LEADER OF LIBERALS ADVOCATES GREATER TAX UPON LUXURIES

Hon. William L. Mackenzie King Speaks At St. John, N. B.

Urges Removal of Duties On Instruments of Production.

ST. JOHN, N. B., Jan. 16.—Hon. William L. Mackenzie King, leader of the Liberal party, and Ernest Lapointe, M.P. for Quebec East, addressed an audience which filled the Imperial Theatre tonight. Many persons were unable to get admission.

Hon. W. E. Foster, premier of the province, who presided, declared in an introductory address that he would like to see the Liberal government in power.

Mr. King was given a hearty reception and made himself right at home with his audience. He also deplored lack of representation from this province in the cabinet, saying that no Maritime Province man held a portfolio.

DON'T WORRY!

With the city dade in harness, and the mayor right on the bit. Our new nineteen-twenty council all bid fair to make a hit.

They are tackling level crossings and the kiddies' playground park. And they're sworn to honest goodness that they'll ditch our old "Noah's Ark."

So what's the use of worrying; if mistakes they make a few. They are only human men folk, just the same as me or you.

So instead of criticizing those who rule the city roost. Let's forget our personal feelings and go in to build and boost.

30,000 RUMANIAN PRISONERS DISAPPEARED IN GERMANY

Paris, Jan. 17.—Thirty thousand Rumanian prisoners in Germany have completely disappeared, according to a telegram from Bucharest to Red Cross headquarters here.

The Rumanian Government refuses to accept the German theory that such a large number might be included among those listed as missing.

Representatives from every welfare organization in the city are being sent to the central committee, which will be responsible for the drawing up of a plan for the relief of the prisoners.

DEWART CHALLENGES PREMIER DRURY TO FIGHT FOR RIDING IN THE QUEEN CITY

Leader of Ontario Liberals Declares Drury Head of Government by Proxy.

UNDER U. F. O. DICTATION

Declares That Seatless Ministers Find Places or Quit.

TORONTO, Jan. 15.—H. Hartley Dewart, K.C., M.P.P., Liberal leader in Ontario, is after Premier E. C. Drury again. In a statement handed to the Canadian Press tonight, Mr. Dewart severely criticized the premier, who was unconstitutionally called to the premiership by the former lieutenant-governor.

Mr. Dewart said that the premier, who was unconstitutionally called to the premiership by the former lieutenant-governor, was unconstitutionally called to the premiership by the former lieutenant-governor.

AUSTRIAN WAR SHIPS DAMAGED BY THEIR CREWS

Vessels Surrendered to Allies Under Treaty Are Disabled.

CANNOT BE NAVIGATED

Czecho-Slovaks and Jugoslavs Are Blamed For Sabotage.

Geneva, Jan. 16.—Austrian war vessels which, under the terms of the peace treaty must be handed over to the Allies, have undergone a second "Scapa Flow," according to a telegram received here from Turin by way of London.

The dispatch states that the allied commission which arrived recently at Cattaro confirms first reports that the Austrian fleet had been seriously damaged.

The Austrians were said to have destroyed or removed the principal parts of the machinery of the ships rendered incapable of navigation, only the hulls remaining in good condition.

It is said, will require several months before the vessels can be made ready for sea. The fleet includes one battleship, three large cruisers, four torpedo cruisers, twelve torpedo boats, and some smaller craft.

SUFFRAGE CAMPAIGN AT DECISIVE STAGE IN UNITED STATES

Leaders of National Women's Party Count Four Additional States As Sure.

WASHINGTON, Jan. 16.—With the meeting yesterday of the Oregon Legislature called in special session to act favorably on the woman suffrage amendment to the federal constitution, leaders of the National Women's party in Washington express the belief that their campaign is entering on the decisive stage.

Twenty-four states have thus far ratified the amendment. With the action of Oregon the suffragists will be able to point to the campaigns in other states to the fact that 25 states out of the total of 36 necessary for ratification have approved the amendment.

Concentrated Efforts. The suffragist leaders will concentrate efforts on the five states, Maryland, New Jersey, Virginia, Mississippi, and South Carolina, whose legislatures meet this month in regular session, and are endeavoring to have special sessions called in eight other states which are deemed favorable.

There are approximately 28,000,000 women of voting age in the United States, the party asserted in a statement. "Approximately 17,000,000 women are already eligible to vote for president in 1920. But only 7,000,000 will be able to vote for Congress candidates if the amendment is not ratified. East and west a general scramble has apparently set in among the states to secure a place on the list of 27 required for the ratification of the suffrage amendment."

Special Sessions. "Hot upon the heels of the prompt action by Kentucky and Rhode Island, Republican governors, meeting in conference in Denver, issued a statement that they had agreed among themselves to call special meetings of their legislatures in Wyoming, Idaho and New Mexico."

These three states, added to the 25 including Oregon, which have already ratified, bring the number of states to have acted to 28. Eight more chances remain for states to get on the honor list. Action is expected from three more in regular session, Maryland, New Jersey and Mississippi. Eight other legislatures stand ready to ratify if special sessions can be secured. Arizona, Connecticut, Indiana, Nevada, Oklahoma, Vermont, Washington and West Virginia. The legislatures of Connecticut and Vermont show majorities which make it a matter of time before they will be added to the list. The legislatures of these states should be ranked in history among the unrepentant states in this question, but anti-suffrage governors make their voices dominant."

EAT LESS MEAT IF BACK HURTS

Take a Glass of Salts To Flush Kidneys If Bladder Bothers You.

Eating meat regularly eventually produces kidney trouble. In some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

FATAL SIGNIFICANCE IN WAY LETTERS ARE POSTED OR STAMPED

It's Unlucky To Begin a Letter and Not Finish It On the Same Day.

"I wrote a letter to my love and on my way I dropped it. I dropped it once. I dropped it twice. I dropped it— Had you forgotten to stamp it that would have been an evil sign altho the bars of folklore. Did you write seven or thirteen sheets to your lover you would have been sure to get the mitten. If your hand trembled as you wrote to your beloved his love for you is strong. Did you make a blot on a page of your letter the one to whom you are writing is thinking of you. If a man writes a love letter in pencil to a girl it is a sign they will never marry."

If you make a wish while writing a letter to your love under an oak tree your wish will come true. Don't mail a love letter on a Sunday or you will have a dispute with your lover.

If a bride receives a letter from a former sweetheart on her wedding day she will be unhappy. Two letters from two admirers arrive on the same mail you will marry neither.

A letter received on the wedding day is a good omen if the writer is a devoted friend.

The bride who receives a letter on her wedding day has before her a long journey.

Never ask your love a favor on a postal card. It will bring an unsatisfactory reply. If your love sends you an unsolicited letter his love is growing cold.

On receiving a proposal by mail, open the letter out flat, fold it nine times, put it in an old glove under your pillow and sleep on it. You will dream the answer you ought to give.

Keep a love letter in your shoe, your sweetheart will be true to you. Carry one of your beloved's love letters in your pocket during the wedding ceremony and you will have his entire love during life.

If a girl receives letters from a sweetheart, then burns them, and later marries him, she will be left a widow. To burn letters from a sweetheart is bad luck. Fear them up.

An old superstition is that the bride must tear up every letter containing proposals of marriage into pieces no larger than postage stamps and have them strewn into the fire by some third person, or evil spirits will haunt the house she goes to make her own.

Do you know that even envelopes have a language all their own?

They denote friendship; blue, constancy; yellow, jealousy; red, love; green, hope; brown, melancholy; violet, constancy; red, hatred.

To write an important letter on Monday, poverty to come; Tuesday, you'll hear of a marriage; Wednesday, a water journey; Thursday, you will be close to a fire; Friday, hear of a shipwreck; Saturday, failure in business; Sunday, gain of friendship.

It is unlucky to begin a letter and not finish it the same day. If it is a love letter it will find the receiver cold or in trouble.

Yes, and there are omens about seal-wax: White, delicacy and refinement; black, death; violet, coldness; red, melancholy; yellow, jealousy; pale green, misdeeds; grey, remembrance; vermilion, better to die than danger; deep green, hope; blue, love.

If a man writes to his sweetheart and she uses the same color seal-wax as he, it foretells an early marriage.

You seal a love letter with green instead of purple, you feel hopeful; but it will do no good; you will be disappointed in your sweetheart.

If you receive a letter sealed with brown wax you will meet an old friend or have some big surprise.

