## TURNIPS SLUMP IN PRICE

Potatoes May Also Go Down (P.E.I. Agriculturist)

It seems as though the bottom were about to drop out of the turnip market. Whether or not the slump in prices is temporary, or not, is a matter for speculation. Early this week the buyer for the largest house in the United States dealing in farm produce was in Summerside and bought several carloads of turnips at the prevailing prices from a leading local firm. The gentlemen returned to Boston on Wednesday and immediately cancelled his order by telegraph. A buyer for a large Toronto house bought two car loads from the same local firm, and on return to Toronto he telegraphed to ship one carload to Halifax instead of Toronto and hold the other for further instructions. The reason for this is the price in Ontario in one day was cut in two. In other words dropped from 50c per bushel to 25c, owing to the supply being greater than the demand. Whether the slump in prices will also apply to the potato market is, too, a matter of speculation. But it seems to be the general opinion that potatoes will drop rather than go higher for this reason: Owing to the storage of potatoes in Ontario that Province has taken an enormous quantity of potatoes from Eastern Canada, and consequently, this has sent the prices higher than would have otherwise prevailed. In the course of two or three weeks more it will be impossible to ship potatoes to Ontario owing to the frost, and the maritime markets will not be able to absorb the supply of potatoes on hand. Hence when the Ontario market is closed to our shippers a slump in prices is expected.

## STRIKE CAUSES COAL FAMINE IN AUSTRALIA

Sydney, N.S.W., Nov. 7.—Practically every coal mine in Australia is idle, and a long strike seems probable as a result of the dispute between the miners and the operators.

The miners demanded a bank-to-bank clause. The employers rejected this, but offered a compromise, which was not acceptable to the men.

The Government has seized all available coal supplies, but already shipping is disorganized and a number of factories have been compelled to close because of the coal shortage.

## CHILDREN'S AID SOCIETY

The annual meeting of the children's Aid Society for Kings County was held in the Town Hall, Wolfville, on Tuesday evening of last week. There was a good attendance and a lively interest was manifest.

The report of the agent, Mr. Herbert Stairs, was an interesting account of work done during the past year was received with appreciative applause.

The report of the Secretary-Treasurer, Mr. C. A. Patriquin, showed the finances of the Society to be in a healthy condition.

Dr. McKenna, the retiring President, gave an interesting address containing copious extracts from the report of the General Superintendent. He was given a hearty vote of thanks as was also Mrs. L. H. Moore, the retiring Vice President.

The following officers were elected for the ensuing year:

President—Rev. G. W. Miller.

Vice President—Dr. Elliott.

Vice President for Kentville—Mr. B. Webster.

Vice President for Canning—Mr. R. W. North.

Vice President for Berwick—Mr. S. B. Chute.

Secy-Treasurer—Mr. C. A. Patriquin.

Auditor—Mr. B. O. Davidson.

Solicitor—Mr Barclay Webster.

Membership Committee—Dr. McKenna, Mrs J H Moore, Mrs (Dr) DeWitt.

Advisory Committee—The officers of the Society.

A pleasant feature of meeting as the presentation by the president of a purse of gold to Mr. Stairs as a token of appreciation on the part of the members of the splendid work he has done for the society and the cause of humanity.

The matter of the sale of tobacco to minors in the County was discussed and the following resolution was passed:

Whereas direct evidence has come to the knowledge of the Children's Aid Society that cigarettes have been openly sold to minors, we as a society ask the Police Committee to warn such offenders and if necessary prosecute to the extent of the law.—Acadian.

## BULGARIANS RETREATING ON WHOLE FRONT

Bucharest, Nov. 9, via London.—The Bulgarians forces are retreating along their whole front in the Province of Dobrudja, according to a semi-official statement issued here today. As the Bulgarians withdraw, the statement says, they are systematically burning the Roumanian villages.

German claims of captures from the Roumanians between October 1st and October 21st, the statement adds, were exaggerated.

In comparison it is claimed that the exact figures of Austro-Germans taken by the Roumanians in the same period were SHRDULUU 5,822. The Roumanians also captured twenty-five cannon and eighty-eight machine guns, as well as much booty.

## ITALIANS CAPTURED TWENTY GUNS

Rome, Nov. 9.—Via London, —Italian forces, in their offensive against the Austro-Hungarian positions on the Carso front, have captured a total of 20 guns including thirteen of medium calibre according to the Italian official statement issued today, which follows:

"On the whole front there were only intermittent bombardments, hindered by bad weather.

