PREFACE.

The Publishers, in presenting their FIFTH ANNUAL EDITION of the City of Hamilton and County of Wentworth Directory, present their acknowledgments for the kind patronage so liberally bestowed, and beg to state that every exertion has been made to render the work complete and reliable. In a compilation of this kind it is impossible to obtain perfectly accurate information; many persons, misjudging the character of the work, will purposely give false names; others refuse information, and the orthography of proper names offers another great obstacle. We trust this work will contain but few errors and we respectfully urge our claims to lenient criticism.

Our patrons are requested to see that all subscription orders for our next edition bear our name.

NORTHEY'S STEAM ENGINE WORKS,

Cor. Wellington and King William Sts., Hamilton, Ont.,

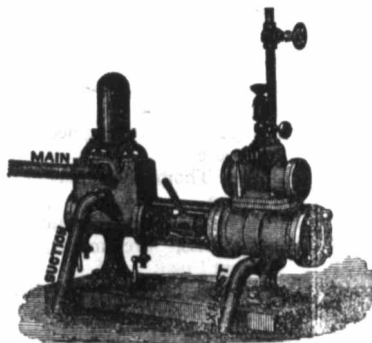

MANUFACTURERS OF

Portable and Stationary Steam Engines, Boilers and
Steam Pumps; also Northey's Patent Double Acting Steam
Pumps. These Pumps are splendidly fitted and second
to none in the market.

STRONG,
DURABLE.

NORTHEY'S DOUBLE ACTING STEAM PUMP.

SIMPLE,
COMPACT.

THIS cut represents a steam pump simple in construction and design. It is made of the best material and workmanship. The studs are composed of lowmoor iron, the water piston, valves, piston rod, seats, glands, lining for water cylinder, and starting lever of the best bronze. There being only two working parts in the steam portion of the machine, all cranks, wheels and tappets are dispensed with, consequently it will run at a greater speed than any other steam pump in the market *without injury*. Should the pump not suit the position intended for it, the steam chest with starting lever may be reversed in a few minutes, making either side front; the pipes also may be attached on either side.

It is of new design. It will work under water. It is noiseless in its operation.

GENERAL FURNISHING STORE.
