Six Thousand Turkish Dead Found in Road After Fall of Kumanova

Ottoman Army Opposing Greeks Declared Disorganized — Verria Taken by Crown Prince Constantine Without Resistance—Report That Turkey Seeks Peace

(Canadian Press)
London, Oct. 30.—Terrible details are reaching Belgrade, according to the Standard's correspondent there, of the retreat of the Turks from Kumanova. They tried to stop the Serbian advance by making burials of dead bodies. Six thousand corpses were found on the road from Kumanova to Ustip, and six truckloads of petroleum had to be brought from the rear for the purpose of burning the dead. The Constantinople correspondent of the Standard says it is considered a bad sign by the Turkish authorities that no news has been received of Zeki Pasha's army in the north of Macedonia.

The Daily Telegraph's correspondent at Kumanova describes the Turkish force opposing the Greeks as entirely disorganized and incapable of offering resistance. He says that the Greek force is advancing by night, and that the Turks have begun the offensive movement.

The Turkish forces at Vales numbered 80,000, says a Belgrade despatch to the Express. The fighting there was exceptionally sanguinary. The Turks were utterly demoralized and made a wild retreat in the direction of Monastir and Saloniki. The difficulties of the Greek army in transport and communication in the absence of a railway are described in a Larissa despatch. Everything must be carried by pack animals.

The Greeks showed great dash and bravery in assaulting and carrying the positions in the long defile of Seradaporo where they suffered very severe losses. It is officially announced that the railway to Kiritlesh is again in operation, and that the Turks have begun the offensive movement.

New York, Oct. 30.—Charles Becker, former police lieutenant, convicted of procuring the murder of Herman Rosenthal, was today sentenced to die in the electric chair at Sing Sing during the week of December 9. The sentence was pronounced by Justice Coffey at 10:40 o'clock.

The sentence will be stayed, however, by a notice of appeal from the verdict of the jury, soon to be filed by his counsel. This may take a year to determine. He was at once delivered into the custody of Sheriff Harbinger, who immediately left with him to take a train to Sing Sing prison, where the convicted man will be placed in solitary confinement until his trial is determined.

MONTREAL INTERESTED IN COAL AT STUDDOLM

Montreal, Oct. 30.—During June last people in this city learned that indications of coal showed in shale croppings in a creek in the parish of Studdolm, New Brunswick. Proceeding there, they found the indications so conspicuous that they secured samples in a creek that runs through their location. Having had them analyzed and found their heating qualities favorable for surface outcrop they are now contemplating further proceedings.

They had some borings done, and found a large cropping about ten feet from the surface. The coal seems to be equal to any produced in Canada.

OPPOSITION IN PARLIAMENT ARE BARRED BY SOLDIERS

Try to Get Into Hungarian House But to No Purpose — Trouble Over Suffrage

Budapest, Hungary, Oct. 30.—The members of the opposition in the Hungarian parliament, when they tried to enter the house today, were met by a strong military cordon which completely surrounded the parliament buildings and prevented their approach. The opposition deputies, led by Count Albert Apponyi, Count Michael Károlyi and Francis Kossuth, made an attempt to get through but were forced to retire. Before doing so they made a violent protest.

The discussion in the Hungarian parliament has been continuous since May 12, when Count Tisza was elected speaker of the lower house. His opposition to universal suffrage, which is demanded by the opposition, has caused great bitterness and has led to frequent violent scenes in parliament and rioting in the streets of Budapest.

On June 7 Count Tisza narrowly escaped assassination in the house where Deputy Julius K. Osvay fired at him three times. The opposition members were then ejected and the proceedings have been carried on since solely by the members of the government party.

All lovers of horseflesh as well as all admirers of what is most pleasing in motion pictures should see the picture at the Gem Theatre today and tomorrow, entitled "An Equine Hero," presented in the Selig Co. and featuring the noted horse, "Doc." The picture is a cleverly enacted amidst natural western scenery.

**MASONS TONIGHT IN
NEWLY ADORNED
LODGE QUARTERS**

Local Fraternity Have Place That Rivals Any in Canada

The blue lodge room of the Masonic Temple will be used this evening for the first time since the recent improvements have been completed. The occasion will be marked by the consecration of the new altar and the conferring of the third degree. Grand Master F. J. G. Knowlton will preside.

