By Associated Press. ST. PAUL, Minn., July 23.—Governor Johnson has informally advised Adjutant General F. D. Wood of the situation on the Iron range...

Tenders Wanted — Workman Falls From Roof—Accident at Lake

From Our Own Correspondent. INDIAN HEAD, July 23.—Advertisements appear in the local press this week for tenders for the new residence of the Bank of Montreal manager, here. It will be built on Buxton street, in the north-west side of the town...

WOLVES SWEEP DISTRICT

Fur Catch in Edmonton District Small—Wolves Destructive

EDMONTON, July 23.—Albert Tate who has been in the Peace River district since last December returned to Edmonton yesterday. He reports that fur catch very small in large packs and taking catches from traps. Wolves and coyotes have also destroyed numbers of cattle and horses...

Marched Singing to the Scaffold

By Associated Press. PARRISBURG, Penn., July 23.—Dowling Green, a negro, was hanged here today for the murder of his wife, last August, whom he accused of infidelity. Dowling was resigned and marched cheerfully to the scaffold singing "In the cross I know I am anchored. Death resulted almost instantly from a broken neck."

BASEBALL

Miners Beat Hatters. Special to The Leader. MEDICINE HAT, Alta., July 23.—Lethbridge defeated Medicine Hat tonight by a score of 10 to 1 in a nine-inning game. Lethbridge batted first out of the box in the middle of the sixth, after getting four runs on him. He was replaced by Barr-

GREAT OIL STRIKE IN MORANVILLE

Special to The Leader. EDMONTON, Sask., July 23.—There is great enthusiasm at Moranville, the present northern terminus of the Canadian Northern line from Edmonton, on account of the already assured success of the boring operations of the American Canadian oil company. Boring has been through rich oil shale, and at a depth of 350 feet gas was tipped. A pipe has been sunk a depth of 212 feet and is being rapidly added to in order to thoroughly exploit the gas.

IMMIGRANTS ARRIVE

Six Hundred British, German, etc. Arrive in Winnipeg. Special to The Leader. WINNIPEG, July 23.—Several hundred immigrants arrived here yesterday from the East. A special train with passengers from the "Empress of Britain" was the first to arrive. On the train were 150 British and fifty Scandinavians. On a second special were 120 British from "Kensington." The "Corscan" brought over 100 British, 25 Scandinavians and 10 Germans. On the second section of the Imperial Limited arriving at 10 o'clock this morning were 120 British. In all there were in the parties about 600 people.

The Weather and the Wheat

Weather Bulletin. The Canadian meteorological service observations taken at 7 o'clock last evening: Winnipeg time, were as follows:—

Table with weather data for various locations: Port Arthur cloudy, Winnipeg fair, Minnesota cloudy, Regina clear, Swift Current fair, Battleford clear, Prince Albert cloudy, Medicine Hat clear, Calgary fair, Edmonton fair, Victoria 52, 72; Vancouver 50, 75; New Westminster 50, 74; Kamloops 58, 85; Baker Lake 42, 74.

Conditions Good in Saskatchewan. The weather in the prairie provinces has been fine and moderately warm. Temperatures have ranged at some points. During the night there were showers and thunderstorms at several points in Manitoba. Reports from Southern Manitoba are quite bullish, some saying farmers are plowing up wheat lands and the average will be small. In Saskatchewan the conditions are much better and samples received today show crop to be in good condition. At close opinions are conflicting, and the prices lower than last night, three-quarters lower than last night.

Winnipeg Cash Wheat

Table with wheat prices: 1 Hard 92 1/2, 2 Northern 91 1/2, 3 Northern 89 1/2, No. 4 87 1/2, Oats 39 1/2, Barley 54 1/2, Flax 128.

Black Rust Reports

Black rust reports yesterday from Minnesota apparently have not alarmed the trade very much as Minneapolis prices are the weakest on the American list today. Trade in Winnipeg continues good and cheery of a scaping nature. Although there appears to be some changing from September to October, it is on prevailing prices, and extreme fluctuation was confined with in a one cent range. The receipts of wheat were 420 cars for the two

Burglars Scared by Toy Cannon

By Associated Press. A THOUSAND ISLE PARK, N. Y., July 23.—Totally blind and with his 31 year old son armed with a toy night cannon as his only aid, Robert M. Jones of New York a summer resident scouted a band of burglars. Mr. Jones discovered five men attempting to enter his house early on Monday morning and calling his son, Walter, he told the boy to get a little cannon which he used for saluting passing vessels. Blank shells were used but the burglars fled at the sound of the first shot.

Australia Wins Tennis Trophy

By Associated Press. LONDON, July 23.—Great Britain has lost the Davis cup, the international tennis trophy to Australia. The single and doubles game was won by Norman E. Brooks from H. Roper Barrett in three straight.

## GENESIS OF TRAIN ROBBERY

Told by W. A. PINKERTON

William A. Pinkerton, at the annual convention of the chiefs of police, held in Jamestown last week, delivered an address on "Train Robberies, Train Robbers and Hold-up Men."

Mr. Pinkerton may be justly regarded as the final authority on the subject, as it was the Pinkertons who made the industry not only unprofitable, but distinctly unfashionable.

The state of Missouri, Mr. Pinkerton said, produced more train robbers than any other section, and it was a notable fact that many of the criminals were brothers or members of one family.

The hold-up robber originated among the bad men in the gold mining camps, unscrupulous as a prospector, too lazy to work, and with enough bravado and criminal instinct to commit these crimes. Mr. Pinkerton continued. He first successfully robbed prospectors and miners of gold nuggets and dust, on foot to stage sections; becoming bolder, looting sections; and eventually, after the railroads were built, "held-up" railway trains and robbed express cars.

During the Civil War there were a number of "dare-devils" from the Southwest engaged in the gunnery game, who were the pride of the states who sent them to the front, and as a result of their ambushes, raids and lawless acts during the war they received as warriors when they returned home. This can especially be said of the James boys, the Youngers, the Renos, the Farringtons and the hands who operated immediately after the war. During the war they experienced a reckless life which eventually engendered in them a desire for the newspaper accounts of the exploits of the Renos, James, Youngers and other members of their class, were responsible for many of their imitations.

In the early days on the plains, the cowboy, who rode for deers, deer, and train robbery, by cattle rustling and horse stealing. Many train and "hold-up" robberies since 1875 developed this way.

The average train robbery band consisted of from five to eight men but in recent years successful robberies were committed by from three to five men, and in a few instances by a lone individual.

Certain newspapers and publishers of yellow-covered literature have at times written in a light way of these crimes, and some have even extolled the cowardly crimes of these outlaws, enterprises for the purpose of distinguishing the minds of the youth with a desire for the same adventure and notoriety. But Pinkerton's study of the train robber shows 90 per cent. of the murders committed by these "hold-up" men were assassinations, and their victims in very many instances were defenseless or the desperadoes never gave them a chance, besides outnumbering those who opposed them, and by pouncing on their victims when least expected.

There is no crime in America so hazardous as "hold-up" robbery, says Mr. Pinkerton. Over two-thirds of those who have been engaged in it have eventually either been killed outright, operating or resisting arrest, lynched by posers, or what is known as "died with their boots on."

The train robber or "hold-up" is the one product we have that no other country has, except the lands to which he migrated to hide and avoid arrest and prosecution here.

"I have maintained," continues Mr. Pinkerton, "that no crime pays and is done more frequently in want. When the criminal's time comes for punishment, nearly all leave their families in actual want. I know of few train robbers or 'hold-ups' alive and out of prison today who are in comfortable circumstances, unless they have made it by honest means."

In the early '60s, when we began operating in the interests of the railroad and express companies, the disbandment of these outlaws, and only accomplished by considerable loss of life of many brave detectives, sheriffs, marshals and policemen in the faithful performance of their duties.

The ultimate disbandment of the James' band can be attributed mainly to Governor Crittenden of Missouri, aided by Sheriff Timberlake and Commissioner of Police Craig of Kansas City."

Mr. Pinkerton in his address did much to take from the life of the highwayman its glamor of romance. For instance, he does not agree that Frank and Jesse James, Cole, Jim, Bob and Dick Younger were exceptionally brave men. To be sure they had gone through the civil war as guerrillas and were used to taking chances, but they never rushed headlong into danger, and were guilty of many cowardly outrages.

Moreover they had a wholesome respect for the man who got the drop on them. Mr. Pinkerton tells of a particular occasion where a sheriff who did not pose as a bad man at all arrested Frank and Jesse James for disturbing the peace and quiet of a small country town by "shooting it up."

This sheriff's name was Rickard, and he knew all about the war record of his prisoners, as he himself was made at Liberty.

The crime for which three of the Youngers were sentenced to life imprisonment in the Stillwater penitentiary of Minnesota was not in any sense a spectacular one, as many sensational writers have tried to make

out. The Jameses, the Youngers, Charley Pitts, Bill Chadwell and Clell Miller rode into the little town of Northfield and attempted to rob the bank, failing because there was an immediate response on the part of the citizens when they began to shoot. They reached their horses and tried to get away. As a matter of fact, Jesse and Frank James did get away, although Jesse was desperately wounded. Pitts, Chadwell and Miller were killed, and the Youngers were captured. The only person who was the cashier of the bank, and he was taken unawares and unarmed.

Mr. Pinkerton did not confine his address wholly to the record train robberies, but related many interesting incidents in his career as a chief of police. He also told of some of the nuggets made by his father, the late Allan Pinkerton.

But it is the train robber that has done more than cause criminal poison the mind of youth and to inspire a sinister spirit of criminal emulation, and the train robbery, the smallest dividend of any investment to which man ever turned his attention or bested his energy.

Take the Dalton family, which operated in Kansas and the Indian Territory mainly, but which did pull off a big robbery in California, within less than four years, at the time the band was organized, which they called the Dalton brothers had met with a violent death.

The Cook gang, for which the survivors of the Dalton gang formed a nucleus, lasted a year perhaps, and its leader, Bill Cook, has served twelve of the fifty years in the penitentiary at Albany, N.Y.

