

Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- Coloured covers / Couverture de couleur
- Covers damaged / Couverture endommagée
- Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- Cover title missing / Le titre de couverture manque
- Coloured maps / Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- Bound with other material / Relié avec d'autres documents
- Only edition available / Seule édition disponible
- Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- Additional comments / Commentaires supplémentaires:

In Appendix No. 37 in second part of pagination page 153 is incorrectly numbered page 138.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured pages / Pages de couleur
- Pages damaged / Pages endommagées
- Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed / Pages décolorées, tachetées ou piquées
- Pages detached / Pages détachées
- Showthrough / Transparence
- Quality of print varies / Qualité inégale de l'impression
- Includes supplementary material / Comprend du matériel supplémentaire
- Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below / Ce document est filmé au taux de réduction indiqué ci-dessous.

RETURN

To an Address of the Legislative Assembly, dated 23rd June, 1864; for information respecting obstructions in River Richelieu.

By Command.

WM. McDOUGALL,
Secretary.

SECRETARY'S OFFICE,
24th January, 1865.

[In accordance with the recommendation of the Joint Committee on Printing, the above Return is not printed.]

RETURN

To an Address from the Honorable the Legislative Council to His Excellency the Governor General, dated the 6th instant; praying His Excellency to cause to be laid before the House, "A Statement shewing the amount contributed to the Common School Fund, created by the Act 12th Victoria, chapter 200, from the sales of Land in Upper and Lower Canada respectively."

By Command.

WM. McDOUGALL,
Secretary.

SECRETARY'S OFFICE,
Quebec, 20th Feby., 1865.

DEPARTMENT OF CROWN LANDS,
Quebec, 17th Feby., 1865.

Sir,—In reply to your letter of 10th instant, I have the honor to inform you that the amount contributed to the Common School Fund, from the One Million Acres set apart in Upper Canada by the Act 12th Vic., Cap. 200, was, up to the 30th June, 1864, (\$1,088,250.73) one million eighty-eight thousand two hundred and fifty dollars and seventy-three cents.

There are no School Lands in Lower Canada.

I have the honor to be, Sir,

Your obedient servant,

ANDREW RUSSELL,
Assistant Commissioner.

The Hon. the Provincial Secretary,
&c., &c., &c.,
Quebec.

RESOLUTIONS

RELATIVE TO THE

PROPOSED UNION

OF THE

BRITISH NORTH AMERICAN PROVINCES.

MONCK.

The Governor General transmits, for the information of the Legislative Assembly, a Copy of the Resolutions relative to the proposed Union of British North America, adopted by the Conference of Delegates at Quebec, and Copies of a Correspondence on the subject with Her Majesty's Government and the Governors of the several Provinces.

Quebec, 19th January, 1865.

Lord Monck to Mr. Cardwell.

(Copy, No. 135.)

QUEBEC, 23rd September, 1864

SIR,—Referring to my Despatches, No. 124, of August 26th, and No. 129, of September 1st, I have the honor to transmit a copy of an approved Minute of the Executive Council of Canada, requesting me to invite the Governments of Nova Scotia, New Brunswick, Prince Edward Island and Newfoundland, to send Representatives to a Conference with the Ministers of Canada at Quebec, to be held for the purpose of considering the question of the Union of these Provinces, and to digest a practical plan for the realization of the idea which should be submitted for your approval.

The desire for a closer union amongst these Colonies than has hitherto existed appears to be very generally felt, both in Canada and in the Lower Provinces.

It appears to me that the mode of proceeding suggested in this Minute is the only one in which the views entertained by the leading politicians of the British North American Colonies, on this important subject, can be brought intelligibly and in a practical form before your attention.

This course is also, I think, that which was pointed out by the Duke of Newcastle in his Despatch to Lord Mulgrave (Nova Scotia, No. 182), of July 6, 1862, transmitted to me for my information, on the same day, as that which ought to be pursued in the circumstances.

I have therefore had no hesitation in complying with the request of my Executive Council, and I have addressed identical communications—of which I enclose a copy to the Lieutenant Governors of Nova Scotia, New Brunswick and Prince Edward Island, and to

the Governor of Newfoundland,—inviting them to nominate deputations to represent these respective Provinces at the proposed Conference.

I have, &c.,
MONCK.

The Right Hon. E. Cardwell, &c.

Copy of a Report of a Committee of the Executive Council, approved by His Excellency the Governor General on the 23rd September, 1864.

The Committee of Council has the honor to inform Your Excellency that the Deputation from the Executive Council who met the Delegates from the Maritime Provinces, at Charlottetown, on the 1st instant, in accordance with the Order in Council of the 29th ultimo, have reported that such Conference duly met, and that the question of a Confederation of the British North American colonies was discussed at length, and such progress made that it was thought desirable by the Conference that the subject should be resumed in a formal and official manner, under the authority of the Governments of the several Provinces.

The Committee have, therefore, the honor to advise and submit for Your Excellency's approval, that the several Governments of Nova Scotia, New Brunswick, Prince Edward Island and Newfoundland be invited to appoint Delegates under the authority of the Despatch of the Secretary for the Colonies to the Lieutenant Governor of Nova Scotia, dated 6th July, 1862, and communicated by the Colonial Office to Your Excellency by a Despatch of the same date, to confer with the Canadian Government on the subject of a Union or Federation of the British North American Provinces.

The Committee beg leave further to recommend that Quebec be selected as the place, and the 10th of October next the time, for the meeting, as they have ascertained that such time and place will meet the views and convenience of the several Governments.

(Certified,) WM. H. LEE,
C. E. C.

Lord Monck to Lieut.-Governors of Nova Scotia, New Brunswick, Prince Edward Island and Newfoundland.

(Copy.)

QUEBEC, 23rd September, 1864.

SIR,—I have the honor to transmit a copy of an approved Minute of the Executive Council of Canada, respecting the proposal to hold a Conference of Delegates from the Colonies of Nova Scotia, New Brunswick, Prince Edward Island, and Newfoundland, with the Ministers of Canada, to consider the question of a Union of these Colonies, and to digest a scheme for the practical realization of the idea which may be submitted as embodying the joint opinions of the Governments of the several Provinces to the Secretary of State for the Colonies, with a view to obtaining his sanction for legislation on the subject.

In conformity with the request contained in this Minute, I have the honor to invite you to name a deputation to represent your Province in the approaching Conference which will meet at Quebec on the 10th October.

I have, &c.,
(Signed,) MONCK.

(Copy, Canada, No. 79.)

DOWNING STREET,
14th October, 1864.

MY LORD,—I have the honor to acknowledge the receipt of Your Lordship's Despatch (No. 135) of the 23rd of September, reporting that you had invited the

Lieutenant Governors of Nova Scotia, New Brunswick and Prince Edward Island, together with the Governor of Newfoundland, to send Delegates to Quebec to attend a Conference on the subject of the proposed Union of the British North American Provinces.

I approve of the course Your Lordship has taken in the matter.

I have, &c.,
(Signed,) EDWARD CARDWELL.

Governor Viscount Monck.

(Copy, No. 168.)

GOVERNMENT HOUSE, QUEBEC,
November 7, 1864.

SIR,—Referring to my despatch (No. 135) of the 23rd of September, in which I have informed you that I had invited the Lieutenant Governors of Nova Scotia, New Brunswick and Prince Edward Island, and the Governor of Newfoundland to send Representatives to confer with the Members of the Canadian Government on the feasibility of effecting a Union between the Colonies of British North America, and to my despatches of the 14th October (No. 151), and the 2nd November (No. 165), in which I enclosed to you the answer received to that invitation, I have the honor to report that the several gentlemen named in the communications above referred to, as representatives of those Colonies respectively, arrived at Quebec on Monday, the 10th October, the day named for the assembling of the Conference.

They immediately proceeded to the consideration of the important question, the discussion of which constituted the object of their meeting, having appointed Sir E. P. Taché, Prime Minister of Canada, as Chairman, to preside over their deliberations.

Their sittings began on the 10th October, and continued *de die in diem* until the 28th of the same month.

I have now the honor to transmit the Resolutions agreed to by the Conference, for which I would ask the favorable consideration of yourself and Her Majesty's Government.

I may state that an extended intercourse with the Members of the Conference enables me to assure you that they were one and all actuated by the strongest feelings of loyalty to the Queen, the most earnest desire to maintain the connection with England, and the wish to make the proposed Union work so as to strengthen that connection, by enabling the Provinces to take upon themselves more largely the responsibilities of a self-governing community.

I do not enter into any argument to prove that a consolidation of these Provinces is desirable, if it can be effected on principles which will give guarantees for strength and durability.

The advantages of a well-considered plan of Union, whether looked at from the point of administration, commerce or defence, appear to me so obvious that it would be a waste of time to state them, and the fact that the most eminent public men of all the Provinces concur in desiring such a Union, appears to me to go a long way in superseding the necessity for any abstract arguments in its favor.

The plan which has been adopted by the Conference, you will observe, is the Union of all the Provinces on the monarchical principle under one Governor to be appointed by the Crown with Ministers responsible, as in England, to a Parliament consisting of two Houses, one to be nominated by the Crown and the other elected by the people.

To this central Government and Legislature will be committed all the general business of the United Provinces and its authority on all such subjects will be supreme, subject of course to the rights of the Crown and of the Imperial Parliament.

For the purpose of local administration it is proposed to have in each Province an Executive Officer to be appointed by the Governor and removable by him for cause to be assigned, assisted by a Legislative body, the constitution of which it is proposed to leave to the decision of the present local Legislatures, subject to the approbation of the Imperial Government and Parliament.

To these local bodies are to be entrusted the execution of certain specified duties of a

local character, and they are to have no rights or authority beyond what is expressly delegated to them by the Act of Union.

To the general Government it is proposed to reserve the right of disallowing Acts passed by the local Legislatures.

I think this will be found a fair general outline of the constitutional portion of the proposed scheme of Union, and I trust it will be found of such a nature as to merit the general approbation of Her Majesty's Government.

I do not allude to the proposed financial arrangements between the different members of the proposed Union, as these relate to questions exclusively affecting the Provinces, and upon which I presume they may safely be allowed to adopt any course which they may themselves think conducive to their interests.

In transmitting these Resolutions for your consideration, I venture to state my opinion that the desire for a consolidation of British North America, has taken strong hold of the minds of the most earnest and thoughtful men in these Provinces, and I trust, whether on the plan suggested by these Resolutions, or on some modification of it, a Union may be effected which will satisfy the aspirations of so loyal and influential a portion of Her Majesty's subjects.

I have, &c.,

(Signed,)

MONCK.

The Right Honorable E. Cardwell, M.P.

REPORT of Resolutions adopted at a Conference of Delegates from the Provinces of Canada, Nova Scotia and New Brunswick, and the Colonies of Newfoundland and Prince Edward Island, held at the City of Quebec, 10th October, 1864, as the basis of a proposed Confederation of those Provinces and Colonies.

1. The best interests and present and future prosperity of British North America will be promoted by a Federal Union under the Crown of Great Britain, provided such Union can be effected on principles just to the several Provinces.

2. In the Federation of the British North American Provinces, the system of Government best adapted under existing circumstances to protect the diversified interest of the several Provinces, and secure efficiency, harmony and permanency in the working of the Union, would be a general Government, charged with matters of common interest to the whole country; and Local Governments for each of the Canadas, and for the Provinces of Nova Scotia, New Brunswick and Prince Edward Island, charged with the control of local matters in their respective sections. Provision being made for the admission into the Union, on equitable terms, of Newfoundland, the North West Territory, British Columbia and Vancouver.

3. In framing a Constitution for the General Government, the Conference, with a view to the perpetuation of our connection with the Mother Country, and to the promotion of the best interests of the people of these Provinces, desire to follow the model of the British Constitution, so far as our circumstances will permit.

4. The Executive Authority or Government shall be vested in the Sovereign of the United Kingdom of Great Britain and Ireland, and be administered according to the well-understood principles of the British Constitution, by the Sovereign personally, or by the Representative of the Sovereign duly authorized.

5. The Sovereign or Representative of the Sovereign shall be Commander-in-Chief of the Land and Naval Militia Forces.

6. There shall be a General Legislature or Parliament for the Federated Provinces, composed of a Legislative Council and a House of Commons.

7. For the purpose of forming the Legislative Council, the Federated Provinces shall be considered as consisting of three divisions: 1st Upper Canada, 2nd Lower Canada, 3rd Nova Scotia, New Brunswick and Prince Edward Island; each division with an equal representation in the Legislative Council.

8. Upper Canada shall be represented in the Legislative Council by 24 members, Lower Canada by 24 members, and the three Maritime Provinces by 24 members, of which Nova Scotia shall have 10, New Brunswick 10, and Prince Edward Island 4 members.

9. The Colony of Newfoundland shall be entitled to enter the proposed Union, with a representation in the Legislative Council of 4 members.

10. The North-West Territory, British Columbia and Vancouver shall be admitted into the Union on such terms and conditions as the Parliament of the Federated Provinces shall deem equitable, and as shall receive the assent of Her Majesty; and in the case of the Province of British Columbia or Vancouver, as shall be agreed to by the Legislature of such Province.

11. The Members of the Legislative Council shall be appointed by the Crown under the Great Seal of the General Government, and shall hold office during life: if any Legislative Councillor shall, for two consecutive sessions of Parliament, fail to give his attendance in the said Council, his seat shall thereby become vacant.

12. The members of the Legislative Council shall be British subjects by birth or naturalization, of the full age of thirty years, shall possess a continuous real property qualification of four thousand dollars over and above all incumbrances, and shall be and continue worth that sum over and above their debts and liabilities, but in the case of Newfoundland and Prince Edward Island, the property may be either real or personal.

13. If any question shall arise as to the qualification of a Legislative Councillor, the same shall be determined by the Council.

14. The first selection of the Members of the Legislative Council shall be made, except as regards Prince Edward Island, from the Legislative Councils of the various Provinces, so far as a sufficient number be found qualified and willing to serve; such Members shall be appointed by the Crown at the recommendation of the General Executive Government, upon the nomination of the respective Local Governments, and in such nomination due regard shall be had to the claims of the Members of the Legislative Council of the opposition in each Province, so that all political parties may as nearly as possible be fairly represented.

15. The Speaker of the Legislative Council (unless otherwise provided by Parliament) shall be appointed by the Crown from among the Members of the Legislative Council, and shall hold office during pleasure, and shall only be entitled to a casting vote on an equality of votes.

16. Each of the twenty-four Legislative Councillors representing Lower Canada in the Legislative Council of the General Legislature, shall be appointed to represent one of the twenty-four Electoral Divisions mentioned in Schedule A of Chapter first of the Consolidated Statutes of Canada, and such Councillor shall reside or possess his qualification in the Division he is appointed to represent.

17. The basis of Representation in the House of Commons shall be Population, as determined by the Official Census every ten years; and the number of Members at first shall be 194, distributed as follows:

Upper Canada	82
Lower Canada	65
Nova Scotia.....	19
New Brunswick.....	15
Newfoundland	8
Prince Edward Island.....	5

18. Until the Official Census of 1871 has been made up, there shall be no change in the number of Representatives from the several sections.

19. Immediately after the completion of the Census of 1871, and immediately after every Decennial Census thereafter, the Representation from each section in the House of Commons shall be re-adjusted on the basis of Population.

20. For the purpose of such re-adjustments, Lower Canada shall always be assigned sixty-five members, and each of the other sections shall at each re-adjustment receive, for the ten years then next succeeding, the number of Members to which it will be entitled on the same ratio of representation to population as Lower Canada will enjoy according to the Census last taken by having sixty-five Members.

21. No reduction shall be made in the number of Members returned by any section, unless its population shall have decreased, relatively to the population of the whole Union, to the extent of five per centum.

22. In computing at each decennial period the number of Members to which each section is entitled, no fractional parts shall be considered, unless when exceeding one-half the number entitling to a Member, in which case a Member shall be given for each such fractional part.

23. The Legislature of each Province shall divide such Province into the proper number of constituencies, and define the boundaries of each of them.

24. The Local Legislature of each Province may, from time to time, alter the Electoral Districts for the purposes of Representation in such Local Legislature, and distribute the Representatives to which the Province is entitled in such Local Legislature, in any manner such Legislature may see fit.

25. The number of Members may at any time be increased by the general Parliament,—regard being had to the proportionate rights then existing.

26. Until provisions are made by the General Parliament, all the laws which, at the date of the Proclamation constituting the Union, are in force in the Provinces respectively, relating to the qualification and disqualification of any person to be elected, or to sit or vote as a Member of the Assembly in the said Provinces respectively; and relating to the qualification or disqualification of voters and to the oaths to be taken by voters, and to Returning Officers and their powers and duties,—and relating to the proceedings at Elections,—and to the period during which such elections may be continued,—and relating to the Trial of Controverted Elections, and the proceedings incident thereto,—and relating to the vacating of seats of Members, and to the issuing and execution of new Writs, in case of any seat being vacated otherwise than by a dissolution—shall respectively apply to Elections of Members to serve in the House of Commons, for places situate in those Provinces respectively.

27. Every House of Commons shall continue for five years from the day of the return of the writs choosing the same, and no longer; subject, nevertheless, to be sooner prorogued or dissolved by the Governor.

28. There shall be a Session of the General Parliament once, at least, in every year, so that a period of twelve calendar months shall not intervene between the last sitting of the General Parliament in one Session, and the first sitting thereof in the next Session.

29. The General Parliament shall have power to make Laws for the peace, welfare and good government of the Federated Provinces (saving the Sovereignty of England), and especially laws respecting the following subjects:—

1. The Public Debt and Property.
2. The Regulation of Trade and Commerce.
3. The imposition or regulation of Duties of Customs on Imports and Exports, —except on Exports of Timber, Logs, Masts, Spars, Deals and Sawn Lumber from New Brunswick, and of Coal and other minerals from Nova Scotia.
4. The imposition or regulation of Excise Duties.
5. The raising of money by all or any other modes or systems of Taxation.
6. The borrowing of money on the Public Credit.
7. Postal Service.
8. Lines of Steam or other Ships, Railways, Canals and other works, connecting any two or more of the Provinces together or extending beyond the limits of any Province.
9. Lines of Steamships between the Federated Provinces and other Countries.
10. Telegraphic Communication and the Incorporation of Telegraph Companies.
11. All such works as shall, although lying wholly within any Province be specially declared by the Acts authorizing them to be for the general advantage.
12. The Census.
13. Militia—Military and Naval Service and Defence.
14. Beacons, Buoys and Light Houses.
15. Navigation and Shipping.
16. Quarantine.
17. Sea Coast and Inland Fisheries.
18. Ferries between any Province and a Foreign country, or between any two Provinces.

19. Currency and Coinage
20. Banking—Incorporation of Banks, and the issue of paper money.
21. Savings Banks.
22. Weights and Measures.
23. Bills of Exchange and Promissory Notes.
24. Interest.
25. Legal Tender.
26. Bankruptcy and Insolvency.
27. Patents of Invention and Discovery.
28. Copy Rights.
29. Indians and Lands reserved for the Indians.
30. Naturalization and Aliens.
31. Marriage and Divorce.
32. The Criminal Law, excepting the Constitution of Courts of Criminal Jurisdiction, but including the procedure in Criminal matters.
33. Rendering uniform all or any of the laws relative to property and civil rights in Upper Canada, Nova Scotia, New Brunswick, Newfoundland and Prince Edward Island, and rendering uniform the procedure of all or any of the Courts in these Provinces; but any Statute for this purpose shall have no force or authority in any Province until sanctioned by the Legislature thereof.
34. The Establishment of a General Court of Appeal for the Federated Provinces.
35. Immigration.
36. Agriculture.
37. And generally respecting all matters of a general character, not specially and exclusively reserved for the Local Governments and Legislatures.

30. The General Government and Parliament shall have all powers necessary or proper for performing the obligations of the Federated Provinces, as part of the British Empire, to Foreign Countries arising under Treaties between Great Britain and such Countries.

31. The General Parliament may also, from time to time, establish additional Courts, and the General Government may appoint Judges and Officers thereof, when the same shall appear necessary or for the public advantage, in order to the due execution of the laws of Parliament.

32. All Courts, Judges and Officers of the several Provinces shall aid, assist and obey the General Government in the exercise of its rights and powers, and for such purposes shall be held to be Courts, Judges and Officers of the General Government.

33. The General Government shall appoint and pay the Judges of the Superior Courts in each Province, and of the County Courts in Upper Canada, and Parliament shall fix their salaries.

34. Until the Consolidation of the Laws of Upper Canada, New Brunswick, Nova Scotia, Newfoundland and Prince Edward Island, the Judges of these Provinces appointed by the General Government, shall be selected from their respective Bars.

35. The Judges of the Courts of Lower Canada shall be selected from the Bar of Lower Canada.

36. The Judges of the Court of Admiralty now receiving salaries shall be paid by the General Government.

37. The Judges of the Superior Courts shall hold their offices during good behaviour, and shall be removable only on the Address of both Houses of Parliament.

LOCAL GOVERNMENT.

38. For each of the Provinces there shall be an Executive Officer, styled the Lieutenant Governor, who shall be appointed by the Governor General in Council, under the Great Seal of the Federated Provinces, during pleasure: such pleasure not to be exercised before the expiration of the first five years except for cause: such cause to be communicated in writing to the Lieutenant Governor immediately after the exercise of the pleasure as aforesaid, and also by Message to both Houses of Parliament, within the first week of the first Session afterwards.

39. The Lieutenant Governor of each Province shall be paid by the General Government.

40. In undertaking to pay the salaries of the Lieutenant Governors, the Conference does not desire to prejudice the claim of Prince Edward Island upon the Imperial Government for the amount now paid for the salary of the Lieutenant Governor thereof.

41. The Local Government and Legislature of each Province shall be constructed in such manner as the existing Legislature of each such Province shall provide.

42. The Local Legislature shall have power to alter or amend their constitution from time to time.

43. The Local Legislatures shall have power to make laws respecting the following subjects :

1. Direct taxation, and in New Brunswick the imposition of Duties on the Export of Timber, Logs, Masts, Spars, Deals and Sawn Lumber; and in Nova Scotia, of Coals and other minerals.
2. Borrowing money on the credit of the Province.
3. The establishment and tenure of local offices, and the appointment and payment of local officers.
4. Agriculture.
5. Immigration.
6. Education; saving the rights and privileges which the Protestant or Catholic minority in both Canadas may possess as to their Denominational Schools, at the time when the Union goes into operation.
7. The sale and management of Public Lands excepting Lands belonging to the General Government.
8. Sea Coast and Inland Fisheries.
9. The establishment, maintenance and management of Penitentiaries, and of Public and Reformatory Prisons.
10. The establishment, maintenance and management of Hospitals, Asylums, Charities, and Eleemosynary Institutions.
11. Municipal Institutions.
12. Shop, Saloon, Tavern, Auctioneer and other Licenses.
13. Local Works.
14. The Incorporation of Private or Local Companies, except such as relate to matters assigned to the General Parliament.
15. Property and civil rights, excepting those portions thereof assigned to the General Parliament.
16. Inflicting punishment by fine, penalties, imprisonment or otherwise, for the breach of laws passed in relation to any subject within their jurisdiction.
17. The Administration of Justice, including the Constitution, maintenance and organization of the Courts,—both of Civil and Criminal Jurisdiction, and including also the Procedure in Civil matters.
18. And generally all matters of a private or local nature, not assigned to the General Parliament.

44. The power of respiting, reprieving, and pardoning Prisoners convicted of crimes, and of commuting and remitting of sentences in whole or in part, which belongs of right to the Crown, shall be administered by the Lieutenant Governor of each Province in Council, subject to any instructions he may, from time to time, receive from the General Government, and subject to any provisions that may be made in this behalf by the General Parliament.

MISCELLANEOUS.

45. In regard to all subjects over which jurisdiction belongs to both the General and Local Legislatures, the laws of the General Parliament shall control and supersede those made by the Local Legislature, and the latter shall be void so far as they are repugnant to, or inconsistent with, the former.

46. Both the English and French languages may be employed in the General Parlia-

ment and in its proceedings, and in the Local Legislature of Lower Canada, and also in the Federal Courts and in the Courts of Lower Canada.

47. No lands or property belonging to the General or Local Governments shall be liable to taxation.

48. All Bills for appropriating any part of the Public Revenue, or for imposing any new Tax or Impost, shall originate in the House of Commons or House of Assembly, as the case may be.

49. The House of Commons or House of Assembly shall not originate or pass any Vote, Resolution, Address or Bill for the appropriation of any part of the Public Revenue, or of any Tax or Impost to any purpose, not first recommended by Message of the Governor General or the Lieutenant Governor, as the case may be, during the Session in which such Vote, Resolution, Address or Bill is passed.

50. Any Bill of the General Parliament may be reserved in the usual manner for Her Majesty's Assent, and any Bill of the Local Legislatures may, in like manner, be reserved for the consideration of the Governor General.

51. Any Bill passed by the General Parliament shall be subject to disallowance by Her Majesty within two years, as in the case of Bills passed by the Legislatures of the said Provinces hitherto; and, in like manner, any Bill passed by a Local Legislature shall be subject to disallowance by the Governor General within one year after the passing thereof.

52. The Seat of Government of the Federated Provinces shall be Ottawa, subject to the Royal Prerogative.

53. Subject to any future action of the respective Local Governments, the Seat of the Local Government in Upper Canada shall be Toronto; of Lower Canada, Quebec; and the Seats of the Local Governments in the other Provinces shall be as at present.

PROPERTY AND LIABILITIES.

54. All Stocks, Cash, Bankers' Balances and Securities for money belonging to each Province at the time of the Union, except as hereinafter mentioned, shall belong to the General Government.

55. The following Public Works and Property of each Province shall belong to the General Government, to wit:—

1. Canals.
2. Public Harbours.
3. Light Houses and Piers.
4. Steamboats, Dredges and Public Vessels.
5. River and Lake Improvements.
6. Railway and Railway Stocks, Mortgages and other debts due by Railway Companies.
7. Military Roads.
8. Custom Houses, Post Offices and other Public Buildings, except such as may be set aside by the General Government for the use of the Local Legislatures and Governments.
9. Property transferred by the Imperial Government and known as Ordnance Property.
10. Armories, Drill Sheds, Military Clothing and Munitions of War, and
11. Lands set apart for public purposes.

56. All lands, mines, minerals and royalties vested in Her Majesty in the Provinces of Upper Canada, Lower Canada, Nova Scotia, New Brunswick and Prince Edward Island, for the use of such Provinces, shall belong to the Local Government of the territory in which the same are so situate; subject to any trusts that may exist in respect to any of such lands or to any interest of other persons in respect of the same.

57. All sums due from purchasers or lessees of such lands, mines or minerals at the time of the Union, shall also belong to the Local Governments.

58. All assets connected with such portions of the public debt of any Province as are assumed by the Local Governments shall also belong to those Governments respectively.

59. The several Provinces shall retain all other Public Property therein, subject to the

right of the General Government to assume any Lands or Public Property required for Fortifications or the Defence of the Country.

60. The General Government shall assume all the Debts and Liabilities of each Province.

61. The Debt of Canada, not specially assumed by Upper and Lower Canada respectively, shall not exceed, at the time of the Union, \$62,500,000; Nova Scotia shall enter the Union with a debt not exceeding \$8,000,000; and New Brunswick with a debt not exceeding \$7,000,000.

62. In case Nova Scotia or New Brunswick do not incur liabilities beyond those for which their Governments are now bound, and which shall make their debts at the date of Union less than \$8,000,000 and \$7,000,000 respectively, they shall be entitled to interest at five per cent. on the amount not so incurred, in like manner as is hereinafter provided for Newfoundland and Prince Edward Island; the foregoing resolution being in no respect intended to limit the powers given to the respective Governments of those Provinces, by Legislative authority, but only to limit the maximum amount of charge to be assumed by the General Government; provided always, that the powers so conferred by the respective Legislatures shall be exercised within five years from this date, or the same shall then lapse.

63. Newfoundland and Prince Edward Island, not having incurred Debts equal to those of the other Provinces, shall be entitled to receive, by half-yearly payments, in advance, from the General Government, the Interest at five per cent. on the difference between the actual amount of their respective Debts at the time of the Union, and the average amount of indebtedness per head of the Population of Canada, Nova Scotia and New Brunswick.

64. In consideration of the transfer to the General Parliament of the powers of Taxation, an annual grant in aid of each Province shall be made, equal to eighty cents per head of the Population, as established by the Census of 1861; the population of Newfoundland being estimated at 130,000. Such aid shall be in full settlement of all future demands upon the General Government for local purposes, and shall be paid half-yearly in advance to each Province.

65. The position of New Brunswick being such as to entail large immediate charges upon her local revenues, it is agreed that for the period of ten years, from the time when the Union takes effect, an additional allowance of \$63,000 per annum shall be made to that Province. But that so long as the liability of that Province remains under \$7,000,000, a deduction equal to the interest on such deficiency shall be made from the \$63,000.

66. In consideration of the surrender to the General Government by Newfoundland of all its rights in Mines and Minerals, and of all the ungranted and unoccupied Lands of the Crown, it is agreed that the sum of \$150,000 shall each year be paid to that Province, by semi-annual payments; provided that that Colony shall retain the right of opening, constructing and controlling Roads and Bridges through any of the said Lands, subject to any Laws which the General Parliament may pass in respect of the same.

67. All engagements that may before the Union, be entered into with the Imperial Government for the defence of the Country, shall be assumed by the General Government.

68. The General Government shall secure, without delay, the completion of the Inter-colonial Railway from Rivière-du-Loup, through New Brunswick, to Truro in Nova Scotia.

69. The communications with the North Western Territory, and the improvements required for the development of the Trade of the Great West with the Seaboard, are regarded by this Conference as subjects of the highest importance to the Federated Provinces, and shall be prosecuted at the earliest possible period that the state of the Finances will permit.

70. The sanction of the Imperial and Local Parliaments shall be sought for the Union of the Provinces, on the principles adopted by the Conference.

71. That Her Majesty the Queen be solicited to determine the rank and name of the Federated Provinces.

72. The proceedings of the Conference shall be authenticated by the signatures of the Delegates, and submitted by each Delegation to its own Government, and the Chairman is authorized to submit a copy to the Governor General for transmission to the Secretary of State for the Colonies.

[Copy, Canada, No. 93.]

DOWNING STREET,
3rd December, 1864.

MY LORD:—Her Majesty's Government have received with the most cordial satisfaction your Lordship's despatch of the 7th ultimo, transmitting for their consideration the Resolutions adopted by the Representatives of the several Provinces of British North America, who were assembled at Quebec.

With the sanction of the Crown, and upon the invitation of the Governor-General, men of every Province, chosen by the respective Lieutenant-Governors; without distinction of party, assembled to consider questions of the utmost interest to every subject of the Queen, of whatever race or faith, resident in those Provinces; and have arrived at a conclusion destined to exercise a most important influence upon the future welfare of the whole community.

Animated by the warmest sentiments of loyalty and devotion to their Sovereign, earnestly desirous to secure for their posterity, throughout all future time, the advantages which they enjoy as subjects of the British Crown, steadfastly attached to the Institutions under which they live,—they have conducted their deliberations with patient sagacity, and have arrived at unanimous conclusions on questions involving many difficulties, and calculated under less favorable auspices to have given rise to many differences of opinion.

Such an event is in the highest degree honorable to those who have taken part in these deliberations.

It must inspire confidence in the men by whose judgment and temper this result has been attained, and will ever remain on record as an evidence of the salutary influence exercised by the Institutions under which these qualities have been so signally developed.

Her Majesty's Government have given to your despatch and to the Resolutions of the Conference, their most deliberate consideration. They have regarded them as a whole, and as having been designed by those who framed them, to establish as complete and perfect an Union of the whole, into one Government, as the circumstances of the case, and a due consideration of existing interests would admit. They accept them, therefore, as being in the deliberate judgment of those best qualified to decide upon the subject, the best framework of a measure to be passed by the Imperial Parliament for attaining that most desirable result.

The point of principal importance to the practical well-working of the scheme is the accurate determination of the limits between the authority of the Central and that of the Local Legislatures, in their relation to each other. It has not been possible to exclude from the Resolutions some provisions which appear to be less consistent than might, perhaps, have been desired with the simplicity and unity of the system. But, upon the whole, it appears to Her Majesty's Government, that precautions have been taken which are obviously intended to secure to the Central Government the means of effective action throughout the several Provinces, and to guard against those evils which must inevitably arise, if any doubt were permitted to exist as to the respective limits of Central and Local authority. They are glad to observe that, although large powers of Legislation are intended to be vested in local bodies, yet the principle of central control has been steadily kept in view. The importance of this principle cannot be over-rated. Its maintenance is essential to the practical efficiency of the system and to its harmonious operation, both in the General Government and in the Governments of the several Provinces. A very important part of this subject is the expense which may attend the working of the Central and the Local Government. Her Majesty's Government cannot but express the earnest hope that the arrangements which may be adopted in this respect, may not be of such a nature as to increase,—at least in any considerable degree,—the whole expenditure, or to make any material addition to the taxation, and thereby retard the internal industry, or tend to impose new burdens on the commerce of the country.

Her Majesty's Government are anxious to lose no time in conveying to you their general approval of the proceedings of the Conference. There are, however, two provisions of great importance which seem to require revision. The first of these is the provision contained in the 44th Resolution, with respect to the exercise of the Prerogative of Pardon. It appears to Her Majesty's Government that this duty belongs to the Repre-

sentative of the Sovereign, and could not with propriety be devolved upon the Lieutenant Governors, who will, under the present scheme be appointed, not directly by the Crown, but by the Central Government of the United Provinces.

The second point which Her Majesty's Government desire should be reconsidered is the Constitution of the Legislative Council. They appreciate the considerations which have influenced the Conference in determining the mode in which this Body, so important to the Constitution of the Legislature, should be composed. But it appears to them to require further consideration whether, if the members be appointed for life, and their number be fixed, there will be any sufficient means of restoring harmony between the Legislative Council and the popular Assembly, if it shall ever unfortunately happen that a decided difference of opinion shall arise between them.

These two points, relating to the Prerogative of the Crown and to the Constitution of the Upper Chamber, have appeared to require distinct and separate notice. Questions of minor consequence and matters of detailed arrangement may properly be reserved for a future time, when the provisions of the Bill intended to be submitted to the Imperial Parliament shall come under consideration. Her Majesty's Government anticipate no serious difficulty in this part of the case, since the Resolutions will generally be found sufficiently explicit to guide those who will be entrusted with the preparation of the Bill. It appears to them, therefore, that you should now take immediate measures, in concert with the Lieutenant Governors of the several Provinces, for submitting to their respective Legislatures this project of the Conference; and if, as I hope, you are able to report that those Legislatures sanction and adopt the scheme, Her Majesty's Government will render you all the assistance in their power for carrying it into effect. It will probably be found to be the most convenient course that, in concert with the Lieutenant Governors, you should select a deputation of the persons best qualified to proceed to this country, that they may be present during the preparation of the Bill, and give to Her Majesty's Government the benefit of their counsel upon any questions which may arise during the passage of the measure through the two Houses of Parliament.

I have, &c.,
(Signed,) EDWARD CARDWELL.

Governor Viscount Monck.

Honorable Arthur Gordon to Lord Monck.

[Copy.]

FREDERICTON, NEW BRUNSWICK,
7th October, 1864.

MY LORD.—I have the honor to inform you that, in accordance with the request contained in your Lordship's despatch of the 23rd September, I have appointed the Honorable S. L. Tilley, Honorable W. H. Steeves, Honorable P. Mitchell, Honorable J. M. Johnson, Honorable E. B. Chandler, Honorable J. H. Gray, and Charles Fisher, Esq., to be Delegates to attend the Conference on the subject of a Federal Union of the British North American Colonies, to be held at Quebec, on the 10th of October, 1864.

I have &c.,
(Signed,) ARTHUR GORDON.

Viscount Monck, &c., &c., &c.

Sir R. McDonnell to Lord Monck.

[Copy.]

GOVERNMENT HOUSE, HALIFAX,
Nova Scotia, 3rd October, 1864.

MY LORD.—I have the honor to acknowledge the receipt of your despatch of the 23rd ult., which reached me on the 30th ult., transmitting a copy of an approved Minute of the Executive Council of Canada, dated the 23rd September, 1864, and inviting me to

name a deputation to represent Nova Scotia in the approaching Conference at Quebec on the 10th instant.

In reply, I have the honor to state for your Lordship's information, that I have laid your despatch and its enclosure before my ministry, and I have appointed the Hon. Provincial Secretary, Hon. Atty General, Hon. R. B. Dickey, Hon. Jonathan McCully, and Adams G. Archibald, Esq., to form a deputation to meet the Delegates from the other British North American Provinces in Conference at Quebec on the 10th instant, as proposed in your Lordship's despatch.

I have, &c.,
(Signed,) RICHARD GRAVES McDONNELL,
Lieutenant Governor.

His Excellency Viscount Monck, Governor General, &c., &c., &c.

(Copy.)

GOVERNMENT HOUSE,
Prince Edward Island, 6th October, 1864.

MY LORD,—I have the honor to acknowledge the receipt, this day, of your Despatch, dated 23rd September, transmitting to me, copy of an approved Minute of the Executive Council of Canada, respecting a proposal to hold, at Quebec, on the 10th October, a Conference of Delegates from the Maritime Provinces, with the Ministers of Canada, to consider the question of a Union of these Provinces.

Your Lordship invites me to name a deputation to represent Prince Edward Island at this approaching Conference.

I have accordingly, with the advice of my Ministers, named the following gentlemen, who will, I understand, proceed to-day to Quebec, in order to be present there on the 10th instant.

The Hon. J. H. Grey, Prince Edward Island; the Hon. E. Palmer, Attorney General; the Hon. N. H. Pope, Colonial Secretary; the Hon. A. A. McDonald, M. L. C.; the Hon. G. Coles, M.P.P.; the Hon. T. H. Haviland, M.P.P.; the Hon. Edward Whelan, M.P.P.

I have, &c.,
(Signed,) GEORGE DUNDAS,
Lieutenant Governor.

His Excellency the Viscount Monck.

(Copy.)

GOVERNMENT HOUSE, NEWFOUNDLAND,
October 4, 1864.

MY LORD,—I have had the honor to receive Your Lordship's letter of the 23rd September, with its enclosure respecting the proposal to hold a Conference of Delegates from the other North American Colonies with the Ministers of Canada, to consider the question of a Union of these Colonies.

I found, on my arrival here two days ago to assume the administration of this Government, that in anticipation of such a communication from Your Lordship as that which I now acknowledge, the Honorable F. P. Carter, the Speaker, and Mr. Ambrose Shea, a Member of the Assembly, had already been nominated on the part of this Government, and they have already proceeded to Quebec.

I have, &c.,
(Signed,) A. MUSGRAVE.

The Right Honorable Viscount Monck, Governor General.

ADJUTANT GENERAL'S OFFICE,

QUEBEC, 10th January, 1865.

The undersigned have the honor to forward to Your Excellency the accompanying Report relating to the Militia of the Province of Canada for the year 1864, embracing—

1. Action taken under the Militia Law relating to organization, &c., Service Militia;
2. Schools of Military Instruction;
3. Tables showing enrolment in the several counties;
4. The Volunteer Militia, &c., &c.

All of which is respectfully submitted for Your Excellency's consideration.

A. DE SALABERRY, Lieut.-Colonel.
Depy. Adjt. Genl., L. C.

W. POWELL, Lieut.-Colonel,
Depy. Adjt. Genl., U. C.

His Excellency the Right Honorable
The Governor General, &c., &c., &c.,
Quebec.

REPORT.

(No. 1.)

SERVICE MILITIA.

During the present year the first enrolment under the Militia Law passed in 1863 has been taken. By the provisions of this law the Militia consists of all the male inhabitants of the Province, of the age of 18 years and upwards and under 60 not exempted or disqualified by law, and is divided into three classes, called respectively first class service men, second class men, and reserve men—the first class service men are those of 18 years of age and upwards, but under 45 years, who are unmarried men or widowers without children, the second class service men are those between the ages of 18 and 45, who are married men or widowers with children—the reserve men are those of 45 years and upwards, but under 60 years.

REGIMENTAL DIVISIONS.

Each County in the Province is constituted a Regimental Division, but the Commander-in-Chief may connect one or more Counties as a Regimental Division.

ENROLMENT.

The enrolment is taken by the Municipal Assessors or Valuers each year at the same time when they are engaged in taking the assessment or valuation of the real and personal property in their respective municipalities.

ORGANIZATION.

When the Commander-in-Chief directs the organization of any number of Service Battalions, the men to be furnished for each such battalion are drawn by ballot, and each Township, Parish, City, Town, or Incorporated Village in each regimental division where a battalion is to be organized is required to furnish its proportion of men, having reference to the proportion of population of the same as appearing by the last census, or in case of municipalities incorporated since the last census to the proportion of population of such municipality as shewn by the Militia Rolls; the ballot is taken in Lower Canada by the Registrar, the Warden, and one or more officers of the Service Militia to be designated by the Commander-in-Chief, and in Upper Canada by the Sheriff, the County Judge, the Warden, and the Clerk of the Peace of the County.

We have the honor to append hereto a table shewing the population of the several counties as appears by the last census, also shewing the number of service militiamen enrolled and the number balloted for in each county, together with the number of candidates for commissions in the Service Militia who have passed through the Schools of Military Instruction and obtained certificates.

We also append hereto a complete list of the several municipalities shewing the total number of Regimental Divisions and the number of Battalions to be organized, together,

with the numbers required to be furnished by each Township, Parish, City, Town, or Incorporated Village as notified to the several officers to be balloted for on the thirtieth day of December, 1864.

(No. 2.)

SCHOOLS OF MILITARY INSTRUCTION.

Schools for the Military Instruction of all candidates for commissions in the Service Militia were opened in Quebec and Toronto, in March last, in connection with regiments of Her Majesty's forces stationed in those cities. The school at Quebec being in connection with the 17th, and that at Toronto with the 16th regiment.

Those schools have each a capacity for conveying instruction at all times to one hundred candidates, the maximum attendance at any one period has therefore been confined to that number; vacancies occurring from time to time are filled from the list of applicants for admission, filed in the office of Adjutant-General.

REGULATIONS.

"All candidates for commissions in the 'Service' Militia, will be required before appointment, to obtain a certificate, as hereinafter mentioned, from one of the commandants of the School of Instruction; and no person shall be appointed or promoted to the rank of Field Officer in the 'Service' Militia who shall not have obtained a 'First Class' certificate.

"A 'First-Class' certificate shall be given to those candidates who shall have proved themselves to the satisfaction of the commandant of the school of instruction, able to drill and handle a *Battalion* in the field, and who shall have acquired a competent acquaintance with the internal economy of a battalion.

"A 'Second Class' certificate shall be given to those candidates who shall have proved themselves able to command a company at battalion drill, and to drill a company at company's drill.

"No certificate of either class shall be given to any candidate who is not himself perfectly drilled as a private soldier.

"No candidate shall be permitted to remain at the school for a longer period than three calendar months from the date of his entry.

"The travelling expenses of all candidates in coming to, and returning to their homes from, the school shall be paid.

"All candidates on obtaining a 'Second Class' certificate, shall be paid the sum of fifty dollars, and on obtaining a 'First Class' certificate, the further sum of fifty dollars in addition.

"All candidates for commissions, while attending the school, shall be considered for all purposes of drill and discipline to be attached to the regiment which shall constitute the School of Instruction; and it shall be competent to the Commander-in-Chief on a representation from the commandant, to dismiss any candidates from the school for misconduct or other sufficient cause.

"Candidates for commissions, while attending the school, shall not be members of the mess of the regiment which constitutes the school."

All candidates who join the school are provided with a suit of uniform clothing, which they are required to wear during attendance thereat, and in the event of obtaining certificates in either class, are permitted to retain the uniform on being discharged from the school.

STAFF.

The staff of each school consists of the Commanding Officer of the Regiment and such number of the commissioned and non-commissioned officers and men as may be necessary to render the course of instruction efficient.

PAY.

The amount of remuneration contributed by the Province is indicated in the accompanying approved scale of Provincial pay, for Regiments employed as a school of Instruction :

<i>Officers.</i>		Rates per diem Sterling.
		s. d.
Commanding Officer.....	8 0
Major.....	5 0
Adjutant.....	6 0
Captains including Paymaster or officers commanding companies, each.....	3 0
Subalterns, including Quartermaster, each	2 0
Surgeon.....	3 0
Assistant Surgeon.....	2 0
<i>Drill Instructors.</i>		
Sergeant-Major.....	2 0
Sergeants.....	1 6
Corporals.....	1 3
Privates.....	1 0
Privates when employed for purposes of the school other than those of Drill Instructor to be allowed for every day so employed.....	0 3

The total number of candidates who have obtained certificates at both schools may be stated as follows :

Place.	First Class.	Second Class.	Number remaining in each school on the 31st December, 1864.
Quebec.....	200	61	92
Toronto.....	52	190	55
Total.....	252	251	147

Immediately after the commencement of the New Year a large accession was made to the number in attendance at the Toronto School, so that now both schools have under instruction the full maximum number of 100 each.

A detailed statement is appended hereto showing the number of candidates contributed by the several counties and it will be understood that all candidates noted as having received first class certificates are also in possession of second class certificates, although not counted in the column appropriated for the second class.

There have been provided from England during the year, for the use of the candidates attending the schools, seven hundred uniforms, consisting of scarlet serge frock, blue serge trousers, and regulation forage caps and school badge; the cost of these uniforms complete were 19 shillings sterling each. For the winter months a supply of fur caps has been procured at an expense of 95c. each, for issue in place of the forage caps.

(No. 3.)

MILITARY INSTRUCTION.

Military Instruction has been introduced and successfully carried on in the Normal Schools, most of the Colleges and in many of the Grammar and minor Schools of the Country, a "continuation of which it is earnestly hoped will be encouraged, as nothing can tend more to frame the future men of the Province, physically and mentally in habits of discipline, than making military acquirements a fundamental portion of the early education of youth; a reasonable amount of training taught when the recipients are young is far less liable to be forgotten than that which is imparted to adults."

In several of the Colleges, and it would be invidious to particularize, where there is so much proficiency in drill, there are organized associations composed of students, which will compare favorably in that respect with the older Corps of Volunteers in the Province.

These students being drawn as they are to a large extent from the more wealthy portion of the whole community, and having imparted to them a superior education, fitting them for employment in the several professions and duties of life, the acquisition of military drill and discipline must have a vast and beneficial effect as regards the future, in the event of any contingency arising which will require an expenditure of the energies of the people in a defence of the Province.

NOTE.—Returns have already been received from the several Sheriffs in Upper Canada certifying to the completion of the Ballot in all the Regimental Divisions. The Battalion Roll received in each instance contains a list of the names of all the Militiamen balloted from the several Municipalities in each Regimental Division, to the extent, with but few exceptions, called for by the Service Militia General Order of 13th December, 1864. The principal exceptions are the Municipalities of the Township of Russell, in the County of Russell, and the Townships of Bertie, Stamford, Crowland and Vainfleet, and Village of Fort Erie, in the County of Welland, which neglected to furnish the necessary Rolls.

(No. 6.)

VOLUNTEER MILITIA.

The nominal strength of the several Volunteer organizations in the Province is fully equal to the number reported in 1863, viz: 25,000. A few corps have become disorganized and have been disbanded, but an increase to the strength of those remaining has tended to make good the loss of those which have been written off. The result of the labors of the year now past has added largely to the experience of the Department, and has enabled the Deputies Adjutant General to form approximate estimates of the strength of the organizations, and of testing the adhesive properties of the force. The Volunteer force may be divided with propriety into two classes, viz: First—City and Town corps; and Second—Rural corps. The City and Town Corps are composed, to a large extent, of clerks, operatives in manufacturing establishments, and persons who, from indoor occupations and sedentary habits, look to the drill of the Volunteer organization as a period of rest from toil, and resort to it for purposes of exercise and relaxation; it is not then a matter of wonder that as regards the Cities and Towns the several volunteer organizations continue to prosper and gain strength. As regards the corps organized in merely rural Districts, the case is different; composed as they are, in most instances exclusively of agriculturists, whose daily occupation affords them the necessary outdoor exercise, the desire to join volunteer corps must emanate from different motives. The places of residence of the members must, from force of circumstances, be wide apart, and in most instances are miles distant from the company headquarters or rendezvous for purposes of drill and instruction; this circumstance, added to the fact of the daily labor incident to their occupation, very soon brings the Volunteer to look upon the company as an incumbrance rather than a benefit. In these Districts the drill must be so regulated as to interfere as little as possible with the Volunteer in the daytime, and necessitates the adoption of evening drill; this, although at first from its novelty, is attractive, yet becomes by and by to be looked upon as tiresome, if, as is frequently the case, the Volunteer has, after a hard day's work, to walk several miles to the place appointed, and then, after drill, to return to his home. The Deputies Adjutant General are firmly of opinion that unless a village is located at some central and convenient part of a thickly populated rural District, it is not possible to sustain and keep together a vigorous Volunteer Company without a very considerable expenditure, in each instance, on the part of the Government. To the objections urged, on behalf of the men, may be added the difficulty in procuring proper armouries, and covered-in places for drill in inclement weather, and the increased expense and unremunerative labor on the part of officers in keeping their respective Companies together, all of which tends to weaken that *esprit de corps* so indispensable to the effective organization and good government of the Company. In all parts of the country the spirit of the people inclines to the system of volunteering in contradistinction to the draft for purposes of military organization, drill and discipline—but the difficulties incident to the carrying out of these volunteer organizations in the rural districts, points to the conclusion that the only feasible and reliable means for conveying military instruction to the great mass of the people in the country parts must be through the organization of the Service Militia, and the adoption of a fixed period of continuous and compulsory drill, coupled with a money payment to both officers and men, proportionate to the period for which they are called out from time to time.

(No. 7.)

RURAL BATTALIONS.

In cities, the organization of the Volunteers into Battalions can be readily and efficiently carried out; but in the country parts, the experiment of uniting isolated companies for purposes of battalion drill has not worked satisfactorily. The distance intervening between the Company Head Quarters and the place appointed for battalion drill ranging, in most instances, from 5 to 10 miles, is found to be an insuperable objection, when taken in connection with the amount awarded by the Government as pay for drill.

Many of the isolated companies comprising country battalions are composed, to a large extent, of men of limited means who, although they willingly perform in close proximity to their homes the annual drill, do not find themselves in a position to incur the expense

necessary to secure their conveyance to and from the battalion parade. In instances where these battalions have been organized and the drill carried on during the past year, in accordance with the regulation of the Department, the incidental expenses incurred in bringing the men to the parade and forwarding them to their homes has, to a large extent, been borne by the officers. This has been found to be a burthen of considerable magnitude, as it forms a direct contribution from their private funds, in addition to their own expenses and gratuitous services rendered as officers. In England, where men of leisure may be found willing to spend large sums of money in addition to the allowance made by the Government in maintaining battalions in the country parts, it is not to be wondered at that proficiency is attained; but in this country, where, to a large extent, the energies of the whole people are directed to the prosecution of their several occupations, the case is different, and without very considerable expenditures from the public chest, battalion organization of Volunteers cannot be maintained in the rural districts.

