CANADIANS STEM GERMANS' ADVANCE WIN TEMPORARILY LOST GROUND IN BRILLIANT COUNTER ATTACK

OTTAWA, April 25.—The Duke of Connaught, Governor-General of Canada, has received a message from King George V. expressing his admiration of the gallant stand made by the Canadians at Langemarck, and sympathizing with Canadians in the heavy casualties sustained.

CANADIAN LOSSES WERE HEAVY BUT THEIR DEEDS WILL GO DOWN IN HISTORY AS BRAVEST OF WAR

Names of the Officers and Men Who Fell at Langemarck Will Be Writ Large on the Empire's Scroll of Honored Dead.

ENTIRE DIVISION WAS IN THE FIGHTING

Some of the Best Officers in Canada Have Been Killed in Greatest Battle in Which Canadians Ever Have Participated.

After more than two months of trench fighting with losses comparatively small the first Canadian Division were given their chance last week in the great battle to the north of Ypres, and as official accounts have indicated they fought with splendid courage and effectiveness.

wounded. Among those killed were three battalion commanders—Lieut. Col. Hart McHarg of Vancouver, 7th Battalion; Lieut. Col. Arthur P. Burchall of the permanent staff and Lieut. Col. Russell L. Boyle of Crossfield, Alberta, 10th Battalion. Three Toronto officers were killed, Lieutenants MacDonald, Kirkpatrick and George Crowther Ryerson.

ment, the only one of any real significance since Neuve Chapelle, in which several Canadian battalions supported the British advance, the Canadians were billeted south of Ypres and took their twenty-four hour shifts in the front line. It is evident from all accounts that the first fighting units from Canada were in the thick of the attack—the greatest battle in which Canadians have ever taken part in the country's history, and "their gallantry and determination undoubtedly saved the situation."

This engagement is now going on with the Canadians still in the front line according to latest information.

CONGRATULATIONS The Canadians Performed Most Brilliant and Valuable Service.—Sir John French. Gallantry and Efficiency of Troops Thrills All Canada With Pride.—Sir Robert Borden.

OTTAWA, April 25.—J. J. Carrick, M.P., who is at the front with the Canadian troops, cabled to General Hughes that Sir John French telegraphed to General Alderson today as follows:

"I wish to express to you and the Canadian troops my admiration of the gallant stand and fight they have made. They have performed a most brilliant and valuable service. Last night and again this morning I reported their splendid behavior to the secretary of state, and I have a reply from him, saying how highly the gallantry and determination in a difficult position are appreciated in England."

Sir Robert Borden sent the following cable today to General Alderson, commander of the Canadian division:

"Report of the splendid gallantry and efficiency of division under your command has thrilled all Canada with pride. Warmest congratulations."

Sir Robert also sent the following cable to Earl Grey in reply to a congratulatory message.

"Deeply appreciate your message. Canada is very proud that her sons have upheld so worthily the splendid traditions of our great pioneer race."

Lord Brooke of Gen. French's staff cabled General Hughes Saturday:

"Heartiest congratulations on magnificent behavior of Canadians."

General Hughes replied:

"Sincere thanks for message. Please convey to Sir John and the Canadians the pride and joy of their comrades in Canada for the part they have so nobly played. The Canadians have justly proved that there was no surrender, and that, by whatever fault the guns were lost, they were not allowed to remain in possession of the enemy."

LT.-COL. M'HARG REPORTED KILLED

He Held Title of Champion Rifle Shot of the World.

LIVED IN VANCOUVER

Served With Distinction in South African War and Wrote a Book.

The late Lieut.-Col. W. Hart McHarg of the Sixth D.C.O.R. Vancouver, was the champion rifle shot of the world, winning the title at the last international rifle matches at Camp Perry, Ohio, in 1913. He won the governor-general's prize on two occasions, being one of the only two men who ever won the honor twice at the D.C.R.A. meet here. His record at Bisley and the Canadian annual rifle matches has few equals.

Major A. T. Hunter is one of the most popular and best known of Toronto's military officers. He is the son of the late John Howard Hunter, provincial inspector of insurance for Ontario. He was a graduate of Jarvis Collegiate and Osgoode Hall, and is recognized as an authority on insurance law. As a member of the legal firm of Hunter and Hunter of the Temple Building, he enjoyed an extensive practice. His home is at 469 Indian road.

BATTLE'S SECOND STAGE IS APPARENTLY ENDED VICTORY IS DECISIVE

Exchange of Official Messages Indicates That Canadians Are Now in Undisturbed Possession of Field

The second stage of the second battle of the Yser is apparently ended, so far as the Canadians are concerned, with the recovery of the territory lost in the German surprise attack on the French north of Ypres with the use of asphyxiating gas bombs, for last night word came to Ottawa of the congratulations sent to General Alderson, commander of the Canadian division, on the gallant conduct of the Canadian troops and their service to the general allied cause.

"I DON'T EXPECT TO RETURN HOME"

Prophetic Remark of Gallant Toronto Officer, Killed in Action.

LT. MADO MACDONALD

Rose From Private to Commission and Was Efficient Officer.

Lieut. Mado Donald Macdonald, reported killed in action, is a son of Donald H. Macdonald, 1017 Bathurst street. He was 23 years of age, and had been a member of the Queen's Own for about ten years. As commander of a machine gun section he was considered as one of the most efficient in the first Canadian division. The late officer rose from a private to a commission. In 1910 when the Queen's Own made their memorable trip to England Lieut. Macdonald was then senior color-sergeant in the regiment and accompanied the group of officers and men to Balmoral Castle, where they were received by the King. He was the only non-commissioned officer to receive a Victoria Cross.

Capt. G. O. Lees, Victim of German Bullets, Was Prominent Golfer.

Capt. Alfred C. Bastedo, son of John M. Bastedo, 4 Jean street, Rosedale, whose name appears in today's casualty list, was born in Milton, Ont. He is 23 years old. He was a member of the local militia in Milton for five years. At the time war was declared he was captain of the seventh company, Halton Rifles.

ONE OF CANADA'S FINEST ATHLETES

Capt. Gerald O. Lees of the 13th Battalion reported killed, was one of the best known athletes in Canada, being especially prominent as a golfer. He was on the reserve of the Fifth Royal Highlanders of Montreal and when war broke out at once volunteered. He was a member of the Royal Ottawa Golf Club and in 1913 was runner-up for the championship. Capt. Lees was manager of the Ottawa branch of the brokerage firm of C. J. McCuaig, Montreal. Mr. McCuaig's son, Lieut. Eric McCuaig, is reported wounded.

BRITISH EXPLOIT AT HILL 60 WAS ONE OF FINEST IN HISTORY

CRISIS IN GREAT BATTLE PAST LOST GROUND BEING RETAKEN BRITISH REPEL FIERCE ATTACKS

Allies Taking Offensive Steadily Force Germans From Territory Captured in Surprise Attack on French Troops North of Ypres—Heavy German Attacks Directed Against British Forces End in Failures.

Special Cable to The Toronto World.

LONDON, April 25.—The critical stage of the battle precipitated by the Germans north of Ypres, on the British, French and Belgian lines, has apparently been passed, with the allies resuming the offensive and steadily pushing the enemy back. The big surprise gained by the use of asphyxiating gas bombs by the Germans appears to be overcome. A great deal of the lost territory was recaptured by noon today, and latest reports from the battlefield were that conditions were developing favorably for the allies. The Germans attacked Saturday night at several points along the British front from various directions — north, east and southeast — but they were met by a counter offensive as fiery and determined as their own, and were not able permanently to gain new ground, says the French report.

NO SUCCESS FOR ENEMY.

The French War Office also reports that Friday night and Saturday morning and afternoon the enemy made strenuous efforts to avail himself of the surprise he had engineered the day before with his asphyxiating gas, but had no success. At break of day on Saturday, on the left bank of the Yser, where the Germans had penetrated, they succeeded in carrying the Village of Lizerne, but the French Zouaves and Belgian Carabiniers immediately rallied, made a vigorous counter-attack, recaptured the village, and passed beyond it. It was discovered Saturday afternoon that the Germans were using two army corps in their attempted advance, and they continued to throw bombs filled with deadly gas. The French and Belgians were able to make rapid progress on their right, but their progress was slower on their left.

VIOLENT ATTACKS ON BRITISH.

In the meantime, the British troops were forced to withstand violent attacks throughout Saturday night and Sunday morning. These ended with the British in possession of the field. Thus was the French right firmly held.

LIZERNE RECAPTURED.

The Belgian War Office confirms the recapture of Lizerne, and reports that the Belgian artillery was able successfully to reply to the German artillery fire, which was directed against the whole of the Belgian lines. The Belgian aviators were hampered by a strong wind, but they were able to make useful reconnaissances. Sunday's fighting was devoted by the French forces to the clearing of the Germans from the north bank of the Ypres Canal, to which they had penetrated in their rush.

GERMAN CLAIMS.

The official report of the German War Office, received here by wireless today, claims the capture of St. Julien Village, north of Ypres, together with the Solert farm, and Kesselaere, and made an advance towards Gravenstafel. The Germans report the capture of about 1000 British troops. The enemy also claims that counter-attacks of the British west of St. Julien, and west of Wiel, were defeated with heavy losses. This report is evidently earlier than the French afternoon and evening communiques.

The official accounts follow:

The following French official communication was issued by the war office tonight: "To the north of Ypres the battle continued under conditions favorable for the troops of the allies. The Germans attacked at several points along the British front from various directions, north, northeast and southeast, but they were not able to gain ground. "On our side we have progressed on the right bank of the canal thru vigorous counter-attacks."

Lizerne Retaken.

The following statement was issued this afternoon at the Belgian legion: "Lizerne (Belgium, west of the Ypres Canal), which was taken by the enemy on Friday night, has been retaken today by Franco-Belgian troops. "Our artillery has replied successfully to a fire directed at the whole length of our front by German batteries."

