TAFT TALKS OF ANARCHY

Tells Roosevelt Cuba is Now in a Fearful Ferment

Failure of Peace Negotiations Indicates That American Intervention is Near at Hand

Havana, Sept. 21.—It is understood here that secretary Taft has sent a gloomy message to President Roosevelt, saying that private reports received by him from the interior are to the effect that a state bordering upon anarchy prevails throughout almost the entire island, an exception being made of the section on the coast. It is known that secretary Taft has decided absolutely not to treat with the armed forces.

This is taken to mean that American intervention and American occupation must inevitably follow. Intervention, as contemplated, would mean the taking over of the affairs of the entire island, and some final settlement. The arrival today of three of the largest United States battleships and two cruisers, besides those already here, has had little effect on the insurgents in the field. A meeting at the executive committee of the moderate party was hastily summoned this evening, and it was voted unanimously to accept whatever disposition the secretary should make.

Secretary Taft has cabled to president Roosevelt regarding the gravity of the situation and Mr. Roosevelt is expected to dictate the program of his commissioners. A demonstration was made today by armed revolutionists within a mile of the scene of the peace conference. General Acosta with 300 insurgents encamped at La Lisa, west of minister Morgan's villa at Mariano and a half mile eastward were rural guards, militia and mounted police. At the insurgent camp the Associated Press correspondents were told that the object of the insurgents in coming so close was to show secretary Taft how completely Havana was in their grasp.

Pino Guerra's augmented force is only a short distance away. He was advancing to camp just outside of Mariano, when the fact was called to the attention of secretary Taft. Mr. Taft was greatly displeased and senator Zayas and Charles Hernandez, former postmaster of Havana, were dispatched to met Guerra with the result that the latter turned back. In addition to Zayas' party, major-Lopez of the United States army, last night, and Messrs. Taft and Bacon their exact strength. Guerra's army is well equipped and in addition to far better mounts than the government forces, the insurgents have plenty of arms and ammunition, as well as several machine guns. Senator Zayas has ordered general Acosta and army to move his army away from Havana. When the insurgents were ordered away from La Lisa, secretary Taft requested general Hernandez to withdraw the rural guards from Mariano, and by tomorrow only mounted police will surround minister Morgan's villa.

The Associated Press correspondent today visited general Acosta and was permitted to scrutinize the equipment of the insurgents. General Acosta said if the government was upheld by the mediators he would continue fighting for the rightness of the cause. Messrs. Taft and Bacon received today, besides an American committee, secretary Montalvo, the chief of the rural guards, vice-president Mendez, captain Alfredo Zayas and several bankers and commercial men.

Vice-president Mendez tonight visited secretary Taft, taking with him this resolution, adopted by the moderate party: "Resolved that we submit absolutely to the United States military commission on condition that the rebels surrender their arms and legally promise to accept and comply with such decision, whatever it may be." Alfredo Zayas tonight said he was not unhopeful of the success of the peace negotiations. He had received no impression that secretary Taft feared a failure.

FOSTER'S FINANCING Toronto, Sept. 21.—How Hon. G. E. Foster came to be connected with the Union Trust company, a subsidiary company of the Independent Order of Foresters, was disclosed to the insurance commission yesterday afternoon by Dr. Oronhatekha. That Foster should be the manager was first suggested by Wm. Laidlaw and Oronhatekha thought it was a brilliant idea.

and at once put himself in communication with Foster, who accepted the position. It was Foster who suggested that the Union Trust company should not be mixed up with the Provincial Trust company. Exhibits filed by special counsel show that the Union Trust company was incorporated on Aug. 1, 1904, and that on Sept. 2 the supreme court of the L.O.F. entered into an agreement with the Union Trust company for the investment and guarantee of its funds. Mr. Shepley called attention to the fact that no where in the minutes of L.O.F. was to be found direct authority for taking up stock of the Union Trust company. Dr. Oronhatekha said that might be so, but the principle of the matter was that the company was, he thought, confirmed at the Los Angeles meeting of the supreme court, and that the action of the executive had since been ratified. Shepley pointed out that long before the ratification the money of the Foresters had been put into the capital stock of the trust company.

THE DIRECTORS met last evening and discussed the difficulty raised by Mr. Adams on behalf of district No. 2. It was unanimously decided that the board of directors could take no further action in the matter, than they had already done and the secretary was instructed to point out to him that, at his own request, the President's Cup had been handed to him and had been exhibited for two days at the fair as part of district No. 2's display.

