## COUNT SHUVALOFF SHOT

Assassin Fired Five Shots Through the Chief's Body.

Dead Official Was Prefect of Police at Moscow—His Assassin Was Dressed as a Peasant, and Entered the Audience Room With Petition to the Man He Slew—The Assassin Was Arrested.

Moscow, July 12.—Major-Gen. Count Shuvaloff, prefect of police here and formerly attached to the Ministry of the Interior, was assassinated yesterday morning, while receiving petitions. One of the petitioners drew a revolver and fired three shots at the prefect, who fell dead.

The assassin, who was dressed as a peasant, has not been identified. He was recently arrested as a political suspect, but escaped from the police station before his examination.

The assassin waited in the ante-room of the prefecture till the other petitioners had been received, and then entering the audience room he advanced towards Count Shuvaloff, firing five shots at close range. The bullets passed through the body of the prefect. The assassination is considered to be a purely personal crime, as the count was not yet 40 years old, and was regarded as being the best type of the Russian official. He came from one of the most famous families in Russia. The count was a son of Count Peter Shuvaloff, the statesman who represented Russia at the Berlin conference.

Quiet Under Martial Law. Tiflis, Caucasasia, July 12.—The streets and squares are occupied by troops, but the city has been quiet since the proclamation of martial law. At Batum business is at a standstill. The shops and banks, with the exception of the Imperial Bank, are closed.

Fear Another Mutiny. Kustenji, Roumania, July 12.—The Russian squadron seems to be delayed here, owing to the fear that another mutiny will break out should the vessel be put to sea.

The fact that fifty-five sailors from the Khas Potemkin, who surrendered, have been imprisoned on board the different vessels of the squadron, awaiting trial for rebellion, has caused intense indignation among the crews, and as a consequence there are fears for another mutiny.

## JAP ADMIRAL REPORTS.

Japanese Troops to the Number of 12,000 Land at Korasakovsky.

Tokio, July 12.—The Navy Department has received the following report from Admiral Katka: "Two cruisers and four torpedo boats left Korasakovsky on July 10, with soldiers on board, for the purpose of landing and occupying Cape Noto. After some bombardment the place was taken. The lighthouse and buildings were left undestroyed. Four prisoners were taken."

Nikolai, Asiatic Russia, July 12.—The Japanese have already landed over 12,000 troops at Korasakovsky, Island of Sakhalin.

Betrayed Military Secrets. Tokio, July 12.—The judgment in the case of Capt. A. E. Bouguin, the French resident who was sentenced Monday to 10 years' imprisonment at hard labor, on the charge of being a Russian spy, declares the accused was engaged in searching for and reporting military secrets.

The judgment recites that Bouguin sent Maki, a Japanese clerk, who acted as Bouguin's assistant, to Nagoya, to ascertain the movements of troops. Maki confessed his guilt.

The comment on the judgment says that the information covered by two counts related to the movement northward of the Port Arthur investing army after the capitulation of the fortress, previous to the battle of Mukden. Therefore the movements constituted important military secrets.

Japs Send News of Mutiny. Sipinghai, Manchuria, July 12.—The news of the mutiny in the Black Sea reached the Russian army through the Japanese, who fired night shells charged with proclamations covering the information into the Russian advanced posts, scattering the proclamations broadcast. Rain is falling in torrents and all activity at the front has ceased.

Over-subscribed Twelve Times. Montreal, July 12.—The Bank of Montreal received a cable last evening stating that the \$50,000,000 London allotment of the Japanese loan had been oversubscribed twelve times.

## ENGINEER IS CHARGED.

Manlaughter Accusation Follows a Coroner's Jury Verdict.

Sault Ste. Marie, July 12.—William Tuer, an engineer on the Bruce Mines Railway, will face a charge of manslaughter at the next assizes. When the evidence was heard at the inquest following the accident, which resulted in the death of Engineer James Duncan on Saturday last, Crown Attorney Simpson had a warrant issued for Tuer's arrest.

He was brought to the Sault from Bruce Mines yesterday by Constable Rush, and appeared before Stipendiary Magistrate Quibell, waived examination, was committed for trial and released on \$2,000 bail.

Hon. Adam Beck Chosen. Toronto, July 12.—The Ontario power commissioners, Hon. Adam Beck, George Pattinson, M. P. P., and P. W. Ellis, held their first meeting yesterday afternoon, in Mr. Beck's private office, in the Parliament Buildings. Mr. Beck was elected chairman, and it was decided to meet again to-day, to complete the organization. A three-hour conference was held, but the talk was not productive of action.

## MAJOR SANKEY DROWNS

Was a Divisional Engineer of the Grand Trunk Pacific.

With Two of His Party He Went on a Long Canoe Trip on Clear Lake, 20 Miles East of Kenora, Formerly Rat Portage, Ont.

Major Sankey, who had charge of the Transcontinental engineering party, left Kenora with three of his men, Hull, Beauchamp and Temple, for their camp on Clear Lake, 20 miles east of here. On reaching Manitou Lake the party experienced a heavy wind and the canoe took in water, with the result that a quarter of a mile from shore they were upset. All four, with presence of mind, clung to the upturned boat, but after clinging for over two hours they gradually sank from ex-haustion. First Beauchamp, half an hour later Hull and finally the major, who had hung on for over three hours. With a "Good-bye, Fred," he sank to rise no more within 200 yards of the shore. Temple half an hour later made shore and, covering three port-ages and two small lakes, reached camp at 11 o'clock and reported to the party, who immediately set out to re-cover the bodies. So far they had not been successful.

Two of the party came into Kenora at 2 o'clock yesterday afternoon to re-port to the chief divisional engineer, Major Madeline, who has wired Major Sankey's family in Toronto. Major Sankey was to have taken up his residence here and expected his family in about three weeks.

Was Universally Respected. Toronto, July 12.—Major Villiers Sankey was in the prime of life, and while in the employ of the city was one of the most popular and well-liked of city officials.

On January 19 of this year he re-signed his post as city surveyor, which he had held since 1889, to direct a large surveying party for the G. T. P. be-tween Lake Nipigon and Winnipeg, and his retirement from civic employ-ment was at that time generally regretted by all who were brought into business relations with him. He was widely known, not alone in municipal and military circles, but by the general public of the Province.

Major Sankey will be remembered as having had charge of some very im-portant undertakings in his official ca-pacity as city surveyor, among them the Don improvements and the Hespa-nade and waterfront works.

Of the military career of Major Sankey much might be said. For over twenty years he has been con-nected with the militia and the military of this city in various capacities.

Col. Galloway who for years has been a close comrade of Major Sankey, when told of his sad end last night, could not say too much in commendation of the man who had achieved so much in the circle of the military.

"Always painstaking and an ideal officer, Major Sankey was a friend of all who knew him. "He was one of the most wonderful men I have known. In the annual field camps held at Niagara he would travel all over the peninsula in search of in-formation. Always making maps and studying the geographical formation of that part of the country, I have no fear in saying that he knew more of that part of this Province than any other man in it."

News of his sad taking off was re-ceived last night by Mrs. Sankey at the family residence, 348 Huron street. She learned of the death of her husband from the telegraph office at Montreal, a deckhand on the steam-er City of Montreal, while scrubbing the side of the vessel lying at the dock here yesterday morning, fell overboard and was drowned.

Boy Drowns; Father in Prison. Amsterdam, N. Y., July 12.—Harry Rotond, aged 11 years, was drowned while bathing in the Erie Canal Mon-day night. The boy's father is in pris-on for shooting a man, and an applica-tion was made yesterday to give Hig-gins his pardon, inasmuch as he had only a month to serve.

Launch Cut in Two. New York, July 12.—One man was fatally hurt and six others had a nar-row escape from drowning early yes-terday, when the tug Oneida ran down the 40-foot naphtha launch Edna, off 26th street Brooklyn. The owner of the launch escaped injury. The launch was cut in two and sank.

## INTOXICATED FEMALE

A woman who claimed Detroit as her place of residence caused con-siderable excitement around Roberts' boat house Saturday night. This woman, who was under the influence of liquor, announced her intention of showing Canadians how to row a boat. She hired a row-boat but soon got into difficulties and nearly fell out of the boat. Mr. Roberts started out in another boat to get her to shore and when he got to her she was sitting at one end of the boat with her feet danc-ing in the water.

Mr. Roberts landed her on the dock before she had a chance to drown herself.

Lost!—Sunday, July 2nd, ladies' gold-filled hunting case watch, be-tween corner Louise and Emma Sts. and Wm. Stacey's, River Road, Dov-er. Finder will be rewarded by leaving at this office.

## TRAMPS

Three Sorry Looking Specimens Make Their Appearance in Police Court—Caught on C. P. R.

Three young tramps, Geo. Shore, John Cooper and Albert Longtree, all answered to their names at the Police Court, yesterday morning charged with vagrancy.

Yesterday morning about half past nine o'clock when the C. P. R. freight pulled in from Windsor the brake-man on the train noticed three men in a box car. He promptly looked them in and telephoned for the police. Alex. Carter, baggageman at the depot, arrested the men and es-corted them to the Police Station.

Shore claimed to be a plumber of Windsor, Cooper a hotel waiter and Longtree a general workman. They were working their way to London when they were robbed. They had no money on them when arrested. They were remanded until Monday to see if they could get any refer-ences.

