

BANK INSPECTION GOVERNMENT OBLIGATION

Joseph Henderson, The Speaking From Banker's Viewpoint, Intimates That Finance Minister Has Not Gone Far Enough for Protection of Depositors.

OTTAWA, April 4.—(Special.)—The banking and commerce committee heard two witnesses today and then adjourned till Tuesday next. They were Geoffrey Clarkson, curator of the Farmers' Bank, and Vice-President Joseph Henderson of the Bank of Toronto.

Mr. Henderson has a silvery voice, with a pronounced English accent, and more than half an hour's somewhat long and desultory examination to which he was subjected. He spoke frankly from the banker's standpoint, utterly pooling many of the proposed restrictions upon the banks, but at the same time he showed evidence of progressive and somewhat liberal views.

Mr. Nickle of Kingston asked with some asperity if government inspectors were to enter banks like bloodhounds, but Mr. Henderson, nowise disconcerted, said they should certainly bring their intelligence with them and insist upon a full disclosure of the condition of the bank.

Other views expressed by Mr. Henderson appeared somewhat reactionary. He more than intimated that the banking business was the same as any other business and that it was none of the public's concern how it was conducted. Thus he opposed any restriction upon the amount of money to be loaned to a director or to any other individual or single concern.

He believed that the inspector or auditor to be named or approved by the government should have power to pass upon investments and to order accounts to be closed or curtailed, but he did not believe in an appeal to the finance minister where the general manager of the bank and the auditor disagreed. In his opinion the minister's judgment would not be as good as the manager's.

Mr. Henderson believed in placing any statutory limit upon the interest rate to be charged by the banks. No law of this kind was enforced anywhere except in the United States. The German banks, he said, charged 5 per cent.

Mr. Henderson frankly stated that he knew from the state that W. E. Travers was an unfit person to be general manager of the Farmers' Bank, but he did not feel called upon to say this to anyone.

The shareholders of a bank certainly should be allowed to select their own officers.

Hon. Mr. White sarcastically observed it was scarcely to be expected that any bank would be organized for the purpose of making some particular person general manager.

"On the contrary," Mr. Henderson replied, "I know of four banks which were organized by some man who wished to make money out of nothing unless they got it out of the Keeley Mine. He had collected so far \$22,000 on the 'double liability,' and hoped to collect in all \$100,000. The legal expenses of the liquidation would amount to \$75,000."

ST. CATHARINES, April 4.—(Special.)—Because the parents both gave evidence that their boys had their permission to enter the place, Timmons & McIlwain, proprietors, were relieved from a charge of allowing boys under 18 years to frequent their pool room. The magistrate advised that in future written permission be secured from parents before proprietors should allow boys of a questionable age to visit such places.

THEIR SINGING WAS GIVEN TEST

Candidates For Grand Opera Were Heard by Miss Abott.

WERE PUT THRU ORDEAL

But All Showed Ability, Especially a Cobourg Girl.

Toronto's pride in itself as a musical centre was justified to a considerable extent yesterday afternoon when in response to the announcement of a "try out" of voices at the Princess Theatre thirteen young ladies and two gentlemen presented themselves for trial.

To anyone present there was not the slightest doubt but that the ordeal was a trial in more ways than one. Those who only know the theatre in the bare and brilliancy of the footlights and gorgeous stage setting will have some difficulty in picturing the process of the "try out."

The candidates gathered at the back of the stage and came forward, music in hand, when their names were announced. Very varied were the selections chosen. The old Scotch favorite, "Jessie's Dream," and Toselli's "Good-Bye" was a favorite. Some choice grand opera, others little tripping songs, all, without exception, of some quality of voice or temperament which, without concert, gave them reasonable ground for presenting themselves, and not a few showed considerable musical training.

Nearly All Good. Patiently and sympathetically Miss Abott sat for an hour and a half listening to the various singers. In conversation afterwards with The World she said the voices were nearly all good. This did not mean that all were ready for professional service or apprenticeship, but that every one had some quality worth sufficient to encourage the possessor in his cultivation. On this matter of cultivation Miss Abott was not so optimistic.

It is surprising, she said, "how poor the training usually is. I find it all over Europe the same—good voices but poor training."

Those privileged to sing for Miss Abott were: Lillian Brown, Helen Briggs, Helen Butterworth, Apple Cassidy, Angela Edwards, Nellie Ferguson, Marjorie Gray, Marie Ladell, Martha Reid, Lulu Salsbury, Miss De Foe, Nora N. Starr, Lewis Falther and Ernest Wilson.

Miss Salsbury, who was not from Toronto but Cobourg, was the first to try. The impression she made was most favorable, her voice having much to encourage her in her profession. Her critics allowed to be present pronounced it "extremely good."

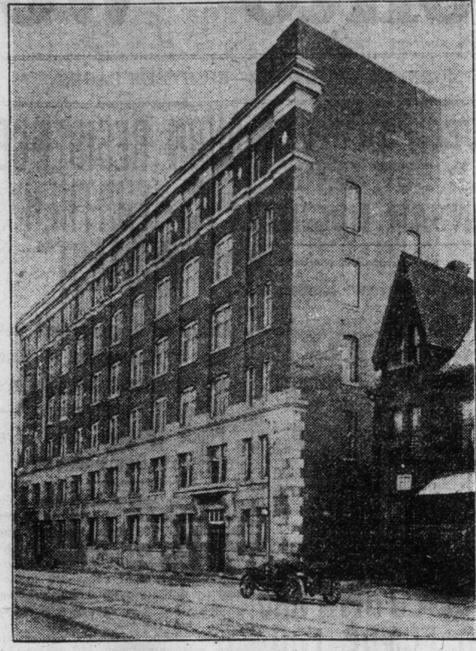

Miss Gray showed a small share of dramatic temperament and command of voice of fine range. Her musical all-round equipment was perhaps the best of the day. Time and hard work may some day bring this young lady to the forefront amongst our singers. Miss De Foe sang in good voice and with marked clearness of enunciation. Fair finish, volume and sympathy were the qualities of Miss Reid's voice. Miss Falther sang in good range, the artistic temperament and some cultivation. An operatic soprano displaying exceptional technique in amateur ranks is Miss Besicic, a Serbian, and a young lady who came in at the last moment and whose name was not caught by her critics sang in a pretty clear soprano most pleasing and promising.

A Good Tenor. Something rarely met with is the high musical tenor, but Ernest Wilson has this beautiful voice with many of his most attractive qualities, and that his musical future is a foregone conclusion. Lewis Falther made his test in a selection from Il Trovatore, showing good range, technique better than fair, and temperament corresponding to the operatic music.

After the voices had been tried Miss Abott went to the stage and spoke to her singers individually. Knowing from her own experience the nervous strain to which they had just been subjected, her sympathy went out to all. In bidding them good-by she thanked them in kindly, encouraging words. Mr. Donnelly of the Princess also expressed his appreciation to the singers. Whether any will be invited to join the De Koven Opera Company is not yet announced.

WORK COUNTY. The county sessions of the peace have received summonses to meet at the Toronto City Hall on Monday at 2 o'clock. The usual business of the adjourned sessions will be transacted, such as revising the list of constables, etc.

Eastern Canada Building Has Big Increase for Quarter

March Returns Show Very Large Advances in Nearly Every Eastern City—Western Reports Not Received Yet—Toronto Has Very Wide Lead Over Montreal.

Reports from twenty Canadian towns, published in The Financial Post, indicate increased building activity. Toronto shows the greatest actual increase. Western Ontario figures indicate a remarkably brisk March. For the quarter only 25 per cent. of the reports to hand show a decrease. St. John leads the list of percentage increases for the three months.

Angus Gordon May Manage New Hotel

Former Well-Known Toronto Hotelman May Return—Would Not Discuss Rumors—Construction Will Start Soon.

Rumors were current yesterday giving the name of Angus Gordon, of the Hotel Victoria, New York, and formerly assistant manager of the King Edward Hotel here, with the new hotel project, which according to reports, is to have its habitation at the corner of King and Bay streets. It was stated that he would take the place of E. G. McConky, whose connection with the project was said to be definitely severed.

Mr. Gordon's wide acquaintance with the Canadian travelling public, which has been strengthened during his stay at the Hotel Victoria in New York, has caused every visitor which he has made to this city to give rise to rumors similar to those in circulation now. Mr. Gordon stated last night that he had no present idea of dissociating himself with the Hotel Victoria, which under the continued direction of George Sweeney, would remain an active factor in New York hotel life. The changes in the vicinity of Fifth avenue, Broadway, and Twenty-ninth street, the location of the Hotel Victoria, which it was recently stated would result in the disappearance of the famous old hotel, will be postponed, according to Mr. Gordon, for at least a year or so, and in the meantime there will be no change in the policy or management of the hotel.

