## WOMAN'S BEST MEDICINE

### Mrs. Kelly Advises all Women to Take "Fruit-a-Tives"

HAGERSVILLE, ONT., AUG. 26th, 1913.

"I can highly recommend 'Fruit-a-tives' because they did me an awful lot of good and I cannot speak too highly about them. About four years ago, I commenced taking 'Fruit-a-tives' for a general break-down and they did me a world of good. I bought a good many dollars' worth, but it was money well spent because they did all that you claim for them. Their action is so pleasant, compared with other laxatives, that I found only pleasure, as well as health, in taking them. They seemed to me to be particularly suited to women, on account of their mild and gentle action, and I trust that some other women may start taking 'Fruit-a-tives' after reading my letter, and if they do, I am satisfied the results will be the same as in my own case."

Mrs. W. N. KELLY

"Fruit-a-tives" are sold by all dealers at 5c. a box, 6 for \$2.50, trial size, 25c, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

## Ekfrid Pioneer Dead.

Robert Lotan, one of the pioneer settlers of Ekfrid township, died at his residence on lot 16, con. 3, on Wednesday, May 12th, in his 80th year.

Mr. Lotan came from Yorkshire, Eng., 90 years ago, and after living for a year or two in London moved to the township of Ekfrid where he resided ever since. His wife died 21 years ago, and one son, John, died 6 years ago. The surviving members of the family are Samuel, of Ekfrid; Mary (Mrs. Dan McDonald), of Nissouri; Ann (Mrs. John Miller), of London; Joseph and Ruth, at home, and James, of Ekfrid.

Mr. Lotan could relate many stirring incidents and personal experiences both of his voyage to this country and of the strenuous pioneer life which he lived after his arrival. He was a consistent member of the Methodist Church and enjoyed the fellowship of Christians. He took a pleasure also in assisting all good causes.

The funeral took place from his late residence on Friday afternoon. Service was held in the Methodist church. Appin, conducted by the pastor, Rev. C. W. Bristol, and interment was made in the Lotan cemetery.

## Death of R. S. Munson.

One of the most prominent farmers of Ekfrid township passed away at an early hour on Monday morning in the person of Richard S. Munson, after a lengthy illness.

Mr. Munson was born May 8th, 1837, in the township of Beverley and lived in Ekfrid for the past forty years or more. He leaves a widow and two children, Mrs. James C. Gardiner, of Ekfrid, and Edgar, on the homestead, also nine grandchildren and two great grandchildren. He was a Conservative in politics, and was a member of the Methodist Church, acting 15 years as recording steward on the Appin circuit, and was also class leader and Sunday School superintendent for a number of years. Mr. Munson took an active interest in public affairs generally. He served on different public school boards, and continuously for nine years on one board. He was interested in the work of the Farmers' Institute and was a director on the agricultural fair board. He was also a director of the Ekfrid Mutual Fire Insurance Company for several years and served a term as vice-president and also a term as president.

The funeral took place from his late residence, lot 17, con. 4, yesterday afternoon to the Eddie cemetery.

## Glencoe Council.

The regular meeting of the municipal council of the village of Glencoe was held in the council chamber on Monday, the 3rd day of May, 1915.

Members present: J. A. McLachlan, reeve; P. D. Keith, Allan McPherson, George Parrott and A. J. Wright, councillors.

The minutes of the meetings of April 12th and of April 20th were read and signed.

Accounts:—J. C. Congdon, 13 days scraping streets, \$6; Sam. Thompson, half month's salary, \$18.75; Noble Hurde, scraping streets, and 1 load of gravel, \$11; William McFae, moving plank and cleaning street, \$2.05; A. E. Sutherland, printing auditors' reports, \$23.50, and advertising sale of lot for arrears of taxes, \$3.30—\$29.85. Alfred Aldred, rebate on granolithic rates erroneously charged, \$1c. Fred. Aldred, chief fire department, addressed the council, urging the purchase of 200 feet of new fire hose for the department.

Mr. Anderson, of the Canada Rubber Co., being present, showed various samples of fire hose.

Moved by Mr. McPherson, seconded by Mr. Wright, that 250 feet of fire hose be purchased from the Canada Rubber Hose Co. at 80c per foot, couplings included, delivered at the Grand Trunk station, Glencoe, Carried.

John Oldreive appeared and stated that the tile on King street is stopped up and not in working order, thereby interfering with the drainage of his premises, and asked the council for some measure of relief. Mr. Oldreive's complaint was referred to the street and drain commissioners.

J. H. Neve addressed the council regarding the fixed or limited assessment of the Woodburn Mills, which had expired by limitation of time, and asked for a renewal of the same.

The clerk read a copy of a resolution passed by the Glencoe high school board, asking for a grant of \$800 to meet the current expenditure of the board.

Moved by Mr. Wright, seconded by Mr. McPherson, that the grant asked for by the high school board be made. Carried.

Moved by Mr. Wright that the accounts as read be paid. Carried.

Moved by Mr. Keith, seconded by Mr. Wright, that \$1. rebate on rates of the dumping ground, be paid to T. C. Reycraft. Carried.

Moved by Mr. Parrott, seconded by Mr. Keith, that a by-law be introduced at the next meeting, granting the Woodburn Mills Co. a limited assessment of \$5,000 for 10 years. Carried.

The council then adjourned.

## Methodist Church.

REV. W. G. HOWSON, MINISTER  
Mr. Howson may be expected to occupy his own pulpit next Sunday. Good music. Bright services. All welcome.

## Glencoe Horse Show.

Posters and programmes are out for the annual horse show and races at Glencoe on Thursday, June 3rd—King's Birthday.

There will be ten classes for horses on exhibition, ten dollars to be awarded in each class, with a special prize of a \$35 watch for best horse on the grounds. A prize will also be awarded for the best gentleman driver, and a novelty feature, "Bringing in the Dead Soldier," will be interesting.

The speed events will be a 250 class, a free for all and a green race, the purses totalling \$300.

Fifteen dollars will be awarded in prizes for floats in a calithumpian procession.

The parade will be at 10 a. m., to be followed immediately by a baseball match. In the afternoon the horse show and speed programme will take place at the show grounds. Music will be furnished by a good brass band. A concert will be held at the Town Hall in the evening.

Full information may be had by applying to the president, T. Henderson, or the secretary, R. W. McKellar.

## Missionary Meetings.

The Presbyterian ladies meet in the Glencoe church the first Tuesday of each month at 3 o'clock to consider Home and Foreign Missions. All who avail themselves of the privilege to attend regularly are deeply interested themselves, help to interest others and discharge the responsibility of each Christian, to give the gospel to every person.

Mrs. A. E. Sutherland presided at the May meeting. The subject chosen was "Life and Service" and several ladies read passages along that line. These were followed by an address on the topic by Mrs. Weir who said, "Our lives should be preparatory to the larger life beyond." "Be ye also ready." "Be followers of God as dear children." Beautiful solos were sung by Mrs. Anderson and Mrs. J. A. McKellar. A request was read to bear in mind the literature, books and magazines to be sent to the needy in September. Please set these aside now.

A paper on Systematic Giving was read by Mrs. N. Graham. This and Mrs. Luckham's reading entitled "Refusals," furnished food for thought. Mrs. C. B. McLean is to prepare the next program and lead the June meeting.

## Court of Revision.

The court of revision to hear and determine appeals against the assessment roll of the village of Glencoe for 1915 met in the council chamber on Monday, the 17th day of May, 1915, pursuant to published notice.

The following took and subscribed the statutory oath as members of the court:—John A. McLachlan, Allan McPherson, A. J. Wright and George Parrott.

The reeve assumed the chair and called the meeting to order. Appeals as follows were taken into consideration:

Richard Dunlop.—Assessment proportionately higher than neighboring properties.

Alex. M. Leitch, trustee of Disciples church.—Claimed to be exempt from assessment as the property belonged to a church organization, and that the assessment was too high.

W. W. Gordon, representing B. A. Gordon.—That the assessment on land of lots 9 and 10, block C, M. S., was too high.

Wm. Muirhead.—To have his business assessment struck out, he not having done any business this year.

John Oldreive, on behalf of Harry Singleton.—To strike off Norman McLachlan's name and assess instead for part lots 9 and 10, block C, E. S., as tenant.

John Cowan.—Assessed for a dog. The dog having died, the appellant asks that it be struck off the roll.

Moved by Mr. Parrott, seconded by Mr. Wright, that Norman McLachlan's name be struck off, and that Harry Singleton's name be placed, as tenant, instead. Carried.

Moved by Mr. McPherson, seconded by Mr. Parrott, that Richard Dunlop's assessment on buildings be reduced \$100. Carried.

Moved by Mr. McPherson, seconded by Mr. Wright, that the appeal of Alex. M. Leitch lay over until the next meeting of this court, that information be obtained as to whether or not the premises be a place of worship. Carried.

Moved by Mr. Parrott, seconded by Mr. Wright, that action be taken regarding B. A. Gordon's appeal. Carried.