Lemme Purdie was charged with indecent exposure on Sixth street while on a drunken spree. If he does not raise \$10 by Monday he will spend his summer vacation and part of the winter in the Central Prison.

The young boy charged with steal-ing a spirit lamp was allowed to go on probation and judgment was re-served for two weeks.

## GRADE CROSSING

Engineer Crowley, of the Grand Trunk, is in the city to-day attempt-ing to come to some arrangement with the electric road regarding the Queen and William St. crossings. The G. T. R. would much prefer to have a sub-way at this point, that is, have the electric road's tracks go under their own. It is hardly likely that the electric road will meet this idea with favor on account of the great expense attached to it. To get to the necessary depth grading would have to be started quite a distance back.

Ordinary traffic would follow the same road as the electric line. This would mean wagons coming into the city would have quite a stiff grade to negotiate.

We cannot but think that to make one wide crossing where the two are at present would mar the appearance of the street less, would be more convenient and would be quite safe enough, if provided with gates, for a city of this size.

Several of the King street mer-chants took in the excursion yester-day. Mayor Cowan, C. A. Austin and Fred. Somerville were among them.

## WORTH THINKING ABOUT.

The Weekly Sun, in an article headed "Stop This Subsidy Folly Now," shows that the country has expended \$105,000,000 on the Intercolonial railway, and endowed railway promoters with 60,000,000 acres of land. Then it says, "We have given enough—all more than we can afford to give," and goes on as follows:

"The pretence that it is necessary to shovel out additional millions for the development of the country is to go on in an insult to intelligent people. Spokesmen for the Canadian Manufacturers' Association now in Great Britain says it is impossible to realize the possibilities of Canada." They speak truly. The Canadian Pacific is credited with estimating that some 50,000 farmers in Manitoba and the Northwest will this year produce 100,000,000 bushels of wheat. The estimate may not be made good this year, but it will next. Mines just opened up in New Ontario are said to be producing ore worth \$3,000 a ton.

"Surely a country such as this is not under compulsion to bribe promoters, by means of subsidies, to aid its development by railway building! Railway promoters themselves prove that it is not. Jim Hill actually had to beg Parliament to permit him to extend his railway into British Columbia wholly at his own expense. He does not ask a copper in subsidy; simply the right to build. The Canadian Pacific is building a line from Sudbury to Toronto also without a subsidy.

"Why, then, all this clamor about the necessity for subsidies? Let us speak plainly. If there was no rake-off for the politicians in the form of contributions to campaign funds, you would hear no more noise from the subsidy promoters than there is from an unhatched egg which has gone bad.

"The people should stop this subsidy folly now."

## AT BLENHEIM

Septuagenarian "Biker" on a Long Cross Country Tour.

George E. Yates, a Washington, D. C., septuagenarian, struck Detroit yesterday morning on a long cross-country bicycle tour. Strapped on his trusty machine he carries skillets and other cooking utensils, an army blanket to sleep in by night and an oilskin to shield him on the rainy days.

He started on May 27 and has been eating up thirty miles a day. From Detroit he will go to Toledo, thence to Columbus, thence home via West Virginia. He sleeps wherever he happens to be at the end of the day, whether it is in the lee of a friendly hay stack or in a bit of woods with a log for a pillow or huddled in among the rocks. He buys his food from the farmers along the way and cooks it himself. And, withal, he declares that he likes it.

Mr. Yates passed through Blenheim last Saturday, and while there Mr. Fearman, of that town, had a conversation with him. He told Mr. Fearman he liked to travel the way and enjoyed it very much. On being invited to dine with Mr. Fearman, Mr. Yates declined, saying he always preferred cooking his own meals, as he had become, through travelling, thoroughly accustomed to it, and did not mind being his own cook.

## HAY FEVER ABOLISHED

Medical Science Discovers a Cure for This Malady by Breathing Hyomei.

Among the important additions made to medical science in recent years, none is more notable than the positive announcement of a cure for hay fever. Exhaustive experiments with Hyomei prove that this treatment will prevent the attacks of hay fever if used for two or three weeks before the annual appearance of the disease, and it may be relied upon, if used faithfully after the sneezing and other annoying symptoms have appeared, to relieve at once and afford a permanent cure.

Stomach dosing cannot cure hay fever. A change of climate is the only treatment that gives any relief, and Hyomei, which medicates the air you breathe, acts upon this principle, giving in your own home a climate as healthy as that of the White Mountains or other health resorts. The complete Hyomei outfit costs but \$1. extra bottles, 50 cents. The Central Drug Co. have seen the good effects following the use of Hyomei in so many cases of hay fever that they are willing to sell the treatment with the understanding that if it does not give satisfaction, the money will be refunded to you.

Women always say they are satisfied to have the truth told about them even if it is only a pleasant dream.

The instinctive feeling of a great people is often wiser than its wisest men.

## ECHOES FROM ERIEAU

Mrs. Dell and son Harry are guests at Sandy Knowe.

Miss Amy Boles is the guest of Miss Aggie Phillimore.

W. Bennett and family have taken up their summer residence.

Jack Sheldon, of Ridgetown, has moved out to his summer cottage.

The Père Marquette and Bessemer arrived in from Cleveland last night.

Will Houston's single sticker is again occupying her usual place in the Eau.

The Tom Cat, Frank Thomas' sail boat, has been launched and is now in commission.

Misses Gertrude and Ann Lyle, of Bowmanville, are the guests of Miss Jessie Harper.

Last evening was a capital night for fishing and several big catches were chronicled.

The Louise, T. J. Rutley's boat, has been launched and is now anchored at her moorings.

A splendid beach bonfire near the residence of C. C. Greening proved very popular last evening.

Mrs. McKeough and daughters Miss Mary and Bessie are occupying the Clearview Cottage for the summer.

Manson Campbell and family will shortly put a new and splendidly equipped electric launch in commission.

Henry Dagneau has got nicely settled in his cottage and the expert fishermen will now have to look to their laurels as Henry is already at it.

E. B. Northwood has occupied his cottage for the summer and the cottagers may look forward to some good quartet singing these cool evenings.

There is some talk among the sailors of arranging a regatta for civic holiday. There is quite a keen competition over the merits of the respective yachts.

Ed. Northwood is arranging for a series of musical Eaux evenings, with guitars, banjos, mandolins and a corps of popular singers. Mr. Northwood is forming an Eriean male quartet.

Owing to to-day's many excursions the Eriean train was restricted to one car, but the travellers all fared well, thanks to the unfailing courtesy of the genial Conductor McGarvey.

After a week in drydock in the skilled hands of several fair young painters, the yacht Awa' was launched last night and now floats at her moorings at Sandy Knowe. The launching was skippered by Captain Harry Dell.

Smudges were the order of the day at the Eau yesterday. The mud-trees were very numerous, especially last evening. There were more of these pesky insects around last evening than there have ever been at any other time this season.

Archie Park declares that his brother Jack inaugurated a mosquito toreh light procession around his cottage last night. The insects, turned out in force to serenade him and John entered into the spirit of the occasion and built a bonfire all around his domicile.

The Cleveland orchestra held out the boards at Government Park last evening and furnished excellent music for dancing. These affairs are periodical and many of the cottagers from the beach attend them and pronounce the music excellent. Another dancing party will be held to-night at the Park.

Dr. R. V. Bray has formed a rink of lawn bowlers at the Eau and he took them to Ridgetown to-day to take part in the big tournament which will be held there. This rink is handicapped by having no place to practice, but it is expected they will give a good account of themselves. The rink is composed of J. McCorvie, G. B. Merritt, W. R. Phillimore and Dr. R. V. Bray, skip.

Last evening in a spanking breeze and with Commodore Arch. Park at the tiller, the good ship Baden-Powell made the trip to Government Park in a three-quarter wind in 43 minutes. Archie is not superstitious for he tells smilingly that there were just 13 in the party. Dr. and Mrs. Bray, he declares, demurred at the 13th, but he was game and Willie Gray was hoisted on to complete the baker's dozen. As a result the record run was made.

## WONDERFUL CURE OF SORE HANDS

After Most Awful Suffering Ever Experienced—Eight Doctors and Many Remedies Failed to Do a Cent's Worth of Good.

## THANKS TO CUTICURA IT IS ALL OVER NOW

"I was troubled with sore hands, so sore that when I would put them in water the pain would nearly set me crazy, the skin would peel off and the flesh get hard and break, with blood flowing from at least fifty places on each hand. Words could never tell the suffering I endured for three years. I tried eight different doctors, but none did me any good, as my hands were as bad as when I began. I also tried many remedies, but none of them ever did me one cent's worth of good. I was discouraged and heart-sore. I would feel so bad mornings, to think I had to go to work and stand the pain for ten hours. I often felt like giving up my position. I would like to wrap every finger up separately, so as to try and keep them soft, and then wear gloves over the rags to keep the grease from getting on my work. I had to wear gloves at night; in fact, all the time. But thanks to Cuticura, that is all over now. After doctoring for three years, and spending much money, a single box of Cuticura Ointment ended all my sufferings. It's been two years since I have known what sore hands are, and have never lost a day's work while using Cuticura.—Thomas A. Clancy, 310 N. Montgomery St., Trenton, N. J."

