RECORDER GOFF IS AFTER JEROME

Charges Grand Jury to Investigate Insurance Scandals This Session

Tells Them to Send for District Attorney and Ignore the Fact that a Special Panel Has Been Summoned for Next Month--Roosevelt's Latest Move in Railway Rate Bill Makes Senators Don Their War Paint, and Lively Times are Foreshadowed.

(From Our Own Correspondent.)

New York, April 2.—The acceptance by the president of the amendment to the railroad rate bill, which was introduced into the senate today, has started another stormy clash between Roosevelt and the senators. The amendment was agreed upon at a conference at the White House on Saturday. It provides for a judicial review of the findings of the rate commission in special cases. The new rate bill is a blow at the White House on Saturday. It provides for a judicial review of the findings of the rate commission in special cases. The new rate bill is a blow at the White House on Saturday. It provides for a judicial review of the findings of the rate commission in special cases.

Mr. Roosevelt has justified Senator Knox as badly as he has justified Senator Aldrich. He has thrown a firebrand into an August clearing. He has the whole senate by the ears. Where all was decorum yesterday, all now is confusion and anger. The breakings and bouquets are flying once more. The senate is lining up for the final struggle as to whether the president or the senators shall control. There is more Republican war paint in the national capital than would have served to decorate a national convention in the eighties.

"It is all because of the conference at the White House yesterday, when Mr. Roosevelt, Senators Allison, Delivers, Louis, Cullen and Clapp, Attorney-General Moody, and Commissioners Knapp and Proby agreed on an administration amendment to the rate bill, providing for a limited court review. The president surrendered on the question of having the Hepburn bill amended, but, perhaps unconsciously, used high explosives when he did so.

"The damage to his opponents in the senate may be as great as that which is done by his opponents in the house when the bill, on motion of Senator Aldrich, was placed in the hands of Senator Billman, of South Carolina. The noise has been just as loud, and its demoralizing effect has perhaps been greater.

"Judged purely from a technical standpoint, the president has succeeded in separating Senators Allison, of Iowa, and Aldrich, of Rhode Island, and getting Senator Allison on his side. These two senators wield the greatest individual influence in the senate. Senator Allison has been there thirty-three years, Senator Aldrich twenty-five. Senator Allison is chairman of the committee on appropriations. Senator Aldrich is chairman of the committee on finance.

"The combined influence of these two men can easily sway the senate. They have never been divided on any question approaching in importance that of the railroad rate legislation. But they are carefully divided tonight, and each appears to be doing his best to have the senate adopt the particular form of review amendment he favors."

HILL'S PROJECTS IN CANADIAN WEST CAUSE SERIOUS ALARM, AND ARE OF TRULY MENACING PROPORTIONS

American Railroad Magnate Plans to Gridiron Our Territory With Feeder Lines and Drain the Freight to United States --- Ottawa Discussing a Situation Calculated to Cause Uneasiness Throughout Canada--An Outline of the Situation.

Ottawa, April 2.—(Special)—Increasingly noticeable is the interest being created here over the announcements and rumors respecting the J. J. Hill programme of gridironing the Canadian west with new railroads. At first sight a proposal to build a line from, say, Edmonton to St. Paul via Regina, would seem to carry very little interest to the citizens of St. John, or of Halifax, or to the people of the maritime provinces generally, but a little consideration will put the matter in another light. If the people of the lower provinces are sympathetically interested in the developments and operations of the Grand Trunk Pacific, the Canadian Pacific and the Mackenzie & Mann systems, because of their avowed intention to carry Canadian products to Canadian seaports for shipment, how much more should they be concerned when it is stated that the operations of the Hill lines will divert Canadian Northwest products to Duluth, Buffalo and New York? For these new lines the usual subsidies will be asked from the provincial legislatures and the federal parliament. That, too, is a matter of keen interest to the taxpayers of the maritime provinces.

UPROAR IN PARLIAMENT OVER NATAL EXECUTIONS

Laborites and Irish Nationalists Declare the Shooting of Twelve Assassins a "Bloodthirsty Murder" --- Exciting Debate All Monday Evening.