RAISING OF GOATS MIGHT HELP SOLVE THE MILK PROBLEM

Will Thrive in Ordinary Back-Yard As Well As in Hilly Regions.

It is said that the goat of Switzerland is the Swiss peasant's cow, and Swiss baby's foster-mother, a blessing to the sanitarian for invalids and a godsend to the poor.

This is giving the goat a somewhat important place in national life, but in a country where it is bred as extensively as in Switzerland there is a good deal of foundation for this comprehensive description of its usefulness.

The suggestion has even been made that Ontario citizens might raise goats in their backyards, since the price of cow's milk is so high.

It is a well-known fact that goat's milk is excellent for invalids and babies. The cream globules are smaller and the curd more flaky than in cow's milk. Moreover, it is digested in about one-third the time taken to digest ordinary milk. Good milk goats give milk for at least eight months in the year, and many a dealer for tea, the average yield is about two quarts a day during the lactation period.

Cheese and Butter. Milk goats are raised all over Europe, and more especially in Great Britain, Scandinavia, Switzerland and the countries bordering the Mediterranean. The distribution of goats throughout the world is as follows: India, 30,000,000; the United States, 3,000,000; Mexico, 4,000,000; Argentina, 4,000,000; Brazil, 10,000,000; France, 1,500,000; Germany, 3,500,000; Spain, 3,000,000. In addition, Italy, Switzerland, Rumania and Bulgaria look to the goat for most of their milk supply. Considerable quantities of butter and cheese are made annually in these countries from goat's milk. It is estimated that before the war Switzerland and Germany between them produced about \$60,000,000 worth of milk goat products.

Breed. There are a great many different kinds of goats, from the little Texas fellow, with its hardy characteristics, to the woolly Angora, prized for its fine fleeces of mohair. Angora goats were raised in Turkey over 2,000 years ago, and they still flourish in the Moslem Empire. They are also to be found in South Africa, Australia and the United States, where they now yield an average clip of 5,000,000 pounds of mohair, worth 34 cents a pound. The Angoras are quite distinct from the milk goats and are less practicable for breeding in Canada.

The best breeds for Canada are the Swiss varieties—Nubian, Saanen and Tuggenburg. They show enough quality and variation in type to meet all reasonable requirements. In buying a goat, the purchaser should get assurance from the seller that it is registered as a pure-bred, and the seller should have the goat transferred to the buyer's name on the books of the Canadian National Live Stock Records.

Feed. It is frequently said that goats are prepared to eat anything from brass tacks to broken bottles. While this is an exaggeration, it is an undoubted fact that they are by no means epicurean in their tastes. It is estimated that from six to eight goats can be kept upon the feed required for one cow. It is in the nature of the goat to browse, and in Europe the custom is to keep them in yards and feed them on kitchen waste, weeds, orchard prunings, lawn clippings and grass. They are great brush clearers, and the small holder or suburbanite should find them useful acquisitions. During the summer months goats need a certain amount of grain, and in the winter they must be provided regularly with feed. Succulences should be aimed at in their winter diet, and in this connection, carrots are excellent. Potatoes, turnips, mangels and parsnips are also good. They relish hay in winter, and will also clean up any kitchen waste that may fall to their share. Goats do not require anything elaborate in the way of housing. They are healthy animals, rarely touched by any kind of sickness. But they need clean, well ventilated, comfortable quarters, free from draughts and entirely rain-proof. During spring, summer and fall they prefer to remain outdoors altogether, but in winter they should be kept in at night and during the day, unless the weather is fine. The simplest style of building for goats is the ordinary henhouse, provided it is large enough.

Goats are usually milked on a milking stand, large enough for the doe to stand upon, and placed about two and a half feet from the ground. At the end of this stand is a stanchion which fastens the doe while it is being milked. Goats are in their prime when between 4 and 6 years of age. As a general rule, young does should not be bred until they are about 18 months old. At this time they should be practically full grown if they have been well tended.

They are now being bred extensively in British Columbia, where an association has been formed to encourage the production of goats. They thrive particularly well in mountainous regions, but are just as amenable to the ordinary backyard, and repay one hundred-fold the small amount of trouble and expense incurred on the part of their owners.

It is the Root of Personal Righteousness, the Mainstay of Social Order, the Bulwark of International Peace

The Makers of Canada

The earliest settlers in Canada were roused by the Call of the Church to develop a noble and useful citizenship. Young and old were invited to turn their eyes from material things, and to regard the splendor of unseen realities. Knowing that Religion is the only true safeguard of stability in the State, they built Churches, Schools and Colleges, to train men for the Christian Ministry, and to spread abroad in the land the benefits of education. This they did in their poverty, and thus directed the course of history in Canada to this day.

The Testing of Canada

Because of such sacrifices, there arose in Canada a public spirit hostile towards all injustice, dishonesty and cruelty. The War tested the moral fibre of the Canadians of a later day. Would they choose material ease and wealth, or would they risk all in defence of freedom and the rights of the weak? Over 400,000 men voluntarily offered their lives, and endured hardness as good soldiers for the defence of equity and fair dealing in all human relationships, and for the vindication of public right. Nor were the people at home less steadfast. Besides bearing the national cost of the War, they gave voluntarily for the help of the soldiers more than \$90,000,000. Canada nobly stood the great trial.

The Menace of To-day

That conflict is ended. Now comes another test. Not only in Canada, but all over the world, sectional and class struggles for material rewards and for mastery threaten the present basis of Society. The vision of spiritual values gained in the War is in peril of being forgotten. The supremacy of sacrifice, the nobility of service, the reality and glory of the Unseen and Eternal, the promises of Christ; these were the things by which we lived during the War. Now there is great danger that they may fade from view, giving place to selfishness and the love of ease.

The great non-Christian peoples of the world comprise two-thirds of the human race. They are mastering our modern scientific knowledge, and if they remain Pagan may yet turn it to our destruction. Paganism stands for the supremacy of Might, the very ideal

we fought and conquered in more than four years of war.

Victory only through Christ

How can we retain the heavenly vision? How can the world be guarded against another attempt to establish the Pagan ideal? Only through the Church of Jesus Christ. There is no other agency or society that has any possibility or hope of bringing about a full

The World's Need is Spiritual

I speak as one standing upon the watch-tower, and know what the need of the land is. It is not material, it is spiritual. Get the spiritual, and the material will follow. The wounds of the world are bleeding, and material things will never heal them. And that is why I hail any movement which brings the great spirit of brotherhood. The one need of England and France today is the healing and the brotherhood of the Cross of Christ.

—Rt. Hon. David Lloyd-George, Before the Brotherhood Convention, London, September, 1919.

The Forward Movements

FIVE Christian Communions, Anglican, Baptist, Congregational, Methodist, and Presbyterian, are convinced that the time has come to rouse all Christians to a clearer understanding of their calling and stewardship in Christ, their King. They believe that the Church should be equipped adequately with men and money to enable it to meet the needs and opportunities of the New Day.

These five separate Communions are of one mind as to their be-

lief in God, the Father Almighty, Maker of Heaven and Earth, and in Jesus Christ, His Son, Our Lord. They now

EACH of the Communions named is in the midst of a Forward Movement. Each is seeking by prayer and by earnest effort to accept all its responsibilities. Each is striving to extend its activities in Canada and in Foreign Lands.

Your Church needs your help, but, far more, you need the help of your Church to learn the difficult art of living wisely and well.

Consult your Clergyman. He serves you and your children. Ask him how and when you can serve in this day of national emergency. Give yourself to the task. Say: "Here am I, send me."

declare to their respective constituencies, and also unitedly, to the Canadian people, that the only effective method of making good citizens is by urging men to a more faithful practice of Christianity, by inculcating personal faith in Jesus Christ. They insist that there is no other dependable way of correcting evil tendencies in individual and national life. They call the people to repentance. To all Christians their message is, "Awake, Arise. Fight the Good Fight, For Canada and For the World."

an exaggeration, it is an undoubted fact that they are by no means epicurean in their tastes. It is estimated that from six to eight goats can be kept upon the feed required for one cow. It is in the nature of the goat to browse, and in Europe the custom is to keep them in yards and feed them on kitchen waste, weeds, orchard prunings, lawn clippings and grass. They are great brush clearers, and the small holder or suburbanite should find them useful acquisitions. During the summer months goats need a certain amount of grain, and in the winter they must be provided regularly with feed. Succulences should be aimed at in their winter diet, and in this connection, carrots are excellent. Potatoes, turnips, mangels and parsnips are also good. They relish hay in winter, and will also clean up any kitchen waste that may fall to their share. Goats do not require anything elaborate in the way of housing. They are healthy animals, rarely touched by any kind of sickness. But they need clean, well ventilated, comfortable quarters, free from draughts and entirely rain-proof. During spring, summer and fall they prefer to remain outdoors altogether, but in winter they should be kept in at night and during the day, unless the weather is fine. The simplest style of building for goats is the ordinary henhouse, provided it is large enough.