As desperate and as murderous a crew as ever assembled was that of the "Sage Bass," a former cowboy who operated in Texas mainly, although their first big job was when they struck by a Union Pacific train near Big Spring, Neb., getting away with \$60,000. They started south with their booty on horseback. Two of the bandits, Frank Runyan and Joel Collins, were shot and killed while resisting arrest ten days later. Jim Henry, another member of the gang, was killed two weeks later. Bass, Bill Nixon and Henry Underwood escaped to Texas.

Another gang, which included two of Joel Collins' brothers, Bill and Albert. Both of these were dead within a year, as was Arkansas Johnson, another member of the crowd. A few months after Johnson's death he himself, with a companion, was killed at Round Rock, Texas, leaving a single survivor, Jackson, who disappeared. That is to say, of the band organized by Bass only one man was on top of dirt within considerably less than three years from the date of their first rendezvous. Does it pay to hold up trains? Nay, verily.

From cases cited by Mr. Pinkerton it would seem that all the troubles of the hold-up men begin after he has "turned his trick" and made for himself a companion, another member of the gang, which is nearly as easy to rob a train as it is to take away from a baby, a lone highwayman has accomplished the feat a dozen different times.

This is not so hard to understand. Travelers on railway trains or stage coaches are away from home, they are strangers in a strange land, they are taken unawares, they do not know the names of the bandits there are, and are not always certain that the man in the next seat or ostensibly occupying the next berth is not an accomplice.

The "lone highwayman" who attracted most attention in this country was "Black Dan," who operated as a road agent in California in the years between 1877 and 1883. More than twenty times he stopped stage coaches, ordered the driver to throw down the "strong box" and occasionally stripped male passengers of their valuables. He came nearer being the ideal dime novel hero than any other robber in history, and he was a mild mannered individual, a coward, at heart, perhaps. But being of middle age and well educated he had made a study of human nature. He reasoned that taken unawares.

When arrested finally he proved to be an apparently inoffensive person except for this one weakness, a person who had no other bad habits and who was quick to plead guilty and take his medicine.

During his "career" he never injured a human being. It is almost certain that if he had met with even slight resistance on his first attempt to rob he would have made for the tall timber and given up the business for good.

We have been able to cite only a few of the large number of criminals which the Pinkerton agency has been instrumental in running down, as shown by the press, which is an interesting contribution to the police literature of the day. It should be printed in pamphlet form and widely circulated for the deterrent effect it would have on young America.

Tried to Fire Jail.

KENORA, July 18.—Jos. Gilbert, charged with an attempt to set Dryden jail on fire was found guilty and sentenced to 18 months.

## LIMITATION OF ARMAMENTS

PRESIDENT OF HAGUE CONFERENCE VERBALLY COMMUNICATES TO DELEGATES.

THE HAGUE, July 17.—M. Neidoff, president of the conference, today verbally communicated to the leading delegates the proposition for the limitation of armaments, presented to him by Sir Edward Fry, head of the British delegation, who, as yet, has not discussed it with the other delegates.

The effect of the proposition cannot be obtained for publication, but it sets forth substantially that the burden of armaments having greatly increased, the conference considers that the question of their limitation has now assumed an urgent character. When M. Neidoff communicated this proposition to Baron Marchal von Biberstein, head of the German delegation, the latter said that he would give an answer to Germany's attitude.

## INQUEST OPENS ON LONDON VICTIMS

CAUSE OF DISASTER STILL A MYSTERY—MAYOR WILL HOLD INVESTIGATION

LONDON, Ont., July 17.—The cause of the disastrous collapse, which occurred yesterday, resulting in the loss of seven lives is still to some extent a mystery, which no doubt will be explained at the investigation which will be held.

LIEUTENANT-GOVERNOR FORGET OPENS CONVENTION IN CALGARY

CALGARY, July 17.—The first irrigation convention in Western Canada opened this morning. A large number of representatives were present from various provinces of Alberta, Saskatchewan and British Columbia.

Major Judd has decided to hold Frank Reid, of the firm of W. J. Reid, who, previous to undergoing alterations, disclaims any responsibility, stating that another man took their lease on Monday. The loss to their property is estimated at over \$100,000.

At noon today Coroner McLaren opened an inquest on the bodies of the two victims, Hamilton and Roy, W. E. Tumbull, fifteen jurors were sworn, and after they had viewed the bodies, both of which were terribly crushed, W. E. Tumbull, father of the boy gave evidence of identification. Smith, the coroner emphasized that it was necessary that they should get every kind of evidence of a material character, in order that they might be able to place the responsibility on the proper shoulders. The inquest was adjourned for a week.

In the afternoon the jury visited the scene of the disaster and made a close examination of the ruins. A fractured skull, Lisby Smith is also reported to be in a precarious condition, although she is expected to recover.

A Serious Charge

The attorney-general, Hon. J. H. Lamont, M. L. A., has instructed that charges be laid against L. W. Williamson, J. P., of Heward, claiming the return of a fine received by him and not returned to the department, and on an account of fines collected and not paid over and for the penalty of \$100 provided by the magistrate's act.

## ABYSSINIA WANTS WAR WITH ITALY

KING MENELIK IS ORGANIZING ARMY PRESUMABLY TO FIGHT WITH ITALY

TURIN, Italy, July 17.—Dispatches from the Italian colony of Erythria in Africa, state that it is feared that King Menelik of Abyssinia, is preparing to make war on Italy. He is organizing an army of 20,000 men for the purpose of restoring order in that part of Abyssinia close to the Italian border, but as his installation of the St. Lawrence in Italy for the care of Italian prisoners during the last war had been paid, Menelik has now nothing to expect from Italy, and his pacific expedition is regarded as a mere pretext.

SIR WILFRID IS NEARING HOME

MONTREAL, July 17.—The Canadian Pacific railway steamer "Empress of Britain" with Sir Wilfrid Laurier on board, has been expected to arrive at Quebec tomorrow evening, provided the fog now so prevalent in the St. Lawrence does not close about the liner and compel her to slow down.

## NEW MAYOR FOR SAN FRANCISCO

WILL PROSECUTE GRAFT BRIBERY AND END "REIGN OF BIG STICK"

SAN FRANCISCO, Cal., July 17.—Dr. Edward R. Taylor, physician and lawyer, declared today that he is the favorite of the university of California, was elected mayor of San Francisco yesterday, and will supervise the city and by open avowal of bribery graft prosecution, the so-called "Reign of Big Stick" came to an end.

Max Eugene Schmitz, who was recently convicted of extortion, is yet a factor to be reckoned with in the solving of municipal problems. He announced that Mayor Schmitz will appoint successors to 15 supervisors, who were forced by the district attorney to resign. The city will then have two governments, one headed by Mayor Taylor and the other by Mayor Schmitz.

Chief of police Dinan announces that he will recognize no one but Schmitz as Mayor.

Other Fellow Shoots First

LA PORTE, IND., July 17.—(Special)—Ezekiel P. West, of Hanna, this county, found his wife and Archibald P. Moore, together at her father's home. He drew a revolver but before he could use it West shot him three times. Doctors say he will recover.

IMMIGRATION RETURNS FOR MAY

FALLING OFF FROM STATES—INCREASE THROUGH OCEAN PORTS

OTTAWA, July 18.—The completed returns of immigration into Canada for the month of May show that the total for the month was 45,877, as compared with 37,191 for May of last year, an increase of 8,686 or 23 per cent. Immigration through ocean ports total 38,755, an increase of 18,113 or nearly 100 per cent. On the other hand immigration from the United States shows a considerable decrease for the month, due to the transportation difficulties in the West last spring.

The prices at which the railway companies and lands speculators are now holding western lands, and the comparative cheapness of Texas lands are already largely to blame for the temporary ebbing of the tide of "the American invasion." The total immigration from the United States for May was 6,922. For the eleven months up to 31 May last, beginning with the close of the fiscal year ending June 30, 1906, the total immigration was 161,744. The increase 52,651.

PORTUGAL ON VERGE OF POLITICAL UPHEAVAL

KING'S REFUSAL TO ORDER ELECTION OF NEW PARLIAMENT CONDEMNED.

MADRID, July 18.—A communication from Lisbon, published in the Liberal, describes the situation in Portugal as extremely serious.

The press all over the country condemns the king for refusing to order the election of a new Parliament, and the political parties are practically unanimous in denouncing the prevailing regime of absolutism.

King Carlos, acting on the advice of his ministry, has adopted the most uncompromising attitude. He declares that there can be no true and permanent programme will be carried out. This includes the provision of the suspension of the civil list against which there is strong opposition.

Owing to the hospitality of the press, the king has authorized the civil governors to issue the newspapers, where that course is considered necessary in the interest of government policy.

The effect, according to the Liberal correspondent, is that the country is marching rapidly toward revolution. The movement is gaining in strength.

Lisbon publishes a message from the return of Senator Franco to the parliament. He stated that he had been seriously injured and 120 others sustained minor injuries.

## CANADA DRUG & BOOK COMPANY

NEWFOUNDLAND FISHING QUESTION

SUGGESTION THAT REFERENCE OF WHOLE SUBJECT BE SUBMITTED TO TRIBUNAL

WASHINGTON, July 17.—The approach of August 1, marking the beginning of the new fishing season in Newfoundland, is a matter of great concern to the state department, for it finds the fisheries controversy between America and Great Britain in a most confused and unsatisfactory shape. The modus vivendi entered into last year, by the terms of which, and greatly against the wishes of the Newfoundlanders, the American fishermen were permitted to ply their vocation unmolested off the shores of that island, expired with the close of the fishing season.

Indications today are that it will be difficult to reach any kind of a permanent settlement of the trouble and the whole effort of the negotiators is apparently concentrated for the moment on the drafting of some form of modus vivendi to guard against the development of a serious situation. Chief of police Dinan announces that he will recognize no one but Schmitz as Mayor.

LA PORTE, IND., July 17.—(Special)—Ezekiel P. West, of Hanna, this county, found his wife and Archibald P. Moore, together at her father's home. He drew a revolver but before he could use it West shot him three times. Doctors say he will recover.

IMMIGRATION RETURNS FOR MAY

FALLING OFF FROM STATES—INCREASE THROUGH OCEAN PORTS

OTTAWA, July 18.—The completed returns of immigration into Canada for the month of May show that the total for the month was 45,877, as compared with 37,191 for May of last year, an increase of 8,686 or 23 per cent. Immigration through ocean ports total 38,755, an increase of 18,113 or nearly 100 per cent. On the other hand immigration from the United States shows a considerable decrease for the month, due to the transportation difficulties in the West last spring.

