All Goes Well So Far at Conference

Turks Accept Allied Note in Principle—General Harington Issues Reassuring Bulletin—Russia Appears—More Time For Refugees to Get Away From Smyrna.

Constantinople, Oct. 4.—The Turkish Nationalists have accepted in principle the allied note regarding the Near Eastern settlement, it was announced here today.

A communication issued by General Harington, British commander in chief, says the Mudania conference is proceeding satisfactorily, and that Ismet Pasha, Nationalist representative, has received orders to the Nationalist troops to avoid all contact with the British troops.

HAS A DIFFICULT TASK.

General Harington, British commander in chief, says the Mudania conference is proceeding satisfactorily.

Russia Looms Up. Constantinople, Oct. 4.—Russia loomed on the horizon today for the first time as likely to prove an important figure in the settlement of the Turkish problem. The negotiations at Mudania have brought to light the fact that Kemal's advisers are urging him to obtain from the Allies pledges for eventual fulfillment of all the conditions of the so-called national pact, including control of the straits and modification or annulment of the capitulations. Should he succeed in this, it is said, he will at the same time attempt to abrogate the treaty made with the Soviet foreign minister, M. Tchitcherin, in Moscow, on March 16, 1921, which permits the Soviet and the Black Sea countries to share in the control of the straits.

EX-CHANCELLOR ADDRESSES U. S. BANKERS

McKenna Suggests a Postponement of Payment of Debts to U. S. Except by Great Britain.

NEW YORK, OCT. 4.—

Definite postponement of any payment of the debts owed the U. S. by European nations, with the exception of Great Britain, until the actual amount which such nations could ultimately pay has been determined by conferences was suggested by Rt. Hon. R. McKenna, former chancellor of the British exchequer, in an address before the American Bankers' Association convention here today. He also gave as his opinion that Germany might be able to pay as reparations in the immediate future about one million dollars derived from U. S. foreign balances and the sale of foreign securities. Such a payment, he asserted, would be possible only if other demands were postponed for a definite period, long enough to stabilize the mark. Future demands at the expiration of that period, he said, would be limited to the annual amount of Germany's exportable surplus at that time.

Full Amnesty To Irish Irregulars

Surrender Arms by Oct. 15, Says Proclamation by Free State

Hopes to Restore Peace Without Further Bloodshed—Many Opponents Not Ranged Against Them by Will—Allegiance Clause of Constitution Adopted by a Large Majority.

Dublin, Oct. 4.—It was in the hope of restoring peace without further bloodshed that the Irish government offered full amnesty to all offenders who surrendered their arms by Oct. 15, says a proclamation by this effect, issued yesterday.

The document sets forth the government's knowledge that many persons have been forced to participate in rebellious actions against their will and better judgment, while others have been misled by promises of amnesty. It is hoped that they will be able to return to their homes and resume their normal lives.

A case against Harry Doherty and Guy McIntyre, charged with destroying property, was taken up this morning. Mrs. Annie Garrett and Mrs. Elizabeth Veniot told of recent disturbances there and of drinking and disorderly conduct. The magistrate reminded the women that they were liable to nine months in jail and reprimanded them.

RUSE TO HELP CONSTANTINE

Athens, Oct. 4.—Constantine's act of abdication has disappeared. It is contended that the disappearance of the abdication document is the work of a revolutionary group who believe there would be a disagreement among the revolutionary troops as soon as they were informed of the king's flight to safeguard the throne for Constantine.

FEAR FLOODS IN BENGAL HAVE TAKEN THOUSANDS OF LIVES

London, Oct. 4.—(Canadian Press)—A Reuter cable from Calcutta says it is evident from reports by passengers arriving by the first through train from Darjeeling in eight days that the recent floods in northern Bengal have taken a terrible toll of life. It is impossible to estimate the extent of the disaster at present but by the fact that an important junction point was for days inundated by five to ten feet of water while crowded with refugees from surrounding villages which had been completely destroyed, it seems probable that in the whole affected area several thousand persons have been drowned.

FURTHER ADVANCE IN WALL STREET

Hundred p. c. Stock Dividend for Standard Oil of California Sends That Stock Soaring.

