the chair, and on behalf of the Agricultural Society thanked the governor for his presence and for his valuable address to the exhibition which he brought from Northumberland county. He thanked him, too, for the interest he showed in the county of the county.

Mayor Belyea, on behalf of the citizens of Woodstock, extended a hearty welcome to his honor. The general opinion expressed by the judges was that the exhibition was of the highest quality and the standard so high that the exhibition is the best ever held in the county, if not the province.

Governor Snowball and visiting gentlemen expressed the opinion that the exhibition is up to their highest expectations. The entries—poultry, cattle, etc.—are very numerous, and the standard so high that the judges will have a difficult undertaking in awarding the prizes.

The ground floor of the main building is devoted to the display of carriages, sleighs, pumps, etc., from the Woodstock Carriage Company, Loane Bros, and C. Estey, and stoves from Small & Fisher, and heaters from H. E. Burt and W. F. Dibley & Son. The Bird Company make a tastefully arranged show of their proprietary medicines, the Woodstock Woodworking Company a fine exhibit of their work.

The rest of the ground floor is occupied with products of the farm, prominent among which are the handsome specimens of the Carleton County Agricultural Society and George Fisher, Northumberland county. Up stairs are to be found the fruits, grains, roots, dairy produce, etc. The Carleton Woolen Company make a splendid show of their products. A Henderson has an attractive display of carriages, furniture, etc. Edman Bros, show a fine lot of gents' fur coats, and carriage and sleigh robes.

High Hay & Son exhibit a line of expensive fur goods, and are well seen here. Their arrangement for showing lace curtains is a convenient and ingenious one.

The ladies' handwork is shown on this floor. Atherton Bros, show harnesses of their own manufacture.

In the yard are shown specimens of farm implements manufactured by Smith & Fisher, and Connel Bros, and Balmain Bros, William McDonald, and others show specimens of the farm implements they manufacture.

The races in the park will be held tomorrow and Friday. The balloon ascensions will be a prominent feature in the amusement program for the two days.

The attendance was far above that of yesterday. The judges are making good progress in their work. The sheep and pig trials will be held tomorrow.

Woodstock, Sept. 25—(Special)—The exhibition visitors continue to have fine days here. The weather is fine, and the attendance is high. The judges are making good progress in their work. The sheep and pig trials will be held tomorrow.

Mr. D'Arville, of the Maine Farmer, an authority on horses, said: "Some of the weather today was cool, bracing and healthy. The horses are the best I have seen for 10 years."

FREE ALKALI.

There are few women in Canada who have not heard of "free alkali," but there are many who do not understand the term. The term is always used in connection with soap. If you think it means "free soap," then alkali is very dear at the price. But it does not mean that. A soap containing free alkali is a soap in which the alkali is not properly incorporated with the fat acids used in the making of soap, and such a soap is most injurious to the clothing and hands. Free alkali in soap is used in the making of wool and the surface of linen causes the skin of the hands, when rubbed with it, to become chapped and cracked. Free alkali in soap is used in the making of wool and the surface of linen causes the skin of the hands, when rubbed with it, to become chapped and cracked.

Free alkali in soap is used in the making of wool and the surface of linen causes the skin of the hands, when rubbed with it, to become chapped and cracked.

There are few women in Canada who have not heard of "free alkali," but there are many who do not understand the term. The term is always used in connection with soap. If you think it means "free soap," then alkali is very dear at the price. But it does not mean that. A soap containing free alkali is a soap in which the alkali is not properly incorporated with the fat acids used in the making of soap, and such a soap is most injurious to the clothing and hands. Free alkali in soap is used in the making of wool and the surface of linen causes the skin of the hands, when rubbed with it, to become chapped and cracked.

OUR COUNTRY CORRESPONDENCE.

FREDERICTON.

Fredricton, Sept. 23.—(Special)—A mysterious death occurred at Maryville last night when Charles Dennison, after drinking half a pint of whiskey laid down and expired. Dr. Harry McNally was called at first and found the patient unconscious; he never rallied and died about an hour afterwards. He was seemingly in good health last evening.

FREDERICTON.

The jury, after reviewing the body, postponed the inquest until October 23 to await the result of a post mortem examination. The jury, after reviewing the body, postponed the inquest until October 23 to await the result of a post mortem examination.

FREDERICTON.

The St. Mary's church bazaar will open tomorrow and last three days. John Gibson & Son have purchased the property on Queen street from the estate of Elizabeth Peckham and occupied by them as a grocery. It was said to be worth \$2,500.