## ONE NIGHT TREATMENT For Sore Hands and Feet with Cuticura.

Soak the hands or feet at night in a strong, hot, creamy lather of Cuticura Soap. Dry and anoint freely with Cuticura Ointment, the great skin cure. Wear on the hands at night old, loose gloves or bandage the feet lightly in old, soft cotton or linen.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Depot, London, 21, Chancery Lane, E. C. 4, England. Sole U. S. Agents, The Great Skin Soap Co., Boston, Mass. U. S. Patent Office, Washington, D. C.

## A MILITIA DAY

Sir Frederick Gordon Lays Down Government's Policy and Estimates Were All Passed After Discussion.

Ottawa, July 11.—In the House yesterday Sir Frederick Borden had a militia field day. The large militia estimate was taken up in committee of supply, and the Minister of Militia had the floor for the whole day and night.

R. L. Borden's bill to amend the act respecting the House of Commons was read a first time. The provision that, up on a vacancy occurring after a certain period, the clerk of the Crown in Chancery shall issue the writ for the new election and appoint a returning officer, to whom the writ shall be addressed. This will prevent a Government delaying a by-election to suit their own convenience by failing to appoint a returning officer.

The Minister of the Interior informed Mr. Foster that a commission of enquiry into the Nixon case was now sitting at Macleod, and that he had given instructions that the enquiry should be made, particularly as to the amount of responsibility resting upon the Nixons, father and son respectively.

Sir Wilfrid gave notice that the House will meet at 11 o'clock Wednesday next and sit on Saturday. Mr. Borden said he presumed there would be no railway subsidy resolutions this session. Sir Wilfrid Laurier replied that there would be no railway subsidies, in fact no other business of importance, "except certain resolutions, of which I am not prepared to speak at this moment."

In introducing his bill to amend the criminal code, Mr. Fitzpatrick said its aim was to do away, as far as possible, with the mischief connected with the trading stamp system, and was designed to apply to the gentleman who disposes of the stamps, to the merchant who issues them and to the customer who seeks them.

"By making these acts a criminal offence," Mr. Borden asked.

"By making such acts a criminal offence," Mr. Fitzpatrick repeated, in reply.

The bill to amend the Canada Evidence Act was withdrawn.

On motion to go into supply, Mr. Foster entered a protest against the bringing down of a large sum of supplementary estimates within a few days of the close of the session, and moved a resolution to that effect, which after some discussion, was lost.

The House then went into committee of supply on the militia estimates. Sir Frederick Borden proceeded to set forth the militia policy of the Government. During the course of his speech he announced his intention of consulting with the provinces to have rifle shooting added to school curriculum.

The House then made good progress with the militia and marine and fisheries estimates.

All of these were passed, after considerable discussion.

The public works estimates are up to-morrow, and Mr. Hyman will make his debut as a full-fledged Minister.

corner 19, 2 R. T., off lot 20, 4 R. T.

On motion general business was taken up.

James Tait presented claim for damages for water brought down by Hartwick drain, not being completed, \$100.

On motion of Huffman and Clark, the Reeve and Bentley was appointed a committee to investigate said claim; also that of A. Walrath re McKinley drain.

Communications were presented from the council of Howard re bridge over Alexander drain on East Town Line. The Clerk was instructed to notify the Clerk of Howard that the commissioner of the E. T. L. would meet the Reeve of Howard re same on June 23rd.

June 17th, 1905. We beg leave to report as follows in regard to the complaint made to this council regarding the incapacity of the sewer in the Cameron drain to carry the water from lands above in time of freshet. We found that the water last week had remained for 48 hours or more at four feet above the mouth of the sewer pipe, thereby flooding the lands on either side of the drain. We would therefore recommend that steps be taken to improve and repair said portion of the drain under section 75 of the Drainage Act. Report adopted.

Moved by Clark and Campbell, that whereas complaint has been made to this Council that the sewer in the upper portion of the Cameron drain is not of sufficient capacity to take all the waters from the lands lying above said sewer on said drain, causing waters to lie on the lands in times of heavy rains to the damage thereof;

And, whereas, a committee of the Council have investigated said complaint and find such grievance does exist, caused by the removal of a 12 inch tile from the drain when repaired and improved in 1904, said 12 inch tile, in addition to a 15 inch tile having been in previously to carry the water; and,

Whereas the Council deems it expedient to improve the Cameron drain so as to prevent damages to lands;

Therefore, this Council instruct the Engineer to make report on the improving of Cameron drain, and make an assessment on the lands liable therefor, under section 75 of the Drainage Act.—Carried.

Moved by Clark and Bentley, that time for completion of Cameron drain be extended to Aug. 1, 1905.—Carried.

Moved by Bentley and Huffman, that the Reeve, J. B. Clark and the mover be a committee to examine the tile portion of the Morgan drain, as complaint has been made that it is not working satisfactorily.—Carried.

The tile drain inspector reported on tile drains on John Clark and W. J. Muckle re loans applied for.

On motion the inspectors were ordered to have thistles and boxious weeds cut along highways adjoining railways, solicitor not considering railway companies liable.

Moved by Bentley and Clark grant of \$25 be made towards plank sidewalk on River road adjoining Chatham.—Carried.

Moved by Clark and Huffman that

### Schreiber's New Post.

Ottawa, July 11.—Colingwood Schreiber, Deputy Minister of Railways and Canals, before the public accounts committee yesterday morning denied the statement that he prepared his reports as to the cost of, say, the Sorel bridge, for which a subsidy was granted, at the dictation of the Government.

Mr. Schreiber's appointment as consulting engineer to the Government, in which capacity he will devote special attention to the selection of terminals and locations of the transcontinental railway, will probably succeed as Deputy Minister of Railways and Canals.

## HURRY UP!

Everywhere one hears that expression "hurry up!" It is a genuine Americanism expressive of the "live, now, which we live. Nothing is so slow as we are. We race against steam and lightning and find them slow. We grudge the time given to eating, and rush through meals as though the clock depended upon our haste.

Life does depend on our haste, but not in that sense. Look at the obituary columns of the papers and see how many prominent men are carried away by "stomach trouble," "acute indigestion" and other related diseases. Their lives have been in general been sacrificed to their haste and rush. Business which overlooked the fact that food can only nourish the body when digested and assimilated and that the digestive and assimilative processes can't be hurried.

Dr. Pierce's Golden Medical Discovery, cures diseases of the stomach and the associated organs of digestion and nutrition. The source of all physical strength is food, properly digested and perfectly assimilated. By enabling the perfect digestion and assimilation of food "Golden Medical Discovery" increases and enriches the blood supply and sends new strength to every organ of the body.

"I was at one time as I thought almost at death's door," writes Mr. J. S. Bell, of Leado, Van Buren Co., Iowa. "I was confined to my bed and part of the time to my bed. I had taken quantities of medicines but they only seemed to feed the disease, but I must say, 'Golden Medical Discovery' has cured me, and today I am stronger than I have been for twenty years. I am now forty-three years old."

FREE. Dr. Pierce's Medical Adviser sent free to you on receipt of stamps to pay expense of customs and mailing only. Send 50 one-cent stamps for cloth-bound book, or 37 stamps for paper-covered to Dr. R. V. Pierce, Buffalo, N. Y.

A Punishment Still in Vogue in Many English Prisons.

The treadmill is still in vogue at many English prisons. Within the walls is a little building, built of blue gray stone, standing somewhat apart from the main structure in a corner of the exercise ground and prison garden. On the chocolate colored door are painted in white letters the two words, "Wheel House." As the door opens the dull, grinding sound that we heard outside grows a little louder and clearer. The door closes behind us with the inevitable clash and click of the returning bolt. The house is an apartment some thirty feet long and fifteen feet wide. On the left hand side are the wheels, four of them, in two tiers, divided by a gallery running the whole length of the house and communicating with the floor by a staircase at the opposite end. On the right hand side there is another lower and shorter gallery, on which stands the warden in charge. The wheels are separated by a section of brick wall.

Each wheel is divided into compartments, cutting off each prisoner from the others. The object of this is to prevent the prisoners from seeing and hearing one another, although conversation in a low voice pitched in a different key from that of "the music of the wheel" is perfectly easy and intelligible.

## AFRICAN ELEPHANTS.

They Are Shy of Travelers or Hunters in the Forests.

"Elephants are but rarely seen in the forests of Africa, however numerous they may be," writes an old hunter of big game in the dark continent. "This is due to many causes. In the first place, they are naturally extremely shy animals and detest the neighborhood of man. In the second place, they are largely nocturnal feeders and rarely drink or bathe except at night. They often travel immense distances to and from the water and retire during the day to the remotest portions of the forest, where they doze away the long, hot hours under the shade of trees that they can find. Lastly, their scent is extremely keen.

"This sense is so largely developed that they can recognize danger at a very long distance, and as soon as the alarm is given they move quickly but noiselessly away. As an elephant disturbed or frightened will frequently travel twenty or thirty miles without a stop, and as his pace under such circumstances is a good five miles an hour, it is easy to understand that travelers in the forest, although frequently coming upon absolutely fresh tracks, but seldom see the herd that has caused them."

## INSURANCE SYSTEMS.

They Date Away Back to the Time of Claudius Caesar.

The principle of combination for protective purposes has been traced to the time of King Alfred, and according to Francis' "Annals of Life Insurance," the principle of the life insurance business was practiced in the Saxon guilds.