Moved by Mr. Wright, seconded by Mr. McPherson, that Wm. Muirhead's business assessment be struck off. Carried.

Moved by Mr. McPherson, seconded by Mr. Parrott, that John Cowan's assessment for a dog be struck off. Carried.

Moved by Mr. McPherson, seconded by Mr. Wright, that this court of revision be adjourned until Monday, the 7th day of June, next. Carried.

It is usually safe to say that when a child is pale, sickly, peevish and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food.

Miller's Worm Powders, by destroying the worms, corrects these faults of the digestion and serves to restore the organs to healthy action.

It is surprising how much more money can be cleared when you make an old-fashioned supper sound wicked by calling it a "cabaret."

# BATTLESHIP GOLIATH SUNK

British Submarine E-14 Averages By Sinking Two Turkish Gunboats

A despatch from London says: The British battleship Goliath has been torpedoed in the Dardanelles. It is feared 500 lives have been lost. Announcement of the loss of the Goliath was made in the House of Commons by Winston Spencer Churchill, First Lord of the Admiralty.

Mr. Churchill also announced that the British submarine E-14 had penetrated through the Dardanelles and into the Sea of Marmora, sinking two Turkish gunboats and a Turkish transport.

The Goliath was torpedoed and sunk by Turkish destroyers last night.

The Goliath was attacked and sunk while protecting the flank of the French troops in their land operations.

Despatches to the Admiralty from Vice-Admiral Michael De Ro-

beck, commander of the British fleet in the Dardanelles sphere of operations, said that twenty officers and 160 men of the Goliath crew had been saved. The battleship normally carried a complement of 750 men.

The Goliath was a sister ship of the Canopus, Ocean, Glory, Albion and Vengeance. She was commanded by Captain Thomas L. Shelford.

The Goliath was one of the older British battleships of the pre-dreadnought type. She was built in 1898. Her complement was 750 men.

The Goliath was 450 feet long on the water line and 74 feet beam. Her displacement was 12,950 tons. She was armed with four 12-inch and twelve 6-inch guns; twelve 12-pounders, six 3-pounders and two machine guns. She had four torpedo tubes.

## TWENTY CANNON, 6,000 PRISONERS

French Official Report on the Booty Captured During the Past Week.

A despatch from Paris says: The offensive of the allies was continued to the south-west of Angres, where two lines of trenches were captured and a strongly fortified wood, in which the bodies of 400 Germans were found after the battle.

Fighting in the village of Neuville St. Vaast continued. More houses held by the enemy were captured, and the losses inflicted by the artillery were extremely heavy, according to captured soldiers.

A German attack in the Ailly wood resulted in the enemy temporarily gaining a footing in the first line of French trenches, but they were repulsed in a counter-attack, and ten taken prisoner.

With a forced lull in the fighting north of Arras on account of the condition of the ground as a result of a heavy rainfall the French army had an opportunity of estimating the extent of the victories of the past week. About 100 officers have been captured since Sunday, and the French have also taken 20 cannons, including eight heavy guns, together with 100 machine-guns and bomb-throwers. The total prisoners taken exceeded 6,000. A conservative estimate places the total German loss at between 50,000 and 60,000.

A fleet of British and French aeroplanes delivered another aerial attack upon the German positions along the Belgian coast, destroying a number of bridges.

Old Roxleigh: "Consent to you marrying my daughter? No, sir. You have no prospects, have you?" Imprecious Suitor: "Well, sir, if that's the way you feel about it, I can't say that I have."

## DEATH ROLL IS APPALLING

Enemy Sacrifices Men By Thousands in Effort to Reach Ypres

A despatch from London says: Officers arriving from France tell that the British troops, infuriated over the Lusitania disaster, are fighting with greater vigor and more fiercely than ever before. The news spread quickly through the army, arousing the intensest indignation.

The Morning Post correspondent in Northern France says: "At no time have the Germans displayed greater determination to break through at all costs, sacrificing large numbers of men, violating every rule of God and man, in a desperate, almost despairing effort. The fighting between Ypres and Hill 60, which we still hold, has been of the most desperate description. Despite losses, we have held our own."

Last Obstacle to Lille.

"On the next sector, that of the Aubers ridge, the action has been of a quite different nature. Following our quiet, but steady, progress around Armentieres and Houplines, both of which places are now under heavy bombardment, we were enabled to launch an attack upon the ridge, the last obstacle between us and the plains which lead to Lille, some five or six miles away."

"Swinging around at Fromelles to the left of our old Neuve Chapelle battle ground, the horse shoe ridge here runs in a north-easterly direction and before Fromelles there lies a small wood, similar to Pictet wood, which proved a stumbling block at Neuve Chapelle. This was quickly captured by our Indian troops—Pathans and Gurkhas."

"We opened then upon the ridge

## RUSSIAN DRIVE MOVES QUICKLY

New Offensive is Forcing Austrians In Rout to the Pruth River.

A despatch from London says: The Russian offensive in far Eastern Galicia towards Bukovina is meeting with continued success, according to the official report received from Petrograd. Counter-attacks by the Austrians have failed entirely to check the advance of the Russians, and the enemy's forces were in disorderly retreat. His formations becoming demoralized when the Car's troops penetrated as far as Horodenka, a town some 20 miles north of the Pruth River.

Two Austrian battalions were annihilated by the Russian artillery, and several thousand men were taken prisoner. A number of guns and 50 ammunition caissons also fell into the Russians' hands.

There is no official news from Petrograd concerning the Austro-German attack in West Galicia and the Carpathians, except for the statement that the fighting decreased in intensity on a great part of the front. An earlier official note, referring to the enemy's success during the last fortnight, says: "The Germans have gained no tactical success. Our reserves, by a flank blow, enabled our army to rearrange a line of advantageous positions eliminating all fear of final retreat. Our army has received strong reinforcements, and is ready to exact heavy revenge."

Don't believe all you hear, or say all you believe.

Military Examiner—What must a man be to be buried with military honors? Recruit—Dead.

Many a man is able to lead the simple life because his wife takes in boarders

a bombardment which, if it could not exceed in intensity that of Neuve Chapelle, continued for a much longer period. It was found that, profiting by previous experience, the Germans had greatly strengthened their defences with dugouts and shelters made of concrete and steel. Thus it fell out that, after having carried the ridge and the first lines of the German trenches, apparently obliterated by our artillery fire, we were caught by concealed machine guns cunningly placed, so that they should escape the general devastation.

"When these opened on us at short range our position was made untenable, and we had to content ourselves with the footing of the lower slopes of the ridge in the meantime. To meet our onslaught at Aubers the Germans have brought up great masses of men, and they had apparently been concentrating at Lille."

"Preceded by a terrible bombardment, our troops delivered an attack upon the famous railway triangle west of La Bassée, where embankments had been converted into a strong, efficient fortress. So strong have they made their trench with concrete and iron plates that it was found our artillery had really made very little impression upon them. Even wire entanglements were pretty nearly intact."

"The enemy also resorted to stratagem. He left his two first lines empty of men and materials to undergo bombardment, which was therefore harmless, but he was waiting for our infantry in his third line. At the same time the now famous brick fields of this part of the country were veritable nests of machine guns."

## WILL LOCK UP MALE PRISONERS

Those Not of Military Age and Women Are to Be Repatriated.

A despatch from London says: Premier Asquith announced in the House of Commons that "all male enemies over military age will be repatriated." He also said that women and children in suitable cases will be repatriated, though some might remain. The Government proposes to segregate all adult male enemies for their own safety and for the safety of the country. Premier Asquith told the House of Commons. In announcing the alien policy of the Government the Premier said:

"At this moment some 40,000 unnaturalized aliens, of whom 24,000 are men, are at large in this country. The Government proposes that all adult males of this class should, for their own safety and that of the country, be segregated and interned. If over the military age they should be repatriated. The Government recognizes there may be cases calling for exceptional treatment. Women and children in suitable cases should be repatriated, but there no doubt will be many cases in which justice and humanity will require that they be allowed to remain."

"It would be difficult to find a parallel for the feeling of righteous indignation aroused in all classes in this country," the Premier said. One result of this, unhappily, is that innocent and unoffending persons are in danger of being made to pay the penalty for the crimes of others.

Anti-German riots in the East End of London were renewed with even greater violence. Wherever a German showed himself he was attacked. The police force has been so thinned by drafts sent to the army that it had difficulty in dealing with the angry crowds. Special constables had to be called out.

A number of German establishments were raided and sacked and their contents scattered over the streets. The Germans themselves were forced to go into hiding. The police in some cases were defied by the angry crowds, and some officers were injured during their endeavors to protect the Teutons. The furniture and fittings of German houses and stores were hurled through windows to the streets. When the proprietors were caught they were severely mauled. In some cases their clothes were torn from their backs.

One German was thrown into a horse trough with the reminder that his compatriots had been spending their time drowning women and children. He was only saved from a similar fate by the intervention of the police.

