

THE GENERAL PUBLIC HOSPITAL AVAILABLE IF IT IS NECESSARY

The hospital situation in St. John is now such that the authorities have no fears of not being able to cope with the epidemic situation. The new hospital at the Park home can accommodate forty patients, the epidemic hospital twenty, the isolation hospital twenty-four, and if the situation demands it, the general public hospital will provide room for sixty more, making a total of about 150 beds available.

CURING TETANUS CASE

By the use of tetanus serum, employed under the direction of Dr. Abrahamson, provincial pathologist, a cure is being effected at the General Public Hospital in the case of a young man afflicted with this disease, more commonly known as lock-jaw. It is believed that this is the first serious case in the city in which a cure has been made.

SERBIAN VISITOR OPTIMISTIC

A Serb with his wife and several small children, dressed in the bright native uniform of the little Balkan country, attracted considerable attention in the depot at noon. They were passing through to Sydney Friday morning. The father, when spoken to on war topics, beamed with delight and said that very soon King Peter would leave his refuge in Greece and once more sit upon the Serbian throne. No small matter has filtered through from Serbia to Canada for more than two years.

POLICE COURT.

Charles Ross was before the magistrate this morning on a charge of drunkenness and violently resisting the police. He pleaded guilty to being drunk and not guilty to the charge of resisting. Policeman Cook said he resisted being arrested and did a considerable lot of fighting. As Ross took ill in the court room he was sent below, first being informed that he was liable to a fine of \$25.

George Mealy was charged with assaulting F. C. Beckingham in a shed off Reid's Point, Beckingham said that Mealy asked him whether or not he was the man that took an X-ray out of the case. Mealy, he said, without waiting for an answer, knocked him down and quite badly beat him about the face. The case was set over until this afternoon. The magistrate intimated that it was possible that he would have Mealy examined by a doctor.

VICTORY LOAN HERE

Arrangements Under Way for Big Presentation of Pictures by Noted Stars

The Victory Loan campaign will take on an elaborated phase by Thursday night when an open-air motion picture show and concert will be presented in front of the local government in Prangue.

The motion pictures to be shown are Canadian versions of the powerful arguments set forth in story form by such stars as Mary Pickford, Charles Chaplin, Norma Talmage, Dorothy Dalton, Wm. S. Hart, William Farnum, William Duncan and Eddie Williams.

The Indian epidemic has been considered so much with the pictorial campaign on behalf of Victory Bonds that the outdoor show has been considered necessary. In addition to the pictures there will be speakers, singers, band concerts, etc., like a regular beach show.

CZCHS NOW HAVE GOVERNMENT OF THEIR OWN

Copenhagen, Oct. 28.—The Czech National Committee took over the functions of the local government in Prangue, the Bohemian capital, on Monday, marking the final step in its successful revolution there.

During Monday night the general commanding the Prague garrison and his staff placed the entire armed forces of the city at the disposal of the Czech National Committee.

The Austrian imperial symbols were removed from various buildings and imperial proclamations torn down. The city officials have taken an oath of fidelity to the Czech state.

GREAT BREAK IN THE PRICES OF WOMEN'S HIGH CLASS FALL SUITS

Commencing Thursday, October 31, and continuing while garments in stock last, lovely suits to be sold at little more, and in some cases less, than manufacturers' prices. The unseasonable weather and the holding back of trade have come in to spoil the usual selling of high class tailored suits. This is a condition that could not be foreseen, and we have to make up our minds to a big loss. As the saying goes, however, "it is an ill wind that blows nobody good," and there will be some wonderful suits to be had. Get this into your mind also, these suits are the very best of the season's showing for smart original styles and fine materials; every one being personally selected and many New York models, only one of a kind. Greatly reduced prices, \$17.50, \$22.50, \$28.50, \$42.50—Dundas street, corner of King street. See ad. page 5.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., WEDNESDAY, OCTOBER 30, 1918

HON. MR. CARVELL ON GOVERNMENT AND STRIKES

Plain Warning That Work or Fight Rule Will be Enforced if Strike Occurs at Sydney—Tribute to Loyal Unions

Hon. F. B. Carvell, minister of public works, while in the city yesterday, was asked regarding the labor situation in Western Canada. He stated that unfortunately a very unsettled condition seemed to exist among certain portions of the labor unions, not only in Western Canada but in a lesser degree in certain portions of Eastern Canada as well. He was very emphatic in his belief that the I. W. O. and socialist propaganda of considerable importance was being carried on all over Canada and particularly in the west, and unfortunately many of the labor leaders were in his opinion very much influenced by these seditious doctrines.

He was very particular, however, to emphasize the fact that the big labor unions, such as the railway conductors, engineers, trimmen, telegraphers, and what is generally known as the Big Six and many other of the recognized trades unions, were not in any way affected by it. In fact, he thought that the part played by the big labor unions in Canada during this war had been of such a high patriotic character that it was an absolute justification of their existence and an evidence that properly conducted labor unions could exert a wonderful influence for good in any country.

Having provided methods for the fair investigation of all questions in dispute and realizing that tens of thousands of the very flower of the country are being conscripted, forced into the army at \$1.10 per day, with all the consequent risks attendant thereon, the government do not feel that any man is justified in causing work in any important national industry especially when no question of wages is involved and have agreed that during the continuance of the war these strikes must cease and those who will not obey the law must take the consequences, one of which is being conscripted into the army, no matter whether married or single, no longer physically fit and not over forty-five years of age. If they do not come under the class to make soldiers then substantial fines and imprisonment are provided.

Mr. Carvell was very sorry indeed to have read in the papers that a strike was threatened in Sydney because of the dismissal of some employees by the Dominion Iron & Steel Co., but wished it distinctly understood that if any such trouble the government would not hesitate to meet the situation, in other words, they lay down the principle that every man has a right to have his grievances investigated but no man has a right to stop work in any essential industry during the continuance of this war—every man physically fit should either work or fight.

LESS THAN HALF SUPPLY OF HARD COAL RECEIVED

In conversation with J. H. Frink, provincial fuel administrator in regard to the present coal situation a Telegram reporter was told that in the consideration of the fuel question it is perhaps well to consider the entire population of the province. This might be said to be about 800,000 people. Taking into consideration the population of the province, the population may be divided into 200,000 people depending upon wood for fuel and 600,000 more or less depending upon coal.

