MONTREAL NAMES CARNIVAL QUEEN; MISS GAUTHIER IS TO RULE THE REVELS THERE MONCTON IS PREPARING TO CHOOSE ROYAL REPRESENTATIVE

Miss St. John Will Have Good Company in Her Competition With Choice of Other Cities for Honors as Miss Canada—Just Two Weeks More in Which to Enter Contest Here.

Montreal yesterday chose the girl who will be Miss Montreal in the city and county in the Winter Carnival parade today.

Who will be the young lady who will match her beauty with that of Miss Gauthier and others from all parts of Canada for the honor of being chosen Canada's Winter Queen?

The Times Carnival Queen Contest has caused intense interest in the city and county and the names of the possible successful candidates are numerous.

Moncton, too, has decided to stage a beauty contest which will be chosen Miss Moncton, who will be queen of the Diamond Jubilee Skating Meet, scheduled for February 19 and 20 in the railway city.

Arrangements made yesterday for publishing some of the photographs of the contestants in today's Times could not be perfected today.

The Times Carnival Queen Contest will close on January 27 and as soon as possible after that date the prizes will be awarded.

Photographs of entrants should be sent in as soon as possible, addressed to the Carnival Editor, Evening Times, and should have attached to it the coupon printed below, filled in with the name and address of the contestant.

CARNIVAL QUEEN CONTEST. NAME, ADDRESS, OCCUPATION. (This coupon to be cut out on dotted line, filled in and attached to the back of the photograph.)

COSGRAVE'S HOUSE GETTING ON WITH HYDRO IS PUT TO TORCH

Irish President Had Not Been Living There—Irish Senator Kidnapped.

Dublin, Jan. 12.—Armed men burned the house of Wm. Cosgrave, President of the Irish Free State ministry at Ballyboden, near Rathfarnham, County Dublin, early today.

Dublin, Jan. 12.—There is a well founded rumor says the press association today, that the irregulars kidnaped at least one member of the Irish Free State Senate at Oxford University.

Dublin, Jan. 12.—Dr. Oliver Gogarty, member of the Irish Free State senate, was kidnapped last night by two men, but escaped after being taken some distance outside the city.

N. B. MAN IS HONOR WINNER AT OXFORD

Fredericton, N. B., Jan. 12.—Murray McC. Baird, B. A. (U. N. B.), 1910, winner of the Rhodes scholarship in 1916, of this city, has added another prize to his scholastic laurels in the winning of the Francis Gault Memorial prize for the best physiology student in the senior year at Oxford University.

SUSSEX TRAIN IN. The first train from the east to arrive in St. John today was the Sussex express which reached the city at 1:40 o'clock.

Blizzard Buries City Again; Worst in Years

SNOW PILED TEN FEET HIGH; TRANSPORTATION IS HARD HIT

Street Cars Have Partial Service on Main Lines; Railways in Trouble—Gale at Times 48 Miles—This Province and Nova Scotia Get It Hard.

Fierce in its intensity, blinding in its force and staggering in its results one of the worst storms in the last twenty years swept the city and the Maritime Provinces in general last night and early today.

Up to 48 Miles an Hour. With a slight snow fall about seven o'clock last evening the wind sprang up and increased in velocity until, at eleven o'clock, it was blowing at forty-eight miles an hour.

The blizzard which swept over this city and in many instances completely buried it was still drifting badly today, has practically demoralized the train service both outward and inward.

The C. N. R. and C. P. E. head-quarters both reported at 11 o'clock this morning that the storm had hit the service pretty hard, and despite all efforts to keep the lines heavy they were being badly blocked.

The C. P. E. yards were badly blocked, and a large crew of men were engaged trying to keep the city lines clear. The Montreal train was reported to have been delayed.

As Hiram Sees It

"I thought," said Mr. Hiram Hornbeam to The Times reporter, "the motto of this here country was 'Ladies first.'"

"We applaud the sentiment," said the reporter.

"I guess you let it go at that," said Hiram. "I was down to Haymarket Square the other afternoon when two carloads of people from East St. John was waitin' for a transfer."

"The women had to wait, an' then a lot of 'em had to stan' up an' her their feet trapped on—'at listen to smart talk from some of the fellers settin' down. These wasn't flappers—they were three women. 'You might just say for me I had a better opinion of St. John men—By Hen!'"

"Confaction and arrests," were threatened some of the latter and to head the invitation sent them by the control commission for a conference here today.

The control commission has been divided into three sections which will deal respectively with the coal syndicate, the miners' association and the iron producers' association.

A proclamation by General Depoutte gives notice that "all possible measures of pressure," would be applied in case the commission were in any way interfered with or evaded.

The following were the amounts collected in the city churches—Cathedral, \$254.27; Holy Trinity, \$199.58; St. Peter's, \$100; St. John the Baptist, \$60; Assumption, \$52.60. Bequests totaled \$106.

The total collected for the Association of the Holy Childhood in the diocese was \$799.08. Local contributions included Cathedral, \$115.73; Holy Trinity, \$54.64; St. Peter's \$30; Assumption, \$27; St. John the Baptist, \$15.

"PRESSURE" THREAT BY THE FRENCH IF GERMANS TRY TO BLOCK COMMISSION WORK

"SUNDAY OF MOURNING" PLANNED OVER OCCUPATION OF RUHR

Big Business Faces Confiscation and Arrests if Orders Disregarded—Germans Get Time on Payments Due on Next Monday.

Essen, Jan. 12.—While Germany generally was preparing for the observance of tomorrow as the "Sunday of mourning" over the occupation of the Ruhr, the actual establishment of the French and Belgian garrisons continued to be extended and the occupying authorities at Essen and Dusseldorf were making further efforts toward direct negotiations with the big industrialists and mine operators.

"Confaction and arrests," were threatened some of the latter and to head the invitation sent them by the control commission for a conference here today.

BURIED 34 IN POTTER'S FIELD IN YEAR IN MONTREAL

Bodies of 27 Babies Among the Number
Grim Statistics in Report from Recorder's Court—Found in the Gutter, on Dumps, in Parks, Rivers and Lanes.

(Special to The Times.)
Montreal, Jan. 13.—Thirty-four bodies of human beings whose identity completely baffled the authorities despite the most searching probes of police and detectives were buried last year in the Potter's Field, according to a report of the recorder's court here yesterday. The number included one woman, six men, and twenty-seven babies.
The outstanding feature is the fact that a definite verdict of infanticide was returned in ten of the twenty-seven cases where the bodies of babies were found, and an equal number of the remainder are thought to have met their fate by foul play.
The little bodies were buried in every conceivable surroundings—in the squalid gutter, the civic dump, parks, rivers and lanes, in furnaces and on the railroad tracks, and in one case the body of an innocent was found in a shoe box placed behind one of the headstones in the Cote Des Neiges cemetery.
One of the bodies was found tucked under the seat of the smoking compartment of a train near Montreal. Another was discovered in one of the pews of St. Patrick's Church with a rosary around its tiny neck. But the greatest number were not lying out in the open, naked and cruelly exposed to the elements which caused their death.
Four of the six men were found drowned, one had fallen off a train, and the last of the six succumbed to drugs. The single woman was found in the La Prairie Basin. She was young and tastefully dressed, and her body was rescued from the waters it still bore the marks of a singular beauty which caused the police to retrace their usual efforts in the search for her relatives. But all to no avail. And the girl, for she was little more, now lies in the Potter's Field without a name.
The numerous instances of infanticide have aroused the people here and it is unlikely that the most heinous and vilest of the crimes will escape lightly. Of the twenty-seven children found eighteen were the bodies of infant girls.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

EUROPE SURPASSES AMERICAN MOVIES

"The Loves of Pharaoh" at Imperial Monday the Most Marvelous of All Historical Love Dramas.
Coming so close upon the ebbled descriptions of the marvelous discoveries in the Valley of Kings, Thebes, Egypt, where English and American archaeologists have unearthed the tombs of some of the Pharaohs of 3,000 years ago, the stupendous European production, "The Loves of Pharaoh," of the Imperial, Monday, will simply enthral all patrons who like their fiction colored with historical value. In these days of much liberty with history in describing film productions it would be a commonplace to say that this classic photo-drama is one of the world's masterpieces. The Imperial Theatre management simply assures its widespread patronage that "The Loves of Pharaoh" is a pulsating history of pictures, a living history mentioned in holy writ and now being so wonderfully authenticated by prying discoverers. It is an astounding array of pictures, being over 50,000 people being employed and Europe's best players in the leading roles.
MARK TWAIN'S FUNNIEST COMEDY
"A Connecticut Yankee" at the Palace Theatre Monday and Tuesday.
The greatest satire in the history of literature, "A Connecticut Yankee in King Arthur's Court" by Mark Twain, of which the special William Fox Film version is coming to the Palace Theatre, Monday and Tuesday, is known as the play that has made the world laugh. Everywhere crowded houses have been kept in roars of laughter at the droveries of the Yankee. Nothing has been seen so funny as Sir Lancelot and his knights setting forth to rescue the King on a Ford car. "A Connecticut Yankee" will be shown Monday at seven o'clock and again at eight-thirty. It will also be shown at the same hours on Tuesday night.
See advertising columns for further particulars.

THE FORE DOWN

THE FRENCH FLAG

Benin, Jan. 13.—An incident which may result in unpleasant consequences has occurred at Steeple, two miles outside of Ezeah, where the French flag has been torn down and destroyed, says a despatch to Vorwaerts today.
The burgomaster had to apologise to the French commander and publish an appeal warning the population against excesses.

