'ALL OR NOTHING' CHANCE FOR DEBATES

Lloyd-George, at Newcastle, Denounces Lords—Indications of General Election in November.

LONDON, Oct. 10.—The past week has been one of great political excitement, culminating in Prime Minister Asquith's sudden visit to the King and the announcement that the house of commons would adjourn for a week from Saturday.

There is no longer any seriousness in the attempts to keep up the pretense that the visit of Lord Rosebery, the Earl of Cadogan and Mr. Asquith to Balmoral were not connected with the political crisis.

Mr. Lloyd-George, chancellor of the exchequer, declares that the lords must pass the budget as it stands, but despite assurances such as this from responsible ministers, there is a strong tendency to revert to the first idea that a general election will come in November.

Mr. Lloyd-George, chancellor of the exchequer, in a speech at Newcastle Saturday afternoon, made a vigorous defence of the budget.

The only stock which had gone down since the introduction of the bill, said the chancellor, was that in which the public had been lulled into a false sense of security.

The chancellor went on to say that the budget was a measure of the government's determination to have all the taxes in the budget or none.

DETROIT, Mich., Oct. 10.—The jury has returned a verdict of manslaughter against Capt. Ralph Pringle, well-known as a navigator of the great lakes, who was tried for the killing of George Birrell McKinnon in the "Hole in the Wall" Saloon in St. Clair last winter.

NIAGARA FALLS, Ont., Oct. 10.—(Special.)—Henry Woodruff, of St. David's, was killed on the G. T. R. tracks at Stamford early this morning.

Lady Constance Had a Hatchet

Was Among the Suffragettes Who Chased Lloyd-George to His Auto, and is Placed Under Arrest.

NEWCASTLE-ON-TYNE, Eng., Oct. 10.—When Lloyd-George was leaving the theatre a crowd of suffragettes made a dash toward his car.

Earlier in the day, four other sympathizers with the suffragettes were sentenced to fourteen days at hard labor for indulging in a window smashing campaign at the local Liberal club.

GENERAL'S WIFE SLAIN FOR DOG'S JEWEL EYE

Remarkable Story That Chinese Vengeance Was Responsible For Mysterious Crime in England.

LONDON, Eng., Oct. 10.—The American public may still remember the case of the aged General Laund in Kent, and the subsequent suicide of the husband, it is believed that rumors hinting at the general's guilt were largely responsible for his act.

The case is as much a mystery as ever. But an extraordinary story has reached London from an English officer serving in the Far East which suggests a solution of the affair.

As usual the garrison parade yesterday afternoon drew out large crowds of spectators. Altho not quite up to the strength of former years, the parade was nevertheless a grand spectacle.

The staff officers were: Brigadier-General Cotton, Lt.-Col. Septimus Denison, Lt.-Col. Bruce, Lt.-Col. Grant, Lt.-Col. Hall, Lt.-Col. Stanborough, Major Lang, Capt. Shanley and Capt. Lodge.

At Massey Hall the soldiers filed into the building and when the service was opened by Rev. W. L. Fergusson, R.C.M., the choir sang the national anthem.

The One in the Air: Hi! Jimmie, hand me up those two weights, will you?

200,000 PEOPLE WANT A RAILWAY SCARBORO GRADE IS CHIEF OBSTACLE

Suggestion is Made That Dominion Government Should Provide Means for Relief.

Dr. Kaiser of Oshawa has spent several days recently in Toronto in the endeavour to awaken the city to some interests which have been notoriously neglected during the last half century.

Oshawa is a town of 6000 people lying 33 miles east of Toronto. Whitley, a few miles nearer, used to be almost as big as Oshawa, and now has little over 2000 people.

The college formerly situated there under the Society of Friends has been transferred to Newmarket. Whitley still has a seminary, but it is being burned down, like the Pickering College, it might be moved to Hamilton.

Oshawa is a town of 6000 people lying 33 miles east of Toronto. Whitley, a few miles nearer, used to be almost as big as Oshawa, and now has little over 2000 people.

EXCHANGE SHOTS WITH BURGLAR FUGITIVES

Constable's Posse Tackled Them in Dark—Trio Boldly Invade Small Villages Near Arrnprior.

ARRNPRIOR, Oct. 10.—(Special.)—The pickpocket safe blowers have again evaded the clutches of the law. This time it was the village constable of Galetta, a small village six miles from Arrnprior.

They were seen by two boys on the following morning on the top of a hill, three miles from the scene of the fight.

NOTICE TO HAMILTON SUBSCRIBERS
Subscribers are requested to report any irregularity or delay in the delivery of their copy...

TWO MEN ARE ARRESTED FOR MARRIAGE ERRORS
One Accused of Getting Girl Wife to Commit Perjury and the Other For Alleged Bigamy.

HAMILTON, Ont., Oct. 10.—(Special).—Richard Koch, 23 years of age, 8-1-2 North John-street, was arrested yesterday on the charge of perjury, and interesting developments are looked for. He married Annie Markle, last July, and it is charged by her father that he got the girl, who is under age, to make an affidavit that she was old enough to be married without consent of her parents...

Two Ontario Town Arrests. Harry Almsborough, wanted here on the charge of assaulting and robbing Fred G. Ward, was arrested in Toronto to-day. It is charged that he is the pal of "Chuck" Fuller, who is also under arrest on the same charge. Fred Scott, 33 North MacNab-street, was arrested for the local authorities by the Brantford police on the charge of stealing Mrs. Pendleberry's horse, on Oct. 4.

Henry Bailey, 35 Ingham-street, who went to Dundas this morning on a nut gathering expedition, amused himself by jumping on and off of cars in the vicinity of the town. He fell under one and had his left arm so badly crushed that it had to be amputated just below the elbow.

The Ninety-first Regiment and the Army Service Corps attended the service in the MacNab-street Presbyterian Church this morning. The Highlanders under Lieut. Col. Bruce, turned out 374 strong, and the service corps 45 strong. Rev. Beverley Ritchie preached a special sermon in which he said too much importance was given to athletics. The sprinter was more talked of than the prime minister, while the boxer was thought more of than the man who was striving to overcome evil. Too much attention to the material would take the race back to barbarism and cannibalism.

Arthur F. Zimmerman was arrested to-day on the charge of bigamy. He alleged offence was committed in Brooklyn, and the police here do not know any of the particulars of the case. He was employed as a silver-smith by the Methodist Episcopal church, and was soon to be married to a Hamilton girl, making his third marriage.

Rev. J. J. Reddick, Toronto, preached to-day at the anniversary services in the Charlton-avenue Methodist Church. The Power Contract. The special power committee will meet at noon Monday, and will recommend a formal application to the Hydro-Electric Commission for a supply of power. The council will meet in the evening and there is little question that the council will endorse the application. This will end the fight that has been waged bitterly for about three years. It is likely that the dispute between Saltfleet Township and the beach commission over the bettering works will come to a head to-morrow.