Several thousand dollars have been expended in renovating the lodge room and the result is one of the finest halls for such a purpose in Canada. The lodge room, the walls of the lobbies and the lobby on the second floor have been enlarged. The ante room, preparation room, examination room, etc., have also been redecorated and new hardwood floors laid. It is in the big lodge room, however, that the greatest improvements have been effected.

From floor to ceiling the entire room has been gone over and the expenditure of thought and money has given the lodge room a new and improved appearance. The walls and ceilings have been painted in a pale green and on the ceiling gold. Around the lower part of the wall is a handsome wainscoting of cypress with panels of beaver board in red. The dais in the east has been enlarged with a curving front and the whole floor has been carpeted in a rich blue.

At the western end of the room a handsome carved organ loft with accommodation for a fair sized choir has been erected, and the organ installed. Underneath is the western dais. New canopies of carved wood have been erected in the south and in the east, the latter surrounded with the letter G in electric lights. The lighting system is now done by tungsten lights artistically arranged. A new feature in the lighting system is what is termed a "dimmer," controlled by a switch, by which the lights can be lowered to the vanishing point or made as bright as required by the exigencies of the ceremony.

The furniture of the lodge room has been all renewed in mission style with leather weathered oak upholstered with leather. The new altar is a very handsome piece of work of substantial appearance and of excellent carving.

The work has been done by the following: Carpenter, A. L. Dodge; painting, J. Johnston & Sons; electric lighting, Vaughan Electrical Co.; carpets, M. R. Harty; altar, Harty & Co. F. Neil Brodie was the architect.

In addition to the work done by the lodge the Masonic Hall has been contributed materially to the comfort of the place by the installation of steam heating.

SIXTH SISTER DIES

IN EFFORT TO SAVE ORPHANS FROM FIRE

San Antonio—Sister Monica Montes lost her life by jumping, while Mother Francis Pasture and Sister Peter Claver Stevin and Leocadia Nolan were unable to escape from the building. They perished in the flames.

Sister Mary Koda Parvill died this forenoon bringing the death toll of sisters to six.

The orphans ranged from 2 to 12 years. Nine nuns were in the building when the flames broke out. Marcelline their charge to hurry them to safety the sisters remained in the blazing orphanage until the building began to crumble and fall. The death of the superior was a remarkable courage. She returned to the burning dormitory when she heard the cry of a child who had been overlooked in the hurry and excitement. A few moments later she appeared at a window in the front of the building with the babe in her arms. The fire chief attempted to save her, but failed. A ladder was placed against the unsteady wall and the chief seized it, but before he reached her, the mother superior with the child fell back into the flames.

He then devoted several years to the study of classical archaeology in Germany and in the American school at Athens. He was director of the American excavations at Cyrene, North Africa, 1910-11.

Mr. Norton is about to leave again for Europe, it is good fortune that the Archaeological Institute has secured him a brief lecture tour before the societies in Eastern Canada. **TWO YOUNG MEN AND DOG
START AROUND THE WORLD**

New York, Oct. 30.—Walter Standow and Henry Dames, two young men who have already made reputations as walkers in Europe, have started on a pedestrian tour of the world that will not only take them around the globe, but will take them into every country. They will be accompanied by "Jack," a black dog with a will-

ingness to travel on foot. The idea of the tour was formed some years ago when the young men attended a banquet in Germany at which Sun Chong Tai, mayor of Hongkong, was a guest. He invited the pedestrians to visit his country and agreed to assist them in every way if they would make a tour of the Chinese empire with a view of arousing an interest in walking.

The orphans ranged from 2 to 12 years. Nine nuns were in the building when the flames broke out. Marcelline their charge to hurry them to safety the sisters remained in the blazing orphanage until the building began to crumble and fall. The death of the superior was a remarkable courage. She returned to the burning dormitory when she heard the cry of a child who had been overlooked in the hurry and excitement. HOW THE TORIES PUT LOUISBURG MAN OUT OF SUB-COLLECTORSHIP

Summoned To Trial on Two Hours Notice for "Political Partisanship" and Ousted for No Apparent Good Cause

(Sydney Record.) Captain Porter J. Wilcox, sub-collector of customs at the port of Louisburg, N. S., was dismissed for political partisanship, and James McPhee, merchant, of Louisburg, took over the position on October 23. And thereby hangs a tale.

Captain Wilcox was one of the best and most successful ship masters sailing from Cape Breton ports. About twelve years ago he was forced to leave the sea on account of the serious and continued illness of his wife.