Goats are usually milked on a milking stand, large enough for the doe to stand upon, and placed about two and a half feet from the ground. At the end of this stand is a stanchion which fastens the doe while it is being milked. Goats are in their prime when between 4 and 6 years of age. As a general rule, young does should not be bred until they are about 18 months old. At this time they should be practically full grown if they have been well tended.

They are now being bred extensively in British Columbia, where an association has been formed to encourage the production of goats. They thrive particularly well in mountainous regions, but are just as amenable to the ordinary backyard, and repay one hundred-fold the small amount of trouble and expense incurred on the part of their owners.

Fight the Good Fight

realization of the brotherhood of all mankind, and the reign of the Prince of Peace.

What the Church Has Done

been inspired, directly or indirectly, by the Gospel of Jesus Christ. It has ended slavery, protected life, ennobled women, educated the children and safeguarded their lives, sanctified the home, established schools, missions and charities.

Victory places upon the shoulders of the Allied Nations the responsibility for directing new conditions to right ends. Canada must do her share.

The Church must prepare to meet the needs of the new day. Old standards of life with old habits of thinking and of giving will be wholly inadequate. We must do in our day what our fathers did in theirs. The hope of the world is bound up with the strengthening and extension of the Church of Jesus Christ.

DIED IN HIS 78TH YEAR.

Cottam, Jan. 16.—John Clark, one of the oldest and most respected residents of Cottam, died on Sunday last in his 78th year, at the home of his nephew, Almerion Clark. He was the last of his family. His father, John Clark, settled on Talbot street on the farm now owned by Jessie White, over 100 years ago. The funeral took place on Monday. Rev. Mr. Kane conducted the services, and interment was made in Cottam Cemetery.

"PICCADILLY JIM," A PHOTOPLAY OF COMEDY, ADVENTURE AND LOVE AT MAJESTIC THEATRE

AT THE MAJESTIC

TODAY, DOUBLE MATINEE. Matinee only, John Barrymore in "Here Comes the Bride." Evening, June Caprice in "A Damsel in Distress." Special Christie comedy and travel news and scenic reels. Mr. Herman Brown singing.

MONDAY, TUESDAY, WEDNESDAY, DOUBLE MATINEES DAILY.

Matinee only, Shirley Mason in "The Final Close-Up." Matinee and evening, Owen Moore in his big special production, "Piccadilly Jim," Snub Pollard comedy, Chester outting picture, vaudeville.

THURSDAY, FRIDAY, SATURDAY Bryant Washburn in special picture of Irwin's "Venus in the East," with all-star cast.

ENTIRE WEEK OF JANUARY 26. Stanley Meredith and Company in their big spectacular production, "Sublet for the Summer."

The fastest stepper on two continents was Piccadilly Jim, famous for his romantic adventures from New York to London. The best character on the screen this year in "Piccadilly Jim," as portrayed by that popular comedian, young artist, Owen Moore. You will remember that enthralling P. G. Wodehouse story of Piccadilly Jim, well it has been adapted to the film, giving a big cast, and an excellent director and appears at the Majestic Monday, Tuesday and Wednesday, as one of the brightest, most interesting comedy pictures of the year.

"Piccadilly Jim," as the story runs, shines as an international gay dog—a man about town both in London, Paris and New York, entangled in amusing and misleading situations on both sides of the ocean—and Owen Moore plays the part with very evident appreciation of its possibilities for clever humor. An

exceptional cast, and a charming and beautiful little leader woman, support the popular star.

The story has abundant humor, dramatic situations, and a logical plot worked out in a logical manner. Moore adds to the humor, dominates the dramatic and thrilling incidents, and throughout gives an excellent rendition of this famous role. Many extraordinary and striking effects are achieved by highly intelligent camera work, and the settings and scenes are exceptionally splendid.

The exploits of this charming young twentieth-century knight are such as you have often dreamed of with yourself in the stellar roles, rich, impulsive, but very loving. He never was without a string of hearts dangling on his sleeve, and never without some devil-may-care scrape hanging over his head, or the ire of some wrathful elder threatening him with dire punishment for his wild escapades.

BRYANT WASHBURN IN HIS NEW COMEDY, "VENUS IN THE EAST"

Coming to the Majestic next Thursday, Friday and Saturday will be another famous Saturday Evening Post production with an all-star cast, which includes Bryant Washburn, Anna Q. Nilson, Margery Wilson, and others. Directed by Donald Crisp, adapted from Wallace Irwin's brilliant story, "Venus in the East," was one of the most humorous stories of last year, and Washburn's interpretation of the able, amusing and human figures the screen has given us in some time. S. J. Meredith & Co. Return in Spectacular Musical Farce To Majestic Week of Jan. 26th

With All the Riot of Beautiful Settings, Gorgeous Gowns, Beautiful Girls, Catchy Music—A Production Which Outrivals All Previous Efforts—The Year's Great Theatrical Event Is Announced—The Title of the New Piece, "Sublet for the Summer"—Sparkling Humor—Wonderful Costumes—Big Company.

A little more gorgeous, with wonderful new, lavish settings, bigger company than ever before, with all the riot of romantic beauty, of charming young girls, which Meredith productions have become noted for—the new production January 26 at the Majestic, and as such it promises to be one of the biggest of the year's theatrical events.

Sparkling with color, light and movement, with lavish, gorgeous costumes, new dances and catchy music, the big production is certain to overshadow the previous efforts of the producers. The new spectacular production, which is called "Sublet for the Summer," but in reality promises to be more

of a great colorful spectacle set to music, a musical comedy of extraordinary splendor and variety, lavish in color, both in the several costumes, and in the special settings and scenic effects which are being prepared.

With a little touch of barbaric splendor here and there, a touch of Orientalism in a dance or two, yet intensely modern in idea, it is a marvellous blending of beauty, music and comedy.

The Majestic is booking in two special feature productions to be presented the week of January 26 with the Meredith production, and the program for those six days promises to be one of unrivaled splendor.

The proceeds from the engagement are to be donated for the Soldiers' Memorial.

DOUBLE PROGRAM FOR MATINEE AT MAJESTIC TODAY

The regular feature on the Majestic program this afternoon and evening is that of the beautiful little June Caprice, in the famous P. G. Wodehouse comedy of tangled romances, and a "Damsel in Distress." With an excellent cast, beautiful settings, and clever story, the picture is a perfect jewel of clean comedy and amusing incidents.

The special matinee feature presented on the double matinee this afternoon will be John Barrymore, in "Here Comes the Bride." You see John needed money badly to marry his lady love—he needed it so badly that he married an unknown woman for one year on condition that he receive \$100,000. But his young sweetheart couldn't understand all this terrible mixing things on her own account.

Among the extra features on the regular program will be a special Christie comedy, "Go West, Young Woman," starring Bruce Seaton, and one of Dr. Dillman's films of strange animals.

Mr. Herman Brown, the famous American baritone, is singing.

Goldwyn Products in Canada Under Allen Brothers' Control.

Promise of the brightest season in the history of the theatres conducted by the Allen Theatre Enterprises, comes with the announcement of the plans of the Goldwyn Pictures Corporation for the year 1920. The product of Goldwyn for all of Canada is controlled by the Goldwyn Pictures Corporation, and these productions are shown throughout Canada in the theatres owned by them. In cities where the Allen Brothers are not, their productions are distributed by the Monarch Film Company, which is an Allen subsidiary.

It is claimed that more attention will be paid to the class of s.o.s. to be shown this year than ever before. During the last year Goldwyn produced a number of pictures by noted authors, including several notably, Alex. Dumas, many pictures taken from the greatest English stage offerings, and the works of writers of the highest class generally. It is announced that this year the foremost authors have been

lined up by Goldwyn, and that these pictures will be given an excellent production never before achieved, and that they will be interpreted by players of unquestioned ability.