Mr. Gordon, who is accompanied on his visit with Mrs. Gordon, will remain several days. From another source, however, it was stated last night that the hotel proposition would be financed by the Dominion Bond Company and that construction work would be commenced very soon.

SECRETARY NOT DISCLOSED. FRIEDRICHSHAFEN, April 4.—(Can. Press)—The French military authorities at Lunenburg refrained during the presence there of the Zeppelin IV, from pressing their advantage and respected through the German secrets, according to reports received here. Only a police commissary went on board the airship.

Toronto Lodge, No. 71, I. O. O. F. Members of above lodge kindly sent the funeral of our late brother, H. B. Hodge, from his late residence, 229 Bond Street, at 3:30 p.m. Saturday, April 5. Ambrose Finlay, W. D. Flight, Rec-Sec.

STILL THEY COME TO BETTER LAND

Immigration Records This Week Were Best in Many Months.

This week has been the biggest in immigration that Toronto has had since last September. Over two thousand immigrants arrived at Toronto so far this week, and several trains are expected tonight. Three heavily loaded trucks came thru the city yesterday, having over six hundred passengers, nearly all for the west. Most of the immigrants arriving are from the old country and are going to farms in either the west or Ontario, with a few being dropped at the cities.

Next week promises to be heavier, as three boat loads have reached Halifax from Great Britain, and the passengers will be in Toronto Sunday and Monday. In all about fifteen hundred immigrants will arrive here by Monday night.

PORT ARTHUR RAISES \$2,500,000.

PORT ARTHUR, Ont., April 4.—(Can. Press)—Port Arthur accepted the offer for two and a half million dollars of debentures from London to-day at 99 for the portion bearing five per cent. interest, and ninety for the four and a half per cent.

RICHMOND HILL.

H. Mills is busy laying the foundation of another greenhouse, 50 x 100 feet. The building will be used for growing roses exclusively. Mr. Mills was formerly manager of the Bedford Park Greenhouse Co. He expects to duplicate the building next year.

On Monday evening the Epworth League will meet under the auspices of the Christian Endeavor department. A. J. Hume will address the gathering on the theme "The Whole Armor." A short musical program will also be rendered. Edward Brinell of Toronto has purchased Isaac Kinick's farm, Lot 51, Con. 2, Markham. The farm is well watered by one of the best streams in the county.

MRS. ELDER IS ALSO A BUYER.

She has purchased Mrs. Zeller's property on Richmond street.

NORTH TORONTO.

The regular meeting of the North Toronto Conservative Association on Monday night promises to be of more than usual interest. A. C. Pratt, M.L.A., and R. Gamble, M.L.A., will be present to deliver addresses, and an otherwise interesting program has been prepared.

There will be no meeting of the North Toronto Ratepayers' Association tonight, as Ald. Wolfelt has another engagement and cannot be present.

TODMORDEN.

There will be over a hundred Hydro-Electric street lamps aglow in the district come summer time. Most of the poles have been erected, and a number of citizens are enjoying the advantage of domestic electricity.

A new Ratepayers' Association will be inaugurated on Monday night at an organization meeting in St. Andrew's Hall. Officers will be elected and a course of action mapped out.

POSTPONED SALE OF GEORGE S. STEWART.

Attention is called to the sale of the farm, consisting of 200 acres. Terms and conditions to be made known at the time. 612

DROVE 80 MILES AND FELL DEAD

Samuel Crawford Expired Suddenly While Attending Funeral at Exeter.

ST. MARY'S, April 4.—(Special.)—Samuel Crawford of Brussels, a brother of James Crawford, Water street, St. Mary's, dropped dead while attending the funeral of Mrs. Thomas Kay of Exeter. Mr. Crawford was 59 years of age and had driven 80 miles to Exeter, overtaking his constitution. A report reached Toronto this week that Jack McLennan, formerly accountant of the Moisons Bank here, is missing in Vancouver, B.C. Paul play is suspected.

John McVittie of Sudbury, an old Downie boy, who has made his home in New Ontario mines, is holidaying in town and vicinity of the city. Arthur Hartman, the Hungarian violinist, will appear at the Opera House on April 15.

W. J. Stephens, an old St. Mary's boy and formerly a teacher in the Stratford Collegiate Institute, has recently completed a course in agriculture at the Manitoba Agricultural College which gives him the degree of B. S. A. Mr. Stephens has been appointed organizer of agriculture in the collegiate institutes of Ontario.

The family of the late Samuel Myers, brother of Clove Myers of St. Mary's, were among the sufferers of the great flood in Ohio last week.

Mrs. Sarah Burns, a very highly esteemed lady of St. Mary's, and James Morphy of Stratford, were married on Monday morning. They will take a trip to Europe.

On Tuesday evening the members of St. Mary's Lodge, No. 35, I.O.O.F., presented a twenty-five years veteran jewel to Bro. Sam Bartlett, one of the most active and esteemed members of the lodge.

DID NEGLIGENCE CAUSE HIS DEATH?

John Falvey Died in Police Station After Being Drunk.

WAS AT ST. MICHAEL'S Wound in Head Was Dressed and He Was Sent Away.

Another case of negligence on the part of either the police, or the doctors at St. Michael's Hospital is being aired at the inquest into the death of John Falvey. He was arrested Thursday afternoon as a drunk, taken to St. Michael's Hospital, where a cut in his head was dressed, and he was charged to a police station, where he died a few hours afterwards.

Evidence of the various officers in charge of No. 1 police station, where the man was taken, showed the following: Falvey was arrested with another man about 4:30 Thursday afternoon on York street and was charged with drunkenness. At the police station it was noticed that he had an abrasion on the back of his head, although he said he did not care to go. He was removed to St. Michael's Hospital about 5:30. The doctors were told that the man could go home when they dressed the wound. However, the police station was phoned that Falvey was not in a condition to go home and he was taken back about 6:30. Shortly after midnight the policeman on duty noticed a change in the man's condition, so he called Sergeant Duncan to have a look at him. The sergeant turned him over to his back and the man died a few moments afterwards. In the meantime medical assistance was called, but Falvey was dead.

The inquest was adjourned till the 8th, and members of the medical staff of St. Michael's Hospital, who had anything to do with the case, will be called to give evidence.

GRANDMOTHER USED SAGE TEA TO DARKEN HER FADED OR GRAY HAIR

Mixed With Sulphur It Makes Hair Soft, Beautiful—Cures Dandruff.

The use of Sage and Sulphur for restoring faded gray hair to its natural color dates back to grandmother's time. She kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance this simple mixture was applied with wonderful effect. But the brewing at home is messy and out-of-date. Nowadays skilled chemists do this better than ourselves by making at any drug store for the ready-to-use product called "Wyeth's Sage and Sulphur Hair Remedy."

SUFFRAGETTE GETS 4 MONTHS.

LONDON, April 4.—(Can. BULK SALES ACT IS NOW OPPOSED

Retail Merchants Say it Was Drafted for Wholesale.

The Bulk Sales Act of W. D. McPherson (West Toronto) that endorsed by the Canadian Manufacturers' Association, the Associated Boards of Trade and the Canadian Creditors' Association, is not pleasing to all the business men of Ontario.

by the legal committee of the legislature, and after much discussion it was allowed to stand over. Mr. McPherson, who introduced the bill, is still confined to the hospital and could not appear to support it.

The bill is designed to protect wholesalers and manufacturers against fraudulent creditors. The retail merchants think the bill reflects upon their honesty, and E. M. Trower of the Retail Merchants' Association, who voiced their objections, protested that the bill was thought out along wholesale lines and was unfair to the retailer.

J. H. Dargavel (Leeds) urged the committee to hold over the bill, as he claimed that the retail merchants in the country were unanimously opposed to it. He thought the wholesalers should exercise greater care in extending credits and was opposed to them in their request for such a drastic law.

LEASIDE OUGHT TO BE ANNEXED

Board of Control Again Recommends That It Be Taken In.

SEWERS & PAVEMENTS

No More Unreasonable Delay Will Be Experienced in Toronto.

Annexation of Leaside has been again recommended by the board of control. Mayor Hocken and Controllers McCarthy and O'Neill voted for it and Controller Foster against it. Controller Church refused to vote. He said he would discuss the matter in council.

All the unpaved roads that now have sewers will be paved this year and all the unpaved roads that will be sewered this year will be paved next year. Controller McCarthy stated that at the end of 1914 all the roads in the city will be sewered and paved.

The controller explained that the works department has now perfected its sewerage policy, and there need be no more unreasonable delay in sewerage and paving all the streets. He stated that the sewerage and paving of North Toronto and Moore Park could, of course, not go forward as expeditiously as Leaside, Wychwood and other recently annexed territory, but that hereafter all newly annexed territory would not have to wait very long for good roadways as a defined policy of sewerage was now established.

This report of Controller McCarthy was sent on to council.

