The copy filmed here has been reproduced thanks to the generosity of:

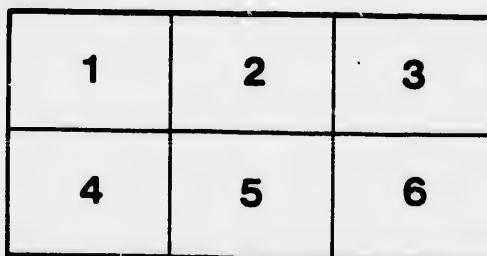

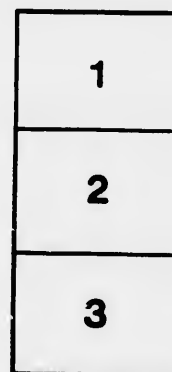

Library of the National  
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives  
nationales du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

- 24 Sheets Cream Laid Note Paper.
- 1 Best American Lead Pencil.
- 1 Golden Pen.
- 1 Extra Penholder.
- 1 Elegant Chromo.

50 of the best Money-Making Receipts in existence.  
1 Certificate good for 25 Cents.

This Package does not need puffing by us: It is well and favorably known by Agents as one of the best ever put up by any firm in the United States or Canada. The men act that some of our Agents have been selling this Package and nothing else for the past three years, is a guarantee that IT SELLS, and we positively assert, and can back it with a description of which is given upon another page of this Catalogue.

**GOOD QUALITY** of paper and envelopes are absolutely necessary at the present time, to enable Agents to sell Diamond Packages. Many of these small and petty dealers have injured the business by putting in very inferior quality of paper and envelopes; but Agents soon find they cannot sell trash the second time, and are glad to stick to our Packages and sell nothing else. But these small firms have nearly all been wiped out of existence within the last year, and for lack of patronage.

We have made arrangements with a large envelope manufacturer to supply us with one grade of envelopes, and the same with water, so we are enabled to give our Agents good goods at all times, and at bottom prices.

**EXTRA JEWELRY**.—Again, we have the advantage over nearly all other dealers, for the reason that we buy and sell more Jewelry than any other firm; consequently, we buy cheaper, sell cheaper, and can afford to put better goods into our Packages than any other firm.

**SOMETHING NEW**.—In every Package we put a Certificate good for 25 cents, and a Retail Catalogue. This Certificate will be received by us the same as cash in part payment for any bill of goods amounting to \$1.25, selected from the Catalogue enclosed in each Package. If a party wants \$1.25 worth of goods, all they need send us the 25 cent Certificate. This helps wonderfully to sell the Package.

**LASTLY**.—If you want to sell Stationery Packages, we can only say here (and prove it later) that we put up two of the best selling Packages in existence, and give better value than any one else can. Try a sample of each, and you will be convinced.

## THE BIAS SELF-CUTTING GAUGE.

This ingenious device is self-adjustable to any pair of shears or scissors. Its object and use is for cutting dress-trimmings and other goods, on the bias or straight. As will be seen by the engraving, the gauge is doubled over so as to allow the goods to pass freely between two clamping surfaces, (on the principle of the self-sewer), which keeps the goods in place, and on a direct line with the shears, and also up to the sliding gauge, which slide may be moved on the gauge so as to cut any desired width of goods, unerringly, for dress trimmings. This is the first practical device for cutting goods on the bias that has been invented. It is so simple in use, and so practical and perfect in operation, as to recommend itself at once to the favor of dress-makers and others, who have always found bias cutting so difficult and imperfect by the ordinary method, and effectively supplies a want that has always existed. It will be found available in cutting diamonds and squares of any desired size, and accurate in shape, or creasing hems or tucks of any desired width. Its operation can be learned perfectly in five minutes. Any person will save the price of the gauge, in time, in cutting the trimmings on a single dress. The gauge being marked off like a rule, it makes a very useful article for measuring. At the extreme end of the gauge is the tracing-wheel, an instrument which is indispensable in the art of dress-making. Over 20,000 of these gauges are now in use, and the users speak of them in the highest terms of praise, and we know of no article which has reached so large a sale, with the same effort, in so short a time. Canvas makers make money rapidly in selling them. Every dressmaker will buy one, and every lady should have one, and will buy when properly shown up.

## EUREKA POCKET PIN CASE.

A new and neat invention for carrying pins in the pocket without danger. It is the only thing ever made at all convenient for holding pins, and is something no lady or gentleman should be without. The case is highly ornamental, and makes a beautiful Charm to be worn on the watch chain or elsewhere. Each Case holds twenty five best English pins, making it ready for use as soon as received.

**DIRECTIONS**.—A gentle pressure with the thumb and forefinger will bring the pins as fast as you can count them. To re-fill, always put the pins in point first.

Don't fill your clothing with pins when a beautiful Charm and Pin Case can be had for a trifle. Sample Case mailed, post-paid, 25 cts.; 1 dozen, \$2.00.

## MAGIC COFFEE POT.

You produce a handsomely ornamented Coffee Pot, which has no appearance of a trick about it. Raising the cover, you show it to the company, filled to the brim with steaming hot coffee. After pouring out several cups of the delicious beverage, and handing them around, state that in order to season the coffee you must have some milk, which unfortunately you forgot to bring, and to produce it you will, by a magical pass of your hand, transform into milk the coffee remaining in the pot, which you instantly do, pouring out a great quantity of pure cold milk from the same pot that a moment before produced steaming hot coffee. The milk and coffee are both delicious, and any one who wishes may test them. This excellent trick can be performed in various ways, such as pouring out two kinds of wine, or other liquids, and always without the slightest fear of detection. The cases with which the illusions are produced, the small amount of practice required to perform them nicely, and the astonishment they invariably create, combine in making this one of the best tricks ever offered for sale. Price 50 cts. post paid.

