Learn why PURITY FLOUR is unlike any other brand

PURITY FLOUR is unlike any other brand of flour. No two milling companies follow exactly the same process of milling. In fact, no two different brands of flour in the world are exactly alike in quality.

And here is another fact worth knowing: Every wheat berry contains both high-grade and low-grade portions.

The process of milling **PURITY** flour costs more than to mill ordinary flour. The low-grade portions are separated and excluded. **PURITY** is an ALL HIGH-GRADE, hard wheat flour. It has greater strength, greater absorption and greater expansion. It is a thirstier, more elastic flour. It drinks more water and expands into more loaves.

Use **PURITY FLOUR** for your next batch of bread. Count the loaves. You'll find you have made "MORE BREAD AND BETTER BREAD" from **PURITY** than when you've used an equal weight of weaker and cheaper flour.

PURITY FLOUR

"More bread and better bread"

IMAGINE, if you can, how much whiter, and more toothsome, and more nutritious, the bread made from such a HIGH-GRADE flour must be.

And can you imagine yourself enjoying the flaky pie-crust and the light, delicate cake?—your reward for using **PURITY** flour

When making pastry, please remember to add more shortening than required with ordinary flour—for on account of its extra strength, **PURITY FLOUR** requires more shortening for best pastry-results.

Yes, **PURITY FLOUR** costs slightly more than ordinary flour. But use it once and you'll say it's worth more—much more—than the difference.

Add **PURITY FLOUR** to your grocery list right now.

FORECAST OF HOME RULE BILL

Ireland to Get Grant of \$10,000,000 Annually

London, Feb. 2.—The Daily Chronicle publishes a forecast of the home rule bill. This provides that the Irish parliament shall have full control of customs and excise, and provision will be made for the maintenance of complete free trade between England and Ireland.

Ireland is to receive for fifteen years an annual imperial subsidy of \$10,000,000 after which she will make contributions to the imperial expenditures, based on a percentage of her revenues.

The trial parliament will consist of two houses, a legislative council of about fifty members, and legislative assembly of 108 members. The council will have a suspensory veto on legislation. In the event of a disagreement between the two houses after the second rejection of a bill by the council it will be submitted to the two houses deliberating and voting together, and adopted or rejected according to the decision of the majority.

Ireland will continue to be represented in the imperial parliament, but in greatly diminished numbers.

The Irish parliament shall have no control with respect to the navy, army or militia, foreign policy, coinage, military camps or coast lighting and will be forbidden to establish or endow any religion or deal with any religious matters.

According to the forecast it is understood that the Irish constabulary will be controlled by the imperial authorities for a period of twelve years.

CATARH CANNOT BE CURED with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

DEATH OF DUKE OF FIFE

Assuan, Upper Egypt, January 30.—The Duke of Fife died here at 6 o'clock last night. The end, though not expected, came with startling suddenness, for the doctors attending His Royal Highness had not given up hope that the turn for the worse they noted at the end of last week would be arrested. The Duke's constitution, however, proved unequal to the strain of pneumonia and congestion of the lungs, following on the shock caused from exposure when the SS. Delhi was wrecked off the Coast of Morocco, and he passed peacefully away yesterday.

Ala. or William George Duff, first Duke of Fife, and sixth Earl of Fife, was born November 15, 1840, and succeeded his father in the earldom in 1870. He married in 1869 H. R. H. Princess Louise eldest daughter of the late King Edward and sister of King George, who was eighteen years his junior. The issue was two daughters, Princess Alexandra born 1861; and Princess Maud born 1863. Upon his marriage to the Princess Royal he was created a duke.

WOMEN IN AUSTRIA

A strenuous suffrage campaign is being waged in Austria for the restoration of the former electoral rights of women, such as that for the Diet of Bohemia, held since 1861, but not extended to the National Parliament in Vienna when adult suffrage was granted in 1907. Czech women, supported strongly by the men, have also organized suffrage clubs all over Moravia, and are publishing an enterprising weekly paper called "Woman's Cause."

Here is a message of hope and good cheer from Mrs. C. J. Martin, Boone Hill, Va., who is the mother of eighteen children. Mrs. Martin was cured of stomach trouble and constipation by Chamberlain's Tablets after five years of suffering, and now recommends these tablets to the public. Sold by all dealers.

BIBLE SOCIETY OFFICERS.

Newcastle Branch of the British and Foreign Bible Society elected officers last week, as follows:—Mrs. William Aitken, honorary president; Mrs. H. T. Cousins, president; Mrs. Osborne Nicholson, treasurer; Miss McLeod, secretary; Mrs. Gough and Mrs. Davidson additional members of executive.

Do you know that there are real dangers in a common cold, that in any other of the minor ailments? The safe way is to take Chamberlain's Cough Remedy, a thoroughly reliable preparation, and rid yourself of the cold as quickly as possible. This remedy is for sale by all dealers.

THOUGHT IT WAS CANCER

"Fruit-a-tive" completely restored me. SYDNEY MINES, N.B. Jan. 24th, 1920. "For many years, I suffered tortures from indigestion and dyspepsia. Two years ago, I was so bad that I could not eat anything. I also suffered with constipation. I consulted physicians, as I was afraid the disease was cancer, but medicine gave only temporary relief.

I read in the 'Maritime Baptist' about 'Fruit-a-tive' and the cures this medicine was making and I decided to try it. After taking three boxes, I found a great change for the better and now I can say 'Fruit-a-tive' has entirely cured me when every other treatment failed, and I recently say 'Thank God for 'Fruit-a-tive'.

EDWIN ORAM, Sr. "Fruit-a-tive" sweetens the stomach, increases the actual quantity of gastric juice in the stomach and causes complete digestion of all sensible food. 'Fruit-a-tive' is the only medicine in the world made of fruit juices. See a box, 6 for \$2.50, or trial size, 25c. At all dealers, or from Fruit-a-tive Limited, Ottawa.

NAVAL SECRETS

Every Workman Employed on a New Warship Aids to Take An Oath That He Will Reveal Nothing He Sees.

The recent appointment of Mr. Winston Churchill to be head of the Admiralty recalls the fact that there is no more jealously-guarded department than that over which he now holds sway. The head of the Navy is the most reticent man in the Cabinet—when question time comes round. Whenever an answer is given you may be quite sure that it doesn't give very much away.

All new ships are built with the greatest possible secrecy. To begin with, every man who is employed, in whatever capacity, on a new warship has to take an oath that he will never reveal anything he may learn. No outsider is allowed anywhere near the building yards. When the first Dreadnought was being built, for instance, the great vessel was guarded so jealously that no one save those actually employed on her, were allowed within forty yards. To show how strictly this order was carried out, two post-captains of the Navy, in uniform, were turned back by the police and private detectives on guard.

