WATER SPORTS FOR RENFORTH DAY

August 26 is Date Chosen for Regatta This Year.

August 26 will be celebrated this year as "Renforth Day" and a programme of water sports will be held as a fitting tribute to the memory of James Renforth of the famous Tyne crew, the anniversary of whose death during the race with the Paris crew falls on August 26. It is planned to hold water sports at Renforth each year on some date near the 26th to keep green the memory of the great rower for whom the place is named.

This year there will be the usual programme of races including four-oared shells, single shells, canoes, swimming, Ross Memorial Cup for intermediate single sculls and for the Tulon Cup for senior four-oared crews. Hilton Belyea has promised to be present if he is not detained by some other engagement and the chance to see the Canadian champion at work is expected to bring a large number of rowing fans to the scene.

There will be valuable prizes in all events and, as entries are open to the maritime provinces, there should be good competition.

The matter of transportation will be arranged with the C. N. R. and there will probably be special trains to carry those from the city to the grounds. The event of the evening will be a dance in the clubhouse of the Renforth Athletic and Outing Association. The clubhouse, which was enlarged to accommodate the large number of shells and competitors at the Renforth Anniversary Regatta last year, is now in better condition than it was. There are now two large floats, one for the swimmers and the other for the embarking and landing of crews. The long runway from the boathouse to the water will be restored to its place as soon as the tide in the river has returned to normal.

It was intended to hold this regatta on August 19 but the regatta at Halifax on the same date would conflict so this one was postponed. Entry lists will be opened soon.

SCOUTS HAVING GREAT OUTING

Some Forty West End Lads at Mahogany Beach—Visit to Camp.

Down on Mahogany Beach about forty Boy Scouts from West St. John, under Scoutmaster E. A. Adams, are enjoying all the pleasures of the out-of-doors under supervision. They have their tents pitched along a narrow road which is completely shadowed by overhanging trees, and have a good mess tent with a competent cook. Almost unbelievably large quantities of bread, potatoes, bacon, milk and other food are consumed, and the boys are the picture of health. Some four or five working boys who cannot be there all the time go down after work on their bicycles and wheel into town again in the morning.

Yesterday a Times man accompanied Rev. J. A. Morrison in his carriage on a visit to the camp. A freaser's ice cream, the gift of Mrs. Morrison, was placed in the carriage, and as he threw a rug over it and turned the horse in the general direction of Five Paths Hole the doctor, who was seated in the carriage, observed: "Now we are off bootlegging."

It is a delightful carriage or motor ride from the city to Mahogany Beach. The road is very good, and the grass and other crops, and the groves with their exceptionally heavy foliage, attract the eye, and the road is very good.

Arrived at Mahogany Beach the visitors found some of the boys bathing in the surf that was rolling in, and others were playing a game of ball on the beach; while still others were in the tents, several of them practicing on musical instruments.

The boys went down on Monday and will remain until a week from today. There is a fine field where they can carry on their scout drill, and they have been favored thus far with delightful weather.

The great stretch of lovely curving beach, with the wavelets from the bay rolling the beach a broad marsh stretching up to the hillside farms beyond, make together a wonderful setting for a boys' camp; and these boys are enjoying it to the full.

Some of the members of the First Presbyterian church, West St. John, whose generosity made this outing possible, would be fully repaid by a visit to the camp.

FINGER PRINT EXPERT HERE

Find Some Marks on Seat and Windows of the Murder Car

Pinkerton Chief, on Holidays, Discusses Trifits Case With Detectives—More Reports Sifted Without Conclusive Results.

Events took another step forward today in the Trifits murder case when J. M. Weston of Halifax, finger print expert commenced an examination of the murder car with a view to making photographs of the finger prints in and about the vehicle. The detective department continued today their investigation of reports of clues reaching them and the search for the murderer or murderers is being prosecuted with vigor.

Mr. Thornton, commissioner of public safety, returned to the city last night from Halifax, and brought with him J. M. Weston, a finger print expert who is now engaged in taking photographs of the interior of the Trifits' car with a view to registering all the finger prints appearing therein. Mr. Weston has recently been carrying out some finger print investigations in Halifax and has met with considerable success in this connection. He is an overseas veteran who took a course in this line after his return from Europe and the commissioner said that he comes highly recommended. The results of his photographs will be kept and will be compared with those of any suspects taken in connection with the murder of Mr. Trifits.