"So far as anthracite coal is concerned the returns submitted by the United States fuel administration up to September 30 for the province of New Brunswick are as follows: Bathurst, 218 tons; Campbellton, 1,268 tons; Chatham, 412 tons; Dalhousie, 180 tons; Fredericton, 828 tons; St. Andrews, 241 tons; St. George, 507 tons; St. John, 21,932 tons; St. Stephen, 1,118 tons; making a total of 29,109 tons.

"The returns for the month of October are not yet in," said Dr. Frink, "but from local importations recorded here at least 5,000 tons may be added to this total. As the allotment for the province of New Brunswick is 75,000 tons there will have to come in 45,882 tons more to make up the allotment. It does not seem possible that this amount can get in before the first of December, but I have today a letter from E. W. Parker, of the anthracite distribution committee of the United States, that he has sent urgent notice to each shipper into the Canadian provinces to speed up on their shipments, so that at least one half of the tonnage due for the rest of the year may be shipped before the last of December. Several towns in the province of New Brunswick which consume more or less anthracite have not as yet received a pound of coal, notably Dorchester, Moncton, Richibucto, Newcastle, Dalhousie, Grand Falls and Edmundston. A few of the towns have received a small portion of coal which has been apportioned to them, for instance Woodville about thirty-three per cent, but things are underway at the present time which will probably give them some relief.

"The price of anthracite," said Dr. Frink, "still remains about \$16.00 to \$20.00 per ton and this is due to the high rates charged by vessels carrying coal from United States ports here. If coal could be brought by rail it would be at least \$2.00 per ton cheaper, but the difficulties surrounding the importation of anthracite coal by rail to the province appear to be insurmountable. "Hasty of boats" be continued, "are at the United States border to bring coal to Canada, but mine operators will not ship in box cars if they can possibly avoid it and will not let open ones go outside their own territory. "Altogether as far as the anthracite situation is concerned in St. John it is slightly better than anticipated, but in various parts of the province where coal can only be delivered by rail there will be considerable suffering if this regulation governing open coal cars, continued for Canadian ports, is not amended. "As far as bituminous coal is concerned it is in great demand but the supply is more or less steady," said Dr. Frink. "Especially is this true for domestic users. Today it is hardly possible to obtain screened coal from the Nova Scotia mines. Nearly all of it comes to the province as run of mine. It has to be screened here or elsewhere and about one-third is slack coal. Orders which are placed for screened coal receive no consideration and this percentage of slack has to be paid for by the consumer and that is one reason why coal for domestic users remains at a price which two years ago would be considered criminal.

cerned it is in great demand but the supply is more or less steady," said Dr. Frink. "Especially is this true for domestic users. Dr. Frink said he had received yesterday two large boxes of Welsh anthracite from Swansea, Wales. This is said to be the best anthracite beneath the earth—but the price and freight quoted make it almost prohibitive here. Any responsible person desirous of trying a sample of this Welsh anthracite can have it on application.

A SHAMEFUL ATTACK.

Hon. Dr. Roberts, who is working day and night in the interests of influenza sufferers all over the province, and through the new provincial department of health doing all that is possible to check the epidemic, is made the subject of a shameful partisan attack by the St. John Standard.

Whatever Dr. Roberts is doing as minister of health, for the public good, is done without a cent of remuneration, for he is not a salaried member of the government. Moreover, the new health act was only proclaimed recently, and the department could not be organized in a week or a month. It was only a few days ago the appointment of the district medical officers was announced in the Royal Gazette. Hon. Dr. Roberts, however, had not waited for the official announcement, for the case was urgent, and the new appointees were already at work. Neither the people nor the government anticipated the present epidemic. The disease was in the province before the new health act was proclaimed. There was as yet no organization whatever. There was no machinery under the old health act that could be quickly utilized. When Dr. Roberts wanted reports from every section of the province he had to appeal to the county secretaries and through them to the municipal councilors to get reports from all the parishes. Despite every effort there are still some parishes not sending reports. From the moment the new department was proclaimed Dr. Roberts threw himself into the work without regard for himself. He had still his private practice to attend to, but the splendid work that has been done shows how much time and energy he has also given to the task of organization and of getting the new department into working order. That he should under such circumstances and at such a time be subjected to a grossly partisan attack, and given no credit whatever for his work, is to the lasting discredit of the Standard. One would think that at such a time every newspaper and every citizen would help in the task of hindering, or at least of lessening, the influence of a public that is passing through a sore trial.

So far as the local situation in St. John is concerned, it is in the hands of the St. John board of health, which in its enumeration of those agencies at work, the Standard does not even mention. Dr. Roberts and the provincial medical officer, Dr. Melvin, are rendering every possible assistance, but their task is provincial and not local. The Standard's enmity of the city physicians, while fully deserved, is merely a cheap attempt to create prejudice against Dr. Roberts.

So far as providing hospitals is concerned, the municipalities must act, and the health minister has been doing his best to co-operate in every way possible. One would think from the Standard's article that nobody in the province, except the government, has any responsibility whatever. The purpose in passing the new health act was to effect such an organization throughout the province as would bring immediate and concerted action whenever necessary. The present occasion arose before the organization could be completed, or even begun, and it is to the great and lasting credit of Dr. Roberts, the father of the act, that the new department is now in existence and has been able to do as much as it has done during the last few weeks. The record of the Standard and its friends.

A sample of the Standard's fairness may be found in the following:—

"Charlotte County yesterday reported that the epidemic had gained great headway, fifty cases being reported within the week from Wilson's Beach. Has the Provincial Department of Public Health, through the minister in charge, taken steps to provide emergency hospital accommodation there, or to provide nurses, or to do anything else, except to receive the report and transmit it to the newspapers? The Standard will be pleased to learn that any official action has been taken, but the Standard does not believe that such information will be forthcoming."

Dr. Roberts did not receive any appeal from Wilson's Beach for help. A letter was received last evening in response to the general enquiry as to conditions. It stated that there were fifty cases and one death. The situation was described as serious, but no request for help was made. Moreover, information received since shows that the situation is clearing up at Wilson's Beach, conditions much improved, and no outside assistance required. The Standard could have learned the facts, but for obvious reasons did not do so.

There are, however, appeals for doctors and nurses for many parts of the province. The department is doing its utmost to help and has been able to render a great deal of assistance, but owing to lack of organization it must depend upon voluntary organizations to do much of the work. They are doing it. If they were of the same spirit of the Standard they would let people die and then abuse Dr. Roberts.

WHAT WILL GERMANY DO?