The prices at which the railway companies and lands speculators are now holding western lands, and the comparative cheapness of Texas lands are already largely to blame for the temporary ebbing of the tide of "the American invasion." The total immigration from the United States for May was 6,922. For the eleven months up to 31 May last, beginning with the close of the fiscal year ending June 30, 1906, the total immigration was 161,744. The increase 52,651.

NEWFOUNDLAND FISHING QUESTION

SUGGESTION THAT REFERENCE OF WHOLE SUBJECT BE SUBMITTED TO TRIBUNAL

WASHINGTON, July 17.—The approach of August 1, marking the beginning of the new fishing season in Newfoundland, is a matter of great concern to the state department, for it finds the fisheries controversy between America and Great Britain in a most confused and unsatisfactory shape. The modus vivendi entered into last year, by the terms of which, and greatly against the wishes of the Newfoundlanders, the American fishermen were permitted to ply their vocation unmolested off the shores of that island, expired with the close of the fishing season.

Indications today are that it will be difficult to reach any kind of a permanent settlement of the trouble and the whole effort of the negotiators is apparently concentrated for the moment on the drafting of some form of modus vivendi to guard against the development of a serious situation. Chief of police Dinan announces that he will recognize no one but Schmitz as Mayor.

PORTUGAL ON VERGE OF POLITICAL UPHEAVAL

KING'S REFUSAL TO ORDER ELECTION OF NEW PARLIAMENT CONDEMNED.

MADRID, July 18.—A communication from Lisbon, published in the Liberal, describes the situation in Portugal as extremely serious.

The press all over the country condemns the king for refusing to order the election of a new Parliament, and the political parties are practically unanimous in denouncing the prevailing regime of absolutism.

King Carlos, acting on the advice of his ministry, has adopted the most uncompromising attitude. He declares that there can be no true and permanent programme will be carried out. This includes the provision of the suspension of the civil list against which there is strong opposition.

Owing to the hospitality of the press, the king has authorized the civil governors to issue the newspapers, where that course is considered necessary in the interest of government policy.

The effect, according to the Liberal correspondent, is that the country is marching rapidly toward revolution. The movement is gaining in strength.

Lisbon publishes a message from the return of Senator Franco to the parliament. He stated that he had been seriously injured and 120 others sustained minor injuries.

EMPEROR TO GIVE WAY TO PRINCE

RULER OF KOREA EXPECTED TO ABDICATE AS FIRST STEP TOWARDS REFORM

TOKIO, July 18.—As a result of recent representations by ministers it is very probable that the emperor of Korea will abdicate in favor of the Crown Prince as the first step towards reform in Korea. This will be followed by the calling of a new convention, which will keep Korea's national existence intact and will limit the sovereign power in some form, whereas the ruler can exercise his powers only with the consent and approval of the Japanese resident general. The present emperor in Seoul are actuated by a patriotic and are determined to replace the Korean Government up-

LIVING PICTURES IN PINK "NIGHTIES"

DOUKHOBORS EN ROUTE FOR WINNIPEG—HAIR CLOSE CUT, FEET BARE

DAUPHIN, Man., July 18.—About fifty Doukhobors, men and women, tramped into town about six o'clock tonight, weary and footsore. They went through the streets singing and chattering and took up a collection for food. They are from the Thunder Hill settlement which they left a week ago with 100 in the party, most of them half-dropping out before they reached Dauphin. On Saturday they were at Garland, and arrived at Sifton on Sunday, leaving Sifton this morning. They all wore pink night gowns, straw hats and their hair cut short. Their feet were in hair shoes, many having sacks wrapped about their feet. Only one or two could apparently speak English and stated they were looking for a warmer country, but were leaving first for Winnipeg. J. A. Campbell, M. P., had an interview with them. Provisions were offered them by the citizens, but the wanderers refused everything but bread.

KALD MACLEAN STILL PRISONER

TRIBESMEN HAVE DECIDED TO LEAVE MATTERS TO "TIME AND GOD"

TANGIERS, Africa, July 17.—Alarmed at the news of elaborate military preparations of Moroccan officials, the tribesmen were offered them by the imperial authorities, Brigand Raisuli, and Kaid Sir Henry MacLean, when they are holding in bondage, when they finally decided to refer the case to two sheiks renowned for their wisdom. The two sagas happened to be friends of Raisuli and advised the tribesmen to do nothing, but leave the matter in the hands of "time and god," which the tribesmen have decided to do.

MORMONS WANT DOUKHOBORS TO REMOVE FROM SASKATCHEWAN TO ALBERTA TO WORK SUGAR FACTORIES

WINNIPEG, July 17.—With the Doukhobors of Saskatchewan remove to Alberta and enter upon the work of the production of best sugar, in which the Mormons are keenly engaged, was the question raised last night by the arrival in the city of a committee of that community headed by Peter Veregin. The travellers were accompanied by the board of trustees of the Dominion Government, and they had just completed a trip through a portion of Southern Alberta, where they inspected lands, especially in the vicinity of Lethbridge and Raymond in the West. They also made a most careful inquiry into the various processes connected with the extraction of sugar from sugar beet, and went through places which had been established there by Mormon settlers. Mr. Veregin could not be seen, but information to his trip and the general plans of the community were obtained from Mr. Speers' confirmation of the reports.

AMERICAN GIRL JAPANESE BRIDE

MISS MILDRED CLARK OF MOMENCE, ILL., WEDS WRITER FROM TOKIO

MOMENCE, Ill., July 18.—Miss Mildred Augusta Clark, of this city, became the bride of Kiyoshi Kari Kawakami, a Japanese writer, whose home is in Tokio. The ceremony was performed at the home of Mrs. E. C. Gray, a sister of the bride. The pair was introduced two years ago in Seattle, Wash., while Miss Clark, who is an artist, was visiting Yonezawa, Japan, in 1872. Besides being a graduate of Tokyo University in his own country, he has received degrees at Wisconsin and Iowa State Universities. For the last two years he has been a frequent contributor of articles bearing upon the Japanese situation to high-grade periodicals in the United States.

CENTRAL STATES READY FOR WAR

FIRST BATTLE EXPECTED IN 15 DAYS—AMERICAN GENERAL COMMANDS FORCES

SAN SALVADOR, July 17.—An armed clash which is believed will involve all Central America will probably occur within 15 days. It is expected, that the first battle will be between San Salvador and Nicaragua. General Lee Christmas, an American who was wounded in the recent war between Nicaragua and Honduras, has been appointed general in command of the Salvadoran regiment. General Chamorro is expected from Guatemala on the next ship. Upon E. A. O'Brien, and prohibition was the prominent issue in the contest. Provisional President of Nicaragua.

SIR WILFRID LAURIER ARRIVES IN QUEBEC

RECEIVES GREAT OVATION—RECEPTION PROPER WILL BE HELD TOMORROW NIGHT

QUEBEC, July 18.—The "Empress of Britain" with Sir Wilfrid Laurier on board reached Quebec at 10 o'clock. A number of steamers went down the river as far as Gross Isle to meet the vessel, but the big liner was coming along at a very rapid gait and did not stop. The reception proper will be held. Sir Wilfrid was taken out at the harbor and landed at King's Wharf. A large number of people gathered on the wharf and along the route. The premier was given a great ovation all along the route up to the Chateau Frontenac. Tomorrow evening the reception proper will be held. Triump processions will escort the Premier from the Chateau St. Peter's Market in Saint-Sauveur, where a number of speeches will be delivered.

WHEAT HEADING WELL

Robert Bourne, weed inspector, or for the district south of Regina, yesterday brought in a sample of wheat from the farm of J. Weststein, on section 24, township 15, range 17. The wheat measured 18 inches in length and most of the heads are showing. Mr. Bourne says that this is just an ordinary sample fairly representative of the fields which are all out in heads. The crops, he says, are well, though in some cases the straw is likely to be short.

LESSEE OF FALLEN BUILDING

Wealthy Greek of Grand Rapids Bought London Premises.

GRAND RAPIDS, Mich., July 18.

Peter Smirles of this city, the wealthiest Greek in Michigan, is the lessee of the building in London, Ontario, which collapsed last week. Several persons have been killed, left today to take a personal hand in the investigation which is to follow the disaster. "I bought the old building several months ago," said Smirles, "and I had part down and agreeing to complete the purchase when the alterations were completed. I had intended to establish a sort of amusement place there, and the structure needed considerable changing to make it suitable for the purpose to which I contemplated putting it."

FIREMEN FIREBUGS SENT TO PRISON

WERE IN HABIT OF BURNING HOUSES TO GET INSURANCE AND BEAUTIFY TOWN.

BERLIN, July 18.—A trial which has engaged the criminal court at Freiberg, in Saxony, for a month and a half, concluded today. Several of the officials, including the board of trustees of the fire brigade, prominent citizens, were arraigned for systematically setting fire to over sixty houses in Stebenhau, where they lived, with the object of obtaining insurance money and of building better houses. Almost every citizen in the town was in this incendiary business, which had been proceeding for ten years. When a gendarme once went to interfere and learn the cause of a conflagration, the fire brigade simply turned the hose on him, and he left the scene of operations. In their defense, they said that their object was to beautify their town. The best of it all is that several of the principal citizens, on the mayor's recommendation, were decorated by the king of Saxony for their diligence and courage in extinguishing fires. The ringleaders were sentenced to various terms of imprisonment, from three and a half years to seven months.

Underwear made-to-order, for you couldn't possibly excel in fit, nor equal in value

PEN-ANGLE Guaranteed Underwear

Can't shrink nor stretch nor bind nor bulge; outlast other kinds; and is sold with a guarantee that insures you against any possible fault. Trade-marked like this, in red, is a sure sign of value. Made in many fabrics and styles, at very low prices, in fitting sizes for women, men and children.