Of these Patches has more material in it than is contained in three five-cent bottles of liquid bluing; and they can readily be used for five cents each. One bottle of Patch Blue is so highly concentrated that we can, and do, pack in a small box, 10 inches long, 7 inches wide, and 4 inches deep, enough material to make 200 Bottles of Bluing, of greater strength than that ordinarily sold at 10c. per bottle. The Coloring Power is simply enormous.

### THE MOST REMARKABLE BLUING EVER PRODUCED.

Positively Free from Injurious Substances. No Sediment. No Spotting or Streaking of Clothes. In use by many First-Class Hotels, Laundries and Families in New York and other cities, and highly endorsed.

**DIRECTIONS.**—In a clean bottle of water, put one or more Patches, and shake well. (One Patch to about a pint of water will make a strong liquid bluing.) You now have a bottle of bluing always ready for use.

To blue clothes, not more than half the usual quantity of blue water need be mixed, as Patch Blue water holds its color to the last, and there is no danger in letting clothes lie on the bottom of the tub. One Patch will do more work than ten cents' worth of any bluing, and the clothes will look one hundred per cent. better.

**PRICES.**—Six Patches, by mail, post-paid, 25 cents; retail for 5 cents each. Sixty containing 300 Patches, \$7.00; sell for \$3.00; profit, \$4.00. Fifty Boxes, Patches, \$15.00; sell for \$7.50; profit, \$7.50. One Hundred Boxes, containing 600

Patches are put in one box, each Patch in a tin-foil wrapper, bearing our Trade Mark. One of these Patches has more material in it than is contained in three five-cent bottles of liquid bluing; and they can readily be used for five cents each.

### LEE & CO'S COMBINATION BURNER, WITH NIGHT-LIGHT ATTACHMENT.

Economy and Convenience Combined. Self-Lighting, Self-Recommendating and Self-Selling. All that Agents have to do is to show it, and A SALE IS MADE.

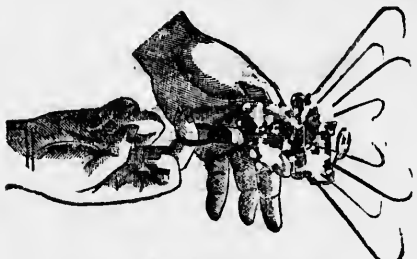

This Burner is of itself the best and cheapest Kerosene Burner made. Besides having a Night Lamp Combination, which enables one to turn the light out, and, should occasion require it, the lamp is instantly lighted by turning up the wick. You will observe by the cut that there is a very small wick tube at the side of the main wick. When the light is turned out this small wick continues to burn, but so small is the flame that one would hardly notice it, and the amount of the oil consumed by it is not over a thimbleful in twenty-four hours, which costs much less than matches required to light the lamp, besides being of great convenience in case of children or sickness. We venture to say there is not one person in fifty who will use a common burner a single night after using this. It is unquestionably the biggest thing for Agents that has been offered for years, and now is the time to start out on a supply your own town and vicinity, before somebody else gets in ahead of you.

Send for a sample at once, and take orders for a few dozen, then you will know exactly how they take, and make your orders accordingly. Size No. 1 fits nearly all lamps in ordinary use. Size No. 2 fits larger lamps.

## THE GERM OF ALL LIFE IS ELECTRICITY!

The Richardson Battery is a Scientific and Reliable Appliance for the Relief and Cure of Disease by Electricity.

### RICHARDSON BATTERY.

Having secured the General Agency for Canada for the Wonderful Medical Discovery, the Richardson Battery, which is the result of a life of study, research and experiment, we now offer them to the afflicted of America. This valuable curative agent has been introduced throughout the world and has received the most flattering testimonials of wonderful cures, and its use has produced such marvelous results as to merit the high encomiums which it has voluntarily received from scientific gentlemen the world over.

Richardson's Batteries are constructed on purely scientific principles, of various amalgamated metals, well known to the scientific world. To those tired of taking medicines and maltreating their best friend—the stomach—we desire to say that this method of remedial movement generates and transmits to the system a

magneto-galvanic force, which is transformed into vital and physical power or strength, as agreeable as magical, which rapidly builds up the most shattered constitution. The whole system receives positive and inexhaustible supplies of the life-giving currents, unobtainable through any other method of treatment, thus producing results no less startling than salutary.

It is a well-known fact to the initiated, that a powerful magneto-galvanic action can be produced without friction, as clearly demonstrated by Prof. Edison in the invention of the telephone, and Galvani, the inventor of Galvanism. The union of metals alone produces a gentle galvanic action, which is intensified by this great discovery, which, when applied to the human body, produces results truly wonderful. In telegraphy, we produce the electric current by plunging metal in sulphuric acid, which, by corrosion, decomposes the parts exposed to it, thus facilitating their union with other metals destined to form the amalgam. When, however, it is desired to apply it to the body, by the use of the Richardson Battery, no such

Intensity is required, as the natural humidity of the skin is sufficient to set the chemicals in the amalgamated metals in motion, and generate a constant but gentle flow of electricity and cause it to pass from the Battery into the system.

Various kinds of complicated machines have been manufactured for many years which produce galvanic action, and the inventors, each taking a step in the onward march of improvement, have, in some instances, secured patents thereon, but during just few years the greatest wonders in **Magneto-galvanism-Electricity**—has been discovered, among which may be mentioned Prof. Edison's Telephone and Microphone, and last, but **most marvelous Richardson's health-giving, health-restoring Battery.**

The inventor experimented for several years before he succeeded in producing a battery by which the electric current could be distributed throughout the whole system in a gentle and convenient manner, without the necessity of wearing an unwholesome and expensive apparatus, and with the existence of severe pain would reconcile the wearer.