The government appointed him preventive officer at Louisburg with nominal salary. His wife died, leaving him two children of tender age to look after. He also had to take care of his father, an old man, now more than ninety years of age.

Captain Wilcox received the appointment of sub-collector on the death of E. S. McCall. He holds a commission under the great seal of Canada, signed by Earl Grey, confirming him in the office of sub-collector in His Majesty's customs, dated May 22, 1907, recorded May 8, 1907; Lib. 12, Vol. 272.

Captain Wilcox was never an offensive partisan. He seldom voted before he left the sea, as he was usually away from home election days, and has been particularly careful since receiving his first appointment in the customs service.

To his surprise and the surprise of nearly every person in Louisburg, Grey and Tory, the official headman of the present government arrived at Louisburg one day last February, and gave him two hours' notice to appear for trial.

Two men besides the parties looking for customs positions were subpoenaed. One swore he never heard Captain Wilcox talk or interfere in politics at any time. The other said he was working for him shortly before the local election, and had asked Captain Wilcox what he thought about the election. They had a few words on politics, but it was so unimportant he could not remember what was said.

The man who has taken Captain Wilcox's position was then called, and swore he saw Captain Wilcox handling lines and hoisting flags on the customs building the day after the dominion election of 1908.

This statement was not true. A photograph taken that day shows the building and no flag on the customs part of it; and it can be easily proven that Captain Wilcox did not look or assist to hoist any flag on the building on the day mentioned.

Joseph O'Toole, the present preventive officer, who took the place of A. L. Bates in June last, swore Captain Wilcox offered to let him money on the last election, and a good deal in each other's company for years past, and often foolish and nonsensical talk, in a joking way, and that he was around when they were in company. This day Mr. O'Toole asked him if he wanted to bet on the election. He replied, "No, I don't want your money."

Mr. O'Toole also swore he saw or heard Captain Wilcox read evening news in the Sydney Record last September about Sir John's meeting in Sydney, and on evidence such as this Captain Wilcox was dismissed of his position.

He was a good and efficient officer, a man who held his tongue and attended to his own business.

THE COMMON COUNCIL

New Rates for Coachmen Ready Next Week—New Fancy Light Pole For Prince William Street

The city commissioners held the weekly council meeting yesterday afternoon in the committee room at City Hall. Mayor Frank and Commissioner Wigmore were absent, and Commissioner Schofield presided. Additional supplies for the fire department were ordered to be purchased by the commissioner of public works. It was decided that the floor space in the exhibition buildings should be leased for storage purposes. A catch basin is to be placed in Hammond street, and another in the old Dorchester street extension.

Those present at the meeting were Commissioners Agar, Schofield and McLellan, with the common clerk.

On the recorder's authority that there was no legal objection the council adopted a resolution changing the name of the Marsh road to Rothery avenue. The reports as published yesterday were adopted.

Joseph Weisel, of Union street, asked permission to erect an electric sign on the front of his building in Union street. Permission will be granted on the usual terms.

Commissioner Agar said that he believed that the commissioners should be consulted by the engineer and that the design of the sign should have their approval before it was erected.

Allison & Thomas applied for permission to erect an electric light pole similar to that in front of the store of T. McAvity & Sons, Ltd., in King street, near the curb in front of their office in Prince William street. This matter will be discussed in committee, and it is believed that the request will be granted, as these poles are very attractive and much in use in the larger and up-to-date cities.

Commissioner Schofield reported that no tenders were received for the shingling of the piling at the ferry floats, and it was decided to do the work with city workmen, but he found it impossible to secure the oak sheathing and the work will have to be undertaken at some future time.

Commissioner McLellan said that he was unable to have the new rates for the hackmen ready to submit to the meeting, but he expected to have them completed for the next week. He was sure that all the hackmen were willing to submit to the regulations in regard to lights, and he thought that all the carriages would be equipped on November 1. The changes in the by-law would be submitted to the hackmen for approval before they would be brought before the commissioners.

THE NEW MAN IN THE CABINET

Louis Coderre, the new secretary of state was born on November 1, 1885, at St. Ours. He was educated at the primary school at St. Ours, at the St. Hyacinthe and Montreal Colleges and at Laval. He married, in 1908, Marie Anne Sophie, daughter of Edouard Ste Marie, of St. Henri. He studied law in the office of Mr. Justice Piquet. He is now a member of the firm of Coderre, Fortin & Coderre. He was chief legal adviser for the towns of St. Henri and Enard when they were separate municipalities, and for five years was syndic of the bar of the district of Montreal. In 1908 he was a candidate for the House of Commons for Hochelaga, but was defeated by Mr. Rivest. At the general election last year he again encountered his old opponent and defeated him by a majority of 1,373, the vote standing 7,138 to 5,865.