Their plans for the year will be made because they will be shown at the Majestic and Allen Theatres.

The eminent authors whose works will form an important part of Goldwyn's 1920 program are Rupert Hughes, Gouverneur Morris, Mary Rowe, Lincolnton, Basil King, Gertrude Atherton and Leroy Scott.

That the picture is a way true to the original, the authors are spending much of their time at the Culver City studios.

"The Cup of Fury," Rupert Hughes' first contribution is "The Cup of Fury," an intensely vivid and dramatic story directed by Rupert Hughes Hunter. Mr. Hughes went to the source in the presentation of his novel. The stirring narrative is a pure such a sensation when

published serially and in book form comes through on the screen without loss of power.

"The Street Called Straight" and "Earthbound" will be Basil King's initial offerings for the coming season. Production of "The Street Called Straight," a story that possesses a fine spiritual as well as a dramatic quality, has been finished under the direction of Wallace Worsley.

Another story that proved a tremendous success when published serially is "Partners of the Night," recently completed in the East by Paul Seaton, is Leroy Scott's initial photoplay, taken from a novel which the editors of the Metropolitan Magazine pronounced the most successful serial published by them for four years. Charlie Chaplin's latest million-dollar comedy, "A Day's Pleasure," will be shown at the Grand for the last time today. "A Day's Pleasure" is a real Chaplin scream—one of the best comedies the one and only Charlie ever had. At the opening of the picture the king of funmakers makes his bow as a motorist, and everyone who owns a car or takes an interest in them—and there are millions—just about everybody—will laugh themselves tired watching Charlie's exploits as a driver. FEATURES

The vaudeville bill to be presented for the last time today is an excellent one, headed by the cheerful miniature musical comedy, "Cheer Up," this act is one of the best seen here in some time. Hamlin and Mack, in a novelty singing and dancing offering, the Kilkenny Duo, singers and comedians, Spissell Bros. and Mack, comedy acrobats, and Austin and Allen, singers and dancers, are the other acts on the bill.

"CHU CHIN CHOW" AT
THE GRAND ALL
NEXT WEEK

"Chu Chin Chow," the wonderful extravaganza of the Orient, will be presented by P. Ray Comstock and Morris Gest at the Grand Opera House for one week, beginning Monday evening at 8 o'clock sharp, with the usual matinees on Wednesday and Saturday at 2 o'clock.

The coming of "Chu Chin Chow," by the way, will realize at last a promise which has been held out to local theatre-goers for many months, and since the whole town is bound to talk about this wonderful offering, it may be well to give some history of the piece. It was written by Oscar Asche, the big English actor who created "Kismet" several years ago, and who has again utilized the Oriental atmosphere of ancient Baghdad for the background of his story, "Chu Chin Chow." The music is by Frederick Norton, and as there are eighteen musical numbers in the piece, it may easily be seen that it is a musical attraction as well as a strong dramatic offering. In London, Oscar Asche played the title role, and is still playing it, in fact, although the piece is now in its fourth year in London. It was originally presented on August 30, 1915, at His Majesty's Theatre, in association with the late Sir Herbert Tree and was the last production in which Sir Herbert was interested prior to his death.

The American rights to this great success were secured by Messrs. Comstock and Gest, only after bidding against the offers of practically every other American manager. The royalties remained were so high and so many stipulations were made by Mr. Asche that most of the American managers gave up in despair. Only for the energy and perseverance of Morris Gest, the whole project might have been abandoned. He alone stuck to the guns, and finally

signed a contract to produce the play in this country. "Chu Chin Chow" was produced in New York a year ago, and ran all of last season, first at the Manhattan, and then at the Century Theatre, when that beautiful playhouse passed under the management of Mr. Gest. "Chu Chin Chow" is said to be the biggest attraction ever sent on tour. It is in fourteen scenes, it utilizes the services of 300 people, and the brilliant costumes and scenes were all created in London, exact duplicates of Mr. Asche's production now running there. The riot of gorgeous coloring is said to be almost indescribable.

Owing to the enormous size of the production, and length of performance, curtain rises promptly at 8 o'clock at nights and 2 o'clock at matinees. Patrons are respectfully requested to be in their seats by that time, as positively no one will be seated during the first scene. Seats for all performances are now on sale at the Grand box office. No phone orders will be taken for this attraction.

NEW WRINKLES OF
STAGE MANAGEMENT IN
PRODUCTION OF
"CHU CHIN CHOW"

The first idea, that of the small or "close-up" view of a scene through shutters that open and close a small aperture in the drop curtain, can best be described as a variation or adaptation of the familiar "close-up" of the moving picture. The camera itself is suggested by the shutters that open and close, giving the effect of what is known in movie parlance as a "fade-in" and "fade-away."

The drop curtain of black velvet falls, and the stage is darkened. Then a tiny spot of light appears in the centre of the curtain. It grows larger and larger as the shutters open—the shutters of a camera—until one sees a perfect Moorish arch, about 12 feet high and 15 feet wide, this arch inclosing a small stage elevated two feet above the ordinary stage level. The scenery and the lighting of this miniature set seem to bring the audience closer to the players. Also, by proportion, the players are larger as they loom up bigger in the perspective. These scenes, played on the arch on the miniature stage, last but five or six minutes, and then the shutters automatically close, the lights fade away, and the scenes dissolve from view just as one sees a fade-away in a moving picture.

The other striking novelty of "Chu Chin Chow" is the mechanical means employed to make the change of scenes. Naturally, the public knows little of the interior mechanism of a theatrical stage, but theatrical people themselves marvel at the rapidity with which these big scenes have been completely changed, in less than 30 seconds.

To be perfect, exact, any theatre

DAVID BELASCO

Foremost Stage Producer in the World

Congratulations, I saw your wonderful production of "Chu Chin Chow."

I was struck and charmed by the beauty of the scenes and the fascinating nature of the story.

I have never seen anything like it.

It is marvelous.

The whole production reflects the greatest credit upon the genius of its producers, whose names have been brought forth in the stage history of America with truly the highest possible activity.

CARUSO

World's Greatest Operatic Tenor, said:

I had heard down in South America that you had brought "Chu Chin Chow" over the ocean to New York.

So just as soon as I arrived from Rio I went to see it.

The spectacle is one of the most absorbing and most absorbing entertainments I have ever witnessed.

I enjoyed every moment of it, and I am going again when I have to stand up.

OSCAR HAMMERSTEIN

Renowned Operatic Impresario, One of the World's Greatest Musical Geniuses, said:

I cannot help but commend your production of "Chu Chin Chow."

It is the most superb spectacle ever witnessed on the stage.

It is a masterpiece of scenic art and stage management.

It is a triumph of the operatic presentation, and should be seen by all who are interested in the art of the stage.

D. W. GRIFFITH

World's Foremost Motion Picture Director, said:

I saw the performance of "Chu Chin Chow" in London five times. I did not think it possible to equal it in beauty, in settings and costumes, but you have surpassed even achievement in your production.

where "Chu Chin Chow" is presented must have three stages instead of one. There is the big ordinary stage on which the biggest acts are shown. There are two other stages each 15 feet wide, 12 feet deep and 15 feet high. They are mounted on rollers, operated by electric motors like the small baggage trucks seen in railroad stations, and each is completely equipped with footlights, wings, a fly gallery, spotlights, a switchboard, and all the other paraphernalia necessary to showing a scene.

These stages are kept in the wings at right and left of big stage. When the black curtain falls on the end of the scene, one of these smaller stages is propelled by electricity to the exact position in the centre of the big stage, and directly behind the opening in the velvet curtain already referred to. The smaller stage has been set previously with all the necessary scenery and even the actors employed in the scene are on the portable stage when the motor draws it to its position behind the velvet curtain. The electric connections have already been made, the lights are turned on and the shutters then open to display the scene to the audience.

When this scene is being played on the portable stage, the other stages are busily engaged in preparing the big stage for the next scene. At the same time, workmen on the other portable stage, still in the wings, are busy preparing the scenery of that small stage for another front scene behind the Moorish arch. The moment the small scene is over, the shutters close, the portable stage is drawn by electric motors to the right or left of the stage, as the case may be, to get it out of the way, and the big curtain again rises, upon a full stage of incomparable beauty.

This process is repeated thirteen times during the three acts of "Chu Chin Chow," and the rapidity of the changes is astonishing. The changes are generally made with greater facility than if the revolving stage were used.