BANKER TO PINE HILL POST

Halifax, N. S., Jan. 13.—At a meeting of the board of Pine Hill College yesterday, Horace A. Fleming, prominent banking official of Halifax, was appointed secretary and agent of the board. The appointment was formerly held by the late Rev. Dr. Thomas Stewart.
At a subsequent meeting of the members of the general interest committee of the maritime syndicate it was decided to ask Mr. Fleming to act as agent of the church and to ask the executive committee of the general board in Toronto to approve of this action.

APPOINTED FOR LIFE TO IRISH POST

Dublin, Jan. 13.—The Daily Eirannese yesterday adopted a committee report recommending the appointment for life of George McGrath as Controller and Auditor General. In this position he would keep account of all the finances of the Free State.
John A. Lachlan, criticized the appointment on the ground that McGrath was a brother of Joseph McGrath, Minister of Industry, Commerce and Labour in the Free State cabinet. He also charged the government with favoritism.
William T. Cosgrave, President of the Executive Council, paid tribute to McGrath's valuable financial services in America. Kevin O'Higgins, Minister of Home Affairs, and Patrick J. Hogan, Minister of Education, also supported the suggestion of favoritism in making appointments.

WOMAN FOUND DEAD IN DRIFT

Rochester, N. Y., Jan. 13.—The body of Miss Frances Mathews, aged sixty-eight, has been found frozen in a snow drift at her home at Interlaken. Miss Mathews, former editor of the Havana News, had been missing from her home since early Monday.

SIX FEET OF SNOW IN WOODS

Moncton Times.—Speaking to the Times yesterday in reference to the abnormal quantity of snow that has fallen this winter, Mr. Thomas Fitzsimmons, caretaker of the city reservoir at Cherryfield, gave it as his opinion that there was six feet of snow in the woods in this locality. The country roads are very heavy and in some places there are drifts nearly ten feet high.

THE COUNTY ASSESSMENT ABOUT \$425,000

An Increase of Some \$5,000 Over Last Year—New Interest Item.
The city and county assessment warrant for 1923 will be about \$425,000, as compared with \$419,973 for last year, so it was announced at the office of the county secretary this morning. The increase is due chiefly to amounts of \$3,708 for interest and sinking fund charges on a new epidemic hospital and about \$5,000 in interest and sinking fund on account of the local County Housing Board. The assessment for 1923 will be some \$8,900 less than last year, the total for 1922 being \$392,297.94, and for 1923, \$383,397.94. The principal items in this section are as follows:—
1922. 1923.
County Hospital .. \$ 64,700 \$ 65,600
General Hospital .. 122,981 117,642
Provincial Asylum .. 19,287 18,700
The amount assessed for interest and sinking fund last year was \$37,136.06, while this year it will be \$36,636. The bulk of this increase is due to the County Housing Board, for which \$10,000 was provided in 1922 and for which \$19,400 is included this year. It was pointed out by county officials that after next year the board will pay its way by several years and this item will therefore be eliminated from the assessment. The item of \$3,708 for interest and sinking fund charges on new epidemic hospital appears for the first time this year.
The estimates will be considered at a meeting of the Municipal Council next week and some slight changes are anticipated in the item for contingencies.

LOCAL SHIPPING AND THE STORM

Local shipping was at a standstill this morning. S. S. Helene, due to sail this morning, was held up before her cargo was completed. There was still some three or four hours work to be done on her at present, and it was thought that she would not sail until tomorrow morning at the earliest. The San Benito, the United Fruit Company's boat, taking a cargo to Havana, Cuba, sailed yesterday afternoon, but had made only twenty miles up to noon today. It is probable that she will be held up for the worst of the storm. The Bolingbroke, a C. P. S. freighter, was 110 miles away on her way here at noon and it was thought that she would not be held up in any way.
The Department of Marine and Fisheries had received no word at noon of any disasters or any vessels in trouble at sea, and there was no word at the Red Head wireless station of any trouble within the radius of their service. The steamer Aberdeen was reported this morning as being in Yarmouth Harbor.

OCEAN VOYAGE IN BOX

Man Found in Honolulu in Crate He Put Aboard in San Francisco.
Honolulu, Jan. 13.—Ira Colver Sparks of Peru, Ind., was taken from the steamer Taro Maru after having lived for five days in a box of thirty-one cubic feet dimensions. He had built the box himself, shipped it to himself at Honolulu and obtained a bill of lading. At San Francisco he ordered the box taken to the steamer, then climbed inside, and started his voyage.
For five days, he said, he lived on tinned goods and water which he carried in oil cans. He finally came out, he said, because of loneliness. He said he had intended to go to Bombay, via Hongkong, where he planned to work as a carpenter in the Holy Land. Officials expect to send him back to San Francisco.

FAMILY SAVINGS RESCUED

Firemen Found Them Under Mattress in Burning House.
Montreal, Jan. 13.—Although sick in bed, with whooping cough, three children, in Montreal North, sprang from their beds, when the cry of fire was raised, and, in night clothes and without shoes or stockings, ran fifty feet across the snow-covered ground to the nearby house of a relative. It was reported last night that apart from the mother, the children, two boys and a girl, aged 6, 7, and 8 respectively, had apparently suffered no ill effects from the fire.
The fire was in the home of Edward Segun, Cobourg street, Montreal North. Chief Villeneuve, of Montreal North, was informed by Segun that he had gone to fix his furnace, shortly after 4 o'clock, and had taken an oil lamp with him. He had placed the lamp on a table, and was stoking the furnace when the lamp exploded and set fire to the table. He immediately ran to the door, and the children, without waiting to put on any clothes rushed from their beds and ran to the home of their uncle, Arthur Segun, a short distance away. In the meantime the flames had spread to the walls and fixtures in the house. When the firemen arrived Mrs. Segun told them that the children were under a mattress, had been in an envelope, underneath a mattress, had been forgotten in the excitement. The Chief delegated a compute between the mine workers there and the Nova Scotia Workmen's Compensation Board.
The miners have threatened to strike unless the board pays compensation to the family of Alex. MacDonald, section man, who was killed last summer under peculiar circumstances.

Thousand Swiss Farmers May Come to Canada—Perhaps Bring Yodel Along.

Ottawa, Jan. 13.—The possibility of 1,000 Swiss farmers settling in Canada in the near future has been considered by the Department of Immigration. The Swiss Government, it is understood, is undertaking to assist in transporting the settlers, provided the Canadian Government can guarantee them employment for one year.
While this stipulation may prove a stumbling block, Hon. Charles Stewart is getting in touch with Swiss farmers already settled in Canada with a view to having them meet Fritz Beck, special commissioner of immigration for the Swiss Government. Mr. Beck is now touring the Dominion looking into opportunities for his fellow-countrymen.

PRINCE OBOLENSKI HUNTING A JOB

Had \$500,000 a Year in Old Russia, but Willing to Find New York Expensive.
New York, Jan. 13.—The plight of Russians of the late nobility and other refugees in Paris, London, Berlin and Constantinople is reflected here in New York by the difficulties which have befallen Prince Oboleski, a former member of the Obolenski family. The Prince, who arrived in this country shortly after the war, has had some success in his search for employment. He is considered himself fortunate in having sufficient funds left to come to America, as Europe is overburdened with refugees, hence his job has found little opportunity to work here.
"I brought letters of introduction to a number of banks in New York," said the prince, "but every one seems to have the impression that I want to start out as a Vice President or something. If I were able to stand the other way I should be able to stand the other and I am more than willing to start out to earn my living like any one else."
The Prince was educated at Eton and at Magdalen College, Oxford, and like most Russians of the old regime speaks English, French, Italian, German and Spanish with the same fluency as his native tongue. According to the Prince, he was at Oxford when the war started and enlisted at once in the British army, in which he served for fifteen months, when he returned to Russia, where he was in the army there until the revolution. He was imprisoned in Petrograd for eight months, and finally escaped to Paris. His father had died and his two sisters had been killed. He and his elder brother, Prince Nicolas Obolenski, were the only members of the family left, and their estates were all confiscated.
"Prior to the war I had an income that amounted to about \$100,000 a year," said the Prince. "It was not the custom to educate young nobles to support themselves; rather they were supposed to prepare for politics or statecraft, and of course we all received a very thorough military education. The Prince and I were most of my friends at Oxford to earn my living like any one else."
The Prince's brother, Prince Nicolas, is at present in Paris, which is the centre of activity for the Russian nobility. Prince Oboleski's family dates back some twelve centuries in Russia. The first prince to bear the title Obolenski ruled in the Russian province of Obolenski in 1368.

SEES DEBATE OVER ROYAL GEORGE CABLE

British Newspaper Talks of Possible Crisis at Ottawa Over Appeal in Days of Turkish Danger.
London, Jan. 13.—(Canadian Press)—The Western Mail, a newspaper of substance in the west of England, published an article today giving prominence to an article dealing with the former Premier Lloyd George's famous appeal to join the British in a military expedition to the Dardanelles in 1915, last in an acute form in the Canadian parliament.
"It will not be surprising," says the article, "if a crisis is produced in the relations between the Dominions and the mother country. The other Dominions are seemingly disposed to support the former Premier's proposal."
Ottawa, Jan. 13.—That the relations between the mother country and Canada, as a result of the Dardanelles debate, are being strained, is a fact which is being recognized here. In a semi-official quarters it is intimated that the matter will be thoroughly discussed.