The actual plans of a new battleship are the most carefully guarded of all the Admiralty's secrets. They are kept in rooms which rival any strong-room of a bank. The draughtsmen never have the whole plans in their possession. Parts are given out at a time to different men, and every draughtsman is carefully watched in order that he can take no copy of the part of the plan in front of him. So well are the complete plans divided up that even if three or four men agreed to act together they would be unable to find out much about Britain's latest Dreadnought. Whenever any portion of the plans goes out of the strong-room its movements are as carefully watched and checked as those of the keys of the room.

When the German Emperor visited Gibraltar a few years ago the greatest precautions were quickly taken in the port. The most possible way to prevent members of the Kaiser's suite seeing too much. Sentries were placed at all sorts of odd corners on board all the men-of-war. Every part of the vessels was carefully guarded, and more than one German officer who had "wandered" below was politely shown the way up to deck again.

PILGRIMS TO MECCA

Of All the Millions Who Visit Mecca Not a Score of Christians are Known to Come Out of the Sacred City Alive.

Although one of the most inaccessible cities on earth, Mecca each year has visitors in such number that it must be ranked in this particular with London and New York. Even the world's metropolises on the Thames can boast no such cosmopolitan character as is imparted to this mysterious city in the wilderness of Arabia by the myriads of pilgrims, who at the cost of incredible pains annually crowd into its confines. The city is the oldest place of resort in existence, yet of all the millions who have visited it not a score of Christians are known to have come out alive. No flag of citizenship would save a man's life were he known to be a Christian within the sacred precincts of the city, where the Prophet himself decreed that no unbeliever should set foot. Of the 250,000 pilgrims in the world only 15,500,000 live under the Turkish flag, yet most of them acknowledge the Sultan of Turkey as their caliph, the successor of the Prophet. As Meccans are extremely fond of the Mecca pilgrimages, blind to gather his disciples into a unity which could be effected in no other way, Mecca, says Dr. Samuel M. Zwargan, of Arabia, "has become the religious capital and the centre of universal pilgrimage for one-seventh of the human race."

THREAD BUSINESS

The Originator of the Industry Was the Widow of a Minister Who Founded the "Largan Thread" Business.

It is strange that the first thread made in Scotland had a tragic connection with Paisley, for not far from where the Fergusie Thread Mills now stand six persons—two men and four women—were burnt to death in 1897 for the alleged crime of having bewitched Christian Shaw, the oldest daughter of the laird of Largan, a small estate in the neighborhood, when she was a child of eleven years of age. She was married to a minister, and on his death returned to her father's house. She was a great enjoyer of spinning-wheel, and as she kept spinning the fine linen yarn, such as was used in Paisley for the making of lawns, it occurred to her that it might be woven into thread, suitable for dry sewing or embroidery needs. As all the thread used for this purpose came at that time from Holland, she commissioned a friend who was going over there to purchase for her a spinning-wheel, and as she kept spinning, performing every part of the process with her own hand. The mill she had was small, and ran only twelve hours at a time. A fine thread equal to the Dutch was produced, and when by Lady Blyth, the widow of the laird, the makers of lawns there saw that the thread was so good, they began to order it. The thread was sold in 1911, although some say when then it was sold, it was the best in the world. The thread was sold to the makers of lawns, and the thread was sold to the makers of lawns, and the thread was sold to the makers of lawns.

COULD NOT RAISE MY RIGHT ARM

OLD BRIMFORTH, C.B. "For the past 21 years, I have been suffering with Rheumatism. When I read in the papers that GIN PILLS would positively cure rheumatism, I wrote you for a free sample to try. This is the season of the year when mothers feel very much concerned over the frequent colds contracted by their children, and have abundant reason for it as every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases that so often follow. Chamberlain's Cough Remedy is famous for its cures, and is pleasant and safe to take. For sale by all dealers. 338.

35 PER CENT. OF GERMANS NOW SOCIALISTS

According to the 'Reichsanzeiger' of Berlin, the Socialists now number 35 per cent of the German nation—that is, about 23,000,000 men, women and children in the German Empire alone.

In 1907 of the 13,350,608 registered voters 84.7% or 11,282,775, went to the polls. Of these 3,250,020, nearly 20% voted Socialist.

In 1912 of the 14,411,777 men over 21 years of age registered 12,208,808, or 84.5% voted. Of these 1,250,329 or almost 35% voted the Socialist ticket.

In 1907 the Socialists elected 29 members on the first ballot and 14 on the second—total 43, out of 307. Last month they elected 64 on the first ballot and 40 on the second—110 in all—thus becoming the strongest party in the parliament as well as in the nation.

Was Aged 117

Oldest Man in Ireland Died in Kelleigh

London, Feb. 2.—Martin Dunne, a farmer, said to have been the oldest man in Ireland, died yesterday at Kelleigh, Kings county. His age was 117 years, six months.

According to Government Estimates

\$100,000,000000

was made in Western Town Property during the year 1909

Did you participate in these huge profits or did you "pigeon hole" the propositions submitted to you by your western friends for future consideration? In short, was you the man who made a profit or the unfortunate one who had the chance but did not possess sufficient judgment to recognize the opportunity or sufficient courage to close a deal? The man or woman entitled to sympathy is the one who says: "Five or ten years ago I had the chance to buy this or that property at \$100 or \$500, and now it is worth \$10,000." The average person sneers at the person who makes such a statement and says: "I would have bought and made that money." Are you going to say five years from now that you had a chance to buy a lot at Poe, Alta., at from \$50 to \$100 each, and you are going to be the man who will have from \$1,000 to \$10,000 in cash as a result of having bought property in this town in this year of grace, 1911?

POE A COMING COMMERCIAL CENTRE

Poe is located on the main line of the Grand Trunk Pacific Railway between Edmonton and Saskatoon. It is located in one of the finest farming districts in Western Canada. The surrounding country is settled by a progressive type of farmers and consequently will become the market centre for Northern Alberta. Poe district possesses rich coal mines, is close to rivers and lakes and large forests are easily accessible from this point. These natural resources are inure for the residents of the town, first, low cost of living, and second, great commercial activity, two essentials in the upbuilding of a large town, thus creating valuable real estate.

POE AS A MANUFACTURING CENTRE

This townsite and contiguous territory has the requirements outlined by large manufacturing concerns for the location of large factories or large enterprises of any kind employing large numbers of people. The rivers and lakes furnish water, the coal fields and forests furnish fuel and cheap building material, the fine farming lands furnish farm products, enabling the residents to live at a low cost.

