SUSPENDERS.

We are showing a range of these in very fine qualities. We have "The President", "Police and Fireman's", "Samson", etc. PRICES 25c, 35c and 50c. We have also a range of Shoulder Braces at 75c.

BOY'S SWEATERS

Navy blues and Cardinals. Fine English and Canadian makes. PRICES 50c and \$1.00.

RAINPROOF COATS

The right thing for spring and fall overcoat. They come in fawn and oxford grey. PRICE \$9.50 to \$13.50.

WATERPROOF COATS

Grey, Fawn, Black and Blue. Two qualities, \$2.95 and \$6.00.

PATRICK KELLY.

Killed While Working on Landing.

LOG ROLLED.

And Fell on Him Crushing Life From Body—Funeral Saturday.

Lumbering is not considered one of the most hazardous of employments, but if one takes into account the number of deaths that annually occur from the time the men cut down the timber until it is safely stored on board steamers for transport we would be surprised at the number of deaths which do occur from this industry. Hardly a week passes during the spring but we read of some one losing their life either on the drive or more frequently by the premature rolling down of logs on the landings.

An accident of this kind occurred near Bryeston, Derby which resulted in the instant death of Mr. Patrick Kelly of Kellyville.

The deceased and George Bell were employed by the Snowball Company, Chatham in rolling off and rafting logs at the above mentioned place. They had started the brow and all the loose logs had rolled down. They, thinking that all was safe were standing in front of the landing piled high above them, when Bell saw it move and immediately jumped back, calling to Kelly, but he was not quick enough and in trying to escape the now rolling logs he jumped down the embankment, a distance of about twenty feet with the logs closely following and rolled over the unfortunate man, killing him instantly. The logs were removed from the prostrate body and it was tenderly removed to his home from which the funeral took place on Saturday.

Mr. Kelly was about 55 years of age and leaves a wife and family.

STATION MASTER BADLY BEATEN.

Cowardly Assault at North Sydney on Saturday Night.

NORTH SYDNEY, April 13.—Station Master Anslow, of North Sydney junction, while walking along Archibald avenue to the L. C. K. station about 11 o'clock Saturday night, was set upon and badly beaten by Robert Jesse and a man named Almon of George's River, Anslow was struck several heavy blows on the head with a stick and otherwise roughly handled and when he arrived at the station medical attendance was necessary. Jesse was arrested on the charge of assaulting the conductor of a freight train at the junction and fined \$25 and the trouble Saturday night is said to be due to Jesse's desire for revenge on the station master for the part he took in having him brought to justice on that occasion. Jesse is said to have threatened Mr. Anslow several times since. A warrant has been issued for the arrest of both Jesse and Almon, who both made their escape after the assault.—Sydney Record.

The Great Musical Event May 1st.

Seats for the great musical event of May 1st, when the great contralto Madame Clary will be held in Chatham for the first time, open at Shaw's on Friday and as there is sure to be a great demand all who have determined to enjoy the occasion should make early application. Reginald De Koven the great composer says in the New York World. "Never has a finer contralto voice than Clary's been heard in New York. The power and quality of her voice are remarkable. It is one of those contraltos that come along but once in a lifetime. The audience applauded her as though she had just come down from the heavenly choir." Don't miss hearing the most wonderful contralto voice in the world today, another splendid company.

SIR OLIVER MOWAT DEAD.

Passed Peacefully Away Sunday Morning.

TORONTO, April 19.—Sir Oliver Mowat passed peacefully away at 9.45 this morning, all his immediate family being around his bedside, none of them having left Government House since Wednesday midnight.

NEW COUNCIL.

At Last Moment Opposition was Nominating

FOUR CANDIDATES

Filed Their Nominations And C. E. Fish Dropped Out of Old Council

Although it had been more or less talk of opposition to the present Board of Aldermen, it was not thought that it would materialize, but late Friday the papers of Messrs. R. H. Armstrong, J. R. Lawlor, R. L. Maltby and S. W. Miller were filed which with the seven candidates of the former board made eleven, this necessitating an election to be held. The candidates went hard to work and yesterday, polling day was quite exciting, but the best of good order prevailed and the absence of drunkenness was the most pleasing feature.

THE POLL.

Armstrong	195
Hennessey	248
Hickson	223
Lawlor	192
Miller	173
Maltby	163
Pedolin	213
Phinney	242
Ritchie	205
Stables	187
Williston	187

Thus electing Armstrong, Hennessey, Hickson, Lawlor, Pedolin, Phinney, Ritchie and Williston.

The council board will miss both Messrs. Fish and Williston, both these gentlemen were workers and held pronounced views on questions of interest to the town. We trust that the two new members will work to the best interests of the town as we are sure they will.

As there was no opposition to Mayor Morrison, he again takes the reins of power. Arrangements were made for a state funeral by Premier Ross to-day. The body will lie in state in Government House from 2 to 5 p. m. Tuesday and 10.30 to 12.30 Wednesday morning. There will be a short service at the house Wednesday afternoon, and interment will take place at a M. Pleasant cemetery.

WESTWARD HO!

Mr. Joseph Tweedie, second son of the Premier, left Chatham on Tuesday morning for Montreal, where he will remain for a few days, going thence to Manitoba with the intention of eventually going into the business of farming—a pursuit for which he has from early boyhood manifested a decided preference. He was the farmer of the family and did not merely play at the business, but followed it up successfully at home, and the products of his well directed industry in that line were always amongst the best and took high rank at our agricultural exhibitions. He was very popular with all classes of people who could not but recognize his excellent social qualities and sterling character. He was the recipient of quite a number of good bye testimonials from his friends, ranging from the West End Inglewood pipe presentation and camp supper, to the Curling Club address and presentation on Monday evening.—Advocate

LATE REV. G. C. P. PALMER FUNERAL AT CHARLOTTETOWN.

The funeral service of the late Rev. G. C. P. Palmer, who died at Newcastle, Northumberland county, last week, was held in the First Methodist church, Charlottetown, on Monday. The Gardias says. "Five minutes before the service commenced the beautiful strains of "Chopin's Dead March" pealed forth from the organ. Seven clergymen then took their seats on the platform. Rev. G. M. Young read the first hymn, which was sung by the choir. The first lesson was read by Rev. W. B. Thomas, the second lesson by Rev. Thos. Hicks, a prayer by Rev. Mr. McLaughlin, then another hymn, and a short address by the Rev. Mr. Rice, also one by Rev. Mr. McConnell. After singing another hymn the Benediction. As the remains were slowly moved down the aisle, the beautiful "Dead March in Saul" was played by Prof. Watts. The interment was in Sherwood cemetery."

Y. M. C. A.

A meeting of the Executive was held in the rooms of the Association on Friday evening last. Two proposals for membership were accepted. Bill of Geo. Stables was accepted and ordered paid. Several other bills were laid over for explanation, till next meeting. A committee was appointed to renew or procure magazines and literature for the coming year. A committee was also appointed to draw up a resolution of sympathy to be presented to the family of the late Rev. G. C. P. Palmer. Meeting adjourned to meet on Friday, April 24th. As this is an important meeting all members, active and associate, are urged to be present.

LEGISLATORS AT WORK.