To Guarantee Bonds.

Toronto Harbor Commission asked that the city guarantee the interest of a \$5,000,000 bond issue. The request set forth that the assets of the commission amount to \$5,000,000, the government grant will be \$6,000,000, and that the assets will always be three times more than the bonded indebtedness. The board decided to recommend the guarantee asked, the commission to agree to withhold a big floatation of bonds at any time that would conflict with the city's flotations.

Ald. Anderson and Wickert and Commissioner Forman were delegated to attend the congress on town planning next month in Chicago.

For the American Federation of Musicians concert which \$500 was granted and for the retail grocers' convention a luncheon.

It was decided to recommend that a two-thirds vote be required for the closure in committee of the whole in council.

Controller McCarthy intends to move in the board of control that the city architect's department be reorganized, and that the city architect be given three months' leave of absence to recover his health.

More Car Lines. Toronto branch of the Canadian Manufacturers' Association has written the city council that a very serious handicap is placed on labor by inadequate rapid transit service, and urging the extension of civic car lines.

Estimates of the fire and light committee are \$1,038,420, an increase over 1912 of \$172,718.69. Two-thirds goes to the fire department and a third to the lighting department.

Chief Thompson asks for two tractors for drawing fire engines, two new combination chemical trucks and engines and more fire trucks.

The lighting department asks for ten thousand more street lights. There are 12,000 street lights that are yet not owned by the harbor commission. The board of control has agreed to support the commission in securing from the federal government the 1200 feet, which is situated in front of Exhibition Park.

To the Heart of New York Via Grand Trunk and Lehigh Valley Railroad.

Amazing is the growth of America's greatest city, and while Canadians are going there in increasing numbers every year, there should be double the number who would find rest, recreation, ideas, inspiration and enjoyment in an occasional week's trip, and come back better able to transact business.

Passengers via the scenic Lehigh Valley route are thus afforded convenient and prompt means of reaching New York City by the Hudson River tube trains, leaving Jersey City terminal (directly underneath train floor) every three minutes. Fast express leaving Toronto via Grand Trunk Railway at 6:05 p.m. daily, carries electric-lighted Pullman sleeping car Toronto to New York and Buffalo to Philadelphia.

Cornwall-St. Polycarpe Railway is Endorsed

Board of Trade at Cornwall Will Support Request for Government Subsidy.

CORNWALL, April 4.—(Special).—At the meeting of the Cornwall board of trade the question of the railway from Cornwall to St. Polycarpe was under discussion, and it was decided to do all that was possible to assist C. L. Hervey, the promoter of the scheme, to secure a subsidy from the Dominion Government. A committee, consisting of President Hodge, W. Gibbons, V. Boyd, N. J. Fraid and J. J. Fallon, was appointed to act in conjunction with the town council of Cornwall to strengthen the hands of Mr. Hervey and Dr. Aiguire, M.P., who are in touch with the government in regard to the subsidy, and to send a deputation to Ottawa to interview the minister of railways and canals.

The new road would give railway communication to a section not well served at present. The distance is about thirty-six miles, and the amount to be involved is not large, if the subsidy is secured. The line will be built without delay if encouragement is given.

Separation of Garbage, Ashes, Etc., Requested By Commissioner of Works.

The attention of all householders is directed to a public notice in another section of this paper, regarding the placing of garbage, ashes, etc., in separate containers.

The departments would be greatly aided in connection with this service, and a considerable saving of public funds would be effected by strict compliance with this notice.

Militants Resort to Explosives Railway Companies Alarmed

Attempt to Blow Up Station in Surrey Proved Failure, But Gunpowder and Petrol Showed Seriousness of Purpose—Two Girls Arrested Had Supply of Explosives.

LONDON, April 4.—(Can. Press).—Some empty trains were greatly damaged by explosives near Stockport, Cheshire, in the course of the night and suffragettes are suspected of having committed the outrage. A canister of explosives had been placed under a seat in one of the cars with a quantity of fire lighters saturated with resin and oil. The force of the explosion splintered the sides of several cars, a number of doors being hurled long distances.

Tried to Blow Up Station. There was also an attempt during the night to blow up Oxted Station in Surrey on the London, Brighton and South Coast Railway, but the damage caused by the explosion was inconspicuous, only the windows and doors of a lavatory being shattered. A travelling basket was found in the lavatory containing a clock timed to go off at 3 p.m., and a small package of gunpowder which evidently exploded without igniting the petrol. A revolver was found outside the lavatory which apparently had been dropped during a hurried flight.

Just before the Manchester Art Gallery was closed last night suffragettes attacked a number of the pictures. They smashed the glass covers of thirteen paintings.

The Chronicle editorially points out that three years is the shortest period for which a prisoner can be sentenced to penal servitude, and is a light penalty on the second conviction for such an offence.

The News says: "For three years Mrs. Pankhurst will be out of action, whether in or out of prison."

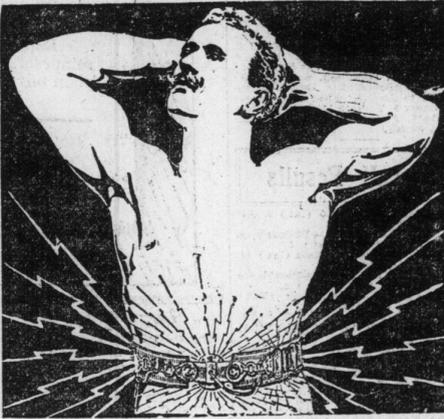

Two Girls Arrested. Two girls were arrested before dawn this morning. They tried to escape by dropping bags and running away. The bags contained paraffin, paper saturated with oil, candles, matches, cotton wool, patent fire lighters, etc. In each was paper bearing the scrawl: "Beware how you treat Mrs. Pankhurst."

In court they gave their names as Phyllis Brady and Millicent Dean. They told the policeman who arrested them that they were returning from their Easter holidays.

Three arrests were made at Manchester when suffragettes broke the glass of thirteen pictures in the art gallery. They had hammers decorated with purple, white and green, the colors of the W. S. P. U.

ELECTRICITY IS LIFE

The Greatest Scientists in the world have declared Electricity to be the Basis of nerve vitality. My success for the past Thirty years has demonstrated the truth of this contention that strong people are full of Electricity and that weak people are lacking in Electricity.

I know where electricity is used, as I apply it, pain or weakness cannot exist. Take this case of N. W. Mackenzie, of Washabuck Bridge, N.S., a gentleman over 60 years of age, who has been a justice of the peace and well known. Read his letter:—

Dear Sir,—I wear your Electric Belt more or less constant since the 1st of May last for indigestion, general debility and poor circulation, etc., etc. The first time I wore it I felt the current tearing up the left side of my spine instantly to a weak spot that is under my shoulder blade, that was caused when carrying an ox-yoke when a boy. After the first two or three applications of the Belt, the cold, stagnant feeling of my body gave place to a warm, comfortable feeling, and in a short time my color began to improve, my appetite and strength improved slowly, and is first-class now. In a word, I am a new man, and never felt better. I need much less sleep since using the Belt, and always rise feeling good in the morning. I would have reported this long ago, but was waiting to find if the cure was to be permanent. I consider your Belt the greatest blessing of the age. I am over 60 years of age, and my troubles began 40 years ago. You may use this letter as you please. I am well known, and have been a J. P. for my county for some time.

Doctors all over the world are now talking electricity, and are using it in one form or another. This is the direct outcome of the recent announcement of the world's greatest scientists, and is a practical admission on the part of the physicians of the superiority of electricity over drugs as a curative agent. Take this case of Thomas Dougherty, of London, Ont. Read what he says:—

Dear Sir,—The reason I have not written you earlier is that I wish to do all the justice in my power. I have been doing this among my friends in this city and elsewhere. Yesterday, when I was in St. Thomas, I think I made justice to fifty persons the state I was in when I wrote you about the Belt, and the grand results I have received from wearing the same. The Belt has done for me all you said it would. The electric treatment I used some time ago was of so much benefit that I came to the conclusion that if an occasional treatment of twenty minutes did me so much good, a steady flow of electricity into my system for hours would do a thousand times more good, and now, at the end of a few weeks' treatment, I can say: "Thank God for your Electric Belt." If I had one year ago, it would have saved me hundreds of dollars, and, oh, what pain and misery! I don't have to get up every half hour through the night as I used to—no more pain or sediment or disgusting odor. The pains and frightful nervousness are a thing of the past. If it will do all this for an over-worked, run-down man of fifty-six, what must it do for a young man?