TAKES NOVA SCOTIA SHIPBUILDERS TO NEW WESTMINSTER

Result of L. D. Shafner's Trip Home—First Vessel to Build is 175 Feet Schooner

New Westminster, Oct. 30.—L. D. Shafner, of the Coudrum Shipbuilding Company, has returned after a trip to the east bringing with him twenty-four expert builders from Nova Scotia. Mr. Shafner has also made the important announcement that he expects to lay the keel of a 175 foot four-masted schooner during the latter part of next month. This will be the first of several vessels for which orders have been received. Mr. Shafner is a Nova Scotian.

The seventh bank to open in New Westminster is the Dominion. This bank has taken a lease of the Ellis block at the corner of sixth and Columbia streets, and will take possession on November 1. The new plant of the Pacific Coast Chocolate Company is almost completed, and in a few days another operating industry will be added to New Westminster's manufactures.

TAFT DOLL RIVAL OF THE TEDDY BEAR

TAFT DOLL

New York, Oct. 24.—The Taft doll has arrived as a rival of the Teddy bear. The doll is a political figure, though not a suffragette. She is clothed in American-made goods, and her sponsor says she is wearing such goods as the wife of the average American man should wear. Her entire outfit, from lace-trimmed lingerie to velvet hat and white kid gloves, could be had for a woman of average size for less than \$25. The original of the doll is on exhibition at the rooms of the Republican national committee, but it is expected that duplicates will soon be found everywhere.

HUSBAND'S FEARFUL REVENGE ON WIFE WHO WAS WITNESS AGAINST HIM

London, Oct. 29.—The tragedy of a husband's revenge, as grim as anything in the pages of Guy de Maupassant, is revealed in a King's Cross crime. Mrs. Ellen Coxon, aged forty-eight, was found early in the morning terribly wounded at her home in Todd street. A taxi-driver saw her leaning against the first floor window of a room over a barber's shop. There was no other occupant of the room, but a chamber was lying by the side of the window.

The woman must have been attacked while lying in bed, and had tried to protect herself, for the first finger of her right hand had been cut through to the bone. Her head was shockingly injured. Her assailant had then left the room and had locked the door behind him. It was only the fact that the injured woman had been able to struggle to the window that led to the discovery. She was taken to the Royal Free Hospital, where her condition is regarded as hopeless.

Her husband, Edwin Coxon, had only just been released from Pentonville Prison, having completed a term of six months' hard labor for attacking her with a hammer. She was a reluctant witness against him. Scotland Yard searched for the husband all day, and found his body in the Regent Canal off Portland Road. He had drowned himself after escaping from the scene of the crime.

Any season when there is a failure to get a good seed of grass—and there are failures—is it advisable to break the wheat stubble tolerably early and sow another crop of that grain. No particular harm will result, and then sow grass seed again.

Two small failures in London today.
Reading statement for September shows surplus after charges and taxes, \$1,429,808, an increase of \$808,000.
Paris reports that Turkey will sue for peace.
Steel company's net earnings for last quarter were very satisfactory and favorable.
Vice-President Sherman's condition continues critical.
The foreign prices this morning indicate that liquidation has ceased, for the moment at least. The professional traders and bears who have continued selling will be looking for their stocks today. A sharp rally in due and overdue. The stocks sold yesterday settled in strong hands. Large interests, who pay little attention to daily fluctuations, are advancing the purchases of stocks on these declines.
Wilson's talk about panics probably caused some selling yesterday. The stocks that are overvalued U.P., R.G., U.S. Any, will show the quickest and largest rallies. On any important recovery stock will be for sale.

Sandy sat down at the table and was served by the maid, Myrie, with a lavish helping of cold meat. By and by he lay back in his chair and a look of pain settled on his face. Myrie—that was what he called her—said, "I'm feelin' no weel!" Sandy—"I'm weel enough, Myrie, but I'm frichted that I'll no be able to eat it I want tea eat."