FREDERICTON.

The wedding of Harry B. Chestnut and Miss Annie Tibbitts, daughter of R. W. L. Tibbitts, took place this afternoon. Frederickton, Sept. 24.—(Special)—Rev. Jabez A. Rogers, of Fredericton, has been registered to solemnize marriages under act of assembly 23 Victoria.

FREDERICTON.

John Dandison has been appointed justice of the peace for the city and county of St. John. The Woodstock Lumber & Manufacturing Company is seeking incorporation with a capital stock of \$25,000, divided into shares of \$100 each.

FREDERICTON.

The cause of the sudden death of Charles Dennison, of Maryville, on Tuesday morning was hemorrhage of the brain. This was decided by a post mortem examination held last night by Doctors Mullin and Fisher.

FREDERICTON.

Doctor Mullin, who is a coroner, empaneled a jury in the case and decided to hold an inquest. After viewing the body the inquest was adjourned until October 6. After the jury had been dismissed for the present, the body was placed in a coffin and a post-mortem examination of the body. They found that there had been a hemorrhage of the brain and also found a large blood clot in the brain sufficient to cause death and showing that death had been natural causes.

SALISBURY.

Salisbury, Sept. 21.—Rev. Mr. Pascoe of Petitoicid, supplied the pulpit of the Methodist church Sunday morning for Rev. H. Mannion, who was in Dorchester. Miss J. I. Millitt, of Westfield Centre, and Mr. and Mrs. Jos. Pringle, of St. John, are guests of Mr. and Mrs. Stephen Taylor.

SALISBURY.

Seward Baird, of the Royal Bank at Sackville, is spending his vacation at his home here with his parents. Miss Annie Danvers, of Moncton, is the guest of her friend, Gladys Stannard. Miss M. Bentley, of Somerville (Mass.), has been visiting her aunt, Mrs. H. C. Barnes, returns to her home today.

SALISBURY.

Rev. A. V. Davis, with his mother and sister, left this morning for St. Martin's. W. P. S. Stevens, of Hillsboro, is spending a short time in the village with relatives. Mr. Stevens is on his way home from the Halifax exhibition.

SALISBURY.

Mr. and Mrs. Ketchum, of King street, St. John, are guests of Mrs. Ketchum's mother, Mrs. R. Smith. Thompson Taylor, of Moncton, spent the week-end in the village with relatives. Doctor McLaughlin, a recent graduate of McGill, is visiting his mother here.

NORTON.

Norton, Kings Co., Sept. 23.—The Sacred Heart church was the scene of a pretty wedding this morning, the contracting parties being Ira A. W. Bush of Boston, and Miss Alice May Ryan, youngest daughter of John E. Ryan, of Norton. The bride entered on the arm of her father to the strains of the wedding march. Nuptial mass was celebrated by Rev. R. J. Gough. The bride looked charming in white silk with veil and orange blossoms and carrying a bouquet of roses.

SUSSEX.

Sussex, Sept. 23.—Mrs. John A. Humphreys, who died suddenly in Boston, where she had gone for medical treatment, was buried this afternoon at 3 o'clock in the cemetery at the Upper Corner. The funeral was largely attended by friends and acquaintances, who held the deceased in high esteem for her goodness to the poor and her charity to the needy. Rev. J. B. Gough, Methodist minister, conducted the services at the house and grave.

GAGETOWN.

Gagetown, Sept. 21.—Judge Ebbett is confined to the house, suffering from a severe cold. Mrs. H. B. Hall returned from St. John on Saturday, much improved in health. A. D. Bonnell, a former resident of this place, now of Brooklyn (N. Y.), with his son, Brook, was here a few days last week. Mr. Bonnell came for the shooting season, but found game very scarce and shortened his stay in consequence. Charles Dowson, of Boston, is visiting Mrs. R. T. Babbitt. Mr. Arkley, of St. John, is the guest of his sister, Mrs. Manning. F. L. Corey left this morning for St. John, where he is to be the principal in an interesting event to take place in Trinity church tomorrow morning.

WOODSTOCK.

Woodstock, Sept. 23.—The marriage of Robert Price of Manchester, Robertson and his wife, department, and Miss Gwendolyn Gertrude Shewsbury, daughter of the late Rev. Mr. Shewsbury, Methodist clergyman, took place at noon today at the residence of W. W. W. Only relatives witnessed the ceremony, which was performed by Rev. Mr. Ross. The bride wore white organdy with chiffon trimmings and a crown of flowers. The groom was attended by Bernard Ryan. Miss Sweeney, of Sussex, presided at the organ and the choir rendered several appropriate selections.