This town is located on the main line of a transcontinental Railway, assuring the necessary transportation facilities. These combined conditions will furnish cheap labor, one of the most important features of a manufacturing centre.

OPPORTUNITY

Poe townsite was recently placed on the market and already over 200 lots have been sold, and many of these lots have already changed hands at a substantial increase in price. Most of these lots were purchased by representative business men throughout Canada, who are now profiting by their foresight.

The townsite is high and dry and very suitable for building purposes.

is useless unless you possess the courage to act. You might possess great wisdom, you might read a good deal or travel much and thus see all kinds of opportunities to make money, but unless you have the courage to act on your judgment and wisdom all of these desirable qualities are entirely useless. Lots in Poe are a good investment at present prices. The town is bound to grow rapidly. Owing to the easy terms of payment you have the ability to buy and if you do not buy now it is because you are lacking in courage, and the chances are you will never be like the man you now admire most, rich, courageous and wise.

TORRENS TITLE

Poe townsite is held by us under the Torrens system of title. Under this system the title is guaranteed by the Government, therefore absolutely safe.

PRICES AND TERMS

Prices of lots range from \$50 to \$100 each, and they can be purchased on terms of one-tenth cash, balance in eighteen equal monthly payments; or quarter cash, balance in six, twelve and eighteen months.

HOCKEY

Victorias Winning Streak Continues

Those who attended Wednesday night's Hockey Match surely received their money's worth, at least in quantity if not in quality. Ladies night was quite a success, a goodly number of the fair sex having assembled to see our local gladiators meet in friendly combat, each striving to display their superiority in manipulating that small rubber disc.

Only by twenty minutes grueling overtime play was a decisive issue reached in Wednesday night's game which remained a tie at the close of the second half. The game was strenuously contested from the very start until the close of the first ten minutes of overtime play which did not effect the game as both teams failed to score. However, with the opening of the last ten minute period of overtime the I. R. C. appeared to weaken and while working like Trojans their play was ineffective and the Vics chalked up three in succession making the final score six to three.

The I. R. C. aggregation of puck chasers are undoubtedly in much better condition than when they played the firemen on the Wednesday of the previous week but the last ten minutes overtime they were unequal to the strain and to that was due the three successive goals scored by the Vics.

From the spectators standpoint of view the game was moved by many offside plays and while to the average looker on it spoils the game, still it is necessary to hold up all violations of the rules of hockey in to be played here to any degree of efficiency.

The penalties landed out were of the weighty variety and were distributed most impartially. Not a single bench warmer getting off with anything under two minutes while three and five were very conspicuous. Each game played is more and more indicative of the very narrow margin existing between the three teams forming the Campbellton Hockey League and while the Victorias are at present on the top of the leap they have by no means cinched the local championship, which with each game showing greater strength on the part of the losing teams is still in doubt.

Line up of Teams
I. R. C. goal Kelly
Savoie point J. Matthews
Damboise cover Delaney
Mercereau rover Schurman
Lutz centre Wallace
Martin R. wing R. Matthews
Boudreau L. wing Keith

GOAL SOORES
Lavoie 1 Wallace 1 Damboise 1
Wallace 1 Martin 1 Keith 1
Delaney 1 Keith 1 Delaney 1
The game started with Wallace getting the puck in the face off but losing on a pass to the I. R. C. forwards who rushed things in the opposite direction until stopped by the Vics' defence then the puck began to move in fast and furious play

with both teams striving their utmost to score. For the first ten minutes the Vics' hammered about five shots at the I. R. C. goal to one in return the advantage being due to combination play. Then Lavoie obtaining the puck runned up the ice alone ran the gauntlet of the Victoria defence and notched the first goal of the evening in favor of the I. R. C.

After the face off the I. R. C. forwards made a splendid run up the ice using combination for the first time. This play was wrecked upon hitting J. Matthews at point who in consequence received two minutes for tripping. R. Matthews and Wallace by a pretty play got a clean shot at the nets but it was neatly turned aside by G. Matthews. Then Boudreau and Damboise worked a similar trick to meet a like fate as Kelly's hands. Boudreau again tried to score but was effectively blocked by J. Matthews.

The game continued fairly fast with quite a number of offside plays which were immediately held up and faced off. Mercereau suffered 2 minutes penalty for tripping. Then Lavoie scored another run but was blocked by Delaney who intercepted the puck, carried it up the ice but was blocked while shooting. Hay Wallace getting the puck from a mix up in centre managed to slip it in past G. Matthews, tallying the first goal of the evening for the Vics.

Keith was the next man to warm the bench for two minutes and Damboise in a swift run eluded the Vics' defence and found the nets the game ending at half time two to one in favor of the I. R. C.

The other innings were equally well played and equally exciting.

CONFIDENCE

We Back up Our Statements with Our Personal Reputation and Money.

We are so positive that we can relieve constipation, no matter how chronic it may be, that we offer to furnish the medicine free of all cost if we fail.

We think that it is worse than useless to attempt to cure constipation with cathartic drugs. Cathartics may do some harm. They may cause a reaction, irritate and weaken the bowels, and make constipation more chronic.

Constipation is often accompanied and may be caused by weakness of the nerves and muscles of the large intestine or colon. To expect a cure you must therefore tone up and strengthen those parts and restore them to healthier activity.

The discovery of the active principle of our remedy involved the labor of skillful research chemists. This remedy produces results such as are expected from the best-known intestinal tonic, and it is particularly prompt in its results.

We want you to try Rexall Remedies on our guarantee. They are exceedingly pleasant to take and are ideal for children. They apparently act directly on the nerves and muscles of the bowels, having, it would seem, a neutral action on other organs or glands. They do not purge or cause inconvenience. If they do not positively cure chronic or habitual constipation and thus relieve the myriads of associate or dependent chronic ailments, your money will be refunded. Try Rexall Remedies at our risk. Three sizes of packages, 10c, 25c, and 50c. Remember you can obtain Rexall Remedies in this community only at our store—The Rexall Store.

CAMPBELLTON TIGHTENS ITS GRIP ON M'LELLAN CUP

Moncton Curlers Defeated in Good Game

On Wednesday evening Campbellton were asked to defend the M'LeLLan Cup for the second time, last week's challengers St. Stephen being unable to appear. Moncton were the visitors this time with two good rinks, but they were not strong enough to beat our boys. The games were keenly contested throughout, Murray although a point or two behind playing a steady consistent game. O'Keefe playing a winning game all the way. Campbellton won the match by nine points. After the match a splendid supper was served in the rooms, a large number sitting down, among the distinguished guests being Judge Botkin, U. S. Consul, Judge H. M. McLatchey and Mr. F. M. Anderson. The usual toasts were honored, and appropriate speeches were delivered by members of the both clubs.