New York, Oct. 4.—(10:30)—Heavy buying of oil shares caused a further advance in prices in today's stock market. Declaration of a one hundred per cent stock dividend by the directors of the Standard Oil Co. of California resulted in a sensational demand for that stock, 7,000 shares being sold in the first few minutes at prices ranging up to 138. The next sale was 200 shares at 134, an extreme rise of six points, 64, a new high record. Coca Cola also was in brisk demand, rising 3 1/2 points to a new peak price. Rail shares were actively bought under the leadership of Lackawanna, Union Pacific and Rock Island, all of which improved a point.

(Canadian Press) New York, Oct. 4.—John McGraw's Giants, National League pennant winners were ready today to engage Miller Huggins' American League champion Yankees, in the first game of the world's series. The day dawned slightly cloudy and cool but there was every indication at 10 a. m. that the opening game would be played under a fair sky.

The Yankees, because of a great pitching staff composed of "Bullet Joe" Bush, "Savior Bob" Shawkey, the youthful Walter Hoyt and the dependable Jones, are rated best by a majority of the experts, but the Nationals are ever fighters and at their best when against odds, and though their pitchers on paper do not appear well as those of Huggins, they are a dangerous lot.

TWELVE FIRES

Hunting Parties are Blamed for This

New Brunswick is thousands of dollars worse off than it was yesterday as a result of lack of care on the part of hunting parties, said an official of the forest service in summing up the situation.

During the month of September only half an inch of rain fell, according to the records of the Dominion meteorological station here, and conditions are favorable for a great conflagration. Several towns have been menaced by the bush fires during the last twenty-four hours, including Campbellton, Newcastle, and on the C. N. R. division line between McGivney Junction and Moncton, great fires have burned down telegraph and telephone lines along the railway, cutting off communication.

Augusta, Maine, Oct. 4.—Governor Perseval P. Baxter, in a proclamation issued last night called upon all hunters and others who are hunting in the woods to prohibit the carrying of firearms in the forests will be used if fire increased during the next few days.

Quebec, Oct. 4.—"Only rain and good will on the part of farmers and settlers can save the situation," said C. Piche, chief forester of the Province of Quebec last night, commencing on the forest fires that are raging in practically every section of the province.

While reports on fresh outbreaks are coming in, Mr. Piche said that the worst fire was raging at Percival, Lake Kippewa, along the Gatineau, on the La Lievre river, on the Red River, at Rawdon, near Shawinigan, where Harvey Hunt, a sportsman, and Port Neuf County, at Perthuis, at St. Jules de Lotbiniere, near Laurier Station, at Cranbourne, near Laurier Station, at Lake Perce, and at Lake Perce, in a peat swamp in the rear of Lewis County, although there was not much danger from this outbreak.

Three fires, Que. Oct. 4.—Forest fires are raging in the district of Grand Mere, Shawinigan Falls and Gramme Piles. Some are threatening widespread destruction unless rain falls within a few days. Yesterday afternoon fire caught in the woods near the country club and spread quickly, endangering houses in St. George street. The fire was under control after a four hours fight.

IMPROVE MORALE IN POSTAL SERVICE

Suggestions Made at Ottawa Convention Include a Satisfactory Superannuation Act.

Ottawa, Oct. 4.—(Canadian Press)—Steps which might be taken to improve the morale of the postal service and create personal interest in the achievements of post office workers were discussed at yesterday afternoon's conference of the postal officials. Among the proposals made was one from J. F. Murray of Vancouver, that postal employees should be carefully selected, given adequate remuneration; that lines should be abolished and a satisfactory system of promotion inaugurated; and that unretirement service should be announced through the postal bulletin and through the press. Members of the conference were unanimous in the feeling that adoption of a satisfactory superannuation act with provision for widows and orphans would do much to improve morale in the service.

CITIZENS OF ST. JOHN ARE TO BE CONGRATULATED

Seldom Does any City Reach Such a Standard.

A stranger in town the other day dropped into the "Uptown Tea Shop" for lunch. He describes it thus.