Mr. Weston encountered some difficulty this morning in tracing finger prints owing to the nature of the material upon which the impressions were made. In one case he discovered the impression of a hand upon the cushion in the rear seat, but unless he is able to find finger prints leading from that upon the front of the cushion the discovery is of no advantage to him in his investigation. Evidence was found of finger prints upon the glass in the windows in the rear of the car. It is very difficult to obtain satisfactory results from finger prints made upon such material as leather or leatherette, with which material the cushions are covered. Mr. Weston went over the car thoroughly and the results obtained were not unsatisfactory.

Pinkerton Man Here. Samuel T. Green, of Boston, superintendent of the eastern section for Pinkerton's Detective Agency, was in the city today on his way home from a vacation trip in the western provinces.

He called this morning at police headquarters and talked over with Commissioner Thornton, Chief Smith and the detectives in the western side of the harbor in which the attention of himself and his confederates and which resembled the Trifits' tragedy, in the hope of being of any assistance in the motive or in connecting any person with the crime. He went over with the detectives some of the information already received and the expression of his theory on several matters may assist the local men in unravelling the tangled skein which confronts them. He is due to leave for his home in Boston tonight.

The detective department is investigating a disturbance on Wednesday evening on the western side of the harbor in which persons alleged to be connected with the Trifits' case were seen in the course of the evening in an automobile closely resembling that in which Frederick H. Trifits met his death.

PHONE EMPLOYES SET AN EXAMPLE

The fund for the recreation hut on the West Side would soon be raised if the plan adopted by the New Brunswick Telephone Company employees was followed by others in this city. There were twenty-five men who enlisted from the staff of the telephone company and the employees of the company raised a sum of \$50, two dollars for each man who had enlisted, and this was turned over to the hut fund. This brings it to about \$500 but much more is required.

JAILED FOR TAX ARREARS

Fredricton Young Woman in County Jail Today.

Fredricton, N. B., July 11.—(Special)—The decision of the city corporation to collect arrears in taxes by means of executions and the placing in jail of delinquents resulted in a young woman being taken to the county jail this morning by City Marshal J. E. McCollom and placed there as a prisoner. The imprisonment is in the nature of punishment for failure to obey a single scull tax but will not affect the tax bill.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis Formerly Technical Electrical Expert for U. S. Government

Lesson No. 49. THE STORAGE BATTERY AS A SOURCE OF FILAMENT CURRENT.

When the filament of a vacuum tube is heated by an electric current, there is an emission of electrons or small charges of negative electricity. Up to a certain point the increase in current through the filament causes an increase in temperature and consequently an increase in the electron flow, but an excessive amount of current will result in burning out the filament and the consequent destruction of the valuable properties of the tube in the detection and amplification of the electric waves.

A storage or "A" battery, as it is commonly known, when used as a source of filament current, is usually a 6 volt battery of the lead plate-sulphuric acid type and is provided with a variable resistance for regulation of the amount of current supplied to the filament.

The capacity of this battery may vary from 86 to 100 ampere hours, the ampere hour being a unit denoting the flow of one ampere through a circuit for one hour. Owing to the fact that the vacuum tube when used in a receiving circuit requires only a small amount of current, a fully charged battery will supply current for a considerable period.

The normal charging rate of the battery is marked on the same plate, and this rate should not be exceeded, as current forced through the battery in excess of this amount causes bucking and short circuiting of the plates.

OLD WOMAN GUILTY OF FORGING A WILL

Mother of 14 Children Serves Two Days' Imprisonment.

London, June 29.—(By Mail)—Mrs. Elizabeth Hunt, an old-age pensioner, aged 82, and the mother of 14 children, pleaded guilty at the Norwich Assizes to the charge of forging the will of her brother, a wealthy Norfolk farmer.

Counsel for the prosecution, said the woman's brother, Thomas Goose, who died at the age of 87, lived happily for 26 years with his wife, and in 1916 made a will leaving her all his property. In December, 1917, prisoner drew up his will, which she was now charged with having forged.

Under this will nearly all the property would come to the woman and her children. She went to a Norwich solicitor, who drew it up in legal form and sent it to her for signature of her brother and witnesses. It was returned apparently duly signed by Mr. Goose and the witnesses.

