## OUR SAINT JOHN LETTER.

Special Correspondence to the Union Advocate from the Commercial Metropolis.

### GLEANER FOR ST. JOHN.

Big Winter Port Business so Far—Political Gossip.

St. John, March 4.—The topic of paramount interest in the New Brunswick metropolis at present is the appointment of Hon. L. J. Tweedie to the gubernatorial chair and the probable elevation of Hon. William Pugsley to the position of Premier of New Brunswick.

Although Dr. Pugsley's elevation to the position which will be vacated by Hon. L. J. Tweedie when he takes the oath has not yet been officially announced, yet it is certain that the mantle of Lemuel will fall upon William.

That Dr. Pugsley as Premier of New Brunswick would be satisfactory to St. John is a surety, but rumor here has it that his occupancy of that office may be brief. So it is "doped out" by those who profess to know. Dr. Pugsley is to become premier and hold that office until the next federal election when he is said to be slated for a nomination in Kings and Albert in opposition to the present member, George W. Fowler. The wise ones carry the story further and say that if Dr. Pugsley is elected he will be taken into the Dominion cabinet at the first opportunity.

St. John is somewhat agitated just now by the fear that it will lose some of its winter port business. Two steamship sailings from this port have already been cancelled and the agents aver that this course has been taken because of the scarcity of cargo here. On the surface this would seem to put it up to the C. P. R. but the officials of that company claim that the cargo shortage is due to the exceptionally bad weather conditions prevailing in the west this winter. Many hundreds of tons of freight and many thousands of bushels of wheat are held up in the west awaiting shipment to this port and the railway people claim that for the balance of the season there will be no lack of cargo for all the steamers that come here.

Up to Saturday, Feb. 23, to which date statistics have been compiled, the value of exports through this port amounted to \$10,975,835, of which \$7,426,485 was Canadian goods and \$3,549,350 was from the United States. Seventy-one steamers have arrived and sailed this season with a net tonnage of 280,520 against sixty-one steamers with a tonnage of 203,449 last year. During the season employment is given to probably 1000 men and at least \$15,000 per week is put into circulation here.

The Canadian Club, which was recently organized here, will hold its first dinner to-morrow night, March 8th, when the speaker of the evening will be Dr. George R. John, the noted educationist and commissioner of the Cecil Rhodes scholarship fund. It is the intention of the club to hold monthly dinners at which noted men will be invited to speak and it is hoped that James Bryce, the new British ambassador at Washington may come at a later date.

Thomas E. Powers, B. A., of the St. John High School staff is ill at his home here. Mr. Powers was

## TRAIN ROBBERY IN PENNSYLVANIA.

Two men shot, but Only a Small Booty Obtained.

(Special to the Advocate.)  
Pittsburg, Pa., March 5.—The Missouri-Pacific passenger train, which left here at 7:30 this morning was held up by two daring men in disguise. Sam Jeff, colored miner, who protested against the highhanded action, was shot and killed. J. Westlake of Toledo was shot through the hand by a stray bullet that had been fired at the negro. The robbers got \$100 cash and a few watches and revolvers, and escaped.

## PROGRESSIVE LONDON COUNCIL DEFEATED.

Conservative Element Captures Control of the County Council.

(Special to the Advocate.)  
London, March 4.—The London county council election on the 2nd instant resulted in a victory for the Moderate Party, who have elected about two-thirds of the council. The old Council had become more and more socialistic, til the great property holders and others moneyed interests combined and by a supreme effort won control. The so-called Socialist element was supported by the British government; and the Conservatives now entertain some hope of carrying the country at next elections.

## RUSSIAN DOUMA REOPENED.

No Member of the Imperial House hold Present.

(Special to the Advocate.)  
St. Petersburg, March 5.—The Lower House of the second Russian parliament opened at noon today. All the high functionaries of state were present, gorgeously attired as usual; but no members of the Imperial household attended. This latter is a strange circumstance and does not bode well for harmony between the parliament and the Emperor.

About 425 of the 526 deputies were present at the opening. The parties are about as follows:—The Left, or Socialistic group, 192; Constitutional Democrats, 92; Progressivists, 94; Polish Nationalists, 49; Monarchists, 50; and Octoberists, 36; Indefinite 13. The government will be able to command the support of only about 126 of the whole house.

wrestling in the Neptune Rowing club gymnasium some days ago when he fell and injured his knee. Water on the knee-cap developed and he will be confined to his home for some weeks. He is well known in Newcastle where he visited on several occasions.

It is freely reported that St. John is to have another daily paper in the near future, which will lend an active support to the conservative party. In this connection the name of James H. Crockett of the Fredericton Gleaner is mentioned and the rumor is that the Gleaner will be published both in Fredericton and St. John. It is impossible at present to confirm the report.

The New Brunswick Temperance Federation which recently petitioned the provincial government to introduce a local prohibition law in New Brunswick has not yet received any intimation as to the government's intention in the matter. When the petition was presented Rev. Thomas Marshall, president of the Federation was assured that the government would advise them in ten days as to what would be done. Although at least three weeks have elapsed the reply is still "on the way."

The new "Lord's Day Act" went into effect here on Sunday, March 2, and St. John certainly had a blue Sunday. The police were on the outlook for offenders all day long but it is not on record that even a glass of soda water was sold.

## PREMIER TWEEDIE THE NEW GOVERNOR

Received Appointment Saturday. Sworn in Yesterday.

### DR. PUGSLEY PREMIER.

Very Little Reconstruction this Session—Mr. Osman to be Speaker.

As was generally expected, the Hon. Lemuel J. Tweedie was on Saturday appointed Lieutenant-Governor of New Brunswick, and took the oath of office before Rodolphe Boudreau, clerk of the Privy Council, upon the reassembly of the Local Legislature yesterday.

Hon. W. Pugsley, attorney-general, will be called upon to form a new government. Hon. Clifford Robinson, speaker, will be taken into the government, Mr. C. J. Osman of Albert becoming speaker. As few changes as possible will be made in the Cabinet until after the close of this session.

## THE MOTHER ON THE STAND.

Mrs. Thaw Swears There is Strain of Insanity in her Family.

(Special to the Advocate.)  
New York, March 5.—Mrs. Wm. Thaw, mother of Harry K. Thaw, who is on trial for the murder of Stanford White, went on the stand today. She testified that as a youth her son was of an extremely nervous temperament; and that in her family there was a strain of insanity. Her evidence was the most important yet towards saving her son from the consequences of his rash act.

## TO LIE WITH HIS ANCESTORS.

(Special to the Advocate.)  
Toronto, March 5.—Dr. Oronokya tekha's remains will be deposited with his ancestors in the ancient burying ground of the famous Mohawk nation.

## TEMPERANCE CONVENTION HELD THURSDAY.

Branch of New Brunswick Temperance Federation Formed.

As authorized by the joint meeting of Newcastle, Chatham, Millerton and Douglastown divisions, held here, lately, the Northumberland Co. Temperance Convention assembled here in the Temperance Hall on the 28th ult. There was a large delegation from Newcastle Division and Newcastle W. C. T. U., but the attendance from outside places, partly because of the very bad roads, was small.

On motion of James Falconer and Mrs. H. Ingram, it was decided to organize a Northumberland Co. Temperance Federation; to agitate for provincial prohibition and, in the meantime, to work for the enforcement of existing temperance laws.

