#### ARRIVAL OF THE STEAMSHIP ASIA.

New York, Dec. 10.

ENGLAND. The no Popery cry has lost little of its intensity, but the objects have become more distinctly defined.

The great anti-Popery meeting was held at York on the 22nd. ult.

Earl Fitzwilliam moved an andress to the Queen, praying that Her Majesty would maintain and preserve her supreme authority, as by law established. His motion was carried by an immense majority.

AUSTRIA. Proposed to delay the measures against Holstein and Hesse Cassel until the extension shall have been settled by the free conferences. She also offers to dissolve the Diet, and consent to a league of Ger-

man States.

No change in affairs at Hosse Cassel The Government of the Duchies were firm in their determination to oppose any intervention of the band, and not a single Prussian has left the Holstein army .-General Willisen had made another movement of his outposts, which resulted in a skirmish, in which a few were killed and wounded on both sides."

The news from Germany continues favorable.

A truce of eight days has been agreed upon between General Groeben and the Prince Thurm and Faxis, and a line drawn, beyond which neither the Prussian nor the Federal army is allowed to step.

FRANCE. The first week of the sittings af the le gal Assembly in France has passed over without any important event.

The accounts from the manufacturing districts are steady.

PRUSSIA. port on that day, that the terms of the King's speech for the opening of the chambers, were settled at a Cabinet Couneil over which the King presided.

The movements of the troops in Austria, Bavaria and Wirtemburg, have been temporarily suspended.

IRELAND.

A dreadful storm has visited the Irish Coast, raging with the greatest violence in Limerick and its environs. "All the ships in the quays were filled with water. Several vessels were sunk, and a number damaged. No loss of life occurred .-Much damage is anticipated in other parts.

ARRIVAL OF THE

# AMERICA.

BOSTON, Dec. 13. The America arrived this morning at 8 o'clock. Her mails leave in the afternoon

Baring Brothers' Circular says :-"American Stocks continue in the same galized. quiet state, and quotations are unaltereda'

It is said the British Parliament will be called together earlier than usual, on account of the anti-Popery question. The excitement still continues. Serious riots have occurred at Birmingham. The Magistrates and Police were driven back by the mob, but peace was finally restored by the Roman Catholic Clergy.

The gale of the week previous to the sailing of the America proved exceedingly destructive on the English and Irish Among a vast number of other vessels reported, is the Emigrant ship Edmund from London, which was driven on shore near Limerick, and ninety six, out of two hundred and six passengers, were lost.

AUSTRIA AND PRUSSIA. The London Shipping Gazette, of Friday, Nov. 29th, 3 P. M., has the following announcement :- "The intelligence from the Continent is again of a warlike character. The Cabinets of Berlin and Vienna are now stated to have arrived at a point at which the dispute must emerge into open hostilities; the late negotiation between the Cabinets not having led to any satisfactory results."

The French Government is said to have received a despatch from Berlin, announcing that the Austrian Government has demanded the evacuation of Hesse Cassel, within 24 hours.

The same report says that a note drawn up in energetic terms, was conmunicated by the Russian Ambassador at Berlin, to the Prussian Government.

# LATER FROM CALIFORNIA.

NEW YORK, Dec. 9.

The Arctic arrived yesterday from Chagres and Jamaica, bringing dates from the latter place to the 1st December. She has over \$2,000,000 in gold in her manifest, and in the hands of passengers, who number 230,—among whom is Gen. D. Squier, ex-President of New Grenada.

The Royal Mail steamer Avon started from Chagres on Sunday, the 24th ult., for Carthagena and Southampton, with mails and specie, estimated at \$800,000, for England.

The Empire City reports that the cholera has been quite fatal in Kingston, Jamaica, and it is now more severe in other parts of the island. Kingston is reported to have lost 5000 by the epidemic.

From St. David, frightful accounts have been received.

New York, Dec. 13 .- The fire in Halifax, which the Steamer brings accupied by poor families, were burned, and the tenants experienced much distress.

#### GUELPH HERALD.

TUESDAY, DECEMBER 17, 1850.

Waterloo County Council.

The Municipal Council of the County of Waterloo met here on the 10th instent, pursuant to adjournment from 10th July.
The following members were present:—

B. THURTELL, Esq., Warden. Mesers, Ernet, Cameron, Halliday. Cockburn, Watt. Thorp. Fox, Meyers, Passmore, Bunley, Armstrong Donaldson, O'Callaghan, Clarke. Ellis.