Whether the war is to go on much longer depends on Germany. If her rulers are mad enough and her people sufficiently servile to go on fighting until their country is invaded and they are beaten to their knees, it is possible the struggle will go on into next spring. Austria and Turkey will be out long before that time. They are practically out now, although still fighting a hopeless battle.

Consider the case of Austria. It is as good as settled that Hungary will form an independent state. The Czechs-Slovaks are planning a new state with capital at Pressburg on the Danube, and they have been recognized by the Allies as belligerents in the war, entitled to Allied sympathy and support. The whole Austrian empire is seething with rebellion. It cannot maintain itself as a fighting power against the Allies. The great drive on the Italian front has carried the Allies over the Piave River, into towns on its eastern bank. More than twenty thousand prisoners have been taken and it is anticipated the defeat of the Austrians will be overwhelming as soon as the entire Allied force can be brought into action. At the same time the Serbians and their Allies are threatening Hungary from the south. There is no escape. With powerful enemies within and without, the Dual Monarchy is doomed.

And what of Turkey? She is not only losing more and more of her Asiatic empire, but an Allied army from the north may any day set out toward Constantinople, through Bulgaria. The only way she can get any help from Germany would be through the Russian port of Odessa, for the Bulgarian route is no longer available and the Roumanian ports have been closed. Turkey therefore cannot afford to go on with the war.

Very soon, therefore, Germany will stand alone. The Australian soldiers sailing her will be withdrawn. Not only will she be assailed with overwhelming force on the western front but from the south the armies of Italy and Greece, with their French, Serbian, Czech-Slovak, British, and American Allies, will be threatening her along several different avenues of attack. She will have also a rebellious Poland. Of all this her leaders must be conscious, and it is hardly conceivable that they will trumpet the fates and prolong the struggle till triumphant enemies invade her territory and wreck her cities. If she does choose to go on, it might be better in the end for the cause of civilization, but in any case such terms must be imposed as will leave her prostrate and powerless for further evil in the world.

Canada pledged her last dollar and her last man in this war of civilization against barbarism. The Victory Loan appeal comes to every citizen. If the war ended tomorrow our soldiers would not at once come home, and whenever they come they should find a prosperous country ready to take care of them. Every dollar of the \$500,000,000 will be needed. To subscribe that sum the smallest investment helps—and it is a good investment on the best possible security.

Out of 536,000 Australians sent to the war the total casualties have been 250,191, including 54,821 dead. Australia demands that she be freed from German menace in the future is justified by her great sacrifice for the cause of civilization.

The more we read of the ravages of influenza in other provinces and states, the more cause we have for thankfulness that the New Brunswick health department took early and vigorous measures to arouse public interest and organize to fight the epidemic.

Every man and woman who feel that they can make the necessary payments from month to month should buy a Victory Bond and help their country's cause to that extent. Every dollar will be needed.

German civilians are getting away from the lower Rhineland and part of Westphalia. They will have news to tell the Germans of other parts of the country.

At last Spain is beginning to discover that the Allies are right in this war. No doubt Sweden is also in process of conversion.

Since October 14 nearly or quite twenty thousand prisoners have been taken by the Allied armies on the Belgian front.

Serious rioting at Budapest is the beginning of the whirlwind in Hungary. The republican movement is said to be growing.

The new map of Europe will show a state called Slovakia. There will also be a new Poland.

It is again reported that Brussels will soon be evacuated by the Germans.

THEY WATCH OUR HOLY DEAD!

On Flanders' fields, in Picardy, in battle-torn Champagne, Where fair France rolls its food from off the Lombard plain; Where Serbia joins Albania's heights and Greek and Bulgair meet, And Holy Land and Tigris see the Turk in just defeat, In Russia's vast despoiling land—how far the fight is spread; And over all, that growing host—the legions of the dead!

Among that host are shrinking souls of child and wife and maid— Dishonored souls, that cry to God that vengeance be not stayed. And, with the souls of those who fought, they watch Attila's open grave, Invite a peace to stay our hand and make those souls a pawn; They watch the butcher's ghastly course, And see that hand held out for peace—they watch, our holy dead!

And shall we say they died in vain, those friends that stemmed the tide, And close our ears to solemn pleas from those who bravely died? Shall shrewd old men, in secret net, decree these deaths were vain, Then set them home and plan to stee? "No peace," they cry, these dead of ours, "but peace for which we bleed. Remember, they are watching us, those legions of the dead— We owe a debt of honor to those sacred, holy dead!"

SERIOUS RIOTING IN HUNGARIAN CAPITAL

Soldiers Use Machine Guns—Labor Revolt May Develop

London, Oct. 29.—Serious rioting took place at Budapest on Monday evening, according to a Budapest despatch to the Vossische Zeitung of Berlin, which is quoted in a Copenhagen despatch to the Exchange Telegraph Company. Many lives are said to have been lost.

It is said that a deputation was sent by the party of Count Michael Karolyi to the castle at Budapest to ask Archduke Joseph to appoint Karolyi premier. A great crowd followed the deputation and attempted to break through a military guard. Severe fighting followed, the soldiers using machine guns and bayonets. A large number of people were killed and the fighting was still in progress when the telegram was dispatched at 9 o'clock on Monday evening. The correspondent adds that the republican movement is growing and that a general labor revolt may be expected at any moment.

—BUK-VICTORY BONDS—

THE MAN OF THE MOMENT.
(Pall Mall Gazette)

A good story regarding the Prince of Wales is told. A well-known society lady who is nursing in France is an enthusiastic collector of the photographs of men who are in the limelight. For this reason she wrote to the Prince soon after the latter's visit to the Pope, asking for his portrait, as she considered his journey to Rome made him the man of the moment. The letter took some time to reach the prince, during which the successful French counter-offensive on the Marne began. Finally the lady was overjoyed at receiving a letter from the heir-apparent, and without a moment's delay hastened to open the letter. It contained not a portrait of the Prince of Wales, but one of General Foch.

ONE IN EVERY HOME

In every home in Canada a Victory Bond! That is the Victory Loan objective this year.

Last year Canada made a War Loan record.

Aiming at one bond to every 20 of the population Canada responded by taking one for every ten, 9.6 to be exact.

Now that we all have learned to invest in bonds.

—now that we know how greatly Canada benefits from Victory Loans.

—now that our wonderful fighting men and our noble allies have brought Victory almost within our grasp.

—it is almost certain that one in every five of our people will bring forward their savings and lend them freely to Canada.