WOODSTOCK.

The church was handsomely decorated for the occasion and a large number of invited guests were present. Dinner was served at the house of the bride and the happy couple left by the C. P. R. for Boston, where they will reside.

WOODSTOCK.

Depuly Sheriff Foster lodged in jail here today a young man named Urban Oulens accused of threatening to shoot Hugh H. Peck, justice of the peace. It is said to have been the cause of the trouble. The preliminary examination was held before Justice Farley, at Beistol, and Oulens was committed for trial at St. John. The trial was a sensation this week in the Andover as Rogers accused of poisoning her husband, which is now on at the Circuit Court. There is said to be a strong case against the prisoner. Mr. Rogers is still in poor health, and it is doubtful if he will ever entirely recover.

CHURDH HILL.

Church Hill, A. Co., Sept. 23.—Mrs. Alfred Magee and family, who have been visiting at the home of Mr. Magee's father-in-law, James Magee, returned to Boston Tuesday. Miss Janie Magee, of this place, went with them. Mrs. Alice Bayley fell and hurt her left arm severely, but is able to be around, and the arm is improving. Miss Mabel Bayley went to North Adams Monday, accompanied by Miss Margaret and Annie Bayley. Mrs. Mabel will be missed by many friends, as she was a very bright young lady. Douglas Doughtie and Franklin Magee went to Sussex Tuesday and came back Wednesday. Mrs. D. Grey, teacher, of this place, is sick and not able to attend to her school duties. Mrs. Israel Bell, who underwent an operation recently, is home again much improved in health. Daniel Magee, of Moncton, spent two days at his home here lately. J. S. Magee spent a short vacation with his friends here. He returns to Moncton Thursday.

CHATHAM.

Chatham, Sept. 23.—A note was found tacked on one of the posts of the town wharf yesterday, which has caused considerable excitement. It was written in blue pencil on a letter head of the Riverview Hotel and says as follows: "Attention—Notice What, did not care to see him again, not much wondered at amongst some people. Signed, (1) Alone Mr. H. Brown." It appears that a man registered as "H. Brown, city" at the Riverview Hotel on Saturday and left Sunday after paying his board. He would not tell where he was from, or where he was going, and it has been ascertained that he did not leave town on any of the boats. Several notes were found in the room he occupied at the hotel. One found tacked near the electric light written on birch bark had the words "Electricity is good in this place." The general impression is that he was wrong in his mind. He wore a tan colored suit with several buttons on each sleeve, and a row of buttons each side of the coat near the pockets, and a soft hat with two bands, one a light red. Regrets are expressed that R. H. Anderson, manager of the Bank of Nova Scotia here, is to be transferred to Campbellton, where he will manage the bank. Dr. R. Laird, is to be removed to Toronto. Mr. Tappan is to have Mr. Anderson's position here.

HOPEWELL HILL.

Hopewell Hill, Sept. 22.—A largely attended temperance meeting, conducted by the Rev. Jos. McLeod, of Fredericton, was held in the Baptist church here last night. The reverend gentleman's sermon was an eloquent effort and dealt in a forcible manner with the great evil of the drunk traffic. Doctor McLeod will lecture at Albert street this evening, dealing largely with prohibition. Miss Alberta Jamieson, who has been visiting friends and relatives here, left for Chatham, Sept. 24.—Several vessels in the river had all their flags flying on Tuesday afternoon in honor of the marriage of Annie, daughter of the late John Fraser, and William Kerr, a tallyman here. The bride looked very pretty in a suit of light grey cloth, trimmed with white applique and a large black picture hat. Her sister, Miss Alice Fraser also wore a becoming suit of grey cloth, with blue trimmings and a blue hat. The bride and bridesmaid each carried an exquisite bouquet of sweet peas. Patrick J. Ryan supported the groom. The marriage took place in the Pro-Cathedral and was witnessed by a large number of friends, the service being performed by Rev. Henry Joyner. In the evening a reception was held at the home of the bride's mother, Mr. and Mrs. Kerr are very popular in Chatham and their many friends wish them every happiness. They were the recipients of many gifts. Rev. Murdoch A. McKinnon, M. A., of East Amies (C. B.), who was called to the office of a Presbyterian minister, Newcastle, has received a call to Park Street church, Halifax, which has recently become vacant, the pastor, Rev. Clarence McKinnon, having accepted a call to St. Andrew's church, Sydney. It is understood that Mr. McKinnon will accept the call to Halifax.