**The celebrated Harvey**, who discovered the circulation of the blood, and that this fluid, which is expelled from the heart, completes its circuit and returns again to the fountain head, in the space of about three minutes; this theory has been confirmed by subsequent investigation. Thus, then, there is a flow of blood passing **any given part of the body** constantly, and by taking advantage of this fact and using the **Richardson Battery**, we can infuse into it on its passage the necessary electricity for **perfect purification, by galvanic injection, through the pores of the skin.**

**"THE BLOOD IS THE LIFE."**—By its impure and impoverished condition nearly all diseases are caused, and only through its purification can those diseases be cured. Knowing these facts, the inventor arrived at the conclusion that by electrifying the blood it stimulated the entire system, so that it **enables nature to prevent and throw off** nearly all diseases, and causes the blood to become **youthful and vigorous in its action**, and the success which has hitherto attended this useful invention in the cure of the above mentioned diseases is fully proved by numerous testimonials and the unanimous opinion of the Medical Faculty throughout the world. Galvanic action, though long known to medical and scientific men, is a new doctrine to the masses, but the difficulty of applying it in miniature form, which has long been a provoking question, **is now overcome by the invention of the Richardson Battery.**

**It is true that the Blood is the Life**, and it is also true that corrupt, poisoned, diseased, impoverished and vitiated blood means **Death**. We claim that by the use of the **Richardson Battery**, the blood can be so electrified as to make it healthful and vigorous in its action. **It is, in fact, Nature's Remedy.**

If you were so **indifferent in youth** as to allow your passions to lead you to self-abuse, it has left you without vital power and deprived you of your manhood, causing you to have an aversion to society and unfitted you for business, leaving your brain to run to thoughts that can be of **no possible or practical use**. From such disobedience to the laws of nature, the eyes are left dim, the mind wandering, the memory lost. With difficulty you stand erect. Every step draws on you for an effort which makes your daily employment a burden, instead of a pleasure. There is dimness of sight, spasmodic pains in the head, a discontented feeling without knowing the cause, and the entire system is in a nervous and debilitated condition. **For the restoration of such debilitated constitutions, there is no remedy that will relieve all the ailments caused by self-abuse with such magic as the Richardson Battery.**

Reader, why neglect your health and destroy your happiness and miserably throw aside all that makes life, a pleasure! How many drag out year after year of a miserable existence, simply for the want of a remedy with the efficacy and **certainty** necessary to remove their ailments. We say to such, procrastination is dangerous. It will not do, if you wish to live, to trifle with the human system. Then why delay, when an article is at hand **that has science, common sense and marvellous cures** to commend it, and the assurance that in **no possible way** can it do you any injury if you are not restored to health by its use?

**Directions for using the Batteries.**—Each Battery has attached to it a cord, which should be tied around the neck, so as to allow the Battery to hang upon the chest, **next to the skin**. It should be worn day and night, and for at least a month after the patient is cured. Children under six years of age should wear them at night only. In extreme cases of Chronic Rheumatism with old age combined, or **entire loss of manhood**, two large Batteries may be worn, one on the chest and one on the back between the shoulder blades, but in **no other case** will it be necessary to electrify the blood to such an extent. When it is necessary to wear two, it can be done without the slightest inconvenience, as the large Batteries are only about the size of a silver dollar. A Battery will last a life-time without losing its power. We make two sizes of Batteries, one for grown people, the other for children under 10 years of age. The

large Battery is the size of a **silver dollar**, the smaller one the size of a **half dollar**. The smaller are comparatively useless as a curative agent for grown people, as the blood of a man or a woman cannot be sufficiently electrified by its use. **The same Battery should not be worn by two different persons.**

**A test of the Magneto-Galvanic Power of the Battery** can be made by applying the edge of the Battery at the break in the ring, to a **needle or any light article of steel or iron**; it will be immediately attracted and **adhere to the Battery**; or put a galvanometer in the palm of the hand and after the needle has had time to steady itself, then hold the Battery under the hand and twist it around, and the needle in the galvanometer will at once become excited. The Battery will have the same effect by placing the galvanometer on a table or counter and the Battery underneath. It is this wonderful and powerful magnetic action that penetrates the Battery flesh and changes the blood when impure and acts upon the nervous system. The object of the break is to allow the **Magneto-Galvanic Current** to pass from the Battery directly into the system. If the circle was complete, the current circuit would pass round and round the Battery circle. Many inquire the length of time necessary to cure certain diseases. **We have known some chronic cases to be cured in twenty-four hours**; others it takes weeks and months to cure, especially where the disease is deep-seated. The blood, and system generally, of some persons are affected much more quickly than others by electricity, and some require a longer time to cure the same disease.

### ASK FOR RICHARDSON'S BATTERY AND TAKE NO OTHER.

We desire to warn the public against worthless imitation Batteries that are being sold in this country. The Richardson Batteries are protected by letters patent in other countries, and the United States government have also granted patents for it. Buy none unless "Richardson's Magneto-Galvanic Battery" is stamped on one side of the heart of the Battery, and "Patented in the U. S., Feb. 24, 1880" stamped on the other side; and see that the Battery will **pick up a needle**.

The Battery can be had from our Agents, or we will send by mail **prepaid** on receipt of 75 cents for adults or 50 cents for Child's size.

### AN AGENT (Male or Female) WANTED IN EVERY PART OF CANADA.

#### QUICK SALES AND ENORMOUS PROFITS.

We will be pleased to have you act as Agent in your section for the sale of our Batteries. There has never been an article introduced to the public that meets with such a ready sale, and has given such universal satisfaction as Richardson's Batteries. Reports from Agents in every section of the country are to the effect that the Battery has cured nearly every person who has used it, and they find that where the imitation Batteries have been sold it assists them in the sale of Richardson's.