The following officers were elected:—Pres., Alderman T. A. Clarke, Newcastle; secretary-treasurer, Henry Harvey Stuart, Newcastle; Vice-presidents—Ald. D. P. MacLachlan, Chatham; Mrs. S. McLeod, Newcastle; John Betts, Millerton; M. A. Kelly, Douglastown; Wm. Anderson, Burnt Church; and John A. MacNaughton, Glenelg. Additional members of executive—J. W. S. Babkirk, Loggieville; Miss Noide, Hardwicke; Mrs. T. W. Fleet, Nesbitt; and John Macdonald, Redbank. This executive were given power to add to their number. Next meeting will be held on all of the divisions. All who wish to join should send their names to the secretary.

### A GUARANTEED CURE

For All Forms of Kidney Disease.

We the undersigned Druggists, are fully prepared to give the following guarantee with every 50 cent bottle of Dr. Pettigill's Kidney-Wart Tablets, the only remedy in the world that positively cures all troubles arising from weak or diseased kidneys:

"Money cheerfully returned if the sufferer is not relieved and improved after use of one bottle. Three to six bottles affect astonishing and permanent cure. If not relieved and cured, you waste no money."—F. B. Dalton, Newcastle, N. B.

On the 26th ult., Geo. Sommers, of Collina, Kings county, hung himself in his own bedroom about 4 p. m. The deceased had been in failing health for the past two years. He was well known and much respected. He was 63 years of age and leaves a wife, two sons and one daughter.

## Indigestion

Stomach trouble is but a symptom of, and not itself a true disease. We think of dyspepsia, indigestion, and indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop to the creation of this now very popular Stomach Restorative. Dr. Shoop's Restorative, going directly to the stomach nerves, alone brought that success and relief to Dr. Shoop and his Restorative, without that original and highly vital principle, so much lacking in all other remedies, and which, in fact, is the only one that will cure.

For stomach distress, bloating, flatulency, loss of appetite and yellow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

The schedule was not accepted.

### WOMEN IN WESTERN CANADA.

When we speak of immigrants to the Canadian West too many of us are apt to have in mind persons of the masculine sex only. The fact is overlooked that to the great western part of the Dominion hundreds of women are annually turning their steps. Though overlooked it is still a fact. The Canadian Pacific Railway latest publication, "Home Life of Women in Western Canada" is a booklet, tastefully printed and illustrated, something of the romance of the West. Stories of how women have prospered in the great prairie land are told. One reads how homes were established by energetic women where formerly there were nothing but sweeping stretch of uncultivated prairie; how men settling in the West have been helped to prosperity by wives and daughters; how women have made competence, yes, fortunes, through their own efforts in a country just coming to be known to the people of the Dominion. All this, and more, is well told in the attractive booklet, which may be obtained from the C. P. R. Company's advertising department, Montreal, by anyone forwarding a request for it, accompanied by a two-cent stamp.

## HON. J. B. SNOWBALL LAID TO REST.

Immense Procession Shows Last Tribute of Respect to the Dead Governor.

All business was suspended in Chatham on Wednesday afternoon on account of the funeral of the late Governor Snowball, which took place from his late residence at 3.30 o'clock. The remains were interred in Riverside cemetery. The funeral procession was one of the longest ever seen in this province. The services were conducted by Rev. George Sellar, pastor of St. Luke's church, Methodist, where his honor had been a member for many years, assisted by Rev. Jas. Stothart of Moncton, and Revs. J. Simpson and D. Henderson of Chatham. "Sun of My Soul," the deceased's favorite hymn, was sung by St. Luke's choir.

The order of procession was as follows:

Undertaker.

School children.

Band of 73rd Northumberland County Regiment.

Physicians.

Clergymen.

Pallbearers, consisting of members of the executive of the local government, viz. Premier Tweedie, Solicitor General Jones, Surveyor General Sweeney, Hon. Dr. Pagsley, Hon. Mr. Farris, Hon. C. H. LaBilloy.

Mourners.

Lieutenant Colonel MacKenzie, A. D. C., and R. Barke private secretary of the late governor.

Col. Drury, representing the Quebec government, and Lieut. Governor Fraser, representing Nova Scotia.

Rev. Father O'Keefe, representing His Lordship Bishop Barry.

Speaker Robinson.

Members of the legislature.

W. McLoggie, M. P.

Ex-Members of the legislature.

High Sheriff of Northumberland County.

Mayor and town council of Chatham.

Police Magistrate Connors, Town Treasurer Johnson, Town Clerk McIntyre, Town Superintendent MacKay.

Mayor and town council of Newcastle.

TECHNICAL SCHOOLS FOR NOVA SCOTIA.

On the 27th, Premier Murray introduced into the N. S. Legislature the "Technical Education Act," which embraces the most complete system of technical education which is possessed by any province of the Dominion, or any state of the American union, providing for:

1. The establishment of central institutions of university grade in the city of Halifax to be called "Nova Scotia Institute of Technology," for the purpose of affording instruction and professional training in metallurgical, civil, mining, mechanical, chemical, and electrical engineering and for the purpose of scientific research.

2. The establishment of subsidiary technical schools in industrial centres.

3. Continuation and enlargement of government mining school under direction of the director of technical education.

4. Appointment of a director of technical education who will be principal of the Nova Scotia Institute of Technology and who will have supervision over the entire system of technical education.

MEASURES. C. C. RICHARDS & CO. Gentlemen.—My daughter, 13 years old, was thrown from a sleigh and injured her elbow so badly it remained stiff and very painful for three years. Four bottles of MINARD'S LINIMENT completely cured her, and she has not been troubled for two years.

Yours truly,  
J. B. LIVESQUE.

What is Happening in Other Provinces and Other Countries.

Montreal, Feb. 28.—At the Bell Telephone Co. annual meeting today the report showed receipts \$4,139,334 and expenses \$3,146,479 a net revenue of \$928,855. After payment of dividends and \$200,000 to the Reserve and Contingent Fund, \$61,037 was carried forward.

CLARK'S PORK AND BEANS, are fine—try them plain or with Chili or Tomato Sauce. 5 and 10c tins.

Fond du Lac, Wis., Feb. 27.—A Holstein-Friesian cow owned by J. Willet has broken the world's butter record by forty pounds. The official test shows 5,356.7 pounds of milk and 260.5 pounds of butter.

Ottawa, Feb. 27.—The Dominion government was advised today that the judicial committee of the privy council had refused application of Dominion to appeal on case of taxation of C. P. R. lands.

The News—No Pure Drug Cough Cure Laws would be needed, if all Cough Cures were like Dr. Shoop's Cough Cure—is and has been for 20 years. The National Law now requires that if any poisons enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poisons, marks on Dr. Shoop's labels—and none in the medicine, else it must be by law be on the label. And it's not only safe, but it is said to be by those that know it best, a really remarkable cough remedy. Take your chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by Thos. J. Durick.

Halifax, Feb. 27.—Mr. J. J. Stewart, the editor of the Halifax Herald and president of the Halifax Herald Publishing Co. died at Halifax at an early hour this morning as a result of burns received when a lamp overturned in his room a few days ago.

## FORMER AUDITOR—GENERAL DEAD.

Mr. James S. Beek, Auditor-General of New Brunswick from 1867 to 1906, died at Fredericton, Thursday night, of old age, after an illness of several months. Deceased was born in 1814, was ex-alderman and ex-mayor of Fredericton, and a prominent church of England worker. He was thrice married. Two daughters by first marriage are dead. One child, Miss Kate Beek, survives.