"Notwithstanding a very strong wind our aviators have been able to make useful reconnaissances."

Progress to North.

The French War Office statement this afternoon follows: "In Belgium our counter-attacks continued successfully in close cooperation with our allies. The Germans who attacked us with two army corps, continued to employ asphyxiating gases during the day. Some of their projectiles, which did not explode, were found to contain a large quantity of these gases."

"We have made considerable progress towards the north, on the right bank of the Ypres Canal. The Belgian troops, notwithstanding the violent attack of the Germans Saturday evening, have on our right maintained all their positions."

Gained Little By Surprise.

The following official communication was issued by the war office last night: "To the north of Ypres the Germans during the night of April 23-4 and during Saturday made strenuous efforts to avail themselves of the surprise they had engineered the day before with their asphyxiating gases. Their attempt failed."

"On Saturday, at break of day, on the left bank of the Yser, they had succeeded in carrying the Village of Lizerne. The French Zouaves and Belgian Carabiniers, however, thru a vigorous attack, recaptured the village, which we soon left behind us, and in conjunction with the Belgian army, we made perceptible progress on our left. On our right we advanced more slowly."

"During that time the British troops were subjected to a fierce attack. They immediately replied by a counter-attack, the result of which is not yet known."

German Account.

The German army headquarters gave out today the following report at Berlin: "We obtained further results at Ypres. The ground captured on April 24, north of Ypres, was still retained yesterday in spite of the attacks of the enemy. Further east we continued our attack and took by storm the Solert farm, southwest of St. Julien, as well as the villages of St. Julien and Kesselaere, and advanced victoriously towards Gravenstafel. BRITISH HEROICALLY FOUGHT WAY THRU WATERS UNDER HEAVY FIRE FIGHT AT HILL 60 WAS TERRIFIC

Attack and Later Defence One of Finest of British Exploits—Tons of Deadly Explosives Hurlled Upon Small Area For Hours By Germans.

LONDON, April 25, 7 p.m.—"Trenches, parapets and sandbags disappeared," says the British official "eye witness" in describing the effect of the explosions of the British mines, which preceded the attack and capture by the British of Hill No. 60 to the southeast of Ypres recently.

"The whole surface of the ground," the narrative continues, "assumed strange shapes. Here it was torn in to huge craters; there large mounds of fallen debris were to be seen."

"As the reports of the explosions died away and while dense columns of smoke and dust still hung in the air, our men, led by their officers, sprang from the trenches and rushed across the intervening space of some 40 to 60 yards, lying between our line and the gaping craters before them, the front covered by the attack being only some 250 yards in length."

"Where the mines had actually exploded nothing was left of the occupants of the hostile line, but in the neighboring trenches our assaulting infantry witnessed an extraordinary scene."

"Many German soldiers, possibly owing to the fact that they were working, were surprised while in their shirt sleeves and without equipment. Stunned by the violence of the explosions, bewildered and suddenly subjected to a rain of hand grenades thrown by our bombing parties, they gave way to panic."

"Cursing and shouting, they were falling over one another and fighting in their hurry to gain the exits leading into the communication trenches. Some of those in the rear, maddened by terror, were driving their bayonets into the bodies of their comrades in front of them."

"Of all this our infantry had but a momentary glimpse before they fell upon the enemy with the bayonet, burst into the maze of trenches, peered into the craters and pressed on down the communication trenches until at last they were stopped by barricades defended by bomb throwers."

"The first line of trenches was captured in a few minutes with little difficulty by our hundred prisoners fell into our hands, but it was then that the real struggle began for the Germans alone, surrounded from their surprise."

"From our line the hill is a salient, which is exposed to fire from three sides and it was only a few minutes before the German gunners took advantage of this fact and opened fire. Soon the whole position became a scene of the smoke of bursting shells. Meanwhile our batteries had begun to support the attack, and a terrific artillery fire was maintained far into the night."

"Continuous Flashes. "From many points along our line to the north and south of Hill 60 could be seen the flashes from the shells, while the flashes from the machine guns were so nearly continuous that they resembled the effect of a machine gun. Under this fire our men had to work, throwing up parapets toward the enemy, blocking their communications and generally rendering the position defensible."

"Not was the enemy's infantry riding

Britain Wants More Men

We Want Them Now So That They May Play an Important Part in the Struggle, Says Dr. T. J. MacNamara.

LONDON, April 25.—(8.23 p.m.)—Addressing a recruiting meeting today, Dr. Thomas J. MacNamara, parliamentary secretary of the admiralty, said: "If you assume that Earl Kitchener is not only gratified but satisfied with the response to the call for volunteers, you fall into a very serious error. We want more men. We want them now, so that they may be properly trained to play an effective part in the struggle."

Advancing up the communication trenches, they threw hand grenades over the barricades and also into the mine craters, on the crumbling sides of which our men were clinging in an endeavor to obtain a foothold."

"Timely Reinforcements. "Throughout the night the fighting continued, culminating early in the morning of the 18th in two massed attacks by the enemy, which were beaten off, principally by the fire of our machine guns, some of which had been rushed up."

"Surrendered in Panic. "The narrative continues, 'assumed strange shapes. Here it was torn in to huge craters; there large mounds of fallen debris were to be seen.'

"Bombardment Renewed. "Prior to this the close proximity of the contending sides had led to a slackening in the bombardment; but it then broke out afresh, and with almost as much intensity as the preceding evening. Our position, however, now was more secure, and, altho the shelling and bombing never ceased altogether, the night may be said to have passed in comparative quiet."

"The troops who opposed the British on Hill 60, the 'eye witness' says, were composed of Saxons and men recruited from all parts of Germany."

"The narrative says the bombardment was maintained Monday, April 19, and that the Germans extended their shelling to the entire Ypres area, including the town itself, in which, it is asserted, 15 children were killed. Toward evening the Germans made another attack on Hill 60, but the 'eye witness' asserts, 'again did our machine guns do tremendous execution and the attack was beaten off.'

"Foe Fought Stubbornly. "Another attack at eight o'clock in the evening," the narrative continues, 'suffered the same fate. Still the Germans long parties armed with hand grenades made repeated efforts to drive us off the hill, their attacks alternating with bombardments from artillery of all kinds and also trench mortars.'

"By Wednesday the 'eye witness' says, 'the British had firmly established themselves on the hill.' "The attack upon and the defence of Hill 60," the narrative declares, 'will go down in history as one of the finest exploits of the British troops during the war. Officers who experienced the bombardment prior to the attack of the Prussian Guard on the 11th of April, and also understood that directed against Hill 60, say that the latter by far was the worst of the two.'

"Concentrated Fighting. "What our troops witnessed can in some degree be realized if it be remembered that the spaces fought over during four and one-half days was only about 250 yards in length by about 200 yards in depth."

"Upon that small area the enemy, for

CANADIANS' FEAT FILLED LONDON WITH REJOICINGS

News of How They Undoubtedly Saved Situation Flowed Over Empire's Capital.

SATISFACTION INTENSE

Position Looked Serious After Canadian Troops Sprang Forward.

Canadian Associated Press Cable. LONDON, April 25.—Scenes in London yesterday upon the announcement of how the Canadians had "undoubtedly saved the situation" brought to mind the well authenticated story of what happened on the eve of a big enterprise in one of our Egyptian campaigns. The commander of the men: "Take the news must be in London tonight." The night news of what the Canadians had accomplished was in London. It was in Toronto, Montreal, Quebec, St. John's, and other parts of the Empire. Every single evening newspaper in the Empire carried the news of the Canadian feat. The same is true of the cheap papers in London. At the latest official record of Canadian gallantry, let it clearly be understood that there were no noisy, boastful exhibitions in public places or private places either.

Canadian Honors. It so happened that a special number of Canadian Honors was issued from Shorncliffe in London, parading the streets with friends, enjoying their well earned rest, and naturally as a result of the Canadian feat. The men who had been in the eyes of London's population do not consider it a feat of imagination to record that they had undoubtedly carried their heads higher. Many of them attended a concert in Albert Hall, which was graced by the presence of the King and Queen, and were pointed out to their children by their parents, but neither here nor anywhere else was there any boasting.

Intense Satisfaction. A feeling of intense satisfaction at the Canadian achievement was in the reflection that the British Empire had undoubtedly saved the situation with their lives. If the war was finished tomorrow it is doubtful that there would be any demonstrations. In truth, everybody is convinced that the war will not finish tomorrow, and the price of crushing the spirit of the enemy will be grievous.

Views of J. L. Garvin. J. L. Garvin, editor of The Observer, whose sober and sane analysis of the phases of the war has earned it a weekly war notes a degree of respect in an estimate of the Canadian achievements, thinks that the Canadians must have already sent news to their country that they are retaking the ground. "Things certainly have been looking better for the allies, even when the French advance again started."

Took Their Chance. "Fighting in the Ypres area, where the Canadians had their chance," continues Garvin, "and the men of the Meuse-Infantry set their teeth to the charge which will stand out in the annals of this war, no matter what may yet bring. The Canadian soldiers' reconnoitered on the night of the 18th, and the achievement of the name of Canada is nobler in the world today and forever."

Touching the political aspect of the Canadian feat, the editor of the Observer remarks that the Canadian feat today. It will be a triumph for the British Empire, and New Zealand's triumph tomorrow in a situation so far-reaching as this, the achievement of the name of Canada is nobler in the world today and forever."

What Goodyear Means

An Unusual Story of a Canadian Industrial Of Special Interest to Motorists, Truck Owners, Motorcyclists and Manufacturers

How it grew from a small room to a large plant. Four-man pay-roll is increased to 800-man pay-roll in five years. An investment of a few hundred dollars grows to one of millions

THIS is not a story of self-praise. Modesty prevents us from claiming all we could. But we do believe men are interested in success stories such as this. We are but one of the innumerable industries that have struggled up from small beginnings.

