## European Intelligence.

### Arrival of the Asia.

NEW YORK, Oct. 32. The steamer Asia, from Liverpool, Oct. 16th, arrived this morning. No political news worth telegraphing. The steamer Kangaroo, Khersonese, and Washington, had arrived out. The Khersonese on her passage met an iceberg 150 feet high, of large extent, drifting South. The London Market was more stringent. The decrease of bullion in the Bank of England for the week was £64,000. Consols closed at 91 1/2. Cotton active at previous quotations. Flour and wheat slightly easier. Corn advanced 6d. to 1s. The weather was wet and boisterous. The Markets generally range the same as per Atlantic.

A SALE VISITOR.—During the past week, this city has been visited by Laurence Oliphant, Esq., who landed lately at Halifax, and passed thro' this Province, on his way to the United States and Central America. Mr. Oliphant is the author of the interesting book entitled "Russia and the Shore of the Black Sea," and of several other works, beside being a regular contributor to "Blackwood's Magazine." During the latter part of Lord Elgin's administration in Canada, Mr. Oliphant filled the office of Civil Secretary and Superintendent of Indian Affairs. He left Canada with Lord Elgin, and proceeded to the Crimea, where he was attached to the army of Omar Pasha, with which he proceeded to Asia, in the hope of being able to relieve Gen. Williams, then closely besieged at Kars.

It is said that the Governorship of more than one Colony has been offered to Mr. Oliphant, and respectfully declined. We should not be surprised at a future day to see some notices of New Brunswick either in Blackwood's Magazine, or in the account of Mr. Oliphant's travels. (New Brunswick.)

Col. Robinson, R. E. Lady and family came passengers in the last Steamer from Newfoundland. We understand that this able officer, well known in this community in connexion with the Government Survey of the Railroad track to Quebec, and subsequently employed in settling the Boundary between Canada and New Brunswick, is now on his way to perform a similar and arduous duty in the far distant region of Vancouver's Island, situated on the North West Coast of America, in the neighborhood of the territory of Oregon. This region a few years ago would have been regarded about on the other side of creation, but since California has started into notice, that coast of the Pacific is regularly traversed by Steamers, up to Oregon and perhaps beyond it, and by the Panama route, is probably within reach by mail communication of about 30 or 35 days from Halifax. Col. Robinson, we believe, is married to a daughter of our respected Prothonotary, J. W. Nutting, Esq. (Halifax paper.)

LIGHTHOUSE ON CAPE RACE.—The Imperial Board of Trade has issued a notice that the Lighthouse on Cape Race, Newfoundland, will be ready for exhibition on the 15th of December next. The following is a copy:—

"Notice to Mariners.—Cape Race Light, Newfoundland. The Lords of the Committee of Privy Council for Trade give Notice,—"That the Lighthouse recently erected upon Cape Race (Newfoundland) will be lighted and will continue to exhibit a FIXED WHITE LIGHT, from sunset to sunrise, on and after the 15th of December, 1856.

"The light will be visible to seaward from N. E. by E. round the S. E. and south to west.

"The light is elevated 150 feet above mean water level of the sea, and may be seen in clear weather 17 miles from a ship's deck. The tower is striped red and white vertically. It stands close to the old beacon, which has been cut down.

"The lighthouse is in lat. 46° 39' 12" N. long. 53° 2' 38" W.

"[All bearings are Magnetic. Variation 24° W.]

"Board of Trade, Sept. 1856.

"N. B. A toll will be levied upon all vessels benefiting by this light."

SHOCKING MURDER BY A BOY.—A shocking murder was committed on Saturday the 11th inst., in the township of Garafra, about two miles from Fergus. Both the murderer and his victim were boys, the former about 14 years of age, and the latter about 12. The deceased had been sent on errand with a bottle of yeast. When found afterwards, he was lying dead, stripped to the shirt, with the side of his head very much swollen and a large gash on his neck near the throat. It is thought that the boy who killed him, had taken the bottle from him and broken it by a blow on his head, and then used the broken glass to cut his throat. The only motive as yet supposed to investigate to the homicide, was to get possession of the boy's clothes, which were good, as after the murder he had stripped his victim and taken the clothes to a tavern. The clothes were found much covered with blood, but the youthful murderer had attempted to escape. About 200 individuals were scouring the country in search of him, and there is every probability that he will be captured. (Canada paper.)