MANAGEMENTIAN TO TESTIFY IN COURT

John R. Booth Following Proceedings in a Lumber Limit Action.
Ottawa, Jan. 13.—John R. Booth, even at the age of 94 years, still retains sufficient interest in his business as to closely follow court events which relate to his affairs. This was shown at the court house where he sat beside his counsel and closely followed the proceedings in the Supreme Court action of the provincial attorney-general and the Golden Lake Lumber Company against J. R. Booth, Limited.
The action arises out of a boundary line between limits in the Nipissing district. One of the limits is owned by the Golden Lake Company which forms part of the M. J. O'Brien interests and the other is owned by J. R. Booth, Limited. In addition to the boundary line there is also a claim for compensation for trees felled in a certain area by the Booth workmen, which the Golden Lake Lumber Company claims were on their limits.
Denis Helferty, a ranger for the Golden Lake Lumber Company, claimed that the trees which had been removed from the area in dispute would equal to 1,000,000 manufactured board feet of lumber, which as a mill run grade he estimated was worth \$81 per thousand feet.

"ISAIAH" CALLS AT WHITE HOUSE

Washington, Jan. 13.—The "Prophet Isaiah" called at the White House this week to assist Ambassador Harvey in advising President Harding on international matters. He came with "divine revelations" that war with Japan is imminent, as he held a chariot, like the prophets of old, but in a chariot with barred windows and a clanging bell.
The man is Isaiah Harlow, a huge negro from Kansas City, and he wore a uniform all his own with his name and occupation, "Isaiah Harlow, prophet," inscribed in gold letters on his collar. An ornate sword hung from his waist. Over his navy blue uniform hung a dazzling cloak, embroidered with white stars, crescents and mysterious occult signs.
In majestic, booming tones, he announced to the policeman at the door of the executive offices that he had "a message from God" and that he desired President Harding's ear. He imparted some of his revelations to Col. Starling and Jack Fitzgerald of the Secret Service, and these guardians of the President informed him that his message was so important that he must first confer with the Twelve Apostles.
But instead of being ushered into the cabinet room with his twelve chairs around a table, the visitor found himself in the White House guard room, and later in "the wagon," bound for the Washington Asylum for observation.

However that's a minor point. The main thing to remember is that "Wear-Ever" kettle will give longer service, is lighter to handle and needs less fuel to heat it. Decline substitutes and insist on genuine "Wear-Ever." Northern Aluminum Co. Ltd., Toronto. Replace utensils that wear out with utensils that "Wear-Ever". Longevity of Springs. Springs should be taken apart once a year and graphited. This will keep them flexible, and afford the car the protection for which the springs were designed, instead of getting dirty, rusty and stiffening very perceptibly. When Pulling Through Mud. To keep wheels from spinning when driving through mud, use saddle weight on the rear wheels. Load up the back of the car with rocks, and have the passengers sit tight. Do not attempt to lighten the car to get through a bad spot in the road. A Suggestion for Easy Starting. If the motor refuses to start easily with the throttle partly open, the trouble may be overcome by giving the crank a turn or two with the throttle wide open and the ignition switch off, and then cranking with the throttle partly closed and the ignition on. Safety First. Because of the dangerous exhaust gas, which causes death due to suffocation, whenever any work is being done in the garage while the engine is running, the doors should be open to insure proper circulation of air, or a hose may be connected to the exhaust pipe to carry the gas to the outside of the garage. Importance of Good Insulation. Examine the electrical system at different intervals. Wires may work against some part of the chassis or engine, which chafes and wears away the insulation. Cover these with friction tape or secure them in such a way that they will not rub. When current commences to leak out, the battery may be ruined or the wires burned away. Air-Pressure Systems. Gasoline pressure system give very little trouble, but there are two places which must be constantly watched: The filling cap and the check valve on the pump. Always see that the cap is screwed down extra tight, and watch the pressure gauge to see if the check valve is leaking air. If it is, a few squirts of gasoline may be all that is necessary to clear it of dust. To keep a car in perfect working order, every working part should be thoroughly lubricated and all surplus oil should be wiped off. Never exceed the speed limit, even in the open country. The sediment in a battery should be removed once a year. Examine steering gear once a week, and test brakes every time the car is taken out. Faulty carburetor adjustment causes at least 30 per cent loss in every gallon of gasoline used. Loose battery connections allow all of the current generated to flow through lamps and burn them out. To preserve the finish on a new car, it is best to spray it with clear, cold water once a day for several days. Pipe clay acts as a preservative of rubber and makes one of the best mediums for treating rubber mats used in automobiles. A driver should not overlook the fact that extra care is necessary in crossing most bridges. An accident on a bridge is likely to be a serious one. Never come out of nor enter an alley, stable, garage, "gas" station, parking yard or driveway except very slowly and giving warning, especially if a sidewalk is to be crossed. A novel plan of disease prevention in children has been adopted by the New York Nursery and Child's Hospital, whereby the physical progress of all children born under the care of the institution will be watched until their twelfth year. Dr. Jesse F. Sammis, director of the pediatric service of the hospital, made the announcement, saying that the plan would supplant the hospital's pre-natal work. Normal infants and healthy children, as well as the less fortunate among the 2,000 infants born in the indoor and outdoor departments of the hospital each year, will be given careful attention.

HOCKEY.

Abegweit Beat Summerside.
Charlottetown, Jan. 12.—The Abbies, in their first game in the New Brunswick and Prince Edward Island League against the Crystals of Summerside, defeated the latter in their own rink tonight, 4 to 1. In the first period Abbies shot two goals, Summerside none; Summerside shot one goal in the second period and the Abbies two in the third period. Frank Brown, of Moncton, refereed.

Local Team Wins.
St. John came back strong last night in the hockey world when she handed out a 8 to 2 defeat to St. Stephen in a fast and interesting game in which ten minutes of overtime play was necessary. The score was two all at the end of the game and St. John scored during the overtime. Dr. Taft was the outstanding man on the ice and put up an excellent brand of hockey. About 600 were present and thoroughly enjoyed the game. The local team was somewhat lacking in combination play, though there was some excellent individual work on the part of several of the players.

St. John—Gabriel, goal; Taft and McPhee, defense; Gilbert, centre; W. MacGowan and Doyle, wings; L. MacGowan, Howard and Short, spars.

St. Stephen—McCurdy, goal; Lec and Wry, defense; Scovill, centre; Green and Walker, wings; Anderson, Bonnell and Gibson, spars.

Referee, John MacGowan; timers, McShane and Bonnell; goal judges, Harold Ellis and J. S. Clarke, Jr.

High School Team.
After being out of the competition for five years the local High School team will enter the Inter-Scholastic Hockey League this year. Teams in the league this year will be Sussex High, Rothersey Collegiate and St. John and Fredericton High. A meeting will be held next Saturday in the city to draw up a schedule.

Campbellton Trims Moncton.
Campbellton last evening administered a severe trimming to Moncton, when a team representing the North Shore town handed a 10 to 2 beating to the boys from the railway city. The Moncton team was not permitted to score until the last period. G. L. Lutes of Moncton handled the whistle.

Not Duke McIsaac.
Moncton, N. B., Jan. 12.—The McIsaac who played here Thursday night with the Stellarton Independents was not Duke McIsaac of the D. A. C.

Stellarton Trims Amherst.
Amherst, Jan. 13.—Stellarton won from Amherst, 7 to 3, in the Independent Hockey League here last night and took the league leadership. The Ramblers played a hard game, but lacked team work.

Dalhousie Defeated.
Halifax, Jan. 13.—Wanderers defeated Dalhousie 5 to 4 here last night in a City League hockey game.

Boston Defeated.
New Haven, Conn., Jan. 13.—The Minister Hockey Club of this city tonight defeated the Boston Hockey 4 to 2 goals to 0, in a fast, well-fought United States Amateur Hockey Association League game. The West-minsters were defeated by the Boston club, 6 goals to 4, last Saturday.

Boston College Wins.
Boston, Jan. 13.—Boston College hockey team last night defeated Victoria, a member of the U. S. H. A., 9 to 1.

Calgary Shut Out.
Victoria, B. C., Jan. 13.—The Calgary Tigers ran into their second defeat, and incidentally their second shut-out, of their Pacific coast tour here last night, the Victoria Cougars winning 4 to 0 and again creating a three cornered tie in the Pacific Coast League.

Regina Wins Again.
Saskatoon, Sask., Jan. 13.—Regina Capitals tightened their grip on the top rung of the western Canada hockey league ladder last night when they defeated Saskatoon 1 to 0.

CURLING.
Women Defeat Scots.
Quebec, Jan. 12.—A rink of the Quebec Ladies' Curling Club defeated a rink of Scotch curlers this morning. The ladies' aggregate score was one more than the visitors. After the game the visitors left for Montreal to meet the other Scotch players.

Bathurst Retains McLellan Cup.
Possession of the McLellan Curling Trophy was retained by Bathurst last night.

SKATING.
Maritime Association Meets.
The Moncton Y. M. C. A. and the St. John Rowing Club have each made application for the Maritime Skating Meet, but no decision was arrived at a meeting of the executive of the Maritime Skating Association yesterday afternoon, owing to the absence of the Moncton representative on the executive. The St. George's A. A. A. applied for permission to hold the provincial indoor championships. Sydney A. A. A. wrote asking sanction for a skating meet and also for the services of either Charles Gorman or Frank Garnett. Frank White presided at the meeting.

GORMAN HAD TO SLOW UP TO PREVENT CLASH

Inches Behind Jewtraw After Winning Two Heats

Gloster, Green, Corcoran and Forsman Also in the Final of the 220—Gladys Robinson's Victory in the Dash.