There were several instances of German butchers trying to escape in their carts. They were racing down the streets at a mad gallop, but in most cases they ultimately were run down and their vehicles smashed.

A number of Russian Jewesses were flocking this morning to the police stations in the East End and pleading for protection, explaining that they were being mistaken for Germans.

## GERMANS TERRIBLY EXHAUSTED

Will Abandon Offensive Before Ypres and Begin Attack Against Dixmude

A despatch from London says: The Daily Mail's correspondent at Rotterdam forwards a report from Bruges that the German offensive before Ypres is weakening, because of the vigorous counter-attacks of the allies farther south of the city. "The British," he says, "reinforced and encouraged by the suc-

cessful defence, have attacked vigorously and advanced against the Germans east of the city. The Germans are terribly exhausted by their ferocious efforts to win their way to Calais. I learn," he concludes, "that the next ambitious attack of the Germans will be against Dixmude."

Reports are reaching the police that private houses belonging to wealthy Germans in the fashionable West End are liable to be burned.

Large placards in the windows of almost all business houses and markets bear the words: "No business transacted with Germans."

Anti-German outbreaks of particular severity occurred in the neighborhood of the East India docks. Sixty or seventy German shops were wrecked. Germans in the vicinity are uniting for self-defence and police reinforcements are being rushed to the scene.

Feeling in Johannesburg.

"Anti-German feeling is running high as the result of the Lusitania tragedy. Extraordinary scenes are being enacted in front of the town hall, where crowds of citizens wait patiently for an opportunity to sign petitions to the Mayor, requesting him to call a mass meeting to voice protests against Germany's action."

"A large German flag is spread on the ground, where the petitioners stand while writing their names. Another German flag was publicly burned in front of the town hall. Placards have been displayed urging a boycott of Germans, and a Stock Exchange committee has adopted a resolution asking members of Teutonic birth to avoid the exchange during the war."

"The Mayor has consented to comply with the request that he call a mass meeting."

## BOTHA OCCUPIES CAPITAL.

Chief City of German South-West Africa Has Been Captured.

A despatch from London says: An official statement made public at Cape Town and received by the Reuter Telegram Company says that Windhoek, capital of German South-west Africa, was captured without resistance by Union of South Africa, forces under Gen. Botha. The population of the town consists of 3,000 Europeans and 12,000 natives. Gen. Botha's troops took a considerable quantity of railway rolling stock. Martial law has been proclaimed throughout the conquered territory.

Gen. Botha, addressing his victorious troops, declared that the capture of the capital of German South-west Africa was of the "utmost importance to the Empire and the Union of South Africa, as it means practically complete possession of German South-west Africa."

Continuing, the General dwelt upon the responsibility of the army of occupation to care for German women and children in Windhoek, saying in this connection: "I rely on your honor to perform this responsible work well and faithfully."

Kept from Calais.

A despatch from London says: Donald MacMaster, K.C., informs us that a friend of his who has just returned from Germany says the feeling of hatred among the Germans is now stronger against the Canadians than the rest of the British forces. They say: "If it had not been for the Canadian rats we should have been through to Calais."

To the end of his days Lord Roberts always slept in a camp bed.

No correct rhyme has even been found for the word "month."

It takes 2,300 silkworms to produce one pound of silk.

## MUST ABANDON PIRATE POLICY

Wilson Expects Germany to End Submarine War on Merchantmen

A despatch from Washington says: Germany must abandon her entire submarine programme against merchant vessels if she is fully to satisfy the stand taken by President Wilson in the note sent to Berlin. She must disavow the Lusitania and other outrages upon American life and property of which the United States complains. She must make reparation "so far as reparation is possible for injuries which are without measure," and she must take "immediate steps" to prevent a recurrence of the attacks on the American flag and on American lives and American vessels.

No doubt exists here of the difficulty of the position in which this note places Germany. Nothing less than a repudiation of all she has

done and abandonment of practically all she hopes to do with submarines against merchantmen and an admission that she has violated the laws of nations and humanity will enable Germany entirely to meet the views so earnestly communicated to her by the United States.

Stripped of its diplomatic dress, the President's note carries not only the demands, but a threat. Stress is laid upon the expectation of the United States for prompt action, and as regards the most important demand, that of guarantee for the future, "immediate steps" are required.

Finally, the plain intimation is conveyed that the note itself is not all Germany must expect if any action is not forthcoming.

The trade in cheap and lamb was quiet, on account of the continued small offerings, but the demand was good at prices ranging from \$2 to \$9 each, as to size and quality. The market for calves was easier, but the demand was good at prices ranging from \$2 to \$9 each, as to size and quality. The market for dressed hogs was firm, with a good demand for all offerings, and sales of selected lots were made at \$9.50 to \$9.75 per cwt., weighed off cars, and in one or two instances as high as \$10 was paid for a small lot.

**Why Adam and Eve Were Happy.**

The teacher in one of the London slum schools was talking about the delights of the Garden of Eden, its fruit trees and bright flowers; and the placid life of our first parents led in it. She then asked the question: "And, children, why was it that Adam and Eve were so happy, so perfectly happy there?" "Please, madam," answered the child promptly and eagerly, "'cause they was always in the country."

**Stating the Question.**

"Bobby, you must go to church with me this morning."

"Mamma, why don't you say, 'Bobby, wouldn't you like to go to church with me?'"

"Well, Bobby, wouldn't you like to go to church with me this morning?"

"Nope."

You can get a lot of things for nothing that nobody wants.

## SUBSTITUTE FOR PICRIC ACID

Engineers Announce Discovery of New Explosive.

Military engineers announce the discovery of an explosive substance which, they assert, may be used as a substitute for picric acid. The price of picric acid has become prohibitive as a result of speculation. Picric acid is the final product of the direct nitration of phenol, and is usually prepared by the nitration of the mixture of phenol sulphonic acids obtained by heating phenol with concentrated sulphuric acid. The more important picric powders are melinite, the French explosive, believed to be a mixture of fused picric acid and gun-cotton; lyddite, the British service explosive, and shomose, the Japanese powder, both supposed to be identical with the original melinite; Brugere's powder, a mixture of fifty-four parts of ammonium picrate and forty-five parts of saltpetre; Designolle's powder, composed of potassium picrate, saltpetre and charcoal, and emmentite.

## WOMEN'S WEAKNESS AND HEALTH PERILS

Anaemia Comes so Gratefully That the Victim Scarcely Realizes the Hold the Trouble Has Upon Her Until Almost in a Decline.

Woman's work is more wearing than man's because it lasts almost every waking hour. There is no eight or nine hour day for the breadwinner's wife, and often she toils under the greatest difficulty because her strength is below what it should be. The woman who is indoors all day is very often careless about what she eats and does not keep her blood up to the mark.

It becomes thin and poor, which makes her weak, headachy, tired, breathless and liable to pains in the back and sides, the scourge of her sex. New blood will do wonders for the woman who is tired and who aches all over when she rises in the morning and feels unaccountably depressed. She can gain new blood now, and drive away the pains and aches and tiredness if she will take Dr. Williams' Pink Pills.

Dr. Williams' Pink Pills cure sick kidneys, and Mr. Hill's symptoms are the symptoms of kidney disease, consequently he found quick relief in Dodd's Kidney Pills. They always cure kidney disease.

Rules for the Baby.

Keep the baby's bib dry if you have to make sixty changes an hour. Give him not a scrap of meat before his third birthday. Save him from the kisses of friends.

Keep the sun out of his face in his carriage. Keep his head above the clothes in the cradle, that he may not breathe his own breath over again. Lay him down to sleep on his side, and frequently change from one side to the other. Train him to keep his mouth closed by gently pushing it shut while he is sleeping.

The air is filled with germs, dust and dirt—elements that are not good for human lungs. Never bandage him too tightly, especially in the morning after his bath and before his meal. Consider how you would feel if, after being bandaged as tightly as you could well support it, you were then to eat a hearty breakfast.

A Firm Believer in Destiny.

A sergeant of a Scottish regiment is a firm believer in destiny. No amount of argument with his more skeptical comrades can shake his belief in the slightest, he invariably closes the controversy with the rather illogical assertion that "when a man's last day comes it comes."

The evening before the battle at Mons, when preparing to take a stroll, he was noticed by a corporal, a persistent opponent of the destiny theory, to quietly slip a revolver into his pocket.

"Hello!" shouted the corporal, who saw a chance of ridiculing the sergeant, "what are you taking the revolver for? It'll save you if your time has come."

"I ken that," replied the sergeant after a moment's hesitation, "but, ye see, I might fall in wi' a German whose last day has come."

Brown—"Jones is certainly tied to his wife's apron-strings." Smith—"Well, in these days, he is lucky if he has a wife with apron-strings."

"Before my marriage I told her all my past life. Don't you think I showed a wonderful courage?" "Yes, and a still more wonderful memory."

Caller (viewing the baby)—"Do you think he is going to resemble his father?" Mother—"I shouldn't be surprised. He keeps me up even now."