Marine insurance dates back to the Emperor Claudius Caesar, who during a corn famine encouraged merchants to send ships for supplies by engaging to make good the value of any vessel lost in the public service. The Greeks had a somewhat similar practice, and so had the Jews, for when banished from France in the twelfth century they took out policies of insurance upon all their effects in transit.

The earliest English statute relating to insurance is dated 1601 and says, "It hath bene tyme out of mynde an usage amongst merchants both of this realm and of forraigne nacyns, when they make any great adventure, to give some consideration of money to other persons, to have assurance made of all their goods, which is commonly termed a policie of assurance."

Seventeenth Century Customs.

In the seventeenth century Englishmen thought it injurious to sleep in rooms facing the sun, so most of the rooms faced north and east, opening off a passage or else out of each other. At the head of the stairs slept the master and his wife, and all the rooms tenanted by the rest of the household were accessible only through that. The daughters of the house and maidservants lay in rooms on one side, say the right, with the maids in those most distant; those of the men lay on the left, the sons of the master and the serving men farthest away.

## Coming Back.

On one of the streets of a southern city a dusky belle, sauntering aimlessly along, met a white haired ex-slave, who was promenade with definite purpose and an approach to speed.

"Hello, Aunt Dilsey!" said the belle nonchalantly. "Why you gwine?"

"Why I gwine?" queried the old woman sharply. "Why you reckon I gwine? I ain't gwine. I done beep why I gwine."

## Cruel.

Mabel (not in her first youth)—First of all he held my hands and told my fortune, and then, Evie, he gazed into my face ever so long and said he could read my thoughts! Wasn't that clever of him, dear? Evie—Oh, I suppose he read between the lines, darling.—Punch.

## VACATION IS A NECESSITY.

All successful people take a vacation. To be successful you need a change from every day occupation. A brief respite among the pines and woods, breathing in the pure air of the Highlands of Ontario, is nature's best tonic. There are so many delightful tours offered by the Grand Trunk that it is hard to innumerate, but they not only embrace charming Muskoka, Lake of Bays, Georgian Bay, Kawartha Lakes, Temagami, The Magnetawan, French River, Lake Simcoe, but also delightful six day trips to Mackinaw Island through the 30,000 Island scenery, Duluth, Winnipeg, Portland, Oregon, Exposition, and to the East the always delightful 1,000 Islands and St. Lawrence tours, Historic Quebec, White Mountains, and Sea Coast resorts, Portland, Old Orchard, St. John, N. B., Halifax, etc. A tourist folder, giving rates, etc., may be had for the asking at the City Ticket Office, W. E. Rispin, City Agent, 115 King Street, or by addressing J. D. McDonald, District Passenger Agent, Toronto.

The hot summer weather is now here and most people are thinking of a trip to some cool summer resort. We would advise you to call on W. E. Rispin, city passenger and ticket agent, 115 King Street, who can issue tourist tickets for all summer resorts, including Muskoka, Georgian Bay, River St. Lawrence, Great Lakes and Atlantic Sea Coast points at particular low rates, and will supply all information and pamphlets.

Anyone wishing good doors and windows should call on John Glassford, who is tearing down the old Ratley House, and will have no use for this old material in his new brick hotel building.

Nathaniel Murray caught a fifteen pound catfish in the river this morning. It measured about three feet and had an enormous hammer-head fully eight inches across.

Be sure and attend the Catholic Order of Foresters excursion to Detroit Aug. 15th. A good time is promised to all.

Miss Elizabeth Kerr and Mrs. Wm. Anderson left this morning on a two weeks' visit to their brother Dr. Wm. Kerr, and family, Bay City, Mich.

Wait for the excursion of the season. Court McGregor, No. 6, I. O. F., will give their annual excursion August 22nd, to Detroit. The committee assures everyone a pleasant time.

## SMALL-POX SCARE

Tent Pitched in Victoria Park to Accommodate Patient—Torn Down—Not the Loathsome Disease.

Pandemonium reigned in Victoria Park last evening. The cause of it all was the erection there of a tent. This, in itself, was uninteresting enough, but the residents of that vicinity understood it was to accommodate a small-pox patient and that Victoria Park was to be quarantined. Hence the excitement.

The scare was real enough. A girl from Bothwell had been brought to the General Hospital and had developed a suspicious rash. Dr. Hall and several local doctors were undecided as to whether it was chicken-pox or small-pox. At any rate, she could not be left in the hospital.

Here was shown the lack of adequate accommodation in the city for such cases. The fair grounds would not be rented and there was no place in the city so far removed from dwellings as Victoria Park. So there the tent was pitched.

The residents of that neighborhood were very indignant and called up Ald. Potter about eight o'clock. Accompanied by Ald. King, he visited the park and ordered the tent taken down. The girl had not been moved and the order was complied with, when it was found that the girl was not the patient intended using the park for their picnic.

The girl is still some place in the city—where cannot be ascertained. It has been positively decided by the physicians, however, that she is suffering from a medicine rash, having taken some kinds of dope that are not on friendly terms with one another. One of them tried to escape, and took this method of doing it.

## GOOD TIME

Park street Sunday school excursion to Belle Isle yesterday was an unqualified success. The boat was crowded with picnickers and the weather was propitious. About \$75 will be cleared.

A stay of three hours was made at Belle Isle, everybody amusing himself or herself with the many and diverse attractions of the place. On the return trip Barrister J. W. White, led in some very fine choral singing. Mr. White has capably performed this office for some years. He is a musician of exceptional skill and the chorus singing under his direction was most inspiring.

## RUDE SHOCK

Miss Theobald, who has but lately joined the staff of C. Austin & Co., received a severe shock on Monday. Her father, who lives near Merlin, was out harnessing his horses to come into the city when he expired, apparently from heart failure. Mrs. Theobald was away and so person was at home, consequently the stricken man lay where he had breathed his last until neighbors found him yesterday morning.

A message was sent Miss Theobald in care of Austin's and was opened by Miss Delahanty. The message did not go into details and Miss Theobald was informed she was wanted at home, leaving quite gayly. The rude shock she sustained upon finding out the true state of affairs can well be imagined.

## SEIZED MACHINE

Mrs. Taylor Has Use of Sewing Machine for Years Four for \$1.50 and Gets Angry When Mr. Turill Takes it Away.

Judge Houston in his capacity as Police Magistrate is called upon to investigate many complaints, some of them well grounded and others of a very trivial character. About the most unreasonable request he ever had to deal with came under his attention this morning when Mrs. Taylor, a colored woman, wished to lay an information against Mr. Turill, a sewing machine agent, for house-breaking.

About four years ago Mrs. Taylor purchased a machine from Mr. Turill—at least she accepted one from him and agreed to pay for it. Since that time she has worked for Mr. Turill and allowed her wages \$1.50. To apply on the payment for sewing machine. This is all that Mr. Turill has received for the machine in four years, and seeing no chance for further payment, and having no work for Mrs. Taylor to do, he drove around with his rig yesterday and took the machine away. As it happened, Mrs. Taylor was not home at the time so her little boy showed him where the machine was, and now Mrs. Taylor accuses Mr. Turill of house-breaking.

She was quite angry when she told her story to Judge Houston this morning but the Judge did not seem to sympathize with her at all. He advised her to be content with having the machine so long with such a small rental and refused to take the information.

## LABOR STRIKES

Several Maple City Contractors Experiencing Trouble in Finding Men to Work for Them.

It is but natural that with its increasing metropolitan appearance Chatham should be afflicted with metropolitan troubles. The workmen engaged by Blight & Fielder struck Monday, in a body. These men have been receiving from 16c to 18c an hour for a ten hour day. They struck for 20c an hour and were refused—consequently they quit.

Yesterday morning their places were supplied with new men and the William street pavement goes on. "Several of the strikers would have some back this morning if we could have taken them," said Mr. Blight.

The electric railway is having labor troubles also. Some of the latest imported Castilians struck on Monday. However, General Manager Warburton says there are always some of them doing this, in fact they would not think things were running smoothly unless some of them were discontented. A fresh consignment of them arrived on Monday and, apparently, the usual number were working on Raleigh and Third streets yesterday.

Residents of Third street claim the men are very carelessly treated. During several of the hot days last week they were not supplied with water. John A. Morton took them out a pail and dipper. They filled the pail from the tap on his lawn and worked in comfort. One of the men created a lot of amusement by attempting to tap the gas pipe which does duty as a fence around Mr. Morton's boulevard, knowing that the water came from something which looked like that.

## SEWER TENDERS

Tenders will be received by the undersigned up to the hour of four o'clock p. m. on Monday, the 24th day of July, for the construction of the following sewer on Wellington street, from a point 350 feet east of Prince street to Princess street.

A glazed pipe sewer on King street, from Prince street to Duke street.

A glazed pipe sewer on Murray and Princess streets, from Lane down avenue to McGregor's Creek.

A glazed pipe sewer on Pine street and Park avenue, from Eugene street to St. George street.

According to plans and specifications to be seen at the City Engineer's office in said city.

The city furnishes all material except tools and shoring.

A marked check must accompany each tender for 10 per cent. of the sum tendered.

The lowest or any tender not necessarily accepted.