FREDERICTON, April 15.—The corporations committee met this morning, Mr King in the chair, and considered several bills.

The bill to incorporate the Kent Northern Railway Company was agreed to, with some minor amendments. This railway runs from Richibucto to the Intercolonial, twenty-seven miles. The road was mortgaged to the Imperial Trust Company of Canada for \$270,000, and was sold under foreclosure on December 19th last to Thomas Ritchie. The purchase price was \$60,000 cash, and Ritchie and his colleagues have since spent \$15,000 in grading and improving the road so it was stated by Mr. H. A. Powell, K. C., who appeared before the committee on behalf of the applicants for incorporation. The latter are John Jardine, Robert Phinney, William N. Carter, Geo. Robertson and Thomas Murray, who have purchased the railway from Mr. Ritchie. The capital stock of the company is \$40,000, with power to bond the road to the extent of \$2,500 per mile. No objection was offered to the passage of the bill.

Strenuous opposition was offered to the Prescott Lumber Company's bill for incorporation. Two petitions against allowing the bill were received, signed by 47 landowners, who claimed that their properties would be damaged or business interests prejudiced by the passage of the bill. Mr. W. B. Jonah appeared in favor of the promoters. He spoke at considerable length. Mr. Jonah claimed that the bill safeguarded the interests of all parties, and pointed out that it provided for the settlement of all disputes by arbitration. In the course of his remarks Mr. Jonah stated that the establishment of a large veneering enterprise at Albert was agreed for the near future. He stated also that a lot of English capital has been put into the enterprise, and one object of the bill is to prevent landowners bringing action at law for damages, but rather to settle disputes by arbitration. Police Magistrate Daniel Stuart, of Riverside, spoke in opposition to the bill. He said that the petitioners against the bill stated that lumber had been driven upon the stream affected for many years, and no trouble had arisen, and to grant the legislation was only to give the Prescotts additional powers, and it is claimed that the Prescotts now exercise author-

ity identical to the other lumber operators. The bill stands over for further consideration.

The Fredericton Boom Company's bill was before the committee, and amendments made as suggested by the lumber operators. The bill for rafting spruce and pine will be 85 cents per thousand superficial feet, and on cedar \$1.50, with a rate of six cents a piece for rafting logs of fifty superficial feet or less measurement. It is proposed to add a section to the bill that the increase tolls shall not come into force until Jan. 2nd, 1904. After some discussion on this section, it was laid over for further consideration and progress on the bill is reported.

The Maritime Christian Missionary Society's incorporation bill passed without opposition.

Several members of the Trappist order are applying for incorporation to conduct an agricultural school and model farm at Rogersville, Northumberland county. The bill was before the corporations committee this morning and was held over. It is proposed to insert a clause limiting the amount of property which the school shall hold, and when the bill enacts shall be exempt from taxation.

A bill introduced by Mr. King proposes to exempt the mills and property of the Flewelling Manufacturing Company, of Hampton, from taxation for a period of 15 years, except county and school rates.

Hon. Mr. McKeown has a bill before the House relating to the Whitaker trusts. The bill cites that the time for the payment of a mortgage of \$14,500 held against property of which James E. Whitaker is trustee expires on May 1st next, and by the bill the time is extended for ten years.

Mr. Burden has introduced a bill at the instance of York County Council to amend the Municipalities Act in so far as it relates to the qualification of voters. It has on several occasions been pointed out at the meeting of the York County Council that the Municipalities Act places a higher qualification for voters for county councillors than is exacted as qualification for voting for members of the House of Assembly, and the bill now introduced gives every person qualified to vote for members of the legislature the right to vote for county councillors.

"MADE IN CANADA."

Miss Pauline Johnson's Poem at the Canadian Manufacturers' Dinner.

At the recent banquet tendered by the local manufacturers of Brantford to the 200 members of the Canadian Manufacturers' Association present, one of the unique features of the affair was the reading of the following original poem by the Mohawk maid, Miss E. Pauline Johnson, entitled:

"Made in Canada." What is the creed and the calling that we of the north uphold? It is never the cry for power, it is never the greed of gold. Let the east and south and west contend, but Canada for the Canadian is the creed that we call our own.

Good wines are at Kaiser Wilhelm's, good cakes are at Uncle Sam's, and in dear old Britain's barbers are the best of plums and jams. But beef and bread, and a blanket, a pipe, a mug and a brew, are the things that we have in Canada; what more can a man desire?

We don't need the maize of Europe, nor the trade of the eastern isles, we don't need the Yankee's corn and wine, nor the Asiatic's saffron. For what so good as our home-made cloth, and under the wide blue dome, will you tell me where you have tasted bread like the bread that is baked at home?

And we are the young and strong, and who so fit for the fight as we?

For a Cold that hangs on

For obstinate coughs and colds there is nothing equal to that old reliable remedy Gray's Syrup of Red Spruce Gum. Prepared from Red Spruce Gum it is soothing and healing to the Lungs and Throat. It stops that tickling in the throat, and after a few doses that tight feeling in the chest is relieved and the cold and cough pass away.

Try a 25 cent bottle.

Gray's Syrup of Red Spruce Gum

A prominent club woman, Mrs. Danforth, of St. Joseph, Mich., tells how she was cured of falling of the womb and its accompanying pains.

"Life looks dark indeed when a woman feels that her strength is slipping away and she has no hopes of ever being restored. Such was my feeling a few months ago when I was afflicted with a falling of the womb, caused by prolapsus of the womb. The words 'falling of the womb' are a terrible thing to a woman. I felt that my sun had set. Lydia E. Pinkham's Vegetable Compound came to my aid. It is a life-giving elixir; it restored the lost forces and built me up until my health returned to me. For four months I took the medicine daily and each dose added health and strength. I am so thankful for the help I obtained through its use."—Mrs. Florence Danforth, 1907 Miles Ave., St. Joseph, Mich.—5000 copies of original of this letter proving genuineness cannot be produced.

The record of Lydia E. Pinkham's Vegetable Compound cannot be equalled by any other medicine in the world.

"FREE MEDICAL ADVICE TO WOMEN." Women would save time and much sickness if they would write to Mrs. Pinkham, Lynn, Mass., for advice as soon as any distressing symptoms appear.

INDISPUTABLE EVIDENCE.

"I was driving through Kings Co., N. S., the other day," said a St. John travelling man, "and at a narrow strip of land my driver drew up his horse a bit to let a market wagon go by. As the double team with its solitary occupant lumbered past us, my man remarked:—'That's Mr. _____, he is one of the shrewdest men in the country.'"

"I said, 'Yes, John, I could have told you that myself, for I saw he was taking home a barrel of Ogilvie's flour, the kind with the purple hoops.'"

Her Only Fault.

While in England Marshall P. Wilder came upon a curious case of conjugal devotion. He had heard that the wife of a certain laborer was not at all devoted to her husband, and that she should be and the daily wages her husband earned by the sweat of his brow were spent by her for liquor rather than for the household necessities. Moved with pity for the poor fellow, who never complained of his wrongs, Wilder put a few odd jobs in his way which paid the man well and also lived up his dull hours with many a funny yarn. One day they happened to talk of domestic quarrels, and then the poor fellow spoke of his own troubles for the first time. "Mr. Wilder," he said, "some say as how my wife doesn't love me, but I know of only one fault that she has: She swears when she's drunk."