ANDOVER.

Andover, Sept. 23.—The Victoria circuit court opened here today. His Honor Judge Hamilton presiding. The following baristers were in attendance: S. B. Appleby, K. O. A. B. Connell, K. C. Thos. Lawson, J. D. Gallagher, W. F. Kersey, and W. McCready and T. J. Carter. All the grand jurors were in attendance and before the ordinary panel of petit jurors a special coroner's jury attended. The court house was crowded and several hundred ladies occupied seats in the gallery. The dockets are as follows: The King vs. Andalusia Rogers, charged with administering poison to her husband, Thomas Rogers—S. B. Appleby represented the crown; Thomas Lawson for the prisoner. Richard A. Estey, administrator, etc., of Lemuel A. Estey vs. James Burgess, returned on account—J. W. McCready plaintiff's attorney; J. D. Gallagher, defendant's attorney. Emily Rideout vs. James Tibbitts, sheriff, action of trespass de bonis spoliatis—Thomas Lawson, plaintiff's attorney; A. B. Connell for defendant. Barton A. Ridd vs. James Tibbitts, sheriff—like action—Thos. Lawson, plaintiff's attorney; A. B. Connell, defendant's attorney. Harding Rideout vs. James Tibbitts, sheriff—like action—Thos. Lawson, plaintiff's attorney; A. B. Connell, defendant's attorney. Mrs. Rogers' husband, Samuel Rogers, who it is alleged, had been poisoned, was too ill to attend and the judge allowed his deposition taken at the preliminary examination to be read and submitted as evidence to the grand jury. The grand jury retired at 4 o'clock and had not finished their deliberations when court adjourned at 6 o'clock. The jury was prepared at 8 o'clock to make a presentment and the court accordingly adjourned until tomorrow morning. Last evening the opposition in this county was largely at the residence of George B. Baxter vs. chairman and T. J. Carter, in introducing Messrs. Hassen and McInerney, occupied the greater part of the evening. The opposition was largely a large audience which was attracted out of curiosity to hear the St. John men. J. H. Hassen spoke for nearly two hours and his speech was largely a rebuke of St. John utterances. He did, however, announce an opposition platform and policy founded on resolutions and motions made at the meeting. He was nearly 11 o'clock when J. D. Hassen uttered his generation and in consequence Geo. W. McInerney spoke for about ten minutes and then Mr. Carter announced an opposition meeting for tomorrow to select candidates. The opposition in the county would not form a corporation and the speaker said that the opposition person can be found to sacrifice himself as a candidate. Andover, Sept. 24.—Court opened this morning at 10 a. m. The case of Estey vs. Burgess was settled by plaintiff withdrawing the record and each party paying his own costs. In the case of Barton vs. Ridd there is an action by Ridd against Sheriff Tibbitts for levying certain goods and chattels under a fieri facias in the suit of Geo. W. McInerney against one Samuel Rideout, which the defendants claim is their property. Mr. and Mrs. Compton will go to Prince Edward on their wedding trip, and thence to Sydney, where they will reside. Moncton, Sept. 23.—(Special)—C. H. Ashton, late of South Africa, is to take a position in the Pretoria Normal school, tonight with his wife and child for Quebec and her traveling dress was of navy blue broadcloth with hat to match. Among the handsome presents received was a silver service from the wholehearted friends of the bride. Mr. and Mrs. Price will be in charge of the wedding. Deputy Sheriff Foster lodged in jail here today a young man named Urban Oulens accused of threatening to shoot Hugh H. Peck, justice of the peace. It is said to have been the cause of the trouble. The preliminary examination was held before Justice Farley, at Beistol, and Oulens was committed for trial at St. John. The trial was a sensation this week in the Andover as Rogers accused of poisoning her husband, which is now on at the Circuit Court. There is said to be a strong case against the prisoner. Mr. Rogers is still in poor health, and it is doubtful if he will ever entirely recover.

MONCTON.