Hawk, The Warden read the following Address :-

GENTLEMEN : Since the last meeting of this Council. received a letter from Mr. Robertson, on behalf of William Rutherford, claiming £180 for building Kirby's Bridge, and threatening an action in case of refusal; but from what I have ascertained from the Board of Directors, he has no legal or equitable claim to sustain him, were he to bring his case into a court of law : Also, a circular from Franklin Jackes, Esq., Warden of York County. with a copy of resolutions adopted by that body last August, relative to the holding a General Convention of Delegates, and desiring the concurrence of this Council in carrying out their views: Likewise, a letter from the Town Clerk of Wilmot, enclosing copy of a resolution passed by the Municipality of that Township, declining to assess their Township for school purposes, thinking it would be illegal under the new School Act, although the Superintendent, in h s Circular Accounts from Berlin to the 19th, re- to Wardens, expressly says, if any of the Township Councils have anticipated the apportionment of the Legislative grant, then it will be unnecessary in such cases for the County Council to impose any further assessment : Also another letter, from the Collector of Wilmot, announcing the extraordinary fact that he had begun to collect the School Tax without any authority. I immediately wrote to him in reply, pointing out to him the dangerous position in which he had placed himself, and advising him to return the money to the parties from whom he had collected it.

On the 3rd instant, I received a letter from the Rev. E. W. Stewart, stating that no ladder was provided for the County Grammar School in the event of fire; also a letter from the Treasurer of the Wellington District Mutual Fire Company, notifying an assessment of two per cent. to be paid

In the month of last July, I received an important communication from A. J. Fergusson, Esq. informing me that the Bill introduced by him t the Legislative Assembly to legalize our By-law imposing a tax on wild land was thrown out, and ecommending us to persevere and stick to it session after session till we succeed in getting it le

All of the foregoing letters will be laid before ou. This last communication is unquestionably of the utmost importance, as it involves a loss of £2,000 a year, which I fear will have to be met in some other way. I requested our Treasurer to make out a statement of the probable amount of the penny rate which was imposed by this Council, and against that to make out in detail the current and contingent expenses, the amount of debentures which will mature, and the amount of interest which will accrue on other debentures for the year-1851, in order that this Council may see

The Act incorporating certain persons as the Guelph and Dundas Road Company has been petition. It empowers the Company to increase tract, it is at present in a very good state; but in consequence of the sudden and melancholy death of the late T. R. Brock, Esq., and the difficulty of finding and collecting all the papers, with other unavoidabio obstaclas, it was impossible to make out a report in time for this session. You must bear in mind that it will require to be minute and comprehensive, embracing all the various and important matters which have been laid before the Board, and likewise stating, if any, how much deficiency in metal and gravel, and what sum will be required to make the road in accordance with

the specifications and plans of the original contract. I need not say anything relative to the Guelph be laid before you.

I have to inform you, that in consequence of the lamented death of T. R. Brock, Esq., I have ap- brought in a By-law to repeal a By-law pointed Mr. A. Stephens as one of the Auditors passed in the 26th Session of the Welling- the more obscure waiters on providence throughor this county. I believe him to be an able and uties which will be imposed upon him.

I have also to notify you, that the Policy of In urance on the Gaol is expired. It will be for you to take some action on the matter, and give me nstructions accordingly.

I have to direct your attention to a subject deeply affecting the interests of this county, and one which involves an important question, namely, whether this Council is to have the sole right and control of the purse-strings of the County in all its prayer. monetary transactions, save and except the Judicial expenses; or whether we are assembled here for the mere purpose of assuming the responsibility of imposing taxes for another body to expend. The fac's are these :- In the year 1847, an Act was passed, 10th and 11th Vic., chap. 14, authorizing District Councils to appoint Enumerators for the purpose of taking the Census. In that Act, the Clerks of the Peace were appointed to examine the returns and correct any inaccuracies, and to make an abstract therefrom, and transmit triplicate copies to the Board of Registration and counts of was one of the severest ever Statistics. You are aware a By-law was passed known there. The North Barracks, and by this Council at the second and special session about a hundred other houses, mostly oc held in March, marked No. 6, for the purpose of remunerating Enumerators; and in that By-law it is enacted, that the Clerk of the Peace be paid NEW ORLEANS, Nov. 13 .- Counsel for the sum of One Pound for each Township, on