It now holds an enviable position in the Canadian manufacturing world. We won this place through five years of business evolution. Capital alone won't build manufacturing success. It only postpones a failure. Master salesmanship alone can't build a permanent success. Good management can temporarily make a poor product seem promising. The sure test, the final test, is just the record of the product. We submit to you here, then, the story, not of ourselves, but of Goodyear products.

We think you will agree when you read this, that there is scarcely a business story in Canada more interesting and human.

When four Goodyear employees worked together in a little 30 x 60-foot room at 85 Queen Street East, Toronto, in 1910, little did they realize how quickly that small space would be magnified over 70 times.

They knew business would grow. They had faith in themselves and in their product. They saw the tremendous possibilities in the Canadian rubber demand. They would build here at some industry to meet that demand.

Today the big factory at Bowmanville, the six-storey General Office Building in Toronto and the ten Branch Offices throughout Canada have proved their fondest hopes.

The public confidence in Goodyear products has made possible this Goodyear growth from small beginnings. See what this growth has meant.

The Goodyear Tire & Rubber Company of Canada, Limited, has over two million dollars invested in Canadian property and Canadian factory equipment. For the products that we sell you are made in our own factory at Bowmanville, Ontario, by Canadian workmen. Our pay-roll for these workmen must be one of the largest in the Dominion.

The Bowmanville Plant

In the latter part of 1910 we purchased the plant of the Durham Rubber Company at Bowmanville, Ontario. The total floor space was 40,150 square feet. Remodelling was immediately begun. New buildings were erected. New machinery installed. About 70 men were employed. The capacity was 25 automobile tires per day.

Today the plant is set in a tract of 35 acres, and has a floor space of 116,884 square feet! The pay-roll has reached a maximum of 718 employees. The maximum capacity is 1000 tires per day. The factory is completely equipped with the most modern machinery for the manufacturing of Automobile, Truck, Motorcycle, Bicycle and Carriage Tires, Hose, Belting, Packing, Moulded Goods, etc. Over 500 different kinds of articles can be made.

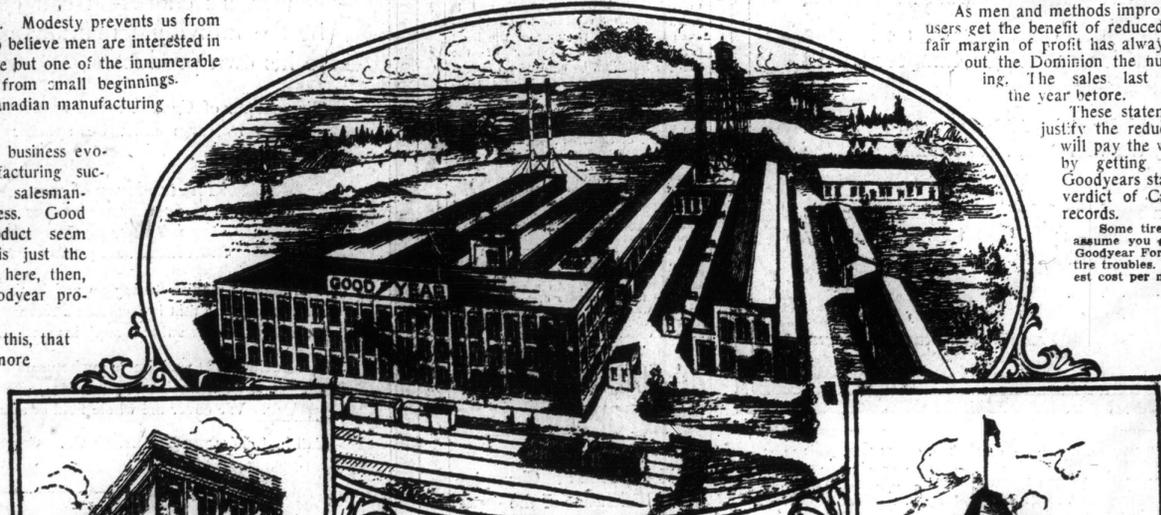

The Bowmanville plant embodies efficiency to the last degree. Factory organization and processes are so perfected as to produce greatest value at the least expense. From the purchase of raw materials to the shipping of the finished product, every operation is backed by minute inspection.

This Service, Too, Is Yours

But Goodyear obligation does not end when we sell a Goodyear product. It begins there. There are ten branch offices, located in Montreal, St. John, Ottawa, Hamilton, Winnipeg, Regina, Calgary, Edmonton, Vancouver and Toronto, with 137 Goodyear employees to assist our dealers in satisfying your wants. For only in this way are you insured of proper service.

There are hundreds of Goodyear dealers throughout Canada. No matter where you are, you know that not far away is a Goodyear dealer. This means quick deliveries—no delays, no inconvenience.

Factory, branch offices and dealers are knitted together in a co-operative sales organization by the general office in Toronto, where the officials and their assistants are located. Here are evolved the manufacturing and sales policies. You can see what such service as this means. It saves in time, in trouble, and expense.

As men and methods improve, quality improves. As output multiplies, users get the benefit of reduced prices. To give the utmost at the lowest fair margin of profit has always been the Goodyear standard. Throughout the Dominion the number of satisfied users is rapidly increasing. The sales last year were 29 per cent. greater than the year before.

These statements are not offered as boasts—but to justify the reduced prices—to explain why the Company will pay the war tax—to show how the user will benefit by getting greater tire value than ever before. Goodyears stand top-high in quality. This has been the verdict of Canadian users, attested by Goodyear sales records.

Some tires cost more, we will not reason why. But don't assume you get extra value because you pay an extra price. Goodyear Fortified Tires combat in five exclusive ways the chief tire troubles. Goodyears hold top place because they give lowest cost per mile.

Fortified Tires

In five costly ways—ways that no other maker has—Goodyears are fortified against all major tire troubles. That's why they average best.

Here are the five reasons why every Canadian motorist should have Goodyear Fortified Tires. These features can be found in Goodyears alone:

1. No-Rim-Cut feature combats rim-putting in best way known.
2. Countless blowouts are avoided by our "On-Air" cure.
3. Loose treads are combated by forming in each tire hundreds of large rubber rivets.
4. Security against blowing off the rim and tube pinching, gained by vulcanizing six flat bands 128 braided piano wires into each tire base.
5. The All-Weather Tread combats puncture by being tough and thick. It resists skidding as no other tire does by its sharp-edged, bulldog grip.

These are the reasons why Goodyear Fortified Tires excel all other makes—why they are outlasting any other tire that's made. Every tire trouble brings you nearer to Goodyears. They have averaged best in every province.

Right Inner Tubes

Goodyear Laminated Tubes are built layer on layer. This prevents leaky tubes due to porous rubber. Records show that tubes built in the Goodyear way outlast any tire. Four tubes outlast five castings.

This year Goodyear Inner Tubes are better than ever before. Small sizes have been thickened 13 1/2 per cent. Large sizes 16 2/3 per cent. Yet they are built of pure rubber, all-ways. Tubes that weigh more than Goodyears gain nothing in durability. Sixty for a dollar. Heavier tubes owe their weight to excess mineral matter, causing hardening and cracking.

This means that today's tubes average 14 per cent. better—yet the price is one-fifth less. This added strength and wear have increased Goodyear Tube popularity. Increased production has lowered the cost to you.

Economy for Truck Owners

For many years Goodyear engineers have been developing truck tires. Much of this work has been directed on heavy service tires. Thousands of dollars have been spent in tests and investigations. In all, twenty-nine distinct types of Truck Tires have been designed. In the evolution of one alone seventy-four separate tire structures were built.

Goodyears mark today's finality in Truck Tire service, durability, simplicity and economy. It will take some makers years to do what Goodyear experts have done in Truck Tire development: 1915 Goodyear Truck Tires inspire a confidence that others cannot give.

And this Goodyear aim for utmost tire efficiency will never cease. Our experts will continue to investigate, test and improve.

Goodyear Motorcycle Tires Give Extra Mileage

Men thought no better motorcycle tires than Goodyears could be made. They won and held top place. Yet the Goodyear Company has made this year six further improvements without increasing prices.

The popularity of Goodyear Motorcycle Tires must be greater this year than ever before. For the new added features come in spite of lowered cost to you.

"Blue Streak" Bicycle Tires Built for Rough Going

Goodyear "Blue Streak" Bicycle Tires are made in the same factory, by the same experts who make the Fortified automobile tires. The same high standard of workmanship goes into every bicycle tire. "Blue Streaks" have proved in actual road tests the utmost in bicycle tire construction. The body is of toughest white rubber. And they have the famous Goodyear "All-Weather" tread—rows of resilient, rugged blocks.

They grip wet streets firmly, yet give all the advantages of a smooth tread on hard, dry roads. These features, you can see, give maximum service. Bicycle tire troubles are minimized if you ride on Goodyear "Blue Streaks."

Goodyear Mechanical Goods

The Goodyear plant at Bowmanville does not make tires alone. We manufacture Mechanical Goods for factories, mills and power-houses. Belts of every kind—transmission and conveyor—are made for each particular Canadian industry—saw-mills, brickyards, elevators, paper-mills, power plants, mines—all the foremost industries.

We make specific belts for specific machines. You get the belt that will deliver the power all the time. Buying belts this way decreases shut-down losses—lost time, lost labor, lost product.

Hose—from the common garden variety to fire hose—is made by the mill. Some are for peculiar uses, such as for vinegar, or vacuum cleaners, or sand blasting. Canadian cities are protected by Goodyear fire hose. When you see rubber goods, note the name. Baby carriages have Goodyear Tires. Goodyear clothes wringer rolls help the busy housewives on wash day. Lacrosse players use Goodyear balls. Goodyear made-in-Canada products are part of every-day life, filling an urgent need here—giving pleasure there, turning the great wheels of commerce, or protecting lives and property.