(Canadian Press) Binghamton, N. Y., Jan. 12.—Charles Jewtraw, skating under the colors of the Lake Placid Skating Association, took the lead in the Adirondack Gold Cup events, skated at the new rink in Johnson City last night, by scoring fifty out of a possible sixty points from a class field of steel bladed knights. Jewtraw won the 220 after a hard tussle with Charles Gorman of St. John, N. B., and placed in the mile to Valentine Bielis, also of Lake Placid.

JEWTRAW.

Gorman was placed second in the 220, just inches behind the Placid star. Twenty skaters faced the starter in the 220 yard. The race was divided into four heats of five men in each heat. Gorman won the first heat handily, not being pushed by Fred Buendgen, of Chicago, who was second. Billy Murphy, of New York City, took the second heat nicely, while Jewtraw won the third heat. Paul Forsman of New York, won the fourth heat, with Emory Stephenson of the Aura Lee Club of Toronto, second. In the semi-finals Gorman and Jewtraw won their heats with Corcoran and Forsman placing second and Green and Gloster, third.

These six skaters faced the starter in the final, and Jewtraw won by inches from Gorman, who was forced to slow up to prevent a collision with Jewtraw on the final turn into the stretch. A blinding snowstorm swept over the course during the races and on the back stretch the skaters were forced to fight a stiff wind, but despite this handicap the 220 yards was skated in the remarkable time of 19 2-5 seconds, and the mile in 2:38 1-4.

The meet will continue Saturday and Sunday. Summaries. 220 yards, semi-final: First heat—won by Charles Gorman, St. John, N. B.; second, Pat Corcoran, Endicott-Johnson American Legion; third, Orville Green, Saranac Lake Skating Association. Time, 21 seconds. Second heat—won by Charles Jewtraw, Lake Placid; second, Paul Forsman. Time, 19 2-5 seconds. In the one-mile race Jewtraw was second to Valentine Bielis, also of Lake Placid. The mile race brought sixteen skaters to the mark. Gladys Robinson of Toronto, won the 220 yard final for women, trimming a field composed of such stars as Elsie Muller of New York and Mrs. Jack Ruppung of Troy.

C. N. R. MEN RETIRE

(Campbellton Graphic). When number 4, the eastbound Ocean Limited, sped down the snow-clad Matapedia Valley on last Friday morning, William Fraser, sitting at the throttle for the last time, completed his forty-one long years of service in the employ of the Canadian National Railway at this division. At the age of sixty-one Mr. Fraser has permanently retired, taking advantage of the pension provided by the railroad, after a long and faithful period of service broken by very few holidays or lost time through other contingencies. Among those who retired on the Provident Fund on December 31 last is Conductor Stephen G. Nickerson, formerly of Moncton, but who for the past five years has been residing at Dalhousie Junction. Conductor Nickerson ran out of Moncton on the accommodation north for a number of years, but for the past five years has been residing at Dalhousie Junction and running on the Maritime Express.

MRS. BETSY WHITE

Engage Commercial—Mrs. Betsy White, the widow of Charles White, passed away on Jan. 1, at her home in Dyer Brook. Mrs. White, the daughter of Samuel and Rebecca (Green) Lilley, was born in Richmond, N. B., Aug. 15, 1832. She was the seventh of a family of 18 children and was the only one who lived to reach the age of 90 years. Mrs. White was married July 17, 1848, and was the mother of nine children. She was baptized and joined the Free Baptist church 74 years ago.

THIS SHOULD BE DONE AT ONCE

Remove Few Loads of Snow and Make Travel at Haymarket Square Better.

A citizen pointed out to The Times this morning that the city street cleaning department could effect a very useful piece of work and relieve a very serious congestion at Haymarket Square just now by removing five or six loads of snow. Cars coming in from Glen Falls and East St. John stand on the track at the entrance to Haymarket Square and teams and motor cars out-bound are unable to get by them, and automobiles particularly are held up until the street cars are moved. By removing a few loads of snow on the right side motor cars and teams would be able to get around the standing street cars. At present teams are climbing a great mound of snow with great difficulty. The cure is slow and easy, and should be completed at once. An inspection of the situation would make this abundantly clear, and the work should be done even at a time when the street cleaning department is naturally very much overloaded with work, for the present delays in that quarter can be very easily remedied.

POTATO TRADE THREATENED!
Hartfield & Co., exporters of potatoes have received a letter from J. Suris & Co., of Havana, to the effect that Cuba is likely to adopt this month a tariff which would make the duty on Canadian potatoes nearly three times as high as on those from the United States, and thus strike a severe blow to the trade from the Maritime Provinces.

IN THE MARKET.
In the city market this morning beef was selling for from 15 to 30c.; lamb, 25c. to 40c.; pork, 20 to 30c.; chicken, 35 to 50c.; fowl, 30 to 35c.; turkey, 50c.; geese, 35 to 40c.; butter, 40 to 50c. lb.; potatoes, 30c. peck; turnips, 25c. peck; parsnips and carrots, 20c. peck; celery, imported, 40c. head; squash, 7 to 8c. lb.; cabbage, 20c. head; parsley, radish and mint, 6c. bunch; eggs, 50 to 70c. dozen. It was a slim market, the storm keeping some of the farmers away.

A TRIBUTE
A striking example of the good work accomplished along social service lines by the late Mrs. J. Willard Smith was given this morning by the mother of a family who were helped greatly during the first epidemic of the influenza. There were seven in the family sick, three adults and four children, and no one was there to look after them until Mrs. Smith visited them and saw the unfortunate condition of the household. With characteristic self-sacrifice she left her home and stayed with the sick family, nursing them slowly back to health and risking her own health and perhaps her life in helping these unfortunate ones.

COBALT VETERANS BACK UP FRANCE

"Keen Remembrance of the Wanton Ruin and Destruction Wrought by the Germans."

Cobalt, Ont., Jan. 12.—Declaring that as former soldiers they have "keen remembrance of the wanton ruin and destruction wrought to France by the Germans," members of the Cobalt branch of the G. W. V. A. last night passed a resolution endorsing the French action in invading the Ruhr. "We veterans say they are 'back up' because of the spirit of British magnanimity towards a vanquished foe," but they feel that Germany has avoided just payment for the damage done and that she can afford to pay and should be forced to pay.

IS HELD AT MACHIASPORT BY THE STORM

Capt. A. J. Mulcahy Reports on the Schooner Hiram D. McLean, Which was Ashore.

Word has been received by Nagle and Wigmore, local agents for the schooner Hiram D. McLean, which went ashore on Libby's Island, near Machiasport, Me., on January 7, that the tug F. W. Roebling and the schooner are storm-bound in that port but will start for St. John as soon as weather conditions make it possible. The tug sailed from here a couple of days ago to bring back the McLean. She will be brought to St. John, her deck-load will be discharged and she will be put up in Market Slip for an examination of her bottom and an overhauling.

Captain A. J. Mulcahy returned last night from Machiasport where he went to look over the schooner and decide the best course to pursue. The captain said this morning that he had surveyed the schooner and ordered her brought to this port for examination. The ship did not mis-behave, he said, but sailed right onto the rocks, striking on her forward part and springing a leak which rapidly filled her with water. She struck in the early evening of January 7 and remained there until early the next morning when she was floated and taken into Machiasport. She is still full of water, he said, and the pumps make no impression on the inflow. The schooner would sink if her load of lumber did not keep her afloat. The tug Roebling is standing by to tow her back to St. John.

No further word as to the condition of the schooner Don Parsons, which went ashore on Little Cranberry Island last night, has been received by Nagle and Wigmore, local agents for the schooner.

RUM-RUNNERS HAD HOLIDAY

Prohibition Fleet Watchful, But Some Cargoes Reached Shore.

Highlands, N. J., Jan. 12.—Government craft were reported last night by bootleggers' scouts to be keeping a sharp watch on waters off the Highlands, and rummers who were smuggling liquor ashore from a fleet massed off Ambrose Channel lightship on Thursday night declared that the watch was too great to attempt.

Two Highland rummers ventured out yesterday afternoon and, although they returned with small cargoes, they asserted that the risk was too great to attempt, however, that rum-runners from Long Island points had visited the liquor fleet yesterday and had no trouble running their cargoes through the haze which hung over the sea.

Some of the rum fleet, they declared, had disposed of their stock and departed.

Receiving this report the local bootleggers met after supper in a boat house and voted to lie in until the squall is over. The bootleggers sat on whiskey cases and rested their backs against stacks of them.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis Formerly Technical Electrical Expert For U. S. Government

There are numerous types of circuits employed in tube transmitters but the circuits shown in the accompanying diagram constitute one of the most commonly used arrangements.

This circuit is generally known as the "Colpitts circuit" and the method of modulation shown in the diagram was originated by Heising. The "Colpitts" transmitting circuit employs electrostatic coupling between the plate and grid circuits of the oscillator tube represented by condenser "C" in the diagram. Tube "O" is the oscillator tube which generates the radio-frequency current, tube "M" is the modulator tube which is employed to modulate the output of the oscillator tube while tube "V" is the speech amplifier by means

of which the voice modulated current of the microphone circuit is amplified to a value suitable for modulating the output of the larger tubes. The action of the oscillator tube which generates the radio-frequency current is similar to the action of the external heterodyne used in receiving circuits or any similar oscillating tube circuit, except that in this particular type of circuit the feed back between plate and grid circuits is by means of a condenser rather than by inductance coils.

The modulation system may be considered a resistance which varies in accordance with the variations in sound which enter the microphone, this resistance being connected across the plate circuit of the oscillator tube. The effect of this variable resistance is to withdraw a varying current from the oscillator tube circuit, thereby changing the antenna current to correspond to the sound which enters the microphone.