Moncton, Sept. 23.—(Special)—J. E. Mulholland, I. C. R. superintendent of machinery, rolling stock, has resigned his position here and, it is said, accepted a position worth \$6,000 a year with the Baltimore & Ohio railway. Mr. Mulholland succeeded G. R. Joughins as mechanical superintendent on the I. C. R. and has been here about two years. He is at present in Kingston inspecting some new locomotives being built for the International. A. E. Wall has been appointed cashier of the I. C. R. vice C. D. Thomson, who has been unemployed for some time past, on account of ill health. Andover, Sept. 24.—Court opened this morning at 10 a. m. The case of Estey vs. Burgess was settled by plaintiff withdrawing the record and each party paying his own costs. In the case of Barton vs. Ridd there is an action by Ridd against Sheriff Tibbitts for levying certain goods and chattels under a fieri facias in the suit of Geo. W. McInerney against one Samuel Rideout, which the defendants claim is their property. Mr. and Mrs. Compton will go to Prince Edward on their wedding trip, and thence to Sydney, where they will reside. APPOHAQUIL.

Apohaquil, Sept. 23.—Miss Lizzie Gaudet returned missionary from India, on Sunday evening, in the F. B. church. There was a full house to greet the speaker. The two new cottages built by Jones Bros. this summer are nearly finished. W. Sweeney is repairing and enlarging his house. The F. B. church looks much better with the reconstruction of the new tower. The summer visitors are leaving for their homes after visiting friends and relatives. Miss Lily Mansour expects to leave for New Brunswick on Monday. Miss Lily Mansour's home is saddened by the arrival of a daughter. Mrs. C. A. Sharp has a tumor removed from her left breast. Her sister, Mrs. Shirley, of West Somerville, is staying with her. She came on the 12th Sept. to visit her sister. Digby, Sept. 23.—Government cruiser Constance, Captain May, is in port this morning, having arrived last night from Grand Manan. About 200 soldiers arrived here Saturday via Prince Rupert, returning home from Sussex (N. B.) They left by special train. The barque Albert is off Digby with lumber from Annapolis for Buenos Ayres. Rev. A. R. Higgins, of Middleton, has been called to the pastorate of the Grace Methodist church, Digby, to fill the place vacated by Rev. W. H. Evans, who will leave Digby next June. Fred L. Jones, customs inspector, has purchased from John Walsh a building ground on the corner of the new street, and will probably erect a summer residence. The relative of the missing man, Bobb. Hinzman, has received the reward of \$100. The dredging has been finished in the Raquette and the sows will be towed to Bear River today. Digby, Sept. 23.—H. F. Talbot, hand-master of the Digby Cotton Band, has resigned his position here and has accepted a similar position with the Carleton Place Band. A. A. Talbot, band leader and organist, Mr. Talbot has made for himself an enviable reputation and although the people of Digby regret his departure they wish him the best wishes of all for his further success. Barques Trinidad and Alexander Back are off Digby with lumber from Annapolis for Buenos Ayres. Schooner J. W. Cousins, Captain Sims, arrived here yesterday with 20,000 pounds of the Daisy Linden, Captain Williams lead, 20,000 pounds. The Quaker, Captain Longmire, is fitting out for the haddock fishery. Schooner Electric Light, Capt. James Dixon, is being repaired at Syde & Co. The Countess wharf and made ready for the autumn packet business between this port and St. John.

TRURO.

Truro, Sept. 23.—(Special)—The Nova Scotia Dental Association met here today for its annual meeting. The president, Dr. G. A. Rogers, elected as president, Dr. F. S. Rankin, Truro, vice-president, Dr. C. S. McFarland, Bridgetown; Dr. C. S. McFarland, Truro; secretary, Dr. W. F. Ryan, Halifax. Dr. J. G. Dunbar, the retiring president, made a neat address on leaving the chair and the new president very graciously acknowledged the honor conferred upon him. The sessions were taken up with a discussion of matters of interest to the profession. Your correspondent had an interview with J. P. Edwards, manager of the Montserrat Pipe Works at Londonderry, today and was informed that the report of the purchase of the plant by Drummond & McCall is correct. The Londonderry Iron Works will be opened up on a large scale at once. The deal was consummated quietly and Manager Edwards was surprised that the report was correct. He says there are no details arranged yet. Truro, Sept. 24.—(Special)—Truro has invited H. B. Thompson, assistant maritime Y. M. C. A. secretary, to take the position of secretary of the Truro Y. M. C. A. by the transfer of P. position vacated by the resignation of H. B. Thompson. It is thought probable the maritime committee will concur in the invitation and that Mr. Thompson will accept. There was a grand celebration in the Baptist church at Bass River last night of the fifteenth anniversary of the establishment of the Baptist church there. The Colchester Baptist church met with a congregation in a public meeting and address giving the detailed history and progress of the church for the last half century were delivered. It is now in a most favorable condition and doing excellent work. The Nova Scotia Dental Association closed its session today. It was almost wholly devoted to matters of interest to the profession. Last evening visiting dentists had a jolly drive around town and were entertained at luncheon. Jessie MacLachlan gave a concert here tonight. It was a triumph. A very large audience was present. She responded to many encores and entirely captivated the audience. D. POTTINGER, General Manager, Moncton (N. B.), June 10, 1902. GEO. CARVILLE, C. T. A. City Ticket Office, 1 King Street, St. John (N. B.)