"On the Carso another battery of 3 howitzers, six inch with much ammunition, which had been abandoned by the enemy, was found on Monte Pecinka.

"A total of twenty guns have been captured during the last offensive. They include thirteen of medium calibre."

"The venom with which the German women regard the war is in contrast to the feeling expressed by English women. German women read a good deal about English and American women and cordially detest them.

"There is a notion in England that the 'Got Strafe England' cry has ceased in Germany. I found no sign of it lessening. To it has been added 'Got Strafe America.' Pastors, professors and the press have told the German women that their husbands, sons and sweethearts are killed by American shells. Prince Rupert of Bavaria has made the public statement that half the allies' ammunition is American. The feeling against America among the German women is so intense that the American flag had to be withdrawn from the American hospital at Munich, though the hospital was supported by German American funds."

## SAW GERMANS DESTROY RUSSIAN CRUISER

### Captain Paramor, Now in Halifax, Says His Ship Had a Narrow Escape

"Yes, sir, I was in Penang when the cruiser Emden came in and sank the Russian cruiser Zemchug, and it was only the darkness that saved my ship from destruction by the German's guns," said Captain Paramor, master of the steamer Nigaristan to a Morning Chronicle reporter yesterday afternoon. The Nigaristan arrived in port the other day from Shields to open the "Halifax direct to France" service which is being established by the Marine Navigation Company, of London. In the early days of the war the Nigaristan as an Admiralty collier and her captain and crew had many a thrilling experience chief of which were at Penang, Straits Settlements, and Perim, an island at the mouth of the Red Sea.

### Sank Russian Cruiser

"It was in October, 1914, that the Emden entered Penang," said Captain Paramor. "I had my ship there and was anchored not far from the Zemchug, which cruiser I was to coal that day. About five o'clock in the morning, just before dawn, my lookout man came up to me on the bridge. 'There's a cruiser coming in, sir,' said he, 'it's the Yarmouth comin' back.' Just then there was a boom and the ship quivered from stem to stern. It wasn't the Yarmouth at all. It was the Emden firing a broadside at the Russian lying at anchor. The Emden had rigged a dummy funnel and fooled us all. She passed between us and the emchug and every available gun was turned onto the poor Russian. Four point sevens, pounders, quick-firers, everything that the German had, poured a sheet of lead into the Russian. The cruiser was fairly caught. The quick-firers raked her decks and the gun crews could not take their station.

### Saw Dreadful Sights

"They did succeed in firing a couple of shots but by that time the ship was heeling over and they could not depress their guns enough to hit the Emden. These shots flew over the Emden and then over me. When I heard them whistling by, I thought the Nigaristan would be a goner, too. Then I figured out that it could not be the Emden firing at me, because it was too dark for her to see what my ship was and she would not want to take any chances of sinking a neutral steamer. And I was right. Ten minutes after she had started firing the Russian was sunk and she was steaming like mad out for the open sea in quickly in the tropics, you know. Well, the broad day light. The dawn comes we lowered our boats right away and saved almost every Russian who had not been killed or gone down with the ship. We saw some dreadful sights, and when I heard at Singapore that the Sydney had got the German I was mighty glad.

"Last year I was at Perim, which is an island at the mouth of the Red Sea, near Aden. We were the only ship in port. It was a Sunday and I was taking a snooze in my cabin, when one of the Arabs came in and told me something was going to happen. Just then there was a boom. I thought it was some of our warships practicing. Not so said the Arab, it is the Turks firing at the lighthouse. I laughed at him, but he asked me to go on deck. I did and sure enough the Turks on the mainland four miles away, were dropping shells about the lighthouse. "They had a four-inch gun and could reach the lighthouse, all right, but they could not hit it to save their lives. It was a big lighthouse and stood out plainly on the skyline, so that it would have been easy for any decent gunner to have made a

score of hits. They fired a hundred and fifty rounds and only hit it once, and a glancing blow at that. They killed a few goats and knocked in a shack or two, but that was all. Later our ships came down from the Red Sea and silenced the Turkish battery. Though the Turks were very poor shots there was a possibility during the bombardment of the lighthouse of their hitting us and a few odd shells did come unpleasantly close, so that we had some excitement out of it."

The Nigaristan is now loading freight at Pier Nine for France. She will have a full cargo and there is every reason to believe that the Marine Navigation Company's venture, which has for its development of trade between Canada and France, will prove a splendid success.