I have spent over thirty years of my life of study and practical experience in the treatment of diseases most susceptible to electricity, have brought forth all the virtues and exposed all the faults that have existed in the methods that have been used, and have given an experience which should qualify such a student, such an enthusiastic advocate of the modern methods of electro medical treatment as I am to-day. I have developed a practical system of self-treatment which has produced great results. We will take this case of Mr. W. H. Lee, of Aurora, Ont., you can read what he says:—

Dear Sir,—I got your Belt some time ago, and must say it has given me great comfort. I could hardly eat or sleep, or ride in a car, as I was suffering from a severe pain in the back, and had sometimes to rise several times in the night. I thought I was threatened with Bright's disease, and had doctored for it and had taken lots of medicine, but received no benefit. After I had worn your Belt for a month I was in good shape, and free from pain or ache, and I have gained 30 pounds in weight, and can now do my own work on my farm.

Too many physicians make a mistake in treating the condition and overlooking the cause. I first find the cause of the trouble and remove it. If it is in the stomach I restore the power there; if in the nerve system, I build up the nerve force; if in the kidneys, the blood, or the organs of generation, I find the cause and supply to the body the needed help, and after I have removed the cause, nature will cure the disease.

If you wish further evidence, tell me where you live, and I will give you the name of a man in your own town I have cured. When your neighbor tells you that Dr. McLaughlin's Electric Belt cured him, will you then believe there is some help for you?

FREE BOOK—I have a book which gives many hundreds of letters from men whom I have cured. Tells all about the signs of decay in men, how they are caused, how they first appear, the way the vital power is wasted, and how all these troubles are cured by electricity. It inspires a man with a desire to be "a man all over." It is full of things a man likes to read. If you will send for it I will send it to you closely sealed, free. You are invited. D.L.A. TO TALK COMMISSION

Con Jones and Party Prepared Way While in Toronto - His Ideas About It.

Con. Jones, Lionel Yorke and J. T. Hewitt, all from the coast, stopped off in the Queen City yesterday and separated themselves from several items regarding the lacrosse situation.

When they arrive in Montreal Jones D.L.A. that will be formed along the following lines: First a body to be formed along the lines of the National Lacrosse Commission, with each team putting in a list of players (either 15 or 20, preferably) and these players may be sold or traded, but will not be allowed to play for other teams until they are even released.

Second, a uniform set of rules to be adopted and so constructed that both amateurs and pros. can use them.

Third, a salary limit should be set. Fourth, a minimum amount, but a maximum amount, but a minimum limit, so that no player could get less than a stated amount. The idea is more to get the salaries upon a basis that will not protect the league from going bankrupt, but still give the player a reasonable and proportionate remuneration.

Mr. Jones summed up the situation as follows: "With 20 players on a reserve list all the good material in sight would be tied up, but if only 15 were held then there would be a chance for a weak team to draw on these free agents and so strengthen their team. Whether the N.

L.U. will become members of the commission I do not know until everything is thrashed out at Montreal. At present I am dubious as to whether Victoria will be able to gather together a good team in 1913, but should be able to do so in 1914 with the aid of the commission. In regard to that dispatch from Cornwall it is absolutely untrue. We must look to the amateurs for players and it is up to the way to get at the difficulty and I am now on my way to see Joe Lally regarding an assignment of sticks that I will distribute to the boys in Vancouver free. Lionel Yorke, the amateur of the Victoria team, was a member of the Toronto team 12 years ago and played point for them in 1895. At present, a local goal-keeper, Joe Gorman, the brilliant Tecumseh player, and a centre and a home with several good recruits from the N.L.U. and a few of the Vancouver amateurs he may be able to fix up a team this year.

Grand National Course Too Much for Highbridge

The defeat of Highbridge, the American representative in the Grand National, run at Aintree yesterday, shows that the English critics are good judges of jumpers, once they see them perform, as nearly every one of the turf writers in the English sporting papers predicted negotiating the course.

The Grand National course is a very trying one, as the jumps are of the stiffest nature, which is evidenced by the fact that out of twenty-two starters in yesterday's big race, only three went the course, the others coming to grief at different intervals.

Highbridge was probably the best steeplechaser we had on this side last year. So it seems that our best is not good enough to win thru the field in the more important of cross-country events in England.

LEAFS CANNOT HIT SOUTHPAW

Tim Jordan Again in the Game - Poor Exhibition by Pitcher Herbert - Fine Work by Brant.

ATLANTA, Ga., April 4.—(Can. Press.)—The difference between good and bad pitching was never more strikingly demonstrated than this afternoon, when the Leafs got another beating from Atlanta by 9 to 3. The final game of the series will be played Saturday afternoon, after which the Kelleys will move on to Richmond, Va.

Tim Jordan got into the game, and the champions played their regular lineup, with the exception of Holt, who has a twisted ankle. Isaacs played short and made a good fist of the job. The undoing of the Leafs was another left-hander, Gil Price, who was secured from the Washington Americans.

Four hits represented the Leafs' efforts with the stick. Tomorrow the Kelleys will be called upon to face Buck Weaver, whom Kelley got from the Atlanta staff. He is also a left-hander. The Crackers have been training here since the first of March, and there is not a pitcher on the local payroll incapable of twirling nine innings.

The one redeeming feature of the game today was the work of Pitcher Brant, whom Kelley got from the Boston Americans. The tall Texas Leaguer, after making a fine showing against the Pittsburg team at Hot Springs, stepped on to the rubber this afternoon and tied the Crackers into knots. He shut them out for five innings and then retired in favor of Herbert, whose work was anything but promising.

Brant struck out four of the Atlanta batsmen in five innings, gave only one base on balls, after having three and nothing on the batter, and was hit for a safe single and a scratchy one. He had the locals ducking from a fast curve ball, swinging at his fast ones and popping up a tantalizing floater, none of the Crackers got past second while Brant was on the mound.

When Herbert took the slab, in the sixth inning, he had Trout to catch him instead of Brant. The veteran backstop, with one of the veteran backstops to handle his delivery he might have done better. Herbert used show to good advantage with men on bases, and immediately starting him in the face. The team put in some time of two costly errors in some of the hit for five hits and six runs during the ninth. A double and two singles were exacted off him in the seventh and eighth. A combination of safeties in the ninth placed their drives off Brant, they hit hard enough, but not safely. The score:

VALLEY FARM THOROGBREDS HAVE WINTERED SPLENDIDLY

Horses in Training Will Be Shipped to the Woodbine Early Next Week—Rockspring the Only King's Plate Candidate.

The big collection of thoroughbreds at the Valley Farm, Hamilton, owned by the Hon. Ch. John S. Hendrie and George M. Hendrie, and in charge of Trainer Eddie White, have wintered admirably, and the popular trainer is more than pleased with their condition at the present time. The horses in training, thirteen in number, have all done well in their early work, which has necessarily been light, and they will be brought here to the Woodbine early this coming week to be prepared for their engagements at the Ontario Jockey Club's spring meeting, and other meetings to follow.

There is but one candidate in the string for this year's King's Plate, the four-year-old gelding, Rockspring, a gelding son of Martimas—Sprinkwell, and if this one gets to the post and well he is sure to give a good account of himself. His sire, Martimas, the only Canadian-owned durability winner, was a stayer, and has set a number that could stay, while his dam, Springswell, had plenty of speed.

SPRING SHOWS ARE POPULAR

Farmers Are Enabled to Pick Up Valuable Information.

The growing popularity of spring shows is very apparent this year. The attendance and interest in the various agricultural shows held in the district are exhibited and judged. Farmers by attending are able to see the best service animals and make their arrangements. Many of the good breeding animals made, particularly of young stock to the purpose as the bull and station shows. Seed is exhibited and judged. Those wishing good seed can attend these fairs and are put in touch with those that have good seed for sale.

NEW YORK, April 4.—Horse racing is to be revived in New York State. The Belmont Park Jockey Club has announced that it will be re-opened on July 8, a twelve day meeting will be opened on the Jamaica track, and following this there will be racing at Saratoga all the month of August.

CHANCE'S TEAM PLAY THE BROOKLYNS TODAY. NEW YORK, April 4.—In a three-hour workout this afternoon the New York American League team tried the sod of the Polo Grounds for the first time since that field officially became their home. They will share the grounds this season with the Giants, and took the earliest opportunity following their return last evening from the Bermuda training camp to familiarize themselves with their new surroundings. The baseball team boys agreed that the team practice were out of the reports from Bermuda that every player was in the top condition. The game of the season between the league teams, in metropolitan territory, is being played first, Chase second, and the second game, with Walter, Cress and Danforth in the outfield. Slim Caldwell looks like Chubb's best selection for tomorrow's game, with Long George McConnell a possibility. Manager Dahlen expected King street, taking Edward Street, left-hand, to the slab.

HOLLY TO STAY WITH THE LEAFS

Sale Was for Failure to Report, But Shortstop Patches it Up—Gossip of the Leafs.