A Complicated Process.

This is how a woman in Toronto pays a street car fare: "I saw a woman in a street car one day, and she had a purse, those the satchel and open the purse, take out a ten cent piece and close the purse, open the satchel and put in the purse, close the satchel and lock her keys. Then she gave the coin to the conductor and took five cents in exchange. Then she opened the satchel and took out the purse, closed the satchel and opened the purse, put in the smaller coin, and closed the purse, opened the satchel and put in the purse, closed the satchel and locked both ends. Then she felt to see if her back hair was all right, and it was all right, and she was all right, and just as sweet! That was a woman."

The Torture of Itching Piles

Mr. John Harvey, Mayor of Amherst, Ont., states:—"Only persons who have experienced the torture of itching piles can form any idea of what I suffered from this horrible disease. I was advised to try Dr. Chase's Ointment, and can positively say that it has completely cured me. I tried very many so-called cures for piles, and can truthfully say that there is no remedy on the face of the earth like Dr. Chase's Ointment for this purpose. I would not be without it for any amount of money, and can heartily recommend it to all sufferers, as it is the best thing I ever used."

There are several imitations of Dr. Chase's Ointment, but so far it is the only preparation extant which is a positive and certain cure for piles of every form. You can rely on it absolutely, and it is only a waste of time and money to try substitutes. Go cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Dr. Chase's Ointment

CANADIAN SMOKERS.

Public Men Who Smoke—Reminiscences of Ottawa by One Who Knows—Some Notable Non-Smokers.

The ladies of the Women's Christian Temperance Union's anti-cigarette agitation doubtless felt a thrill of satisfaction the other day when the Prime Minister told them that he was a non-smoker. Yet it was only a few weeks ago that he had been reported as a heavy smoker. It is not necessary to say that the Prime Minister has since the word because he cannot use it. To him belongs no laurel wreath for abstinence. It is rather in the case of those who are in the company of friends, who have been enjoying their cigars, the Prime Minister has often said: "I wish I could enjoy a cigar the way you fellows seem to"—for Sir Wilfrid's language as may be seen in a case of storm, necessity, for Sir Wilfrid has said that in his salad days he tried to do as other men did. He tried to smoke, but the sweet solace was not for him. To put it baldly, it made him ill. Two or three times he essayed to school himself to the use of the greatest anodyne for mental worry that the world knows, or even will know, but Nature stepped in with a veto. Sir Wilfrid's brain is strong, but the internal economy lower down is weak. This incapacity caused him some regret, and occasionally does to this day. In the company of friends, who have been enjoying their cigars, the Prime Minister has often said: "I wish I could enjoy a cigar the way you fellows seem to"—for Sir Wilfrid's language as may be seen in a case of storm, necessity, for Sir Wilfrid has said that in his salad days he tried to do as other men did. ANNOUNCEMENT. In the future the publishers of the Advocate will render all advertising accounts monthly.

The Union Advocate, ESTABLISHED 1867, NEWCASTLE, APRIL 23, 1903.

THE BUDGET.

No Canadian finance minister, since the foundation of the Dominion, has been able to make such agreeable budget speeches as Mr. Fielding. It may be said, it may be the ever flowing tide of prosperity, it may be good management, it may be all of these combined.

Whatever the cause the present finance minister, in opening his budget, has ever a task which he can perform pleasantly and cheerfully. Pleasant and cheerful was his mood on Thursday. In stating the results of last year's financial operations, and the operations for the current year, he shows that last year his surplus was \$7,291,398, a million and a half more than he estimated.

The present year his surplus, comparing ordinary expenditure with ordinary receipts, will be \$13,300,000, so that when he shall have paid \$1,650,999, at which he estimates his expenditures, out of the \$65,000,000 of revenue which he is sure to receive, he will have the sum named. Deducting from that the capital expenditure the net result will be a surplus of revenue over ordinary and capital expenditure for the year of \$5,000,000, and that practically means a reduction to that extent of the public debt.

Twice since his accession to the office which he holds Mr. Fielding has been able to make such an announcement, but his statement for the current year gives a much greater reduction than on the former occasion. In the face of such a financial condition, with the enormous revenue which the country now has, the manufacturers, who have been in an uneasy frame of mind for some time in their desire to get more protection, will take in the situation at a glance. There would be no justification for increased taxes upon the people, therefore there will be practically no change in the tariff.

There may be a ray of hope for them, however, in the particular observation which Mr. Fielding made about Mr. Chamberlain and the fiscal relations which we now maintain with the mother country. Mr. Fielding does not think that Mr. Chamberlain has fully appreciated the advantage to Great Britain of the British preference: the mother country has not met us in any way in that matter, therefore, while the preference remains it is not as truly "free" to our tariff institutions as it might otherwise be.

It is well to remember that the conservative party has never been friendly to the preference, inasmuch as it is established to bring in British goods more cheaply than the goods of other countries, and, by their claim, a disadvantage to our manufacturers. Of course its principle has been to the great body of the people who consume the goods. On general principles, however, it is not desirable and desirable and desirable.

An interesting feature of the Budget Speech, Mr. Fielding's statement on that subject is that the Dominion's ordinary receipts for the year 1902 were \$58,739,914; capital, \$10,757,000; total, \$69,496,914; total expenditure, \$64,196,914; total surplus, \$5,300,000.

To the Editor of the Union Advocate. Dear Sir—

By your kindness, I wish, through the columns of the Advocate, to lay the interests of this Institution before the people of the town.

The M. M. C. A. is engaged in doing a work for the young men of the community which should appeal to their moral and practical sympathy. The objects of the Association are briefly, these:—Prevention, Registration and Development. It seeks, by gathering young men into the rooms, during the six evenings of the week to shield them from temptation and to separate them from all that is degrading. It aims at Restoration by bringing those who wish to "turn over a new leaf" under the influence of better conditions and aims. It has also for its object the Development of the trust and highest manhood by inculcating moral and religious principles as the guide in life.

Seeing that these are (briefly stated) the objects the Association has in view the suggestion which I venture to put before your readers with a view to increasing and extending the efficiency of the Association is this:—that a sufficient sum be guaranteed in ready subscriptions to pay for the rent of the room, so as to leave the fees, collections and proceeds of the entertainments free to extend the work. I think it could in the following way: If fifteen will give \$5 a year each, fifteen give \$2 a year each, and twenty \$1 a year each.

The work of the Association is one that pays morally and spiritually, and as such should connect itself to all who have the welfare of the young men at heart. I leave the suggestion with the Executive of the Association to act upon it if they think well to do so. Yours Truly, C.

DOMINION PARLIAMENT.