Mayor Lawson of Dundas has issued a proclamation prohibiting dogs from running at large, because of the discovery of two mad dogs in the town. Three Charges Now. Eric Wilson, the promoter, will have to face three charges of fraud Monday in the police court. Those who claim to be his victims and the amount of the loss they claim are as follows: Fred Wilson, Toronto, \$700; Mrs. Gay Belmont, 22 North Bay-street, \$300; W. Biggs, English Tel. Room, \$100. It is also said that ex-Alderman Farner had dealings with the prisoner by which he lost \$1500.

Frank Penton, a well-known sheet writer, is under arrest in Washington. It is alleged that he has \$200 for two Hamilton men on the General Armstrong last Thursday, and then skipped with the amount of the winnings, some \$1200, after the race. Efforts are being made to have him extradited. Ex-Alderman Dead. Word was received Saturday that ex-Alderman Richard Williamson died suddenly at Niagara Falls, N.Y. Superintendent Rae of the house of refuge has been authorized to deal summarily with those under his charge who come in the worse of liquor or carrying liquor into the place. Efforts will be made to force the relatives of W. D. Atkinson, an 100 year old inmate, to pay for his keep.

At the morning services in James-street Baptist church, a telegram was read from Rev. Dr. M. de Manteo, who stated that he would decline the call to become pastor of the church. The congregation has not another man in sight yet.

Dirigible Collapsed. SOUTHBEND, Ind., Oct. 10.—William Matthey's dirigible balloon collapsed at a height of 100 feet. Both Matthey's wrists were fractured when he struck the ground. The machine, valued at \$3000, was destroyed.

Steel Trunk Speculating in Stock. NEW YORK, Oct. 10.—Financiers here believe that the United States Steel management has been speculating in its common stock. It has the power to do so.

THE SQUARE DEAL PAYS. And square with the enemy every man gets when he separates himself from his cotter by Putnam's Corn Extractor. For 50 years "Putnam's" has cured every man it treated—use "Putnam's" only—it's painless and sure.

DREADNOUGHT

The "Dreadnought" Trunk will stand the hardest travel and last you a life-time, yet it costs no more than an ordinary trunk. Order it by mail, and if you are not satisfied with your purchase we will be glad to refund your money.

The Ontario Railway and Municipal Board. In the matter of the application for annexation to the City of Toronto of that portion of the Township of York bounded on the west and north by the present limits of said city, on the east by the Township of Scarborough, and on the south by Lake Ontario.

APPOINTMENT FOR HEARING. Notice is hereby given that the Municipal Council of the Corporation of the City of Toronto has by resolution, passed on the 28th day of June, 1909, declared the expediency of the annexation to the City of Toronto of that portion of the Township of York above mentioned, and more particularly described in the said resolution, and that the said resolution and a petition for such annexation signed by an alleged majority of the ratepayers of the said portion of the Township of York, have been filed in the office of the Ontario Railway and Municipal Board.

Double Track Trans-Siberian. ST. PETERSBURG, Oct. 10.—The extraordinary budget of the ministry of railroads has been submitted to the duma. It calls for \$2,100,000 for new construction in 1910. All of this amount, with the exception of \$165,000, will be expended in Siberia and on the Amur Railroad. The sum of \$1,500,000 is allotted to the railroad line around Lake Balkal, and \$2,500,000 to double track the Trans-Siberian.

Lucan Resident Drops Dead. LUCAN, Ont., Oct. 10.—Mrs. Mary Culbert, aged 66 years, a life-long resident of this place, dropped dead while lighting a fire in the range. She is survived by her second husband and two daughters, Mrs. Alex. Leavitt of Walkerville and Mrs. George Louvill of Detroit.

ONE'S CLOTHES AND BOOTS. Progress of Revolution in Making of Men's Clothes. Discussing the steady increase in their trade in Canada, Mr. C. H. Nelson, president of Semi-Ready, Limited, said: "Years ago we said that it was only a question of time when our system would be so perfect that the tailoring trade would be revolutionized just as the boot business was changed by the introduction of never and better methods. There is about one cobbler shop in each city, and a good pair of hand-made shoes is a rarity. "In the City of Sherbrooke, growing and prosperous, with 15,000 people, there are only five tailor shops. Ten years ago there were fifteen tailor shops in the average city of 15,000 people. "In the City of Calgary, with 30,000 people, there are nine tailor shops, three of them doing repair work only, and one Semi-Ready store in that city sells more suits than the combined sales of the nine retail shops. "In Saskatoon, a city of 8000 people, there are two tailor shops, a still smaller ratio in a newer city. "In towns of 1000 in the west there is not a single merchant tailor, and one Semi-Ready store in that city instances of the falling off in the old-time retail tailoring. Compared with the rapid growth of the Semi-Ready system, it is improving from year to year, it can only be a question of time until the way of to-day receives its due recognition. "The government statistician reported a falling off in the retail tailoring output of \$3,000,000 a year, and a corresponding and larger increase in the clothing trade."

HAMILTON RACES OVER WINDSOR OPENS TUESDAY

Five Out of Six Favorites Fail on Closing Day—Green Seal Wins Feature.

HAMILTON, Oct. 8.—The regular racing season in this section of Canada came to a close with the running of to-day's program. It was a perfect autumn day and a tremendous crowd turned out to witness the sport. The present meeting has been marked by special activity on the part of officials and several offenders have been brought up with a sharp turn.

To-day's feature, the Hamilton Cup, at one and one-quarter miles, was contested by only three starters, with the winner coming from the St. James' Stable. The entry ruled first choice at 4-5 and 9-10 throughout the meeting. Green Seal went to the front at the start and forced a terrific pace through. When Cave Adams came along in the race, the pace was held through the stretch it became a battle between the two. Jockey Davenport out-finished Huggins in the final drive. The defeat of Banives in the mile race, for two-year-olds, was a severe blow to the public, the winner turning up in Hickory Stick, one of the long shots of the race, with Banives second.

F. M. C. Civil 10-day bid Albany and Arrow Swift to Dr. Carmack for \$600. P. T. Chinn added to his string this morning by the purchase of the three-year-old, Jack Parker. The latter, a big, rugged fellow, is a brother to Jacobite and Charles Edward. He is practically a green horse, having raced but little this season and not at all as a two-year-old.

The season of racing on the Canadian circuit will end with the Windsor meeting, which closes the next two weeks.

Varsity's Easy Win

Argos Are Beaten

Ottawa Trime Tigers—Rugby Football on in Earnest in All the Unions—Scores and Standing.

KINGSTON, Oct. 8.—The opening game in the intercollegiate series played here to-day brought out a big crowd to the field, ground, owing to the unseasonably weather. The Varsity team proved to be the most aggressive, its back division showing marked superiority over Queens.