The Leafs are all signed and the contracts have been turned in to President Barrow of the International League. Every city on the circuit looked for Toronto to fall down on the signing up of their championship outfit, and President J. McCaffery is patting himself on the back for the achievement. The president is back from the south after a three weeks' sojourn, and is just full to the overflowing with glowing reports of the 1912 roster of the champions. Herbert is in the most likely looking youngster that the Leafs have ever had on a training trip. He is the president's summing up, and he will surely land a regular berth. While Mr. McCaffery would not state whether Holly would be a Leaf this year or not it looks as if the shortstop will be doing business at the old stand. Holly was sold to Montreal after failing to reply to letters and wires, and the Leafs' president says that it was all in good faith. Holly talked the situation over when James J. was in the south, and it was put up to Manager Kelly. Holly permission to go to the camp and stay for a few days, and Manager Kelly was told to do as he thought fit. Kelly will likely keep him. If by any chance he should be turned adrift a shortstop of big league calibre can be secured with a day's notice.

The Leafs have arranged to bring John McGraw and his New York Giants, National League champions, for an exhibition game at the Island on Sept. 2. The Chicago Cubs may come on July 25 if Mr. Murphy doesn't want the earth.

Mr. dear and respected friend "Grouse" Stallings tried to have the Toronto Club a double cross on the first order. Cheerful George tried to beat the Leafs to the Macon grounds, but when they lined up the Macon City Council, but President McCaffery went in to meet them by signing the president of the Macon Club, who leases the grounds, for 1914.

Alleged dissension between Manager John Evers and members of the Chicago National League Club came to a head with the return of the team to Chicago yesterday after a seven weeks' training trip, when Trainer Simmons presented his resignation in the form of a blow to the manager's jaw. The fight occurred just as the train was pulling into the city from Kansas City. The Journal this afternoon declares that the training trip has not been as harmonious as had been reported. Evers, the Journal learns, from persons who took the trip, had not been able to control his temper, and there have been numerous minor squabbles. The new manager is said to have been rather sharp in his criticisms and has engaged in feuds with newspaper correspondents, as well as with members of his squad.

While there were no open outbreaks, resentment was obvious, and Simmons brought the matter to a crisis today. The fight started when Evers asked Simmons if he had ordered the team to leave the city.

report for practice this afternoon. The trainer replied that he gave such instructions when instructed to do so by the manager. At this Evers lost his temper and is said to have applied foul language to the trainer, and the latter replied with his fist. Evers fell over into a seat and vomited further damage. Evers was not knocked out, but was pretty well shaken up by the punch. He admitted using the language to which Simmons objected, but said he did not mean it. The way the trainer took it. Simmons left the scene at the railway station. He said Manager Thiker wanted him at Cincinnati, and that he would sign a contract to train that team.

Only Three Horses Finish In Grand National 'Chace Long Shots Run One, Two, Three in Big Jumping Race at Aintree. LIVERPOOL, April 4.—The Grand National Steeplechase Handicap was won today by Sir C. The Grand National is a race for a prize of \$17,500, and a trophy valued at \$25, over a distance of four miles and 856 yards. The American horse, J. R. Fell's Highbridge, fell early in the race in jumping the favorite to 1. Sir Charles G. Covertcoat, 100 to 9 against Carsey, 25 to 1 against Irish Mail and 100 to 3 against Highbridge. Oswald Jones' Rathnally, favorite in the preliminary betting, was scratched leaving K. Malcomme's Bally Hackle, the favorite at 1 to 1. Sir Charles G. Ashton-Smith's Covertcoat was also well backed at 8 to 1. Also ran were: Axipinn, 100 to 3; Ballyhackle, 5 to 1; Highbridge, 100 to 3; Westend, 100 to 3, and fifteen others. All except Jamaica failed to finish. Blowpipe, after a mile, was in front of four miles was in front and eventually won by a distance. Carsey fell at the last jump when second, but was remounted and placed third. No other competitor completed the course.

FRIDAY HORSE SALE AT THE REPOSITORY. Spring business opened up good this week at The Repository and Proprietor point to greater activity in the market. The regular sales were with the day and Friday were well attended and a number of private sales were made on the off days. Although there were no horses bought for shipment to the west, yesterday's sale was particularly good and late indications point to greater activity in the market. Mr. Burns informed The World that he had a consignment of 20 head of good delivery horses from the City Dairy to be sold next Tuesday and these should attract considerable attention. Gathered from yesterday's sales were the following: The Hendrie Co., two; George Lawrence, bays, three; McCaffery & Carr of Cobalt, got part of a car load of the very best kind: George Irvine, Shabonee, three; Benj. Widdowson, three; Newton Oliver, Wychwood, three; Al. Gordon, three; Canadian Transfer Co., two; Abel Eves, three; W. Kennedy, Agincourt, a pair of bay geldings for \$225; Maple Farm Dairy, a bay gelding, \$147.50; David Bain, brown gelding, \$165; John Collins, black gelding, \$175; John McConnell, br. mares, \$140; P. G. Hayward, bay mare, \$185; New Method Laundry, bay gelding, \$185; Dan McLellan, bay gelding, \$185; E. Pullen, bay gelding, \$235; J. Darling, Lambton Mills, bay mare, \$190; S. G. Leslie, Georgetown, bay mare, \$190; S. Gottlieb, Hamilton, bay gelding, \$90; K. Cairns, bay gelding, \$87.50.

And now, when a CLEVELAND or a BRANTFORD Wheel can be purchased for \$40, or with cushion frame and spring handles, for \$50, who will not ride one? Other makes new bicycles, \$25, \$27, \$30 and \$35. Used machines, from \$10 upwards. Easy payments, if desired.

THE SUNDAY WORLD

The six separate sections of The Sunday World cover the field better than any other paper printed in Canada, and that is why we have a circulation of 81,500 this week—the best five cents' worth given to readers outside of a few of the great American cities.

Magazine Section—An attractive four-color front page describing the women of the new regime at Washington. A serial story by Arthur Applin. This is the third instalment of a wonderfully gripping story.

Editorial Section—Some of the regular features of this section are: Editorials on topics of general interest, including the late Pierpont Morgan's methods of selecting his partners.

News and Sporting Sections—These sections cover all the latest news up to a late hour on Saturday night.

Comic Section—We claim for our Comic Section, which is printed in four colors, that it is the very best issued by any paper on the continent.

APRIL 5

APRIL 5
 It is your birthday. A year ago you were a baby, and success awaits you and the things which you undertake, after careful thought, will prosper. Those born today will be talented and persevering and will win out in spite of danger and difficulties. They will make diplomats and leaders, and should be trained to understand the pitfalls of show and ostentation.

The NURSERY

CONDUCTED BY E. Clinor Murray

Normal Development

The child's mental development progresses very rapidly. Every day he learns something new, and it is part of mother's work to see that he gets correct ideas of things. He should be allowed his own way in thought and action as long as it does not interfere with discipline. A busy child is a good child, so see that his time is well occupied. The hardest time to keep the little one busy and interested is between the ages of four and five years. He is too old for baby toys, and too young for older games. This is the time when the mother appreciates the knowledge of some kindergarten game or work to keep the child busy and interested.

The body should keep pace with the brain growth. The weight should have increased and the body lengthened out considerably. The head should be round and symmetrical. The wide opening in the top of the head at birth grows gradually smaller and is entirely closed at two years.

The teeth should appear at the schedule time and be well formed and in perfect condition. The mother must keep their condition perfect, if she would give the child every chance to keep them so. When baby is such, mothers are often frightened to feel the abdomen hard. It should be soft, and always is, only the fear of illness made it noticeable for probably the first time. The abdomen is naturally protuberant in early childhood, but if the navel protrudes while the baby is crying, it should be attended to at once.

Babies generally stand and sit in a very erect position. It is only as they grow older and imitate adults that they droop the shoulders, thrust the head forward and sit on the middle of the back. Guard carefully against faulty positions, being standing or sitting—only don't nag.

A child is absolutely a creature of habit. Begin with him early and make the habits good ones. Teach him to do the right things from the start.

The habits of regularity, of cleanliness, of happiness may all be started in infancy. The well-adjusted and bodily functions, the habit of order, the habit of obedience are developed as he grows older.

And these habits are only cultivated at the price of constant watchfulness on mother's part. There is no necessity for a child to cover himself with mud every time he goes out to play, nor of smearing himself and his clothing with food every time he comes in.

Older children develop helpful habits of neatness and order by being held responsible for the putting away of their clothes, books and toys.

APRIL IN THE GARDEN

By this time the gardener should have removed most of the mulching from the various beds. It is never a wise plan to leave the heavy soil manure on the beds until the last full benefit of the rain which will soak through the richly nitrogen-laden material, carrying food and strengthening moisture down into the earth. But too much of this richness is most detrimental to the well-being of the various roots buried beneath the surface.

About the middle of March, weather conditions being favorable, the thickest portion of the straw and leaves and manure should have been removed, and a light sprinkling of straw spread loosely, but fairly thickly, back again.