OTTAWA, April 16—Hon. W. S. Fielding, Minister of Finance, delivered his seventh budget speech this afternoon. He said he was once more fortunate in being able to submit a statement for a period of unexampled prosperity. The finances for the year 1902-3, which closed since last session, exhibited a gratifying result. The estimate of the budget speech was for a revenue of \$56,800,000, an expenditure of \$51,000,000, and probable surplus of \$5,800,000. The revenue in closing months was so much in excess that the total amounted to \$58,050,790, or \$5,250,790 greater than the previous year. It too often happened that increased revenue was accompanied by increased expenditure, but in this case it was not so. The expenditure was a trifle less than the estimate, and the result was a surplus for the year of \$7,291,398. In the case of the Intercolonial, the earnings for some years past were as follows: 1890, \$2,928,800; 1895, \$2,940,000; 1900, \$4,352,000; 1901, \$4,972,000; 1902, \$5,671,000. For some years the expenditures were: 1890, \$3,481,000; 1895, \$2,950,000; 1900, \$4,421,000; 1901, \$5,460,000; 1902, \$5,574,000. The result of the operations of the Intercolonial proper last year was to give a surplus of \$96,820, but on all the government roads there was a deficit of \$57,000. Coming to the general questions of expenditures, Mr. Fielding gave the following figures for the last two years: 1902, ordinary expenditure on consolidated fund accounts, \$16,896,367; capital expenditure, \$7,695,001; special expenditure, principally on capital accounts, \$4,254,000; total, \$28,845,368. The figures for 1901 were: ordinary expenditure, \$16,896,367; capital, \$7,695,001; special, \$4,254,000; total, \$28,845,368.

LOCAL LEGISLATURE.

FREDERICTON, N. B., April 15—In reply to Mr. Fleming, as to the conditions of the school book contract between the Government and C. Flood & Son's, Mr. Tweedie read the two contracts made between the Board of Education and that firm in June, 1899, and May, 1900. One condition is that the publishers were to call for tenders for printing these books, and if from the tenders it was found they could get such books printed in New Brunswick for not more than 10 per cent. above the price at which they can secure the printing elsewhere in Canada, the books were to be printed in New Brunswick. As to whether the government had taken steps to ascertain if the books could be printed within the province as cheaply as they are obtained at present, Mr. Tweedie answered yes.

He was introduced by Mr. King to authorize the municipality of Kings to exempt the Maritime Packing Company of Sussex from taxation for ten years by Mr. McKewen, to amend the act authorizing St. John's supply water to Lunenburg, to authorize St. John's to supply water to Lunenburg, to amend the act authorizing St. John's to supply water to Lunenburg, and to amend the act authorizing St. John's to supply water to Lunenburg.

Mr. King introduced a resolution to amend the act authorizing St. John's to supply water to Lunenburg, and to amend the act authorizing St. John's to supply water to Lunenburg.

Mr. King introduced a resolution to amend the act authorizing St. John's to supply water to Lunenburg, and to amend the act authorizing St. John's to supply water to Lunenburg.

Mr. King introduced a resolution to amend the act authorizing St. John's to supply water to Lunenburg, and to amend the act authorizing St. John's to supply water to Lunenburg.

Poorly?

"For two years I suffered terribly from dyspepsia, with great depression, and was always feeling poorly. I then tried Ayer's Sarsaparilla, and in one week I was a new man."—John McDonald, Philadelphia, Pa.

Don't forget that it's "Ayer's" Sarsaparilla that will make you strong and hopeful. Don't waste your time and money by trying some other kind. Use the old, tested, tried, and true Ayer's Sarsaparilla. \$1.00 a bottle. All druggists.

Ask your doctor what he thinks of Ayer's Sarsaparilla. He knows all about this grand old family medicine. Follow his advice and we will be satisfied. J. C. Ayer Co., Lowell, Mass.

penditure, \$63,970,790. For the year now closing, Mr. Fielding said, the finances were in an even more satisfactory state. The revenue from July 1 to April 10 last was \$48,348,125.67, an increase over the average for the corresponding period of last year of \$5,178,467.63, and at the close of the year he confidently looked for a total revenue close to, if not actually, \$55,000,000. This would mean an increase of \$7,000,000 over the revenue of the last fiscal year. The expenditure during the current year, up to April 10, was \$32,879,204.95, showing an increase of \$24,023.79 over last year. The minister anticipated that the expenditure at the end of June will amount to \$51,650,000, or \$90,698 more than the last year. It thus follows that at the close of the year, as between the revenue and the expenditure on ordinary account, there would be a surplus of \$13,300,000, a surplus far and away beyond any previous surplus in the financial history of Canada. There were increases in revenue in nearly every branch. The operations of two of the large government departments were referred to by the minister in detail. In the post office department, where there was a deficit of \$700,997 in 1895-6, there was in 1901-2 a deficit of only \$105,000, notwithstanding that in the interval there has been a reduction in the rate of postage and a costly postal service provided for the Yukon and Atlin districts.

Mr. Osmun gave notice of motion with reference to the unhealthy condition of Fredericton in consequence of its lack of sewerage and the prevalence of typhoid fever, and to the necessity which might exist for the removal of the Normal School to a more healthy town.

The bills to incorporate the Maritime Christian Missionary Society, to authorize the municipality of Carleton to assess in aid of the hospital, and to incorporate the Sackville Water and Sewerage Company were agreed to in committee.

Mr. Clark (Charlotte), returning the discussion of the fisheries award, said that in 1880, when this subject was under discussion in the Parliament of Canada, it was shown that if the amount of the award were to be paid over at any time to the provinces they would also have to assume the burden of protecting and developing the fisheries. As New Brunswick is not entitled to interest, the amount of the award if paid over would be from \$750,000 to \$1,000,000, which at four per cent. would yield from \$30,000 to \$40,000 per year. In 1891 the Dominion government expended for the encouragement of New Brunswick fisheries the sum of \$52,000, of which amount there was \$11,879 used in maintaining the cruiser Curlew. This does not include all the expenditure that should be made for maintenance. He expressed his belief that if the responsibility of developing the fisheries were thrown on New Brunswick it would not be wise to insist on the payment of the award. The premier in his manifesto to the electors outlined the policy of the government, and in dealing with the Halifax award showed that in the event of the provinces receiving the money the government would have at its disposal a considerable increased revenue for the maintenance of the various public services. He (Clark) protested against any such disposition of this money. It was awarded by the Halifax commission in compensation for benefits taken away from our fishermen, and should be devoted exclusively to the fishery interests of the province. He moved that the resolution be amended by the addition of the following amendment:

"Provided, that in the event of a decision of the Supreme Court of Canada such proprietary rights and privileges were vested in His Majesty in right of the provinces of Quebec, Nova Scotia, New Brunswick and Prince Edward Island and the colony of Newfoundland and before a final adjustment of such claim the government of the province shall be satisfied by assurance from the government of Canada, or otherwise that the government of Canada will continue, as heretofore, to provide for the due and proper administration, development and protection of the fisheries of the province and that as a result of such final adjustment the burden of the expenditure necessary for such purposes shall not be transferred from the Dominion to the province. And further, that the bounties paid the fishermen under the provisions of the Bounty Act 1891, 54-55 Victoria, chapter 42, shall not be discontinued."

Messrs. Burns, Loggie, Tweedie, Hazen, Morrison, Hill and Pugsley continued the discussion after which Mr. Clark's amendment was voted on, with the following result:

Yeas—Messrs. Hazen, Fleming, Smith, Grimmer, Clark, Morrissey, Glesler, Loggie, Hart and Morrison—10. Nays—Hon. Messrs. Whitehead, Copp, Scott, Jones, Carpenter, Campbell, Loggie, Barnes, King, Ryan, Haddock, Tweedie, Purdy, Young, LaBatine, Burgess, Legers, and Clair—25. The resolution was carried by the same vote reversed.