Upon entering a feeling of restfulness came over me induced by the soft mellow shades of the panels and draperies. In this mood I studied the menu and was surprised at the various choices spread before me. After finishing the meal which was very tasty and served appetizingly, I prevailed upon the management to print a simple menu for the benefit of all who wish to know where they can get a delicious home cooked meal for only 35c. This is only a sample of what is served there daily and has helped to earn the slogan of "The Tea shop with the reputation for home cooking."

Menu: Pure Spiced Peas, Maitland's Beef, Roast Beef au Jus, Lamb a la Macadone, Peas, Succotash, Carrots, Boiled and Mashed Potatoes, Steamed Baroque Pudding, Sabayon Sauce, Deep Plum Pie, Open every night and Sunday.

POTATO MEN WANT CHANGE

Conference in Woodstock Over Railway Rates—Continue it in Montreal.

Messrs. Elliott, Cannon and Jones were present in the interests of their respective railways. The speakers indicated that it was necessary for all concerned that the railways come to the relief of the farmer. Potatoes were selling at 75 cents a barrel and costing the farmer \$1.50 to raise and unless relief was granted from big corporations all must go out of business. A rate of 22 cents on potatoes and \$20 a ton on hay was declared prohibitive. There was danger of losing the potato industry in New Brunswick owing to excessive prices.

FURTHER ADVANCE IN WALL STREET

(Continued from page 1.) Noon Report. New York, Oct. 4.—(noon)—Bullish operations were aggressively conducted throughout the morning. Cable dispatches stating that an armistice had been agreed upon between the allied and Turkish commanders in the Near East contributed to the more cheery sentiment. Trading was largely of a professional character, but the volume of business indicated the reappearance of an investment demand on the part of small interests. The buoyancy of the Standard Oil group exercised a dominant influence on prices, but the resumption of active bidding for public utilities, food, merchandising and standard railroad shares also accelerated the upward swing. National Biscuit extended its gains to twelve points and Standard Oil of New Jersey to six, while gains of three to 3 1/2 were made by Fisher Body, May Department Stores, Dupont, United Lead, Mexican Petroleum and United States Realty. FURTHER ADVANCE IN WALL STREET

(Continued from page 1.) Noon Report. New York, Oct. 4.—(noon)—Bullish operations were aggressively conducted throughout the morning. Cable dispatches stating that an armistice had been agreed upon between the allied and Turkish commanders in the Near East contributed to the more cheery sentiment. Trading was largely of a professional character, but the volume of business indicated the reappearance of an investment demand on the part of small interests. The buoyancy of the Standard Oil group exercised a dominant influence on prices, but the resumption of active bidding for public utilities, food, merchandising and standard railroad shares also accelerated the upward swing. National Biscuit extended its gains to twelve points and Standard Oil of New Jersey to six, while gains of three to 3 1/2 were made by Fisher Body, May Department Stores, Dupont, United Lead, Mexican Petroleum and United States Realty. Call money opened at 3 1/2 per cent. Montreal Exchange. Montreal, Oct. 4.—(10:50)—During the first half hour this morning the local stock exchange was strong but quieter. Mrs. Spanish River issues were the market leaders, both in strength and activity, the common rising 1.34 to ninety-five and the preferred one to 100 1/2. Of the other papers, Abitibi was down half at 69 1/2 as was also Price Bros., at forty-four. Laurentide was unchanged at ninety-five. Other still at premium. New York, Oct. 4.—Sterling exchange steady. Great Britain, 4.1 1/2; France, 7.61; Italy, 4.26 1/2; Germany, 34 1/2. Canadian dollar 1.32 of one per cent premium.

A New Note Struck In Jacobean Suites

The slip seats on the regal chairs in this Jacobean suite of solid walnut are of brown haircloth. Canopied fretwork in self wood enhances the win-dowed beauty of the stately china cabinet. Exquisitely wrought handles in old gold on the broad buffet emphasize its grace of line and restrained ornamentation. The doors open at either side of the silver and linen drawers. The oblong table has curved corners and sweeping semi-circular supports from leg to leg. There are many other little touches that should be seen in our north window. But first and foremost is the price for nine pieces of solid walnut. \$330 Or in antique oak—282.

