CONDITIONS OF SALE.
 No limit will be adjudged at less than the minimum price fixed by the department.
 The limits will be adjudged to the highest bidder on payment of the purchase price, in cash or by cheque accepted by a duly incorporated bank. Failing payment, they will be immediately re-offered for sale.
 The annual ground rent of three dollars per mile, with fire tax, is also payable immediately.
 Those timber limits, when adjudged, will be subject to the provisions of all timber regulations now in force or which may be enacted hereafter.
 Plans of limits offered for sale are open for inspection in the Department of Lands, Mines and Fisheries in this city, and at the office of the Crown lands and timber agents in the different agencies in which said limits are situated, up to the day of sale.
 N. B.—No account for publication of this notice will be recognized, if such publication has not been expressly authorized by the department.
 S. N. PARENT,
 Minister of Lands, Mines and Fisheries.

Patent For Sale.

BAND SAW CLAPBOARD MACHINE, THE
 only one in the world. Carriage has automatic setting device, only 8" stroke, with turn table. Block stands vertical and cuts all clapboards radially. Will take blocks any diameter 12" to 32" x 48" long. All clapboards cut desired thickness regardless diameter block. Will cut 8 times faster than any circular machine. 25 per cent. saved in saw kerf. A sound block 48" long x 32" diameter will cut out \$70 worth of clapboards. Large demand in New England States. Prices \$45 per M pieces. Will sell entire right for Dominion. Drawings and specifications on application. A. J. BURTON, Parry Sound, Ont.

Gellibrand, Heywood & Company, timber merchants, have found it necessary to remove their offices from Cardiff to London. They are now established at 57 Gracechurch street, London, E. C., their cable address being "Gellicht, London."

CURRENT TRADE CONDITIONS.

ONTARIO.

Opinion concerning the lumber outlook is more divided than it has been for some time. The prolonged strikes have greatly restricted building operations and unsettled business in general to some extent. Local dealers are not altogether satisfied with the volume of trade, claiming that orders have fallen off for both local consumption and for export to the Eastern States. An evidence that the market is well in hand, however, is found in the fact that prices have not weakened. This can no doubt be attributed to the large proportion of the season's cut that was contracted for early in the season. Mill men are in the fortunate position of being protected in large measure from declining prices by means of early contracts. Hardwood lumber is equally as firm as pine, and by many it is reported that the buying of it is of a better character. Hemlock remains steady. There is a heavy demand for inch stock, which is selling in some cases fully one dollar higher than 2-inch. Most of the mills are asking about \$12 for 10 and 12 inch boards up to 16 feet in length.

Shingles and lath are practically unchanged in price. The demand for hemlock lath is growing. Mill prices are \$2.50 for No. 1 and \$2 for No. 2.

QUEBEC AND NEW BRUNSWICK.

Prospects in lumber circles in the eastern provinces are rather discouraging. The recent drought has been the cause of several forest fires which have destroyed both timber and mills, while the water in the rivets is so low that many logs are likely to be hung up. For this reason the supply of lumber will be greatly reduced and probably inadequate to meet the demand. Scarcity of logs has already resulted in the closing down, temporarily, of several large mills at St. John. Higher prices for timber, therefore, may be anticipated. Many manufacturers have placed their entire cut under contract, and are now compelled to refuse orders. Inquiries for both lumber and shingles are increasing in number. No change is reported in the price of New Brunswick cedar shingles, although the manufacturers who practically control the market are said to be in favor of making an advance.

MANITOBA AND BRITISH COLUMBIA.

Building activity in Winnipeg shows no abatement, and throughout the entire North-West there is a good demand for lumber. Importations from the United States are increasing. This is having a slight effect upon prices, especially of shingles. The British Columbia Shingle Manufacturers' Association have decided to curtail the output by closing down the night shift at all the mills, and it is said that some of the mills will voluntarily close down entirely until the present supply is reduced. Orders for British Columbia lumber continue in fair volume and large shipments are being made to the east.

UNITED STATES.

Floods throughout the South-Western States have resulted in much damage to property and blighted lumber prospects. In the east the labor situation has not im-

proved materially, although rumors have been current for some time that an early settlement of the New York building trades strike would be brought about. The lumber market is quiet, principally due to the conditions named above. One or two grades are said to be slightly weaker in price, but firmness characterizes the general market. There has been heavy buying of box lumber. In the Lake Superior district No. 4 and 5 boards are selling readily at \$11.25 and \$6 to \$6.25 per thousand, with the demand in excess of the supply. Norway lumber is in the same position. It is claimed that the supply will not be sufficient to meet the requirements. Hemlock continues to show unusual strength. At Buffalo it is selling at \$16 to \$18, and in New Jersey State the price has been advanced to \$17 to correspond with the New York quotation.

The hardwood trade continues in excellent condition and seems to have been little affected by labor troubles. Prices are very strong, and stocks are not accumulating to any extent. It is believed that there will be a very small supply with which to meet the fall and winter demand.

Shingle prices have been unsettled by the continued weakness of red cedars. These are selling thirty cents lower than at the corresponding time last year. It is unreasonable to expect that other grades will more than hold their own so long as red cedar prices continue demoralized.

GREAT BRITAIN.