(Special to the Advocate.) Fredericton, N. B., April 21.—In the legislative hall on motion of Hon. Mr. Tweedie a committee consisting of Hon. Mr. McKewen, Tweedie, Hill and Mr. Hazen was appointed to inquire into the resolution relative to the fisheries award. The committee will report to the House on Friday.

Mr. King introduced a resolution to amend the act authorizing St. John's to supply water to Lunenburg, and to amend the act authorizing St. John's to supply water to Lunenburg.

There NEVER was a tea that in such a short time so thoroughly gained the approval of the people as has VIM TEA. Hardly two years old and in 75 per cent. of the stores in the province.

The Country. An Epitome of Events Gathered by ADVOCATE REPORTERS

UPPER BLACKVILLE.

April 6th, 1903.—Since the scribe who formerly wielded the pen here for the Advocate has crossed the Divide, it is about time that a successor had put in an appearance, so, although an unworthy one, I shall do my best to fill the vacancy and keep the affairs of this part of the County before the readers of the Advocate.

It is needless to mention the state of the weather for it is the same everywhere, cold raw and disagreeable, but if we anticipate the warm days of haying time it makes the burden lighter.

Stream driving or the preparation for it, is of course predominate, and every train finds a crowd of hardy, noisy, smart and able fellows waiting to have a word with "Dan o' Michael."

Quite a number went on Wednesday, a crowd went Thursday and another is to go on Friday so the boys say, we wish them good luck. They are good fellows.

We are glad to be able to repeat that Miss Emma Dumphy has nearly completely recovered her usual health and activity. She is now visiting her sister Mrs. F. J. Comeau, New Baden, Glou. Co.

Mrs. B. F. Donally, Quartz, Mountains, formerly Miss Lucy Donald, of this place, lately arrived here on a visit to her mother, Mrs. Martha Donald.

Miss McDermott who teaches in the Arbeau district, spent Easter at her home in Nelson and Miss Jennie Damphy who teaches at Moran enjoyed it at her home here.

Capt. C. J. Mesereau, Doaktown, preached here on Easter Sunday, and although owing to a misunderstanding, the attendance was unusually small, the service was appreciated by those who were present.

Misses Laura Hygan, Kate Brinnen, Minnie Vickers and Maggie Moran spent Easter at their homes.

Judging by the number of laundries received off the train here business in that line must be flourishing, and the boys seem delighted with the work, and are loud in praise of it.

BATHURST.

The weather all last week, and in fact up to date, has been very disagreeable, and the roads throughout the whole North Shore are reported to be in a very bad state. In this connection, the road commissioner in town seems to have chosen a bad time, both as regards weather and season for covering them with several inches of gravel, which being put on now before the frost is out of the ground will certainly take a larger time than necessary to get beaten down by traffic, and dry up. It may be all for the better in the end but in the meantime some of the principal streets in town will be in a terrible state until well into the summer. It is to be hoped that the promises made by our members, to have the two bridges across the Basin put in repair early this spring will be carried out. They will be worse than they are even now when the ice thaws and the spring rains have cut them up. Although it is true that more public money is spent on the roads and bridges in Gloucester County last year than in any previous year, still they need a great deal of attention and repair. It is to be hoped that the Gloucester County Board of Supervisors will give the roads and bridges the attention they deserve.

while very good land is also found to the north of Bathurst, and back of Pettit Rocher. There is, we are informed, a splendid track of farming land somewhere between the heads of Pabineau and Little Rivers, a district which has not been all opened up. If this is a fact there should be a road opened to it, and it should be laid off by a surveyor in lots for farming. We think if this were done there is not much doubt that it might soon be taken up by some of our young men. We suppose it would be useless to ask why the hat thousands and thousands of grants are constantly landing at St. John to be rushed to the West, while a large part of the maritime provinces pay the greater portion of the cost, none of them as yet ever brought here. We have heard farmers who have been in the great West say that giving the same amount of capital invested in good farm land in New Brunswick as the average farmer puts into his western farm, and his chances of making money are just as good if not better here than in the West. Of course for a very large investment in a great wheat farm in the West, the advantages are with the West, but for the small farmer, perhaps New Brunswick would be a better place to settle. The tide of emigration, however, will stream to the West as long as there is land to be taken up, we suppose. It was always the rule and will continue to be.

This time last year our harbor of Bathurst was clear of ice, but though it is pretty shaky looking, we are sorry to say it hangs on this year yet. The cold east wind caused, no doubt, by quantities of ice in the gulf, is against us this year. Last spring we had very heavy freshets in March, and very little east wind, and the consequence was an early spring. Strange to say, however, we were not much further ahead in the end, as summer weather and seeding were considerably delayed by one thing or another; and perhaps the farmers will be just as far ahead this year.

Considerable quantities of spring herring were taken along the coast last week. These pretty little fish are always the first to be seen in spring. It will soon be time for the lobster traps to be out we suppose.

The liquor License Commissioners held a meeting at Bathurst last week and considerable interest was manifested in their deliberations by parties in different parts of the county.

A great number of the people of the parish of Beresford appear to be opposed to allowing any licences at all in that parish—and there seems to be a strong feeling of the same kind in Bathurst village.—We are afraid that as long as liquor is sold in Gloucester county at all, it will be sold in these districts, and if it is sold at all it had better be in the hands of licensed men who will be under some kind of control. At the same time if a majority of the people in a district are actually opposed to granting a license in the district their wishes should certainly have sufficient right with the commissioners to prevent a license being granted.

A number of young ladies and children trained by Mrs. J. P. Byrnes and Sister Flavie of the congregation at Bathurst gave a very enjoyable concert in the Masonic Hall, Bathurst, on Friday night last. The entertainment was in the nature of an operetta called Cinderella in Flowerland, and some of the costumes of the children were very pretty, while the singing and acting reflected great credit on both teachers and performers. We understand they realized about \$20 which will be devoted toward the purchase of books for a library.

The first time operations at the corner of King and St. George's streets have commenced during the week by four men, but owing to the presence of a large number of spectators, the machinery was not put to work until late in the afternoon. Their new work is to excavate the old well at the corner of King and St. George's streets.

A Bad Breath

A bad breath means a bad stomach, a bad digestion, a bad liver. Ayer's Pills are liver pills. They cure constipation, biliousness, dyspepsia, sick headache.

You may give a heliotrope, and not a very large plant, as much water as you give a geranium and think you are giving all that is required. Your plant will fail to make a vigorous and healthy growth because it is not moist enough at the roots. Examine it, and you will find that the tiny roots have extracted the moisture almost wholly. If not given more water at once, some of the young and delicate roots are injured, and the plant takes on a diseased condition, from which it often never recovers. Do not get the idea that the soil in which heliotropes are grown ought to be kept wet. Not at all. But because it requires more moisture than many plants, because it extracts more rapidly from the soil, water should be given oftener to keep the soil in the proper condition.