An explanatory of their action all through the matter the directors, through Capt. McMorris, state as follows: "The rules governing contests and the Judge's decision are as follows: "19.—The decision of the judges is final, and they have special powers to withhold or modify prizes where the exhibitors are not worthy. "20.—Any protest must be lodged with the secretary, in writing, before 4 o'clock on the first day of the show, and the decision of the directors on all matters arising under these rules shall be final. A deposit of \$1.00 to be lodged with all such protests, to be refunded if protest is sustained."

Decision Reached by the Trades and Labor Congress

New Organization Will be Known as "Canadian Labor Party"—Complete Platform Adopted

Victoria, Sept. 21.—By a vote of 68 to 7, the trades and labor congress this afternoon decided to form a new political party in Canada under the name of the "Canadian labor party."

The subject was reported at the morning session and was under debate when recess was taken. On reassembling, the debate was continued and the constitution and platform of the new party was finally adopted on the above division. The first business of importance before today's session of the congress was the matter of the Sheet Metal Workers' trouble at Montreal. The following resolution was passed: "Resolved that this congress heartily endorse the efforts of the Sheet Metal Workers to secure the decision of the privy council in the suit against the local union No. 30, and the executive be instructed to take the most effective means available to aid the Sheet Metal Workers financially in reaching the privy council."

A resolution was approved expressing confidence in the innocence of Haywood, Moyer and Pettibone, of the Western Federation of Miners, held at Boise, Idaho, accused of assassinating ex-governor Steunenberg. A series of resolutions was adopted affirming the attitude of the congress with respect to state aided immigration and Asiatic labor. With respect to Hindu settlers, the resolution says that, on account of the disease prevalent among them, these people are "absolutely unfit to be allowed into this country, and that by reason of practices obtaining among Hindus as a people they should be altogether excluded from Canada, apart from the fact that their presence among us must necessarily tend to lower the standard of living among the working elements of Canada."

ALARM WAS UNFOUNDED JEWISH NEW YEAR PASSED OFF QUIETLY IN RUSSIA. BOMB THROWN BY TERRORISTS EXPLODES HARMLESSLY. St. Petersburg, Sept. 21.—The suburb of St. Petersburg adjoining the Narva gate was shaken today by the explosion of a powerful bomb which was thrown by one of the Jews, dressed in a suit and which tore an enormous hole in the ground and broke all the windows in the vicinity. There was no loss of life. The bomb throwers disappeared before the arrival of the police. As the bomb was thrown in an open space from which the throwers had previously warned away all passersby and cab drivers, the event is explainable only on the supposition that the bomb had been intended for use in connection with the terrorist plot which was discovered at Peterhof at the time of general Trepoff's funeral, and that the conspirators, finding that the police were upon their trail, decided to rid of incriminating evidence. Since the first batch of arrests in connection with the Peterhof plot, the police have apprehended a large number of suspects, and it is believed that the nature of the plot has been obtainable. A reactionary journal here today prints a story that the terrorists are contemplating the inauguration tomorrow of a campaign of armed attacks on police and army garrisons in St. Petersburg, such as recently was inaugurated at Warsaw. The story cannot be confirmed. The Jewish new year today passed off without any events to justify the widely heralded predictions of anti-Jewish excesses at Warsaw, Kiev, Odessa and other Russian cities. Up to midnight there had been no reports received here of anti-Jewish disorders anywhere in Russia. Premier Stolypin called today on board the yacht "Neva" to join emperor Nicholas in the gulf of Finland and submit to him reports regarding immediate action. This is taken as an indication that the emperor intends to prolong his cruise for several days.

THE MONGOLIA FLOATED. Honolulu, Sept. 21.—The steamer Mongolia, which was the first prize of the land, was floated at 8 o'clock today. She is expected to reach here under her own steam.

LOOKING FOR THE STORK. San Sebastian, Sept. 21.—It is semi-officially announced that the queen of Spain is in an interesting condition. Princess Ena of Battenberg, now queen Victoria, and king Alfonso of Spain, were married on May 31.