### DROPPING A PILOT

The "Presbyterian Witness" of the 21st, in a most readable article on the proceedings of the late Maritime Synod in Truro, under the above caption had the following about the retirement of Rev. Dr. Sedgewick, from the position of Synod Clerk:

"If one were asked to name the event that overshadowed all others and most profoundly moved the heart of the Synod, there would probably be but one reply, the retirement of Dr. Sedgewick from the Clerkship, a position he has held for thirty years. The late clerk has been for a generation easily the most conspicuous and one of the ablest and most beloved members of the Synod. His seat in the chief chair, next to that of the Moderator, like a king on his throne. It is common knowledge too, that he was often the power behind and beneath the Synod throne.

### CANADIANS FOUND TWENTY-TWO TONS OF EXPLOSIVES

**In a German Dugout, the British War Office Reports**

London, Nov. 9—Twenty-two tons of explosives were found in a German dug-out captured by the Canadian forces, the War Office announced today. Continued bad weather has prevented active operations, although there has been "usual artillery exchange."

### RESIGNS AFTER 30 YEARS.

Winnipeg, Nov. 7—Dr. C. N. Bell, secretary of the Winnipeg Grain Exchange for the past 30 years, has resigned. He will remain however, secretary of the Survey Board and secretary of the Grain Exchange Building. Dr. McGill chairman has seen of the Grain Commission, has been offered the secretary of the Exchange.

### GERMANY IS TOLD DEFEATS MEANING

Coincident with the peace agitation being carried on in Germany by the socialist and many of the more liberal politicians of the empire, anonymous circulars are being distributed which paint pictures of what might happen to the German people in case of defeat in the world war. One of these circulars, which is approvingly quoted by the Cologne Gazette, reads, according to a translation printed in the London Times as follows:

"The majority of our people still have no conception of the consequences which would follow if we were defeated, and defeated by such an enemy as England. It is a dangerous mistake to regard as vain boasting the speeches of English Ministers and Deputies, who, after our overthrow, desire to destroy German militarism, to blow up Krupp's works and to banish the Kaiser to St. Helena. In the event of victory England will act quite differently. 'Sink, burn and destroy,' was always England's motto.

"For God's sake let us not deceive ourselves about England's determination so to force Germany to her knees that she must accept England's conditions without resistance, and be wiped out forever as a competitor in the world's markets. All classes of the people are united in this resolve, from the First Sea Lord to the humblest dock laborer at Newcastle on Tyne.

"It cannot be too firmly insisted that such victory to England would mean an irreparable catastrophe for the German Empire. Not only would the German Empire be dissolved but our people itself would be most seriously threatened with extinction, especially in view of the Russian torrent pouring in from the east. Such an English victory would not only mean the bankruptcy of our industry and our overseas trade but it would be the ruin of our whole middle class.

"It would be felt especially by our trading middle class because such an English victory would totally exclude the possibility of our enemies being made to pay war costs, and for generations to come our own war burdens would grow most enormously. Among our workmen there would be a misery which would throw them back 80 years back to the times when an English machine made yarns, drove out German hand-made yarns, and starvation fever carried away thousands, especially in Silesia and Saxony."

**He Was Stricken With Paralysis, and Last Night his Condition Was Critical**

Halifax, Nov. 10.  
 Lieutenant-Governor MacKeen is seriously ill at his residence, Maplewood, North West Arm. On Wednesday he had a stroke of paralysis, and late last night his condition was reported as very critical.

London, Nov. 7—The marriage takes place shortly between Lt. Commander Harry Bingham Jermain of the Royal Navy, and Marian Paterson, daughter of Mr. and Mrs. Geo. Hensley, of Halifax, N. S.

### BRITISH TRADE SHOWS INCREASE

London, Nov. 7—The Board of Trade figures for October show increases of £13,000,000 in imports and £12,746,000 in exports. The principal increases were, food £6,000,000, and cotton £3,000,000, and the leading gains in exports were in manufactured goods including cotton textiles £3,000,000 and woollens £1,500,000.

A weakness in the American political system is the gap of four months that intervenes between the election of a President and his taking office. Woodrow will conduct the affairs of the United States until next March, irrespective of the result of the election.

KENTVILLE, NOV. 14, 1916

Mr. Caleb Bill won one of the most notable victories in the recent municipal contest that has ever been recorded.