W. G. MERRITT,  
Clerk of Chatham.  
Dated July 12th, 1905.

## NO CITY BUILDINGS

So Decides the Market Building Committee—Not Sufficient Money to Erect One.

The Market Building Committee was in session yesterday afternoon. As a result of their conclave the plans known as the "number three plans" will be proceeded with.

As previously explained, the committee found that it could not erect the police station, the market sheds and the municipal building with the money voted them in the by-law—\$41,000. To erect all these buildings according to the plans would cost an additional \$6,000 at least, and, of course, the committee could not overstep the appropriation voted them by the people.

In view of this the meeting yesterday decided to erect just the police station and the sheds, putting a front on the sheds, which will probably be used as meat markets. The old town hall will be allowed to stand as it is at present. The building decided upon will cost about \$17,000 exclusive of sidewalks. The Market Square will be paved, half of the expense being borne by the ratepayers fronting on the square and half by the city.

## The Letter-Box

THAT PARK ST. NIGHTMARE.

To the Editor of The Planet:

That piano nightmare is still determined that everyone shall know that it can't play a tune. To my certain knowledge it has been banging away morning and night for over a year and has never yet played a tune.

ANOTHER.

## CLOSE CALL

Brakeman Fred Lamb, of the C. P. R. morning way freight, had a narrow escape from death this morning in the local yards. As it was he sustained a severely sprained ankle.

He was standing on a freight car when another portion of the train came against it with terrible force, knocking him off the top of the car. He fell down between the cars which, very fortunately, were stopped before they reached his body, otherwise he would have been killed outright. The home of the injured man is in London.

## PARK NUISANCE

"I don't think the residents in the vicinity of Victoria Park will have any more grounds for complaint about midnight singing," remarked Chief of Police Holmes this morning.

"The other day we arrested Martha Browning and her party," continued he, "and last Monday night about eleven o'clock Officers Groves Dodson and myself took a walk to the park and found everything perfectly quiet. Mr. Darr was there at seven o'clock in the evening and he found everything quiet, too."

"We are going to have order in that park if we have to have a man there all the time, and we intend to prosecute everyone whom we find hanging around there at night."

LIQUID  
VENEER

Here is a preparation the like of which we have been trying for years to find. We wanted a real good kind that would refinish any kind of Furniture and leave it highly finished besides covering any scratches that might be there. We are glad to say in "Liquid Veneer" we found what we were looking for. But it is even better than we expected. As its name indicates it is a regular Veneer. It makes every kind of finished woodwork look like new and with very little work too. Try one of our 10c bottles. You will soon be back for a larger one.

## DIES OF INJURIES

As a result of injuries sustained on Saturday last Hector Wright, of the 10th concession of Raleigh, died last night.

The unfortunate man fell off his barn while fixing his hay slings. Dr. Langford, of Blenheim, and Dr. McKeough, of Chatham, did everything possible for him without avail.

The deceased leaves a wife and one child. He was, probably, one of the most progressive young farmers in the county, having but recently completed the finest residence and barns in this vicinity. His loss will be greatly felt in the community.

TAKE MY CURE,  
WHEN CURED YOU PAY ME

The fear that you could not be cured may  
have deterred you from taking honest treatment,  
or you may have been one of the unfortunate  
who have been treated in vain by inexperienced  
physicians, free treatments, free trial samples,  
patent medicines, electric belts and other similar  
devices. Such treatments cannot and will never  
cure you, nor will these malades cure them-  
selves. When offered you a cure, and an willing  
to risk my professional reputation in curing you,  
and have such faith and confidence in my con-  
tinued success in treating these diseases that not  
a dollar need be paid until you are cured, a fairer  
proposition cannot be offered to the sick and  
afflicted. This should convince the skeptical  
afflicted, as I am positive of curing you in the  
shortest possible time, without injurious after-  
effects. My charges will be as low as possible,  
and my guarantee is simple and true. Not a  
dollar need be paid until cured. I have 14  
diplomas and certificates from the various col-  
leges and state boards of medical examiners,  
which should be sufficient guarantee of my  
standing and abilities. It makes no difference  
who has failed to cure you, it will be to your ad-  
vantage to write to me for my opinion of your  
case, which I give you free of charge. I want  
to hear from patients who have been unable to  
get cured, as I guarantee a positive cure for all  
chronic, nervous, blood and skin diseases, which  
I accept for treatment. I not only cure the con-  
dition itself, but likewise all the complications,  
such as rheumatism, kidney and bladder troubles,  
blood poison, physical and nervous debility, lack  
of vitality, stomach troubles, etc. All medicines  
for patients are prepared in my own laboratory  
to meet the requirements of each individual case.  
I will send a booklet on the subject which con-  
tains the 14 diplomas and certificates, entirely  
free. Address simply,  
Dr. S. Goldberg, 316 Woodward Ave., Suite 311  
Detroit, Mich.

## Mistaken Identity.

The worried flat hunter pushed long  
and persistently at the button labeled  
"Janitor." The house bore a sign stat-  
ing that there were apartments to rent.  
The janitor was evidently absent from  
his post of duty, as there was no re-  
sponse to her repeated ringing.  
Disheartened, the seeker for a home  
was about to turn away when the door  
was opened from the inside and a  
bright faced boy of about seven years  
was disclosed. He looked wonderingly  
at the visitor, who asked:  
"What kind of an apartment is there  
for rent here?"  
For a moment of mingled disgust and scorn  
slowly overspread the youngster's face.  
He surveyed the questioner from head  
to foot and finally said with an ag-  
grieved air:  
"Say, I ain't the janitor."

QUEEN OF  
DIAMONDS

By MARGARET  
RICHARDS

Copyright, 1905, by E. M. Doane

The usually cheery face of Mme.  
Fontaine, "palmist and card reader,"  
was overcast. Even the invitingly  
clean little room where madame re-  
ceived the anxious seekers after wis-  
dom shared in the pervading gloom.  
A crudely drawn hand covered with  
cabalistic signs had become detached  
from the wall and lay unheeded in one  
corner; the cards by whose aid coming  
events were evoked were pushed care-  
lessly aside. It was evident that mis-  
fortune had fallen upon this faithful  
priestess of the future.

Nora McCabe had always been a  
wonder at "cuttin' the cards," and it  
was when Pat McCabe died (an event  
which the cards neglected to mention),  
leaving her with five little children,  
that Mme. Fontaine had sprung into  
existence. Having an average amount  
of quick Irish wit and more than an  
average understanding of human na-  
ture, Nora had prospered and as Mme.  
Fontaine she avoided tragedy and  
dealt mostly in romantic and glowing  
generalities.

But of late the fates had not shown  
madame the consideration due so faith-  
ful a follower. There had been a fall-  
ing off in the number of people who  
came to explore the misty paths of the  
future under her expert guidance.  
Four of the children were too young to  
do much besides consume unlimited  
supplies of bread and butter, and the  
day before Jimmy, the eldest, had been  
brought home with a broken leg. In  
short, the outlook was serious.

"Though it ain't always ye can ex-  
pect to be havin' the luck," sighed  
Nora, stooping to pick up the hand that  
pointed a mutely protesting finger at  
her from the corner.

Quite unconscious of the radiant pic-  
ture she made against her dull sur-  
rounding, a girl, tall, graceful, tailor  
made, came swiftly along the shabby  
street. If her courage almost failed  
her, she made no sign as she walked  
steadily on. All the girls had been to  
Mme. Fontaine. Had she not told Mar-  
garet Doane that she would be married  
within a year, and was not Margaret  
even now on her wedding journey? To  
be sure, she had told Louise Henderson  
the same thing, and there was not even  
an admirer in Lou's horizon; but, then,  
every one makes mistakes sometimes,  
and Louise always was hopeless. She  
did not really believe in it. Oh, dear,  
no! But she did so want to know if  
John really were very angry. He might  
have known she did not care for that  
stupid Captain Carstairs.

With flushed face and trembling but  
determined fingers she pressed the bu-  
ton under the card bearing the legend  
"Mme. Fontaine" and soon stood quak-  
ing inwardly, but outwardly serene,  
before the door of the modest little flat.  
Eleanor Robinson was called the  
prettiest girl in the Westchester set,  
and more critical eyes than madame's  
would have brightened at the radiant  
vision she made as she entered the lit-  
tle room and with shining eyes bent  
eagerly forward over the well known  
table upon which madame's experi-  
enced fingers had already placed the  
queen of diamonds.

"That's yourself," explained the wo-  
man as she deftly shuffled the cards,  
and this, laying a heart above it, "is  
good luck to yourself an' yer wish, an'  
here's an offer, an' a fine offer it is,  
with money too. It looks like a mar-  
riage offer, an' 'tis from"—But whom  
it was from she never remained a  
mystery, for a shrill voice from the  
next room called madame, and in her  
anxious haste Nora overturned the lit-  
tle table, and the fortunes of the queen  
of diamonds came to an ignominious  
ending on the floor.

"I'm doin'," said madame as she came  
back, and half crying, stooped to pick  
up the cards. "My Jimmy has his leg  
broke, an' him gettin' along so nice an'  
Mr. Chetwood sayin' his wages should  
be raised this Saturday comin'."

"Mr. Chetwood" interrupted the girl  
in a strained voice. And madame's keen  
eyes noted the warm wave of color  
that flooded her face.