The Scores were as follows:—

Campbellton	Moncton

IMPORTANT BUSINESS CHANGE

Bruce's Clothing Store Bought Over by Mr. Albert A. Andrew.

Last week the old established business of the late Mr. D. J. Bruce, was taken over by Mr. Albert A. Andrew.

This store occupying a prominent site on Water street has long enjoyed the confidence of the people, and in the able hands of Mr. Andrew will continue to serve the public in clothing and general furnishings with the same satisfaction as before.

Mr. Andrew brings to his new sphere of labor, a well trained business grasp of the needs of the hour, and under his careful guidance it will no doubt continue to flourish as before. Mr. Andrew will retain the personal of the old store, Mr. George H. Wallace, continuing to assist Mr. Andrew in the conduct of the new business. Old patrons of this establishment will find themselves served with diligence and care as in the past and new clients will have all their wants supplied with careful attention.

The late Mr. Bruce opened up this establishment many years ago and the store has always enjoyed a large measure of success.

Under the new management it is felt in business circles that the prosperity of the past will be largely overclouded in the bright and hopeful outlook for the future.

Mr. Andrew enters on his new venture with the best wishes of all his friends and business associates, and with the hope that a full measure of success will meet his efforts.

HEAVY DRINKER CURED

Samaria Cured Him and He Helps Others.

A man who has been released from the awful cravings of drink, and whose first thought is to help others, shows the spirit of true brotherhood and philanthropy. Read his letter. "The Samaria Remedy Co., Toronto, Ont.

Will you please send me book on drink, also circulars relating to your valued remedy for the drink habit. I wish to hand these to a friend who is going to ruin through drink. You will remember that I have taken your remedy, and I find it all you claim it to be. I never think of taking or using strong drink in any way as all desire for it has left me. I cannot speak too highly of your wonderful remedy. You may use my name in any way you wish in public.

L. Lilywhite, Baigden, Ontario. Samaria Prescription is tasteless and odorless, and dissolves instantly in tea or coffee, or can be mixed with food. It can be given with or without the patient's knowledge. It removes the craving for drink, builds up the system, and restores the nerves. Drink becomes distasteful and even nauseous.

Drink is a disease not a crime. One drink of whiskey always invites another. The inflamed nerves and stomach create a craving that must either be satisfied by more whiskey or removed by scientific treatment like Samaria Prescription. Samaria Prescription has been in regular and successful use by Physicians and Hospitals for over ten years.

If you know of any family needing Samaria Prescription tell them about it. If you have a husband, father or friend that is drifting into drink, help him save himself. Write to-day. A FREE TRIAL PACKAGE of Samaria Prescriptions with booklet giving full particulars, testimonials, price etc, will be sent absolutely free and postpaid in plain sealed package to anyone asking for it and mentioning this paper. Correspondence strictly confidential. Write to-day. The Samaria Remedy Co. Dept. 77 49 Colborne St. Toronto Canada.

TOWN COUNCIL

(Continued from page 7)

(B) Any County, City or Town in the Province, upon a majority vote of its qualified ratepayers, voting at a regular municipal election or at a special time set apart for such voting, to reduce or abolish within its jurisdiction, Income and Property Qualifications, or either of them, for voters and for candidates for the offices of County Councillor or Mayor and Alderman.

2.—That this town council request the co-operation of the union of N. B. municipalities and of the councils of all the municipalities of the province in pressing the beforementioned legislation upon the local government and legislature.

ALD. KETHRO

Ald. Kethro thought that the motion was absurd. If people wanted respectable men to devote their attention to the town, they wanted men with some stake in the country, not men that might put the town in debt and then fly away.

ALD. BUTLER

Ald. Butler said he would like to know what acre in town was worth as much as one citizen. We were making men. One man with manhood in him was worth more than a hundred lots of land with money in the bank. The question was, shall men speak or shall ground speak? Let men speak! Let boys that work, study and think, speak! If one gives his energy to the public he is no good in the town just because he has no land? When men speak they would have a country—not till then.

ALD. STABLES

Ald. Stables said it would be a nice country without property qualifications. People with property—not Tom, Dick or Harry—should run the town.

ALD. BUTLER

Ald. Butler asked Ald. Stables of what value his (Stables') property would be if it were not for men. If there were no men property could not be accumulated—nothing could be done.

MAYOR PEDOLIN

The Mayor thought that property should be represented by property owners. Would people in their private business entrust their affairs to men without means? Ald. Butler—Yes, you have to do it.

ALD. CLARK

Ald. Clark thought that while he might be valuable without property he would be much more valuable with it. The men with property were the men who should transact the business of the country.

MAYOR PEDOLIN

His Worship cited a case long ago in Fredericton when the vote of the propertyless men prevented the city taxing itself for Health purposes, until a special Act was passed by the Legislature to remedy the evil.

ALD. STUART

When Ald. Stuart began to speak in closing the debate, Ald. Clark claimed he was not sticking to the question and raised a point of order. The speaker, supported by Ald. Butler, claimed he was in order, and the Mayor so decided.

Ald. Stuart spoke as follows:

We are, as a people, much inclined to boast of the freedom of our representative institutions, but, when we take the trouble to look beneath the surface of things, we see that our system of representation is very far from being perfect—that it is, in many cases, grossly unfair and partial and evidently intended to keep the common people quiet under injustice by making them believe that they have an equality of opportunity which they have not.

When, in 1264, under the dictatorship of Earl Simon the Righteous, representatives of the Commons were admitted to membership in the English parliament, until then exclusively composed of the great landed proprietors, that far-seeing statesman decreed that all members of the parliament should sit and vote in the same house on equal terms. But as soon as the reactionary element again triumphed they, afraid to abolish the representation of the Commons, did the next worst thing they could, that is, separate the Lords and Commons, reserving to the so-called upper house the right to veto any Act of the representatives of the mass of the people. Thus, till 1911, for over 600 years, the British Commons were subject to the supremacy of an hereditary aristocracy owing its authority in the first place to the mere brute force of the sword that accomplished the Norman Conquest.

And, to keep membership in the Commons itself as exclusive as possible, there was no salary for members of that house until last year.

In 1867 by the British North America Act, there was saddled upon Canada at the time when the incubus of the old legislative council should have been relegated to oblivion an appointed and irresponsible Senate which possesses the veto in all things and will not hesitate to use it when anything of real value to the working class is proposed by the Commons.