The diagram shown, illustrates the important principles involved in a tube transmitter of the "Colpitts" type but the actual circuit diagram of a complete installation is much more complicated. Several vacuum tubes are usually employed in the oscillator circuit to increase the output of the station and the speech amplifier and modulator tube circuits frequently make use of several tubes each. Filter circuits are also employed to prevent the commutator hum, produced by the high voltage generator which furnishes the plate potential, from entering the tube circuits and causing annoyance to listeners.

"R" and "O" represent the grid leak resistance and grid condenser respectively of the oscillator tube circuit. These devices serve a similar purpose to those employed in receiving circuits but are of course, especially built to withstand the higher voltages and currents used in transmitting circuits.

A counterpoise or system of insulated wires suspended a little way above the actual ground is usually employed instead of an actual ground connection in the more efficient transmitting stations, although frequently the use of both types of connections is found to materially increase the range of the station. When both ground and counterpoise are employed it is necessary to balance these two circuits by means of a loading coil in the counterpoise lead so as to tune both to the same wave length.

The circuit illustrated is employed at many of the commercial broadcasting stations operating on the 360 meter wavelength. Amateur stations also frequently use this circuit although some other types of circuits are perhaps more suitable for use on the shorter wave length assigned to them.

COMMEMORATE CENTURY OF PEACE TIES

Justice Riddell of Ontario and Chief Justice Cornish of Maine Principal Speakers at Augusta Meeting.

Justice William R. Riddell of the Ontario supreme court was the guest of honor and chief speaker at the closing session and banquet of the Maine Bar Association in annual meeting in Augusta, Maine this week. Commemoration of 100 years of peace between the United States and Canada was the theme of the occasion, with Justice Riddell bringing a message from "Our Lady of the Snows," and a response by Chief Justice Cornish of the Maine supreme bench.

see mighty offspring. Washington is a national hero across the sea—he is looked upon as an English general, an English statesman, an English patriot, just as he lived and died an English gentleman. I speak with the utmost candor when I say that I can conceive no reason why Americans should rancorously brood over the events of the revolution or treasure enmity against the old land or her people—unless indeed it be prejudice which a later generation owes to those which precede it.

"Whatever there may have been in Fourth of July addresses and political speeches, there has been little of this enmity displayed in act—we have lived together for more than 100 years in peace without a fort, a gun or a soldier to guard us. We have settled 4,000 miles of boundary, every mile of which was disputed and every mile might have caused war, and without the shedding of a drop of blood—we have by the peaceful methods of diplomacy and arbitration settled disputes as to fishery, claims for money, what not?"

Chief Justice Cornish in response, said in part: "The ideal way to attain national security is to actually live at peace with your neighbors, and whether you can or not depends in large measure upon the traditions, the temper and the trustworthiness of those neighbors. If their theory is that might makes right and that he must lose his rights who cannot protect them by the mailed fist, then sometime war must come."

"But if the neighbors are of kindred blood and speech, if their history reaches back locked with your own to a remote past, if their conceptions of law and order and government coincide with your own, then neither forts nor battleships, nor army nor navy are needed to preserve peace and comfort and happy homes on both sides of the line. No better illustration could be afforded than Canada and the United States."

RICHES GOING TO SICK ANIMALS

Dislike for Humans Will Lead Woman to Establish Memorial Hospital.

New York, Jan. 13—Dislike for human society and affection for animals has led Mrs. Sidman McHie of this city to make a will in which she will leave all her considerable fortune to the Society for the Prevention of Cruelty to Animals for a hospital for animals.

It will be the largest of its kind in the world, set in wide grounds somewhere in the suburbs of New York, a place unique.

The hospital is to be known as the Isabel McHie Memorial, and in it will be a bust of herself in marble on a pedestal, which will contain her ashes. Over the door will be carved the words that explain her purpose in making this unique gift: "The more I saw of people, the more I thought of dogs. There was little to indicate a tendency to misanthropy in Mrs. McHie as she smilingly discussed her will. She told of the inscription of the bust and how she arrived at her decision after long deliberation, but regarding what had made her so dislike humans that she even contemplates the destruction after her death of her pets and a painting of herself by a French artist, she was mute. Inquiries as to the size of her bequest, she also turned away with a smile. "Just say it is all I have in the world, or will have from trusts that will come to me," she said, "even my jewels will be sold and the money given to the memorial fund."

TEN NEW CANADIAN SHIPS.

They Will Be Operated on the Great Lakes Next Season. Toronto, Jan. 12—Ten new steamships will carry the Canadian flag on the Great Lakes when the navigation season opens in the spring. The ships, which will total 24,000 tons capacity and will cost \$1,800,000, will be delivered in May by English firms. They will be operated by the Eastern Steamship Company of Canada, of which John G. Boland of Buffalo is general manager and in which Buffalo, Toronto and Hamilton men are interested. The ships, which will be used principally in the grain trade, will have space for 90,000 bushels of grain and will be 283 feet long. On the trips from Montreal to Buffalo, it is expected, the ships will carry pulpwood.

Because of the storm, the intending skaters who arrived at Hilton Belyea's rink in West St. John, deserted the rink and had a dance in the waiting room instead. LOSES RING, HIS GIRL AND CAREER

Cautious Suitor Finds Once Engagement Band is Given it's His No Longer.

New York, Jan. 12.—When Louis Pearson walked out of Yorkville Court minus his girl, his \$375 diamond ring and his career, he had the sympathy of the court attaches as he murmured: "I'm the world's hard luck guy, that's me."

Louis is a painter and until yesterday was engaged to marry Alice Garber, of 354 East Fifty-first Street. Louis had heard for some time that Papa Garber was going to set him up in the paint business, so upon the strength of this he lowered the band account by many dollars and bought the ring. Then he and Alice sat on the sofa at the Garbers and admired the ring and talked of prospects.

Each time he called he hinted at Papa putting up the capital to start the paint business and each time he mentioned this Alice looked away from the distance and murmured: "What are we going to get married?"

Saturday night Louis gave up hope about Papa and asked to have a look at the ring. He slipped it on his little finger and when he went home took it with him. That's how it came about that Louis went to Yorkville

"Body was completely covered with Boils"

"I have ever had boils, you know how painful and annoying even one or two can be. But imagine having your whole body almost entirely covered with them! I am a watchmaker by trade, making a specialty of repairing the highest grade movements. This is probably the most trying of any mechanical work, particularly for a nervous individual like me. Working under great strain both day and night for three months, brought me almost to a state of collapse. I was so irritable and nervous that the slightest thing would 'send me up in the air.' If I managed to get a few hours of sleep at night I was lucky. I had no appetite for food. I certainly was miserable. During this time boils began to appear on different parts of my body and the pain from them was so great at times that I felt there was nothing left for me to do but to end it all. I consulted doctors but they all told me that if I didn't give up my work and live out of doors, I would go into a decline. As I had no money I couldn't do this. Man Convicted 19 Years Ago in Similar Crime

Slaying in Cleveland—Criminal Asylums Thrice—The Prisoner, Fred Goetting, Suspected in the Death of Two Teachers in February, 1921.

Cleveland, Jan. 12.—A man who was convicted of an axe slaying nineteen years ago has confessed the murder of Harry Keim, forty-six years old, whose body was found hacked to pieces in his hardware store here. The murderer has spent three terms in Ohio institutions for the criminal insane.

Goetting was released from the Lima State Hospital for the Criminal Insane less than a year ago. He had been seen there after a letter by the authorities declaring that he had killed Miss Louise Wolfe and Miss Mabel Foote, Parma Heights school teachers, two years ago. The teachers had been beaten to death on a lonely road while returning to their homes from school. He was released last spring when he told the authorities "he wanted to get married."

used up all the money I made. Finally in desperation, I decided that I would either kill or cure myself, so began to study my case. I realized that I was completely run down as any one could possibly be with a bad case of nerves. What I needed was building up. After reading descriptions of different preparations, the one which appeared to be the best for me was Carnol. It has simply performed miracles for me. Four bottles have done more than months of travel abroad. I feel like a two-year old. I sleep eight hours every night and eat three good meals a day. My skin is like a baby's, free from blemishes of any kind and I have now almost forgotten that I have ever had such things as nerves. I want everybody who is ailing to know about Carnol, because I have such faith in it I believe it will cure any human ill."

GASSED OVERSEAS SHELL SHOCKED and RHEUMATISM

Mr. F. M. Blaquiere, Morinville, Alta., writes:—"After three years' service overseas I returned to Canada almost a complete wreck. I had been gassed, and was suffering from shell shock and rheumatism, and was so nervous I could not sleep at night. I tried many medicines and doctors, but none of them did me any good for any length of time. I got so bad, in the Fall of 1919, my hands were so shaky I could scarcely hold anything, and it seemed as if I had a steel band pressing on my head. The least excitement would almost drive me into fits, and my whole system seemed to be in disorder. I had cramps in my legs nearly every night, and hot and cold chills running up and down my back nearly all the time. One day I decided to try Miller's Heart and Nerve Pills, and after I had taken six boxes I began to feel better. I kept on using them and after a while I was completely restored. MEN ARRESTED AS FREBUGS

Laundry Partners are Accused of Arson—Others Charged.

New York Jan. 12.—Assistant District Attorney Richard C. Murphy has ordered the arrests of Phillip Elson, president of the Wet Wash Laundrymen's Protective Association, and Morris Echeleman, his business partner, on arson charges in connection with the alleged plot which resulted in about twenty rival laundries situated in tenements being destroyed by fire, or their machinery and laundry being ruined by men employing New York City.