If you wish to become an Agent, send in your order and we will forward the Batteries **prepaid, on day order is received**, and print your name and address on 100 large Circulars for each dozen Batteries ordered which will assist you in selling the Batteries, as they describe the wonderful effects of Electricity in the cure of diseases and contain the names and addresses of persons who have been cured or benefited, by the use of the **Richardson Battery**, so the public can judge the wonderful curative properties of electricity.

Some of our Agents carry a hundred of them in their pockets, and leave one with a circular at every house, then they call the next day for their money or the Battery. In this way some Agents are selling on an average fifty a day. Give it a trial and see if you can not do the same.

use of brush or water.

**JAMES LEE & CO.,**  
MONTREAL,  
Que.

It is Always Ready for Use, and Produces an Instantaneous and Permanent Lustre of Matchless Brilliance on a Hot or Cold Stove. No Mixing Required. No Dust Raised. No Smell Produced. No Waste Necessary. No Rust Caused. No Brush Needed. No Time Lost. No Labor Wasted.

**DO NOT READ THIS--**If you are now earning \$1000 or more a year steady, as that is a fair salary three times, and should satisfy even the best of Agents; but if you are not now earning \$1500 or more a year, and desire to do so,

**READ THE FOLLOWING--**And see how it can be done by every active Agent in the first place, a Good Stove Polish is an absolute necessity in every family. It is only a question, then, of offering the best to make a sale. To prove that THE AMERICAN PRIZE is the best, is an easy task. All you have to do is to have a box open, and a piece of rag to begin operations. You now approach the stove and apply the Polish. The result will be so startlingly beautiful that no further words will be necessary. If the stove is not convenient, anything will do to experiment with. You can produce on a piece of wood, a scrap of paper, or a potato, a lustre equal to a polished mirror. Now make the following points just as strong as you possibly can: 1. That THE AMERICAN PRIZE POLISH requires no water or mixing, like the various cakes or powder polishes. 2. That it is self-brushing, and no labor is required. 3. That no dust or smell of any kind arises from its use. And lastly, That it has no equal in the world.

Sample Dozen, by express, to Agents, 75 cents.

We cannot impress too strongly on the minds of our regular Agents the policy of employing Sub-Agents. They will readily pay you \$2.00 a gross, which gives you a good profit, and at the same time enables them to realize over Five Dollars a Day clear money selling at retail. Good Sub-Agents can easily sell one gross a day.

The Polish is put up one gross in a box, and should always be ordered by the gross, and always by freight. It is not profitable to have Polish sent by express, for it is very heavy, and the express charges would be nearly four times as much as by freight.

All orders should be accompanied with the full amount of cash—in order that goods may be sent by Fast Freight. Send money by P. O. Order Registered Letter, or by Draft.

**SPECIAL**

Our Agents will find it safe to order a Sample Dozen by express for trial. When you are fully satisfied that the business is really profitable, you can order a number of gross at a time, and have the goods sent by freight.

**\$ 6.00 The Wonderful Mechanical Piano-ette. \$ 6.00.**  
**THE MOST MARVELLOUS MECHANICAL INVENTION OF THE AGE.**

It will play any tune in a melodious and pleasing manner. Difficult and simple music produced in a masterly style, and it can be played by a child as well as by a grown person, and will furnish music for social gatherings of any description, playing hour after hour, without any knowledge of music being required in the operation. The most wonderful of all musical inventions; a machine which in a purely mechanical manner produces any kind of music, Waltzes, Polkas, Marches, &c., &c., without any practice or knowledge of music whatever; in this respect far superior to any music-box, for there is no limit whatever to the number of tunes it will play. The perforations in a flexible strip produce the effect. It has just been perfected, and is having the largest sale ever obtained by a musical instrument in the country. It has fine black walnut cases, highly decorated, the notes or bars (the music producers) are metal, on same principle as a tuning fork, which produce clear and most melodious notes, and never get out of tune; the bars are struck by strikers, the same as the wires are in a piano, only they work automatically instead of by the fingers. The strip of prepared paper in which the tune is stamped or perforated, is about ten inches wide, and as it passes through the rollers and over the key, the strikers spring through the perforations in the paper and strike the right note; this is all done automatically, without any assistance from the operator (except turning the rollers), and the tune is played perfectly. It would be one of the most appropriate presents to make any one, especially if you are these are no other musical instrument. Its execution is admirable, and its capacity or capability almost unlimited. It is selling faster than any musical instrument ever invented. The music is fine, and everybody delighted. The price of the Piano-ette is only \$10, including a selection of popular tunes.

**Silk Rubber Waterproof Aprons.**

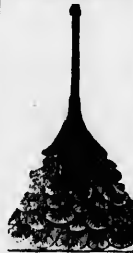

For Ladies, Misses and Children. Please do not confound these Aprons with the cheap oil cloth Aprons that have been sold by different firms within the past year. Our Aprons are entirely different from these *stinks, smells, and is a good thing* which some parties have had cheek enough to call for Waterproof Aprons. Our patterns consist of all the newest and latest designs made, and are very pretty. They are made at our own establishment, and can be procured of no other parties. Ladies will purchase our Aprons when you could not give away one of the cheaper kind; hence it is for your interest to buy Aprons of us. You will be sure to sell one or more at every house, even if they have one of the cheap kind, when our soft, silk-like Apron is shown them, they are so much better pleased with them that your sale is made. We also make Aprons for men at work in shoe and cotton factories, as well as other places. Don't fail to give these Aprons a trial. They sell fast, and pay good profits.

**FEATHER DUSTERS.**

ONE OF THE BEST SELLING ARTICLES IN THE WORLD!

This Duster is one of the best selling articles ever offered to Agents. They are a household necessity. There is no lady who keeps a house that has not use for them every day of her life. They are a necessity in every house, store, or office, and are sold so cheap that no one can afford to be without one. Many of our Agents make them a leading article, or sell nothing else, as they are a new article that has never been canvassed for, durable, and so cheap that a sale is almost certain at every house.