## CHILD LABOR.

The February number of the "Woman's Home Companion" contains a comprehensive description of Senator Beveridge's national bill to abolish child labor. The Senator tells how he worked in a logging camp at fourteen years of age, beginning before daybreak and ending after dark and the lessons he learned there served as the foundation for his present fight against the horror of child labor. After describing the evil, he adds:

"The worst of it is that pretty soon these children come to age. They feel that they have been robbed in some way—not robbed in money or property, but robbed of life, of health, robbed of intellect, robbed of spirit. And in their undeveloped brains, in their cramped and deformed souls the fires of an unextinguishable wrath begin to burn. They know that a system of industry and a state of society has worse than murdered them. There is your material for anarchy. We hear a good many speeches about the danger of anarchists coming to this country from Europe. The truth is that child labor is creating some two hundred thousand grown-up anarchists of native American blood in this country every year."

Wedderly—"What's wrong, old man? You look as if you had been disappointed in love."

Singleton—"You said it."

Wedderly—"Oh, well, don't let a little thing like that worry you. It might be worse."

Singleton—"I don't see how it could. The girl I am engaged to insists on facing the pylon with me."

The early spring number of the Designer has a useful and interesting array of household matter and fiction. The first fifty pages are mainly devoted to the display and description of gowns designed for spring and summer wear, and to the illustration of the accessories that go with them. The end of the book is reserved for articles relating to household affairs, are full of special interest this month.

The Fiction is made a feature in the March number. A continued story by Miles Bradford, author of "Carlotia and I," is begun, entitled "Economy Farm." Also, Edith Parker Johnson, now a resident of Korea, has contributed an interesting article called "An American Garden in Korea." Besides these, there is a story by Edwin L. Sabin and a particularly graceful little poem of Minna Irving's.

Are you one of the up-to-date farmers who contemplate improving their farms by erecting wire fences this season? If you are, we suggest a thorough investigation of the merits of the "Ideal" fence. Compare it with others. Ask those who have put up "Ideal" fences on their farms what they think of it. Read our "Free Booklet" on wire fence, and then we believe you will be convinced that "Ideal" is the fence for your farm.

**"IDEAL" WOVEN FENCE**

is built to last. It will pay for itself many times over in the years of service it will give. You know "Ideal" fence is heavy and strong—built from No. 6 hard steel wire throughout—thoroughly and heavily galvanized. Remember, it costs no more to make your post holes, set your posts, stretch your fence and staple it when the heavy "Ideal" fence is used than for a light flimsy article. It is worth remembering that "Ideal" is stronger than it is necessary for it to be under ordinary conditions. We have made it strong enough to meet any emergency that it could be called upon to meet. Unruly animals cannot break through. It cannot be raised up from the bottom or pressed down at the top. Extremes of heat or cold do not affect "Ideal" in the slightest. It is a fence perfectly adapted to all climates—it can be easily erected and will retain its upright appearance on any surface, level or hilly. Last, but of the utmost importance, is the wonderful locking device found at every wire crossing on the "Ideal." It is simplicity itself, but it absolutely locks every lateral wire to every stay in a grip that never slips. It is the most uniformly perfect and positive locking device found on any fence to-day. But, of course, you will send for our "Free Booklet" and learn more about the "Ideal." It will pay you well to do so. Simply address: THE MORRIS-BARWELL FENCE CO. LIMITED, WALKERVILLE, ONTARIO.

—On Time—

Do you know there is big money in raising poultry? Do you know there is more money in running a good incubator than in almost anything else you can do for the amount of time and trouble it takes? Do you know my incubator will pay you a bigger profit than any other thing you can have on your place?

Well, all these things are true, and I can prove it. Thousands of people all over Canada have proved it every year for the last five years.

I want to quote you a price on my Chatham Incubator. —**ON TIME.** I want to send you my Chatham book. This incubator book is free—I'll send it to you for just a postal card. It tells you a lot you ought to know about the poultry business—it tells you how to make money out of chickens—it tells you how my Chatham Incubator will make you more money than you can make with hens—far more, and with less trouble.

This book tells you how my incubators are made—why they are the best ever invented—and why I sell them **ON TIME** and on a 5-Year Guarantee.

My company has been in business in Canada for over 50 years. We are one of the largest wood-working factories in the country. We also operate a large factory at Detroit, Mich. We have the incubator and brooder business down to a science.

Chatham Incubators and Brooders will make you money, for a Chatham Incubator will hatch a live, healthy chicken out of every fertile egg put into it, in 21 days.

Will you write for my book today? Do it now while you think of it. Just say on a postal card "Please send me your Incubator Book"—that's all. Address me personally.

Newcastle, N. B., March 6th, 1907.

## ANNOUNCEMENT.

The UNION ADVOCATE and the EVENTS have made an arrangement by which each will hereafter receive a telegraphic service on the afternoon of the day on which it is printed, thus giving its patrons the very latest news up to the hour of going to press. Each will frequently have a special letter from St. John, which will be an interesting and attractive feature. No pains will be spared to make these two papers the best channels of information for the North Shore.

## GOVERNOR TWEEDIE.

The gentleman, who for several years has from the premier's chair directed the public affairs of New Brunswick, has now received the highest honor obtainable in the provincial arena. We feel sure he will fill the position of lieutenant governor as worthily as his estimable predecessor; and we extend him our congratulations upon his good fortune in being promoted from the toil and worry of the premiership.

## PREMIER PUGSLEY.

Dr. Wm. Pugsley, M. P. for Kings County, and attorney-general, is the strongest and most popular man that could have been chosen to succeed Hon. L. J. Tweedie in the premiership. For some time past, he has had as much to say as anyone in shaping the destinies of the province and the mantle of leader will rest easily upon his shoulders.

## THE UP RIVER SERVICE.

There is now good ground for believing that the Messrs. Russell will be able, at the opening of navigation, to put upon the up river route a first class, twin-screw, light-draught steamer that will be the fastest on the river. An up-to-date daily service has long been needed; and everyone will be pleased to receive the assurance of its coming.

## THE HOUSING PROBLEM.

The great need of this, like many other towns, is more houses. Many families that are living here have to board, because there are no tenements to be had. And for that reason, some of them will be compelled to leave the place. Many that would come, if they could get houses, are compelled to turn their steps in other directions. A sufficient number of skilled workmen for the factories cannot be obtained, because married men do not care to accept the conditions under which their families would have to live. Married men cannot afford to board their families at hotels at the current rate of wages. Some change must be inaugurated if the town is to increase in population and become a centre of commerce and industry.

There are some people who have no regard whatever for the good of their fellowmen, but consider them only as the grapes out of which the rich wine of profit is daily squeezed. To such class belong those who will not rent a house to a family with children, for fear the children should scratch the building and necessitate the expenditure of a few cents annually for paint, thus reducing the net gain from the house. Another class will not build houses at all, but keep their lands in the centre of the town vacant in the hopes that, after buildings are erected all around their property,

they can then sell it at a figure many times its present value. Those who thus speculate in land values, regardless of the hardship and suffering they cause, are encouraged in their course by the system of civic taxation. The taxes on unimproved lots are very low—merely nominal—while the bulk of the revenue raised from real estate is collected from people who build houses, shops and factories and keep the wheels of progress moving. This system should be reversed. Those who will not build upon their land, but persist in holding it for a rise in price, should be so heavily taxed that they would be compelled to improve their property at once or sell it to those who would do so. On the other hand, an improved property should be taxed much lighter than at present—no penalty should be attached to honest industry. When vacant lots are taxed as much as the lots that have large buildings upon them, it will be so unprofitable to keep land idle that the owners will put up houses and rent them at reasonable figures or allow others to take possession. We call upon the Town Council to take steps immediately to put the system of taxation upon a more equitable basis.