There is another new wrinkle back of the scenes—a series of canvas dressing-rooms, like tents, in one of the big corners of the stage, where scenery is not stored. These dressing-rooms are used only during the last act, and are for the use of the twenty-four girls who appear as mannequins in the bazaar scenes, these dresses some of these girls wear are almost eight feet in diameter.

Comfort of Long, Heavy
Car With Economy of
Light Weight

THE Overland 4, Four-Door Sedan, is a new type of light closed car combining the luxury of long, heavy cars with the economy and convenience of light weight.

Its three-point suspension Triplex Springs dissipate the road shocks that cause strain and wear to the body and working parts—thus reducing closed car upkeep costs.

And the Four-Door Sedan is a closed car of unusual distinction, compact, yet roomy, luxurious, and easily handled.

It weighs only 200 pounds more than the Touring Car

RHEUMATISM LEFT HIM AS IF BY MAGIC!

Suffered For Over 50 Years.

Now 83 Years Old.

Goes Fishing and Feels Splendid!

"I am 83 years old, and have been doctoring for muscular rheumatism ever since I came out of the army over 50 years ago. Like many others, I spent money freely for so-called 'cures', and I have read about 'Uric Acid' until I could almost taste it. I could not sleep at night or walk without pain; my hands were so sore and stiff I could not hold a pen. But now I am again in active business and can walk with ease or write all day with comfort. Friends are surprised at the change."

HOW IT HAPPENED.

Mr. Ashelman is only one of thousands who suffered for years, owing to the general belief in the old, false theory that "Uric Acid" causes rheumatism. This erroneous belief induced "doctors" of unfortunate men and women to take wrong treatments. You might just as well attempt to put out a fire with oil as to try and get rid of your rheumatism by taking treatment supposed to drive the Uric Acid out of your blood and body. Many physicians and scientists now know that Uric Acid never did, never can and never will cause rheumatism; that it is a natural and necessary constituent of the blood; that it is found in every new-born babe, and that without it we could not live! These statements may seem strange to you, because you have all along been led to believe in the "Uric Acid" humbug. It took Mr. Ashelman 50 years to find out this truth. He learned it from a book that is now being distributed free by the author, who has devoted over 20 years to the study of this particular disease. If you wish a copy of this book that reveals startling facts about the cause and scientific treatment of rheumatism that have been overlooked by doctors and scientists for centuries past, simply send a postcard or letter to H. H. Clearwater, Ph.D., 2121 Broadway, New York, N.Y., and it will be sent by return post without any cost or charge whatever. Cut out this notice and send it to the author, and you will receive this book free of charge.

STOCKHOLDERS WILL LOSE ABOUT \$20,000; MANAGER DISAPPEARS

S. C. Williams, Ltd., Stores To Be Sold On Monday by Trustees.

MISSING FOR TWO WEEKS

Stanley Williams Last Reported Undergoing Treatment in Detroit Hospital.

SARNIA, Jan. 16.—Following the reported disappearance of Stanley C. Williams of the S. C. Williams, Limited, chain of eight grocery and meat stores, which were conducted on the "cash and carry" plan, were closed today by M. A. Sanders, trustee for the stockholders, and the stocks and fixtures will be sold on Monday.

It was stated today that the stockholders stand to lose \$20,000. The liabilities of the company are estimated at \$50,000. About 30 people are employed in the eight stores.

Mr. Williams left Sarnia about two weeks ago, but there was no suspicion till a day or two ago that he had absconded. The last report received about him was to the effect that he was undergoing treatment in a Detroit hospital for nervous breakdown.

His wife, it is said, has heard nothing of him since he left the store two weeks ago, presumably on a business trip to Detroit.

USE MILITARY TO SUPPRESS UNRULY GERMAN LAWMAKERS

BERLIN, Wednesday, Jan. 14.—As a result of Tuesday's disorders, the Freikorps has been indefinitely suppressed. The Government does not intend to raise the embargo on the paper until the independents give substantial guarantees that they will cease their incendiary propaganda.

It is now proposed to establish a "parliamentary guard" for the general protection of the National Assembly, which in addition to maintaining order outside the building where the assembly meets, will be at the disposal of the president in the subjugation of obstreperous members.

INFLAMMATORY RHEUMATISM CURED BY B. B. B.

Rheumatism is a constitutional disease, caused by the uric acid in the blood. It manifests itself by pain and lameness attacking the muscles and joints of the body, which often swell and become hot and inflamed.

Anyone who has suffered month after month, and perhaps year after year, with rheumatism, and who has tried remedy after remedy in the hope of relief, and without success, should not give up hope.

Burdock Blood Bitters, by invigorating the digestive organs and eliminating the uric acid from the system, will give prompt and permanent relief.

Mrs. D. Barry, Purituck, Ont., writes: "I feel it my duty to let you know of the great benefit my husband derived from using your Burdock Blood Bitters. He had been suffering for the past two years with inflammatory rheumatism. He tried many medicines but got no better. A friend advised him to take B. B. B. He did so, and after taking five bottles he felt like a new man, and was able to go to work the same as ever."

Burdock Blood Bitters has been on the market for over 40 years. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

"ORANGE LILY SAVED MY LIFE."

These words or expressions having the same meaning are contained in hundreds of the letters I have received during the past year. Many were from women who had suffered agonies from falling of womb; others from men who had escaped dangerous surgical operations, as the tumors and ulcers had been removed by the action of Orange Lily; and others who had suffered from suppressed menstruation, leucorrhoea, painful periods, etc. For these and all the other troubles, direct to the suffering organs, and its effect is certain and beneficial. As a trial actually proves its merit, I hereby offer to send, absolutely free, a box worth five, sufficient for ten days' treatment, to every suffering woman who will write for it. Enclose 3 stamps. Mrs. Lydia W. Ladd, Windsor, Ont.

HICCUGH EPIDEMIC SPREADS IN DETROIT; WINDSOR DISTRICT

Fifty-Six Cases Reported To Health Authorities—Majority in Detroit.

NO ONTARIO DELIVERIES

Walkerville Distillery Will Leave Distribution To Outside Dealer.

WINDSOR, Jan. 16.—Fifty-six cases of hiccoughs, in the epidemic that is becoming rapidly felt in this district, are reported in Windsor and Detroit by health authorities today. The larger proportion of these, however, being on the American side of the river. Bernard H. Purdon of the legal firm of Purdon & Co. was taken seriously ill today, while Fred Kernan of Essex, Ont., is also reported as seriously ill with the disease. Dr. Fred A. Adams, medical officer of health for the joint board of health of the border municipalities, is still confined to his home, having been ill since Monday.

Discussing the epidemic today, Dr. Adams declared "hiccough, or singulus, is due to a chronic spasm of the diaphragm muscle. Persistent hiccough is generally due to a reflex from the stomach, liver or bowels."

WALKERVILLE'S GROWTH.

The rapid growth of Walkerville is indicated in the building returns for 1919, which were issued today by Town Clerk A. E. Cook, showing an increase of approximately 50 per cent. issued as compared with the returns of last year. Permits issued during the twelve months aggregated \$2,800,000 as compared with \$1,850,000 for the previous year. Additions to eight factories accounted for 0.8 of the total cost of \$2,800,000; fifteen stores at a cost of \$37,600; three dwellings costing \$100,000; and house 200 men each; two churches and an addition to one school were other outstanding activities.

WILL SEAT 1,200.

Excavation work will commence Monday morning on "The Walkerville," the new \$30,000 community theatre that is to be erected on Wyandotte street on the boundary line between Windsor and Walkerville by Symon Meretsky. The structure will have a seating capacity of 1,200, and will be constructed on plans of C. Howard Crane, noted Detroit theatre architect. It will be ready for occupation by August 15, building to the contractors.

BUILDERS ELECT OFFICERS.

Windsor builders and contractors have elected the following officers for 1920: President, Ald. H. W. Wilson; vice-president, Wm. Walker; recording secretary, A. J. Loosling; secretary, treasurer, Charles E. Paduen; directors, J. McGill, Allen, J. Reid and A. L. Laing.

NO HOME DELIVERIES.

Owing to an avalanche of orders for liquor, the Walker distillery, Walkerville, "has decided to discontinue shipments of whiskey directly to homes in Ontario, deeming it inadvisable to entirely reorganize the distribution system at the plant to meet a temporary condition, and to relieve itself of the responsibility attached to sale of such liquor under the Ontario temperance act," said an official of the company this afternoon. The new order will become effective January 24. Business will be confined to reputable wholesale houses in Canada authorized by the Government to make sales.

