BRUSSELS IS TAKEN BY GERMANS

WHEN THEY CLASH A TERRIFIC IMPACT WILL MAKE HISTORY

Summary of War News Today Shows That Two Great Armies of Immense Strength Now Face Each Other—Brussels Taken by Enemy.

[By Special Wire to The Courier.] "The most formidable shock in history" will occur on Belgian soil, according to French military experts, when the great armies of Germans and Austrians on the one side and the allied troops of Belgium, France and Britain on the other come into close contact. No definite information is permitted to get past the censor as to the place where the decisive encounter is to occur, but the general staff of the French army declares itself confident of fighting under the best auspices for its own forces.

Not a shot was fired by the Belgians when entry into Brussels was made yesterday by an advance guard of German cavalry, who, it was reported, were to be followed to-day by a strong column of German troops encamped in the vicinity. After the departure of the Belgian troops from the capital communication was cut off between that city and other parts of Belgium and abroad. The temporary capital of the country, Antwerp, whither the Belgians have retired, is understood to be very strongly fortified,

and military correspondents declare preparations for its defence extend over an enormous area, while it has been provisioned for a long siege.

British and French warships bombarded and greatly damaged Ostend, an Austrian seaport, on Wednesday.

Libau, the Russian Baltic seaport, was badly damaged during its two-hour bombardment by a German fleet, according to the captain of a Swedish steamer. The inhabitants were panic-stricken.

German warships are reported to have destroyed the harbor works at Hangö, Finland.

Japan is making active preparations in view of the approaching expiration of the time limit on Sunday of her ultimatum to Germany. It is expected she will at once move on Kiao-Chow, the German protectorate in China.

A final call for arms affecting all the world's nations 20 to 42 years old has been issued by the Austrian Government.

An Anglo-American rough-riders' corps has been formed in Paris and its services accepted by the French Ministry of War.

RECEIVING MESSAGES FROM GERMAN BRIGADE COMMANDER IN THE FIELD

This photograph shows a German brigade commander's messages being received by telephone. The range finder is seen in the use on the left. The German artillery remains are massed by brigades. The superior artillery officer usually remains with the divisional general officers or is connected with the latter by means of telegraph or telephone. He is also connected with his brigade commanders by telephone, and batteries are massed whenever the terrain makes it practicable to do so.

Strategical Move by Allies Which May Mean Much

[By Special Wire to The Courier.] GHEENT, Belgium, via Paris, Aug. 21, 3.50 a.m.—German Hussars and Uhlands arrived this morning (probably Thursday), on the shooting grounds at the gates of Brussels whither the burgomaster went to parley with them.

In the afternoon German officers occupying an automobile recrossed Grand Place (the market place), going to the city hall, while detachments of Germans went to various parts of the city. The telegraph office and railway station were closed for the greater part of the day. Many of the inhabitants of Brussels are leaving for Ghent and Ostend.

The general opinion is that the Germans will only pass through the city or at the most make a very short stay there. The only signs of animation in the place are caused by the arrival of peasants who are abandoning the surrounding villages. The German troops have established themselves on the shooting ground. They are understood to have said that they had been cut off from the rest of the army.

NOT SHOT FIRED.
 LONDON, Aug. 21, 2.50 a.m.—The Ghent correspondent of The Chronicle telegraphs "Brussels is now occupied by the enemy having been surrendered to the Germans without the firing of a single shot."

CROSS THE MEUSE.
 PARIS, Aug. 21, 2.55 p.m.—Official news made public in Paris to-day says that the German forces continue to pass the Meuse in the vicinity of Huy and that an important concentration is being carried out in Belgium this (Friday) morning.

No French territory is occupied by the enemy except a piece of enclosed land at Auden-le-Rolan in the department of Muerthe-et-Moselle.

ANTWERP PREPARES
 LONDON, Aug. 21.—9.20 a.m.—The correspondent of The Times at The Hague telegraphing to-day says:

The preparations for the defence of Antwerp extend over an enormous area. All classes in the city are joining in the work day and night, but there is no sign of panic or confusion.

"The gates driven through the walls by a peace-loving people are closed while this work of preparation goes doggedly forward. Antwerp itself offers a strange contrast. At almost every window appear English, Belgian and French flags, giving a festive air to the city which is preparing to resist to the last gasp."

CANADA'S MONEY AS WELL AS MEN IS GIVEN TO AID BRITAIN IN THE STRUGGLE

Proceedings in House of Commons Yesterday Were Without Precedent in History of Dominion—Fifty Millions Voted.

OTTAWA, Aug. 21.—A special war tax on coffee, sugar, liquors and tobacco was announced by Hon. W. T. White, Minister of Finance, in presenting his budget to the House of Commons yesterday. Substantial increases in Customs and excise duties on these articles, and a number of modifications into whose composition they enter, were proposed by Mr. White. In a brief but comprehensive presentation the Minister outlined the financial position in which the country now finds itself, and acquainted the House with the measures with which the government hoped to meet the new conditions.

From these special war taxes it is estimated that the country will derive an additional revenue of about \$7,000,000 during the remainder of the fiscal year. This will go towards meeting a situation in which the Government finds itself compelled to face a capital and special war expenditure of about \$60,000,000, and to meet ordinary expenditure with revenues decreased by some \$10,000,000 as the result of the present unprecedented circumstances. [Where a revenue of \$145,000,000 had been looked for before the outbreak of war, the view is now held that revenue from present sources will reach from \$130,000,000 to \$135,000,000. By an avoidance of new expenditures it is hoped to meet ordinary running expenditure with this amount.

To Borrow From People
 To meet capital and special war expenditure, besides imposing additional Customs and excise duties, the government is taking authority to increase the amount of Dominion notes which may be issued against a 25 per cent. margin of gold from \$30,000,000 to \$50,000,000. This will give an additional \$15,000,000 of free money borrowed from the Canadian people on the Dominion's credit. As opportunity offers further loans will also be issued.

A striking passage in the Minister's speech was that in which he dealt with the present business situation. "To many of our industries and not

VOLUNTEERS TO FIGHT SIDE BY SIDE WITH BRITISH VETS

Various Canadian Regiments to be Absorbed Into the British Army on Arrival.

OTTAWA, Aug. 21.—It is understood that there is to be no commander of the Canadian expeditionary force, but that the regiments which are now being assembled at Val Cartier will be absorbed into the British army.

The regiments are all brigaded with British regiments, and it is reported that the executive of the army council has come to the conclusion that the most effective work can be done by associating the British line regiments and the overseas regiments in the campaign.

While there has not yet been a final decision and disposition of the Canadian force is being most seriously considered.

IMPUDENT GERMAN
 HAVANA, Aug. 21.—The captain of the British freight steamer Hostilias, from Montevideo, by way of Cienfuegos, reports that when 700 miles east of Cienfuegos, she was stopped by the German cruiser Dresden, which signalled a demand that the captain and crew give their parole not to serve against Germany in the present war. The captain of the Hostilias signalled his refusal, and the Dresden proceeded on her course without further molesting the freighter.

Marine insurance rates have been lowered by Lloyds and other companies.

The Duke of Connaught's term as Governor-General has been indefinitely extended in view of the war, at the request of the Canadian government.

CHRISTIAN WORK IS DEMORALIZED

Leaders in All Branches Leave to Take Part in the War.

[By Special Wire to The Courier.] NEW YORK, Aug. 21.—That war had demoralized the world's Christian Association with headquarters in Geneva, was the information contained in advices to-day to the International Young Men's Christian Association in this city. Three of them, leaders, heretofore working together in the association work, have left the headquarters to fight for their respective countries. One secretary has been ordered to take a command of a Swiss regiment, while a French and German secretary have left to join the ranks in their respective countries.

Twenty other welfare secretaries are ready to go, according to information received here and the Canadian Association will send as many men as the government will permit.

Throughout the British service, the soldiers' Christian Association is well organized in every regiment, even in India and South Africa.

Salvation Army headquarters in this city learned yesterday that General Bramwell Booth offered the Fortmouth and other army shelters in England to the government, and that they were accepted. Salvation Army men are enlisting in the British service and women are going to the front as nurses.

IS HARD HIT

Hoboken, N.J., Has Many Ocean Steamers Tied Up Indefinitely.

[By Special Wire to The Courier.] NEW YORK, Aug. 21.—No other section of the New York harbor, district, according to shipping men has been so hard hit by the war as Hoboken, N.J., across the North River from this city, where eleven steamships of the North German Lloyd and the Hamburg-American lines are tied up at their piers. A large part of the population of Hoboken depend upon the shipping for a livelihood and unless peace comes within a few weeks, it was announced to-day relief measures would have to be taken by the authorities.

The enclosures in front of the piers are empty save for one or two gatekeepers and customs officials, and on most of the piers there is very little activity.

The crews of the eleven liners at the wharves, several thousand men in all are kept on board the vessels. They get shore leave every other night; but it is said that since the war started their wages are small. So they are not heavy spenders on their night ashore.

The Holland-American and Scandinavian lines are still running but the volume of their business is small compared with that of the two big German lines.

DID GOOD WORK
 MOOSEJAW, Sask., Aug. 21.—The Daughters of the Empire collected \$400 in the city yesterday for the hospital ship.

ONTARIO GIVES GIFT OF \$500,000 TO WAR OFFICE

OTTAWA, August 21.—Three more gifts have been added to the long list of such donations by provinces and citizens of Canada in the present crisis in which the Dominion finds itself. One is from the Ontario Government, which has given \$500,000 to be tendered through the Dominion to the Imperial Government, to be used in accordance with the wishes of the latter.

Another gift is from Mr. John C. Eaton, of Toronto, who has offered to the Minister of Militia the sum of \$100,000 with which to purchase and maintain a battery of quick-firing machine guns, mounted upon armoured trucks, his large steam yacht, the Florence, the largest boat of its kind on the Great Lakes, and the use of his Marconi station at Toronto.

Last of all has come the offer of 100,000 tons of coal for the use of the British Admiralty. It is made by the Province of Nova Scotia.

This Accounts For News Scarcity

[By Special Wire to The Courier.] LONDON, Aug. 21.—Telegraphic communication between England and Brussels was entirely interrupted to-day, and no despatches were accepted for any place in the Belgian provinces of Limbourg, Liege, Namur, Luxembourg, Brabant or Antwerp, except for the city of Antwerp.

LIKE DEMONS IN A BATTLE THAT BECAME BUTCHERY

Both Sides Desperate in Aerschot Engagement—Each Lost Very Heavily.

LONDON, Aug. 21.—A dispatch to Reuters News Agency from Ghent, Belgium, says: "Yesterday's fighting at Aerschot was extremely hot. The appearance of two German aviators was the first intimation that the Germans, who had been repulsed on the previous evening, intended to renew the attack.

"Flying low the German aviators surveyed the position, and then returned and reported.

"Soon afterwards the German infantry, supported by machine guns, and artillery, opened a fierce attack.

"The Belgians were outnumbered, but put up a desperate resistance.

"The troops on both sides fought like demons. The battle soon became a veritable butchery.

Held Invaders Two Hours
 "Two Belgian regiments which already had distinguished themselves in the forts of Liege, held the invaders in check for two hours.

"Both sides were losing heavily when the retreat was sounded.

"Major Gilson, whose nose had been broken by a bullet, took charge of the Belgian rear guard, which fought so stubbornly that only seven out of his force of 288 men returned.

"When Major Gilson reached Ghent a friend suggested telegraphing to his father. At first he refused, remarking that his father would learn about his wound from the newspapers. Finally he consented, saying: "I am at Ghent. No need to worry. Will quickly rejoin my regiment."