London, Oct. 4.—(By Canadian Press)—Grand Trunk Pacific Railway four per cent debenture stock was quoted at 47 1/2 here yesterday, an advance of eight points in two days. Seemingly the rise has been in consequence of reports of a reduction in the operating expenses of the railway. Some financial commentators are skeptical as to whether the debenture holders are justified in participating in an early resumption of the payment of dividends.

THE U. S. AND THE DEADLOCK IN EUROPE

There appears on the horizon no other adequate source of help but the United States if Europe is to be brought back to a healthy condition within the near future, Dr. Henry A. E. Chandler, economist of the National Bank of Commerce in New York, declares.

"During the four years that have elapsed since the armistice closed the great war there has always existed a strong hope that conditions in Europe were gradually improving, and that a solution would finally be found for the great conflict of interests that has been impeding Europe's recovery."

Chandler writes in the October issue of the bank's magazine Commerce Monthly: "The occurrences of recent months,

however, have finally brought many people all over the world to recognize what some of the ablest observers in Europe have long ago seen, namely, that there exists in the status quo left by the war and by the treaty of peace a series of economic, financial and political conditions that have been slowly but surely driving some of the principal European nations into a deadlock which in some ways becomes set harder and harder with each successive month.

"This deadlock is two-fold in nature. On the one hand, a series of economic conditions and inter-governmental financial obligations arising out of the war have gradually driven many of the principal nations of Europe into a financial deadlock which in some ways becomes set harder and harder with each successive month.

"On the other hand, there is a deadlock in international opinion which in many ways is the more difficult to solve. The latter arises chiefly from the inability of the nations to understand the insurmountable difficulties in each other's problems.

"The fact is that there exists in France in Germany a very complicated and difficult condition of affairs. Just as it appears impossible for Germany to get upon her feet without a respite, so it appears impossible for France, without reparations or financial help from other countries, to meet the obligations that face her. And even if Great Britain could afford to and were willing to cancel the entire French debt to her without relief from her debts to the United States, France could not entirely forego reparations payments for any considerable time without other substantial financial help from the outside.

"This is the central fact of the situation in Europe. It does not, of course, include many important factors that must be considered, notwithstanding the pressing nature of some of the situations they involve, must wait for their final solution until the deadlock has been broken. The central fact in the present European situation, then, involves principally two things.

"First, whatever may be the theoretical capacity of several of the European nations, the governments (through which all national policy must be expressed) face a combination of economic and financial burdens that they cannot carry unaided.

"Second, partly because of this financial deadlock, and partly because of the misunderstanding of each other, European nations, worn nerve-bare by long attempts at working out their own problems, have been driven farther and farther into a deadlock of opposing opinion.

"The evidence appears well nigh overwhelming that Europe is unable to pull herself out of this dilemma without help by counsel accompanied by our help. Europe must have help in two ways: "She must have financial help, of a kind and quantity not yet given. As much as anything else, however, she needs help by counsel accompanied by co-operation. "For many reasons the United States is the one great nation to which the logic of the European situation directly leads. In fact there appears on the horizon no other adequate source of help, if Europe is to be brought back to a healthy condition within the near future. "Before any great advance in the

Any breaking out of the skin, even fey, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. It seldom fails to relieve the torment and disfigurement. Sufferers from skin trouble should get a little jar of Rowles Mentho-Sulphur from any good druggist and use it like a cold cream.

final solution of the great economic and financial problems of Europe can be made, France, Germany and other European nations must be brought more fully to appreciate each other's difficulties. To render most effective assistance in this work, however, America must first obtain what for the most part she does not now possess, namely, a somewhat adequate appreci-

ation of the very great difficulties confronting each European government. Once a sufficient number of Americans have given a sympathetic and somewhat thorough study to the conditions in each country, America will quickly recognize how inadequate has been the often repeated advice to Europe to "tax more, cut expenditures, and balance budgets." America will then realize that the present European dilemma has resulted not from the failure of Europe to make an extraordinary effort to which many of the things that she has been advised to do, but from a combination of difficulties, economic, financial, political and social, that have been utterly beyond her power to work out by herself alone."