An improved tone is manifest in the British timber market. The consumption is about equal to that of last year, and if the import should be light, as is now predicted, a further improvement would seem to be in order. The strike in the ship-building trade at Belfast has been averted for the present. Importers are adding to their stocks whenever they can obtain even a slight concession in price, and a few are even acceding to the demands of shippers. The latter are not likely, in view of the lessened production, to reduce their asking prices. The first cargoes of Canadian pine deals have arrived at Liverpool and London, largely on contract. There has been no change in the position of spruce deals. The report from Belfast that prices are somewhat lower is not confirmed by information from other points. Elm timber is showing strength. A quantity from Quebec, 28 to 39 feet in length and from 12 to 21 inches in diameter, recently brought £5 15s per load of 50 cubic feet. Ash timber, on the other hand, is very dull and almost a drug on the market, the price obtained at recent public sales being 65s per load.

STOCKS AND PRICES.

The tug "Pilot" has been chartered to tow to Vancouver, B. C., 10,000,000 feet of logs, the property of W. H. Higgins.
 No. 1 white pine lath is quoted at \$3.50 for delivery at Chicago by water, No. 1 mixed at \$3 to \$3.50, and No. 2 at \$2.75.
 The Grand Valley Seignory, comprising 54 miles of timber limits, situated in the Lake St. John district of Quebec, is reported to have been purchased by a syndicate for \$100,000.

The steamer Pandosia is loading deals at Miramichi, N. B., for the United Kingdom. The steamer Pydna is loading at Hopewell Cape, N. B., for Dublin. The steamer Holmlea sailed from Montreal last week for Hull, England, with a cargo of deals.

Two timber berths were sold at the Crown Lands office, Fredericton, N. B., last week as follows: Three square miles on Emognops River, to Thomas W. Flett, at \$151 per mile; two square miles on Bartholemew's river, to W. T. Whitehead, at \$30 per mile.

Tenders are invited by the Department of Interior at Ottawa up to July 8th for a license to cut timber on Berth No. 1071, comprising 20 square miles, in the district of Saskatchewan, also for Berth No. 1072, comprising fifteen square miles, in the same district.

Dickie & McGrath, of Tusket, N. S., are now loading with lumber the barque Leviathan, 1,005 tons. The barque Dristig is due to load for Lannelly, Wales; the barque Patriarch, 1,221 tons, for Buenos Ayres; the Ciampa Emilia, for Bristol Channel, while several others are due to load later.

Under date of May 23rd Messrs. S. P. Musson, Son & Company say of the Barbadoes lumber market: "There have been no arrivals since the spruce by 'Ich Dien' reported in our last. This vessel had about 40,000 feet of second quality spruce, which we sold at \$16.66. There is a fair supply and no inquiry. In white pine a cargo with full proportions of second quality would, we think, meet fair prices. There have been received a small lot of Spruce Laying shingles, which were placed at \$2.21."

THE BOSTON MARKET.

The situation in spruce lumber is still further complicated by the forest fires that are raging throughout the lumber regions of Maine and New Hampshire. Advices from Maine say that many mills are shut down. Some have been burned, while others have been obliged to send their men into the woods to fight fires. This, taken in connection with the delay to the drives on account of low water, tends to keep down the supply of lumber and in large measure counteracts the dull demand resulting from the strikes. Prices at Boston, there-

fore, hold steady: Ten and 12-inch dimensions, \$21; nine inch and under, \$19; 10 and 12-inch random lengths, 10 feet and up, \$20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 2x4, 10 feet and up, \$17 to \$17.50; all other randoms, 9-inch and under, 10 feet and up, \$18 to \$18.50; 4-inch and up, merchantable boards, \$17; matched boards, \$18.50 to \$20; out spruce boards, \$13 to \$14; bundle furring, \$17.

Hemlock lumber is quiet but steady at: Boards, 12, 14 and 16 feet stock, \$15 for good eastern; Pennsylvania, No. 1, \$18.50 to \$19.50; No. 2, \$15 to \$16.50.

Western pine lumber is still held firm, though the demand is only fair and the supply is ample to supply the trade: Up-

pers, 1 to 2 in. \$84 to \$87; 2 1/2 to 3 in. \$92 to \$97; 4-in. \$96 to \$100; select, 1-in. \$76; 1 1/2 to 1 3/4 in. \$76 to \$78; 2-in. \$78; 2 1/2 to 3 in. \$83; 4-in. \$86; fine common, 1-in. \$67; 1 1/2 to 1 3/4 in. \$69; 2-in. \$72; 2 1/2 to 3 in. \$80; 4-in. \$82; barn boards, \$23 to \$33; coffin boards, \$28 to \$32.

Hardwood lumber is in active demand, the new buildings now being finished requiring considerable finish. Whitewood is firm and tending up, and other grades are very firm: Quartered oak, \$75 to \$83; plain oak, \$45 to \$47; common and rejects, \$20 to \$25; red oak, plain, \$43; whitewood, \$54 to \$60; sap, \$43 to \$48; common, \$38 to \$45; brown ash, \$41 to \$44; white ash, \$43

to \$46; maple, \$33 to \$37; end dried white maple, \$46; birch, \$27 to \$30; birch, 75 per cent. red, \$45 to \$50; elm, \$29 to \$31.

Clapboards are steady and unchanged; Extra, \$45; clear, \$43; second clear, \$40; extra No. 1, \$30.

Shingles are steady with a good demand: Extra cedar, \$3.50 to 3.55; clear, \$3.00 to \$3.10; second clear, \$2.40 to \$2.50; extra No. 1, \$1.75 to \$1.80; British Columbia red cedar, 16-in., five butts to 2 inches. \$3.50 to \$3.60; 18-inch, five butts to 2 inches, \$3.75; five butts to 2 1/2 inches, \$3.90.

Laths are firm and unchanged: 1 1/2 in., \$3.25 to \$3.45; 1 3/4 inch, \$3.10 to \$3.25.