This is our story of Goodyear. It was not written directly to sell you Goodyear products, for they must sell themselves. What we want is just a hearing. We have told you of our small beginning—of our first factory and its growth at Bowmanville. We have told you somewhat of Goodyear products and their record.

We want you to buy tires and mechanical goods from The Goodyear Tire & Rubber Company of Canada, Limited—not alone because they are made in Canada—not because our efforts alone have been commendable. We want you to buy Goodyear products because of their inbuilt superiority. Because you get greatest service, dollar for dollar, that you spend.

Goodyear policy toward employees does not stop at good wages and good factory conditions—but embraces practical outside welfare work.

The Goodyear Company believes that however perfect are factory conditions, it owes its employees even more. For no workman, though surrounded by perfect conditions at the factory, can reach his height of efficiency unless home and social conditions are of the best. That is why the Company itself has erected about 60 modern and attractive brick cottages, electric lighted, with hot and cold water. They are occupied by employees at a fair rental.

The basis for selection of employees is efficiency—not race, religion or politics.

The Goodyear Club is the Social Centre for all employees. Here also single men may room and board at reasonable rates. There are reading and music rooms, shower baths, billiard tables, bowling alleys and other attractions. Here meetings and social gatherings are held.

Every man and his family has voluntarily extended his co-operation in making outside conditions better. As a result there is health, happiness and content—which are so essential in complete efficiency.

Every buyer of Goodyear products benefits by this practical system of welfare work—for it is part of the quality bought, part of the satisfaction resulting.

Third Reduction in Automobile Tire Prices

For the third time in less than two years, the price of Goodyear Tires has been reduced. These have saved the user in all an average of 37 per cent. And now this third reduction during war times!

This price reduction, effective February 15th, in face of the new war tax, showed the Company's determination to keep the factory wheels moving. "Business as usual" is the slogan. The capacity of the plant has been doubled. To so enlarge the plant—to reduce the price—to pay the war tax itself—that is the Goodyear Company's expression of faith, not merely in its product, but in the judgment of the people. The response by the public—as already felt—has justified these progressive moves.

Every buyer of Goodyear products benefits by this practical system of welfare work—for it is part of the quality bought, part of the satisfaction resulting.

90 per cent is lost

It is a startling statement that of all the money paid by a leading life company to beneficiaries in seven years, 90% of it had been spent or lost. Yet that was proved by a careful investigation to be the case.

THE CANADA LIFE WILL PREVENT THIS LOSS.

Through our Continuous Monthly Income policy your beneficiary will have absolute certainty of an income of, say, \$50. monthly, which cannot be tampered with by foolish or designing advisers.

This income is guaranteed for at least 20 years, so that should the beneficiary—presumably the wife—die, it will continue till the youngest child is of age.

There are a number of features which make this the ideal policy. Booklet No. 283 tells interestingly about them. A post card will bring it to you.

President and General Manager.

Doctor Said Sciatica--- Rheumatism---Lumbago

But He Could Not Help Me, and Endorsed the Use of Dr. Chase's Kidney-Liver Pills.

Mr. Wm. Parker, 105 Cayuga street, Brantford, Ont., tells in the following letter of his remarkable experience with Dr. Chase's Kidney-Liver Pills: "My doctor treated me for some time for Sciatica, Rheumatism, Lumbago, but to no purpose, for I had to lay off work. The visiting officer of sick benefit called to see me and advised the use of Dr. Chase's Kidney-Liver Pills, stating that he had been cured of the same trouble by their use. I asked the druggist about them and he recommended them highly. Not being satisfied with this I went back to my doctor, and when he said they were good I began their use. The promptness with which they relieved the action of the kidneys and bowels was wonderful and it was not long before I was rid of all my trouble. "I was so bad that I could only walk by hanging on to a chair or the wall. My wife had to lace my shoes. Only those who have had this ailment can realize the way I suffered. I am writing this letter to let

people who have my trouble know of these pills. You are at liberty to use this letter, and if anyone interested will call or write to me I will give every detail. Write to Mr. Parker, enclosing stamp for reply, and he will verify this statement. He will do this out of the gratitude he feels for his cure and because he realizes how difficult it is to obtain the cure of these dreadfully painful ailments. There are so many treatments recommended for rheumatism that you naturally doubt them all. Here is an opportunity for you to verify the cure and put this great medicine to the test. It will only cost you a quarter to try Dr. Chase's Kidney-Liver Pills. They get at the very foundation of rheumatism, and by removing the poisons from the system take away the cause of pain and aches. CAPT. GEO. RYERSON KILLED IN ACTION

Son of Lt.-Col. G. Sterling Ryerson Among Those Who Have Fallen.
Capt. George Crowther Ryerson, who has been killed in action, and Arthur Ryerson, who has been slightly wounded, according to an official message received last night by Dr. W. H. B. Atkins, 131 West Bloor street, are sons of Lt.-Col. G. Sterling Ryerson, president of the Canadian Red Cross Society, who is at present in England, and who was recently in France inspecting the Red Cross work there. There were two messages, one from Ottawa and one from Lieut.-Col. Ryerson. The first said: "Deeply regret to inform you Capt. George Crowther Ryerson, 3rd Battalion, officially reported killed in action. Signed, Arthur Ryerson." The other message read: "George dead; Arthur wounded, not serious. Signed, Ryerson."

RELATIVES SEND WORD THAT SON IS WOUNDED

MAJOR A. T. HUNTER AMONG WOUNDED

One of the Most Popular of Toronto Military Officers.

WITH YORK RANGERS

Contested West Toronto as Independent Liberal Eleven Years Ago.

Major A. T. Hunter is one of the most popular and best known of Toronto's military officers. He is the son of the late John Howard Hunter, provincial inspector of insurance for Ontario. He was a graduate of Jarvis Collegiate and Osgoode Hall, and is recognized as an authority on insurance law. As a member of the legal firm of Hunter and Hunter of the Temple Building, he enjoyed an extensive practice. His home is at 469 Indian road.
Major Hunter's particular pride was the 12th York Rangers, he having been a member of that regiment more than 15 years. He was also regarded as its official historian, he having devoted much time to the preparation of a volume which traces its development and emphasized the value of its services in the northwest campaign of 1885. He was a regular attendant at the Long Branch ranges.
In politics he is an Independent Liberal, and in 1904 contested the federal riding of West Toronto against Sir Edmund Carter. As an speaker he is noted for his shafts of keen humor and he was much in request at public gatherings. Mr. Hunter's wife and several children are in Toronto.

LT.-COL. M'HARG REPORTED KILLED

He Held Title of Champion Rifle Shot of the World.

LIVED IN VANCOUVER

Served With Distinction in South African War and Wrote a Book.

The late Lieut.-Col. W. Hart M'Harg of the Sixth D.C.O.R., Vancouver, was the champion rifle shot of the world, winning the title at the last international rifle matches at Camp Perry, Ohio, in 1913. He won the governor-general's prize for two occasions, being one of the only two men who ever won the honor twice at the D.C.R.A. meet here. His record at Bisley and the Canadian annual rifle matches has few equals.
Besides being one of the best rifle shots that have ever represented Canada at a Bisley meet, Lieut.-Col. M'Harg was popular among the hundreds of friends who became attached to him in connection with his military life. He was about 45 years of age and was the son of a British army officer. In the South African campaign he served with distinction. An interesting account of the war as seen by M'Harg, with many sidelights gathered through the course of the struggle, were dealt with in his book, "Quebec to Pretoria," which is familiar to many Canadian readers.
Hundreds of prizes were won in rifle meets both in Canada and England. Besides being the winner of the governor-general's prize on two occasions at the D.C.R.A. meets at Ottawa, he was a creditable performer on several Canadian Bisley teams. As senior major of the 64th Regiment, the Duke of Connaught's Corps, of Vancouver, Lieut.-Col. M'Harg was a most popular officer.

YOUNG MEN WENT MAD IN TRENCHES

GENEVA, Switzerland, April 25, via Paris.—Dr. Scherer of Lucerne returned to Geneva today with a view to the asylum at Oberwilensfeld, near Munich, Bavaria.
"I never realized the depth of the war horrors," said Dr. Scherer, "until I saw hundreds of men, mostly young, who had gone mad. In the trenches, some lay quietly, oblivious to their surroundings; others, with burning eyes, watched every movement of the visitors and attendants."

LT. A. D. KIRKPATRICK WOULD NOT TAKE NO

Lieut. A. D. Kirkpatrick, who is reported killed in action, is the son of George T. Denison. The late lieutenant was 25 years of age and while in Toronto was in business with his father in the firm of Wood & Macdonald, insurance.
At the outbreak of the war Lieut. Kirkpatrick was a member of the Body Guards, with which regiment he had been connected for six years. He immediately volunteered for active service, but failing to be appointed he requested to be transferred to the army.
He then went to Valcartier to see his uncle Major A. E. Kirkpatrick, and was successful in being appointed lieutenant in the Queen's Own. His younger brother George, who is but 18 years of age, is a member of the artillery but is still stationed in Toronto.

TO THE CANADIAN MANUFACTURER

Will You take a Solo Part?

If this MADE-IN-CANADA movement is to have permanency and be something more than a convenient chorus—it can only be accomplished by the individual manufacturer giving publicity to his own product.

The people of Canada stand ready to support you! But your message to them must be specific and individual. As one publisher puts it—

"The tendency of many new advertisers, and even some of the older ones, is to stay with the chorus rather than to take individual solo parts for themselves."

You may be manufacturing an article that has never been advertised. Do not imagine that it cannot be advertised. The mere fact that you are selling it shows that it supplies a want.

Our business is to advise manufacturers as to whether they can advertise—to show them how to advertise—where to advertise—and by what methods. We cover the whole field of advertising effort.

"I DON'T EXPECT TO RETURN HOME"

Prophetic Remark of Gallant Toronto Officer, Killed in Action.

LT. MADO MACDONALD

Rose From Private to Commission and Was Efficient Officer.