**A FEATHER DUSTER**

is an article that heretofore has been too expensive a luxury for most people to indulge in, ranging in price from 75 cents to \$2.00. Our own are gotten up in a very tasty and attractive style, adorned with all the colors of the rainbow, and where one of these is offered at the trifling sum of 25 cents, a sale is certain. A trial is all that is necessary to convince the most incredulous.

# The Novelty Cigar-Lighter and Match-Box.

This is what Agents are looking for!  
 The invention of getting a light out of doors  
 is a well-known fact. You have to go into a  
 half-way, behind a tree, or in a corner of some  
 kind, and light from six to a dozen matches  
 before you succeed in getting a light. That is  
 aggravating, and loss of time. This Cigar-Lighter  
 will enable you to light a cigar, cigarette or pipe  
 outdoors, without stopping, and in a moment.  
 Every match will light without fail.

The Novelty Cigar-Lighter and Match-Box  
 is superior to any other Cigar-Lighter or Match-  
 Box. Why?

1. By carrying a Cigar-Lighter of any kind  
 you can get a light, but it is also necessary to  
 carry matches for getting a light in a room, or on  
 a dark stairway. Key. The Novelty Cigar-Lighter  
 obviates this completely.

2. By carrying a Match-Box without a Cigar-  
 Lighter, you have got a trouble in getting a light  
 out of doors.

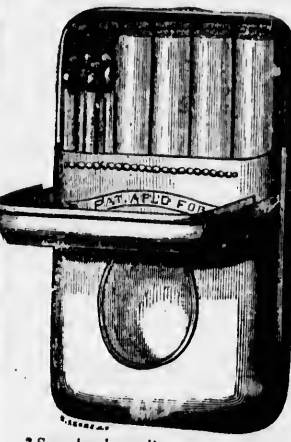

3. By carrying a Cigar-Lighter and Match-  
 Box in your pocket, you have matches in every  
 place, and the expense of the type is very much  
 reduced. Our article conforms both in a small and neatly finished pocket-case, and so  
 that there is nothing to get out of order, while a Cigar-Lighter is very seldom  
 broken. In a word, our box is perfect.

**TAKE HOLD OF IT AT ONCE,** and you can reap a harvest. The profits  
 are large, so that you need work but three or four hours a day to make a handsome  
 and save money.

 size or length—a supply that  
 seldom requires renewing—while  
 a nice friction panel on the back  
 further enhances its usefulness.

**AS A CIGARETTE-CASE**—  
 It fits a want long felt; every  
 smoker knows how easily ciga-  
 rettes are crushed and broken

 cigarettes alone, and at the same  
 time prove a special conveni-  
 ence, there being separate

 cigarettes at the same time.

On account of its shape and  
 ornamental appearance, it may

# NEW ERIE CIGAR-LIGHTER.

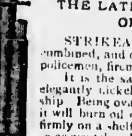

Best Cigar-Lighter in the world!  
 This cigar represents the "MATCHLESS"  
**CIGAR LIGHTER**. With the little article you have only to  
 hold the lighter with the left hand, pull the finger piece up  
 by taking hold of the small cap, leaving the fuse exposed  
 above the tube about a quarter of an inch, then push down a  
 sliding cap on the side of the lighter as far as it will go; the  
 pushing up of the slide causes the hammer to lift, forcing  
 the lighting tape, and drops the hammer, thereby ex-  
 posing a pellet, producing a flash which ignites the under  
 fuse, and you have a light immediately as you desired.  
 The light may be easily extinguished. It is the article that  
 millions of smokers have been so long looking for, as a  
 substitute for the dangerous and troublesome match. Rain  
 or wind does not affect them. They will last a lifetime  
 any time, or in any kind of weather, in or out of doors.  
 Its action is instantaneous, sure and reliable. The fire-  
 and lighting tape, which produce the fire, are furnished  
 with each Cigar-Lighter, and is sufficient to light 100 times.  
 These handsome lighters are made of metal, and are  
 SILVER-PLATED. Every smoker should have one.

# Salt, Pepper and Mustard; Or, Spice for the Million.

The latest, greatest and finestest of all "phunny" books. Everybody wants it. It is just the thing for a spare hour, a rainy day or a wintry evening. To make your dinner digest well, about five minutes after finishing it, take a dip into "Salt, Pepper and Mustard," and you will never be troubled by indigestion or dyspepsia. But don't send for it unless your buttons are well sewed on. Ready-made clothing stands no sort of a chance when "Salt, Pepper and Mustard" is being read and devoured. Finally, don't buy any carry it home if any of your friends have weak heads; they couldn't endure it for a single moment. It has ruined thousands of *suber faces* for ever. Mailed for 20 cents.

Mailed for 20 cents.

Every home circle should have a copy of *Laughing Gas*. Every page is roared with laughter.—"Times."

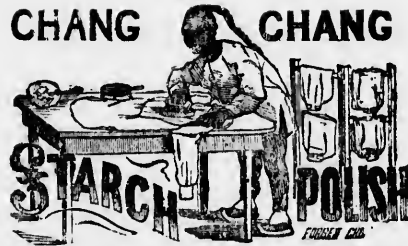

# LIFE IN THE BACK WOODS.

A Guide to the successful Hunting and Trapping of all kinds of Animals. It gives the right season for trapping; how to make, set, and bait all kinds of traps; traps for minks, weasels, "skunks, hawks, owls, gophers, birds, squirrels, muskrats, foxes, rabbits, raccoons, etc.; how to make and use live traps. It gives the English secrets for catching alive all kinds of birds; it tells how to know the true value of skins, as well as how to skin all animals; deodorize, stretch and cure them; to dress and tan skins, furs, and leather; to tan with or without the wool or hair; to skin and stuff birds; baits and hooks for fishing; how to fish successfully without nets, lines, spears, snares, "bobs," or bait (a great secret); how to choose and clean guns; how to breed minks for their skins (hundreds of dollars can be made by any boy or young man who knows how to breed minks), etc.