"Yes, miss," she returned, "Mr. Chet-  
wood, the lawyer. It was a fine place  
for Jimmy, an' him likin' it an' gettin'  
into Mr. Chetwood's ways. An' now  
his leg's broke, an' no knowin' when  
he'll get another place," she added de-  
jectedly, and in spite of herself a tear  
splashed on the recovered queen.

The girl rose. "I don't believe I care  
to have my fortune told today," she  
said nervously. "I—I've changed my  
mind, but I shall come to see you  
again," she said, her blue eyes sweet  
with sympathy. She took a bill from  
her bag and laid it on the table.

"Take these, too, for Jimmy," she  
said, loosening the violets from her  
furs. And with a smile and a quick lit-  
tle nod she was gone.  
It was hours later that a tall, broad  
shouldered man knocked at madame's  
door and inquired for Jimmy McCabe.  
A few minutes later John Chetwood  
was holding Jimmy's grimy little hand  
and smiling down on the little freckled  
face that grinned back at him sheep-  
ishly.  
"We cannot do without Jimmy," Mrs.  
McCabe, he said pleasantly, "so I shall  
depend on you to send him back as  
soon as possible." He took some bills  
from his pocket and continued: "I want  
you to take good care of him. No! No!  
That's all right!" as she tried to thank  
him. "You may pay it back when  
Jimmy wins his first case, or you might  
tell my fortune." He laughed good  
humoredly, looking quizzically at the

weird hands decorating the little room  
beyond.

Madame gasped. Her warm Irish  
heart was full of gratitude to the two  
who had been so good to her. If only  
she could do something for them!

He watched her with amused inter-  
est as she slowly spread out the cards  
on the little table.

"Ye have success to yourself an' yer  
wish," she began in the time worn  
formula, "an' there's a light woman,  
the queen of diamonds," she added, her  
eyes fastened on the cards.

John Chetwood threw back his head  
and laughed delightedly. "It thought it  
was always a dark woman," he said.

"She's tall almost as yourself," Nora  
went on, "an' it's like one of the saints  
she is, with her sweet face an' eyes as  
blue as—as the violets," she continued.  
The quick start of surprise John Chet-  
wood gave did not escape madame's  
shrewd eyes, and she went on rapidly:  
"She loves ye—there's somethin' come  
between ye—but she loves ye. Never  
mind what's been, say I—go to her;  
she's waitin' for ye. I see the weddin'  
card."

John Chetwood rose abruptly. "That's  
a great fortune. We'll have to look  
into that, Mr. Jimmy," he said, but his  
laughter was forced, and the lines on  
his face deepened as he ran lightly  
down the stairs.

He hesitated outside the shabby lit-  
tle flat. She lived to the north. A few  
blocks to the west his friends were  
waiting for him. He had tried to keep  
away from her. It was evident she  
cared for Carstairs, and he would keep  
his disappointment to himself and let  
no knowledge of it shadow her. What  
could that woman know about it?  
Nothing! Queer, though, about the vio-  
lets. No; of course he didn't believe it,  
but he squared his shoulders and turned  
to the north.

## The Human Nature Picture.

"You can talk all you want about  
the beauties of landscape pictures,  
etc.," said a well known Kansas City  
art dealer, "but it is the picture with  
the human nature in it that attracts  
the crowd. Put a human nature pic-  
ture in a window with landscapes and  
it will be the only one noticed. Not  
long ago I noticed a number of small  
boys standing around our window.  
They stayed so long I went out to see  
what was attracting them. It was a  
picture of two cowboys leaving a new-  
ly made grave on the prairie, one of  
them leading a horse with an empty  
saddle. Over the grave stood a dog.  
Finally one of the boys said, 'Come on,  
fellows; we gotta go home.' 'I ain't  
done lookin' yet,' replied another, evi-  
dently his small brother. 'Well, come  
on; we've gotta go. You can come  
back tomorrow an' see it some more,'  
came from the first. 'Tomorrow morn-  
in'?' asked the smaller boy. 'Yes,' 'All  
right,' he said, and off they went. Dur-  
ing the day I noticed perhaps a dozen  
people bringing their friends up to see  
that painting. The picture that 'gets  
next' to a person is the one the big  
majority of people love."—Kansas City

## The Critic and the Lady.

Talleyrand, the noted Frenchman,  
possessed wit of so high an order that  
it has stood well the test of time, and  
his jokes are still good. The author  
of "Juniper Hall" gives two of his say-  
ings to Mme. de Stael.

He was a great admirer of Mme. Re-  
camier and Mme. de Stael, the one for  
her beauty, the other for her wit.  
Mme. de Stael asked him one day if he  
found himself with both of them in the  
sea on a plank, and could only save one,  
which it would be, to which he replied:

"Ah! Mme. de Stael knows so many  
things, doubtless she knows how to  
swim."

When "Delphine" appeared, it was  
said that Mme. de Stael had described  
herself as Delphine and that Talley-  
rand was the original of Mme. de Ver-  
non.

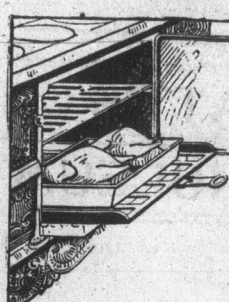

Meeting the authoress soon after-  
ward, Talleyrand remarked in his  
most gentle tone of voice:  
"I hear that both you and I appear  
in your new book, but disguised as  
women."

## A Car and a Wheelbarrow.

When Czar Peter the Great visited  
England in 1698 William III. hired  
Sayes Court, the manor house of Dept-  
ford, for use as his court and palace,  
near the King's dockyard, where he  
proposed to instruct himself in ship-  
building and to work as a shipwright.  
During his tenancy the czar every  
morning either wheeled his favorite  
Menzikoff or was himself wheeled in a  
barrow in every direction over the  
cherished beds, walks and borders,  
trampling all into one general wreck.  
A path was broken through Mr. Eve-  
lyn's famous and almost impregnable  
holly hedge, which was 400 feet long,  
9 feet high and 5 feet thick. In short,  
he did so much damage during his  
three months' residence from January  
to April 21 that Mr. Evelyn had as  
compensation £150 from the govern-  
ment.

## Insects That Love Heights.

"On peaks where even bird life  
ceases," said an Alpine traveler, "and  
the eternal snow seems to have fright-  
ened all life away, I have always found  
insects. No matter how high I might  
climb in those awful solitudes, beetles  
and other bugs could be seen. The bee-  
tles dwell under the rocks and in holes  
in the earth. Their wings are small or  
missing entirely, for the snow circum-  
scribes their wanderings, and they gen-  
erally stay in one place all their lives.  
Even on the ice fields, where there is  
not a single outcropping of rock, but  
everything is white and frozen, there  
is a great six legged insect of cylindric-  
al shape and coal black in color. It  
seems to be as comfortable in the snow  
as other insects are in a flower gar-  
den."

because they added to the life of the range, simplified its operation or economized fuel.

Of these improvements the draw-out  
oven rack is one which will instantly appeal  
to the cook. The handle of this rack is  
outside the range—always cool enough to  
hold with the bare hand. By pulling this  
handle forward anything roasting in the  
oven may be drawn out onto the oven  
shelf to be basted, without touching the hot  
pan or reaching into the oven. The same  
applies to the testing of bread, cake or pies.

LONG ago we realized that the baking and roast-

great importance to the range user. We brought

feature, the Imperiat Oxford stands to-day the most  
perfect baking and roasting range on the market.

to such a point of perfection we naturally did not  
neglect any other improvement which could add to  
the working of the range. These improvements

## HIS GRAVEL WAS SURELY CURED

**Dodd's Kidney Pills Removed the Stones.**

And Now Reuben Draper is Well and Strong After His Long Suffering.

Bristol, Que., July 10.—(Special).—Reuben Draper, a well known resident here, keeps the proof right with him that Dodd's Kidney Pills will surely cure the much dreaded Gravel. The proof consists of two stones, one the size of a small bean and the other as big as a grain of barley. He stopped all other treatment and started to take Dodd's Kidney Pills. In a week he passed the large stone and four days later the smaller one. This cure causes a feeling of relief over people in these parts as it shows those terrible operations, long thought to be unavoidable in case of Gravel, are no longer necessary.

Child Not Expected to Live From One Hour to Another, but Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey, of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by All Druggists.

Mr. Smith came here about a week ago for treatment at the sanitarium.

## ONE DOLLAR SAVED REPRESENTS TEN DOLLARS EARNED.

The average man does not save to exceed ten per cent. of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by All Druggists.

Birth-marks which mark and mar the outside of the body are a grief to every mother whose children may bear them. But for every child who bears a birth-mark on the skin there are many who bear an indelible birth-mark on the mind. Nervous mothers have nervous children and many a man and woman owes an irritable and despondent temperament to those days of dread when the mother waited the hour of her maternity. The use of Dr. Pierce's Favorite Prescription strengthens the mother for her trial. With strength comes a buoyancy of spirits and quietness of mind, which is one of the happiest gifts a mother can bestow on her offspring. By giving vigor and elasticity to the delicate womanly organs "Favorite Prescription" practically does away with the pain of maternity and makes the baby's advent as natural as the flower. There is no opium, cocaine or other narcotic contained in "Favorite Prescription."

This would be a pleasant world if men would pay debts as cheerfully as they pay grudges.