Lieut. Mado Donald Macdonald, reported killed in action, is a son of Donald H. Macdonald, 1017 Bathurst street. He was 24 years of age, and had been a member of the Queen's Own for about ten years. As commander of a machine gun section he was considered as one of the most efficient in the first Canadian division. The late officer rose from a private to a commission. In 1910 when the Queen's Own made their memorable trip to England Lieut. Macdonald was then senior color-sergeant in the regiment and accompanied the group of officers and men to Balmoral Castle, where they were received by the King. He was the only non-commissioned officer to receive a Victorian Order.
Didn't Expect to Return.
Ever by members of his own company he was known as "Mado," and no officer was more popular. He was a prominent member of the Rosedale Golf Club, and many fellow members joined his machine gun on the outbreak of the war. His section at one time in Salisbury had a waiting list of fifty men anxious to get placed. Before leaving England for the front Lieut. Macdonald remarked to a friend: "I know exactly the work that is ahead of us, and I don't expect to return. If one is a member of a suicidal club he can't expect to come out of it." A machine gun section was invariably dubbed a suicidal club by the soldiers, on account of the dangerous nature of the work.

MADE IN CANADA

Join "the live-a-little-longer movement" by cutting out heavy, indigestible foods—the kind that harden the arteries and put the liver out of business. SHREDDED WHEAT supplies all the material needed for building the perfect body and for keeping the mental and physical powers at top-notch efficiency with the least tax upon the digestion. It is ready-cooked and ready-to-serve—always the same quality, always the same price.

SHREDDED WHEAT
Shredded Wheat is made in two forms, BISCUIT and TRISCUIT—the Biscuit for breakfast with milk or cream, or with fruit; the Triscuit, the wafer-toast, delicious for luncheon with butter or soft cheese, or for any meal as a substitute for white flour bread.

Canadian Machine Telephone
Company Lose Heavily
Thru Fire.

WM. HAMNET KILLED
Hurrying to Help Farmer
When He Was Struck
Down.

The terrible thunderstorm which burst on Toronto last evening was responsible for the loss of the Canadian Machine Telephone Company building and contents. The building, at East Adelaide street, between Queen and Dundas streets, was destroyed by fire. The fire started in the basement of the building, and spread to the upper floors. The fire was extinguished by the fire department, but the damage was extensive. The building was insured by the Commercial Union Assurance Co. of London, England.

William Hamnet, caretaker, discovered the fire at seven o'clock, and the fire department arrived at 7:03. Churchill told the firemen that he was working on the second floor when a flash of lightning struck the building, and he was struck by the lightning. He was taken to the hospital, but he died there. The fire started in the basement of the building, and spread to the upper floors. The fire was extinguished by the fire department, but the damage was extensive. The building was insured by the Commercial Union Assurance Co. of London, England.

Hamnet and Russell were hurrying to the scene of the fire at Meagher's farm when the former was killed. Russell says the lightning seemed to break right in front of them, and at the same instant he felt a terrific electric shock, which threw him to the ground. He was struck by the lightning, and when he got on his feet again saw Hamnet still lying on the ground, and his hat, torn to shreds by the force of the lightning, was lying a few feet away from him. Believing his companion was also merely stunned, he attempted to arouse him, but failed.

Russell called an officer, who summoned Dr. Bond. The physician tried resuscitation exercises on Hamnet for about a quarter of an hour, but the flash of lightning had done its work instantly. It left not a mark on the body, only shattered his hat. Hamnet was married and had one child, 18 months old. The body was removed to Miles' private morgue.

This Is GAS Range Week

6 Days of Great Activity

APR. 26 This week has been set aside for the special benefit of the citizens of Toronto who are contemplating the purchase of a GAS RANGE.

APR. 27 This is also CLEAN-UP WEEK throughout the City. Why not make a clean-sweep while you are at it?

APR. 28 Put an ALL-GAS KITCHEN in the place of your coal kitchen and be assured of cleanliness all the time.

APR. 29 We are this week displaying all that's new and up-to-date in Gas Ranges and invite you to inspect them.

APR. 30 Hundreds of people will be turning over from the old to the new during this great Gas Range campaign. Just think what an improvement it would be to have a bright, sanitary Cabinet Gas Range in your kitchen. How cheerful everything would look, and how pleasant to take your friends in and show your home-like and modern kitchen to them.

MAY 1st The Gas Company guarantees all its Gas Ranges. Payments easy. Free connections (6 feet) of piping being allowed.

Australia's Transcontinental

Railroad development in Australia has proceeded very differently from that of Canada. This is no doubt attributable in part to the fact that the commonwealth is an island continent...

By the end of this year in all probability Australia will have its first transcontinental railway available for traffic, and it will be possible to travel by rail from Brisbane, the capital of Queensland, on the east coast, to Kalbarrie, in West Australia, a distance of 5000 miles.

The railroad is being built by the commonwealth government, about 2000 men being employed. The route is described as fairly level, and contrary to the common belief the country is reported to have large pastoral districts, with evidence of artesian and sub-artesian water in plenty for at least 900 miles.

Censoring the Picture Drama

There is evidence that in the censorship of moving picture dramas there is a greater observance of the letter than of the spirit of the law. This, perhaps, is the fault of the law. Or it may be the result of over-work on the part of the censors.

The moral of a drama is a far more important affair than the local color of the language. But how are these things to be determined? The educational value of the moving picture, whether in drama, in natural history, in travel, or in any other department, is immense.

Recently a play was put on, purporting to be a Toronto drama, the scenery being laid in this city, and the atmosphere being frankly that of Lake Ontario. The plot of the play was that of a young woman, having an unfaithful husband, wearing him, and falling under the wings of a man about town. This person presently announces his engagement to another woman, and his married lover thereupon stabs him.

HE HAS TO GET OUT.

and joy of the Toronto force, "detests" her, and after hearing her story, informs the company that he finds no evidence against the lady, and the murder must remain a mystery.

This drama is going all over America presumably as an example of Toronto morals, and Toronto detective methods. What do the censors think of it? What do the detectives of Toronto think of it? It seems to us that a story of this kind is much more detrimental to the public, and much more impatronic than many of the things that are barred altogether.

Perhaps it was intended as a satire on our provincial police, who are either allowing the guilty to escape for sentimental reasons, or failing to discover their identity. Yet a satire of this nature would surely call for censorship of some description.

Enemy Property in England

In his last annual report, issued recently, the English Public Trustee includes a statement of the enemy property held by him under the Trading With the Enemy Amendment Act and the Proclamation of September 3, 1914. Up to the latest date available the enemy property registered in England and Wales reached the large total of \$123,000,000, and this, it is believed, will be increased to upwards of \$500,000,000.

As regards the regular duties of the public trustee the report shows further progress. Last year the new business totaled not less than \$110,000,000. Since the department was established in 1908 the aggregate value of the business accepted reaches \$860,000,000. On March 31 of this year the investments held totaled \$278,000,000, and the average rate of interest received was a little over 4 per cent.

A War of Ideals

In the current issue of The Queen's Quarterly Dr. John Watson discusses German philosophy and politics. "It may fairly be claimed," he writes, "in introducing his subject, that in England and in her free colonies, there has been in recent years a growing feeling in favor of the settlement of international disputes by agreement rather than by the cruder method of a resort to arms; while in Germany precisely the reverse is true, the dominant party there being possessed by the idea that the main purpose of the state and of its organization is that of national expansion.

for freedom; of the latter, the aspiration after national power and dominion, even at the expense of freedom."

Altho it is undoubted that the very existence of the British Empire is involved in the successful prosecution of this war, it is none the less true that in entering upon it the empire is upholding not only its right to free development, but the right of every nation, even the smallest, to its own independent life. In one of his great speeches, Mr. Asquith quoted the late W. E. Gladstone as saying during the war of 1870, that "the greatest triumph of our time will be the enthronement of the idea of public right as the governing idea of European politics."

Clean-Up Week

Clean-up week has come round again and there is no reason why it should not be combined with the give-a-man-a-job movement, which was the topic of interest a little while ago. That does not seem to have been as successful as had been expected, chiefly, perhaps, for the reason that most men with a little job to do have been doing it themselves this year. In the clean-up movement there is more room for expansive ideas. The work is somewhat arduous at times, greater than the average householder has time to devote to, and heavier than he cares to ask his women-folk to undertake.

Moreover, from the point of view of health, economy and comfort. Much disease is bred in foul and dank corners where shabby and useless odds and ends are allowed to collect. In garden patches the heaps of refuse and rubbish which gather are fine shelters for all sorts of insect life in early stages, which is better disposed of in the fire than allowed to torment the community later on.

THE HINDU QUESTION.

Editor World: As the question of the immigration to Canada of the Sikhs or Hindus is again discussed thru the press, let me ask your indulgence and space to say a word in this connection.

As most of your readers are aware a number of these people came to our shores some months ago asking for citizenship, and as many thought them, and now with clearer visions, many more believe they were shamefully treated at that time, and are now willing to give at least a fair hearing to their case, and with the market change in public opinion since that time I do not believe they would be so treated today.

From what I know and learn of the Hindus, they would make excellent citizens, being a sober, industrious, thoughtful people, who have been touched by the wand of progress and a desire to emigrate to other parts of the empire to improve their condition, quite a laudable ambition on their part surely, while Canada has been spending large sums of money to secure much less worthy people to settle on our lands, for which the Hindu is peculiarly adapted.

I am aware that the objections raised have been largely due to prejudice and a lack of knowledge of the facts of the case. These people are certainly our equal morally and intellectually, and superior physically. I believe, as we really are, and in seeking reality, while we are chasing after the superficial and the mythical. They are taught to develop the divine within in the cog of the machine, and it struck me how simple and rational was the way of the Hindu as compared with our puzzles and riddles, which but confuse all thought.