Under the present system, when a distillery makes up the retail packages double work is involved. The purchaser sends his order and remittance to the outside dealer, who has to record the order, acknowledge it, purchase goods from the distillery and instruct the distillers as to the quantities to be shipped and the destination of each order. The company claims that the logical course is for the dealer outside the province immediately on receipt of his order to pack the goods and ship them himself.

Safeguard the Company.

The distillery being situated on the border, the management point out, is in an entirely different position from other Canadian distillers. The fact of its being but a short distance from a great American city which has been for some time, and still, under drastic prohibition regulations, brings the company into frequent contact with a powerful element, who are anxious to secure its products so that they may contravene the laws of their own and the United States for their own profit. It is a position in which Hiram Walker & Sons feel they must not allow themselves to be placed, and they are determined as far as it is in their power, that their geographical situation shall not in any way facilitate breaches of the law.

WALL STREET REVIEW.

New York, Jan. 17.—An aggressive and very active bear faction was in possession of the stock market this week. The efforts of that element were supplemented by an erratic money market, another break in foreign exchange, and the inherent weakness of low-grade oils and specialties. Demand loan rates eased in marked degree, but time money was scarce almost to the vanishing point, and the attitude of the federal reserve bank bespoke further measures to restrict credits for non-essentials.

The sharp break in secondary oils and some of the miscellaneous specialties, which later extended to high-priced issues, particularly petroleum stocks and motors, was accelerated by the doubtful status of some of those properties. Standard steel and equipment shares were steady most of the time, as a result of favorable trade prospects and the better labor outlook. Coppers also improved with other base metals, for which an increased demand and higher price schedules were reported.

Rails yielded none of their long-sustained lethargy, only occasionally taking part in the daily movement, and making no perceptible response to the trend of congressional legislation, while textile, leather and paper issues were swayed by the course of kindred specialties.

Interesting developments in the international financial situation included an over-subscription to the \$25,000,000 Belgian note loan issued by a powerful banking syndicate, and an offering of Italian Government bonds.

PROVISIONS.

New York, Jan. 17.—Wall Street, 10:10 a.m.—Stocks made substantial rallies from yesterday's weak close at the opening of today's session. High-class steels, equipments, motors and textiles led the recovery. Canadian Pacific and other investment rails were firm.

LIQUORS.

Liverpool, Jan. 17.—Bacon—Wiltshire cut, 187; clear bellies, 191; long clear middles, light and heavy, 202; short, clear backs, 194; shoulders, square, 188; New York shoulders, 134 1/2. Lard—Prime western, in tierces, 195 1/2; American refined, in pails, 188 1/2.

JURY VALUES WIFE'S AFFECTIONS HIGHER THAN HER HUSBAND

HAMILTON, Jan. 16.—Alfred Matthews sued George Pearce for \$5,000 damages for alienation of the affections of Matthews' wife, and a jury at the assizes here this afternoon awarded him \$1,000 more than he had asked for. Matthews testified that he was forced to go to the house of refuge on account of ill health, and Pearce not only lived with his wife during his absence,

LETTER-CARRIERS OF LONDON PREPARED TO STRIKE, REPORT

TORONTO, Jan. 16.—Letter carriers of Quebec City, Hamilton and London are prepared to strike if necessary to do so to obtain a wage of \$1.74 per annum. According to an announcement tonight at a meeting of the Toronto

carriers, the demands of the Toronto strike vote were forwarded, according to members of the executive committee, to the locals of the Federated Letter Carriers, asking them if they were prepared to support the Toronto branch. The carriers are offered a wage scale and a bonus, the maximum of which amounts to \$1,600, which they have rejected.

ENGLISH EDITOR DIES.

LONDON, Jan. 16.—Major Evan R. Jones, editor and proprietor of the

Shipping World, died here today. Major Evan Rowland Jones was an author and former editor of the London Globe. He was the author of a number of biographical and historical sketches. He was born at Penryn Park, by Treguron, Cardiganshire, in 1846.