ENGLISH EMIGRANTS ARE INTERESTED IN AUSTRALIA
Melbourne, Sept. 7.—(A. P. by Mail)—Australia as a land of opportunity for the immigrant from England is catching the imagination of the English people, according to a letter received here from the Australian high commissioner in London, Sir Joseph Cook. Sir Joseph declared recently in a speech that one immigrant from England came to Australia with nine pounds in his pocket and now is in charge of the Australian immigration service in

London. He was referring to Jack Barnes, who is also owner of 15,000 acres of wheat lands in the commonwealth. In the week following the speech the high commissioner's office received 24,000 requests for information on how to get to Australia under the immigration provisions.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., WEDNESDAY, OCTOBER 4, 1922

FAIL TO REACH AN AGREEMENT IN PARIS CASE

Nine Jurors Were for Acquittal and Three for Conviction—Prisoner Remanded to Await Decision of Crown.

The fifth trial of John Paris for murder ended last night at 11:15 in a disagreement of the jury, three standing for conviction and nine for acquittal. The attorney-general moved that the prisoner be remanded to jail until a decision as to a future course of action is reached by the crown. The jury was out eight hours and twenty minutes.

The jury retired at five minutes to 8 yesterday afternoon, and at 8:35 signified their readiness to return to the court room. They filed into their places and to the question of the clerk: "Gentlemen of the jury, have you reached a verdict?" J. Gordon Likely, the foreman, said, "Sir, we have disagreed." Chief Justice McKewen said that he was unable to accept a disagreement at present, that they would have to consider longer. Continuing, he said that from the evidence of Dr. H. L. Abramson they could draw their conclusions as to how the child met her death. If she had met her death at the hands of the accused, even though he had not intended to kill her, he could be found guilty of the charge of murder. The condition in which the body had been found had shown that it had been violated in an inhuman manner. If the accused had been the cause of this, even though he had not intended to take her life, he would be guilty of the charge preferred against him. He directed the jury that unless they could agree upon a verdict they need not trouble him until he notified them. As it then appeared that the jury would be out for some time his honor directed that separate be served to them.

Disagreement Reported. At 7:20 the jury again signified their desire to be heard, and the court was reconvened at 7:45, again reporting a disagreement. They were sent back to continue their deliberations. At 7:50 the judge directed that they be brought into court and explained to them that if they arrived at an unanimous verdict they might notify the constables and he would return to hear it. This was an important case and he was not trying to bring any pressure to bear upon them to force them to an agreement, but he thought they should have a much longer time to consider. Six days had been spent in taking evidence and he thought that merited a somewhat longer consideration of the case by the jury.

Nine for Acquittal. As no indication had been given by the jury that they had agreed upon a verdict the judge sent for them and they came into court at 11:15 again reporting a disagreement. Mr. Likely

great middle class, called the backbone of the country, was declared by some pessimists to be doomed to speedy extinction unless it produced more babies. Now these lamentations have ceased. Some far-seeing and logical statisticians point out that the future of a country is not determined so much by the number of babies born as by the number of babies that survive the first year of life and grow up. Looked at from that angle England is not doing so badly in this all important matter. During August it is pointed out that the death rate of children under one year of age was only forty-one per 1,000 births. In 1919 London's rate for the same period was fifty-five. Compared with the beginning of this century the baby-saving figures give still greater cause for rejoicing among those who reckon the future of Eng-

THE LATE J. R. BINNING.
(Montreal Gazette.)
John R. Binning, manager for Canada and Newfoundland of the Furness, Withy & Company, Limited, and well known in shipping circles, died early on Saturday morning in the Ross Memorial Pavilion of the Royal Victoria Hospital, where he had been removed nearly two weeks ago, after having been in failing health since early in the year.
John Russell Binning was born at Hamilton, Scotland, August 16, 1866, being in his fifty-seventh year. He was educated at the public schools of his birthplace, and at the Hamilton Academy. He was employed for a short time in the shipping business in Scotland, and came to Montreal in 1888, when he entered the service of the Canadian Pacific Railway, being later promoted chief clerk in their foreign freight department.
Ten years later, in 1898, he resigned this position to join Furness, Withy & Company, Limited, as assistant manager, which position he held until 1903, when he was appointed general manager at Montreal. In recognition of the services he rendered during the war, with headquarters in Philadelphia, Mr. Binning in 1920 was appointed company manager for Canada and Newfoundland.
He was a member of the Montreal Board of Trade since 1908, and was one of the familiar figures on the exchange floor. On the organization of the Shipping Federation of Canada, Mr. Binning was chosen treasurer. He was also a member of the Montreal Corn Exchange.
Mr. Binning was a Presbyterian, and for many years worshipped at the old Knox Presbyterian church, while since the amalgamation he had been a member of the congregation of the King-Crescent church. He was a member of Antiquity Lodge, A. F. &