It would be a good investment for a co-operative company to erect several large department houses, substantially built and filled with the modern improvements and conveniences. Only by a change in the old way of doing things can population be attracted to Newcastle or even all the present inhabitants kept within its boundaries.

## GOVERNMENT MINES.

In the Nova Scotia Legislature, Dr. Kendall has moved for a commission to enquire into: (1.) The practice that prevails in promoting the formation of companies to operate coal areas in Nova Scotia; (2) the methods of mining, to ascertain whether in operating large quantities of coal are being lost; (3) the desirability of government supervision of the development of coal properties; (4) the conditions on which coal is supplied to consumers in Nova Scotia; and (5) whether a colliery or collieries owned and operated by the government would be in the interest of the people of Nova Scotia.

Dr. Kendall's motion shows that public opinion, at least in Cape Breton, is developing in the direction of public ownership and operation of public utilities. The appointment of a commission to gather information which is already at hand, would be a temporary shelving of the question, but out of the discussion much good must come. It is only a question of time when everything used by the whole public will be owned and operated by the whole public.

## DIRECT LEGISLATION.

The Principal of Direct Legislation has made a notable gain in Quebec, where, it is understood, the government will propose a law compelling every municipality in the province, before according for a period beyond ten years, any contract for a public utility, to submit the proposal to the ratepayers for ratification or rejection. The government, it is further said, will also authorize the city of Montreal to construct and control its conduits.

Soon, let us hope, it will be the law in all provinces that no Act shall become law until after the people have had, if a certain percentage wish, an opportunity to accept or reject the measure by direct vote; and that any act submitted to the government by a certain portion of the voters shall al-

## CHURCH AND STATE IN BRITAIN.

The old struggle between church and state, which reached its acute stage in France in 1899, resulting during the next seven years in the expulsion of the teaching orders, the secularization of all schools, and lastly the complete disestablishment and disendowment of the churches, is rapidly becoming the question of the hour in Great Britain. After the disestablishment and disendowment of the Established Church in Ireland in 1870, there was a lull in the strife for thirty years. In 1900, however, the Balfour-Chamberlain government had an act passed providing that, in all districts where there were voluntary (religious) schools only, these should be supported by public funds and no national non-sectarian schools should be founded there. The storm raised by this Act was largely responsible for the government's defeat in 1906.

The present House of Commons, last year, by an overwhelming majority, repealed the Act of 1900 and substituted one compelling every district to support the national schools, thus necessitating double expense to those who wished to maintain the religious schools as well. This Bill was so amended by the House of Lords that the government withdrew it, biding their time for an opportunity to reform the upper house or destroy it. The Aristocracy and the church establishment must stand or fall together. In the Commons, last Wednesday night, a resolution in favor of the disestablishment and disendowment of the church in both England and Wales was adopted by 198 votes to 90. This resolution does not commit the government but the debate upon it was interesting on account of a statement made by Augustine Birrell, the chief secretary for Ireland, who said he failed to see how the continuance of the established church could be justified. The church had done the state no good, and the state had done the church nothing but harm. Personally Mr. Birrell said he believed that disestablishment, far from harming the church as a spiritual body, would restore it to a position of spiritual authority throughout the land. The government's hands, however, were already too full to assume any responsibility in the matter. Mr. Birrell, without doubt, voiced the sentiments of the government; and we may very soon expect in Britain a struggle between the parliament and the established church similar to that just closing in France but, in all probability, of a somewhat milder nature. There is every reason to believe that the King will side with the parliament. The Irish members have hitherto voted against the present government on Educational questions, while supporting it on every other issue; but the large instalment of Home Rule, which Ireland will get this year, may render them more tractable on the church question.

## WOMAN SUFFRAGE.

Premier Campbell-Bannerman has promised his support to the bill presented by W. M. Dickinson, M. P., to give the suffrage to women. The success of the bill would now seem to be assured. Step by step, Great Britain is following the example of her Socialist daughters, New Zealand and Australia.

## FREE TRADE

We have always advocated the fullest possible measure of free trade among the nations of the earth, believing that most of the wars abroad and much of the poverty at home is caused by high tariffs that enrich the manufacturers at the expense of the average citizen and tempt the former to fight for the control of foreign markets upon which to dump the surplus goods that their own people at home are too poor to buy. The following from the Toronto Globe, the leading Liberal organ of Canada, suggests questions that the advocates of protection will not be able to satisfactorily answer:

"In 1874 Canada stood fifth among the ship-building countries of the world. In 1878 she adopted a policy of high protection, and has protected herself down to the twentieth place. No one has compiled statistics to show the extent of the merchant marine that would have developed had protection not been adopted. There are no figures available as to the value of the material that would have been used in ship-building, the amount of capital that would have been invested, the amount of wages that would have been paid, the number of men who would have been employed, or the contribution that the industry would have made to the public revenue.

"On the other hand, we have full and carefully compiled statistics as to the extent of the industries that have been called into existence by the taxation that has snuffed out the merchant marine. We know how much capital has been invested, how many hands have been employed, how much material has been consumed, and how much finished product has been sold. It is the same in other fields of industry. We can obtain no record of the number of farms that have been abandoned or left untilled owing to the burden of the tariff, while there are full records of the industries brought into existence. It is largely because the beneficial results are obvious and the injurious results concealed that a policy more injurious than beneficial is adopted and maintained in all civilized countries except Britain."

After a speech by W. F. MacLean, M. P., on the 27th ult., a Public Ownership League was organized in Toronto to agitate for the public ownership of public utilities, such as railways, telegraph and telephone lines, street railways, etc., etc. Local leagues will be organized all over Ontario, delegates from the first four to perfect a provincial organization.

The Mormons have so far won in both the U. S. and Canada. Senator Smoot of Utah has, after a contest of four years, retained his seat at Washington; and the Alberta legislature last week unanimously vindicated the Canadian Mormon colony of all charges lately made against them by certain clergymen of the East.

Evelyn Nesbit Thaw sacrificed that which was dearer than life to her to save her husband. The man who is not more honest than the law compels him to be a thief at heart.—Cent per Cent for February.

## BOARD OF TRADE.

The Board of Trade meeting on Monday evening was adjourned till tonight (Wednesday) on account of Mayor Hennessy, the president, being unable to attend. All members, and the public generally, are urged to attend this evening, as matters of importance will be discussed. The meeting will be in the Town building.

## PROHIBITION BILL.

A prohibition bill was introduced into the Nova Scotia Legislature last Thursday by Mr. Armstrong of Yarmouth, a private member. Its provisions, entailing a provincial expenditure, must have the support of the government before it can be effective. It is said a considerable majority of the members of the Lower House will vote for the measure and that it stands a good chance of going through.

## HARCOURT.

Harcourt, March 4.—Mr. Dennis Saulnier has gone to Richibucto, where he has accepted a position as clerk in R. O'Leary's store.

Mrs. Philip Richard who has been spending the past few months in Quebec, has returned to her home in St. Louis.

Mrs. Harry Wathen, Jr., has moved into the Presbyterian Manse.

Mr. Wood Ingram of Quebec and Levi Division spent a few days with his parents here.

Thomas, son of Mr. Thos. Carruthers, died at his home in West Branch, on the 28th. The family have the sympathy of the whole community. Funeral was at 2 o'clock Saturday afternoon.