She (sentimentally)—"I was engaged to him three years—three beautiful, happy years—and then it all ended." "He—? I suppose you married him then?"

## MONEY IN LIVE STOCK.

The Canadian Farmer Will Benefit By the War.

Mr. Randolph Bruce, a well-known rancher in Western Canada, has just returned from Europe with many interesting opinions as to the effect that the war will have on the Canadian farmer. The immense slaughter of cattle for the armies in the field will, he thinks, very shortly cause a great increase in the price of beef, and those farmers who are raising cattle will make more money even than those who are raising wheat at a dollar-fifty per bushel. Every effort should be made to raise cattle for the market in as large quantities and as quickly as possible. Mr. Bruce is a great believer in alfalfa as the most satisfactory food for the rapid raising of cattle for beef.

In this connection it is interesting to note that fattening young stock is becoming very popular in the United States where the market for beef is increasing so rapidly that more study has been paid to methods of increasing production.

In the early days cattle were kept on the ranges from three to five years. Experience, however, has shown that the use of thorough-bred bulls and the consequent improvement in the quality and maturing ability of market cattle, together with heavier grain feeding, has made it possible to put just as much beef on the market at from 13 to 20 months old. Experts are of the opinion that with the continued improvement of breed stock it will be possible to market an even earlier date.

Among the advantages of earlier finishing of cattle, the following are mentioned by some of the leading cattle men: Firstly, younger cattle make heavier gains of beef on a similar amount of feed than old cattle; Secondly, the money invested is turned faster, being turned over in eighteen months, where formerly it took from three to five years; Thirdly, heifers under two years old sell as quickly as steers and finish more rapidly.

As the census statistics prove without shadow of doubt, the value of beef cattle in Canada is steadily increasing. In 1901 there were 3,167,744, valued at \$54,197,341, or an average of \$17.12, taking the good with the bad. In 1911 there were 3,339,257, valued at \$86,278,450, or an average of \$25.90, an increase of \$4.78 per head. Mr. H. S. Arkell, Assistant Live Stock Commissioner for the Dominion Government, says that never in our statistical history have prices attained so high a figure, either for cattle on the hoof or for meat in the butcher shop, as to-day. What it will be next year, when the full effect of the war is felt, no one can tell.

## INSOMNIA

Leads to Madness, if Not Remedied.

"Experiments satisfied me, some 5 years ago," writes a Western woman, "that coffee was the direct cause of the insomnia from which I suffered terribly, as well as extreme nervousness and acute dyspepsia." (Tea is just as injurious as coffee, because it, too, contains the health-destroying drug, caffeine.)

"I had been a coffee drinker since childhood, and did not like to think that the beverage was doing me all this harm. But it was, and the time came when I had to face the fact, and protect myself. I therefore gave up coffee abruptly and absolutely, and adopted Postum for my hot drink at meals."

"I began to note improvement in my condition very soon after I took on Postum. The change proceeded gradually, but surely, and it was a matter of only a few weeks before I found myself entirely relieved—the nervousness passed away, my digestive apparatus was restored to normal efficiency, and I began to sleep restfully and peacefully."

"These happy conditions have continued during all of the 5 years, and I am safe in saying that I owe them entirely to Postum, for when I began to drink it I ceased to use medicines."

Name given by Canadian Postum Co., Windsor, Ont. Read "The Road to Wellville," in p.l.g.s. Postum comes in two forms: Postum Cereal—the original form—must be well boiled. 15c and 25c packages.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious and cost about the same per cup. "There's a Reason" for Postum.—sold by Grocers.

## Says They are The Very Best

MR. J. A. HILL TELLS WHAT DODD'S KIDNEY PILLS DID FOR HIM.

He Suffered for Four Months from Kidney Trouble but Found Quick Relief When He Used Dodd's Kidney Pills.

Sixty-Nine Corners, Ont., May 17th (Special).—"I know that Dodd's Kidney Pills are the very best of medicines," such is the statement made by Mr. J. A. Hill, a well-known resident of this place.

"I was sick for six months," Mr. Hill continues. "My troubles started from a cold that seemed to settle in my back. My joints were stiff and I had cramps in my muscles, my appetite was fitful and I was heavy and sleepy after meals. I had a bitter taste in my mouth and I was always tired and nervous."

"I used four boxes of Dodd's Kidney Pills, and the great benefit they did me is what makes me say, 'They are the best of medicines.'"

Dodd's Kidney Pills cure sick kidneys, and Mr. Hill's symptoms are the symptoms of kidney disease, consequently he found quick relief in Dodd's Kidney Pills. They always cure kidney disease.

## When a Woman Suffers With Chron's Backache

There is Trouble Ahead.

Constantly on their feet, attending to the wants of a large and exacting family, women often break down with nervous exhaustion.

In the stores, factories, and on a farm are weak, ailing women, dragged down with torturing backache and bearing down pains.

Such suffering isn't natural, but it's dangerous, because due to diseased kidneys.

TIREDNESS, insomnia, deranged menses and other symptoms of kidney complaint can't cure themselves, they require the assistance of Dr. Hamilton's Pills which go direct to the seat of the trouble.

To give vitality and power to the kidneys, to lend aid to the bladder and liver, to free the blood of poisons, probably there is no remedy so successful as Dr. Hamilton's Pills. For all womanly irregularities their merit is well known.

Because of their mild, soothing, and healing effect, Dr. Hamilton's Pills are safe, and are recommended for girls and women of all ages. 25 cents per box at all dealers. Refuse any substitute for Dr. Hamilton's Pills of Mandrake and Butternut.

Germ Like Girls.

"Fathers and mothers, lucky enough to have both boys and girls, know how clean the girls keep themselves, and how the boys disregard dirt. From earliest childhood the little girl's hands and face are washed, and she evades dress stains, combs her hair, and tries to look nice. But every normal boy, up to the age of fourteen, revels in dirt, and looks forward to the Saturday night bath with virtuous contempt or dread. But boys do not suffer infectious diseases as much as girls. This was brought out in an investigation made of 8,900 children of all ages and sexes. We requested the mothers themselves to report what diseases their children had had. Girls had had more infections than boys of the same age. This goes to support the modern view that dirt and disease have no necessary relation. It is not the dirt boys revel in that does harm. It is the germs in other people's bodies that should be dreaded. The girls encounter infection more than the boys because they are more sociable, meet other children more, and associate with them more intimately than boys do."

## WAR ON FLIES.

Elimination of Breeding Places Is Urged.

Elimination of breeding places for flies instead of waiting for them to grow large enough to be killed with swatters, is urged.

"The dirty, dangerous, disease-spreading fly already has made its appearance in small numbers and as the warm weather advances will be with us in countless millions. The fight of extermination should be started now."

"The most effective way to fight the dangerous house fly is to destroy the places wherein it breeds. When you swat the breeding place you are swatting flies by the whole sale. If only a few persons in a neighborhood are careless about this important matter, the community still will be pestered with flies. It is a great deal easier to remove the conditions that cause the flies than it is to try to destroy them with swatters and poison after they are with us."

Here is a fly-killing mixture which is recommended:

"To a pint of milk and water of equal parts add two tablespoonsful of formaldehyde. Place in shallow plates with a square of bread in the centre of each plate. The bread furnishes places for the flies to alight, and as it absorbs the mixture the flies will feed from it more readily than from the edges of the plates. It is a good plan to place plates containing the poison just outside the kitchen door, where the flies usually swarm to get in. The flies seem to like it and it kills them quickly."

## What a Million Mothers Avoid

More than a million careful mothers have intuitively known the dangers of poisonous fly destroyers. They have known that such preparations contain arsenic in deadly quantities. They have realized the peril to little children that accompanies the use of fly poisons.

But for those who have not learned of these dangers, we quote from a recent issue of the Child Hygiene Magazine, which comments upon thirty-five cases of children being poisoned last year:

"The danger to children is great, and the danger to adults is by no means inconsiderable."

In the December issue of the Michigan State Medical Journal, an editorial on the same subject cites 67 cases and goes on to state:

"Arsenic fly poisons are as dangerous as the phosphorus match. They should be abolished.

# MAY SALES Showing a Splendid INCREASE

This is exceedingly important and gratifying to this store. It is the sign of no depression, but rather prosperous times in this district in face of war times and depressing influences. This store is selling at less profit than ever before, but our increase in turnover helps us out. Desirable merchandise will be very hard to get for autumn and winter trade, but we are "right on the job" preparing already. :: :: :: :: ::

## Buy This Spring, Not Next Fall; You Save Dollars and Get Better Goods

If it's a Tailored Suit or Dress and you are not fully decided to buy this spring or leave until fall, take the wise course and buy now. You not only save in price but you will be able to get imported goods that will not be able to be had later. "Made in Canada" goods will have to take place of "imported." While we are loyal to our Canadian manufacturers, still we must admit in many cases and in many lines they cannot be compared for quality or value. So we advise our customers to buy liberally now anything IN WOOLLENS AND LINENS particularly including Dress Goods, Hosiery, Linens of all kinds, Men's Suitings and Suits and Underwear.