The number of Volunteers that can be maintained efficient will not, under ordinary circumstances exceed, in cities and towns, and in country parts, only where villages are conveniently located in a thickly populated rural district, about 20 Volunteers to each 1000 inhabitants.

In England the Volunteers are not paid for the number of days of annual drill performed, neither are they provided with clothing at the public expense, but an annual capitation allowance is granted by the Government to corps of Rifle Volunteers of one pound sterling for every Officer and efficient Volunteer. An additional allowance of 10s. stg. is granted for every officer and efficient Volunteer who, in addition to being rated as such, shall have attended three additional drills ordered by the commanding officer, who possesses a competent knowledge of the theory and practice of musketry, and who has fired twenty rounds in the first period, in accordance with the Musketry Regulations for the army; besides which, an annual allowance of 4s. stg. is granted to an administrative regiment for every officer and efficient volunteer of every corps of which the head quarters are at a greater distance than five miles from the head quarters of the regiment, to cover the expense of attendance at united drill.

The expenditure of the allowances of one pound and of the ten shillings respectively, above noted, is to be strictly confined to the following heads:—

Head Quarters	}	Orderly Room.
		Drill Shed or Drill Ground.
		Magazine or Armory.

Care and repair of arms.

Ranges.

Clothing and accoutrements.

Cost of conveyance to and from battalion drill.

Field days or Reviews, and Rifle Practice.

Cost of all supplies received from the War Office, on repayment.

In addition to the above, the Government provides the services of a competent adjutant for each administrative regiment, whose whole time is to be devoted to the discharge of his duties as such. His pay is 10s. stg. per day, with 5s. 3d. stg. to cover allowance in lieu of servant, forage, and lodgings; £4 a year for every company formed, to cover the expenses of carrying on the official correspondence of his commanding officer and himself; also, the actual expenses incurred by him in visiting, periodically, those corps of which the head quarters are at a greater distance than five miles from the head quarters of the administrative regiment.

The adjutant is compelled to give security, and is also acting paymaster, in which capacity he receives and disburses the annual capitation allowances, under direction of the commanding officer; but he is held responsible that the expenditure of the same is strictly confined to the authorized services.

Sergeant instructors are allowed to the several corps, and paid by the public in the following proportion:—

From 1 to 3 companies, 1 sergeant instructor;

“ 4 to 7 “ 2 “ “

“ 8 to 11 “ 3 “ “

The Government also undertakes to supply, on repayment, at cost price, clothing and every other article required for the use of the Volunteers.

(No. 8.)

CITY BATTALIONS.

Practical experience obtained by this Department, as regards the working of battalions of Volunteers in the cities, inclines to the belief that although the expenses imposed upon commanding officers of companies and battalions is not identical with those incurred in the country parts, yet they are of such an onerous nature, when added to the sacrifice of time requisite for the general management of the corps, as well as the care and necessary supervision over the arms, clothing and stores, that some change of system, having in view a certain remuneration to cover the expenses which devolve upon them, seems to be an indispensable requisite to the future well-being of the organizations now in existence.

If it were possible to accept, in the larger cities and towns, the Volunteers now organized, or a sufficient number to make good any contribution required for the organization of the Service Militia in those cities and towns, to whom the same pay and allowances for both officers and men would be granted as will be necessarily incurred in the event of calling out the Service Militia for drill, a class of men would promptly and cheerfully enroll themselves, who would be more desirable, in all respects, than the result of the ballot could possibly afford.

As regards Upper Canada, the plan of allowing each county town to furnish its quota of Service Militiamen in time of peace from volunteers would be desirable, many of these towns have already organized one or more Companies of Infantry from residents within the Municipality, and if it could now be understood that these companies in proportion to the population of the town would be rated as belonging to the County Regiment of Service Militia, a nucleus would at once be formed around which the Militia might rally in time of need, besides from the facility with which the members of the Town Companies could meet together for purposes of drill, and the fact of their forming one or more of the Service Companies, would create an *esprit de corps* calculated to render the organization efficient, and in the meantime be of little expense to the Government.

The action of the Department in matters relating to the instruction, clothing, equipping, &c., of the force now organized will be best shown by alluding under different heads to the various subjects coming within the scope of its administration.

(No. 9.)

DRILL INSTRUCTORS.

The several Non-commissioned Officers of Her Majesty's service who were employed during the past two years, in drilling the Volunteers outside the chief cities, having been withdrawn from duty as Drill Instructors, provision has been made under the following regulations for the performance of this service hereafter by parties residing permanently within the Province.

The arrangement heretofore existing for the supply of instructors from the Regular Army for duty in the Cities of Quebec, Montreal, Kingston and Toronto, at 40 cents per day to be continued as far as the same may be practicable.

Instructors employed for duty outside the above-named Cities shall be paid quarterly at the following rates, according to the number of Companies actually instructed by each instructor.

For the instruction of one Troop or Company.....	\$ 100	per annum.
“ two “	175	“
“ three “	240	“
“ four “	300	“
“ five “	350	“
“ six or more “	400	“

No charge for transport or travelling expenses to be allowed.

The certificate to be required before payment for services of instructor, will be signed by the Officer in Command of each Company, and the instruction will be supervised, and the certificate countersigned by the Brigade Major.

In the employment of instructors for Troops or Companies outside the Cities of Quebec, Montreal, Kingston or Toronto, His Excellency desires that Commissioned Officers of Volunteers, who have passed Examination, and obtained First Class Certificates, shall be employed as instructors for their respective Companies, always upon the understanding that they are willing to assume the responsibility of such instruction, and to perform the duty in a manner satisfactory to the Department.

In instances where such Commissioned Officers of Companies decline to act as instructors for their respective corps, His Excellency has been pleased to direct that a preference shall be given to qualified passed Candidates from the Military Schools, who have obtained First Class Certificates.

Many of the corps of volunteers have officers attached to them who are competent, and who take upon themselves the responsibility, of commanding and drilling their companies, without calling upon the Government for assistance in providing instructors—and it is found in these instances that both officers and men derive advantage, the officer acquires habits of command, and the men confidence in the ability of their officers to command them. The city companies possess great advantages over those in the country, from their proximity to the troops of Her Majesty's service stationed therein, and on account of the assistance which has been so promptly and cheerfully rendered at all times in placing at the disposal of the volunteers the facilities necessary for their efficient instruction. The kindly feeling evinced by Lieut. General Sir W. F. Williams, and by Major General Napier for the success of the Volunteer movement, and the improvement and elevation of the Volunteers in every respect, may be said to animate one and all the Officers Commanding Regiments of Her Majesty's forces stationed in this Province, and entitles them to receive the best thanks of the Volunteers and of this Department.

(No. 10.)

BOARDS OF MILITARY OFFICERS.

Under the provisions of the Act respecting the Volunteer Militia, Boards composed of officers of Her Majesty's Service have been appointed in the several garrison towns for the purpose of testing the proficiency in drill and discipline of the officers, and for the examination of all candidates for commission in the Volunteer Force.

The certificates which the Boards were authorized to give were of two classes :

Class I. For such officers as shall have proved to the Board their ability to handle a battalion at battalion drill.

Class II. For such officers as shall have proved to the board their ability to drill a company at company's drill and to command a company at battalion drill.

The number of officers of Volunteers who have been examined during the year, and who have received certificates in the 1st and 2nd classes respectively is as follows :

Garrison Towns.	1st class.	2nd class.
Quebec.....	19	2
Montreal.....	36	15
Kingston.....	17	3
Toronto.....	14	15
Hamilton.....	7	21
London.....	7	11
Total.....	100	67

Thus far the advantage to the volunteers from these examinations before Boards of Military Officers has resulted in a healthy emulation amongst the officers of the force, in having their several qualifications tested, and at the same time it affords an admirable and reliable means to the Government for registering the merits or aptitude for command of the several officers, to be used whenever a necessity arises for calling upon them for active service.

No. 11.)

DRILL SHEDS.

Drill sheds have been provided during the year at each of the Cities of Quebec, Toronto, Kingston and London; Those at Quebec, Kingston and London, are in size 250 x 80, that at Toronto 380 x 100; these buildings have attached to them armouries, caretakers residences and offices, and are in all respects spacious and convenient for carrying on the drills of the Volunteers residing within these cities—in addition to which the buildings at Quebec and Toronto are used for purposes connected with the Military Schools. The cost of the building at Toronto, has been about \$9,000, of this sum the City Council contributed \$4,000—the other three erected at the cost of the Province will represent an expenditure as follows: for the one at Quebec, about \$6,000, and for those at London and Kingston, about \$5,000 each—as yet, however, the three sheds in the cities of Upper Canada have not been painted, and as it is desirable that this should be done as early in the spring as possible, provision should be made for this service—the estimated cost for painting the outside of these buildings, with mineral paint and white washing them within, may be put down at \$1,600.

(No. 12.)

CARE OF ARMS.

From reports received relating to the state of arms in possession of the Volunteers, we regret to find instances of positive neglect on the part of some of the Officers in Command of Country Companies, in the proper care of the arms placed under their charge, and that in such instances these valuable arms are rapidly deteriorating.

As regards the provision heretofore made for this service, it may be well to state that public armouries are provided within the several chief cities, with officers appointed for the proper care and cleaning of all the arms belonging to the Government in possession of the Volunteers: in those cities, and where the arms are so kept, they are invariably reported in good order and in an efficient state. But as regards the Volunteers in places outside these cities and where public armouries have not been provided, an allowance has been paid to the officer in command of each corps, equal to \$20 per company per annum, for providing an armoury and for the care of the arms in possession of the corps. This sum it is claimed is not an adequate remuneration to the officer for the outlay necessary to pay the rent of an armoury and the cost of the labor necessary to keep the arms in a clean and serviceable condition.

After a careful perusal of the several communications received from the Inspecting Officers and from Officers of Volunteers on this subject, and taking into account the value of these arms, and the considerable amount of labor necessary from time to time for their proper cleaning and preservation, the increase of the allowance for this service to \$40 per company per annum is respectfully recommended for consideration. In addition to which it would greatly tend to the efficiency of the service, if an armourer-sergeant were employed, whose duty it would be to visit the Head-quarters of every corps at least once a year, to examine locks, supply deficient stoppers, snap-caps, pins, swivels, &c., at the expense of the Volunteers, and at the same time give instruction for the proper care and cleaning of the arms.

(No. 13.)

TARGETS.

A complete set of iron targets, together with every requisite necessary for musketry instruction, were sometime ago provided and forwarded to each of the cities of Quebec, Montreal, Ottawa, Kingston, Toronto, Hamilton and London, and the volunteers in those cities having at considerable expense to themselves, provided suitable ranges, has resulted in the organization and carrying out in those cities the more extensive rifle matches of the year, a noticeable feature in which has been that while the cost of the prizes has been raised in each instance mostly by local subscription, the competition for most of them has been generously thrown open to the volunteers from every part of the country.

A portion of the targets placed at the disposal of the department for the current year, have been distributed amongst several of the county towns, with a view to aid the

formation of county ranges, whereat the local corps may have an opportunity for practice; and thus, while they become proficient as individual volunteers, be placed in a position to compete at the great matches, with the heretofore more highly favored marksmen residing in the cities. The undermentioned towns have been supplied with targets as follows, viz.: Sherbrooke, 3; St. John's, C. E., 3; Ste. Catherine's, 3; Picton, 3; Belleville, 3; Cobourg, 3; Goderich, 3; Brantford, 3; Simcoe, 2; and Chatham, 2. The remaining 12 have been apportioned: to Montreal, 6; Quebec, 3; and Toronto 3, with a view to replacing the targets which had become unserviceable from use, and in making additions to the number heretofore furnished for the use of the volunteers in those cities.

Although the number of targets provided has not proved enough to furnish all the county volunteers with the means of perfecting themselves in the use of the rifle as marksmen at the different ranges, the benefit which has resulted from the distribution during the present year, points to the conclusion that the Legislature might with propriety provide the necessary means to enable a similar distribution next year to those towns where the volunteers are willing to take upon themselves the responsibility of providing the necessary ranges.

The targets already obtained have been procured from the Imperial Government on repayment of their cost in England, say £3 6s. 6d. sterling each, and a charge of 15 per cent. on delivery in this country to cover freight, departmental expenses, &c. The cost to the Province, therefore, for each iron target 2 ft. by 6 ft., complete, is \$18.63; and for the necessary number of flags (5) to be used by the markers at the butts, is \$3.84.

(No. 14.)

CLOTHING.

Prior to the year 1862, there were two classes of volunteers permitted to be organized, and were designated as A and B, those in class A not exceeding in number 10,000, provided their own uniforms, and were paid by the Government for a specified number of days' drill; those in class B provided their own uniform, but received no pay for the days' drill performed. In 1862 a further increase was permitted to the number of corps of volunteers then in existence, and for which increased number uniform clothing was provided at the expense of the Province. With a view to do away with the classes and place the whole force as nearly as possible on a footing of equality, the Government authorized a payment of a sum equal to six dollars for each man uniformed at their own expense, to continue for the years 1862 and 1863, and to be considered as a reimbursement to the volunteers for the value of the uniforms then in their possession, after which these uniforms were declared to be the property of the Government. Under the law now in force, no provision is made for the payment to the volunteers of any allowance in lieu of clothing, but they are to be paid for sixteen days' drill to be performed under certain regulations.

Many of the original corps of volunteers, whose clothing had become unserviceable, were supplied with new uniforms. These corps, added to those organized in 1863, under the new regulations, comprise more than three-fourths of the total authorized number of volunteers, and now an additional number of corps, whose clothing has remained serviceable until the present time, are applicants for an issue of new outfits from the Government stores; there are, however, a few corps throughout the country desirous of being placed, for a number of reasons, in a position to procure, at their own expense, renewals of such portions of their uniform from time to time as may become necessary. The question of the supply of uniforms for the volunteers is surrounded with so many difficulties, that it is almost impossible to lay down any precise rule which points to the placing of every corps on a footing of equality in this respect.

In a mixed population, where considerable numbers of the volunteers periodically change their places of abode, as is the case in this Province, commanding officers are called upon to renew, from time to time, certain portions of the uniform belonging to their corps, to provide for the admission of recruits, rendered necessary by the withdrawal of members, who either desire to retire from the corps, or are compelled, in order to carry on their ordinary avocations, to remove to some other portion of the country.

It will thus be seen that in instances where corps have supplied themselves with

clothing, differing in appearance from that now in the Government stores, the issue by the Militia Department of portions of outfits would materially interfere with the uniform appearance of the corps on parade—and as many of these corps have now in possession considerable quantities of clothing, which would continue to be serviceable for some time to come, the policy of an allowance in lieu of clothing to these corps under certain restriction, is not only expedient, but would carry with it economy in the expenditure of the public money.

The Deputies Adjutant General having had under consideration the question as applicable to those corps which have in possession clothing originally purchased at their own expense, and are now desirous to procure in like manner such portions of the uniform as may become unserviceable, or such portion as may need replacing, from time to time, to keep their clothing efficient in this respect, respectfully recommend the payment to those corps of a sum of money each year, as an allowance in lieu of clothing, for the purpose stated. The payment of the sum of \$3 per annum, for each volunteer declared efficient at the annual inspection, would, in the opinion of the deputies, be sufficient, the whole sum payable to a corps each year to form a special fund, and to be placed in the hand of the officer in command for expenditure by him, in procuring new uniforms or in replacing such portions of those in hand as may have become unserviceable.

(No. 15.)

VOLUNTEER MILITIA ON ACTIVE SERVICE.

The occasion for the first practical test which the volunteers of Canada have been subjected to has arisen during the present year, when, on the 19th December, the following general order was ordered to be made public :—

“His Excellency the Commander-in-Chief is pleased to state that he has given orders to call out for active service, under the provisions of ‘The Volunteer Militia Act,’ a part of the Volunteer Militia of this Province, and that the same will consist of thirty companies of Rifles or Infantry to be hereafter named.

“His Excellency desires that all officers commanding battalions, and officers commanding companies (not in battalion) will forthwith increase the strength of their several companies of Rifles or Infantry to sixty-five non-commissioned officers and men, and will themselves in readiness for immediate actual service, when His Excellency may see fit to call out the same or any part thereof.”

Immediately after the publication of which general order, the offers of service from the several corps were so numerous, that the question as to where the Volunteers were to come from was at once superseded by the difficulty as to which of the corps should be selected. On the 21st December, the thirty companies having been chosen, the Commanding Officers were notified to make up their respective companies immediately to sixty-five non-commissioned officers and men, and report themselves for active service. It is almost needless to state that this order was complied with, with the greatest alacrity, so that within five days the whole number were reported ready, waiting further orders.

With a view to further efficiency and effectiveness, the thirty companies were, under Your Excellency's direction, formed into three administrative battalions, composed of ten companies each, as follows :—

First (or Western) Administrative Battalion.

HEAD-QUARTERS, WINDSOR.

One Company, from 3rd Battalion Volunteer Militia Rifles, Montreal, Captain W. T. McGrath.

“ York Rifles, Captain Davis.

“ Brockville Rifles, Major Crawford.

“ from 8th Battalion Volunteer Militia Rifles, Quebec, Captain Alleyne.

“ Brantford Rifles, Grant Grant.

“ Belleville Rifles, Major Lavesconte.

“ from 1st or “Prince of Wales” Battalion Volunteer Militia Rifles, Montreal, Captain Frank Bond.

One company, from 20th Battalion Volunteer Militia Infantry, St. Catharines, Captain W. Hamilton.
 " from 5th Battalion (Royal) Light Infantry, Montreal, Captain Walter Scott.
 The Dunnville Rifle Company, Major Amsden.
 To be Lieutenant-Colonel:
 Lieutenant-Colonel Osborne Smith, Commanding Victoria Rifles, Montreal.

Second (or Centre) Administrative Battalion.

HEAD-QUARTERS, NIAGARA.

One Company from 2nd Battalion Volunteer Militia Rifles, Toronto, Lieutenant John Brown.
 " from do Captain Chas. Gilmor.
 " from 14th Battalion Volunteer Militia Rifles, Kingston, Major Kelly.
 " Collingwood Rifles, Lieutenant-Colonel Stephen.
 The Simcoe Rifle Company, Captain Tisdale.
 The Barrie Rifle Company, Captain McKenzie.
 The Whitby Rifle Company, Major Wallace.
 The Scarborough Rifle Company, Captain Norris.
 The Lacolle Infantry Company, Captain Douglass.
 The Hemmingford Infantry Company, Captain McNaughton.
 To be Lieutenant-Colonel:
 Lieutenant-Colonel William Smith Durie, commanding 2nd Battalion or "Queen's Own" Rifles, Toronto.

Third (or Eastern) Administrative Battalion.

HEAD-QUARTERS, LAPRAIRIE.

One Company, Woodstock Rifles, Major Richardson.
 " Beachville Rifles, Captain Greig.
 " from 5th Battalion Volunteer Militia Rifles, Quebec, Lieutenant A. Jackson.
 " from 9th Battalion Volunteer Militia Rifles, Quebec, Captain Gingras.
 " 1st Cornwall Rifles, Captain Bergen.
 " from Montreal Light Infantry, Captain James W. Taylor.
 " from "Chasseurs Canadiens," Montreal, Captain Ludger Labelle.
 " from Hochelaga Light Infantry, Montreal, Captain Robert Wall.
 The Megantic Rifle Company, Major Barwis.
 One company from Richelieu Light Infantry, St. Johns, Captain René Horace Porlier.
 To be Lieutenant-Colonel:
 Lieutenant-Colonel John B. Taylor, Commanding Battalion Oxford Rifles.

In connection with the order calling out the above companies, and their formation into three Administrative Battalions, we take the liberty of appending the words addressed by Your Excellency to the officers and men on that occasion:

"In calling out for actual service this portion of the volunteer force, the Commander-in-Chief desires to express the gratification he has experienced at the numerous offers of service he has received from volunteer companies all through the Province, as soon as it became known that men were required for permanent duty.

"The Commander-in-Chief desires to impress upon the officers, non-commissioned officers and men of the force called out for duty, that they are embodied not for the purpose of warfare, but with the object of aiding the civil power in its efforts to prevent aggression on the territories of a friendly State, on the part of persons enjoying the right of asylum in Her Majesty's dominions, and to maintain, as regards Canada, that complete neutrality with respect to the war now existing in the United States, which Her Majesty has enjoined on all Her subjects.

"With these objects in view, it will be the duty of all officers commanding detachments on the frontier, to take special care that the territorial rights of the government of

the United States shall be carefully respected, and that no infringement by the men under their command shall, under any circumstances, take place of such regulations for the security of their borders as may be made from time to time by that government.

"It will be the duty of officers, should suspicious circumstances be brought under their observation, immediately to report any such to the civil authorities and to place themselves under their guidance."

Upon an examination of the list of companies composing these administrative battalions, it will be found that volunteers from all parts of the country are represented, and that the companies have been moved to places remote from their homes to the end that they may be made soldiers in fact, as they have been heretofore citizen-soldiers in name.

Under the Act 27 Vic., cap. 3, the volunteer force and every officer or man belonging to it, is subject to the Queen's regulations and orders for the army, and from the time of being called out for actual service, is subject to the rules and articles of war, and to the Act for punishing mutiny and desertion, and all other laws then applicable to Her Majesty's troops in this Province, not inconsistent with the Provincial Act.

It will thus be seen that after selecting the companies, providing the necessary barrack accommodation, and moving the volunteers to their several head-quarters, it only remained to place them under the military authorities to make them soldiers in fact. This latter order Your Excellency was pleased to give in the following words:—

"His Excellency the Governor General and Commander-in-Chief is pleased to place the first, second and third Administrative Battalions of Volunteers now on actual service, under command of His Excellency Lieutenant-General Sir W. F. Williams, Baronet, K.C.B., Commanding Her Majesty's Forces in British North America.

"Officers commanding the several battalions will therefore receive their orders from the Lieutenant-General commanding, and will report direct to such officer as the Lieutenant-General shall appoint.

"All requisitions and returns of the paymasters of the several battalions will be made directly to the Adjutant-General of Militia."

The organization of this force for permanent duty has entailed upon this Department the framing of rules, regulations and returns, relating to the equipment, quarters, pay and sustenance of, as well as the medical attendance upon the several corps. As regards equipment—with the exception of what is known in the Imperial army as the "kit" (less the knapsack)—the volunteers have been placed upon an equality with the regular soldiers of the line; and it may not be out of place to state here, that their prompt obedience of orders and soldierly bearing during their organization and removal to their several battalion head-quarters, points to the conclusion that in the event of trouble arising, these volunteer battalions will be fully able to maintain an honorable place alongside any of the regiments of Her Majesty's service now stationed in this Province.

With reference to the pay, allowances, rations and provisions for fuel, light and transport, the Deputies Adjutant General are of opinion that no better means of describing the action taken by the department for the comfort of the Volunteers and to secure an economical administration on the part of the several officers concerned, can be adopted than to publish herewith the following code of instructions, which has been adopted relating to the several items enumerated above:—

PAY.

The daily rate of pay and allowances for officers and men, is as follows, viz :—

RANK.	PAY.		ALLOWANCE.	
	Rate per day.		Daily rate in lieu of all allowances.	
	\$	cts.	\$	cts.
Lt.-Colonel	4	87	1	00
Major	3	90	1	00
Paymaster	3	05	0	90
Adjutant with rank of Lieutenant	2	44	0	90
Do. with rank of Ensign	2	13	0	90
Captain	2	82	0	76
Lieutenant	1	58	0	72
Ensign	1	28	0	69
Pay Sergeant	0	80	0	55
Sergeants	0	70	0	55
Corporals	0	60	0	50
Buglers	0	50	0	50
Privates	0	50	0	50

1. The Form A. will be sent every fortnight to the Militia Department for such advances as may be required for the pay and allowances of the corps, and the paymaster will, on receiving the cheque, return the receipt, at the bottom of the said form, duly signed by himself. The paymaster's attention is particularly drawn to the estimate on the back of the Form A, which is required to be filled up and duly completed when the demand for an advance is sent to the Department.

2. The monthly pay-list for officers (Form B.) will be completed by the paymaster as soon as possible after the last day of the month, and sent to the Department without any delay, duly receipted by all concerned. No extra pay can be allowed to any officer for brevet rank.

3. The monthly pay-list of each company (Form C.) will be made up by the officer in command of the company immediately after the expiration of the month, and will be transmitted to the paymaster, duly receipted by the whole of the non-commissioned officers and men of the company. The paymaster will examine and certify it, and obtain the signature of the commanding officer of the regiment, and then forward it to the Department in support of his accounts. 1 pay-sergeant, 3 sergeants, and 4 corporals will be allowed for each company.

4. A sufficient sum will be advanced weekly by the paymaster to each officer in command of a company for the pay of the non-commissioned officers and men of his company, and to be afterwards accounted for in the monthly pay-list—Form C. The men will receive their pay twice a week, viz: on Mondays and Thursdays, and the captains must keep a regular account current of such payments, the same as in the Queen's service, so as to be able to compile the monthly pay-list without any difficulty at the end of the month. The pay will commence from the day of attestation inclusive.

5. The account current (Form D.) will be completed by the paymaster at the end of the month and immediately sent to Head-quarters, to enable the Department to check and compare it with the advances made to the paymaster during the month in question.

ALLOWANCES.

6. The paymaster will be held personally responsible that the non-commissioned officers and men for whom "allowances" are charged in the pay-list *were not and could not* be provided with barracks, rations, or any other government allowances during the period for which "allowances" are charged in the pay-list.

7. The rate of "allowances" will be drawn for the whole of the officers, but *not* for

the non-commissioned officers and men, whose rations, as follows, will be supplied by contract, and paid for by the Government. When small detachments, however, are sent on *special service* from Head-quarters, or stationed at a place where no contracts can be effected, the rate of "allowances" will then be charged in the pay list for men as well as officers.

RATIONS.

8. The ration of a volunteer shall consist of:—

Bread, one pound;	} Per man per day.
Fresh meat, one pound;	
Butter, two ounces;	
Coffee, one third of an ounce;	
Tea, one sixth of an ounce;	
Surgar, two ounces;	
Rice, two ounces;	
Milk, one pint;	
Potatoes, two pounds;	

And the contractor for groceries, will be allowed to charge 2 cents per man per diem for supplying barley, salt, pepper, and a sufficiency of vegetables (to the satisfaction of the commanding officer) for making soup.

9. The Ration Return (Form E.) will be made by the officer commanding, every three days, and will embrace every non-commissioned officer and man actually effective at the station.

10. If practicable there should not be more than four contractors employed, viz:

One for bread;

One for fresh meat;

One for fuel and light; and

One for groceries and all other articles above enumerated. This method will materially tend to simplify the accounts, both of the volunteer officers and the Department; and will no doubt be more convenient to the volunteers. It will be observed that the Ration Return will answer for the whole or any part of the rations required.

11. The rations must be of the very best quality, and must be examined by the "orderly officer" every morning, who will report to the commanding officer if the same or any part be not according to contract, and the commanding officer will forthwith appoint a board who will have power to condemn all or any part of them if found not according to contract, and a similar quantity in their stead will be purchased at the expense of the contractor: paymasters are strictly enjoined in making the contracts, to take care that they are drawn up with a proviso to this effect.

FUEL.

12. An allowance of *cut wood* will be issued as follows, viz:—

For each stove actually and necessarily used in barrack rooms, 5 rations or inches per day;

For each stove actually and necessarily used in guard rooms, 7 rations or inches per day;

Fuel for cooking purposes will be issued in such quantities as may be found absolutely necessary by the commanding officer on the spot.

N.B.—96 rations or inches of fuel are equal to one cord of wood.

LIGHT.

13. One coal oil lamp will be allowed for every ten men, with such an allowance of coal oil and wick as may be absolutely necessary for the volunteers only. The allowance of oil must be left to the personal supervision of the commanding officer, who is hereby enjoined to take care that it is used only for the non-commissioned officers and men, and in such quantities as may be absolutely necessary. One coal oil lamp will also be allowed for each guard room.

The expense of the first supply of coal oil lamps will be charged to the Government, but all subsequent charges must be borne by the volunteers.

14. The contractors will be paid at the end of each month by the Department, on duplicate bills being forwarded for the articles supplied (vide Form F). The quantity of each article being set forth in one line. This Form must be signed by the paymaster and the commanding officer at the post, whose particular attention is drawn to the *wording* of the certificate required.

TRANSPORT.

15. Requisitions for the transport (Form G) of officers, non-commissioned officers and men of the Volunteers or Militia, or of the Provincial Stores, must (except under the following circumstances) originate with the proper officer at Head-quarters.

16. When any number of officers or men are required to be moved from one part of the country where they are then on duty to another part of the country for service, the officer in command at the station from whence the transport is required, may (upon receipt of an order from competent authority rendering immediate action necessary) sign the requisition for transport, in which event he will, without delay, notify the Department at Head-quarters.

17. No requisition is to be granted to any individual for the conveyance of himself, except when actually and *bonâ fide* proceeding on military duty, and then only upon the order being produced, to show that he is entitled to conveyance at the public expense, either for himself or for what he may require to take with him.

18. Officers proceeding on or returning from leave of absence, are not entitled to requisition for conveyance at the public expense.

MISCELLANEOUS.

19. In the event of a volunteer being confined in any local prison for a local offence, no charge will be included for either pay or allowances during the period of such confinement.

20. When a volunteer is in hospital or under charge of a local medical practitioner, his pay and allowance will be charged for in the pay-list, in the ordinary way: the pay will be issued to himself in the usual manner, and the "allowances" will be handed over to the hospital authorities for his subsistence and medical comforts, excepting medicines, which will be furnished by the medical officer and charged to the Government in a separate account.

21. In the event of a volunteer losing or damaging any of the Government property with which he is intrusted, a report thereof should immediately be made to the department by his commanding officer, with a view to the value of the said property being deducted from his pay in the next monthly pay-list.

22. No expense of any kind is to be incurred without special authority from Head-quarters, and any officer authorizing an expenditure on account of the Government, for which no provision is made, will be held personally responsible for the payment.

MEDICAL ATTENDANCE.

23. With reference to the 20th section of the above code of instructions His Excellency the Commander-in-Chief has been pleased to approve of the following monthly scale of remuneration being allowed to local medical practitioners, for medicines and professional attendance on the volunteer force now employed on actual service, viz:—

20 cents per officer and man per *calendar* month, when the volunteer troops at the station do not exceed one company of 65 men.

16 cents per officer and man per *calendar* month, when the volunteer troops at the station do not exceed two companies, say 130 men.

12 cents per officer and man per *calendar* month, for any number over two companies, up to ten companies inclusive.

All claims for this service must be rendered to this department, in duplicate, by the medical practitioner, at the end of the month, upon the Form H, duly certified by the commanding officer at the station.

24. The following amount of fuel will be issued for any building appropriated for hospital purposes, viz:—

5 Rations or inches per day for each stove or fire place in each ward actually

occupied by sick : and the commanding officer at the post will authorize the issue of the necessary quantities of light for wards, and fuel and light for cooking purposes in temporary hospitals, from time to time, according to circumstances, on the requisition of the local medical practitioner.

All ration returns for the above services must be certified by the local medical officer.

25. It is to be distinctly understood that volunteers under medical treatment are *not* to be included for rations in the ration return. The local medical practitioner and commanding officer at the station will make such arrangements as they may deem best for providing and preparing the necessary diet of such volunteers; the daily rate of "allowances" being drawn for this purpose by the hospital authorities for the volunteers while under medical treatment.

26. Contracts for supplying the authorized rations of provisions, fuel and light to the volunteers, will be entered into by the paymasters, for periods not exceeding the first day of May next, but no contract will be binding on either party until it has been approved of at Head-quarters.

27. Sufficient sureties, in proportion to the extent of the contract, will be required from the contractor for its faithful performance. All contracts must include the proviso mentioned in section 11.

(No. 16.)

PRIZES.

The following list will show the names of the companies in the several districts amongst whom the sum of two thousand dollars, awarded for prizes for efficiency last year, was distributed; based upon the reports of the officers of Her Majesty's service, after the completion of the inspection by them at the beginning of 1864.

CITY OF MONTREAL.

1st Prize—No. 1 Company, 3rd Battalion, or Victoria Rifles, Captain _____...	\$100
2nd " —Field Battery of Artillery, Major Stevenson	80
	\$180

DISTRICT OF MONTREAL.

1st Prize—Infantry Company, Beauharnois, Captain Martin.....	\$100
2nd " —No. 5 Company, 12th Batt. Rifles, Terrebonne, Captain Auger	80
3rd " —2nd Infantry Company, Waterloo, Captain Reynolds.....	70
4th " —No. 1 Company, 21st Batt. Infantry, Lacolle, Captain Douglas	50
	\$300

DISTRICT OF QUEBEC.

1st Prize—No. 4 Company, 8th Batt. Stadacona Rifles, Captain Gibsons	\$100
2nd " —Field Battery of Artillery, Major Lamontagne.....	80
3rd " —Infantry Company, Fraserville, Captain Fraser	70
4th " —Infantry Company, Rimouski, Captain Michaud	50
	\$300

KINGSTON DISTRICT.

1st Prize—Volunteer Rifle Company, Brockville, Major Crawford.....	\$100
2nd " —1st Company, 23rd Battalion Infantry, Brockville, Captain Buell.....	80
3rd " —Volunteer Rifle Company, Belleville, Capt. Levesconte.....	70
4th " —Volunteer Rifle Company, Prescott, Lieut.-Col. Jessup.....	50
	\$300

TORONTO DISTRICT.

1st Prize—9th Company, 2nd Battalion (Queen's Own) Rifles, Toronto, Captain Croft	\$100

3rd “ —Volunteer Infantry Company, Amherstburg, Capt. Wilkinson.....	70
4th “ —Volunteer Rifle Company, Southampton, Capt. Sproat	50
	\$300

(No. 17.)

ANNUAL DRILL.

Under the provision of section 4 of the Volunteer Militia Law, and under the direction of Your Excellency, the several corps of Volunteers in the Province were ordered, on the 31st August, to complete the course of sixteen days annual drill, authorized to be paid for, in respect of which the following regulations were adopted.

An efficient Volunteer Battalion shall consist of at least six efficient companies, except in the case of such Provisional Battalions as may be sanctioned by His Excellency the Commander-in-Chief, and which may consist of four companies. A Squadron of Cavalry consisting of two troops, or a Battery of Field Artillery will be allowed to count as a Battalion.

An efficient Volunteer Corps shall be taken to mean a Company, the whole of whose members, unless prevented by illness or other reasonable or unavoidable cause, which shall be specially certified by the officer commanding the Company or Battalion, shall have complied with the requirements in respect to attendance at drill and target practice hereinafter laid down, and which shall, except for cause certified as above, parade its full actual strength at inspection, and shall at such inspection perform the exercises hereinafter appointed *under the command of its own officers*, to the satisfaction of the Inspecting Officer, and whose clothing, arms, accoutrements and equipments shall be reported to be in proper condition.

No pay will be allowed to any individual Volunteer whose Company is not efficient.

DRILL.

Each Volunteer for whom payment is demanded shall have attended since the 1st day of April, 1864, at least sixteen days' drill. Each day's drill to consist of 2 drills of 1½ hour each, or, if found more convenient to the men, a drill of 1½ hour will be allowed to count for a half a day's drill, at which drills not less than one-half the actual strength and at least one Commissioned Officer of the Company shall have attended.

When a Brigade Field day shall have been ordered it shall be allowed to count as two drills of 1½ hour each for all non-commissioned officers and privates attending; provided that not less than one-half the strength of the Battalion or Company shall attend.

Not more than two Brigade Field days shall be allowed to count for each non-commissioned officer or man during the year.

Each non-commissioned officer and man who performs the course of target practice hereinafter appointed shall be allowed to count such target practice as four drills of 1½ hour each.

In future, the year for the purposes of militia drill and pay shall commence on July 1st, in each year.

The course of drill in which each arm of the service must, in order to qualify at the inspection, display a satisfactory amount of proficiency, will be as follows:—

FOR ARTILLERY.

Squad and Company drill, including the manual and platoon exercise and gun drill, in cases where artillery corps are supplied with guns.

FOR CAVALRY.

Cavalry sword exercise, and mounted and dismounted troop and squadron drill, as laid down in the cavalry regulations.

FOR INFANTRY AND RIFLES.

Squad and company drill, with the exception of marching in slow time, including the manual and platoon exercise, skirmishing as a company, and simple manœuvres in battalion drill, as laid down in the "Field Exercises of Infantry."

TARGET PRACTICE.

In cases where ranges are provided, all Battalions and Companies of Volunteer Militia shall, in accordance with the General Order of October the 2nd, 1863, have expended 30 rounds per man of ball ammunition, and the officers commanding such battalions or companies shall keep careful and accurate returns of all target practice, in accordance with forms which will be provided from the office of the Adjutant General of Militia.

HORSES.

Pay will be allowed for 16 days' drill of 3 hours each, or for 32 drills of 1½ hour each, for the horses of the non-commissioned officers and men and guns of the Field Batteries of Artillery, and for the horses of the non-commissioned officers and men of the Troops of Cavalry, provided that at least one-half the strength of the Field Battery or Troop of Cavalry, and at least one commissioned officer shall attend each such drill.

Brigade Field days, when ordered to the extent of two for each year, will be allowed to count as two drills of 1½ hour each.

The pay for horses will be allowed at the rate of seventy-five cents per horse for each drill of three hours, for the number of horses actually and necessarily present at each such drill, not exceeding forty-five for each Field Battery of Artillery, and the number of horses actually and necessary present at each such drill for each Troop of Cavalry.

Any sum of money which His Excellency may order to be paid over to the commanding officer of a Volunteer Battalion deemed efficient, under the 16th section of the Volunteer Militia Law, will be so paid over after the annual inspection by officers of Her Majesty's service.

A careful compliance with the provisions of the preceding paragraphs is required, as furnishing proof or evidence of an "efficient Volunteer Battalion," upon which His Excellency may decide as to the appropriation of any money, under the sixteenth section of the Volunteer Militia Law.

(No. 18.)

INSPECTIONS.

The following officers of Her Majesty's Service have been appointed to make the annual inspection of the Volunteer Force under the provisions of the 25th section of the Volunteer Militia Act, and the General Order of the 31st August last.

Quebec District.—Lt.-Col. Boothby, Royal Artillery.

For the City of Montreal.—Brevt. Lt.-Col. Ward, 60th Rifles, Actg. Asst. Adjt. General.

For the Montreal District.—Lt.-Col. Pilon, Royal Artillery.

Kingston District.—Lt.-Col. Robinson, Royal Artillery.

For the Toronto District.—Colonel Mountain, Royal Artillery.

For the Hamilton District.—Col. Lowry, 47th Regt.

For the London District.—Lt.-Col. Hoste, Royal Artillery.

The inspection of those corps, the members of which have completed the annual drill under the provisions of the General Order for the current year, commenced during the latter part of November, and is as yet not completed.

LOWER CANADA.

Inspected by Lieutenant Colonel BOOTHBY, Royal Artillery.

PLACE.	Commanding Officer.	Number of arms and accoutrements.	Suits of uniforms in possession.	Present on parade at inspection.			REMARKS.
				Officers.	N. C. Officers.	Men.	
Quebec	Major Lamontagne	70	2	4	69	Report very good.	
do	Bowen	210	155	6	12	218	Drilled fairly except 2nd Battery.
do	Captain Scott	56	2	2	43		Drilled fairly.
do	Major Burstall	355	133	19	15	236	Drilled steadily and well.
do	Captain Gingras	55	55	2	3	43	do do
do	Thomson	55	1	3	45		Drilled well, smart and soldier-like.
do	Langevin	41	41	2	2	36	Drilled steadily and well.
do	Dugal	55	55	1	1	24	Drilled very imperfectly.

With reference to the foregoing abstract relating to inspections the Deputies Adjutant General have the honor to make the following observations

From an examination of the reports received from the Inspecting Officers up to this date, embracing however only a portion of the force, we are of opinion that the number in attendance at the annual inspection for the current year will not differ much from the result of 1863.

As a general rule it has heretofore been found that not more than two-thirds of the nominal strength of the volunteer force were reported as present at the annual inspection, for the year 1864, however, it was hoped a larger number would have attended, in consequence of the pay for drill being based not only upon a compliance with the provisions of the General Order as to the particular manner in which the drill and target practice was to be performed, but upon the understanding that each company for whom payment is demanded should parade its full actual strength at inspection, illness of any of its members or other reasonable or unavoidable cause excepted, to be certified by the officer commanding.

Many of the men do not yet seem to understand fully the importance of being present at inspection. Under the old regulations each volunteer who performed the full number of days of annual drill was paid, even although he was not present at the annual inspection; this year however the case is different, as only the number of men who have performed the sixteen days' drill and are properly accounted for at the annual inspection will be paid.

A considerable number of the pay rolls for companies already inspected have been received and are now undergoing examination; many of the captains present claims for pay for a larger number of men than were present at inspection, without accounting for absences; in cases of this kind, pay has been forwarded for the number only who are certified as having performed the sixteen days' drill, not exceeding the number reported as present at the inspection.

In addition to the annual inspection by officers of Her Majesty's service, a quarterly inspection is made by the Brigade Majors in the several districts of all the arms, accoutrements, clothing, &c., in possession of the volunteers.

A monthly and quarterly report as to the strength of each corps, the number of drills had, and the number of members in attendance at each drill is exacted, these reports as a general rule are promptly forwarded by the several officers to Head-quarters, and but for their great number and the space required, an abstract would have been embodied herein. The drill of many of the companies is well kept up, and considering the nature of the service, the Government property is on the whole fairly cared for; a want has heretofore been felt by officers in not being able to procure snap caps, muzzle stoppers and jags to replace those which are lost from time to time, this difficulty has now been overcome by procuring a quantity of these articles for sale to all officers at a charge of three cents for each article, upon the usual deposit receipt being forwarded.

(No. 19.)

REVIEWS.

The reviews during the past year have been fewer than those of the preceding one, and have been confined to Upper Canada alone, in which only two have taken place that deserve notice. The first of these occurred at Niagara, on the 17th of June, at which there was assembled an aggregate strength of volunteers numbering 2,676 officers and men of all arms. These were brigaded with Her Majesty's regular troops from the garrison at Hamilton, the reviewing officer being Major General Napier. After marching past the General in the usual manner, the Volunteer force bore their part in the various evolutions of a brigade field day to the satisfaction of the General Commanding, who expressed his gratification at their being able to do so in a manner quite creditable to themselves. A large concourse of spectators, estimated at from 12,000 to 14,000 persons, witnessed the operations of the day, which derived greater interest from the fact that the site on which they were performed was a portion of the battle-ground of Lundy's Lane—an historic place in Canadian annals.

The next review took place at London, on the 6th September, and at this the aggregate strength of the Volunteers assembled was 1,724 officers and men of all arms.

These being brigaded with Her Majesty's troops in garrison at London, were reviewed by Colonel Lowrie, 47th Regiment. The Volunteers, in conjunction with the Regulars, were put through the various manœuvres usual on such occasions, and the report as to the satisfactory manner in which they performed their part was gratifying to all concerned. Many of the companies from the rural parts had average distances of twenty-five miles to travel before reaching the nearest railway stations, and as the expense of this was borne by themselves, as also the loss of two days' time, it speaks well for their zeal and desire to benefit by that knowledge which the assemblage of large bodies of troops can alone afford.

(No. 20.)

RIFLE MATCHES

These during the past year have been numerous in both sections of the Province, and the large number of skilled marksmen from all parts of it who attended therat, and the increased proficiency which they evinced in the use of the rifle, are gratifying proofs that the practical and skilful use of the most formidable weapon of modern times is steadily gaining ground. While the large voluntary contributions made for the purpose of encouraging excellence and stimulating our youth to emulate the famed marksmen of the Mother Country, proves beyond a doubt that here, as well as there, rifle practice is fast becoming an acknowledged institution.

In Lower Canada, Rifle Matches have taken place in the following localities, the detailed returns of each will be found in the appendix in order as underneath:—

1 Danville.....	24th May.....	Amount expended.....	\$ 43 75
2 Durham.....	30th June.....	do.....	226 50
3 Montreal.....	30th July.....	do.....	75 00
4 Quebec.....	7th August.....	do.....	100 00
5 do.....	13th do.....	do.....	96 00
6 do.....	30th do.....	do.....	900 00
7 Waterloo.....	27th September.....	do.....	689 00
8 Terrebonne.....	12th October.....	do.....	90 00
9 Lachute.....	20th do.....	do.....	55 00

The total of the above gives an aggregate sum of \$2,275 25 subscribed by the Volunteers themselves, or collected from those who desire to see them excel in the use of the rifle and obtain a thoroughly practical knowledge of those arms of precision, which, in the event of war, must play so important a part in our defence. The prizes into which the above amount was distributed were competed for by 1843 competitors, who came from all parts of the Province for this purpose. It must also be borne in mind that the money expended in prizes and expenses is but a small portion of the tax required in getting up these matches and conducting them to a satisfactory and successful issue. The various committees who have devoted so much time and labor with this end in view, deserve therefore both thanks and praise.

In Upper Canada, Rifle Matches have been somewhat more numerous. The large aggregate sum of \$5,722.50, having been raised by voluntary contributions, and distributed in prizes to successful competitors, of whom a total of 3904 assembled at the different "locales" to compete for them. Many of the marksmen who now attend these meetings from various parts of the Province, are attaining quite a provincial celebrity as good shots, and it may be confidently expected that at no very distant day some of them may give honorable proof of Canadian skill at the great annual gathering at Wimbledon. The Appendix furnishes detailed returns of each of the above matches in the following order

1 Port Dalhousie.....	20th May.....	Amount expended.....	\$ 35 00
2 Carleton Place.....	24th do.....	do.....	31 00
3 Lyn.....	do.....	do.....	78 00
4 Niagara.....	10th June.....	do.....	85 00
5 Toronto.....	21st do.....	do.....	1423 00
6 Port Hope.....	22nd do.....	do.....	24 00
7 Cornwall.....	5th July.....	do.....	723 00
8 Alexandria.....	20th do.....	do.....	57 00

9 Ottawa.....	8th August	Amount expended.....	\$1279 00
10 Millbrook	9th do	do	35 00
11 Fitzroy	24th do	do	100 00
12 Hamilton.....	6th September ...	do	1033 00
13 Gananoque	13th September...	do	286 00
14 Bowmanville	15th do	do	99 50
15 Vankleek Hill.....	27th do ...	do	225 00
16 Lakefield.....	7th October	do	37 00
17 Toronto.....	29th October	Value not given—Silver Cup.	
18 Peterborough	1st November... ..	amount expended	172 00

As a further evidence of the increasing desire on the part of the volunteers to perfect themselves in the use of the rifle, attention is directed to the Return of purchased ammunition in the Appendix, by which it appears that they have further taxed themselves to the amount of \$1471.12 to supply themselves therewith. The department supplying at cost price such Volunteer Corps, Drill Associations and Rifle Clubs as desire to purchase extra ammunition.

(No. 21.)

TARGET PRACTICE.

In the Appendix will be found a condensed synopsis from the various Target Practice Returns received during the past year, showing the number of men who have attended practice, the amount of ammunition expended, and the highest average of points made at each range to which their practice extended. It is to be regretted that so many corps stand blank in this return. The officers commanding them having either neglected altogether their duty with respect to the ball practice of the men under their command, or failed, having expended their ammunition as directed, in the no less important part of it by not transmitting to Head-quarters correct practice returns thereof. If commanding officers do not forward these documents regularly and punctually after each practice, it is quite impossible that the department can arrive at any just and correct conclusions as to the figure of merit of each corps and the exact position it ought to occupy in this respect in the annual report. Blank forms of target practice returns are forwarded to every corps as soon as the requisition for its annual allowance of ammunition has been approved of, and its issue ordered, and their regular transmission to Head-quarters, when filled up, is urgently enjoined. It is however gratifying to find that so large a number have been regularly forwarded, giving satisfactory account of the proper expenditure of the liberal allowance of ammunition which the Government places at the disposal of each Volunteer to enable him to obtain a practical and sufficient knowledge of the use of his weapon, by far the most important branch of that military instruction for which so large a sum is now annually expended. The practice of some of the corps has been remarkably good, and they consequently take a high position, but from the causes stated above, it has been found quite impossible to class them in that grade in the list to which their apparent merit seems to entitle them. The honorable distinction given to the best marksman of each corps by publishing his name with the synoptical return of the practice of the corps to which he belongs, it is hoped will be productive of the best results, by producing earnest efforts on the part of those so honored to maintain their position, or by stimulating others in their endeavors hereafter to obtain like honorable mention. The most important part of the military education of the Volunteer, as has been before remarked, is the proper knowledge of and use of the weapon with which he has been intrusted. Officers commanding corps may do much in this respect at the rifle range where alone that practical knowledge can be acquired which makes good marksmen, and to which the previous drill of the men is merely subsidiary. Discipline, obedience to orders, the correct eye, and the sure hand are all to be acquired on the well-ordered practice ground, and its importance with this end in view cannot be too strongly inculcated on all concerned.

THOS. WILY, Lieut.-Col.,
Superintendent of Stores.

MILITIA DEPARTMENT,
Quebec, 31st December, 1864.

(No. 22.)

SERVICE MILITIA.

LOWER CANADA.

His Excellency the Commander-in-Chief is pleased to order that the Counties of L'Assomption and Montcalm, Argenteuil and Two Mountains, Arthabaska and Drummond, Beauharnois and Laprairie, Brome and Stanstead, Bellechasse and Dorchester, Bonaventure and Gaspé, Chambly and Verchères, Charlevoix and Montmorency, Chicoutimi and Saguenay, L'Islet and Montmagny, Jacques Cartier and Laval, Maskinongé and St. Maurice, Napierville and St. Johns, Nicolet and Yamaska, Ottawa and Pontiac, Soulanges and Vaudreuil, Richmond and Wolfe, shall be respectfully connected as Regimental Divisions, and to designate the Regiments of said Counties as the

L'Assomption and Montcalm Regt. of Militia.	Chicoutimi and Saguenay Regt. of Militia.
Argenteuil and Two Mountains do.	L'Islet and Montmagny do.
Arthabaska and Drummond do.	Jacques Cartier and Laval do.
Beauharnois and Laprairie do.	Maskinongé and St. Maurice do.
Brome and Stanstead do.	Napierville and St. Johns do.

(No. 23.)

PROVINCE OF CANADA.

SERVICE MILITIA.

UPPER CANADA.

His Excellency the Commander-in-Chief is pleased to order that the counties of Prescott and Russell shall be connected as a Regimental Division, and to designate the Regiment of the said counties as the Prescott and Russell Regiment of Militia.