Our position reminds me of the barn yard row who, if one of their number looks or acts differently from the others, they are apt to turn on it and peck it to death. "What slaves to custom we are!" What if we differ slightly in color and custom, but the greatest minds the world has produced differed from us in color, habits and language. These things are but trifles when many different people are compared with their ethical teachings, which are practically the same as ours, as the great universal spirit touches all making us brethren, regardless of race or color.

In the awful war now waging, we see the prince and peasant, Briton and Hindu, standing side by side in defence of our common empire, all making the same sacrifices, and when the conflict is over, we shall see in the new world of values, based not on wealth nor race nor color, nor position, but on integrity, justice and helpfulness, many differently colored people of the Hindu population will be dealt justly by. They cannot be ignored. I feel sure there will arise among them many attractive, and guiding influences, not only of India, but with the other dominions have a voice in shaping the future of the Greater British Empire. Let us, then, treat these people as citizens and not as aliens. We owe it to them; it is our duty; let us do it.

SHARP CRITICISM BY PROF. S. BLAND

Winnipeg Speaker Says Party System is Perpetual Civil War.

SERMON TO STUDENTS

"New Social Order is Crying Need," Graduates Are Told.

Sharp criticism of the existing social order, the political life, and the role played by the church in modern life, was made by Prof. Salem Bland of Winnipeg, at the Victoria College baccalaureate sermon in Convocation Hall yesterday morning. The party system was made the subject of remark when the speaker asserted that it meant "a perpetual civil war, and belonged to an age of intellectual and moral immaturity."

"The supreme duty of the church if it is to preserve her life, is to create a new social order, in which the principles of Christ can be practised as the present order. You will find honor, money, comfort and pleasure. You will go into the pulpits of our land and fire off blank cartridges all the days of your life. You will go into the legal profession, to which the worst features of our social order are particularly due."

In closing, the speaker urged the student to higher ideals, and to have courage to go out into the unknown. Chancellor Bowles gave a short address to those graduating.

BIG ELEVATOR BUSY AT PORT COLBORNE

PORT COLBORNE, April 25.—The government elevator, which commences operations for this present season on Wednesday noon last, and large quantities of grain are arriving daily from Chicago, Duluth and Port William. For the first three and a half days since the opening, one and a half million bushels of grain have been elevated. Today the steamer W. Grant Morden, with a cargo of 442,000 bushels of wheat, was discharged in 11 hours, which constitutes a record for a cargo of this size.

Panama Pacific Exposition.

A trip to California will afford the traveler an infinite variety of attractions. The C. P. R. is ticketing passengers via Chicago and the many routes thence to San Francisco, returning via Vancouver and their own line, or passengers can go via C. P. R. and return via Chicago. The quick train to San Francisco can be taken via Chicago and Denver or via Kansas City, the route via Salt Lake City or via Williams, whence the Grand Canyon of Arizona is visited, can be chosen. The orange groves at Los Angeles and San Diego are well worth a visit at this season of the year, and the Coast Line to San Francisco can be taken through Santa Barbara and Monterey. San Francisco is an interesting city, but probably the Exposition is the greatest attraction at the present time.

Imperial Remount Commission.

The British army officers have again commenced purchasing operations for army remounts at the Union Stock Yards horse department. Two inspections will be held this week, on Tuesday, April 27, and Thursday, April 29, commencing each day at 9 a.m. Artillery and cavalry horses will be bought. The officers will not buy any white or gray horses, and do not want any horses with heavy, coarse hair on their legs.

HERBERT TO PITCH THE OPENING GAME

Leafs Start International League Season Tomorrow at Richmond.

RICHMOND, Va., April 25.—The Toronto ball team arrived here tonight for the opening game Tuesday. It was a tough seven hours' run, a hundred in the shade, but apart from grime and what goes with it, the men are on their toes. They work out tomorrow morning for an hour. It looks like Herbert to pitch the opener. He is in splendid shape and the team is confident and happy. The line-up is likely to be the same as in the practice games, with O'Hara in the outfield, probably in place of Graham. That is not, however, decided yet.

Wilson left Durham for Toronto to work at his home foot. Manager Clymer has decided to send Aid to a smaller league as soon as possible. He purposes carrying six pitchers and a utility man to make up his 16. He expects a big league pitcher to report to him, he hopes, here. He has until May 1 to decide whether he will buy Brown from Washington.

The other openings are: Wednesday, Buffalo at Providence; Thursday, Montreal at Newark, and Rochester at Jersey City.

City Leaguers Battle Twelve Innings to Tie

The Toronto City League got away to a good start Saturday afternoon at Scarborough Beach, with Mayor Church, President McCaffery, Lionel Godson, Knorty Lee and others assisting in the opening ceremonies. The initial clash brought together the Beaches and St. Marys, the latter winning by 4 to 2.

R.H.E. Beaches 0 0 0 0 3 0—3 6 1
St. Marys 4 0 0 0 0 0—4 0 1

Two base hits—Beatty, Taylor. Struck out—By Hawkins 4, by Byrne 1. Errors on balls—off Hawkins 5, off Byrne 4. Stolen bases—Yeates 2, Chandler, Sullivan, Flynn 2, Whalen, Beatty, Day, Thompson. Sacrifice—Beatty. Umpire—Spence.

The second game proved to be a fine struggle and lasted twelve innings. Both Sharpe and Fursudson were in rare form. McLachrie in centre field for Park Nine had ten put-outs.

R.H.E. Wellingtons 0 0 1 0 0 0 0 0 0 0—1 6 1
Park Nine 0 0 0 0 0 1 0 0 0 0—1 4 3

The following officers were elected: President, A. Macleod; Vice-president, J. W. Arnold; Secretary, J. W. Arnold; Treasurer, A. H. Macleod; Auditor, J. Stalker; and B. Logie. The chairman of the various committees are as follows: Games, H. S. Jones; grounds, Dr. Aid. Risk; Reception, J. W. Brownlow; membership, A. H. Macleod.

NORTH TORONTO BOWLING CLUB.

A large and enthusiastic meeting of the members of the North Toronto Lawn Bowling Club was held Friday night in the club rooms. The various reports were read and were most gratifying. The finances of the club are in good shape, and the coming season promises to be the best in the club's history.

The following officers were elected for the ensuing year: Hon. president, B. B. Stockdale; hon. president, B. B. Brownlow; president, Jas. Logie; first vice-president, H. S. Jones; second vice-president, F. W. Arnold; secretary, J. W. Arnold; treasurer, A. H. Macleod; auditor, J. Stalker; and B. Logie. The chairman of the various committees are as follows: Games, H. S. BOSTON BRAVES STOP PHILLIES

PHILADELPHIA, April 24.—(National.)—The Phillies were powerless before Tom Hughes today, while the Braves batted maver out of the box in three innings, and also found Oseger rather easy, beating the Phillies for the first time this season by 10 to 2, and also breaking the row of eight victories of the Quakers. Hughes allowed seven hits, two being home run drives by Becker and Luderus. Schmidt and Moran hit the ball hard.

AT NEW YORK—The Giants lost again to the Dodgers, 5 to 7. It was the seventh straight defeat for the Giants. Once again it was a case of the lowly Dodgers coming from behind and overcoming a lead which early gave indications of a great victory. A great extent of the loss of yesterday's game is directly due to Matty. The once invincible twirler revealed little of his old-time skill, and the Dodgers, undaunted by his great reputation, treated him as they would some lesser league pitcher.

At New York (American)—Two scratch hits, each of which would have been easy outs with perfect fielding, is all that stood between Ray Caldwell and a no-hit achievement over Washington. At that, the slim six of the Yankee revelers shut out the Senators, beat them 4 to 0 and was voted decidedly the better in a pitching duel with Walter Johnson.

AT CLEVELAND—Detroit won its eighth straight game when it defeated Cleveland, 6 to 0. Boland, Detroit's Southern League recruit, pitched brilliantly and received great support. He held Cleveland to five hits, scattered thru as many innings. Veach of Detroit made three singles and a double and received a pass in five trips to the plate.

AT BUFFALO (Federal)—The Baltimore Feds won the last game of the series with Buffalo by a score of 10 to 4. Russell Ford had another try-out in the box, but the visiting batsmen demonstrated that he had not yet rounded to form. Ehmske, who succeeded him, was hit freely.

AT BROOKLYN—Tom Seaton went back against the Newark Feds, and for the second time in the series he was knocked out of the box. The former Quaker writer was found for seven hits in seven innings during which time in seven Feds gathered all their runs, to defeat Marion relieved Seaton and held the Newark batters useless for an inning.

SHEFFIELD UNITED WON ENGLISH CUP

Defeated Chelsea by Three Goals to Nothing—Old Country Soccer.

Soccer in England is practically over. Sheffield United are the proud possessors of the English Cup. Three times before have the United team figured in this great football fixture, and were successful on two other occasions, namely 1902, when they defeated Southampton by 2-1, and 1899, when they won against Derby by 4 to 1.

Saturday's game was witnessed by one of the smallest crowds to attend the game, only 60,000 being present at Trafalgar Park, Sheffield. The game was splendidly contested, the only score of the first half being obtained a few minutes before the whistle blew. In the second half the United netted the ball twice and had the game well in hand.

Oldham Athletic are the leaders of the first division unless something very startling happens. The second honors should go to Everton or Burnley, who each have two games to play.

Manchester United and Tottenham have but little chance of remaining in the first division, and will doubtless change places with Derby County and Preston North End, who are safe for the top positions in the second division.