CIVIC FEDERATION ISSUE REPORTS

OF THEIR VISIT ABROAD LAST YEAR—NO EXCUSE FOR DISHONEST PRACTICES

NEW YORK, July 18.—The municipal operation of public utilities in Great Britain, as observed by a committee of experts sent abroad last year by the National Civic Federation, is treated at length in a series of reports by members of the committee which were made public today. These reviews of expert reports, written by Milo R. Maitlis; Walton Clark, vice-president of United Gas Improvement Co. of Philadelphia; and Charles Ledger, president of the Edison Electric and Illuminating Company of Boston, are being widely distributed as to the success of the undertaking as a whole. Mr. Maitlis is one of the members of the newly created public service commission for Greater New York. This body has the widest powers and greatest responsibilities of any similar body which has been entrusted up to this time in the United States. Mr. Maitlis spent six months in Great Britain supervising the work of expert accountants and engineers. He declares that the municipal operation of public utilities in Great Britain has passed the experimental stage. He declares that the gas and electric plants operated by the municipalities generally give a superior service at a relatively lower cost as compared with privately owned companies. This end he finds to be due principally to the higher rate of interest and profit, and the greater amount of liabilities of the private companies. In fact their wages were practically fixed by the organization of which they were members, and there was no conceivable excuse for their resorting to dishonest practices.

How's This?

We offer One Hundred Dollars Reward for any person who can be proved cured by Hall's Catarrh Cure.

DECIDES AGAINST "ALL RED" LINE

LONDON, July 17.—It is understood on good authority that the British Government has decided against an "All Red" transportation line to encircle the globe, on the ground that the expense of the Government committee, comprising David Lloyd George, president of the board of trade; Sydney Buxton, postmaster general; Arnold Rüchman, financial secretary of treasury; Winston Churchill, under secretary for the colonies, has rejected the scheme and that the decision of this committee is certain to be endorsed by the Cabinet, though no official statement has as yet been issued. The Westminister Gazette also publishes a report that the Government committee has decided against the "All Red" route. The report is based on lobby rumors.

STATEMENT MADE THAT COMMITTEE DECIDE EXPENSE TOO MUCH

Montreal's Population MONTREAL, July 18.—According to the city directory issued today the population of Montreal is 350,000 and that of the whole island 434,000.

28 NEWSPAPERS SUED FOR LIBEL

WRITS ENTERED AT OSGOODE HALL, EACH ACTION CLAIMING \$10,000 DAMAGES

TORONTO, July 18.—Libel suits to the amount of \$250,000 have been entered against twenty-eight newspapers which published accounts of the trial of Mattie Perkins, which were found to be untrue. Twenty-eight writs were entered at Osgoode Hall today. The plaintiffs are Mattie Perkins, Thos. S. McDonald, Cayuga, and others. In some cases all three are suing on separate actions, each action being for \$10,000 damages.

KAISER TO VISIT UNCLE EDWARD

MEETING LIKELY TO IMPROVE RELATIONS BETWEEN GREAT BRITAIN AND GERMANY

BERLIN, July 18.—It may now be considered as certain as anything in the region of international politics can be that the German emperor will pay a visit to England in the course of the coming autumn. The report that his majesty received an invitation from King Edward some days ago was perfectly correct. It is also stated that the British sovereign's letter to his imperial nephew was couched in terms of marked cordiality. The statement that the emperor was asked to participate in the events of Cowes week was, however, beside the mark, as the invitation was for a sojourn at Windsor Castle, and the month mentioned was November. It is felt in official circles that recent hospitalities have constituted a good deal to remove the misunderstanding between Great Britain and Germany, and it is hoped that the emperor's experience during his stay at Windsor will have the result of placing the relations between the two countries on a footing of more enduring stability than they have occupied of late.

RECORD MAIL PASSAGE

MONTREAL, July 18.—The Canadian Pacific Railway Company R.M.S. "Empress of Britain" landed her mails at Rimouski at noon today, completing the fastest mail passage not only on the Canadian route but between European and American mail ports. The steamer left Liverpool at 5 p.m. on the 12th of July, which is equal to a departure from Moville, the northern Irish mail port, at 2 p.m. Saturday the 13th, and landed her mails at Rimouski at noon on the 19th. This makes her mail time five days and three hours, after making the necessary allowance for the difference in time. The best time ever made on the New York route was five days and eight hours by the "Lucania" from Queenstown to New York.

KING OSCAR WANTS SUBJECTS BACK

WILL INVESTIGATE REASONS FOR IMMIGRATION AND OFFER INDUCEMENTS TO RETURN

STOCKHOLM, July 18.—King Oscar in a concerted effort to woo back his countrymen who have immigrated to America, has begun a wide-spread investigation to determine what prompted them to leave the fatherland, and offers inducements to them to return. Data will be collected by newspapers and clergymen.

KAID MACLEAN MAKES ESCAPE

FROM BANDIT RAISULI—TAKES REFUGE IN SACRED SANCTUARY

TANGIERS, Africa, July 18.—Aided by sections of Ekimes, the Beni-Arabs and the Benmansour tribes, Sir Harry Kaid MacLean has succeeded in escaping from the hands of the bandit Raisuli. He has taken refuge in the inviolable Sanctuary of the territory of the Marabout of Zeouli Yonstid. It is suggested that Raisuli cannot be held as the best way out of a difficult situation.

IMMIGRATION TOTALS 200,000

ARRIVALS SO FAR THIS YEAR—100,000 MORE EXPECTED.

OTTAWA, July 18.—The immigration department reports that the total arrivals of immigrants in Canada to date for the present calendar year totals over two hundred thousand. Large increases over the total immigration of the twelve months of 1906, for the next month or so almost all the available space in transatlantic steamers sailing for Canada is already taken up, and indications point to the realization of the prophecy made last spring that this year's immigration would total in the neighborhood of three hundred thousand.

Lord's Day Act.

TORONTO, July 18.—The charge against the Grand Trunk Railway Co. for violation of the Lord's Day Act was today deferred for another week at Toronto Junction.

The Knock-out Blow.

The blow which knocked out Corbett was a reverberating blow to the prize fighters. From the earliest days of the ring the knock-out blow aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact: that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Doctor Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. Golden Medical Discovery cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad thin and impure blood and other diseases of the organs of digestion and nutrition. The Golden Medical Discovery has a specific curative effect upon all mucous surfaces and hence cures catarrh no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the Golden Medical Discovery cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its use and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead. Dr. Pierce's great thousand-page Illustrated Common Sense Medical Directory will send free paper-bound, for 21 one-cent stamps, or cloth-bound for 50 stamps. Address Dr. Pierce as above.

DENMARK'S KING TO VISIT ICELAND

TO IMPROVE POLITICAL RELATIONS BETWEEN HIS SUBJECTS

COPENHAGEN, July 18.—King Frederick, of Denmark, is soon to make a notable trip to Iceland for the purpose of trying to improve relations between Iceland and the Mother Country. The home government recognizes that for a long time there has been a strong movement amongst Icelanders for a separation. It is expected in Iceland that the inhabitants will take advantage of this opportunity to display their political views.

DEBT COLLECTING AT HAGUE MEETING

ARGENTINE DELEGATE DOES NOT FAVOR UNITED STATES PROPOSALS

THE HAGUE, July 18.—At a committee meeting held this morning, Joseph H. Choate, one of the American plenipotentiaries made an important statement of the reasons that had induced the American government to propose a general treaty of arbitration. He said: "The dangers and mischief threatening the world from the constant preparation of war and accumulation of arms, had been somewhat mitigated by the excellent work of the first peace conference, in recommending arbitration to nations as a substitute for war, and the establishment at the Hague of a permanent court. Since this time events have occurred, and two terrible wars, which, inflicting untold miseries upon several nations, have led to international agreements of arbitration, separately and in pairs. There is no reason why nations that agree by each other or two by two, should not agree altogether to exactly the same thing."

A Horse with a Strained Shoulder

is sound as a dollar in 24 hours after you rub the sore spot with Fellows' Leeming's Essence. It gives instant relief in all cases of Strains, Bruises and Swellings—draws the pain right out, and strengthens the weak back, shoulder or knee. Whether you have one horse or twenty, accidents are liable to happen any time. Keep a bottle of Fellows' Leeming's Essence handy so you can have it when needed. 50c a bottle. At dealers. Vol. 24. No. 24

Regina, Wednesday, July 24, 1907.

AN OUTSIDE OPINION.

At a time when the Supplementary Revenue Act passed at the last session of the Legislature is receiving considerable attention throughout the Province...

A noteworthy manifestation of the true spirit of democratic government is furnished by the action of the Provincial authorities at Regina in issuing for distribution throughout Saskatchewan a bulletin...

The bulletin contains, first, the text of the Act in full, and next, an analysis of how it will work out. The chief object of the Act is to tax lands for the support of rural schools...

The revenue under the Act will thus be \$350,000 annually, which is to be kept in a separate trust fund and paid out in the form of grants in aid to the educational institutions of the Province...

The Act, like all new legislation, is necessarily experimental, and only once in actual operation can it be determined whether the details of the measure work out so as to effect its main intention in the best manner.

CANADIAN FISHERIES.

The Montreal Witness, in noting the reference made by Premier Scott at the banquet here to the value of Canada's fisheries, publishes some figures to show the extent to which this industry has been developed...

The Hon. Walter Scott, premier of the Province of Saskatchewan, in his speech at the dinner of welcome given by his friends and admirers at Regina on June 22, made some surprising statements regarding the enormous possibilities of Canadian fisheries.

CHICAGO, Ill., July 22.—The western railroads are facing the problem of assembling thousands of cars for grain. The Chicago Tribune says that the railroads are now facing the problem of assembling thousands of cars for grain.

OTTAWA'S WELCOME TO SIR WILFRID. THE CAPITAL DOES HONOR TO ITS MOST POPULAR CITIZEN.

OTTAWA, July 22.—Ottawa's welcome home tonight to Sir Wilfrid Laurier may not have rivaled the spectacular impressiveness and exuberant enthusiasm of the demonstration of Quebec and Montreal...

EDMONTON, July 22.—While on a weary pilgrimage on foot, west from Wetaskawin to British Columbia by way of Jasper pass, in an attempt to cross the north Saskatchewan river, a Swede whose name has not yet been learned...

Government and Liberal party are pledged to the limit to give all classes alike and to quote Mr. Scott's own words, "so long as we remain in power no regulation will be altered nor anything done which will in any degree tend to destroy or modify the purely national character of our schools, separate or public."

How The Herald would propose to alter the regulations to encourage the employment of Roman Catholic university graduates without impairing the "best" which it declares we should have in teaching we do not know.