## HEIR TO HALF OF QUEBEC.

Mrs. Caroline Lambert Campbell of Brooklyn, N. Y., Will Press Claim For Twenty Millions.

Seeking to establish her claim to a \$20,000,000 estate escheared for three generations by the British Government in 1760 which includes a tract a mile and a half long and a half mile wide through the heart of the City of Quebec and eight acres of the famous Plains of Abraham, Mrs. Caroline Lambert Campbell, wife of William A. Campbell, an assistant superintendent of schools in Brooklyn, has engaged counsel to push her case in the Dominion and British courts.

Recently she received from Lord Lytton, Colonial Secretary, a reply to a letter she addressed to King Edward, which states that Lord Knollys, the King's private secretary, is unable to advise His Majesty to take other action than to suggest that Mrs. Campbell take her claim to the courts.

In 1887 the Privy Council refused a joint application from representatives of the Catholic Church, the Church of England and the citizens of Quebec asking that \$20,000 held by the British Government and collected as rentals upon this property should be equally divided between the two churches in Quebec. The Privy Council with the assent of Queen Victoria decided that the heir would in time appear and that the property and its usufruct from the time the decree of escheat terminated in 1858 belongs to the heirs of Louis Joseph Lambert, who gave largely of his vast fortune to the French in the French and Indian War. When the English conquered he was deprived of his estates and those of his wife, the Demoiselle Genevieve de Villery, who inherited 103 acres in Quebec City from her father.

**Sir Wilfrid's Inquiry.**

"Where have you been for forty years," Mrs. Campbell asked Sir Wilfrid Laurier when Mrs. Campbell visited him two years ago. "I know every member of your family and their history, and you are the only missing member." Sir Wilfrid through his wife was a collateral claimant to the Lambert estate.

The energetic efforts of Mrs. Campbell, only child of the late Leander Lambert, of Kingston, N. Y., so far have resulted only in finding many documents which Montreal and Quebec lawyers told her did not exist or had been lost. Her success would mean her life interest in the property upon which are the Provincial Parliament buildings, the Dufferin Terrace and many of the best business and residence sites in the city, for which the British Government is collecting ground rents.

Mr. Campbell went to Quebec in 1874, visited the famous old Church of the Basilica and found a priest delivering a sermon. It was known that the Lambert ancestor had built the church, and therefore became owner in perpetuity for himself and his heirs of three pews. Mr. Campbell asked the aged sexton to admit him to the Lambert pew. The man gazed at him in astonishment, and said that none but the Lamberts might enter.

"I am the husband of Augustine Lambert's granddaughter," said Mr. Campbell. The sexton hurried away, and returning with a great bunch of rusty keys led Mr. Campbell down the centre aisle and near the front opened an ancient pew. The priest paused in his discourse and the old residents half rose in their seats. As Mr. Campbell he whispered to Mr. Campbell: "No one has sat in any of the Lambert pews for fifty years."

## Grandfather's Papers Removed.

Among the effects of Mrs. Campbell's grandfather was a memorandum which read, "Treasury Office, Quebec. The papers are in the vault, No. 37, about the sixth tier from the door." Mrs. Campbell tried to see these papers. She learned that the building had been burned, but the vaults were unharmed, though their contents were removed. But where they are now she has not been able to learn from the Provincial Government.

Mrs. Campbell's father, Leander Lambert, was the oldest son of Augustine thought their contents were removed. "Troy about 1850 and died there in 1865. Leander had married and one child, Mrs. Campbell, was born before the young father went to St. Louis on business in 1855 and fell a victim to the cholera epidemic which swept over that city.

Augustine Lambert was the Lambert of the third generation, with whose life the escheat of his grandfather's estates ended. But he had removed to the United States. His son was dead and the young widow was not in a position to enter the controversy for the estates. So the matter slumbered in the direct line, but collateral heirs eventually learned of Augustine Lambert's death and began proceedings to recover the property, which were unsuccessful.

## Died as Peacemaker in Duel.

Far back in the romantic days of Quebec Le Sieur Louis Joseph Lambert was a great man. He married the daughter of Louis Rouer de Villery and joined the vast fortune of that house to his own. He gave to the French immense sums to aid the defence of Quebec against the English, and when he sprang between the brother of his wife and another young aristocrat of old Quebec, who were fighting a duel with swords in about 1760. He saved his brother-in-law's life at the cost of his own, according to the family tradition.

The estate is estimated to be worth at least \$20,000,000. Mrs. Lambert would not come into actual possession of this. It is entailed under the British law, she says, and she would have only a life interest with the right, however, to mortgage the properties. She has no son, though two daughters are as much interested as their mother in her claims, and on Mrs. Campbell's death the estates would pass to her first cousin, Henry Lambert, president of the Grand Avenue National Bank, of Kansas City, who lives in St. Louis. Another cousin is C. D. Lambert, general passenger agent of the West Shore Railroad, who investigated his rights in the matter several years ago, and discovered that he was the furthest removed of the direct descendants of Augustine Lambert.

Since Mrs. Campbell has appeared upon the field, the properties she claims in Quebec have been practically tied up and the Government declines to give any but short leases to the land at issue. It has refused to permit the rebuilding of the Victoria Hotel, which was burned there a few years ago.

July 11.—The Misses Ward left last week for a month's visit to relatives at Malborough, and while away will take a fishing and scenic trip among the Thousand Islands.

Mrs. C. W. Lowes, who went to the Hospital at Chatham last week, has been operated on and is doing as well as can be expected.

F. Hunter, of the Standard Bank here, is relieving at Colborne. F. Warden, of Canadian Bank of Commerce, is relieving at Dresden.

Mark Wellwood, of Detroit, is visiting friends here.

Rev. J. W. Holmes, formerly of Gorrie, the newly appointed pastor of the Methodist Church here, occupied the pulpit at both services on Sunday. A large number were present at both services to hear him preach.

The many friends of C. R. (Reg.) Jamieson will be pleased to hear of his success. He has been appointed editor of Toronto Saturday night, one of the best Canadian Weekly papers. He first came into prominence as writer of letters editorializing the College Professors, under the name of Junior Junr.

A number of young people went to Palmyra on Friday evening last, it being the closing night of a series of meetings. Rev. Geo. McLean took part.

Rev. Geo. McQuillin is taking his vacation and will be absent until the 14th of August. Next Sunday Mr. Shackleton, of Chatham, will conduct the service in Trinity Church.

Rev. Mr. McQuillin will conduct service at Erieau on Sunday evenings at 7.30 at the Pavilion, beginning next Sunday, July 16th, and continuing until 13th August.

Mr. and Mrs. J. W. Shillington and family and Miss Clara Colborne left yesterday for Erieau to spend two weeks.

Miss Paul, of Crofton, has taken a position at Mrs. Jenner's.

Dr. W. B. Gerow has opened up dental parlors at Glenville, Ohio.

Miss L. B. Shaver has taken a position at Messrs. Thibodeau & Co's, Chatham.

## HOW TO CURE TOOTHACHE.

Any aching tooth can be relieved instantly with Nerviline. Fill the cavity with batting dipped in Nerviline and rub the gums with Nerviline also. If the face is swollen and sore bathe the painful parts with Nerviline and cover with a flannel. This can't fail because Nerviline kills the pain outright and prevents it from returning. Stronger, quicker, more satisfactory than any other liniment, Polson's Nerviline has been the largest seller for nearly fifty years; try it yourself.

## Two Exceptions.

"They say that all the world loves a lover," said the rejected suitor as he ate his dinner from the mantelpiece. "but there are generally two exceptions to the rule, the girl you want to be your wife and the man you want to be your father-in-law."

Submit to what is unavoidable because the impossible from the mind and look around for some new object of interest in life.—Goethe.

Self-laudation has the merit of not being hurtful in its influence.

## THE FAST TRAINS

To California are run over the Union Pacific, via Omaha, 16 hours quicker to San Francisco than any other line. No change of roads, no detours, "The Overland Route" all the way. Be sure your ticket reads over the Union Pacific. Inquire of H. F. Carter, T. P. A., 14 James Building, Toronto, Canada, or F. B. Choate, G. A., 126 Woodward avenue, Detroit.

## MESSRS. C. C. RICHARDS & CO.

Gents,—I cured a valuable hunting dog of mange with MINARD'S LINIMENT after several veterinarians had treated him without doing him any permanent good.

## LEARN DRESSMAKING IN TWO WEEKS

I will be at the Garner Hotel, Chatham, on Saturday, July 22nd, between 9 and 6 o'clock, to show how dressmaking can be taught in two weeks. Why spend from six to nine months learning dressmaking in a shop, and then not know anything about cutting, when I teach you everything from measuring to finish in the making of ladies' and children's garments in two weeks. I have taught over 700 girls in this way within the past three years, and all were more than satisfied. If you are the wife or daughter of a farmer, mechanic, laborer, merchant or millionaire, you should learn Dressmaking. No accomplishment you can acquire will prove of such every-day, life-long value to you as a practical knowledge of Dressmaking. And if you have this knowledge you can, by saving dressmaker's bills, be able to dress much better, with less money, than you probably do now. I teach you how to put together, not only the lining, but all the outer goods in coats, skirts, waists, wrappers, sleepers, in fact everything in dressmaking. And you are losing nothing by trying, for if you are not satisfied at the end of the term, then there will be no charge. School teachers, college girls and everybody who are having your holidays now, do not fail to take advantage of this splendid opportunity. You may never get another like it. Charge for full course is \$10, when you are through, if satisfied, including one of the most perfect fitting systems in use, which I give you free! I will also at the same time teach part of the course, consisting of shirtwaists, sleeves and skirts, and teach you how to use the system for \$6.