BARRINGTON.

Barrington, N. S., Sept. 23.—(Special)—This place was delighted tonight at the arrival of the first passenger train from Yarmouth since the discontinuance of service in January, 1901. The cause of the discontinuance has been a matter of dispute ever since, and greatly to the annoyance and inconvenience of Barrington, which is the centre for a population of 8,000 people in the district. A very large nearest railway point for the remainder of Shelburne and Queens counties. Messrs. Brill and Fletcher, the principal members of the company owning the railroad, paid a visit to this place a month or two ago, and it is stated that as a result of their visit regular running arrangements to Barrington will be re-inaugurated on October 1st. An official announcement of this has yet been made, but the present through train is being run for the sake of excursions to the Yarmouth exhibition at present in progress. Judge Meagher, who acquired such fame in Sydney recently, came to Truro yesterday, with supreme court business and will be in Shelburne next week. Attorney-General Longley, of the Nova Scotia government, also came through from Halifax yesterday and proceeded to Shelburne on a moose hunting trip.

CLAUDE W. PETERS ROBBED.

Former Moncton Bank Clerk Victim of Audacious Theft. A St. John's (N.B.) paper recently says: The many friends of Claude W. Peters, formerly of the Bank of Montreal here, will be sorry to learn that he has been the victim of an audacious theft recently after leaving here he moved to Moncton, where he got married. He was in Moncton for some time, and during that time he was robbed of a large sum of money. He is now in St. John's, where he is recovering from the effects of the robbery. The police are trying to trace the thief, but have not been successful yet. The robbery took place in a hotel in Moncton, and the thief was seen to flee with the money. The police are trying to trace the thief, but have not been successful yet. The robbery took place in a hotel in Moncton, and the thief was seen to flee with the money. The police are trying to trace the thief, but have not been successful yet.

DIGBY.

Digby, Sept. 23.—Government cruiser Constance, Captain May, is in port this morning, having arrived last night from Grand Manan. About 200 soldiers arrived here Saturday via Prince Rupert, returning home from Sussex (N. B.) They left by special train. The barque Albert is off Digby with lumber from Annapolis for Buenos Ayres. Rev. A. R. Higgins, of Middleton, has been called to the pastorate of the Grace Methodist church, Digby, to fill the place vacated by Rev. W. H. Evans, who will leave Digby next June. Fred L. Jones, customs inspector, has purchased from John Walsh a building ground on the corner of the new street, and will probably erect a summer residence. The relative of the missing man, Bobb. Hinzman, has received the reward of \$100. The dredging has been finished in the Raquette and the sows will be towed to Bear River today. Digby, Sept. 23.—H. F. Talbot, hand-master of the Digby Cotton Band, has resigned his position here and has accepted a similar position with the Carleton Place Band. A. A. Talbot, band leader and organist, Mr. Talbot has made for himself an enviable reputation and although the people of Digby regret his departure they wish him the best wishes of all for his further success. Barques Trinidad and Alexander Back are off Digby with lumber from Annapolis for Buenos Ayres. Schooner J. W. Cousins, Captain Sims, arrived here yesterday with 20,000 pounds of the Daisy Linden, Captain Williams lead, 20,000 pounds. The Quaker, Captain Longmire, is fitting out for the haddock fishery. Schooner Electric Light, Capt. James Dixon, is being repaired at Syde & Co. The Countess wharf and made ready for the autumn packet business between this port and St. John.

TRURO.

Truro, Sept. 23.—(Special)—The Nova Scotia Dental Association met here today for its annual meeting. The president, Dr. G. A. Rogers, elected as president, Dr. F. S. Rankin, Truro, vice-president, Dr. C. S. McFarland, Bridgetown; Dr. C. S. McFarland, Truro; secretary, Dr. W. F. Ryan, Halifax. Dr. J. G.