FORCED TO MARRY AGAINST HER WILL

GIRL SLASHES HER HUSBAND WITH A RAZOR WHILE HE SLEPT

WINNIPEG, July 21.—The police were called in to investigate what was at first reported as an attempt at murder on Aberdeen Avenue. It developed, however, that the girl who had been induced by friends to marry Wasy Dowanabuk against her will had slashed him with a razor while he slept. The police took the razor from the woman, and no arrests were made.

Officers were elected as follows:—Hon. President, the Commissioner of Education; president, F. E. McLeod; first vice-president, R. Dickinson; second vice-president, H. H. Hudson; third vice-president, J. K. McLeod; secretary and treasurer, J. W. Sifton, E. B. Hutcherson, and J. Duff.

Reorganization. A proposition that the Association should include all the teachers in the province, and not only those called to examine papers...

From Friday Morning's Leader. In order to facilitate some work now in progress a special meeting of the council took place last night...

## REGINA SUMMER FAIR

Preparations for Regina's Big Summer Fair, July 30 and 31 and August 1 and 2, are becoming more and more active as the day for opening approaches. Good progress is being made with the new cattle shed and the greatly enlarged grand stand, while the contractors are rapidly pushing forward the water extensions so as to have the city water on the grounds for both the public and live stock. In this connection, also, it may be stated that the city fire is blown, and any who desire can take away a souvenir of a handsome little glass ornament, or article of use.

The Smiletta troupe of acrobats, the escape from Slur, Sing, the Red Dome, the Magic Maze, are only a few more of the many attractions that will be along.

Mr. Reiss also furnishes some free attractions, among which may be mentioned Maximo, which is a high diving dog that throws himself head first into a net from the embankment of a ladder 60 feet high. The McDaniels family in a flying aerial act, and

gan training the little fellows of two months as a mere pastime, and finding the work very interesting—the animals always being ready to display and practice great memory—she continued the work.

carnival in the world."—Chronicle, Spokane, Washington.

"A fine show. Come again, Mr. Reiss."—Post, Wallace, Idaho.

"Better than advertised."—Tribune, Pocatello, Idaho.

THE "DIXIELAND" SCENE.

### Other Attractions.

"Dixieland" has always proven a drawing card. It is an imitation of an old time Mississippi river boat laden with cotton, and inside in the cabin darkies sing and carry on as they used to do in the "ante bellum" times.

Mr. Reiss has a capable band of glass blowers at work and visitors to the show will be able to see how glass

"Immense throngs enjoyed the brilliant scenes at opening."—Miner, Butte, Montana.

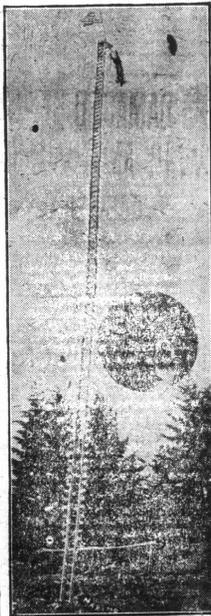

"All shows so good there is hardly any choice."—Gazette, Halsey, Idaho.

"Nat Reiss' big carnival makes good. Thousands are pleased."—Observer, La Grande, Oregon.

"Street carnival is great."—Southern Alberta News, Lethbridge.

John Miller a farmer on the south line of Kincairdine township was accidentally killed last evening, while unloading hay into his barn backwards. His head striking the ground and fracturing his skull.

NEW YORK, July 21.—The general manager of the Western Telegraph Co. has issued an official statement to the effect that the strike of telegraphers at San Francisco and Oakland had been settled by the men accepting the offer of the Company.

"MAXIMO," THE HIGH DIVING DOG

of electric juice which will be required to light the grounds and buildings at night. The Nat Reiss Carnival Co. alone requires over 200 lights.

Every day brings a batch of entries for all classes of exhibits, and Secretary Meadows has been compelled, through lack of space, to refuse sufficient entries to have filled the main building a second time. In live stock the Fair will undoubtedly surpass anything of the kind ever held in Saskatchewan. Entries of stock are proving in from all parts of the district and Province while many of the big breeders in Manitoba and Eastern Canada are coming with the pick of their herds.

### Splendid Amusement Features.

From the standpoint of amusements, also, this year's Fair will surpass anything yet attempted in Saskatchewan. In addition to horse racing there will be automobile races, interest among creators of cars. The expenditure for fireworks this year

### UNIVERSITY MAN SENTENCED

Former King's University Man Gets 6 1/2 Years for Theft

EDMONTON, New Brunswick, July 21.—Reginald Forsythe, a former graduate of King's University was sentenced today by Judge Carlton to six years and six months for theft. Forsythe comes from one of the most highly respected families in the town, but from early life had a mania to steal. The family refused him aid in

his defence and he conducted his case himself.

### Fatal Accidents at Kincairdine

KINCAIRDINE, July 21.—Rodrick McLeod, a resident of Kincairdine, from his youth was drowned while bathing in the river at Bear yesterday evening. From the condition of the body when found it is supposed he had a stroke of some kind whilst laying in the water.

# CASTORIA

## WINNIPEG FAIR IS NOW CLOSED

AFTER MOST SUCCESSFUL MEETING IN ITS HISTORY—TOTAL PAID ADMISSIONS 114,000

WINNIPEG, July 19.—The Winnipeg Industrial Exhibition closed tonight after one of the most successful meets in its history. The total attendance of paid admissions for the week was 114,000. It is expected that there will be a small balance in favor of the association when all expenses have been paid.

The feature of the closing day was the donation by Thomas Irvine and sons of St. Paul, of a \$50 prize won by them as a reward for the best string of five horses representing the western provinces. Manitoba, Saskatchewan and Alberta were represented in the contest which was won by a string of Hackneys exhibited by Turner of Calgary for Alberta.

### Killed by Heat

MONTREAL, July 21.—The first victim of the heat, George Gauthier, 43 years old, address unknown, was taken in an ambulance from the Quebec pier to the Notre Dame Hospital yesterday where he died twenty minutes after being admitted to the hospital. He was semi-conscious, but the doctor in charge was able to make him utter his name and age.

## SEA SERPENT AT DAUPHIN, MAN.

TWO FISHERMEN NEAR WHISKY JACK ISLAND SEE SEA MONSTER

DAUPHIN, Man., July 19.—Two fishermen, P. Olsen and C. Hallison, who were out in their boat near Whiskey Jack Island on Monday afternoon, saw in the water what they thought was a log. On approaching the object they noticed that it had a large head and that only part of its body was out of the water. When the two men were within 50 yards of the monster it raised its head two or three feet in the air, too slowly surveyed the surroundings and then started off at a tremendous rate of speed leaving a track of foam.

## YACHT BLOWS UP IN TORONTO WHARF

SITARAH EXPLODES AT FOOT OF YONGE ST.—WOMAN KILLED—THREE PERSONS INJURED

TORONTO, July 19.—Amelius Jarvis' compound yacht "Sitarah," blew up at the foot of Yonge street at noon today, killing one woman, and seriously injuring another, besides two men and a little girl. The yacht was being used in trials for the Canada's Cup challengers and ran into Yonge street wharf this morning for supplies. Everything was ready to start out and Capt. Jorgenson gave the signal to start when the two gasoline tanks exploded. Mrs. Valborg Backenstain, aged 22, of Dufferin street, was in the cabin at the time and her escape was cut off, the cabin roof falling in on her. She was instantly killed.

Mrs. Johnson, also of Dufferin street was on the deck. She was badly burned about the face and arms.

The "Sitarah" was valued at \$80,000, Captain Jorgenson and Chas. Backenstain, a sailor, escaped uninjured.

SEOUL, Korea, July 19.—During the abdication proceedings at the palace this morning, a mob of five thousand Koreans attacked the palace, but were driven back by the police. The elaborate ceremony of transferring the seal of the state to the Crown Prince occurred this forenoon, and at noon today the first issue of the official gazette was published on the street, containing the notification of the abdication of the emperor in favor of the Crown Prince. Marquis Ho and Baron Hayashi interviewed in regard to the events leading up to the abdication refused to reveal the part played by Japan.

### BIG FIRE AT WINCHESTER

Fire Starting in Hotel-Shed Burns Hotel and Many Buildings

WINCHESTER, July 21.—A fire started in the hotel sheds last night and the commercial house was soon a prey to the flames. A number of other buildings were more or less damaged. Fortunately, the night was calm, and there was plenty of water at hand or most of the town would have been swept. The loss is estimated between \$40,000 and \$50,000, and is partly covered by insurance. The origin of the fire is unknown.

to avoid a collision. The train jumped, but fireman so badly injured that he was taken to the hospital. Corwan, of the passenger also among the victims, his taken out from under the body of conductor E. of the passenger train was pieces, and there was enough of the fragments to identify him. Responsibility for the wreck is in the crew of the freight train, and the passengers which they were traveling showed that the freight encroaching on the time of passenger train.

After the crash were many of the families on the divided, and parents ran about looking among the for their children. Many of were taking lunch when collided, the impact being that a number of them were through the windows to the but in a few minutes the rushed to the assistance of and did all that they could of rescue.

### Dr. Chase's

NEY-LIVER PILLS

kidney disease does not arise exposure to a draught or chilling body it is usually developed as a result of liver and disorders. because of the intimate and relation of the liver, kidneys and bowels that Dr. Chase's Liver Pills cure diseases of liver when more kidney medicine quickening the action of the bowels this treatment immediately lessens the work of the liver, and at the same time restores their natural vigor. In this most serious and complicated cases of the kidneys are thoroughly cured.

Della McDermott, 373 Main Moncton, N.B., writes:— "some time my mother could walk across the floor or stoop because the pains in her back for the kidneys were so severe. She had severe headaches, dizziness, spells of blindness, and she, and tried many medicines obtaining relief. The doctor told her that the trouble was to the turn of life. My friend advised me to buy Dr. Chase's Kidney-Liver Pills, and she had used two of this great medicine she was cured, and the old trouble never returned."

J. Edwards, of Colborne, Ont., who is employed by the Kennedy & Milling Co., Lindsay, Ont., writes:—"I have been taking Dr. Chase's Kidney-Liver Pills for some time and can positively say that they are the best medicine I ever used. I doubled very much with my kidneys and had dreadful pains in my back which were increased by leaning."