I will teach at Chatham from July 24th to August 5th. Hours from 8.30 to 5. All wishing to learn, or for full particulars, be sure to see me in the upstairs parlor of the Hotel Garner on Saturday, July 22nd, at the hours named above.

An evening class will also be taught at Chatham this time. Full particulars for it can be had upon application on July 22nd.

**MISS R. ELLISON,**  
Dressmaking Teacher,  
Box 320, Brantford.

## FIRE DAMP EXPLOSION

126 Lives Believed to Be Lost  
in a Welsh Pit.

Disaster Is the Worst in the Collieries There Since 1894—Heroic Efforts Have Succeeded in Recovering 68 Bodies—Hundreds of Women and Children Make Pitiful Scenes Around the Pit Mouth.

Cardiff, Wales, July 11.—An explosion of fire damp in No. 2 pit in the United National Colliery Co. at Wattstown, in the Rhondda Valley, the centre of the great Welsh coal fields, yesterday, is believed to have resulted in the loss of at least 126 lives. The first indication of the explosion was a loud report, immediately followed by belching of clouds of smoke and dust from the pit shaft, in which 150 men were working. The force of the explosion wrecked the machinery at the mouth of the pit.

Communication with the doomed men in this direction is completely severed. No. 1 shaft, adjoining, has ordinarily afforded communication with No. 2. The 800 men in No. 1 and the few who escaped from No. 2 were drawn up. A rescue party descended, but its work was seriously impeded by the foul air and falling masses of earth dislodged by the explosion.

Altogether sixty-eight bodies have been recovered. Heroic efforts have been made for hours to reach the entombed men, but late last night the absence of all sound from the interior of the mine told the tale of the worst disaster that has taken place in South Wales since 1894.

The news of the explosion spread rapidly and hundreds of women and children, and thousands of men thronged the head of the pit seeking information. The mountain roadways were crowded all the afternoon and there are now streams of people in the neighborhood of the mine all contributing to the pitiful scene.

Efforts at rescue were still in progress at midnight, and currents of fresh air were being driven through the shaft, but the rescuers are now working without hope of reducing the list of fatalities.

All Have Perished.  
Dortmund, Prussia, July 12.—Efforts to rescue the thirty-nine men who were cut off by the fire in the Borussia coal mine Monday have been without success, and it is feared that they have perished.

Gored By a Bull.  
Ottawa, July 12.—John Burns, aged 65, was gored to death by a bull at the farm of J. G. Clarke, Westborough. He was standing in the stable when the bull walked over and punctured him in the abdomen.

Fell in Front of Mower.  
Niagara Falls, July 12.—A ten-year-old Joseph Galley of Stamford Township fell from a mowing machine on his father's farm and had one of his feet cut in two by the knives.

Found in the Woods.  
Halifax, July 12.—The body of a young man who met death by shooting was found in the woods yesterday.

Stood in Front of Revolver.  
Garden Hill, July 12.—As William Davison, who lives east of the village in Hamilton Township, was working at a revolver with a hammer and crowd driver to force the cylinder to revolve, his wife did not hesitate to stand directly in front of the barrel.

The result was the revolver went off, and now Mrs. Davison has a No. 22 bullet in her leg about 5 inches above her knee, which up to the present time has not been extracted.

Starves to Death.  
Montreal, July 12.—Locked up in a freight car and starved to death was evidently the fate of an unknown man whose body was found in a car on a siding in the G. T. R. yards yesterday. The odor of decomposition led to the discovery. There was nothing about the man to lead to identification, and it is supposed he got into the car to steal a ride.

## IS OFFERED A THRONE.

Prince Charles of Denmark Is Wanted By Norwegians.

London, July 12.—The Associated Press is in a position to confirm the report that an offer of the Norwegian throne has been made to King Edward's son-in-law, Prince Charles of Denmark.

The matter is still under consideration. It is understood that King Edward and the British Government are favorable to the project, but much depends on King Oscar's attitude on the subject. Consultations are now going on.

Prince Charles' mother was a daughter of the late King of Sweden. Willing to Accept.

Copenhagen, July 12.—It is understood that Prince Charles of Denmark will be willing to accept the crown of Norway if King Christian and the Danish Government consent.

## STILL AT LARGE.

Joe Bennett, the Alleged Indian Murderer, Eludes the Searchers.

Brantford, July 12.—No authentic report of an arrest has reached this city from the Indian reservation, where Joe Bennett, charged with murder, is supposed to be in hiding. High Constable Montgomery, who is directing the man hunt, still maintains that Bennett has not got away, but that he will be caught.

## Long Identification Journey.

New Liskeard, July 12.—A. E. Watts, barrister, of Brantford, is in Liskeard organizing a search party which will leave here in a few days to recover and bring back the body of Huron Dallas, the young Brantford solicitor who lost his life last spring. The body was only recovered about a month ago and was buried near the spot where it was found. Some question has been raised by the insurance parties concerned, and Dr. Frank Britton, a dentist of Brantford, has been sent up to identify the body. This he proposes to do by the filling he had put in deceased's teeth shortly prior to his leaving Brantford.

## WORLD OF SPORT

## BOWLING

Four rinks of Chatham bowlers, skipped by L. E. Tillson, R. G. Fleming, Dr. R. V. Bray and G. Mitton, go to Ridgeway to take part in the bowling tournament there to-day.

## LAUROSE

The Tecumsehs play Wallaceburg at the 'Burg to-day. In Queen's absence, Kollege will play goal. Cheviots will also be off the line. The Shamrock Juniors accompany the team to play the Junior Sugar-Beaters. An effort is being made to have the Blenheim team play an exhibition game on the park Friday evening.

## ORIOKET

Chatham has developed a great number of cricketers who have gone out into the four corners of the earth to spread the glorious game. The latest to be heard from is Sam Mercer, now in Utica, N. Y. In a game between Schenestady and Utica, Sam, playing for the latter, took seven wickets for 20 runs. The Utica papers speak of his performance as a brilliant one.

## BASEBALL

Lajoie, the hard-hitting manager of the Cleveland American League, is laid up with blood-poisoning, as a result of being spiked by O'Leary, of Detroit, a few days ago. It is not likely he will be in the game again this season. This will sadly cripple his team, who are neck and neck with Chicago for first place.

## VICTORY FOR CHATHAM.

The Chatham baseball team turned the tables on Dutton yesterday, with a vengeance, shutting out the home team in a magnificent game. Much credit is due Manager Julius Perrott for getting his team in such splendid shape. The score was:

R. H. E.  
Chatham ..... 7 16 1  
Dutton ..... 0 5 4

The Chatham team was—Woods 2b, Hicks s, Depew p, Robert 1, Cook m, Keane c, Head r, Wilson 3b, Rankin lb.

## NEW MEN FOR TORONTO.

Toronto, Ont., July 10.—Manager Harley, of Toronto baseball club, left for Philadelphia Saturday night, and President Seitz to-day received a wire from him, stating that he had secured Pitcher Caldwell, of the Philadelphia Nationals. ## MOSQUITOS

Ode to the Inhabitant of Marsh and Fen from the Talented and Troubled Pen of T. R. Harris.

T. R. Harris, the talented secretary of the C. C. I. Board, has penned the following lines, suggested by an interview with S. B. Arnold in The Planet the other day on the pest throughout the whole county. Through the courtesy of Mr. Harris The Planet is enabled to publish the stanzas:—

## MOSQUITOS.

Inhabitant of fen and swamp,  
When the first gleam of lighted lamp  
Allures at nightfall from their damp  
And marshy borders,  
Among whose noxious weeds encamp  
Your boon marauders.

If in the twilight after work,  
We please in darkened rooms to lurk,  
Flitting a-near us in the mirk,  
You hum your verses;  
And drive a Christian, like a Turk,  
To frequent curses.

Then when to couches we betake  
Our bodies, sore from bite and ache,  
Your sly approaches keep awake  
The drowsy watchers,  
And, like bad candidates, you make  
A host of scratchers.

Little avails the finest gauze  
To save us from your mordant jaws;  
Your searching eyes discover flaws  
In gown and tucker,  
Through which your little windpipe  
draws.

Our blood, you suckers!  
I wonder what fell happening  
First gave your shape its buzzing  
wing,  
And taught your little throat to  
sing.

Its sharp falsetto,  
Or showed you how our flesh to sting  
With keen stiletto.

It must have been infernal hate  
That moved the furies to create  
An insect thus insatiate  
Of human diet,  
And bade it mightily irritate  
Our rest and quiet.

McADAM STATION HOTEL.

Situated in McAdam Junction, N. B., is especially convenient for commercial and other travellers owing to its location at the point of junction with the main line of the C. P. R. Company's branch lines intersecting New Brunswick.

For pamphlet descriptive of hotels, how to reach them, rates and time tables, write to C. B. Foster, D. P. A., C. P. R., 71 Yonge street, Toronto, Ont.