Pretoria, Natal, April 2.—The twelve natives condemned to death for the murder of policemen during the uprising in February against the collection of the poll tax, the postponement of whose execution led to a dispute between the imperial and colonial governments, were shot this morning. The circumstances leading to the trouble were as follows: A party of police were engaged on February 8 in collecting the native poll tax at Byrne, a town in the Richmond district of Natal. They were ambushed by forty natives and a sub-inspector and a trooper were killed. Twenty natives were arrested and court-martialed. Twelve of them were sentenced to die. The court, composed of the sub-inspector and a trooper, were legally represented. The sentences were confirmed by the governor-in-council. The opponents of the executions contended that the offence was committed before martial law was proclaimed, and therefore the prisoners ought to have been tried by a civil court. The British government precipitate withdrawal from the position which it first took up on the question of the execution of the twelve natives, and the government in behalf of the condemned men to have been both justifiable and necessary.

WILL LIKELY AWARD G. T. P. CONTRACTS TODAY

Ottawa, April 2.—(Special)—The contracts for the Winnipeg and Quebec sections of the Transcontinental Railway will likely be made known tomorrow. It is understood that the section from Quebec west, 150 miles, will go to the Grand Trunk Pacific. The western section from Winnipeg east, 245 miles, will go, as already stated, to J. D. McArthur of Winnipeg. However, until the official announcement is made there can be no certainty on the matter.

ANYONE CAN PUT ALIEN LAW IN MOTION

Ottawa, April 2.—(Special)—Hon. A. B. Aitworth has telegraphed to the Trades and Labor Council of Winnipeg informing that body that any one can put the alien law in motion by laying his information before the attorney general of the province, in whose hands is the administration of justice, so that it is not necessary to send an officer from the department in Ottawa to do this. The Trades and Labor Council asked that an officer should be sent from Ottawa to put the act in force against imported strike breakers.

NO MORE COAL FOR GREEDY DEALERS

Mine Presidents Loud in Their Denunciation of Exorbitant Prices

Mitchell and His Lieutenants in New York Ready for Conference with Magnates Today, but Neither Side will Predict the Outcome--About All the Anthracite Collieries Idle Yesterday, But Little Trouble is Looked for in Bituminous Fields.

New York, April 2.—The eve of the second meeting of the committee representing the anthracite mine workers and their employers finds the situation, so far as the hard coal fields are concerned, unchanged from that disclosed in the communications that have passed between the contending forces and which have been made public. Neither miner nor operator tonight will venture a prediction as to the outcome, as neither party is aware of what the next move of the other will be. Both sides are hopeful, however, and there is a feeling among those vitally interested in the struggle that some way out of the present difficulty will be found. This feeling is based on the fact that each side has only played its first card, and that the real negotiations have not yet begun.

President Mitchell arrived here tonight from Indianapolis, and established headquarters at the Ashland House. He was accompanied by his secretary and Thomas Haggerty, of the Central Pennsylvania district of the miners' union, who is a member of the international executive board. Others who arrived tonight were Presidents Nichols, Fahy and DeWey, and Secretaries Dempsey, Gallagher and Hart, all of the anthracite region. The remaining members of the Shamokin scale committee, to which has been referred the matter of a settlement with the mine owners, will arrive tomorrow.

One Colliery Working Full

None of the district leaders had been quoted as to a situation as shown by the first day's suspension, but they all admitted privately that the utmost harmony prevailed in the region and that rumors that thousands of men would not obey the suspension order have proved groundless. They report that the only colliery working full handed is the Peoples Coal Company's Oxford operation, in the northern field, which is run almost exclusively by non-union men. The charter of the local union at this colliery was annulled some time ago. The washeries that were in operation today employ, the district leaders say, only a small number of men, and they are not well organized.

Tomorrow's meeting between the sub-committee of the miners and the operators of the anthracite region, which is expected to be held at noon, and is expected to be of short duration. It is believed that nothing will be definitely agreed upon. According to information obtained today, the operators are anxious to renew the counter-proposition made to the miners early in March—that is, the continuation for another term of three years of the award of the anthracite strike commission. The operators, it is understood, will not make any extended argument, but will content themselves with calling attention to the reasons they set forth in their reply to the miners' general demands. The miners' representatives to accept the miners' position or even consider it at the present time, but rather expect the union leaders to renew their original demands. If this programme is followed out, an adjournment will probably be taken for twenty-four or forty-eight hours.