That will mean an average of one Victory Bond for every home in Canada.

One in every home!
Display your card in your window. Persuade your neighbour to do the same.

If you do this and you, and You and YOU—if we are all skimping, working, saving with the one end in view, to win the war—Canada's Victory Loan 1918 must meet with overwhelming success.

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

FISHING WITH CORMORANTS.

Canadians might well take a lesson from the Chinese in the use of fish. They are among the greatest fish eaters in the world and they have accepted so many varieties in their list of edible fishes that they can have a different kind for breakfast every morning in the year. Not only are their seas filled with fish, but their rivers as well, and through a hundred generations the Chinese have cared for their fish supply. They have a picturesque mode of fishing with cormorants. The birds are hatched under hens and when about three months old they are taught to fish. The trainer ties a string to one of the bird's legs and drives it into the water. He then throws out some small fish which the bird promptly catches. It is taught to dive and come back at the call of a whistle. When trained, cormorants are put about the bird's neck, so that it cannot swallow the fish it catches. A fisherman goes out with the rail of his boat lined with string-tipped cormorants. At a given signal they dive and the fish that can outswim them under water is a rarity indeed.

Dig your potatoes early and store them properly. The Boy Scouts and Soldiers of the Soil are busy in potato fields and war gardens all over the country. As soon as the potatoes are out of the ground set to work digging for this means bigger crops next year. The war gardens will assuredly be called upon

to work overtime during the coming year to surpass the record they made for themselves in 1918.

PRISONERS TAKEN IN MONTH, 30,000

Hundreds of German Cannon and Thousands of Machine Guns Also Captured

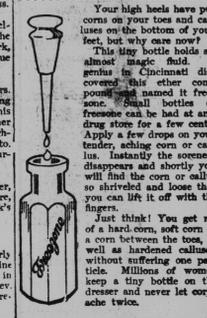

Have, Oct. 29.—The official communication from Belgian headquarters tonight says: "The situation is without change. In the period between Oct. 14 and 27 the total number of prisoners captured on this front was 18,238, of whom 381 were officers."

"The Belgian army captured 7,862 of these; the second British army 5,854, and the French army 5,577. Between Sept. 28 and Oct. 14 12,000 prisoners were taken. This in one month the total number of prisoners reached more than 90,000. Materials of all kinds were also captured, but have not yet been inventoried."

"Between Oct. 14 and 27, 809 cannon were captured and 12,000 machine guns." —BUY VICTORY BONDS—
Rothsay avenue was opened for traffic yesterday. The section from Glen Falls to Torryburn had been closed to vehicles on account of reconstruction work, but the damp weather had put the Golden Grove and Dolan's roads in such bad condition that the ban was lifted on the main road.

BUY YOUR FURS NOW

This is a FUR COAT Season

Though Fur Coats have been worn in quantities since fur was first worn, this season Fur Coats will be worn by practically all people.

The very severe weather encountered in Canada in mid-winter is partly responsible for this—but mostly Dame Fashion insists that the well-dressed woman wear a Coat of Fur.

We have anticipated this need and our stock of Hudson Seal Coats, Beaver, Nutria, Mole, Moline and Mink Coats was never so large or so varied in style and prices.

We invite you to see them; you will be certain to admire though you do not buy.

Great Break in The Prices Of Women's High-Class Suits

THURSDAY OCTOBER 31st, and FOLLOWING DAYS

Lovely Suits to be Sold at Little More, and in Some Cases Less Than Manufacturers' Prices

THE unseasonable weather and the holiday lack of trade have come in to spoil the usual selling of fine High-class Tailored Suits. This is a condition that could not be foreseen, and we have made up our minds to a big loss. As the saying goes, however, "It is an ill wind that blows nobody good," so there will be some lovely suits to be had at little more, and in some cases less than the manufacturers' prices.

Get this into your mind also that these suits are the very best of the season's showing for smart, original styles and fine materials. Every one personally selected and many being New York Models, beautiful garments and only one of a kind.

Special Greatly Reduced Prices, \$17.50, \$22.50, \$33.00, \$42.50
Sale Begins Thursday, 9.30 a. m.

REFUSE TO ACCEPT GERMAN-MADE TOYS

(New York Times.)

Walter Scott of 465 Broadway, vice-president of Butler Brothers, jobbers of general merchandise, with houses also in Chicago, St. Louis, Minneapolis and Dallas, yesterday made the following statement:

"We have refused to accept the shipment of German-made toys and china which has come to us from Holland without notice—though these goods were bought and paid for prior to the declaration of war and our property. We will have no German-made goods in our stock."

"For many years prior to 1914, Butler Brothers, like many other jobbers in this country, imported toys and china made in Germany and Austria. In the spring of 1914, prior to the declaration of war, we made our usual annual purchase of toys and china in Germany for our five houses, paid for the goods as usual and had them forwarded to Rotterdam in the spring of that year for ocean transportation."

"Our total purchase that year amounted to a considerable volume. A number of cases containing our merchandise reached us and a great many other cases containing our property were held in Rotterdam. It was impossible for us to move them because of war conditions. Charged Off Their Books."

"Long ago we eliminated these goods from our catalogue, charged them off our books, accepted our loss and forgot all about them."

"We were surprised this week to learn that 100 cases containing German toys and china consigned to us had been received at this port, via the Holland-America line. These goods were shipped without any instructions whatever from us."

"We have therefore notified the government, through the proper channels—the custom house officials—that Butler Brothers will abandon the consignment and will not accept delivery of its own merchandise."

"We feel that Germany's willingness to permit these goods to come safely to us is prompted by a desire to rehabilitate herself in this market."

"Butler Brothers have set themselves against the German propaganda designed to reintroduce American-made toys and china. We have encouraged American manufacturers for the past several years to manufacture goods to replace those formerly imported from Germany. American manufacturers have succeeded so well that today Germany is placing German-made goods back in the American market."

Beyond Control
In Winnipeg

Winnipeg, October 29—Local health authorities, as a result of the alarming spread of Spanish influenza since Saturday, admit that the malady has got beyond their control. Two hundred and fifty-five new cases and sixteen deaths were reported today, bringing the total number of cases recorded since the outbreak up to 1,463, with fifty deaths.

In Edmonton
Edmonton, Oct. 29—The local board of health has recommended to the provincial authorities that all places of business be open only from 10 a. m. to 6:30 p. m. in a further effort to combat the influenza epidemic. The estimate to noon was 1,200 cases. Seven more deaths are reported tonight, making a total of forty-two.