Quarter Sessions to vote him a sum of mency for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew for the performance of duties which he well knew this Council had already anticipated by passing the By-law as before mentioned—which sum of money, you will please to observe, was nearly bree times the amount which was awarded him by this Council. I protested against the vote, declaring it illegal, and that the Magistrates h nothing whatever to do with it; but, to my asto-nishment, the Judge of the County of Waterloo declared they had the power, and the motion passed, Mr. Saunders being present. I was not satisfied, and felt it my duty to apply to our County Solicitors for their opinion Mr. Fergusson at once gave it as his decided opinion that the Magistrates had no power, under the statute, to order any remuneration to the Clerk of the Peace. Under these circumstances, backed by the opinion of our legal advisers, I proceeded to the Treasurer's house, and notified him not to pay Thos. Saunders. Esq. any greater amount than had been awarded him under the By-law of this Council. I must here beg leave to disclaim, most emphatically, having any hostile or personal feeling towards the Clerk of the Peace. I believe him t be an excellent officer, and invariably civil and obliging . neither is he to be blamed for endeavoring to obtain fair and adequate remuneration for services performed: but it was the way he attempted it on which my objections are grounded. I conceive the proper course for him to have pursued was to memorialize this Council, pointing ut to them the amount of labor which he had to perform, and that the sum awarded him was inadequate. Such a representation would have been received respectfully, and most likely acceded to; as I believe it is the desire of this Council to pay any officer, for services rendered, what is equitable and just. We observe that the Dumfries and Beverly Road Company have issued their tariff of tolls, which would seem unnecessarily high; but it must be borne in mind that there is only one toll-gate on the whole distance, which is nearly double that usually allowed .- The following is

For each Vehicle, drawn by four horses, or other cattle, ..... 1 Three do do.. 1
Two do do.. do do do do Two One do do .. do do For each Saddle or Lead Horse.. For each score of sheep, swine or neat cattle......

At the meeting of the Waterloo County Council, on the 11th inst., a communica tion was read from the Warden of the United Counties of Wentworth and Halton, relative to the rate of toll exacted on the Guelph and Dundas Road; and we learn from the Guelph Herald that "it was resolved that the Council recommend the Directors of that road to exact a proportionate rate of toll on the line to that now levied on the Galt and Dundas Road." Thus, it seems, that on every important line of road leading to Dundas, a high rate of toll will be demanded.

INCENDIARISM .- An attempt to set fire to the frame Shop occupied by Mr. C. H. WEBSTER, Druggist, was discovered on Sunday Morning. About two o'clock, a gentleman proceeding home, saw a lighted persons for the work, giving evidence of mass in the rear of the above Shop, which proved to be a regular preparation of combustibles, consisting of Cotton, steeped in Spirits of Turpentine, scattered powder, and a fuse made of coarse rope, steeped in a solution of Saltpetre. This contrivance was not the work of a tyro-but must have been prepared by an old experienced hand. The danger is therefore the greater. Let the citizens be on the look out! Had the above attempt not been fortunately discovered, the conflagration might have been the greatest that ever occurred in Hamilton, as the devoted building is situated in the midst of combustible frames and some of them the finest warehouses. It will be seen that the Mayor has offered a reward of £100 for such information as may lead to the detection of the incendiary. MUNICIPAL ELECTION.

As the period appointed for the election of the Municipality of the newly in-corporated capital of the County of Waterloo draws nigh, we hear a variety of opinions in regard to the suitableness of the different candidates put forward for the suffrages of the electors. The Reform Committee, in accordance with the very learned, liberal, and judicious views mooted in last number of the Advertiser, have nominated eight gentleman, Radicals of the first water, to fill the offices of Councillors and Inspectors; and had there been eighty required instead of eight, they had doubtless found fit and proper their liberality by leaving the Conservahe extinguished, and on examination it tive party totally unrepresented, to be

# GUELPH TOWNSHIP SHOW.

The Annual Exhibition of Grain, Seeds, Roots, Dairy Produce, Woollen Manufactures and Fat Stock, by the Guelph Branch of the Agricultural Society, was held yesterday. The day was particularly unpropitious, a heavy fall of snow, aided by a keen northwester, marring the roads, and rendering travelling exceedingly disagreeable, no doubt prevented the attendance of many who had else been present. REPORT or the superstreament of common schools In the County of Waterley, for the year ending 31st Dec., 1849.