His Excellency is further pleased, in pursuance of 27 Victoria, chapter 2, sections 22 and 23, to order the organization of a Service Battalion or Service Battalions from the several Regiments of Militia of this Province, undermentioned, and that the Ballot shall be taken on Friday the thirtieth day of December instant, in manner provided by law, for the purpose of organizing such Service Battalion or Battalions respectively, according to the proportion of men to be furnished for each such Battalion from each Township, City, Town, or incorporated Village, as follows, that is to say:—

Regimental Division.		Proportion of Service men to be furnished from each Township, City, Town or Incorporated Village.	Number of Service Battalions to be organized from each Regiment. 						cts.			
						Total....			

I certify that the number of persons and the periods of attendance above stated are correct, and that the sick were regularly attended by _____ the Local Medical Practitioner at the Station.

Officer Commanding at the Station.

N.B.—Broken periods of a calendar month will be charged for in proportion.

Scale of Rates authorized for Medicines and Medical attendance on the Volunteers by the Circular dated 5th January 1865, viz.:

20 cents per officer and man per calendar month, when the Volunteer Troops at the Station do not exceed one company of 65 men.

16 cents per officer and man per calendar month, when the Volunteer Troops at the Station do not exceed two companies, say 130 men.

12 cents per officer and man per calendar month, for any number over two companies up to ten companies, inclusive.

All claims for this service must be rendered to the Militia Department in duplicate by the Medical Practitioner at the end of the month, upon the Form H, duly certified by the Commanding Officer at the Station.

[No. 25.]

TARGET PRACTICE RETURN of the _____ Company _____ of Volunteer Militia, at _____ this _____ day of _____ 186 _____

Number of men.	Rank and Names.	No. of Rounds fired.	Range, _____ yards.					Total points.	Range, _____ yards.					Total points in both Ranges.	REMARKS.	
			Points obtained per shot.						Total points.	Points obtained per shot.						
			1	2	3	4	5			1	2	3	4			5
Total																Average points

I certify that the above practice was carefully conducted under the superintendence of an officer, and as far as practicable in accordance with Musketry Regulations, and that the points recorded were obtained by the men of my Company opposite whose names they appear; further, that no ball ammunition issued to me for the use of the Company, has been expended otherwise than as above recorded; and no ammunition other than that supplied by Government has been used.

Signature, _____

Commanding the Company.

N.B.—A bull's eye counts 3 points, a centre 2, and an outer 1.

* Total points in both ranges added together and divided by the number of men gives the "average" or "Figure of Merit" of the Company.

One of these forms to be filled up by the Captain and forwarded to the Brigade Major of the District every time a party of a Company goes out for "Target Practice," be the number of men few or many. The return of Companies in Battalion will, of course, be forwarded to the Brigade Major through the Lt. Col. of the Battalion. The Brigade Majors will examine these returns and send them to this Department quarterly, with their Quarterly Reports.

These forms will be furnished to the Captains of Companies on application to the Brigade Majors.

[No. 26.]

REQUISITION for Ammunition for Practice and Exercise for the
of Volunteer Militia.

Head Quarters at this day of 186

	Ammunition, with proportion of Caps.		REMARKS BY BRIGADE MAJOR
	Rounds of		
	Ball.	Blank.	
Allowance for Men received for the past year			As to the efficiency of the Company, and whether, in his opinion, the whole allowance should issue at once, or only a part of it.
Deduct, expended in the practice and Exercise of the Corps.....			
Remaining in possession			
Required to complete the allowance for Men actually effective at this date, at the rates hereunder specified			
Total allowance for the year 186			

Captain Commanding the Company.

The Provincial Storekeeper at
Rounds of Ball and

will issue upon this Requisition
Rounds of Blank Ammunition.

No.

Approved,

Militia Department,
Quebec, 186

Lieut. Col.,
D. A. G. M.

1. The annual allowance due (1st April) for all Corps armed with Enfield Rifles, is 60 rounds ball and 40 rounds blank for each man actually effective.
2. This requisition, when filled up by the Captain, will be sent by him to the Brigade Major of the Division for certificate, as above, who will then forward it *direct* to the Militia Department at Head Quarters for approval. All ammunition must be issued in *kegs or barrels*, and the issuing Officers are on no account to issue ammunition in quantities less than a quarter-barrel.

EXTRA AMMUNITION.

3. Officers in Command of Corps, who may require extra ball ammunition, are informed that the quarter-barrel contains seven hundred (700) rounds of ball cartridges, with the proportion of caps; and such ammunition will, in future, be issued in quarter-barrels only. Officers making application for *extra* ammunition will therefore, in future, calculate the quantity asked for in quarter-barrels, taking care that the quantity demanded corresponds with the entire contents of one or more quarter-barrels.

4. *Extra Ammunition* is issued on application *direct* to the Militia Department at Head Quarters, by the Officer requiring it, and payment therefor is to be made by the Officer making the application for such extra ammunition, depositing the money in the Bank of Montreal, to the credit of the Receiver General, and transmitting the Certificate of Deposit for the same to the Militia Department. The price of a quarter-barrel of Ball Ammunition, with caps complete, is \$11.16.

MILITIA DEPARTMENT,

ADJUTANT GENERAL'S OFFICE,

Quebec,

186 .

SIR,

With reference to your Requisition for Ammunition for the Corps under your command for the present year, I have now the honor to acquaint you that I have this day instructed _____, the Provincial Storekeeper at _____, to forward to your address, in the usual manner, _____ rounds of ball and _____ rounds of blank ammunition, with caps in the usual proportion.

His Excellency the Commander-in-Chief desires me to acquaint you at the same time, that the great object he has in view is the efficiency of the Volunteers in Rifle shooting, and to this end he declares that no Volunteer shall be permitted to fire more than his allotted share (60 rounds) of the Government allowance of ball ammunition, and that it is the duty of the officer commanding to take care that every Volunteer on the strength of the Company shall, within the year, fire at the target that number of rounds (60) of ball ammunition, at such times as may be most convenient; for it is manifest that, if the whole of the Government allowance is shot away at Rifle Matches by a few Volunteers from each Company—a practice at present frequently followed—His Excellency's object cannot be attained.

The Commander-in-Chief, therefore, desires me to impress upon you the necessity that exists for using the said ammunition strictly in accordance with the above rule.

I have the honor to be,

Sir,

Your most obedient servant,

Lt. Colonel,
D. A. G. M

To. Capt.

Com. Volunteer

at

Company

RETURN

To an Address of the Honorable the Legislative Assembly, dated 26th January, 1865; for Copies of all Reports made by C. L. DeBellefeuille, Inspector of Gold Mines, and of J. K. Gilman, also Inspector of Gold Mines.

By command.

W. McDougall,
Secretary.

Secretary's Office,
Quebec, 2nd February, 1865.

(In accordance with the recommendation of the Joint Committee on Printing, the Reports of the Inspectors only are printed.)

ANNUAL REPORT OF C. L. DEBELLEFEUILLE, INSPECTOR OF THE CHAUDIÈRE GOLD MINES, CHAUDIÈRE DIVISION.

ST. FRANCIS, BEAUCE, 30th November, 1864.

To the Honorable A. Campbell, Commissioner of Crown Lands, Quebec.

SIR.—If we consider the unfavorable weather the miners had to undergo during the months of September and October, this season should be looked upon as an exceptional one. Miners should be advised to leave home about the end of the month of May, in order to arrive at the diggings about the 1st of June, which is the proper time; previous to that date the waters are too high, to allow mining operations to be carried on with any success.

A great many miners committed an egregious error last spring by coming up at the beginning of May; the consequence was, they found it impossible to mine with any success; they became disheartened, returned home, and spread such reports on the appearance of the country, and the check they had experienced, as to deter thousands from ultimately visiting the mines. It is a well-averred fact, that many young men, who never visited the gold region but came within two or three miles of it, became discouraged at the rugged appearance of the region, and without ever introducing a shovel in the earth, returned home; and many others, after remaining a day or two at the mines, became nervous at the hard work they had to undergo, lost no time in returning home.

The great disadvantage for mining purposes, under which our gold regions are situated, compared to those of California and Australia, is the easy access and proximity to cities, and the thick settlements of this part of the country, affording thereby an easy exit and cheap mode of living to all miners.

Were they situated (that is the miners) as in the two above named regions, hundreds of miles from any settlement, and with the option of working or starving, it would have altered the entire aspect of this region, and untold wealth would have been extracted from the mines. As it is, we can well compare, if not surpass, the Californian or Australian mines. Persons must bear in mind that this is the first year's experience we have had. In California and Australia it took fully three years before the mines were fully developed,—that is merely mentioning the alluvial mining;—the quartz mining was not developed until ten years afterward, that is in California. Let the same time expire here, and I feel confident that the average yield will surpass that of the above-named localities.

It must also be considered that mere alluvial mining has taken place, and that in a very imperfect manner. Some one remarked last year, that he could not but be struck with the unsystematic and unsatisfactory manner of the works going on here. Since then there has been no improvement, and the consequence must be that at least one-third of the gold must be lost. As a proof of what I advance, I shall cite the following case: A man at the

Gilbert mines by merely washing the stream-out dirt, has realized as much as \$1.30 per hour.

About five thousand persons visited the mines during the last season, *i.e.*, from May up to this date; of those five thousands, I do not believe that more than three hundred men have remained here. On an average, two hundred and fifty men have worked from the 1st of June on the River Gilbert, and about fifty others have prospected on the different other rivers, such as the Famine, Chaudière, Du Loup, Metgermette, Oliva, Kempt, Taschereau, Monument, &c. Up to this date, I compute 116 days' labor on the River Gilbert, divided as follows, viz:—

24	days	for	the	month	of	June
24	"	"	"	"	"	July
24	"	"	"	"	"	August
10	"	"	"	"	"	September
10	"	"	"	"	"	October
24	"	"	"	"	"	November

Total..... 116 days.

Allowing, at the very lowest, 4 dollars per man per diem, it will at once give us the sum of \$116,000.

As I remarked above, if the unfavorable weather the miners experienced in September and October be taken into consideration; also the small space from which that amount was extracted, viz: about three square *arpents*, it cannot but prove the immense wealth of this gold-bearing region. The success with which the few miners still remaining here meet, is but another proof of the presence of gold in this part of the Province; it's only a few days ago that one man took out, in one day, nine ounces, and the day previous, the same person had found a nugget of five oz.; that amount was found in a claim, that had been, as they believed, well worked. Corroborating thereby what I heretofore mentioned, how imperfectly the mining was carried on.

It must also be borne in mind, that all this mining has been alluvial, not a particle having been extracted from the quartz. Some persons may seem astonished, that out of five thousand men, visiting the mines, not more than three hundred should have remained here. I can only give the following reasons:—

1. A great many came too early in the spring, viz., in May, the water being then too high to allow mining operations to be carried on with any success;
2. The prices asked for by the proprietors prevented many from purchasing lots;
3. The delay arising in the issue of the Mining Act, and the uncertainty existing as to its contents, prevented many from mining upon Government lands. Those three causes, together with the facilities of conveyance at every one's command, contributed daily to diminish the number of miners.

Gold is to be found every where from St. Francis to the lines, a distance of 43½ miles; and if thoroughly worked for, as on the Gilbert River, would be found in as great abundance anywhere. The native gold is coarse, one does not meet with that fine pulverized gold, as found in California, if so, it is in very small quantities.

On the River Famine, the gold is also coarse; it is to be found in slate at the foot of the Falls. Experienced men and geologists entertain a very high opinion of this river, from the formation of its rocks and the general lay of the land: I shall subsequently give the production of this river. I am led to believe it an erroneous statement. Works on a large scale are to be prosecuted next year by an American Company, whose agent is to remain here during the ensuing winter. As I remarked in a previous Report, a road from the Falls to Lake Etchemin would be very necessary. The extent of the mining operations done on the Famine amount to about 700 feet.

On the Du Loup, in its entire length, gold is to be found; also a great quantity of black sand, which has yielded as much as 22 dwts. per ton of 2,000 lbs.

Some gold has been found at the mouth of the river, which induces a great many persons to believe the presence of quicksilver from the gold found being coated with a coating of silver, and disappearing at a certain temperature.

Prospecting has also been carried on with good results at the Chaudière Falls, three or four miles distant from the forks of the Du Loup and Chaudière Rivers. The agent who

was sent here to prospect, informed me that he was perfectly satisfied with the results obtained.

The parties engaged on the Oliva, Metgermette, Monument, and on many other rivers, have every reason to be satisfied with this year's prospecting. On the Du Loup, and as far up as the lines, different parties have been sinking shafts here and there, and otherwise looking out for good localities, (where they invariably found gold,) to enable them next spring to carry on mining operations, on a scale commensurate with the expectations they have found by this year's prospecting. Quartz veins are to be found everywhere from the village of St. François to the boundary line. Gold has been detected in almost every vein; there is one particularly in the upper part of the 1st concession, not very far from the Gilbert mine, produced by assay, viz. 22 dollars of silver and 15 dollars of gold per ton. This was taken from the surface,—the width of the vein being six feet,—and stripped to the length of 40 feet. Another very promising vein, running North-east, intercepted by numerous small veins running due East and West, exists opposite the church of St. François on the eastern side of the village. It is supposed to cross the river and continue on the western side of the River Chaudière.

In the vicinity of the Famine, quartz has also been found. The mouth of the Du Loup has also brought out innumerable small veins, running parallel to each other, in which gold has been found. On the Mill-stream and at the Grand Coudée, both tributaries of the River Du Loup, quartz has been assayed, and found to contain gold. I forgot to mention that at the Devil's Rapids, a little about St. François, numerous lodes, and some of them very large, are supposed also to contain gold; they here exist on both sides of the Chaudière. About the Metgermette, and the Oliva, fine quartz is also to be met with. Not very distant from those two rivers, quartz was found on the Du Loup, which having been assayed give 8 dwts. to the ton, this was also taken from the surface. Between the Portage and Kempt streams, tributaries of the Du Loup, two large veins are observed, they also contain gold. A short distance from the Monument River, a beautiful vein of quartz is to be seen from which gold has been extracted, by merely breaking the surface of the quartz with a hammer; the same results were obtained by professor Hinds,—I believe it was about the Metgermette—by merely crushing it with a stone.

Quartz veins are to be opened and worked next spring at the Village of St. François; the Devil's Rapids, where a crushing mill is to be erected. On the Oliva or Metgermette, there is another mill to be constructed. On the highlands of the Du Loup, and I believe on the Kempt stream, veins will be worked, and that with profit. From the opinion I have heard expressed by several professors of geology, who have visited the mines, and particularly the quartz lodes during this season, I cannot but prognosticate great results to the country by the opening of such lodes, and by the proper development of the mines, which lay buried in this extensive and rich region. There is not the least doubt as to the presence of gold, and that in very large quantities.

Exclusive of the gold; rubies, garnets, emeralds, pearls and even diamonds have been found. An extensive trade is carried on by the sale of pearls, some of which have commanded very high prices in the New York and Philadelphia markets. As it is, the results have been great, to this part of the country, by the introduction of an extensive trade, by the diffusion of knowledge among the agricultural class, and the large sums of money that have been left here. Strangers here acquired a knowledge also of the resources, capabilities and wealth of this thickly-populated region, which they were far from expecting.

Miners should not embarrass themselves with mining tools; they can be purchased here as good and as cheap, I believe, as can be had. Wearing apparel can also be obtained; board is to be had from \$2½ to \$3 per week, and very good substantial board. From 30 to 40 men intend passing the winter on the River Gilbert. They intend to do so by carrying on hill tunnelling. This month has been very remunerative to the few miners who have remained here. A nugget of the value of \$300 was found lately, and another of \$240 was also found during this month.

At the Devil's Rapids an extensive tunnel, about 200 feet in length, has been introduced from the water's edge into the hill, in an easterly direction. I have been unable to ascertain what amount of gold had been extracted from it. I was merely told, that they often found the color. For the last ten weeks, on account of the sudden rise of the Chaudière, they have abandoned their works, but intend continuing during the next season.

On rivers I think the claims should be larger; they should at least command a frontage of 50 feet to enable the miner to sluice, which he cannot do with a frontage of 20 feet.

As to beds of rivers, considered as Government property, what rivers are navigable? None that I know of, that is, in the summer months. Owners of property on both sides of a river, have they an exclusive right to the bed of the river? These are questions which should be settled before next summer's operations begin.

Clauses 28 and 29, already referred to in a previous report, deserve the due consideration of the Government. It would be convenient if a regular license was issued to all engaged in prospecting or exploring for claims; it should be issued without charge, and to remain good for a fortnight, subject to renewal, if it could be proved by the miner that nothing had been found. But I would make it imperative on all to take out such a license, as then the inspector would know where to find any particular party of men.

I would also strongly recommend the opening of roads, as referred to in my previous Report.

From the 1st September up to this date, eighteen Crown Lands gold licenses have been issued for the bed of the River Famine which produced about \$500, I include the licenses of two miners who left the limits without returning them.

Forty-three private gold licenses were issued from the 1st August, until this date, for the following places:—22 for the Famine or Watford, 18 for the River Du Loup, and three for the Chaudière. The Chaudière Falls produced about \$78. I cannot yet give a correct return for the River Du Loup, as I am still in want of 10 licenses, putting those 10 licenses aside, we have a sum of \$60.00 which would give us a total of \$638.00.

Those parties working on the Du Loup and at the Chaudière Falls did not pretend to mine, but to be merely prospecting; but as I remarked before, the statements must be croneous.

I have the honor to be, Sir,
Your very obedient servant.

C. L. DEBELLEFEUILLE,
G. M. I., C. Division, Beauce.

REPORT OF J. K. GILMAN.

STANSTEAD, August 9, 1864.

SIR.—Enclosed are the receipts signed in duplicate for my month's salary, ending July 31st. I have also to acknowledge the receipt of three books of Crown Land Licenses, three of Private Lands, one of Discoveries, one of Tavern, one for the Registration of Claims, one Map of the Eastern Townships, two books containing a list of the unsold Crown Lands in my district, and plans of the Townships of Auckland, Clinton, Chesham, Ditton, Ditchfield, Hampden, Spaulding, Woburn and Whitton, three hundred copies of the Gold Mining Act, thirty lithographs of the Eastern Townships, Notices to Miners, one book for letters, and a Canada Gazette.

I have been absent the past week, and up to this of the present, visiting places where Gold Mining was said to be going on. I regret having to confirm what your Department has already ascertained, that there is no Gold Mining of any consequence going on in my district, or rather that portion which I visited, being the Townships of Ascot, Hatley, Orford and Magog. On lots 1, 2 and 3, Range 13 in the Township of Ascot, a New York Company have expended quite an amount of labour preparatory for sluicing, when the conditions upon which the purchase was made are complied with, the conditions being that no sluicing should be done except for the purpose of satisfying the parties intending to purchase that there was gold there. The manager informed me that he had not sluiced any since the middle of June; previous to that time he sluiced some parts of days with very satisfactory results, averaging half an ounce to the man per day. He reports an aggregate result of three pounds of gold. The work at the other mines I visited was simply prospecting done at an early period in the season. The parties report that they had made very good shews of gold to the pan. At two places I saw some panning done with results of five to

ten cents to the pan of dirt. The parties interested in the various mines I visited speak hopefully of the prospects. They assure me that as soon as the water rises they shall commence work in earnest. There are several reasons that have operated very unfavorably upon the mining interests in this District,—the drought which set in very early in the season, and which still continues, has hindered operations to a very great extent. Another cause, which has had still more to do in bringing about the present unfavorable state of affairs, is the high rate of exchange upon American money. The gold-bearing lands held by private parties in this district were bonded by different parties in the townships during the latter part of last year, and the early part of the present. These parties have sought and made connections with other parties in the cities of New York, Boston and Providence, for the purpose of forming companies for the working of these mines. Mining stocks went very low early in the season, consequently it was impossible to interest parties in the cities, so that with the drought, the high rates of Exchange, and the dullness of the stock market, mining operations are at pretty much of a stand-still. I have received, since my return, application for a private land license in the Township of Ditton.

I shall visit that portion of my district immediately, and hope to be able to report results which will be more satisfactory.

I wish to enquire if a discoverer of a mine on private lands is entitled to a free license.

I have the honor to be, sir,

Your most obedient servant,

JAMES K. GILMAN,
Gold Mining Inspector.

To the Honorable the Commissioner of Crown Lands.

(No. 19.)

MUNICIPAL RETURNS FOR LOWER CANADA, FOR 1864.

\_\_\_\_\_

[In accordance with the recommendation of the Joint Committee on Printing, the above Returns are not printed.]

# R E T U R N

To an Address from the Legislative Assembly to His Excellency the Governor General, dated the 1st instant, praying His Excellency to cause to be laid before the House, "Copies of all Correspondence between the Imperial and Provincial Governments, or between the Provincial Government, or any Department or Officer thereof, and Her Majesty's Minister at Washington, or any other parties, relative to the recent establishment of a Passport System in the United States of America for persons going thither from this Province, or to the issue here of Passports for such persons, or to any want of qualification on the part of British subjects here naturalized to obtain such Passports, or otherwise to the status and rights of such subjects."

By Command.

WM. MCDougALL,  
Secretary.

Secretary's Office,  
Quebec, 6th February, 1865.

[Copy—Circular, Canada.]

DOWNING STREET,  
28th July, 1863.

MY LORD.—My attention has been called by the Secretary of State for Foreign Affairs to the inconvenience which is frequently experienced in cases in which foreigners naturalized in British colonies claim British protection from Her Majesty's representatives abroad.

I have pointed out to Earl Russell that, under the provisions of the Imperial Act 10 and 11 Victoria, Cap. 83, the effect of colonial naturalization is confined exclusively to the colony in which the alien may reside, and that when such aliens pass beyond the limits of that colony they lose all claim to be considered for any purpose whatever as British subjects. But, in order to insure that this is distinctly understood by the persons naturalized, it is advisable that all certificates of colonial naturalization should bear on their face an unequivocal announcement of their purely local character. This is, I think, in most instances, already the case. But, if it should not be so in the colony under your Government, I should wish you to take steps in order to cause the requisite additions to be made to the form of certificate.

I have, &c.,  
(Signed,) NEWCASTLE.

Viscount Monck,  
&c., &c., &c.

[Copy, No. 62.]

QUEBEC, 22nd April, 1864.

MY LORD DUKE,—I have the honor to inform Your Grace that the Certificates of Naturalization granted to aliens in Canada contain on the face of them an announcement that the rights conferred by them are exclusively confined to this Province.

It was not therefore necessary to take any steps in reference to this matter under the directions contained in your Circular Despatch of July 28th, 1863.

I have, &c.,  
(Signed,) MONCK.

The Duke of Newcastle,  
&c., &c., &c.

(No. 21.)

**RETURN**

To an Address from the Legislative Assembly to His Excellency the Governor General, dated the 23rd June, 1863; praying His Excellency to cause to be laid before the House, "Copies of all Documents and Communications to or from the Government respecting the Medical Board of Upper Canada, since 1st January, 1860; the names of the Medical men composing the said Board, the Medical Schools or Colleges to which they belong, and the names of those who have been added since 1st January, 1860, and by whom, or in what way recommended, with the signification of their consent to perform the duties imposed upon them."

By Command.

WM. McDOUGALL,  
Secretary.SECRETARY'S OFFICE,  
Quebec, 13th February, 1865.

(No. 22.)

**RETURN**

To an Address of the Legislative Assembly, of the 30th January, 1865; for a list of Public Employés appointed since the 20th March last; also, a list of all persons employed, permanently or temporarily, in each of the Public Departments.

By Command.

WM. McDOUGALL,  
Secretary.SECRETARY'S OFFICE,  
15th February, 1865.

# RETURN

To an Address of the Honorable the Legislative Assembly, dated 13th February, 1865; for Copies of Correspondence with the Government of New Brunswick in 1857, 1858 and 1859, on the subject of a Political or Commercial Union of the British North American Provinces.

By Command.

WM. McDOUGALL,

*Secretary.*

SECRETARY'S OFFICE,  
Quebec, 16th February, 1865.

QUEBEC, 14th February, 1865.

SIR,—I have the honor to enclose copies of the despatches noted in the margin, with copies of their enclosures, to be laid before the Legislative Assembly, in answer to the accompanying Address of the 13th instant.

Sir E. Head, 9th Sept., 1858;  
20th Oct., 1858; 10th Jan.,  
1859; 24th Nov., 1859.  
Lt. Governor of New Brunswick,  
17th Sept., 1858; 11th  
Oct., 1858; 1st Feb., 1859;  
3rd Dec., 1859.  
Address, Legislative Assembly,  
13th Feb., 1865.

I have the honor to be, Sir,

Your obedient servant,

DENIS GODLEY.

The Honorable  
The Provincial Secretary.

GOVERNMENT HOUSE, FREDERICTON, NEW BRUNSWICK,  
September 17th, 1858.

SIR,—I have the honor to acknowledge the receipt of Your Excellency's despatch of the 9th instant, enclosing a copy of a Minute of the Executive Council of Canada, approved by Your Excellency, on the subject of a Federal Union of the British North American Provinces.

I have, &c.,

(Signed,) J. H. T. MANNERS-SUTTON.

His Excellency the Rt. Honble.  
Sir E. Head, Bart., Quebec.

[Copy.]

GOVERNMENT HOUSE, FREDERICTON NEW BRUNSWICK,  
October 11th, 1858.

SIR,—With reference to Your Excellency's despatch of the 9th ultimo (the receipt of which was acknowledged by me on the 17th ultimo), I have the honor to transmit to you, for your Excellency's information, a copy of a memorandum which has been submitted to me by my Council, on the subject referred to in that despatch.

I have, &c.,

(Signed,) J. H. T. MANNERS-SUTTON.

His Excellency the Rt. Honble.  
Sir E. Head, Bart., Toronto.

[Copy.]

To His Excellency the Honorable  
 J. H. T. MANNERS SUTTON,  
 Lieut. Governor, &c., &c.

The Committee of Council have had under consideration the despatch of the Governor General of the 9th instant, containing the Report of the Executive Council of Canada, on the subject of a Federative Union of the British North American Provinces.

The Council are deeply impressed with the importance of the subject, requiring as it does the most deliberate and mature consideration.

The British North American Provinces have each attained a great degree of material prosperity under their present constitution, and the increased power of self-government, recently conferred upon them, has left them nothing to envy in the political condition of the citizens of the neighbouring Republic.

The Council are of opinion that the interests of this Province, and of all the British North American Provinces, require that, when the question of a Federal or Legislative Union of the Provinces is formally brought before the people, it should be raised in such a manner and at such a time as to afford a reasonable prospect, at least, of arriving at a speedy and satisfactory conclusion. And without expressing any opinion as to the practicality or effect of such a Union as that referred to in the memorandum of the Council of Canada, the Council would state, that although the subject of a Union of the Colonies has to some extent been discussed in the public press here, the attention of the Provincial Legislature has never been directed to this matter, nor has it been a prominent subject of consideration among the constituencies, and in this respect New Brunswick occupies a very different position from Canada.

And it may be remarked that if the recommendation of the Canadian Government be adopted by the Secretary of State, the question of a Legislative Union with any or all of the other Provinces must be excluded from consideration by the Commission.

Under these circumstances the Council would respectfully submit, that a reasonable time should be allowed for consideration, before the commencement of any such inquiry as that contemplated by the Government of Canada.

Nova Scotia, New Brunswick,  
Prince Edward Island, and the  
Governor of Newfoundland.

[Copy.—No. 87.]

DOWNING STREET,  
26th November, 1858.

SIR,—I have on a former occasion acknowledged Your despatch, No. 118, of the 9th September, accompanied by a Minute of a Committee of the Executive Council of Canada, proposing that Her Majesty's Government should authorize a Meeting of Delegates to discuss the expediency and the conditions of a Federal Union of the British North American Provinces. By this name, I understand to be meant an arrangement for establishing a common legislation in the Provinces upon matters of common concern. I have since received a letter on the same question, dated the 25th of October, from those Members of Your Executive Council who have recently visited England; and I have to inform you that the proposal has received from Her Majesty's Government the careful consideration which its importance demands.

The question, however, is one which involves not merely the interests of the important Province of Canada and its relations towards the Empire, but also the position and welfare of the other North American Provinces. The Government of one of them has afforded some indication that it deems the question of a Legislative Union of some or all of the Colonies as equally deserving of consideration. With this exception, Her Majesty's Government have received no expression whatever of the sentiments which may be entertained by the Governments of the Lower Provinces. We think that we should be wanting in proper consideration for those Governments, if we were to authorize, without any previous knowledge of their views, a Meeting of Delegates from the Executive Councils, and thus to commit them to a preliminary step towards the settlement of a momentous question of which they have not yet signified their assent to the principle.

A communication in terms corresponding with the present despatch will be addressed to the Governors of the other Provinces, in order to place them and their responsible advisers in full possession of the actual state of the question.

I have, &amp;c.,

(Signed,) E. B. LYTTON.

The Right Honorable  
Sir Edmund Head, Bart.

*Copy of a Report of a Committee of the Honorable the Executive Council, dated 5th January, 1859, approved by His Excellency the Governor General.*

The Committee have had under consideration a despatch, No. 87, dated 26th November, 1858, from the Right Honorable the Secretary of State for the Colonies, intimating that the Imperial Government, before authorizing a meeting of Delegates from the Executive Councils of the British North American Provinces, on the subject of a Federal Union, as proposed in the Order in Council communicated to the Colonial Secretary by Your Excellency's despatch, No. 118, of 9th September last, desire an expression of the sentiments which may be entertained by the Governments of the Lower Provinces on that important matter, in order not to commit them to a preliminary step toward the settlement of a question of which they have not yet signified their assent to the principle.

In order to place the Governments of the Lower Provinces in possession of all the proceedings that have hitherto taken place in reference to the above-mentioned subject, the Honorable the Attorney General (L. C.), recommends that a copy of the said despatch, No. 87, as well as of the letter addressed by the delegates from Canada, to the Right Honorable the Colonial Secretary, while in England, be communicated to the Governor and Lieutenant Governor of each of such Provinces, with a view to invite such action in the matter as may be deemed expedient.

The Committee advise that the suggestion of the Honorable Attorney General be approved and acted on.

[Certified.]

(Signed,) WM. H. LEE,  
C. E. C.

# MISCELLANEOUS STATISTICS

OF

# CANADA,

## FOR THE YEAR 1864.

### PART I.

.....  
*Printed by Order of the Legislative Assembly.*  
.....

QUEBEC:  
PRINTED BY HUNTER, ROSE & CO., ST. URSULE STREET.  
1865.

AUDIT OFFICE,  
Quebec, 16th February, 1865.

SIR,—I have the honor to lay before you the second annual collection of the Miscellaneous Statistics of Canada, Part I. It is in some respects more complete than that of last year, and the opportunity of making a comparison between two consecutive years will add to its utility.

The first page gives a general view of the position of the country, sufficient for reference abroad, and I have added a table of such particulars as were accessible in reference to the British Colonies proposed to be included in the new Confederation.

The next table is that of Banks, and I have added to the monthly averages of the aggregate business of all the banks as published last year, a table of the annual averages of each chartered bank. It will be perceived that during the year 1864, the authorized banking capital has been increased by about \$10,000,000 of which nearly \$3,000,000 has been paid up. The notes in circulation have decreased \$219,266.16, whilst the coin and bullion have decreased \$1,173,044.18, and the Government securities held have increased \$923,548.58. The cash deposits have increased \$2,477,861.68, and the notes discounted \$2,440,618.61.

The four following tables relate to the savings institutions of the country.

The Savings Banks proper are the six mentioned in table V, and it appears that the depositors in them have increased by 1,144 or ten *per cent.*, and the deposits by about \$310,000 or twelve *per cent.* Every savings' bank, without exception, exhibits progress. The annexed short statement will show the class of securities in which the banks have invested these savings :

|                                           | 1863.                 | 1864.               | Increase in<br>1864. | Decrease in<br>1864. |
|-------------------------------------------|-----------------------|---------------------|----------------------|----------------------|
| Government Bonds, &c.....\$               | 176,375 62            | 202,833 73          | 26,458 11            |                      |
| Municipal and Water Works Debentures..... | 770,361 48            | 856,078 34          | 85,716 86            |                      |
| Harbor Debentures.....                    | 101,000 00            | 162,000 00          | 61,000 00            |                      |
| Railway Bonds .....                       | 66,186 66             | 66,186 66           |                      |                      |
| Turnpike Trust.....                       | 148,600 00            | 148,600 00          |                      |                      |
| Bank Stocks .....                         | 375,241 00            | 371,980 00          |                      | 3,261 00             |
| Mortgages.....                            | 92,057 91             | 67,216 06           |                      | 24,841 85            |
| Notes, secured by collaterals.....        | 411,258 26            | 555,289 96          | 144,031 60           |                      |
| Deposited in Banks, at interest.....      | 458,518 55            | 491,264 51          | 32,745 96            |                      |
| Cash and Miscellaneous.....               | 112,052 00            | 128,159 17          | 16,107 17            |                      |
|                                           | <u>\$2,711,651 58</u> | <u>3,049,608 43</u> |                      |                      |

Thus it would appear that notes secured by collaterals have been the favorite security of these banks during the year, and that nearly one half of all their funds are invested in these and in municipal debentures. The small amount of Government securities held by them I am disposed to attribute to the difficulty of obtaining currency debentures, rather than to a preference for other classes of securities; and seeing the large amount which is seeking investment, it may be desirable to consider the propriety of giving greater facilities for obtaining Government currency debentures.

A similar increase in the number of depositors, and amount deposited in the Savings branches of Building Societies (Table VI) is also evident. These societies, however, in spite of the higher interest they pay, do not attract so many depositors as the Savings Banks proper, showing that a high rate of interest is not the main object of the majority.

Tables VII and VIII exhibit statements of the affairs of the Terminable and Permanent Building Societies of the Province. It appears that the permanent system is growing more into favor than the other, for I have had to transfer two societies from the Terminable to the Permanent list, and the new societies organized appear to be all of the latter type. The monies in the hands of these societies amounted to \$3,232,506.98 in 1864, as against \$2,750,901.05 in 1863. This sum, which has increased during the past year at the rate of  $17\frac{1}{2}$  per cent., is almost exclusively invested in mortgages on real estate, and the uncertainty which must always prevail as to the real value of such securities renders it impossible to determine how far this very large amount of capital is adequately secured. The importance which these societies are attaining, and the rapid increase of their transactions seem to point to the necessity for some legislative action, which will compel them to make full returns, and to adopt an equitable and uniform method of valuing their assets.

None of the Fire or Life Insurance Companies doing business in this province have made returns in the forms furnished to them except the Royal; but five other Fire Companies have made returns which are brought as far as possible under the same head. Only two British companies have made returns under the Act 26 Vic., cap. 43. Those which have obtained licenses and have failed to send in returns according to law will be found mentioned in table XIV.

The returns of the Mutual Fire Insurance Companies are much more perfect than they were last year, and of those known to be in operation only one has declined to make a return. The total amount of property covered by insurance in these companies—all of which are in Upper Canada—is \$36,922,162.65, consisting of 51,316 separate risks. As very few of these companies made returns last year, the increase of the outstanding risks at the date of each annual statement cannot be directly given, but the new risks taken during the year exceed the risks expired during the same period by 7,461 in number, and \$5,421,650 in amount, which is a sufficient indication of the extension of the business. The risks outstanding are secured by premium notes to the amount of \$846,284, and other assets over and above actual liabilities to the value of \$44,829, whilst the amount necessary to re-insure all outstanding risks is estimated at \$137,900. The amount of losses adjusted during the year has been \$76,299.57; not yet adjusted, \$7,194; resisted, \$3,188.50.

The remaining tables do not appear to call for any special remark in this report.

JOHN LANGTON,  
*Auditor.*

The Honorable A. T. GALT,  
*Minister of Finance.*

The figures marked with an asterisk (\*) are not taken from official sources, but are believed to be approximately correct.

There would thus remain 214,282,817 acres in the hands of the Crown.

Population and its rate of increase.

(a) Commissioners for the relief of the Indigent Sick, Quebec.—There are 38 invalids under the superintendance of the Commissioners; 28 Roman Catholics are placed at the General Hospital; 10 Protestants are under the care of the Rev. E. W. Sewell and Rev. J. Cook. The number of Indigent Sick received at the Hôtel-Dieu (with which institution the Commissioners have an arrangement) during 1864 was 870, of whom 528 were natives of Canada, and 342 foreigners. The 27,826 days given in the table relate exclusively to the Sick in the Hôtel-Dieu. There is no statement of the days the others were cured for.

(b) Commissioners for the relief of the Indigent Sick, Three Rivers.—The grant for the Indigent Sick was only drawn in January, 1865. The expenditure having been more than the grant, the balance (\$87.56) is put down under the head of Private Charity.

TABLE IX.—Statement of the Affairs of Hospitals receiving Grants from Government, 1864.—(Continued.)

(a) *Asile de la Providence, Montreal.*—The figures relating to Assets are from last year's returns, no statement thereof having been sent in this year. In addition the sisters made 14,360 domiciliary visits, nursed (veillés) 518, tended until death 189. They relieve every day at their own depot 540 poor, and besides 3,070 strangers received food. The Dispensary established in the Asylum afforded relief to 3,030 sick, and besides 6,028 persons received gratis remedies prescribed by the physicians, and many of them were visited either by the physicians or the sisters.

(c) Girls' Home and Public Nursery, Toronto.—The Girls' Home is designed to receive young girls who have no home, or whose home is with degraded parents. In the Home they are instructed and trained to become good servants. The nursery is for taking care of those children whose parents cannot from their occupation keep them at home, and who are willing to pay a small sum to have them properly taken care of. The statement of aggregate days refers only to the "Home."

|                                            |                                   |       | 330,210                         | 397,274 | 2,569                                     | 19,743 | 332,779 | 416,117 |

(a) The Provincial Telegraph Company only began business in December 23rd, 1864.  
 (b) This Company furnishes 22 Journals twice and sometimes three times a day with public reports, which, together with receipt messages, if calculated at an average of ten words, would give considerably more messages than those reported above. Including these, 750,000 messages were set down as passing over the line in 1863, an amount said to have been "considerably exceeded" in 1864.  
 (c) The Vermont and Boston Telegraph Company also receives two general news reports daily, and furnishes two Journals with news matter. Its return relates solely to that part of the Company's line within the limits of the Province.

STATEMENT of the Number and Expense of Coroners' Inquests in Upper and Lower Canada; also of the Verdicts rendered thereat.

To an Address of the Legislative Assembly, dated 30th January, 1865; for Copies of all Correspondence and other Papers, not as yet laid before the Legislature, having reference to the Claims of the Proprietors of Bridges on the River des Prairies, and to the Settlement by Arbitration of such Claims.

By command.

W. McDougall,  
*Secretary.*

Secretary's Office,  
Quebec, 17th February, 1865.

---

*[In accordance with the recommendation of the Joint Committee on Printing, the above Return is not printed.]*

# R E T U R N

To an Address of the Honorable the Legislative Assembly, dated 15th February, 1865, for Copy of all Correspondence between the Government of Canada and the United States, or the British Ambassador at Washington, and of all Despatches from the Home Government, and Orders in Council, on the subject of the Reciprocity Treaty.

By command.

WM. McDOUGALL,  
*Secretary.*

Secretary's Office,  
17th February, 1865.

QUEBEC, 17th February, 1865.

SIR.—I have the honor to enclose copies of the despatches, noted in the margin, on the subject of the Reciprocity Treaty, to be laid before the Legislative Assembly, in answer to the Address of that House of the 15th instant, which is herewith returned.

The Duke of Newcastle. No. 15.—  
4th February, 1864, and enclosure.  
Lord Monck. No. 20.—20th Feb.,  
1864, and enclosure.

Mr. C. Fortescue. No. 30.—24th  
March, 1864.

Lord Lyons. April 7, and enclosure.  
Do. April 8.

Legislative Assembly, Feb. 15, 1865.

I have the honor to be, Sir,

Your obedient servant,  
DENIS GODLEY.

The Honorable the Provincial Secretary.

[Copy.—Canada, No. 15.]

DOWNING STREET, 4th February, 1864.

MY LORD.—I have the honor to transmit to Your Lordship a copy of a despatch which Lord Lyons has addressed to the Secretary of State for Foreign Affairs, reporting that a resolution had been introduced into the United States Senate, calling upon the President to give to Her Majesty's Government the required notice for the abrogation of the Reciprocity Treaty of 1854.

I have, &c.,

(Signed,) NEWCASTLE.

Viscount Monck, &c., &c., &c.

*Lord Lyons to Earl Russell.*

[Copy.—No. 19.]

WASHINGTON, January 12th, 1864.

MY LORD.—In my confidential despatch (No. 914) of the 24th ultimo, I gave Your Lordship an account of a conversation which I had had with Mr. Seward, in which, among other things, we spoke of the probability that a motion would be made in Congress that the President should be called upon to give the notice contemplated by the 5th Article of the Reciprocity Treaty, with a view to abrogating the Treaty.

I have now the honor to inform Your Lordship that a Resolution was introduced into the Senate by Mr. Morrill, one of the Senators for the State of Maine, on the 8th instant, "requiring the President of the United States to give the Government of Great Britain the notice required for the termination of the Reciprocity Treaty of the 5th of June, 1854."

The Resolution was, in the usual course, referred to the Committee on Foreign Relations.

I shall not fail again to remind Mr. Seward that the notice cannot be given until the end of ten years, from the time at which the Treaty came into operation; and that this period will not, as I conceive, come to an end until after the expiration of Mr. Lincoln's term of office as President.

I have, &c.,

[Signed,]

LYONS.

The Earl Russell, &c., &c., &c.

[Copy.—No. 0.]

GOVERNMENT HOUSE, Quebec, 20th Feb., 1864.

MY LORD DUKE.—I have the honor to enclose, for Your Grace's information, a copy of an approved Report of a Committee of the Executive Council, on the subject of the Reciprocity Treaty with the United States.

I have, &c.,

[Signed,]

MONCK.

His Grace the Duke of Newcastle, K.G.,  
&c., &c., &c.

*Copy of a Report of a Committee of the Honorable the Executive Council, approved by His Excellency the Governor General on the 19th February, 1864.*

The Committee of the Executive Council deem it to be their duty to represent to Your Excellency, that the recent proceedings in the Congress of the United States, respecting the Reciprocity Treaty, have excited the deepest concern in the minds of the people of this Province.

Those proceedings have had for their avowed object the abrogation of the Treaty at the earliest moment consistent with the stipulations of the instrument itself.

Although no formal action, indicative of the strength of the party hostile to the continuance of the Treaty, has yet taken place; information, of an authentic character, as to the opinions and purposes of influential public men in the United States, has forced upon the Committee the conviction that there is imminent danger of its speedy abrogation, unless prompt and vigorous steps be taken by Her Majesty's Imperial Advisers, to avert what would be generally regarded, by the people of Canada, as a great calamity.

The Committee would specially bring under Your Excellency's notice the importance of instituting negotiations for the renewal of the Treaty, with such modifications as may be mutually assented to, before the year's notice required to terminate it, shall be given by the American Government; for they fear that the notice, if once given, would not be revoked; and they clearly foresee, that owing to the variety and, possibly, the conflicting nature of the interests involved on our own side, a new Treaty could not be concluded and the requisite legislation to give effect to it be obtained, before the year would have expired, and with it the Treaty. Under such circumstances—even with the certain prospect of an early renewal of the Treaty—considerable loss and much inconvenience would inevitably ensue.

It would be impossible to express in figures, with any approach to accuracy, the extent to which the facilities of commercial intercourse, created by the Reciprocity Treaty, have contributed to the wealth and prosperity of this Province; and it would be difficult to exaggerate the importance which the people of Canada attach to the continued enjoyment of these facilities.

Nor is the subject entirely devoid of political significance.

Under the beneficent operation of the system of self-government which the later policy of the mother country has accorded to Canada, in common with the other Colonies possessing representative institutions, combined with the advantages secured by the Reciprocity Treaty, of an unrestricted commerce with our nearest neighbors in the natural productions of the two countries, all agitation for organic changes has ceased—all dissatisfaction with the existing political relations of the Province has wholly disappeared.

Although the Committee would grossly misrepresent their countrymen if they were to affirm that their loyalty to their Sovereign would be diminished in the slightest degree by the withdrawal, through the unfriendly action of a foreign government, of mere commercial

privileges, however valuable these might be deemed; they think they cannot err in directing the attention of the enlightened statesmen who wield the destinies of the great empire, of which it is the proudest boast of Canadians that their country forms a part, to the connection which is usually found to exist between the material prosperity and the political contentment of a people; for in doing so they feel that they are appealing to the highest motives that an actuate patriotic statesmen—the desire to perpetuate a dominion founded on the affectionate allegiance of a prosperous and contented people.

The Committee venture to express the hope, that Your Excellency will be pleased to bring this subject, and the considerations now submitted, under the notice of Her Majesty's Imperial Advisers.

DOWNING STREET, 24th March, 1864.

MY LORD.—I have the honor to acknowledge the receipt of Your Lordship's Despatch (No. 20) of the 20th of February last, enclosing a copy of a Report of your Council, calling attention to the probable abrogation of the Reciprocity Treaty by the United States.

I have brought this subject under the notice of Earl Russell, and His Lordship has informed me that he will consult Lord Lyons, as to any measures which could be adopted for securing a continuance of the Treaty.

I have, &amp;c.,

(Signed,)

C. FORTESCUE,

*In the absence, and by the authority, of the Duke of Newcastle.*

Viscount Monck, &amp;c., &amp;c., &amp;c.

[Copy.]

WASHINGTON, April 7th, 1864.

MY LORD.—I have the honor to enclose, for Your Lordship's information, a copy of a Report on the Reciprocity Treaty, which was made to the House of Representatives by the Committee of that House on Commerce.

I have, &amp;c.,

[Signed,]

LYONS.

His Excellency, Viscount Monck,  
&c., &c., &c.

1st April, 1864.

IN THE HOUSE OF REPRESENTATIVES.

*(Read twice; Ordered to be printed, and the further consideration postponed to Thursday, April 28th.)*

Mr. Ward, from the Committee on Commerce, reported the following joint Resolution, authorizing the President to give the requisite notice for terminating the Treaty made with Great Britain on behalf of the British Provinces in North America, and to appoint Commissioners to negotiate a new Treaty with the British Government, based upon the true principles of reciprocity:—

Whereas, under the Treaty made by the United States with Great Britain, proclamation of which was made by the President of the United States, on the eleventh of September, one thousand eight hundred and fifty-four, for the purpose of extending reciprocal trade between the British North American Colonies and the United States, nearly all the articles which Canada has to sell are admitted into the United States free of duty, while heavy duties are now imposed upon many of those articles which the people of the United States have to sell, with the intention of excluding them from the Canadian markets: And whereas, the President of the United States, in the first Session of the thirty-sixth Congress, caused to be submitted to the House of Representatives an Official Report, setting forth the inequality and injustice existing in our present intercourse with Canada, subversive of the true intent of the treaty, owing to the subsequent legislation of Canada: And, whereas, by the Fifth Article of the Treaty provision was made that it

should remain in force for ten years, from the date at which it should go into operation, and further until the expiration of twelve months after either of the high contracting parties should give notice to the other of its wish to terminate the same, each of the high contracting parties being at liberty to give such notice to the other at the end of the said term of ten years, or at any time afterwards: And, whereas, by a further proclamation, issued by the President of the United States, bearing date the sixteenth day of March, one thousand eight hundred and fifty-five, it was declared that the said Treaty should go into effect and be observed on the part of the United States: And, whereas, it is desirable that friendly relations should be continued between the United States and the British North American Provinces, and that commercial intercourse should be hereafter carried on between them upon principles reciprocally beneficial and satisfactory to both parties.

Therefore, be it resolved by the Senate and House of Representatives of the United States of America, in Congress assembled,

That the President of the United States be, and he is hereby authorized and required to give notice to the Government of the United Kingdom of Great Britain and Ireland that it is the wish and intention of the Government of the United States of America to terminate the said Treaty at the end of twelve months from the expiration of ten years, from the time when the said Treaty went into operation as aforesaid, such notice to be given at the expiration of the said term of ten years, to the end that the said Treaty may be abrogated, as soon as it can be done, under the provisions thereof; unless a new Convention shall, before that time, be concluded between the two Governments, by which the provisions shall be abrogated or so modified as to be mutually satisfactory to both Governments, and that the President of the United States be, and he is hereby authorized to appoint three Commissioners, by and with the advice and consent of the Senate, for the revision of said Treaty, and to confer with other Commissioners duly authorized therefor, whenever it shall appear to be the wish of the Government of Great Britain to negotiate a new Treaty between the two Governments and the people of both countries, based upon true principles of reciprocity, and for the removal of existing difficulties.

# RETURN

To an Address from the Honorable the Legislative Council, to His Excellency the Governor General, dated the 6th February, 1865, praying His Excellency to cause to be laid before that Honorable House, "Copies of all Despatches and Correspondence between the Imperial and Provincial Governments, on the subject of the passing of the Act 12 Victoria, cap. 19, intituled, 'An Act for the better giving effect, within this Province, to a Treaty between Her Majesty and the United States of America, for the apprehension and surrender of certain offenders;' and of the Act 24 Victoria, cap. 6, intituled, 'An Act to amend Chapter 89 of the Consolidated Statutes of Canada, respecting the Extradition of Fugitive Felons from the United States of America;' and also, for Copies of all the Proclamations published in this Province on the occasion of the passing of the said Acts."

By command.

WM. McDUGALL,  
*Secretary.*

Secretary's Office,  
Quebec, 13th February, 1865.

*Earl Grey to the Earl of Elgin.*

[Copy.—No. 453.]

DOWNING STREET, 23rd January, 1850.

MY LORD.—The Act passed by the Legislature of Canada, "For better giving effect within the Province to a Treaty between Her Majesty and the United States of America, for the apprehension and surrender of certain offenders," having been submitted to the Queen in Council, I have the honor to transmit to Your Lordship an Order of Her Majesty in Council, suspending the operation, within the Province, of the Imperial Act 6 and 7 Vic., c. 76, so long as the Provincial Act shall continue in force, and I have to instruct Your Lordship to take the necessary steps for giving effect to this Order.

I have, &c.,  
[Signed,]

GREY.

Right Hon. the Earl of Elgin,  
&c., &c., &c.

[Copy.]

[Seal.]

AT THE COURT, AT WINDSOR,  
8th day of January, 1850.

PRESENT :

The QUEEN'S MOST EXCELLENT MAJESTY,  
His Royal Highness PRINCE ALBERT,

Lord PRESIDENT,  
Duke of NORFOLK,  
Lord CHAMBERLAIN,

Earl GREY,  
Mr. LABOUGHÈRE,  
Sir G. GREY, Bart.