When the Nova Scotia Highland Brigade was organized and sent overseas there was an implied pledge that Nova Scotia would stand back of that brigade and ensure from time to time essential reinforcements.

The advancement of Prohibition in the United States continues in a marked degree. According to statements received by the Associated Press from the Anti-Saloon League five more states have been added to the Prohibition column in the United States.

THE FLAG WHICH PROTECTS

The New York Sun is evidently discouraged over the international situation and the way American citizens are being killed by the Germans and Mexicans.

In a letter Captain William J. MacDonald, of Mariners Harbor, tells a plain story of the escape of twenty Americans from the Mexican mobs at Tampico in April, 1914, when American bluejackets were taken from a launch on the Panuco River and war with the United States seemed to be only a question of hours.

THE PATRIOTIC FUND CAMPAIGN

The Canadian Patriotic Fund was organized by Act of Parliament at a special session of the Dominion Government in 1914, with His Royal Highness, the Governor General of Canada, President; Sir Herbert Ames, Honorary Secretary, and Sir Thomas White, Minister of Finance, and the Auditor General of Canada, Auditor.

In Nova Scotia a branch was formed with the Lieutenant-Governor, Chairman, each County having a separate organization.

All money collected in any part of Nova Scotia are forwarded to the Central Fund through the Honorary Treasurer in Halifax. All moneys distributed by the different County branches are requisitioned for from Ottawa and paid out to the branches as required.

Country there is a branch for the distribution of its affairs, and money is not paid out to any applicant, until the matter is reported upon by the local branch.

The Central organization has absolute control over the expenditure the local committees exercising their authority in disbursing amounts, according to the requirements and standard of living in these sections.

From the beginning of the war to September 30th, 1916, there has been received \$611,298 in Nova Scotia, and there has been disbursed within the Province \$503,395.

In January, 1916, His Royal Highness, as President of the Fund, asked from the Province of Nova Scotia, \$500,000. Over \$336,000 has been paid, so that in order reasonably to meet our obligation \$164,000 additional will be required to be received before December 31st.

The Fund in Nova Scotia is administered by voluntary effort. The officials are not in receipt of salaries. Certain small amounts are paid out for clerical assistance, in centres where large numbers of families are being aided.

A soldier's wife receives from the Dominion Government \$20 separation allowance. In addition she receives a part of her husband's pay, not exceeding \$20.00 a month.

The Patriotic Fund was established to aid support the families of those who enlisted, and left behind a wife and family of little children whose income from the separation allowance, and their husband's pay, did not give them a sufficiency to live comfortably.

There are about 45,000 families in Canada in receipt of separation allowance, and assigned pay from their husband, to whom no assistance whatever is given from the Patriotic fund.

No payments are being made in Nova Scotia to the wives of officers.

The Patriotic Fund, is essentially the people's fund, raised to maintain the families of the soldiers who have gone overseas in the defence of their country, and OURS, and is dependent on the voluntary gifts of those who stay at home.

What are YOU going to do about it?

CAPTURED FIVE SUBMARINES

Fredericton, Nov. 6—Lieut.-Col. T. C. Loggie, Deputy Minister of Lands and Mines, and Mrs. Loggie arrived today from England. They were held up for five days in the Mersey, and during that time the British captured no less than five German submarines that were lurking in the Channel.

LOTS OF "SPUDS"

Messrs. J. E. Davidson & Co., Ingalls Street, Truro, have shipped so far this season about 22,000 bushels of potatoes to different parts of Ontario, where the crop is so short.

These potatoes were bought in Colchester and Cumberland Counties.

They have some 3000 bushels yet to be shipped; the prices paid ranged from 65 to 80 cents per bushel.

An idea of the size of the shipment by this Truro firm can be obtained when it is stated that it would require a train quarter of a mile in length or four miles of loaded teams to move this quantity of potatoes—Truro News.

ELECTRIC PLANT DESTROYED

Quebec, Nov. 10—The electric plant of the town of Megantic was entirely wiped out by fire yesterday evening.

LETTER FROM CAMP

Following is a letter from the son of Mr. and Mrs. A. C. Murphy, Port Williams:

I wish the Sunday School every success and hope that, if I am permitted to return, I shall find the Sunday School, especially the Boys Class, doing as splendid as when I left it.

I have been in England now for nearly two months and like it here fairly well, but take me back to Canada after the war.

The country here is very pretty, quite different from Canada and the English people think the world of the Canadians so that makes it more homelike to us.