VACCINATION PROVED SUCCESS IN HAMILTON

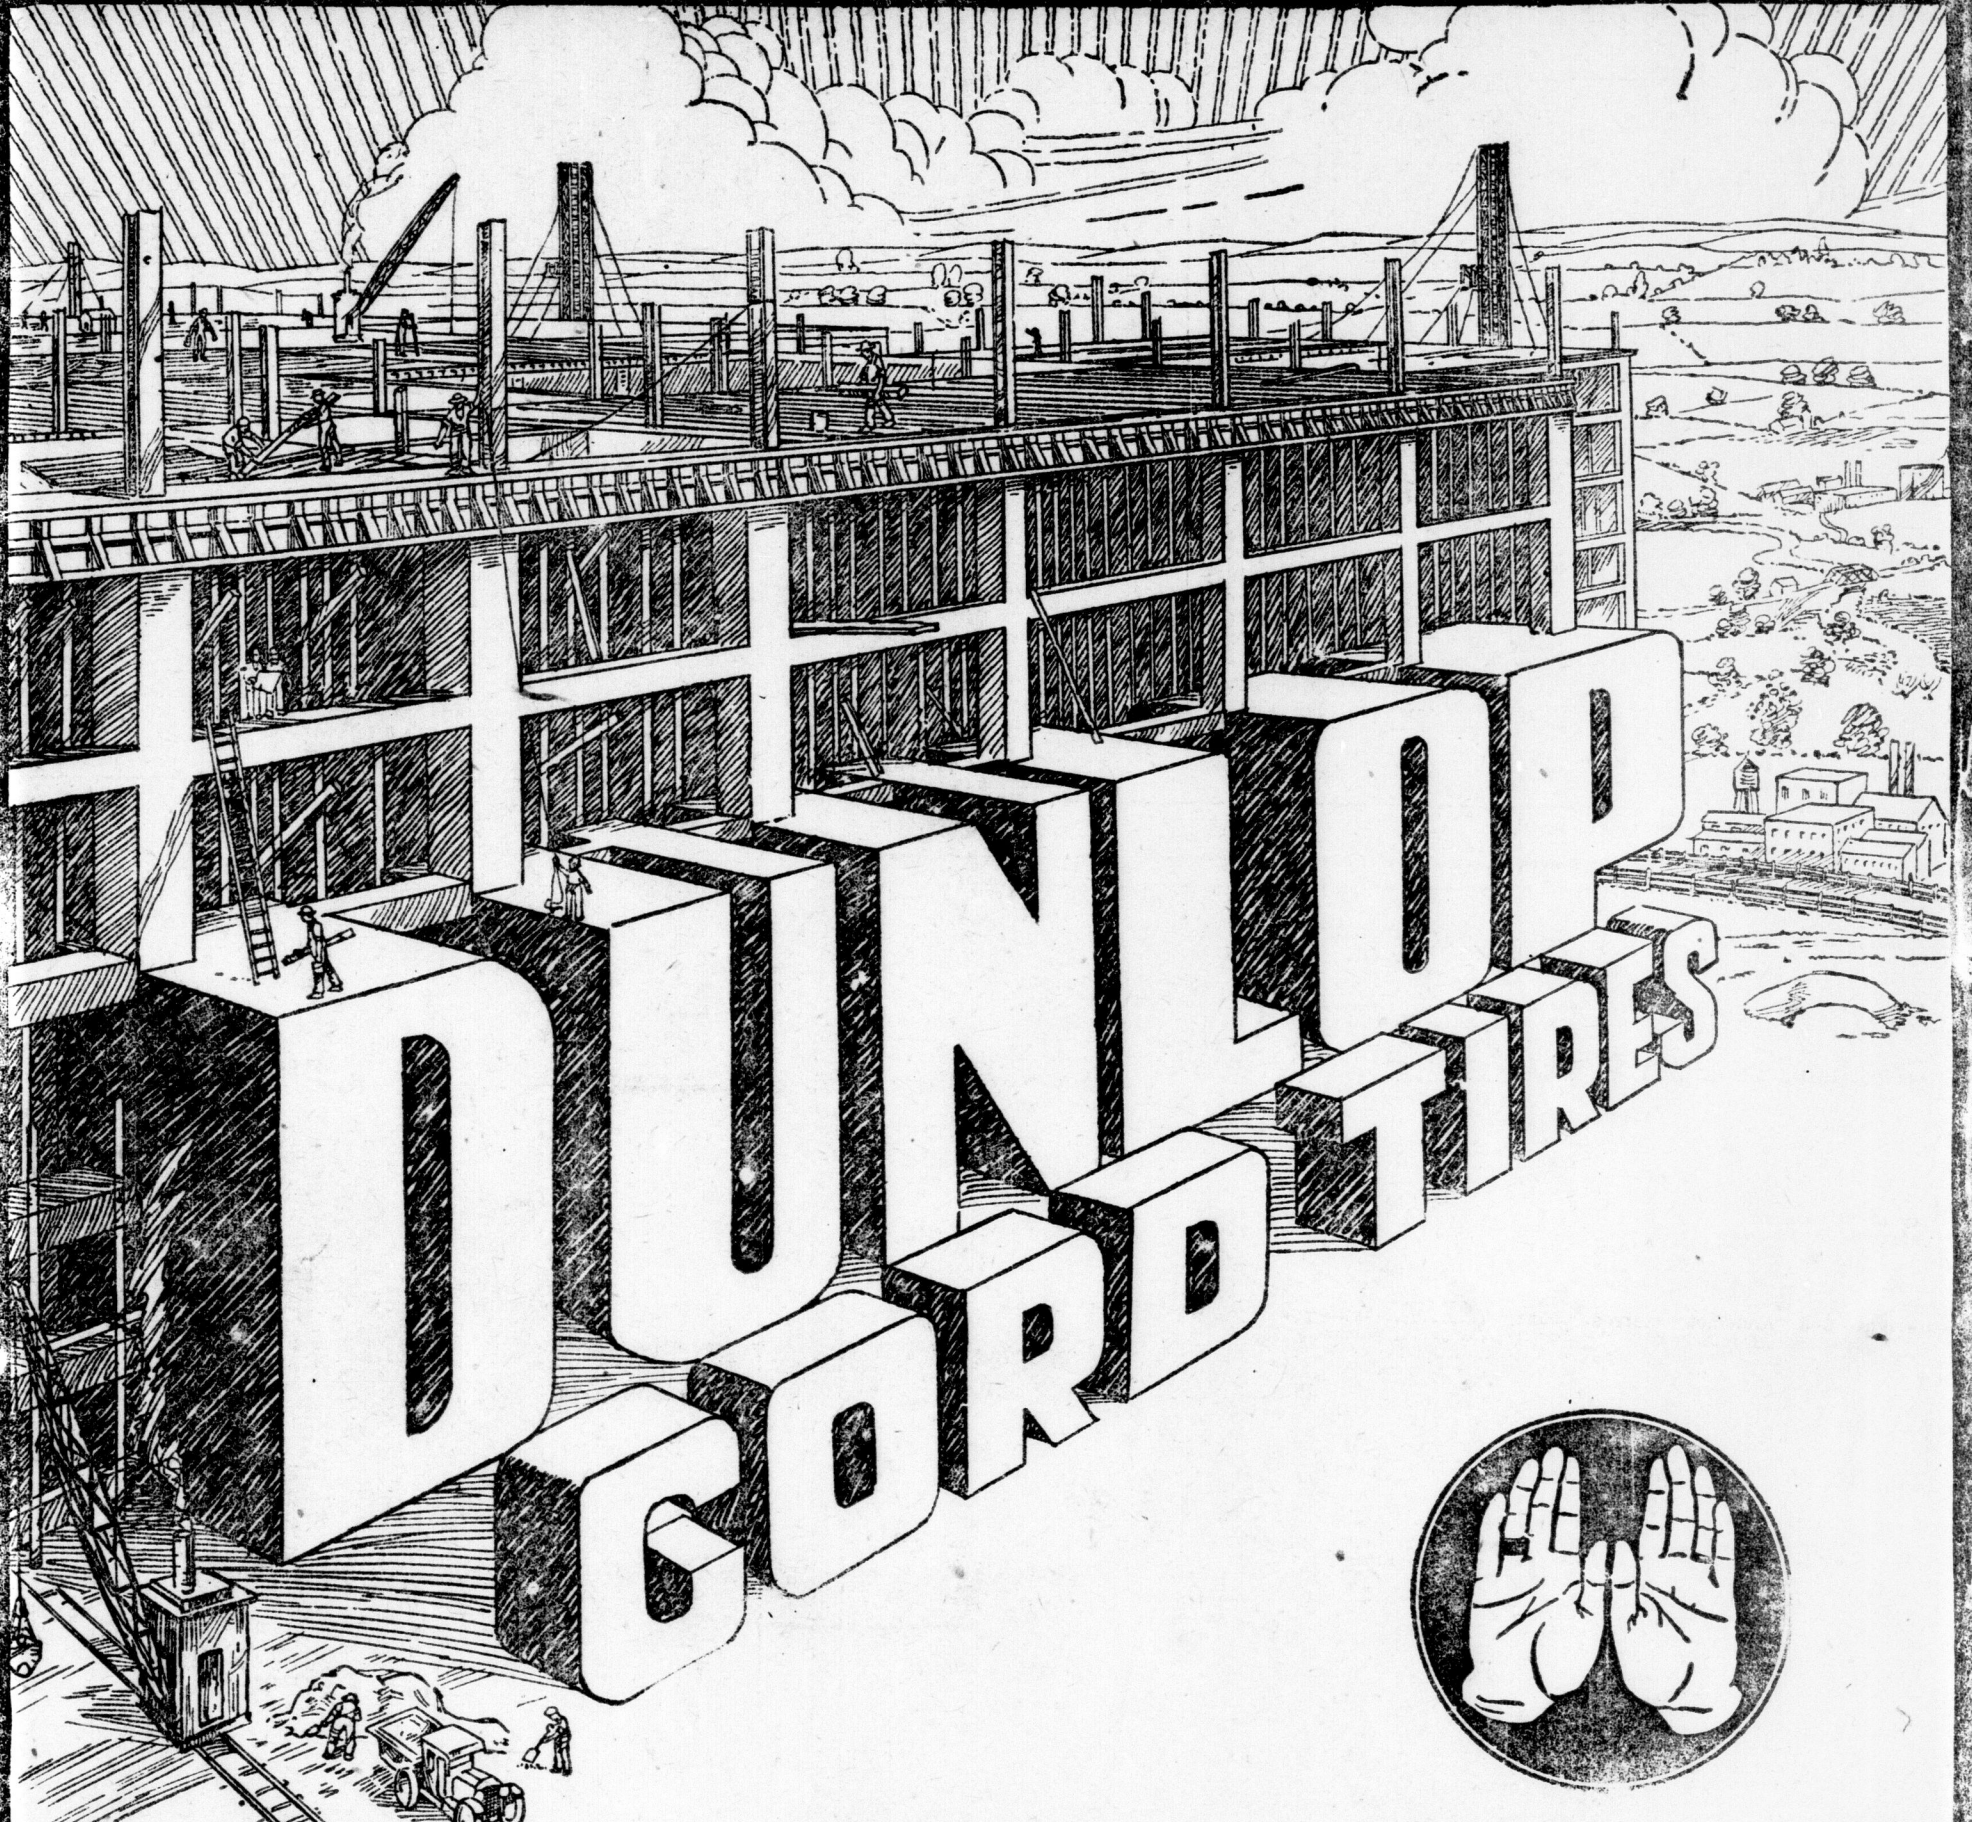

HAMILTON, Ont., Jan. 15.—Hamilton has had twenty-four cases of smallpox since the malady first made its appearance here. With the exception of one

women forty-four years of age, who was vaccinated when a child, none of the patients had been previously vaccinated.

Dr. Roberts, medical health officer, submitted a report to this effect this morning. He had been asked to furnish data regarding interesting cases for the publicity campaign which the provincial department is waging.

"In all of the homes where we have had smallpox, those who had been successfully vaccinated were immune," said Dr. Roberts. "If that isn't a tribute to the efficacy of vaccination, I don't know what is."

The Call:-More Dunlop Cord Tires Wanted. The Answer:-A New Factory Costing \$1,500,000

Another Dunlop Tire Factory Being Rushed to Completion

AN appropriation of \$1,500,000 has been set apart for building and equipping a new factory in Toronto.

Up to the minute in every respect, the new Building will be devoted especially to the manufacture of

DUNLOP CORD TIRES

The demand for Dunlop Tires to-day justifies this Building. That fact is self-evident. Had it not been for war conditions, the new building would have been up before.