College Student, Keeping a Broken Rib a Secret, Entered Second Encounter.

Milton, Wis., Oct. 4.—Doland Sayre, 30 year old, a Milton College sophomore, is dead from injuries received at the annual freshman-sophomore class rush on Sept. 22.

Keeping secret the fact that he had suffered a broken rib on the night of Sept. 21, during an informal campus battle, Sayre entered the formal rush the following afternoon. One of his kidneys was ruptured by contact with the fractured rib, and uremic poisoning followed.

Sayre was president of the freshman class last year and won prominence as a football and basketball player.

BACK EVANGELINE BOOTH.

Chicago Elks Protest Against Her Removal as Salvation Leader.

Chicago, Oct. 4.—A resolution protesting against the contemplated removal of Evangeline Booth from leadership of the Salvation Army in America was adopted at a meeting of district deputies, members of the Elks Memorial Headquarters Committee and about 200 members of the Benevolent and Protective Order of Elks held here today.

The meeting, which was called by J. Edgar Masters, Grand Exalted Ruler, endorsed the telegram sent by Mr. Masters to General Booth at London in which it was asserted that the removal of Miss Booth will "directly offend the intelligence of our more than 800,000 membership, as it will, I am sure, every friend of the Salvation Army in the United States."

DRUG ADDICT DRAWS CROWD

Police Say Man Thought He Was Shaving With Broken Glass.

New York, Oct. 4.—Having removed most of his tattered clothing, a man who described himself as Robert Burns, 30, and having no home, was arrested at the corner of Seventh avenue and eightieth street, by Detectives Cahill and McGarvey after his actions had attracted a crowd. The police say the man, evidently mentally unbalanced, thought he was giving a demonstration of how to shave himself with a piece of broken bottle.

At the West Forty-seventh street station, he admitted, according to the police that he was a cocaine addict. He was sent to Bellevue Hospital for observation by Dr. Cohen of Flower Hospital after he had told the ambulance surgeon that he was a secret agent of the government, working on steamships as a spy.

Chicago, Oct. 4.—William Meehan, who left Indianapolis a week ago on a high bicycle to attend the opening session of the American Electric Railway Association convention here, arrived at the outskirts of Chicago after a two-hundred-and-forty-mile trip.

Save for the fact that he lost twenty-three pounds in weight, fell four times from his fifty-seven-inch seat elevation, walked twenty miles through fresh gravel, and caused several horses to try to climb trees, the trip was without incident. More than 2,000 delegates to the convention had arrived tonight. Sessions start Tuesday.

**WOMAN SENDS 42,000
CENTS TO PAY
GREENWICH TAXI BILL**

Greenwich, Conn., Oct. 4.—A wealthy woman residing in a fashionable section of Greenwich, moved to her winter home in New York city, leaving a bill of \$420 owing the Greenwich Cab Company for taxi fares. A representative of the company had visited her estate here on two occasions in an effort to collect the bill before she left, but was unsuccessful.

The other day the woman sent a taxicab from New York to the cab company's office here with a large box containing 42,000 one-cent pieces. With it she sent \$1 to pay for the taxi that had made the two trips to her home here for the purpose of collecting the money, and her photograph, under which was written "O. B. B."

It took four men to carry the box into the Putnam Trust Company office and place it in a private vault.

**BERLIN PAPER THIEVES
STRIP CITY OF POSTERS**

Berlin, Sept. 13.—(Associated Press by Mail)—Billboard strippers constitute a new type of thief on Berlin's police blotter. Due to the increased value of wastepaper, the plundering of street advertising has set in.