I have been up to the little city of London (by the way, I think it is a little larger than the Port) twice since I arrived in England.

The next time, I was up over Sunday on a week-end pass and while I was up the last time, I saw that never to be forgotten air raid, which, no doubt you all read about in the papers.

I went out in the street about midnight and there, sure enough, were the zeppelins about eight thousand feet above me.

One of the Zeppelins stayed about for some time, dropping bombs every once and a while. Then, all at once, it turned straight up and down for a few minutes and everybody cheered, thinking it was coming down but, after hanging in that manner for a while, it straightened up and started off.

You can imagine what it looks like, an airship five hundred feet long and between eight and ten thousand feet up in the air, burning brightly and the crew jumping out on all sides to save themselves.

The next morning we went out to see the ruins, and ruins they were. The bodies of the crew were all burnt brown and lay among the wreckage.

We are in danger of raids here in camp, but we do not seem to realize it. The other night a Zeppelin came nearby over the Camp.

Our work is quite different from what we had in Canada. It is mostly trench work and wire entanglements we take up here.

The company are getting their signallers picked out I am a B Company signaller. Each company has four signallers.

We are equipped with field telephones and telegraphs and electric signalling lamps. Our

work is interesting but a lot depends on us for we are the telephone and telegraph operators for the Battalion. They call us the brains of the army.

RECOVERING FROM TERRIBLE BURNS

Mr. and Mrs. Harley Eisenor of Port Williams, who are now in the Victoria General Hospital at Halifax, are recovering nicely from their severe burns.

The funeral of the three victims of the fire took place at Port Williams on Wednesday following the event. The bodies of the aged man, father of Mr. Harley Eisenor, and two children, Gladys and Maxwell, aged 8 and 6 years were taken to the church and the service conducted by Rev. A. J. Prosser and Rev. J. D. Hull.

NO DELAY IN PARCELS TO PRISONERS OF WAR

Ottawa, Nov. 8—A communication from Sir George Perley to the Prime Minister intimates that satisfactory arrangements will be made through the war office whereby parcels sent from Canada to individual prisoners of war in Germany will be forwarded without delay.

There will be a central supervision and censorship in London but it is expected the new regulation will not interfere to any serious extent with the receipt by the Canadians in Germany of parcels sent to them as heretofore by their friends in Canada.

SENT 21,000 BELGIANS TO GERMANY

London, Nov. 10—The Echo Belge, as quoted by Reuter's Amsterdam correspondent, says that according to the latest news the Germans have transported 21,000 citizens to Germany.

A great panic prevails in Antwerp and in the surrounding country, adds the newspaper, which reports also that three men who tried to cross the Dutch frontier were killed by shock from the electric wire barrier on the border.

### SEEKING RECRUITS IN THE PROVINCES

Ottawa, Nov. 7.—Provincial recruiting committees are being established in the different provinces to facilitate the enlistment of naval volunteers. The enrolment is proceeding at a fair rate, with indications of improvement, but less than a hundred have so far gone overseas. There had been hopes of getting two thousand by New Year's Day.

### YOUNG LADY BURNED TO DEATH

Charlottetown, Nov. 8.—Lois Hope Humphrey, the nineteen year old daughter of Mr. and Mrs. D. J. Humphrey, of Wilmot Valley, was burned to death in her home there yesterday. The girl, who had been an invalid all her life was seated in a chair in front of a wood range when a spark flew out setting fire to her clothing. Being unable to move she was soon a mass of flames. Her mother, who happened to be out at the time, coming in a few minutes later was horrified to see the helpless girl in such a state and with frantic efforts quickly quenched the flames. The girl only lived about half an hour. She was terribly burned about the body and face.

### 500 MORE MEN NEEDED FOR 246TH

About 150 men will be transferred shortly from Trenton and from the Wellington barracks to the 246th. The company is now 550 strong and with this new addition will reach 700, so now all that is necessary to put the battalion up to full strength is five hundred men. With the recruiting campaign now in full swing all over the Province, it is hoped this total will be reached early in December. Pipe Major Baillie is now in the city getting the pipe band in shape. Lieut. Blackadder accompanied by recruiting officer Meiklewright left yesterday morning to make a tour of the whole south shore.—Herald.

### HUNS SHELL BRITISH POSITIONS

London, Nov. 8.—The Germans last night shelled the British positions west of the Beaumont-Hamel, on the Somme front, north of the Ancre, the war office announced today. A German raid in this district was unsuccessful. The weather is stormy.