The subscriber has the honor to report to Council, that Returns have been made of schools from 18 Townships for the year ending 31st Dec. 1849, from wheh it appears that the number of schools taught during last year in these Townships amount to 119, and that the teachable population from the age of 5 to 16, residing in these School Sections, amount to 11065.

The amount of the Provincial Grant for that year was £847 15 3. The gross amount of School Tax levied by order of the Council was £1302; Deduct to meet the salaries, bad debts, Mr. James Forguson, Mr. Peter Gow, Mr. Peter Gow, Dr. Liddell. £1087 3 5. Amount divided among the School £1934 18 8.

These sums have passed through the Reporter's nands, and do not include the Special Taxes levied on the application of S hool Trustees, nor the by the Trustees, and collected and paid by them to the Teachers.

In general the Schools are increasing in the number of Scholars, and the Teachers in efficiency, although it must be confessed that there is still room for improvement. It is to be regretted that so few of the teachers from this County have availed themselves of the advantages to be derived from attendance at the Normal School. The few Peachers, however, who have attended that School have had considerable influence in their immediate neighborhood, in exhibiting the mode of communicating instruction adopted in that establishment, and other teachers in the neighbor hood have shown a laudable desire to obtain information on the subject by occasionally, as opportu nity served, looking in upon these schools, and seeing the system carried into practical effect.-The influence of such visits is somewhat similar to the model schools, although it may not have the same advantage; as in the model school the students not only see the mode of tuition carried out, but have to put it in practice by taking charge of and conducting the various classes in the

The change lately made in the Normal School by extending the duration of the Session from to 9 months, has, in the meantime, prevented some from attending the present session who had intended to do so, but although it may form a present inconvenience, it will ultimately be a great advantage to the students. Five months was too short a period to gain instruction in all the branches of education, thought proper and necessary, in order to qualify a teacher; and several, if not many, were unable to master the subjects taught and digest the Lectures in so short a time. Nine months spent at the Institution will enable the Normal School Teachers to extend their Lectures, and the Students will have me time to study in such a manner as to be able fully to comprehend the various branches of education, -and thereby be more enabled to conduct the tuition required of them in Common Schools. It is therefore to be hoped that in a few years the Schools will be supplied with native teachers fully qualified to conduct the education of the youth of the country on an uniform, and what appears to be at present, the best system of Common School

Guelph, Dec. 18th, 1850. The Herald will please copy this letter, and oblige the parties by whom it is signed.

To the Editor of the Guelph Herald.

Sin :- My observations in reference to the fai ure of the recent speculation of the Guelph Wheat and Flour Company have elicited a response from a few of the partners of the defunct ncern, evidencing either motives of a very questionable character, or very great mis-aprehension of the intention and tendency of my statements. I am charged with "reflecting on the Company and its operations in a way most uncalled for, and n our opinion unjust." I deny the charge. cast no reflection on the conduct of the Company generally, and now reiterate my conviction and ertion that they gave their countenance and support to the affair from "the purest and most to her character.—N. Y. Sun. sinterested motives"; but, I certainly held, and ontinue to hold, that mis-management must ave obtained in some department of the concern cause so large a loss in so short a period, and that not only was dissatisfaction expressed by the sublic generally at the mode of conducting busiless at the People's Mills, but that serious disagreement was consequently caused among the partners themselves, else the Company had not proke up when but scarce ushered into existence.