Operators Indignant

The conciliatory spirit shown in the first meeting of the two committees is not expected to obtain tomorrow. The operators are indignant over the action of the miners union in forcing a suspension of operations, and from information gathered today it is not unlikely that the miners will be told that their action was "extremist" as President Baer has already told Mr. Mitchell by telegram. The district leaders of the mine workers, in defending their course, say the action of the Shamokin scale committee was justified, that no agreement or contract between the operators and the men existed after midnight Saturday.

Soft Coal Outlook Promising

Indianapolis, Ind., April 2.—Information received at the national headquarters of the United Mine Workers of America tonight indicates that the strike of soft coal miners will not be extended for any length of time, many operators already having expressed a willingness to grant the increased wages asked by the miners' union. As today was a holiday, nothing definite was done to determine the exact status of the situation today occurred at Moores, a small town near Scranton, where John Shepherd, a civil engineer at the consolidated colliery of the Pennsylvania Coal Company, was shot in the hip by Anthony Copiak, a mine worker. Copiak had an argument with a mine guard during which he shot at the latter. The bullet went wild and struck Shepherd, who was standing nearby.

During the day squads of the state constabulary patrolled various sections of the coal region but found no disorder. Indiana—Nearly all operations in the south end of the state and many in the north end will sign the advance wage scale according to the miners; but the operators' chairman says only a few will grant the advance. All mines are idle today.

Ohio—Six coal companies have declared their willingness to pay the 1903 scale. These companies control one-sixth of the total output of the state. A number of other operators have intimated that they may pay the 1903 scale. Ohio executive board of miners' union meets tomorrow to decide whether individual contracts shall be signed. State President Green says he will urge favorable action and probably at least half of the Ohio miners will soon resume operations.

Illinois—Many mines will be in operation tomorrow. Operators all over the state have expressed a willingness to sign the 1903 scale. Illinois operators will meet tomorrow. Western Pennsylvania—Almost all bituminous coal mines in Pennsylvania will grant the 1903 scale and resume operations soon.

Central Pennsylvania—Meetings will be held tomorrow with prospects of favorable settlement. West Virginia—No strike on. Iowa—Operators and miners meet tomorrow with goal prospect of settlement. Kentucky—No strike.

Southwestern district—All the coal mines of Kansas, Missouri, Texas, Arkansas, Indian Territory and Oklahoma are idle, the 25,000 miners having struck. It is expected that numerous operators will sign the scale soon, although some have done so.

DOWIE SHORN OF POWER AND MONEY

Zion's People Take Drastic Action Against the Self-styled Elijah

WIRE HIM THE NEWS

After Transferring All His Property They Tell Him of It and Threaten to Fight Him if He Attempts to Fight--Wife and Son Join in the Meeting.

Chicago, April 2.—John Alexander Dowie, head of the "Christian Catholic Church in Zion," was today deposed as a religious leader, suspended from membership in the church he founded, shorn of his temporal possessions as far as they are located in Zion City, the home of his church, and warned to accept the situation quietly lest worse things befall him.

JOHN ALEX. DOWIE

The first move toward the leadership of Dowie was foreshadowed yesterday when an Overseer Volva, who had been placed in charge of the church, announced that he would no longer accept the orders of Dowie, who had, he declared, grossly mismanaged the house and care of the church. The members of the church, including the wife and son of Dowie, agreed to stand with him.

Mr. Dowie's long and his overthrow was made early today by Overseer Volva, who holds a power of attorney from Dowie. In company with several other officers of the church, Volva hastened to Waukegan, the county seat of Lake county, in which Zion City is situated, and filed a warranty deed, ironing for Alexander Grainger all the real estate held by Dowie in Zion City. He also executed a bill of sale to Deacon Grainger, putting him in possession of all the personal property of Dowie, including his horses and carriages, books and even his bed. Later in the day Grainger conveyed, to Volva, and at nightfall the overseer appointed by Dowie had not only succeeded him as head of the church, but was the holder of all his property as well. The following day he hereby suspended from office all members of the church, and precipitate complete exposure, rebellion, legal proceedings. Your statement of stupendously magnificent financial outlook is extremely foolish in view of the mismanagement of the attorney general of the state. Zion and creditors will be protected at all costs.