Whereas, by an Act of Parliament, passed in the Session of Parliament, held in the sixth and seventh years of Her Majesty's Reign, intituled, "An Act for giving effect to a

Treaty between Her Majesty and the United States of America, for the apprehension of certain offenders," it was by the fifth section enacted, that if by any law or ordinance of the Local Legislature of any British Colony or Possession abroad, provision should be made for carrying into complete effect, within such Colony or Possession, the objects of the said recited Act, by the substitution of some other enactment in lieu thereof, then it should be competent to Her Majesty, with the advice of Her Privy Council (if to Her Majesty in Council it should seem meet, but not otherwise) to suspend the operation, within any such Colony or Possession, of the said recited Act, so long as such substituted enactment should continue in force there, and no longer.

And, whereas, by an Act passed by the Legislative Council and Assembly of Canada, in the twelfth year of the Reign of Her Majesty, intituled, "An Act for better giving effect, within this Province, to a Treaty between Her Majesty and the United States of America, for the apprehension and surrender of certain offenders," provision hath been made for carrying into effect, within the said Province, the objects of the said recited Act of Parliament; and, whereas, it is expedient that the operation, within the said Province, of the said recited Act of Parliament shall be suspended so long as the said Provincial Act shall be and continue in force there, and no longer.

It is therefore Ordered, by the Queen's Most Excellent Majesty, by and with the advice of Her Privy Council, that the operation, within the said Province, of the said recited Act of Parliament shall be suspended so long as the said Provincial Act shall be and continue in force there, and no longer; and the Right Honorable Earl Grey, one of Her Majesty's Principal Secretaries of State, is to give the necessary directions herein accordingly.

[Signed,]

WM. L. BATHURST.

*Sir Edmund Head to the Right Honorable the Secretary of State.*

[Copy.—No. 30.]

QUEBEC, 18th May, 1861.

MY LORD DUKE.—I have the honor to enclose a copy of an Act, to which I this day gave the Royal Assent, amending the Provincial Statute enacted for carrying out the Treaty for the Extradition of Criminals from Canada (22 Vic. Cap. 89).

Your Grace will see that this Act differs from the former one in three important respects:—

1st. It follows more clearly the words of the Treaty;

2nd. It makes it necessary that the proceedings against a supposed criminal should take place before a qualified Judge, Police Magistrate, or Inspector of Police, qualified to act as a Magistrate—not before any Justice of the Peace;

3rd. It omits all mention of the Governments of the separate States, and contemplates only a demand on the part of the United States Government.

I ought, however, to say that I do not believe any criminal has been delivered over merely on the demand of a State Government, although the Act formerly in force appeared to contemplate such a course as possible.—(See Consolidated Statutes, p. 945, 22 Vic., c. 89, s. 3.)

I have, &c.,  
[Signed,]

EDMUND HEAD.

His Grace the Duke of Newcastle, K.G.,  
&c., &c., &c.

*The Duke of Newcastle to Sir E. Head.*

[Copy.—Canada, No. 260.]

DOWNING STREET, 28th October, 1861.

SIR,—I have received, and have had under my consideration, an Act (No. 2,412) No. 30, 18th May, 1861, passed by the Legislature of Canada in the month of May last, and transmitted to me in your despatch noted in the margin.

I have reported to Her Majesty in Council my opinion that the said Act should be left to its operation, and I have the honor to transmit to you herewith an Order of Her Majesty in Council, dated the 11th instant, approving that Report.

I have, &c.,

[Signed,]

NEWCASTLE.

Governor, the Right Honorable  
Sir E. Head, Bart.

[Copy.]

[Seal.]

AT THE COURT, AT BALMORAL,  
11th day of October, 1861.

PRESENT :

The QUEEN'S MOST EXCELLENT MAJESTY,  
His Royal Highness the PRINCE CONSORT,  
Lord PRIVY SEAL,  
Sir GEORGE GREY, Bart.

Whereas, the Governor General of Her Majesty's Province of Canada, with the Council and Assembly of the said Province, did, in the month of May, 1861, pass an Act which has been transmitted, entitled as follows:—

No. 2,412: "An Act to amend Chapter 89 of the Consolidated Statutes of Canada, respecting the Extradition of Fugitive Felons from the United States of America."

And, whereas, the said Act has been laid before Her Majesty in Council, together with a letter to the Lord President of the Council from the Most Noble the Duke of Newcastle, one of Her Majesty's Principal Secretaries of State, recommending that the said Act should be left to its operation; Her Majesty was thereupon, this day, pleased, by and with the advice of Her Privy Council, to approve the said recommendation.

Whereof the Governor General, Lieutenant Governor, or Commander in Chief, for the time being, of Her Majesty's Province of Canada, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

[Signed,]

EDMUND HARRISON.

# RETURN

To an Address from the Legislative Assembly to His Excellency the Governor General, dated the 6th inst., praying His Excellency to cause to be laid before the House, "A Statement of the lands purchased by the Indian Department, in trust for the Oneida Indians, in the Township of Delaware, with the names of the persons from whom purchased; number of lot and concession; number of acres in each lot; price per acre and name of person to whom paid; the amount of moneys received for the Indians; from whom and when; in whom the title is now vested."

By command,

W. McDOUGALL,  
Secretary.

SECRETARY'S OFFICE,  
Quebec, 23rd Feb., 1865.

STATEMENT called for by an Address from the Honorable the Legislative Assembly to His Excellency the Governor General, praying—That he will cause to be laid before the House a statement of the lands purchased by the Indian Department "in trust for the Oneida Indians of the River Thames, in the Township of Delaware," &c., &c.

| Lot. | Conces- sion. | Acres. | From whom purchased.                                                                                       | Price paid.         | Name or names of person or persons to whom paid.                                                           | To whom (as exhibited by docu- ments on file) conveyed.    | Remarks.                                                                                                                                                                                                                                                                                                                                                        |

The information of which the Indian Department has been enabled to avail itself does not show the amounts deposited by the Oneida Indians for the purchase of these lands in Delaware. The transactions appear to have been conducted in part by Mr. J. B. Clench, deceased, and in part by the late S. P. Jarvis, Esq., but the amounts expressed in the conveyances it is assumed indicate the exact sums paid for the lands purchased for them.

Wm. SPRAGGE,  
D. S. J. A.

INDIAN DEPARTMENT,  
Quebec, 18th February, 1865.

# RETURN

To an Address of the Honorable the Legislative Assembly, dated 7th February, 1865; for information respecting Trade, Revenue and Expenditure, &c., of the Maritime Provinces, for the year 1863.

By Command.

WM. McDOUGALL,  
Secretary.

SECRETARY'S OFFICE,  
20th February, 1865.

RETURN to an Address from the Honorable the Legislative Assembly, for a Statement of the amount of the Exports and Imports, Revenue and Expenditure, Population, Assets and Liabilities of the Provinces of Nova Scotia, New Brunswick, Newfoundland and Prince Edward Island, for the year 1863.

## R E T U R N

To an Address from the Legislative Assembly to His Excellency the Governor General, dated the 13th February, 1865; praying him to cause to be laid before that Body, Copies of all Correspondence between the Government and the Contractors for the Public Buildings at Ottawa, regarding a settlement of accounts on the first contracts; and also, Copies of all Instructions sent to the Arbitrator appointed on behalf of the Government to effect a settlement with said Contractors.

By command.

WILLIAM McDOUGALL,  
Secretary.

Secretary's Office, March, 1865.

[In accordance with the recommendation of the Joint Committee on Printing, this Return is printed in a condensed form.]

---

---

OTTAWA, April 27th, 1863.

The Honorable U. J. Tessier,  
Commissioner of Public Works.

SIR,—Having, on the 18th day of April instant, entered into a contract with you for the completion of public buildings at Ottawa, known as the Departmental Buildings, the effect of which was to terminate the agreement theretofore subsisting between us and the Government in respect thereof, we have now to request that you will cause a final estimate to be made of the value of the works by us done and performed, in the construction of said buildings, previous to the said 18th day of April instant, to the end that said final estimate may be examined, and if dissatisfied therewith, that our claim may be arbitrated upon, pursuant to the provisions of law in that behalf made.

Your obedient servants,

JONES, HAYCOCK & Co.,  
Contractors for Departmental Buildings.

[Here follows a letter, similar to the above, from Thomas McGreevy, as Contractor for the Parliament Buildings.]

DEPARTMENT OF PUBLIC WORKS,  
Quebec, 4th May, 1863.

GENTLEMEN,—I have the honor to acknowledge the receipt, on the 30th, of your letter of the 27th ultimo, requesting that a final estimate be made of the value of the works by you performed in the construction of the Departmental Buildings, Ottawa, previous to the 18th ultimo, date of the new contract for the completion of said buildings; and I beg to inform you that the Honorable the Commissioner will give it his early attention.

(Signed,)

T. TRUDEAU,  
Secretary.

Messrs. Jones, Haycock & Co., Contractors,  
Departmental Buildings, Ottawa.

QUEBEC, 22nd Sept., 1863.

SIR,—I have the honor respectfully to call your attention to my letter addressed to the Honorable Mr. Tessier, Commissioner of Public Works, on the 28th April last, to which I have not as yet received an answer.

I claim that the Government is indebted to me in a large balance under the first contract; and as delay in adjusting it seriously affects me and deprives me of moneys which I should have to enable me to carry out the existing agreement, I request that a final estimate of work performed under first contract be made as sought for by my letter now referred to.

I have the honor to be, sir,  
Your obedient servant,  
(Signed,) THOMAS MCGREEVY.

The Honorable M. Laframboise,  
Commissioner of Public Works.

[Here follows a letter, similar to the above, from Jones, Haycock & Co.]

(Duplicate)

DEPARTMENT OF PUBLIC WORKS,  
Quebec, 25th September, 1863.

SIR,—I have the honor to acknowledge the receipt, on the 23rd instant, of your letter of the 22nd, requesting attention to your letter of 28th April last, respecting your claim for a balance due on your first contract; and I beg to inform you that the Honorable the Commissioner will give it his early attention.

(Signed,) T. TRUDEAU,  
Secretary.

Thos. McGreevy, Esq., Contractor,  
Ottawa.

Messrs. Jones, Haycock & Co., Contractors,  
Ottawa.

To the Honorable

The Commissioner of Public Works.

SIR,—Whereas, by an Indenture made the 7th day of December, 1859, between the undersigned, Thomas McGreevy, and Her Majesty Queen Victoria, represented by the Honorable the Commissioner of Public Works of the Province of Canada.

I, the undersigned, contracted with Her Majesty for the construction of certain works therein specified, upon the terms and conditions therein mentioned; and on the 27th day of September, 1861, I was informed by the Secretary of the Department of Public Works, that the Honorable the Commissioner had desired that the works mentioned in said contract should be suspended at the end of the said month of September; and, in pursuance of the aforesaid notice, the said works were then suspended and remained suspended until the 18th day of April, 1863, at which time a new contract was entered into with Her Majesty, for the completion of the works yet to be done.

I have twice applied to the Commissioner since then, that he should cause a final estimate to be made of the value of the aforesaid works, with a view of having my claim, arising from my connexion with them, adjusted.

Being very desirous of avoiding a collision with the Government, and preferring that the Department should make an estimate which might have led to an amicable settlement, I have deferred giving notice of my claim, in hopes of receiving the final estimate. As it has not been received, and I can wait no longer, I now, under the 46th clause of the 22nd Victoria, cap. 3, which provides that "If any person or body corporate has any claim for property taken, or for alleged, direct or consequent damages to property, arising from the construction, or connected with the execution of any Public Work undertaken, commenced, or performed at the expense of this Province, or of either of the late Provinces of Upper or Lower Canada, or any claim arising out of, or connected with the execution or fulfilment, or on account of deductions made for the non-execution or non-fulfilment of any contract for the performance of any such Public Work, made and entered into with the said Commissioner, either in the name of Her Majesty, or in any other manner whatsoever, or with any other Board, or with any other Commissioner, lawfully authorized to enter into the same, on behalf of this Province, or either of the said Provinces of Upper or Lower Canada; such person or body corporate may give notice of such claim to the said

Commissioner, stating the particulars thereof and how the same has arisen," do hereby give notice of my claims, stating the particulars thereof and how the same has arisen, as follows:—

PARTICULARS OF CLAIM.

I claim that the changes made from the original contract are of such a character as to entitle me to be paid, measure and value, for all work executed by me for the Department of Public Works at Ottawa, as it is impossible to apply the original contract, or any part of it, to such works, or any part of them.

I claim that although this is so, yet that I executed the works under the other terms set forth in the contract, and under the directions of the officers of the Department, and, therefore, that no less prices than those established by the officers of the Department, and paid to me by the Receiver General of the Province upon their reports, certificates and warrants, should govern in any settlement between me and the Department.

And I claim for work done upon, and in connection with, the Parliament buildings, from 7th December, 1859, up to the time of the stoppage of the work in the end of the year 1861, the sum of \$511,078.00.

I claim that in all cases in which works was done by me, and which is not included in the measured work, the same must be paid for to me, by the account of the day-bills rendered the Department, and certified as correct by the architect in charge, and I claim under this head the sum of \$19,643.79.

I claim that as the arrangement entered into by me and the Honorable Mr. Killaly has not been adopted by the Department, that I am entitled to be paid all damages that I can show I have sustained, as follows:—Detention for want of plans, orders and decisions, whereby the progress of the buildings was delayed, in some cases, for months; detention to our forces by reason of blasting in drains and air ducts near the building; extra labor required in handling materials in consequence of service ground being cut up by drains, and other excavations.

Damages from stoppage of works; depreciation of plant; depreciation and loss in materials; losses on contracts for materials; losses on materials ordered by the Department and since thrown back on my hands by changes of plans, &c.; damages to my credit and business, by reason of withholding sums justly due me; and for protecting, watching and insuring the works while they were stopped, and a reasonable sum for my own time; and, generally, all damages that I can show that I have suffered by acts of the Department; and I claim under this head the sum of \$79,000.00.

I claim to be paid for work prepared and materials delivered on the ground, previous to the contract of the 18th April, 1863, between Her Majesty and myself, for the completion of the buildings, amounting to the sum of \$117,498.00.

The total of the above sums, amounting to \$727,219.79, less the sum of \$483,163.95 paid me on account as the work progressed, I claim as still due me—that is, the sum of \$244,055.84.

And I do request that you will, under the 6th clause of the Act 22nd Victoria, cap. 3, refer the above claims to three Arbitrators specially appointed in the manner the Act provides.

I have the honor to be, sir,

Your humble servant,

(Signed,)

THOMAS MCGREEVY.

To the Honorable

The Commissioner of Public Works.

SIR,—Whereas, by an Indenture made the 7th day of December, 1859, between the undersigned, Ralph Jones, Edward Haycock, and Thomas Curtis Clarke, and Her Majesty Queen Victoria, represented by the Honorable the Commissioner of Public Works of the Province of Canada.

We, the undersigned, contracted with Her Majesty for the construction of certain works therein specified, upon the terms and conditions therein mentioned, and on the 27th day of September, 1861, we were informed by the Secretary of the Department of Public Works, that the Honorable Commissioner had desired that the works mentioned in said contract should be suspended at the end of the said month of September; and in pursuance

of the aforesaid notice the said works were then suspended, and remained suspended until the 18th day of April, 1863, at which time a new contract was entered into with Her Majesty for the completion of the works yet to be done.

We have twice applied to the Commissioner since then, that he should cause a final estimate to be made of the value of the aforesaid works, with a view of having our claim, arising from our connexion with them, adjusted.

No such final estimate has been received; but, in several interviews had between our Mr. Ralph Jones, Mr. McGreevy, and the late Commissioner the Hon. Mr. Laframboise, it was stated by him that a final estimate was in course of preparation by the Department.

Being very desirous of avoiding a collision with the Government; and preferring that the Department should make an estimate which might have led to an amicable settlement, we have deferred giving notice of our claim, in hopes of receiving the final estimate. As it has not been received, and as we can wait no longer, we now, under the 46th clause of the 22 Victoria, cap. 3, which provides that "If any person or body corporate has any claim for property taken, or for alleged, direct or consequent damages to property, arising from the construction, or connected with the execution of any Public Work undertaken, commenced, or performed at the expense of this Province or of either of the late Provinces of Upper or Lower Canada, or any claim arising out of or connected with the execution or fulfilment, or on account of deductions made for non-execution or non-fulfilment of any contract for the performance of any such Public Work, made and entered into with the said Commissioner, either in the name of Her Majesty, or in any other manner whatsoever, or with any other Board, or any other Commissioner, lawfully authorized to enter into the same on behalf of this Province, or either of the said Provinces of Upper or Lower Canada; such person or body corporate may give notice of such claim to the said Commissioner, stating the particulars thereof, and how the same has arisen," do hereby give notice of our claim, stating the particulars thereof, and how the same has arisen, as follows:—

#### PARTICULARS OF CLAIM.

A. We claim that the changes made from the original contract are of such a character as to entitle us to be paid measure and value for all works executed by us for the Department of Public Works at Ottawa, as it is impossible to apply the original contract sum, or any part of it, to such works or any part of them.

We claim that although this is so, yet that we executed the work under the other terms set forth in the contract, and under the direction of the officers of the Department, and therefore that no less prices than those established by the officers of the Department, and paid to us by the Receiver General of the Province upon their reports, certificates and warrants, should govern in any settlement between us and the Department.

And we claim for works done upon and around both Departmental Buildings from 7th December, 1859, up to the date of their stoppage on the 27th day of September, 1861, the sum of \$575,000.00.

B. We claim that in pursuance of the special orders of the Department, we executed a large amount of work upon both Departmental Buildings in the months of November and December, 1861, consisting of masonry and brick work in walls, and putting on roof, &c., for the purpose of enabling the buildings to resist the winter; that such works were done after the buildings had remained suspended for a month, and our forces had been broken up and entirely disorganized; and that in consequence of these and the lateness of the season, such works cost us much more than the usual rates; and we claim, under this head, the sum of \$40,000.00.

C. We claim that in all cases in which work was done by us, and which is not included in the measured work, the same must be paid for to us by the accounts of the day-bills rendered to the Department, and certified as correct by the architects in charge; and we claim under this head the sum of \$3,000.00.

D. We claim that as the arrangement entered into by us and the Honorable Mr. Killaly has not been adopted by the Department, that we are entitled to be paid all damages that we can shew we have sustained as follows:—Detention for want of plans, orders and decisions, whereby the progress of the buildings was delayed, in some cases for months; detention to our forces by reason of blasting in drains and air ducts near the

buildings; extra labor required in handling materials in consequence of service grounds being cut up by drains and other excavations.

Damages from stoppage of works; depreciation on plant; depreciation and loss on materials; losses on contracts for materials; losses on materials ordered by the Department and since thrown back on our hands by changes of plans, &c.; damages to our credit and business by reason of withholding sums justly due us, and generally all damages that we can shew that we have suffered by acts of the Department; and we claim under this head \$98,000.00.

E. As we were bound to resume the works at any time after the stoppage, when notice should be given by the Department, we were obliged to keep under pay all our staff of foremen, clerks, and superintendents who were under engagements to us. We were also obliged to spend money in protecting and watching and insuring the works while they were stopped. We claim to be paid for these outlays, including a reasonable sum for our own time, the sum of \$28,000.00.

F. We claim that inasmuch as the Department was indebted to us in a large amount for works constructed over and above all moneys received by us, that the materials on the ground referred to in the 25th clause of the Indenture of the 18th April, 1863, between ourselves and Her Majesty, and amounting in value to \$62,459.09 are our property, and that the Department have no lien or claim thereon.

G. We claim that in like manner all the plant used in the construction of the works is our property, and that the Department have no lien or claim thereon, and the value thereof is \$25,000.00; and we do request that you will, under the 64th clause of the Act 22 Victoria, cap. 3, refer the above claims to three arbitrators specially appointed in the manner the Act provides.

DEPARTMENT OF PUBLIC WORKS,  
Quebec, 10th August, 1864.

John Page, Esquire, Ottawa.

Government and Architects agree to name you as sole Arbitrator. Commissioner and colleagues desire very much that you would accept.

Would you act as one of three Arbitrators on claims of Contractors in first contract? Judge Gowan of Barrie, and Vannovous, Advocate, of Quebec, might be the others. Your answer required here by to-morrow at noon.

(Signed,)

F. BRAUN,  
*Secretary.*

## DEPARTMENT OF PUBLIC WORKS,

Quebec, 27th September, 1864.

GENTLEMEN,—I have the honor to inform you, with reference to the claim preferred by you in connection with a contract made on the 7th day of December, 1859, between yourselves and Her Majesty Queen Victoria, represented by the Honorable the Commissioner, for the erection of the Departmental Buildings at Ottawa; also, in reference to the demand made by you, under the 46th clause of the 22nd Vic., cap. 3, that the above mentioned claim be referred to special arbitrators.

I am directed by the Honorable the Commissioner to inform you, that His Excellency, by an Order in Council dated 26th September, 1864, has been pleased to approve that your claim shall be submitted to special arbitrators, to be chosen as directed by the Con. Stat. 22nd Vic., cap. 28, sec. 4, viz. :—

“Yourselves to appoint one arbitrator, the Commissioner to appoint another, and the said two arbitrators to appoint a third.”

Having selected your arbitrator, you will be pleased to notify the Department of the fact, giving at the same time his name and address.

(Signed,)

J. W. HARPER,  
for Secretary.Messrs. Jones, Haycock & Co., Contractors,  
Ottawa.Thomas McGreevy, Esq., Contractor,  
Ottawa.

QUEBEC, 10th October 1864.

To the Honorable

The Commissioner of Public Works.

SIR,—I have the honor to acknowledge the receipt of your letter of the 27th September ultimo, in which you inform me that His Excellency has been pleased to direct that my claim be submitted to the decision of Special Arbitrators, one to be chosen by me, you to appoint another, and the two thus selected to name a third.

I hereby appoint, as my Arbitrator, Frederick Cumberland, Esquire, of Toronto.

I have the honor to be, sir,

(Signed,)

Your obedient servant,

THOS. MCGREEVY.

Contractor.

[A similar letter from Jones, Haycock &amp; Co.]

*Copy of a Report of a Committee of the Honorable the Executive Council, approved by His Excellency the Governor General in Council, on the 17th October, 1864.*

On a memorandum dated the 12th October, 1864, from the Honorable the Commissioner of Public Works, representing that by an Order in Council, dated 26th September, 1864, Your Excellency was pleased to sanction the submittal to Special Arbitrators, of certain claims made against the Government by the Contractors, Mr. McGreevy, and Messrs. Jones, Haycock & Co., in relation to their first contract for the construction of the Parliament and Departmental Buildings at Ottawa.

That in pursuance of the said Order in Council, the Contractors have, on their part, chosen Mr. Frederick Cumberland, an Architect, residing at Toronto, as their arbitrator, and recommending that he be authorized to name Mr. John Page, a Special Arbitrator in this matter, on the part of the Government.

The Committee concur in the recommendation of the Commissioner of Public Works, and submit the same for Your Excellency's approval.

Certified.

(Signed,)

W. H. LEE,

To the Honorable  
the Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,  
Quebec, 19th October, 1864.

SIR,—I am directed by the Honorable the Commissioner to enclose herewith, for your information, copy of an Order in Council, passed on the 17th instant, appointing you as Special Arbitrator on the part of the Government, to adjudicate upon the claims made by the Contractors, Mr. McGreevy and Messrs. Jones, Haycock & Co., in connection with their first contract for the construction of the Parliament and Departmental Buildings at Ottawa.

Mr. Frederick Cumberland, of Toronto, has been chosen by the Contractors to act on their behalf as Special Arbitrator in regard to those claims.

Also, copy of another Order in Council, passed on the same day, authorizing the submittal to yourself and Mr. Cumberland, of the claims of the Architects, Messrs. Fuller & Jones, and Messrs. Stent & Laver, in connection with those buildings.

(Signed,)

F. BRAUN,  
*Secretary.*

John Page, Esq.,  
Superintendent, Public Buildings, Ottawa.

DEPARTMENT OF PUBLIC WORKS,  
Quebec, 21st October, 1864.

SIR,—I have the honor to transmit herewith, for your information, the enclosed copies of the claims preferred against the Government by the Contractors for the construction of the Parliament and Departmental Buildings at Ottawa, in connection with their first contract; also, of an Order in Council, passed on the 26th ultimo, authorizing the reference of these claims to Special Arbitrators.

(Signed,)

F. BRAUN,  
*Secretary.*

John Page, Esquire, Chief Engineer,  
Department of Public Works, Ottawa.

(Telegram.)

DEPARTMENT OF PUBLIC WORKS,  
Quebec, 16th November, 1864.

John Page, Esquire, Ottawa.

Government have decided not to interfere with third Arbitrator's nomination, leaving it entirely to you. Name a first-rate upright man, having both position and fame before public. If you don't agree, the Court will choose one according to law.

(Signed,)

J. C. CHAPAIS,  
*Commissioner.*

DEPARTMENT OF PUBLIC WORKS,  
Quebec, 18th November, 1864.

SIR,—I am directed by the Honorable the Commissioner to request, that in the event of the services of a gentleman of the legal profession being required, in the course of the arbitration between the Government and the Contractors and Architects of the Public Buildings Ottawa, you will be pleased to secure and engage those of R. W. Scott, Esquire, of Ottawa.

(Signed,)

F. BRAUN,  
Secretary.

John Page, Esquire,  
Superintendent, Public Buildings, Ottawa.

*Copy of a Report of a Committee of the Honorable the Executive Council, approved by His Excellency the Governor General in Council, on the 26th September, 1864.*

On a memorandum dated 11th August, 1864, from the Honorable the Commissioner of Public Works, representing that on the 7th December, 1859, a contract was entered into with Mr. Thomas McGreevy, for the erection of the House of Parliament at Ottawa, and on same day another contract was signed with Messrs. Jones, Haycock & Co., for the construction of two blocks of Departmental Buildings in the same city.

That for various reasons, the contracts were departed from in many instances.

That on the 27th September, 1861, all the works under the two contracts were suspended; and that, on the 18th April, 1863, the works were resumed by the same parties, under new contracts.

That several estimates have been made by Architects and Commissioners, with the view of establishing the state of the accounts between the Department and the Contractors, but none of these estimates have as yet been accepted.

That on the 18th of last April, Mr. McGreevy filed a claim in connection with his first contract, amounting to \$244,055.84, and Messrs. Jones, Haycock & Co., filed a claim of \$320,067.53, and they demanded that these claims should be referred to special Arbitrators.

The Commissioner states that after mature deliberation, in view of the many conflicting accounts now before him in reference to these contracts, and considering that a special arbitration would give greater satisfaction and offer greater security than the settlement would be final, than by referring them to the ordinary board of Official Arbitrators, the only other mode provided by law, he recommends that each of the claims be referred to a special arbitration under the statute.

The Committee advise that the recommendation of the Commissioner be acted on, and submit the same for Your Excellency's approval.

Certified.

(Signed,)

W. H. LEE,  
C. E. C.

The Honorable  
The Commissioner of Public Works.

*Copy of a Report of a Committee of the Honorable the Executive Council, approved by His Excellency the Governor General in Council, on the 16th of January, 1865.*

On the recommendation of the Honorable the Commissioner of Public Works, the Committee advise that all claims made, stated or alleged by Ralph Jones, Edward Haycock and Thomas C. Clark, carrying on business as contractors, under the firm of Jones, Haycock & Co., against Her Majesty, for matters arising out of their contract for the erection of buildings for the Public Departments at Ottawa, on account of the construction or connected with the execution of the said works, or on account of deductions made for the non-execution or non-fulfilment of the said contract, and all matters arising thereunder and in respect of such claims, whether made on the part of the claimants or of Her Majesty, be, under authority of the 64th sec. of cap. 28 of Con. Stat. of Canada, referred to F. W. Cumberland, Esquire, Architect and Civil Engineer, Arbitrator appointed by the said claimants; John Page, Esquire, Arbitrator appointed by Order in Council of the 17th

October, 1864, on behalf of Her Majesty, and James Robert Gowan, Esquire, Judge of the County Court of the County of Simcoe, third Arbitrator appointed by the two Arbitrators first above named; the claimants first giving security, to the satisfaction of the said arbitrators, as required by the said Act.

Certified.  
(Signed,)

WM. H. LEE,  
C. E. C.

The Honorable the  
Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,  
Quebec, 23rd January, 1865.

SIR,—I am directed by the Honorable the Commissioner to enclose to you an attested Copy of an Order in Council, dated 16th instant, having reference to certain claims presented against the Province by Messrs. Jones, Haycock & Co., arising out of the construction of the Departmental Buildings now in course of erection at Ottawa, and which claims the Government have refused to entertain.

This Order in Council, as you will observe, recites that you have been appointed by the Government as one of the arbitrators, that Mr. Frederick W. Cumberland has been appointed by Messrs. Jones, Haycock & Co., and that you and Mr. Cumberland have selected James Robert Gowan, Esquire, Judge of the County Court of Simcoe, as the third arbitrator.

And also, that all matters in relation to such claims, whether brought forward on the part of the claimants, or on behalf of Her Majesty, be referred to the arbitration thus appointed.

It will be the duty of the arbitrators to see that the security required by the Act is given by the claimants.

You will be pleased to communicate the within Order in Council to your colleagues, Messrs. Cumberland and Gowan.

(Signed,)

F. BRAUN,  
Secretary.

John Page, Esq., Chief Engineer Public Works,  
Ottawa.

[Here follows a letter, similar to the above, substituting the name of Mr. Thomas McGreevy, claiming on account of the Parliament Buildings.]

# R E T U R N

To an Address from the Legislative Assembly to His Excellency the Governor General, dated the 6th February, 1865; praying him to cause to be laid before that Body, Statements shewing the amount of money paid by the Sheriff or Treasurer of each County and City in Upper Canada to the Publishers of the *Canada Gazette*, for advertising the list of lands for sale for taxes in each such County and City, for the years 1862, 1863, and 1864; and also, the sum paid for the same purpose to each Local Newspaper in each such County or City, shewing in each case the time during which each such list was advertised.

By command.

WILLIAM McDUGALL,  
*Secretary.*

Secretary's Office,  
15th March, 1865.

[In accordance with the recommendation of the Joint Committee on Printing, the above Return is printed in a condensed form.]

[The answers from the Treasurers are to the effect that the moneys are paid through the Sheriffs.]

Sheriff's Returns wanted from Counties of Lanark and Renfrew, Prescott and Russell, and Simcoe.

## RETURNS FROM THE SHERIFFS OF THE FOLLOWING COUNTIES:—

(From John Smith, Esq., Sheriff of the County of Brant.)

No money was paid by me to either the *Canada Gazette* or local newspaper for advertising list of lands for taxes during the years 1862, 1863 and 1864; neither were there any such lists advertised for this county during that period.

(From Simon Fraser, Esq., Sheriff of Carleton.)

There has been only one sale of lands for taxes since October, 1861 for the County of Carleton. That sale was on the 12th January, 1864. The time this sale was advertised was as under, with the amount paid for same.

# RETURN

To an Address of the Honorable the Legislative Assembly, dated 5th February, 1865, for Statement of names and description of the Dioceses, Districts, Counties, Parishes, Townships, or Missions in Lower Canada, and also their respective populations by last census, and the date of the Canonical and Civil erection of the said localities.

By Command.

W. McDOUGALL,  
Secretary.

SECRETARY'S OFFICE,  
13th March, 1865.

N. B.—Localities opposite which no population is mentioned do not appear in the census book, and formed, in 1860, part of other neighboring localities, in the population of which their own was included.

---

---

# REPONSE

A une Adresse de l'honorable Assemblée Législative, datée le 15 février 1865, demandant un Etat indiquant les noms et désignation des diocèses, districts, comtés, paroisses, townships ou missions dans le Bas-Canada, et aussi leur population respective lors du dernier recensement, et la date de l'érection canonique et civile des dites localités.

Par ordre,

W. McDOUGALL.

*Secrétaire.*

SECRETARIAT,  
Québec, 13 mars 1865.

N. B.—Les localités vis-à-vis desquelles le chiffre de la population n'est pas mentionné, ne sont pas inscrites dans le dernier recensement, et ont, en 1860, fait partie de la population des localités voisines dans lesquelles la leur était comprise.

# REPORT

OF THE

## SUPERINTENDENT OF EDUCATION FOR LOWER CANADA,

FOR THE YEAR 1864.

---

To the Honorable  
The PROVINCIAL SECRETARY,  
Quebec.

EDUCATION OFFICE,  
Montreal, 14th March, 1865.

SIR,—I have the honor to submit my report on the state of public instruction in Lower Canada, for the year 1864.

This report is accompanied with the detailed statistical tables and extracts from the reports of the school inspectors, which, in pursuance of the decision of the Committee on Printing, are to be published only every three years.

The reports of the inspectors again refer to the obstacles to the working of the law and to the progress of primary instruction, which have so often been pointed out in my reports, and which have been, up to the present time, but partially remedied by the legislative and administrative measures adopted. I have also already indicated the steps to be taken to remedy this state of things, but other more pressing, if not more important, claims on their attention have, doubtless, hitherto prevented the Government and the Legislature from carrying out these suggestions, which I shall, nevertheless, again reiterate in the hope that, sooner or later, favorable circumstances may permit the accomplishment of another movement similar to that effected by the legislation of 1856, and by the administrative measures which were its result and development.

The most important points are :—

1st. The great difficulty still experienced in procuring school appliances, books, geographical maps, and all objects required in teaching.

2nd. The insufficiency of the majority of the schoolhouses, their contracted dimensions and disadvantageous interior distribution in respect of hygiene, and the promotion of public instruction.

3rd. The smallness of the salaries of the teachers, and their precarious position in consequence of frequent abuse of authority in relation to them on the part of the school commissioners.

The establishment of normal schools stands in the first rank among the measures

adopted with a view to increase the efficiency and improve the position of the teacher. In establishing these schools the same principle that obtained in the establishment of dissident schools led to the granting of separate normal schools for the two great religious divisions of the population, the Catholics and the Protestants.

An almost necessary consequence of this division was the establishment of two Catholic normal schools, and one Protestant normal school; the great mass of the Protestant population of Lower Canada being located in the western section, it followed that the Protestant normal school must be established at Montreal. But as the Catholic population of the Montreal section is numerically, if not relatively, more considerable than that of the Quebec section, it was difficult to avoid placing a Catholic normal school at Montreal; while on the other hand it was evident that the geographical position of that city, by no means a central one as regards the rest of Lower Canada, did not entitle it to enjoy alone the advantage of possessing these institutions. If this arrangement was open to the objection of increasing the expenditure, it also afforded the advantage of disseminating the training of teachers over a larger surface, and in such a manner as to reach all classes of the population and all sections of the country. There is no doubt whatever but that the three normal schools have attracted a far larger number of pupils and popularised the new systems of teaching much more effectually than a single school would have done.

Among the objections made to the establishment of these institutions, the first was the small number of pupils they would have, and, at all events, it was said the small number who would obtain diplomas, and, having obtained them, engage seriously in the work of teaching.

The following table of the total number of pupil-teachers who have attended the normal schools since their establishment is a sufficient proof that the first objection was unfounded. The number would have been much greater had not the insufficiency of the grant hitherto prevented the establishment of a female pupil-teacher's department in the Jacques Cartier School.

TABLE of the number of pupils who have attended the normal schools :

| School Year.           | Jacques-Cartier School. | McGill School.       |                        |        | Laval School.        |                        |        | Number of Male Pupil-Teachers. | Number of Female Pupil-Teachers. | Grand total. |
|------------------------|-------------------------|----------------------|------------------------|--------|----------------------|------------------------|--------|--------------------------------|----------------------------------|--------------|
|                        | Male Pupil-Teachers.    | Male Pupil-Teachers. | Female Pupil-Teachers. | Total. | Male Pupil-Teachers. | Female Pupil-Teachers. | Total. |                                |                                  |              |
| 1st session, 1857..... | 18                      | 5                    | 25                     | 30     | 22                   | .....                  | 22     | 45                             | 25                               | 70           |
| Session 1857-1858..... | 46                      | 7                    | 63                     | 70     | 36                   | 40                     | 76     | 89                             | 103                              | 192          |
| Session 1858-1859..... | 50                      | 7                    | 76                     | 83     | 34                   | 52                     | 86     | 91                             | 128                              | 219          |
| Session 1859-1860..... | 53                      | 9                    | 72                     | 81     | 40                   | 54                     | 94     | 102                            | 126                              | 228          |
| Session 1860-1861..... | 52                      | 5                    | 56                     | 61     | 41                   | 53                     | 94     | 98                             | 109                              | 207          |
| Session 1861-1862..... | 41                      | 10                   | 58                     | 68     | 39                   | 52                     | 91     | 90                             | 110                              | 200          |
| Session 1862-1863..... | 57                      | 8                    | 72                     | 80     | 39                   | 52                     | 91     | 104                            | 124                              | 228          |
| Session 1863-1864..... | 56                      | 7                    | 67                     | 74     | 34                   | 49                     | 83     | 97                             | 116                              | 213          |

The following table shews the number of diplomas granted in each school and for each degree of teaching. The number, it will be seen, is 723 in all; but this figure represents more than the number of pupils who left with a diploma, for many of them received two and even three diplomas successively. The number of graduates is, there

fore, less than the number of diplomas granted, and is divided as follows among the three schools:—

|                              |     |
|------------------------------|-----|
| Jacques Cartier School ..... | 106 |
| Laval School.....            | 233 |
| McGill School.....           | 236 |

575

This is more than one-third of the total number of pupils; and while, on the one hand, this proportion proves the severity of the examinations, on the other it establishes the success of these institutions.

DIPLOMAS granted to pupils of the normal schools since the establishment of these institutions:—

| Kind of diplomas granted. | Jacques-Cartier.     | McGill.              |                        |        | Laval.               |                        |        | Number of Male Pupil-Teachers. | Number of Female Pupil-Teachers. | Grand total. |
|---------------------------|----------------------|----------------------|------------------------|--------|----------------------|------------------------|--------|--------------------------------|----------------------------------|--------------|
|                           | Male Pupil-Teachers. | Male Pupil-Teachers. | Female Pupil-Teachers. | Total. | Male Pupil-Teachers. | Female Pupil-Teachers. | Total. |                                |                                  |              |
| Academy.....              | 12                   | 3                    | .....                  | 3      | 13                   | .....                  | 13     | 28                             | .....                            | 28           |

As to the willingness of the former pupil-teachers to teach, and their perseverance in teaching, the reports of the Jacques Cartier and Laval Normal Schools contain information which, on the whole, as pointed out by the principal of the latter school, almost surpasses our hopes.

I have no doubt whatever but similar results can, if necessary, be shewn as regards the former pupils of the McGill School.

The inference from these statements is that the vast majority of the former pupils have been engaged in teaching; that a large proportion of those who received their diplomas previous to 1862, and whose three years' term of teaching, specified in the application for admission to the school, is now expired, are still teaching, and seem to have adopted teaching as a permanent career; and, finally, that almost all those who have not taught, or who have done so but for a short period, have been able to plead the excuse of sickness or reasons entirely beyond their control. Those who have wilfully failed to carry out their engagement form but a very small proportion, and they have almost all paid the fine.

With these remarks, I now give the enumeration of the results obtained.

Of the 106 pupil-teachers who have obtained diplomas at the Jacques Cartier Normal School—

- 47 were teaching at the date of the report;
- 14 who had just received their diplomas, were commencing, or about commencing to teach;
- 3 were dead;
- 20 were no longer teaching, but had taught;
- 10 were continuing their studies at the Normal School;
- 12 had not taught.

Moreover, 14 were teaching or had taught without holding the diploma of the Normal School, having obtained that of one of the Boards of Examiners. This gives a total of pupils teaching, or who have taught after attending the school, including the 14 recently admitted as teachers, of 95.

Of the 47 former pupils holding diplomas who were still teaching at the close of the year 1864, previous to the distribution of diplomas—

|    |                    |   |        |
|----|--------------------|---|--------|
| 7  | have taught during | 7 | years. |
| 4  | “                  | 6 | “      |
| 1  | has                | 5 | “      |
| 5  | have               | 4 | “      |
| 9  | “                  | 3 | “      |
| 10 | “                  | 2 | “      |
| 10 | “                  | 1 | “      |

Of those who are no longer teaching—

|   |                    |   |        |
|---|--------------------|---|--------|
| 8 | have taught during | 4 | years. |
| 1 | has                | 3 | “      |
| 2 | have               | 2 | “      |
| 9 | “                  | 1 | “      |

In the case of the latter, as has been pointed out, ill-health and the difficulty of finding new situations have had some share; reducing to a very small figure the number of those who have voluntarily abandoned teaching after having engaged in it.

As regards the Laval Normal School, of the 81 pupil-teachers holding diplomas at the date of the report—

43 were teaching;  
 15 were no longer teaching;  
 2 were school inspectors;  
 4 had died;  
 2 were finishing their studies at college;  
 7 continued at the Normal School;  
 8 only had not taught.

81

Moreover, 10 who had not obtained a school diploma were teaching, or had taught, under diplomas from the Boards of Examiners; one of those who died, and two of those who had returned to the school, had also taught for some time; this gives a total of 79 teaching, or who have taught.

In like manner, of 152 female teachers holding school diplomas—

112 were teaching;  
 30 had taught;  
 4 had died;  
 4 were teaching at the school;  
 2 only had not taught;

152

Moreover, 16 were teaching under diplomas; 7 had taught in that manner; one died while teaching; and one returned to the Normal School, after having been engaged in teaching; making 167 teaching, or who have been engaged in teaching.

Of the 43 former male pupil-teachers, and the 112 former female pupil-teachers holding the diploma of the school, who were still engaged in teaching at the date of this report—

|    |   |                       |   |        |
|----|---|-----------------------|---|--------|
|    | 6 | had been teaching for | 7 | years. |
| 18 | " | "                     | 6 | "      |
| 23 | " | "                     | 5 | "      |
| 17 | " | "                     | 4 | "      |
| 27 | " | "                     | 3 | "      |
| 30 | " | "                     | 2 | "      |
| 34 | " | "                     | 1 | "      |

Of the 18 male pupil-teachers, and the 34 female pupil-teachers holding the diploma of the school, who have ceased to teach—

|    |   |            |   |        |
|----|---|------------|---|--------|
|    | 1 | taught for | 6 | years. |
| 5  | " | "          | 5 | "      |
| 4  | " | "          | 4 | "      |
| 8  | " | "          | 3 | "      |
| 20 | " | "          | 2 | "      |
| 14 | " | "          | 1 | "      |

Thus the Laval and Jacques Cartier Normal Schools have, since their establishment, sent out 341 individuals who have engaged in teaching, of which number 249 were teaching at the date of the reports.

Of the number of former pupils holding diplomas, 13 had taught for seven years—that is, since the first distribution of diplomas, and are at present still engaged in teaching; 23 for six years; 29 for five years; 34 for four years; this gives 99 former pupils who have taught for a greater number of years than are required by the regulation, and who, with the exception of 18, were still teaching at the date of the reports.

The number of those who had taught for three years amounted to 45; these, with the exception of 9, are still teaching at the present time. In these latter figures, those who have taught with a diploma from the Board of Examiners, or without any diploma, are not taken into account. It is also to be observed that amongst those who have given up teaching are included two teachers who have been promoted to the important office of school inspector, several others whom their health has compelled to retire, and some who, as has been seen above, have returned to the Normal School to prepare themselves to acquire a diploma of a higher class. Lastly, the total number of pupils holding diplomas who have not engaged in teaching at all only amounts to 22, and of this total a portion is to be ascribed to illness and accident.

In the absence of positive information as to the results obtained with respect to the former pupils of the McGill Normal School, the number of pupils who have gone forth from our Normal schools and engaged in teaching may be safely set at 500, and the number of those who are now teaching at 400.

But even supposing that such favorable results had not yet been attained, there would be no ground for discouragement, for the usefulness of institutions of this description is not to be calculated only by the number of teachers who have gone forth from them, but also by the influence which they exercise directly and indirectly over the instructing body. Now, there can be no doubt but that the establishment of Normal schools, and the dispersing over various parts of the country of the pupils from those schools, has given rise to a great spirit of emulation, and contributed to diffuse better systems of instruction. A considerable number of the pupils from the schools have even penetrated to the most remote parts of the country, and are teaching in new settlements

in which, not very long ago, some difficulty was experienced in obtaining teachers who were merely holders of diplomas from a Board of Examiners.

The attention of the Government and of the Legislature has been frequently drawn to the urgent necessity of erecting suitable buildings for the Laval and Jacques Cartier Normal Schools. The arrangement by which the former of those schools is still located in a hired building, to which is attached no court-yard or play-ground, is far from being economical or advantageous in any respect.

With respect to the Jacques Cartier Normal School, I have had the honor of frequently representing to the Government that the wing of the old Government House, occupied by that institution, is not only insufficient for the purpose, but also that, in consequence of irremediable defects in construction, its ruin is impending, and may from day to day place the lives of professors and pupils in jeopardy. The erection of these buildings is therefore one of the most urgent requirements of this department, if it is wished to persevere in normal instruction and the training of teachers.

Among other means calculated to increase the efficiency of the body of teachers hitherto employed, are the establishment of a savings' fund for aged or sick teachers, the publication of a Journal of Public Instruction in both languages, the establishment of conferences of teachers, and the re-organization, under more stringent regulations, of the Boards of Examiners.

In several previous reports it has been already proved that the savings' fund can never attain a flourishing condition until the Government grant shall have been increased by one-half.

Conferences of the different associations of teachers which have been formed in Lower Canada have been attended by an encouraging number of the members of the instructing body; it is, however, to be desired that all teachers should participate at least once or twice during the year in the great advantages which may result from these institutions. School commissioners have been strongly recommended to grant freely to teachers leave solicited for this purpose, in view of the certain and ample compensation which they will receive for the time lost in the improvement of the systems of education, and the progress of all kinds which will ensue. The teacher's courage is tempered; he feels revived by contact with his fellows and his superiors, and returns to his daily labor at the conclusion of the conferences with renewed energy. The different essays read by the teachers, and the sketches of the educational discussions which followed in those associations, have constituted one of the most important and useful resources in the editing of the *Journal of Public Instruction*.

The re-organization of the Boards of Examiners, and the enforcing of new regulations, appear to have had a salutary effect on the composition of the educating body. Several branches of instruction have received a new impulse in our primary schools in consequence of the publication of the programme of examination.

One of the most important points of the new regulation is the inspection of the Boards by the delegates of the Council of Public Instruction. I subjoin to this report those which have been hitherto submitted by the delegates in question.

The following is a summary of the annual statistical returns which the secretaries of the Boards are bound to transmit to this Department:—

ANNUAL STATISTICAL SUMMARY of the Boards of Examiners in Lower Canada, for the year 1864.

| BOARD AT                       | Duration of the sittings, in days. | No. of candidates examined. | Average number of teachers examined daily. | Number of diplomas granted for academies, 1st class. |                  |                | For Model Schools, 2nd class. |                | For Elementary Schools, 1st class. |                | For Elementary Schools, 2nd class. |          | Number of candidates admitted, and classification of diplomae. |                    |     | Grand total. | Number of candidates rejected. |

This table and a simple inspection of the registers kept by the Department prove that there is now so great a number of male and female teachers holding diplomas that every locality, even the poorest and most remote, can obtain them. A greater degree of strictness in the examinations is therefore more than ever requisite, and would be conducive to the interests of the schools and to those of the teachers themselves. To the competition of ill-qualified male or female teachers, although holders of diplomas, with competent teachers, is to be ascribed the fact that the teachers' salaries remain stationary, and in many places even decrease.

At first the law gave discretionary power to the commissioners and trustees with respect to the engagement of teachers, and their dismissal and salaries. The great difficulties which the establishment of the schools presented at first may account for that legislation; but the abuses which resulted from it induced the Legislature to place some bounds to the power of the commissioners. By a summary petition addressed to the Superintendent, the dismissed teachers may, if they have been unjustly dismissed, obtain compensation, which is deducted from the share of the grant allotted to the municipality for the following half-year.

The Department has also revived a regulation made by my predecessor, which directed the commissioners to give three months' notice before the expiry of their engagement to teachers whom they did not intend to retain in office for another year.

Of the total number (743) of candidates, 110 were rejected and 633 were admitted; 6 with academy diplomas, 28 with model school diplomas, and 599 with elementary school diplomas.

The briefness of the term of engagement, a year at the longest, provides the commissioners with easy means of getting rid of an individual whose only fault is sometimes that of not having conciliated their personal friendship or having a rival in a male or female relation of some one of them.

Accordingly, it was decided that, failing the three months' notice, the engagement should be held as continued, and that the dismissal of a teacher in such a case would need to be justified by some grounds specified and admitted in the statute as sufficient. This decision of the Department has been frequently ratified by the Government. The courts of law have, moreover, decided that the dismissal of a teacher must always be authorised by the strictest principles of justice, and that the discretion permitted to the commissioners by no means exempts them from an action for damages on the part of a teacher, requiring them to prove the facts on which they rely to justify their proceeding.

It would appear that the teacher must be, by all these provisions of the law, very sufficiently protected from arbitrary and unjust dismissal. But if we believe this we know little of the ingenious spirit of persecution arising from the pettiest interests in some places. As a means of evading the law, and the regulations of the Department, it has been stipulated, in treating with teachers, that they should be made subject to dismissal at any moment and for any or no reason, or three months' notice has been given beforehand, and without distinction to all that their engagement would not be renewed, in order, as the commissioners thought, that their salaries might be reduced by offering the places to those willing to accept the lowest remuneration, and retaining none but those who would be satisfied with the smallest salaries. These stipulations and wholesale notices, having

for their object the evading of the law and the regulations, have frequently been declared null and void, and the commissioners have been informed that when they have recourse to those practices they will forfeit all right to their share of the Government grant.

Notwithstanding this, but little progress has been made in the raising of the salaries of male and female teachers, and the question has been long discussed, and is still being discussed in the associations of teachers and in the newspapers, whether it would not be expedient to fix a *minimum* of salary; but besides that that *minimum* would have to be fixed at a low rate, with the alternative of seeing closed an even greater number of schools than were closed in the course of the past and of the present year, in consequence of the determination which was come to no longer to tolerate teachers not holding diplomas; there would also be this disadvantage that many municipalities in which higher salaries are at present given would content themselves with the *minimum*, which, as Mr. Inspector Dorval remarks in his report, would speedily become a *maximum*.

The increase in the school-rates may cause it to appear strange that there is so little increase in the salaries of the lay female teachers; but this increase serves in part to counterbalance the diminution of the grant to each municipality in consequence of the total grant remaining the same. It must be observed, moreover, that it is precisely in those parishes in which the largest amount is collected in school-rates, and where, by consequence, male and female teachers might be liberally remunerated, that there exist academies or boarding schools, directed by persons belonging to religious orders, or academies under the control of trustees and beyond that of the commissioners.

The following table of school-rates since the year 1856 exhibits continuous and steady progress. It is to be remarked, however, that all the taxes imposed are not always regularly collected. The Department, in a direct manner, and also through the school inspectors, endeavors to impart an impulse to the collection of these rates; and in the case of localities where there is real negligence in this respect, payment of the grant is suspended. Generally, according to the reports of the inspectors, and the accounts sent in by the commissioners, there is a greater degree of activity in the collection of arrears. In some parishes considerable amounts have been collected within a few years.