SUCCESS TO SUCCEED SEDGEWICK. Montreal, Sept. 21.—An Ottawa dispatch says the name of Mr. Justice Duff of the supreme court of British Columbia, is mentioned in connection with the vacancy on the supreme court bench at Ottawa, caused by the death of Mr. Justice Sedgewick.

KASLO REFUSES THE CUP

OUTCOME OF DISPUTE IN AWARD OF DISTRICT PRIZES.

FACTS OF THE CASE AND COPIES OF CORRESPONDENCE

A rather unfortunate dispute has arisen over the awarding of the district prize at the Kaslo exhibition. The prize consists of the "President's Cup" for the largest and best display of fruit and vegetables," by districts, and \$100 donated by the C. P. R. for the best general exhibit of fruit grown in British Columbia, entries to be made by districts.

For the purpose of this competition the directors divided the country up into 8 districts. Five or six districts competed at the exhibition, but the contest was admittedly narrowed down to two, districts No. 2 and No. 3. The first comes from Ainsworth. Kaslo and points north of Kaslo, in charge of Theodore F. Adams. Exhibit No. 4) comprises the country on the north shore of the arm of Kootenay lake from Hoover's ranch to Ainsworth, in charge of J. Hyslop and A. B. Shannon.

The directors present when Mr. Adams' protest was considered were: President, in the chair, J. A. Irving, J. McPhee, M. S. Parry, J. A. Kirkpatrick, John Hyslop, A. B. Shannon, W. S. Peary and D. C. McMorris, secretary. A. B. Shannon and John Hyslop did not vote in the matter under discussion. Mr. Adams' protest was considered clause by clause, and voted on, Shannon and Hyslop not voting, and the unanimous decision was not to sustain the protest, after hearing the explanatory evidence adduced by district No. 3, the directors considering that so far as district No. 2 was concerned the side of the case was presented in their protest.

The directors feel that they can not interfere in any way with the decision made by the judge R. M. Palmer. No question arises as to the time in which the protest was entered, the time being extended and the protest considered on its merits.

BRITAIN, U.S. AND NEWFOUNDLAND TALK OF FISHERIES. LATTER MAY HAVE TO YIELD TO U. S. UNDER BRITISH COERCION. St. Johns, Nfld., Sept. 21.—The representatives of American, British and Newfoundland governments are negotiating a modus vivendi regarding the winter herring fishery about to open on the west coast of Newfoundland. The Americans claim the right to use purse seines, the use of which is forbidden by the law of Newfoundland, because of the destructive effect of these contrivances. The British government, it is understood, qualifiedly admits the justice of the colonial protest, maintaining that the use of purse seines threatens the depletion of the herring stocks. American commissioner Alexander suggests a compromise through which the American fishermen would be accorded the privileges heretofore enjoyed by them. Should the Newfoundland government be unwilling to concede this point, it is feared that the British government will conclude an agreement with the Americans over the heads of the colonial commissioners.

DRILLED FOUR MILES. LONG DISTANCE RECORD HELD BY GRANBY COMPANY. STEADY OPERATIONS ON THE OLD LINES STILL CONTINUE. (Special to The Daily News) Phoenix, Sept. 21.—Two years ago this month the extensive exploitation of the Granby properties by means of the diamond drill was started, and has been continued up to the present, over 18,000 feet or exceeding three miles of drilling having been done on the several properties of the company in this camp. Including that previously done by the Granby the total is 22,900 feet, or over four miles. The following table shows the amount of drilling done each year: In 1904 3,148 feet In 1905 8,413 feet In 1906 (to Sept. 1) 7,150 feet Total 22,900 feet

The work in the last two years was mostly done on some of the properties acquired in recent years by the Granby Co., including the Monarch, Gold Drop, and Gold Drop fraction, where extensive mining operations are now being carried on. In addition some holes were drilled into the Victoria, Old Ironsides, Phoenix and Four of a kind properties, which belong to the original Granby company. While the other large companies operating in the Boundary own their own diamond drills and do the work themselves, the Granby Co. has always pre-

SUTHERLAND REFUSES

DECLINES ELECTION AS MISSIONARY SECRETARY. SENSATION SPRUNG ON METHODIST CONFERENCE

Montreal, Sept. 21.—The Methodist general conference at tonight's session elected a new editor for the Christian Guardian. Three ballots were necessary. Rev. W. H. Wright of Toronto, finally being chosen. The election of two general secretaries for missions resulted in the return of Rev. Dr. Sutherland and Rev. James Allen of Toronto. Dr. Sutherland declined the position and a committee was appointed to confer with him.