If this method is practised it will be found that all roots will send up stout sturdy shoots, strong and vigorous, and well able to withstand the various abrupt changes in the weather. Otherwise, many poor spindly seedlings will appear.

Already the various bulbs such as tulips, daffodils, hyacinths, jonquils are in full bloom, delighting the very heart with their feast of coloring and wealth of perfume. The early flowering bulbs are almost finished now in many places, such as crocuses, scilla, snowdrops, snowflake, muscaria and ever, on individual beds, many gardens being in full bloom, many others are either just commencing to show up while again others are commencing to show decay in the bulb beds.

Be careful not to uncover the peony roots too soon. Every year gardeners lose their supply of peonies by too early an exposure of the tender young red brown crowns, all of which cover the flower buds. Be careful, when pulling up last year's old stalks, not to bring up any soft young shoots that are still in the ground, and pull them up as they appear.

See the "Columbus" are up almost ready to bloom now. Be careful, when pulling them up, not to pull up any of the young ones that have seen the cunning little curled-up leaves that appeared in my garden about the twenty-third of March. It

ART IN PIANO BUILDING.

The art series of upright pianos, built by the Heintzman & Co. Limited, 193, 195, 197, and 199, is commanding wide attention among people of refined taste. In some eight styles, green, grey, and black, they represent as many varying styles of architecture, meeting a variety of tastes. The piano is a very big favorite abroad and is as big a favorite here as it is in any other country. Edmund Hayes and his company are presenting "The Piano Movers" and this means a laugh from the audience every minute. Miss Green is an immense favorite and is sure of a warm reception.

MR. SHERLOCK APPOINTED.

Is Musical Director of Central Methodist Church.

In musical circles much interest will be felt in the announcement just made public of the appointment of J. M. Sherlock to the position of musical director of Central Methodist Church.

For five years this position has been held by Dr. J. Humphrey Anger, who has resigned on account of ill-health.

The musical committee proffered the standard oratorio by the Toronto Oratorio Society, of which he was the conductor for seven years. He was also for eight years choirmaster at Carlton Street Methodist Church and his choir there had an excellent reputation. He is perhaps most widely known as leader of the Sherlock Male Quartet, one of the best-known quartets possibly in America. Mr. Sherlock will begin his choir duties immediately and will have associated with him as organist Ernest D. Gray, formerly organist for five years of the Simpson Avenue Methodist Church.

MINSTRELS HERE FOR FOUR NIGHTS

Primrose and Dockstader at the Alexandra—Henry Miller for Princess.

Toronto theatregoers are looking forward with much interest to the coming of the Princess Theatre Primrose and Dockstader Minstrels to the Alexandra Theatre for four nights commencing Wednesday next. The reunion of the black-face stars after a ten-year separation has been an event that has excited much comment the country over and brought record-breaking crowds to see them in every city they have thus far visited on their present tour. Both Mr. Primrose and Mr. Dockstader's fame will go down to posterity in the theatrical history of America, for they have contributed much to the enjoyment of theatregoers the country over for many years and they have discovered and brought out more minstrel talent than probably any other two men the stage has ever known. A no-nonsense street parade each day of the Primrose and Dockstader engagement will be headed by the veteran minstrel stars themselves.

Henry Miller, Princess.

"The Rainbow," which Henry Miller will bring to the Princess Theatre all of next week, has been heralded by the critics of New York, Boston, Philadelphia and Chicago as the most beautiful stage story ever written by an American author. "It deserves to rank as the American 'Rosemary,'" says the New York Sun, "only that it happens to be an infinitely better written play." "It is a beautiful play, beautifully acted," says The New York Times. "It adds dignity and distinction to the American stage," says The Chicago Inter-Ocean. "It is a beautiful play, beautifully acted," says The Chicago Tribune. "The Rainbow" is a beautiful play; Miller's acting big and fine," says The Chicago Record. "It clutches the heart," says The Boston American. "The Rainbow" shows Henry Miller at his best," says The Philadelphia Record. "It is a thrill thru the audience," says The Philadelphia Record. "The play is a masterpiece and the acting superb," says The Boston Globe.

At Shea's Next Week.

Manager Shea has arranged an all-star show at Shea's Theatre for next week. The "Lord Roberts" makes his first bow to the Toronto public. He is the world's smallest comedian; he is 22 years old, weighs fifteen pounds and is twenty-four inches high. His act is marvelously intelligent and presents a program that is well worthy of the most famous of comedians. "Shall I honor the honors of head-line place is Ethel Green, a new and daintiest comedienne." She has an entirely new repertoire of songs, and her music numbers are quite sure to bring a new audience to the theatre. The lovely singer will also give some charming songs. Miss Green is an immense favorite and is sure of a warm reception.

High Park Presbyterian Church.

The choir of High Park Presbyterian Church (corner Roncevalles and Wright avenues), under the direction of Edward L. Crawford, has prepared a most interesting program for their concert Thursday evening, April 10. The choir of forty voices will sing anthems by Schubert, Novak, Sullivan and Unfold Ye Portals, with trumpet parts, from the Redemption. The soloists are: Mrs. Ellison West, soprano; Miss Edith Parker, contralto; Mr. W. A. Garrett, tenor; Mr. Edward L. Crawford, baritone, assisted by Mr. Geo. Bruce, cellist; Miss Vera Hamilton, pianist; Mrs. M. Murdoch and H. Southall, cornetists; Miss Ethel E. Dever, organist, and Mr. Ellwood Genoa, elocutionist.

"Girls From Joyland."

If you like ragtime music, or if your taste runs to the more classical kind, you have a hankering after black-face comedy or prefer something really beautiful in women, you are bound to be satisfied with what the Star Theatre will offer next week where "The Girls From Joyland" hold the stage.

"The Bowery Burlesquers."

"The Bowery Burlesquers," with everything "new" but the name, will open a week's engagement at the Star Theatre starting with Monday matinee. Heading the cast are: Fitzgerald and Quinn, Mabelle Morgan, Ches. Jansen, Brown, Minnie Lee, Edna Green, Keller and Don.

"The Women of the Guard."

"The Women of the Guard," which is to be produced at the Alexandra Theatre on Tuesday, April 15, and for the remainder of that week, has not been heard in Toronto for nearly twenty-five years. The traditional rendering will be followed as closely as possible and precaution taken to avoid the interpolation of any so-called burlesque in the play, to those who know and love good comic opera. It detracts so much from the real burlesque of the work. The plan for the seats is now open at the Bell Ticket Bureau.

For the Little Ones: Popcorn, Peanuts and Candy

HERE is nothing lovelier in this world than a happy child, unless it be several of them. And it takes so little to make them happy. Two cups of sugar, a little water, a tablespoon of butter and some extract stand in an afternoon of joyful taffy pulling.

There is magic to them in the word popcorn, and the promise of a little party will make the wildest girl angelic.

One of the best ways to pop corn is to use an iron frying pan in the place of the open popper. There is no danger of the corn burning before it is popped and it is richer.

Shell the corn and put a tablespoon of lard in the pan; heat it until it commences to smoke, pour in two-thirds of a cup of corn, cover and shake gently over the fire until it stops popping.

If it is to be cracker-jack—that is, mixed with peanuts and covered with molasses—prepare the syrup thus: Use a cup of sugar to a cup of New Orleans molasses. Add no water and boil gently until it hardens in cold water. Now add a fourth of a teaspoon of baking soda and beat briskly. Remove from fire and pour over the nuts and corn.

The syrup must be boiled in a deep vessel, as it foams up when the soda is put into it.

A well-liked candy that is very quickly made is called "seafoam." Boil two cups of sugar with a half a cup of water until it threads from the spoon and hardens in water.

Maple sugar may be used, or light brown sugar; if granulated sugar is all you have, dissolve it well in the water or it will be grainy.

While the syrup is cooking beat the white of two eggs very stiff, flavor them and pour the cooked syrup on these egg whites slowly, beating briskly all the while.

Nut meats, cocoanut or other additions that please the children may be added to the last.

Children like things that they can make themselves, and there is no expenditure of time and money that pays so well as pleasing them. It blesses those who give and those that receive, unless the recipients are killed by too much kindness.

There is not likely to be a pain under their aprons if their cookery is supervised a trifle.

A splendid candy base is made without cooking (and can be finished by the children in as many ways as there are flavors and colors) with the white of an egg and confectioners' sugar.

This is so pure and harmless that any child can eat all it wants without danger.

Sift the sugar, which is also called "triple X," and mix in the egg white; a few drops of cream may be added if a rich candy is wanted.

When the mixture is thick enough to roll out like pastry, hand it over to the children.

They can each take a section to finish. One may make chocolate drops by molding the base into balls and dipping them in melted chocolate.