Altho a bit early for the summer pas-
 time, an interesting game was played at
 Exhibition camp on Saturday between
 the 15th Battalion and a team composed
 of Doverscourt, St. Edmunds and York-
 shire members. The 19th batted first on
 Yorkshire Society's wicket, and put up a
 score of 33. Sgt. McCoy heading the
 team with 36. Sam Weller was most
 successful with the ball, bowling the
 whole of the innings, taking six wickets.
 For the nonplayers, Sam Weller (18),
 Deas (18), S. Young (10), and J. Gould
 (10) were the main hitters, and, with
 only four required to win, things looked
 rosy for the nonplayers. Sam Grimshaw,
 the last man in, however, was un-
 lucky enough to put up a ball from Geo.
 Gray which that bowler very smartly
 caught, the innings closing for 30. The

STANLEY GUN CLUB.
 The Stanley Gun Club held an open
 practice shoot on Saturday, when a pleas-
 ant afternoon was spent at single birds,
 doubles, tower and hand trap shooting.
 W. Wood, an old-time trap-shooter, after
 a long illness, has come back to the sport
 alluring, and gave a good account of him-
 self, breaking 30 out of 40, at singles also
 8 out of 10 at the hand trap. A. Spier
 and A. Edwards were welcome visitors
 from the Creekside club and shot well.
 In shooting at doubles, the birds are
 thrown from 40 feet in the air, when 350
 birds were shot at. W. Shey was high,
 breaking 13 out of 25, and W. Neller sec-
 ond with 11. Next Saturday the club will
 be open to all trap-shooters, when it is
 hoped there will be a good attendance.

New World's Relay
Record for the Mile
PHILADELPHIA, April 25.—At
 the University of Pennsylvania's
 annual carnival of relay and field
 sports yesterday, Pennsylvania's
 sterling quartet of four-milers,
 Kaufman, Lockwood, Lippincott
 and Meredith, the last two Olympi-
 c champions, set a new world's
 mark in the one mile college re-
 lay for the American championship
 when they beat four flying run-
 ners from Harvard in 3 minutes
 and 45.4 seconds, breaking the world's
 record of 3:18.1-5, held by the
 Irish-American A.C. of New York.

AS WORN BY HIM
Good Clothes Cost Less Today
Than Twenty Years Ago
 "The purchasing power of a dollar is
 just about half what it was twenty
 years ago," said a prominent industrial
 director, "but I bought yesterday in a
 Semi-ready store for \$25 a gray worsted
 pick-and-pleck weave which is ex-
 act in texture and wool quality to
 what I paid a custom tailor \$35 for
 in 1895. I know, for I have both suits
 today for face to face comparison."
 The proprietors of the Semi-ready
 tailoring idea started in 1895 to effect
 that saving by efficiency methods in
 hand-tailoring and by wholesale
 methods of manufacturing and distri-
 bution.
 Every principle of economy was
 studied, even to the showing of sam-
 ples to the merchants throughout the
 country. A Semi-ready traveler car-
 ries his designs and patterns on a
 close schedule, staying but a day in a
 town.
 Each year has shown some substan-
 tial progress in the reduction of cost
 and in the uplift of quality. Most of
 the cloth patterns shown in the Semi-
 ready fashions are woven to order
 from imported wool yarns brought in
 England by the resident executive.
 Savings of as much as \$1 a suit have
 been effected in one year, and the
 Britonloom serge suit at \$25 is to-
 day equal in value to many a \$35 qual-
 ity.
 Even the ready-made clothes im-
 prove the quality of their cloth to
 meet their customers, and the "over-
 flow demand" for something better. So
 that Semi-ready can claim credit for
 an uplift in the whole clothing trade
 of Canada.
 The "price in the pocket" is another
 important factor. It is like the pub-
 lished price list of the stocks and grain
 which he designs and patterns on a
 close schedule, staying but a day in a
 town.
 In the face of advancing cost in
 wages, material, rents and all inci-
 dentals of trade, a suit of Semi-ready
 clothes today costs 25 per cent. less
 than the same quality of tailoring cost
 twenty years ago. That is something
 accomplished in one line of industry.

Kentucky Derby Eligibles
Come Together at Lexing-
ton—Big Attendance.
 LEXINGTON, April 24.—All attendance
 records for the Kentucky Association
 race track were shattered today. The
 racing card was the best run off in this
 city in a long while, and evenly-balanced
 fields predominated. Chief interest cen-
 tered in the fifth race, which was at a
 mile and seventy yards, for three-year-
 olds. Eight eligibles for the Kentucky
 Derby contested. By his victory in this
 race, Royal II, demonstrated that he is
 to be seriously considered in the Derby
 Derby. Royal II, is one of Jeffers-
 son Livingston's imported English-bred
 thoroughbreds, and the farther he goes
 the better he seems to like it. The other
 Kentucky Derby eligibles in the race
 were Goldcrest Boy, Leo Ray, Sharp-
 eyed, Mike Cohen.

The First Annual City
Playground Banquet
 The first annual City Playground Ban-
 quet was held at Moss Park Recreation
 Centre on Saturday night. Twenty-two
 lady and men supervisors and sixty-nine
 girls and boys, representing every man-
 ufacturing plant in the city, were present.
 Six boys and three girls represented each
 centre doing winter work, and they
 were chosen from among those who had
 helped most to make the winter work
 a success. Last winter one centre was
 open every night during the week, while
 this winter five centres were open every
 night, and one open three nights each
 week. This shows how our city parks
 playground system is growing.
 The programme of the evening was
 supervised by Commissioner C. B. Chambers.

War Portraits Free

We have prepared a handsome little booklet containing miniature likenesses of the men who are directing affairs for the Allies in the European war.

It is as dainty a little book as ever you saw. It fits nicely into the vest pocket or wallet and enables one to visualize a personality whose name receives prominence in the news columns of the daily papers.

While the limited supply lasts we will send a copy of this souvenir free to anyone who will fill in and return the coupon below.

THE R. C. Y. C. HAVE OVER HUNDRED MEMBERS IN ACTIVE SERVICE IN WAR

Major Higginbotham and Adjutant Warren in List - Committee Elected at Annual General Meeting.

The annual general meeting of the Royal Canadian Yacht Club was held on Saturday night in St. George's Hall when the committee of management of ten were elected from a list of fourteen. The following list thus guide the destinies of the club during the coming season: President, Commodore, Sidney Small; vice-commodore, Wm. C. Brent; regatta commodore, G. H. Gooderham; B. the Royal Canadian Yacht Club was the only club represented in divisions C, D, and E. George Cup - At this meet the George Cup was successfully defended by "Nirvana," making it the third successive win. The club is indebted to Mr. Henry Gooderham for having placed the "Nirvana" at their disposal.

none of the club races had been concluded no championship awards should be made. In addition to the general program for club and international events, there were certain sailing activities which should receive special mention. Queen's Cup race was completed for by Class F. boats with the following results: 1. Ahmeek; 2. Patricia; 3. Caru Mia; 4. Seneca. At the meet of the L.R.A. at Primer's Cove in division A, the Gardena won three firsts, the Aggie won three seconds, and the Chinook two thirds. In division B, the Zoraya won two firsts and one second, and the Secura two seconds and one third. The Caru Mia and the Crusader each got a third. In division A, and B, the Royal Canadian Yacht Club was the only club represented in divisions C, D, and E. George Cup - At this meet the George Cup was successfully defended by "Nirvana," making it the third successive win. The club is indebted to Mr. Henry Gooderham for having placed the "Nirvana" at their disposal.

The action of the committee in calling off further events was received in the off best spirit, and has met with the approval of yachtsmen generally. One matter, however, caused the committee much thought, was the necessity of requesting the Chicago Yacht Club to postpone for one week the series of races, which had been arranged in connection with the Chicago Yacht Cup. This the R.C.Y.C. did reluctantly owing to the fact that the Valiant, representing the Chicago Yacht Club, was then at Port Dalhousie on her way to Toronto, and was forced to return after very considerable expense in the way of time by the crew. The committee approved very highly the sportsmanlike attitude of the Commodore, and members of the Chicago Yacht Club. The sailing committee decided that as

STYLES FOR MEN

Fashions have changed in many ways since the early days when eccentricity in dress was a sign of the "dandy." Beau Brummel, who was the supreme dictator of fashion a century ago, is weep when he disapproved of the cut of the royal coat. But today Beau would himself be laughed at. A violation of the artistic principle in dress is tabooed by the leaders of fashion, and the noisy and brazen man is pitted rather than admired. The well-dressed man of today wears clothes that are subdued, refined and sane in expression. There is an entire absence of freakishness. The Semi-ready system of wholesale custom tailoring has exercised a powerful tendency towards the adoption of comfort and conservatism in dress, with the richness and softness in the wear and the wool. There are changes in styles each season, but these variations are usually a gradual evolution of the quality are stamped with the undefinable quality of good taste. It is the young business man of today who puts the stamp of approval upon the creative product of the designer - his energy, keen critical ability and slow decision give instant judgment. Seldom does this innate instinct go astray. In fabrics the green and grey combinations will be the dominating colors for the season, and all the new patterns and shades are quiet and new.

morning coat, will displace the ordinary frock. And there is a likelihood that the cutaway will grow more popular for office men and professional men. Yet the sack coat this season is shown in such a variety of attractive lapels and of shapely fronts that it will be the choice of the multitudes. Coats such as "The Marlin," with the patch square cut broad lapels and patch pockets, will be in vogue. The coat will be looser fitting, the collar will be of medium length, slightly rounded or quite square in the notch, will be a strong favorite. The waistcoat will have no collar and will show one button above the coat. Double-breasted sack coats like "The Savoy," a design of the Semi-ready tailors, will have three buttons, but with a roll lapel so that only two buttons should be closed. A smart golfing or outing suit will be the yoked Norfolk, with an envelope seam across each shoulder to allow freedom of muscular activity. For seaside and holiday dress the English white serge and garbords will be worn, sometimes with coat of the same material or with an unlined Norfolk of homespun or Scotch tweed. Many fashion writers herald the return to favor of the fancy waistcoat, to be worn chiefly with the morning coat, but the fancy waistcoat is always an ephemeral taste. One soon tires of it. The liberal width of the coat lapels, as shown in all the new models of the Semi-ready designs is one of the marked features of the season. Semi-ready Tailoring - the genuine and original physique type system - can be had only at Ed. Mack, Limited, 167, Yonge Street.