The difference between the rates collected in 1853, amounting to \$165,843, and those of this year, which amount to \$593,264, gives proof of very great improvement in the disposition of the population in relation to public education. The increase in the land assessments over those of 1863 has been \$15,055, and that in the monthly fees has been \$13,399, making a total of \$28,454—a more considerable increase than that of the preceding years.

TABLE of assessments imposed annually since the year 1856.

The following table gives an abstract of the general results obtained, according to the statistics since 1853; but it is well to observe that the total of fees paid in the colleges, and many other sums expended for education, are not included in it.

TABLE of the progress of Public Instruction in Lower Canada, since the year 1853.

The increase in the number of educational institutions of all classes over last year is only 52; that of the total number of pupils is only 3,608. As I have already pointed out, the necessity of requiring male and female teachers to be holders of diplomas in all places, without exception, as provided by law, has of late years caused the closing of a certain number of schools in some districts. In others, in which population increases slowly, the number of pupils attending the primary schools is nearly as great as can be expected under

the very unfavorable circumstances in which they are situated, in consequence of the severity of the climate, the remoteness of the families, scattered sometimes at great distances, and the poverty of the inhabitants. There are, however, still many places in which the absence of the children from school is to be attributed to the apathy of the parents, independent of the wants and difficulties which an agricultural population, a part of which is poor and compelled to engage in severe labor requiring the services of all the family, experience in this respect.

The schools are now as numerous and as generally dispersed through the municipalities as is desirable for their efficiency, and possibly more so. It has, therefore, become necessary to suppress all those which are not attended in a satisfactory manner, and to attach the sections containing them to adjacent sections. The action of the Department has been taken with this object in view, and the same course will be followed in future. It has already happened that, the attention of heads of families having been called by this means to the necessity of sending their children regularly to school, if they are desirous of retaining it in their midst, there has been some improvement; and in any case it is but just to suppress schools which are not sufficiently attended, and which entail too great expense in proportion to the results which they produce.

The levying of the monthly fees, which should be effected indiscriminately for children who do not attend the schools, as for those who attend them, is one of the most certain means of obtaining a regular and numerous attendance. The indulgence shewn to certain municipalities which levied, by means of assessment, an additional sum to make up for the monthly fees, should be discontinued, if the attendance at their schools does not become more general.

The following table of the number of children learning the most important branches of primary education shews a considerable increase for this year in respect of history, geography, parsing and French grammar. Last year there was a diminution in respect of English grammar; this year there is an increase. The diminution of 2,221 in the number of pupils reading well appears to me difficult to explain. Had the diminution been gradual, it might have been attributed to a difference of appreciation on the part of the masters or the inspectors:—

COMPARATIVE TABLE, shewing the number of children learning each branch of instruction, since the year 1853.

As the rights of the dissentients have for some time been a subject of discussion in this part of the Province, I here annex a table of the dissentient schools, both Catholic and Protestant, with the numbers of the pupils belonging to them respectively. By this it will be seen that the Catholics have an interest in the separate schools as well as the Protestants, although neither schools nor pupils equal those of the latter in number.

TABLE OF DISSIDENT SCHOOL INSPECTORS AND THEIR PUPILS.

| NAMES OF SCHOOL INSPECTORS.                     | No. of Catholic dissentient schools. | No. of pupils. | No. of Protestant dissentient schools. | No. of pupils. |

|                                                 | 48                                   | 1830           | 134                                    | 4625           |

I had the honor to submit to the Government the draft of a Bill to settle the difficulties existing, relative to the interpretation of the clauses respecting the distribution of the taxes of non-residents, and those of corporations or incorporated companies.

Independently of the obscurity or insufficiency of some of its clauses on many other points, the law contains moreover, other contradictory provisions. The frequent amendments which have been made would seem to call for a complete revision of it, and the passing of a new law.

In the process of revision, however, the less variation or departure it made from the general principles of the present school law, the more secure we should be of a favorable result.

The most urgent want of this Department is that which I have constantly represented—the regulation, namely, of its financial difficulties. These difficulties existed previous to 1855, before my appointment to office and the passing of the law of Superior Schools. The Legislature voted an annual grant for superior education, but with a proviso that only a certain portion of the amount should be receivable from the Consolidated Revenue

of the Province, while the residue should be a special charge on the Jesuits' estates and on the balance of the grant for common schools. Now, the sums voted every year being always in excess of the two last-mentioned sources of supply, a considerable deficit was the result. The passing of the law for superior education continued the same state of things; the provisions of that Act, relative to the sources from which the funds for its support were to be derived, not differing in any respect from those which are the subject of my remarks. The portion of Lower Canada in the annual supplementary grant for common schools is exhausted, without the possibility of increasing the allowance to those schools; nay, a deficit remains, which now nearly equals the capital of the fund for superior education. It follows that it is very difficult to increase the different grants which I have, in this as in many previous reports, represented as insufficient.

In the list of the improvements which are thus delayed is the formation and the increase of parish libraries, the allowance for which cannot be deducted, in the present state of things, from the primary school fund, already insufficient. Such institutions are, nevertheless, of the highest importance. In all other countries the establishment of such libraries is considered as essential for the completion and confirmation of popular education; and I had the honor to mention in my last year's report the efforts recently made in France to found and develop such institutions.

For the reasons above stated, it has also been impossible to afford any relief for the erection or repairs of schoolhouses; and this is so much the more to be regretted, that in affording such relief an opportunity would arise of insisting on improved methods of erecting and laying out such buildings, which are much needed.

To conclude: both the ordinary grant for common schools and the supplementary aid to poor municipalities stand in need of an increase, for this, the strongest reason of all, that while the amount for distribution remains the same, the subsidy to each municipality is from time to time diminished, as new ones become claimants, or the population in certain of them increases, though it remains stationary in others.

This is the more to be regretted, that the withholding of payment of the grant is the most effective—nay, we may term it the only effective—means which the Department possesses to enforce the observance of its instructions and regulations; and that the smaller the grant is in amount the less the influence which it confers is regarded.

I have the honor to be, sir,

Your obedient servant,

PIERRE J. O. CHAUVEAU,

Superintendent of Education.

## APPENDIX No. 1.

## SPECIAL REPORTS.

## REPORT

ON THE

## JACQUES CARTIER NORMAL SCHOOL,

FOR THE SCHOOL YEAR 1863-4.

To the Honorable P. J. O. CHAUVEAU,  
Superintendent of Education for Lower Canada, &c., &c.

SIR,—I have the honor to submit my report on the state and progress of the Jacques Cartier Normal School during the term of 1863-4.

## I.

I can only repeat in this report what I stated in those of previous years, and more especially in the report of last year. The progress first evinced in 1858-9 continues from year to year. Thus the young candidates at the examinations for admission generally possess a better fund of knowledge and a more decided vocation. For the first time, since the opening of this school, we have not been exposed to the inconvenience invariably resulting from the leaving of old pupils and the necessity of admitting others in their stead. With the exception of two or three pupils, one of whom underwent a long and painful illness, and the other consented to keep a school in Upper Canada, all those who had entered the classes in the month of September, 1863, were still pursuing their studies at the end of June last.

The professors have not relaxed in zeal for an instant. I have been enabled, with their assistance, to continue the application and development of the programme adopted from the first.

## II.

Fifty-six pupils have been admitted and classed as follows:

|    |                               |
|----|-------------------------------|
| 6  | in the class of the 3rd year. |
| 18 | do do 2nd do                  |
| 32 | do do 1st do                  |

—  
56

We had four day-pupils. Among the latter was one of our former pupils, Mr. E. U. Archambault; Principal of the Commercial School in this city. That gentleman followed the course required for an academy diploma.

We had in the course of the year three examinations: the first at the end of December, the second at the end of March, and the last in the beginning of July.

After the examinations, I had the honor to submit to you the names of those entitled to a diploma, and who intended to commence teaching at once, namely:

- 5 for the academy diploma.
- 15 for the model school diploma.
- 4 for the elementary school diploma.

---

24

Bear in mind, sir, that I set aside the names of those who had asked permission to continue their studies in a higher class, and who were therefore entitled to a diploma. Nevertheless, we have nearly reached the greatest number of diplomas ever distributed at one time in this school, which was 25.

### III.

There are now 106 pupils of the Jacques Cartier Normal School holding diplomas, namely:

- 13 for academies.
- 62 for model schools.
- 31 for elementary schools.

---

106

This gives a yearly average of  $13\frac{2}{3}$

Teachers who enter the Normal School bind themselves to teach only for three years. Hence all those who obtained their certificates previous to 1862 are now discharged from their promise, and we should be entitled to count but 26 pupils keeping schools of all classes. Now, so far as I can ascertain, there are 47 still teaching. With regard to the others, their number is relatively and in point of fact small, as shewn by the following tables:

- 1 has interrupted his studies on account of ill health. He is to resume;
- 1 was unable to find a situation during the past year;
- 1, after giving up teaching, has been admitted again;
- 6 are pursuing their studies in colleges or elsewhere;
- 3 are as yet unable to teach, by reason of ill health;
- 2 have died.

---

14

If we add to that number the pupils who teach and the pupils who have just received their diplomas, we have 86. There are, therefore, but 20 teachers in all who have not continued teaching beyond the period strictly required (making a yearly average of 2.5), whereas 56 were exempt from the obligation.

Such a result must be satisfactory to those who, like yourself, sir, take an interest in the success of the Normal schools, and in the progress of elementary instruction.

### IV.

The Model School has been attended during the year by 128 children; the two languages being about equally represented. They have evinced very nearly the same degree of stability as the pupils of the Normal School. I have made no change either in the programme or in the distribution of subjects of study. We have every reason to be satisfied with the good-will and progress of the children. Of those who have finally left the school, 16 are to enter college, and 15, at the least, are to become clerks or apprentices.

### V.

I stated at the beginning of this report, that, generally speaking, the pupils presenting themselves for the examination for admission are found to possess a better fund of know-

ledge. In some respects, however, there is room for improvement. Sacred history, the history of Canada, and geography are not sufficiently generally taught.

With regard to sacred history, this neglect is doubtless the result of the impression prevailing among the local authorities that the children can obtain a sufficient knowledge of religion by attending catechism. We endeavor to impress upon our pupils that they must never omit to make the children study this indispensable branch of all religious instruction.

I believe that there are many difficulties in the way of teaching the history of Canada and geography, and particularly the geography of Canada. I shall refer only to the principal obstacle—the want of maps and atlases. Nothing can supply this defect; the knowledge and skill of the teacher cannot compensate for it. The teacher must, it is true, be able to draw on the board the objects he explains to his pupils. But the outlines he rapidly sketches seldom afford a precise idea of all places and of their relative position; they can never leave a lasting impression on the memory. The maps furnished to schools are maps for close study, crowded with details, which, at a distance, present to the children the appearance of a confused mass. Wall maps, which cost but very little more, are required. With the help of the latter, the teacher can give excellent oral instruction, and save the children the expense of purchasing books. The want of wall maps and of special maps in the atlases is most severely felt as regards the geography of our own country. It is painful to think that our schools are furnished with none but small maps, prepared carelessly enough abroad; and that the atlases furnished to the children afford them fewer details about their country than about countries far smaller in Europe and Asia. Hence it is that the geography of Canada and that of British North America are studied as rapidly as that of Spain or of Belgium, the teachers having no other guide but a work prepared for all countries. A sound system of instruction would, above all things, inculcate the study of the physical, practical, agricultural, mineral and commercial geography of the country, with the fullest possible development. A new and thinly-settled country such as ours requires above all things to be known. I do not hesitate to assert that home colonization and foreign emigration would be in inverse proportion to what they now are if geography were properly taught.

I need not add that the teaching of our national history is considerably retarded by the want of historical charts. In asserting the fact, I am supported by the experience of many years. The progress and extent of the colony can be understood and retained only with difficulty when the imagination is forced to seek for ideal indications on a contemporary chart. A very small number of historical charts would suffice.

I think it would be an easy means of impressing in the memory of the young the events of a past not devoid of glory, and which the future may one day revive. At the present day, history, geography, statistics and agriculture afford, in abundance, the elements for the preparation of such charts.

But the undertaking cannot be attempted by private individuals. I am convinced that it would require the encouragement and careful supervision of the Government.

Such, sir, are the remarks I deemed my duty to submit to you in behalf of a cause which already owes you so much.

I am, with the most profound respect, sir,

Your humble servant,

H. A. B. VERREAU, Ptre.,  
Principal of the J. C. School.

Montreal, September, 1864.

# REPORT

ON THE

## MCGILL NORMAL SCHOOL,

FOR THE SCHOOL YEAR 1863-4.

To the Honorable P. J. O. CHAUVEAU,  
Superintendent of Education for Lower Canada, &c., &c.

SIR,—I beg leave to present the Annual Report for the Seventh Session of the McGill Normal School.

The number of students entered in the past session is 74; of these, 7 are males and 67 females; 34 are resident in Montreal, 40 from other places; 20 are studying for the model school diploma, 53 for the elementary school diploma, and one has entered for the academy diploma.

In the first session, 40 teachers in training have been recommended for diplomas, viz: 2 for the academy diploma, 14 for the model school diploma, 24 for the elementary diploma. Of these, 6 are males and 34 females; 19 are resident in Montreal and 21 elsewhere. These numbers raise the total number of diplomas granted to 312, and the total number of persons who have received diplomas to 236.

The model schools have, as usual, been full (the number of pupils being 300), and they have been conducted with their usual efficiency. In the past session, Professor Robins, as superintending professor on behalf of the normal school, has devoted some time to these schools, and more especially to those relative to the normal school, and to the improvement of the course in the primary school. Mr. McGregor, Miss Coady and their assistants have labored with their usual assiduity and success.

The Bonaventure Street Model School is in a prosperous state, and under the oversight of Professor Hicks, and with an efficient staff of teachers, two of whom have been trained in this school, it has worked in perfect harmony with the Normal School.

I have to express my entire satisfaction with the diligence and zeal of the professors and instructors of the normal school, who have co-operated heartily with me in all my endeavors for the promoting of the great ends which we have in view. I may state that since the commencement of the school, it has been my practice to convene a meeting of the professors and teachers monthly, or more frequently when occasion required, for free conference as to the interests of the school, and that at these meetings I have fully explained all my plans, and have submitted them to discussion and invited all the suggestions which might have occurred to others.

I attribute much of the prosperity of the school to the unity of purpose and action secured by these meetings, and to the hints that have been thrown out and discussed as to evils affecting the school or measures for its improvement.

I mention this now as due to the officers of the school, and to place it on record as an advice to those who may, in future, have the management of its affairs.

I have also to express my obligations to the ministers of the city, who have conducted the religious instruction classes of the normal school.

In the course of the past session, a list has been prepared and published, of the teachers who have taken diplomas of the normal school. This has been rendered necessary by complaints which have reached me that misapprehensions have occurred as to persons

holding a diploma. I have also been desirous to obtain full and accurate information as to the residence and occupation of our teachers. My inquiries on the subject are not yet complete, but in so far as they have extended, I have had much reason to be satisfied with the number engaged in teaching, their wide diffusion throughout the province, and the high appreciation of their services on the part of commissioners and people.

The Association of Teachers in connection with the normal school has held its meetings regularly during the session and several very important lectures and addresses have been delivered before it; and it has obtained the aid and countenance of nearly all the leading teachers of the city. Its annual convention was held on the 3rd and 4th June, and was attended by representatives from most other associations. The constitution of a Provincial Association of Protestant teachers was agreed to, and it is proposed to hold its next convention in the St. Francis District in June next.

The library of the school has been increased by the addition of a number of valuable educational works, and it is my purpose, as far as the limited means of the school will allow, to add from time to time the best works of this character that may appear, in order to form as complete an educational library of reference as possible.

I regret that it has been found impossible to allow for the ordinary professors of the normal school the increase of salary recommended by the corporation, some time ago, or to erect the chemical and apparatus room, or repair the retaining wall of the play-ground as also recommended some time ago. It is to be hoped, however, that ere long these expenditures, so important to the school, will be authorized by the Government. In the coming session, the arrangements of the school remain nearly the same as heretofore, with the exception of those for the academy diploma. I directed attention to this subject in my report of last year, and since that time, it has occupied much of my thoughts, and has been thoroughly discussed with the professors.

I have from the first been of opinion that the academy teachers should, if possible, be university graduates, with the addition of some training in the art of teaching, and I have to express my thanks to yourself and to the Council of Public Instruction for the prompt manner in which my application on this subject was responded to, by the passing of a regulation empowering the normal school to give academy diplomas to graduates of universities in Lower Canada, on their passing an examination on subjects relating to the practice of teaching, and in other respects complying with the regulations.

For such teachers in training as cannot enter college, or desire preparation for doing so with the view of teaching in academies, we have now arranged a course of study extending over a third year. To enable this to be done effectually, I have applied and obtained permission to give an increased bursary to such students, and have arranged with Mr. McGregor, the headmaster of the Boys' Model School, without additional salary, to give instruction in classes to the senior students of the normal school.

The only additional expense incurred will be a small sum payable from the model school fees, for an additional assistant in the Boys' Model School.

The work of the normal school will thus be complete, according to its original intention, and the school will be enabled to embrace the interests of the higher as well as of elementary education. I do not, however, anticipate a large class for the academy diploma in the first instance. Some time will be required to prepare pupils for entrance, and two sessions may elapse before the arrangements now made will bear fruit.

I have the honor to be,

Sir,

Your obedient Servant,

J. W. DAWSON,

Principal, McGill Normal School.

22nd June, 1864.

REPORT  
ON THE  
**LAVAL NORMAL SCHOOL,**  
FOR THE SCHOOL YEAR 1863-4.

To the Honorable P. J. O. CHAUVEAU,  
Superintendent of Education for Lower Canada,  
Montreal.

SIR,—During the School-year 1863-64, our classes have been attended by 83 pupils, of whom 34 were male and 49 female, teachers.

Among the subjects of study to which the attention of our pupils has been directed, I will venture to make special allusion to *writing*, that branch having been made the subject of very particular care on the part of Professor Lacasse, and the study having been attended with marked success on the part of the pupils. After a few weeks' instruction the improvement in the hand-writing of many of them has been found to be truly astonishing.

The attached schools continue to be well attended, and produce satisfactory results.

Thanks to the devotion of the professors, the master of studies, and the ladies of the Ursuline Convent, and also to the application and good-will of the candidates for diplomas, you were enabled to reward the exertions of several of them by distributing, on the 4th July last, 27 certificates to female pupil teachers, 6 of which were for Model and 21 for Elementary Schools, and, on the following day, 13 certificates to male pupil teachers, of which 6 were for Model and 7 for Elementary Schools. The total number of diplomas obtained in the school thus amounts to 253. Of this number 13 are for Academies, 133 for Model Schools, and 107 for Elementary Schools. Some candidates having successively obtained diplomas of different grades, the number of pupils holding diplomas

|                                 |     |
|---------------------------------|-----|
| For Academies, amounts to.....  | 13  |
| For Model Schools.....          | 121 |
| And for Elementary Schools..... | 99  |

Total..... 233

Of the 81 male teachers holding diplomas from this school,

- 43 are now employed in teaching ;
- 15 are no longer teaching ;
- 2 are school inspectors ;
- 4 are deceased ;
- 2 are completing a collegiate course ;
- 7 remain at the Normal School ;
- 8 only have not engaged in teaching

Besides these, 3 are teaching with a diploma from the Board or without a diploma ;  
 7 have taught do do do  
 1 died while engaged in teaching ;  
 2 returned to the Normal School after having taught.

18

81

94

In like manner, of 152 female teachers holding diplomas from the school,  
 112 are now engaged in teaching ;  
 30 are no longer teaching ;  
 4 are dead ;  
 4 remain at the Normal School ;  
 2 only have not engaged in teaching ;

152

Besides, 16 are teaching with a diploma from the Board, or without a diploma ;  
 7 have taught do do do  
 1 died while engaged in teaching ;  
 1 returned to the Normal School after having taught.

25

152

177 pupils.

Of the 43 male teachers and 112 female teachers at present engaged in teaching,

|                                                               |      |
|---------------------------------------------------------------|------|
| 4 male and 2 female teachers have been teaching for 7 years ; |      |
| 6 do and 12 do do do                                          | 6 do |
| 5 do and 18 do do do                                          | 5 do |
| 2 do and 15 do do do                                          | 4 do |
| 7 do and 20 do do do                                          | 3 do |
| 9 do and 21 do do do                                          | 2 do |
| 10 do and 24 do do do                                         | 1 do |

Of the 18 male teachers and 34 female teachers who have ceased to teach (including the inspectors and those deceased),

|                                                  |      |
|--------------------------------------------------|------|
| 0 male and 1 female teacher taught for 6 years ; |      |
| 2 do and 3 do do do                              | 5 do |
| 1 do and 3 do do do                              | 4 do |
| 2 do and 6 do do do                              | 3 do |
| 6 do and 14 do do do                             | 2 do |
| 7 do and 7 do do do                              | 1 do |

These results almost exceed our expectations.

In the course of the year died Mr. Charles Tétu, aged 23 years, a former pupil-teacher, holding an academy diploma. He had been compelled, by illness, to give up the St. Paschal Model School, which he conducted to the satisfaction of those interested. The Laval Normal School has also suffered another heavy loss by the death of the reverend sister St. Henri, a very distinguished former pupil, who rendered important services, in the way of instruction, to the venerable community of the Ursuline Ladies, to which she had belonged for four years, and especially to the female pupil teachers. She passed away to a better world on the 16th August last, aged 23 years. She was a daughter of Mr. Daniel McSweeney, a teacher in this city.

I have the honor to be,

Sir,

Your humble and obedient servant,

JEAN LANGEVIN, Ptre,  
 Principal.

Quebec, 1st September, 1864.

## REPORTS

ON THE

## INSPECTION OF THE BOARDS OF EXAMINERS.

BY DELEGATES FROM

## THE COUNCIL OF PUBLIC INSTRUCTION.

To the Honorable the COUNCIL OF PUBLIC INSTRUCTION for Lower Canada :

In accordance with a resolution of your honorable Council, I inspected, during the month of October last, the Boards of Examiners of Rimouski and Kamouraska, and I have the honor to submit the following result of my inspection :—

BOARD OFFICE, RIMOUSKI.

The meetings of the board are held at the Industrial College of Rimouski. The members of the board are very assiduous in their attendance at the sittings. The registers and documents are kept in perfect order by the secretary, Mr. Dumas, who is one of the Professors of the College. The register of proceedings contains the names of the examiners present, with the names of the candidates who have received diplomas, also the candidates sent back for a new examination, with the certificates of morality and baptismal extracts *in extenso*. These documents appear to me to be quite regular, with the exception of the certificates of morality obtained from the priests, which seem to lack the certificate of religious instruction required by the by-law. I advised the secretary to make an index to his register of examinations, without which it would be very difficult in future years to make the necessary searches.

There have been five meetings since the establishment of the board. Fifteen candidates came forward for examination; twelve obtained diplomas, four of whom after a second examination; seven candidates were sent back after the first examination, and three after the second. Only three first-class diplomas were granted.

These facts are sufficient to shew that there is a sincere desire, on the part of the board, to carry out the terms of the by-law, and I am convinced that such a desire really exists. Nevertheless, an inspection of the samples of dictation proved that in some cases sufficient strictness was not shewn. Three of these samples are not of the required length of half a page for a first trial. In cases where a second trial was required the dictation did not exceed one quarter of a page. The board seems to be under the impression that the length prescribed by the by-law is not applicable to a second trial. In two of the dictations on which first-class diplomas were granted, there were several mistakes, and the

board should merely have granted second-class certificates. Five of the dictations on which second-class diplomas were granted contained, in my opinion, too many mistakes. In one of them I found eleven mistakes, some of them very flagrant. In another I found seven. Although these candidates were able to reply satisfactory to the questions asked according to the programmes, it seems very doubtful, from the result of the dictations, whether they possess sufficient education to teach. I apply this remark particularly to the two candidates above alluded to.

The notes furnished to the candidates in the branch of writing seem also, in certain cases, to be given indulgently; however, as a general rule, the writing is satisfactory, particularly when we consider the difficulties to be encountered in writing from dictation in the presence of several persons, with that nervousness that can easily be understood.

I had an opportunity of conversing with Rev. Mr. Potvin, member of the board, and with Mr. Dumas, the secretary, and I have no doubt that the intention of the board is to increase the strictness of the examinations. The last few meetings of the board amply prove this. The views entertained by these gentlemen, and the importance they attach to the possession of the requisite intelligence and discernment by the candidate, seem to me to meet, in every respect, the intentions of your honorable Council.

I was informed that the four questions absolutely prescribed were seldom considered as a limit. In many cases on the contrary—several other questions were asked, whether in the programme or not, in order that the board might be convinced that the candidate had not learned a certain number of replies by heart.

Although the programme in the branch of art of teaching is not yet in use, the board thought proper to ask questions on this subject, and the result was quite satisfactory. The candidates had prepared themselves, with the assistance of Mr. Langevin's published replies and the articles in the *Journal de l'Instruction Publique*.

The following table of minutes of examination will shew that the programmes that create the greatest difficulty are those of Sacred History, Geography, and the History of Canada.

There is no doubt that after a certain number of candidates have failed in their examination in these branches, less importance is attached to them in the schools and educational establishments in which young people prepare for the examinations.

## BOARD OFFICE, KAMOURASKA.

The examinations were formerly held at the Court House; since it has been burned down they have been held at Mr. Beaupré's hotel. Mr. Dumais, who has filled the situation of secretary for a number of years, keeps the registers and documents at his own house; I examined them at his domicile. He has been prudent enough to enter in the new register furnished to him by the Department the names of all the old recipients of diplomas from the board. I recommended him to prepare an index of these, as it seemed to me to be almost indispensable. I only examined in detail the entries made since the adoption of the new by-law. Several of these entries do not quite agree with the diplomas granted, but, in almost every case in which a discrepancy exists, it would appear as if the candidate should have received a first-class diploma, while he only received a second-class one. The certificates of morality do not contain the certificate of religious instruction, and, in the greater number of cases, there is only a certificate of age, without any reasons being assigned for the neglect in forgetting to produce the baptismal extract. I regret also to be compelled to report that not less than five vouchers of dictation were found missing.

Among the samples of dictation produced, a large number were very satisfactory, and perfectly corroborated the minutes of examination, which are very favorable. I shall mention specially those of Misses Louise Ouellet, Céline Lapointe, Philomène Elzter, Olive Thériault, Césarine Martin, Angèle Délisle, Arthémise Bard, Olive Dumont and Virginie Lébel. The four latter are faultless, and these young ladies obtained No. 1 in all branches of examination. In reading these dictations and the notes of examination I became convinced that education had made rapid progress in this district. Mr. Dumais, the secretary, who has held the office for a long time, informed me that there had been visible improvement in the aptitude and acquirements of the candidates since the passing of the by-law. I, however, found one dictation for which a first-class diploma had been given that, in my opinion, only deserved a second-class diploma. I also found three dictations on which second class diplomas had been granted that contained too many mistakes, and too flagrant in their nature to justify the admission of the candidates. It is quite true that I was informed that many of these mistakes had been corrected by the candidates themselves; but in such a case it is unfortunate that the corrections made by the candidates cannot be distinguished from those made by the examiners.

The notes made for examination in writing seemed to me to be too indulgently prepared; however, a number of dictations are written in a very nice hand. Of 36 examinations, 11 failed, and 2 candidates were sent back twice. There have been four sittings of the board under the new by-law; the members are very punctual in their attendance. Two candidates voluntarily passed an examination in the art of teaching and one in book-keeping. From the conversations I had with Rev. Mr. Patry, president of the board, Dr. Michaud, and Mr. Dumais, secretary, I am satisfied that it is the intention of the board to make the examinations more and more severe, as they feel the excellent effects and the influence produced on the schools themselves, by the by-law and the programmes.

The following table will shew the success of the candidates in each branch. It will be found that the programmes offering the greatest difficulty are those relating to Sacred History and the History of Canada.

The whole respectfully submitted.

P. J. O. CHAUVEAU,  
Superintendent of Education.

Montreal, November 2nd, 1863.

*To the Honorable the COUNCIL OF PUBLIC INSTRUCTION for Lower Canada :*

Having been appointed, in connection with the Superintendent of Education and Mr. Dunkin, one of the delegates from your Council for the purpose of inspecting the Boards of Examiners, in accordance with the fourteenth article of the by-laws framed for the examination of candidates for the diploma of school teacher in Lower Canada, I visited, in the month of August last, the two Boards of Examiners for the district of Gaspé, one of which holds its sittings at New Carlisle, the other at Percé. I found the books and registers, particularly at New Carlisle, well kept, the entries correctly made, and the granting as well as refusal of diplomas agree with the details of these entries; it also appeared to me that the candidates obtained their diplomas after a satisfactory examination. I think that the examiners might be more strict in requiring the production of the candidate's vouchers. The by laws of your Council on the subject of dictation have not been observed with sufficient strictness; instead of half a page of printed matter, taken either from the books therein mentioned or other books, the examiners have frequently asked the candidates to write down a few sentences. A certain number of candidates have been examined and have received diplomas; several have been sent back. As the examiners are in many cases from a distant part of the country, and cannot remain long absent from home, they are perhaps compelled to examine too many candidates on the same day, and thus the ordeal cannot be as satisfactory as in towns where the sittings of the board can be adjourned without inconvenience to the examiners.

C. DELAGRAVE,  
M. C. P. I.

Quebec, 2nd November, 1863.

*To the Honorable the COUNCIL OF PUBLIC INSTRUCTION for Lower Canada :*

In accordance with the by-law of your honorable Council, I inspected the office of the Board of Catholic Examiners for the city of Quebec, in the month of May last.

The registers are kept in excellent order and in good handwriting. All the records of dictation have been preserved with care.

The register of proceedings does not contain minutes of meetings at which no diploma was granted, and there is no mention of the rejection of candidates. This is an important omission. The certificates of morality given by the priests do not contain that of religious instruction required by the by-law, and these certificates are not recorded *in extenso* in the minute book. The name of the signer is only mentioned, the date being omitted. There is no index to the register of examinations; this would be desirable. The meetings of the board have all taken place on the days selected for them. There has always been a quorum, and on two occasions more than a quorum. Several members display remarkable assiduity in the performance of their duties. The result of the examination of dictations and literary compositions, in my opinion, shews too much severity in the first ordeal, and enough, if not too much indulgence in the second. Only two diplomas for Model Schools have been granted. In one of these examinations in which the note TWO was granted for a literary composition, I would have hesitated in giving it; and in a second, in which the figure ONE was granted (*very good*), I would not have given more than the figure TWO (*good*). These two candidates for Model School diplomas only obtained second-class diplomas, and the first only received it after two examinations.

The members of the board have adopted a system of MARKS by which actual mistakes in common orthography count much less than those of grammatical orthography. I am not satisfied of the correctness of this plan, and perhaps there is too much indulgence in cases of mistakes in common orthography. There should be some distinction between these two kinds of mistakes. There are certain words in common use, ignorance in the spelling of which should not be permitted. There are also radical words which, if not correctly known, necessarily produce a number of mistakes. It thus follows that there are certain mistakes in common orthography which should rank in the same category with mistakes in grammatical orthography. The idea of such a system is, however, in itself, excellent. I append a table prepared by Mr. Lacasse, and I would suggest to the Council the enquiry whether it would not be expedient to add to the by-law some provision of this kind, in order to secure more uniformity in the decisions of the different boards of examiners. It is remarkable, however, that the mistakes found in the dictations are rather in common than in grammatical orthography. This would seem to prove the truth of a statement frequently made that spelling is too much neglected in our schools. The same observation has frequently been made in the educational journals of France.

The branch of writing, as found in the dictations examined, appeared to me anything but satisfactory. I found, however, that the last examinations shewed some progress in that respect. The judgment of the board, in their decision upon the merits of the dictation and writing during seven examinations, appeared to me to be a little too indulgent; in four others, a little too severe. This may be a matter of opinion, and I do not pretend to say that in either case injustice has been done.

On the whole, the large proportion of candidates finally rejected, the number of those only admitted after a second or third examination, the limited number of Model School diplomas granted, and even of first-class Elementary School diplomas, all these circumstances, taken with an inspection of the dictations, would lead to the belief that the board have acted with legitimate and impartial severity.

The examinations take place at the Laval Normal School. The Principal of the school and one of his professors are members of the board; the secretary of the board, Mr. Lacasse, who, however, has no vote, is also a professor of the Normal School. Some persons have thus concluded that, in the interests of the Normal School, more than necessary rigor has been shewn. I am happy to be able to report that in every case of rejection for failure in dictation, the candidate deserved it. Several candidates have even been allowed to pass, although they might have been stopped after the result of the first ordeal. The rejection of several candidates, on examination, in branches which had not been required

before the passing of the new by-law, may have created a prejudice against the board. It will be remarked in the annexed table that here, as in Kamouraska and Rimouski, the History of Canada was the main cause of the rejection of a large portion of the unfortunate candidates. The effect of the new by-law will undoubtedly be to obtain more attention to this branch, in our schools, and it is to be hoped that in future candidates will be better prepared in this branch, as well as in arithmetic and geography, on which several were rejected even after having passed through the ordeal of dictation with success.

The whole, nevertheless, respectfully submitted.

PIERRE J. O. CHAUVEAU,  
Superintendent of Education.

Montreal, 4th November, 1864.

TABLE of the Corrections of Dictations adopted at the Laval Normal School and by the Catholic Board of Examiners, Quebec:—

|                                                               | M. | T. |
|---------------------------------------------------------------|----|----|
| Grammatical errors .....                                      | 1  | 0  |
| Common orthography (syllables).....                           | 0  | 2  |
| Mistake of gender not prescribed by the grammar.....          | 0  | 5  |
| Each mistake in punctuation.....                              | 0  | 4  |
| An accent prescribed by the grammar changed or omitted.....   | 1  | 0  |
| Accent not prescribed .....                                   | 0  | 2  |
| Cédilla or apostrophe omitted.....                            | 0  | 4  |
| Capital or small letter.....                                  | 0  | 5  |
| Joining of syllables omitted, or an erroneous separation..... | 0  | 1  |

The first column, marked M, indicates the mistakes; the second, marked T, the tenth parts of mistakes. In the correction each mistake is represented by a cypher, and the tenth parts by a figure that corresponds with the gravity of each mistake.

After adding the number of mistakes together, deduct the number of points given, and the difference gives the actual value of dictation.

*To the COUNCIL OF PUBLIC INSTRUCTION for Lower Canada :*

During the month of August last, as delegate from your Council, I inspected the office of the Board of Examiners at Chicoutimi, and I am pleased to be enabled to report that the office is well kept, and the entries correctly made by the secretary, Mr. Thomas Z. Clouthier. After due examination of the minutes of dictation, arithmetic, and other branches, a knowledge of which is required by the law and the by-laws, the candidates who obtained diplomas seem to have replied in a satisfactory manner. The members composing this board attend the meetings regularly.

Mr. Cremazie, whom I had the advantage of meeting in this locality, accompanied me in my visit of inspection, and, with me, he complimented the secretary in a manner which is justly his due.

C. DELAGRAVE,  
M. C. I., L. C.

Quebec, 1st September, 1864.

## APPENDIX No. 2.

## EXTRACTS FROM THE REPORTS OF THE INSPECTORS OF SCHOOLS.

## No. 1.—EXTRACT FROM THE REPORT OF MR. INSPECTOR PAINCHAUD.

## THE MAGDALEN ISLANDS IN THE DISTRICT OF GASPÉ.

The state of education in the Magdalen Islands is far from satisfactory. It has been a matter of great difficulty to introduce the new law; the great majority of the inhabitants were opposed to the system of taxation. In the first instance, the plan was introduced under unfavorable circumstances, and subsequently every objection was made to the establishment of the school-tax. The validity of the valuation-roll is first contested, then the legality of the elections is questioned, while the competency of teachers who do not possess diplomas is also questioned, &c. The whole population seem to hold to the system of *independent* schools. I have heard several persons say: "We prefer being without the pecuniary grant, and enjoy the privilege of organizing our voluntary schools." I was compelled, during last summer, to visit the extreme portion of the islands to settle a difficulty that originated in opposition to the school-tax. On that occasion, I did everything in my power to prove to the tax-payers that a tax legally imposed is more equitably distributed than a voluntary contribution, and is by far more advantageous to the poor man. Each person being allowed to exercise his own generosity, we frequently find rich men giving a contribution comparatively small, while, if the tax were levied according to the means of the rate-payers, poor men would profit by the tax which would consequently weigh heavier on the rich. These opinions seemed to produce some effect on the most enlightened minds of the community. The Commissioners, in the first instance, gave orders to have all the schools closed, in accordance with the terms of the law; this lasted for some time, but they were subsequently re-opened and remained so until the teachers had passed their examination, or new teachers provided with diplomas came to take their place. Mr. Philippe Tériault, one of the teachers, passed a good examination in English and French at Gaspé. Mr. Duclos and other teachers do not consider themselves equal to the examination and they continue to keep *independent* schools. At Aubert all the schools are closed, with the exception of one placed under the management of Mr. Marin.

Mr. Tériault has started a school under official control, which, under his attentive care, is prospering.

The municipality of Magdeleine has always held the first rank among the school municipalities of this division. As proof of this, I beg to refer to statistics.

I shall not here repeat the thousand and-one complaints daily heard, owing to the incapacity of the teachers. A number of these gentlemen, fearing the loss of their situations, intrigued with the *habitans*, obtained their sympathy, and are thus the principal promoters of the opposition to the law, the difficulties that continually arise in the path of those who are appointed to execute that law, and the trouble in the way of the school inspector in the performance of his duty. If the Commissioners were men of energy these difficulties would soon disappear. I am happy to report that I rely upon Mr. Giovanni Fontana, a commissioner elected at the last elections, who is a firm and enlightened man, for much assistance.

In the municipality of Aubert all the schools are closed, the teachers having refused to obey the law. We have written to Montreal and Quebec to obtain teachers, and I hope that these schools will soon be re-opened. The Commissioners are disposed to pay \$200 per annum to each teacher, besides lodging and fuel, and I may remark that, as living is cheap here, a salary of \$200 at this station is fully equal to \$300 at Quebec or Montreal.

I may mention that there is a dissentient school at Grosse Isle, attended by 22 Protestant pupils.

## No. 2.—EXTRACT FROM THE REPORT OF INSPECTOR MEAGHER.

## COUNTY OF BONAVENTURE.

I have the honor to transmit the following report of the state of education in this county for the first six months of 1864. I visited all the schools in the county during the months of February, April, May and June, and am now happy to state that, only with two exceptions, all the school municipalities are provided with teachers holding diplomas.

In this report I will, as usual, give a statement of the state of education in the different municipalities, in the same order as they stand in my last report, commencing at the eastern boundary of my district of inspection.

*Township of Port Daniel.*—In this municipality I am sorry to say there has been no schools in operation for the last three months; the teachers of Nos. 2 and 3, finding the salary too small, and the mode of payment not suitable, abandoned the schools; the teacher of No. 1 was discharged by the commissioners for misconduct. I saw the president and secretary-treasurer last month; they informed me that they had advertised for two teachers and expected to have schools in operation early this fall.

*Township of Hope.*—In this municipality a considerable interest is taken in the cause of education. There are two excellent schools in operation, with excellent teachers holding first-class diplomas. The examinations were very satisfactory.

*Little Nouvelle.*—There is one Catholic school kept by a young lady, very competent. At the time of my visit, on the 23rd June, there were 56 children in attendance. The Rev. M. Tournier was present at the examination, which was very satisfactory. The inhabitants are finishing a very neat schoolhouse, which will be in operation by the first of next month.

*Township of Paspébiac.*—Only one school district in this municipality at present; the school is in full operation; 62 pupils in attendance; the teacher, Mr. Joseph Dorais, a gentleman holding a diploma from the Normal School, and well qualified. I regret to say that he intends leaving the school on the last of this month, July, owing to difficulties existing between the rate-payers and school commissioners, which difficulties, I now trust, are all arranged.

*Township of Cox.*—There are three school districts in this municipality, two of which are in operation; kept by male teachers provided with diplomas. These teachers have only been engaged since May last. They are both very young men, and have not yet acquired the art of teaching. I was attended on my visit to school No. 2 by Judge Winter, the sheriff, and several other gentlemen, and I was sorry to find the schoolhouse in a very dirty state and the teacher having no control over the pupils; he was severely reprimanded by me, and also by the judge. I regret to say that very little interest is taken in the cause of education in this municipality by the majority of the rate-payers. When I visited that place last week I found that an election of the school commissioners was going on; the friends of education had proposed four gentlemen who, if elected, would have done much to improve the state of education in the township, but, unfortunately, they were opposed by another party, who proposed four others; the election lasted two days and the friends of education were defeated. I attended at the election and advised the people, but to no purpose.

*Township of Hamilton.*—There are five school districts in this municipality; two in operation: one kept by Mr. Picard, holding a first-class diploma, an excellent teacher; the school well attended; the pupils improving rapidly; examination very satisfactory. The other school, kept by a Mr. Raiche, was very inferior; his engagement expired on the 1st instant, and the commissioners are about engaging a more efficient teacher.

*Township of New Richmond.*—There are nine school districts in the municipality, six under control of school commissioners and three under dissent. Of the former there is at present only one school in operation, kept by a female, an excellent teacher. The school is well attended. Examination very satisfactory. There is much difficulty in procuring qualified teachers; the commissioners are expecting two from Quebec shortly.

There are two schools in operation under the dissent; one male and one female teacher. Both schools were well attended, and examination satisfactory.

*Township of Mariv.*—Six school districts in this municipality; four at present in operation. Two male and two female teachers, all efficient. Teachers holding diplomas. All the schools were well attended, and satisfactory.

*Township of Carleton.*—There are two school districts in this municipality. One Model School kept by Mr. Lucier, holding a diploma. The school is regularly attended by from 75 to 85 scholars. All the examinations have proved very satisfactory.

*Township of Nouvelle.*—Four school districts in this municipality.

*Township of Shoalbrod.*—Six school districts in this municipality. Only two at present in operation, kept by male teachers. Both schools are well attended, and examination satisfactory. The commissioners are endeavoring to engage other teachers for the vacant schools.

*Township of Mann.*—Two school districts; one in operation. This school is very inferior. The school has very poor attendance, considering the number of children in this municipality of the age to attend. The examination was not satisfactory.

*Indian Mission.*—This school has been kept for the last two years by one of the French Acadians, and attended regularly by from 75 to 80 young Indians, who have made wonderful progress. The Rev. Mr. Saucier visits the school very often, and takes interest in the improvement of the children.

*Township of Rivisjouche.*—Two school districts in this municipality. The commissioners had engaged two teachers for the schools, but they not being provided with diplomas, I advised them to appear before the Board of Examiners in May last. They attended, but failed in obtaining diplomas. Both schools are at present vacant, but the late teachers are to appear before the Board of Examiners at its next sitting, to undergo the required examination and obtain diplomas.

*Township of Metapédia.*—One school in operation, kept by a male teacher holding a diploma.

*New Rustico.*—There are two school districts in this municipality, and two schools at present in operation, one kept by the former teacher of the Indian Mission School, and the other by a young Acadian settler, both very well qualified for the requirements of the children of the municipality. Neither being provided with diplomas, I have advised them to appear before the Board of Examiners at its sitting in August. These poor Acadians deserve encouragement, as they are using every exertion to promote education in their little colony.

### No. 3.—EXTRACT FROM MR. TREMBLAY'S REPORT:

I have the honor to submit for your consideration the following remarks on the condition of the schools in this county:—

More fortunate than in my last report, I am in the agreeable position of being able to inform you that the obstacles which have always been represented as being in this county most injurious to the good working of the law, are beginning to disappear, to a sensible extent. The pupils attend the schools with much greater regularity and the parents, in consequence, seem better to comprehend and appreciate the high importance of diligence. A larger number of schools also are found to be provided with the necessary appliances, such as books, drawings, &c.

But upon this latter point especially, much more might be desired. The lack of goodwill on the part of a certain number of rate-payers, together with the difficulty of obtaining books, entails a continuance of the painful task of visiting schools in which the number of classes is equal to the number of pupils. Still, this fatal obstacle to progress is far from prevailing to so great an extent as in former years.

To obviate, so far as depends upon myself, this important disadvantage, I have considered it my duty to visit the schools very frequently, taking care to notify the commissioners and rate-payers of my intention, and to make such arrangements that both should be present at the examinations. At these examinations, above all, the children exhibit emulation and courage, being aware that their success will be applauded by their parents.

I shall now proceed to offer a few remarks upon each of the municipalities in this county:—

*Newport.*—This municipality possesses a good schoolhouse and a good teacher. The pupils are well disciplined, and the financial affairs are in good condition.

*Palos.*—In this municipality we meet with many poor, and but little zeal. The commissioners do not discharge the duties of their office with sufficient strictness. The result of their excessive indulgence is a large amount of arrears. The two schools in operation are well kept, but the teachers complain of the negligence exhibited in the payment of their salaries. The system which obtains in this municipality, as also in many others, of paying the masters by orders on the shopkeepers and even in produce, is far from commendable.

*Grande Rivière.*—The schools in this municipality, which last year were four in number, are this year reduced to three—sections Nos. 1 and 2 now constitute but one. The model school, at present in operation, has produced this result. The teacher of that school, Mr. C. Desforges, continues to be highly deserving of the praise of which he was so worthy in preceding years. Few teachers convey instruction with so much success. A large number of pupils attend the school regularly and with pleasure and diligence.

The teacher of the school in section No. 2 is also highly deserving of commendation, and devotes himself in a very marked manner to the performance of his duties.

The female teacher of section No. 3, although she does all that can be expected from her, does not, however, supply in a satisfactory manner the requirements of a mixed population, as she is not acquainted with the English language. She is to discontinue her duties at the commencement of the ensuing school-year.

The marked zeal of the commissioners, together with that displayed by J. O. Sirois, Esquire, the Secretary, has brought the affairs of the municipality into the best possible condition. This municipality, which might be taken as a model by many others, is well worthy the attention of the department. Should any money remain at your disposal in the month of July next, I should be happy to see conferred upon the model school a special grant out of the sum reserved for institutions of this description.

*Cap Désespoir.*—Besides the dissentient school, which is very well kept, this municipality contains three schools under control, which I visited with satisfaction. I must except the school in section No. 3, in which I found few pupils and fewer books. There is too little regularity on the part of the children, and too little strictness on the part of the teacher. She is to resign at the termination of her engagement. The commissioners also having failed in their duty. The secretary keeps the financial affairs in good order.

*Percé.*—There are three schools and three female teachers in Percé. I have no hesitation in saying that these schools are very well kept. The Rev. Mr. E. Guilmet spares no efforts to obtain good schools. The commissioners apply themselves energetically to their duties. I must, however, state that this municipality still feels to a slight degree the backward condition in which it was a few years ago. I have, however, a strong hope that the commissioners will clear themselves of all their debt in the course of the present year. The secretary-treasurer has succeeded in collecting a large amount of arrears, but his books not having been well kept, it has been decided to dismiss him.

*Ile Bonaventure.*—This municipality has a good school, directed by a competent female teacher, and the affairs are managed with regularity by the secretary-treasurer. The firm of Boutillier Brothers has done much for this municipality.

*Malbaie.*—There is now a school in operation at this place, attended by a large number of pupils. The teacher instructs with success, and the commissioners, animated by a desire to put the law into more active operation, resolved, at my last visit, to prepare an assessment roll. This is a happy movement for this municipality, which showed itself at

first most hostile to the school law, and in which, for several years, education languished under the voluntary system. This change is especially to be attributed to the energy and enlightened zeal of John Fauvel, Esq., the chairman of the corporation. Hitherto, the teacher has had no fixed salary, and by the terms of his engagement, agreed to, accept the sum paid by the rate-payers together with the grant, let the amount be what it might.

*St. George de la Malbaie.*—Although this municipality is but a very small one, yet it pays a suitable salary to its teacher. Up to the present time also, the commissioners have received, by way of assistance, the share of the grant falling to Malbaie; that municipality now having a school in operation will, in future, receive the whole of its grant. This diminution of its grant will prove greatly injurious to this municipality. I do not see how it will be even possible for it to maintain its school, unless the department grants it assistance in a special manner. The commissioners and the secretary discharge their duties with regularity.

*Douglas.*—Three schools are necessary in this parish and it has but one. The system of voluntary contributions which prevails in it does not allow of its having more. The commissioners, however, have now a correct appreciation of the system in question, and propose to have an assessment roll next summer. The school at present in operation, which is attended by more than 60 pupils, is very well kept. The secretary performs his duty well.

*York and Haldimand (Banc de Sable).*—There has been no progress in this municipality since last year. I am of opinion that the commissioners would do well to select another teacher. The secretary performs the duties of his office with integrity and is highly deserving of praise.

*Gaspé Basin.*—In this municipality there is a good male teacher and two good female teachers, and consequently three well-conducted schools, in which the pupils make constant progress. The school affairs are well managed.

*Gaspé Bay North (Peninsula).* The commissioners of this municipality did not succeed in obtaining a female teacher until several months after the vacation. The examination at this school was very satisfactory. At the time of my last visit the commissioners took steps to establish a second school in the municipality. The secretary does his duty well.

*Grande Grève.*—Notwithstanding all the endeavors and appeals of the commissioners of this municipality, they found it impossible to obtain masters. The taxes have been paid as usual in the hope that in the spring they may be more successful in obtaining applications in reply to their calls.

*Cap des Rosiers.*—This municipality, which for several years shewed itself to be decidedly opposed to the school law, is now distinguished for an amount of zeal which does great honor to the inhabitants. Besides the salary which the commissioners pay to their teacher, they have incurred considerable expense for the erection of two schoolhouses. The secretary has displayed great energy and perseverance in the effecting of these works.

*Anse-à-Grisfonds.*—There is a good school in operation in this little municipality. The teacher, the commissioners and the secretary are all favorably disposed towards the promotion of education, and labor accordingly.

*Rivière-aux-Renards.*—This parish has two schools, which have been kept by the same teachers for three years. I have no remarks to make respecting these teachers except what is to their credit; their schools are well kept. The commissioners know how to appreciate education. They take part in the examinations with diligence. It is proposed to establish a third school next year.

*Mont Louis.*—Notwithstanding the isolated position of this small place, the school which is there situated has been continually kept up for several years. The result of the examination on the occasion of my last visit was very satisfactory. The commissioners and the secretary perform their duties well.

*St. Anne des Monts.*—This municipality has two schools conducted by two female teachers who teach zealously and successfully. The commissioners and the secretary, animated by the best spirit, are sincerely devoted to the interests of education.