The scrimmage and wings were fairly even. The scoring occurred in the third quarter, when Varsity scored Queens.

Later Varsity, in fine style, secured a try, which Ritchie converted. In the fourth quarter, Queens made Varsity's favor. The game was fairly rough and the ball was up and down the field.

Varsity (7): Full back, Dixon; halves, Lawrence, Newton, Galt; quarter, Galt; scrum, Williams; center, Galt; wings, McKeay, Erskine; outside wings, McKeay, Erskine; outside wings, McKeay, Erskine.

Queens (1): Full back, Williams; halves, Moran, Dickson, Leckie; quarter, Moxley; scrum, Klumpp; center, Galt; wings, McKeay, Erskine; outside wings, McKeay, Erskine.

Referee—Dr. Quinn, Montreal. Umpire—McLaughlin, Montreal.

Montreal Trim Argos.

Argos went down before Montreal at Roseville field Saturday in the first senior inter-provincial rugby game of the season here by a score of 13 to 5.

The weather conditions were almost perfect for rugby and spectators.

There was little wind, but the sun's rays were rather trying and accounted for much of the fumbling by the Argos back division. It was weakness behind the line which cost the scullers the game.

Muffling and fumbling by the back line were noticeable all the while Montreal's halves were comparatively steady.

After half time the onramp outplayed their opponents, but offered little chance to lose their chances to score. The wing lines were about on a par.

It was largely an open game with little ground gained by either team on backing. For Argos Norcross played a remarkably strong game when shifted to outside wing, and Captain Penney did good work at quarter. Stinson's shove as usual for Montreal.

Referee Dr. Henry had occasion to penalize several players for rough play, but the game was fairly clear.

The teams: Argos (5): Leavack, full back; Norcross, center; Cokerly, half back; Cokerly, center; Brown, half back; Cokerly, center; Grant, Taylor, inside; Baycroft, Sinclair, middle; Murphy, A. Kent, outside.

Montreal (8): Stinson, full back; Hamilton, Dockett, Scott, half backs; Ballie, quarter; MacNamee, McAllen, Hall, scrum; Douglas, Egan, inside; Ward, J. Ballie, middle; Armstrong, Cameron, outside; Galt, referee, George Ballard, Hamilton.

R.M.C. 41, Queens II 0.

KINGSTON, Oct. 8.—R.M.C. had a walk-over in the intermediate game this afternoon with Queen's II, winning out by a score of 41 to 0.

The Cadets had it their way all thru and showed good results for their forward play.

Queen's II (11): Full back, Meredith; halves, Caruthers, Smith, Boring, Campbell; scrum, Young, Hill, Bowring; center, Rogers, Goldie, Parr, Lewis, Gwynne.

Queens (10): Full back, Macdonnell; halves, O'Connor, Vansickle, Dobson; scrum, Barker, Shearman, Ormond; center, Hafford, Hamilton, Clark, Spith, Ramsay, Carmack.

Referee, George Richardson, Kingston. Umpire—Carter, Stacey, T.M.C.

Parkdale 15, T.A.A.C. 0.

DIAMOND PARK, Oct. 8.—(Special).—Parkdale Canoe Club juniors defeated T.A.A.C. at Diamond Park by a score of 15 to 0.

Both teams played fast football, but the Parkdale halves were surer of themselves and kicked the ball with more accuracy.

The teams lined up as follows: Parkdale—Amery, full back; Burton, Simpson, Moore, halves; Smith, quarter; Brainer, Pfeiffer, Craig, scrum; Gage, Isbister, Turner, Loftus, Wigle, Barron, wings.

Ottawa: Johnson, full back; McCann, Williams, Geadard, halves; Kilt, quarter; Kennedy, Ferguson, McCuaig, scrum; Convey, Disney, Church, Stronach, Vaughn, Phillips, wings.

Ottawa College at McGill.

MONTREAL, Oct. 8.—(Special).—The intercollegiate rugby season opened here to-day with Ottawa College and McGill as the competing teams.

The weather was much too warm for football, although it had a good effect on the attendance, which was quite large.

PURE PARTY PRIMARIES.

It is the sign of the times that the Conservatives of Ward One have decided to hold clean, honest and above-board ward conventions.

When Sir James Whitney got into power a remarkable change occurred. With such accessions as a victorious party always attracts, there arose a "machine" in the east end which knew not the honest old stalwarts, and had no wish to see them rewarded.

Several joints to the party heads in the city have apparently awakened them to the necessity of a change of life. Among the voices crying in the eastern wilderness, none was earlier, none has been more persistent than that of Tom Humble.

BRITISH POLITICS.

As Mr. Asquith returned to London on Saturday, the object and result of his summons to Balmoral will soon become known.

WHAT WE "AUTO" KNOW.

Editor World: Knowing your ability and willingness in giving valuable assistance in many fields of labor, there is still another open field which I feel assured you can render very valuable assistance to the drivers of horses, especially on the country roads.

FUNDAMENTALS OF ADVERTISING

(Reprinted from New York Commercial.)

This column has a distinct educational value to businessmen, because it is the only one in advertising that they can utilize.

Our businessmen readers, as well as advertising agencies, are invited to express their views on the merit, value, growth and future of advertising. By such interchange of views general interest is felt, will come to all participants.

Much of the "Ad." matter one sees and reads nowadays seems in no way to reflect the gigantic impulse which which it should be imbued by that most wonderfully productive multiplier of sales—good advertising.

Devoce your valuable space to acquainting the public with the objects and merits of your proposition and tell them the absolute truth in every word and cut your display. Above all, avoid the common error of overstatement, as the era of "crazy" advertising, applied to commercial institutions, is but a recollection of by-gone "didn't-know-any-better" days.

In almost every line of endeavor, the public have had their full of deceptive statements—some planned to deceive, others done in ignorance, instead of the reader. They have become skeptical of any "Ad." that appears to offer more than it should or that makes claims beyond one's reasonable belief.

The fundamental principle of all advertising is to attract, then to interest, and by virtue of same, to induce purchase.

A good heading or title to an advertisement, or an attractive cut will arrest attention. Having focused the reader's attention to your item, tell your tale in a brief and interesting manner.

Not many of our descriptions are in complete phrases. They want facts—want to know without leaving any of their valuable time when they read your "Ad." to demonstrate that you can advance for their giving preference to your goods.

Undertaking requires more initiative than must be possessed by any advertiser. The advertiser must be "initiative," and those who can exercise it expediently and cleverly, will be certain to reap the reward of their efforts.

Each season should see new avenues of publicity opened up by all means avoid trying to do it at one time or your proposition is sufficiently ripe to justify the expenditure.