GETTING READY FOR A SHOCK IN HISTORY

[By Special Wire to The Courier.] PARIS, Aug. 21, 5.45 a.m.—Petit Parisien's review of the war situation to-day says:

"A great battle is preparing. Belgium is to be the theatre of the most formidable shock in history, the duration of which escapes prophecy.

"Repulsed in the south at Dinant by the French, the Germans have been making since Tuesday, a vigorous offensive movement towards the north which on Wednesday forced the Belgians after a fine resistance to fall back on Antwerp. The Berlin government will claim a triumph whereas from a strategical point of view the movement was of mediocre importance.

"The French armies also have taken up their respective positions and it is certain that our general staff is far from being taken unprepared by our adversaries' tactics. The staff had long foreseen them and is prepared to deal with them under the best auspices."

Music and Drama

At the Brant.
 By reason of the excellence of the acts and the interesting nature of the films displayed at the Brant Theatre this week, the programme stands unapproached for merit.

Tom Kuma is a Japanese contortionist and like all Japs, his work is thorough and quickly done. He goes through small iron hoops in wonderful manner and throws himself about astonishingly.

The hit of the night was made by the Four Kings, a group of children who sing and act and forget the fact that they are on a stage in their execution. The little boy with his winning smile and quaint manner takes the house. The songs of the youthful quartette were up to the minute and they had to respond to prolonged encores.

The working man and also the employer will find especial interest in the cleverly portrayed sketch, "The Right Man," presented by Melbourne Max-Duvell and Company. A splendid theme of comedy runs throughout and the trio won well merited applause.

Of special note is one film in which Kaiser William of Germany is seen in all his pomp. There is a good character study indicative of his principle "My Will is Law."

Laid of Rest

Infant Moody.
 The funeral of the late infant Leonard Moody, took place yesterday from the residence of the parents, 107 Alfred street, yesterday to Mount Hope when the interment was held under the auspices of the Salvation Army.

The large attendance at the sad ceremonies, conducted by Adjutant Hargrove, emphasized the sympathy of many friends.

Flowers, of which there were many, were offered by father and mother, sprout, aunt Lizzie and uncle Bill, Mrs Fox and family, Mrs Hollman wreaths.

Finance Minister W. T. White brought down Canada's first war budget, proposing taxation especially on coffee, sugar, spirits and tobacco.

Women's Institute

The Terrace Hill and Grand View Woman's Institute held their meeting on Aug. 19th, at the beautiful country home of Mrs. Patterson, North Park street, and as usual, with this particular institute, a large number of ladies were in attendance. After the opening exercises a programme of unusual interest was given consisting of instrumental music by Miss Arnold, and an address on bee-culture by Mr. Hurley. The address was, without doubt full of information from start to finish, and well seasoned up with applicable humorous anecdotes. In Mr. Hurley's concluding remarks he said the bee industry was one which women could carry on successfully and advised the housing of them in winter months in wood shavings, as they were non-conductors of heat; also advised keeping them in a temperature of 45 degrees. Mrs. T. Wood made a few well chosen comments on Mr. Hurley's address.

Mrs. Bayless also gave a few thoughts on the subject of the day. After the programme Mrs. Patterson served a dainty lunch after which a vote of thanks, by Mrs. George Alderson and "They are jolly good fellows," the meeting closed to meet on September 17th at 8 o'clock at Mrs. Kinney's home.

Bowling

A general meeting of the Brantford Scotch doubles bowling tournament committee was held last night in the office of the secretary, Mr. F. S. Blain, when President E. C. Tench took the chair. Formal routine business was transacted, after which the election of officers for the ensuing year took place, and resulted as follows: President, Thomas Woodyatt, Vice-President, A. B. Burnley, Secy-Treas., F. S. Blain. Executive—J. B. Wilson, J. C. Spence, I. Newman, E. J. Mabon, R. Gowen, Jr., J. Carney, Wm. Biggar, Dr. Read, Dr. Anderson.

The selection of umpires resulted as follows: Dr. Watson, F. E. Sheppard, Dufferin Club; R. Thompson, Jas. Smiley, Paris club; J. C. Biggar, Mt. Pleasant club; W. J. McNeilley, St. George club; Dr. Cook, Terrace Hill club; W. R. Turnbull, A. T. Duncan, Brantford Club; E. C. Tench, T. L. Wood, Heather club; T. McPhail, Dr. Wiley, Pastime club.

The rules of the last tournament held on Labor Day, of 1913 were approved of and were adopted for use in the present tournament, which will be held on Labor Day.

Messrs E. C. Tench, E. Mabon and A. B. Burnley were last night appointed a committee to secure prizes for the event, which will include a handsome consolation prize.

The tone of the meeting was very optimistic, and it is generally felt that the tournament will this year be a greater success than ever.

Football

Courier Cup Semi-final.
 Tutela v. Holmedale, at Agricultural Park.
 Paris v. P.S.A. at Paris.
 S.O.E. v. Scots at Tutela.

Some good games are scheduled to take place on football fields to-morrow in the Brantford and Paris League and also in the Courier Cup ties.

Tutela and Holmedale replay a drawn game for the Courier Cup semi-final at Agricultural park and the game caught on form to go to Tutela, who have taken all before them so far. Should they win they will find themselves up against the Scots in the final. They have a strong line up for the game to-morrow.

The Scots will entertain the Scots at Tutela and they may manage to win, for the Scots team is in a depleted condition, some of their men having left for the front. A fast game will be seen at Tutela park.

Paris have the Congregationalists to deal with at the French capital and before their own crowd, they do not anticipate a great difficulty in defeating the P. S. A. They may be wrong in estimating lightly for the P.S.A. boys can spring a surprise or two. They are a game club.

SUFFOLK IS THERE

The happy group broke up early in the evening, a good time having been spent in games, and contests and songs.

Lawn Tennis

Brantford will head the district in the Tennis journey if her representatives can beat Tillsonburg to-morrow on foreign courts. So far the local players have been very successful and their nearest competitors are Delhi with whom they will tie if they lose to Tillsonburg on Saturday. Brantford will perhaps suffer the loss of some of her best players in the near future. In the advent of T. P. Jones going to the front in the morning, his place will be taken away, whilst F. McArthur has already gone west. This leaves the brilliant Gould Brothers as the principal defendants of the Telephone City.

 Court No. 1, Time 4.30: Singles: Mr. Murray McGaw vs. Mr. G. Edmondson. Referee, R. Ashbury.

SELECTION OF NEW POPE IS NOW PLANNED

A Truce in the War Until a New Pope is Chosen is Suggested.

(By Special Wire to the Courier)
 ROME, Aug. 21.—It is asserted that the cardinals have discussed the advisability of holding the conclave for the election of a successor to Pius X without shutting themselves within the Vatican throughout their deliberations, as has been the traditional practice. Heretofore each cardinal has had an apartment in the palace with accommodations also for his secretary and servants, and on the occasion of the last conclave the three days session of the Sacred College entailed an expense of \$120,000.

It has been suggested that the cardinals meet at the Vatican twice daily for a ballot until a choice has been made, and at the close of each session return to their homes or wherever they may be stopping. These sittings would, of course, be under the veil of absolute secrecy, while permitting more freedom on the part of the members of the society.

Among the so-called political cardinals, headed by Cardinal Agliardi, a movement is under way to have the Sacred College of Cardinals address the emperors, kings and presidents of the countries engaged in war, asking them to declare a truce while the new pontiff is being elected. This plan, as well as the proposition to attempt mediation, provides for the assistance of the United States as the greatest neutral power.

The greatest efforts are being made by the cardinals here to prevent the conclave presenting a spectacle of schism among the foreign cardinals on account of the conflict now raging throughout Europe. If such a breach should occur, it is expected that foreign cardinals will form groups as follows:
 The seven from France, five from Spain, two each from England and Portugal and one each from Ireland, Belgium and Canada form a total of nineteen; the two Germans and six Austro-Hungarians make up another group of eight; the neutral group is composed of the three Americans and one each from Brazil and Holland, forming a total of five; separately stands the bulk of the Italian cardinals, numbering thirty-three.

The whole Sacred College numbers 65 cardinals, so that the next pope needs 42 votes to be elected. The Italians alone or with the five neutrals are therefore insufficient, while an attempt to join either the German or Anglo-French group would cause other splits. Thus it appears certain the choice will fall on an Italian.

The Pope's Will
 ROME, Aug. 21.—Nothing is officially known about the late pope's testament, but the Giornale D'Italia says it is drawn in humble pious language. It recommends his successors to grant his sisters a pension of \$60 monthly each, but does not mention his niece, Gilda Parolin. It also expresses the desire that a pension of \$12 monthly be granted to his valet.

The pope's physical strength, Dr. Marchiafava continues, had overcome other serious physical crises, but he collapsed, when to the illness of his body there was added his mental distress over the horrors of the war. The doctor does not say the pontiff's death was induced by his anguish, but he declared he probably would have resisted longer had he not been subjected to this mental suffering.

Cardinal Della Volpe has received telegrams of condolence on the death of pope Pius from sovereigns and heads of state throughout the world.

Rome to-day is in deep mourning. Stores are closed and the churches are crowded with the faithful at prayer. The city flags are at half mast, and the municipality has expressed the condolence of the population to the vatican authorities. The municipal council has been convoked and will decide upon some befitting way to commemorate the memory of Pius X.

The quirinal is especially interested in the election of a new pope, particularly as Pius X had been more friendly disposed to the new order of things in Italy than any other pope since the fall of the temporal power.

When the doctor insisted that his health was precious to the world, and that he should be calm, the pope replied: "How can I be tranquil when millions of men are about to die? I should have averted this war, but I could not. If I, who have the highest ministry of peace do not protect the safety of so many young lives, who will do so?"

The Corriere De Italia to-day publishes an interview with Dr. Marchiafava concerning the illness and death of the pope. The doctor says, among other things, that during the last week of his life the pope suffered keenly because of the war, which is ravaging Europe. Dr. Marchiafava endeavored to encourage his patient, but of no avail. Every time he was informed of further encounters the pontiff became sadder. The news hurt him physically and depressed him mentally. Nevertheless he was strong when death came. His malady reached him not unexpectedly but overwhelmingly. It

With the City Police

In the early hours of the morning the phone rang at the police station and a thin, small voice said that murder was being done at the corner of Elgin and Rawdon street and that a general melee was proceeding there which threatened war in the east end.

With all haste Sergeant Donnelly and P. C. Cox proceeded thence and found Wm. and John Clouse and Alexander Mallott and Richard Cromwell in the midst of a little embroil.

The officers sorted them out and directed them to the lock-up where this morning they settled things by paying \$3 each, with the exception of peace-maker Mallott, for the privilege of arousing the neighbors at that unearthly hour.

The police could not find any record against Harry E. Andrews, who was arrested for attempting to steal a watch from an old man on the pretext of asking for a match. The magistrate decided to let him have a chance and he was allowed to go upon promising to return to the Forest City.

Gilford Duddy squared up for attempting to steal a horse upon which he had a lien note and the charge against him was dismissed. A couple of drunks completed the list.

SERIOUS CASE

Wife of Quebec Farmer and Step-Daughter Held for Attempted Murder.

(By Special Wire to the Courier)
 OTTAWA, Ont., Aug. 21.—Felix MacAlinden, a well known farmer of Polliamore, Isabelle county, Quebec, is lying at death's door and his wife and 15 year old stepdaughter Lily McMillan, are in Hull jail awaiting their trial on a charge of attempted murder, as the result of a family quarrel which occurred at the McAlinden home on Sunday last.