The Final Straw. A story is told of a rustic who, after snoring too freely, fell asleep by the wayside. The day was hot, and a swarm of flies settled on his face and proceeded to make his sleep anything but pleasant. In a little while a few mosquitoes came along to add their torture to that of the flies. Of course the man woke up after repeated attacks by the combined forces and vainly tried to brush them away. Finally along came a big wasp and stung him on the nose. "Now, for that you can all get off," he said.

The Discovery of the Fork. Some believe that the fork was in use all over Europe as early as the year 500 A. D., but if they were their use and the fork itself were lost sight of up to about the beginning of the seventeenth century, when it was either discovered or rediscovered and popularized. Walton, Weems and other antiquarians hold to the earlier date, because a stone vessel containing coins of the middle ages and some iron forks was found at Sevington, England, in the year 1334.

MARY LOUISE CLARY. The greatest Contralto voice in America supported by Mrs. F. G. Spencer, Soprano, Mr. J. A. Kelley Tenor and Miss Mary McCarty Pianist, will appear in a Grand Concert in Masonic Hall, Chatham, on FRIDAY EVENING MAY, 1st. This will be the greatest musical treat of this season and a rare opportunity of hearing one of the most wonderful contralto singers of the world. Reserved Chair seats at Shaw's Theatre. A special arrangement will be made to accommodate patrons in Newcastle and Ponginstown.

Had Enough of Law.
A gentleman who is now general superintendent of a railroad began life by trying to practice law in a Missouri village. One of his first cases was before his father, who was a justice of the peace. After a stormy wrangle between the young attorney and his adversary, the old gentleman decided the case against his son's client. The young man gave vent to some expressions of indignation, gathered up his books and started to leave the room. His father pushed his spectacles on to his forehead and began mildly to lecture him, saying: "Young man, do you expect to make your living practicing law?"

The son, who had by this time reached the door, shouted back as he retired from the field: "Not before such a blamed fool court as this."

He abandoned the law and engaged in railroading with great success.

A Bluff That Worked.
Peter Newell, the artist, was camping out in Colorado at the time, living in a tent. News came of a nocturnal murder in the neighborhood, and considerable uneasiness was manifested by some members of the family. Mr. Newell thereupon cut out some silhouettes representing men of the roughest western type, all with pistols in their belts and in the attitude of men intensely interested in a game of poker. The silhouettes Mr. Newell fastened to the inner canvas of the tent. At night the family, stepping outside into the darkness to view the result, were entranced with its success. The shadows thrown from the silhouettes in the lighted interior indicated a tent filled with poker playing, pistol shooting desperadoes. Thereafter the Newell family slept in pastoral peace.

What Is in a Name?
Once upon a time there was a creditor to a large amount whose debtor constantly refused payment. The creditor became impatient and after investigation found that the debtor lived in a better house than he did, dressed better, clothed his wife in silks, satins and laces and spent dollars where he, the creditor, spent cents. Then he was wroth.

"I will sue the wealthy debtor," he said, "and collect what is owing me."

He brought suit and disclosed a large amount of valuable property; but, alas, it was all in the name of the debtor's wife, and he got not a single cent.

Moral.—There is often a great deal in a name.

Finished the Text.
Apropos of mottoes on houses, a correspondent of the Westminster Gazette relates that a man in Scotland wished to have cut over the door of a new house the text, "My house shall be called a house of prayer." He left the workmen to carry out his wishes during his absence, and on his return his horror was great to find the quotation completed, "But ye have made it a den of thieves." "We had a wee thing mair room, ye see, so we just pit in the end o' the verse," was the explanation given by the Bible loving Scot.

Pipes and Hymns.
Rev. Dr. Parr, when perpetual curate of Hatton, Warwickshire, which living he held from 1783 to 1790, regularly smoked in the vestry while the congregation was singing long hymns, chosen for the purpose, immediately before the sermon. The doctor was wont to exclaim, "My people like long hymns, but I prefer a long pipe."—London Telegraph.

Unselfish.
"Widowhood makes a woman unselfish."
"Why so?"
"Because she ceases to look out for No. 1 and begins to look out for No. 2."

A Henpecked Husband.
Meekton—Do you know how to govern your wife?
Henpeck—Yes, but she won't let me.

Many a fool man casts a shadow of his life by standing in his own light.

The horse is man's best friend—except those at the race track.

ABSOLUTE SECURITY.

Dr. Chase's Kidney-Liver Pills are sold by all druggists and dealers in medicine.

TRADE WITH CANADA.

NEW ZEALAND AS SELLER AND BUYER TO AND FROM DOMINION.

Representative of the Canadian Manufacturers' Association in the Island Colony Has Indicated Lines in Which Mutual Benefit Would Occur in Trade—Canada Can Compete With United States to New Zealand's Advantage.

Mr. T. de Schryver, who has taken up his headquarters for the time being at Auckland, as representative of the Canadian Manufacturers' Association, is at present on a visit to Christchurch, says the Christchurch, New Zealand, Press. In the course of an interview yesterday a representative of The Press obtained some interesting information regarding trade relations between Canada and New Zealand. The association Mr. de Schryver represents is a very powerful one, and one of its greatest objects is to develop manufacturing enterprises, and as he expressed himself, "I am representing in New Zealand all Canadian manufactures which have no direct representation of their own in this colony."

Canada, he went on to say, had much in common with New Zealand, and while supplying the latter country with many articles of commerce could take much from New Zealand in return. It was, he thought, a duty that one part of the Empire owed to another part to assist it and take its goods in exchange in preference to dealing with foreign countries, when the conditions were equal. He maintained that Canada absolutely filled the bill in this respect with regard to New Zealand, in that she could send us the lines we are now getting from the United States and the Continent of Europe at equally low, if not lower, prices, and that the articles supplied would in all cases equal the goods sent from the foreign countries, and in most instances be superior. This was business, and altogether apart from sentiment. What the Canadian manufacturers desired was to find out suitable lines to supply and to purchase, and he was now looking out for suitable agents for Canadian manufacturers throughout New Zealand.

"I am not here alone to sell for Canada, but to buy also," said Mr. de Schryver, and went on to enumerate the lines which he thought it expedient to export to the Dominion, specially referring to fax, mutton casings, mutton tallow, sheepskins (raw and tanned), and kauri gum. Only the other day arrangements had been made with one of Dunedin's principal firms to introduce its lines through the association in Canada, and the trade, it was hoped, would grow by leaps and bounds. It was quite a fallacy in trade to believe that in every instance price was the only ruling factor, and this was practically proved by the fact that McLeaven's Imperial Cheese Company of Toronto found a good market here for their wares. There was not the slightest doubt that New Zealand woolen goods (particularly blankets and rugs) would sell well in Canada, where there was a large wealthy class who would not care what they paid for the best article and the article that suited.

Canada could send direct to New Zealand canned vegetables, biscuits, lace, hosiery, all of these lines in competition with the United States, and canned fish from the factories of Nova Scotia in the east to British Columbia in the west. Last year the Dominion exported canned fish to Australia to the value of \$2,227,000, and to the United States \$2,598,926 worth. It was reasonable to presume that a large proportion of this found its way to New Zealand, and other British colonies and American goods, the lines which New Zealand trade direct with Canada, and save the middle profit.