Worst in Many Years, Says Murphy

Fire Marshal Thomas J. Brophy, who aided the assistant prosecutor in the questioning of the men, announced that the plot was the most ruthless he had encountered among arsonists in his many years of experience. He said that Assistant Fire Marshals Shields, Coles and Flamm, who were assisting Detective Sergeant Brownworth, Kilroy and Hastings in the investigation, had obtained information which was expected to result in the arrest of several other men for instigating incendiary fires and the destruction of laundry and machinery in establishments owned by men who were members of the association.

RESIGNS FROM COMMITTEE

Toronto, Jan. 12.—A. D. Clark, of Toronto, who has been chairman of a bondholders committee, formed last April for the purpose of arranging for the financial requirements of the firm of Clark Brothers, Limited, located at Bear River, N. S., has announced his resignation from the committee.

ROCK PIERCED TO REACH SUNKEN TREASURE SHIP

Rapid Progress Made in Attempt to Salvage Wreck of Grosvener. London, Dec. 16.—(By Mail).—For some months past a syndicate has been at work on the Pondoland coast, on the wreck of the East Indian mail ship, Grosvener, wrecked in August, 1882. A tunnel is being driven from the shore with the object of penetrating the hull, as the rough seas always prevailing on that portion of the coast deviated in the direction of the Grosvener. Directly the weather permits a diver will be sent down to ascertain whether the wreck lies athwart the gully or lengthwise.

NEARLY STARVES TO DEATH FEEDING EAST SIDE CATS

"CASCARETS" TO CLEAN BOWELS

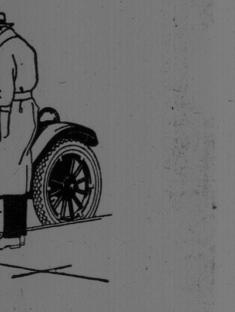

When Sick, Bilious, Headachy, Constipated, for Sour Stomach, Gases, Bad Breath, Colds

Enjoy the nicest, gentlest bowel cleaning you ever experienced by taking one or two candy-like Cascarets morning, More men, women and children take Cascarets for the liver and bowels than all other laxative-cathartics combined. 10 cent boxes, also 25 cent boxes, also 50 cent boxes. Any drug store.

DODGE BROTHERS MOTOR CAR

Winter never fails to bring this car renewed praise. It is because the starting system and carburetor seem to be almost immune from cold weather troubles. The response is prompt, even on the coldest mornings. The cord tires, with their safety tread, are also particularly desirable in winter. They not only act as a safeguard against skidding, but greatly reduce the possibility of having to change tires under disagreeable weather conditions. Close fitting curtains, which open with the doors, enable the owner to drive in comfort the whole year round.

WHAT'S DOING IN THE MONEY AND STOCK MARKETS TODAY

WIRE TAPPERS DID LARGE BUSINESS

A Maine Man Says He Gave Up \$8,000 — Other Victims Speak.

Providence, Jan. 13.—A prominent business man from Augusta, Me., made affidavit in the attorney-general's office here that he was robbed of \$8,000 at Narragansett Pier last December by wire-tappers.

His name has been withheld by the attorney-general. This man is the third victim to come to light who was one of the contributors to the swindlers who are known to have taken at least \$22,000 out of Rhode Island.

Boston, June 12.—Charles W. Foster of Lebanon, N. H., who purchased 100 shares of Monarch Petroleum Corporation stock from S. S. Lewis & Co. of this city, declared on the witness stand in the United States district court here yesterday that after the purchase was completed he thought he was "kiting."

He thereupon called an attorney to assist in straightening the situation out. What the attorney accomplished was not put in evidence. In cross-examination by Attorney William R. Scharton, Foster admitted he was "musserized" into "kiting" and purchasing the stock by means of a telephone call from the Lewis Company office.

He testified as a government witness against Samuel S. Lewis, Louis L. Schwartz, Benjamin F. Kaufman, Harry H. Superior, Morris Schuman, Frank J. Cooper, and Harry Wachtel, who are charged in an indictment with using the mails in a scheme to defraud. They did business in Boston as S. S. Lewis & Co., B. F. Kaufman & Co. and H. H. Superior & Co., the government claims.

Carl E. Herrick of Brownsville, Vt., started his purchases by becoming owner of twenty shares of Diamond Louisiana at \$3 a share. On representations by telephone that he might improve his situation, he transferred this stock for United States Metal Cap & Seal Company stock. Further representations, which he stated were made by telephone by one of the defendants, caused him to increase his holdings. He was told, he said, that he would have an opportunity to sell the shares at \$1,000, he said.

Other witnesses told stories of stock purchases. They are Robert L. McLaughlin of Orone, Me., and John McLaughlin of Topsfield.

DEMAND EXCEEDS INSULIN SUPPLY

Steps Being Taken to Prevent Commercialization of Remedy.

Toronto, Jan. 13.—The committee of the University of Toronto which has the handling of the insulin produced under the auspices of the university, said that while from 40 to 50 letters a day were received from various parts of the world inquiring how insulin could be obtained, the laboratory with the limited financial means at its disposal could not produce more than enough at present for 20 patients per day. This recently discovered chemical for the treatment of diabetes is being manufactured by the Connaught Laboratory of Toronto, which is licensed by the university committee to produce it. Dr. P. G. Banting, the discoverer, has turned over to the local university the results of his discovery.

Colonel A. E. Gooderham, chairman of the university committee on insulin, said it was better for governments or public bodies that work under government control to be responsible, so that it would not be simply commercialized and the maximum of good not given to the human race.

With this object in view correspondence was being carried on with the Pasteur Institute in France, with the hope that that notable scientific body would be the medium through which insulin may be obtained in France. In England, the British Medical Research Organization, which he believed was under the government there, was the agency with which the university committee in Toronto hoped to co-operate for the British Isles.

FIRM TONE AT WALL STREET

Specialties Again in Demand and Buying in Some of Usual Leaders.

New York, Jan. 13.—(Opening.)—A firm tone prevailed at the opening of today's stock market. Specialties again were in good demand, but excellent buying also was noted in some of the usual leaders, particularly Baldwin and Studebaker, which were pushed up 1/4 and one point respectively. Postum Cereal advanced 3/4 points, and Endicott-Johnson gained one on speculation.

Expectations of a twenty per cent stock dividend. Gains of a point or more also were scored by Associated Oil and Manati Sugar.

Postum Cereal extended its gain to six points, another new high record. May Department Stores advanced 2 3/4. Other shares to register gains of a point or more in the first half hour were Pan-American A and B, Hartman Corporation, Iron Products, Consolidated Gas, Loose Wilks Biscuit, International Paper, U. S. Hubber, Kelly Springfield and Texas Gulf Sulphur. Ralls showed only fractional gains, some of the active shares being Union Pacific, Canadian Pacific and B. and O. Foreign exchange opened easier.

CHARGES SPIEGEL FORGED \$490,000

Witness at Hearing Tells of Bogus Stock

Banks Loaned \$327,000 — Theatrical Man, Defendant, is Confined in Sanitarium and Family Declare He is Insane.

New York, Jan. 13.—Testifying at a hearing in bankruptcy proceedings against Max Spiegel, theatrical producer, who failed for more than \$1,000,000, Walter Hays, vice-president of the Mitchell H. Mark Realty Corporation, who owns and operates the Strand Theatre and others throughout the U. S., and others throughout the U. S., asserted that Spiegel, as an officer of the company, had issued bogus voting trust certificates for common stock of the company.

He stated that he had been in touch with the proposals for a new hotel in Halifax. His firm had carefully gone over the entire ground, studying the opportunities for business here, and had come to the conclusion which he based very conservatively, that a hotel, approximately of 200 rooms, considering the needs of Halifax, the excellent outlook for tourists and commercial travel, should produce, after all operating expenses had been paid, a net income of at least \$40,000.

Mr. Ketchum's company is prepared to promote such a project, all things being favorable, procure fifty per cent of the cost on mortgage and raise the balance as it ought to be, and were providing what the public wanted and were willing to pay for. The whole business was in that stage where the people were demanding more accommodation and of a more modern type. If one place did not provide it they went to another where such accommodation was procurable.

Mr. Ketchum will give most intimate suggestions regarding many features of the financing and building of such a hotel as is proposed for the North West Arm when he speaks before the Commercial Club today.

In his interview last night he touched upon the value of advertising to a country. For instance, he cited the hotel men of Florida spending \$1,000,000 a year in advertising the resorts of that state, California planning to spend \$10,000,000 in advertising the state before the war, and of the hotel men of every one of the New England States forming state hotel associations, and then bringing them together, while still maintaining their individual existence, into a great New England Hotel Association for the purpose of joint advertising on a continent-wide and international scale.

Value of Advertising. Mr. Ketchum, a state of Vermont, a state of the resources of which are in no way comparable with those of Nova Scotia, has enlisted the aid of a special advertising man. He was to receive a percentage on the increased business which came to them. The increase was so great that they decided to pay their advertiser a flat sum of a neat \$50,000 per annum. The first year after the advertising scheme had been inaugurated, the business of the hotels of Vermont increased 200 per cent.

Asked for his opinion of the North West Arm as a site for a modern hotel for Halifax, Mr. Ketchum said that it was not probable that any hotel promotion company would consider putting a modern hotel in the downtown section of Halifax for several reasons—first, that there were already two hotels in that section; secondly, that it was not an attractive part of the city for visitors, and thirdly, the location proposed for the hotel at the Arm is so close to the centre of the city and the hotel men looked to the bar for their income rather than on the type of accommodation provided; today they sought their income from their rooms, as it ought to be, and were providing what the public wanted and were willing to pay for. The whole business was in that stage where the people were demanding more accommodation and of a more modern type. If one place did not provide it they went to another where such accommodation was procurable.