Among the recent promotions in the Ar-

my, we notice the name of a Nova-Scotian, Major General William George Cochran, to be Lieutenant General.

### GOOD NEWS.

We have at length some news to tell, and it is good news. There is no doubt that the Messrs. Byrne and Bates, agents of the new St. Andrews Railway Company, on their recent visit to Fredericton, satisfied the Government that the representations lately made in some of the Provincial papers are correct; that a new company has been formed and has received the transfer of the stock, &c.; that the most influential members of the old company are connected with the new and still feel an interest in the undertaking; that ample means are now available, and that the work will be prosecuted with energy and all possible despatch. This is indeed good news for St. Andrews and the Province, and there is every reason to feel assured that it is perfectly reliable. The Government, we may be certain did all that it was their duty to do under the circumstances; and no doubt the din of preparation will soon be heard from Charlotte, and we shall soon have to record that operations have been resumed there with new energy. (Freeman.)

### LATE CALIFORNIA NEWS.

The steamer Illinois arrived at New York on Tuesday afternoon. She brought 400 passengers and nearly \$1,700,000 in specie. Business in San Francisco is improving. Mining intelligence is encouraging. Ex-Governor McDougall was arrested on his arrival out, on charge of illegal voting. The Illinois connected with the Golden Gate, which brought down \$215,000 in specie.

The British ships of the line, Monarch from Vancouver's Island, and the war-steamer Brisk from Panama, had arrived at San Francisco.

The papers publish a letter from Col. Fremont in answer to a letter of inquiry, addressed by the editor of the San Francisco Bulletin to the three Presidential candidates. The other candidates did not answer. The Bulletin says Fremont's letter has given great satisfaction to the citizens generally.

The Jury in the case of Ex-Collector Hammond, on trial for embezzling the public monies had disagreed.

The Grand Jury of San Mateo county has found an indictment against Ex-Governor McDougall for fraud at the May election—he was held to bail in \$5000.

There is nothing important from the 15th.

Dr. Armstrong was murdered near Sacramento by a man named Colebrook. While the latter was being examined, the citizens broke into court, carried the officers, and seizing the prisoner, carried him off and hung him upon a tree.

Dr. John Marsh, a graduate of Harvard University, was murdered at his ranch near Martinez, by a Spaniard.

The suit of Messrs. v. Sanderland has been decided in the Supreme Court, in favour of the plaintiff, giving him a title to one third of the city of Sacramento, worth \$3,000,000.

On Friday night last, (wind blowing very strong from N.W.) John and Joseph Naugle, brothers, left the Eastern Passage in an open boat for the city, laden with fish; and as they had not arrived on Saturday, it is supposed that the boat must have foundered, and the unfortunate young men met a watery grave. (Halifax Journal.)

SAD ACCIDENT FROM THE EXPLOSION OF A LAMP, Philadelphia, October 25. A lamp exploded last night, in the house of Mr. Richard Moore, in consequence of which Mr. Moore, his wife, and their five children were so shockingly burnt by their clothes taking fire, that three of the children have since died, and the two others are not expected to live. Mr. and Mrs. M. may possibly recover.

BISHOP ONDERDONK.—New York, Oct. 22.—The House of Bishops yesterday remitted the sentence of suspension against Bishop Onderdonk, pronounced 12 years ago. He resumes his ministerial functions next Sunday, preaching in the Churches of Ascension and Trinity.

ANOTHER SEAVER SEIZED.—The extent to which slavers are fitted out in New York, is evidenced by the number of seizures made. The bark Paschita was seized last week off Sandy Hook, by the officers and crew of the Revenue Cutter Washington. As she was boarded the supercargo attempted to throw her papers overboard, but they were recovered and disclosed full evidence of the illegality of her voyage. On board was one De Cunha, who was recently tried for being concerned in fitting out a slaver, and acquitted. We are curious to know if the federal authorities at New York will contrive to let him escape again. The vessel will probably be condemned, the slavers permitted to go free.