Canada, with her up-to-date appliances, was easily able to compete with the States in the manufacture of paper, and he had proof of this fact in the fact that she was now sending annually paper pulp to the value of \$2,000,000 into the United States. These figures show largely imported to New Zealand from America could be just as well obtained from the Dominion, the latter's bicycles were equal to any in the market for quality and sold at competitive prices. In agricultural implements New Zealand had yet to be beaten, and another was one of her principal exports. In textiles Canada was able to send her manufactures to the Dominion, and the latter's bicycles could be just as well obtained from the Dominion, the latter's bicycles were equal to any in the market for quality and sold at competitive prices. In agricultural implements New Zealand had yet to be beaten, and another was one of her principal exports. In textiles Canada was able to send her manufactures to the Dominion, and the latter's bicycles could be just as well obtained from the Dominion, the latter's bicycles were equal to any in the market for quality and sold at competitive prices.

Severe Pains in Left Kidney.

Mr. Ellis Gallant, Pagetville, Gloucester Co., N. B., writes: "I feel it my duty to write you, as I have received much benefit from the use of Dr. Chase's Kidney-Liver Pills. I was taken three years ago with a pain just below the ribs of the left side, and right over the kidney. At first it did not seem to me much suffering, but a year ago the pain, at times, was very severe."

"After hearing repeatedly of the value of Dr. Chase's Kidney-Liver Pills, I decided to make a trial, and after using two boxes the pain had completely disappeared and I am well, thanks to this remedy. I have also used Dr. Chase's Ointment, and found it worth its weight in gold. You may publish this letter if you like, as it may induce some other sufferer to profit by my experience."

You cannot possibly make a mistake in using Dr. Chase's Kidney-Liver Pills for derangements of the kidneys, liver and bowels. It has proven itself worthy of the most hearty endorsement of thousands of people. One pill a dose, 25 cents a box, at all dealers, or Edmansson, Bates & Co., Toronto.

Dr. Chase's Kidney-Liver Pills

Vapo-Cresolene.

Established 1877.

Cures What You Suffer

It cures because the air rendered strongly antiseptic is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is invaluable to mothers with small children.

Is a boon to asthmatics.

—FOR—

Whooping Cough, Bronchitis, Croup, Coughs, Catarrh, Colds, Grippe and Hay Fever.

The Vapo-Cresolene is a simple, safe, and effective remedy, which should be kept in every household. It is sold in bottles of 25 cents and 50 cents. Write for descriptive booklet containing highest testimonials as to its value.

VAPOR-CRESCOLINE IS SOLD BY DRUGGISTS EVERYWHERE.

Vapo-Cresolene Co.
110 Fulton Street, New York.
157 Notre Dame Street, Montreal.

FIXED DATES IN RUSSIA.

They Rule Even in Simple Things With Absolute Tyranny.

Routine is exceedingly strong in Russia. There is a day in June upon which, says tradition, it becomes safe to bathe in the rivers after the winter freeze. No matter how warm the water may be earlier, no matter how cold it may be on that day, then is the time to take the first swim. Other fixed dates are mentioned in "Ivan at Home" by Herbert Barry. Of course the statements do not apply to all Russians, but to the average peasant only.

Old King Cole.
Old King Cole, who was such a merry old soul, existed elsewhere than in the imagination of the nursery rhyme author. For he actually reigned in Britain in the third century and was a brave and popular man.

Spurs of a Fowl.
If the spurs of a fowl are sore than a quarter of an inch long, or if they have been chopped off, it is more likely than not a sign that the bird is old.

Shaping a Cork.
To reduce the size of a cork, cut a wedge out of it or, if need be, two wedges taken at right angles.

The Evil Eye in Abyssinia.
The Abyssinian has a singular superstition regarding eating in the open. To him a fit of indigestion from overfeeding would mean the evil eye. He would feel assured that some part of his performance of appeasing his appetite had been observed.

Mercenary.
Sue—So you are going to marry Cholby Sportless. On what grounds do you base your belief that he really loves you?
Nan—On what grounds? On his real estate, of course.

Grief is the agony of an instant. The intelligence of grief is the blunder of a too—Disraeli.

Barless Spinners.
Although bars were first manufactured in England by Spaniards as far back as 1570, there are parts of Spain where the bar is unknown except in pictures. The men, when they need a covering, tie up their heads, and the women use flowers.

Horse Food.
As a man grows tired of the same food day after day, so does a horse. He appreciates a change of diet and is in every way better for having it.

Ears That Wagged.
Scientists assert that early man used to be able to wag his ears as an indication of pleasure, or to brush away flies from under his back hair, but as the muscles were not brought into continual use they became rudimentary.

A Long Street.
Broadway, in St. Louis, is the longest street in the world; length twenty miles.

Coke and Charcoal.
Coke makes the hottest fire known, since it contains 97 1/2 per cent of carbon. Charcoal made from wood is supposed to be nearly pure carbon, but it contains only 79 per cent.

Trousers in Mexico.
Suspenders are practically an unknown article of use among men in Mexico. Trousers are suspended by belts, or, more commonly among the lower classes, by a long sash that is wound, not about the waist line, but the hips, so that it is plainly visible below a vest, if such an article of apparel is worn.

The Wood We Consume.
The total wood consumption of the United States is 25,000,000,000 cubic feet, of which 7,000,000,000 cubic feet are in logs.

Snakes With Legs.
Pythons and boas commonly exhibit rudiments of hind limbs, which appear in the shape of a pair of small hooks or spurs, visible on the under surface of the hinder end of the body.

Santa Claus.
Santa Claus is simply a corruption of Santa Nikolaas, the Dutch for Nicholas, and is the modern name for that saint, whose kindness to children gave rise to all sorts of wild stories, transforming him from a real into a legendary character.

Lucky Black Hatred Children.
In Devonshire, England, it is thought to be an unlucky omen to have a red haired person to first enter the house on New Year's day. Accordingly black haired lads and lasses make the rounds of the neighborhood and are rewarded with presents for their trouble.

The British Coast.
The most dangerous part of the British coast is between Flamborough Head and the North Foreland. Next comes that between Anglesea and the Mull of Cantyre.

Raising Ducks.
Ducks are easy and profitable to handle, but it is always good economy to keep only one of the larger breeds, like Pekin, Rouen or Aylesbury. One advantage with the white breeds is that their feathers are worth the most in market.

Rabbits.
The finest rabbits come from Indiana and Michigan.

West Indian Delicacies.
The negroes of the West Indies eat baked, fried and boiled snakes of all kinds, to say nothing of their feasts of palm worms and smaller insects and "wiggers."

A Point in Law.
One frightening a woman so as to cause nervous prostration by stealthily entering her home in the nighttime and committing a trespass on her husband's property is held in Watson versus Dilts (Iowa), 57 L. R. A. 559, to be liable to her in damages therefor.

Mercury.
Edward Halley introduced mercury as the liquid for use in thermometers in 1680.

Snakes With Legs.
Pythons and boas commonly exhibit rudiments of hind limbs, which appear in the shape of a pair of small hooks or spurs, visible on the under surface of the hinder end of the body.