MacAlinden has twelve large cuts on his body and arms, which he alleges were inflicted by an axe in the hands of his stepdaughter, while his wife held him on the floor. The physicians in attendance hold out but faint hopes for his recovery. The accused were arrested last night and brought to Hull to-day.

Parliament voted \$50,000,000 war and defence appropriation.

JAPAN READY TO STRIKE ON SUNDAY NEXT

German Embassy in Tokio is Preparing to Leave for Home

[By Special Wire to the Courier]
TOKIO, Aug. 21.—Japan is quietly preparing for eventualities, following the expiration next Sunday of her ultimatum to Germany, demanding the withdrawal of German warships from the Orient and the evacuation of Kia-Chow.

The strictest prohibition has been placed on the publication of any information concerning the movements of Japanese ships and troops. All correspondence is censored and the newspapers are closely watched.

The activities at the German embassy, where personal effects are being packed for shipment, are the only indication of what the answer of Germany will be. Mean while notwithstanding the most sensational reports of the treatment of Japanese in Germany, there is no evidence of any German feeling here. On the contrary, the authorities have given notice that all Germans remaining in Japan must be treated courteously. German professors are expected to remain at their posts unless they are needed for service at home.

The war and navy departments are preparing for a move on Kia-Chow, where, contrary to current reports, the fortifications are really formidable. Since the outbreak of the European war thousands of Chinese coolies have been employed in strengthening these defenses. It is believed here that the taking of Kia-Chow will not be an easy task.

The Japanese newspapers and leading Japanese express surprise at the tone of the American press that attributes sinister motives to Japan in sending an ultimatum to Germany. They state that this action was taken only after weeks of conversations with Great Britain and the approval of Japan's ally, Premier Okuma and Foreign Minister Kato, has made repeated and categorical denials that Japan has designs on Samoa and the Philippines or any other territory.

Baron Fiichi Shibusawa, president of the American Japanese Association and Buel Nakano, vice-president of the same organization and president of the Tokio chamber of commerce, are heading a movement intended to reassure China of Japan's pacific intentions. M. Nakano will leave for China soon, it is announced.

Obituary

Late William H. Duncan
William H. Duncan was last evening carried away to the great beyond peacefully in his sleep, at the residence of his daughter, Mrs. W. L. Bowman, 239 Dalhousie street in his seventy-third year. The deceased has lived in this city for the past twelve years and enjoyed to society of a good number of friends. He was a well-known and respected member of St. Jude's Anglican Church, being during his lifetime, an ardent churchman. There are left to mourn his loss a wife and daughter, Mrs. Bowman, with whom he has lately resided.

The funeral services which are to be conducted by the Rev. C. E. Jenkins, will be held this afternoon and the funeral will take place to-morrow in Colborne, whence the remains will be conveyed by Grand Trunk railway to-morrow. Deceased for many years lived at Colborne and was well known and highly respected there.

JUST A RUMOR

Not Believed That German Cruiser Will Call at Prince Rupert.

VANCOUVER, B.C., Aug. 21.—It is believed here that there is absolutely no foundation for the rumor that a German cruiser has called or is about to call at Prince Rupert for coal. At present there is a detachment of Irish Fusiliers at that point, and up to the present no intimation from him at the brigade headquarters of anything untoward has been received. The German cruiser Leipzig did not pass through the straits to the north or she would have been engaged by the Rainbow and submarines, neither was she seen on the west coast of Vancouver Island. It is questionable whether she would have been able to steam so far north in the time since she left San Francisco.

18,000 FRIENDS OF FRANCE ARE ALL VOLUNTEERS

Striking Spectacle of Foreigners Lined Up in Paris To-day.

[By Special Wire to the Courier]
PARIS, Aug. 21.—1.30 p.m.—The great square fronting the Invalides in Paris to-day presented a striking spectacle when 18,000 foreign volunteers assembled in orderly formation under the flags of their various nations to be mustered in. There were 4,500 Jews from all countries who desired to serve as a separate command; there were also 3,000 Belgians, 4,500 Italians, 2,500 Russians, 2,000 Swiss, 1,000 Spaniards, 600 Roumanians, 335 Luxembourgeois and 125 Americans.

All these volunteers were obliged to wait until the complete mobilization of the French regular forces had been concluded which was accomplished yesterday. In the meantime 30,000 foreigners residing in France have placed their names provisionally on the rolls of a committee, calling itself "the friends of France."

Only those volunteers resident in Paris presented themselves to-day. It will take several days to comply with all the formalities and examinations and make the men into anything like an organized body of troops.

ROUGH JOURNEY BY AMERICAN IN GERMANY

Saw 6,000 French Prisoners and Trenches for Many Miles.

[By Special Wire to the Courier]
LONDON, Aug. 21.—Dr. Franklin Martin of Chicago, who left here a week ago for Munich to bring out his niece, Miss Stone, also of Chicago, returned to London this morning. His trip was successful, for Miss Stone is with him. Dr. Martin tells a story full of interesting experiences on the continent. He attempted first to make his way to Munich by way of Paris and Berne, Switzerland, but was not successful. He was unable to proceed beyond Paris. Stories related to him of the hardships endured by Americans marooned in Germany impelled him to make a second attempt, and in company with John Moran of New York, whose wife was last heard from in Munich, Dr. Martin started again through Holland. He speaks of his experiences as follows:

"We had great difficulty in passing through the German lines, and at Grefeld we secured an automobile to take us to Cologne, and the necessary permits to proceed. We covered over 1,100 miles on Saturday and Sunday, and found that Mrs. Moran and Miss Stone were still in Munich.

"In the meanwhile the military authorities had ordered that no more gasoline be sold to non-combatants. Several American cars in Munich had been taken by the authorities when their officers revealed their existence by appearing for fuel.

Mr. and Mrs. Moran decided to remain in Munich, but Miss Stone and I left Monday, with as I supposed with only two gallons of gasoline in our car. We had determined to keep going as long as possible.

"Once safely out of Munich, our enterprising chauffeur revealed to us, covered by blankets, several cans of the precious fluid, in all enough to get us half way to our destination. During this journey we actually were within the lines of the German army. At one point between Cologne and Grefeld we passed entrenched being rapidly thrown up by thousands of troops. Entrenchments extended on both sides of our highway, and as far as the eye could reach there were masses of troops with field guns and munitions. Moving in the direction of Belgium, between Cologne and Bingen, was a continuous line of troops, provision wagons and ambulances. At Frankfurt 6,000 French prisoners were pointed out to us.

"We arrived in Cologne Tuesday night after having run 250 miles during the day. We pushed on to Crefeld. The highway was congested with guns, ambulances and munitions of war of all kinds. At only one time did we seem to be in real danger. This was when two soldiers pointed their guns menacingly at our heads, as our deliberate chauffeur took his time in stopping on their orders.

"This last stage of our return journey was the most difficult of all. As we were travelling on a war highway in the immediate rear of a great battle-field, we were stopped dozens of times.

NOT ONE SHOT

READY FOR A SIEGE
LONDON, Aug. 21.—8.25 a.m.—The Amsterdam correspondent of The Chronicle telegraphing yesterday said that Antwerp was being put in a state of defense and being provisioned for a siege. He adds that it was stated at the office of the general staff, Thursday that all foreign correspondents found in Belgium after last night would be shot.

ENTER CAPITAL TO-DAY
LONDON, Aug. 21.—8.25 a.m.—A telegram from Ostend, Belgium, to The Daily Mail last night said the main body of the German army around Brussels camped for the night, just outside the city, which already had been formally occupied by a small advance guard. The remainder of the troops will enter the Belgian capital to-day.

MARKET REPORTS

CHICAGO, August 20.—Yesterday's gain in wheat was lost in profit-taking sales today, and the close was weak, 2c to 2 1/2c net lower. Corn dropped 1/2c to 7-10c, 5-8c and provisions 25c to 35c, the latter in January profit. The market was almost purely speculative.

WINNIPEG GRAIN MARKET.
Winnipeg, Aug. 20.—With no buying power on the market, wheat prices today eased off considerably. General sentiment prevails that while values may go much higher the advance for the present is high enough. A heavy movement is on the eve of starting, and this will depress prices to some extent.

Wheat opened unchanged to 1/4c lower and about noon had dropped 1/2c further. The opening point, 34c to 35c at the time of the opening, 34c to 35c at the time of the opening and held steady. Flax opened at an advance of 2c to 3c and held firm. Wheat closed 23c to 31c; cash wheat, 23c to 24c lower.

The cash demand for wheat was good, Ontario millers only being buyers. Prices are out of line for export and no business is being done.

MONTREAL GRAIN MARKET.
MONTREAL, Aug. 20.—There was no further change in the condition of the local grain market today, being very firm with a fair trade passing in car lots. The demand for London for oats is good and as high as 25c was bid for No. 2 Canadian western. The enquiry from the United Kingdom for spring wheat is firm and millers state that they are not in a position to make any offers at present. The local trade is active at firm prices. Demand for mill feed is good, and offerings are rather scarce. Old crop baled hay is in good demand at strong prices. The trade in butter is rather quiet, but there is more demand for cheese and some round lots have been sold over the cable, which has tended to strengthen the market in the country and prices have advanced. Eggs active and prices have advanced. Eggs active and prices have advanced.

GOOD TIMES AHEAD.

The sudden breaking out of war caused many to "run to cover." Like the chicken on whom the rose leaf fell, some of us became a prey to fear and were ready to declare "the sky is falling."

Now our vision is clearing, our alarm has fled, we have recovered our poise and our courage. We are seeing, also, our opportunity. Swiftly and almost overwhelmingly has come to us the perception of the fact that the competition of Continental Europe has been taken away.

We must be careful. We must have courage.

WAR TAXES

Canadians have been called upon in another department to meet the demands of war, namely increased taxes, and they will face the burden with patriotic cheerfulness. And it is not much of a burden at that.

Coffee, spirits, sugar and tobacco, are the four articles named. The two of these, spirits and tobacco, are luxuries and coffee and sugar are also classed as the same in the British list, coffee having yielded over \$12,000,000 in duties there last year and refined sugar over \$65,000,000 and unrefined \$55,000,000.

It is expected that \$7,000,000 will result from the Canadian tax and for the balance, the speech of Hon. Mr. White supplies the details.

In this crisis, Mr. White has once more demonstrated his exceptional ability for the high post which he occupies. Canada has never had a better Finance Minister—one who is thoroughly versed in all phases of his particular sphere and who moreover has the pleasing faculty of presenting his budgets in a terse and understandable manner.

THE SITUATION.

The occupation of Brussels by the Germans is not a matter of importance. The Belgian capital is situated on the River Senne, and it communicates with Antwerp and the Baltic Sea by means of the Scheldt Canal. The place has no strategic value.

By far the most important announcement of the last few hours is the statement that the allies have completed their concentration. This means that the Belgians are now relieved from the terrible task which hitherto they have borne alone. And right royally have they done so.

The pages of all history do not record a more splendid or heroic defence on the part of a small nation against overwhelming odds. They have only a peace establishment of 43,000 men, and their estimated full war strength is placed at 180,000. Germany for her part represents millions. For such a country to be suddenly told (despite a solemn treaty otherwise) that she must allow German troops to march through her territory unmolested or else stand the consequences, would have appalled many people, but not the Belgians. It was an enormous task to offer resistance to an advancing horde of highly-trained men possessed of all the most modern fighting equipment, but they did it.