KILLED IN ELEVATOR. New York, Sept. 21.—Miss Sophie Higginbotham, 28 years old, a graduate Phoenix and assistant superintendent of the Brooklyn hospitals, was almost instantly killed by being caught in a falling elevator in the building of the hospital nurses' club. William Rawley, negro elevator boy, narrowly escaped death.

CARNIVAL'S GAY THROG

Closing Scene in Nelson's Fourth Fair Brilliant Spectacle

Fruit Exhibit to be Sent to New Westminster—New Record of Attendance and Receipts

The fancy dress carnival last night brought Nelson's fourth annual exhibition to a fitting close. There was plenty of rollicking fun going on in the closing hour and it was nearly 11 o'clock before the costumed participants in the carnival grew tired of their sport and, when all the confetti was used up, left the exhibitors in peace to tidy up their treasured exhibits.

While the attendance yesterday morning afternoon and evening was not quite up to the previous day, it was easily a record one for the fair, with this single exception. All day long the building was more or less crowded, and it being "Children's Day" any number of youngsters were very much in evidence.

During the afternoon, and particularly from 7.30 until the national anthem was played and sung at 10 o'clock, the grand stand was inconspicuously crowded, there being over a thousand on the seats at 8 o'clock last night.

The day's program of sports and events was very successfully carried out, and was varied enough to please every taste. The greatest interest was taken in the baseball match between the Kaslo and Nelson juniors, the "I" applauding the "kids" and "I" into the spirit of the game most "slashing."

As on the previous day the horse racing proved a drawing card and interested the majority of spectators mightily. The balloon ascent and the footrace, Indian sports and the cricket match were also successful programs. The large, fan-loving crowd that filled the grand stand and overflowed on to the terrace and grounds all the afternoon.

The Smi-Letta troupe's performances, after the fashion of the Chicago migration, already evidenced, of this most excellent aggregation of artists in their own particular line. It is some satisfaction to learn from the Chicago management of this and many other attractions, whose representative was here with the troupe last night, that so favorable an impression has been made of the fair and of this city itself, from an entertainment manager's standpoint, that Nelson has been placed on the company's regular list of cities to be catered to, and that next year the fair directors will be able to obtain, well in advance, a most desirable list of attractions for the exhibition. The Smi-Letta troupe, clever and most excellent artists as they are, are only some of the attractions controlled by the Chicago concern.

Under better conditions than on their first appearance, and amid other applause, Mrs. Parry and her charmingly costumed young ladies, again went through their exceedingly pretty Japanese parasol musical dance last night. The evident pleasure evinced by the audience, time and again, must have been some slight recompense for all the time and trouble taken with this excellent feature of this year's program.

About 8 o'clock figures of the carnival dress began making their appearance on the grounds and around the stage in front of the grand stand. Later many of the merry-makers were grouped on the stage and introduced to the audience. Then dancing, headed by Tom Procter and his "Braves," began, followed by comical throwing, and then the masqueraders spread all over the main building and thoroughly enjoyed themselves. A word for the steady good work of marshal Waterman, who was ever at his post of duty, and for the excellent performances of the city band, who uninterruptedly from dawn till well into the night, filled the air with the melodious strains of their excellently selected music, all through

Carmelac Stock Food IS THE BEST

FOURTH ANNUAL EXHIBITION

Magnificent Showing of Products of Kootenay Mines and Orchards—Today's Program of Attractions Will Ensure Record Attendance—Judging Finished in all Departments

(From Thursday's Daily)

The formal opening of Nelson's fourth annual exhibition took place yesterday afternoon shortly after 1 o'clock under most favorable conditions. The weather was absolutely perfect, a large and enthusiastic crowd was in attendance and the handsomely decorated main building contained easily the best and largest number of exhibits ever shown at an interior fair in this province.

About 1.30 R. M. Palmer, secretary of the provincial bureau of information, accompanied by J. J. Malone, president of the Agricultural and Industrial Association, and Fred Starkey, managing director, formally declared Nelson's fourth annual exhibition duly opened.

Mr. Palmer congratulated the directors on the excellent display of the resources of the district he saw before and around him. He pointed out that notwithstanding the great advance made over the first fair held three years ago, the time was coming when exhibits would be made of fruits produced in greater quantities and when the present excellent accommodation would have to be greatly extended and enlarged to meet pressing requirements for space.