The thieves work at night, and so far have confined their activities mainly to the round poster pillars which dot the city's thoroughfares, adorned with various bills advertising theatres, restaurants, dance halls, etcetera. One young man was found to have torn down fifty kilograms of old paper and stored it at home for future sale.

The Forty Hours' Devotion at the Church of the Assumption closed last night when Rev. Father McCarthy gave benediction, assisted by Father Carleton as deacon and Father Ramage as sub-deacon. Father O'Brien preached a forenoon sermon, after which there was a procession of the children of the parish. There was a very large congregation, and the choir rendered special music for the occasion.

"GHOST CITY" COMES TO LIFE

Historic Alaskan Town Revived by the Discovery of Placer Gravel.

Anchorage, Alaska, Oct. 4.—Girdwood, one of Alaska's "ghost cities," which flourished in the early gold days,

but was deserted, has quickly come to life by the rediscovery of rich placer gravel. Cow Creek, hunted up and down twenty years ago, is the mecca for hundreds of newcomers. Many rich finds have been made. The gold is in large nuggets and lies in gravel but a few feet deep. With the coming of first stampedes the blacksmith shop was found split open by a good sized spruce tree. The general store housed hats and owls, while most of the other temporary shacks had been laid low by the storms of two decades. Girdwood now promises to become a big growing town.

The executive of the St. John subdivision of the Catholic Women's League met last night in Rosary Hall and in the absence of Mrs. Richard O'Brien, who is attending the national convention, Mrs. F. J. Power, the vice-president, was in the chair. The social committee undertook to hold a rummage sale and plans were made with regard to the sale. It was decided that the division should have charge of the ice cream booth at the Cathedral high tea next month, and all arrangements were made for assisting in tagging for the Victorian Order appeal. Mrs. E. J. Ryan was appointed convener for tagging.

The Touch of Genius.

In Scotland there is told a story of one Sandy McIntosh, who started to build a small outhouse of brick. After the usual plan of bricklayers, he worked inside, and, as he had the material close beside him, the walls were rising fast when noon arrived, and with it his son, John, who brought his father's dinner.

With honest pride in his eye, Sandy looked at John over the wall on which he was engaged, and asked:

"How do ye think I am gettin' on?"

"Fine, father; but how doe ye get out?"

"You've forgot the door!"

One glance around him showed Sandy that his son was right; but, looking at him kindly, he said:

"Oh, but ye've got a grand heid on ye, John! Ye'll be an architect yet, as sure's yer feather's a buidler!"

SOVIET CAMPAIGN AGAINST GROWTH OF LIBERAL IDEAS

Moscow, Sept. 3.—(Associated Press by Mail)—The Soviet regime is now waging a campaign to crush what it terms "bourgeois psychology" or the idea of individual wealth and freedom from state interference. These have again sprung up in Russia as result of development of the new economic policy.

This psychology, speakers at the recent Communist party conference declared, is the most dangerous enemy of the ultimate success of Communism in Russia. It was pointed out that, since a measure of freedom of trade was restored, many Russians came to the conclusion that bourgeois and democratic ideals were again about to reign in Russia.

The Communists are determined that such ideals shall not be allowed to grow, and declare that the present leeway allowed to capitalism in Russia is merely a temporary step, opportunistly utilized by the Bolshevik regime in the direction of the goal of communism to be reached in years to come.

"This insistence on stamping out 'bourgeois psychology' led recently to the exile of more than 150 Russian in-

WHITE ROSE GASOLINE

Powerful, Pure, Dry. No Free Carbon, Quick Starting, Full Power, Long Mileage.

EN-AR-CO GEAR COMPOUND

For Transmission and Differential.

Change the Oil in Your Motor

Put in En-ar-co Motor Oil

YOUR motor will run better and last longer if the lubricating oil is taken out every five hundred miles and fresh oil put in. Motor manufacturers recommend it.

When a low grade of gasoline is used—one that is not volatile and pure—it does not respond to the spark strongly enough. The stroke of the piston is over before all ignition. This unconsumed gas is then thrown off through the exhaust—and most of it often slips down past the piston rings into the crank case, diluting and making the motor oil lifeless. A certain amount of dust is also drawn into the crank case, as well as tiny particles of metal that may chip off from various parts of the motor. This causes wear and carbon formation so that fresh oil at regular intervals is essential.