This book is by an old Trapper, for many years engaged in trapping in the Northwest, who has finally consented to publish and disclose these secrets. Persons living where wild animals exist, with some traps, and the information contained in this book, can make money faster through the trapping season, by giving their time and energies to the business, than they can by seeking their fortunes in the gold regions or in all speculations.

This is at once the most complete and practical book now in the market. Mailed for only 20 cents.

# J. LEE & CO.'S PURE LAUNDRY BLUING.

For Family Use the Standard Bluing of America!

This Blue is superior to all others, and for Cleaning and Beautifying Clothing it has no equal. It is perfectly pure and free from acid, and will not soil the most delicate fabric, but will impart to it a beautiful snowy whiteness, and is pronounced by all housekeepers who have used it to be decidedly the **BEST and CHEAPEST BLUE** they ever used. It has only to be tried to be appreciated, and those who have used it once will use to the other. This Blue is a very fine powder, and is put up in the **NEW PATENT BOX**, with Metallic Pepper-Cover, which is more convenient and economical than the old style of bluing-box. One box of this Bluing is warranted equal to one-half gallon of strong liquid blue. It also makes an excellent Blue Ink; a few grains of the Blue dissolved in a little rain water, will make the best of any that time will not fade. A box will make one pint of good ink, and, for ink alone, is worth ten times its price.

As Bluing is a staple article, and used by every family in the land, you will not fail to see that this is one of the best articles that an Agent can take hold of to make money on, for you can sell from three to ten boxes in nearly every house; and as it is an article that is being constantly consumed, agents can canvass the same territory once in from four to six weeks. This Bluing retails for 10c. a Box.

It is nicely put up and placed in boxes holding one dozen each.

In a moment's time, with a few turns of the fingers, the little spiral is driven through the tidy placed upon the back of upholstered Sofas, Lounges, Chairs, etc., into the upholstery; there it remains fast, holding the tidy always in place. The Fastener never pulls out, and never tears the furniture, as do pins when used for this purpose, and besides adds greatly to the appearance of the tidy. It can be used with equal facility to fasten ties to cane-back furniture. The Tidy-Fasteners are made in all colors, and can be used to match the tidy or not, as the taste may dictate. The principal colors demanded are green, scarlet, cherry, maroon, brown and blue. We

always keep on hand other colors, also. Tidy-Fastener is a great ornament to the tidy, and to the furniture, and those who have used it say they would sooner part with the tidy than with the Fastener. Postage Stamps taken in payment, the same as cash.

# THE BEATITUDES.

We do not hesitate for one moment in saying that this is positively the finest "BIBLICAL" picture printed within the last fifty years. It is a perfect gem, and not a single family in the land will be without it, when they once see it. All that agents will have to do will be to show it, and the sale is effected. Remember that this is no "CATCH PENNY," but a "BIBLICAL" picture finished in the HIGHEST STYLE OF ART.

## DESCRIPTION.

It is utterly impossible for us to give a full description of this MAGNIFICENT WORK OF ART on this small circular.

### LANGUAGE FAILS TO DESCRIBE IT!

The picture is a faithful and very striking illustration of the TEN FIRST VERSES of the 5th chapter of the Gospel of Matthew, commonly called the "BEATITUDES." These verses are the beginning of Christ's Wonderful Sermon on the Mount, and are full of "Marrow and fatness," not only to the PROFESSING CHRISTIAN of all denominations, but to every person who believes at all in the WORD OF GOD.

In the centre of the picture we have a very fine portrait of Christ sitting on the Mount, surrounded by his disciples, while immediately back of them is the "SEA OF GALILEE," with the vessels of the disciples close to the shore, while on the other side of the Sea in the distance we see the hill and mountains towering up toward Heaven. Overshadowing OUR SAVIOUR there is a beautiful palm tree, sheltering Him from the rays of the sun, while immediately above, stretching across the picture in beautiful letters, are the words "THE BEATITUDES." On each side of the centre picture there is a beautiful scroll in which are placed eight magnificent pictures, illustrating separately: 1st, The Poor in Spirit. 2nd, The Mournful. 3rd, The Meek. 4th, Those who Hunger and Thirst. 5th, The Merciful. 6th, The Pure in Heart. 7th, The Peace Makers. 8th, The Persecuted. Underneath these eight illustrations severally, are the appropriate passages of Scripture which the pictures so strikingly, beautifully and harmoniously illustrate.

The Picture is a CHROMO LITHOGRAPH in SIX COLORS, and is finished in the very best style known to the art, and should be in every SUNDAY SCHOOL ROOM, and in every family in the land.

It is an "object lesson" of such striking beauty, that no one should do without it.

It is printed on HEAVY PLATE PAPER, is 18x24 inches in size, and sells for the small sum of FIFTY CENTS. Send this amount in a letter and we will forward you a copy by mail, securely packed.