**Ladies' Tailored Suits**  
**Ladies' Afternoon and Evening Dresses**  
This store is specially prepared to take charge of all orders, execute promptly and serve you as well as any city store, with a saving in prices equal to 25 per cent. to 50 per cent. Our dressmaker will save you all the worry if you just drop in and consult her, see the different styles and choose your materials from our splendid stock. Everybody satisfied and delighted with our dressmaking service.

**Ready-to-wear Tub Dresses**  
We have doubled up in our stock and expect greatly increased sales. We have avoided all the troublesome features in connection with so many of the Wash Dresses by buying the more roomy kind, the properly-made kind. See our large selection at very attractive values, \$1 to \$2.50.

**Smart Summer Apparel for Matrons and Maidens**  
Report orders already this season on **Middy Blouses**  
An increased demand this year. We show splendid lines for women, misses and girls, 75c to \$1.50.

Another Lot of Men's Sample Suits at Less Than Manufacturers' Prices. Drop In and See.

**Children's Rompers**  
In large assortment of materials for solid wear. Prices, 25c to 45c.

**Dainty Shirtwaists and Blouses**  
Made from Voile, Sheer Wool and Silk and All Silk; some in Sheer Linens and Marquisesettes, daintily trimmed with exquisite laces. Wide range of prices and every article moderately marked for quick selling. \$1.00 to \$5.00.

**Black and White Greatly in Vogue**  
Our stock, both in Wool, Silk and Wash Materials in Black and White, is very large and well assorted. Drop in and see how correct the styles and materials are.

**Silk and Lisle Gloves and Hosiery**  
**Silk Lisle and Cotton Underwear**  
Lisle in particular will be impossible to get later. Many are unable to get them now. We anticipated this trouble and bought liberally last autumn, and are prepared for a ready demand. For values compare our 25c and 50c lines.

**Our Clothing and Men's Annex**  
Is the busy spot in town, with its splendid stocks of choicest makes in Special-fitting Suits for Men, attractive styles in Suits for Dressy Young Chaps, Mannish Little Suits for the Little Gents.

**Grand Display of Spring Headgear**  
Panama, Sennet and Split Straws in the New York blocks for spring 1915. The New Christie Hats, the New Popular Fedora and Tapering High Crown.

**Special Feature This Spring**

THURSDAY, MAY 20, 1915.

Looking at the situation in even its most favorable light, there will be a demand for food that the world will find great difficulty in supplying.

The importance of ammunition in the war, and particularly for the success of the advance of the Allies, will be understood from the announcement that at the battle of Neuve Chappelle as much ammunition was used as during the entire Boer war. The Boer war lasted two years and nine months.

When will would-be poets learn that the senseless drive that they throw on paper on every possible obituary occasion, is in nearly every instance but adding to the burden of the bereaved ones? These "In Memoriam" artists are a humbug, and the sooner they find it out the better.—Thamesville Herald.

The county weekly and the small town daily can establish the dignity and value of local life. The villages, towns and smaller cities of Ontario have not rewarded the work of their own newspapers. Ontario has failed to encourage the editors of local weeklies and dailies to fill a place that can never be filled by city newspapers.—Toronto Telegram.

What honor, what credit to a man is there in the blasphemous repetition of a Name that is above all names? Men there are on all sides who cannot utter a dozen words without naming the Giver of Life to emphasize their utterance. It would be bad enough if it ended at

that, but when they are sandwiched in epithets of the most immoral and degrading character it casts a slur on the community that cannot be ignored. On our streets and within doors, too, can be heard language that makes one wonder how self-respecting men and women can live within sound of it.

Russia, France, Belgium and Britain with less than ten months of preparation for war are still locked in their wrestle against the Germanic alliance with more than forty years of preparation for war. The wonder is not that the unprepared nations have made so little headway against the prepared nations. The free people can find cause for surprise and gratitude in the almost complete nonfulfillment of the expectations which tempted a well-prepared Germany to choose the hour at which to strike down an unprepared foe.

### A Million Pounds of Sugar a Day.

It is only when one reads of the capacity of a big sugar refinery, like the new Atlantic Refineries in St. John, N. B., that one realizes the enormous quantities of sugar consumed by the people of to-day. Canada has a population approaching eight million. The Atlantic Refineries have a capacity of one million pounds of refined sugar a day, thus this new and up-to-date plant could supply one-eighth pound of LANTIC SUGAR per day for every man, woman and child in the Dominion. Only those who have been through a modern refinery like this one in St. John can appreciate the scrupulous cleanliness of every detail of the process of converting raw sugar into the sparkling, diamond-like granules of LANTIC SUGAR. And this keen regard for perfect purity is carried beyond the actual refining of the sugar to the filling of the cartons and bags. LANTIC SUGAR comes to Madame Housewife in attractive cardboard cartons, containing two and five pounds of sugar (and the weights are guaranteed) and in bags of 10, 20 and 100 pounds. These packages are filled and weighed by automatic machinery, one of the wonders of the refinery, so that the sugar is never touched by hand from the time it comes in the raw state from the southern sugar cane fields until the packages are opened in the home. This is a point well worth remembering, now that the preserving season is soon to open, when pure sugar will be in great demand for putting up delicious home-made preserves, jams and jellies.

### High School Notes.

On Monday afternoon, Captain Darling, of London, inspected the High School Cadets, who have been under the instruction of Captain Roy Squire for the past year. He was quite satisfied and approved of the progress made, but suggested the use of uniforms. These were procured by the High School Board in other places. Sickness is interfering somewhat with the attendance of the pupils recently. This is serious in view of the proximity of the examinations. The following are the additional results of the Matriculation Tests held a week ago:—E. Bromhead 74, N. McCallum 72, G. Campbell 65, A. Campbell 61, W. Poole 60, A. Aldred 58.

### Civilization Against Savagery.

The civilization that we know cannot survive alongside of the new warfare perfected by all the discoveries of science and put in the hands of a race of devils. War must go if civilization is to live. Civilization must go if the new warfare is allowed.

War hereafter is not to be between nations, but between humanity and savagery. And the Kaiser is at the head of the horde that seek to throw things back two thousand years. Men must now ask themselves not as to their race and nationality, but whether they are civilized or savage, and they must align accordingly. The United States finds itself face to face with this interrogation. That country has many savages who would side with savagery.

The world is being absolutely revolutionized in a single year by this new phase of conflict. We are nearer barbarism at this moment than we ever were in centuries.

But it will not be by races or blood ties, but by faith in moral principles, faith in humanity, in civilization. To save humanity all the world is going to turn in and beat Germany, not because she is German, but because she is savage, and there is only one law for the brute, and that is castigation or extermination. In less than a year mankind is being forced to think that civilization is to be saved by the destruction of Germany. And Germany has by her own madness forced this belief on the rest of us. The most highly educated nation has run amuck. Why?

##### Girl Wants to Fight.

Impelled by the urgent message from her aged grandfather in Scotland and by her own intense longing to avenge the death of eight of her cousins, Miss Jessie Strickland, of 204 St. James street, London, is now trying to find a way to go to the front. Miss Strickland is young and pretty. She has lived in London for only a year, having come from Scotland. Her parents are dead and her one brother is on his way to England to enlist as soon as he arrives in the British army. "I want to go to fight too. I don't want to be a nurse because I would never get a chance to fight with a rifle, shoulder to shoulder with the men," Miss Strickland declared most emphatically. "If I cannot get to France in any other way, I will dress myself up as a boy, and I think I could fool them if I once got to France." Miss Strickland is going to write to Major-Gen. Sam. Hughes, Minister of Militia, to ascertain if there is any chance of her being able to fight in the trenches.

##### The Western Fair.

The Western Fair, London's popular agricultural exhibition, will be held this year from September 10th to 18th. It is considered by the management that this year, above all others, should be the one when extra efforts must be put forth to make the exhibition a great success; therefore with assistance given by the government the board of directors have decided to make a cash addition to the prize list of \$3,000. Good as it was before, this will certainly make London's prize list very attractive. The list is now in the hands of the printer and will soon be ready for distribution. Thousands of advertising maps and hangers have been sent throughout the country during the past week announcing the dates, and arrangements are being made as quickly as possible to assure exhibitors and visitors alike, that this year's exhibition will be the best ever held at London. Any information regarding the exhibition will be gladly given on application to the secretary, A. M. Hunt, London, Ont.

The Home of Lantic Sugars

The most up-to-date refinery in the world.

## This new Refinery gives to Canada the most up-to-date Sugar Refinery on the Continent

After a year and a half's work, we have completed and are now operating the most sanitary, up-to-date sugar refinery ever constructed. Every new and improved method of refining has been installed.

No expense has been spared to make the sanitary conditions perfect.

Every step in the process of manufacture is one of care and patience for quality.

The result is that no hand touches the product from the time the raw sugar reaches the refinery until the perfectly refined sugar enters the home in the Original Packages.