Thank God, they did it! Without the slightest sign of wavering or hesitation they willingly threw themselves into the fray. They knew, of course, that their old ally, Great Britain, would at once rally to their side, but they also knew that it must be days before aid could come. With right good-will they turned an expected walkover by the Kaiser's troops into an inch-by-inch fight, and set an inspiring example, which it is not too much to say thrilled the civilized world. It would be very hard to exaggerate the moral or the physical value of their splendid conduct. Suffice it to say that when the Kaiser is taught his much-needed lesson, to them will belong the credit of bringing home to him in bold and imperishable letters the first chapter.

It was a case of lay down and avoid hostilities and desolated homes, or stand up. They stood up. Hats off, every one of you, to the Belgians!

SOME WAR THOUGHTS

Christian Guardian:—"Drunk with the lust of power, insane through egotism and self will, the greatest representative of medievalism alive is making his stand, in Europe to-day against the progress of enlightenment and the coming of the brotherhood of man and the Kingdom of God. Do you have any fears of the final result? If you do, you do not need to have, whatever just fears you may have as to the process by which it will be reached. Along with the thousands of the sons of the nations, medievalism will be slain in Europe during these next few weeks. That old arch heresy that said one man had divine right to impose his will upon millions will be slain finally and forever. The people, stricken, peeled, broken, with resources swept away, every home a place of mourning and every heart lonely for some one, will give it short shrift. The day of the people will dawn more fully over the earth. Men will rule who serve the people, who minister to the common good, and not those who wickedly serve their own whim or lust. God help us that the dawn will come through such struggle and conflict. But God help us to see its dawning and make the most of it!"

Rider Haggard, speaking at St. John, N.B.:—"Do you understand that, if we fall, you fall? Do you understand that if Germany and her allies become masters of England they become the masters of the world, and that in two or three years there will be no British Empire? If you realize that every man of you must go as we must go. We stand at desperate straits."

"We believe that with the aid of God, we shall conquer, and that the world shall be free. If our belief is vain, good night to England, and good night to all you who are of England."

Archbishop Bruchesi, Montreal:—"It is therefore our duty, and every one's duty to give England our loyal and hearty support and, in this, I am sure our people will not fail, for both religion and love of country demand it at our hands. The mobilization of our troops has already begun. We have in the first place our territory to protect and our works of suzerainty to organize, for charitable work is a prime requisite; but if troops have to be sent to the other side, our brave young men will not hesitate to face the ordeal, and I know that we will find in them the same heroism which characterized their forefathers so many years ago."

NOTES AND COMMENTS

The Kaiser's attack upon the unoffending Belgians makes one of the most blood-guiltiest crimes of all record. At the end of eighteen days the Germans are still not on French soil. In the war of 1870 they did the trick in practically no time.

Just what the allies are up to, no one can guess, but it is a safe wager that some strategic move of great importance on their part will soon be attempted.

When the German troops entered Brussels, some of the inhabitants draped the Belgian flag with black. No need for that. Their standard to-day has a lustre such as never before.

The Germans are using a bayonet with teeth in it so that the flesh can be torn to pieces upon withdrawal. Later on they'll have a national experience of a like nature with members of the entente cordiale at the butt end.

It took just one minute for the Canadian Government to put through a \$50,000,000 vote for war purposes. The Kaiser by now must fully realize that when he started in to prod the old lion, he also roused a litter of husky youngsters.

AEROPLANES BUSY.

PARIS, Aug. 21.—A French official note says: "A French dirigible last night threw a number of projectiles upon two German cavalry camps in Belgium, causing great excitement. Despite the fire of the enemy, the aircraft returned safely to the French lines."

PATHETIC CASE.

PARIS, Aug. 21.—The Under Secretary of fine arts, with tears in his eyes, told a committee of the Brotherhood of Artists, of the case of a painter, who being called for military duty, was obliged to leave his wife and four children almost destitute. When he communicated with his wife on the subject, she replied: "Do thy duty without worrying about us. The city, state and our associations will look after us women and children." In the letter the wife enclosed a money order for \$1 out of \$1.20, the total amount of money which she possessed.

The World's Press On The War

Might Be Worse for Germany.

Pittsburg Chronicle-Telegraph:—"Although the Kaiser has been persuaded not to go to the front it may be set down as a fact that it isn't his feet that are cold, or anyone's feet scurrying for that matter, but simply that 'cooler heads' are on the job and exerting an influence. It might be calamitous for Germany were anything to occur that should cause the vice-president to succeed to the chief place in the empire just now."

Big Battles Take Time.

Washington Star:—"It is to be borne in mind that this war could not possibly be conducted throughout at the rate of speed maintained at the beginning. The physical transport of great bodies of men such as are assembled for the campaign in Belgium, Luxembourg and Alsace, requires long periods of time. The provision of subsistence and ammunition entails tremendous efforts. Even with numerous highways and railroads the advancement of 100,000 men a matter of 100 miles is slow proceeding. Furthermore, no military campaign is ever fought continuously. There are periods of recuperation and revision of lines. What may appear in the absence of full despatches descriptive of this campaign to be battles are probably only skirmishes, exaggerated by reports into major encounters."

No Longer a Menace.

Winnipeg Telegram:—"The war may last one year or ten years, but one thing the world understands, that is definite. When peace is declared the German fleet and the mad man who is responsible for this war will be in a position where they are no longer a menace to civilization."

History's Wheel.

London Advertiser:—"Prussians were all-victorious under Frederick the Great, forty years later they were as dirt to Napoleon and his democratic army. They were mighty in 1870; forty years after, they again ran into an army of free peoples. History's wheel."

The Dead Are Fortunate.

Detroit Journal:—"The dead at Liege are fortunate. The thousands of wounded, hurled cruelly against the greased steel glacis of the forts, were left for days on the field, cursing, moaning, nursing their sores. To these belong the glory and the honor."

This Wretched War.

Philadelphia Inquirer:—"This wretched war, began by Austria in Serbia, is one of wide-spread death, destruction and desolation. In greed and lust for power and bitter hatreds, its attributes are those of hell, not heaven. And yet these war lords lift up their eyes and pray for victory for their arms."

The Crime of the Autocrat.

Providence Journal:—"The present situation in Europe is a direct result of unmitigated and unbridled avarice, the immediate outcome of the fact that it was possible for one or two men, of their own volition, to draw the sword of war and let loose upon the nations of the earth the greatest calamity the world has faced for many centuries."

Flesh and Blood Still Count.

Chicago Herald:—"For years, we have heard of the marvellous effect which man's inventions would have in warfare. All these would make war a matter of machinery and largely dispense with the flesh and blood adjuncts always necessary in the past. In a measure, these prophecies have been realized, but when war comes it is found that the most important factor is now—as it always has been—the men. Also, although mechanical aids are widely used, the horse is not superseded by the motor vehicle, but is more useful—together with his blood brother, the mule, than ever."

New Twirl for Ottawa's

Ottawa Journal.—Manager Shag is still expecting to land a new twirl, although the deal which he has on has not yet been completed. Coming at the far end of the season a purchase would be almost lost money, but the champ are not any too well fortified in the pitching department for that eight game series at London and Erie. As the series away looks very likely to mean the pennant Shag is willing to spend the coin to get away with the majority of the games.

Right now Blocker and Kubat back the whole Ottawa twirling staff. Gero has shown up fairly, and Roberts pitched a nice game a few days ago, but Peterson isn't showing anything, and the idea of "Lefty" Rogers twirling has been abandoned since his last attempt. Rogers' arm has gone back on him for mound duty, and it is altogether unlikely that it will ever again be in shape.

TO FRENCH ADVANTAGE.

PARIS, Aug. 21.—The official news bulletin issued by the French War Office to-day says: "Up to the twentieth day of the French mobilization, despite the assurances of the German writers, even those of the German general staff, the Germans have not obtained any of the decisive advantages they counted upon. Moreover, the enemy has not been able to carry the war into our territory. This advantage has at least a moral value which is worth noticing."

NO PROGRESS.

I have a sort of notion that David Daniel Duke will never get promotion unless it's by a fluke. He's selling traps and cages at Jimpson's jim-crack store, and draws the same old wages he drew five years before. He's never known to study or read a helpful book, his mind is like a muddy and dark turbid brook. The fellow who advances, who rises from the groove will never sidestep chances his knowledge to improve; he'll burn the midnight candle, and to himself he'll say, "Would be a burning scandal to fool my time away." But David never ponders o'er books that brace the mind, but through the streets he wanders when's done the daily grind. A quiet game of poker now holds young David down; again with crimson ochre he paints the sleeping town. An evening at the movies to David seems sublime; while other lads improve he's just blowing in his time. And often in the morning when he shows up for work, his head's a red-rick warning, and in his mouth there's dark those tastes of pink and yellow, the consequence of cups, which tastes inform a fellow he's going to the

To the Troubler of the World

At last we know you, War-lord. You, that flung The gauntlet down, fling down the mask you wore, Publish your heart, and let its pent hate pour, You that had God for ever on your tongue. We are old in war, and if in guile we are young, Young also is the spirit that evermore Burns in our bosom ev'n as heretofore, Nor are these thews unbraced, these nerves unstrung. We do not with God's name make wanton play; We are not on such easy terms with Heaven; But in Earth's hearing we can verily say, "Our hands are pure; for peace, for peace we have striven": And not by Earth shall he be soon forgiven Who lit the fire accurst that flames to-day.

—William Watson.

The waste of time is fateful, bad habits are a snare; the dump is dark and hateful, and David's headed there.

WALT MASON.

The Canadian Manufacturers' Association will try to keep as many in employment as possible during the war. Pierce fighting occurred between the Belgians and Germans around Louvain.

THE BRAVE AT HOME

(By Thomas Buchanan Read) The maid who binds her warriors fast With smile that well her pain dispenses, The while beneath her drooping lash One starry tear-drop hangs and trembles, Though heaven alone records the tear And Fame shall never know her story, Her heart has shed a drop as dear As e'er bedewed the field of glory. The wife who girds her husband's sword, Mid little ones who weep or wonder, And bravely speaks the cheering word, What though her heart be rent asunder, Doomed nightly in her dreams to hear The bolts of death around him rattle, Has shed as sacred blood as e'er Was poured upon the field of battle! The mother who conceals her grief While to her breast her son she presses, Then breathes a few brave words and brief, Kissing the patriot brow she blesses, With no one but her secret God To know the pain that weighs upon her, Sheds holy blood as e'er the soil Received on Freedom's field of honor!

Recruiting Ended.

The 25th. Brant Dragoons have
completed their strength and have
now stopped recruiting more men.
The whole regiment has, says the
Commanding Officer, volunteered and
will go to a man, should they be cal-
led.

Opening Postponed.

The opening of new White bridge
on the Hamilton Road in the Town-
ship has been postponed from Satur-
day first, until 4 o'clock Wednesday,
August 26th. The authorities think
that the heavy rains of the past few
days would have some effect upon the
approaches, which have recently been
filled in with hundreds of tons of
earth and they fear that heavy traffic
might cause considerable damage with
the present soft state of the earth. In
view of these facts, they decided upon
postponing the opening ceremonies
for a few days.

Was High Tension Trouble.

The value of the Hydro light as a
means of civic illumination was illus-
trated in the streets of the city last
night when they were suddenly cut
off for a short time. It was a very
dark night and the streets were
turned into inky blackness when they
suddenly flashed out. George street
and vicinity was especially notice-
able in this regard, while Market St.
and cross streets to West were par-
ticularly black. The trouble was a
high tension one, and it is possible
that several towns were cut off at the
same time as this city. It was not
any local trouble and had nothing
whatever to do with the local switch-
board. A whole section would be cast
in light as the result of this high tension
trouble and a section includes a pretty
fair area.