Mr. Palmer thought the evident good understanding existing between the transportation companies and the ranchers was a subject for hearty congratulation, as the fine display made could not have been accomplished if such an understanding did not exist.

One of the most interesting features of the fair, was the striking metal display befitting the endless hidden wealth of the several districts comprised. That, together with the upspringing of manufactures, was being developed in Nelson one of the most populous and prosperous centers in the interior of the province. He had great pleasure in formally declaring Nelson's fourth annual exhibition duly opened.

So far as the main building was concerned yesterday the arrangements left little to be desired, and the large crowd in attendance was interested and delighted with the splendid display made. The arrangements for the bench show were wholly inadequate and unsatisfactory. The dogs shown were trotted out for Seattle, and most of the awards were made in the afternoon and the specials were disposed of in the evening.

The horse program for the afternoon, one of the most popular features of the fair, practically collapsed and only the balloon ascension took place about 4 o'clock. Professor ... the balloon was at a considerable height, nearly over the Daily News building, the torpedo was exploded and the parachute started on his parachute flight back to earth. The balloon floated back almost to the starting point and the professor attempted to land on Vernon street, nearly opposite the postoffice. The light and preventing, carried the man over the Hume warehouse, east of the post-office, and in attempting to fit the parachute he came down upon the roof of the building, and was obliged to apologize for faultily and belatedly to the spectators.

The horse races were postponed until the time to give a portion of their program in the evening. There was very naturally a great deal of grumbling and protest from the crowd that patiently waited for the best display of the various classes of horses during two mortal hours of waiting in the afternoon, but it is hoped that today's fine performance will make some amends for yesterday's unlucky fiasco.

In the evening the grand stand was packed with a large crowd of interested spectators who were treated to a performance of the Smt-Letta troupe of the Japanese parasol and fan dance, which was the popular presentation of the Japanese parasol and fan dance.

Neither cabinet display is to be regarded as representative of all exhaustively of the districts attempted to be covered and in this direction a better effort may be made in years to come, the point being covered not every mine but rather every mineral occurring in the various ores of any one or more districts.

The silver lead ores came next, the fine collection brought on by Messrs. H. M. Stevenson and J. W. Cockle easily securing the cup presented by the Hall Mines.

This collection was mounted on stands every bit as much attention being paid to small as to large specimens.

The cup for copper ores was taken by Trill was captured by E. W. Widdowson, the prize for the best display going to the Silver King. For the best display of Boundary ores G. W. Cornish captured the Grubby cup with the Strathmore mine. The dry ore exhibit of the Hewitt looked very well and was awarded the prize. Perhaps, however, the prize that gave the most satisfaction was that given for the best display of any individual prospect exhibited.

The horse races were postponed until the time to give a portion of their program in the evening. should be stopped tonight during the performance of the drill, at any cost.

Today's program is a splendid one. The exhibition buildings will be open from 9 a.m. and visitors will have an opportunity of seeing the exhibits with the prize cards annexed.

At 1.30 the balloon ascension will take place and at 1.45 the Phoenix and Rosebud teams will meet at baseball. At 2 o'clock the famous Smt-Letta troupe of six performers will give their full performance before the grand stand in five new acts.

At 4.45 Nelson will cross sticks with Revelstoke at lacrosse. The following will compose the Nelson team: W. Davison, Alf Jeffs, J. Thompson, H. Bell, Charles Jeffs, Albert Davidson, A. Bishop, W. Stood, A. Perrier, H. Manhart, R. Wallace, W. Greyerbell, L. Steel, R. Ball, and R. Bell.

The horse races will take place during the lacrosse match and in the evening the Smt-Letta troupe's performance and the Japanese parasol and fan drill will be given before the grand stand, where it will be noted that no mention is made of a review of the fruit show and other features of the fair will appear in subsequent issues of the Daily News.

In the prize list, which appears elsewhere, it will be noted that no mention is made of the "President's Cup," the district prize, for which there is very keen competition. Up to the hour of closing last night, no award had been made public.

THE MINERAL EXHIBIT.

The mineral exhibit yesterday attracted no little attention and there was never a moment of the afternoon when the tables were deserted. The exhibits were clearly and so as to be understood by the people, all more or less interested in mining, after all the base of all the exhibits was the mineral display.