*Cap. Chatte.*—Since the retirement of Madame Lespérance, who had to discontinue teaching for want of a diploma, the school at this place has been vacant. The commissioners have made several appeals which have produced no result.

That I may more amply satisfy the requirements of this county, I shall conclude this report by assuring you that I shall in future visit the schools more frequently than ever, and that I shall apply myself specially to infusing into the minds of the pupils a love of study, and into the minds of the parents the absolute necessity of procuring books for their children.

#### No. 4.—EXTRACT FROM THE REPORT OF MR. INSPECTOR TANGUAY.

##### COUNTIES OF RIMOUSKI, KAMOURASKA AND TÉMISCOUATA.

The schools in my inspection district make slow but regular and constant progress. I derive most pleasure from the fact that they are better appreciated. Everywhere their advantageous effects are acknowledged; they give additional value to the adjacent property. Those who cannot read no longer acknowledge it without blushing.

*Ste. Anne de la Pocatière, No. 1.*—This municipality contains eight schools under control, and one independent school. Three hundred and thirty pupils attend these several schools, the average attendance being 230 only. Two of them are very good, five satisfactory and two of inferior character, and even insufficient. The female teachers of these latter were to be replaced by others at the end of the year. Altogether the result of the year is satisfactory.

The rates are paid tardily, and consequently the corporation is far from being able to meet its engagements. This year, however, the new system of prosecution has been put in operation and the finances are in a comparatively satisfactory condition, although there remained a balance of £94 3s. 5<sup>d</sup>. against the municipality at the close of the school-year.

By assessments and monthly rates \$627 60cts. have been levied in the municipality. After paying all expenses, there was a balance of \$226 to the credit of the corporation. The accounts are kept with great exactness and there is no fault to be found except with the tardiness with which payment is enforced, a tardiness attended with fatal consequences. I have not hitherto succeeded, despite my repeated recommendations, in getting a single schoolhouse built within the whole extent of the municipality. Thirteen prizes were awarded during the year.

*St. Anne, No. 2.*—This municipality is possessed of the fine college of St. Anne, attended by 250 pupils, a convent by 134, and an elementary school by 47, forming a total of 431 pupils; the daily attendance being 405. The college and the convent are both universally esteemed, and this fact demonstrates better than I could do, how highly the education which the youth of both sexes receive in them is appreciated and how well they supply the wants of this important part of the country. The beauty, salubrity and picturesque character of the environs, contribute in no small degree to the interest which is felt in these institutions.

Here also the rates are very tardily paid; so much is this the case, that at the end of the school-year a balance of \$90 was still owing on the year 1862-63, and \$234 on the year 1863-4. Yet the corporation is well disposed and is composed of educated men who are friendly to instruction. This laxness in payment proceeds from the idea that it is not obligatory to pay until the end of the school-year, and this idea is the result of an old practice which obtained when the law was first put in operation in this parish.

The secretary-treasurer keeps his books and accounts well. The result of the year's instruction is satisfactory. Eleven prizes were awarded during the year.

*St. Onézime.*—In order to meet last year's deficit, the number of schools in this municipality has been reduced to two. The teachers received—one only \$32 and the other \$40; from this it may be gathered that their ability was not very remarkable. There is no ground for surprise if the pupils made no great progress. The children shew little diligence and are

ill-supplied with books, paper, &c. It is difficult to exact more from this municipality when we take into consideration the limited means of the majority of the rate-payers and the heavy burthens which they have had to bear for some years. The accounts of the corporation are faithfully kept and would give a balance in favor of the corporation if all arrears were paid up.

*St. Paëme.*—The five schools in this municipality have been attended by 249 pupils; the average daily attendance has been 164. Three schools have produced satisfactory results; the other two have been unsatisfactory and ill attended. The school corporation is well disposed, and does what lies in its power to apply the money at its disposal in a useful manner. The collection of assessments is a little in arrear, although comparatively satisfactory, considering the limited means of a large number of the rate-payers. Ten prizes were awarded.

*River Ouelle.*—This municipality contains seven elementary schools, a model school and a convent, the whole attended by 355 pupils, the daily attendance being 281. One school only has proved insufficient; all the others have produced good results, and some have even made good progress; of this character are the schools kept by Mr. S. Côté, and the Misses Letellier and d'Auteuil. The working of the law in the parish of River Ouelle is deserving of praise, and were it not for the delay in the payments of the assessments, I should say that everything is going on well. The school commissioners are intelligent and sincerely desirous of the promotion of education. The convent gives as great satisfaction as formerly; the number of pupils attending it demonstrates the high esteem in which it is held by the fathers of families. It is to be observed that nearly all the pupils in this institution including both boarders and day scholars are children belonging to the parish. Indeed the adjacent parishes of St. Anne and Kamouraska, have also their boarding schools. I have therefore only to regret that the collection of the assessments is so slowly effected, and to state that the state of affairs is owing to too great indulgence on the part of the commissioners, for nearly all the ratepayers are in easy circumstances. I awarded 17 prizes. The accounts are carefully kept.

*St. Denis.*—This municipality supports eight schools under control; these are divided into six elementary schools, a model school for boys, and a superior school for girls, the whole attended by 359 pupils, the daily attendance being 245. The eight schools are classed as follows: two, very good; four, good; and two in a condition of mediocrity. Altogether the result is satisfactory, and this parish is one of those deserving of the highest praise, both on account of the diligence of the pupils and the progress made, and of the special interest which every rate-payer both poor and rich, takes in the progress of his children, and in the good working of the law. The schools kept by the Misses Dumais, Belanger and Dionne, are all that can be desired and might be cited as so many model schools.

The finances of the corporation are in a satisfactory condition, and give proof of a degree of energy and goodwill on the part of the secretary-treasurer and the members of the corporation, which is not met with often enough, even in the case of well disposed municipalities. Nineteen prizes were awarded during the year.

*Notre Dame du Mont-Carmel.*—The three little schools in this parish, in which there are few farmers in easy circumstances, have been attended by 152 pupils, the average attendance being 86 only. The progress has been what might be expected from pupils wanting in diligence and lacking books. Altogether, however, the result is satisfactory, and amply repays the sacrifices made to obtain it. The yearly rates have been paid with tolerable regularity; the arrears which are still due date back several years. Six prizes were awarded.

*St. Louis de Kamouraska.*—This municipality has a convent conducted by the ladies of the congregation, and attended by 75 pupils; a model school, attended by 75, and five elementary schools, of which three are good and two inferior. These several institutions are attended by 330 pupils, the average attendance being 232 only. I regret to have to call attention to the fact that the five elementary schools have been irregularly attended, and that therefore the progress made has been small, except in that kept by Miss Alp. Marchand. The other teachers are also not wanting in good-will and ability, but the

want of diligence on the part of their pupils and of books, has prevented their obtaining better results. The convent and the model school supply the wants of the locality, and are appreciated as they deserve. The classes of these two institutions have been attended by 150 pupils. The new secretary-treasurer appears to me to be active and a man of orderly habits, able to maintain the finances of the corporation in a state of equilibrium. Eleven prizes were awarded during the school year.

*St. Paschal*—This municipality has a primary superior school for boys, attended by 58 pupils; a primary superior school for girls with a like number of pupils, and eight elementary schools, attended by 476 pupils, the daily attendance being 257 only. The superior school for girls, conducted by Miss Lefebvre, has made great progress; that conducted by Mr. Peltier is also not unworthy of praise. Six elementary schools are well kept, two only being unsatisfactory. Schoolhouses have been built in nine sections. That erected during the year for numbers one and two, is spacious and tastefully built.

The finances of the corporation are in good condition. The blame which I feel justified in ascribing to the rate-payers, is in relation to the apathy which they exhibit as to the progress made by their children. They appear to attach no importance to their diligence at school.

*Ste. Hélène*—The five schools in this parish have been attended by 216 pupils, the average attendance being 121 only. It is enough to say that there is little diligence among the pupils, and that therefore the progress made has been small. Yet in the schools conducted by the Misses Lafrance, Gagnon and Soucy, remarkable progress has been made. One of the five schools in the municipality was suppressed at the end of the school year, in consequence of the smallness of the number of pupils attending it. The books are well kept and the commissioners are well disposed.

*St. Alexandre*.—There is in this parish a model school placed under the management of Miss Vézina, and attended by 72 pupils of both sexes. Six elementary schools altogether attended by 202 pupils. Satisfactory progress has been made in the model school and in three of the elementary schools. The other schools have been inferior and insufficient. The teachers of these three schools were to be dismissed at the end of the school year. The average attendance at the schools has been only 189 out of a total of 274.

The finances of the corporation are in a tolerably satisfactory condition. The collection of the school rates is effected with punctuality. In general, the subjects of instruction are absolutely elementary. The result of the year is below the average, notwithstanding the good disposition of the corporation.

*St. André*.—The eight schools of St. André have been attended by 300 pupils, the average attendance being 232. I have to make mention of notable progress in the model school kept by Miss Thériault, and also in that conducted by Miss Philomène Lagacé. Satisfactory progress has been made in four other sections, and but little in the last two, where but little diligence has been displayed by the pupils. Altogether the result of the year in relation to the matters taught, has been satisfactory. St. André is one of the parishes in which the parents best understand the duty of bringing up their children well. So much, at least, would appear to be shewn by the special interest which each father of a family exhibits in regard to everything connected with education. The subjects taught are more numerous and more special than those taught in most municipalities. The board of commissioners, presided over by a man skilled in the art of teaching, appears to me to be animated by the best spirit. Its advice, as well as its example, seems to have a very good effect upon the ratepayers. A praiseworthy spirit of emulation prevails among the teachers. All wish to distinguish themselves, and have at heart the effectual performance of the important duty of forming the minds of the children intrusted to their care.

The account books and the minutes of the proceedings of the corporation are well kept, but the state of the finances exhibits a tardiness in the collection of the rates which is prejudicial to the satisfactory working of the law, and the interests of the teaching body. The proper measures had been taken previous to my last visit, to bring about another state of affairs. Altogether, however, I am satisfied with the results of the school-year in the parish of St. André.

*Notre Dame du Portage*.—Four schools are in operation in this municipality, of

which three are on a good footing. But little progress has been made in the fourth, for want of diligence on the part of the pupils. The average attendance at the schools has been 82, the total number of pupils being 112.

The accounts and minutes are regularly kept, but the collection is tardily carried out. On the whole, however, the law works effectually in Notre Dame du Portage, and the corporation direct their whole attention to the proper performance of the duties imposed upon them by the law.

*St. Antonin.*—This municipality had three schools in operation, attended by 114 pupils, the average attendance being 62. The progress made is satisfactory and the teachers have done all that could be expected from them, taking into consideration the lack of diligence on the part of the greater number of their pupils and the other disadvantages against which they have to strive. The rate-payers, as well as the school commissioners, give evidence of good will. The finances are in a satisfactory condition, and the law works well.

*St. Patrice de la Rivière du Loup.*—This municipality contains six schools, attended by 185 pupils, with an average attendance of 132. In two sections, very good progress has been made; another has produced ordinary results, and no progress at all has been made in the remaining three. The fault lies in the apathy of the parents, who only send their children to school during one half of the year. The books are well kept.

*St. Edouard.*—This municipality had a model school for boys under the management of a pupil of the Laval Normal School, attended by 66 pupils; and the convent of the Ladies of the Good Shepherd, where there were 86 pupils. In both these institutions, the progress made was very remarkable, and the result of the year may be considered good. The course of instruction there imparted includes, French, English, drawing, the elements of literature, and vocal and instrumental music. The two institutions are tolerably well provided with what is needful. The law works well in this municipality.

*St. Georges de Cacouna.*—This municipality contains a convent, conducted by the Sisters of Charity, and attended by 82 pupils; and six elementary schools, together attended by 215 pupils; forming a total of 297 pupils. The daily attendance is 216. In three schools, good progress has been made; in two others, the result has been passable. There is room for improvement in the sixth. The convent continues to give full and complete satisfaction, and receives in return a degree of patronage which is constantly increasing. More distinguished female teachers have been brought up at this institution than at any other in my district. Arithmetic is here taught with unusual success, and the same is the case with the art of letter-writing. The residence of strangers in this parish during the summer season, is in no small degree prejudicial to the pupils, for at that period, those who do not work on the land, seek employment from the strangers, and the schools are deserted; a few young children are the only attendants. It is difficult to remedy this evil. Apart from the convent, none of the schools of this locality are attended with sufficient assiduity, except during the winter season. The corporation does everything in its power to enforce the law. The accounts of the municipality are well kept.

*St. Arsène.*—The six schools of this parish are attended by 290 pupils, with an average attendance of 192. Three of these schools are in a prosperous condition; two are pretty well kept, and one may be classed as middling. On the whole, the result of the year has been satisfactory. The accounts of the corporation are kept in an unexceptionable manner. The contributions are paid with punctuality. The only complaint I have to make against this municipality is the smallness of the salaries allowed to the female teachers, such as Miss Roy, Miss Virginie Gagné and Miss Marie Dumond, and its opposition to the establishment of a model school. It is true that in the majority of the schools the subjects of study prescribed for model schools are taught, and the rate-payers do not suffer in any way; but the female teachers are obliged to do a larger amount of work. Besides, the division of the schools under control into model schools and superior schools for girls, would reduce the number of pupils in each, and they would derive more benefit from the teaching.

*St. Modeste.*—This municipality has but two schools, attended by 68 pupils, with a daily attendance of 44 only. The school in section No. 1 has given a good result; that

in No. 2 is middling. The law works well. It is much to be regretted that difficulties, which have quite recently arisen, should have presented the establishment of a third school in a locality very remote from the schools now open. The finances are in a prosperous condition.

*St. Epiphane.*—This is a new municipality in which the law has been put in operation for the first time. The two schools established in this locality are attended by 136 pupils, with an average attendance of 95. All these pupils, with the exception of two or three, were learning the alphabet when the schools were opened, and at the end of the year 28 read fluently, 73 read very well, and 45 were learning writing. Some of them were learning grammar and arithmetic. Here, as elsewhere, the older pupils lose time in sowing-time and harvest. On the whole, the result has been satisfactory. It would be necessary to establish more schools, to meet the wants of this municipality, which is of considerable extent and has a fair prospect of future prosperity; but the means of the corporation did not permit them to do anything more this year. One additional school would not suffice, and would give rise to fresh complaints; and yet the municipality is unable to establish a larger number. The finances are in a prosperous condition, and the secretary-treasurer discharges his duties with integrity.

*St. Jean Baptiste de l'Île Verte.*—In this municipality there are 11 schools in operation, ten of which are exclusively for Île Verte, and one a joint school for St. George's and Île Verte. These schools are attended by 455 pupils, with a daily average attendance of 269 only. Five of these schools are well kept; one is middling, and the five others are below mediocrity. The superior school for girls continues to give satisfaction to the parties interested.

What is needed in this parish is not so much the good-will and application of the teachers as a proper appreciation of the instruction afforded in school. Many of the parents look upon the school as an injurious, useless or at all events a superfluous institution. From this idea originates the want of assiduity on the part of the pupils in attending school, as well as the want of books, paper, &c. And, unfortunately, many inhabitants of this parish, who through their position, education and influence, might propagate sounder ideas, isolate themselves, and seem to entertain but a barren sympathy for the education of the children of the people. The corporation is animated with a proper spirit, and struggles with all its strength against the prejudices of the ratepayers. The finances are in a prosperous condition, and the accounts are well kept.

*St. Eloi.*—Of the six schools in this parish, three are good; two are inferior, but strictly speaking passable, and the sixth has produced no good result. The mistress in charge of the last was discharged immediately after my visit. The six schools are attended by 253 pupils. In three of the sections there has been very little assiduity on the part of the pupils. On the whole, I must say that progress is slow in this parish, and that the parents exhibit a painful degree of indifference for everything connected with education. On the other hand, I must admit that the corporation are well disposed, and that they discharge their duties as well as they can. The course of instruction, for the majority of the pupils, is limited to reading, writing, orthography and religious instruction. The secretary-treasurer keeps the books of the corporation in the best of order.

*Trois Pistoles, No. 2.*—The nine schools of municipality No. 2, of Trois Pistoles, have 350 pupils, with a daily attendance of 217 only. Unnecessary to say that there has been but little assiduity displayed by the pupils, and that in consequence but little progress has been made. An exception must nevertheless be made in favor of the schools kept by Miss Philomène Lebel and Miss Dumon, which have surpassed my expectations in the results produced. These two teachers have great skill in teaching. The course of instruction is limited almost entirely to reading, writing, orthography, and religious instruction. Some of the children of this parish, however, exhibit a remarkable degree of talent. There is no opposition to the working of the law; the assessments are regularly paid, and the small salary allowed to the school-mistress is paid regularly. All that is needed is a greater assiduity in the attendance of the pupils, and higher salaries to attract and encourage competent teachers. The accounts of the corporation are faithfully kept, and the finances of the corporation are in a satisfactory state.

*Trois Pistoles, No. 1.*—There are five schools under control in this municipality, besides the convent of the *Dames de Jésus-Marie*. The total number of pupils frequenting these five schools is 371, with an average attendance of 240. The convent gives the same satisfaction as heretofore. The school conducted by Miss Ainsbrow is highly successful. Three other schools have given a tolerably good result, but the fifth has been inefficient. On the whole the progress attained has been satisfactory. The establishment of a model school for boys, who are so numerous in the church section, would be an improvement which has long been understood and desired by all those amongst the ratepayers who are not wholly blinded by passion or ignorance. And yet the school corporation are still only discussing the point.

*St. Simon.*—The six schools in St. Simon are attended by 276 pupils, with an average attendance of 199. In three sections the progress made has been very satisfactory, but not equally so in the other three. On the whole, there is reason to be satisfied with the results of the past school year. The state of the accounts is satisfactory and generally speaking, the organization of the schools is on a good footing. The accounts are well kept by an able and reliable secretary-treasurer.

*St. Mathieu de Rioux.*—This municipality has but two schools, but steps are being taken for the establishment of a third in a locality remote from the schools already established. The progress made in these two schools is satisfactory. They are attended by 98 pupils, with an average actual attendance of 67. The books of account are well kept.

*St. Fabien.*—This municipality has five schools in operation, 205 scholars and an average attendance of 164; all these schools are good. The school in section No. 2 is crowded; it would be necessary to divide it into a model school for boys and a superior school for girls. The muster of children is large enough to justify the division, and the means of the corporation are more than sufficient for the purpose. The accounts are well kept, but the collection of the assessment is made in rather a dilatory manner.

*St. Cécile du Bic.*—The six schools of Bic have been attended by 248 pupils, the average number being 180. In four of the sections the schools are good; in the two other they are middling. I am happy to state that this municipality is one of those in which the most gratifying progress is made. A degree of emulation prevails among the teachers which produces the very best results. The subjects of study are, it is true, few in number, but, on the other hand, they are well learned and, what is more, well understood. The accounts of the corporation are in the hands of a competent and reliable secretary. The assessments, as in the majority of the municipalities under my inspection, are paid in a dilatory manner. On the whole I am satisfied with the municipality of Bic.

*St. Germain de Rimouski.*—There are in this municipality seven schools, six under control and one independent. There are 264 pupils, and the daily attendance is 177. Two of these schools are good and well kept, one passable, and four very inferior. Many of the parents exhibit indifference, the children lack assiduity; and, worse still, they need books, paper, etc. It has been found necessary to close two schools in order to equalize the expenditure with the revenue. The accounts are in the hands of a competent secretary, who will, in a few years, succeed in re-establishing order and making up the deficit left by his predecessor.

*Village of Rimouski.*—The Industrial College of Rimouski is a good and useful institution, conducted with ability and energy, and gives great promise for the future. The classes have been followed by 115 pupils, with an assiduity and an ardour which were not relaxed for a single moment, a proof that the parents understand the value of this institution. The progress attained evinces the good management of the professors, and steady application on the part of the pupils. In proportion as its resources increase, the establishment is improving. The course embraces the various branches of a good commercial and industrial education. The convent, attended by 115 pupils, produces the most happy results in this municipality. Education in the institution is on the same footing as in other institutions of the same class.

*St. Anselme.*—The three schools of this municipality have made little progress. The number of pupils is 136, but the regular attendance at classes scarcely reaches 75. The zeal of the teachers is thrown away; it is rendered useless by the apathy of the parents.

who attach no importance whatever to the assiduity of their children in attending school. The affairs are in good order and well managed.

*St. Lucie.*—This municipality supports six schools, attended by 226 pupils, with a daily average of 194. Three of these schools are good, two middling, and one entirely worthless. The teacher of the last was obliged to retire at the end of the school year. I regret to state that there is but little zeal for education among the majority of the rate-payers of this municipality. The children are seldom sent to school, they get but few books and little paper, and the rates are grudgingly paid. Such being the ideas of the parents, I need not say that the children make no progress. The collection of the rates was considerably in arrears at the period of my last visit.

*Ste. Flavie.*—This municipality supports five schools under control, attended by 239 pupils, with an average of 171. Two new schools have been established in this parish, in localities too remote from the schools already existing. In three sections the schools are satisfactory; in two others, they are middling. The apathy, amounting even to opposition, referred to with pain in my previous reports, is gradually disappearing; but it still prevails in certain portions of the parish. Good sense and justice will soon triumph. Lack of assiduity, and want of books, paper, &c., are the two great obstacles to the progress of this parish. The accounts of the secretary-treasurer are well-kept.

*Métis.*—This municipality has had three schools in operation during six months and a half, and two only during the remainder of the school year. These schools are attended by 64 pupils, with an average of 44 only. One of these schools is very well kept; another is but passable; and the third has produced no good result. This municipality, being remote from the centre where the services of English Protestant teachers are to be secured, and being too poor to pay an adequate salary, the people are compelled to employ teachers without diplomas. I regret to state that education makes but little progress in this municipality, and that all or nearly all the parents exhibit a painful degree of indifference. The corporation, nevertheless, are animated with a good spirit, and are making laudable efforts to bring about a better state of things. The organization of the schools is tolerably good, and the accounts are kept by a competent person.

*St. Octave de Méis.*—This municipality has five schools in operation. Four of these schools are kept by school-mistresses, exceedingly competent in every respect. These schools are attended by 202 pupils, the average being 135. In three of the sections, good progress has been made; in the two others, the success has been middling. A school-mistress was obliged to retire in consequence of the little success she had obtained.

The impossibility of locating the schools of a new settlement so as to suit the convenience of all the rate-payers, where a small population is scattered over a large space, is keenly felt here, and has caused serious embarrassments to the corporation. No matter how the schools are arranged, there is always a party of malcontents, who cry out and murmur, and intrigue secretly or openly against the school, or more frequently still, against the teacher. The children are thereupon taken away from the school. If you remove the school in order to please the dissatisfied party, the contents become dissatisfied in their turn and do what they themselves blamed in the others. How many schools produced no good result, owing to these wretched and inevitable divisions. But, how is the evil to be remedied? Apart from the discord prevailing in one of the sections, and which often prevails in new settlements, I am pretty well satisfied with the working of the law in St. Octave, and the progress made there within the past few years. Order and harmony are now almost completely re-established, and the corporation has been enabled to build a third schoolhouse without levying any special tax. The salaries of the school-mistresses are far higher than in many older and wealthier parishes.

*Notre Dame de l'Assomption.*—This municipality has three schools, with 132 pupils, and a daily attendance of 90. I have nothing but words of praise to say of this municipality. It exhibits the greatest zeal for the advancement of education.

*St. Ulric de la Rivière Blanche.*—One hundred and eighteen pupils attend the two schools of this municipality, the daily average being 60. One of these schools is very well conducted; the other tolerably well. The results of the past year afford complete satisfaction. The corporation have been enabled to build a schoolhouse in each of the sections. The accounts are kept with great regularity.

*Matane.*—The five schools in Matane are attended by 265 pupils, with an average of 191. Two of these schools have given a very satisfactory result. They are conducted by Mr. J. L. J. C. Fiset, and Miss Leopoldine Marquis. The other three have also done well. On the whole, there is every reason to be satisfied with the results of the year. I regret to say, that motives, little worthy of praise, and in some instances the caprice of the members of the corporation, have, in more than one instance, imperilled the interests of education more particularly in reference to certain projects to which your attention has already been called. The collection of the rates is in arrears; but the accounts are regularly kept. On the whole, education has progressed beyond my expectations, and I attribute the whole credit of this to the powerful and effectual organizations which have existed for some years, and to the well known devotedness of many of the teachers.

To sum up, there are in the district under my inspection :

|                                      |                   |                 |
|--------------------------------------|-------------------|-----------------|
| 175 primary schools,                 | attended by ..... | 7109 pupils.    |
| 11 primary superior schools for boys | do .....          | 773 do          |
| 3 do do girls                        | do .....          | 173 do          |
| 2 colleges                           | do .....          | 365 do          |
| 7 convents teaching                  | do .....          | 620 do          |
| 2 independents                       | do .....          | 57 do           |
| <b>Total.....</b>                    |                   | <b>9097 do.</b> |

The average school attendance, each class day, has been 6,075, or two-thirds of the number of pupils entered on the school journals.

There are 30 municipalities in which the law works in a satisfactory and effectual manner.

There are 100 schools which may be considered as good : 60 inferior, but not without merit; and there are forty badly kept, and producing no satisfactory results.

The two great obstacles to the advancement of education in the district under my inspection, are the want of assiduity in attending school, on the part of the pupils, and the want of books, paper, etc. The insufficiency of the salaries, which discourages a great many teachers well qualified for the task of instruction and induces them to seek other and more remunerative employment, is also an obstacle which it is necessary to remove.

## NO. 5.—EXTRACT FROM THE REPORT OF INSPECTOR MARTIN.

### COUNTY OF CHICOUTIMI.

In presenting my report for the past six months, I am happy to state that, generally speaking, the schools in my district have been conducted with more zeal and attention than heretofore. The commissioners and teachers have done their duty with correctness, and their anxiety for success has been nobly rewarded in many places. These happy results induce me to look for fresh and still greater success in the year now commencing.

I must admit, however, that I entertain serious apprehensions for the future prospects of the parishes surrounding Lake St. John. During the past summer, the settlers suffered a total loss of their crops in a general conflagration. Suffering is already severely felt in the locality, and the appearance of the crops is anything but reassuring.

*Chicoutimi.*—The Village of Chicoutimi, already so remarkable for its progress in education, will now be endowed with a convent. The building intended for the institution measures 74 feet by 40; it is two stories in height without the attics, and will be completely finished on 1st September next. The people owe this fine institution to the indefatigable zeal of the Rev. *Curé*, Mr. Racine, the founder.

The school for boys will be located in the building formerly used as a model school, under the direction of Mr. Sifroi Laroche, a pupil of the Laval Normal School. In another apartment of the same building will be opened an elementary school for young girls, for whom it would be difficult to attend the convent. The commissioners and Mr. Cloutier, the secretary-treasurer, deserve great praise.

There are eight schools in the Parish of Chicoutimi; they all succeed well. The opening of the convent will necessitate a fresh division of the school sections, other than that of the municipalities of Chicoutimi and Laterrière. A new scheme of division will soon be submitted to you.

*Grande Baie.*—The Model School of Grande Baie increases in efficiency from day to day. I assisted at the public examination of the institution and was perfectly satisfied. Two additional small elementary schools also contribute their quota to the development of education in this parish. The books of the secretary-treasurer are well kept. The Rev. Mr. Martel, *curé*, has at length succeeded in establishing the assessment.

*St. Alphonse.*—There are in this municipality six schools, tolerably well kept.

*Laterrière.*—This municipality supports three schools, which have made remarkable progress this year. The commissioners have, unfortunately, been compelled to meet a heavy defalcation on the part of their secretary-treasurer. On examining the books, I found that the commissioners were entitled to be completely exonerated from all blame. The sureties will be the only parties to suffer loss.

*St. Joseph.*—This municipality has three schools, one of which has had but little success, owing to the indifference of the parents as regards the attendance of their children. The school under the care of Miss Philomène Gagnon, is an honor to the parish.

*Township of Harvey.*—The commissioners of this municipality intended to establish an additional school, this year, but they have been disappointed in their expectations. The only teacher they succeeded in procuring was a female teacher without a diploma. They hope to be more successful next year.

*L'Anse St. Jean.*—This municipality has an excellent school, attended by a large number of children, and well conducted.

*Hébertville.*—This municipality has three schools, one of which is doing well. Of the others, one is somewhat inferior, owing to a lack of assiduity on the part of the pupils; the third was doing well, but its classes have been interrupted by the marriage of the school-mistress. Its assessments are collected with difficulty owing to the poverty of the rate-payers. This, more than anything else, is the cause of the financial embarrassment of the commissioners.

*Ouïatchouan.*—This locality has been repeatedly devastated by fires. The grain was devoured by insects last year, and last spring the young crop was almost completely destroyed by fire, and only partially replaced. These misfortunes have plunged the settlers into privation and debt. Two schools were opened, but one of them was closed in February, in consequence of misconduct on the part of the school-mistress; the second has given satisfaction to all the rate-payers. The Rev. Mr. Girard, the missionary of the locality, anticipates that he will be unable to support two schools. The system of assessments has not been established, and up to the present, the settlers have exhausted their means in the struggle to meet their engagements.

## No. 6.—EXTRACT FROM THE REPORT OF INSPECTOR BOIVIN.

### COUNTIES OF CHARLEVOIX AND SAGUENAY.

I had, last year, in my district 46 elementary schools, four model schools, an academy for boys and an academy for girls, or convent for instruction. These various institutions are attended by 2509 pupils. Comparing these figures with the statistics of the division for the year 1859, the period of my first report, you will find an increase of nearly 50 per cent. in the number of children attending school. This is a splendid result, if you consider the disadvantageous position of this part of the country. I am satisfied with the progress attained in the teaching of reading, grammar and particularly of arithmetic; mental calculus is taught in all the schools.

The scholars are taught to understand history and to analyse it, and by that means the facts are more strongly impressed on their minds.

Generally speaking, the writing is not so good as it might be. The commissioners are to blame for this. They neglect to purchase copies and paper for the children, and in many places they leave the matter entirely to the parents. When the parents are too poor to provide them, the children do not learn to write.

*Ste. Fidèle.*—In the County of Charlevoix, the municipality of Ste. Fidèle supports three schools under control, conducted by female teachers, who receive salaries varying from \$80 to \$100. Two of these schools are well conducted and making progress; in the third, there is great room for improvement, owing to the frequent absence of the children and the want of books and paper.

The financial affairs under the direction of the Rev. Mr. Beaubien, *curé* of the parish, are in a good condition.

*Malbaie.*—The seven schools in Malbaie have made marked progress during the year. That which is conducted by Mr. Mailloux deserves special mention, as well in consideration of its progress as of the good conduct of its scholars. The model school for boys had just been placed under the direction of a male teacher, who enters on his duties for the first time. The central school was in the same position, the school mistress having quite recently arrived. A portion of Ste. Magdeleine range having been annexed to the municipality of St. Irénée, the commissioners will soon be enabled to establish a new school in this range. The finances of the municipality are in a prosperous state.

*St. Agnès.*—Of the four schools in this municipality, two are well conducted, and two may be classed as passable. I consider the school kept by Mlle. Roy as one of the best in my district. The commissioners have succeeded in repaying the loan they had contracted a few years ago, and I trust they will now take in hand the improvement of the material appliances of the schools.

*St. Irénée.*—The three schools of this municipality are in a prosperous state. The model school is conducted by Miss Beaumont, who teaches 60 pupils with much success. The accounts of the corporation are well kept and the commissioners discharge their duties with great punctuality.

*Eboulements.*—This municipality has seven schools, including the model school conducted by Miss Côté. All these schools are well kept, but those conducted by Mr. Godreault surpass the rest in success; this young man teaches 60 pupils. The teachers have not been paid regularly. This is, I think, due to the fact that the collecting of the arrears of rates has up to the present time been neglected. I have every reason to think that this state of things will not last, and that there will be a favorable change this year.

*Township of Settrington.*—There is but one school open in this municipality. It is, moreover, badly attended and badly supported. A regular assessment is soon to be organized—the only means of putting the schools on a proper footing—and things will then change.

*St. Urbain.*—The state of embarrassment of this municipality, resulting from a bad harvest and the payment of assessments for the erection of a church, has rendered it impossible for the people to support more than two schools under control. These schools are in a state of remarkable prosperity. A third school, supported by the generous gifts of zealous individuals, was opened last fall. The accounts of the municipality are kept in a satisfactory manner.

*Ste. Placide.*—This municipality has two schools in operation. Hitherto they have sufficed to meet the wants of the locality. One of them is well kept, but the other is inferior. Considering the poverty and isolation of the ratepayers, we are not entitled to look for any better results for some years to come. The commissioners have not as yet been able to secure the services of a person competent to keep their accounts, and if I did not watch their affairs closely, they would certainly be unable to carry out the law.

*Baie St. Paul.*—Eight elementary schools, an academy for boys, and a convent are devoted to the instruction of youth in this municipality. A large number of school-mistresses, who are now teaching in this county and elsewhere, were trained in the convent

here. The average number of pupils, including day scholars and boarders, is from 90 to 100. The academy for boys is now conducted by Messrs. Thomas Tremblay and Sinon Côté, pupils of the Laval Normal School. These young teachers display great zeal, and success rewards their efforts.

The elementary schools, with two exceptions, are well conducted. The commissioners know their duties and discharge them well. The accounts are well kept.

*Petite Rivière.*—This municipality supports two schools under control. One of them is well kept, the other was closed at the period of my last visit, so that I can say nothing about it. It would be well if another school were established in the first section, for by reason of the distance, a good many of the ratepayers cannot avail themselves of the present school. The finances of the corporation are in a good state.

*Township of Sales.*—There is but one school in this municipality, and its condition did not give me satisfaction. The school-mistress does not lack capacity, but the want of a regular assessment produces there, as elsewhere, fatal consequences.

*Isle aux Coudres.*—There are four schools open in this municipality; three of them are well conducted. Two new schoolhouses are being built this year, and the ratepayers deserve the greatest praise for the eagerness with which they have responded to the appeal of the commissioners in this instance. The finances of the municipality are in good order.

*Callières.*—A school is to be opened next spring in this municipality.

In the municipality of Tadoussac there is but one school, which I found closed at the period of my visit. When a compulsory assessment is established—and an effort is being made in that direction—better results may certainly be expected.

*Bergeronnes.*—Two schools are to be opened next spring in this municipality.

*Escoumains.*—The Escoumains school, conducted by Miss Vallée, is well managed. From 70 to 80 pupils attend with great regularity.

The above is a summary and impartial account of the state of education in each of the parishes in the district subject to my inspection.

## No. 7.—EXTRACT FROM THE YEARLY REPORT OF INSPECTOR CRÉPAULT.

### COUNTIES OF BELLECHASSE, MONTMAGNY AND L'ISLET.

The schools in the district subject to my inspection have undergone no change whatever in the course of the present year; I have hardly any improvement to mention, notwithstanding that the school-law works as well as we have a right to expect, in view of the means at the disposal of the local and central authorities.

Not a single municipality, however poor and however recently established, but desires to possess good schools, conducted on the best possible footing, by persons of talent and experience. It sometimes happens, despite the anxiety of the commissioners to satisfy this laudable desire, that the municipalities have reason to complain of their teachers. But, while doing justice to the good-will of the commissioners, I am constrained to attribute these errors, in selection of teachers, to their over facility in selecting.

However, I must say that there is still room for improvement in some of the schools; nevertheless I gladly testify that there has been great progress in the working of the schools within the past few years. The excessive diminution of the legislative grant, the result of fresh distributions to new municipalities daily springing up, helped to retard our advancement. The old municipalities murmur at the unavoidable increase of their rates, and there is every reason to fear that they will become discouraged, and exhibit a daily-increasing indifference to the interests of education, unless the government apply a prompt remedy to this evil, by increasing, by one-half, the annual amount hitherto granted.

The fact that in the country parts, parents require the services of their children to aid them in the seasons of sowing and harvest, is also naturally an impediment to our progress. I am inclined, from my observation, to think, that the rewards distributed amongst the pupils, by the inspector, are the most effectual means of obviating this difficulty. By this means you stimulate the zeal of the parents, and impart fresh courage to the children.

All the school teachers in my district hold diplomas, either from the Normal Schools or from the Board of Examiners. The school municipalities now engage no teachers but those holding diplomas.

It gives me pleasure to state that the most important schools in the district are conducted by students from the Normal Schools. They all discharge their duties successfully and creditably. They are universally sought after and receive a salary proportioned to their capacity. They are held generally in high esteem. They possess unequalled skill in maintaining order in school, and in using, to good purpose, the stimulus of rewards and decorations, so often efficacious.

My district consists of 22 municipalities, containing 135 institutions of all classes, namely: two industrial colleges, three convents, two academies, eight model schools for boys, three superior schools for girls, four independent schools and 118 elementary schools. These various institutions are attended by 6,932 pupils; 1,704 are learning the alphabet and spelling, 2,973 read fluently, and 2,235 read very well. There are 3,586 pupils able to write, 2,445 learning simple arithmetic, and 1,546 learning compound arithmetic. Two hundred and seventy-one scholars are studying the art of letter-writing; 175 vocal music, and 84 instrumental music.

In my district of inspection there are no more than 10 lay teachers, besides 107 schools under female teachers. The highest salary of male teachers is \$500, the lowest \$80. The highest paid to female teachers is \$200, the lowest 60. It is to be regretted that the salaries of both male and female teachers instead of being increased, as they well deserve that they should be, are on the contrary undergoing a process of diminution, very perceptible in certain municipalities, more especially in those where the commissioners are men of no education.

I shall now add a few words relative to each particular municipality:—

*Beaumont.*—This municipality supports three schools; two of them elementary, one model. The latter is taught with much success by Miss Martin, a pupil from the Laval Normal School, assisted by Miss C. Tanguay, a teacher of long standing and highly respected. Miss Turgeon, who is at the head of the school of Ville-Marie, is also entitled to great praise. The commissioners are well disposed to accept all improvements, but are seriously hampered by the want of pecuniary means. Their embarrassments are the consequence of a great many law suits to which they were subjected 14 or 15 years ago; with their strenuous determination, however, they cannot fail to recover themselves.

*St. Charles.*—There are nine schools in this municipality. The model school is taught by a pupil of the Laval Normal School (Mr. Gagné), gifted with a rare talent for enforcing order and discipline among his pupils who make great progress. This gentleman is held in general esteem.

Mlle. Couture has presided over the superior school for girls for twelve years, with unvarying success and great talent. She likewise receives boarders, and has a great number. Rev. Mr. Martineau, the *curé* of the place, takes the direction of the school commissioners in virtue of his great knowledge and experience. The finances are in a prosperous state; the other schools, seven in number, are well kept.

*St. Gervais.*—This municipality maintains 12 schools. The model school is conducted by Mr. Bouchard, who was a pupil at the Laval Normal School, and fulfils his duties to the satisfaction of all concerned. The girls' department is intrusted to the ladies of the convent of *Jésus-Marie*, whose acquirements, zeal and the general respect felt towards them, exercise the happiest influence over their pupils. Rev. Mr. Pouliot, *curé* of the parish, and one of the founders of the institution, is its careful director. The other schools are pretty well kept; the commissioners are making praiseworthy exertions to release themselves from the difficulties entailed on them by former mismanagement, and I have reason to believe that aided by their clever secretary-treasurer, Mr. Labrègue, they will, ere long, be in a prosperous condition.

*St. Lazare.*—This municipality supports six schools. That at the church is taught with great success by Mr. Bourassa, who is much esteemed in the district. Misses Pouliot and Vallières also keep a good school. The municipality, though poor, has always kept its affairs in good order.

*Township of Buckland.*—This township has only a single school taught by Miss Nadeau. The large number of scholars attending it is a proof of her efficiency and success. The people are earnest in their zeal for education.

*Township of Armagh.*—This township has two schools kept by persons of middling capacity, who are however competent to perform their functions in a young municipality; and there is evidence of great zeal if we consider the slender resources of the inhabitants.

*St. Raphaël.*—There are five schools in this parish, all well kept, and perfectly sufficient for the wants of the district. Miss Roy, the teacher of the Sault school is entitled to all praise. Mr. Courcy likewise is a skilful teacher. The commissioners fulfil the duties of their office with exemplary punctuality, and are not in debt.

*St. Michael, No. 1.*—In this municipality we find a commercial college, an academy for girls and an elementary school. The college is at present under the direction of Mr. Laferrière, a young man of talent and promise, brought up at the Jacques Cartier Normal School. Miss Gosselin conducts the education of the girls with anxious solicitude. In both establishments, besides the ordinary matters, instructions are given in linear drawing, vocal and instrumental music, mensuration and geometry. The municipality has at its head men who conduct its affairs very successfully. I consider it as the pattern-district in my inspectorship.

*St. Michael, No. 2.*—This municipality has three schools, all well kept. I owe honorable mention to Misses Toussaint and Couture, and to Mr. Dessin. The affairs of the municipality are in good order, and there is no debt.

*St. Vallier.*—This municipality keeps up five schools. The girls' school is taught by the Misses Bélanger, one of whom was educated at the Laval Normal School. They receive boarders, and find great encouragement. Mr. Sylvain, the teacher of the boys' school, is very successful. I regret that the remuneration accorded to Misses Belanger and Mr. Sylvain does not correspond with their merit.

The three other schools are of a middling order. The commissioners consider economy too closely in making their engagements. This municipality has but little debt.

*Berthier.*—In this little municipality there are but three schools in operation; one model and two elementary. Miss Boulé, who presides over the model school, was a pupil at the Laval Normal School. Her school is well kept, and is attended by seventy-five scholars. The success of the Misses Robin and Lavallée, who teach the two other schools, is satisfactory. The affairs of the municipality are in good order, although there is still a little debt.

*St. François.*—This municipality keeps up five schools, all elementary. That taught by Mons. Langlois, a pupil of the Laval Normal School, is but poorly attended. This is caused by a division in the parish respecting the site of the schoolhouse. The party worsted in the dispute took away their children and will not allow them to return. Miss Boulé, who keeps the Coteau School, deserves honorable mention. Miss Talbot is also a good teacher, but her pupils do not improve as they ought, on account of their frequent non-attendance. The convent of the Sisters of the Congregation, long established in this parish, is more and more satisfactory in the effects of its tuition. The commissioners do their duty, and the finances are in good order.

*St. Pierre.*—This parish keeps up a model school and three elementary schools. The former has been taught, during the past year, by Miss Lachance, a pupil of the Laval Normal School. The scholars of Miss Boulé, who kept the school on the north side of the river, regret to lose her, she being obliged to leave on account of ill health. The two other schools are tolerably well kept. The commissioners generally defer to the advice of the Rev. Mr. Morin, *cure* of the parish, and are the better for it. Their pecuniary affairs are in a flourishing condition.

*St. Thomas.*—There are nine schools in operation in this place. The academy for boys is under the control of the brethren of the Christian Doctrine. In addition to the

ordinary branches, they teach English, linear drawing, vocal and instrumental music, mensuration and geometry. The pupils under their care have always made great progress. The religious ladies of the Congregation have two hundred young girls under their care, to whom they teach English, music, worsted-work and needle-work, and epistolary writing. The convent is well kept and enjoys a high reputation. The two Misses Dairie and Miss Colin, are entitled to particular praise as teachers. The school municipality is managed by talented and zealous persons. It is in debt, but the accounts are well kept.

*L'Isle aux Grues (Crane Island).*—This municipality has two schools which work very well. The centre one, which may be looked upon as a superior primary school, is managed by Miss Painchaud. This young lady refuses no sacrifice when the improvement of her pupils is in question. In truth the sacrifices which she has made have been hitherto well repaid by constant success. The commissioners are intelligent and enlightened, and their affairs are in good order.

*Cap St. Ignace.*—Cap St. Ignace maintains eight schools. The model school is under the direction of Miss Fournier, a former pupil of the Laval Normal School. Her pupils make satisfactory progress. The other schools are perfectly suited to the wants of the locality. Although the school-law was put in force here at a later period than in other municipalities, the schools are, nevertheless, on a par with those of the other parishes. The affairs of the commissioners are in good order and well managed.

*St. Cyrille.*—This municipality, in which many persons have scarcely the means of living, is enabled by great sacrifices to maintain two good schools taught by well-qualified teachers. The accounts are well kept.

*L'Islet.*—This large municipality has thirteen schools in operation, two of which are superior primary or model schools—one for boys, and one for girls. The former is under the charge of the Brethren of the Christian Doctrine. The girls' school is under the direction of the Misses Languedoc. One of the latter is a late pupil of the Laval Normal School. Their classes are well kept, and the parents are satisfied. Miss C. Fortin, who keeps the school at the extremity of the 1st range, is remarkable for her skill as a teacher; her pupils make astonishing progress. Misses Boucher and Poitras have also an excellent school. All the other schools in the municipality are likewise well kept. The commissioners, guided by Rev. Mr. Delâge, *curé* of the parish, discharge their duties in an efficient manner. Their finances are in the most flourishing condition.

*St. Aubert.*—This municipality maintains five schools, all well conducted. The Misses Langlois are remarkable for the improvement of their pupils. Rev. Mr. Fortin, the *curé* of the parish, is the mainspring of all progress in this district, which is comparatively poor and new. The finances are in a prosperous state, and the accounts are well kept.

*St. Jean Port Joly.*—This municipality has nine schools in operation. The model school is under the management of Miss Dumas, a distinguished pupil of the Laval Normal School. She has remarkable success. The other schools have also for several years past been in a prosperous condition. Rev. Mr. Parent has not a little contributed to the progress of the parish in this respect. The finances, which are administered by a clever secretary, the notary Verreault, are in good order.

*Ste. Louise.*—This municipality has three schools in operation. The most flourishing one is that near the church, kept by Miss Pelletier. The others are also well kept. The Rev. Mr. Casgrain, *curé* of the parish, evinces great zeal in the cause of education. The affairs of the municipality are in good order.

*St. Roch des Aulnais* has eight schools. That which is known by the name of the Mill School is under the direction of Miss Chèvrefils, a skilled teacher, who has had long experience; her pupils have always made great progress; she teaches English with as much benefit to her pupils, and it is as familiar to her, as French. The other schools are all kept by good teachers, among whom Miss Pelletier is distinguished. The parish is greatly indebted, in respect of education, to Rev. Mr. L.-P. Chiniquy, who for some years past has generously devoted himself to the success of the cause. The finances are in good order.

## EXTRACT FROM THE REPORT OF INSPECTOR JUNEAU.

## COUNTIES OF LÉVIS AND DORCHESTER.

I have the honor to transmit to you herewith a report of my two last visits to the various educational establishments in the counties of Lévis and Dorchester. My inspectorship now comprises one college, three convents, two academies, eleven model schools, three dissentient schools, seventy-eight elementary schools, and twenty independent schools, all which institutions are attended by 8504 scholars of both sexes; 4119 male children and 4385 girls, being an increase of 642 over the preceding year. I found with pleasure that the pupils of almost all the schools had been more attentive than formerly. I have ascertained that the average attendance of children at school was 6438.

If we look back at the statistics of 1860 we shall find that there were at that time no more than two convents and four model schools in my two counties; there are now three convents and eleven model schools.

In my two last visits I distributed 227 prizes. These rewards excite great emulation in the schools, and it is to be regretted that we cannot give a larger number. I thought it my duty to suggest and strongly recommend the school commissioners to subscribe to the *Journal of Public Instruction*, for the use and in the name of their respective school municipalities, to the extent of as many copies as there are school districts. I pointed out to them the numerous advantages which would result from the perusal of that excellent publication, with respect both to the orderly conduct of their schools and the moral behavior of their pupils; that masters and mistresses may constantly find in it useful suggestions and different methods of teaching; that the *Journal of Public Instruction* would be, as it were, a second normal school to those who are now, and will hereafter be, intrusted with the management of schools. I told them, moreover, that in that publication we find excellent and choice pieces of literature, many of which might be studied for the examinations; in short, that masters, pupils, and parents themselves would be the better for it—the first by perfecting themselves in the difficult art of teaching, the second by studying under better taught, and therefore more skillful, masters, and the parents because the progress of their children would be more rapid.

*St. Nicolas.*—The schools of this municipality are well kept, with the exception of that of district No. 5, the teacher of which, although tolerably well informed, has not a talent for teaching, and the pupils make but little progress. The commissioners have promised not to engage her for another year. The model school for girls is still well kept. The examination at the academy for girls has again shewn to the numerous visitors the excellence of the system of tuition; the pupils having evinced a great amount of progress.

*St. Etienne.*—This young municipality is divided into four school districts, and there are three schools in operation, two under control and one independent. School No. 1 has been ill kept and the scholars have certainly lost their time. The mistress was to be changed after the vacation.

*St. Romuald.*—All the schools in this municipality are well kept. The dissentient school at this locality is at last provided with a good master, a pupil of the McGill Normal School, Mr. John R. Lloyd.

*Village of Etchemin.*—The schools of this populous village are admirably kept and regularly attended by a great number of scholars. The two last-named municipalities employ none but qualified teachers educated at the normal schools, and all goes well with them.

*St. Henri.*—The ten schools of this fine large municipality are all well kept, several of them very well. The excellent model school is highly honorable to the community.

*St. Jean Chrysostôme.*—I had reason to be satisfied with all the schools at this place. A model school was opened in July last.

*St. Lambert.*—The schools of St. Lambert are kept on a good footing, especially the model school. In this municipality the teachers and pupils emulate each other, and labor with untiring energy, but their zeal is tempered with kindly feeling, and a spirit of concili-

liation. Miss Praxide J'ournier was to quit the parish after the vacation to enter a religious community. This young person has, by her talent, her piety and gentleness, gained the esteem of all the parish, and goes away bearing with her the blessings of all the inhabitants.

*St. Joseph de Lévis.*—This fine parish has good elementary schools, and excellent institutions for superior primary education. The convent is conducted with exemplary care, and is accordingly attended by children of the first families, both French and English.

*Lévis.*—The town of Lévis likewise possesses excellent institutions for superior primary education, which leave nothing to be desired in respect both of instruction and of comfort. The elementary schools are on a good footing and regularly attended by a considerable number of children of both sexes. That of the Misses Lefebvre has not less than 148 scholars.

*Notre Dame de la Victoire.*—The schools in this parish are all well kept and regularly attended. The model school, kept by Mr. F. Letellier, has made extraordinary progress although attended by 146 scholars.

*St. Isidore.*—I was satisfied with the manner in which the schools of this place are kept, particularly those taught by Misses Boutin and Turgeon.

*St. Bernard.*—I visited this parish about the 15th of June last, and found all the schools closed. The final examination had taken place two days before my arrival. It was said that the progress of the pupils had given general satisfaction. I informed the secretary-treasurer of my intention to visit the schools of the neighborhood in the autumn. I told him also that it would be better to fix the vacations at the same time adopted by other municipalities, that is to say, during harvest, that by fixing the time as at present at the end of the school year, they caused the children to lose a great deal of time; as, after their holiday months in June and July, they do not return to school until after harvest. The secretary, who is a judicious person, promised to use his influence to induce the commissioners to remove the inconvenience.