## BASS RIVER.

Bass River, March 1.—Messrs. R. Keswick and Elmer Dunlay returned home from Green River, Mad. Co., on Friday.

Messrs. Isaac Howard and Fred Campbell returned from Millis, Me., on Tuesday.

Mr. James M. Campbell, who had the contract for completing the interior of the Public Hall, finished work this week.

Mr. William Fearon, Sr., returned from Green River, this week.

Messrs. John and James Fearon came home from Tabusintac this week.

Mr. Isaac Ward returned from Greenville, Maine, last week.

The session of Bass River Division, No. 441, S. of T. are continuing very interesting. At the last meeting there was one initiation, and an excellent impromptu programme was carried out.

Rev. W. M. Townsend holds service here on Sunday afternoon next, as he has to attend the funeral of Mr. Thos. Carruthers of West Branch to-morrow.

## PINE RIDGE.

Pine Ridge, March 1st.—On account of the big snow storms our mail has missed several trips this week.

The lumbermen are beginning to come home on account of the deep snow.

The Green River and Kent Junction men come last week.

Miss Laura Cail is spending the week with her grand-parents, Mr. and Mrs. J. Cail, at West Branch.

Our both schools are closed, being unable to secure teachers.

Mr. W. McLean, and Mr. J. Jones spent Sunday with friends here; Mr. Jones, who has returned from the west, to visit his parents in Moncton, intends to leave in a few days for Oakatox, Alberta.

He speaks favorably of the west.

The mumps and la grippe are over, and mat-hocking is the order of the day.

## GRANGEVILLE.

Grangeville, March 1.—Grangeville Division, No. 440 S. of T., initiated two new members—Geo. Horseman and Wm. Pettley—last meeting. The Division at McLaughlin Road has been resuscitated. Coates' Mills will probably re-organize soon. We expect new divisions at Clafville and Ford's Mills this spring. The Kent Co. Temperance Federation is making good progress.

We have had an old time snowfall of fourteen inches.

Wilson's saw mill is doing good work and employing over sixty men.

Miss Alma West leaves to-morrow for River Hebert, N. S.

Geo. Horseman will shortly visit his home at Lutz Mountain.

Mrs. Geo. Toby, who has been visiting her parents six months, gave birth to a son on the 22nd February.

Messrs. A. and T. West have about finished their lumbering operations.

Mrs. Geo. Wilson is convalescent. The people of Grangeville surprised Mrs. Annie Bryant of Harcourt on the 21st ult., and left her gifts to the value of \$20.00.

O. E. Holson and Geo. Horseman will visit Bass River Division at its next meeting.

Jabez Bryant of River Hebert is visiting friends in Grangeville.

O. E. Holson visited in Mortimore on the 21st.

Murray McLean and Mr. McPherson spent Sunday here.

ST. JOSEPH'S.

ENTERTAINMENT.

St. Joseph's Total Abstinence Society threw their meeting on Monday night open to the public.

There was a large attendance. Rev. Father Maguire delivered an excellent address on Social Organization. Vocal and instrumental music, including selections on the gramophone, were interesting features of the evening's entertainment.

Mr. James Murphy sang "My Wild Irish Rose," assisted by Mr. John Morris and the Misses Black, Hennessy and App in the chorus. Mr. John Morris rendered "Kathleen Mavourneen," with Miss Black as accompanist.

Miss Black gave a delightful solo, and Mr. T. H. Whalen gave a recitation.

Does Coffee disagree with you?

Probably it does! Then try Dr. Shoop's Health Coffee. "Health Coffee" is a clever combination of parched cereals and nuts. Not a grain of real Coffee, remember, in Dr. Shoop's Health Coffee, yet its flavor and taste matches closely old Java and Mocha Coffee. If your stomach, heart, or kidneys can't stand Coffee drinking, try Health Coffee. It is wholesome, nourishing, and satisfying. It's safe even for the youngest child.

## HORSESHOERS.

## FORM A UNION.

Last Thursday afternoon, a number of the blacksmiths of the county met at the Union Hotel and organized a Horsehoers' Union. There were present: Messrs. F. Gough and Jerome Landry of Newcastle; Chas. Gunn and Edward Burke, Chatham; Alex. McFarlane and David Blackmore, Nelson; and Mr. MacLean of Black Brook; Jas. Power and Michael Hogan of Redbank were prevented from attending by the bad roads. They, and the other blacksmiths of Chatham, have signified their intention of adhering to the Union.

The schedule of prices, which will go into effect on April 1st, is as follows:—For set of new horse-shoes, \$1.25; for resetting shoes no. five and under, 60 cents; over no. five, 75 cents. The union claims that this rise of prices is rendered necessary by the increase of raw materials.

The officers of the new organization are: Pres., Alex. McFarlane; secretary-treasurer, F. Gough.

## EDITOR'S MAIL.

If the writer of the letter we received in the mail designed will kindly send us his name in confidence, we will publish his communication next week.—The Editor.

The Editor of the Advocate.

Dear Sir,—

I acknowledge that the two instances I gave the Leader were different. The first was to prove that the editor of Le Canada did not have his editorials sanctioned by his publishers. The second, concerning Butler's Journal, showed that two papers advocating different causes were issued by the same publishers. Although the editor of the Leader said he would discontinue to believe his view of the matter, if I gave him two such instances, he now says that if the last instance I referred him to be true the publishers of the said papers would be inconsistent.

Let me say to the editor of the Leader that only one kind of cause have two sides, i. e. legal causes; and that is why they are referred to as CASES. Journalists say "liberal cause, conservative cause," etc. By criticizing a political party one is by that very fact, supporting the other or doing its work. Another reason why politics of any country is not regarded as one cause is that there can be more than two parties. Then the cause would have as many sides as there are parties which does not stand to reason.

I admit that I have failed to grasp the idea conveyed by the editor's statement of his having the independence to express his own opinion. What misled me is this: I thought that the editor of The Leader, professionally speaking, meant, by expressing his opinions, expressing them through his paper.

I little thought that he would flatter himself on having a privilege that God, since the creation of the world, has granted to every one, to the idiot as well as to the philosopher, and to the slave as well as the monarch. I pity the poor editor if he has nothing else to flatter himself about than that.

The dummy that I am trying to knock down is not "of my own creation," and I am most happy for it relieves me of a woeful responsibility.

Unless the Leader proves that "La Justice" is not issued as Butler's Journal, the publishers being paid to publish that paper, he cannot prove his charges. As to the other points of argument only of a secondary rank but unavoidable in any discussion, I leave the public to form its own decision.

A few words more about what the Chatham World has said about my statement regarding Butler's Journal. Although I recognize the learned editor of that paper as an authority in journalism, I will say that I cannot be blamed for using the word "issuing". Whilst I did not know (?) its technical meaning, I used it in its grammatical sense, which I thought was proper. However, I cannot be blamed too harshly for making errors in using a language not my own and of which I possess but a poor knowledge. And as to journalistic technical terms my lack of experience in the profession will certainly win me the indulgence of the public and of the veteran journalists.

I remain

Yours truly,

D. T. ROUCHAUD.

## Attempts to Deceive

## the Ladies of Canada.

Attempts have been made by some makers of well advertised package dyes to have the ladies of Canada believe that their common products are as good as the popular DIAMOND DYES for the work of home coloring.

Some agents of the crude and worthless dyes referred to, have made statements that their miserable dyes are made according to the formulas of DIAMOND DYES. All such statements are false and have resulted in loss and trouble in many homes.