## TERMS TO AGENTS.

When getting out our descriptive circular we had intended to have agents ask \$1.00 per copy for the picture, but being determined to sell 500,000 copies in TWO YEARS if possible we have it retailed at 50 cts. and will put it to agents as follows:

# BELSHAZZAR'S FEAST.

## A MONARCH'S REVEL, AND A NATION'S RUIN.

Being continually on the look-out for something new and attractive, and something which people will buy, and which, as a natural consequence, agents can sell and make money on, we have discovered a gem in BELSHAZZAR'S FEAST. This is a CHROMO LITHOGRAPH, in colors—size 18x24—and is a faithful and wonderful graphic portrayal of the PROPHECY DANIEL'S HANDWRITING ON THE WALL. (See Dan. chapter 5.) This picture gives you a fine appearance of the Monarch's Palace. The terror-stricken men and women. The Mysterious Handwriting, and the Prophet Daniel standing among them, a noble, fearless worshipper of the true God of Heaven, interpreting for the Monarch those fearfully significant words, "MENE, MENE, TEKEL, UCHARSIN." We have not space on this circular to give a full description of the picture. It must be seen to be appreciated. Every wide-awake man, woman, boy or girl, must at once see by reading the above that this picture will sell.

# TRICKS.

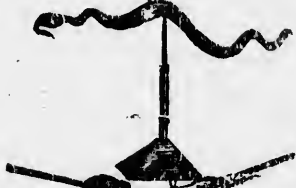

## DANCING SKELETON.

Made out of Celluloid. A perfect model of a skeleton, and will be a source of amusement in many families during the long evenings. Price, 10 cents; three for 25 cents.

## The "Pinafore" Card Game.

THEIR opera of "Pinafore" has not created more of a sensation in the dramatic world, than will the "Pinafore" Card Game within the thousands of social circles which will this season laugh at its exceptionally witty and comic bits, and glisten over the enforcement of the original penalties found upon the Pinafore Cards. The game is entirely new, and consists of 144 cards—30 Question, 30 Answer, and 84 Portals. The questions have a wide range, and the answers will be found as wonderfully appropriate as to keep the company in rars of laughter for the entire evening. The cards are shuffled before each game, and consequently no question will ever, or "hardly ever," have the same answer; in fact, the cards are susceptible of endless changes, and thus greatly diversify the sport, when the fun is increased by the frequent recurrence of the Portal Cards, the unlucky holders being obliged to prompt pay the penalties, however severe they may seem. The game is neatly boxed, accompanied by full directions how to play it, and a young man on going to a party carries it with him in his pocket, every body is sure of a pleasant time. Price, sent postage free by mail, only 50 cents; 1 doz., \$2.25.

## Japanese Magnetic Serpent.

The Serpent is mounted on a pedestal, as also when cut, and is accompanied by a frog and scorpion. When the frog is presented, the Serpent will follow it round and coil in a wonderful manner. But on changing the frog for the scorpion, an entirely different result will appear. Instead of pursuing it, the serpent will flee. These movements are caused entirely by magneto-motism, and are highly entertaining. This novelty is instructive as well as amusing, for it shows at a glance the wonderful power of magneto-motism. It is new, neat and curious. Packaged in a box of Japanese wood. Price, 25 cents, or 3 for 60 cents.

## MAGIC CARD-BOOK.

The performer opens up and exhibits a small album or book, just large enough to hold nine cards. The centre card is covered by a small glass. One of the audience is then requested to name one of the cards that he wishes to change places with the centre card. The book is closed, and on opening again the change is found to have taken place.

Price 25 cents, or 3 for 60 cents.

## HARMONICAS.

Double-acting. Reeds. The most perfect instruments imported. Three inches long, by mail, 15 cents. Same length, but greater volume and purity of tone, by mail, 25 cents. Seven inches long, and splendid crystal tone and power, by mail, 50 cents.

## FINGER-RING TRICK.

Something new and rich. This beautiful trick is simply a fancy finger-ring, silver-plated, and being an odd pattern immediately arrests the attention of any friend, who will naturally ask to examine it. Attached to this ring is a small rubber ball which is held in the palm of the hand so as to prevent detection. This ball is filled with water, and when a person examines it that you wish to play the trick on, you have only to close your hand, which will throw a small, steady stream of water directly in the person's face. Once filling the ball is sufficient to operate the trick one dozen times. If you wish to play the trick on Ladies, it may be made very agreeable by filling the ball with cologne in place of water. There is nothing else which costs so little money with which you can have so much fun. Price, by mail, 30 cents; 1 doz., \$2.00.

## THE GREAT SLATE-TRICK.

As performed in spiritualistic circles. A common iron slate is shown and cleaned as both sides to prove there is no preparation upon it; it is then laid upon the table, a small piece of paper is tucked in the hands of the spectators are placed on it, and in a few seconds the sounds of writing are heard, and upon lifting up the slate a long message is found, completely covering the underneath side of the slate. Defies detection, yet perfectly simple performance in any drawing-room. Price 50 cents.

## THE MAGIC NAIL.

A very good trick. A common iron nail is shown, and without a moment's hesitation the performer forces it through his finger. The finger is shown with the nail protruding from both sides. The illusion is so perfect that the spectators will be satisfied the wound is a genuine one, and that the nail really goes through the finger. The next instant the nail is withdrawn, without a cut, scar or wound of any kind. Price 15 cents, 2 for 25 cents; 1 doz., \$1.25.

## SAMBO AND DINAH.

These lively "colored people" are exceedingly popular wherever introduced, both with young and old. They are each eleven inches high, and are dressed in Southern costume of the old plantation style. Their movements are so natural that one is inclined to think them endowed with real life. They will dance to music, bow, fall down, rise up, etc., without the manager being anywhere near them, and the secret of their movements can only be discovered by the closest examination. During the short time which has elapsed since we introduced these figures, the sale has numbered many thousands, and we have yet to hear the faintest complaint from our patrons who have purchased them. SAMBO and DINAH are intensely funny creatures, their comical antics and queer motions making them jolly company for a winter's evening, especially to those who enjoy a hearty laugh. 10 cents, by mail.