200,000 PEOPLE WANT A RAILWAY

Continued From Page 1. town. Half a dozen ladies taking afternoon tea under the trees stared at the stranger as tho he were an apparition. Away off in a field to the north a farmer with his team moved over a field and was chiefly visible by the cloud of dust he raised, the result of the long drought. Still another man was mired in a wheel. All the others met, were pressed to a funeral, or part of the funeral cortege. A funeral is one of the most exciting things in the town.

Division of Cost The railways themselves would benefit by joint action. While the grade is first, consideration must be given to the matter over in various quarters and covering some method of overcoming the Scarborough hog's back grade. No objection to use a route if the grade were satisfactory, which included the towns now off the line would be raised by the railway if the question of cost could be settled. Any diversion from the line would mean additional outlay. The increased cost, whatever it might be, should be borne by the government, is Dr. Kaiser's view. If a practicable grade could be arranged all three of the big railways might share it in common, and save time on their eastern schedules. Dr. Kaiser thinks the government itself could build a cut-off thru or under the Scarborough hog's back and lease running rights to the railways. He has talked the matter over in various quarters and is satisfied that if Scarborough Heights were 2500 feet high the government would act. But the heights are just as great an obstacle to the development of the shore towns as if they were ten times as high as they are. There is no reason why, because the obstacle is not removed, the cost is too great for any one of the railways. For the sake of the people affected and of Ontario generally the government might well show some consideration in this important matter.

Pertinent Queries. Hon. George P. Graham is concerned with this. Has he knowledge of the situation? Does he remember the frequent occasions he has crawled up that grade? Mr. Mackenzie cannot be unwilling to do the matter up. There is no time to be lost, as his contractors are about to start work on the new track. Mr. Osborne of the C. P. R. must be interested. Has he any objection to use a shorter and better grade if he could get it? Does Mr. Gillen of the G. T. R. find that Scarborough section incapable of improvement? Would he use a government cut-off or tunnel line? The Toronto Board of Trade is con-

MAY LOSE IMPORTANT POST Newly Appointed Minister to China Recalled to Washington. WASHINGTON, Oct. 10.—Charles R. Crane's sudden and hitherto mysterious recall to Washington by Secretary of State Knox on the very eve of sailing from San Francisco to assume his duties as minister of the United States to China was occasioned by developments involving the question of Mr. Crane's fitness for that post. The state department has in hand, it is said, what it regards as more or less convincing evidence that Minister Crane on the point of departure for the far east, became responsible for the publication in a Chicago newspaper of what the department views as a most indiscreet discussion of the attitude of the United States toward the two treaties recently negotiated between China and Japan, the more serious because that attitude is still under confidential consideration, no decision having been arrived at.

MARKHAM VILLAGE... Exhibits All Removed and Ground in Good Shape... MARKHAM VILLAGE, Oct. 10.—(Special.)—A big force of exhibitors and others were busily engaged Saturday in clearing away the exhibits and straightening up the grounds, and by 12:30 p.m. the fair assumed a normal appearance.

BRANDON THE CITY OF WESTERN ENTERPRISE

SALE OF TOWN LOTS

In the Beautiful Residential Section of **KENSINGTON** Property Within One Mile of Brandon's Business Zone

Lots Sixty Dollars Each

One-Third Cash, One-Third in Three Months, Balance in Six Months. No Interest Charges. 7 per cent. off for Cash.

Judicious Investment Made To-day in Real Estate in the Growing Cities of the West Will Form the Basis of Fortunes in Less Than a Decade. A Lot Purchased To-day in Brandon for a Child of School Age Will Form the Basis of His University Education and Will Give Him His Start in Life When He Becomes of Age.

BRANDON, THE CITY OF CHARTERED BANKS

There are ten chartered banks, most of which own their own homes, in the City of Brandon. Can you think of a parallel to this in any city of 13,000 people in Eastern Canada? There is a reason: Brandon is the money centre, the great natural market, for a territory covering a radius of seventy miles. It is the breeding and stock centre of Manitoba. It is the distributing centre for the fruit trade of the west. It is the centre of 1000 miles of Canadian Pacific western lines. Its railway service reaches out like a spider's web, embracing four transcontinental lines—the C.P.R., Canadian Northern, Grand Trunk Pacific and Great Northern.

A GREAT WHEAT CENTRE

Fifteen million bushels of wheat were marketed in Brandon last year. Payment for this places millions of dollars into the channels of Brandon's business. You see now why ten chartered banks are necessary. They have big, roomy offices, and Brandon is their base of operations for a wide area of western trade.

In a previous advertisement, we enumerated the colleges, schools and institutes that make Brandon a centre of

culture and of student life. We dealt with the railways, elevators and factories that infuse prosperity into every branch of human activity.

Brandon's population has doubled since 1905. It has fifty miles of railway sidings. Twenty thousand people have passed its Fair gates in one day. It will soon have a street railway system embracing East Kensington Heights.

Of 3,000,000 acres of Manitoba land under wheat, 2,500,000 are tributary to Brandon.

CITY'S CREDIT UNEXCELLED

The city's credit is indisputable. Its debentures are held above almost any financial institution in Canada.

Brandon is the head office of three fire insurance companies. The Government Experimental Farm is there, and the eyes of the west are upon it.

One hundred and twenty-five commercial travellers find it more convenient to do business out of Brandon than any other city of Manitoba.

Forty factories are engaged in the manufacture of vari-

ous articles of commerce, and the city will entertain no proposition from bonus-hunters.

CONSIDER THIS CAREFULLY

We are offering lots in Kensington Park, Brandon, to-day for \$60. The interest which we will retain in this section is far larger than that which we are sharing with the public. We will be candid in stating that we believe we are following a wise policy in getting others interested with us in Kensington Park. Your presence will enhance the value of your lands, as well as ours. The city is now built up right to our property, and we are in the line of the city's rapid growth. These lots are to-day worth more than we are offering them to the public. The land is rolling, well drained, and every lot guaranteed. The lots are 25 feet by 120 to a 20-foot lane. You may find that the lot you purchase to-day for \$60 is worth \$500 or more in less than two years. But one fact amounts to a certainty; Brandon is bound to grow, and every new family established in the city makes your land more valuable.

This is an exceptional sale. The merit of the offer will result in the whole block being taken up quickly. We will deal with the applications in the order that they are received.

Chicago Market Closes Easier Shorts Have Been Eliminated

Cash Wheat Continues Firm on All Markets—Winnipeg Easier—Liverpool Cables Stronger.