Mr. Goose died in January last, and the following day the prisoner went to the office of a firm of solicitors who had drawn up the true and proper will. On being shown it, the prisoner said that there was a later will, the one she had forged.

Mr. Goose's widow, aged 83, protested that it was not the will of her husband and that the signature was not his. Under the will the prisoner was given £10,000, and her relatives £7,500. In February the woman confessed that she had forged the will, saying "I signed it for my brother as well as myself."

The estate was worth \$85,000, and the prisoner left half for the widow. The woman was sentenced to two days' imprisonment and ordered to pay the costs of the prosecution.

SCHOOL BOARD'S ANNUAL MEETING

The annual meetings of several of the school boards were held last night. At the Beaconsfield meeting, the sum of \$12,500 was fixed for school purposes. F. W. Henderson was re-elected a trustee, making the board as follows:—Dr. W. L. Ellis, W. O. Dunham and Mr. Henderson, C. O. Morris and C. W. Ruddick were elected auditors. An announcement of interest at the meeting was that the new school on the West Side would give a high school course. At the meeting of Randolph ratepayers, A. H. Fitzrandolph, H. Cochrane and J. Thiel were elected trustees and W. A. Miller was appointed secretary. The Fairville meeting was much gratified by the excellent financial statement, which showed a credit balance of nearly \$3,400 and made it possible to reduce the assessment by \$1,200. Simpson Bradshaw was re-elected a trustee. Rev. W. M. Townshend was appointed auditor. The board this year will be J. J. Hennessey, Simpson Bradshaw and H. M. Stout, secretary. At the Rothersey meeting it was reported that \$22,000 had been expended during the past year. About the same amount will be required this year. E. S. Carter was re-elected trustee. About 280 scholars are in sight this fall and it is expected that the school will have to be enlarged. The assessment at Hampton was fixed at \$9,200, about the same as last year, but the rate will be lower as more property is available for taxation. The board of trustees is composed of J. E. Angwin, H. Worden, S. H. Flewelling, Thomas E. Smith and J. Willard Smith. At Dipper Harbor the assessment was fixed at \$550. Alfred Thompson was elected a trustee. The board now stands as follows:—Edward, Ernest and Alfred Thompson. At Lorneville, No. 2, the assessment was made \$600, and the board of trustees is composed of Samuel Maguire, Fred McCavour and James McCavour, Jr.

BOY DROWNED.

Halifax, July 10.—Leslie Jewers, nine-year-old son of William Jewers, Beaver Harbor, Halifax county, was drowned there today. He had been playing near the shore and fell into the water. Claims to a total amount of \$3,257 were filed at a meeting of the creditors of Herman A. Sivovolos, absconding debtor, in the sheriff's office yesterday morning. Assets in cash amount to \$2,026.34, being the proceeds realized from a sale of equipment and stock of the confectionery store which Sivovolos kept in Sydney street. A hitch in the final settlement of the matter has resulted from the action of one of the creditors in seizing an automobile belonging to the debtor, in payment of a debt. He refuses to give up the machine and is being sued by the other creditors. So soon as this matter is settled, payment of about sixty cents on the dollar will be made, it is expected.

Keep The Baby in The Air

This is necessary, of course, but can't be properly done without the help of a carriage.

Some baby carriages of the present day are so small, so stiff, and so ill-adapted to the baby's anatomy that they can hardly be recommended for even temporary use.

The carriages we sell are scientifically designed, sturdily built, beautiful, safe and serviceable. Baby can move about in them freely and has room to grow.

Infant's Rattan Carriages in cream and gray \$30, \$36, \$37.50 to \$55.00

Runabouts in cream, dark blue and grey; especially suitable for babies of more advanced age \$12.50 to \$17.00

Rattan Sulkies in cream and gray \$11.00 to \$15.00

With every carriage purchase we enclose a valuable booklet entitled "In the life of a baby." This booklet was written by a recognized authority on the care of babies and contains valuable advice on every phase of baby life.

EAST ST. JOHN NEEDS.

To The Editor of The Times:

Sir,—Will you kindly permit me space in your paper to ask the people of East St. John what they are going to do about a proper system of sewerage; also to ask the board of health if they will do their duty in this case and if our local member of parliament, Dr. L. M. Curran, will assist in this much needed system in East St. John.