Decrease in Vancouver
Vancouver, Oct. 29—A decrease in influenza cases and decreases in mortality were reported today. The situation is still regarded as serious, but it is expected to lessen from day to day.

Victims of Influenza
The death of James H. Dunlap, Jr., of Moncton, occurred Tuesday. Mr. Dunlap has been employed as assistant city engineer for the last six years, and was thirty-two years of age. He was born in Moncton, the son of Mr. and Mrs. James H. Dunlap. He is survived by his wife and two sons, James and John, and Gerald, three sisters, Mrs. Fred Shaw, Mrs. Ray Ullman and Miss Conic, all residing in Moncton.

Mrs. M. E. Oulton, wife of Aubrey E. Oulton, of the engineering department of the Canadian Government Railways, died on Monday. She was formerly Miss May Ethel Scurr, daughter of Charles Scurr, of Upper Dorchester, and was but twenty-five years of age. She leaves her husband and infant daughter, Alice Marion, also her father and brother.

The death occurred on Tuesday at Fine Glen, Albert county, of Mrs. George Stor. She was sixty-three years of age and leaves beside her husband, three daughters, Mrs. Fred Rushton, of London, England; Mrs. Harding Crossman, of Niagara, Albert county, and Mrs. Edward McLean, St. John, also one son, James, of Moncton. Mrs. Stor came from England to this country in 1910, and resided in Moncton for a time. Rosie Corrier, aged three years, daughter of Callixte Corrier, Moncton, died on Monday.

Mr. and Mrs. William Larsen, of Albert, mourn the death of their daughter and only child, Doris, aged thirteen years, who passed away Saturday.

The death of Mrs. Leon Malone, aged

Germany's Terms
By Count Roon

Germany is entitled to the following terms because of its strength, and until they are realized there should be no armistice:

- Annexation of Belgium. Annexation of the entire Flanders coast, including Calais. Annexation of the Brisey and Longwy basins and the Toul, Belfort and Verdun regions eastward.
- Restitution to Germany of all her Colonies, including Kiaochow.
- Great Britain must cede to Germany such naval bases and coaling stations as Germany designates.
- Great Britain must give Gibraltar to Spain, cede its war fleet to Germany, give Egypt and the Suez Canal to Turkey.
- Greece must be re-established under former King Constantine, with frontiers as before the war.
- Austria and Bulgaria will divide Serbia and Montenegro.
- Great Britain, France, and the United States must pay all of Germany's war costs, the indemnity being a minimum of \$45,000,000,000.
- They must also agree to deliver raw materials immediately.
- France and Belgium must remain occupied at their expense until these conditions are carried out.

Here Are The Real German Peace Terms How Will You Answer Them?

The greatest advertisement for the fifth Victory Loan of the Dominion of Canada was written by a Prussian, Count Roon of the Prussian House of Lords, and appears above. How do you like it?

Forty-five Billion Dollars or more indemnity--ninety times the maximum amount REQUESTED by our government would be DEMANDED by a victorious Hun.

This then is the price the world would have to pay for a victorious German peace ---a peace that would result today without the complete surrender of the German army.

Oh you men and women of St. John and New Brunswick, is there a dollar in this fair province so tightly held that it will not now come forth to answer the swaggering arrogance of the Hun?

This period will tell, for as you subscribe for a Victory Bond you state the price your land, your home and family, your liberty--- and your democracy are worth to you today.

No matter what the war news may say about peace, here are the unvarnished terms that would be inflicted as a direct result of an unsupported Canadian Army.

Then Invest All You Possibly Can in Victory Bonds and Ensure a Victorious Democratic Canadian Peace

VALUATION OF HARBOR PASSES THE COUNCIL

Figure Placed at \$2,506,996—Preceding With Nationalization Plans—Permanent District Commissioners

The city council, yesterday, placed its official valuation upon the harbor and its improvements, fishery rights and territorial harbor anchorage in view of the agitation for the nationalization of the port of St. John. The total value as placed on the harbor at the meeting of the council yesterday was \$2,506,996 and this valuation is being communicated to the minister of marine and fisheries at Ottawa.

Table listing harbor assets and their values: Reed's Point wharf (\$110,000), Charlotte street wharf (\$18,000), North and South wharves (\$40,000), Pier and Pettigall's wharves (\$176,000), Nelson wharf (\$40,000), Wellington wharf (\$17,000), Union No. 1 and 2 wharves (\$400,000), Sydney wharf (\$18,000), Quinlan's wharf (\$8,000), McLeod wharf (\$100,000), South Rodney wharves Nos. 5 and 6 (\$460,000), Sundry slips (\$17,000), Territorial harbor anchorage and harbor master's fees (\$83,000), Partridge Island (\$78,000), Harbor plant (\$8,966), C. P. R. wharves (\$200,000), Carleton branch railway (\$40,000), For values of fisheries (\$120,000), North Rodney wharf (\$50,000), For debentures paid in 1912 and 1913 deducted from inventory (\$48,500).

The general feeling around the council board was that the figures to be submitted to the federal authorities were very reasonable and in many instances the opinion was expressed that some of the prices were excessive.

It was accepted that the matter before it was finally put through would have to be placed before the people by the plebiscite route. The figures were first passed while the council sat in committee as a whole and when the council rose out of committee the figures were officially verified. Mayor Hayes read a letter which he had drafted to be sent to the minister of marine and fisheries and which was also ratified by council.

It was also ordered that a correctly worded resolution be prepared by the city solicitor embodying the view of the council in the matter and that this be forwarded to the minister concurrently with the inventory and the letter prepared by the mayor.

The matter of W. E. Scully's request to the council that something be done in the matter of the lines of the New Brunswick Power Company running through his property at West St. John without sufficient permission was discussed briefly at yesterday's council meeting. A letter from the city solicitor in the matter was read in which the solicitor outlined the various courses which the city might pursue in order to secure a right of way for the company through this property. It was finally referred to the committee of the whole for consideration without action by council.

F. W. Holt wrote, asking that in event of the council deciding to extend the water works system from West St. John to Spruce Lake that he be permitted to place before the commissioners a proposition which he had in mind for the laying of a 36-inch main. This letter was referred to the commissioner of water and sewerage.

E. Murray Olive, chairman of the board of assessors, wrote stating that the assessors had completed their work for the year and that they be paid the balance owing them for their services. This recommendation was concurred in.