# PROVINCIAL S.S. CONVENTION

From Wednesday Morning's Leader.

The business of the Saskatchewan Sunday School Association in convention was resumed yesterday morning at 10 o'clock. Mr. Frank G. Haultain, superintendent of Knox church Sunday School, led the devotions.

A first conference of the day had to do with the subject of attendance. How it could be secured and how maintained. Mr. S. Suberland, introducing the theme, insisted that to succeed the Sunday school must be graded, that beginners, intermediate and adult departments were needed to provide the right place for everyone. The schools should also include a home department for those who could not attend. Teachers' training department, and a workers' conference. Yet it ought never to be forgotten that the primary duty was merely the means to an end, and that without the conversion of those influenced all their efforts were vain.

Mr. Thompson told of the good effects of organization in the school with which he is connected and of the advantages of having the pastor to read the names of those who, through the situation of their homes or for other reasons, could not take part in the regular church services.

Mr. J. Macgregor discussed the problem of how to retain the adult scholars, and suggested that the pastor should be interested in Sunday school work.

Another visiting delegate said those who undertook to superintend or teach should realize that their obligation was at least as great as though they held a commercial interest in it.

Mr. Sutherland, unmarrying the points advanced in the discussion, urged that no stranger in Regina should be allowed to superintend a Sunday school worker had visited him.

How to Maintain Order in Schools.

The meeting passed to consider how to maintain order in schools. The subject was introduced in a short paper by Mr. Fraser, who remarked in the first place that the teacher should have respect for order. A late teacher could not possibly avoid criticism, and if the work was not regarded as the study of the best attention he should leave it. The speaker advised the avoidance of stereotyped plans, and advocated the study of the Bible, and the cultivation of a sense of humor.

The Pastor, Relation to and Opportunity in the Sunday School.

At the afternoon session Rev. C. W. Merritt introduced the subject of "The Pastor, Relation to and Opportunity in the Sunday School." In a speech embellished by anecdotes of his travels in different lands and of his experience of the pastor's work in the States, Mr. Merritt described his ideal of a pastor's relation to the Sunday school. In spite of his many duties and responsibilities, the pastor should never fail to be the spiritual head of the Sunday school. As the latter represents the church at large, the pastor's presence was absolutely necessary. But the pastor should not be on the executive of the school, nor should he be the instructor of any class. He belonged to the whole school and not to a part of it. A pastor could not be in personal vital relation with the whole school and at the same time teach an individual class. The pastor's presence was earnestly called for in the teachers' meetings, though not necessarily as the chairman. Just as a successful business man instilled his ideals into his subordinates, so a pastor should instill into his workers his ideals of soul-building, his burning desire to realize the very best.

In reply to questions, the speaker outlined steps to be taken for the effectual observance of "Decision Day," and maintained that it had resulted in a large accession of members to the church.

Duties of Superintendent.

Mr. C. G. Knight defined the duties and responsibilities of an ideal superintendent. He should have a general supervision over the Sunday school, and should occupy the same position to his school as a premier held to his cabinet. He should have a general supervision over the Sunday school, and should occupy the same position to his school as a premier held to his cabinet. He should have a general supervision over the Sunday school, and should occupy the same position to his school as a premier held to his cabinet.

Officers Elected.

The nomination committee's choice of officers for the province, as follows, was ratified: President, A. M. Fraser, Indian Head; vice-president, Mr. Thompson, Saltcoats; second vice-

Christ. Teaming with the choicest forces of Christian favour, they were going to hasten the coming of His Kingdom as it had not been hastened before.

The officers of the Regina county organization are: President, Mr. Frank G. Haultain, Regina; vice-presidents, Messrs. A. M. Fraser, Indian Head; W. H. Hinson, Regina; J. C. Abbott, Regina. The boundaries are: On the west, Belle Plaine; on the north, Lonsdale; on the east, the Arco line and Indian Head on the main line.

From Thursday Morning's Leader.

Besides applying itself to the scientific study of Sunday school problems, the Saskatchewan convention spent a good deal of time at its regular sessions, yesterday, in going routine business necessary to the establishment of the provincial association. This body included the following: the Regina county organizations of Regina, Yorkton and Saltcoats, Moosemin and Whitecourt, Greenleaf and Weyburn, Saskatchewan, Prince Albert and Roshera, two district societies hitherto unaffiliated, and the Manitoba association. The first annual convention will be held in Regina in the latter part of November, and the delegates to the convention are having to fix the date, and thus stimulated to promote Sunday School work in their locality.

Too much attention could not be given to the library as a vehicle of teaching. Mr. Muirhead sketched a syllabus of supplemental instruction, and spoke of the need to exercise care in selecting teachers for the classes of elder scholars.

Those present included: A. M. Fraser, Indian Head, Methodist; John W. Macgregor, Saltcoats, Presbyterian; Mrs. A. H. Tasker, Indian Head, Methodist; Mrs. G. H. Clarke, Regina, Presbyterian; Rev. F. A. Clare, Fort Qu'Appelle, Presbyterian; Mrs. G. H. Clarke, Regina, Presbyterian; Frank E. Adkins, Cupar, Methodist; G. Reynolds, Moose Jaw, Baptist; Mrs. Bell, Saskatoon, Presbyterian; W. Smith, Summerby, Methodist; H. Andrews, Regina, Methodist; M. Nellie Johnson, Springfield, Methodist; F. R. Sobott, Regina, Methodist; Mrs. Frank G. Haultain, Regina, Presbyterian; Rev. D. Mack, Moose Jaw, Baptist; Mrs. W. T. Coons, Regina, Methodist; A. Fleming, Summerby, Methodist; A. B. Bompas, Weyburn, Presbyterian; Rev. Frank W. Weatton, Indian Head, Methodist; W. R. Sutherland, Yorkton, district secretary; Frank Baine, Crescent Lake, Union secretary of Saltcoats association; Mrs. J. E. Coombs, South Qu'Appelle, Presbyterian; Mrs. A. H. Browne and Mrs. J. A. Gaddes, Grenfell, Baptist; Mrs. M. E. McLaughlin, and W. W. Graves, Grenfell, Methodist; Miss Mabel Fleming, Grenfell, Presbyterian; Rev. Charles J. Wilson, Yellowknife, Methodist; Mr. M. C. Fraser, Weyburn, Methodist; Rev. C. W. Merritt, Tacoma, Wash., Congregationalist; Mr. J. C. Knight, Regina, Methodist; Miss Lizzie Savard, Prince Albert, Presbyterian.

The Evening Session

At the evening session, which took place in the Methodist church, Mr. Hinson presided.

The relation of the church to the Sunday school was the topic of Mr. Muirhead's subsequent speech. He quoted with approval, at least in its modern application, the saying that man was the conundrum of the 18th century, woman the conundrum of the 19th, and the child the conundrum of the 20th. Never in the history of the church was so much attention given to the study of the child as at the present day. We were living in times of materialism, and the church was in danger of losing its spiritual life. The church should be a place of worship, and the child should be trained to support foreign missions and regularly attend a place of worship. During its formative, susceptible years the child could be properly trained in the fundamentals of religion, and the personalities surrounding it. In view of these possibilities the church must strive to purify and beautify the home. Life Canada needed that which made Scotland famous—the power of religious homes. When more attention was given by the church to the Sunday schools and to improving the environment of the public schools the reward would be reaped in strengthened churchship and greater powers for good.

A collection having been made, Rev. C. W. Merritt passed in rapid review the world-wide work of Sunday schools, as reported upon at the recent convention in Rome. The vista was opening, he said, of the greatest effort ever seen to win child humanity to

Lesson Preparation

For adequate lesson preparation and class work, remarked Mr. Muirhead in considering an important aspect of teaching, a class, in the revised version, an unbridged concordance, a lesson help, Bible geography, Bible history, and Bible standard lives of Christ and of Paul, and a blank note book. These were not too expensive. Other essentials to effective preparation were prayer and spiritual training, time, knowledge of a class, independent study, and self appropriation. With regard to method, Mr. Muirhead enjoined students of the lesson to familiarize themselves with the settings of Biblical history, the surroundings of the incidents studied, the times, places, persons and customs concerned. The explanatory method he defined as a comparison of versions and the study of modern references, resulting in a clear idea of the meaning of the passages read. Under the heading "analysis" the speaker classified school aims as the understanding of spiritual and distinctive doctrinal teachings. His last point of method was adaptation to the needs of the class.

Training of Teachers

Rev. C. W. Merritt asked and offered replies to two questions, one, the training of those at present engaged in Sunday school teaching; the other, the preparation of future workers in the main part of an able speech he addressed himself to the second subject. He pointed out that the years when pupils were trained, and fitted for teaching in the schools ranged between 16 and 21. Was it not wise for the church to train its teachers in the same period, and with something of the same thoroughness? For the schools were never a whit better than the teacher, and if Sunday schools were to be worthy of their mission and of the developing standards of education all over the land they would have to keep abreast of the times, and see that their teachers were qualified. The first principle of qualification he emphasized was that in their work as character builders they were engaged with a larger problem than that before the public school, when he said that it was intended that the teacher should not only build religious character—that was the duty of the Sunday school. The teacher's work was twofold, the intellectual and intellectual preparation. Also he must know the characteristics of child life, the characteristics of the child, the characteristics of normal development, so that he could deal with his class in the wisest, most helpful way. They had some times alienated boys and girls because they had not understood the phases and necessities of the years of youth, and particularly of school-

essence. They should realize the need of definitely committing children to the Christ-life at the time when they were most open to spiritual impressions. "How many of you," Mr. Merritt bluntly asked the convention, "date your conversion later than the age of 21?" Four hands were held up. Mr. Merritt concluded that after maturity the opportunities of conversion became much fewer. He suggested that teachers designate between the ages of 16 and 21 a period of instruction, and taught something of child psychology and methods of instruction. The churches were waking up to this need, and many still remained to be convinced of the importance of using the young life in service for the kingdom of God. Touching ways and means of training a speaker cited the prayer service, discussions on current topics affecting the particular of manuals of training.