At this time of the year every person should be fighting against typhoid fever, which is caused by open sewerage and breeding places for flies, and filthy drinking water which is always the case when sewerage runs loose. Let it be understood that cleanliness is as usual, next to godliness and slightly ahead of some forms of it. It would seem that in this case we must make our choice between a proper system of sewerage and water or the doctor and undertaker.

Thanking you in advance,

I am, yours truly,

JAS. A. SHEEHAN,

East St. John, N. B.

July 11, 1922.

A very enjoyable social was given in the Sunday school of the Church of St. James the Less at Renforth last evening. The affair was in charge of the Ladies' Aid Society and was presided over by Rev. DELIGHTFUL AT THE UNIQUE

Dramatic Production, With Alice Calhoun Starred in "The Angel of Crooked Street."

Alice Calhoun won increasing popularity when she was flashed upon the screen at the Unique Theatre yesterday in "The Angel of Crooked Street," a detective story with a novel twist.

The picture outlines the life of a young girl who, hired out as a maid in a small town to support her widowed mother. She was unjustly accused of a theft and sent to a reformatory. While there her mother died and this embittered the girl against the world, and especially against the narrow-minded people of the small town who were responsible for her position. Upon her release she went to a large city where she mingled with crooks, but endeavored to reform them. Faith throws her in the company of the son of a woman who wronged her and she plans her revenge. At this point the story becomes intensely dramatic and moves rapidly until the close when the girl and the woman come together and each forgets the difficulties that have separated them.

Alice Calhoun is one of the few stars capable of handling roles of all sorts. She is much at home in light comedy as she is in the intensely dramatic. In "The Angel of Crooked Street" she rises to great heights, especially in the scenes where she denounces the woman who sends her to prison, and in that which she triumphs over this woman when the son is accused of murder.

The New Improved Gillette Safety Razor will make your vacation trip a holiday in the true sense of the word.

It is the out-of-the-way places, without home conveniences, that bring home to men most forcibly the advantages of the Gillette. Where other razors leave off, the New Improved Gillette begins—

The Summer Hotel—without hot water; sometimes without a mirror.

The mechanically sharpened blade—the finest edge in all the world—knows no difficulties—In town or country, for holidays and workdays, with hot or cold water, it removes the beard at the lightest touch.

The Camp in the Woods—no place for strop or hone—

Strops and hones have always been unsatisfactory. The vacations merely accentuate their kinship with the past. Long since have these appurtenances to shaving been relegated to the discard by the Gillette Safety Razor.

On the train, 'mid jolt and jar—

Gillette's own kingdom. Whizzing through the country at a breakneck speed, you can stand before a mirror and shave yourself skin close in perfect safety.

Uses the same fine Gillette blades that you have always known, but in this razor they will give you even a better shave and last longer.

EVERYWHERE the answer is the same. For the perfect shave under all conditions.

Beauty Parlors Are Busy Cutting Hair.

New York, July 11—Whatever we may think about the bobbed heads, they seem to be here to stay—another proof of the independence of women, for where is the man who will urge bobbed locks? Where is the woman who will ask a man whether she shall bob her hair or not?

Manasquan, N. J., July 11—In a battle with a 600-pound tuna off here, Hilding Swanson, Captain of a fishing vessel, dislocated his finger and two of the crew were hauled overboard. The tuna was the largest caught along the shore this season.

Don't Rub—Just Soak Your Clothes Clean

RINSO is fine granules of soap essence, scientifically and completely different from ordinary soap, flakes or washing powder. It should be used differently too—for instance, to get the best results, do not pour the Rinso granules into the tub from the package.

Make the wonderful Rinso liquid first—take half a package of Rinso for each tub of clothes—stir it into a cream in a little cool water, add two quarts of boiling water, stir vigorously and put into the tub of cool or lukewarm water.

Put your clothes to soak for one hour, two hours, overnight, or as long as convenient in this rich Rinso suds, then just rinse thoroughly and the dirt runs away. Your clothes are ready for the line—snowy-white, clean and fresh.

If You Use a Washing Machine—follow the regular directions on the Rinso package and soak the clothes. Then before operating the machine, add fresh Rinso solution and proceed. No other preparation is needed when Rinso is used.

The Betting At Windsor.