World Office. Saturday Evening, Oct. 9. Liverpool wheat futures closed to-day 1/4 to 3/4 higher than yesterday; corn unchanged. Chicago December wheat closed 1/4 lower; December corn 1/4 lower, and December oats 1/4 higher. Winnipeg October wheat closed 1/4 lower, October oats 1/4 higher. Chicago car lots to-day: Wheat 58, contract 7; corn 23, 20; oats 13, 5; barley 10, 10, and rye 4, 4. Winnipeg car lots of wheat to-day 62, this day last year 42; oats 55, 38, and barley 35, 32. Northwest car lots of wheat to-day 10, 9; this day last year, 10, 57. Oats, 30, 33. Primary—Wheat to-day: Receipts, 1,588,000, shipments 345,000; last year, receipts 1,570,000, shipments 328,000. Corn to-day: receipts 507,000, shipments 637,000; last year, receipts 506,000, shipments 566,000. Oats to-day, receipts 747,000, shipments 429,000; last year, receipts 711,000, shipments 743,000 bushels. Broomhall cables that it is necessary to revise his forecast of world's shipments, exclusive of North America, owing to the unexpected heavy shipments from Russia, and the Danube. He estimates the shipments other than American at 3,900,000, against 3,600,000 bushels, as given yesterday and Europe will take 3,800,000 bushels.

ST. LAWRENCE MARKET.

Receipts of farm produce on Saturday

day's market has been well patronized by the farmers, who sold their produce in baskets, bushels, bags or barrels. In fact, the old-fashioned style of doing business prevailed, and the market has prospered, and nine out of ten citizens who frequent the market will tell you that they like this way of buying and selling the best. But the civic officials, who are the people's paid servants, not the aidmen, are again commencing to threaten the farmer with prosecution if he sells less than a bushel of potatoes or apples. These officials were around the market on Saturday giving the farmers their last note of warning, and threatening them with prosecution if they again dared to violate an old civic by-law, that has lain dormant for many years. It is a well-known fact that the City of Toronto was to give a free market to the farmers when the toll gates were abolished. The toll gates were abolished, and because the farmers' representatives in the county council neglected to have that agreement with the city put in writing, they (the officials) now deliberately proceed to violate said agreement by re-fusing the farmer a right that has been acknowledged to be his ever since there was a market in Toronto. Just what the market decline in this by-law is enforced. R. Barron, who thru illness was not able to be on the market, was much missed, but his son, John, was on hand and bought many lots of choice dressed poultry. A. Patterson, the King-street grocer, at the entrance to the St. Lawrence Market, also bought many lots of poultry. The Harris Abattoir Company had a buyer on the market, who bought a lot of the best chickens. M. P. Mallon, wholesale dealer, had a representative on the poultry market, who took many lots of all kinds. Had it not been that the two last named wholesale firms—that is, the Harris Abattoir Company and M. P. Mallon—look a lot of the surplus chickens, it is safe to say that prices would have dropped a

Table with multiple columns containing market prices for various commodities including grain, meat, and produce. Includes sections for 'FARM PRODUCE WHOLESALE', 'Hides and Skins', 'GRAIN AND PRODUCE', and 'FRUIT MARKET'.

Operators on Wall St. Begin Distribution of Stocks

Manipulative Movement in Progress to Get Prices Ready for Dispersion of Long Stock.

World Office, Saturday Evening, Oct. 9. That the past week on the New York Exchange has been given over to distribution of prices today with those of yesterday. Wall-street syndicates keep their operations as closely as possible, but they cannot hide the effect of their operations on the market. When thousands upon thousands of Steel common shares were thrown into the market, the price reached the record of 9 1/2; yet, with a small percentage of the deal, a drop of seven points followed. The only and reasonable inference is that market manipulators are trying to extract the day of high prices, and that insiders have been selling to those who look at prices as a guide to values, rather than to property valuation. The manipulation in Steel is representative of the transactions in other securities, as is shown in the general decline which has occurred.

In judging the operations at the New York Exchange, it must be recognized that the promoters in this market usually go in for a long campaign, and that a perfect system for collecting funds from the outside public is always being used. The feature. Prior to 1902 a few years were necessary to build up the market, and the succeeding periods 1902-4 were utilized to clean up all the spare cash of market followers. During 1905-7 a series of a rising market was again effective in enabling a tremendous take-off during the latter part of the year. It has now taken two years to again convince the people that American securities have unlimited merit, and the supreme question with those who have a weakness for market speculation should be, when are the millions ready to try to extract the next contribution for the privilege of keeping the market open for outside curies? The only answer to this question is that sufficient dupes have not yet been found to make a real downward movement worth while.

To those who believe or think they believe, in reasoning out values on outside conditions, let it be pointed out that the Bank of England has raised the discount to one-half of 1 per cent. This week this advance will be declared to be responsible for a drop of prices. Hence they are in a much weaker position. Money, despite the advance, is still plentiful in every financial centre for all legitimate and speculative purposes, and has every indication of remaining so. Good imports to New York are quite promising, and hence these two, excellent reasons for up-and-down movements in the market can be given for some time. To those who have a right, the tape infers that lower prices are a prospect of the immediate future. The campaign of distribution has not been completed, and months of manipulative movements will be necessary to get prices in a position for a real, genuine dispersion of long stock.

Speculation and manipulation in Dominion Steel and Dominion Coal, especially in the former, remain the most prominent features of the Canadian stock changes. The pool operations in Dominion Steel were undoubtedly helped by the covering of a large short interest, which occurred early in the week, thru the failure of one of the speculative brokers to account for the advance in both the Dominion Coal shares, and the fact that the latter put forth being that of a supposed merger of the two propositions. Insiders have so far been successful in their stories put out for market effect that they have begun to regard them purely as a method of holding the market, and insiders want the market to do, and are active in getting out long stock, when they see the market showing a falling support from the big interests.

A big break in the two most heavily capitalized and most prominent Cobalt securities near the week end brought some short bills to the market, but had no positive influence upon other of the speculative issues, otherwise than covering speculation for a time. The well-bred deliberate attempts which have been made to scare holders of the Latin-Americans in London, Montreal and Toronto, do not seem to be meeting with the success anticipated. The market assigned for the attack on these securities—the one being the action of the shorts in the market, who are desirous of covering their commitments, and the other that the pools working the stocks are desirous of holding the market open until they have made prices up to a higher level. The declaration of the quarterly dividend on Mexican Light Power has definitely disposed of the rumors that the dividend would be passed.

The advance in the Bank of England rate on Thursday and the rising quotations for call money in most of the leading financial centres, is not regarded as likely to have any serious effect on the market, the rates thus far being only of a normal nature, while it is not likely that any further important changes will witness the strain of the fall business will be witnessed.

It cannot be said that much outside speculation has ever been felt at the Toronto Stock Exchange, and the floating supply of speculative stock is still considered small for this market. Some distributing is going on in such issues as the Coals and Steels, in which prices have had an undue advance, compared with other securities, but there seems to be still room left for an improvement in those shares whose dividends are out of line with the return from money invested in other propositions.