Are these facts denied? If so, the correspondents of the Advertiser will perhaps condescend to oblige the public by stating the reason inducing the retirement of themselves and others from flourishing and harmoniously conducted business with a less of some £20 each, and how their selfcongratulations on the escape they deemed they had made have been spoken in every street and lane of the locality. Is it denied that much dissatisfaction at the peculiar mode of doing business at the People's Mills has been expressed by many farmers and others who had done business with the Establishment? They "do not feel called upon to particularize the many falsehoods which the letter of Anti-Humbug contains." 1 publicly dare them to make good their injurious allegation. Let them particularize "the falsehoods," and they shall have proof of the verity of my statements him £1 5s., which he accepted and has been until they are compelled to cry "hold, enough !" paid. Annexed is a statement in detail of the re-Gentlemen, there lies my gauntlet. Pity it is the per barrel; per 100 lbs, 8s 9d. attempt to benefit the place generally meets with opposition from those who have least interest at stake, and only their evil disposition to gratify.\*\*
Alas, poor Guelph! Is it then, Sir, absolutely ne cessary that a man possess a certain quantity brick, or stone, or mortar, ere he terest in the prosperity of the locality in which he is a resident? or is it not possible that as much patriotism, as large a desire to benefit the spot in which Providence has cust his let, may abide in the besom of the artizan, whose daily recuring wants are supplied by his daily toil, as in that of the proprietor of a house or farm? I cannot believe, Sir, that the wealthy are the only person possessed of such a virtue; for 1 have enough of the world to be convinced that the man may have quite as great a desire to prome the wellfare of those around him as has his rich neighbor, and from at least as unselfish a motive.

Another Co-partnery now occupy the People's Mills, and I sincerely hope that, profiting by the errors of their predecessors, they will so conduct the establishment as not only to confer a benefit on the locality, but to make it remunerative to exhilarating, and healthful game, in which a quick | Cash Market to the farmer is an obvious benefit to the town, and deserves, and ought to receive, strong arm, to forthwith become members of the the support of every inhabitant according to his

The Members of the late "Guelph Wheat and Flour Company," while they may " regret the publication of the anonymous letter in last Her ald," will, I have reason to believe, have more cause to regret the reply sent forth by them .-There was no crime laid to their charge, nor intentional error imputed to them ; and, if an error of judgement was committed by all concerned, a frank acknowledgement had been more creditable than the abortive attempt to serve a friend or a party by adhibiting their names to such bosh and bunkum as the letter in last Advertiser which has called forth more blushes than grins from the "Guelph Wheat and Flour Company" regret the friends of the deceased. I have heard no compublication of an anonymous letter in the last plaints in regard to the manner in which business Herald, reflecting on the Company and its opera- is now done at the Mills, and sincerely wish the tions in a way most uncalled for, and, in our opinion, unjust. It is true that the Company was they may speedily efface any disagreable remineformed for the purpose of establishing "a ready sences in the minds of the farmers. AWFUL MURDER BY A YOUNG FIEND. -The Pitsburgh Daily Gazette contains plain; and we cannot but deprecate the disposi- were confined. They had been quarreltion and motives which prompted the writing and some, and all bore marks of repeated compublication of such a letter as that referred to. Dats. James Cox [colored] was found lying senseless on the floor, so severely injured that he died on Sunday morning. REMARKABLE DELIVERANCE .- The Lancefield, which has just arrived in the Clyde, in lat. 40, lon. 13, 30, West, on the 3rd inst., spoke the barque Emerald, for London from Cadiz. The latter ship had on board the master of a Portuguese vessel, who had been picked up when floating on a bundle of cork-wood, about 20 miles from land. He had been on board this precarious craft for three days and nights, and during the whole of that period was destitute of food or fresh water.

THE CASE OF MISS SHOTWELL. - Some two or three months since considerable excitement was caused, and public feeling greatly aroused by the report of the hor rible practices said to have been practised by a Miss Shotwell, who has charge of an infant Asylum at Morrisania. Immediately after the report became circulated, a committee composed of Messrs. Wm T Pinckney, Timothy Daly and F Tillson, was forthwith appointed to investigate the matter. The committee after a searching investigation, have just completed their report, which not only exculpates Miss Shotwell, but bears the highest testimony

Late English papers state that Chief Justice Robinson, Chief Justice of Canada West, is about to be created Knight Commander of the Order of the Bath.

PHILADELPHIA, Dec. 18.-By the barque Venezuela, we have dates from Puerto Cubello to Nov. 23. It was still thought the brother of Monagas would be chosen President by the Legislature. Tranquility prevailed in every section of the country. Coffee was coming in, but the yield would be one-third less than that of last year.

SYRACUSE, Dec. 18 .- The salt business is nearly suspended, owing to the want of water; prices have already advanced 18 per cent., and a further advance is confidently expected.