WYCHWOOD MET THEIR WATERLOO

Queen Citys Were First Team to Stop Successful Career.

Not one game of the first division fixtures ended in a draw on Saturday. Devoniens came away again with a big rush and trounced Sunderland to the tune of three goals to one. The game was conspicuous on account of the superiority of the losers in the first period of the game, at the close of which they led by a single goal. In the second period, however, stamina told, and the Devoniens found no difficulty in carrying off the two points. Eaters were the next in line to add to the misery of the Caledonians, being successful in capturing five goals, while the Wychwoods were only successful in netting the ball on one occasion. Baracas made a nice score against Davenport, scoring no less than four goals, while the Overseas defeated the Thistles by one goal. Wychwood have at last met their Waterloo, and it was left to the Queen City team to be the first to lower their colors, to the tune of two goals to nil. Wychwood played a great game, but the city boys had quite a bit on them. Manchester Unity fell before the onslaught of Old Country, allowing them to score five times. Second Division. Oh, it is one thing to be beaten, but nine goals speak for themselves. The less said about the Ulster United-Orchard game the better. Midlothian made a big get-away on Saturday, scoring five goals against the Maple Leafs. Scoring runs high these days. Duntlops managed to notch four against the Bank of Commerce. These custodians are not very safe evidently. Hiawatha improve their position considerably when they defeated Sons of Scotland by five goals to one. Don Valley were successful against Bramburgh, only on a more moderate scale. They were satisfied with a three-to-one victory, Toronto Street Railway team fell victims to the formidable Lancashire combination. This was a real game of football.

Wychwood Fall at Last. A large crowd were present on Saturday when the Queen's Park team managed to be the first to defeat the Wychwood combination by 2-0. The losers were very unfortunate in being compelled to play without their captain, W. Simmons, while D. McDonald and George were also unable to turn out for them. The game during the first half was very even, and the Wychwoods were led by a narrow margin. In the second period, however, Queens managed to notch two goals and were continually bombarding Wychwood goal. Result: Queens 2, Wychwood 0. Line-up: Queen's Park (2)—Goal, Gilbert; backs, Mavron; Halfback, Mack; forwards, Baracas, Owens, Sims, Troke, McIntosh. Wychwood (2)—Goal, Wilcox; backs, McAuley; forwards, Cameron, McCall, Jack, Ramsay, Morgan, McCall. Referee—N. J. Howard.

Davenport Led. Baracas defeated Davenport at the Sunderland ground by four goals to nil, after a game that was marked by a series of accidents. The Albions were particularly unfortunate, no fewer than five of their team being placed on the injured list during the game. The first period went all against the losers, they having allowed three goals to be scored against them. The second period of the game was much more evenly contested. Result: Baracas 4, Davenport 0. Line-up: Davenport (4)—Enfield, Apps, J. Wilcock, Mason, Croucher, Miles, Hunt, Ward, Brooks, Fidler, H. Wildash. Baracas (4)—Goal, Baracas; forwards, Irwin, Shaw, Dalziel, Ross, Collins, Martin, Sturges, Morgan. Referee—W. Murdoch.

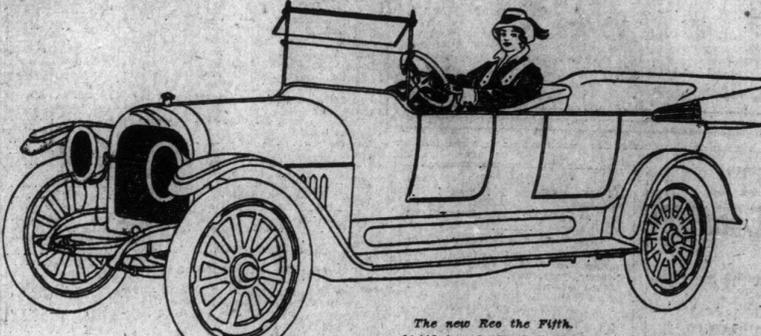

Alex. Allen Broke Arm. An accident to Alex. Allen, when the young player broke his arm, had a bad effect on the Thistles, when they lost their game by an odd goal against Overseas. During the first half the game was somewhat slow. After the rest, however, the teams brightened up considerably, and a goal by the visitors was the result. Result: Overseas 1, Thistles 0. Line-up: Overseas (1)—McCaskery, goal; Robinson and Downie, backs; McTear, Thomson, Brownie, halves; Carter, Rutherford (captain), Blackman, Aitken and Armstrong, forwards. Thistles (6)—Barnetson, goal; Campbell (captain) and Johnston, backs; McLaren, Allan, halves; McKelvey, Minclair, Walker, Thompson, Gow and Nicholson, forwards. Referee—Millsip.

Eaton's Big Score. Eaton had much the better of their game against the Caledonians on Saturday, defeating them by five goals to one. Right from the kick-off Eaton assumed the lead, which they never relinquished throughout the game. Result: Eaton 5, Caledonians 1. Line-up: Caledonians: Goal, Herdman; backs, McGraw, Maxwell, McKeay, Atwood, Pearson, Gibb; forwards, Turnbull, Clark, Warwick, Redan, Crawley. Eaton's: Goal, McCracken; backs, Tweedie, Gilchrist, Adams, Baldwin, Kenan; forwards, Phelan, Dunham, Worrall, McNeilly, Molynaux. Referee: C. M. Hall.

Sunderland Fell. Saturday kept up their good form on Saturday when they defeated Fraser's by a formation by 3 goals to one. A large crowd were present when the teams lined up on the Eaton's ground, and were delighted with the splendid game they witnessed. Both teams played excellent football, but the Devoniens were clearly the better side. Result: Devoniens 3, Sunderland 1. Devoniens (3): Hunt, Burns, McKenzie, Glancy, Leonard, Swift, Horne, Bruce, Hopper, Eddie, Allen. Sunderland (1): Wenhorne, Stewart, Fidler, Brown, Moffat, Paterson, Hunter, Taylor, Griffiths, May, Wilson. Referee: T. Clarke.

Manchester U. Badly Beaten. Old Country defeated Manchester Unity by 5 to 1 in a somewhat one-sided game. In the first half, however, the game was fairly even, but the Old Country got the upper hand after the rest and made a runaway of it. Result: Old Country 5, Manchester Unity 1. Manchester Unity (1)—Riddell, F. Wilding, Richardson, Langley, Hatton, Colquhoun, Taylor, Scott, Watt, Long, Wallon, Hunter, Riddell, Wilding. Old Country (6)—Martin, Hutchinson, Colquhoun, Taylor, Scott, Watt, Long, Wallon, Hunter, Riddell, Wilding. Referee: T. Clarke.

Don Valley Still Unbeaten. Don Valley still retained their clean sheet on Saturday when they defeated Fraserburgh by 3 goals to 1. In the first half the time, scoring twice. In the second period both teams netted the ball once. Result: Don Valley 3, Fraserburgh 1. Fraserburgh (1)—Wilkinson. Don Valley (3)—Whitton, Murdoch, Hay, Simpson, Allan, Fraser, Murdoch, Don Valley (3)—Walbank, Crook,

Perfectly Simple—Simply Perfect

Having perfected a chassis that represents automobile finality in all essentials of design, the Reo designers and engineers now devote their attention year by year, to possible details of improvement and possible reduction in price. The improvements for 1915 are many and notable. The "refining" process has evolved a car distinctive in appearance; 3 1/2 inches larger than last year's Reo; a car of luxurious appointments and unusual riding comfort. Increased facilities and greater purchasing power have brought about a reduction in price. But, basically, it is the same superb Reo that jumped into the lead four years ago. The chassis is fundamentally the same as was then produced—after 23 years of constant experimenting to attain simplicity, accessibility, strength and power. The underlying principles of this new Reo are those that have sold the car to over 40,000 critical motorists. The perfect simplicity of the Reo has won for it the leading place among the world's moderate-priced cars. This year we have added the little details of luxury and refinement that enable a Reo owner to say of his car "It's Perfect."

Douglas, Sullivan, Cripps, Grant, Baldwin, Beard, Norley, Hutchinson, Ward. Referee—G. Mills. Uster in Scoring Mood. After a game which was one-sided to a degree Uster defeated Orchard by a record score of 9 goals to 0. In the first half the score was nil to four, while the second period saw five more goals scored against the unfortunate Orchards. Result: Uster 9, Orchard 0. Line-up: Uster (9)—Goal, Uster; forwards, Duntlop, 4, Bank of Commerce 0. Duntlop Rubber Co.: Coombs, Thompson, Yates, Lowe, Cooper, MacLennan, Sharp, Barron, Howson, Woods, Corsey. Bank of Commerce: Hickman, Denison, Wright, McRobert, Barr, Bartman, Valentine, Witt, Winhill, Taylor, Ellis. Referee: J. Lamb. Maple Leafs Swamped. After a game in which the Hearts of Midlothian team had all the best of the game they defeated Maple Leaf by 8 goals to 1. The game was never in doubt, the Hearts having it over their opponents in every department of the game. Result: Hearts 8, Maple Leaf 1. The line-up: Hearts—Goal, McCall; backs, Pavey, Winterburn; halves, Derrick, Young, Donaldson; forwards, Rankin, Atwood, McCuish, Allan, Buchanan. Maple Leafs—Goal, Williams; backs, Foxon, Bannister; halves, Polard, Burnett, Field; forwards, Paton, Jones, Nash, Brown, Bell. Referee—A. Smalley. WORLD WINS TWO. At the Toronto Bowling Club Saturday night The World kept their battle for the top of the Business Men's League by taking two out of three games from Boyd Storage. The latter and City Hall tied for the last half of the season, with The World only one game down; but, with the two leaders still to clash, it now looks like The World for the final honours by an eyelash finish. Pat Hayward, pinch hitter for Boyd Storage, was high