Afternoon Session

During the luncheon interval a special meeting was attended by Mr. Fraser, president; Mrs. Bell, secretary; Mr. Thompson, vice-president; Mr. Wilson, Muirhead, Haultain, Hinson, Sutherland, Haultain, Kniesly, Reynolds, and Weyburn. The constitution was delegated to one of the executive committees. The following comprised the executive committee: Mr. Haultain, Wilkinson, Kniesly, Seabolt, and Abbott, Regina; Plummer, Prince Albert; Beck, Yorkton; Reynolds, Moose Jaw; Dr. Yonkers, Regina; Sutherland, Indian Head; and Wilkinson, Weyburn.

Infants' Classes

From the conduct of an infants' class were submitted by Mrs. Dr. Pollard, of Regina; in a suggestive paper at the afternoon session. Having described the organization of her own class and the duties of her four assistants, one of whom presided, Mrs. Pollard remarked that it was comparatively easy to inculcate a spirit of reverence in the young child, and that the most difficult task of gaining and holding its attention. The focus of the child's mind is naturally on the concrete, and the abstract is not perceived for a time in consciousness.

The speaker was weak in grown up infants, and was weak in grown up children. Involuntary attention could be secured by the slowness of the speaker suggested some ways of appealing to the attention, but on this point a rich life was infinitely more important than a rich curriculum.

The study of child life in the intermediate steps was given by Rev. C. W. Merritt. He believed, he said, that a very serious wrong was done to children by the retention of parents. The reason there were more women than men in the ranks of mothers he believed was that the fathers were going to be saved, because fathers had neglected their responsibility as fathers. Let them understand the mysteries of life by rational teaching, and they would learn by sinister means, and give them an equipment which would enable them to meet the temptations to which they were exposed. Speaking of youthful ambitions, Mr. Fraser said that the management of the adult department.

The Final Session

There was a considerable gathering last evening at the final session of the convention. Thanks having been returned to all who worked in connection with the meetings, two addresses were given by Rev. C. W. Merritt and Mr. Clarke. Mrs. Dean sang a sacred solo. A collection was made to reduce the deficit caused by expenses of organization.

Local Improvement Association Discuss Supplementary Revenue Act.

(From Thursday's Morning Leader.)

Throughout yesterday morning and afternoon meetings of the executive of the Saskatchewan Local Improvement Association were held in the City Hall. The following members: S. Chivers, Wilson, Regina, president; G. J. H. Gerard, Grenfell, secretary; D. K. Mack, Francis, treasurer; W. H. Chambers, Douglastown; J. B. Morton, Kispiox; D. W. Paul, McDowell; W. E. Cohen, Weyburn; and G. Brad, Milestone.

That section 7 of the Supplementary Revenue Act be amended so as to provide for the collection of the Supplementary Revenue Act independently of the Local Improvement Act.

The Premier has made for the assessment and collection of the Supplementary Revenue by the Government.

That the remuneration given to the assessors for collecting Supplementary Revenue for current year is inadequate and should be increased.

Too Difficult For J.P.'s

C.P.R. Complain That Farmers' Pass on Grade at Sheho.

From Thursday's Morning Leader.

A case is now on in the whole West has arisen at Sheho. A suit against George Miller and John Scott, on being interviewed, agreed to meet the members in the City Hall at 2 o'clock. At that meeting the president, Mr. Scott, stated that the Premier's resolution had been passed by the executive during the morning session, interpreting at the same time the feelings of the executive with regard to the same.

Mr. Scott asked the deputation if it had kept in view the certainty of new municipal legislation. Although it was too early to discuss the report of the municipal commission, he believed that one of his recommendations would be that the collection should be as far as possible vested in one person in every community. One payment of taxes would simplify the matter. It seemed to him that the only radical recommendation made by the executive was the proposal to take the school districts out of the scheme of taxation. Their other recommendations were matters of detail. The main point with regard to the inclusion of school districts in the taxable area, as devised by Mr. Calder, was the fact that a large number of new school districts were constantly formed. It was to be a distinction the taxable area would change every month and there would be great complication.

A delegate thought the difficulty could be got over by revising the taxable area every year on Jan. 1. The deputation expressed the charge to the effect that towns and villages should be included in the operation of the tax. A delegate maintained that the village school districts would pay a smaller tax than the rural schools.

Some of the delegates stated that it would be difficult to collect the tax in their districts and mentioned that some councils had refused to assess. In reply, Mr. Scott said that the charge in the Assembly had been made in due course, he thought that would be a matter for the attorney-general's department to take up. He admitted, however, that the question of remuneration might be fairly raised.

however, that the question of remuneration might be fairly raised. A delegate thought that although the remuneration proposed would not be sufficient during the first year when extra work would be entailed it might be sufficient when they were more familiar with the working of the act.

One of the delegates thought that the benefit from the act would only be temporary and that with the spread of school districts the benefit would disappear. In his school district they would pay \$157.00 towards the tax and only receive a grant of \$120. This delegate, however, failed to mention that his school district would get a second grant according to the number of school days the school had been open. He thought the act a good thing for education, in fact were it not for the discrimination element the act would be a splendid one.

Mr. Scott failed to see how anyone could possibly disagree with the principle of the act. As far as the question of assessment went he thought it very probable that the new municipal legislation would simply wait and that a complete solution of detail would be found.

A farmer thought it a hardship that the farmers should put up their own college and everybody else's. Mr. Scott smiled and said he thought that was hardly a fair way of putting it. In further explanation Mr. Scott said that his colleague, Mr. Calder, estimated that there were about 33,000,000 acres of taxable land in the province. Of this, about one-third was being taxed and about two-thirds were escaping, these two-thirds being in the hands of speculators and not in the hands of the people. Just as if there were three farms, one of which had a school on it and this one farm was being taxed, the other two-thirds were being taxed and about two-thirds were escaping, these two-thirds being in the hands of speculators and not in the hands of the people. Just as if there were three farms, one of which had a school on it and this one farm was being taxed, the other two-thirds were being taxed and about two-thirds were escaping, these two-thirds being in the hands of speculators and not in the hands of the people.

to those who took part in the sessions, to the members of Regina churches for their hospitality and organizing service, to the local committee for their plans, to Mr. W. R. Sutherland for his assistance in the convention, to the press of the city for the excellent reports of the proceedings, to the International Sunday School Association for having furthered the movement in the province, to the Ontario associations for their financial assistance, and to the railway companies.

Young Men and the S.S.

These acknowledgments having been made, Mr. S. Clarke, secretary of the Young Men's Christian Association of Regina, recounted some of his experiences as a worker among youths. He thought the problem of the young man had been about the same as it is since the time of the prodigal son, and he admitted after 20 years' work that he did not know how young men could be attracted and kept up. The retention depended principally upon the character of the teacher and his ability to keep in touch with the young man. Each young man must teach young men; young women could speak to them effectively on things pertaining to their maximum and uplift. No two boys could be reached in the same way. They had to study the boy, to approach him in his own life with no divisions between, to live a life that was clean and honest and upright, or they would never win him.

Rev. C. W. Merritt

Rev. C. W. Merritt delivered the last address in the "Sunday School and Evangelization." He insisted that preparation was a primary duty of all concerned in teaching and that to mention to superintendents who asked their scholars to select their hymns for them, because they were preparing to sing, was to neglect the help in religious work was the Bible. He did not think the lesson leaflet interested children, nor that it was any good. They would have to get the leaflet out of the school and bring the Bible back into it, or they would be disappointed. He wished that the spirit of the old, true maxim, "Prayer and prevention hinder no journey," that a new and winning and soul-building, and that each Sunday school worker would be impressed with his own responsibility in working with the great North West provinces.

DEPUTATION TO PREMIER SCOTT

LOCAL IMPROVEMENT ASSOCIATION DISCUSS SUPPLEMENTARY REVENUE ACT.

(From Thursday's Morning Leader.)

Throughout yesterday morning and afternoon meetings of the executive of the Saskatchewan Local Improvement Association were held in the City Hall. The following members: S. Chivers, Wilson, Regina, president; G. J. H. Gerard, Grenfell, secretary; D. K. Mack, Francis, treasurer; W. H. Chambers, Douglastown; J. B. Morton, Kispiox; D. W. Paul, McDowell; W. E. Registered Clydesdale Stallion "Sandy McTavish"

Also Registered Bull "King Improver" (3090)

Will stand for service at my barn, corner Cameron and 9th avenue, GEMO, MOLLARD, Regina, 13-4-t-w.

"It may be that this is the course you should take, as under section 215 of the Railway Act the right to possession by the railway apparently arises only upon payment or legal tender of compensation for land taken and it may lead to considerable inquiry as to what steps have been taken by the railway and as to what their rights really are before you could say definitely that an offence has been committed. Indeed I think the suggestion of a state case for the supreme court is the best suggestion I can make."

Gombault's Caustic Balsam

Warranted to Drive Out Inflammation.

No Initiators But No Competitors.

A Safe, Speedy and Positive Cure for Croup, Spasms, Whooping Cough, Sore Throat, and all Inflammations of the Throat, Lungs, and Bronchial Tubes. Cures all kinds of Spasms, Convulsions, and Fits. Cures all kinds of Inflammations of the Throat, Lungs, and Bronchial Tubes. Cures all kinds of Spasms, Convulsions, and Fits. Cures all kinds of Inflammations of the Throat, Lungs, and Bronchial Tubes.

CITY AND COUNTRY

From Thursday Morning's Leader.

J. C. Stokes has just received a carload of new fittings which will be used in the new Methodist church.

The Misses Etta Walte and Maud Myers of St. Paul, Minn., are visiting Miss Winifred K. Parker of 1348 North Cornwall street.

The time for receiving tenders for the Battleford land titles office has been extended until Saturday, July 29.

Mrs. S. J. Bradshaw of Moose Jaw is at present visiting at the home of Mr. and Mrs. J. Spicer, previous to leaving for Penticon, B.C., where she expects to make her future home.

The new police tunics were handed out yesterday and members of the force presented a much improved appearance in consequence. The helmets have yet to be added to the uniforms.

The Japanese acrobat while doing his principal act in the Kelvin Vandyke entertainment at the Auditorium Rink last evening had a narrow escape from being seriously injured. The man was lying on his back doing his wonderful feet balancing trick, when one of the long metal pieces which stretch across the top of the stage being a number of lights, came crashing down, only falling to strike the man's head by a couple of inches. The Jap, however, took the incident with the greatest coolness, as though it were all in the day's work and the curtain having been lowered for a few minutes in order to allow of the fallen stage machinery being carried away, resumed his turn with nerves as steady as though nothing whatever had happened.