The manufacturers of the celebrated DIAMOND DYES would warn the ladies of Canada to beware of such common dyes being substituted when DIAMOND DYES are asked for. All progressive merchants in Canada sell DIAMOND DYES which are the only guaranteed dyes in the world.

## Nervous Women

Their Sufferings Are Usually to Female Disorders Perhaps Unsuspected.

A MEDICINE THAT CURES

Can we dispute the well-known fact that Canadian women are nervous? How often do we hear the expression, "I am so nervous, it seems as if I should fly," or, "Don't speak to me." Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmly perform your daily tasks or care for your children.  
The relation of the nerves and generative organs in women is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman. Fits of depression or restlessness and irritability. Spirits easily affected, so that one minute she laughs, the next minute weeps. Pain in the abdominal region and between the shoulders; a tendency to cry at the least provocation—all this points to nervous prostration.

Nothing will relieve this distressing condition and prevent months of prostration and suffering so surely as Lydia E. Pinkham's Vegetable Compound.

Miss Leah Stowell, of 177 Wellington St., Kingston, Ont., writes:  
"Dear Mrs. Pinkham:—  
"Your Medicine is indeed a Godsend to suffering women, and I only wish that they all knew what it can do for them and there would be no need of their dragging out miserable lives in agony. I suffered for years with bearing-down pains, extreme nervousness and excruciating headaches, but a few bottles of your vegetable Compound made life look new and promising to me. I am light and happy and I do not know what sickness it is and have enjoyed the best of health now for over four years. Lydia E. Pinkham's Vegetable Compound has sent sunshine into thousands of homes and hearts."

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all women of its virtues? Surely you cannot wish to remain sick and weak and discouraged, exhausted each day, when you can be so easily cured as other women.

## HER DEFENSE.

## In a Class by Itself

It is quite true FERROL is an emulsion of Cod Liver Oil and a particularly good one at that. But it combines Iron and Phosphorus with the Oil, and these are just what are needed to make the emulsion perfect and they are just what all other emulsions lack.

## FERROL

It is unique because it combines Iron and Phosphorus with Cod Liver Oil. It is pleasant to take and easy to digest. It holds the record for increasing the weight (95 lbs from the use of 35 bottles). The formula is freely exposed and its bona-fides are vouched for by eminent analysts in Canada, the United States and Great Britain. It is endorsed by prominent physicians of all schools. It is used in all the leading Hospitals, Sanitariums and other Public Institutions. The London (Eng.) Lancet, after careful analysis in its own laboratory, fully endorses it. We are prepared to substantiate all the above statements. FERROL is the embodiment of health, strength and vitality, and

Mezzc Work**

The undersigned have received from the Mess of Maine the agency for New Brunswick for his famous trout mezzc work. A trout mezzc is one half the fish as mounted upon a silver-plated plate as for game. It is out in bold relief, giving the appearance of a real trout, while the silver-plating gives the real thing to show at your power. The process of preserving fish in this artistic way was discovered by Mr. Nash in 1900, and patented by him.

## A CHAPTER OF ACCIDENTS.

People Hurled to Death in Railway Collisions.

SUFFOCATED BY SMOKE.

Heroism of Lady Teachers Rescuing Little Children.

Two men killed and one so badly hurt that he died next day, is the result of a head-on collision at the I. C. R. station, Brookfield, N. S., on the night of the 26th inst.

A number of others were injured.

The dead are Samuel Keith of Sussex, baggage master on No. 9; and fireman Dean of Truro and engineer J. Flavin, on the Atlantic express. Flavin, it appears, got confused in his orders and ran past Brookfield, where he should have waited for No. 9 which was coming from Halifax towards St. John. The driver and fireman of No. 9 jumped in time.

George Cook of Truro, one of the injured, lay eight hours in the debris of the wreck and had his hands and feet badly frost-bitten.

The Maritime express from Moncton was derailed at Beresford Wednesday forenoon, causing considerable damage and delaying for several hours the express from Montreal.

An awful tragedy occurred in Moncton on the 26th ult., when the Hochelaga Protestant school took fire, and Miss Maxwell, teacher, and sixteen pupils perished from suffocation. The whole loss of life seems to have been due to neglect on the part of the authorities to provide fire escapes, etc. There were 150 children in the building and fair lady teachers. The latter proved themselves heroines. Without a thought of themselves they worked loyally to save their charges; and Miss Sarah Maxwell lost her life as a consequence. Along with Miss Maxwell, Miss Keyes and the other teachers proved themselves worthy to be ranked among the noblest of those who risk their lives to save others. But they were unable to prevent the death of sixteen of the children. Help came too late. Most of the dead were between four and eight years.

The school was a brick structure three stories in height. The fire broke out about 1.45 in the basement, having evidently originated from an overheated furnace. The building was heated by hot air, and the big pipes served as flues to carry the smoke and flames all over the building, so that within five minutes of the first alarm it was completely enveloped. It was the smoke that proved so fatal. Few of the children were burned and subsequent examination showed that even these few had died from suffocation before the flames reached them. Many scenes of deep pathos were witnessed both at the fire and at the morgue as parents recognized the blackened remains of their children. In one case a father, Andrew Spragg, lost two daughters, one of whom was in the kindergarten, while the younger had gone for the first time to visit her sister. It would have

**GIN PILLS CURE RHEUMATISM.**

They certainly were a surprised lot of doctors out Tyndale way. They had been treating Mrs. Harris for years. Gave her about everything that was ever heard of for Rheumatism—and then told her the disease was chronic.

A friend told Mrs. Harris about GIN PILLS. Just to oblige her friend, Mrs. Harris took a box. When that was gone, she dismissed the doctors and bought another box of GIN PILLS. By the time these were gone, she was so much better that she bought the third box and laughed every time she saw a doctor.

Tyndale P. O., Aug. 6, 1906.  
I received your sample box of Gin Pills, but as there was only enough for a trial I got a box from our druggist, and now I am taking the third box. The pain across my back and hips has almost entirely gone, and I am better than I have been for years. I was a great sufferer from Rheumatism, but I feel all right now.

The doctors can't explain it. They don't try to. They said Mrs. Harris could not be cured. GIN PILLS cured her. Proof beats explanation all to pieces. Do YOU want proof? Write, mentioning this paper, for a free sample box of Gin Pills and try them yourself. Then you will see what Gin Pills will do for YOU. Write now to the Sole Drug Co., Winnipeg, for a free sample.

Sold by dealers everywhere. 50c a box. 6 for \$2.50.

been easy for Miss Maxwell to have saved herself, but with the flames fast closing in she refused the call of the firemen and once more braved the burning room to search for the others she knew were in peril. She did not find them but died with them. Miss Keyes was only taken out of the building with her clothes on fire and in a fainting condition.

The Grand Trunk train, leaving Toronto at 1 p. m., on the 26th, ran off the track three miles east of Guelph, at Trainer's Cut, about 2.40. Three were killed and eighteen injured. The curve at this point is very sharp and the cars were thrown over a forty foot embankment. The train consisted of parlor car, two first class coaches and baggage car.

**SPECIAL MEETING TOWN COUNCIL.**

Mayor's Report Received.—Issue of Bonds for \$40,000 Authorized.

A special meeting of the Town Council was held on Wednesday evening. Those present were the Mayor, and Alds. Allison, Belyea, John Clark and T. A. Clarke.