GREAT FIRES IN THE WOODS AND SWAMP.—The Rochester Democrat gives publicity to distressing accounts of the suffering in Michigan in consequence of the dense smoke from the marsh and bog fires. In the vicinity of Battle Creek it is said that consumptive persons have died in spasms, cattle have suffocated, and poultry dropped over. Thousands of acres have been burnt over, and immense damage has been caused to property. The smoke was so dense and the air so quiet for a few days, preventing the

smoke from being blown away, that many people lost their way on the public roads.

There are extensive fires in the woods and marshes of Canada, and serious losses have resulted. The smoke from them interferes with the navigation of the lakes.

We regret to learn that the Rev. Mr. Pickles on his way to the lower Wesleyan Chapel last Sunday morning, was thrown down with much violence by a runaway horse, and fell under the wheels of the carriage which was attached to the horse, receiving severe bruises on the arms and legs, and only escaped more serious injury by the merciful interposition of Providence. We are happy to learn that the Rev. gentleman is rapidly recovering, and expects to resume his public duties next Sabbath. (Yarmouth Herald.)

AS ENORMOUS CARGO.—The monster ship Ocean Monarch, Capt. Page, for Liverpool, completed loading at New York last week. She has the following enormous cargo on board, viz:—One hundred and twenty thousand bushels of wheat and corn, one hundred and fifty bushels tierces rice, and one hundred and fifty tons fustic. She has still the capacity in her upper deck for fifty thousand more bushels; but owing to her heavy draught of water, being 23 feet, her owner deemed it prudent to despatch her with her main deck empty.

DESTRUCTIVE FIRE IN BOSTON.—At about 11 o'clock last night, Webster's extensive rope-walk, on Northampton street, was found to be on fire, and before sufficient assistance arrived to quell the flames, the building with most of its contents was in ashes. Various estimates are made upon the probable loss, most of which state it in the vicinity of \$100,000. There is said to have been a large quantity of hemp and other stock on the premises. Insurance not ascertained. (Boston Journal, 29th.)

DISCOVERY IN GOLD EXTRACTORS.—Two well known chemists of San Francisco, Messrs. Chevalier and Dumasau, have discovered a principle by which gold may be extracted from any material in which it may be hid—the different sulphates, oxides, &c., which, under present modes, defy the penetration of quicksilver, yielding their auriferous infinitesimal particles at once to this principle. It is alleged that seventy-five per cent. of the gold in quartz mines is wasted through ignorance of the operators, but this discovery will, it is claimed, produce an entire revolution in this respect.

## The Standard.

ST. ANDREWS, NOV. 5, 1856.

The shallow attempts of the Opposition to decry, misstate, and sneer at the laudable efforts of the Administration to push on the great Public Works in the Province, and also for the settlement of Crown lands, and promote emigration, are so apparent, that they are hardly worth a passing notice; still it is neither right nor politic to permit their wholesale denunciations to pass, without pointing out their false premises and erroneous conclusions. They assert, that the beneficial measures of the present Executive, originated with the radicals. Now, in common fairness, they should have admitted that the Railway scheme originated with the Government under Street and Partelow, and that they were prepared to carry it out had they not been, (to use the mildest term,) ousted. But the radical leaders have received the reward of their treachery. Yet they will not profit by the lesson; for they charge our present rulers with inconsistency, want of administrative talent, corruption, and other mendacious; their vocabulary has been searched for hard names and harsh epithets, and no means are left untried nor efforts spared to render the present Cabinet unpopular.

Notwithstanding, however, the malicious shafts of the Opposition, hurled with a will deserving of a better cause, we may safely record, that the Government is becoming every day more popular throughout the Province, even in the radical Counties. Every unprejudiced man will admit that the policy of the late Council—was men, not measures; popularity with them was the sine qua non. The fact is, it is our rulers, and not their measures, that the self-styled liberals are carping at; for they know well, that the Government has satisfied the Country so far, being both progressive and economical; that they not only understand the wants and wishes of the people, but are determined to meet them. In proof of this we need only mention that it is reported on good authority, that the Council at its sitting last week, decided to carry on the lines of Railway with vigor—that they have organized a new plan for the settlement of Crown lands, and also a comprehensive scheme for peopling the Province by immigration. In a word, they are adopting the most politic measures to promote the best interests of the Province, and are in truth and deed a Working Government.