CANADA'S MONEY

(Continued from Page 1.)

ably to agriculture," he said, "there
should be pronounced stimulation and
quickening of activity." Trade between
Canada and the Motherland will un-
doubtedly receive an impetus, the im-
portance of which to our future rela-
tions it would be difficult to over-
state. If I have any general advice
to offer it is that the people of Canada
will, as I am sure they will, continue
to maintain the calm, sane judgment
for which they have always been not-
ed. Above all, confidence is a su-
preme patriotic duty, confidence in
one another, confidence in our coun-
try and its institutions, in the Em-
pire, in the righteousness of our
cause, and under Providence, in the
certain ultimate triumph of our arms."

In the course of his speech Mr.
White made a magnificent announce-
ment when he said that he had asked
the Canadian bank not to increase
their rate of interest and that they
had met him in the fairest possible
spirit.

Brewers' Plan Upset.
Applause and uproarious laughter
greeted another statement by Mr.
White, in which he told the House of
an attempt made by certain brewers,
distillers and dealers to defeat the
operation of the special duties im-
posed on their commodities and in-
dicated him, by making these duties
retroactive, this attempt at evasion
was to be met. The minister said
he had learned that practically all the
stock of liquor and tobacco had
been taken out of bond in anticipation
of such increased taxation. However
these well-meant efforts would go for
naught, since it was proposed to make
the legislation relating to Customs and
excise duties effective from August 7
last.

Practically no objection was made
by the Opposition, as an opposition to
the Government's proposals. Mr.
A. K. MacLean, however, after an-
nouncing that he spoke for himself
alone, said he considered it would be
well to reduce the duties of many ar-
ticles of food for the time being.

Dr. Michael Clark did not favor the
principle of imposing new duties upon
such necessities as coffee and sugar,
but preferred a tax on incomes
over \$1,500 a year. The tariff resolu-
tions will be considered in committee
today.

Hon. W. T. White prefaced the
presentation of his war budget with
a brief statement of the financial
position of the Dominion and of the
new situation arising out of the war.
Owing to widespread financial and
economic conditions the country's
revenues had shown a marked decline
since September last. There had
been a reduction during the last four
months of the present fiscal year, as
compared with the corresponding pe-
riod last year of \$10,000,000. However,
in consequence of an increase in com-
mercial activity, due to easier money
conditions, a marked improvement be-
came noticeable about the end of
July, as shown by the fact that the
loss of revenue for August, as shown
by the first ten days of the present
month, was at the rate of only \$1,-
500,000 for the thirty days, as com-
pared with an average decline of \$2,-
700,000 for each of the four preceding
months. It has been calculated that
gains could be looked forward to in
January, February and March, which
would have recouped in some meas-
ure earlier losses.

This outlook, however, had been
wholly changed by the war, which
had thrown the whole civilized world
into an unprecedented panic. A uni-
versal demand for gold had arisen,
the huge blocks of securities had been
sacrificed, courses and stock ex-
changes had closed down, widespread
suspension of specie payments result-
ed and international trade had been
prostrated. All these cataclysmic
events had been compressed within
the period of two or three weeks, and
yet already order was beginning to
emerge out of chaos, and the machin-
ery of commerce and finance was re-
suming its normal function.

war. A sharp decline in Customs revenue due to decreased importations seemed certain, while above all the temporary cessation of our borrowings in Great Britain would diminish our capital and express itself in a marked diminution in our imports. On the other hand there would be a possible increase in imports from the United States, through whose ports European goods would no doubt find their way. The higher prices of our grain, food and other products would afford greater buying power. After careful consideration of all these aspects of the question it was estimated that our revenues for the present year from present sources should reach from \$130,000,000 to \$135,000,000.

Probable Outlay
With regard to expenditures, Mr. White stated that while the existing programme of public works would be maintained as far as possible new works would not be undertaken until the financial situation cleared. Under this policy the hoped that revenues would meet ordinary running expenditures. This left to be otherwise provided for, capital, special and investment expenditures, totaling probably \$30,000,000, together with special military expenditures. A vote of \$50,000,000 was being asked for, the greater part of which would probably be expended during the rest of the fiscal year. With Canada's national existence at stake it would not be the part of patriotism to spare either blood or treasure. Assuming a capital and special war expenditure of \$60,000,000 there must be further provided \$8,000,000 for the retirement of treasury bills maturing in November, making a total of \$68,000,000 which must be met by the proceeds of borrowing or special taxation. By the issue of June \$25,000,000 had been already borrowed, which left a balance of \$43,000,000, which must now be raised.

Increased Duties
Partially to meet the special war expenditure, Mr. White proposed certain increases in Customs and excise duties on articles usually taxed in time of war, coffee, sugar, spirits and tobacco. On coffee, which had formerly been free when imported direct from the country of its production or in bond from the United States, a duty of 3-4 cents per pound under the British preferential and 3 cents under the general tariff was proposed. An increased revenue of \$500,000 was expected from this source. On raw sugar the British preferential tariff would be increased from 40-3-4 cents per cwt. to 1.03-3-4 cents per cwt, and the general tariff from 57-1-2 cents per cwt. to \$1.37-1-2 per cwt. On refined sugar the preferential tariff increase would be from 83 cents per cwt. to \$1.63, and the general tariff increase from \$1.07-2-3 per cwt. to \$2.07-1-3. A revenue of probably \$5,000,000 was expected from these sources.

On whiskey, brandy, gin and other distilled spirits the increase would be from \$2.40 to \$3 per proof gallon, from which, on the basis of last year's importations, a revenue of \$2,500,000 was expected. On cigars and cigarettes there would be a special rate of from \$3 to \$3.50 per pound, and on manufactured tobacco an increase in the duty of 10 cents per pound. From these

changes \$200,000 increased revenue was looked for. On account of the wording of the French treaty, there could be no increase in the duties on wines and champagne. The increase in excise duties on spirits would be from \$1.90 to \$2.40 per gallon, on malt liquor from 10 to 15 cents per pound, on cigars from \$2 to \$3 per thousand, on cigarettes from \$2.40 to \$3 per thousand, on manufactured tobacco from 5 to 10 cents per pound. From these excise increases \$6,600,000 was expected to be realized.
Duties Are Retroactive.
The Finance Minister then stated that it had come to his knowledge that certain brewers, distillers and dealers, in expectation of a special war tax on their commodities, had during the past two weeks taken exceedingly large amounts of them, practically the whole supply in the country in fact, out of bond. If this situation were not dealt with by fiscal scheme would be defeated and the Government would be deprived of a large part of its expected revenue. He proposed, therefore, that part of the legislation relating to Customs and Excise be deemed to come into effect on August 7 last. (Cheers and laughter.)
From these special war taxes, in paying which each citizen was contributing directly to the defence of the Empire, an additional revenue of about \$7,000,000 would be derived, it was estimated, during the remainder of the fiscal year. This left over \$6,000,000 to be provided by borrowing. Further loans would be made as opportunity offered, but the amount to be relied on from this source was conjectural. Under these circumstances the Finance Minister was taking legislative authority to amend the Dominion Notes Act to increase the amount of notes which may be issued against a 25 per cent. margin of gold from \$30,000,000 to \$50,000,000. This would give an additional \$15,000,000 free money borrowed from our own people on the Dominion's credit which would be used to supplement borrowings.

Appeal to Employers.
As to the effect of the war upon industrial and commercial conditions in Canada Mr. White stated: "Injury there will be no doubt to some of our enterprises, but such injury may be most marked at the beginning and not of long duration. In the circumstances I feel that I can confidently appeal to all employers of labor to continue to carry on their operations to such an extent as may be feasible to them, in order that the distress of unemployment may be minimized as much as possible, and that the first brunt of the war may not fall too heavily upon the working community."
To many of our industries, and notably to agriculture, there should be pronounced stimulation and quickening of activity. Trade between Canada and the Motherland will undoubtedly receive an impetus, the importance of which to our future relations it would be difficult to overstate. If I have any general advice to offer it is that the people of Canada will, as I am sure they will, continue to maintain the claim, sane judgment for which they always have been noted.
"Above all, confidence is a supreme patriotic duty; confidence in one an-

A TERRIBLE CARNAGE INFLICTED BY FRENCH
(The French directed a violent rifle and artillery fire on their assailants, causing veritable carnage. Every German leaving these houses was shot down.
A battery of six guns with their caissons filled with ammunition was captured from the Germans. They were taken to Belfort to-day where crowds of curious townspeople gathered to see them. Eighteen other guns captured to-day are expected to reach Belfort to-morrow together with 600 prisoners.)

In many cases they improve. Modern eyeglasses as we make them are rimless lenses held securely but comfortably on the nose by inconspicuous finger-piece mountings.

THE PROBS

TORONTO Aug. 21—Heavy rain has fallen generally the peninsula of Ontario and a few local showers have occurred in Quebec and the Maritime provinces. In the west the weather remains fine.

Moderate to fresh west winds clearing, fine to-night and on Saturday with not much change in temperature.

Cutting 'Crops'—Farmers of the district are now cutting their first crop of fall wheat, and as far as reports are in, a fair average crop is assured.

Work on New Tower.—The work on the erection of the new tower for Grace Church, is being steadily proceeded with. The masons are busy cutting the stone, while the tower itself has been completed up to a height of 33 feet and the frame work and scaffolding for the rest of it has been erected. Already the work gives evidence of the architectural beauty of the tower when completed.

Will Plan for Those Left Behind.—The committee appointed to prepare a scheme for the raising of contributions for the support of the wives and families of the soldiers who have gone to the front, met last night at the city hall and after much discussion arrived at a scheme which will be announced at the meeting of the representatives of the societies to be held at the city hall this afternoon at 3 o'clock.

Up Goes Bridge.—After a temporary halt of operations during Old Home Week the work of raising Lorne Bridge is again being proceeded with. The work recommenced on Monday, and it is the hope of the contractor, Mr. Reuben Rogers of Guelph to have the job finished in two weeks' time.

Contrary to expectations the task is not proving a difficult one. The east end has already been raised six inches, and the contractor counts on raising the bridge two feet per day.

Accidental Death.—The jury enrolled by High Constable Kerr to inquire into the death of Louis Perri, the young Italian laborer killed on the L. E. & N. railway last week, met last night at the police station, Coroner Fissette presiding. After hearing the facts of the case, the jury brought in a verdict of accidental death, caused by the deceased being hit on the head by a heavy piece of clay off a steam shovel, causing concussion of the brain. The jury exonerated the company from all blame.

Boy Knight Camp.—The Boy Knights are having a splendid time at their camp at Grimsby Beach. Never in the history of the corps were tents and general work done up as rapidly or as readily as last Monday. The boys are also working together in a most happy manner each one trying to do his best in whatever work or duties they have among the junior officers. We missed our old boys who have gone to the front, and know that they will give a good account of themselves. Quite a few visitors have been around the camp and many old friends welcomed the boys back to their old camping ground again. We are having quite a lot of wet weather, but it does not seem to mar the enjoyment or fun of the boys in any way.

A TWO HOUR BOMBARDMENT OF PORT LIBAU

Explosion of One Shell Killed Fifteen Women.

[By Special Wire to The Courier.] STOCKHOLM, via London, Aug. 21, 7.10 a.m.—The cabin of a Swedish steamer which has just arrived from Libau, tells the following story of the bombardment of the Russian seaport by the German fleet.

It was on a Sunday evening that the rain of fire began to fall on the city. The townspeople were thrown into a panic. They ran into the streets and other open places because their houses were falling and burning.