Only cane sugar used in the refinery—no beets—no substitutes.

Tell your grocer to send you Lantic Sugar in original packages. This will ensure the purity and cleanliness of the sugar used in your home. Look for the Red Ball on every package.

On Monday, May 24th, the ladies will hold their annual bazaar and concert. The ladies of Burns' church, Moss, forwarded a package containing 24 pairs of socks and 15 day shirts to the Red Cross Society, Harding Hall, London, on April 26th. They are continuing their Red Cross work and will be pleased to receive contributions, which may be handed to Miss Mary McAlpine, Metcalfe.

Edward Wedmark, aged nineteen, of Strathroy, was almost instantly killed on the farm of W. P. Morgan, Adelaide township, at noon on Tuesday. The young man was thrown from a manure spreader, when the horses became frightened, one of the wheels of the heavy implement passing over his head.

A correspondent writes:—Mr. Campbell, who is employed by the Government to give instruction in road making in Ontario, says the roads are all too flat, and recommends scraping the sides of the roads into the centre. He says the sod at the edge of the roads would be better drawn away, but rather than leave the sod on the edge of a flat road it is better to scrape it into the centre, even on top of the gravel, so the water can get off. This was done on the Longwoods Road, and some don't see that Campbell's right.

## About the Household

### Pie Recipes.

**Cream Pie.**—One cup sweet milk, one heaping teaspoon cornstarch, three tablespoons sugar. Let boil until thick, then add one tablespoon vanilla. Have a baked crust ready to receive the above mixture over which lightly spread the stiffly beaten white of one egg and two tablespoons of sugar. Set back in oven to brown.

**Mock Cherry Pie.**—One cup of cranberries, two-thirds cup raisins, two-thirds cup sugar, half cup water, one tablespoon flour, one teaspoon vanilla. Mix well and bake between two crusts.

**Chocolate Pie.**—One cup sweet milk, half-cup sugar, quarter cup butter, two tablespoons grated chocolate, one tablespoon flour and one of vanilla. Put milk and sugar on to boil, beat one egg well, add a little cold milk and the flour; beat to smooth paste, and add to milk, stirring constantly. Add butter and chocolate melted together and boil all a few minutes, beat to smooth paste and fill baked crust. Cover with whipped cream or white of egg.

**Lemon Coconut Pie.**—To one cup sugar add the grated rind and juice of one lemon, one egg well beaten, a good tablespoon of flour, one cup of water and half a cup of coconut (shredded). Line a pie tin with rich crust, pour the mixture and bake.

**Butter Scotch Pie.**—Make a rich crust and bake. Fill with the following: To one cup light brown sugar melted over the fire, add a large tablespoon butter and cook until the sugar is slightly burned, then add one cup milk, and when well blended, the yolks of three eggs, thoroughly beaten. Stir until thick, and pour into the shell. Beat the whites to a stiff froth, add three tablespoons powdered sugar, and spread on top. Brown in a quick oven.

**Date Pie.**—One cup dates (stoned), one-fourth cup sugar, one egg, one cup of hot milk, half cup water, one teaspoon lemon juice. Add the sugar and water to the dates and cook over a slow fire until half done, remove and add filling and put back to finish baking.

**Banana Pie.**—When fruit is scarce I make pie by baking an undercrust, and in this slice a banana; then cook one large cup of milk, one-third cup of sugar, a pinch of salt, a little butter and thicken with flour or cornstarch. When done flavor with vanilla, stir in beaten yolk of egg, and pour over bananas, in crust. Beat white of egg, sweeten and spread on top and brown.

**Pieplant and Strawberry Pie.**—Line the pie plate with dough, put in good layer of pieplant, cut into cubes, then half a cup of fresh strawberries, or half a cup of canned berries. Mix one cup sugar

and one tablespoon flour together, turn over the fruit, cover with upper crust and place in hot oven for 10 minutes, then reduce the temperature and finish baking. Avoid boiling the contents of a pie, as this is the reason that so many boil over or run out at the side.

**Custard Pies.**—1. Plain Custard.—Beat together until very light the yolks of four eggs and four tablespoons sugar, flavor with nutmeg or vanilla; then add the four beaten whites, a pinch of salt, and lastly a quart of sweet milk. Mix well and pour into tins lined with paste. Bake until firm, in a moderate oven.

2. Chocolate Custard Pie.—Put some grated chocolate into a saucepan and place on the back of the stove and let melt (do not add any water to it), beat one egg and add some sugar in it; when melted, spread this on top of the above custard pie. Lovers of chocolate will like this.

3. Peach of Custard Pie.—Use either fresh or canned peaches. Chop peaches without juice and add to a plain custard.

4. Fig Custard Pie.—Three figs soaked over-night in water, then boiled until tender, after which they should be chopped until fine. Add chopped figs to plain custard, and bake.

**Apricot Pie.**—Stew apricots until tender, sweeten to taste and add beaten yolk of one egg. Fill crust and bake. When cool cover with a meringue made of the beaten white of the egg, sweetened with one tablespoon of sugar. Set in oven until browned. Or cover the pie with criss-cross strips of pastry when the pie is first put into the oven.

### Hints for the Home.

When steaming potatoes put a cloth over them before putting the lid on. They will take much less time to cook, and be much more neatly than when done in the ordinary way.

A piece of white oilcloth placed at the foot of dark stairs will warn those who are descending that the last stair is reached, and thus save an unpleasant fall or jar to the system.

Before using a new saucepan add a lump of soda and some potato peelings and let it boil for some hours. Then wash out thoroughly, and all danger from poisoning from the tin lining will be gone.

When lemons are hard cover them with boiling water and stand them aside to cool. They will then appear fresh and full of juice. Neither will the juice seem in the least diluted by any water absorbed.

To remove grease stains from wall-paper mix with water to the consistency of cream, spread over

the marks, allow to remain for two days, then remove with a stiff brush, and the stains will have disappeared.

The following is a light cheese pudding, much more easily digested than plain toasted cheese, which was at one time a favorite with many, eaten with oatmeal cake or toasted bread.—Cut up the cheese into small pieces and place in a saucepan. Mix two tablespoons of corn flour in a breakfast cupful of milk and pour into the saucepan. Allow to boil for a few minutes. Take off the pan and add a well-beaten egg.

The frequent variations of temperature during the spring makes it highly dangerous to change children's clothing too hurriedly. It is a mistake, immediately a hot day comes, to pack away the warm "woolens" and take out the lighter summer clothes. Many a serious cough and illness has been the result of this premature change.

The alteration from winter clothing should be gradual. Wool should always be worn next to the skin, as this protects the child from sudden chills, and a thick vest is necessary until the weather is quite warm and summerlike.

### The Useful Motorcycle.

A two cylinder motorcycle will take a 165 lb. man, a side car with two hundred or more pounds of luggage, of farm produce, or of purchases made while in town, and take them all safely. It will carry fragile, breakable commodities far easier and safer than a buggy. It will get the cream to the station in good, smart time, and so long as roads are bare of snow, will do it far more reliably than anything but the trustiest kind of a trusty horse.

It will run an errand to town at a moment's notice, and in a few minutes' time. Many times long delays can be avoided, when accidents occur, when machinery breaks down, when assistance is needed. In speed it is only outclassed by the long distance telephone, and in economy of operation, the other traffic or passenger carrier that can cover fifty miles or so at the cost of a gallon of gasoline has yet to be developed.

Few machines have reached so great a perfection of development. They are very little likely to get out of order, and will add pleasure to country life, from the fact that they can put more miles of travel and sight-seeing into a few hours, than is possible by any other methods that are not more expensive, can in days. Hot weather has no bad effects upon the motorcycle. It will save the horse many long, hard trips, and make it possible to keep the driving horses available for work, and at the same time in good condition to command a ready sale at any time. One of the best things to make the boy contented to stay upon the farm is the motorcycle.

"Oh," she said, "your conduct is enough to make an angel weep." "I don't see you shedding a tear," remarked the brute.

## THE SUNDAY SCHOOL LESSON

INTERNATIONAL LESSON,  
MAY 23.

Lesson VIII.—David King Over  
Jahash and Israel. 2 Sam. 2. 1-7;  
5. 1-5. G. T.—Psa. 28. 7.

I. David Goes Up to Hebron  
(Verses 1-4).

Verse 1. After this—After the defeat of Saul and Jonathan the way was clear for David's rise to the throne.

Inquired of Jehovah.—If he was to be made king, it would be the Lord's doing. He would not take matters into his own hands. His inquiry was made through the usual way of Urim and Thummim (see 1 Sam. 10. 22; 23. 6).

Hebron.—A place particularly well adapted for a temporary capital. It was easy to defend because of the mountains. David was familiar with his surroundings, and he had many friends there (see 1 Sam. 30. 31). In the north, the Philistines and the adherents of Saul divided the supremacy between them. The modern name of Hebron is El Khulid, which means "The Friend," referring to Abraham, "The friend of God" (2 Chron. 20. 7; Isa. 41. 8; James 2. 23).