His second recommendation was that the following district commissioners be appointed to give their whole time to the work under the new assessment act at a salary of \$1,200 per annum: James E. Arthurs, Lewis D. Munro, Hector Little, and E. W. Paul and in addition, for Stanley Ward, James Leary, who would give part time only to the work for a remuneration of \$200 per annum. This recommendation was also concurred in.

The chairman of assessors also recommended that the city assessors be appointed to act under the new law and that the appointments be made by November 1. This recommendation will be carried out at the next meeting of council.

The proposition of the St. John Dry Dock and Shipbuilding Company for a bonus from the city was permitted to lie on the table.

The agreement proposed between the city and Messrs. Grant and Home relative to any rights the city may have on the property at present occupied by the company's shipyard was discussed briefly and was referred to the city solicitor for advice.

THE VICTORY LOAN.

To the Editor of the Times-Star. Sir—On the eve of the Victory Loan I think that everyone, whether rich or poor, should make up his mind to do his share towards making it a success. We, who have been privileged to stay at home, well-fed, warm and comfortable, secure and safe, should feel bound to offer some help towards winning the war, and every true Canadian citizen, man or woman, can and should lend to the government so that our men abroad shall be fed and clothed.

Quite aside from the compelling force of duty is the attractiveness of the security itself. In the first place it yields nearly twice the interest one receives from a banking account, and as to security—it is guaranteed by every bank and article of value in the country whether it belongs to an individual, a municipality, a province, or to the Dominion government.

Then as to the ability of Canada to carry out her obligations—Some days ago I was looking over a pamphlet issued by the National City Company of New York, and according to its figures, Germany's war loans per capita to date amount to \$806; Great Britain's to \$298; Austria's \$202; France's \$171; Australia's \$187; Hungary's \$107; the United States \$97 and Canada's \$88. Indeed Holland's mobilization loans alone amount to more than \$44 per capita. To be sure the burdens on all countries will be heavy, but in the Kingdom of the Blind the one-eyed man is King, and in this case Canadians will at worst be the 'One-eyed Man' because our war debt is considerably less than that of our others and our resources incomparably more per capita.

It will, I think be reasonable to assume that Canada in the future will progress in population as the United States five years ago Canada will possess a population of fifteen millions which would cut down our per capita debt by one-half. This is quite aside from the probability of our enemies paying our total war expenditure.

Then as to our capacity for production—In 1900 Canada produced fifty-six million bushels of wheat, in 1917 she produced 284 million bushels, and only ten per cent of our arable land in the North West is under cultivation.

Just as the relative value of money has for centuries been shrinking so will our debt as we pay interest and principal in produce. In the thirteenth century a bushel of wheat could be bought for seven pence; a cow for ten shillings and a sheep for a shilling and six pence, while a laborer's wage was three pence a day. In 1900 the price of an ox was twenty-two shillings; that of a sheep two shillings and four pence, and the wage of a laborer, six pence a day. The products of our labor will continue to enhance in their relation to gold and I take it that the debt in twenty-five years will automatically reduce itself because we'll take much less produce to pay the interest or to pay the debt itself. A laborer's wage has trebled in my time; when it reaches six dollars a day our debt will be reduced by half as this would be an infallible sign that labor can produce things to double the value in currency that it now does. I have not by me, at the moment, figures of the per capita wealth of Can-

adians, but in the case of the Americans in 1912 this amounted to about \$2000. It is fair then to assume that Canada's per capita wealth is a similar sum, in which case our total wealth amounts to about fifteen billions.

In 1912 or 1913 the German government, preparing for war, imposed a surtax of one-tenth of each man's capital which was made payable in three annual instalments, and there was no evidence, before the war, that this imposition materially disturbed the business of that country. Our total war debt to date does not amount to anything like one-tenth of Canada's capital, and I am convinced that in twenty years Canada's war debt will be as light a burden to Canadians as the Civil War debt was to Americans twenty years after their Civil War.

Therefore taking into consideration our duty to Canada, the great obligations we are under to the noble fellows who are fighting for us in France, and the fact the security offered is the very best and safest in the world, it is the duty of every man and woman to subscribe as much as possible toward the Victory Loan. Any bank will purchase for you a bond of from \$20 upwards on a payment of five per cent, down on it and a promise that the balance will be paid off in six months.

I am, Yours sincerely, P. C. LARRIN. BUY VICTORY BONDS—USE The Want Ad Way

Gentlemen: In July, 1915, we installed one 150 H. P. Motor to drive two 8 ft. x 30 ft. Barking drums and five conveyors. On this drive from the date of installation up to the spring of 1917, about 21 months, we used the belts of four different manufacturers all of which failed completely. In the spring of 1917, we equipped this drive with an 8 ply 16" Dominion Friction Surface Belt, which has operated to date, the machine and conveyors mentioned above, without the slightest trouble or the loss of one minute. This belt looks good for many more months of service as it shows practically no wear or injury from the heavy load it has to carry. We wish to say further that the technical advice which you have given us in connection with belting throughout our plant has been of great value to us. We cannot commend too highly the products and service of the Dominion Rubber System. Very truly yours, J. M. Dalton, Manager.

ISER AND THE GERMAN PEOPLE

Thoughts on the Meeting Out
Punishment After the War

(Toronto Star.)

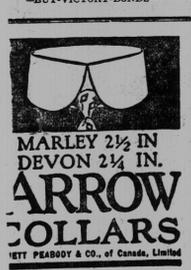

There is a great deal of discussion as to the amount of responsibility that is borne by the German people, and as to whether any distinction can be drawn between rulers and subjects. The fact is that no matter what is held as to responsibility the fact is that the German people as a whole cannot be punished in any measure as their rulers. Their pride may be wounded by unconditional surrender, but the relief is far outweighed by the mortification after how severe the terms may be. The loss of power, pride, and respect would be a loss without compensation.

The people, however, will not escape punishment for any guilt that is involved in their rulers and carrying out their orders. The war has exacted a enormous toll in men slain, wounded, maimed, and for constructive elements. German commerce has been cut off from the sea, its industries which it can no longer expect to be blackmailed extorted from the countries they have attacked. The German people will never be able to recover their position, industrial, commercial, and social, which they held before the war. The war itself is their punishment. Any punishment will for them be preference to a continuance of the war. Those who expect to see Germany quickly to its former position forget that the world outside Germany has been moving, and will continue to move. Great Britain, in France, in the United States, and in Japan new national industries have arisen through the cutting of German imports. The United States has built up a great mercantile empire, and we may be sure that it will allow the carrying of its immense growing trade to fall into German hands. Germany has been driven out of Eastern Asia, and we can depend upon Japan never to allow German influence in that quarter to be restored. A dream of a great Asiatic empire Germany has been dispelled. It is plain that the Allies will not allow many to retain its influence in Russia.