A four-story frame office building in San Francisco has been removed bodily from its foundations in the yards of an iron works and placed on the deck of a barge, which is used to transfer railroad cars across the harbor. The building is 180 feet long, 40 feet deep and about 50 feet high. Between where it stood and where the barge lay was a yard littered with lathes, shafts, propellers and other heavy material, the moving of which would necessitate heavy expense, so the building was jacked up nine feet to clear some of the obstacles and moved over them. The building was safely transferred to a point down the harbor.

Her husband, who was a well-known merchant, died yesterday and she was taken suddenly ill with apoplexy and although Dr. Kenney, of St. John, and Dr. H. R. SHOULD HAVE HEEDED ALARM.
Because it had led him before, James I. Opler, of Newark, refused to believe the burglar alarm in his house recently, and now he is mourning the loss of several hundred dollars' worth of silverware. Several times within the last few months Opler has been awakened by the burglar alarm. Each time he looked for a burglar but found none. A short time ago he learned that the alarm was set off by jarring of passing trolley cars. When aroused the other night by the ringing of the alarm, he heard the rumble of a trolley car and decided that the car was responsible for the alarm, so he just reached out of bed, stopped the pump, and went to sleep again. Next morning it was discovered that a pane of glass had been cut out of a window and that the silverware was gone.

DON'T TAKE DRUGS

It is science that has taught us this. It has proved that electricity runs our bodies and produces what we call life. It has shown that most all sickness and chronic disorders are due to lack of electric energy. It has taught us the worthlessness of drugs, that they are only poisons, and poisons don't cure.

The reason drugs don't cure is because they do not help nature. Nature needs electricity, something that builds up, that restores, something that gives strength, power to the body, enabling every organ to perform its work properly, and when every organ is in a strong, healthy condition there can be no pain or sickness.

TEACHING THE GIRLS TO "RUN" A FLAT

London County Council Tries a Practical Experiment

London, Oct. 30.—The London County Council is trying a novel experiment at the Shoreditch Technical Institute. A small flat has been fitted to resemble as nearly as possible the class of homes to which the girls to be taught housewifery are accustomed, and here, six at a time, for a period of six weeks, students of the Domestic Economy Day School go into residence and are expected to run the house for themselves.

The course is in no way intended as a preparation for those wishing to go into domestic service, but is simply meant as a means of teaching the girls to run a household for their own life. Extreme simplicity characterizes the furnishing throughout, for the "tenants" of the flat are drawn from the class of the small shopkeeper and the artisan.

For the space of one week each of the young students (their ages vary from fourteen to sixteen years) acts as the "housemother" and is responsible for seeing that the flat is kept in order and that the accounts for the day and the menu for the dinner and supper, cooks the same and goes out to do the marketing.

Accounts have to be carefully kept, the day's expenses entered up each evening, and the weekly total submitted to the mistress in charge. Upon the "housemother," too, rests the duty of allotting their time for an extended hunting trip in the Westfield Beach, are visiting friends in this city. Rev. Henry T. Parke, of Aylesford, N. S., is spending a vacation in Fredericton, the guest of Mr. and Mrs. John A. Humble. Lawrence McLaughlin, a foreman for the Woodstock Hospital in which place he is recovering.

Woodstock Press—Mr. and Mrs. Robert Ross left on Wednesday morning for Franklin, Maine, where they will make their home. Charles McDougall and family left Saturday morning for Bangor where they will make their home. G. Goring left last week for the west, having accepted a position as superintendent of streets for the corporation of Saskatoon. Mrs. John C. Winslow of St. John is visiting her sister, Mrs. E. R. Tied, and is visiting relatives in St. John. E. R. Tied and T. W. Hall of Edmonton left last week for an extended hunting trip in the Restigouche woods.

AMERICANS CONSUMING MORE DRINKS, MORE SMOKE

Whiskey, Beer and Tobacco Figures Show a Big Increase for the Last Year

Washington, Oct. 30.—The American people are drinking more whiskey and beer and smoking more cigars and cigarettes than ever before in history, according to tax returns received by Royal E. Cabell, commissioner of internal revenue. From July 1 to Oct. 1, 1912, more than 3,800,000 cigarettes were smoked, an increase of one billion over the corresponding period of the previous year, which broke all records.

The nation consumed 32,150,000 gallons of whiskey during July, August and September, an increase of 420,000 gallons, as compared with that quarter of 1911 while nearly 1,800,000 cigars were smoked during that time. The cigar consumption promises to establish a new record.

