INGLEWOOD CO. WANT THE POWER To Expropriate for a Sluiceway—Fredericton May Issue \$8000 Worth of Bonds—Town of Dalhousie and Other Bills Up.

Fredericton, N. B., April 11.—The Corporation Committee this morning had the Inglewood Pulp and Paper Company bill before them. H. H. McLean and Geo. McAvity were heard on behalf of the bill, and W. Watson Allen against it. The company wished to obtain powers of expropriation for the purpose of carrying their sluiceway over a piece of land which the owner will not sell. The committee thought that they could not depart from the principle laid down last year, that a private individual or company could not obtain powers of expropriation. The bill stands over until tomorrow. The bill to extend the powers of the Madawaska Log Driving Company was not recommended. The auto road company's bill was recommended. In the Municipalities' Committee, the bill to authorize the City of Fredericton to issue debentures to pay off the floating debt caused a long discussion. Mr. Barry and ex-almayor Farrell were heard against the bill, and the mayor, the city clerk, and alderman Chastaut for it. The city treasurer gave a state-

ment of the assets and liabilities of the City at the end of the year, from which it appears that at the close of the year there was an overdraft of \$18,804, to which was to be added \$1,344, paid on account of a steam roller. They had on hand in cash \$7,838, and sewerage and water \$2,388. There is due on ground rent \$750 and on sewerage and water \$300. There are also \$11,000 worth of back taxes of which 75 per cent is good. The committee thought that under these circumstances it was not necessary to issue bonds to the amount of \$20,000 but they gave authority to issue bonds for \$8,000 to cover the cost of the steam roller and other capital expenditures. The bill to amend the act incorporating the town of Dalhousie was recommended as amended. It gives power to the commissioners to levy taxes for the repair of the streets and to improve the town hall. It authorizes temporary loans to meet current expenses, gives persons taxed on \$300 income a vote, and enables the rate-payers to exempt the Reestouche Woodworking Company from taxation and to supply it with water.

They consisted of 401 adults, and 40 children, and were nearly all Scotch people bound west. REAR END COLLISION. Freight Trains Crashed Near Westfield This Morning—No One Hurt But a Considerable Property Loss.

A rear end collision between two freight trains, near Westfield this morning about 1:40 a. m. caused quite a delay in the trains of the C. P. R. No one was hurt, but three or four cars and the van were burned. The Fredericton train which is due here at 9 a. m., did not arrive until 12:20, and other trains were more or less delayed. It appears that the two trains were both coming to St. John, the first one in charge of Conductor Thompson and the second one under the orders of Conductor Tobin. The first train it seems went on the siding at what is known as Three Crossings, about half way between Ingleisle and Ononette, where the train behind was to pass it. It is said that the crossing was not long enough to accommodate the first train and when the second train came up it crashed into it, smashing the

HAS MISSION IN ST JOHN. Passenger on the Boston Train Claims to Have a Divine Command to Meet a Relative Here.

Among the passengers on the Boston train this morning, was a woman who was mentally unbalanced. She gave her name as Mrs. Duncan Grass, and claimed Waas as her home. It was learned that she had been put aboard the Fredericton train at the capital, but had been transferred to the Boston train at Walsford, where she was handed over to the care of Conductor Henderson as the Boston train crossed the Fredericton tracks at that point. The Fredericton train being held on account of the wreck near Westfield, conversation with some of the train hands at the depot, she said her name was Mrs. Duncan Grass, and that her husband deserted her. She said the Lord had told her that if she came to St. John on Tuesday, she would meet her aunt, Miss Elizabeth Sophia Grass, so in response to the summons, she came down this morning. She said her aunt

belonged in Moncton, and she was convinced that she would meet her aunt. She has two sisters at Waas, who, she says, know she was coming here. Both on the train and in the waiting-room of the station, where she was cared for by the matron, she was almost continually singing hymns from a book which she had brought with her. Dr. Berryman was called into the depot and examined the woman. He pronounced that she was harmless insane, mainly on religious questions and advised that she be sent back home. It has been learned that her husband is living with her and that she appeared all right when she was put on board the train. She will be sent back to her home on the 3:10 train. C. F. R. steamship Empress of India arrived at Hong Kong at 8 o'clock this morning from Vancouver. She said her

The Times New Reporter.

The great aldermanic row—all is now on. Although some of the contestants are ring-boned or spavined or touched with heaves, there may be quite an exciting finish.

MR. BINK'S TROUBLES. Mr. Peter Bink went to Fredericton this morning. To the Times new reporter he said he had a little matter to place before the legislature. Some friends had built a railway for him a few years ago, and had promised it to him. He was rather proud of it at first, but the changed thing had become a nuisance, because it wouldn't pay running expenses. He had an idea that if he could get up to the legislators it Fredericton and state the case they would see

the injustice of the thing, and perhaps either give him a grant or operate the road for him. Mr. Bink's many friends will hope that he will succeed in his mission. In fact it is somewhat surprising that the friends who presented him with the railway did not provide a fund to pay running expenses. All that should be asked of Mr. Bink is that he spend the receipts from the road and have a good time. The habit of presenting people with expensive toys should be discouraged, unless the donors are willing to keep them in good condition.

McLean. A large class will shortly graduate. The bearded ladies on the seats in the King Square complain that the weather is not as warm as it should be. They should at least be provided with foot warmers. A gentleman who saw a trout in the Missop stream summer before last will ask that his rights be protected by the legislature against the encroachments of the city. He has reason to believe that if the city has its way he might not be able to see a trout in the Missop next summer if he happens to go there. In that case he would be entitled to substantial damages.

He had a talk over the matter about two weeks ago but since then he has not even thought of it.

POST NO BILLS. The Troubles of a Hotel Man With the Pictorial Brigade.

Some little excitement was caused this morning on Germain St. A hotel proprietor has facing his abode an empty lot, with a board fence around it.

For some time, bill-posters have been decorating the fence with show notices and other advertisements. The proprietor does not like to have these highly-colored papers posted on the fence opposite his hotel.

So he made known the fact to the owner of the lot, who at once put a sign up on the fence, reading, "Post no bills." Thinking that the sign would have the desired effect, the proprietor sat down in his office to smoke a cigar.

No sooner had he seated himself than he noticed the bill poster, tramping up the street with an arm full of pictures, and advertisements. The hotel man watched him closely, and was astonished to see him start to post the bills. When the poster was through, the proprietor, with his clerk, went across the street, each with a knife in hand. After half an hour's work, all the bills had been scratched off.

The return of Jules Murray's company supporting W. A. Whitecar in "The Mummy and the Humming Bird" at the Opera House.

As Lord Lumley the Mummy, W. A. Whitecar gives a finished, easy and consistent performance while Mr. Kenyon as D'Orelli the Humming Bird is the same suave milk and water type of villain as before and his enunciation is just as indistinct.

Henry C. Lewis, Guiseppe, the Italian organ-grinder has a charge of a "hit" but he does it in such superlatively excellent style and with shadow most of the other characters.

His "hit" is a wonderfully clever one and he does it splendidly among the best character delineations seen here for a long time.

Wheatley who succeeds Miss Ethel Ferguson in the role of Lady Lumley is a decided improvement upon her predecessor. She has not the same rapid-fire delivery as did Miss Ferguson, and as a consequence gets the full effect from her part.

Other roles were all very well taken and altogether the performance is the most artistic and most pleasing seen in St. John this season. It will continue to hold the boards until Wednesday evening and should be largely patronized as its merit is such as to call for recognition.

ONTARIO TOWN HAS BIG FIRE.