Beginning with, not in point of prominence, but rather of order, the exhibit of gold milling ores grouped on the right side of the entrance, these were fairly comprehensive of the various ores of these districts which can be treated mechanically, although the variety of ores, or in another direction, the variety of ores, could not be shown, could be increased indefinitely. The prize was awarded to E. W. Widdowson's collection of ores, which, however, would be more adequately shown if accompanied by a few facts relative to each.

Next came a remarkable block of coal sent forward by the International Coal & Coke company, of Coleman, Alaska, one of the best specimens weighing in the neighborhood of half a ton. The coal was frequently mistaken for a metamorphosed lignite but as a matter of fact its bituminous quality was exemplified by some coals made from it. This exhibit was highly commended by the judges of the mineral display. With it came small specimens of an allied coal from Lillooet.

Next along is the exhibit from the Hall Mines smaller comprehending some of the ore which is there melted, some specimens of the intermediate zone of the smelter, including an exhibit of slater produced by the Heberlein roasters, and a pyramid of pig lead.

On the opposite side of the entrance is the highly interesting exhibit of the Trail smelter, showing the crude ore of the copper and lead mines both of which it treats, the intermediate Heberlein slater, the various ores and the electrolytic lead refinery, the final pipe, pig lead and lead bullion. This was also highly commended by the judges.

On the opposite side of the entrance is the highly interesting exhibit of the Trail smelter, showing the crude ore of the copper and lead mines both of which it treats, the intermediate Heberlein slater, the various ores and the electrolytic lead refinery, the final pipe, pig lead and lead bullion. This was also highly commended by the judges.

prospector once again. The display is from Hooker creek, Crawford Bay.

(From Friday's Daily)

A record attendance of 7000, an ample and excellent program capably carried out without a hitch of any kind, and a magnificent summer weather, tells the story of the second day of Nelson's fourth annual fair.

No such crowd as passed through the doors of the main entrance and filled the buildings, the grand stand and all available points of vantage on the terrace ever assembled in Nelson before. The mistakes and misadventures of the first day were amply redeemed, and it is hoped, forgiven. The building was thronged all morning and from 10 o'clock till after 6, every department was crowded, while the onlookers at the many hundreds of persons.

Until the close of the lacrosse match, there was not an idle moment for the spectators and a really very creditable program was promptly and efficiently carried out.

In the evening there was another immense attendance and every thing worked smoothly and satisfactorily. A more detailed account of the races, baseball match and the lacrosse game will also be found hereunder.

The exhibition given before the grand stand, at noon and evening, by the six members of the Smt-Letta troupe, three of either sex, evoked the warmest applause of the largest audience ever gathered here. It is a fairly to witness the Smt-Letta troupe in their acrobatic, slack wire, aerial trapeze, swings, balancing and the bars, of so universally high a degree of excellence throughout.

The children's day, will be one of the best of times to visit the fair. The program printed above will give a good general idea of what can be seen and what the attendance will be very large. Special attention is directed to the grand carnival tonight. Any number of fancy dresses can be loaned out from the grand stand and there is sure to be plenty of fun over the affair. Those in costume will parade on Baker street at 8 p.m. and proceed to the fair building where a man of color will be admitted free.

Children under 12 years, accompanied by parents with membership tickets, will be admitted free all day. Those over 12, at half price.

FURTHER PRIZES

Omitted from the prize list published yesterday morning were the following: One of Newton's ... Mrs. John Bell. Peaches, not preserved—Mrs. John Bell. Umbrella Plant—F. Bacon. Bouquet Wild Flowers—N. M. Cummins. Tobacco on Stalk—John Miles. Sunflowers—1st, D. Maglio; 2nd, W. J. Astley. Blueberries—Mrs. T. Marquis. Candeloupes—G. Hallett. Cherries, not preserved—Mrs. D. C. McMorris. Paper Currants on plates—1st, J. G. Palmer; 2nd, Mrs. M. S. Davys. White Currants on plates—N. M. Cummins. Blueberries, on plates—Mrs. M. S. Davys. Collection of Vegetables grown from Burpee's Seed—Mrs. D. C. McMorris. Hanging Basket—Mrs. D. C. McMorris. Display of Winter Apples, 1st prize, 30 Newton Pippin trees, Mrs. J. McPhee; 2nd prize, 20 Newton Pippin trees, Mrs. J. McPhee. Collection of apples, fall and winter, 10 varieties, 5 of each, 1st prize, nursery stock, Mrs. J. McPhee; 2nd prize, nursery stock, J. Johnstone; donated by the Riverside Nurseries. Best general exhibit of fruit grown in British Columbia, the fruit to become the property of donor, each prize, donated by Canadian Pacific Railway company—North shore of Kootenay lake, No. 3 district. Best display of vegetables grown from seeds purchased of M. J. Henry, spring of 1906, donated by M. J. Henry—1st, J. M. Fraser. Collection of vegetables grown from Burpee's Seed—Mrs. D. C. McMorris. The Dominion Express company's cup, for the best collection of fruit packed, ready for shipment—1st, F. M. Black; 2nd, James Johnstone.