The Provincial Newspapers, we are pleased to observe, now admit that the St. Andrews & Quebec Railroad, or, more properly speaking, the section between St. Andrews and Woodstock, will soon be completed. No doubt of it; and this railway will be the main trunk, connecting Canada with the lower Provinces. The outer harbour is spacious, affording excellent anchorage for vessels of any size, and was never known to be frozen over.

NEW LIGHT HOUSE.—The British Government have recently caused to be erected a new Light House on Cape Race, Newfoundland, a notice of which we have transferred to our columns.

SCIENTIFIC AMERICAN.—We have heretofore noticed this useful Scientific Journal; and have much pleasure in again directing the attention of Mechanics to one of the cheapest, we may safely say, best works of the kind issued in America. It is devoted chiefly to Mechanic Arts, Manufactures, Patents, Inventions, Engineering, Millwork, and Agriculture; and is illustrated with original designs, and contains the most valuable patented discoveries. This paper is published weekly, by Messrs. Munn & Co., New York, at \$2 per annum in advance. The paper should be patronized by every Mechanic.

The Parish of St. Andrews the present season, has raised more turnips than in any previous year. Upwards of eight schooners have been loaded with these roots, for Boston, Eastport, Calais, St. John and St. Stephens, and at the present time there are two vessels at the Market Wharf taking in turnips. One vessel left here on Friday with 800 bushels, besides a large number of carrots and parsnips in barrels. We hope our agricultural friends will realize good prices.

Our attention has been directed to that portion of Water Street from a little above Princess Street towards Indian Point. The road bed is worn out and requires to be filled in. Will the Commissioners have it attended to?

We learn that some of the owners of the land in the "burnt district," are getting out frames for the purpose of erecting stores and dwellings on the old foundations. As bricks can now be purchased almost as low as lumber, would it not be advisable to put up a row of brick buildings, which would not only be cheaper in the end, but also an ornament to the Town. We also learn that several persons intend erecting dwellings in the spring.

The Great Boat Race between the "Xiphias" of Indian Point, and the "Neptune" of Carleton, took place in the harbor of St. John on Monday afternoon, and resulted in favour of the Carleton boat, the Neptune. It is reported here that one of the oarsmen from Indian Point, who had his arm broken some time since, gave out.

The Fall term of the Court of Nisi Prius for this County, was opened on Tuesday.—His Honor Mr. Justice Parker presiding.—We understand there were ten causes entered for trial.

We are much pleased to notice the improvement which is being made in that part of Woodstock lying south of the Maduskik, and the increase of business in that direction.

Mr. Lindsay has, in his fine new building, one of the largest and best stocks of Hardware, &c. ever imported into this place. Mr. B. H. Smith has a good and well assorted stock of Dry Goods and Groceries; and a very handsome addition to the stores in that locality has, within a few weeks, been made by Mr. E. J. Smith, who has erected a large and commodious house, and finished the lower flat into a store of very extensive accommodation, and presenting an extremely handsome and attractive appearance—at once a credit to the town, and to the enterprising proprietor, who occupies it himself, carrying on a general business.

At the Lower Corner, Mr. H. Bull has likewise a very neat and convenient place of business.—[Sentinel.]

The body of a new born Male Child was found in a building a short distance above this village, on Tuesday last. The appearance of the body indicated that it had met a violent death; such seems to have been the opinion of the Jury who sat on the Inquest, as they returned a verdict of "wilful murder" against some person or persons unknown.—[H.]

POTATOES.—The crop is reported healthy and abundant in the Western counties of this Province. Speculators from the United States are in the field as purchasers. The price is said to be 2s. 6d. per bushel.—Nova Scotian.