2. His two wives.—See 1 Sam. 25. 42, 43.

3. The cities of Hebron.—That is, the towns and villages near Hebron.

4. The men of Judah came.—The members of his own tribe. See 1 Sam. 30. 26 for evidence that David had been in very close friendly relations with the elders of his tribe.

Anointed David.—David had been privately anointed by Samuel (1 Sam. 16. 13). A public ceremony, as in the case of Saul (1 Sam. 10. 1; 11. 14, 15), was necessary.

II. His Loving Memory of Jonathan (Verses 4-7).

4. They told David.—This part of verse 4 is distinct from the other part. David evidently had been making inquiries as to what had become of the bodies of Saul and Jonathan.

The men of Gilead.—If the men of Gilead were favorable to David, he would have little difficulty in extending his kingdom northward. There was reason, therefore, for his kindly attitude toward them. This fact, however, is not to be taken as lessening his real sense of gratitude for their burial of Saul and Jonathan.

6. Loving kindness and truth, or mercy and faithfulness, are attributes of God which are frequently found together (see Exod. 34. 6; Psa. 25. 10; 40. 11; 57. 3; 86. 15).

7. Bo ye valiant.—That is, to lead Gilead against the Philistines until David could aid them.

III. Anointed King Over Israel (Verses 1-5).

1. Then came.—That is, after the death of Ishbosheth, the son of Saul (see 2 Sam. 4).

All the tribes of Israel.—The warriors, men over the age of twenty. See Num. 1. 3; Exod. 19. 3-9; 24. 3; Num. 27. 18-23; 2 Sam. 5. 1; 1 Chron. 29. 22; 1 Kings 12. 20; 2 Kings 11. 19; 21. 24; 23. 30; Judg. 20. 1. These passages show the rights and authority of the "congregation of Israel." Josiah, David, and Solomon were presented to this congregation for approval; Jeroboam, Josiah, Josiah, and Jehonah were elected by the congregation.

We are thy bone and thy flesh.—Having a common ancestry (see Gen. 29. 14; Judg. 9. 2).

2. Thou leddest out and broughtest in Israel.—As a war leader. Jehovah said to thee.—The divine call.

Three reasons in the order of their importance are given for electing David king: the tie of relationship; his proved capacity as a military leader; the divine choice (see on the first and third reasons Deut. 17. 15, on the second 2 Sam. 3. 18).

3. Made a covenant with them.—A mutual agreement, he to rule according to the laws and they to show allegiance. The king's rights were defined (1 Sam. 10. 25); later these were limited (1 Kings 12. 3). "The Israelite monarchy was not an absolute and irresponsible despotism."

They anointed David king.—A third time.

## Bonds and Their Yields

Offer Splendid Opportunities to Both Investor and Speculator—  
Yield is High.

The outstanding feature of industrial bonds is the high rate of interest which they usually yield. Taking all classes of bonds into consideration, it is safe to say that no other form of bonded debt pays to the money lender so much interest on the capital required. The interest yield is usually much higher than on ordinary real estate mortgages, though often the underlying bonds of a private corporation are a lien on very valuable real estate. Industrials stand at the top of all other bonds in point of high yield.

They Are a Large Class.

Under the category "Industrial bonds" is included the obligations of all manufacturing and mercantile companies of a private character. These companies while manufacturing or supplying articles of use to different members of the community they serve, do not usually supply necessities like those supplied by public service corporations. Operations are carried on by virtue of a government charter granted under some one of the existing Joint Stock Company Acts.

By reason of the fact that industrial bonds are obligations of private companies not supplying public services, they cannot be regarded as having the same element of permanence about them as the more gilt-edged bonds dealt with in previous articles. While many mercantile pursuits, such as the milling and shipping industries, are very necessary to the life of the nation, it cannot be inferred that the debts of all private companies engaged in such pursuits are always amply secured. For this reason it is advisable for the prospective investor in industrials to investigate for himself the security behind the bonds he contemplates purchasing.

How They Are Secured.

The first consideration is the value of the real estate, to be determined not from the book cost of the property, but based upon an independent appraisal is usually given in the prospectus issued by bond houses issuing the securities. If the real valuation exceeds the value of the bond issue, then the safety of the principal can scarcely be questioned. If not, then other factors must be carefully considered.

The relation of current or liquid assets to current liabilities is important. The former should greatly exceed the latter, and leave substantial net quick assets. In fact, where a careful investment is being made, the net quick assets alone should be sufficient to cover the bonds.

The earnings of a company bulk large in considering the safety of an industrial bond. Whether the gross is increasing or decreasing should be carefully noted. The net earnings of a company should be sufficient to guarantee payment of interest and all fixed charges as well as providing a sinking fund. A safe rule is for net earnings to be about three times the bond interest.

### Management a Real Factor.

The management and control of an industrial concern is also most important. The success of a private enterprise is largely dependent upon the men behind it; and given sound and experienced management, the margin of security behind the bonds may be much less than in a case where there are less capable managers and ample fixed and liquid assets.

The big attraction of industrial bonds is, of course, their high yield. Six per cent. and more is to be had on a first-class security; and in the case of recently organized companies an even higher yield can be obtained.

### There is a Good Market.

A big advantage, too, is the comparative ease with which they are converted into cash. Canadian industrial bond listings are numerous, and there is an active trading bond market at all the big financial centres of the world.

Bonds are purchased when a company is first organized, when they can often be picked up cheap. Stock bonuses have been among the inducements offered investors during the past few years. Some industrial bonds are quite cheap now, and will doubtless advance in price within a reasonable time. On the other hand, there are many standard issues which vary very little in price from month to month, and have all the advantages of price stability together with a moderately high yield.

### Speculative Features.

All industrial bonds are in a sense speculative, inasmuch as they depend largely on the success of private enterprise for their own increase in value or even their permanence of value. Because of this they offer a better than usual opportunity to the astute buyer to make a substantial profit on the turn.

There are many industrial bonds of sterling quality; and others which are intensely speculative in character. This makes it imperative that the services of a thoroughly reliable bond house be secured when purchasing for investment.

## The Sword of the Spirit

Instruments of Slaughter Were As Numerous in Ancient Days  
As in Our Own.

"Wherefore take unto you the whole armor of God, that ye may be able to withstand in the evil day, and having resisted, ye may stand." Stand therefore, having your loins girt about with truth, and having on the breastplate of righteousness; and your feet shod with the preparation of the gospel of peace; above all, taking the shield of faith, wherewith ye shall be able to quench all the fiery darts of the wicked. And take the helmet of salvation, and the sword of the Spirit, which is the word of God. —Ephesians, vi., 13-17.

It is for defence, however, not aggression, that the apostle urges us to be prepared. It is armor, not weapons, that he bids us take unto ourselves. But what an armor! Here is no mention of galea, lorica, ocreae, clipeus or other article of the equipment of the Roman legionary. On the contrary, we are to rely upon truth to guard our loins, righteousness to cover our breast, take nothing more substantial for a helmet than salvation, and for a shield than faith, and on our feet are to put, of all things, "the preparation of the gospel of peace." Was there ever before so strange an armor for battle? And yet it is this equipment which the apostle says will be all sufficient to "quench the fiery darts of the wicked," and enable us "to withstand in the evil day."

It is evident that Paul was very serious when he spoke of putting on "the whole armor of God." Here is borrowed the language of the soldier to set forth the teaching of the prophet. Preparedness means not military, but spiritual, preparedness. The man who would find security is to array himself in truth, righteousness, faith and sincere desire of peace, and, when he must assail evil, to wield alone the weapons of the Spirit. This is armor which can never be pierced; this is a sword which can never be turned aside. "Love never faileth."

And if this be the lesson of preparedness for man, why not also for nations?—Rev. John Haynes Holmes.

## Young Folks

### The Story of the Wooden Horse.

Long ago, about 2,000 years before Christ was born, the men of Greece were angry with the men who lived far across the sea in the city of Troy. So the Kings of Greece called together the bravest of their warriors and set out in their long ships to punish the Trojans and destroy their city. But the walls of Troy were strong and the Trojans were brave fighters. And although the Greeks fought many battles, yet at the end of ten years they had not taken the city.

Then one of the Greeks, a very cunning man, made a plan by which they could get into the city without any fighting at all. A great wooden horse was built. It was hollow, and so large that a great number of soldiers could get into the body through a little door in the side. In the darkness the horse was filled with the bravest of the Greek soldiers.

Next day the other Greeks dragged the horse up to the city walls. They pretended that they were tired of fighting, and were going to sail home, leaving the great horse to remind people of their brave fighting during the ten years. Then they went on their ships and sailed away.

The people of Troy stood on their city walls and watched the Greek ships sail. At last when they were out of sight behind the islands the Trojans, feeling safe, rushed out of their city to look at the monster horse. Some of them wanted to make a great bonfire of it to rejoice at their victory, but at last they decided to take it into the city. As it was too large to go through the gate they broke down part of the city wall and dragged the horse through. Then they feasted and sang, for they thought that they had won at last, and that the Greeks were far away.