## THE MAGIC ROSE.

This is a very neat and pleasing trick. Taking his wand and gently waving it as though about to operate the performance, either in a parlour or exhibition hall, the performer glances at his coat, and a sweet rose taken all at once at the absence of some object. He then says, "As I entered, a fair lady gave me a sweet rose. I put it in the button-hole of my coat, and now it has vanished. Very singular, as you see. Suppose I try to bring it back again." He then pauses for a few seconds. As it does not reappear, he gently moves his wand across the lapel of his coat backward and forward. At once a beautiful blooming rose appears in his button-hole, and is visible to the end of the entertainment. Any one with a slight "gift of gab" can make a great deal of sport by amusing remarks while performing this trick, which is a very pretty one indeed. No special practice needed, and it will last for dozens of evenings. Sent by mail, postage paid, on receipt of 30 cents.

## BEWITCHED TOBACCO-BOX.

The would-be chewer to open the box like a nut. Every chewer of the weed knows what it is to be troubled with dead-beats, who always buy tobacco, and never buy any of their own. If you are bothered by such chaps, hand him the Bewitched Tobacco-Box, and he will not trouble you a second time. This joke never grows old, and will furnish unlimited amusement at all times and places. The box may be used to carry tobacco, or to wish playing the joke. Price 25 cents, 6 for 50 cents.

## The Vanishing Money Box.

A Splendid Conjuring Trick.

It consists of a handsome black walnut box, with a sliding cover. Both box and cover are freely placed for examination, and, to all appearance, the box is perfectly empty. It is apparently plain and solid, and the closest examination will not reveal any chance for deception; yet there is a great deception in the box, which will enable you to perform some wonderful feats of magic. For instance, you ask one of the company to privately mark a coin, so that they will know it when they see it again. This done, you ask that the marked coin be placed in the box, which is immediately closed. The money is heard to rattle inside, but when the box is opened by one of the company or yourself, it will be found empty, while the marked coin will be in your pocket, or any place you choose. Price, 25 cents; 6 dozen, \$1.25.

## WATCH-CHARMS.

These new, elegant, and unique little beauties are set in ivory, to be worn on watch-chains, neck-chains or as ornaments upon key-chains, and each contains "The Creed," "Lord's Prayer," "Ten Commandments," and other scriptural mottoes, also, "Cross" and "American Scenery," "Beautiful Ladies," "Globe," "Public Buildings," etc., etc., which, upon looking through the Charms, is magnified 100 times. These Magic Watch Charms are also known under the titles of "Perfect Gems," "Microscopic Photographs," etc. We have an immense assortment, which we mail in neat boxes, prepaid, to any address, 3 for only 25 cents, or \$1.00 per dozen.

MONTREAL NOVELTY CO., BOX 1120, MONTREAL, P. Q.

# MAGIC ROSE

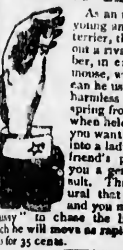

This is a very neat and pleasing trick. Taking his wand and gently waving it as though about to perform a performance, in a particular exhibition hall, the performer places at his coat, and audience all alike at the absence of the object. He then says, "I entered, a fair lady gave me a rose." He then pauses for a moment. As it does not reappear, he moves his wand about the top of his coat backwards and a beautiful blooming rose appears at the end of the enter. The slight "gift of gab" can be made up in remarks while performing pretty one indeed. "This is what I got for dozens of you," on receipt of 30 cents.

# ORIENTAL BAROMETER.

A wonderful and beautiful new. Every one needs a good barometer, for it tells you in advance what the approaching weather will be. The Oriental Barometer is a beautiful device for this purpose. As an optical illusion for diverting the young and old, and perplexing the cat-terrier, the Magic Trick Mouse is without a rival. It is made of hardened rubber, in exact imitation of the ordinary mouse, which we all know so well, and can be used for an unlimited number of harmless jokes. It can be made to spring from one's hand, or the other, even when held some distance away; and if you want to create a panic, just drop it into a lady's lap, or place it under your friend's plate at dinner, and we assure you a genuine stampede will be the result. This lively little novelty is so natural that it will fool the cat every time, and you may cause lots of fun by getting your guests to chase the little fellow over the floor. He will move as rapidly as desired. Price 25 cents. 10 for 35 cents.

# MAGIC COIN BOX.

You show a neat little box and cover for examination, and directly afterward borrow a penny from the audience, which you place in the box in plain view of all. Raise the box to your lips with some magic word, and presto! the cent has vanished, and in its place is a bright new silver dime. Put the dime in your pocket, replace the cover on the box, and re-opening it, the penny will have appeared as mysteriously as it went. The trick may be performed in various ways, without changing your position, and without the slightest fear of detection. For instance, the dime may be made to disappear into any other small coin, and a moment later appear again in the same mysterious way. # TRICKS.

## THE MAGIC COFFIN.

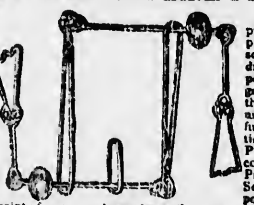

A neat catch joke to save yourself from a bore. It is a small black walnut coffin, studded with tiny brass nails, and finished to represent a regular casket. From the lower end projects a round piece of white wood. When you are bothered with a long-winded customer, hand him the coffin with the remark that it contains the man who was talked to death. Tell him if he wishes to see him, to pass the small piece of wood at the bottom. He of course does so, when, to his intense disgust, a sharp needle runs out from the end, piercing him in the thumb or finger. This hint, from the man who was talked to death, will cause the most obstinate old talker living to take his leave. The coffin is only about two inches long, and may be carried in the pocket for use on any occasion. The needle is entirely concealed from view, and there is nothing about the coffin to reveal the cunning little joke hidden inside. The trick can be performed anywhere, and on any person, and while causing no injury, will create a vast deal of fun. Price 25 cents. 2 for 40 cents.

Price \$1.50 per dozen. Samples mailed post-paid on receipt of 25 cents.