PERRY DAVIS' PAIN KILLER cures like magic. The first application often removes

the severest pains external and internal. Tooth ache is immediately relieved by applying the medicine. If any doubt its magic power, let them give it a trial—it costs only 25 cents. Sold by druggists generally in the United States and Canada.

Holloway's Ointment and Pills an infallible remedy for ulcerous sores.—Jeremy Arbutnot, of Kingston, Canada, was afflicted with two ulcerous sores on his legs, 5 on his arms, and three on his body, he suffered immensely whether lying down or sitting up, and the greatest pain, in short his life was a misery to him, and although he tried a variety of medicines and lotions he did not get better. A friend persuaded him to try the effect of Holloway's Ointment and Pills, these remedies combined, immediately acted upon the system, cleansed the blood, healed the ulcers and thoroughly restored him to health in nine weeks, although he expected to be a cripple for life.

### NOTICE.

THE subscriber takes this opportunity to thank the Public for all past favours, and begs leave to inform them, that he has REMOVED to the Corner formerly occupied by Mr. S. Gerry, where he has just received, in addition to his former stock,—

200 Barrels Philadelphia FLOUR, ground from new wheat,

St. John, 9th April, 1856.

Ufford's Smoke Consuming Patent Lamp.

Is warranted to produce, without smoke and with only the poorest quality of oil or grease, at an expense of less than half a cent per hour, a light equal at least to four wax candles. Extremely simple and durable, less injurious to the eyes than any other artificial light, and will prove the truth of these statements.

Price \$1 25, 83c. 67c.

We have one of the Lamps in use, and are able to confirm to the favorable testimony of the Traveller, having found it answering well to what it claimed for it. (Paritien Recorder.)

No person who has ever tried one of the Lamps could be willing to give it up for ten times its cost, if it could not be replaced. (New England Farmer.)

Boston, 117 Court street, head of Southbury.

PARKS & FOLSON, 238, Washington St., Boston.

P. & F. would respectfully give notice, that they still continue to manufacture the Melodeon and Seraphine, in a variety of styles, which, in point of finish and tone, are not surpassed by any other manufacturers. Also, the Melodeon Organ, with a sub bass, suitable for Churches, Vestries and Halls. The public are invited to call and examine before purchasing.

Dealers supplied on favorable terms.

## CHARLOTTE COUNTY AGRICULTURAL SOCIETY'S CATTLE SHOW & FAIR.

THE HOUSE at present occupied by Mr. Joseph Walton, on the corner of Water & Elizabeth streets; to which is attached a large Garden. Possession given 1st May next. Apply to

G. F. CAMPBELL. St. Andrews, 26th March 1855.

## E. D. SPEAR, INDIAN DOCTOR.

18 Kneeland Street, BOSTON, Mass.

THE great success which has ever attended the Indian Practice of Medicine, as perfected by E. D. SPEAR, M.D., excites envy in the hearts of the many advocates of Mercury. Many of his remedies, as the public have already learned from newspapers of the day, are prepared from recipes which are believed to have originally been received from the Indians one hundred and seventy five years ago. No other remedies deserve the name of Indian.

DR. SPEAR'S GREAT INDIAN MEDICINES. (For names and description see his "Family Physician"—to be had, free, at his office, or sent to order, prepaid on receipt of a paper postage stamp.)

Are certain cures for Asthma, Ague and Fever, Barber's Itch, Boils, Bronchitis, Cancer, Canker, Colds, Consumption, Coughs, Costiveness, Cramps, Debility, Diabetes, Derangement of the Bowels, all humors in the blood, Giddiness, Headache, Inflammation of the Eyes, Giddiness, Kidney Complaints, Liver Complaints, Loss of Hair, Lumbago, Milk Leg, Nightmare, Palpitation of the Heart, Pains in the side, back, and other parts of the body, Painful Menstruation, Pin Worms, Rheumatism, Salt Rheum, Scald Head, Scrofula, Shortness of Breath, Sore Throat, Spinal Complaints, Strangury, &c.

Dr. Spear's Female Medicines have become very celebrated, and it is now admitted that his treatment of Female Weaknesses, Protrusion Uteri, Irregularities and Suppressions is far superior to every other treatment for these complaints.