Fifteen women who were seated on a pile of lumber were all killed by the explosion of a single shell. The bombardment continued for two hours. Many buildings and bridges were destroyed.

Advices from St. Petersburg indicate that life in the Russian capital runs on in the ordinary way. The streets, cafes and amusement places are as crowded as ever. No additional military precautions have been taken, it is said. The food supply is described as plentiful.

The destruction of the harbor works at Hango, Finland, by German warships, is reported by the master of the Swedish Steamer Bifrost, which has arrived from Hango.

"We received orders from the port authorities at Hango on August 2, to moor with the Dutch coal steamer Alcor across the entrance to the harbor, where our ship was to be dynamited in order to close the channel," he said. "Later the authorities permitted us to anchor outside in security, but the Alcor was blown up, according to the program, together with three valuable cargoes."

Grand Duke Michael, the younger brother of the Russian emperor, has left for St. Petersburg. Steamship freight traffic, between Finland and Sweden has been resumed.

Speedy Work In Preparation

QUEBEC, Aug. 21—The arrival of Col. Victor Williams, adjutant general, to take over the mobilization camp, the connecting of the water service with the main camp, and the preparations for the arrival of between 4,000 and 5,000 troops to-day, were the chief features of the situation at Val Cartier.

All day to-day from dawn till after dark the troop trains will pour their passengers into the little station in the cup of the Laurentian mountains, which has within the short space of a fortnight been transformed from a wilderness into a town.

Where one saw before a few farmers' huts, there is now an incessant stream of khaki-clad men jostling each other as they come and go earnestly intent upon their business.

Motor lorries, big transport wagons, and every other kind of modern conveyance, have changed the aspect of the quiet countryside, and the activity apparent everywhere is such as has never before been displayed at any military camp in Canada. The progress makes thus far unquestionably breaks all records.

It is less than ten days ago that work was started on the preparation of the camp, and already the bulk is done.

Four miles of pipe have been laid from the camp to connect with the intake at the river which bounds the camp on its left flank, and the other four are distributed. White and neat, hundreds of tents are waiting ready to receive the incoming volunteers, Roads, and good roads at that have been made. Hospital, ordnance stores, sheds of all descriptions are springing up like mushrooms in the night.

It will be an ideal camp in many ways. No rain is likely to bother the men much as the dry, sandy soil will drink it in at once.

Of the hundreds of men now in camp all seem to have benefited by their brief stay here. Every one has a good, healthy tan and they seem happy and contented enough.

TOTAL ECLIPSE

All Europe and a Portion of Africa Fell Within Sun's Shadow.

WASHINGTON Aug. 21—A total eclipse of the sun, which cast complete darkness over a strip 85 miles wide through Russia, Scandinavia, Asia Minor, Persia and India, was only partially visible in this country to-day, but was observed by astronomers at the naval observatory here.

All Europe, a portion of Africa, however, fell within its shadow. It is not visible in this country farther south than Washington, nor west of North Dakota. A shadow fell upon the earth first in Hudson's Bay and disappeared on the east coast of Africa just north of the equator.

In 1918 another total eclipse of the sun will be visible here.

Mayor Spence Receives Letter in Which Appreciation is Expressed.

Mayor Spence has received the following letter from Quebec, which speaks for itself: QUEBEC, Aug. 18, 1914.

To Mayor Spence, City of Brantford:

Dear Sir,—Allow me to thank the citizens of Brantford through you, on behalf of the members of the Army Reserve who left Brantford on the 17th inst., for the splendid send-off which was accorded to us, and was heartily appreciated by us, considering our notice was short, and also your address and wishes, and we all know that our families will be looked after, under Col. Ashton, Col. Howard and yourself to the best of your abilities, and we all know that anything brought forward by yourself, for their welfare will receive the support of every citizen of Brantford. We are in hope of all returning safe when the flag we are fighting for is hoisted in Berlin. Thanking you and all the officials once again for our splendid send-off at such a short notice, Yours sincerely,

J. HARDY, R.G.A.

BUSY LADIES

Donations of Socks, Flannel and Cloth are Accepted at the Shelter

About 20 very busy ladies did a good day's work at the Children's Shelter yesterday afternoon when 50 "Housewives" were prepared and 21 pneumonia jackets cut out for the Brantford soldiers. The ladies are aiming at getting ready 200 pairs of socks as well. Gifts of flannel and cloth will be very acceptable at the Shelter and can be utilized to the best advantage. The ladies will meet again on Friday afternoon next.

LAUGHED AT IT

MONTREAL Aug. 21—J. K. L. Ross is out of town, but his confidential secretary who spoke to him on the phone says he laughed at the Boston story that his steam yacht, Tarantula, had been ordered back to port by a United States cutter, and declares it was not his intention to risk the yacht on the open sea at present.

NOTHING OF IMPORT

WASHINGTON, Aug. 21—State department officials take only a casual interest in the report that the North German Lloyd Steamship Brandenburg had been loading coal at Philadelphia to sail to-day without passengers to an unknown port. They pointed out that any commercial vessel might take on certain supplies liable of course to seizure and confiscation.

LOSS OF \$2,000 ON SEASON MAY CAUSE LOSS OF FRANCHISE

St. Thomas Club Directors Desire to Sell Holdings or to Transfer Team.

ST. THOMAS, August 21.—A transfer or sale of the franchise held by the St. Thomas Baseball Club is a near future possibility. The local management will, according to Secretary Chantler, be out about \$2,000 at the end of the season. Indifferent patronage and little interest taken in the fortunes of the club by the St. Thomas people are blamed for the unsatisfactory conditions, and the playing schedule, too, has been increased \$1,500 above that of a year ago.

Kopp and Reilly may go, the former to St. Louis and the other to the International. The club would benefit to the extent of \$1,500 by the draft. The city, too, would also be the loser. The Council has expended a substantial sum in providing and maintaining a suitable ground for the team free of rent or any extraordinary outlay. The corporation expected to be reimbursed to some extent through the increased revenue from the street railway service. The club has failed to draw the same crowded bleachers and grand stand of the years gone by; still there are a number of people in the city who would regret seeing the club go for good, of practical sympathy shown the management during the remainder of the season whether St. Thomas will be a clubless town or no.

Mr. J. C. Eaton, head of the T. Eaton Company, Limited, has offered \$10,000 to purchase a Vickers quick-firing battery, also his yacht Florence for government use and his private wireless station in Toronto.

WRIGHT OF SKEETERS WILL REPLACE TROUT

Star of Canadian League Last Year Will Finish Season With Beavers.

Several important changes will be made in the Toronto Beaver line-up, it is rumored, during the next few days. Former Catcher Trout, now a hard hitting outfielder, will go to the International League club, and his place on the Beavers will be taken by Billy Wright, the out-fielder who was purchased by the Buffalo Internationals from Owner O'Neil, of the Erie club, last spring, and then turned over to the Jersey City Internationals. President McCaffery, of the Toronto Leafs has secured him for Toronto next season, but will give him to the Beavers to replace Trout this season.

Third Baseman Pick of the Leafs will join a big league club on Sunday. In a story by Hugh Fullerton regarding the securing of minor league ball players by the majors, he states that there are four players in the Canadian League sure to go up higher at the end of this season either by purchase or draft.

Wright will be playing with the Toronto Beavers when they play here in the series which opens on September 3. Canadian League fans will remember the hard-hitting gardener when he courted in right field for the Guelph Leafs last season. He has been going great with Jersey City most of the present season, although he acted in the capacity of pinch hitter while with Buffalo.

KROY JOINS BEAVERS TODAY AT ISLAND

Double Header Will Be Staged This Afternoon

Rain caused postponement in three of the Canadian League cities yesterday, and while they played at Ottawa there is no change in the league standing this morning owing to it being a tie game.

This afternoon Brantford and Beavers will clash in a double header at the Stadium, the first game at two o'clock, with Auld and Graham the local heavies. The Beavers will be strengthened by Outfielder Kroy, of the Leafs, who will join the team this morning.

MATTY ADMITS MISTAKE MAY COST N.Y. PENNANT

Dick Rudolph Was Passed Up by McGraw and is Now the Best Hurler in the National.

Christy Mathewson forsook something in the way of bringing the fourth National League pennant to New York in a story published in The New York American yesterday when he states that McGraw has never been given to philanthropy when it comes to giving another club a player which will hinder him from grabbing baseball honors. But the fact that Dick Rudolph, once a New York giant, a Gotham born lad, is now one of the leading pitchers in the National League and a member of the Boston Braves who are but two games behind the Giants.

McGraw passed up Rudolph just for one reason and that is he thought him too small, as he fancies big pitchers.

Now McGraw admits he made one of his gravest mistakes, by letting Rudolph go back to Toronto, to which club he would not go last spring, claiming that he was of big league calibre. It might be added that Rudolph showed himself into the big league.

NILL'S HOME RUN SAVED SENATORS

Ottawa and St. Thomas Play Eleven-Inning Tie.

OTTAWA, Aug. 21.—St. Thomas and Ottawa battled to an eleven-inning tie here yesterday afternoon after one of the most sensational games of the season. The score stood 4-4 when Umpire Halligan called it on account of rain.

St. Thomas hit Roberts hard in the first inning, but fast fielding saved him. In the second two singles and Snykal's wild throw to Bullock gave them two. Ottawa came back with one in their half of the second, and tied it up in the sixth when Shaughnessy doubled, scoring Mitchell and Roberts. It was tied until the 10th, when St. Thomas forged ahead, Wilkinson beating out a punt and being forced by Kopp. Craven bunted safely, and Hadley put one through Bullock's legs, scoring Kopp. Craven tried to go home, but Shaughnessy retired him on a beautiful outfield throw.

With one gone in Ottawa's half, Nill went into pinch hit for Roberts, and slammed out a home run, making 4-4. Shaughnessy succeeded Roberts in the eleventh, struck out the three men who faced him, and Wilkinson disposed of the home team. Rain set in and Halligan called it off.

The teams played brilliant ball at times. Mitchell and Hadley making fine plays. The receipts, exclusive of the St. Thomas guarantee, went to the Canadian Hospital Ship Fund, the players wearing red crosses on their arms. Score:—
 St. Thomas . . . 021 000 000 10-4 10 1
 Ottawa . . . 010 000 000 10-4 11 3
 Batteries—Wilkinson and Nevitt; Roberts, Shocker and Powers, Lage.

HAMILTON SPORT WRITER PREDICTS LEAGUE RACE

(Hamilton Herald.)

Three weeks from to-day the Canadian League race will be over. Will it be London or Ottawa? London has 20 more scheduled games to play. Ottawa has 23. Of this number the Cockskeys play 11 at home, while the Senators play 13. Besides these scheduled games each club has several postponed affairs to get in, mostly at home, giving them a pretty even percentage to work on.

London is now out in front with a .620 per centage, with the Shagmen coming up fast, only a few points behind.

Ottawa's ten games on the road are with Erie, Hamilton and London. London invades Toronto, Peterboro and St. Thomas.

At home the Senators meet Brantford, Erie, Peterboro and St. Thomas. The Cockskeys meet Ottawa, Peterboro St. Thomas and Toronto.

Ottawa therefore, has the stiffest opposition on the road, with London stacked up against the hardest clubs while playing on their own lot.

Altogether it looks like a pretty ven break, with London benefitting

by having the all-important series with Ottawa at home. This battle of the front-runners in Cockeyville may decide the issue.

Whichever club wins out, it will only be after another stiff fight such as that of last year when Ottawa needed the Londoners out.