*St. Anselme.*—The schools of this large municipality are all well kept. The convent of the Reverend Sisters of *Jésus-Marie* seems to promise brilliant results. The same system of tuition is adopted as that of *St. Joseph de Lévis*. I regret that for the present year, the model school for girls has been suspended. I believe it will be found necessary to resort to the compulsory system of taxation, as the only means of keeping up good elementary schools at all times, as well as a good model school for boys in the school district at the church, which does not now exist. The want of such a school is the more severely felt just now that its advantages are understood.

*Ste. Marguerite.*—Of six schools in this municipality, two only are kept by teachers who have diplomas, nevertheless, I was satisfied with the progress made by the pupils, particularly by those of the schools kept by the Misses Philomène Boutin and Vaillancourt. In the school kept by the latter, I saw fifteen children who had learned to read in the short space of three months. The *curé* of this parish has a thousand difficulties to contend with in keeping up his schools; there, too, it shall be necessary to have recourse to compulsory contributions. I set about preparing the inhabitants for this, and it was no slight affair, I assure you.

*Ste. Hénédiène.*—The schools of this little place are well kept and regularly attended.

*Ste. Claire.*—The model school of this parish is still well taught, and attended by numerous pupils. I am also very well satisfied with the elementary schools, although several fall short of my expectations. In general, the accounts of the secretary-treasurers are well, conscientiously, and intelligibly kept in my district, method alone is wanting in some of them. This report is accompanied by a comparative statement of superior instruction in the counties of Lévis and Dorchester, for the years 1860 and 1864.

I shall have to distribute, in my approaching visit, 59 volumes remaining from the year before last, and 264 volumes remaining from the last.

In my last visit, I received no particular complaint relative to the schools.

COMPARATIVE Table of Superior Instruction in the Counties of Lévis and Dorchester, for the years 1860 and 1864.

F. JUNEAU,  
*Inspector of Schools.*

## No. 9.—EXTRACT FROM THE REPORT OF INSPECTOR BÉLAND.

### COUNTIES OF BEAUCE AND LOTBINIÈRE.

I have the honor to send you, together with this report, statistical tables of my district of inspection, for the year 1864.

The schools in my district work satisfactorily in every respect. The school commissioners generally acquit themselves well of their duties. The secretary-treasurers keep their books in regular order.

The teachers' salaries are generally too low, and do not suffice to enable them to live decently. I fear too, that the rate-payers will never trouble themselves to improve this state of things. I have encouraged the teachers to carry out a scheme which they have formed of petitioning the legislature, which alone has the power to do them justice. The majority of them agree to receive salaries far too low, and altogether disproportioned to their capacity and the value of their labors.

*St. Jean Deschailions.*—This municipality has, at last, succeeded in paying up its arrears, and affording a liberal support to its schools, which are all kept on a respectable footing. The model school, kept by Mr. Pageau, does great honor to the teacher and the parish. The teachers in the other school districts discharge their duties with no less zeal than success. The secretary's books are well kept.

*Lotbinière.*—This parish is distinguished by its numerous and good schools, and particularly by its convent, its academy for boys, and its model school: these three institutions are well kept, and of incalculable benefit to the parish, and to the surrounding neighborhood. The rate-payers and the Reverend *curé* Faucher particularly, submit to the greatest sacrifices for the support of these three institutions. The other schools in the municipality also work in a satisfactory manner. The secretary's books are kept in good order.

*St. Emilie.*—This new parish, formed of a dismembered portion of that of Lotbinière, has four schools. Mr. Joly also maintains in it an independent school of the first class.

*St. Edouard.*—This municipality, like that of *St. Emilie*, numbers four schools which are well kept.

*St. Croix.*—This municipality keeps up ten good schools. Its convent enjoys a high reputation which it well deserves. Mr. Durocher manages the boys' school very skilfully. The other schools are taught by female teachers. The books are well kept.

*St. Flavien.*—The five schools in this municipality are all good. The teachers are paid regularly. The commissioners have appointed a new secretary-treasurer in the present year.

*St. Antoine.*—This municipality maintains (to its honor be it said), a model school, and seven good elementary schools. The teachers emulate each other, and their efforts produce the happiest results. The model school is kept by a young person belonging to the parish who holds a diploma from the Laval Normal School.

*St. Apollinaire.*—This municipality has five schools, which are well kept. The finances are in good order.

*St. Giles.*—This municipality keeps two schools on a good footing.

*St. Agapit.*—This municipality has only one school but that is well kept.

*St. Agathe, No. 1.*—This municipality has also only one school attended by a great number of scholars.

*St. Agathe, No. 2.*—This municipality maintains three good schools.

*St. Sylvester, North and South.*—The law is always difficult to be enforced in these municipalities. There have been, nevertheless, as many as twelve schools, some of which were not devoid of merit.

*St. Marie de la Beauce.*—This municipality has nine schools presided over by zealous and efficient teachers. The convent and school of the Brethren of the Christian Doctrine, afford the children who attend them a good education.

*St. Elzéar.*—This municipality is contumacious on the subject of school taxation. Had it not been for the generous sacrifices of the Rev. Mr. Grenier, *curé* of the parish, who maintains seven schools, this place would be destitute of any educational institution.

*St. Joseph.*—Numbers eleven schools, seven of which are well kept. Those intrusted to the Misses Cazeau, Robitaille and Poirier, are schools of the first class. The four others without being as remarkable, nevertheless suffice for the wants of their districts. The secretary performs his duties well.

*St. François.*—This municipality maintains twelve schools, nine of which are well kept. Those taught by the Misses Anger, Baudouin, de Tonnancourt, and Bourque, are entitled to particular mention. The others have also their degree of merit. The secretary-treasurer keeps his accounts correctly.

*St. Frederic.*—This municipality is one of those in which the education of the children makes the greatest progress. Its six schools are good and well kept. The Rev. Mr. Moore, *curé* of the place, watches their proceedings with a vigilant eye. The secretary performs his duties satisfactorily.

*St. George.*—This municipality keeps up six good schools. The *curé*, the commissioners and the secretary, emulate each other in their zeal for the interests of education.

*Metzhermetté.*—The English school is well kept. If the municipality is divided, as it is hoped that it will be very shortly, a French school may perhaps be established.

## No. 10.—EXTRACT FROM THE REPORT OF INSPECTOR HUME.

COUNTY OF MEGANTIC AND PART OF THE COUNTIES OF DORCHESTER AND BEAUCE.

SIR,—I have the honor to make the following report of the progress of education in my district of inspection, making, as usual, some observations upon the scholastic affairs of each municipality, commencing with those in the county of Beauce.

## COUNTY OF BEAUCE.

*St. Victor de Tring.*—There have been four schools in operation in this municipality under the control of the commissioners, but one had been closed at the time of my last visit. Since the month of July last, there was also an independent school in a remote part of the municipality. The present teacher of the chief school is much better qualified than several of her predecessors were, and considerable progress has, in consequence, been made by the pupils. In the other schools no unusual progress has been made. The commissioners have changed their secretary-treasurer; the newly-appointed one appears to keep his accounts with regularity. A considerable portion of arrears of assessment has been collected. A new schoolhouse has been built in the principal district, which was much wanted, the old one being unfit for the accommodation of the pupils.

*St. Ephrem de Tring.*—Some change has been made in the limits of this municipality by an Act of Parliament passed in 1863, dividing the township of Tring into two municipalities, which took effect from the first of January last. The annexing of a part of the sixth range (which formerly formed part of St. Victor) to St. Ephrem is a great advantage, as it has enabled the commissioners of the latter place to establish a school in that range, where none had been for a number of years, part of the inhabitants of the range having previously belonged to one municipality and part to another. Three schools are now in operation with qualified teachers; but one district is still vacant. There was also an independent school kept during a period of the year. Although many of the inhabitants are poor, I am happy to say that the amount owing by the commissioners is much less than it was last year, and that the arrears of assessment due have also decreased.

*Forsyth.*—There are two schools in operation, and it is in contemplation to establish another one. One of the schools has been well attended and some progress made, but at the other the attendance has been, as usual, very irregular. The commissioners are entirely free from debt, and but a very small amount of arrears is due by the inhabitants.

*Lambton.*—In this municipality there is nothing of any importance to record since the date of my last report. There are two schools, with the same teachers who were engaged last year; both of them are well qualified, and the schools were numerously attended, and much progress made. The amount of arrears due is much the same as it was last year.

*Aylmer.*—There are four schools in operation in this municipality; the teachers are all very well qualified; one of them has a diploma from the Laval Normal School. Some progress has been made in those schools where there has been a good attendance; but in one or two the pupils attend very irregularly, especially in the summer season. The commissioners have paid a considerable portion of their debt, and the arrears of assessment due are less than they were last year.

*Shenly.*—I regret to say there has been no school in operation in this municipality this year; being a new settlement, and the inhabitants being, from various causes, very much dispersed, there are scarcely a sufficient number of children within a reasonable distance in any locality to form a school. The inhabitants are also, in general, very poor.

*Broughton.*—In this municipality the school commissioners have determined to support their schools by assessment, and the rate has been levied for that purpose; but as circumstances delayed the imposing of the rate, scarcely any of it has yet been paid.

This resolution encountered great opposition from a certain number of the ratepayers, but it has now almost entirely ceased. The curé of the locality, the Rev. Messire Huot, has displayed great zeal for the advancement of education. Two female teachers have

been engaged by the commissioners, one of whom holds a diploma from the local Normal School, and the commissioners propose to engage several others next year.

In this municipality the Protestants are dissentients, and they have a school in operation which is attended by a great number of pupils. They have also adopted the system of assessments. They have collected a portion of the taxes imposed for the present year. During a certain portion of the year there has been an Independent School in operation in this municipality.

#### COUNTY OF DORCHESTER.

*West Frampton.*—There are only two schools in operation in this municipality, and one of these had been abandoned by its teacher a short time before my arrival in October last, and her successor has not yet been appointed. A female teacher had been engaged by a certain number of French Canadians who reside in this municipality; this teacher was to open her school on the 1st December last. There is no dissentient school in this municipality, the dissentients not being in a position to pay for a teacher. The Rev. Mr. Rousseau, the chairman of the commissioners, makes the same complaint as Mr. Paradis, of the impossibility of obtaining competent teachers. The school in operation at the time of my last visit was attended by a large number of children, and considerable progress had been made.

*Standon.*—Since the appointment of the present teacher the school in this township has been attended by a large number of pupils, and I remarked very satisfactory progress. I have every reason to believe that another school will soon be opened in the back concessions, in which hitherto the inhabitants have been too poor and too scattered to maintain a school.

*Cranbourne.*—There have been three schools in operation in this municipality at different periods of the year, but none of the teachers held diplomas. When I inspected the municipality last year one of the teachers intimated his intention of going to Quebec for the purpose of obtaining his diploma. He did, indeed, go, but he never returned. I cannot say whether he underwent the examinations, but he certainly did not obtain a diploma. A certain number of Protestants have been dissentients for some years past, and have established a school, which has been in charge of a young married woman of very limited capacity. She intimated her intention of trying to obtain her diploma, and I obtained for her the books containing the information requisite for candidates. I have advised the commissioners to establish the system of assessments, but throughout the whole county I have encountered obstacles to the establishment of this order of things.

The commissioners informed me that they experienced great difficulty in obtaining very competent teachers at the salaries they could offer. I have endeavored to engage a certain number of teachers in the county of Megantic, to go and teach in those municipalities, but the low salaries offered and the remoteness of the localities have led them to refuse my offers.

#### COUNTY OF MEGANTIC.

*Leeds.*—The number of schools opened in this municipality was more considerable last year than ever, and with but one or two exceptions the progress made was very satisfactory. The teachers are, generally speaking, very competent. The Model School is intrusted to a teacher holding a diploma from the McGill Normal School. This person discharges her duties with talent and success. The schools are still maintained by voluntary contributions, but the contributors pay regularly and liberally, and several of the teachers enjoy higher salaries than are paid in municipalities in which assessments are established. I can, however, quite understand that it would be far better if the system of assessments were established. I have every reason to hope that it will be before long. Already a valuation roll has been prepared, and the commissioners appear disposed to give effect to the law.

*Inverness.*—A considerable number of schools have been in operation in this municipality, but several of them were closed during the summer months. Generally speaking, the pupils have made satisfactory progress. The assessments are punctually paid, and the commissioners have paid a large portion of the debt which they were obliged to contract

in building the Model School-house. All the debts of the municipality were contracted for the erection of school houses, which are all in good condition. The Model School has been closed for some months past in consequence of the departure of the teacher, but the commissioners are using every exertion to obtain another. The dissentients have two schools in operation, and there is an Independent School in this municipality.

*St. Calixte de Somerset.*—Education has made very satisfactory progress in this municipality. The pupils of the convent—160 in number—appear to have profited by the instruction afforded to them. The Elementary Schools in this municipality are well kept. They are eight in number. The teachers are competent, and the result of their labors is, in every way, satisfactory. This municipality has been obliged to contract very heavy debts for the erection of the Convent and the Model School. A small portion of this debt will be paid off this year, but the municipality is still heavily in debt. There are arrears of assessment and of monthly contribution to a large amount still to be collected. The commissioners have addressed notices to all ratepayers in arrear, and they expect to see the amounts due, paid in in a short time.

*St. Julie de Somerset.*—There are a Model School and six Elementary Schools in operation in this municipality. The Model School is kept by a young lady holding a Model School diploma from the local Normal School. The teachers in the other schools are very competent, and their pupils make great progress. The finances of this municipality are in good order. The contributions for the year are considerable, and the commissioners are almost free from debt. The amount now due is owing to the secretary-treasurer, who has assumed the responsibility of paying the teachers out of his own pocket rather than keep them waiting.

*St. Sophie d'Halifax.*—There have been six schools in operation in this locality, all managed by competent teachers. One school district in which there was formerly a school has remained without one in consequence of the refusal or neglect of the ratepayers to send their children to it. No teacher has been engaged for it. The assessment has been increased this year, and a large portion of the debt of the municipality has been paid. A large amount of arrears is still payable. This temporary difficulty was the origin of the troubles which existed when the ex-secretary-treasurer withdrew from the office, as at that time hardly any of the school rates were paid. The secretary-treasurer is, with his acknowledged ability, taking successful steps to provide for the deficiency. I deem it my duty to state, to the honor of this gentleman, that he has offered to discharge his duties for a whole year without remuneration.

*St. Ferdinand d'Halifax.*—I am happy to state that the financial condition of this municipality has very much improved—a large amount of the debt has been paid off, and the arrears have been considerably reduced since last year. There are nine schools in this municipality under the direction of the commissioners. With the exception of two or three, these schools have been regularly attended, and I observe considerable progress. In two of these schools English and French are taught. Besides these, there are two dissentient schools, the progress in which is satisfactory.

*Ireland.*—There were six schools in operation in this municipality during last year. Some of them were closed during the summer months, as but a very few children attended. The smallness of the population in these new settlements must be borne in mind, and the children should not be found fault with for their irregularity. The teachers are very capable. The arrears are larger than last year, and the debt of the commissioners has increased, but I have every reason to believe that the condition of matters in these respects has improved since my last visit.

*Nelson.*—In this municipality the commissioners passed a resolution to establish a system of assessment in lieu of voluntary contributions, but as a certain number of the ratepayers opposed it vigorously, the resolution was rescinded, and the commissioners decided not to impose any rate without consulting the contributors. A meeting on this subject was held in May last, at which I was present. Unfortunately it was composed almost exclusively of persons opposed to the system of assessment. I did my best to convince them of the advantages of the rate, but they voted against it and for the continuance of the voluntary contributions. I had anticipated this result, for whenever I have seen meet-

ings called for the consideration of this matter, I have observed that only the opponents of the rate system are present.

There are three schools in operation in this municipality. One of them, in which English and French are taught, is in charge of a teacher who holds a diploma from the Laval Normal School; of the two others, one is exclusively English and the other French. In addition to these schools, three Independent Schools have been maintained by a certain portion of the inhabitants during a part of the past year.

On the whole, comparing the results obtained last year with those of the present year, I ascertain that the number of pupils has increased considerably. In some municipalities the debts have been reduced, and the amounts of arrears diminished. Generally speaking, the affairs of the municipalities are well administered. Excepting the Independent Schools, all the schools in my district are in charge of teachers who hold diplomas.

Although the numbers of schools and pupils have increased this year, I should much like to see a greater display of zeal in some municipalities. I make this observation more especially in reference to those municipalities in which the regular rate has not been established. In these the commissioners have no power; all depends upon the liberality of the contributors. The opposition to the establishment of the system of rates is gradually disappearing, and soon will cease altogether. In my district a vigorous opposition to this system exists, in the county of Dorchester especially, and yet a large number of the inhabitants are favorable to it. In the municipalities in this county it is difficult to procure competent teachers, and on this account a certain number of the schools have had to be closed. There is no difficulty of this kind in Megantic. In fact, the three-fourths of the teachers who have obtained diplomas from the Protestant Board of Examiners, at Quebec are from the county of Megantic.

The greatest obstacle to the progress of education is the indifference of the parents, and the small concern they manifest in sending their children to school. This is evident from the frequent absences of the children, absences which are allowed on the slightest pretext. Moreover, children are removed from school too soon; but seldom a child of twelve years of age or upwards is to be found in these schools.

I admit that in those parts of the country in which every inhabitant maintains himself by field labor, the children even of tender years are in a position to render services to their parents, but I cannot refrain from making it a matter of reproach to the contributors. I am sure that they could easily make their children attend the schools more regularly, as now at certain times they hardly attend at all.

## No. 11.—EXTRACT FROM THE REPORT OF INSPECTOR BARDY.

### COUNTIES OF QUEBEC, PORTNEUF, AND MONTMORENCY.

Education in my inspection is making constant and rapid progress. Since 1860 six new municipalities have been organized, viz. : those of St. Michel de Beauport, St. Roch Nord, Notre Dame de Portneuf, Ile Laval, des Grondines No. 2, and Valcartier West. The great majority of the schools I visited are in a flourishing condition. The schools in the city of Quebec, which are nearly all under the direction of the Brothers of the Christian Doctrine and of the religious ladies of the different communities, cannot fail to prosper. The system adopted in them proves its value by its constant success.

*Ancienne Lorette* has good schools, well kept. Mr. Gilbert, who has taught for nearly thirty years in the church district, is the model teacher of that locality.

*Pointe aux Trembles* possesses a Model School, directed to the general satisfaction by Mr. Lefebvre. The other schools in this municipality are well kept.

*Ste. Foye*.—Mr. Letourneau keeps the Model School with talent and success.

*St. Felix de Cap Rouge*.—The Model School here is in charge of Mlle. Paradis, who displays indefatigable zeal in the discharge of her duties.

*Les Ecureuils*.—I consider the model school in this parish the most advanced and best managed in my whole district.

*St. Augustin*.—This parish has several good schools. That of district No. 4 leaves nothing to be desired.

*St. Jean* has an Academy and two Elementary Schools, all well kept.

*St. Laurent*.—I cannot speak in praise of the schools in this locality.

*La Sainte Famille* has a Convent and a Model School, the progress in which is very satisfactory.

*St. Colomb*.—The schools in this municipality are well kept. The pupils in Mr. Ryan's academy are, specially well versed in the different branches of arithmetic.

*St. Pierre*.—The scholars in the St. Pierre schools have not made the progress that might have been expected, by reason of irregular attendance.

*St. François*.—The constant absences of the pupils have very much retarded their progress in the two schools of this parish.

*Chateau Richer*.—The schools are good; the school of the central district is superior to the others, as regards the progress of the pupils; I attribute this success to their regular attendance.

*Deschambault*.—The convent and the different schools in this municipality leave nothing to be desired.

*St. Ambroise*.—Mlle. Dubuc keeps a good school among the good schools of this locality. The spirit of order and emulation prevails among her pupils.

*Beauport*.—The school of Mlle. Vallée is more advanced and prosperous than those in the other four districts, which are, however, well conducted.

*Charlesbourg*.—The Model School and that of Bourg Royal are quite remarkable for their success. There is an absence of diligence on the part of the children in the other schools.

*St. Alban*.—The two schools in this municipality are in a prosperous condition.

*L'Ange Gardien* has good schools; that of district No. 1 is really excellent.

*St. Ferreol* has but one school, quite recently established, which promises well for the future.

I am very satisfied with the schools of St. Joachim, St. Anne, Valcartier, St. Michel de Beauport, des Grondines, Notre Dame de Portneuf, and St. Tite des Caps.

There are about five hundred pupils in the French schools who learn English, by desire of their parents.

Writing is generally well attended to. In nearly all the schools the pupils write a well-formed hand. More attention is given to reading than heretofore, and the pupils generally read better.

I have observed a marked progress in the study of grammar, composition, epistolary style, and especially in arithmetic. Mental arithmetic is practised with success.

A few teachers of Model schools who gave no instruction in linear drawing informed me, on my remarking it, that they could not obtain the requisite text-books. I think it would be desirable that the Council of Public Instruction should undertake to import or to publish the books necessary for our schools.

Allow me, sir, to offer a few remarks on the schools in the different school municipalities which I have visited:—

There are a certain number of localities in which but little progress could be observed, on account of the extreme indifference to education manifested by persons ignorant of its value, from the fact of their being without it. Schools, however, are sought for in nearly all the municipalities, and it is deemed requisite that they should be intrusted to competent teachers. But very few persons are to be found who are willing to make any sacrifices in order to obtain these advantages.

The Protestant school of St. Dunstan has commenced a career of progress since the former teacher has been replaced by a young man whose industry and sobriety have

obtained for him the respect of his pupils. The Catholic school is in the hands of a good teacher. It is to be regretted that this school is not more central, so as to enable a larger number to attend it regularly.

The municipality of Laval has only one school in operation. Its teacher exhibits great zeal and capacity; but unfortunately the indifference of the parents renders the children very careless and delays their progress.

*L'Isle Laval.*—This municipality has no school in operation, although they have erected a schoolhouse.

*Stoneham.*—This municipality has only one Protestant school, which appears well conducted. The Catholics, who are in a majority there, have promised me to establish a school for their children. As regards the inhabitants of Tewkesbury, they do not appear to be taking any steps to form a separate municipality; they are mostly new settlers, poor, and too few in number to maintain a school.

*Chateau Richer.*—In the four schools in this municipality, the pupils exhibit diligence in the study of grammar and composition. The boys' Model School and the Model School for girls rival each other. Sixteen boys and fourteen girls learn English. Globes are used for instruction in geography. The commissioners and the secretary discharge their duties with credit.

*St. Anne.*—This municipality has two schools. The pupils are not diligent and make but little progress. The teachers, however, display much energy. There is a good understanding between the commissioners and the secretary, and the affairs of the municipality are in good order.

*St. Joachim.*—This municipality has two schools, both well kept.

*St. Tite* has but one school, badly kept. The commissioners appear indifferent.

*St. Ferreol.*—The commissioners appreciate education. They have built a handsome school-house, which does honor to this poor municipality.

*L'Ange Gardien* has five schools, well conducted. That kept by Mlle. Vallée, in district No. 5, is that in which I remarked the greatest progress. Although she has 115 pupils, she manages to teach grammar to 70, arithmetic to more than 60, and English to 20. The church district has just lost a good teacher, Mlle. McQuillan, who died recently.

*St. Laurent* has three schools in operation. The Model School kept by M. Lapierre has 90 pupils. The two elementary schools, and specially that kept by Mme. Bouffard, work well.

*St. Jean.*—Good order and progress reign in the three schools here. The finances are well administered.

*St. François.*—The two districts here have good schools. The children are inattentive, but make progress, considering their years.

*Ste. Famille.*—The Superior School for girls and the Model School for boys leave nothing to desire, both as regards management and the progress made by the pupils.

*St. Pierre.*—The three schools in this municipality are well kept. There is but little diligence in the school of districts Nos. 2 and 3. The centre schoolhouse is not sufficiently large for the children who attend it, and who are numerous enough to require the attention of a male and female teacher. I have for some time past pointed out to the commissioners the inconvenience of the existing state of things.

*St. Michel de Beauport* has but one school, attended by 78 pupils, whose progress is satisfactory.

*Ancienne Lorette* has six schools in operation, of which five are well conducted. The school in district No. 5 alone makes no progress. The attendance is small. The secretary-treasurer performs his duties creditably.

*Cap Blanc.*—I had pleasure in visiting the three English and the one French class opened by the Sisters of Charity in this municipality. These zealous ladies afford instruction to 320 little girls, always with the same success. I also examined with great interest the three English and one French class of the Brothers of the Christian Doctrine. These

worthy brothers give a careful education to more than 330 children. The Superior School at Cap Blanc is not inferior to any other school of that kind. I admired especially the quickness with which the pupils solved problems in geometry and mental arithmetic.

*Ste. Foye.*—The commissioners in the interest of the contributors have recently erected a new district, without, however, interfering with that of the centre, in which the Model School kept by Mlle. Letourneau works admirably with its 84 pupils, who learn book-keeping, use of the globes, composition, arithmetic and English.

*Cap Rouge.*—I was pleased to see again Mlle. Paradis who had left this municipality to teach at Charlesbourg. This person has a rare talent for teaching. The success of her pupils everywhere attest this. She has now 95 who have made remarkable progress in book-keeping, composition, geometry, linear drawing, &c. She has engaged an assistant who teaches English to 40 of her pupils.

*St. Colomb* has an English and a French school in each of its three districts. These schools, and particularly the academy in which Mr. O'Ryan teaches 100 scholars, work well and produce satisfactory results. Arithmetic, geometry, and book-keeping are particularly well taught. The writing is very good.

*St. Roch, North,* has two Model schools—one for boys, kept by Mr. Gerardin, a very competent teacher; the other for girls by Mlle. Forques, who holds a diploma from the Laval Normal School. There are many reforms to be effected in this municipality, and on this account the success of the teachers is not all that could be hoped for.

*St. Roch, South.*—This municipality includes all that part of the *banlieue* of St. Roch to the south of the River St. Charles. It is divided into three districts, in which there is a boys' school with 280 scholars, and one for girls with 92, eight independent schools, attended by 537 children, and the school of Faubourg St. Angèle, attended by 25 children. The capacity of the teachers is satisfactory, and the children make marked progress. At the Superior French School, at the convent, the teachers give successful instruction in the rules of arithmetic, book-keeping, grammar and composition, geography and the use of the globes; and I need not observe that reading and writing are taught with care. The new schoolhouse soon to be erected in this locality, through the exertions of the Rev. Father Drocher, will enable instruction to be given to hundreds of little boys who are now without schooling or occupation.

*St. Augustin.*—The four schools in this municipality are well kept. They are attended by 233 pupils. At the centre school, kept by Mlle. Tapin, I remarked very good French compositions, and good translations from English into French. The school in district No. 1 makes greater progress since its removal to a more central situation.

*Pointe aux Trembles.*—The commissioners, teachers, and contributors vie with each other in zeal and earnestness to promote the interests of education. The convent and the Model School for boys, at which there are 58 pupils, are in the most prosperous condition,

*Lcs Ecureuils.*—The Model School in charge of Mlle. Vallières and one of her sisters, and at which there are 110 pupils, affords the greatest satisfaction. Writing especially is taught with great success.

*Cap Santé* contains but three school districts since the municipality of Notre Dame de Portneuf has been detached. The three schools are satisfactory. The school in district No. 1 has 67 pupils, that of No. 2, 64; and that of No. 3, 45.

*Notre Dame de Portneuf* has been divided into two districts and has two schools. The school in No. 1, with 130 children, under Mr. Fectem, although satisfactory, would be made effective were the number in attendance not so large. The school in No. 2 affords the same satisfaction. The want of books, paper, &c., is the principal cause of the slow progress of the children.

The dissentients at Cap Santé have three districts, the schools in which are hardly attended at all. I have only inspected one since my visit of last winter. At that time there was no school at Hale Borough, and I was informed too late that the school at Hardwood had just been opened. As regards the one I visited, in the Protestant chapel at Portneuf, it had made hardly any progress. I heard with pleasure that a new teacher would soon be appointed.

*Deschambault*.—The five schools work well, and are attended by 231 children. It has been proposed to appoint, in the place of Mr. Belleau, a new teacher to the Model School who would be acquainted with English and French. This would, I think, be unfair, as Mr. Belleau has always most worthily discharged his duties, and has, moreover, offered to contribute to the salary of an assistant teacher of the English language.

*St. Alban* has only three schools in operation for its four districts, and indeed only seems disposed to support two, although a fifth district is about to be formed. Of the three schools which I visited, two have made progress—those of districts Nos. 1 and 2. In the other school the children do not possess the necessary books, &c. I know that poverty exists, but there is also great indifference on the part of the contributors; more than 230 children might enjoy the advantage of education.

*St. Casimir* has four schools, which are absolutely worthless. The commissioners and contributors are perfectly indifferent as regards education.

*Grondines, No. 1*, has four school districts. That of the church has been detached to form a separate municipality. District No. 4 has as yet no school in operation, although the contributors have quite lately erected a good schoolhouse. The school in district No. 2 makes no progress; the others are good.

*Grondines, No. 2*.—Mr. Petitgreu, who kept a good school in this municipality, has been dismissed on a frivolous pretext.

*Ste. Basile* contains but four schools in its five districts. The commissioners are about to engage a female teacher for their fifth district. There are three French schools, which work well. I have, however, advised the commissioners to transfer the teacher in district No. 3 to Petit Bois, Bois de l'Ail, a change which has become necessary in the interests of the children and the contributors of that district. There is an English school in this municipality, which makes no progress.

*St. Raymond*, divided into five districts, contains two Protestant and three Catholic schools. The latter are good. Of the former, that kept by Mrs. Henry is good; the other has changed its teacher, and its progress is not, in consequence, so satisfactory.

*Charlesbourg* is divided into five districts, the five schools in which are good. Those kept by M. Vallière and Mlle. Stuart are in the most prosperous condition.

*St. Ambroise*.—The schools in this municipality, attended by 480 children, are well kept. Mlle. Dubuc, who teaches the centre school, merits special mention for her distinguished talents.

*Catholic schools in the city of Quebec*.—There are Catholic elementary schools in the city of Quebec, one English and two French, kept by laymen: one in the St. Roch suburb, in which Mr. Dion teaches 115 little boys; one in the St. John's suburb, kept by Mr. Dugal, and containing 85 pupils; the third in the Lower Town, kept by Miss Farley, has 70 children, all very young. There are besides under control the schools of the Brothers of the Christian Doctrine and of the Religious Ladies.

The Brothers of the Christian Doctrine have nine classes in the St. Roch's suburb, seven French and two English. The result of the examination to which I submitted their 700 children was very satisfactory. They also have, on the Glacis, three English classes, one superior and two elementary. Here instruction is given with the same success as at St. Roch's, to 264 children. The same Brothers have also charge of six French classes in a large house recently built opposite St. John's Church, which are partly maintained by the Catholic Education Society; 550 children attend these schools regularly. The same Brothers have a literary and commercial academy on d'Auteuil street, upper town, attended by 150 pupils, who receive a most careful education.

Three hundred little girls, distributed into five French and two English classes, are instructed by the religious ladies of the *Bon Pasteur*. I observed marked progress.

The Sisters of Charity have nine classes on the Glacis, six French and three English in which more than 430 pupils are instructed.

In the St. Roch suburb they have a French class of 60 day pupils under control. His school is in no respect inferior to other schools of the same class. There are also the

Model School attached to the Normal School, the boarding schools of the Ursulines, and the General Hospital, and a large number of Independent Schools.

Upon a review of this report, I may state that considerable progress has been made in the majority of the school municipalities, the inspection of which I have just completed. I have observed that, apart from the city schools, the English language is taught in more than 30 French schools, book-keeping in 13 municipalities, the art of letter-writing or composition in 28, and the use of the globes in all the Superior Schools. Almost everywhere I have had occasion to praise both the teachers and pupils on their reading and writing.

The new schoolhouses which have been erected in many places, are so many indications of the value attached to the advantages of education.

## EXTRACT FROM THE REPORT OF THE REV. MR. PLEES.

### DISSENTIENT SCHOOLS OF QUEBEC.

I have the honor to submit my semi-annual report on the schools in my district, for 1864.

I strictly examined each school visited, and have great satisfaction in informing you that I found marked progress. You can judge of this fact from the detailed report which I make.

On the 17th October last, I visited and examined the dissentient school of the municipality of St. Coloman de Sillery. There were 25 pupils present. Their replies to questions in orthography, analysis, geography, English and sacred history were very satisfactory. In other branches of study, they seemed anything but proficient. This may be attributed to sickness and other causes which prevented them from attending as assiduously as usual. Several generous individuals devoted to the public interest have constructed a fine stone schoolhouse at their own expense which will be opened next spring.

On the 17th November, I visited the dissentient schools of St. Foye and the Banlieu, with Mr. Harrower. The number of pupils of both sexes present at this examination was 31. The teacher, who is endowed with remarkable talent, is zealous and attentive to his duty. I regret that his salary is insufficient and that he does not receive it regularly. On the 10th November, I visited the St. Roch's dissentient school, district No. 2. I examined 31 pupils and distributed four prizes.

On the 14th November, I visited dissentient school No. 1, in the same municipality, of which Miss Dupont is teacher. This lady deserves great praise for the efficient manner in which she performs her duty.

On the 17th November, I visited the school of district No. 1, St. Lewis Ward. This school is well kept, and is attended by about 50 pupils. This figure shews a large increase on the number of pupils that attended the school when I last visited it. I regret that want of regularity in attendance has retarded their progress. On the 21st November, I visited the school No. 2, in the same ward and district, kept by Miss Goggie. She teaches with talent and success 32 scholars, the majority of whom are girls.

On the 24th November, I visited the boys' school in Champlain Ward, Mr. Black, who has managed this school during the past year, possesses a model school diploma. This school was thinly attended when he took charge of it, but the attendance is rapidly increasing. I found the progress of the scholars remarkably satisfactory. On the 28th November, I visited the girls' school in the same ward. Miss Lloyd teaches 48 scholars with talent and success.

## No. 13.—EXTRACT FROM THE REPORT OF INSPECTOR MAURAUULT.

### NICOLET AND YAMASKA.

As I believe that detailed remarks with regard to each of the school municipalities of

my district will suffice to enable you to judge of the condition of the schools, and will, consequently, be satisfactory, I shall proceed to review the state of these different municipalities:—

COUNTY OF NICOLET.

*St. Pierre-les-Becquets.*—There are 10 schools in operation, and 465 scholars. The increase in the number since last year is 77. The schools are well kept and are improving; they are all regularly attended by the scholars. I must, however, except a school in the lower part of the 4th Concession, which has been attended by very few children for years past. I can only speak in terms of praise of the teachers in this municipality. I would specially mention the names of Misses Blais, Filteau and Grindler, whose zeal and assiduity deserve more commendation than I could express. The schoolhouses are well kept, and are provided with all the requisite materials. The accounts of the secretary are in the best possible order. The local contribution amounted during the past year to the sum of £242 11s. 11d. The salaries of the female teachers vary from £14 to £35, with fuel apart.

*Gentilly.*—In this municipality, there are 11 schools in operation. These 11 schools are attended by the large number of 693 children; the increase since last year is 94. Nine schools show great progress during the past year; the success of the other two has not been as great, but it is, nevertheless, satisfactory. The schoolhouses, with one exception, are in good order. The secretary and school commissioners perform their duties satisfactorily, and do all in their power, I am convinced, to promote the interests of education and improve the schools in the municipality. The local contribution amounted to £195 13s for the current year. The salary of the only master in the parish is £45; the salaries of the female teachers vary from £12 10s. to £27 and fuel.

*Blandford.*—The two schools in Blandford are now on an excellent footing, and are attended by 50 pupils. There has been remarkable improvement in this locality; very young children in one of the schools, kept by Miss Lacourse, answered some questions in grammar and geography in a most satisfactory manner. There was a public examination of the scholars in the month of June. The population of the whole parish was present, which proves that great interest is taken in the cause of education, and this feeling has increased since the arrival of a priest in the locality. The schoolhouses are in good order. The local contribution for the current year amounted to £37 8s. 9d. The salaries of the teachers are £18 10s. each. The financial affairs of the municipality are in good condition.

*Bécancour.*—The 11 schools in this municipality are attended by 600 pupils. The two boys' and girls' schools in the village are attended by 172 children, are on an excellent footing, and are improving rapidly. Of the other nine schools, six are well kept and are regularly attended by a number of scholars. The remaining three seemed to me to be managed with less ability, and smaller success. Several of the schoolhouses require repairs. The selection of Mr. Desilets as secretary, lately made, appears to be satisfactory to the rate-payers, and I am convinced that this gentleman will perform his duties in an able manner. The local contribution for the current year amount to £260 0s. 3½d. The female teachers receive salaries varying from £18 to £40 per annum.

*St. Gertrude.*—The municipality has five schools, one of which is independent, the other four are under control. The five schools are attended by 250 scholars. The schools are all well kept. The schoolhouses are in good order, and are provided with all the requisite furniture. The financial affairs of the municipality are well managed. The local contribution for the current year amounts to £62 10s. 2d. The salaries of the female teachers vary from £17 to £25 per annum.

*St. Grégoire.*—This municipality possesses 11 schools under the control of the commissioners, attended by 753 scholars. This is the parish in my district of inspection that shews the largest attendance of scholars, and the schools are about the best kept. I observe that several female teachers have taught in this parish from the date of my first time of inspection, 12 years ago. The experience acquired by these ladies, and the zeal they display in the performance of their duties, render them worthy of special commendation. The academy continues to be under the management of Mr. Laplante, whose aptitude

is well known. The schoolhouses are in the best possible order, and are provided with all the necessary furniture. The secretary performs his duties ably, and the financial affairs of the municipality are in an excellent condition. The local contribution amounted to £221 10s.; the salary of Mr. Laplante is £75, and the salaries of the female teachers vary from £12 10s. to £43 10s. per annum with fuel.

*St. Pierre Célestin.*—The two schools of this parish, within the limits of my district of inspection, are attended by 121 scholars, and are kept on an excellent footing. The schoolhouses are in good order, and are provided with good furniture. The local contribution amounts to about £60 per annum. The female teachers receive, in addition to fuel, one £14 the other £17 per annum.

*Nicolet.*—This parish has nine schools under the control of commissioners, that have been attended this year by 322 scholars. The boys and girls of the village number 161, one half of the whole number in the parish. The female teachers lately engaged perform their duties with great ability, and shew peculiar aptitude for the art of teaching. The result of their work is quite satisfactory. With regard to the other teachers, they appear to me to be using great exertions to obtain the same measure of success, but they have hitherto failed in their attempts. Their schools are, comparatively speaking, inferior. Two schoolhouses are in bad repair, the others are well taken care of. In several of the schools, there is a want of maps, consequently, geography cannot be taught. The local contribution for the year amounts to £119 12s. 6d. The salaries paid to the male teacher and female teacher of the village, are £49 to each; the other female teachers receive £18 each per annum. The financial affairs of the municipality are in good condition.

*St. Monique.*—This municipality possesses 11 schools, attended by 400 scholars. The village school, kept by Mr. St. Cyr, is on the best possible footing. Mr. St. Cyr is a rare example of a teacher who adopts the profession *con amore*. The inhabitants of the village of St. Monique may well be proud of having such a teacher. Of the other 10 schools, eight are well kept and furnish satisfactory results, the other two are not as well managed. Eight of the nine schoolhouses in this municipality have been built during the past few years. That of the village purchased by the ratepayers of the school district, cost £75. The tax for the year amounts to £195 10s., and the fuel is furnished by the rate-payers. Mr. St. Cyr's salary is £35, those of the female teachers vary from £6 to £10 10s.

*St. Bridget.*—There has hitherto been only one voluntary school in this municipality, but recently established, but the commissioners are about opening two schools under control.

#### COUNTY OF YAMASKA.

*Baie du Febvre.*—The 10 schools of this municipality are attended by 480 scholars. The academy is still under the direction of Mr. Belcourt, assisted by Miss Rousseau, in the girls' department. The management of this school could not have been intrusted to persons more able or zealous, and in many respects they are a credit to the parish of La Baie du Febvre.

I think that special mention is due to a school kept by the Misses Vincent, in which I found remarkable progress. The school kept by the eldest Miss Vincent, is really a model school. Such teachers are not sufficiently well paid, and should receive at least double the amount of their present salary. The other schools are in a satisfactory condition. The schoolhouses are in good order, with the exception of one that they purpose rebuilding. The accounts of the secretary are well kept, and the local contribution for the year amounted to £250. Mr. Belcourt's salary is £104, those of the female teachers from £21 5s. to £26 per annum.

*St. Zepharin.*—This municipality has five schools, with 214 scholars. The number has increased by 17, since last year. Mr. De Lottinville keeps the model school of the village on a good footing. The schools kept by Misses Genest and Vincent are also worthy of favorable mention. The other schools have no advanced pupils, but the teachers perform their duties conscientiously. The schoolhouses are in good order. Financial matters are regularly conducted by the secretary. The local contribution amounted to £90 3s. 9d. Mr. DeLottinville's salary is £45, those of the female teachers vary from £16 to £21.

*St. Thomas de Pierreville.*—This municipality is divided into eight school districts. There are ten schools under the control of commissioners. They are attended by 461 scholars. There is an increase of 91 on last year's attendance. There is also in this parish an Indian School, which is attended by 30 children. The academy is still under the direction of Mr. Biron, and is kept up on a good footing.

Of the nine other schools under control, seven give satisfactory results, and the other two are middling. I think the inferiority of the latter can be accounted for by want of assiduity on the part of the pupils. Several schools are in want of maps, so that geography is but little or badly taught. All the schoolhouses are in good order. The secretary performs his duties with zeal. The local contribution amounts to £145 15s. Mr. Biron's salary is £87 10s., those of the female teachers vary from £15 to £28.

*St. François.*—This parish has two school municipalities and six schools attended by 420 scholars. The increase on last year is 66. The model school of the village is under the direction of Miss Coutu. The success obtained by this teacher is not surprising when her experience is considered. The schools in this parish are tolerably well kept, and give much greater satisfaction than in former years. I find that one school is very thinly attended owing, I am convinced, to the poverty of the inhabitants in the locality, who find it difficult to send their children to school. The village school is kept in a building that requires repairs in the interior. Two new buildings, intended for schoolhouses, have been erected this year, but one only is completed. The secretary-treasurer performs his duties satisfactorily. The local contribution was £110 5s., this year, for the two municipalities. The salaries of the female teachers vary from £20 to £35.

*St. David.*—This municipality is divided into nine school districts, with eight schools in operation attended by 400 scholars. The village school, kept by Misses Talbot and Guilmette, is on the best possible footing. Mr. Pageau also, keeps a very good school. He is unusually zealous in the performance of his duty. All the other schools are well kept, but with the exception of Miss Brouillard's, none of them have any advanced scholars. Some of the rate-payers of this parish were at first irritated at an increase of taxation to pay some old debts, but I am happy to say that they at last fully understood that the commissioners were merely performing their duty in providing for the payment of debts, and now harmony reigns throughout the parish. The new secretary, Mr. Papin, N. P., performs his duties zealously. The annual contribution amounts to £247. Mr. Pageau receives a salary of £45, those of the female teachers vary from £15 to £57 10s. The schoolhouses are also furnished with fuel by the rate-payers.

In the 17 school municipalities in my district of inspection, there are 108 school-districts and 98 schoolhouses belonging to the commissioners; there are 110 schools attended by 5,475 scholars. Of these 110 schools, there are four academies, six model schools, and two female seminaries.

My district also possesses a classical college with 200 scholars, a convent with 80 scholars, and two independent schools with 45 scholars. The total number of scholars in the district is 5,797. These schools are managed by eight teachers who are provided with diplomas, the receipt of salaries varying for teachers from £30 to £104, and for female teachers from £6 to £57 10. The local contribution amounts in the aggregate to the sum of £2,277 18s. 11½d.

#### NO. 14.—EXTRACT FROM THE REPORT OF INSPECTOR PETRUS HUBERT.

CITY OF THREE RIVERS, THE COUNTIES OF MASKINONGÉ, ST. MAURICE AND  
CHAMPLAIN.

If we compare the statistics of the year 1861, with those of the current year, it will be found that the number of municipalities as well as the number of pupils has considerably increased. I held a severe examination at each school under control, and I

distributed prizes to the most deserving scholars. The schools are generally well kept, but the prevalent custom of compelling the parents to furnish the children with pen, ink, paper, &c., interferes materially with their progress. The commissioners should be required to attend to this matter. The number of school municipalities has increased from 27 in 1861 to 32 in 1864. In 1861, there were 105 institutions of all classes attended by 6618 scholars. This year there are 135 schools attended by 7185 scholars. Taking the figure of population by the last census, 51,956, we find one scholar to each seven souls in my district of inspection. Of this number, there are 4,724 scholars who read well; 2,565 who can write; 2,309 who are learning arithmetic; 2,437 who are studying orthography; 1,181 who are learning history; 936 geography, and 283 composition. There are 21 lay male teachers, and 107 female teachers who hold diplomas.

The average of male teachers' salaries was \$250 in 1861, it is now \$352. That of female teachers from \$120, in 1861, has increased to \$121 in 1864. The highest salary given to a male teacher was \$400, and the lowest \$100; the highest to a female teacher \$200, and the lowest \$40; now, the highest to a teacher is still \$200, and the lowest \$104; the highest given to a female teacher is \$210, and the lowest \$32. In order to encourage the art of teaching, the salaries should be fixed according to merit. Unfortunately, almost everywhere, the commissioners do not judge according to comparative merit, and when any kind of teacher can be obtained at a very low rate, it is looked upon as a good speculation.

#### COUNTY OF MASKINONGÉ.

The two schools at Rivière du Loup are well kept. The model school for boys, under the management of Mr. Ambroise Fétrécault, is attended by 75 scholars, and the girls school, conducted by Miss Emilie Bourret, by 88 scholars. There is in this locality a public library of 700 volumes.

*Rivière du Loup.*—This parish is divided into seven school districts; the seven schools are well kept. In one of them, Miss Desjardins teaches both French and English. These schools are attended by 326 pupils.

*Maskinongé.*—This parish is divided into five districts, the schools in which are well kept and are attended by 253 scholars.

*St. Justin.*—This parish has three elementary schools in which English and French are taught. Two of these schools are well kept, but the third, kept by M. Houde, is inferior. These schools are attended by 208 scholars.

*St. Ursule.*—There are five schools in this parish, one a model, and four elementary schools, in which both English and French are taught. Mr. Lefebvre's model school is well kept, but the other four are inferior. Two hundred and eighty-two scholars attend the schools of this parish.

*St. Didace.*—This parish is divided into five districts, the schools being all elementary. Miss Hénauld's school is well kept, the others are inferior. Two hundred and three scholars attend them.

*Peterborough Mission.*—Miss Philie St. Antoine teaches 40 scholars in the only school in that locality. Her school is inferior.

*Township of Hunterstown.*—This municipality is divided into two districts, but with only one school, attended by 50 pupils, kept by Miss Victorine Dupaul. District No. 2 will soon have a schoolhouse.

*St. Paulin.*—This parish is divided into four districts, but with only three schools, one of the districts being too poor to construct a schoolhouse. One hundred and forty-two scholars attend these schools with satisfactory progress.

*St. Léon.*—This parish has one model and nine elementary schools. The model school is managed by Mr. Isaac Ringuette and the nine elementary schools by nine female teachers. Great praise is due to Mr. Ringuette for the condition of his institution; the other schools are inferior. Three hundred and sixty-six scholars attend these schools.

#### COUNTY OF ST. MAURICE.

*Three Rivers (City of).*—The city of Three Rivers has a model school, managed by

the Christian Brothers, who each receive a salary of \$120 per annum; also, two elementary French schools and one dissentient French and English school. The school of the Christian Brothers is well kept; the others are not so well kept. In addition to these institutions under control, there is a classical college in a flourishing condition attended by 100 pupils; also a convent in which the instruction given is equal to the best in the province. This convent is managed by the Ursuline Nuns, and is attended by 250 pupils; two English academics well kept; by 75 pupils; and two good English elementary schools by 55 pupils. The city of Three Rivers possesses four libraries with an aggregate of 3,000 volumes.

*Banlieu of Three Rivers.*—This locality is divided into three districts, two only of which have schools. The result of the examination is not satisfactory. The third district suspended the operation of its school, in order to save a sum sufficient to build a school-house; 84 scholars attend.

*Point du Lac.*—This parish has four schoolhouses, one a model and three elementary schools. Miss Dupont manages the model school successfully. The other schools are tolerably good; 260 scholars attend. There is in this parish a public library of 620 volumes.

*Yamachiche.*—The parish of Yamachiche is divided into 11 districts. There are nine elementary schools, five of which are good and four inferior; also an academy for boys, kept by the Christian Brothers, in which French and English are taught. There is also a convent managed by the Congregational Nuns. The progress of the scholars, in the two latter establishments, is remarkable. Two hundred and eighty-nine scholars attend the elementary schools, 125 the French Academy, and 96 the convent.

*St. Sévère.*—This parish has four schools, one a model school and three elementary. The model school kept by Mr. Lami has not made much progress; the other schools are very middling; 142 scholars.

*St. Barnabé sur la Gatineau.*—This parish has six elementary schools attended by 242 scholars. These schools are not very good. The account books of this municipality are not well kept. Each school district is refused its just share of annual allowance in direct contravention of the law.

*Township of Shawinigan.*—This Township is divided into five districts, four of which have schools very well kept. The one kept by Madame Gelinat deserves special mention. One hundred and nine scholars. District No. 4 is poor. No schoolhouse.

*St. Etienne, Fief St. Maurice.*—This parish has four French elementary schools, and one dissentient elementary school in which French and English are taught. With the exception of Miss Tranaman's school, which is very well kept, all the schools are inferior. Two hundred and fifty-six scholars. The municipal affairs of the parish are well managed.

*Forges of St. Maurice.*—The only school in this district, which has been closed since the temporary abandonment of the Forges, will soon be reopened, as Mr. John McJougall has resumed operations at the Iron Works.

#### COUNTY OF CHAMPLAIN.

*Cape de la Magdeleine.*—There are three elementary schools well kept, attended by 179 scholars. There is in this parish a public library containing several hundred volumes.

*Champlain.*—Five elementary French and English schools well kept, attended by 338 scholars. Municipal affairs well managed. A public library of 300 volumes.

*Batiscan.*—Four elementary schools well kept. The school under the management of Miss Lacerte, deserves special mention. One hundred and sixty-seven scholars. Parochial library, 250 volumes. Municipal affairs well managed.

*St. Anne de la Pêrade (Village).*—A model school for boys, in which English and French are taught. This school, under the management of Mr. Napoleon St. Cyr, is attended by 98 pupils, and is highly successful. In addition to this school, there is a convent kept by the Congregational Nuns, with 96 pupils. A good education is given in this convent.