Then, again, although there is no property qualification for candidates for the Dominion Commons or Provincial Legislative Assemblies, the compulsory election deposits of \$200 and \$100, respectively, to be forfeited if the candidate does not receive half as many votes as the winner, tend to prevent more than two political parties contesting elections—to choke off small parties and prevent open criticism of the leading parties by opponents of both.

In municipal affairs the people were, supposedly, given self government, but with a string to it. In some towns only property holders may vote, but in all our New Brunswick municipalities one must be assessed on so much real or personal property or both to be eligible for the position of Mayor or Alderman or County Councillor. That is, the man himself, no matter how honest, how industrious and energetic, how learned and accomplished and NO MATTER HOW POPULAR WITH HIS FELLOW CITIZENS, does not count. He may not represent his neighbors unless he is assessed on so much property. Surely this is carrying the worship of the Golden Calf to the extreme of absurdity.

This is to say, in effect, that all our municipal representatives now holding office, among whom there are many men of ability and integrity, would, if they should suddenly become unable to qualify financially, become at once unfit to retain their positions. Our municipal law says in effect, that only the ability to make money and gain and hold on to property fits a man for membership on boards which control the raising and spending of municipal money, the appointment of assessors, the value property and appor-

taxes and officers to carry out the law. Thus the control of local direct taxation is kept exclusively in the hands of the propertied classes, by the veto of appointed governors and appointed senators and the absence from our system of the Initiative, the Referendum and the Recall, the indirect taxation imposed by the Provincial and Dominion governments is kept out of the hands of the common people.

All this should be changed. The system is unjust. ALL WHO PAY TAXES SHOULD BE EQUALLY ELIGIBLE for the positions controlling the levying and spending of those taxes. Otherwise, the right to vote is a farce. OF WHAT USE IS THE VOTE IF THE VOTERS MAY NOT VOTE FOR WHOM THEY WISH TO REPRESENT THEM? If they must be limited in their choice to members of a certain class—those with so much property—why not deprive them of the vote altogether and let the property holders have all power in name as well as in actual fact?

The argument, often used, that those who have not acquired real or personal property have to pay only a very small portion of the taxes and have no stake in the municipality and, therefore, no interest in the wise and economical government of the same, has no foundation in fact. The propertied man ultimately pays the least tax. He who lives in a rented house, and not the owner, ultimately pays all the taxes on that house, for the owner fixes the rent to cover the cost of wear and tear and taxes and leave a clear profit for himself. So with the business man—he adds their taxes to the cost of the goods they sell and the consumer pays the bill. The citizens who own only the houses they occupy and the farmers who work their own land without hired help are not much better off, in these days of competition and Trusts, than the landless and houseless wage-earner, and their interests are the same as his.

The landless and houseless man whose direct tax is law, but whose indirect tax in rent, etc., is highest of all, has a much greater interest in the prosperity of his town or country than has the more well-to-do citizen, for it is harder for the former to make a living. Knowing, as by sad experience he is coming to know, that any rise in rent and price finally comes out of him, he can be relied upon more than the latter to do his utmost to avoid borrowing and unnecessary expenditure. The present great indebtedness of our towns and cities, provinces and states and nations cannot be charged to the propertyless part of the population, for they have had no voice in incurring them. A change can only be for the better.

The practice of taxing those who are allowed no effective voice in the imposition and disposition of the money thus raised caused the revolt of the English Commons in 1642, the United States in 1775, Belgium in 1830, and has caused incalculable trouble since. The system is out of date. It is time for a change. All adult citizens—white and black, rich and poor, male and female—should have equal opportunity in every walk of life.

MOTION LOST

On the question, being called the motion was lost, on the following vote:

Yea—Ald. Stuart and Butler.
Nay—Ald. Kethro, Stables, Clark, Dickinson and Russell.

The Mayor submitted his annual report, which was ordered printed in Town Book. His Worship was pleased to note the improved condition of the town's finances; that fire losses had been slight, owing largely to the efficiency of the fire department and our splendid water service; that the Public Works department had made all the improvements possible; and the economical tendency of the Council.

OBITUARY

MISS FLORA A. POWELL

On the 2nd instant, at the home of her sister Mrs. Ezra Keswick, Harcourt, Miss Flora A. Powell passed peacefully away at the age of 97 years.

The deceased had been in failing health for some weeks, but it was not thought the end was so near. Not having been able to take much nourishment of late, Miss Powell sank quite rapidly, when, on Friday the spirit took its flight.

Miss Powell was one of the older members of a large family of eight, five of whom survive her. The surviving members are, Mrs. Ezra Keswick, Mrs. Wm. Mundie, Mrs. H. Bates, and two brothers Charles and Robert.

She deceased for a number of years followed the profession of school teacher, and in later years that of trained nurse. She was widely and favourably known. For quite a number of years she was an earnest and faithful worker in the division of the Sons of Temperance, and was ever ready and willing to help, on every good cause. Miss Powell will be much missed by all who knew her.

The funeral was held Sunday forenoon. The service at the house was held by Rev. R. H. Staver, while that at the grave was held by Rev. J. R. Miller of Bass River.

Interment was in the Presbyterian Cemetery at Bass River.

CAPTURED A LARGE HAWK

At the home of Louis Gallon in Upper Nelson, on the third inst. a hen hawk in pursuit of some tame pigeons which went under the kitchen veranda for safety, dashed through the window scattering the glass all over the floor and then flew into the dining room. While trying to get out through the window Mr. Gallon captured it after a hard struggle and killed it. It measured three feet eleven inches from tip to tip of the wings and one foot ten inches from point of bill to end of tail.

DOCTOR ADVISED OPERATION

Cured by Lydia E. Pinkham's Vegetable Compound

Canifton, Ont.—"I had been a great sufferer for five years. One doctor told me it was cancer of the uterus, and another told me it was a fibroid tumor. No one knew what I suffered. I would always be worse at certain periods, and never was regular, and the bearing-down pains were terrible. I was very ill, and the doctor told me I would have to have an operation, and that I might die during the operation. I wrote to my sister about it and she advised me to take Lydia E. Pinkham's Vegetable Compound. Through personal experience I have found it the best medicine in the world for female troubles, for it has cured me, and I did not have to have the operation after all. The Compound also helped me while passing through Change of Life."—Mrs. LUTHER BLAIR, Canifton, Ontario.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has proved to be the most successful remedy for curing the worst forms of female ills, including displacements, inflammation, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, and nervous prostration. It costs but a trifle to try it, and the result has been worth millions to suffering women.

Don't let repairs eat up your profits

Whether they represent actual cash outlay, or only the time of yourself and your help, repairs are waste just the same. When you make an improvement—no matter how small its cost may be—let it be permanent. Then it is a real investment, something on which you can realize in cash should you decide to sell your property; and something that will pay you constant dividends in convenience, sightliness and comfort as long as the farm remains your own.