Wall Street Pointers. Further gold exports to Japan, making \$21,000,000 sent there on present movement. Cotton spinners proposing to curtail production. Steel manufacturers predicting 43-45-cent steel, says favorable reports.

Standard Specifications
—OF A—
JUTTEN LAUNCH
Designed for Stability, Comfort and Durability.

FIRST INSTALMENT
KEEL of selected white oak, in one piece if possible. We make this member of more than the usual thickness and depth. STERN is likewise made of best oak, in good width and thickness, to withstand bunting into docks and floats. The stem is rabbeted to receive ends of planking.

JUTTEN BOAT WORKS

Wellington Street North
HAMILTON.

NEW FIND ON SILVER LEAF

Continued From Page 9.

ment started a shaft over two years ago, but work was long since abandoned. This entire territory is now being developed by private enterprise. Mr. Cartwright was guided by Engineer N. R. Fisher in his investment in what is now known as the Red Jacket, and has expended a lot of money to date.

A first-class plant has been installed in a neat and commodious power house, and other mine buildings are being erected.

A new shaft has been sunk and is now down 125 feet. This is a double-compartment, well-timbered shaft. At the 87-foot level the vein dipped to the south, but was found at the 125-foot level within six feet of the shaft. Cross-cutting was done in 1907, and the level of the vein has been drifted on to the east and west for 40 feet, and proved to be a wide cobalt-calcite vein with little silver values. Very few assays were made, however, and as a result the dump will now be sorted over, and it is probable a quantity of good milling ore will be sorted.

When in the east drift, about 24 feet from the shaft, native silver appeared in the vein matter, and drifting in ore has been done for 50 feet, with every assay having got in on the top of a good ore chert. The vein has a width of 30 to 40 inches in the roof, and of two feet in the bottom.

The shaft will be continued to the 200-foot level and drifting will be carried on. Possibly a winze will be sunk. This lot lies entirely in the conglomerate, which is a very fine grained rock, heavy, and found on part of the top of a good ore chert. The vein has a width of 30 to 40 inches in the roof, and of two feet in the bottom.

Several veins have been uncovered. The No. 1 Morrison vein was 200 feet long and 10 feet wide and promising. A shaft was sunk on it by Superintendent Morrison in the old days to a depth of 70 or 75 feet. It showed heavy mineralization all the way down, and some good assays should have been given the then owner encouragement. This old vein is 150 feet west of north from the present working shaft. A cross-cut has been started from this shaft to tap old No. 1 vein at the 125-foot level. Then another shaft was started near the highway track and work will probably be done in it during the winter. Several strong fissure veins, remarkable for their freedom and width, have been uncovered.

The Right of Way has also been pushed. The Right of Way has also been pushed. The Right of Way has also been pushed. The Right of Way has also been pushed.

Benj. B. Lawrence of New York, consulting engineer at Kerr Lake, is in camp inspecting that mine, and the other directors will probably arrive to-morrow. They are Edward Steiner, J. J. Steindler, Julius Lewinsohn and Willard P. Ward.

Office Open Until 9 Every Evening.

I am offering for sale at 15c Per Share a limited number of Fully Paid Non-assessable Shares in the California-Alberta Oil Company, and submit the following information in regard to the Company and of the territory in which the Company's holdings are situated.

Every intelligent investor who is looking for an opportunity to get in on the ground floor of a genuine oil-producing company, and who is desirous of making large, yet legitimate returns on a small speculation, should read and think over every word set forth herein.

This is a chance for quick profits, and I will explain why I think this stock is a good buy.

The facts set forth herein call for intelligent digestion by those who read them. They are facts that can be read and analyzed by any one, whether they know anything about oil or not—even those with the remotest inkling of the vastness of the oil industry of California can see that the California-Alberta Oil Company offers something that is worth while.

Here is an oil company run by practical experienced oil men, who know the business thoroughly, and with its lands located in the heart of the best looking oil territory in Alberta.

THE CALIFORNIA-ALBERTA OIL CO.

DIRECTORS.

President—FRED. L. KING, of Seattle and San Francisco, President Keystone Oil Co. of Seattle, Wash.
Man-Dir. British Columbia Oil Refining Co., Ltd., of Vancouver and Port Moody.

Vice-President—Dr. A.R. BAKER, of Vancouver, Capitalist
General Manager—H. MADDOCK, of Vancouver and Toronto, Broker.

Secretary—W. P. WHITLEY, of Seattle and San Francisco, Director of the Seattle Commercial Club.

Treasurer—A. G. MCGREGOR, of Vancouver, B.C., Managing Director of Canadian Pipe Co., of Vancouver.

Solicitors for Canada—MESSRS. MARTIN, CRAIG, BOURNE AND HAY, Vancouver, B.C.

Capitalization 2,500,000 Shares,
Par Value \$1.00
Fully Paid and Non-Assessable

OFFICES OF THE COMPANY:

COLEMAN BLOCK - SEATTLE, WASH., U.S.A.
MACKECHNIE BLOCK, VANCOUVER, B.C.
208 CLAY STREET - SAN FRANCISCO, CAL., U.S.A.

DIRECTORS.

ROBERT P. GREER, of Seattle and San Francisco, Director of the National Ammonia Co., of St. Louis.

Managing Director of the Pacific Ammonia and Chemical Co., of Seattle and San Francisco.

President of the Ammonia Chemical Co., of Australia.

W. W. WILSHIRE, of Seattle, Wash.

Attorney-at-Law; Director of the Seattle Commercial Club.

Bankers—ROYAL BANK OF CANADA,
Westminster Avenue, Vancouver, B.C.

What the Government Does for Us.

The Government of Canada helps and encourages the Canadian oil producer in a way which no other government in the world does. By the "Petroleum Bounty Act" the Canadian Government agrees to pay a bounty of 11-2 cents per gallon upon all crude oil produced in Canada. Think what this would mean to California producers if they could get 11-2 cents per gallon for their oil in addition to the 60 cents per barrel at which they are now selling it at the wells. We in Canada could sell our crude oil at the wells in Alberta for 25 cents per barrel, and with the 11-2 cents per gallon bounty still be getting a far better price than any California producer.

The Company's Property

The property of the company is located in Northern Alberta, Canada, about twenty miles from Edmonton, and consists of 1980 acres, and the fact that vast underlying beds of crude petroleum exist in this territory has been amply proven by the survey made by Director D. M. Dawson of the Geological Survey of Canada for the Canadian Government in this district in 1897 and 1898.

Land in the vicinity of oil fields brings fabulous prices. Land in the Spindle Top district of Texas was sold for over \$100,000 per acre. In oil districts in California land sells for from \$5000 to \$10,000 per acre, and with the large holdings its land alone will bring in huge returns to the shareholders as soon as oil is struck in the district, as it undoubtedly will be this year.