DISTRICT PRIZE

The president's cup for district showing the largest and best display of fruit and vegetables, was won by district No. 2, comprising Ainsworth, Kaslo and points north of Kaslo. The BHO donated to the C.P.R. for fruit only in district No. 3, comprising the north side of the arm of Kootenay lake, from Hoover's ranch to Ainsworth.

HORSE RACES

"Scotty" Macdonald Wins Two Exciting Events—Victory Very Popular

The horse races yesterday proved one of the most successful events of the afternoon, the crowd growing wildly excited over "Scotty" Macdonald's double victory. During the running of the several heats

all else was forgotten for the moment and even the baseball players stopped their game in progress to watch the finish. There were two events, the second one growing out of the first. The first was a quarter mile open dash, once around the course, for horses owned in the Nelson district. For this Nelson's best was O. Harrie; Jerry; there were four entries, as follows: Scotty Ferguson of the Nelson Transfer company's Minnie and Chestnut; Scotty's own horse; Harrie; and O. Harrie; Carroll, Jerry.

In the first heat George P. Wells, the starter, had some difficulty in getting the horses astride, but after the number of raise starts, the four got beautifully in line and started off on equal terms. Buckskin jumped to the front, closely followed by Minnie, with Chestnut next and Jerry bringing up the rear. The whole race was easily between the first two horses. Young Jim Davidson rode his mount well, but he was not so well as the other riders. In the second heat, Buckskin led all the way and at about three-quarters of the way and then, Minnie bolted over the top, despite every effort of Davidson to keep her on the track. Buckskin won with something to spare. Chestnut getting second and Jerry third money. Minnie being disqualified.

When the crowd was shouting its approval of Scotty's victory, George Ferguson came out with a challenge for another race for but a few minutes. The challenge was accepted and the owner of Minnie proceeded to impress Indian Tom into his service as jockey. When Marshall Waterman announced the arrangement, the crowd was so excited that the race was postponed and presently when Minnie sidled along the course with the Indian up, bareback, excitement rose to fever pitch. The horses came to the start on equal terms. Then Buckskin began to creep in front despite every effort of the Indian. The two closed to the rope and crossed the line again in advance. The heat was ruled out and another one started. This time Jim Davidson rode in place of the Indian and the race was a close one. Minnie's again bolted over the top and the heat and race were awarded to Buckskin.

The second race was Fred Starkey, S. S. Taylor and Blake Wilson were the judges, and G. P. Wells, the starter. In the second race Mr. Taylor took Mr. Wells place, the latter being engaged umpiring the ball game.

LACROSSE MATCH

Revelstoke Defeats Local Players by a Score of 11 to 3 in Good Game

The lacrosse match between Revelstoke and Nelson yesterday afternoon resulted in a win for the visitors, who had the best of it all the way through the match. The decisive score of 11 to 3. The scoring was done principally in the second and last quarters. During the first quarter the play was very fairly equal, but throughout the balance of the game the visitors outplayed the local team at every point. The visitors played a good combination game, passing easily and quickly, while the Nelson boys played in a haphazard manner. The field and did a great amount of unnecessary running, tiring themselves out. Some ill-felling was caused by the appearance of the visitors, John Bell, Peaches, not preserved—Mrs. John Bell. It was stated that earlier in the day he had offered to play for Nelson if paid for doing so. His offer was refused and his appearance later in the game was a disappointment to the Revelstoke crowd who had accepted what the home players refused. The situation was rendered more acute towards the close of the first quarter when the Arthur Parler over the head inflicting a bad looking scalp wound from which Parler bled more or less profusely for the balance of the match. Later on James Widdowson, who was the referee, was in a bit of trouble threatened, but the matter finally passed off.