Vanilla and peppermint waters may please another. In short, there is no sort of candy, not even fudge, that cannot be made from this fondant.

fering at the Grand Opera House next week. The original Henry E. Harris scenic production and a cast that was personally selected by the author, will be seen in the play here. The company includes Earle S. Ross, Horace V. Noble, George E. Cole, Ray S. Brown, Edward Menlove, Charles Phipps, Archie Anderson, Terese Lorraine and Edythe Mae Hamilton.

M. Parker's fine historic drama, entitled "Disraeli." The company is being sent here by the Liebler Company, well known as the largest producers of plays in New York, and the engagement will be for a week at the Princess Theatre, beginning Monday evening, the 14th inst. This will be the first time that "Disraeli" has appeared in Toronto.

Mr. Arliss has made the statement that there will be just four attractions this season that the people really ought to see. Mr. Arliss in "Disraeli" being one of them.

Mr. Arliss has an excellent supporting cast and there are four beautiful settings in the play of "Disraeli" Louis M. Parker, the author, is so well and favorably known to Toronto theatregoers. Principals in Mr. Arliss' company are Margaret Dale, Marguerite St. John, Arthur Eldred, Oscar Adye, Alexander Calvert and Violet Heining.

EIGHT-HOUR BILL "HONSTED" AFTER A LENGTHY DEBATE

Sir James Whitney Characterized the Discussion as a Burlesque and Said Mr. Studholme's Bill Showed Too Much Discrimination to Be Adopted.

Once again the eight-hour day bill—perennial and well-regarded proposal of the labor party—was practically ruled into outer darkness by the Ontario Legislature. It did not vanish this year, however, with its customary celerity or without disturbing the placidity of a Friday afternoon house. On the contrary, its exit was barred with technicalities and repartee and discussion delayed the sitting until a late hour.

The bill which combines with the regulation of the working day at eight hours and never more than 48 hours' overtime in a week, a stipulation of a minimum wage of 30 cents per hour, was made the subject of a lengthy explanation of Allan Studholme, and his plea was supported to more or less extent by the opposition. The premier, however, had no hesitation in condemning its purpose because of the radical restrictive measures it contained.

"No workman shall be permitted to work more than eight hours a day," read the bill, and this a British country, with free institutions, and a Christian country. In the face of all this is a proposition like that.

"This is a fair proposition," he said, "and no honest, industrious toiler should be asked to work for less than this wage. The highest interests of the state and of society demand it."

Mr. Studholme moved an amendment urging the necessity of the house realizing the importance of the measure, but that further investigation should be taken before legislation came and a commission should be appointed to report at the next session.

"The speaker then rose to move in still further amendment, that this bill be not read a second time, but that it be read six months hence."

AT AUCTION
PRIVATE SALES
EVERY DAY

Tuesday, April 8th, 325 HORSES
Friday, April 11th, 200 HORSES

The sales commence at 11 o'clock each day.
We have many large shipments of high quality coming to us for sale next week, and will show to buyers the finest selection of all classes of horses that they can get to choose from. The correct warranty goes with every horse sold, or we return the purchase price at once. Horses are selling just now at prices which mean great value to buyers, and this is a highly favorable time to buy. The classes of horses for sale next week are: HEAVY DRAUGHTS, EXPRESS, DELIVERY, GENERAL PURPOSE HORSES, DRIVERS, CARRIAGE AND SADDLE HORSES—sound and right every day, and at their best age.
Also many seriously sound horses of all classes, good, useful workers and drivers; most of them to be sold unreserved for the high dollar.

THE CITY DAIRY CO., LTD., Toronto

have assigned to us for sale
ON TUESDAY, APRIL 8th
20 OF THEIR DELIVERY HORSES
These are good horses and first-class workers, and are being sold for no fault. The City Dairy Co. pay high prices for their horses, and buy the best. These horses are somewhat too big for the Company's purpose, and when put up at this auction will all be sold to the highest bidder. Buyers will get the best of satisfaction with this lot.

A CONSIGNMENT OF 18 WORK HORSES

Just out of work from a finished contract, will be sold on Tuesday, April 8th.
These horses, which include a number of mares, weigh 1400 to 1600 lbs. and are practically fresh horses, well broken, single and double. They are in the best condition. The owner has no more work to put them to at present, and has decided to sell out now. They will all go absolutely at bidders' own prices, and will be found thoroughly serviceable horses.

WANTED TO FILL AN ORDER

Three Good, Sound Ponies, well broken, 12 to 13½ hands.
A FINE STOCK OF NEW BUGGIES AND CARRIAGES of all styles: HARNESS, and every description of Horse Goods is on sale in our CARRIAGE AND HARNESS DEPARTMENT.
Prices on our goods are very moderate, in view of the uniformly high quality that we offer.

HASTINGS LACROSSE CLUB.
HASTINGS, April 4.—At a large and enthusiastic meeting of the Hastings Lacrosse Club and decided to enter a team in the O.H.L.A. A number of the old players in town have expressed an interest in the game. Besides this there was a bunch of promising juniors and some men in town. From the interest taken the national game should have been this year. The following officers were chosen: Hon. vice-president, H. H. Howard; president, Dr. J. W. Wadsworth; secretary, J. E. Howland; secretary-treasurer, J. J. McPhee; manager, H. Dodd; executive committee, A. W. Wadsworth, E. V. O'Connell, delegate to O.A.L.A., T. A. Coughlin.

The teams who will constitute the Northern Senior League are as follows: Strathroy, Barrow, Central and St. Francis. The opening date has been set for April 26, when St. Francis meet Central in the first game, and the Strathroy clash with Barrow in the second.

"When I first signed 'Johnny' Howard and 'Newy' Lalonde I paid them \$400 for the season, and there is no good reason why they are worth any more today. If the people who put up no money have any sense," remarked Con Jones.

CHEERYOLA WINS WITH KOERNER UP

Feature Race at Jamestown is Only a Romp for Favorite

—Marlboro Results

NORFOLK, Va., April 4.—Cherryola, cleverly piloted by Koerner, won the feature event, the Jockey Club purse, at Jamestown, today. The dopster and the bettors alike had figured out that the Joplin mare was the best entry, and their confidence was fully justified. The real contest in this event was between Armor and Merry Lad, and the Tennessee colt won out. A newcomer, Florio, cleverly guided by Troxler, led the 2-year-olds, beating out Sonny Boy, who was considered best of those known in the bunch. Troxler was also atop the winner of the second event, and it was the general opinion that, nothing short of a fall could prevent the simons colt from taking the race, as he was ahead and away better than any other entry. Corey also piloted home two winners in the third, the third and fourth in the fifth. Rock Rest and Captain Jinks were figured as among the best in the third, but both finished away behind, while Double Five, considered the best in the fifth, was the last to cross the finish. In the last race of the day, Cheer Up surprised the talent by landing in first place. Ragman was considered to have a good chance, but was unable to head the Louis gelding, while Koerner, with the favorite, Floral Day, was fortunate to land in the money for the third of the day. Summary:

NO ENTHUSIASM IN TORONTO MARKET

Sharp Upturn in New York — List Ignored by Canadian Exchanges.

DORMANT SPECULATION

Money Situation Still Acts As Check on Activity — Brazilian Firmer.

While there has been a measurable improvement in the money situation in Toronto during the last week or so, conditions have not yet reached the point where any speculative enthusiasm can be engendered in the stock market. Meanwhile the short interest has been pretty well eliminated by the recent covering movement which carried prices up so rapidly, and, therefore, the list has relaxed into dullness again.

The apathetic nature of the speculation cannot be shown better than by reference to the action of the security list yesterday. In the New York exchange a sharp upward movement was under way. C. P. R. rose 3 points, Lehigh Valley 2, Reading 2, Union Pacific 1 1/2, and Steel 1. In the natural course of events it would have been expected that the Toronto market would follow suit to an appreciable extent. What really happened was that the Canadian stocks to all intent and purpose ignored the improvement in Wall street, a slight firming up of prices being the only redeeming feature of the day. The outside interest in the market was practically nil, and, with such conditions in effect, it was little to look for any reflection of the upturn across the border.

Some Improvement Shown. The only stocks to show improvement here were Brazilian, General Electric, Toronto Railway and Richelieu, and in no instance did the advance amount to more than half a point. Brazilian opened at a fractional gain of 98, sank back to Thursday's closing level at 97 1/2, and then moved back to 98 again, leaving a net rally of 1/2 for the session. General Electric was 1/2 higher at 115 1/2, Toronto Railway was up 1/2 at 130, and Richelieu gained a like amount at 117. Most of the other active issues held firm, but Maple Leaf preferred at 97 1/2, Burt preferred at 101 1/2, Steel Co. preferred at 86, and City Dairy at 103 1/2 were all a shade lower. Macdonald sold ex-dividend at 57 1/2, Russell Motor common was offered down to 50, without bids at the close.