Santa Claus.
Santa Claus is simply a corruption of Santa Nikolaas, the Dutch for Nicholas, and is the modern name for that saint, whose kindness to children gave rise to all sorts of wild stories, transforming him from a real into a legendary character.

Know a Good One

There is skill and Skilled machinery required in the making of a wheel—

Our wheel is made from tested material by artizans of acknowledge ability with automatic machines.

Every bolt every spoke, receives such delicate attention as might be lavished on a watch wheel. All this makes the

GATES' Acadian Liniment

IS A NEVER FAILING SPECIFIC FOR PAIN AND Cure For Injuries.

Modern science has shown the danger of a wound of any kind becoming infected with bacteria. They float in the air and readily enter any abrasion or inflamed portion of the body often causing dangerous results. Hence the importance in modern surgery of an immediate application of some disinfectant. Nothing will be found superior to Gates' Acadian Liniment for this use. A bottle should be kept constantly in the house ready for instant application. Its frequent use and great benefit will soon demonstrate its value to the possessor. Twenty five cents will make the trial. Do not wait. Try it now.

SPRING

By MICHAEL WHELAN.
Thank God for the moment when the winter goes,
When we say farewell to the frost and snow,
When the buds spring forth and the sweet birds sing,
Thank God for Spring.

When the earth from its ice bands is breaking free,
And the rivers rush to the sounding sea,
When the rounding note of the robins rings,
Thank God for Spring.

When the earth is donning her robe of green
And the sun smiles down on the lovely scene,
When Life and Love are in everything,
Thank God for Spring.

Rensselaer River, N. B., April, 1903.

Board of Trade meets next Monday night.

The Orange and C. M. B. A. bands were out celebrating last night.

A large number of water and sewerage connections are being made.

Small shoes for small people at small prices at McMillans Shoe Store.

Old newspapers twenty five cents a hundred at the Advocate office.

Our stock of paper bags is now complete in all sizes from 1 lb. to 20 lb.—200,000 just received.

The S. S. Alexandra is making regular trips, four each day, between Chatham and Newcastle.

Toilet paper—ten cases just received—8-10, 13 cents a roll or package. Special prices by dozen or case. Anslow Bros.

One of the best assortment of Ladies and Children's walking hats is to be seen in J. D. Creaghan's show window.

Send us 50 cents and have the Advocate sent to your address until Jan. 1st, 1904. This is the best offer yet. Try it. Tell your friends about it.

J. D. Creaghan is making special showing this season of lace Curtains and Curtain Muslins. It would pay intending purchasers to call and see his stock before buying.

Our boots are all right—right on the inside as well as out—right in style, in stock and in finish and also right in price. McMillans Shoe Store.

The gasoline launch John W. of Miller-ton was down Monday. She is the first craft, except the M. S. N. Co. steamer to visit Newcastle this season.

Demers Grocery was illuminated Saturday night and was much admired by citizens. The Auer light has been installed which gives such a clear, soft light and it more than favorably compares with the stores which are lighted by electricity.

Preparations are being made for stream driving but the cold weather has made the commencement impossible. There is still plenty of snow in the woods and a warm rain will send the logs humming boomward.

On Sunday morning next the Rev. A. F. Brown will preach in the Baptist church at 11 o'clock. Subject, "Water in Abundance." Evening at 7 o'clock "How far can we go into the Pleasures of this world without sinning against God."

Fred Goodspeed, who was committed to the Industrial Home for being implicated in the Doherty murder made an attempt to escape Thursday night, but was caught in the act. It is said that his influence over the other boys is demoralizing.

Jas. Fallon met with a painful accident while working on the waterworks connections. He was using a long bar when he brought it down with force on his foot making a painful wound. He will be laid up for a few weeks.

WATER PIPING

AND SEWERAGE.

The undersigned wishes to inform the public that he is prepared to do work of this kind in a thorough and workmanlike manner.

Part of our consignment of Pipe, Sinks and Pipe Fittings is to hand and the balance expected every day.

Leave your order and have your work done right.

F. MASSON.

The ice is still solid in Miramichi Bay and also in the Northwest Miramichi.

Mr. James Troy with his brother, Mr. P. Troy of Dalhousie have the contract to build a large convent at that place.

The light ship will be taken to Chatham this year for repairs. She will be hauled out on the marine slip.

The annual meeting of the members of the Newcastle and Douglstown Mechanics Institute will be held at their building on Wednesday evening, April 22, for the purpose of electing officers and transacting other business. Meeting at 8 o'clock. All who are not already members are invited to attend and join the institution.

WANTED—Use hundred or more subscribers to the Advocate for the balance of the year at 50 cents. Send it to your friends abroad, they will appreciate it. The paper will be discontinued when the time paid for expires. Subscriptions to England, Scotland and Ireland accepted at this rate. This offer is for new subs. only.

Amherst News: James McCarron was brought to Amherst Thursday from Springhill by policeman Smith to serve a sentence imposed by Stipendiary Hunter, on two convictions, one of eighteen days in jail, for going into the mines on Sunday afternoon when under the influence of liquor and refusing to go out, the other for assaulting Arthur Cook, a Springhill man, for which he got sixty days. McCarron was one of the men arrested at Newcastle, N. B., on a charge of shooting at an I. C. R. conductor. He was acquitted on that charge.

The Dolly Sale in St. Andrew's Sunday School Hall, under the auspices of St. Andrew's Guild was a complete success. A charge of 25c. was made at the entrance which entitled the purchasers to a ticket inside, numbered to correspond with the numbers on the dolly, a hundred of which were daintily arranged on colored papers and pinned to a large white sheet hung on the wall. Tea, coffee, cake and sandwiches were served to the company. The admission was over a hundred and the proceeds \$37.50. A very pleasant and enjoyable afternoon was spent.

Lord's Day Alliance.

Rev. J. G. Shearer, General Secretary of the Lord's Day Alliance for Canada, preached in the Methodist Church on Sunday morning. In the afternoon Mr. Shearer addressed a mass meeting in the Presbyterian church. There was a large audience present. Mr. Shearer is full of enthusiasm and a very pleasing speaker. At the close of the meeting 51 persons handed in their names as members of the Alliance.

The conference in the Y. M. C. A. Rooms on Monday was not largely attended but quite representative. A number from Chatham as well as from town were present. The chief business transacted was the formation of a county executive of which Rev. T. H. Cuthbert is president, and Rev. A. F. Brown, Secretary. The purpose of this committee is to have a general oversight of the county, to visit outlying districts where Branches may be formed, etc.

Mr. Shearer addressed the meeting on the importance of this work and necessity of being thoroughly organized all over the country. He also gave a large amount of information as to the best way of carrying on the work.

SCOTT ACT.

Mrs. Catherine Fitzpatrick was before Judge Niven for violation of the C. T. Act on Thursday, April 9th, and was convicted and fined \$50 and costs.

JOHN MENZIES,

Inspector.

WANTED.

Four capable girls to learn the dressmaking. Apply to Miss M. Ingram, milliner and dressmaker. The JAS. O. FISH store.

MILLINERY.

After a very successful Opening we are now prepared with a full line of Millinery to take orders for hats or bonnets.