The general result will be that Germany will not be in a position to build a great fabric of industry and commerce by force of arms. Not only its commercial travelers will be cut off, but they will have to beg for trade and to be the advance agents of great commercial empires with fleets of ships able to back their demands. Germany will be humiliated and ruined. That will be a galling punishment for the Pan-Germans. It will be so severe a punishment that the masses, many of whom will be sent to the front, will be allowed to pursue their employment and earn enough to live.

A humble, commonplace existence be open to them, and obedience to national law and order will be as palatable as obedience to the Kaiser. Not much of the glory of which Bernini and his school speak falls to the workmen and peasants. The using of the paths of glory will be no consolation to them, while they will benefit the assurance that they will not be spelled to risk their lives in insane military projects. The more securities permanent peace we exact the more benefit the masses of the German people, whether we desire to do so or not. Secure peace founded upon an unconditional surrender to the Allies will benefit the whole world, and we cannot cut the German people from sharing its benefit. The distinction between ruler and people will not be made by it will come automatically and inevitably as the result of the conditions in which we will insist for our own safety.

DEMPSEY MAY BOX WILLARD.
Jack Kearns, manager of Jack Dempsey, Salt Lake City heavyweight, has notified James W. Coffroth, boxing promoter, that Dempsey would willingly oppose Jess Willard, world's heavyweight champion, in a bout for the United States War Work Campaign Fund. Dempsey, his manager said, would either spar or fight Willard any number of rounds, in New York, Philadelphia, or Chicago. These three cities were mentioned by Kearns as the only logical places for a bout between the two heavyweights.

Dr. George J. Fisher, director of the Y. M. C. A. athletic work for the soldiers, informed Promoter Coffroth that he would do everything in his power to bring George Carpenter heavyweight champion of Europe, and Jimmy Wildie, English flyweight titleholder, to the United States for the campaign bout.

Promoter Coffroth despatched a telegram to Willard informing him that New York was the logical place for a bout, and advising that the only dates available are Nov. 16 and 28 at Madison Square Garden.

WORDS THAT COME BACK

(Toronto Globe.)

The insistence of President Woodrow Wilson that the Allies cannot discuss peace terms with a government representing "the military masters and monarchs autocrats" of Germany, and that a government representing the people must conduct the negotiations if unconditional surrender is to be avoided, has directed attention to the attitude of Bismarck in 1871, when France lay prostrate at the feet of the Prussian autocrat begging for reasonable terms of peace and for an armistice so that terms might be arrived at.

The Ottawa Journal points out that Dr. Moritz Busch, for twenty-five years

in official and private intercourse with Bismarck, who was to the apostle of "Blood and Iron" in the Franco-Prussian war that Karl Rosser is to the Kaiser in the present war, tells in his "Bismarck—Some Secret Passages of His History," how the chancellor treated French peace proposals. In 1871, he tells us, Bismarck gave him notes for an article in the Norddeutsche Allgemeine Zeitung, the chancellor's own semi-official organ, as follows:

"The first condition upon which the chancellor of the federation insisted in speaking to the various persons who have desired to negotiate with him respecting peace was the election of an assembly representing the will of France. He addressed the same demand to the emissaries of republics, the imperialists, etc. He desired to grant all possible facilities for thus consulting the wishes of the population. The form of government is a matter of entire indifference to him. But we can deal only with a real government recognized by the nation."

Some time later, when the Paris government was still endeavoring to secure an armistice, Bismarck gave Busch the following sketch from which to prepare an article for the press:

"We are carrying on war not with a view to a permanent occupation of France, but to secure a peace on the conditions which we have laid down. For that reason we desire to negotiate with a government which represents the will of France, and whose declarations and concessions will bind France as well as ourselves. The present government has not that character. It must be confirmed by a national assembly, or replaced by another government. A general election is necessary for that purpose."

And again, following the convention of January 28, 1871, concluded between

own free will, still appoints and dismisses his chancellor and other ministers, irrespective of the views of the members of the Reichstag. Parliament has no power to impose the leaders of the people upon the Kaiser as his responsible ministers. So long as the German constitution remains what it is—an instrument to make popular rule exceedingly difficult, if not impossible—so long will the Allies be justified in regarding the government of which Prince Maximilian is the head as the bulwark of autocracy, not the voice of a free people. The Germans are face to face today with an issue that Britons settled for themselves forever when they drove the Stuarts from the throne and substituted the will of the people for the Divine Right of Kings.

Bismarck and Jules Favre, Bismarck dictated the following:

"... Germany has secured the right to see that a public authority is established which will possess the attributes necessary to enable it to negotiate peace in the name of France. If Germany is denied the right to negotiate peace with the whole nation the armistice convention would thereby become null and void."

The Allies rest their case on the Bismarckian statement: "We can deal only with a real government recognized by the nation." The present government of Germany is the creation not of the people or of their parliamentary representatives, but of the Kaiser, who, of his

Try Making Your Own Cough Remedy

You can save about \$2, and have a better remedy than the ready-made kind. Ready done.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2 1/2 ounces of Pinex (50 cents worth), pour it into a 16-oz. bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is 16 ounces of really better cough syrup than you could buy ready-made, and saves about \$2. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and breaks the sore, irritated membrane so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, whooping cough and bronchial asthma, there is nothing better.

Pinex is a most valued concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

Canada CAN and WILL

ON July 31, 1918, Canadians had on deposit in banks more than a billion five hundred million dollars—that was \$160,000,000 more than was on deposit on the same date in 1917.

And, in the meantime, Canadians had invested \$425,000,000 in the Victory Loan 1917. Besides that they had bought \$60,000,000 worth of provincial and municipal bonds.

So the people of Canada during the past year have accumulated \$485,000,000 in bonds and over \$160,000,000 in cash more than they had on July 31, 1917. That represents concrete accumulated wealth.

Canada is to-day the richest country in the world, per capita.

Her war debt per capita is lower than that of any other fighting nation.

So Canada undoubtedly has the ability to oversubscribe the Victory Loan 1918.