Frank Gyggil's Erie Yanks appear to have third place cinched. They can do no better and no worse. St. Thomas, Toronto and Peterboro, the fourth, fifth and sixth clubs at present, will hardly catch them, and the real battle is for a peep into the first division. St. Thomas and Toronto are running along neck and neck with the Blountmen 40 points below but still having a good chance to better their position. Brantford and Hamilton are hopelessly out of it. Their battle is to keep out of the cellar. It's a poor wind-up to what promised to be a big and pros' season for the Hamilton club, but the patient fans agree with the directors in their warning—"Look out for us next year."

General Caranza, the new President, entered the Mexican capital and received a great ovation.

ONLY THROUGH AIR IS INVASION POSSIBLE

General Nelson A. Miles, formerly commander-in-chief of the United States forces, foresees that the air forces will have a large part in deciding the great European conflict. "If the war is prolonged for a great period of time," he says, "it will be due, not to the land forces or to the dreadnaughts, but to the forces of the air and the wireless telegraphy."

"The use of wireless telegraphy is a new element in warfare. The wireless will undoubtedly be used most effectively by all the great nations involved in the present struggle for supremacy among the Powers. What it will do in the way of changing warfare cannot be anticipated."

"The genius of man has solved the problem of the navigation of the air. The airship is now in use by all the countries engaged in the present conflict."

"The science of aviation has undoubtedly developed the most daring body of men ever engaged in any enterprise. This has been clearly demonstrated in every civilized country of the earth. Assuring, then, that the courage and skill of the aviators of the contending nations may be equal, the results will be determined the same as was the case in the use of the breach-loading rifle, the machine guns, the high-power guns, the steel-armored ships and the dreadnaughts."

"Great battles in the air will soon be recorded."

"I read with a great deal of interest that the navies of the respective countries engaged in the war are well supplied with aeroplanes, which they propose to set in motion as their fleets of dreadnaughts come together."

SIR EDWARD GREY'S DIGNIFIED SPEECH

Dramatic Scene When Foreign Secretary, Pale and Haggard, Defends Britain's Self-Respect—"Honor, Duty, Interest, Require Our Intervention."

A scene unparalleled in the British House of Commons was the occasion when Sir Edward Grey made his now famous speech, designating Germany as a wanton disturber of the world's peace, and facing calmly with great dignity the thought that Great Britain could not maintain her neutrality in face of such an action by Germany. It was a speech without bitterness, but its purpose was to prove to the world that it is impossible to forfeit its own self-respect and the world's confidence in its reputation. Honor, duty, interest—the Foreign Secretary put them in this order—require our intervention.

The scene is reported by the Parliamentary correspondent of the London Daily Chronicle, "towards the end of the speech, now and again a challenging phrase of a dissident cheer rang forth from the Radical benches. On the whole the attitude of the Liberal party was one of brooding anxiety or sombre acquiescence. Most of the applause came from the Conservatives, who fiercely cheered every stern sentence and every appeal for action. Quite as enthusiastic as the Conservatives were the Irish Nationalists. The Foreign Secretary's firm determination to stand by France was acclaimed by them with resounding cheers. Mr. Willie Redmond and Dr. Lynch, beside themselves with delight, rose in their places waving their hands and shouting their approval. The Liberal Labor members on the other side of the House watched with surprise the ebullience of the Nationalists. Old links of historical association, Celtic feeling and the Roman Catholic religion explain the warm and vivid sympathy of the Irish."

Mr. Redmond Intervenes.

One of the most dramatic scenes in a day of drama was the intervention of Mr. John Redmond. For the first time for many long years an Irish leader has associated himself and Irish with the patriotic feelings of the average Englishman in face of a great national emergency. Mr. Redmond spoke briefly, but with an affecting eloquence that thrilled the House. Without striking one controversial note, he told the House that, thanks to the British democracy, the feelings of the Irish people towards this country had been transformed. Now in times of trial and danger for Britain the Irish people turned to the British democracy with anxiety and sympathy.

Will Join Arms.

He recalled how in 1776, at a moment of dire peril to England, 10,000 Irish volunteers leapt to arms. To-day there are in Ireland two large bodies of volunteers. "I say to the world that they may to-morrow with safety withdraw every one of their troops from Ireland. The coasts of Ireland will be defended from foreign invasion by her armed sons. (Cheers). In this matter the armed Catholics of the south will gladly join arms with the armed Protestants of the north." Prolonged cheers, in which Liberals, Tories and Nationalists participated with equal warmth, preluded the delight of the House at this vibrant **Battle Is Won.**

The battle of Home Rule is already oratory this afternoon has made the assurance of its early triumph doubly sure. "England's danger is Ireland's opportunity" is now true in quite a new sense. It was noticeable that Mr. Asquith warmly cheered the Nationalist leader. Sir Edward Grey in his speech had made pointed allusion to Ireland when he spoke of "as the 'one bright spot in the picture.' He stressed this in order that it might be understood abroad that Ireland will not weaken England's arms in this momentous crisis.

Having said so much on what I may call the broad impressions, I proceed to fill in the details of this historical day. Within a few moments of its opening for business every seat in the House was occupied. Chairs had been placed on the floor for the accommodation of members who could not find seats in the benches or the galleries. I think the last time chairs resorted to was on the occasion of the introduction of the first Home Rule Bill by Mr. Gladstone, in April 1886. In the distinguished strangers' gallery were the French ambassador, the Russian ambassador for Australia, and others. Lord Derby occupied the seat over the clock. The scanty accommodation in the peers' gallery was also included. The total strength may be set forth in tabular form as follows:—

Dreadnaughts	29
Others complete	2
Pre-Dreadnaughts	22
and some older	
Battle-cruisers	8
exclud'g Australia	
Other cruisers	100
and many others	
Destroyers	250
and 22 building	
Submarines	75
others building	

In regard to these figures it must be remarked that other vessels of all the newer classes are approaching completion and if war were prolonged over a few months, say even weeks, many of these will enter into the line.

German Fleet

There can be no certainty as to the distribution or localization of the German high sea fleet, and it would be unwise to say anything about the positions held by our own fleet. All that can be done is to set forth, as far as may be possible, the actual strength available, premising that a considerable German contingent may be in the Baltic, and that one battle cruiser, the Goeben, is reported to be in the Mediterranean, since dismantled at the Dardanelles.

The high sea fleet is under command of Vice-Admiral van Ingenhoff, and comprises three battle squadrons, in addition to the fleet flagship, Friedrich der Grosse. The organization, according to the latest accounts, is as follows: The first squadron consists of 8 Dreadnaughts, being four Nassaus and four Helgoland; the second of 9 pre-Dreadnaughts (Deutschland and Braunschweig classes), and the

Bankers' Part In Providing Sinews Of War Is Important

Men and guns, battleships and aeroplanes are necessary for war, of course, but the prime requisite of modern warfare is money. Financial resources are the real "sinews of war," and in a long drawn out conflict money is more necessary even than soldiers, arms and ammunition.

It has been estimated by experts that with Germany, England, France, Russia, Austria-Hungary and Serbia at war the daily cost will aggregate \$54,000,000. Military men predict that Italy and the Balkan States will get into the conflict. One hundred million dollars would then be a fair estimate of the daily money cost of the huge conflagration.

The German Reichstag, at the outset voted more than \$400,000,000 for war. The British Parliament voted more than \$500,000,000 at first and followed this with another \$500,000,000, making the total British appropriation total \$1,000,000,000. The Russian war appropriations have topped the billion dollar mark, and France has not been behind.

Bankers Most Powerful

In a gigantic war like the one now on, the bankers of the world are powerful, perhaps, more powerful than the rulers of the nations involved.

The importance of the financial factor has never been more obvious than now, when the European war has thrown the stock exchanges and bourses of the world out of business. When so vital a part of the financial structure is taken away, the existence of the great war, involving nearly all the Powers, necessarily limits each Government's credit to its own territory, and that of its friends and allies. Austria-Hungary and Germany are no longer able to raise money in France and England, and those countries cannot borrow in Germany and Austria-Hungary and England have in the past been the greatest money lenders.

In the light of the actual new credit resources the following existing national debts should be considered: France \$6,575,000,000; Russia, \$4,500,000,000; Austria-Hungary, \$3,970,000,000; Germany \$3,705,000,000; Great Britain \$3,535,000,000.

A COMPARISON OF ARMADAS

British Fleet

The Home Fleets have now been completely mobilized. The First Fleet, always full, compliments, was ready; the Second Fleet was soon in line by taking on board the small proportion of the Immediate Reserve required, and the Third Fleet has now been mobilized by drafting into the ships the men of the several classes of the First Reserve, Royal Naval Reserve, and Volunteer Reserve. The greatest enthusiasm has prevailed, and the whole of the operations have been conducted with the utmost regularity, and smoothness.

Every effective vessel is at sea, and there are nine squadrons of Dreadnaughts and pre-Dreadnaughts, besides the cruiser squadrons and flotillas and minelayers might attempt organization and strategic dispositions are the fruit of long experience and the sustained attention of our naval authorities.

The immediate strategic area in a war with Germany would be the North Sea. It would be a difficult matter for German ships, without extreme risk, to penetrate the Channel, though destroyers and minelayers might attempt it. The larger opening is through the north passage and vessels bent on commerce destruction might get by that way round the north of Scotland. The capture of merchantmen on one side or the other would be a prominent feature in the early days of war.

In the North Sea the British superiority is very marked. We can place in line 42 battleships and battle-cruisers, as compared with the German's 25—or 28 if the new ships are included. The total strength may be set forth in tabular form as follows:—

Dreadnaughts	29
Others complete	2
Pre-Dreadnaughts	22
and some older	
Battle-cruisers	8
exclud'g Australia	
Other cruisers	100

URIC ACID IN MEATS CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts or Bladder bothers.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

The Kaiser announced that Germany would resist any attempt of Japan to take over Iao-Chow.

Little Known What's Doing At Ottawa

By Special Wire to the Courier

OTTAWA Ont. Aug. 20.—The House of Commons this afternoon considered the war budget of the finance minister Hon. W. T. White and the proposal of the prime minister, Sir Robert Borden that \$50,000,000 be raised to defray the expenses of Canada arising out of the war. Another matter brought before the house was the amendment to the emigration act which yesterday drew from Hon. Mr. Pugsley the contention that it looked to him as if the habeas corpus act was to be suspended by the clause which would give the government power to prevent any person held for deportation or under arrest or detention as an alien enemy or under suspicion being released on bail or otherwise discharged or tried without the consent of the Minister of Finance.

Fiscal changes which it was thought Mr. White would announce to counteract the final effects of the no inkling of the character of the financial legislation proposed had leaked out before the house met but it was generally believed that both the customs and excise duties would be affected.

Little debate was expected to take place on the financial measures of the government, though the emigration act amendment, it was thought, would not pass without a careful scrutiny.

SITUATION IS GOOD.

ANTWERP, Aug. 21, 1:30 a.m. (By Paris, 5:10 a.m.)—An official statement says that the situation is unchanged. German cavalry patrols are circulating around Brussels, severing communication between the Capital and Antwerp and between these cities and the central part of the country.

Steptenations. You can't sleep in the stiller night if your digestion is bad. Take Hood's Sarsaparilla—it strengthens the stomach and establishes that condition which sleep regularly comes and is sweet and refreshing.

IS REPEATING HER TACTICS

Germany Opened War on Same Date 44 Years Ago

Born in the blaze of battle 44 years ago, two great nations, France and Germany, are today repeating with uncanny similarity even in date and site, the conflicts of the last great European war.