DR. SPEAR. Is also celebrated in the treatment of children. His medicines being vegetable, do not poison the system.

Dr. Spear is now being visited by one thousand patients every month, some of whom travel hundreds of miles to consult him and to obtain his medicines.

Dr. S. will warrant a cure in every curable case. After giving his remedies a fair trial, if a cure is not effected, he will pay any other physician, who will effect a cure, his bill, not exceeding \$100. Persons at a distance can consult him by letter, enclosing a stamp to pay the answer.

Dr. Spear consults with patients at his Office No 18 Kneeland Street upon all conditions and diseases of the system, free of any charge.

LET US REASON TOGETHER.

## HOLLOWAY'S PILLS.

WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

## THESE PILLS PURIFY THE BLOOD.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

## DYSPEPSIA AND LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to those organs, however much deranged, and when all other means have failed.

## GENERAL DEBILITY. ILL HEALTH.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses.—Learned Colleges admit that this medicine is the best remedy ever known for persons in delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

## FEMALE COMPLAINTS.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:—

- |                            |                               |
|----------------------------|-------------------------------|
| Ague                       | Jaundice                      |
| Asthma                     | Liver complaints              |
| Bilious complaints         | Lumbago                       |
| Bleaches on the skin       | Piles                         |
| Bowel complaints           | Rheumatism                    |
| Colic                      | Retention of Urine            |
| Constipation of the Bowels | Scrofula, or King's Evil      |
| Consumption                | Sore Throat                   |
| Debility                   | Stone and Gravel              |
| Dropsy                     | Secondary symptoms            |
| Dysentery                  | Tic Douleur                   |
| Erysipelas                 | Tumours                       |
| Female Irregularities      | Ulcers                        |
| Fever of all kinds         | Veneral Affections            |
| Fits                       | Worms of all kinds            |
| Gout                       | Weakness, from whatever cause |
| Head-ache                  | &c. &c.                       |
| Indigestion                |                               |
| Inflammation               |                               |

## Best Superfine Flour.

Just received ex. schr. "Bonita" from Philadelphia, via Calais: 60 Barrels best superfine Philadelphia Flour. J. W. STREET. July 9th 1856.

## A MARVELLOUS REMEDY FOR A MARVELLOUS AGE!

### Holloway's Ointment.

#### THE GRAND EXTERNAL REMEDY.

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to and organ or inward part. Diseases of the Kidneys, disorders of the Liver, affections of the Heart, Inflammation of the Lungs, Asthma, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through pores or meat of any thickness. This healing Ointment for more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

### ERYSIPELAS, RHEUMATISM AND SCORBUTIC HUMOURS.

No remedy has ever done so much for the cure of diseases of the Skin, as this Ointment. Scurvy, Sore Heads, Scrofula, or Erysipelas, cannot long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

### SORE LEGS, SORE BREASTS, WOUNDS & ULCERS.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumours. Professor Holloway has dispatched to the East large shipments of this Ointment, to be used in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years standing.

### PILES AND FISTULAS.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot. Both the Ointment and Pills should be used in the following cases:

- |                    |                             |
|--------------------|-----------------------------|
| Bad Legs           | Chiefo-foot                 |
| Bad Breasts        | Chilblains                  |
| Burns              | Chapped hands               |
| Bunions            | Corns (soft)                |
| Bite of Mosquitoes | Cancers                     |
| and Sand Flies     | Contracted and Stiff Joints |
| Croup—by           | Fistulas                    |
| Elephantiasis      | Glandular Swelling          |
| Gout               | Lumbago                     |
| Scurvy             | Piles                       |
| Sore Heads         | Rheumatism                  |
| Tumours            | Scalds                      |
| Ulcers             | Sore Nipples.               |
| Wounds             |                             |
| Yaws               |                             |

Sold at the Establishment of Professor HOLLOWAY, 244 Strand, (near Temple Bar) London, and 50 Maiden Lane New York also by all respectable Druggists, and Dealers in Medicines throughout the Civilized World, in Pots at 1s. 3d., 3s. 3d. and 5s. 6d. each Pot.