The line up was as follows:

Nelson	Goal	Dickey	Point	McCorvie	Cover	Danne	Defence Field	Jameson	Thompson	Spring	Center	Knight	Home Field	Barber	Hillier	Kerfoot	Woodland	Outside Home	Bryson	Inside Home
		W. E. Davison	Al. Jeffs	C. Jeffs	Sherburne	Bishop	Dill	McClure	McClure	Bishop	Dill	McClure	Bishop	Steele	R. Bell	Steed	Perrier	Perrier	Manhart	Manhart

RUNS BY INNINGS

Roseland	1	2	3	4	5	6	7	8	9	10	11	12
Phoenix	0	0	0	0	0	0	0	0	0	0	0	0

George P. Wells umpired the game to everyone's satisfaction, not one of his decisions being for a moment questioned or disputed.

GAS CO.'S EXHIBIT

The Gas Co.'s exhibit, Gas company's exhibit on the floor of the main building, attracted a great deal of attention yesterday. Seven gas stoves, ranging from a small heater to a full sized kitchen range, were put to a practical test, as they supplied all the necessary heat for cooking, etc., for the Ladies' Aid refreshment stand, adjoining the boiler. In addition to the show at the Toronto exhibition this year and then sent on here, displaying the most modern type of gas lighting. A special design for economically heating water is shown by which water for a full sized bath can be heated in from 12 to 15 minutes at a cost of three cents. A line of gas heating appliances is displayed, including small stove for room heating, toaster, griller and iron heaters. The manager states that the use of gas for domestic heating purposes has increased locally 60 per cent since the beginning of the year, and the company is preparing for a considerably extended service.

BASEBALL MATCH

Roseland's Phenomenal Pitcher Baffles Boundary Players

In the person of pitcher Bryan of the Roseland baseball team, a Nelson audience had yesterday the pleasure of seeing a player with easily the best control

M. J. HENRY'S NURSERIES AND SEED HOUSES

Large stock of HOME-GROWN Fruit and Ornamental Trees now matured for the fall trade.

No expense, loss or delay of fumigation or inspection.

Headquarters for Pacific Coast grown Grapes, Field, and Flower Seeds in season.

SHAUGHNESSY CUP

The magnificent sterling silver trophy, recently presented to the Nelson Agricultural & Industrial Association, by Sir Thomas Shaughnessy personally, was yesterday designated by the Fair directors to be competed for annually, commencing next year. Sixty days from the date of the individual Kootenay ranch, the exhibit to be of fruits, vegetables and field crops. The cup is one of the handsomest trophies ever presented to a Canadian agricultural association, and is made of silver mined, smelted and refined in British Columbia. The trophy was presented to the association by the directors in communicating their decision to the generous donor, expressed in the following letter to all Kootenay residents for the gift.

control of a baseball of any one who has ever played on the local diamond. Mr. Bryan is a graduate of Princeton university, and is a private member, now studying practical mining at Roseland in the employ of the Consolidated M. & S. company, and is an expert pitcher of the ball when pitching, and his work yesterday delighted all lovers of the game, who witnessed the Roseland aggregation get away with the team from Phoenix. In the early portion of the game Bryan pitched faultlessly, but slackened up a little in the closing innings. At no time, however, could the Roseland visitors and the Roseland pitcher with any certainty at all. The delivery varied so greatly that the Phoenix players remained guessing when the game was over. Bryan varied from exceeding pace to almost a slow ball with a tantalizing drop that baffled the batters completely. He fanned out 15 of the Roseland players and but two safe hits were made off him in the game, while no second or third batters were made at all.

Rush for Phoenix, a league pitcher, did very well and pitched hard and faithfully. Outside of Bryan's pitching the teams were fairly equal with the odds, if anything, a little in favor of the Roseland players, but the latter with their prize pitcher were invincible and while making 11 runs, never allowed a Phoenix player to reach the home plate.

For the Roseland players, Harding made 8, Bryan and Nissen each and Holland, Gibson, Costello and Preston 1 run each. The Phoenix team were somewhat disheartened by their fielding, but they played a plucky heart-breaking game to the end.