Wires the News to Dowie

"Dowie, Ovidland, Jamaica (Mex.) "Telegram received here and Chicago. Practically all, including Cincinnati representatives, endorse Volva's administration. Spokesman's resignation, and Grainger's retention, enthusiastically protesting against your extravagance, hypocrisy, misrepresentation, exaggerations, tyranny and injustices. You are hereby suspended from office and membership for polygamous teachings and other grave charges. See letter. Quickly retire. Further interference will precipitate complete exposure, rebellion, legal proceedings. Your statement of stupendously magnificent financial outlook is extremely foolish in view of the mismanagement of the attorney general of the state. Zion and creditors will be protected at all costs."

Dowie Taught Polygamy

Regarding the polygamous teachings mentioned in the message to Dowie, Overseer Volva declared that he would issue a statement regarding them later when Dowie had been given an opportunity to reply. He said, however, that the teachings had not been public, but were of a private character.

"Will Dowie be received in Zion City if (Continued on page 2.)"

The preliminary consideration there was evidence for a jury, but the amount of money involved being fifty cents was so trifling he would not commit the accused for trial, if bail was forthcoming. Some of the witnesses were prepared to swear that the copper wire alleged to have been sold to junk dealer Meyers was E. C. R. property. Crown Prosecutor Sherren stated that orders had been put to a stealer from the railway, and he was going to stop it. ENTOMBED TWENTY DAYS

13 MINERS RESCUED

STARTLING SEQUEL TO FRENCH DISASTER. Men Taken Out in Terrific Condition—Had Subsisted on Decayed Horse Flesh Amid the Stench of Dead Comrades—Think Others May Be Alive. Lens, France, March 30.—The disaster at the Courrières coal mines had a startling sequel today, when thirteen miners were taken out alive after having endured unspeakable horrors during twenty days of entombment. The story of the survivors, so far as it has been told already, disclosed that they lived for many days on putrid horse meat amid fetid darkness, and in the stench from scores of decaying corpses. The presence of human flesh would speedily have forced the starving men to resort to the last desperate extremity if their rescue had not occurred.

PLAN BIG RIVAL TO THE DOMINION COAL COMPANY

Gloucester Bay, N. S., March 30.—(Special)—There is a report, not officially confirmed, to the effect that the Dominion Coal Company will soon have a rival in the Cape Breton Coal Fields, the plan being to effect a consolidation of the smaller properties under one great centralized management to include all the mines and areas of Cape Breton available and not at present held by the Dominion Coal Company. The moving spirit is said to be the original promoter of the Dominion Coal Co., Henry M. Whitney, who has for some time been in close communication with mine owners. Horace Mayhew, president of the Cape Breton Coal and Iron and Railway Company, has during his trip across from England frequently seen Mr. Whitney and only a few days since was in Boston. The capital of the new company and value of properties is placed in the neighborhood of \$3,000,000. Mr. Mayhew visited Ottawa today in reference to subsidy for a road from Sydney to Louisbourg through Broughton.

Both of the St. John members paid a tribute to the worth of the Acadian pioneers. The suggestion of the part of Dr. Stockton that both Halifax and St. John harbor be nationalized was enthusiastically received. Dr. Stockton was particularly good form and regularly captivated his audience by an eloquent and patriotic effort.

NO FUNDS FOR CHECK, BUT HE BOUGHT THAT WAY

Hugh F. Linden, Insurance Canvasser, Under Arrest After a Lively Sprint Near the Post Office--Had Royal Bank Forms and Had Issued Two Checks for Purchases.

Hugh F. Linden, who claims Moncton as his birthplace and has been working in the insurance business here, is under arrest charged with obtaining goods under the pretence of using checks on the Royal Bank of Canada, in which the bank officials say he has no account.