The orgy of legalized betting through pari-mutual machines at Windsor, Ontario, continues unabated, says a despatch. On last Thursday the crowd was small, not more than 4,000 or 5,000, but for its size, the betting was heavy, for more than \$50,000 was wagered. The losses, inevitable under a system by which the pari-mutual machines and government "take" better than thirty-five per cent of the bettors' money, totalled \$26,836. Women bet \$18,423 and suffered proportionate losses.

Thursday's losses brought the total loss in cash to the public for five days' racing to \$173,192.

In order to stimulate attendance the management announced that it would give another "Ladies' Day." The women pay only the war tax of twenty-five cents a head to enter the track, but once in, they may bet and lose as much as they please.

The management has an eye to the business in arranging these bargain days. Women are notoriously poor "pickers" and are "sugar" for the touts. They lend a ready ear to "sure-thing tipsters," who are becoming more and more in evidence daily. The women are chary of speculating at first, and after they have lost a couple of races they either quit wagering altogether for the remainder of the card or else "plunge," and the greater the rake-off for the track owners. Hence another Ladies' Day.

Seek to Prevent Bout.

Jersey City, July 11—The ministers' state anti-prize fight committee of the Christian church yesterday conferred with counsel and discussed legal steps to prevent the bout between Benny Leonard and Lew Tindler here on July 27. OPEN EMPLOYMENT OFFICE TOMORROW

Local Branch of Federal Service will be Ready at Nine o'clock—List of Unemployed One of First Requirements.

The St. John branch of the federal employment service will be opened for business tomorrow morning at nine o'clock, so W. J. Ryan, the superintendent, announced this morning. Mr. Ryan will be assisted by W. A. Dougherty as assistant superintendent in the men's department and Miss Agnes Sutherland in the women's section. Finishing touches are being effected today in the arrangement of the offices in the Kennedy building in Prince William street.

The employment office will occupy one half of the second floor. The space has been divided into two sections by a partition, the front half being laid out for the men's section and the rear portion for the women. Separate entrances from the main hall open into each section.

Mr. Ryan will receive his office in the front of the building, opening off the men's division. The furniture for the bureau, which has been supplied by the provincial government, has arrived, and everything will be in readiness for tomorrow morning.

Mr. Ryan said this morning that the intention was first to start the compilation of a list of unemployed in the city as the individuals reported to the office and the operation of the service would be materially assisted if those in need of employment would submit their requirements to the office.

K. A. Christie, clearance officer for the maritime provinces, is in the city and will remain in the local office tomorrow to help get its operation under way.

As the demands for help are received, it is planned to have a bulletin board placed outside the building so that unemployed may be kept advised of what work is offering.

CHANCERY COURT

Bridge Case Struck Off With Right to Re-enter—The W. E. McIntyre Co. vs. Hawthorne Case Dismissed.

The July sitting of the Chancery Court opened this morning with Mr. Justice White presiding. Very few matters were brought before the court. It had come up for trial several times but had not proceeded to a hearing. Dr. W. L. Macdonald, K.C., for the defendants, this morning moved for dismissal which was consented to by J. D. P. Lewin for the plaintiff.

The case of the Province of New Brunswick vs. the C. P. R. the falls bridge case, was struck off with the right to re-enter. The application was made by M. G. Teed, K.C., and consented to by H. H. McLean, Jr., for Dr. Taylor, defendant's solicitor.

The case of the Canada Fertilizer Co. vs. Burney, was struck off.

LeBlanc, R. H. Irving and F. E. Gaudet.

STREET PAVING.
The entire length of German street will be permanently paved by the end of this year, according to the plans of Commissioner Frink. He said this morning that he hoped to lay a permanent surface on the block between St. James and British streets before the summer was over. Last year the block from Queen to St. James was completed. This year it was planned that for this year are under terms of the local improvement act, half the cost to be borne by the abuttors.

Tenders for the pavement of both sides of Haymarket Square will likely be opened at a committee meeting of the council on Thursday morning. Dr. Frink said that he planned to go ahead with this work as soon as possible. If the tenders are lower than the city's estimate, he will likely recommend that this means of carrying out the work be adopted.

PROSECUTION'S EVIDENCE IN Samuel A. Sewell Case Over Till Thursday.

Mayor McLellan, Ex-Commissioner Jones and Chamberlain Lingley Testify—Many in Court to Follow the Proceedings.