And Canada must manfully and loyally support the Victory Loan 1918, because the national safety, the national honor and the prosperity of the country are at stake.

Canada's business prosperity is necessary to the maintenance of Canada's war efficiency.

SCHOOLS WENT \$42,676 INTO DEBT IN YEAR

Total Floating Debt Now \$88,302 on June 30

Salary Increases \$30,000 and \$20,000 Added to Bill for Coal Some of the Reasons — Report by Comptroller

The school board has been affected as much as any other individual or institution by the high cost of living within the last year, with the result that when the school year ended on June 30, their expenditures were found to have exceeded their income by \$42,676. Last year their deficit was \$14,744, and the total floating debt which has been accumulating for several years now reaches the tidy sum of \$88,302. Of this sum, \$18,000 is chargeable to capital account but the balance represents over-expenditure on current expenses.

An explanation for the deficit is found in such items as salaries, which have increased by \$30,000, and coal which has jumped from about \$10,000 a year to \$80,000 for this year, with repairs showing a corresponding increase and other expenses in proportion.

The details of the board's financial situation are set forth in the report of the auditor, which was presented to the common council yesterday. The report is as follows:—

I have the honor to present to you my annual report upon the finance and accounts of the board of school trustees of the city of Saint John.

I audited their books and accounts for the year ending June 30, 1918.

The statement of assets and liabilities, which I herewith present, was correctly prepared from the books of the trust, and in my opinion represents its true position on June 30, 1918.

The statements of receipts and expenditures on current account and on capital account, also presented, show the sources of their income and to what the expenditures were applied. I proved these respectively. The vouchers for the expenditures were found correct.

The board expended during the year \$2,076.09 more than its income on the maintenance of schools.

Attention has been called to over-expenditure in my former reports. In my opinion something should be done when passing their estimates for the year to clear up those over-expenditures so that the bank may be paid for its advances.

The expenditure to buildings and furniture for repairs during the year was \$29,702.92.

The liability of the board to the Bank of Nova Scotia on June 30 last, was \$88,302.42.

Debitures Paid.
Debitures to the amount of \$20,000 matured during the year and there being no sinking fund to protect them, they were paid by refunding.

Debitures Issued.
Debitures amounting to \$20,000 were issued for the purpose of paying the bank maturity, at twenty years, at 4 per cent, bearing five per cent interest. These were sold at 94 1/2 per cent.

Debiture Debt.
The board's indebtedness on June 30, 1918, was \$684,500. Of this amount \$283,000 is carrying a sinking fund for its redemption at maturity.

Debiture Interest.
The amount required to pay interest on the bonded debt as it stands above is \$28,417.50.

Sinking Funds.
This fund on June 30, 1918, had at its credit \$51,506, viz:—
Bonds in safety deposit box (face value \$45,000) \$41,752.00
Special deposit with Bank of Nova Scotia 9,754.00
\$51,506.00

These bonds were inspected by me at their safety deposit box with bankers, and the security held for the Parker Medal Fund, and were found correct.

The amount assessed for sinking fund was placed to the credit of that account with bankers.

Fire insurance is carried by the board to the amount of \$96,670. They also carry \$10,000 boiler insurance.

Respectfully submitted,
(Sgd.)
ADAM P. MACINTYRE, C. A.,
Comptroller.

LIST OF VOTERS SHOWS 230 GAIN

Revisors' Work Completed—Total 12,910—Indication of Gain in Population

An increase of 230 in the number of voters is shown by a comparison of the revisors' lists of this year and last. The total number of names on the electoral lists, which have been completed and filed for 1918, is 12,910, as compared with 12,680 for last year. The difference between the preliminary and final lists was less this year than in 1917. This year 273 names were added and only three struck off, while last year 961 were added and twenty-eight struck off. The lack of political activity this year helps to account for this circumstance.

The list this year contains the names of about 1,000 soldiers on active service. This is only a small proportion of those overseas, and it is estimated that a complete record would add at least 3,000 and possibly 4,000 more names to the list of electors.

Even without taking the overseas soldiers into account, the list shows a steady increase in population. Some communities estimate the population at three and a half and others at four times the total of their electoral lists. Even on the most moderate basis this would show a substantial increase in the population of the city since the last dominion census.

The completed list for this year, with the comparison of totals for last year, is:

| Pre. | Final |

AN ANNIVERSARY

Twenty-eight years ago today the city of St. John was embroiled with gloom over the news that John Frederick Young, to whose memory now stands a monument in King square, had lost his life in the waters of Courtenay Bay in attempting to save the life of Frederick E. Mauder. On that day in 1890 St. John was swept by a terrific storm, so bad at one time that the ferryboat was not able to cross the harbor. When the storm was about its worst the boy accidentally fell from a wharf at the foot of Union street into the waters of Courtenay Bay.

Young, who was near the scene, without stopping to doff his clothes, seized a life belt which was hanging on the wharf and jumped into the water. As it happened the line on the buoy was not fastened on shore and both the lad and the gallant young man were drowned. The act of Young was such a brave one that the whole city was moved by it. The bodies were recovered and the funerals were the largest seen in St. John for years. It was estimated at the time that the cortege was at least a half mile long. Later subscriptions were taken up and the monument which now stands in King square was erected to the memory of one of St. John's bravest sons.

DEATH OF HUGH F. MURPHY

There will be widespread regret when it is learned that Hugh F. Murphy, foreman in the wire mill at the James Pender works, has passed away. He died this morning at his home, 118 Brussels street, after an illness which he had been bravely combating for a long time, only within the last few weeks, however, had he consented to remain at home, for he was of indomitable will and remarkable energy.

Mr. Murphy was the eldest son of Mrs. Ellen and the late John Murphy of West End. During his married life he made his home on the east side of the harbor. He leaves his wife, who was Miss Mary Fay, and two young sons and a young daughter. His mother also survives, as well as his sister, Miss Evelyn Murphy, and one brother, Joseph, now in Montreal. He had been in the Pender industry for a long time and had risen to a position high in the regard of the firm and employees alike. It could not well be otherwise, for he was conscientious in his work, was of genial manner and had a happy gift of humor, which made him welcome in any company.

He was a careful follower of events of the day and discussed them with well reasoned views. In political life he had done much work in the Liberal cause. Within the circle of his family his death will be deeply lamented, and of all others who knew him, they number many, who will miss his cheery greeting and valued friendship. The funeral will be held on Friday afternoon.

NEWS OF JOHN KILPATRICK WANTED.