But in the darkness of the night the door of the horse opened and the Greeks inside crept out. And the ships, which were only just out of sight behind the islands, came silently back, and the soldiers landed again. They marched in through the hole in the wall which the Trojans themselves had made and joined their friends. Then they fell upon the feasting Trojans and soon defeated them. And that is how the Greeks, after ten years took the city of Troy.

You can imagine how the Greeks, when they got home again (getting home again was no easy matter, for men in those days did not know much about the sea as we do now) would love to tell the story to the friends they had almost forgotten, and how the little Greek boys and girls would be more than ever delighted with their own little wooden horses.—Leith Observer.

### An Empire Day Appeal.

Many of the boys and girls of the Province are feeling, during these stirring times, the limitations of youth. One mother told me of her young son, a lad of barely eighteen, who said: "Oh! mother, why was I not born two years sooner? Then I could have enlisted."

Many who are too young to enlist are inquiring, like Bunyan's pilgrim, "What can I do?" Let me tell you what one young girl has done. On Christmas day she was given a \$25.00 gold piece. Most of us would have taken at once thought of many ways to spend the money to bring pleasure to ourselves; but our young friend said she would like to spend it for soldiers' comforts. So the beautiful coin was exchanged for wool to send to the country to be made into socks. When the socks came back, they will be sent to Boulogne for the soldiers in the hospital, where the young girl's father is ministering to the wounded.

One of the best results of such generosity is the example it sets. It silently says to each of us, "Go and do thou likewise." So it was in this case; the girls in the school to which our young friend went, raised \$15.75 for the same purpose. The boys in her brother's school raised \$86.00.

Several of the city schools have undertaken to raise sums large or small for our wool fund. This will help to feed the stream of money which must be kept flowing if we are to keep up the supply of socks necessary for our soldiers. I wish all the boys and girls of Ontario to hear of these things. If they respond, as I am sure they will, the stream will soon be a torrent.

Will your school contribute something to the cause?

"You have inherited quite a nice little fortune," said the family lawyer. "Yes," replied the fortunate youth, "a very nice fortune indeed." "I suppose you will pay off a lot of debts now?" German Shellproof Armored Car: Latest Enemy "Terror of the Road."

A German land "Queen Elizabeth," a super-Dreadnought of the road, is how one might describe the titanic armored motor-car seen in our photograph. The idea of such a Juggernaut of War may have originated in the recorded exploits of the Russian armored motor-cars in one of the Polish frontier engagements, when, at a critical moment, they dashed into the firing-line, and with their machine guns routed the Germans and decided the battle. The car has been described as armored with 6-inch Krupp steel, and as being driven by three of the famous eight-cylinder 400-h.p. Daimler engines. It will hold a "crew" of 120. Its armament consists of two 4.7 quick-firers. Its maximum speed on a good road is twenty-five miles an hour. Its caterpillar wheels will be noted.

## Appin

Appin, May 11.—Quite a number from this vicinity attended the May meetings at Wallacetown.

Operations are being pushed forward at the park. Monday afternoon a bee was held and good work was done. Owing to the willing response of the citizens and farmers the ground will soon be in shape to lay out a diamond.

Mrs. J. A. McTaggart is slowly recovering.

Our village is to be much improved by new sidewalks this spring.

Herman Galbraith and Dan Laughon have purchased cars.

Messrs. Moore and Nettleton are busy loading cattle.

Miss Violet Rankin, who has been visiting friends in London has returned.

Arthur Perry has installed a gasoline engine.

The baseball club are arranging two games of ball with a team from London, also races and other sports, for May 24th.

Appin, Mount Brydges, Melbourne and Delaware have formed a baseball league, playing to commence May 26th.

This is the centre of the lightning rod business and the agents are all busy now.

The Appin Women's Institute will meet at the home of Mrs. J. S. Macraut on Thursday, May 27th, at 3 p. m. The hostesses assisting Mrs. Macraut will be Mrs. Bert Watterworth and Mrs. Martin Johnson. The programme for that date will consist of the following:—1. Flower culture, Mrs. John Jones; 2. Diet in relation to health, Mrs. Dunc. Johnson; 3. Music, Miss Jean McIntyre; 4. Current events, 15 minutes; 5. Roll call, replied to with each member giving the number of times she was present during 1914-15. All members and their friends are cordially invited to be present.

A GOOD MEDICINE requires little advertising. Dr. Thomas' Electric Oil gained the good name it now enjoys, not through elaborate advertising, but on its great merits as a remedy for bodily pains and ailments of the respiratory organs. It has carried its fame with it wherever it has gone, and it is prized at the antipodes as well as at home. Dose small, effect sure.

## KILMARTIN.

Kilmartin, May 18.—Robert Campbell is in Montreal on a business trip.

Mr. Simpson, of Woodgreen, spent Sunday with friends here.

Mrs. Smith, of Comber, is a guest at the manse.

## MELBOURNE.

Annual Victoria Day picnic in Melbourne on Monday, May 24th. Dinner will be served from 12 to 2 p. m. A good programme is being prepared. Music furnished by the Dutton Band.

Baseball, basket-ball and other sports during the afternoon. Admission, 25c.

## KILMARTIN.

Mrs. Liza McIntyre and Mrs. Donald McGregor visited Brooke friends last week.

Stanley and Jessie Humphries, of Glencoe, sang at the evening service in Burns' church, Mossa, on Sunday last. Their singing was much appreciated. Will be glad to have them visit us again.

Miss Mary E. McAlpine, Mossa, spent the week-end with friends in London.

Duncan McKellar is remodelling Donald McGregor's residence.

Geo. Giles is working in the cemetery, having been engaged for the summer. He is making a great improvement which reflects credit on the community.

Mrs. Donald Leitch and daughter, Mrs. John Summers, of Oakdale, called on friends here recently.

Our Kilmartin horsemen are getting their high steppers and roadsters in shape for June 3rd at Glencoe and can be seen driving along our boulevard almost every evening.

Miss Jean Wood, teacher of No. 5, Ekfrid, spent Sunday, the 9th, with friends here.

SLEEPLESSNESS.—When the nerves are unstrung and the whole body given up to wretchedness, when the mind is filled with gloom and dismal forebodings, the result of derangement of the digestive organs, sleeplessness comes to add to the distress. If only the subject could sleep, there would be oblivion for a while and temporary relief. Parneelee's Vegetable Pills will not only induce sleep, but will act so beneficially that the subject will wake refreshed and restored to happiness.

### WALKERS.

Neil McDougald, who had his house burned some weeks ago, has a new one nearly completed.

George F. Munroe is enlarging and remodelling his house.

David Leitch is adding a verandah to his house.

Neil Munroe had the misfortune to have a young colt break its leg. He has had the limb set and will try and save the colt.

Mrs. Donald Leitch and Mrs. Summers, of Oakdale, visited at James Walker's last week.

Miss Flo. McCallum, who has been in the West for the last two years, arrived home on Saturday.

J. D. McIntyre has put a new concrete foundation under his drive shed.

Conquers Asthma.—To be relieved from the terrible suffocating due to asthma is a great thing, but to be safeguarded for the future is even greater. Not only does Dr. J. D. Kellogg's Asthma Remedy bring prompt relief, but it introduces a new era of life for the afflicted. Systematic inhaling of smoke or fumes from the remedy prevents attacks and often effects a permanent cure.

Help your children to grow strong and robust by counteracting anything that causes ill-health. One great cause of disease in children is worms. Remove them with Mother Graves' Worm Exterminator. It never fails.

## The Transcript.

THURSDAY, MAY 20, 1915.

## Wardville

Wardville, May 18.—Mrs. Collins and daughter Pat, of Exeter, are visiting Mrs. Collins' sister, Mrs. J. A. Mulligan.

Miss G. McLarty, of Clachan, spent the week-end with Miss Elva Brimmon.

The district meeting of the Women's Institute of the Western Division will be held in the town hall here on May 28, commencing at 1:30.

Corporal Ward, of the 33rd Battalion, London, spent the week-end with T. Jones.

The memorial service for Pte. Chas. McGregor Blott, held in the Anglican church on Sunday evening, was largely attended. The church was draped and decorated with flags. The boys who were former chums and friends of the dead soldier provided a beautiful wreath of roses, lilies and carnations, bearing the inscription "Our Hero."

The service was conducted by the rector, Rev. Mr. Hale, assisted by Rev. Mr. Snell, of the Methodist Church.

Both spoke feelingly and appropriately. William Sheppard sang "Face to Face" in splendid voice.

Mrs. Ellison entertained the Mission Circle at her home Saturday.

A number of ladies of the W. M. S. will attend the branch meeting in London from Tuesday till Thursday of this week.

The annual meeting of the Ridgeview district will be held in the Methodist church Wednesday and Thursday of this week. On Wednesday evening a public meeting will be held to be addressed by Rev. T. T. George, a former pastor, and Rev. W. J. Ford.