A total of 19,800,000 barrels of beer were consumed during the three months, which was 30,000 barrels more than in the same period of 1911. This somewhat surprised revenue officials as beer drinking fell off considerably during the fiscal year ending June 30 last. That decrease was partly accounted for by Commissioner Cabell by increased popularity of hatteries as a summer drink. The growing consumption of these articles has greatly augmented the government's revenue.

The internal revenue receipts for October already more than \$2,000,000 greater than in October, 1911, will eclipse all records for any October in the judgment of Mr. Cabell.

HAS STIRRING TIME IN LIQUOR CASE IN STE. HYACINTHE

John H. Roberts, Well Known Here, Tells Dramatic Story of Attack Upon Him

John H. Roberts, who is well known in St. John, having conducted a temperance campaign in Centenary church a few years ago, is now very active in the work in Montreal and vicinity. The following Montreal despatch of Oct. 28 tells of an exciting incident in which he figured last week: With his left eye almost completely closed, and greatly blackened, and a lump on his forehead the size of an egg, John H. Roberts, secretary of the Dominion Alliance, arrived in Montreal yesterday afternoon, and told a thrilling story of a running fight he had come through in Ste. Hyacinthe in the morning.

Mr. Roberts went to Ste. Hyacinthe to give evidence against two hotel keepers of the town and after one of the cases had been heard, left the court to go to the station, accompanied by the court bailiff. Mr. Roberts hearing an assault from the demeanor of the crowd in the court room.

The main fight took place at the Grand Trunk station, when a crowd jumped for Mr. Roberts and his assistants. There was a mad mix-up for a time, and then, to quote Mr. Roberts, "I was able to get clear and put my back against a wall and strike out. I got one fellow and drew blood. My men were hit hard, one on the back of the neck, and in the face, and the other was also hurt. The crowd used their fists. Finally a railway porter interfered, and this got them stopped for a time, and then a priest appeared on the scene and managed to get them somewhat quiet."

"The case in court at which I and my men testified was against Benoit and Dufresne, owners of the Hotel Vermont. I am, on a charge of having two bars in the hotel."

"Judgment was reserved. Another case to have been heard against a hotel-keeper on a charge of having a bartender under age was postponed."

"Within the court room was a large crowd of liquor men, and they were continually muttering, and glaring about, so much so that I feared trouble. When the case was over I asked the bailiff if he would accompany me to the station so that I might recognize who assaulted me. He agreed. As we left the court house two or three fellows tried to snarl at me. "We were along to the station, and one burly fellow tried to pick a quarrel with me, but I refused to be drawn into a quarrel."

"The main crowd, however, gathered at the station, and it was there that the real fighting was. Two men came at me at once. The crown of Mr. Roberts' hat had been torn from the brim, and was kicked about by the crowd. Mr. Roberts seized what remained of his headgear from the steps of the train as it was about to pull out, one of the crowd having kicked it toward him with the cry, "Here's Roberts!"

"Just as the train was pulling out one big fellow, a hotel man, jumped on the step seized both hands, and tried to kick me with both feet. He just missed me. As I got on the train, I rearranged the crowd, and told them that I was going to the French race," said Mr. Roberts. "There was much cursing and swearing at me and my men. The bailiff recognized some of our assailants," but made no arrests."

There was a pretty wedding this morning at seven o'clock in the Victoria street Baptist parsonage when Rev. B. H. Nobles pastor of the church, united in marriage Elmer A. Johnson of Brown's Flat and Miss Grace Hamilton, of Hamilton's Mountains, Kings county. They were unattended. The bride was nicely dressed in a travelling suit of blue and wore a white picture hat. After the wedding a tempting breakfast was served at the home of the bride's sister, Mrs. Currie, 70 Metcalf street, and later Mr. and Mrs. Johnson left on the steamer Maritime for their future home at Brown's Flat, where the groom is a prosperous young lumberman.

CHURCH CONCERT.

A very enjoyable concert was held in the vestry of the Charlotte street Baptist church, West End, last night under the auspices of the Young Ladies' Bible Class of which D. C. Clark is instructor. It was very successful. Songs were sung by Mrs. Cogwell of Port William, N. S., Miss Cheyne, Miss Gough, Miss Mabel Bissett, Miss Colwell, Miss M. Belyea, A. Smith and the Charlotte street Little Quartette. E. B. W. Ingraham gave several Drummond readings which were much enjoyed. Rev. A. J. Archibald presided.