FAVORABLE REPORT ON THE JUPITER

The rise in Jupiter shares from 44 3/4 to the opening of the week to the high point yesterday of 56 is understood to be due to the intention of the Drummond interests of Montreal to have the holding aggressively developed during the next few months. Steel Co. Drummonds have put one of the best mining engineers in their employ on the property, and it is said that he has already submitted a very favorable report. The Jupiter is in the Hollinger district, and it is thought that the remarkable success of the latter company has inspired the latest developments at the property.

McKINLEY-DARRAGH ANNUAL MEETING

President Masten on Ore Reserves—Old Board of Directors Re-elected. Nothing but routine business was transacted at the annual meeting of the McKinley-Darragh-Savage Mines held in Toronto yesterday. President C. A. Masten in his report warned the shareholders that the reserves had so far been maintained, this could not continue forever. Present ore reserves would be exhausted in six years at the present rate of production, but, of course, the directors could not make any statement on this point.

C. P. R. CROSSES 240 MARK AGAIN

The bulls on Canadian Pacific were in high fleece yesterday when the stock crossed the 240 mark in the New York Exchange and predictions of a continuation of the upturn were quite general on "the street." Sir Thomas Shaughnessy sells today for the old country, and there is a strong tradition that the shares always improve their position when the president leaves on his annual trip abroad. Meanwhile C.P.R. has already risen 22 points above last month's low record, "going some."

BOND VALUES AT NEW LOW RECORD

Market is Now at Its Lowest Level in Full Five Years.

MONEY RATES EASIER

Crop Outlook Also Cheering — Obscure Issues Brought to Forefront.

One of the most significant results of the recent depression has been the marked decline in the values of the purely investment securities, and yet this is an aspect of the situation which has been given little attention. Not since the panic of 1907 have bonds declined as rapidly as they have in the last two months, so that whereas on Jan. 1 the average of 25 representative railroad bonds in the New York market stood at 89.155, they are now over two points under that figure, and at their lowest level since February, 1908.

Table with columns for dates (Jan, Feb, March, April, May, June, July, Aug, Sept, Oct, Nov, Dec) and values (1912, 1911, 1910, 1909, 1908).

LONDON MARKET LOWEST IN YEARS

Aggregate Values of British Stocks Had Big Decline Again Last Month.

LONDON, April 4.—The aggregate values of 387 active securities dealt in on the London Stock Exchange, which are used as a basis for computing the pre-estimated 228,000,000 or 0.8 per cent. during the month of March, thus carrying the price level to a new low record since 1907. During February the aggregate value had depreciated 246,000,000 or 1.3 per cent.

BID FOR CONTROL OF PETERSON LAKE

Toronto Brokers Offer Forty-Three Cents a Share to Stockholders.

The shareholders of the Peterson Lake Silver Cobalt Mining Co., Limited, are being bought out by the Frost & Co. brokers, of Toronto, that they have a proposition from clients to purchase the controlling interest in the company at 43 cents a share. As there are 2,661,820 shares outstanding this would mean a price of \$3,500,000 based on the purchase of 1,300,000 shares.

RUMOR CONNECTS THE VIVOND AND HOLLY

Report Says Timmins Interests Will Finance the Acquisition of Gold Mines Company.

For several days now the street has had a rumor that a deal is under way between the Porcupine Gold Mines Company (Vivond) and the interests behind the Hollinger, and it is understood that full particulars of the arrangement will be announced in a meeting of prominent interests connected with the Porcupine Gold was held in Montreal the same day as the Hollinger annual, and it is understood that conferences with representatives of the Timmins people were going on in New York early this week.

STRONG SPOTS IN MONTREAL LIST

C.P.R. and Power Made Smart Advances, But Gains Not General.

MONTREAL, April 3.—Pronounced strength in C. P. R. and Montreal power, both of which touched new high record prices for the movement and closed, the one with a net gain of 2 1/2 and the other with a net gain of 1 1/2, met only moderate response from the rest of the list today. C. P. R. opened at 239 with an overnight gain of 2 1/2 on strength of the stock in London and rose to 240 in the final transaction of the session. C. P. R. worked off to 239 1/2 in the afternoon and fell back to 229 1/2, its bid, and closed at 229 1/2. Business in both stocks was dull in the afternoon and the general market showed the same conditions.

IRREGULAR TREND IN MINING MARKET

Jupiter and Swastika in the Limelight—Small Changes in General List.

Continued strength in Jupiter and a sudden downturn in Swastika, which fell off to its lowest level since January, were the features of the day. Trading was fairly well sustained, but outside interest in the movement was at no time really pronounced. The upturn in Jupiter carried the stock as high as 50, thus duplicating the high level of last month. Favorable reports have been circulated concerning the company of late, and as it is assured that the property is to be aggressively developed, the bulls and bears are both active.

SWASTIKA HITS BUMPS.

The slump in Swastika revealed the weak position of this issue. Stock came out freely, and the price sank to 11 before the movement was checked. Early in the day sales were made as high as 13. Pearl Lake was off 1/4 at 61 1/2, Foley-O'Brien had a release and dropped to 26. Porcupine Gold sold a fraction at 26 1/2. The extension was also a trifle lower at 13 1/2, a new low for the month. The early decline in Swastika did not require any new explanation. Hollinger held firm at 17.50.

WORLD'S ESTIMATES.

Broomhall estimates the world's wheat shipments for week, exclusive of North America, at 10,400,000 bushels, against 9,322,000 bushels last week. Of this, Europe will take about 9,200,000 bushels. Arrivals into the United Kingdom, about 4,400,000. Total shipments last week, 13,520,000 bushels, and last year 13,888,000 bushels. He predicts fair increase on passage.

WORLD'S ESTIMATES.

India—Wheat shipments this week, 254,000 bushels; estimate next week, 128,000 bushels. Australia—Wheat shipments, 1,888,000 bushels this week.

SOLD CONTROL OF FOLEY-O'BRIEN

Holding Company Will Control Numerous Properties in Porcupine.

A huge mining deal, which will mean the passing of the controlling interest of Foley-O'Brien, Limited, and the consolidation of several groups of properties in the Porcupine camp, was consummated today. The deal has been put thru in Toronto during the last few days.

An option has been taken on 285,000 shares of the Porcupine Mining Co., representing the controlling interest now held by the McCormick and Kerr interests of New York, at a price of 21 cents a share, for a total consideration of \$59,850. The first instalment of \$5000 has been paid over, and the balance is distributed over a considerable period, with the next payment due on the 15th April. The holders of the option are C. L. Sherrill and associates of Buffalo, N. Y., who are to exercise the control of the Foley-O'Brien in the hands of the Homestake Mining and Finance Co., a corporation which was formed some time ago for the purpose of carrying out the plan of the Porcupine camp. This concern already holds the control of the Canadian Homestake Mining Co., which has been incorporated in the district, southeast of Porcupine, and will take over other properties in Northern Tisdale and the numerous holdings of the Sherrill interests. It has claims in all, in the Redstone district, southeast of Porcupine, together with the electric plant on the Redstone River. The Homestake will thus be a big holding company. It is capitalised at \$1,000,000. The Sherrill interests will be in control of the proposition.

MONTREAL SECURITIES AUCTION.

ANNOUNCEMENT.

For the convenience of our many patrons in Ontario and the West, and the affording of a broader market in unlisted or inactive securities, arrangements are being made to open a Securities Auction in Toronto.

The Montreal Securities Auction is able to bring to its branch the advantage of financial experts who are in close touch with the security markets of Canada and the States. It already counts many Toronto and Ontario clients among its extensive list of patrons.

A few features incidental to the operation of the Montreal Securities Auction in Toronto will be: Free advertising of offerings for the seller—Cash advances on securities before sale—A commission of only 25 cents per share, or one-eighth of one per cent., on bonds, to be paid by the seller only. To these methods is added an extensive circularizing and advertising covering a larger field than any house of similar character.

Pending the equipment of our Toronto Branch, we are pleased to furnish our regular service for Investors, Bankers and Brokers at our Montreal Office, 1118 St. Francois Xavier Street.

A. J. ESTES, Auctioneer.

MARKET POSITION IS MUCH WEAKENED

Erickson Perkins & Co. (J. G. Reals) wired: With numerous issues advancing this afternoon to prices three to five points above yesterday's low price, it would appear that it is time to take profits, particularly as the stock market has had little setback during the last week. The short interest has been considerably reduced; in this respect the technical condition of the market is weaker.

The Touchstone of Worth

Every advertisement to be of use to you and to us must receive credence. Unless you believe in its statements we cannot hope to get you to share in the advantages offered. Often, therefore, we understate, rather than run the risk of seeming to claim too much for our merchandise. We willingly leave each offer to your unprejudiced examination, and each purchase gains credence for future statements in these columns. Today's list will lay the foundation for future business with a host of satisfied purchasers.