Glands Used to Restore Hair Growth

Science of Gland Therapy Relieves Baldness—New Treatment Restores Health and Growth.

Baldness in both men and women is generally ascribed by scientists to the "functioning" of endocrine glands. Hair growth is dependent on the secretions of these glands—secretions making possible the formation of those elements in the hair which are vital to a luxuriant growth.

Now it is possible for any bald person to have a full, luxuriant growth of hair through the discovery of E. R. Alexander, nationally known scientist. Dr. Alexander, through the concentration of glands, can supply the deficiency of gland secretions and produce a full growth of hair.

This discovery may be easily used in the privacy of your own home. Within a few weeks you will notice new, vigorous hair beginning to come in and with this growth you can gradually restore your hair to its former bright, healthy color.

So confident is Dr. Alexander that you can be relieved of the embarrassment of baldness and regain the normal hair growth by this method that he offers to send a full \$2.00 treatment on free trial to anyone who will write for it. Use it according to directions, and if at the end of a month you do not find your hair returning with its former vigor, the treatment does not cost a cent.

SEND NO MONEY—just your name and address to Alexander Laboratories, 807 Terminal, Toronto, Ont., and this treatment will be mailed at once. When it arrives pay the postman only \$2 and a few cents postage. Try it according to directions and if at the end of a month you are not more than satisfied with results, your money will be refunded at once. A big bank guarantee that Dr. Alexander is reliable and holds \$1,000 cash as a guarantee to return your money if you wish. Don't suffer the embarrassment of baldness—give the treatment a trial on this liberal offer.

Villa, Bandit Chief, Turns Over New Leaf—Now Peaceful Farmer

miss Esperanza Velasquez Bringas. Mrs. Villa. Francisco Villa and her son Augustin.

Mexico City, Jan. 12.—Such a short time ago that it seems only yesterday, General Pershing was ordered to lead United States troops across the border with the order to "get Villa, dead or alive."

The bandit and outlaw had led a raid on Columbus, New Mexico, which resulted in the deaths of twelve Americans and his depredations in his own country, made him the most hated and feared man in all Mexico.

Today no troops are needed to "locate" Villa. A short ride by train to an inland city, then an automobile trip to Canutillo, and you are greeted by a swarthy, smiling farmer. "Come right in and sit down—we've kept dinner waiting for you."

That's Villa—man of the soil. The former outlaw was recently interviewed at his Canutillo farm home by Miss Esperanza Velasquez Bringas—a twenty-year-old Mexican newspaper woman, quite as if he had been an opera singer, a mind cure wizard, or any other legitimate object of the interviewer's art.

Villa proudly exhibited the school he has built for the children of peons, the swarthy farming community he has built up in a scant two years where before were only mosquito and sage brush—the "Americanized" wife and flock of sturdy, swarthy children.

"Farming," not fighting, is the hope of a country," said Villa.

Miss C. M. Cridland Suffered From Kidney Trouble and Got no Relief Till She Took Dodd's Kidney Pills.

London, Ont., Jan. 12.—(Special).—Miss C. M. Cridland, a well known resident here, states, "I have been troubled with my kidneys for some time. Your Dodd's Kidney Pills did me more good than any other medicine I have ever taken. I think they are a wonderful medicine."

Dodd's Kidney Pills are purely a kidney remedy. They tone up and strengthen weak kidneys and put them in condition to do their full work of straining the impurities out of the blood. Strong healthy kidneys are absolutely necessary if the blood is to be pure and the body healthy.

TRAINER'S LICENSE IS GIVEN BEDWELL

Baltimore, Md., Jan. 12.—H. Guy Bedwell, former trainer for J. K. L. Ross, was granted a trainer's license yesterday by the Maryland Racing Commission. He incurred the displeasure of the commission in 1921 for "conduct prejudicial to the best interests of racing," according to a statement prepared by the commissioners. The real trouble happened in the fall of 1920 when Bedwell and Ross tried to get a jockey's license for Carroll H. Bedwell. He had been the next spring Bedwell and Ross split. Subsequently the former lost his Maryland license.

CROUP AT NIGHT

Need Be Feared No More, Says This Montreal Father

If the child seems croupy, apply Vicks over throat and chest at bedtime. It usually averts a night attack. And if croup comes on without warning, use of Vicks often brings relief in less than fifteen minutes.

Mr. Kelling, of 1106 Newmarch St., Verdun, Montreal, Que., says: "I found Vicks very good for colds on the chest. My boy suffers with croupy cough and rub his chest well with it and I get very good results. It is also good for colds in the head."

SWISS SELL LOCOMOTIVES.

Poland Orders 100 Locomotives to Be Built in Belgium.

Berne, Jan. 12.—The Swiss National Railways have sold to an international syndicate 200 steam locomotives which were withdrawn from service owing to the extended electrification of the Swiss lines. The purchasers, it is understood, intend to sell the engines to other countries, and Russia is reported to have made a bid for fifty of them.

Guard Against "Flu" With Musterole

Influenza, Grippé and Pneumonia usually start with a cold. The moment you get those warning aches, get busy with good old Musterole. Musterole is a counter-irritant that relieves congestion (which is what a cold really is) and stimulates circulation.

SULPHUR CLEARS A PIMPLY SKIN

Apply Sulphur as Told When Your Skin Breaks Out

Any breaking out of the skin on face, neck, arms or body is overcome quickest by applying Mentho-Sulphur. The pimples seem to dry right up and go away, declares a noted skin specialist.

Nothing has ever been found to take the place of sulphur as a pimple remover. It is harmless and inexpensive. Just ask any druggist for a small jar of Rowles Mentho-Sulphur and use it like cream.

DOCTOR CUTS OUT OWN APPENDIX

Sixty Year Old Surgeon Reported to Have Operated on Self for Appendicitis

An Associated Press Dispatch reports that a 60 year old Pennsylvania doctor cut out his own appendix, assisted by a nurse. Several years ago he amputated one of his own fingers.

A Treacherous Disease. Appendicitis attacks at any moment even persons seemingly in good health. Usually, however, it is preceded by so-called stomach trouble, constipation or similar disturbances. Often when there is a warning feeling of uneasiness in the abdomen, appendicitis can be guarded against in exactly the same manner in which one guards against the spread of throat infection, because that is just what appendicitis is—an infection in the intestines spreading to the appendix. When one has sore throat, one can often prevent further trouble and the development of influenza or grippe, by using an antiseptic wash or gargle to fight the germs and a laxative to carry off the poisons from the body. Just exactly the same procedure is necessary to fight the intestinal germs and guard against appendicitis. But, instead of an antiseptic wash for the throat, an INTESTINAL antiseptic is necessary.

Intestinal Antiseptic. There is now offered to the public a preparation having the DOUBLE action of an intestinal antiseptic and a COMPLETE system cleaner. This preparation, known as Adierka, acts as follows: Adierka is a constant surprise to people who have used only ordinary bowel and stomach medicines, on account of its rapid, pleasant and COMPLETE action. It is sold by leading druggists everywhere.

Sold in St. John by J. Benson Mahony, Druggist, 3 and 4 Dock street and other leading druggists.

R. T. HAYES, M.P.P., AGAIN HEAD OF N. B. RED CROSS

Election of Officers at Annual Meeting Yesterday—Reports of Work Accomplished Through the Provinces.

At the afternoon session of the annual meeting of the New Brunswick division of the Canadian Red Cross Society yesterday in the Red Cross depot, the president, R. T. Hayes, gave an opening address. He spoke especially of the benefits for the public health nursing programme and of the money expended for the care of soldiers in hospital. He explained that the provincial branch could not hope for any revenue from the membership drive. Mrs. Scott gave the hospital committee report, telling of the comforts and amusements provided for the soldiers in hospital. The expenses for the year had been \$38,648 and an average of eighty-six patients had been cared for each month.

Mrs. Harold Lawrence testified to the self-sacrificing work of the hospital visitors. As convener of the port committee she told of the appointment of Miss Tremaine by the Central Council to supervise the port work at Quebec, St. John and Halifax for the Red Cross. Miss Tremaine was introduced and gave an impressive account of the work done in receiving the newcomers at the port and in following up their cases by sending forward information. She specially referred to the work of Mrs. A. M. Rowan and her A. D. assistants, the post office operated and the nursery which was managed. The statistics for the three ports since she had taken over her duties had been: 3,200; 3,200; 3,200; 147; children cared for, 5,186; infants, 873; women, 4,830; treatments, 851; follow-up cases, 1,283; pints of free milk provided, 3,200.

Appreciation of Miss Tremaine's work was voiced by Mrs. George F. Smith and Dr. Murray MacLaren spoke of the work of Mrs. Smith who had been one of his nursing sisters. Miss Allison, for the sewing committee reported 823 garments had been made besides twenty-six sweaters and articles of bedding. Supplies were received from hospitals overseas as soon as made and the committee had been busy almost every week cutting out material for relief supplies. Steamer supplies had assisted in making garments. Supplies were very low and she would be glad to send work to any one who would sew.

C. B. Allan reported that a new constitution had been drafted for the provincial division and this was referred to the executive for action. For the committee on supplies, Miss Jessie told of New Brunswick having received its share of the equipment from hospitals overseas and said these supplies were now stored in the health centre. Some of these articles already had been given out and the recipients' names reported.