The company, in addition to their large acreage, have this advantage, instead of their land being in one block it has been taken up by their expert in scattered quarter sections, which, in some cases, adjoins land where other companies are already drilling, and, in one instance, they have 480 acres, the boundary line of which is only a short distance from the well of the American-Canadian Oil Company, which is down 1900 feet. Thus considerable of its land is being proven at no cost to the company.

How Your Deposits Work for Others

It is my object to educate as many people as possible in the profits made in oil-producing companies.

A banker laughs when you say that you can make more than 10 per cent. on your money, but this banker is no doubt reaping some of the thousands and thousands per cent. now being made annually in the California oil industry, as shown below.

It is just such spectacular profit-making as is found in the oil industry that makes it possible for bankers to make money. A bank is an expensive institution to run. They pay as high as 4 per cent. on your money, and they loan you the same money at from 4 to 6 per cent. Where do you suppose they come in with this meagre profit? How do you suppose they clear millions to pay dividends to their own stockholders on such a narrow margin? They don't do it on this margin. It is done by their speculative ventures, that net them a great deal more than their straight loans do. The bank is a monument which makes it possible for the president and directors of these banks to make personal investments that net them thousands of dollars more than their actual investments in the bank.

What It is Possible to Do in An Oil Producing Company

"The Board of Directors of the Pinal Oil Company of Santa Maria, Cal., has issued a call for a meeting of stockholders to vote upon an increase of the capital stock from \$200,000 to \$2,000,000. The company is now paying 15 per cent. per month on its stock, and has paid over 500 per cent. up to and including June, 1909."—From Oil and Petroleum Gazette, August, 1909.

Oil Stock is Certainly a Gamble. Read This:

"The most spectacular feature in the transactions on the Los Angeles and San Francisco Oil Exchange for June was the phenomenal rise made in the stock of the Fullerton Oil Company, which rose during the month from \$108 per share to \$160. It is understood among oil men that the reason for this is the fact that it is well known that the directors of this company intend to pay a large bonus dividend in addition to their regular monthly one."—From Bakersfield Californian, August 5, 1909.

One of the Prizes

"A report is published in the California oil papers which states that a despatch has been received from Mexico City that a phenomenal gusher, producing 200,000 barrels per day, has been brought in. The well is located near Tuxpan, in the State of Tampico."—From Oil Industry, of August.

Mr. Bradley's (the Company's Expert) View of the Situation Around Morinville

"What is commonly known as the Morinville Oil District is about twenty-three miles north and about five miles west of Edmonton. The drilling outfit for operating in this territory will cost about \$9,000.00, consisting of derrick, tools, engine and general paraphernalia. The casing will cost from \$1.00 to \$2.00 per running foot, according to the diameter and weight.

"In my opinion the first well the company puts down will cost from \$20,000 to \$25,000. At the present there are several rigs either operating, or getting ready to operate, in the Morinville district. The development work from now on will steadily advance, and is getting more active every day.

"We have room on our property for at least 1000 wells, allowing two wells for every three acres. This territory has every indication of oil that could possibly be asked for by any expert, but it has not yet been proven by the drill, although I feel confident that it will be found in the district; my opinion is the same as that of the experts of the Canadian Government and the two Transcontinental Railroads. When it is taken into consideration that this giant industry is less than ten years old in California, and is bringing into that state an income of hundreds of thousands of dollars a month, we can get some idea of what it will mean to Northern Alberta if found there."

What Can Offer You Such Returns?

There is NO INVESTMENT in the world that brings the huge returns that an oil-drilling company does to its shareholders, as the following will show:

| | Offered at Per Share | Advanced to | \$100 Invested Produced |
|--------------|----------------------|-------------|-------------------------|
| The Home | \$1.00 | \$5,000.00 | \$ 50,000.00 |
| The Union | 1.00 | 1,500.00 | 150,000.00 |
| The New York | .50 | 200.00 | 40,000.00 |
| The Alcase | .50 | 150.00 | 30,000.00 |
| The Pacific | 10.00 | 150.00 | 15,000.00 |
| San Joaquin | .50 | 13.00 | 2,600.00 |

It is a Speculation, But

I sincerely believe that this company is destined to pay dividends as surely as the great American companies have done. Do not delay, but buy now, while I am offering a limited number of shares at 15 cents per share (par value \$1.00), payable one-quarter cash and one-quarter monthly.

200 shares for \$30; pay \$7.50 down, \$7.50 per month.
500 shares for \$75; pay \$18.75 down, \$18.75 per month.
1000 shares for \$150; pay \$37.50 down, \$37.50 per month.

For a prospectus or further information write or call and I will be glad to give it to you.

H. H. FUDGER
President.
J. WOOD,
Manager.

MONDAY,
OCT. 11.

The Simpson Suits Are Marching Fast

HAVE you selected your suit yet? Every day you postpone your decision is a day lost in the satisfaction of looking your best at a fine weather time of the season, when a new suit shows to best advantage.

We want to impress upon you the advisability of choosing your color and size from these \$23.50 suits particularly. We have only a limited quantity of them, and if the demand is going to exceed the supply we would like to know it in time to order more.

They are beautifully tailored, simple, lady-like and superior. They resemble made-to-order garments of much higher prices in their finish and in their quality of cloth.

Material is all-wool Panama, of fine quality; colors are navy, wisteria and black; style is strictly tailored long coat, lined with silk serge, cut-away front, mannish collar, panel effect on sides, trimmed with buttons, skirt made with pleated side gores.

23.50

LADIES' DRESSES, \$13.50.
Ladies' stylish dresses, of fine quality all-wool Panama; colors are navy, black or wisteria; semi-fitting, buttons on front at left side, the new pleated skirt cut very full, trimmed with novelty buttons down front, \$13.50.

LADIES' IMPORTED COATS, \$25.00.
A very special collection of Tweed Coats, in an assortment of the latest colorings of grey, green, fawn or brown mixtures; made in the newest designs with semi or full backs, double-breasted fronts; some have belts, large mannish shawl collars, some trimmed with contrasting colors, these are suitable for driving or motoring during the cool evenings. Price only, \$25.00.

VOILE SKIRTS, \$12.95.
Ladies' Handsome Skirts, of crisp all-wool voile, fine mesh; comes in black only, is in a pretty semi-pleated style, panel front, tab effects on side gores, which are pleated and trimmed around bottom with one wide and two narrow folds of taffeta, \$12.95.

\$1.98 to \$2.95 Waists for \$1.49

DO you know we have the largest collection of really nice waists in town?

Seeing is believing.

200 Waists, a clean-up of lines that are almost sold out, gathered into one fold and one price.

White Handkerchief Linen Waists, with embroidered fronts, tucked sleeves and shoulders, lovely embroidered Lingerie Waists, in various designs, best quality Scotch zephyrs and ginghams, in blue, green, mauve, tan and brown, and many other dainty little waists too numerous to mention. Laid out on tables facing elevators, on Tuesday, at \$1.49.