The war of 1870 began on August 2, with a fierce fight between German and French troops at Saarbrück—not eighty miles from Longwy, where the first Franco-German battle of this present and most frightful of European conflicts has just been waged, on the same day, August 2.

In 1870, just as to-day, there were three chief points where the big German armies crossed the French border. The Germans, in fact, are now repeating the tactics of their last war. But at that time German victory followed German victory with terrible rapidity, and as a result, came the formation of the German Empire, with King William of Prussia, Emperor.

The French ambassador, Benedetti, demanded of King William of Prussia that no prince of his line should ever accept the throne of Spain. The king refused to listen, and made public excerpts from Benedetti's demand. A few days later, July 19, 1870, France formally declared war.

"Mailed fist" struck Germany's "mailed fist" struck before France had half a chance to pre-

pare herself. Germany had a fighting force of over 520,000 men in the field at once. The French had only 400,000 men instantly available for the military movements during August.

After the first conflict at Saarbrück, on August 2, in which the French were victorious, there occurred a fierce attack on the German advance guard near Weissburg, in Alsace. The French troops retired with heavy loss. The German invasion progressed rapidly.

In battle after battle the French inflicted losses much heavier than their own upon the enemy, but were each time defeated. Finally, on September 2, the French Emperor, and all the army under his command, was captured at the battle of Sedan. There was one army left to France, but it was bottled up in the fortified city of Metz, under the command of Marshal Bazaine, who, after a daring attempt at a sortie, was forced to capitulate on October 27.

Invested Capital. The German troops now had an open road to Paris, and they invested the capital at once. The Parisian had proclaimed a republic, after Napoleon's downfall at Sedan, and organized a government for national defence, of which Leon Gambetta, the great French statesman, was one of the chiefs.

Gambetta put aeronautics, which are playing so striking a part in the present strife, to the first successful use in war.

He escaped from beleaguered Paris in a balloon, and attempted to raise more troops in the south of France. But this dramatic deed was vain, and by the last of January, 1871, Paris was at the point of starvation, and was forced to capitulate.

The amazing exactness of the victorious Germans, in the huge indemnity they required, and their annexation of Alsace-Lorraine, have never been forgotten by France.

GRIM STORIES FROM THOSE DRIVEN OUT FROM GERMAN CITIES

[By Special Wire to the Courier.]

STOCKHOLM, Sweden, Aug. 20.—London, Aug. 19.—Fully 15,000 Russian refugees from Germany, most of them exhausted, famished and sick, have gone through Stockholm since the beginning of the war. From 1-500 to 2,000 have arrived daily. Hotels, barracks and schools have been used to capacity every night. The unfortunate refugees are a heterogeneous gathering from all classes. There are wealthy bankers, physicians and professors, all told the same story of an exhausting and foodless journey in consequence of the Germans' refusal to accept rubles.

M. Armatschewskij, the Governor of Kalisz, Russian Poland, and a number of others, it is asserted, were transported on a train, the windows of which were shaded, to an unknown place, where hundreds of persons were packed together in a barn for three days.

The municipality and citizens of Stockholm are giving all possible assistance to the refugees and those sent on their journey are provided with rations to take them through Lapland, where there will be difficulty in finding food for so many thousands of strangers.

CANADA AND THE WAR

By a Canadian Officer Now in England.

[From the Canadian Gazette.]

Canada, as you know, has pledged herself to stand beside England to the utmost of her resources. In all that England feels called upon to do in this hour of grave peril. It is no longer, thank God, a question of the Senate or of political parties. England is menaced, and all that England means to civilization. For reasons which we, as Canadians, are eager to justify the world in forgetting, Canada is not in a position to give the help on the seas which her Ministers and Commons intended to give; she has not the satisfaction which belongs at this hour to gallant little New Zealand of seeing her own battleships beside the British ships in the fateful waters of the North Sea; she has not even the far smaller consolation of Australia that her battleships, though not at the scene of action, will be available should the coming conflict be prolonged and enlarged. On the seas Canada is able to do nothing for the defence of the Empire; the two ships she bought are not to be seriously considered even as a protection to Canadian shores.

But on land Canada is able to help, and she will do so with all the more fervour and determination because of the default of her naval intentions. So soon as the hour has come there will be, I should estimate, 20,000 men available from all parts of Canada—picked men, men who have shown their worth, and probably as regards one out of every three, men who have seen active service in the most trying conditions of the Boer war and in the last North-West rising.

The Hon. Colonel Sam Hughes is one of the officers who saw service in South Africa and as the minister responsible for the present efficient state of the Canadian Militia, he may assume command of a Canadian contingent. In the case he would have on his staff Canadian officers of acknowledged repute and experience, among whom we all think of the Brigadier General Lessard, of the General Staff, Ottawa. Aged 53, he has been successively, Inspector of Cavalry Commandant of the Royal School of Cavalry, and Adjut-General. He also served in Northwest Rebellion, and commanded the Royal Canadian Dragoons during the South African War. It has been well said of General Lessard that he is a thorough soldier and a stern disciplinarian, respected and admired by his men.

Lieut.-Colonel Victor A. S. Williams, aged 48, he has earned the Canadian nickname of "The Little Kitchener," by virtue of his organising faculty and his intrepid leadership. His father commanded the Midland Regiment during the Northwest rebellion and died while on active service. Col. Williams himself served through the South African War and was present at operations in the Orange Free State.

"The Pope is dead; grief has broken his heart. The whole universe feels it. Supreme representative on this earth of the Prince of Peace, he has seen one, after the other his hopes of a general pacification vanish. It meant so much for him that he could not bear the shock."

"Never was there a Pope more justly popular and beloved. Sprung from among the people, he remained sincerely attached to the humbler class by the simplicity of his life and by the humble condition in which he left his family. He went to the people in the full evangelistic sense of the word."

"To me and to the Church of Quebec, who almost on the eve of his death have felt his predilection. Mgr. Begin was only recently elevated to the chair of a cardinal, the loss is a particularly sad blow. Let us all pray that he may soon join the apostles whom he so valiantly succeeded on the throne of Peter."

HOW BELGIANS TAKE TO FIGHT

[By Special Wire to the Courier.]

QUEBEC, Aug. 20.—A letter, probably the first one to come from the scene of activities in Belgium since the declaration of war, was received here yesterday afternoon from a lady teacher at Beverenwae, a town of 13,000 population. Beverenwae is the centre of distribution of uniforms and arms for the Belgian army, and striking details of the situation are given in the letter.

Salt is getting scarce and food stuff is rapidly being exhausted, so the military authorities have taken over the control of stores, controlling prices and even quantities to be given each family, who is only entitled to two pounds of food each day.

Some groceries have been closed on account of shortage of goods, while others have been closed and seized, their proprietors have been over-charging the populace.

At Beverenwae, says the letter, the almost entire male population is gone and were the strongest of the women, old men and children work in the fields, the children, old men and women are at work preparing bandages and clothes for the wounded.

All available horses, wagons, autos even bicycles have been requisitioned by the military authorities.

In part, the message says that wild enthusiasm reigns throughout Belgium. All classes of soldiers are called out, which means that boys under 16 years who were to enter the army next year only are fighting for the colors. The initial and repeated successes of the Belgian troops have broken the spell the high clamored strength of the Germans had created, and now the general cry is, "On to Berlin!"

The tumult of close-by battles are clearly heard at Beverenwae, and prayers are daily conducted for the success of the Belgian troops.

The letter closes with a demand for prayers for the sake of Belgium and with the cry that: "So long as one single Belgian remains the Kaiser shall not pass."

FINAL CALL TO ARMS. LONDON, Aug. 21, 55 a.m.—A Telegraph Company, sent from Vienna under yesterday's date says that the Austrian government has issued a final call to arms for 11 able-bodied men from the ages of twenty to forty-two years.

COMMON GARDEN SAGE TEA TO DARKEN HAIR. Made up a mixture of Sage Tea and Sulphur to bring back color, gloss, thickness.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready to use tonic, costing about 50 cents a large bottle at drug stores, known as Wyeth's Sage and Sulphur Hair Remedy, thus avoiding a lot of fuss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell because it does it so naturally, so evenly. You just dampen a sponge and soft brush with it and draw this through your hair, taking one small strand at a time, by morning all gray hairs have disappeared, and, after another application or two your hair becomes beautifully dark, glossy, soft and luxuriant. THE STORY OF Waitstill Baxter

By KATE DOUGLAS WIGGIN.

Copyright, 1913 by Kate Douglas Wiggin.

Patty never let the conversation die out for many seconds at a time, and now she began again: "My sudden rages don't match my usual very well; but, of course, another didn't know how I was going to turn out when she called me Patience, for I was nothing but a squirming little bald, red baby. But my name really is too ridiculous when you think about it."

Waitstill laughed as she said: "It doesn't take you long to change it! Perhaps Patience was a hard word for a baby to say, but the moment you could talk you said 'Patty wants this' and 'Patty wants that.'"

"Did Patty ever get it? She never has since, that's certain! And look at your name. It's Waitstill! yet you never stop a moment. When you're not in the shed or barn or chicken house or kitchen or attic or garden school or the choir."

It seemed as if Waitstill did not intend to answer this arraignment of her activities. She rose and crossed the room to put the pan of greens in the sink, preparing to wash them. Taking the long handled dipper from the well, she paused a moment before plunging it into the water pail, paused, and leaning her elbow on a corner of the shelf over the sink, looked steadfastly out into the orchard.

Patty watched her curiously and was just going to offer a penny for her thoughts, when Waitstill suddenly broke the brief silence by saying: "Yes, I am always busy. It's better so, but all the same, Patty, I'm waiting—inside! I don't know for what, but I always feel that I am waiting!"

CHAPTER V. A Kiss. "I SHALL have our walk in the woods on the Edgewood side of the river, just for a change. Patty?" suggested her sister.

"The water is so high this year that the river will be splendid. We can gather our flowers in the hill pasture, and then you'll be quite near Mrs. Boynton's and can carry the nosegay there while I come home ahead of you and get supper. I'll take today's egg to father's store on the way and ask him if he minds our having a little walk. I've an errand at Aunt Abby's that would take me down to the bridge anyway."

"Very well," said Patty somewhat apathetically. "I always like a walk with you, but I don't care what becomes of me this afternoon if I can't go to Ellen's party."

The excursion took place according to Waitstill's plan, and at 4 o'clock she sped back to her night work and preparations for supper, leaving Patty with a great bunch of early wild flowers for Ivory's mother. Patty and left them at the Boynton's door with Rodman, who was picking up chips and volunteered to take the nosegay into the house at once.

"Won't you step inside?" the boy asked shyly, wishing to be polite, but conscious that visitors from the village very seldom crossed the threshold.

"I'd like to, but I can't this afternoon, thank you. I must run all the way down the hill now or I shan't be in time to supper."

"Do you eat meals together over to your house?" asked the boy.

"We're all three at the table, if that means together."

"We never are. Ivory goes off early and takes lunch in a pail. So do I when I go to school. Aunt Boynton never sits down to eat. She just stands at the window and takes a bite of something now and then. You haven't got any mother, have you?"

"No, Rodman."

"Neither have I, nor any father, nor any relations but Aunt Boynton and Ivory. Ivory is very good to me, and when he's at home, I'm never lonesome."

GENERAL POUTNIK SERBIA. General R. Poutnik, Chief of General Staff of the Serbian Army, a veteran soldier. He won high honors in the Balkan War, his name frequently appearing in the despatches for his man of resource, and his present high position through ability to command great forces. One of his great admirers is Peter. Like General Joffre, the chief of staff is a man who believes going after the enemy instead of waiting until the enemy arrives.