Concrete Improvements Are Permanent

They last as long as the very hills themselves. They do not require experts to build them. Their first cost, in most cases, is no more than for inferior materials.

Aren't you interested in the subject of permanent, modern farm improvements?

Then write for the book that describes hundreds of them—

"WHAT THE FARMER CAN DO WITH CONCRETE"

It isn't a Catalogue. Every one of its 160 handsomely illustrated pages is interesting and instructive. They tell how to mix concrete, how to place it, what can be done with it. The book was printed to sell for 50 cents, but we have a copy for you, free.

BREEZY MEETING OF NEWCASTLE TOWN COUNCIL

Warm Debate Over Abolition of Property Qualification for Office—Reduction of Assessment Refused—Scott Act and Other Reports—Letter From Sons of Temperance

A special meeting of the Newcastle Town Council was held on the 1st inst. Those present were His Worship the Mayor and Aldermen T. W. Butler, John Clark, J. G. Keir, S. A. Russell, Geo. Stables, H. H. Stuart and, later, C. M. Dickson.

On hearing the minutes of previous meeting Ald. Butler explained why he had been absent from that meeting. He had been assured, he said, by several of the Aldermen that there would be no meeting that night and had, thereupon, gone home. He wished to state that he differed from the belief of the Petitions committee and other Aldermen that the council had no authority to grant a portion of the public streets to St. Mary's Convent. Their law was bad and he had been prepared to show the council that such was the case had he had an opportunity to do so.

The following communication was read:

"Newcastle Division No. 45 Sons of Temperance."

"To His Worship, the Mayor and Aldermen of the town of Newcastle, N. B.
Gentlemen:
On last Christmas Eve, when the Christian world was celebrating our nineteenth century of the coming of the Prince of Peace and King of Righteousness, a fellow being perished in a stable in the very heart of this town; perished within sight of our own happy homes; perished in a strange land, with no hand of friend or loved one to save him from a drunkard's doom. He was killed, we learn, by poisonous liquors in this professedly temperance town where alcoholics are allowed to sell without any apparent restraint."

"The man is dead and buried in an alien grave, without a word of protest as to the manner of his death. But, what matters it? Who cares that a human life has been lost? Tomorrow, some other mother's boy may fill the gap and fall a victim for the poisoner is still at large, carrying on his deadly work."

"In the name of our order, we call upon you, as our representatives of the law and sworn guardians of the town's welfare, to rest not until those responsible for the death of George Murray, be brought to the bar of justice. Help us to redeem the name of Newcastle from the stigma and shame which now attach to it, for having within its borders, dens of iniquity, where not only the body, but the souls of our men and boys are destroyed for time and eternity."

"Yours for Sobriety
(Signed)
Walter J. Dean, Worthy Patriarch,
Adelaide M. Becker."

"Recording Scribe,
Jan. 18th, 1912."

Ald. Clark could not see what the council had to do with the matter referred to in this letter. He moved that it be received, and he on the table till next meeting and that Newcastle Division be requested to send a delegation to lay before the council an outline of the measures which they ask the council to employ in the abatement of the evil they deplore.

This was seconded by Ald. Butler.

Ald. Butler said that the tendency of the town was, unfortunately, to ensure the people who were doing the best they could for it. He would like to see an end of this, in honor into the town. He was

ways. But he wanted to know who were selling liquor in town, merely who were being fined. The motion carried.

It stated that several cases of smallpox had developed during fall of 1910 and last spring, all of which had come from the outbreak in the lumber camps of the Seville district. The board felt that the town had suffered from the lack of having among the members of the County Board. Two cases had appeared in July and these had, without a doubt, been contracted by the parties en route from Vancouver. In connection with the smallpox there might be noted:

- 1.—The outbreak of the disease in one house after a quarantine of 21 days.
- 2.—The occurrence of a second attack after an interval of 7 years.
- 3.—Its appearance in mild form upon one who bore marks of successful vaccination in childhood.
- 4.—That one case came from handling mail from infected district.

No one had died of smallpox, and the cases of typhoid, diphtheria, and scarlet fever had also all been mild.

Attention was called to an instance of discovery of bad meat imported bearing the Government Inspector's stamp.

The appointment of Adam Dickson as Health Inspector had had a good effect.

The expenditures during year were \$1947.02.

The report of the auditor (A. S. Murray) showing accounts correct was received and adopted.

The Finance committee's annual report showed a decrease of \$1209.54 in the town's net liability. It would be necessary to provide for a sinking fund after this to retire debentures as they mature. With the proceeds of the last bond issue of \$30,000 the overdraft of \$23,639.28 at the Royal Bank had been paid off, and a large sum paid on the amount owed the School Trustees. The net indebtedness of the town is now \$193,000; besides about \$50,000 of school bonds.—Total about \$243,000.

The annual report of the Public Works committee was received and adopted.

The annual report of the Light, Water and Sewerage committee showed four electric installations and one new street light. The cost of electric plant had been \$6,175.16 and the returns \$8,638.20, leaving a profit of \$2463.04. There had been 5 water installations. The water department had cost \$4,247.92, and revenue \$3,711.82, leaving deficit of \$536.10. Both departments together showed a profit of \$1926.94 \$225 had been paid for an auxiliary pump, and nothing had been charged to capital account. A large supply of fuel was on hand. An increase of wages was recommended for the chief engineer. More sewerage was wanted. A new condensing plant at the Light station would cost \$4000 and save \$1000 a year to the town.

In closing Chairman Butler highly complimented his colleagues, Ald. Clark and Dickson, on the valuable assistance they had given him. He had wanted to give two days a week of his time to the department, but had not been able to do so.

The Police Magistrate's annual report showed a balance of \$1486.50 paid during year to the Town Clerk. This balance was mostly composed of Scott Act fines.

Scott Act Inspector Dickson's annual report showed \$1521.50 collected in fines, and cost of fees \$209.25, balance of \$1312.25 paid to Town Clerk. The report showed that during 1911, thirty-two complaints had been laid, all by Inspector Adam Dickson. The three searches under warrant were successful. One case was dismissed. There were 28 convictions all for first offence—14 for selling liquor, 8 against the Miramichi hotel, 8 against W. L. Durick; 5 against the Windsor Hotel; and 1 against the County Hotel.

His report for January showed that only one of the four candidates was successful. There had

7 complaints and 5 convictions.