Queenly Broadcloths Tuesday \$1.19 Per Yard

Glove and chamois finishes, guaranteed unshrinkable and thoroughly shrunken. We have the new autumn shades in delightful variety—weights for suits, long coats and dresses. This broadcloth is manufactured from a fine quality of Botany wool, and is specially dyed for this store to our own selection of shades. See these rich cloths on sale Tuesday. We profit by comparison; 52 and 54 inches wide. Per yard, \$1.19.

EXCLUSIVE PASTEL BROADCLOTHS.

The most brilliant assortment of these popular fabrics, in the soft evening wear shades, you have ever seen. Broadcloths are fashion's favorites for stylish gowns, opera cloaks, etc.; no other material has got that distinguished appearance, which is so noticeable in our broadcloths. Over fifty beautiful shades to select from; 52 inches wide. See special display, Yonge Street windows. Tuesday, per yard, \$1.50.

New Black Silks

RICH qualities of Black Silks in the new cord moire and velours effects, weaves for coats, suits, dresses, trimmings, etc. An unusual large display on Tuesday. Rich black moire handsomely watered, fine black, 21 inch, at \$1.50 yard.

Moire Antique, large design, richly watered, all silk, 21 inch, \$1.25 yard.

New Black Corded Silks, in the new weaves, such as faille duchesse, faille altese, Ottoman, Bengaline, cotele and poplin; beautiful rich blacks, very stylish, 21 inch, at 75c, 85c, \$1.00, \$1.25 and \$1.50 per yard.

32 inch, at \$1.25 and \$1.50 yard.
36 inch, at \$1.50 yard.

More Women's and Girls' Underwear Underpriced

ANOTHER surprise in Women's and Girls' Fall and Winter Underwear for Tuesday. We are offering the slightly imperfect stock from the "Watson" Mills, at a third less than the regular price, too. The small imperfections in no way affect the wearing qualities or appearance of the goods. On sale Tuesday.

Girls' Vests and Drawers, natural ribbed cotton, fleece lined, vests, high neck, long sleeves, drawers ankle length, sizes 2 to 12 years, regular prices 50c to 50c each. Tuesday each, 25c.

Women's Vests and Drawers, heavy white ribbed cotton, vests high neck, long sleeves, button front, pearl buttons, draw-

ers ankle length, both styles, sizes 32 to 38 bust, regular price 50c each. Tuesday, each, 25c.

Women's Union Suits or Combinations, fine ribbed wool, white or natural, high neck, long sleeves, button front, ankle length, unshrinkable quality, sizes 32 to 40 bust measure, regular price \$1.50 and \$1.75 each. Tuesday suit, 95c.

The Artistic Quality of "Colonial Casement Cloths"

This store has a greater assortment of these Marshall Field Casement Fabrics than any other store in this country

THERE is a distinctive decorative quality about these fabrics, in design, in drawing and in color—a character which you will recognize best without one of them before you when we compare them with the most tasteful of the Stencilled Curtains of to-day. The designs are conventionalized plant and flower forms, quaintly and simply expressed. The colors are printed in flat tints mostly, although some of them show degrees of shadow. The tones are soft and mellow, although the effect may be clear cut and definite enough if you are seeking strong effects.

The cloth itself, though inexpensive, being made simply of fine white or ecru cotton and scrim, lends nevertheless a considerable proportion to the beauty of the result. Ask to see our Colonial Casements when you are in the store to-morrow. 25c and 30c a yard.

The Extra Worth of Our \$11.95 Brussels Rug

WE claim that rugs of equal wool and inferior design are selling right now in this city for fifteen dollars.

We claim that rugs of inferior wool and stale design are selling right now in this city for no less than we charge for a good, honest Brussels rug of fresh, attractive colors and up-to-date pattern.

We claim that our \$11.95 Brussels—"nine-by-ten-six"—is exceptional, and we want to show you.

Four frames, high wire. Two different patterns.
Four to six colors in each rug. 9 feet by 10 feet 6 inches.
Five different combinations of color. \$11.95.
A larger size can be supplied at a slightly increased price proportionately low.

The October China Sale

ALL day long the crowds thronged the basement on the opening days of the sale. No one was disappointed. Everybody exclaimed at the wonderful cheapness and the abundance.

To-morrow we add more goods under-bought from the reserve supply, and the sale goes ahead as voluminously as ever.

Fancy China Sugars and Creams, Teapots, Syrup Jug and Plate, Hatpin Holders, Cake Plates, Powder Boxes, Hair Receivers, Manicure Trays, Cups and Saucers, Cream Jugs, Salad Bowls, etc. Regular up to 50c. Tuesday, 15c.

Fancy China Jardiniere, Cake Plates, Celery Trays, Fern Pots, Combs and Brush Trays, Cheese Dishes, Biscuit Jars, Chocolate Jugs, Handled Trays, Jugs, etc. Regular up to 75c. Tuesday, 35c.

Beautifully Decorated Nippon China Sugars and Creams. Regular \$1.50. Tuesday, 75c.

Japanese Chocolate Jugs, two pretty decorations. Regular \$1.25. Tuesday, 75c.

A special showing on Tuesday in our new underwear department for men.

The Victor Boots for Fall 1909

FOR nearly a decade, Victor, the Simpson Shoe for Men, has been winning and keeping friends. At the time the boys came home victorious from the South African war they started it—they've been popular ever since.

This season we have added higher grades to the series, and improved it all along the line. You can buy Victors

now at three different prices: \$4.00, \$4.50 and \$5.00.

The \$5.00 boot will compare with anything turned out in the States at a higher figure.

The \$4.00 and \$4.50 lines hold their end up just as well in their grades.

Victor, as a boot name, means more than ever this season.

Velours calf, box calf and vic kid and patent calf leathers, in Blucher and lace styles, with good sturdy soles, at \$4.00.

Leather lined, box calf, selected vic kid and patent calf, in lace and Blucher styles, at \$4.50.

Special High Grade Boots, copied from Fifth Avenue lasts and styles.

very dressy, for evening, dress and business wear, finest leathers, including patent calf, vic kid, gun-metal and velours calf, at \$5.00.

Our Men's "Victor" Footwear is made in all the popular sizes, widths, lasts and leathers. They are better than ever this season. The prices are \$4.00, \$4.50 and \$5.00.

Queen Quality BOOTS \$4.00, \$4.50 and \$5.00

IN ALL STYLES

You want quality.
You want variety and newness.
You want them at a fair price.
It is instinctive in women to want all these. And all these she gets when she buys "Queen Quality" shoes.
Every day we hear, "Your new styles are stunning." And so you'll say when you see them.