At the annual meeting of the Nova Scotia Carriage Company held in Amherst on the 3rd the shareholders after hearing the report of the directors strongly recommended that the Company go into liquidation. Here is another supposed going concern, with its good will greatly overestimated, in which tens of thousands of good cold cash has been lost.

### ENGLISH PRICES

#### Potatoes and Wheat Reach Gilt Edge Figures

The potato crop in Scotland was this year very poor and dealers are buying in the north of England paying as much as £95 an acre. This, it is said, works out at £8 to £10 per ton, first cost and to earn a profit cannot be sold at less than £12 a ton; in our currency nearly three cents a pound, or about \$1.00 per bushel. Before the war, £25 to £30 an acre was considered a fair price, the production per acre averaging much higher than in Canada. The London Telegraph says these prices are "startling" and adds: "All kinds of prophecies are rife. There are bulls and bears in the potato market, but the law of supply and demand must triumph eventually. For the time being potatoes stand at more than double normal rates."

#### Wheat Also Soars

Wheat touched 73 shillings per quarter of 480 pounds in England last month. This is something like \$2.25 a bushel Canadian currency, and is the highest price since the declaration of war. The last time wheat sold at that figure in Britain was in 1855, during the Crimean war, but it touched 126s in 1812. The government has taken over control of the wheat and flour trade and this has led to an agitation for the guarantee to the British farmer of a minimum price for next year. The idea of such a guarantee is, however, discouraged by the government, the contention being that prevailing prices will be a sufficient incentive for the farmer to produce as much wheat as possible.

### PRESIDENT WILSON NO W LEADING

Has Majority to Elect Unless  
Recounts Change  
New York, Nov. 9.—President Wilson has carried California and has been re-elected.

Fifty hours after the polls closed in California, Republican Chairman Rowell conceded the State to the President. Thus the 13 votes to assure the Electoral College dropped into the Democratic column, and apparently ended the suspense and anxiety of an election which has been unparalleled in American political history.

Republican Chairman Wilcox, when informed that the President had carried California only replied: "I have nothing to say."

Secretary Tumulty, at the summer White House at Shadow Lawn, sent the news by wireless to President Wilson on board the yacht Mayflower, en route to Rhine Cliff, N. Y.

### The Vote in California.

The California returns showed that with only 48 districts missing the President's plurality in the State was 2,970. Barring some wholly unexpected turnover in the incomplete States leaning toward Wilson, or a chance on a recount, California's acquisition to the Democratic column gave the President 269 electoral votes, without New Mexico's three. In New Mexico at midnight the President was leading by 2,634 votes, with 158 districts missing, and it was not believed this advantage could be overcome by Mr. Hughes.

Conceding West Virginia, New Hampshire and Minnesota to Mr. Hughes—and he was in the lead in all three—only gives him 259 votes, seven less than the required majority. With 272 votes in sight, President Wilson had six to spare for a possible split of electors in California or a sudden reversal in New Mexico.

The evangelistic campaign in New Glasgow has resulted, it is reported in 1543 converts and consecrations. These evangelists are now going to assalt the citadel of sin in Halifax.

### Synopsis of Canadian North-West Land Regulations.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or sub-Agency for the district. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency) on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

Duties—Six months residence in each of three years after securing homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

Another who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months out of three years, cultivate 50 acres and erect a house worth \$500.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

### 500 GERMANS GIVE UP WITHOUT FIRING A SHOT

Ran a Racing Pace Into French Lines and for 2 1-2 Miles to the Rear

With the French army on the Somme Front, Nov. 6.—The battle Sunday in the district between Saillisel and St. Pierre wood was fought without the assistance of aeroplanes. The wind blowing 80 miles an hour prevented the planes from ascending, and consequently the artillery fire from a hundred German batteries, as well as from the French and British, was uncontrolled aerially. Every inch of the battle ground was a danger spot.

When the French infantry attacked a powerfully defended series of trench mortars and grenades they found a strong garrison, which in one portion surrendered in a body with their officers, more than 500 running pace into the French lines, and for two miles and a half to the rear accompanied by only half a dozen French guards. It was a strange sight when they ran the gauntlet of the German barrage fire.

Spencer Island has a schooner in building. It is owned by White and Son. The schooner County Cumberland that was launched last week in Advocate lies in the harbor at Spencer's Island.