Branch reports were next presented. Each report was splendid and well prepared. One report of which was given by Mr. Stephen, of which Mrs. Marks is president, was supporting a public health nurse and had received \$903 in its campaign. Chatham, Mrs. Fraser, president, had a public health nurse, was giving special treatment to children and had raised \$1,102.56. Salisbury, Mrs. Brice, president, an auxiliary in connection with the Women's Institute, had enrolled sixty-two members and had been a pageant and had given a special treat to the soldiers in hospital. Riverside had done relief work and sewing and had furnished a room in the local hospital.

In connection with the Riverside hospital, a letter of thanks was read from the secretary acknowledging supplies given by the Society. Miss Allison gave the report of the Rotary branch telling of the care for soldiers in hospital and for sick members; also of the branch having helped the King's County Council to support the public health department of the town. Mrs. Foster, president, had done relief work at the Woodstock hospital, done relief work and contributed to the recreation hut. Milltown, with 292 members, had realized \$622.26 and spent \$877, helping to maintain the public health nurse at St. Stephen. Mrs. Kennedy, president, 122 members, was supporting a public health nurse through the assistance of the local coal companies and the nurse was accomplishing a great amount of good. Killbuck had conducted its own membership drive and had raised \$70.40. It had been a banner branch for sewing and had given much relief. McAdam, Miss Grant, president, supported a membership campaign and was deeply indebted to the public health nurse. Fredericton, the Countess of Ashburnham, president, had helped returned soldiers and their families and gave towards the Christmas treat at River Glade. Campbellton branch had done relief work and had helped the public health nurse and the town was now giving a grant of \$1,000 towards the nurse's salary. Middle Sackville, Mrs. Lawson, president, had cared for local needy and sick and given towards the Christmas comforts of the soldiers. Newcastle, Mrs. C. F. Armstrong, had done relief work especially in case of illness and had helped the Red Cross pageant.

For Riley Brook, Mrs. Gaunce told of the gratitude which the people of the district felt for the Red Cross, which had given them a nurse for one year. She told of the almost pioneer conditions which had hampered work in that district, referring particularly to the transportation difficulties and the distance from medical aid. Centreville reported on work completed. Florenceville had aided the Woodstock hospital and given local relief. For the St. John Red Cross, Mrs. Alfred Morrison reported on the plan to establish workshops for the disabled soldiers and told of the packing of the Christmas boxes sent to the Soldier Settlement. She read three appreciative letters received from those to whom the Christmas boxes had been sent. Officers Elected.

The report of the nominating committee was presented and was adopted as follows: Patron, His Honor the Lieutenant-Governor; president, R. T. Hayes, Esq., M.P.A.; first vice-president, Canon R. A. Armstrong; second vice-president, Mrs. G. F. Smith; third vice-president, Mrs. Alfred Morrison; fourth vice-president, Mrs. Killian; fifth vice-president, the Countess of Ashburnham.

were the hospital at Riverside, Moncton, St. Quentin fire sufferers, Woodstock hospital, V. O. N. training school in St. John, soldiers' hospital at Campbellton, Westfield fire sufferers and the St. John health centre. A request for wooden hospital tables had been received from Dr. H. A. Farris for the board, conveyed thanks to the society for the meeting voted the request be complied with.

Mrs. James P. Robertson, for the Bulletin committee, reported six numbers had been published at a cost of \$267.50 and said the Bulletin had been given as campaign literature, as headquarters had not supplied any this year. The supreme council at Geneva had made complimentary reference to the Bulletin in its report. The Bulletin and the central council had commended Miss Jarvis' article on the campaign. Mrs. Robertson recommended the Bulletin be issued this year and this was agreed to.

For the recreation hut for the Lancaster Hospital F. B. Ellis reported that the committee had received a grant of \$6,911.91 and had been opened last fall. H. O. Clark, the contractor, had given a generous contribution and the architect, W. G. Clark, had furnished the kitchen and verandah. The Women's Canadian Club had started a library. The hut was under the control of the Lancaster Hospital. The committee was much appreciated by the soldier patients.

Reporting for the committee on resolutions, Mr. Allan presented a resolution of regret at the death of Miss Alberta B. Ryan, of Moncton, and of appreciation of her noble life. Associated Organizations. Reports of associated organizations were next presented. A message from Miss Marven, of the Soldier Settlement, thanked the society for assistance given throughout the year in comfort and relief for the families of soldier settlers.

For the patriotic fund, Miss Mary Flett, thanked the society for co-operation. In the last year she had made 108 visits to the families of former soldiers throughout the province; only eighty of these cases were receiving regular aid; others received emergency relief. Mrs. Flett reported that for more hospitals and more nurses. Miss Nutter, as superintendent of the Women's Institutes, told how some of the institutes were operating with the Red Cross Society in sewing for emergency relief and in caring for soldiers in hospital and giving relief to soldiers' families. Five new institutes had been organized, making a total of 104 active institutes in the province.

For the St. John Ambulance Association, Mrs. Smith reported the support of the Association work in training in first aid and in home nursing, expressing appreciation of the assistance of the Red Cross public health nurses in organizing classes. For the St. John Local Council of Women, the president, Mrs. E. Atherton, reported a request for help. She spoke of the national and international scope of the Council and told of its active interest in soldiers dependants and of matters affecting public health and child welfare.

Branch reports. Branch reports were next presented. Each report was splendid and well prepared. One report of which was given by Mr. Stephen, of which Mrs. Marks is president, was supporting a public health nurse and had received \$903 in its campaign. The members were taken to the Lancaster Red Cross hut in a street car specially provided by the New Brunswick Power Company, and at the hut were entertained by Dr. J. A. McCarthy and the members of the Provincial Red Cross committee. The members from outside the city were specially impressed with the Red Cross recreation hut in Lancaster and the new health centre, where they met in the evening. At the close of the evening session refreshments were served and an opportunity was given for an inspection of the building. Mrs. Ethel Jarvis presided at the evening meeting in the absence of Mr. Hayes.

Great Advances Made. Hon. Dr. Roberts was the first speaker and, as Minister of Health, he congratulated the society on the enthusiasm displayed at the annual meeting and presented a report on the progress of the health centre. He said that the health centre had been established, and presented conditions, and showed how the department and the province had been greatly indebted to the Red Cross Society. The general death rate in the last year had been reduced from 184 to 113, and now statistics were kept, baby clinics conducted, V. D. control was organized, laboratory work was carried out, serum deposits opened, public health nurses were at work and traveling clinics were organized.

Through the Red Cross the first training school for public health nurses had been established and the five nurses trained had done a work of incalculable good, the society had given funds to supplement the federal grant so that the fight against V. D. might be carried on. He said that the health centre had been established, and presented conditions, and showed how the department and the province had been greatly indebted to the Red Cross Society. The general death rate in the last year had been reduced from 184 to 113, and now statistics were kept, baby clinics conducted, V. D. control was organized, laboratory work was carried out, serum deposits opened, public health nurses were at work and traveling clinics were organized.

He also made announcements concerning the secretary of public health, to be conducted in the V. D. shortly to be conducted. In reply to Mrs. Elliott, of Sussex, he described how a health centre might be established. He said that the health centre had been established, and presented conditions, and showed how the department and the province had been greatly indebted to the Red Cross Society. The general death rate in the last year had been reduced from 184 to 113, and now statistics were kept, baby clinics conducted, V. D. control was organized, laboratory work was carried out, serum deposits opened, public health nurses were at work and traveling clinics were organized.

Dr. H. A. Farris spoke appreciatively of the work done by the soldiers in the County Hospital and of the \$5,000 received which had enabled the dispensary to keep another nurse. He gave some interesting facts about tuberculosis. He asked the influence and support of the Red Cross in seeing that the families of all soldiers with tuberculosis were cared for. Miss Harriet T. Meiklejohn, director of public health nursing, gave her report. She told of the placing of nurses at Campbellton, Chatham, St. Stephen, Milltown, Riley Brook, Buctouche, McAdam and Minto and of the traveling clinics operating at Buctouche, Riley Brook and Minto. The statistics for the year were as follows:—Home visits, 10,152; bedside visits, 3,810; supervisory visits to school children, 1,131; health talks, 633; school clinics, 113; child welfare visits in the homes, 2,119. She spoke of the possibilities of the health centre as a training place for nurses and warmly thanked the Red Cross for their aid. A vote of thanks was given to the New Brunswick Power Company for the use of their car for the motion of F. B. Ellis and R. T. Hayes.

The outside delegates present at the annual meeting of the Red Cross Society yesterday were as follows: Sussex, Mrs. W. Clark Elliott and Mrs. Lutz; Riverside, Mrs. E. C. Copp and Mrs. Hazel Barbour; Jacques River, Mrs. D. McAllister; St. Stephen, Mrs. DeWolf and Mrs. N. Marks Mills; Florenceville, Mrs. H. McCain; Pettitcodiac, Mrs. H. Magee; McAdam, Miss Grant; Chatham, Mrs. Stuart Loggie; Newcastle, Mrs. Sargeant; Riley Brook, Mrs. Amos Gaunce; Lakeville, Mrs. H. T. Jones and Mrs. Thomas Coleridge; Robesay, Mrs. McMaclean and Mrs. Joseph Henderson; representative of the Women's Institutes, Miss Elizabeth Nutter, of Fredericton.

MAY BE TOTAL WRECK. Word has been received here that the British three-masted schooner Don Parsons was driven ashore yesterday in the blinding snow and wind storm of the Labrador coast. A vote of thanks was given to the New Brunswick Power Company for the use of their car for the motion of F. B. Ellis and R. T. Hayes.