While on the way up King street, Linden told the police that he is an insurance agent. The only reason he gave for being in the city was to see his father, Mr. Linden, of the Elliot hotel, who he said he came to his home about midnight on Thursday.

Mr. Linden was arrested at the corner of Spring and Winter streets, said last night that Linden owned him, but he gave him a very good name. He said that he had been promised to make any payments he kept his word.

Mr. Linden, who was arrested at the door of the officers stepped back to let Linden enter, then according to Mr. Linden, he availed himself of the opportunity and, quick as a flash, jumped over the fence and ran down the street.

Since the arrest of Hugh F. Linden at the instance of Wilcox Bros. Friday night, it is found that Mr. Coady, John Hamilton, of Wall street, and Thomas Tate, of the corner of Spring and Winter streets, have small checks from Linden.

On the prisoner being searched in central police station, there was found nearly a Royal Bank check book, nearly all used, and a number of loose checks made out for various sums. These were signed with the name Linden, but in the initials differed. In some cases they were "H. F." The one he gave to Messrs. Wilcox was "C. H. Linden." A gold watch and chain were also among the possessions.

WIFE REMARRIED, DIED AT HER FEET

An Enoch Arden Tragedy Enacted in Paris

Ran Away With Singer -- Then After Three Years Husband Repeated and Returned to Ask for Pardon.

Paris, March 29--An Enoch Arden tragedy came to light here yesterday morning when Jacques Briset returned after three years' absence, and on learning from his wife that she had remarried, fell dead at her feet.

Briset ran away to Belgium with a music hall singer three years ago. He took with him a large sum of money, and left his penniless wife the burden of supporting two children.

About a year ago she was informed that her husband had been found dead, with his throat cut, on the Boulevard des Capucines, and her husband's passport and other papers were handed to her.

Soon afterwards M. Courty, a neighbor, advised her to be his wife, and they were married and lived happily together.

While M. Courty was away from home yesterday there was a knock at the door. Mme. Courty went to see who was there, and found a pale thin man, with hair almost white.

Before she could ask what he wanted he fell down on his knees and asked her pardon. In bewilderment the woman asked what there was for pardon, and he told her that he was Briset, her husband.

He said that his life with the music hall singer had been most unhappy, and that soon after leaving home he had fallen into the hands of thieves, who robbed him of his last penny. For the last two days he had eaten nothing.

Mme. Courty gave him food, and while he was eating related the history of the past two years. When she came to the account of her marriage Briset gave a convulsive start, and fell dead at her feet.

Mme. Courty, who had unwittingly committed bigamy, will go through the marriage service a second time with M. Courty after they have both attended Briset's funeral.

DRANK CARBOLIC ACID

Mrs. Michael White Died Saturday--Coroner Decides Inquest Unnecessary.

Mrs. Michael White, a widow aged about fifty years, swallowed carbolic acid Saturday afternoon last and within an hour had passed away. Coroner Berryman said Sunday that he did not consider an inquest necessary.

Mrs. White had lived in Rockland Road and on Friday evening, in apparently good spirits she called at the residence of her friend, Mrs. Stack, of No. 63 Erin street, and remained there through the night. About 1 o'clock Saturday morning, she was found lying on the bed in a dying condition. An empty bottle that had held a couple of ounces of carbolic acid was found by the bedside.

Mrs. White had been summoned, also Rev. F. McDonald, but after their arrival death occurred. It is reported that Mrs. White had been of late mentally affected. The carbolic acid was purchased Friday afternoon in R. B. Travis' drug store, Main street, and the sale is reported on one of the books as "sold to Mrs. White, of Magazine street." A son of deceased is a well known local player.

DR. BERRYMAN'S NEW SYSTEM TO FIGHT WHITE PLAGUE

The New Freeman says that Dr. D. E. Berryman is perfecting a system to revolutionize the treatment of tuberculosis.

He hopes to have his treatment so far perfected as to place it before the New Brunswick Medical Association at its next meeting. Dr. Berryman's invention includes the use of a shield or mask to be placed over the nose and mouth of the patient. This shield is perforated to permit of proper breathing. The shield has a double door, and between the outer and inner door is placed a sponge saturated with the liquid.