The reports of the Park and Fire committee and Chief Dickson showed that during the year there had been 14 fires and 3 false alarms. The firemen had responded promptly and in no case had the fire spread into adjoining buildings. The worst fires had been—John Ashford's slaughter house, destroyed; Commercial Hotel, badly damaged; J. D. McAuley's barn, destroyed; Jas. Rundle's gasoline hose, destroyed. There were 2000 feet of hose in stock and 500 more wanted. A new hose wagon and considerable material had been purchased. The fire brigade include:

C. M. Dickson, Chief; James Stables, Lieut.; H. A. Taylor, Sec.; Geo. T. Bethune, Chas. Stothart, Wm. Stables, B. F. Maltby, B. Hennessy, Chas. Delano, J. T. Morrissey, P. Russell, W. J. Dunn, Wm. McMaster, John Fallon and Frank Masoon. The park had been well cared for by John Edmunds.

On recommendation of the Petitions committee, the petition of Geo. Watt for reduction in the valuation of the Blanche Mitchell estate was not granted.

The annual report of the By-Laws and Petitions committee was received and adopted.

The annual report of the Ferry committee expressed satisfaction with the service tendered by the boats of the Newcastle Steamboat Co., and the hope that they would be available for next year. All the annual reports of committees were ordered printed in the town report.

Re Property Qualification

Qualification

The abolition of Income and Property Qualifications for offices of Mayor and Alderman and also of County Councillor was then discussed. [The abolition of all such requirements was one of the planks in Ald. Stuart's platform for the last three elections, and application for legislation to remove property qualification for office of Alderman was moved in last year's council by Ald. Butler, who stood alone in its support.] Ald. Stuart moved, seconded by Ald. Butler the following:

1. That this Town Council request the government of New Brunswick and the Legislature to introduce and pass at the next session of the latter an act to so amend the Towns Incorporation Act as to empower:

(a) The town of Newcastle, by a majority vote of its town council or upon a majority vote of the qualified ratepayers voting either at a regular town election or at a special time set apart for such voting to reduce or abolish within its jurisdiction Income and Property Qualifications or either of them, for candidates for the offices of Mayor and Alderman.

Know an Auto From Hood to Tires

Expert knowledge of automobile construction is essential to car owners and drivers alike. To the owner it means certainty when judging a car, and a great saving in cost of up-keep. To the driver it means a greater demand for his services, a larger salary, and a permanency of position. To both it means knowing if a car is right, and when not right, exactly what to do and how to do it.

All this valuable knowledge is set forth in the Automobile Course of the International Correspondence Schools—the most thorough and practical Automobile Course in the world. The subjects covered are: Gasoline Automobiles, Gasoline Automobile Engines, Automobile Engine Auxiliaries, Automobile Carburetors, Electric Ignition, Transmission and Control Mechanism, Bearings and Lubrication, Automobile Tires, Automobile Operation, Troubles and Remedies, Overhauling and Repairing—information that enables you to thoroughly understand any auto, from hood to tires, and how to handle it.

This Course has been prepared by recognized experts actually in the business. In other words, it is practical as well as theoretical.

That bright light on our sky is the reflection of the radiance shed by Mike Gibbons, S. P., of St. Paul, S. P. means some fighter, Algerian.

Gibbons did a Lochinvar from St. Paul and beat up Willie Lewis so thoroughly that while couldn't remember "The Boles de Bouillon or Broadway."

Be it known that Mike Gibbons, who "came out of the west" is the greatest welterweight fighter New York ever saw. He is the marvel of the game for the time being, and experts say all he has to do is to hold out his hand for the title to tumble into it.

When the critics began to talk Gibbons, they drew deeply on their memories. Summed up, he is a combination of everything rare in boxing. One said he was a combination of Jim Driscoll, Abe Attell and Paeky McFarland.

MIKE GIBBONS

Another recalled Jack Dempsey, Jim Corbett and the marvelous Young Griffo, and another added to this that he looked like old Bob Fitz in action. Gibbons has been boxing three years, and is 23. He is tall and slender. Nothing indicates abnormal strength. His legs and waist are small.

Gibbons used to box in the St. Paul Y. M. C. A. gymnasium, and developed such cleverness that he was appointed instructor. Soon afterward he took up the professional game.

OTTAWA AFTER EDDIE KING

While the coast clubs are taking players from the east, the eastern clubs are going to try their hands picking a few from the west. Eddie King, touted as another Fred Taylor, who hangs out at Calgary, has been recommended to the Ottawa club, and the locals will get after him at once. He played with the Stettler team which beat Edmonton for the P. H. Reform cup last winter. King, it is said, was the whole Stettler team in that series. He plays right wing, and is a big fellow weighing somewhere around 180. His Calgary friends wanted him to go to the Wanderers but Ottawa was tipped off first.

South African Football

The South African Football Association are anxious to have another team from England in their country before they seriously consider the project of sending an eleven to the Mother Country. The F. A. lost \$100 on the last trip, but it is expected that the South African Federation would arrange matters so as to prevent any loss to the visitors. Gate receipts for the last tour netted \$15,500, twenty-seven games being played.

PROTEST

Herbert Lang protests Mike Gibbons' assumption of the Canadian welterweight title, claiming that he had the better of their meeting in Winnipeg and offering to prove his superiority before any club for a side bet of \$1,000.

Shabby Treatment

Harvard has broken off athletic relations with Carleton for the Indians' shabby treatment of Vanderbilt University of Nashville, Tenn. Harvard asked Vanderbilt for a game on November 11, but the southern university replied it had a game for that date. Then Harvard offered the game to Carleton, who accepted it. Vanderbilt protested to Harvard that Carleton had agreed to play here on that date. Harvard asked the Indians to play Vanderbilt, but they refused and said Harvard was the same. Carleton then requested Harvard to play for her share of the money.

It will be some time before Harvard will be able to play Carleton. The Indians are now in the hands of the Carleton authorities.

FIRE AT THE MISSION

St. Anne's Church and Monastery Destroyed.

On Saturday forenoon fire was discovered in the church of St. Anne's de Restigouche at Mission Point, and a call for help sent to Campbellton. Owing to the condition of the road across the river it was impossible to get the fire engines over, but a detachment of firemen under Chief Christie made for the conflagration to render what assistance they could. Unfortunately by the time they arrived the flames had secured a firm hold of the church and monastery and it was only a matter of time for the roof to fall in.

The church which was a comparatively new one was not quite finished inside.

The church proper cost about \$30,000 of which Lord Strathcona donated a considerable amount, and the insurance on the church and monastery was \$40,000.

The fire is understood to have been caused by the heating furnaces exploding and scattering the coals all over the basement.

It is understood that arrangements are being rapidly pushed forward to replace the buildings at an early date.