The Park and Fire committee reported recommending payment of the account of Allan Johnston, \$3.91, which on motion was ordered paid. On the report of the Public Works Committee the following bills were ordered paid: D. & J. Ritchie & Co., \$16.00, F. H. Gough \$6.15.

The Finance Committee reported that they had sold one electric light bond, of \$1,000, to J. M. Robinson & Sons, St. John. On motion the sale was confirmed.

A communication from E. A. McCurdy, manager of the Royal Bank of Canada, was read showing the standing of the different accounts.

On motion of Ald. Belyea, seconded by Ald. T. A. Clarke, a resolution was passed authorizing the Mayor and Town Clerk and Treasurer to borrow from the Royal Bank from time to time such sums as may be required to meet the current expenses of the town, such loans together with the present overdraft on current account, not to exceed the sum of \$30,000.

On motion of Ald. Belyea, seconded by Ald. Allison, a resolution was adopted, authorizing the issue of Town bonds of denomination of \$1,000 each, to the amount of \$40,000, as authorized by Act of Legislature, the bonds to be dated 1st June 1907, redeemable in forty years, to bear interest at the rate of four per cent. per annum.

The report of the school auditor was read by Ald. Belyea, and on motion was ordered to be printed in the town report.

The Mayor read his annual report, and on motion it was ordered to be printed in the town report. On motion the Council adjourned.

## THE FISH FAST.

I think of the fish I must eat in Lent, Of flounders and salmon and sole, And I wonder if I shall be content With a diet like this as a whole.

I haven't a doubt that haddock and shad And turbot and whiting and trout When eaten occasionally aren't so bad, While oysters are tasty with stout.

A bloater is good for a morning bite Or a little flaked cod with rice, A lobster's the thing for a devilish night, A herring for luncheon is nice.

And there's a reward for eating this food, So the penance won't be in vain, It's universally said to be good For greatly increasing the brain.

To nurture its matter that's known as gray Shall be my earnest endeavor, So that when we arrive at Easter day, Why, shan't I be awfully clever?

—La Touche Hancock in New York Press.

Slight Jnr.

Virginia—I think I am somewhat like you in one respect, Mr. Blowhard. Blowhard—Indeed? In what respect? Virginia—I enjoy hearing you talk.

One Last Request.

The steamer was nearing the completion of a very rough passage, and most of the passengers were silent, sad and thoughtful. Only one gay and sprightly individual looked as though an earthquake hadn't suddenly swallowed up his every friend and all his worldly goods.

"Look here," he said, dancing nimbly about, "I'm all right. If you chaps just brace up and be cheerful you'll feel all right."

He did a hornpipe and a jig, and one of his fellow passengers raised his head long enough to say: "George, will you do me a great favor—a very great favor—possibly the last favor I shall ever ask of you?"

"Why, certainly, old man! What can I get for you?"

"Nothing. I simply beg of you to stop dancing. It shakes the ship too much."—Sphere.

Too Much Like Pleasure.

"A friend of mine," said Senator Penrose, "has in his home in Wilkes-Barre a Scotch nurse girl, who has been brought up according to the most austere religious principles. One Sunday the lady of the house induced the girl to attend services in a beautiful church, just completed, and asked her on her return whether the church was not a fine one."

"Yes, ma'am," assented the girl; "it is very beautiful."

"And the singing," said the lady; "wasn't that lovely?"

"Oh, yes," replied the nurse; "it was very lovely, ma'am, but don't you think it an awful way to spend the Sabbath?"—Woman's Home Companion.

A Calculating Husband.

Soon after 4 in the morning the husband returned home in the usual state of intoxication. He was lucky in getting the key to fit the lock at the tenth try, but as he literally climbed the stairs an unfortunate side slip aroused his wife. When he reached the bedroom his wife, whose tongue was fond of exercise, gave a prolonged exhibition of shrewish oratory. In conclusion she lamented the fate that had tied her to a man who came home at 4 in the morning. "My dear," expostulated the husband, "it's only 1 o'clock. Just now I heard it strike 1 several times moan distinctly."—Tatler.

Golden Nose.

Tycho Brahe, the famous Danish mathematician, was known as the "Wizard of the Golden Nose." While at the university he lost his nose in a duel and replaced it with a nasal organ of gold, held in place by cement and a pair of spectacles. This addition to his countenance gave him a very peculiar appearance and caused him to be much feared by the common people, who attributed to him many supernatural powers, largely on account of his remarkable nose.

Tasmanian Girls.

For many years Tasmania has been known as the "Circus of the colonies," a tribute to the exceptional loveliness of its young women. There have been Tasmanian peeresses, but the prettiest Tasmanian girls are mostly in demand as barmaids for Sydney and Melbourne. Some years ago it was elicited in evidence at an official inquiry in Melbourne that Tasmanian barmaids command double the ordinary wages for this kind of work.

Two Goat Islands.

Here is an extraordinary coincidence: The island lying between the American fall and the Canadian fall at Niagara is called Goat Island. What is now called Livingstone Island at the Victoria falls in Africa is called Komo-goro by the natives, and this signifies "goat island."

mately, was told by the shape of the card. A fillet around the border of the card told whether he was a bachelor, married or a widower. Dots gave information as to his position and fortune, and the expression of his face was shown by a decorative flower.

The stranger's religion was told by the punctuation after his name. If he was a Catholic it was a period, if a Jew a dash, if he was a Lutheran a semicolon and no stop at all indicated him a nonbeliever.

So a man's morals, character and appearance were pointed out by the pattern of his passport, and the authorities could tell at a glance whether he was a gamester or a preacher, a physician or a lawyer, and whether he was to be put under surveillance or allowed to go free.

Materialistic Man.

Sir James Orichton-Browne, the English physician, speaking before some members of his profession, protested against the tendency to adopt too materialistic an explanation of man. The raw material of a medical practice became a mere contrivance of matter and force; the brain of this poor consumer of pills and potions a "glue-like substance, nine-tenths water, with a little phosphorus thrown in." "They left us man," said Sir James, with a smashing figure, "a motor car, self made and self started, with no passengers and no chauffeurs, moved by a series of explosions or redistributions of energy, and rushing on to inevitable destruction."

Rabbit Tails.

Rabbits, asserts a naturalist, have white tails so that the young may distinguish their mother in case of pursuit. The natural color of the rabbit is so like the surrounding earth that this would be impossible otherwise.

Drooping Mustaches.

Drooping mustaches preserve the health of millers, bakers, coal heavers and ashmen, keeping the dust out of their lungs.

The Turkish Language.

The Turkish language is said by scholars to be the softest and most musical language of modern times, being better adapted to the purpose of musical notation and recitative than even the Italian.

Bridal Wreaths.

The bridal wreath is usually formed in Germany of myrtle branches; in France and England, of orange blossoms; in Italy and French Switzerland, of white roses; in Spain, of red roses and pinks; in the islands of Greece, of vine leaves; in Bohemia, of rosemary; in Geneva Switzerland, of a crown of artificial flowers.

Brain Weight.

A large brain does not signify intellect. The brain of an illiterate person in a low station of life has been found to outweigh those of the most celebrated scientists, poets and philosophers.

Cruelty to Goldfish.

It may not be generally known that there is cruelty in the keeping of goldfish. Half of such captives die from sheer want of rest. As fish have eyes so formed that they cannot endure the light, in a glass vessel they are in an entirely wrong place, as is evident from the way in which they dash about and go around and around until fairly worn out.

Cats and Birds.