The case against Samuel A. Sewell, charged with obtaining money under false pretenses from the city of St. John between May 1 and June 28, was resumed this morning before the sitting magistrate and the evidence for the prosecution was finished. Mayor McLellan, ex-Commissioner Jones, and the chamberlain were the witnesses examined today.

The mayor told of being present at a meeting where the accused admitted that he had added names to the payroll but said that he received nothing personally from this having paid out the money for extra time work by the men. John B. Jones told of the system of overtime work and the change he had made in this respect.

When the accused was asked the usual question as to whether or not he wished to say anything in answer to the charge he pleaded not guilty.

The court room was crowded with spectators. There were a few lively tilts between the opposing counsel and some of the witnesses. The lawyers appearing were Daniel Mullin, K. C., for the city, and H. W. Powell, K. C., for the defence.

The matter of bail was again brought up and the sitting magistrate allowed the prisoner to go on the same recognisance as previously, namely \$1,000, to appear on Thursday.

The payrolls of May and June, which were referred to by witnesses at the last hearing, were put in evidence by Mr. Mullin.

Mayor Testifies.
His Worship Mayor McLellan was the first witness called this morning. The chamberlain, he said, called his attention to the presence of the names of Harry Smith, William Hawkins, Daniel McLaughlin and John Carroll on the payrolls. He made an investigation later and saw Messrs. Hawkins and Smith. He was present at a meeting when Commissioner Wignome, the chamberlain, and the accused were present at which the accused made a statement.

Sewell, he said, made a personal statement to him, and said he knew about Kincaid. The accused said he cashed this ticket for Hawkins who went away in a hurry, handing over the ticket. He said he was in the habit of doing this. This was in June 28. He said he had only once received any money from the chamberlain for tickets. There was nothing said at that time about men working overtime.

His worship said that the meeting at which the accused made his statement was on June 29. On the 26th he had seen Hawkins. At the meeting the accused admitted that he had put these names on the payroll, but said he had never got one cent of the money, having paid it out for overtime work to the men. He repeated this story several times.

The mayor interviewed Arbo, James and Stewart Kincaid and Harry Smith in connection with this matter.

J. B. Jones, commissioner of water and sewerage for three and one-half years, was called. He said he knew the accused, who was superintendent of the department of water and sewerage when he was made commissioner. He spoke to the accused on several occasions and said that there was too much overtime pay and he thought the expenses were becoming too heavy, and the men were being tired out by doing night time work, which could be done the next day. He said he thought that the men should do a little overtime work gratuitously in view of the two weeks holidays they received. In case of emergency he told the accused the men would be paid. The accused seemed to think this was fair.

On cross-examination he said that Sewell would have about seventy or eighty men on the regular force. The practise of charging up extra work continued for about a year after he took office. He said he gave instructions to Sewell that this overtime work had to be stopped. He said there were a certain crew of men whom Sewell favored in some kinds of work.

Mr. Jones said he left office about the last of April and did not know that there were men claiming pay for extra work.

Asked if extra work was claimed for as extra work, he said "Yes."

A lot of technical evidence was taken as to the system of paying and recording the extra work.

Mr. Jones said he did not think there was any extra work paid for between October 1921 and April 1922. He would not say that the men agreed to the arrangement that they should do extra work without extra pay and he never inquired of the workmen. He did not know whether the money received by Sewell went to the men as overtime or not.

The Chamberlain.
Duncan G. Lingley, the city chamberlain, was recalled. He said that he looked up the record of James Kincaid for one year to June 5, 1922, and found that he had been paid for every day in the year except Sundays. He thought this was an extraordinary circumstance for a man working out of doors. There were quite a few others to whom the same thing might apply, he said. He read names of men who had received full pay for the year.

Mr. Mullin said this closed the case for the prosecution.

Sewell, when asked the usual statutory question as to whether or not he wished to say anything, said: "If am not guilty, I have nothing further to say at present."

A delay was caused by the fact that the mayor had left the court room without entering into a recognisance for his appearance at the trial of the accused, if committed, and the case had to be set over until Thursday.

Mr. Powell asked whether the ball furnished at the last sitting would hold until the matter of a commitment for trial was settled, and Sewell was allowed to go on the same bail of \$1,000 to appear on Thursday afternoon at 2:00 o'clock.