The 1920 Dunlop Tire will be even better than the 1919—and last year's product has certainly made fame for the name—Dunlop.

Unassailable Fact No. 1—More dealers than ever are stocking

Dunlop Tires

No. 2—More car owners than ever are using

Dunlop Tires

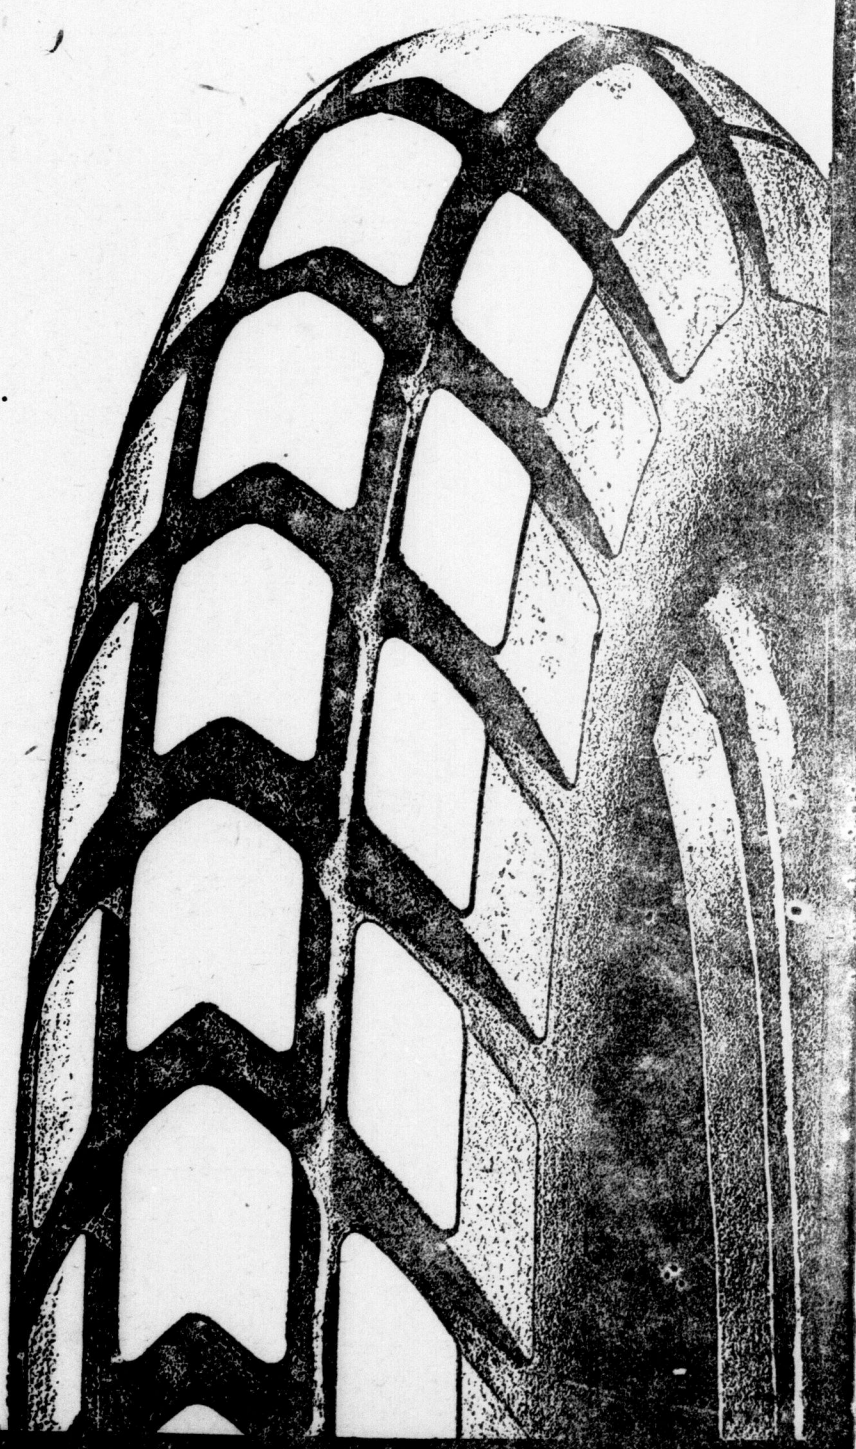

No. 3—More tire users than ever are boosting

Dunlop Tires

You might as well get Quality Insurance with your tire purchases: Dunlop Tires Made-in-Canada not only represent the best that this country can produce, but Dunlop supremacy the world over furnishes the additional security of the "Master Brains of Tiredom."

FINANCIAL, MARKET AND COMMERCIAL SECTION

THE LOCAL MARKET

Yesterday's storm did not better the country roads, and so only two farmers graced the local market square this morning. No vegetables were brought in. In the market house about a dozen lots of butter and eggs were offered.

Eggs were selling at 39 to 40 cents for strictly fresh lots. Butter is fairly plentiful. Dairy butter was selling at 70 to 72 cents a pound retail, with some asking as high as 75 cents. As the best creamery butter can be bought in some of the stores at 73 cents a pound farmers were finding difficulty in disposing of dairy butter at 75 cents.

Hay was plentiful on Friday, eighteen loads having been sold, with the top price at \$29 a ton.

Wheat is now a bushel straight. Dressed beef of all kinds is higher. No dressed pork was offered.

New oats, cwt., \$3.00 to \$3.05

MORE LOSSES THAN GAINS IN MONTREAL IN DAY'S TRADING

Atlantic Sugar Again the Active Feature of the Stock Market.

MONTREAL, Jan. 16.—The active feature of the market today was again Atlantic Sugar, in which dealings amounted to 4,511 shares. The price continued to show weakness, the close at 95 1/2 showing a loss of 3 1/2 points.

Next on the active list came Quebec Railway with dealings in 2,668 shares. There was a continued good demand for the stock, but offerings proved slightly too heavy, and the result of the day's trading was a net loss of a large fraction at 30 1/2.

Among the remaining transactions, Canadian National was steady, finishing the day with a small fraction higher at 48. Detroit lost one point at 109 with 109 bid, and Toronto Railway was quiet at 47 1/2, bid with stock offered at 49 1/2.

Among the paper stocks, Wagonway was again the weaker feature. Little stock came out with the opening, and the price was 44 1/2. The day's net change was a loss of 3 1/2 points. Bromont underwent some liquidation with a resultant sagging of the price to 82 with the close at 82 1/2, showing a net loss of two points.

The general list showed a predominance of losses over gains, the few stronger stocks taking in comparative, which added one point at 95. Telexite preferred, which added 1 1/2 points at 102; Lake of the Woods, which added two points at 200; and Leval and St. Lawrence which gained a fraction each.

The steel industry was quiet and inclined lower, both Dominion and Canadian losing a fraction at the close. There was little feature to the bond list with the war loans mostly firm. Total trading, listed stocks, 17,106 shares; bonds, 113,600; unlisted stocks, 1,245; rights, 15.

WEAKNESS IN N. Y. REFLECTED ON THE TORONTO EXCHANGE

Stocks Inclined To Lower Levels, But Offerings Generally Small.

TORONTO, Jan. 16.—Stocks were clearly inclined to lower levels in the Toronto market today, the fresh unsettlement in New York being a bearish influence locally. There were only a few issues, however, in which offerings reached any appreciable volume, and Atlantic Sugar was easily the leader.

There was a continued good demand for the stock, but offerings proved slightly too heavy, and the result of the day's trading was a net loss of a large fraction at 30 1/2.

Among the remaining transactions, Canadian National was steady, finishing the day with a small fraction higher at 48. Detroit lost one point at 109 with 109 bid, and Toronto Railway was quiet at 47 1/2, bid with stock offered at 49 1/2.

Among the paper stocks, Wagonway was again the weaker feature. Little stock came out with the opening, and the price was 44 1/2. The day's net change was a loss of 3 1/2 points. Bromont underwent some liquidation with a resultant sagging of the price to 82 with the close at 82 1/2, showing a net loss of two points.

The general list showed a predominance of losses over gains, the few stronger stocks taking in comparative, which added one point at 95. Telexite preferred, which added 1 1/2 points at 102; Lake of the Woods, which added two points at 200; and Leval and St. Lawrence which gained a fraction each.