Carbon is mostly formed by the oil that seeps past piston rings upward, depositing on the piston rings, cylinder head and plugs where the intense heat from the spark takes it hard.

To overcome an excess amount of oil seeping upward, an oil of great adhesiveness and heat resisting qualities must be used.

En-ar-co Motor Oil has the "body" to hold up and withstand the greatest heat any motor will develop, retaining at all temperatures its cushioning properties which is essential to prevent friction and insure a smooth running motor. En-ar-co Motor Oil has greatest adhesive qualities. It forms a seal around the pistons which tends to prevent excess oil accumulation and forming carbon on cylinder head and rings.

We say to you that if you use En-ar-co Motor Oil you have the remedy that will insure a smooth running motor. You will get more and greater power. You will have no unnecessary motor repair bills. You will operate your car more economically.

HALT C. P. LINER TO TAKE ON TWO

Passengers Reach Quebec Wharf as Empress Sails, But Officials Get Them Aboard.

Quebec, Que., Oct. 4.—The Canadian Pacific steamship Empress of France left Quebec at 3:35 o'clock yesterday afternoon for Southampton, Cherbourg and Hamburg. She had just left her moorings when two belated second class passengers, Mr. and Mrs. Robert William Palmer, who had booked for Southampton arrived to see the vessel sail away without them. Sir Thomas Fisher, O. B. E., general manager in Europe for the Canadian Pacific Steamship Limited, with Commander Elliot, Quebec superintendent and other officials of the company were on the pier and with the usual courteous accommodation of the Canadian Pacific signalled the Empress of France to hold up and the company's tug Gopher took Mr. and Mrs. Palmer out to the ship and placed them on board. This entailed a delay of fifteen minutes in the sailing of the steamer. This incident was witnessed by several hundred people on the pier, who expressed their appreciation of the accommodating act.

The Empress carried more than 400 passengers including 175 in the saloon. Among the latter were Duchess Delmonte, Lady Mount Stephen, Lady Gordon, Holman Gregory, K. C., M. P., a British parliamentary party returning after a visit to Canada; Miss Ruth Shalford, daughter of Rev. (Major) Canon Shalford of Montreal; Major F. P. Barton, Victoria, B. C.; Colonel G. A. Becker, Toronto; J. J. O'Neill, managing director of the Manchester Guardian; Capt. Arthur Bromley, R. N., commander of H. M. S. Raleigh and Rev. Canon Gould, secretary of the Mission Society of the Church of England in Canada.

Mr. Gregory said that he was returning to England full of amazement at the development of Canada, its growth and expansion within the last forty years and above all the wonderful organization and development of the C. P. R. and its steamship auxiliary.

EXCESSIVE CIGARETTE SMOKING HARMS WOMEN

London, Sept. 16.—(A. P. by Mail)—The enormous increase of cigarette smoking among women, says the medical correspondent of the London Times, calls for some protest by the medical profession. He declares the habit in many instances is passing beyond a pleasure and becoming a vice.

"The absorption of nicotine, which is the danger element in the matter," the correspondent proceeds, "produces a condition of nervous distress which

is frequently painful to observe. From this proceed palpitations and exhaustion and outbursts of emotion. Woman's delicate nervous organism was certainly not intended to endure large doses of this poison. Her functions as a mother cannot but be interfered with when she indulges in it to excess."

It is the habit of many English women and girls to smoke cigarettes in public, and not a few may be seen in restaurants and hotels smoking long slender pipes. Women's organizations and social improvement societies have begun a crusade against this "inelegant and unwomanly practice."

Down to \$1.50

The nearest thing to Ponce de Leon's historic hunt of the New World for the elixir of youth is now told of the world-wide quest of the French scientist, Dr. Cota, for a clay to renew the radiant youth of ageing complexions.

So today do we offer for \$1.50 a generous jar containing a scientifically improved clay that cleanses while it renews the skin just by laying it on gently for 30 minutes.