From Friday Morning's Leader.

The roller rink will be opened for the season, Monday, July 22nd. Ladies will be permitted the use of surface each afternoon free of charge.

A letter containing a cheque for a considerable amount of money was picked up yesterday on Scarth street and is now in the hands of the police to whom the owner should apply.

Professor P. E. Nobb, of the architectural faculty of McGill University, is expected to visit Regina on August 1 for the purpose of making final arrangements in connection with the competition for the design of the new Parliament buildings.

A very enjoyable social evening was held last evening at the Rae St. Methodist League. The president, J. W. Mowbray, delivered an address of welcome to the new pastor, Rev. J. Asken after which a most enjoyable program was given, the following taking part—solos by Mrs. Jaquet and Messrs Fisher and Flowers; song by Mrs. Salmon with violin obligato by Mrs. Bailey; recitation by Miss Stewart and readings by Messrs Dahl and Mowbray. During an intermission refreshments were served and the new pastor gave a short address, the proceedings terminating with the mishap benediction.

(From Saturday's Morning Leader.)

D. P. McCall, deputy commissioner of education, has returned from his trip to Eastern Canada.

The Sons of England band delighted a large number of citizens by their open air concert in Stanley Park last night, and expressions of their fine playing were heard on all sides.

The Dundurn Enterprise, published at Dundurn, is the latest addition to the journalism of the province. No. 1 of volume 1, a neatly printed, newsy sheet, with a liberal advertising patronage, having made its appearance yesterday.

The board of examiners are making good progress with the work of marking the papers of the recent provincial examinations for Standards VI, VII and VIII, and it is expected they will complete their task early next week.

To a Leader representative yesterday Commissioner Lawson stated that the victory of the Winnipeg exhibition of Eva's Gem, owned by R. H. Taber, constituted a record for the Dominion inasmuch as this mare is the first born and bred in Canada to win an important championship. It is furthermore gratifying to note that Eva's Gem was bred by A. G. Mutch, of Lumsden.

At the Firemen's convention, which has just concluded its sittings at Winnipeg, Chief White, of Regina, read a paper on "Are the citizens and towns keeping pace in fire protection in proportion to the cost of the fire hazard?" It is also interesting to note that Chief White was elected vice-president for Saskatchewan on the executive committee. Next year's convention will be held at Moose Jaw.

Weathered trains were delayed several hours yesterday by the derailing of a tender on a C. P. R. ballast train between Regina and Pelly. The train had proceeded some distance when the flange of one of the wheels of the tender broke. It left the track and ran into the ties. It was at first thought that the jarring noise came from contact with gravel on the rails, but the driver soon realized that something had broken, and brought the train to a standstill in about 300 yards. The engine, detached from the tender, steamed into Regina, whence a repair gang hastened to the permanent way, and another locomotive brought the train to the station. The accident occurred at half past twelve o'clock and in spite of the energy of the officials the incoming express, from the east, were delayed considerably. No. 87 arrived in two sections, the first of which was 3 hours and 40 minutes, and the second 4 hours behind time, while No. 1 westbound came in an hour and a half late. By five o'clock the line had been cleared.

(From Monday's Morning Leader.)

A. E. Walters left for Weyburn last night, to attend a meeting of the local court of revision on the town assessment, which is being held there today.

Mr. Noonan, who has recently opened a cab and livery business in the city, is meeting a long felt want by having a cab meet all trains arriving in the city.

The C. P. R. has a gang composed of about 75 Italians working about three miles east of Regina. This work, which consists chiefly of track-laying, is in charge of foreman Charlie Bjorak.

Mr. Willis, foreman of the C. N. R. gang, now lowering the grade near Daley, was in the city yesterday. In conversation with a representative of The Leader, Mr. Willis reported that the work is progressing favorably. The outfit includes about 50 horses.

R. B. Ferguson, manager of the Regina Rink Co., is in receipt of a letter from the secretary of the Maple Leaf Hockey Club of Winnipeg, asking for a date for a game with the Regina team. The Maple Leaf's are a strong aggregation and if a game can be arranged with the Regina's, citizens will enjoy a treat.

Three small cases came before Magistrate McCausland, at the Police Court, on Saturday morning. The first, a father pleaded guilty to having been drunk, and was fined \$2 for his excess. Straying cattle involved \$2.50 costs. George Broder, for a similar offence, paid \$3.90 re-arranged the matter a long time with the complainant, a German, but declined to state on oath that the wandering animal was not his.

Work proceeds apace on the spur track, which the C. P. R. is laying in the Exhibition grounds. A large gang of men are busy unloading sand and ballast, and it is expected that the line will be completed well ahead of time. Up to the yard limit sign the yard will run parallel to the C. P. R.'s main line, and from there the switch runs out to the fence of the Exhibition grounds.

The Thomas Soap Co., Ltd., are fast completing their large factory in the Eastern annex and will be ready to place their soaps and washing powder on the market about the latter part of August. During the past week they have received large shipments of first class tallow and perfumes, the latter from New York. They are at present awaiting the arrival of a car of vegetable oils from New York, which will be used in the manufacture of their toilet soaps.

Dr. Reazin, who is the officer of the C. N. R. construction gang, working between Regina and Brandon, was in the city yesterday. The doctor reports that the gang working south of Qu'Appelle is making rapid progress and that a considerable amount of track has already been laid. A steel gang is following on the heels of the grading gang and metal is being put down as quickly as the grading is finished. Although Regina is still some 20 miles away it is confidently expected to reach the Queen City by the fall.

On Tuesday Morning's Leader.

Kenneth Perry has arrived from the east and will spend his holidays with his parents here, Commissioner and Mrs. Perry.

Some fine samples of wheat, barley and timothy, well headed out, have been received by The Leader, grown on the farm of Mayor F. C. Whitelock, of Davidson. Mr. Whitelock has 400 acres of wheat, all of which is heading out splendidly and stands about three feet in height.

During the fair the C. P. R. will run a train at twenty minute intervals to the grounds. This year there will not be the same delays as occurred in the service twelve months ago, as the train will start on the special as the train spur line now being built, and not on the main line as before.

The successful tender for the new land titles office in Yorkton, was the one submitted by the Saskatchewan Construction Company, Regina. The building, which will cost \$28,000, according to the terms of contract, is to be completed by December 31st, next. A fire-proof, one-storey building is called for by the specifications.

Last night was opening night at the Auditorium roller skating rink and a large crowd was present to enjoy the pastime and the fun. The skating was in the neighborhood of 200, every pair of skates in the rink being rented for the occasion. The floor was in excellent condition and the large crowd enjoyed itself immensely. There were, of course, the usual number of comical happenings which are a feature when novices attempt to master the intricacies of roller skating. Roller skating promises to be very popular in Regina and the Auditorium will from now on be the rendezvous of pleasure seekers during the summer months.

The run-away nuisance caused two editions yesterday to the casualty list at Victoria Hospital. A skilled laborer was admitted suffering from internal injuries, and is now recovering. A farmer, had his right arm and his left leg broken. The bones were skilfully set, and on inquiry last evening, The Leader was informed that the patient was doing well. During the afternoon a horse attached to a buggy dashed wildly along Scarth street and came into collision with another horse near the post office. One of the hind wheels of the buggy was broken but the horse escaped unharmed.

A semi-civil case, involving the terms of notice between a farmer and a skilled laborer was argued before Magistrate McCausland yesterday morning. Francis Vent, of Regina, appeared to support claim for wages in respect of work done for Vincent Smith, a farmer living near Condie; but the amount required not having been stated in the summons, Mr. Wood, of Wood and McCausland, submitted that the magistrate had no power to assess the wages, as the defendant had not received notice of what was the sum claimed. In evidence, the complainant stated that he was engaged on Wednesday, July 10, to drive a traction engine for \$6 a day, on condition that he ploughed 15 acres in that time. He worked four days and left owing to a disagreement with the manager. The defendant afterwards offered him \$10, which he would not accept. He wanted \$24. The defendant said that Vent left without having given notice, and an engineer's job was more difficult to fill than that of an ordinary farm laborer. The defendant stated that he could be discharged at any time or could leave the defendant's employ without notice. Mr. Wood suggested that the complainant should prosecute a claim for a definite amount in the supreme court. Ultimately the matter was settled by Vent's acceptance of \$10 in satisfaction of the claim.

SEWING MACHINES

LIKE EVERYTHING YOU BUY COST LEAST WHEN YOU PAY CASH

If you paid 1-4 or 1-3 more for Dress Materials, Trimmings, Thread and Buttons because you bought on a "club" or "easy payment" plan you wouldn't count it a very thrifty purchase.

The same argument applies to buying a sewing machine. Prove it to your satisfaction. We handle only reliable sewing machines, no matter how low priced. There is no soft metal used where good steel should be used, and there are no makeshifts hidden under a coat of enamel.

THE "CAPITAL" SEWING MACHINE

is a dependable, strong, light and silent running machine. Easy to operate, easy to own.

\$18.00 GUARANTEED 10 YEARS

WHAT A DEPOSITOR'S ACCOUNT IS

It is a sum of money deposited here to be used in paying for purchases. In this strictly cash store such an account affords all the conveniences of an ordinary "charge" account in a credit store, all the economies of our strictly cash system and in addition 4 per cent on daily balances.

It is the right sort of an account to "run" if you do not want to "run into debt."

You merely deposit a sum of money with this store, a sum great or small as you elect, then have charged to this deposit any purchase you make. We render monthly statements.

While a deposit cannot be checked against for expenditures made outside of this store—as we do no banking business—any or all of it may be withdrawn at any time.

LINOLEUMS OF STERLING WORTH

In buying Linoleums and Floor Oils, one looks first for quality, wearing and lasting quality. Our linoleum section not only meets this demand, but meets it at a much lower figure than most stores.

- Printed Linoleums
Printed Linoleums, in eight, twelve and sixteen quarter, a large range of patterns in squares, florals and conventional designs. Square yard .....50c

Inlaid Linoleums
The largest array in town of Inlaid Linoleums. Every yard we are offering for sale is new imported from Scotland, the home of good Linoleums.