OPERATION FOR PILES FAILED

Zam-Buk Was Then Tried and Worked a Cure.

Writing from Poplar, B. C., Mrs. C. Hanson, wife of the proprietor of the Commercial Hotel, says: "I suffered four years with bleeding piles. The pain was so bad at times that I could hardly walk, and ordinary remedies seemed utterly unable to give me any ease. Finally I decided to undergo an operation, and went to the Sacred Heart Hospital in Spokane. There they performed an operation and did all they could for me. For a time I was certainly better, but within twelve months the trouble started again and the piles became as painful as ever. I tried liniments, ointments, various pile cures, and indeed everything I could think would be likely to do any good, but still I continued to suffer, and the shooting, burning, stinging pains, the dull, aching and wretched, worn-out feeling that the disease causes continued as bad as ever.

"One day I read about Zam-Buk and thought I would try it. The first one or two boxes gave me more ease than anything else I had tried, so I went on with the treatment. In a short time I began to feel altogether different and better, and I saw that Zam-Buk was going to cure me. Well I went on using it, and by the time I had used six boxes I was delighted to find myself entirely cured. That was three years ago, and from then to the present time there has been no return of the trouble."

Zam-Buk is a sure cure for piles, eczema, ulcers, abscesses, cold sores, chapped hands, various sores, burns, scalds, bruises, inflamed patches, and all skin injuries and diseases. Druggists and stores everywhere, 50c. box, or Zam-Buk Co., Toronto, for price. Refuse harmful substitutes.

BLACK CAPE

Black Cape, Feb. 2.—We regret to announce the death of Mr. Duncan Campbell which occurred at his home in Caplin River on Monday Jan. 29, after an illness of about three months which he suffered much during that time. Deceased was 57 years of age and leaves to mourn his loss a wife and two daughters, one son and three sisters and brothers. The funeral took place on Thursday and was largely attended, interment being made in the Black Cape cemetery. Much sympathy is felt for the family in their bereavement.

The W. F. M. S. held their monthly meeting at the home of Mrs. Peter McRae on Saturday afternoon.

Mr. Hastie-Henderson drove to Campbellton last week on business.

Mr. and Mrs. Felix Carey are being heartily congratulated by their many friends on an addition to their family, the new arrival is a bouncing boy.

Mr. Abraham Darg returned from Marlagon Wednesday where he had been visiting relatives and friends. Mrs. Carey who accompanied him is remaining for a while.

POPULAR SONGS

Romantic Origin of Some Well Known Songs — How "Killerney" and "The Star-Spangled Banner" Were Composed.

Composers tell many a curious and romantic story of the birth of songs which have become world-famous, and few of them are more remarkable than those told by Signor Tito Mattel.

"Several of my best songs," he says, "have come to my mind whilst idly strumming with my fingers on a window-pane or table, and my well-known 'Hear the Wind Blow' was written when I was having an oyster supper."

"Dear Heart" had an equally curious origin. One night when the Signor went to see his publisher, Mr. Kugel, one latter pressed a sheet of paper, saying, "Here are some pretty words; what do you think of them?" The composer glanced at the manuscript and, making no reply, he instantly played the four last lines of the air which has since been sung all the world over. The same evening the song was complete, and the following morning Mr. Kugel and the Signor were drinking to its success in "repeated glasses of champagne."

The sweet and universally popular "In Old Madrid" came to Mr. H. T. Trosone one evening as he was returning home from the Theatre. He had no paper on which to jot it down, nor had the publisher into whose house he rushed, any to offer him. But, catching sight of some sheet music, he seized one, and in a few moments the famous melody was written down.

"Go to Sea" was composed whilst quies of an Italian was jotted down. "Ashore" was written by Mr. Clifton Bingham and not to music by Mr. Trosone after tumbling at Restaurant; and "The Song of the HM" followed an encounter with a waiter, and Mr. Trosone composed the melody, wrote a letter, and ran 400 yards to catch the post, all within eight minutes.

Of "Killerney" a strange story is told. One day Bonicault took the words of the song to Balle. Mrs. Balle took them upstairs to her husband, who, when glancing through them, set down to the piano. Scarcely had his wife left the room when the composer excitedly called her back. "I have done the song," he exclaimed. "It is sweetest. Tell Bonicault to come and hear it."

It was while dreaming the time away in his youth, that Michael Maybrick's great song, "The Holy City," came to him in a short of seconds. Hastily writing down the voice part, he called his sister-in-law, Mrs. Florence Maybrick, to the cabin and asked her to sing it while he continued an accompaniment, and within half an hour of reading Mr. Woodberry's words the glorious song was sung by the woman who, but little later, was to make the world ring with her name.

In the war of 1812 Francis Scott wrote "The Star-Spangled Banner" on seeing the flag floating over Fort Mifflin. When his regiment was divided, we are told he took a stroll once, twice, three times, until the entire division seemed electrified by the pathetic sequence. An idea seized him, and he returned to his quarters, where he wrote the words. He was then a young man, and he was then a young man, and he was then a young man.

WHEN BIRDS BREED

Few Experts Can Really Tell When Birds Breed for Even When in Captivity They Baffle These In Charge.

Although a thousand and one ornithological volumes have been written, it is a curious fact that not a scrap of information is to be found in any of them regarding the ages at which various species of birds breed in the wild state. This discovery has been made by a writer who suggests that as, in most cases, birds breed as a matter of course in their second season, writers, who assume that there is nothing to be said on this subject.

Dr. Seth Smith, who is in charge of the birds at the Zoological Gardens, London, says that in all probability many of the parrots do not breed till they are three or four years old — "but as to say, till their fourth or fifth season, I am not sure."

George, however, according to the same authority, are an exception to this generalization; as, in common with shrikes and some of the pinnate, they breed in their second season. Possibly, as regards geese, this applies only to domesticated breeds.

Pigeons and the majority of game-birds attain their full plumage in the first summer, and the presumption accordingly is that they breed in their second season. That this is the case with partridges is rendered evident by the fact that in the second season, all the birds, with possibly a few accidental exceptions, are paired.

The World's Largest Flying Bird.

Among the most notable of recent additions to the "Zoo" is what is generally regarded as the largest flying bird in the world. It is known as the lammergeier (sheep eagle, or bearded vulture). This giant bird has recently arrived from India, and is the largest of its kind ever seen here. Its wings measure over 14 ft. from tip to tip, and it is not yet full grown.

The lammergeier was found in Mid-India, and is a very rare bird. It is not known to "create" trouble by knocking up innocent persons or animals, or by spreading any kind of disease. It is a very fierce bird, and is known to attack and kill its prey.