The Great Central Hotel at Marylebone London, England has been taken over by the Government to be used as a convalescent home for wounded officers.

Coldbrook; C. A. Lockwood, Port Williams; F. B. Westcott, Gaspereau; Foster L. Smith, North Alton; W. E. Jordan, South Alton; Chas. H. Eaton, Canard; J. E. Kinsman, Centreville; A. B. Harris, Canning; J. A. Harris, Canning; F. J. Tully, North Mountain; W. E. Young, White Rock; E. L. Forsythe, White Rock; C. W. Cahoon, White Rock; E. T. Roy, Kentville; F. W. Rand, Canning; W. B. Burgess, Woodville; Hugh Porter, Woodville; Isadore Brady, Canning, and ten or twelve others.

Some of the eight localities of the Eastern part of the County were represented, and there was some difficulty in coming to a conclusion as to the breeds to be asked for, owing to the number of localities represented the districts were finally divided as follows:

that he will duly notify the Secretary of the Association.

On motion duly moved and seconded the Association fee was made \$1.00 per annum which amount was paid in to the Secretary. The meeting adjourned.

### TO PERFORM DUTIES OF BOTH POSITIONS

Ottawa, Nov. 6.—It is understood in official circles in Ottawa that Sir George Perley, the new Minister of the Overseas Forces, will, while acting as War Minister, retain his position of Acting High Commissioner for Canada.

This arrangement is not a difficult one. Practically all of Canada's business in Great Britain just now is of a military or quasi-military nature. Sir George Perley would deal with this business as High Commissioner. As Minister of Overseas Forces he will deal with the same matters, but with the additional administrative authority with which he has just been invested. He has not yet appointed the new Overseas Military Council.

### THE PROFIT IN SHEEP.

Many people do not understand the economic position of sheep sufficiently well to make the most of their farms. Sheep are ruminants, and especially well adapted to consuming roughages. They may be wintered well, upon roughages alone. To be sure these must be protein roughages, such as clover, alfalfa, or pea hay, but many times there are waste feeds of this character on the farm that can be turned into cash. I have thus used to good advantage pea straw out of which the peas had been threshed. The crop thus yielded double returns, one for seed and another for the straw.

Growing wool requires a variety and a considerable quantity of mineral substances. Weeds are rich in minerals and consequently much relished by sheep. There is nothing else quite so good for sheep as weeds for a part of their ration. The farmer who has weedy hay or weeds on his farm can often turn those to profit by the sheep route.

The shelter and labor required for sheep are less than for any other class of farm animals. The protection from cold afforded by the wool makes warmth in the sheepshed an unnecessary consideration. The sheep is economical in its water consumption. It passes a manure that is relatively dry and does not need much bedding. One or two cleanings of the sheep shed per season are sufficient. Feeding and watering are done for groups and so can be accomplished with a minimum of labor. If sheep are properly bred and fed the lambs come strong and can largely take care of themselves so that not much extra attention is necessary at lambing time.

In the sale of sheep and their products a dual-purpose is involved. Horses are raised for the work they furnish. Dairy cows for the milk they give, beef cattle for the meat one can get from them, and hogs for the amount of carcass they will yield, but with sheep the carcass and the wool are equally important. The lamb, however, is the most valuable product of the sheep industry.

With a good flock the lamb dropped in the spring will within 6 months equal the live weight of the original flock. This can be done on pasture, the cheapest of all feeds, and with the minimum of labor. This cannot be accomplished with any other roughage-consuming animals of the farm. When one stops to consider that the winter feed at least can be taken care of from the sale of wool, the source of profit in sheep can readily be accounted for.

With hothouse lambs the possible profit in sheep is still greater. Such lambs can within 3 months be made to equal two-thirds of the live weight of the breeding dams with the consumption of a little extra feed. Furthermore the price at which lambs like this sell is greater than can be obtained for any other animals of the farm. These often outsell poultry. Taking all things into consideration, a farm flock of sheep properly managed is one of the most profitable investments a farmer has.

### Two Dreadnoughts Hit By British Torpedoes

London, Nov. 7.—A claim that two dreadnoughts were hit by the British submarine which yesterday was reported launching a torpedo at and striking a German dreadnought in the North Sea, is contained in the following Admiralty statement: "With reference to yesterday's communique, a further report has now been received from the commanding officer of the submarine. He now claims to have hit two dreadnought battleships of the Kaiser class."

Joseph Cohen's motto is quick sale and small profit.