Cats, if they have an opportunity to hunt birds and rabbits, will give no time to the hunting of rats and mice. Thus many cats are good mousers in the city and bad mousers in the country.

Luxury of the Ancients.

Twenty-seven hundredweight, or nearly one and a half tons, of gold plate was often placed on the tables of ancient Roman epicures.

A Prayer.

Send some one, Lord, to love the best that is in me and to accept nothing less from me, to touch me with the searching tenderness of the passion for the ideal, to demand everything from me for my own sake, to give me so much that I cannot think of myself and to ask so much that I can keep nothing back, to console me by making me strong before sorrow comes, to help me so to live that while I part with many things by the way I lose nothing of the gift of life.—Hamilton W. Mabie.

Maude Was Willing.

A strict housewife said to a new maid, "I forgot to tell you, Maude, that if you break anything I'll have to take it out of your wages."

But Maude, whom two days had hardly softened of her berth, replied, with a meek smile: "Do it, ma'am; do it. I've just broke the hundred dollar vase in the parlor, and if you can take that out of my wages, I'm leavin' the end of the week, 'cause you'll be 'fraid I'll break 'em."

What a Teacher.

"What a teacher of mine," said a young man, "I mean a boy who will do anything for a cent."

"The boy who will do anything for a cent?"

"Yes, the boy who will do anything for a cent."

Of Special Interest to Our Readers, Gathered  
By Our Reporters from Many Sources,  
Whirl of the Town.

Mr. Adam Dickson of Chatham has been appointed town marshal for Campbellton and enters on his duties on April 1st.

The Rev. James MacKay of Tabernacle was recently presented with a new sleigh by some of his congregation residing in Burnt Church.

At many places along the Moncton-Bathurst railway the snow, last week, was piled higher than the tops of the passenger cars.

We would call attention to the advertisement of Mr. F. Gough, which appears in this issue. Go to him for agricultural implements, carriages, carts, etc.

The N. B. Telephone Company has granted its employees in Moncton an increase of \$3.00 a month in salary. This matter was recently discussed by the Board of Trade.

Mr. L. B. McMurdo has added several fine wardrobes to his tailor shop, to keep the latest fashions from getting on the clothing he sells. He is also making other important improvements to his large establishment.

The funeral of Miss Jessie Weston of Rexton was held Friday afternoon, and was very largely attended. Interment was made in the English cemetery at Richibucto. Rev. Mr. Martin conducted the services.

Mr. W. W. Macpherson of Kingston, Ontario, has been transferred from Montreal, where he was foreign agent, to St. John, where he succeeds Mr. J. N. Sutcliffe as general freight agent for the C. P. R.

Mr. George H. King of Chipman has returned from Cranbrook, B. C. He says his brother Malcolm was much improved in health, and out of danger. Senator King was in the trip with him, and returned as far as Ottawa.

Champion Morris Wood, will sail in Victoria Klak, St. John, tomorrow night. Wood has been defeated by Logan and Price of St. John, although he defeated Logan at Pittsburg. Maritime Champion Bart Duff will also be in the race, which will be exciting.

Mr. Alexander Gibson, son of Maryville, who has been very ill for more than a week, is considerably improved and now thought to be out of danger. On account of his great age, the doctors think that he will not live long, but his condition is such that he will live long enough to see his family.

Mr. Arthur LeBlanc, barrister, left Moncton Monday night for Saskatoon, Saskatchewan, where he will engage in real estate business. Sunday evening, La Societe des Artisans Canadiens Francais, of which he was president, presented him with an address and purse.

The Fredericton Boom Co., the People's Bank, and the liquidators have agreed that the property of the Boom Co. shall be sold in the St. John River Logging Co., and that the liabilities of the Boom Co. shall be paid by an issue of bonds, secured by lien on the property so taken over, repayable at the rate of \$3000 a year with interest on the bonds outstanding. The Boom Co. owed about \$60,000. A bill of the above tenor will be introduced to the Legislature this time.

Fire broke out at Woodstock about 11.30 p. m., Friday night, in the building occupied by Sullivan Bros., pool room and bowling alley on Main street next the Carleton Hotel, and burned the wooden block extending to the east office, destroying seven buildings, all of which were occupied. The Carleton Hotel was saved. The buildings were a total loss, but much of the stock was saved. The loss is estimated at twenty-five thousand dollars, of which fifteen thousand is covered by insurance. The telephone exchange and fixtures were totally destroyed and the town is without telephone service.

The U. N. B. won from the Chatham Y. M. C. A. boys in the basketball game in Chatham, Friday night, by 25 to 11.

Last night a number of the members of Newcastle Division made a fraternal visit to Caledonia Division, Douglstown.

The Miramichi Lumber Co. cut this winter will be about 24,000,000 feet. Their last crew left the woods on Saturday. 11,000,000 feet were cut on Taxis River.

The Chatham Firemen have started a cribbage tournament, playing the first series of games last night. First, second, third and fourth prizes are offered by the committee in charge, of which Mr. Albert McLennan is chairman.

The funeral of Mr. Allan Raymond Allison, son of Mr. and Mrs. James Allison of Chaplin Island Road, took place at St. James' Cemetery yesterday afternoon, Rev. H. C. Rice officiating. Deceased was but twenty years old.

At the hundredth birthday of Mr. Francis Harvey at St. John, on the 25th ult., five generations, including some 60 or 70 of Mr. Harvey's descendants were present. Most of the latter live in St. John, and others at Salmon Creek, Queens' Co. Mr. Harvey was presented with an arm chair.

Mr. J. D. Paulin, who has graduated from Mr. Michael Bannan's establishment, has entered business on his own account, having opened up a general store on Castle street last week. Mr. Paulin has been an excellent salesman, and no doubt will make a success of his new venture.

The members of St. Andrew's church choir gave their annual musical entertainment at the clubhouse Friday evening. Chorus were sung by the choir and instrumental selections rendered by the McEachern orchestra. Rev. Mr. Baird and Rev. Mr. MacLachlan were also present. The entertainment was most successful, and the members of the choir were very well received.

The preliminary examination of J. W. Correll, publisher of the Victoria County News, who is charged with having criminally libelled D. Reid Bedell in his newspaper, was held before Police Magistrate McQuarrie at Andover on the 25th ult. The complainant, D. Reid Bedell, swore that the article printed was grossly libellous and damaged him both as regards his family and business. The defendant was committed for trial at the next Victoria Circuit court, which met yesterday.

## ST. PATRICK'S DAY AT NEWCASTLE.

The Convent pupils assisted by members of the St. Mary's church choir will, in the Opera House, Newcastle, celebrate the National Festival, by concerts on Saturday 16th and Monday the 18th of March.

The selections to be placed on the stage by this union of "all the talents" are of the choicest kind. We understand that a special train from Indian town will convey on Monday patrons to and from Newcastle.

See for particulars the Advertisement in our next issue.

The funeral of Mrs. Henry Kelly of Chatham took place Friday morning, burial being in St. Michael's cemetery. Requiem high mass was celebrated in the cathedral by Rev. Father O'Keefe, Bishop Barry and Father Conway also being in the sanctuary. Michael Keoughan, Michael Hickey, George Sutton, William Connors, Edward Barry and Richard D. Walsh were the pall-bearers. Deceased was about sixty-eight years old, and besides her husband, she leaves four daughters—Mrs. McGregor, of Colorado; Mrs. B. Hickey, of Bathurst; and Mrs. J. J. Noonan and Miss Gussie, of Chatham, and three sons—Arthur and James, now in the United States.

## Social and Personal.