*St. Anne de la Pérade (Parish).*—Five elementary French schools, well kept, attended by 242 scholars. The secretary-treasurer performs his duties satisfactorily.

*St. Prospère.*—Three elementary French schools, well kept, attended by 189 scholars. Public library, 125 volumes.

*St. Geneviève.*—Five schools, one model and four elementary, attended by 231 scholars. In four of these schools, which are well kept, English and French are taught. Mr. Robertson's school deserves, however, special mention. Public library, 525 volumes.

*St. Stanislaus.*—Five schools, one model and four elementary, attended by 217 scholars. These schools are inferior. District No. 2, composed of two concessions, divided by a road, has no school, owing to a misunderstanding among the ratepayers, on the subject of fixing the site of the schoolhouse, and each of these concessions is too poor to support a separate school. The books of the secretary are well kept. Public library, 400 volumes.

*St. Tite.*—There is only one school in operation in this parish; 80 scholars are under the intelligent care of Miss Proulx. The system of taxation and monthly allowance is about being established in this municipality.

*St. Narcisse.*—One French and English model school, under the direction of Mr. Dostater, who is provided with a diploma from the Jacques Cartier Normal School. This school is well kept, and is attended by 72 scholars. The books of the municipality are well kept.

*Radnor Forges.*—One elementary French and English school, with 62 scholars. Remarkable progress. Books of the municipality well kept.

*Notre Dame du Mont Carmel.*—Three elementary schools, attended by 94 scholars. These schools are inferior. Books well kept.

*St. Maurice.*—Six elementary French schools, and one elementary English school, generally good, attended by 413 scholars. Municipal affairs are well managed. Public library, 250 volumes.

Such, Sir, is the condition of education in my district of inspection. The law is zealously enforced in every direction, and I hope that time will bring about great improvement in the management of local affairs.

## No. 15.—EXTRACT FROM REPORT OF INSPECTOR BOURGEOIS.

### COUNTIES OF DRUMMOND AND ARTHABASKA, AND PART OF BAGOT AND NICOLET.

The increase in my district of inspection during the year 1864, has been 12 schools and 232 scholars. There are in all 99 schools and 4,065 scholars. The progress to which I have alluded in the mode of teaching, adopted by the teachers, is even more remarkable this year. It is, however, to be regretted that in a number of municipalities, the scholars are not sufficiently well provided with books and other necessary articles, and it is particularly to be regretted, also, that the scholars are withdrawn from school at a very early age. These are two grave difficulties which seem to be overcome very slowly, and for some time, it will be hard to furnish a remedy for the reasons already furnished by me on different occasions in previous reports.

The secretary-treasurers, with very few exceptions, deserve great praise for their regularity and the exactness shewn in the performance of their duties. The teachers, in my district, shew great zeal and application. Their increasing success furnishes the best proof of the correctness of this statement. The financial affairs of some of the municipalities are involved. Nearly all the municipalities of my district are needy. The insufficiency of the Legislative grant, and a condition of affairs in the Eastern Townships, anything but prosperous during the past few years, have been the cause that the greater number of municipalities cannot meet their engagements. In spite of this, the school commissioners have used every exertion to keep their affairs on a good footing. I may frankly state that

all those who have been prevented from meeting their difficulties, owe it to unforeseen and uncontrollable circumstances. It is with much pleasure that I mention this satisfactory conduct of the school commissioners, and the great majority of them, I may also state, display great aptitude for their duties. This fact furnishes a guarantee for success in future years. I shall not allude to the difficulties that have arisen in some municipalities in the course of the year 1864. Each case has been the subject of a special report when my attention was drawn to the circumstances.

## No. 16.—EXTRACT FROM THE REPORT OF INSPECTOR DORVAL.

### COUNTIES OF BERTHIER, JOLIETTE, MONTCALM AND L'ASSOMPTION.

I have the honor to submit the report of my inspection of the several educational institutions in my district, during the school year 1863-4. My statistics, as compared with those of last year, shew but little change of importance; they rather shew a decrease in the number of scholars attending school, although there is an increase of two school districts and three schools over 1862-3. I do not think it necessary to enter into the details of the causes of this decrease, because it is due in a great measure to the sanitary condition of the population of my district,\* and cannot be attributed to anything in connection with the management of the schools. This decrease, therefore, in a statistical sense, is not alarming, and there is ample compensation in the increase of pupils who read well, who are proficient in arithmetic, book-keeping, orthography, geography, French grammar, parsing, analysis and composition. Number is counterbalanced as it were by quality. In any case, it cannot be denied that there is a sign of real progress, in the fact that with a smaller number of pupils than in 1862-3, there is a larger number who study the higher as well as the most useful branches of education.

| COMPARATIVE TABLE.           | 1862-63 | 1863-64 |                                 |           |
|------------------------------|---------|---------|---------------------------------|-----------|
| Grand total of scholars..... | 11,406  | 11,162  | Difference in favor of 1862-63— | 244       |
| Reading well.....            | 4,000   | 4,009   | “ “                             | 1863-64 9 |
| Compound rules.....          | 1,917   | 2,092   | “ “                             | “ 175     |
| Book-keeping.....            | 149     | 243     | “ “                             | “ 94      |
| Ordinary orthography.....    | 4,291   | 4,378   | “ “                             | “ 87      |
| Geography.....               | 1,913   | 2,063   | “ “                             | “ 150     |
| French grammar.....          | 2,942   | 3,116   | “ “                             | “ 174     |
| Artificial “.....            | 1,754   | 2,195   | “ “                             | “ 441     |
| Composition.....             | 771     | 793     | “ “                             | “ 22      |

I think, sir, that at the point we have reached in the matter of popular education, the number of children attending the schools is only a question of secondary importance. At the time when it was doubtful whether or not the people were desirous of education; it was necessary, in order to ascertain the measure of their desire to profit by it, to know how many children they sent to school; but now that this doubt no longer exists (at all events as regards the majority), so long as there is a reasonable proportion, even though it be variable, between the sum of the population and the number of the children attending school, † the question of greatest interest is, no longer to know what is the number of the pupils, but rather what progress they have made—in other words, to know the quality of our schools.

With the exception of the population scattered over the immense territory of the northern and north-western townships of my district, the municipalities within my limits have very nearly the requisite number of schools.

\* The measles raged cruelly in the north-east portion of my district. Two schools in St. Cuthbert shew a decrease in attendance of 65 children.

† This proportion is in my district rather more than a sixth.

The attendance of children in those places where remoteness, excessive poverty, or the bad condition of the roads are not insurmountable obstacles, has appeared to me, in many municipalities, to be as general as the constant nature of our agricultural labor will permit.

I would not, however, have it imagined that the want of assiduity in my district is only due to the necessity which exists for the assistance of the children in field labor; other causes, doubtless, exist; and to render the attendance at school what it ought to be, a taste for education and intellectual culture must be infused into a great number of the parents, and zeal, taking the place of that apathy which still exists, must overrule the excuses which are now urged for the neglect to attend school.

The schoolhouses, I must say, in justice to the majority of the commissioners, are better kept and better provided than heretofore with the requisite furniture, such as tables, benches, pictures, maps, &c. Elegance has not been sought for, but all that is necessary is to be found. Fortunately, the charge of the schoolroom and the care of its furniture, which devolve generally on the teacher, is not neglected by them, and the neatness and cleanliness they impart contribute not a little to improve its often squalid appearance.

There are hardly any secretary-treasurers to whose honesty I cannot bear testimony, and but few are undeserving of praise for their zeal and punctuality in paying the teachers their salaries. This is a quality—I had almost said a virtue—which makes us overlook the want of skill manifested by some of them.

This is the place to say a word or two about the school-books. That uniformity, the want of which was so strongly felt, exists now almost everywhere. For the elementary schools, the reading books appear to me to be all that could be desired, but I consider it unfortunate that, except in very rare instances, the same books should be used in our elementary schools, in our central village schools, and even in the model schools. I think that it is desirable to give the pupils at these latter schools, in addition to those they now have, books treating of more varied subjects, and in which the graduated difficulties would be proportioned to the intelligence of the child, would keep him constantly on the alert, and would keep his natural curiosity and thirst for knowledge constantly awake.

My district contains 25 public libraries, in which there are 8,142 volumes—an increase of 8 libraries and 2,387 volumes since last year. Five belong to institutes; the others are parish libraries.

There are 53 male teachers (including 12 *Clercs de St. Viateur*); the 41 lay teachers all hold diplomas, excepting four who had undertaken to obtain them since my visit to their schools. My tables do not include the professors in the colleges.

Of these 53 teachers,

|                           |                  |
|---------------------------|------------------|
| 1 only has less than..... | \$100 salary.    |
| 30 have from.....         | \$100 to \$200 “ |
| 11 have from .....        | \$200 to \$400 “ |
| 1 has.....                | \$600 “          |

In addition to these salaries, 26 teachers have land attached to their school, which brings them in, by the cultivation of vegetables or in forage, an annual value of from \$4 to \$25.

Of the 161 female teachers in my district, 128 are lay, all of whom hold diplomas. I have not included in this number the religious ladies who teach in boarding-schools, but only those who keep schools under control. The salaries of these 161 teachers are as follows:—

|                                 |                 |
|---------------------------------|-----------------|
| 56 have salaries less than..... | \$100           |
| 72 have between.....            | \$100 and \$200 |
| 4 have between.....             | \$200 and \$400 |

The salaries of the lay male teachers are too low; but would the fixing by law of a minimum amount be a remedy for the existing evil? I am aware that in some of the countries of Europe it has been done, and some men of eminence are desirous of seeing this system introduced here. For my part, I think that its adoption would be at least premature. To fix the minimum would be treating with contempt the good sense of the public, and besides we must not conceal from ourselves that to fix a minimum salary

would really be to fix for the commissioners a maximum which they would hardly ever exceed; the fixing of the minimum would fail in its purpose, and I should fear that its most immediate effect would be to introduce speculation among the commissioners, and to make mere followers of routine among the teachers, by destroying all that emulation which now, at all events, is fostered by the hope of obtaining higher salaries.

The salaries of the female teachers are, generally speaking, proportioned to their capacity.

The great number of inferior female teachers is the principal cause of the competition and the reduction of salaries, which are everywhere observable. It is by no means uncommon to see seven or eight applications for the same school.

To remedy this evil in some degree, I think the time has arrived to enforce that provision of the law (cap. 15 Con. Stat. L. C., sec. 105) which enacts that diplomas granted after 4th May, 1859, should be renewed at the expiration of three years. By this second examination, which would be more rigid than the first, each teacher would be classified as provided by article 8 of the by-laws for the examination of candidates, according to his or her degree of competence; the commissioners would then have in the new diploma a more safe guarantee and guide for judging of the fitness of applicants, enabling them to give them the most suitable schools and salaries proportioned to their merit. Doubtless this necessity for obtaining new diplomas will entail much inconvenience, the more to be regretted as the greatest loss will be suffered by poor young girls, but the importance of the office of teacher, and the responsibilities attaching to it are too great. Why should these be lightly dealt with? The fear of interfering with personal convenience ought not to prevail over the necessity for promoting the progress of our schools.

This provision will also have the effect of putting back to their proper places a number of young persons who had overstepped their true position by means of their diploma— young girls deserving enough in other respects, but who, often without aptitude or capacity, have begun their career as teachers without adequate preparation.

The object of the reports of inspectors is more especially to point out the obstacles to the well-working of the schools. I have attempted to point out those which appeared to me of most immediate consequence. By my observations on each school of my district, you will observe that I have not always reason to be satisfied with the progress made, that the majority of them, at all events, have produced very satisfactory results.

*Remarks on each school district in each of the school municipalities of the counties of L'Assomption, Berthier, Joliette and Montcalm, inspected during the school year 1863-64.*

#### BERTHIER.

*Lavaltrie*—District of *Point du Jour*.—On the whole, the progress is satisfactory.

*Petite Rivière*.—Progress has been made in consequence of certain improvements effected by the teacher.

*District No. 1*.—Results of examination very satisfactory.

*Grand Côte*.—Results very satisfactory.

These four schools are purely elementary. The zeal and activity of Dr. Douaire, secretary-treasurer, are worthy of praise. The schoolhouses, furniture, &c., are in good order. The teachers are regularly paid. The books, paper, pens, &c., are provided by the commissioners, gratuitously.

#### ASSOMPTION.

*St. Lm.*.—Dissentients.—Greatest number of pupils, 26.

*District No. 1*.—Seventy-four children at school, which is elementary. In June last the teacher was to be replaced by a pupil of the Normal School.

The female academy is in charge of three ladies, *des Saints Noms de Jésus et Marie*. Results satisfactory, but not so much so, I am sure, as these zealous instructresses would desire.

*La Plaine*.—Here a new teacher has been appointed, quite a novice in teaching, but having had a good education.

*Rang Double*.—Sixty-eight children in attendance; Progress, if not good, is, at least, tolerable, in view of the age of the children, local circumstances, sickness, constant absences, &c.

The exact salaries paid are as follows:—

|                     |                |            |                                          |
|---------------------|----------------|------------|------------------------------------------|
| District No. 1..... | 77 pupils..... | £50 00 00  |                                          |
| Convent.....        | 109 “ .....    | { 58 00 00 | From the Commissioners<br>and the Grant. |
| Rang Double.....    | 68 “ .....     | 23 00 00   |                                          |
| La Plaine.....      | 33 “ .....     | 25 00 00   |                                          |
|                     |                | 20 00 00   |                                          |

A new district is desired at the lower end of the river.

#### MONTCALM.

*St. Calixte*.—The commissioners have only three schools under their control instead of four, as formerly, viz.:

*Rang de St. Etienne*.—The teacher here receives a salary of £25. The children attend the school for a short time only. The writing is particularly good; instruction seems to be well given, although only a beginning has yet been made.

*9th and 10th Ranges*.—People very poor. Teacher receives £16 salary; yet the school is very well kept.

*District No. 1 (or Church)*.—School closed; house in course of repair. Mr. David, notary, is the teacher, with a salary of £30. The township has also a dissentient school, established since May last. I have not been able to obtain the statistics of this school, which I did not visit.

*Chertsey (District No. 1)*.—Mlle. V. Granger (pupil of the *Sacré-Cœur*), keeps a good school. Schoolhouse in very bad order.

*District No. 3*.—The school has been removed from the 1st to the 6th range. Twenty-six children attend school for the past year. The people are very poor.

*Rawdon (District No. 1)*.—This district has a school kept by Mr. Edward McManus; salary, £80. His greatest number of pupils was 80. In this district there is also a dissentient Catholic school, kept by Mr. Wm. Rowan; salary, £25; number of pupils, 55. These two schools have made satisfactory progress.

M. Wright's school contains 35 pupils; salary, £30; progress satisfactory.

In Mlle. Plauright's school there are 42 pupils. This young lady teaches the two languages with success. Her salary is £30.

Miss Sinclair has 39 pupils. Progress satisfactory. Management of the school exemplary.

Mr. Cunningham is a new teacher without a diploma, but he has undertaken to obtain one shortly. In February last the schoolhouse had not been repaired, although I gave directions to have it done two years ago. Progress good in reading and grammar. Education ill-appreciated.

Miss McGarry has 22 pupils. Schoolhouse urgently needs repairs. At my examination there were only 13 pupils present. They had made but little progress.

*St. Julienne (2nd Range)*.—Two teachers, one French and the other Irish, who receive £25 salary between them, give instruction in both languages, the extent and utility of which may be easily imagined.

*La Fourche*.—School has 46 scholars. With the exception of reading and writing, they are at the beginning of everything.

*District No. 1*.—The Misses Perreault have 91 scholars. Result of examination tolerable, bearing in mind the great number of children and the poverty of the neighborhood. There ought to be a separate school for girls.

*Village of St. Jacques*.—The boarding-school or female academy kept by the religious ladies of St. Anne contains 70 pupils. They receive from the Government £55 12s. 3<sup>d</sup>.

The elementary school kept for the commissioners by these ladies contains 86 scholars. The commissioners pay them £33. Result of examination very satisfactory. The model and elementary schools for boys, under two *Clercs de St. Viateur*, contain 115 scholars. Results very satisfactory.

*St. Paul (Rivière Rouge)*.—Mlle. A. Guilbôrd gives instruction at a salary of £10. The greatest number of children at school since September, 1863, was only 19. Progress small. Want of assiduity. The parents are apathetic.

*Haut de la Rivière Assomption*.—Mme. Beaupré receives £18 salary, and has 32 pupils. I only saw 12 pupils, the rest being occupied sowing. The schoolhouse is generally well managed.

*Bas de la Rivière (south side)*.—Mlle. Caisse receives £18, and had 16 scholars present at the examination out of 36 on the register; the rest were at work in the fields or at the catechism class in the church. I could not judge of the progress made. Blackboards, maps, &c., are wanted.

*Bas de la Rivière (north side)*.—Mlle. Teller receives £19, and has this year obtained the bonus of £2 presented by the commissioners to the teacher of the best-kept school in the concessions.

*District No. 1*.—The boys' school is managed by Mrs. L. Gaudivier, who receives £23, and has 48 scholars. The result of the examination is satisfactory, when the age of the children is considered.

*St. Pierre Stream*.—Miss Latendresse receives £21, and has 57 scholars. The result of the examination is satisfactory. The girls' academy is under the management of three nuns of the Order of La Providence. These ladies receive £23 from Government and £25 from the commissioners. The largest number of scholars has been 58. This academy is well managed. There is a large number of schools in this municipality, which is comparatively small, but the irregular course of the two rivers is the cause of this. The salaries are, consequently, small.

*St. Liguori (School of the Double Range, or 2nd and 3rd Kildare)*.—The school was closed, the teacher being ill.

English School.—Miss Eliz. Horan receives £22, with 22 pupils, nearly all beginners.

*Village of Montcalm*—(French school).—Miss O. Dupuis receives £23, with 32 scholars. As yet there is scarcely any progress, but the regularity with which it is conducted gives hopes of improvement.

No. 1.—Mr. N. Laporte had 89 scholars in July, 1863. In spite of this excessive number his talent and energy have enabled him to succeed. He receives a salary of £36.

*Bas du Lac Ouareau*.—The teacher receives a salary of £19, with 29 scholars. The teacher does not possess much method, but the handwriting is good, and there is a fair knowledge of geography.

*St. Ambroise (2nd and 3rd Ranges)*.—Miss De Gaudette receives £18, with 27 scholars, who shew no assiduity. I am informed that poverty is the cause of neglect.

*4th Range*.—Miss E. McGowan receives a salary of £22, with 30 pupils, who are assiduous, and are better provided with books, paper, &c., &c., than in former visits. With the exception of one scholar, I found none but beginners.

*Kildare Range*.—Miss Brulé receives a salary of £25, and teaches both languages successfully to those of her pupils who are assiduous. Miss Brulé has had as many as 68 scholars, but the average is 40. The writing is very good.

*Dissentients*.—Mr. Lawler receives £42, with 48 scholars. The result is satisfactory.

*10th Range*.—Mrs. V. Archambault receives £23, and £5 subscription from the rate-payers. She teaches both languages to about 34 scholars, 11 of whom are Irish.

No. 1.—Mr. P. Marcou receives a salary of £23, and has 40 pupils. I found good progress in reading and writing, but little in grammar. This school requires maps, &c. The girls' academy is under the management of three nuns from St. Anne. The classes have been completely renewed, but are well conducted, as usual.

*5th Upper Range.*—The teacher receives £32, with 60 scholars. The average attendance is 50, but principally young children. Good progress has been made in reading and writing, but very little in grammar and arithmetic. The teacher seems to me to perform his duties with zeal.

*St. Jacques (Haut de la Bôse).*—The teacher receives £31 salary, with 88 scholars, the average attendance of assiduous scholars being one-half. Matters are slowly, if not negligently managed, I have written specially on the subject to the commissioners.

*St. George's Stream.*—The teacher receives £31, with 56 pupils. Matters go on languishingly, and I think that the discrepancy in the number of children whose names are on the roll and those attending the school, is sufficient evidence of the unpopularity of the teacher; I informed the commissioners of this fact.

*Milieu de la Bôse.*—Miss A. Gautier receives £31, with 75 scholars. School well kept.

*Bas du Lac Ouareau.*—Miss V. Moisan receives £20, with 28 scholars on the roll. Well kept, with satisfactory progress.

*Bas des Continuations.*—Miss Lépine receives £24, with 42 scholars. Progress satisfactory.

*Bas du Ruisseau Vacher.*—Badly managed. I wrote to the commissioners to put a stop to this state of affairs.

*Milieu des Continuations.*—The teacher receives £20, with 36 pupils. Very little progress; very little assiduity on the part of the scholars, and but little zeal among the rate-payers.

*Haut des Continuations.*—Miss Marguerite Mireau receives £21, with 25 pupils. Progress satisfactory, considering the age of the children.

Several of these schools require maps, tables, &c. I wrote a letter to the commissioners on the subject last May, and I am in hopes of some change in this respect.

*Répentigny—District No. 1.*—Miss Lauzon receives £25, with 51 scholars. Progress good, considering the age of children and irregular attendance.

*District No. 2.*—Miss Mar. Paré receives £33, with 60 pupils. Progress since last visit. Good method and order.

*St. Subpice—District No. 1.*—Model School.—Mr. N. St. André, bearer of a Model School diploma, receives £49; has 80 scholars, and teaches with success the different branches allotted to a model school.

*District No. 2.*—Mr. E. S. Jean (elementary school diploma) receives £36. Results satisfactory.

*St. Felix de Valois—Castle Hill.*—Miss Sauvé receives £16, with 60 pupils. Miss Sauvé took the place of a teacher who left in February last, after neglect of duty.

*District No. 1.*—Mr. N. Charland, assisted by a young female teacher, receives £58, and has 178 pupils. The school is very well kept.

*Dissentients.*—Mr. E. Roy has an elementary school (diploma from the Protestant board. He teaches French and English; has 31 scholars, nine of whom are French Canadians. He receives £15 from the trustees and £50 from the Colonial Church Society. The school is well managed.

*Ramsay.*—Mrs. P. Foucher receives £20, with 36 scholars. The school is improving, but slowly. The district is poor, with but very little attendance.

*Brandon.*—Mr. A. Riberdy receives £33, with 86 pupils. The result of the examination is satisfactory, but there should be more pupils in grammar and arithmetic.

*St. Gabriel de Brandon—4th Range.*—Miss B. Desrochers receives £25, with 69 scholars. Progress satisfactory, except in reading.

*7th and 8th Ranges.*—Miss P. Charette receives £16, with 52 scholars. Owing to local circumstances, progress satisfactory.

*11th Range.*—Miss O'Brien receives £16, with 33 pupils. Some progress in reading and writing.

*Dissentients.*—Miss S. Page receives £20. Miss Page teaches alternately on the North and South shores of Lake Maskinongé. She has 32 scholars, all beginners.

*8th Range.*—Miss H. Monday receives £20, with 61 scholars. Results satisfactory.

*District No. 1.*—Miss C. Paquin receives £25, with 54 scholars.

*Cordon.*—Miss M. A. Lamontagne receives £20, and has 65 scholars; she teaches both English and French. The children are young, and the results are tolerably good.

The *Chemin du Lac* school is closed this year. These schools are all inferior, and although they are merely elementary, the value of the instruction imparted to the children is, to say the least, very doubtful. I did everything in my power to induce the commissioners and principal citizens to obtain the services of a first-class teacher for the village school.

*St. Norbert (Chemin du Lac).*—This school is neglected; the teacher has been discharged.

The two other schools of St. Norbert were in the holiday season when I passed through in July last. Too much economy in the salaries of teachers has been attempted in this locality. The amount raised by taxation is insufficient for the requirements of the schools, and here, unlike all other places, the secretary-treasurer, instead of receiving a salary, pays the commissioners for the privilege of transacting their business, which appears however, to be kept in good order. The figures in my statistical table for schools Nos. 1 and 3, are necessarily the same as last year.

*St. Cuthbert—District No. 1.*—The teacher, assisted by a female teacher, receives £30 salary, and has 135 scholars. There is but little assiduity, and several of the children have been sick. Taking this into consideration, the results are very fair. Nevertheless, I must remark that the management of the school requires to be stimulated, and the female teacher who assists should be carefully selected.

*York.*—Mr. D. Drainville, Medical Student, receives £30. He has no diploma, but has bound himself to obtain one. The school was closed for nearly three months, owing to difficulties between the commissioners and Mr. Drainville's predecessor.

*St. Catherine.*—Miss Mary Dubois received £25 salary, and has 93 scholars on her roll, one half of whom attend regularly. The scholars are young, and, considering their age, the progress is very fair.

*Fourches St. André.*—Seventy-one scholars on the roll. In this school the greater number of the children are poor, and ill-provided with books, paper, &c., and they are not attentive. There is, consequently, no progress. I impressed upon the commissioners the necessity of changing this state of affairs.

*St. John.*—Miss Fillteau, with a female assistant, receives £40 salary, and they teach 85 children. The reading is not satisfactory. Some progress in writing. The first grammar class is good, and there appears to be a good knowledge of geography.

*St. Thérèse.*—Miss Rousseau receives £25, and has 28 scholars. Matters go on pretty well.

*Bas de la Rivière Chicot.*—Two female teachers receive £50 salary, and teach 112 children. Without wishing to detract from the merits of the female teachers, I recommended to the commissioners the choice of a competent male teacher, who would infuse energy into the school. As the district is important, and the number of children large, this would be a desirable move, and it would induce exertion on the part of the other schools of the municipality. The municipality has upwards of 600 children of school age, and is wealthy; it should therefore have a model school.

*St. Barthelemi (Grand Nord).*—Miss V. Piché receives £22, and teaches 45 children. The school is rather well managed.

*Petit St. Jacques.*—Mr. Ferdinand Fusey receives £47 15s., and has 81 scholars. The classes have been broken up owing to the prevalence of measles; but they continue to be well managed.

*Grand St. Jacques.*—Miss Lagacé receives £28, and teaches 47 children. Considering the youth and frequent absence of the scholars, owing to sickness, the results are satisfactory.

*Bas de St. Joachim.*—Mr. Olivier Jacques receives £40, and teaches 75 scholars. The examination by the commissioners had just taken place before my visit. I only found 20 young scholars.

*Haut de St. Joachim.*—Holidays.

*York.*—Mr. C. N. Paquin, bearer of an elementary school diploma from the Jacques Cartier Normal School, receives £40, and teaches 57 children. The order and discipline which prevail and the progress attained are remarkable.

*District No. 1.*—W. A. Cadot receives £47 and teaches 67 scholars. Matters go on well.

*St. Alphonse de Kildare (District No. 1).*—Mr. M. Gormly, assisted by a French teacher, receives £45, and they teach 56 scholars. The English class seems well managed; but the French rate-payers justly complain that the French assistant masters they have had for some years merely learned English from Mr. Gormly instead of teaching French, and the school thus conducted became perfectly useless to them; it is in fact only an elementary school.

*River L'Assomption (District No. 3).*—Mrs. Rose Brown receives £33, and teaches 40 children, 18 of whom are Irish. There is an improvement in assiduity; the progress in reading and writing is also satisfactory.

*Ecole de l'Eglise (District No. 2).*—School not open.

*St. Béatrice (1st. Concession of Jolimont).*—The teacher receives £25 with 21 scholars. Instead of progressing, the children have forgotten what they knew. The commissioners and teacher have received warning.

*Rang du Domaine.*—Teacher ill. School closed.

*8th and 9th Ranges.*—Miss E. Desrochers receives £18, and teaches 61 scholars. The school is well managed.

*St. Roch (Ruisse au des Anges).*—No apparent progress, and I have written to the commissioners to see to this.

*Haut de la Rivière.*—The teacher receives £25 with 86 children on the roll. Average attendance, 40; general progress very little. The teacher only tolerated this year.

*Haut du Ruisseau St. Jean.*—Miss Tellier receives £25 salary. Everything satisfactory.

*Bas du Ruisseau St. Jean.*—The teacher receives £25, with 60 scholars. Progress in reading slow, and there is none in the other branches. The discipline of the school is very bad.

The model school, kept by three members of the order of St. Viateur, receives £80 from the commissioners, and £16 17s. subsidy from Government. There are 81 scholars at this school. This institution promises to be of great service to the municipality. The girls' academy, under the management of the Nuns of the order of "S. S. N. N. de Jésus et de Marie," receives £40 from the commissioners. There are 90 scholars. Matters are managed admirably, and the result of my examinations is highly creditable both to teachers and to pupils.

*Parish of L'Assomption.*—Miss D. Content receives £22 12s. 6d., with 22 scholars. Except in writing, the pupils are successful.

Miss M. Chapat receives £27 10s., with 50 scholars. She is successful.

Miss Julie Brouillet receives £25, with 46 scholars, all very young. Results satisfactory.

Miss Eliz. Chagnon receives £25, and her 35 scholars are progressing under good management.

Miss Emélie Tessier receives £25, and teaches 56 scholars; 29 scholars were present at the examination. Nearly all, with the exception of four, are beginners.

Miss Exilda Tessier receives £25, and teaches 43 scholars. Results satisfactory.

*Village of L'Assomption (The Model School).*—Mr. E. Lemire, who has a model school diploma, receives £31 salary. He is assisted by an usher who manages the elementary department. Sixty-five scholars attend. Progress generally satisfactory.

*Academy for Girls.*—The boarding department numbers 90 pupils. The commissioners school, 73. Observing that this institution is under the management of the Ladies of Congregation of Notre Dame, is saying that everything is satisfactory.

*The College of L'Assomption* numbers in the present year 174 pupils whose studies are directed by 19 professors. The reputation of this institution renders any observation on its merits unnecessary.

There are besides two independent schools numbering 48 scholars.

*St. Alexis.—Extremity of the Grande Ligne.*—The teacher receives £28, and teaches 65 children. With the exception of two pupils who have made satisfactory progress, the tuition has had almost no results. I ought, however, to except the writing, which is neat and tolerably good.

*Middle of the Grande Ligne.*—Miss Phil. Ethier receives £28, and has 65 pupils. Taking into account the repeated and prolonged absences of the first classes, and the age of the children, the progress made is tolerably good.

*Commencement of the Grande Ligne.*—Miss V. Dugas receives £30 salary, and teaches 62 pupils. The results are satisfactory.

*Petite Ligne.*—The Misses Marsolet, receives £28, and teach 83 children. The progress made is very satisfactory. The order and good discipline are all that can be desired.

*St. Esprit.—Côte St. Louis.*—Miss Azeline Marsan receives £25, and has 43 pupils. The progress made is tolerably good.

*Girls' School in the Village.*—Miss U. Perrault and an assistant receive £36, and teach 68 pupils. Everything considered, the school is tolerably good.

*District No. 1.*—Mr. F. D. Grégoire receives £36, and has seventy pupils. He is a notary, and only a beginner in teaching. He was to obtain a diploma at the next meeting of the board of examiners.

*Lower part of the River.*—Miss M. Dufau receives £28 and teaches 41 pupils with good success.

*Petite Rivière.*—Miss Cusson receives £22 and numbers 40 pupils; not more than half this number usually attend. All is apathy, and I urged the commissioners to rouse the people from their indifference.

*Petit Rang.*—Miss Mageau receives £33, and teaches 57 children. The classes have been partly renewed.

At my examination all except two children, 25 in number were beginners. In general, and with a few rare exceptions, the schools of this parish shew very poor results. It must be admitted that the municipality has not always been managed by very enlightened commissioners. I hope better things from those now in charge.

*Parish of Berthier.—Grande Côte.*—The teacher receives £45 salary, and has 43 pupils; 12 pupils belonging to the first class were absent for the catechism at the church; I was unable therefore to judge of their progress. Generally the school is well taught. Some complaints were made respecting the too numerous occupations of the teacher which prevent her from devoting herself exclusively to her school.

*Haut de la Rivière Bayonne.*—Mr. G. Houle receives £40 salary, and teaches 46 children. The examination shewed satisfactory results.

*School at the Pont de Jouette.*—Mr. Beaudoin receives £45, and the school numbers 136 pupils; 91 were present at the examination. The schoolroom is too small, and the number of children much too great for a single teacher. Nevertheless, everything considered, the results of the examination were satisfactory. At the period of my visit, the commissioners were about to reduce the extent of the district.

*Bas de la Rivière Bayonne.*—The teacher had £40 salary, and taught 64 children; 39

were present at the examination; 10 have made some progress in reading; the writing is tolerably satisfactory. The scholars were weak in arithmetic, not very strong in geography, and weak indeed in grammar. The pupils were backward, and the teacher himself required to be stirred up.

*Petit Nord.*—Mrs. Olivier, a widow. I was unable to visit this school.

*Village of Berthier.*—The academy at Berthier taught by the clerics de St. Viateur numbers 83 pupils. These gentlemen teach, moreover, a commissioners' school of 96 scholars. The tuition seems to be well adapted to the requirements of the commercial and industrial county of Berthier.

The academy for girls is taught by the Sisters of the Congregation of Notre Dame, an ancient and useful institution, which leaves nothing to be desired. Miss A. S. Bélanger teaches, under the commissioners, a school of 75 children of both sexes, with good success.

*Dissentient School.*—Mr. John Rollitt, who holds a diploma for a model school from the Protestant Board, has 37 scholars, of whom 10 are French-Canadian Catholics. The school is well taught. The salary is £60 from the Trustees and £10 from the Colonial Church Society.

*Lenoraie.*—Rear of the Parish. Miss M. Levesque receives £22 salary, and teaches 40 pupils. The progress made has been small, partly in consequence of the ill health of the mistress.

*Bois D'Autray.*—Miss P. Lavoie receives £25 salary. With the exception of two pupils who are pretty far advanced, the scholars are all beginners in all the branches.

*Bas de la Grande Côte.*—The teacher receives £38. There are 58 scholars on the books, 34 of whom were present at my examination. A certain number of the scholars were sick—a good many were learning their catechism at the church—so that there was but broken attendance at the school. The teacher is attentive to her duties.

*Girls' School.*—The teacher, who was married some time ago, has not hitherto had a successor.

*District No. 1.* The Teacher receives £40 salary, and teaches 56 children; they are young, and most of them were sick last spring; accordingly, the examination showed but very poor results.

*Côte St. Henri.*—There was no school open at the time of my visit, on account of illness of the teacher. I was told that Mr. Guerout keeps an independent academy at D'Autray, where he has eight pupils.

I observed a great deal of ready zeal in several of the commissioners, but their visits to the schools are not sufficiently frequent. The children are supplied with books, paper, &c., gratuitously. There is at Lenoraie a Library Society, and also an Institute.

*L'Epiphanie—Petit St. Esprit.*—Miss M. Foisy receives £21 salary, and teaches 32 pupils. The results are satisfactory, considering the age of the children.

*Grand Coteau.*—Miss Emma Pelletier teaches 31 scholars, and receives £21 salary. There is progress in all the branches.

*Haut de la Rivière Archigan.*—Miss Eliza Prud'homme teaches 38 scholars, and receives £18 salary. Although the results of the examination were not brilliant, some progress had been made since last year.

*Bas de la Rivière.*—Miss Celine Content receives £12 salary, and teaches 27 pupils. The writing and arithmetic are poor; I found greater proficiency in the other branches.

*District No. 1.*—The Misses Mercure receive £36, and teach 96 scholars. The school is very well kept. A new schoolhouse is shortly to be built.

*St. Paul L'Ermite.*—Miss L. Archambault teaches 39 pupils, and receives a salary of £27. The children attending the school are almost all beginners, slack in their attendance, and poorly provided with books, &c. At this place the parents claim a right to dictate the course of the children's studies. I discussed this claim with the commissioners.

*District No. 1.*—Mr. Ol. Archambault receives a salary of £45 15s. His school is attended by 69 scholars, and is well kept.

*District No. 2.*—Miss E. Raby has a good school, consisting of 54 scholars. She receives a salary of £30 15s.

*Lachenais.*—*Petit Mascouche*—Miss P. Sarrazin receives £25 salary, and teaches 27 scholars, 18 of whom were present at my examination. With the exception of two pupils whose progress was somewhat apparent, all were beginners. The method of teaching seemed to be good.

*District, No. 1.*—Miss Eliza Delorme receives £25 salary, and teaches 33 boys. Miss Delorme is a new teacher in my district, but discharges her duty in a praiseworthy manner. Miss M. Matthieu receives £25 salary and teaches, under the same roof, 31 young girls. These two schools are well kept. They have, however, neither blackboards nor geographical maps.

*St. Henri de Mascouche.*—This municipality has no less than eleven institutions of all kinds for the education of youth.

*Grand Côteau.*—Miss A. Beauchamp receives £20 salary, and teaches 28 pupils. Miss Beauchamp usually succeeds very well. I found no more than 15 pupils at my examination in consequence of a retreat at the parish church.

*Côte St. Philippe.*—Miss A. Corbeil receives a salary of £20, and teaches 58 scholars, only ten of whom were present at my examination for the reason above mentioned. Miss Corbeil is a new teacher in my district.

*Bas de Mascouche et la Cabane Ronde.*—The two schools were closed. The academy for girls, under three lady teachers of the religious order of La Providence, receives from the Government £24 and from the commissioners £10. They number 87 pupils, including the scholars belonging to the commissioners' school. The results are good.

*Model School.*—This school is taught by Mr. E. Galipault, who holds the diploma of a model school teacher. The results are very satisfactory; nothing less than the zeal and persevering efforts put forth by Mr. Galipault could, without other assistance, have produced such remarkable proficiency in so great a number of pupils (88). Mr. Galipault does not, however, receive more than £35 salary.

*La Plaine.*—Miss P. Miron teaches 22 pupils, and receives a salary of £20. The school has been closed for six months in consequence of the sickness of the teacher. The children are poor and attend very irregularly, which accounts for the little progress they have made.

*Dissentients.*—There are difficulties among the rate-payers. The department has been called upon to settle them. The trustees have established their school on the eastern part of Côte la Paine; it numbers 24 scholars. Their opponents have an independent school in the western part of the Côte and number 20 scholars.

*Isle du Pads.*—The careless attendance of the scholars may be the cause of the little proficiency made in this, the only school of the municipality. But on the other hand, I have no doubt, that a little more active exertion on the part of the teacher would have produced very different results.

*St. Ignace.*—The teacher, who has kept the school for ten years past, has been compelled by the commissioners to accept 30 pounds salary instead of 40 pounds on pain of losing the place. In reading, the scholars have made some progress. In other branches, they shew none. In justice to the teacher, I must observe that the children have taken but little pains.

*St. Melanie—Petit Rang.*—Miss Eup. Richard has 14 scholars on her books, of whom eight only attend regularly. She receives 18 pounds salary. This little school occupies the centre of the district, whereas the children who are of an age to attend it, live at its extreme verge, so that it is useless, save a very small number.

*8th and 9th Ranges.*—Miss E. Lavigne receives a salary of £15, and teaches 32 children, who are beginners.

*6th and 7th Ranges, N. W.*—Miss V. Laporte receives £18 salary, and teaches 39 children. The good management of this school affords much hope for the future.

*6th and 7th Ranges, N. W.*—Miss J. Dalpée teaches 30 pupils, and receives a salary of £18. The three last-mentioned schools are established in the mountains of d'Aillebont.

*4th and 5th Ranges.*—Miss Marie Lavigne receives a salary of £18, and teaches 26 pupils. There is but little zeal among the rate-payers.

*Model School.*—Mr. J. Robillard receives a salary of £50, and has 103 pupils. The same uniform zeal and success mark the management of his school.

*St. Jean de Matha—District No. 1.*—Miss P. Etu receives £25, and teaches 77 pupils. Miss Etu has been only a few months in charge, but her diligence and talent give assurance of her success.

*District No. 2.*—This school is not yet open. Mr. Lippé, notary, manages the affairs of the commissioners, who are distinguished for their zeal.

*Ste. Elizabeth (Côte St. Martin).*—Mr. Joseph Duquet, the younger, has 39 pupils, and receives a salary of £40. I found it difficult to form an opinion of the state of his school, as it was the close of a vacation of three months.

*District No. 1.*—Mr. G. Houle who receives a salary of £45 will have a difficult task to repair the mischief caused by the neglect of his predecessor.

*Côte St. Pierre.*—Mr. Joseph Duquet, the elder, receives a salary of £45. He holds a model school diploma. The 67 pupils who attend his school have improved in all the branches.

*Academy for Girls.*—This institution is under the charge of the Sisters of La Providence. They receive £50 from the Government and £45 from the commissioners. The 108 pupils of this establishment are distinguished for their rapid improvement.

*St. Emilie.*—Mr. L. P. C. Beaudoin teaches 51 pupils, 10 of whom have no books, and yet the concession is far from being poor. There must be great neglect on the part of the ratepayers. Mr. Beaudoin is usually very successful. His salary is £45.

*Ste. Rose.*—Miss V. Déchêne teaches 26 pupils, and receives a salary of £20. A very poor school in a very poor district.

*Joliette.*—The academy for girls is under the charge of five sisters of the religious order of La Providence. There are 292 pupils attending the commissioners' school, and ten the boarding school. The improvement is very great. The boys' school, under four Clercs de St. Viateur, contains 201 pupils. The college numbers this year 141 scholars. Joliette possesses an institute and a library association. Moreover, an independent school of eight pupils (boys).

*St. Thomas—District No. 1.*—This school, kept by Madame Rousseau, numbers 45 pupils, all very young. Madame Rousseau receives a salary of £26.

Miss M. Brouillet has charge of 82 young girls, and receives a salary of £26. I ascribed the absence of improvement since my last visit to their slack attendance at school. I wrote to the commissioners and threatened the district with a discontinuance of the government grant.

*Petite Chaloupe.*—Miss E. Levallée teaches 64 pupils, and receives a salary of £19. I found some small improvement in reading, writing and arithmetic; very little in other respects, and very irregular attendance at school.

*Grande Chaloupe.*—Here Madame Victoire Richard teaches 66 children, and receives a salary of £26. The school is pretty well conducted.

The commissioners have shown a tolerable degree of zeal; they have built good school-houses and furnished them suitably, but unfortunately they are not sufficiently strict in selecting teachers. They have also reduced the salary of Madame Richard their best teacher, by £6, because a teacher in want of a place would have accepted the salary at present allowed to Madame Richard (£26 instead of £32). Mr. P. Ducharm, the secretary-treasurer, is punctual in the discharge of his duties.

*St. Charles Barromée—Côte Visitation.*—Here the teacher receives £22 salary, and has 70 pupils. The school is altogether elementary.

*Côte Ste. Julie.*—Miss P. Courtois receive a salary of £24, and has 51 scholars whose improvement is satisfactory.

*Petite Noroie.*—Miss A. Brisson teaches 17 pupils with good effect, and receives a salary of £17 10s.

*Bas de St. Roch.*—Miss A. Gareau has 37 pupils, all beginners except one. Her salary is £18.

## No. 17.—EXTRACT FROM REPORT OF INSPECTOR PARMELEE.

### COUNTIES OF MISSISQUOI, BROME AND SHEFFORD.

In reporting the state of schools for the past summer, in my district of inspection, I may mention two causes that have contributed very materially to their prosperity, viz.: the enforcement of that provision of the law requiring teachers to procure diplomas, and the amendment of the school law so as to facilitate the collection of rates.

Could there be a greater zeal excited in school commissioners, in some localities, to select the best teachers instead of the cheapest, and to add to the convenience, the comfort and the attractiveness of school houses and their surroundings; and in parents, to provide more liberally for their children in suitable books, slates, &c., that no time might be lost in idleness, I think little else would be lacking to enable our schools to attain to an enviable state of perfection and prosperity.

It is satisfactory to state that progress is steadily made in the right direction, though the good is not yet completely gained.

#### SHEFFORD.

The County of Shefford contains nine school municipalities, viz.: Shefford, Granby, Milton, St. Valérien, Roxton, North Ely, South Ely, North Stukely, and South Stukely.

*Shefford.*—In my last semi-annual report I had occasion to represent this municipality as in a very unsatisfactory state, through remissness in collecting rates and paying teachers, there being altogether too large an amount of both active and passive debts.

I am happy to report now that there is no longer any occasion for such complaint.

Since last May more than two thousand dollars has been collected and paid out. There are now no debts due by the commissioners, and there is but comparatively a small amount of rates and scholar tax in arrears.

Their new secretary-treasurer, Mr. Thos. Brassard, is a thoroughly competent and efficient officer, and the pecuniary affairs of this municipality are now prosperous and highly satisfactory.

The Shefford academy is in a prosperous state, under the charge of R. W. Laing and Miss M. A. Hutchinson.

The model school at West Shefford is also in a prosperous state, under the charge of Rev. A. T. Whitten.

There have been eighteen elementary schools in operation the past summer, under commissioners, all but one taught by females, and all the teachers have diplomas.

There is also one dissentient French school near the line, between Shefford and Roxton, with scholars from both municipalities, taught by a female, with diploma; also a parochial school in Waterloo, and a small independent school in Frost village.

All the above schools are in a satisfactory condition, and may be termed good, though a difference obtains in the ability, aptitude and efficiency of the several teachers; among the most successful of whom, I would mention Misses Helen L. Shephard in District No. 4; Lydia Gilman, in No. 5; Sarah A. Berry, in No. 8; Julia A. Harvey, in 9; Eliza Caroline, in No. 13; Emily McCanna, in No. 18; Agnes Peters, in No. 22; Lucia Chamberlain, in No. 23; Margaret A. Armstrong, in No. 24; and Madame M. Bachand, of the dissentient French school.

*Granby.*—The Granby academy is in a flourishing condition, under the charge of J. Th. Marsh, M.A., assisted by Miss Alma Minckles.

There are eleven elementary schools and eight dissentient schools, two of which are English and six French, and two independent schools.

The schools under control are all taught by females, with diplomas, and are in a satisfactory state of discipline and progress.

Among the teachers, those possessing the best aptitude are Misses Almira D. Wells, in district No. 1; Mary E. Kennedy, in No. 5; Matilda E. Baillie, in No. 6; Elizabeth Ferguson, in No. 8; and Mary Baird in No. 9; and of the dissentients, Misses Adeline Mastin, in No. 5; Ellen Connor, in No. 7; and Mrs. M. J. Bray in No. 8.

The pecuniary affairs of both corporations in this municipality are in a very satisfactory state, and the respective secretary-treasurers are correct, systematic and thorough in the discharge of their duties.

*Milton.*—In this municipality there have been six elementary schools in operation, under commissioners, one of which is English and five French, and three English schools under trustees.

The teachers are all females, and all hold diplomas except one of those teaching a dissentient school.

The schools are well conducted, and rank as medium, except that in district No. 7, taught by Miss Rose Caroline, which, for good management and thorough teaching, may be ranked as excellent.

Some of the schoolhouses are deficient in accommodation, and do not exhibit a commendable air of thrift and good management.

The commissioners accompanied me at my last visit, to whom I pointed out certain deficiencies.

The affairs of the dissentients are well managed, and they are out of debt. On the contrary, those of the commissioners, as usual, are far from prosperous. They are still much in debt.

I believe it is the desire of the commissioners to administer their affairs well, but the great obstacle to their prosperity, in my opinion, is the lack of energy and efficiency in their secretary-treasurer.

*St. Valerien.*—Here I find everything in a satisfactory state. There is a highly commendable spirit of enterprise in this small municipality, shown in the erection of schoolhouses, and in the establishment and maintenance of good schools.

Four elementary schools have been kept up the past summer, and one was discontinued in the spring in consequence of the teacher having entered a religious house.

One of the teachers is a male, and four are females, and all have diplomas.

Miss Adeline Decelle, of district No. 2, I would particularize as possessing peculiar aptitude and ability as a teacher, as shown in the neatness, good order, and progress of the school.

*Roxton.*—The Roxton academy is still in a flourishing condition under the able management of Wm. J. Alexandre, who teaches both languages.

There are five elementary schools in operation under commissioners, and three under trustees. All are taught by females with diplomas, excepting the school No. 2 of the dissentients, the teacher of which has no diploma. Of the five schools under commissioners, No. 2, taught by Madame Marie Brunet; No. 4, by Madame Philomène Ménard; and No. 5, by Madame Julia Blanchard, are respectively entitled to rank as first-rate schools.

Of the dissentient schools, that in district No. 1, taught by Miss Phebe S. Sanborn, and that in No. 2, by Miss Lucia H. Bangle, are also excellent. The other schools of the municipality I should rank as medium.

The books of the secretary-treasurer are kept in good order, and the collections and payments are promptly made.

I may mention that I have heard complaints respecting the excessive rates heretofore levied by the commissioners in the village of Roxton Falls, as being unauthorized by law, and I am informed by the agent of the B. A. Land Company that it is the intention of the company to institute an action to recover back some of the money so paid by them under protest.

*North Ely.*—This municipality, for a new one, is progressing favorably. They show

a good spirit, and are really doing well. They have erected eight schoolhouses, and have established schools in seven of them.

One school is taught by a male, and six by females, and all the teachers hold diplomas. The schools are all good. In No. 2, taught by Miss Caroline A. Smith; in No. 6, by Joseph A. Crone; and in No. 7, taught by Margaret Allen, I remarked excellent order and progress. No. 6 is composed of both French and English, and both languages are there taught. The same is the case in Nos. 3 and 5. The other schools are English. The teachers are all promptly paid, and the secretary-treasurer discharges his duties to good acceptance.

*South Ely.*—In this municipality there are six schools under commissioners, and two under trustees. Three of the teachers are males, and five females, and all hold diplomas.

The school in No. 1, taught by Mr. P. F. Peltier, and that in No. 2, by Madame Léocadie Bertrand, are entitled to rank as first-rate schools. All the rest are medium.

The dissentients are out of debt; the commissioners are not, having been somewhat too remiss in making collections and payments.

The books of the respective secretary-treasurers are correctly kept.

*North Stukely.*—This is one of the municipalities of which I had occasion, in my last report, to complain of the remissness of the commissioners in collecting rates and paying teachers. Now I am happy to report that they have discharged all their debts, and are in a prosperous and very satisfactory state. The dissentients also are free from debt. The books have been well kept by the respective secretary-treasurers.

The commissioners have seven schools in operation and the trustees two—all taught by females with diplomas.

The teacher in No. 5 was dismissed before the close of her term of engagement; and in No. 2 I heard complaints respecting the demeanor of the teacher, though I found the school in a satisfactory state of discipline and progress.

I would mention the school in district No. 1, taught by Miss Céline Nichol, that in No. 3, by Miss Vitaline Lapierre; that in No. 6, by Miss Georgiana Pion; that in No. 7, by Miss Adeline Mackie, and the dissentient school in No. 2, by Miss Betsey E. Achilles, as worthy of the rank of excellent. The others are all medium.

*South Stukely.*—This municipality is but newly organized, and they have not yet made much progress in collecting rates. They have, however, had three good schools in operation the past summer—two English and one French—all taught by females with diplomas. They have also built one new schoolhouse the past summer, and have another in course of erection.

#### COUNTY OF BROME.

The county of Brome contains five municipalities, viz.: Brome, Bolton, Potton, Sutton, and East Farnham. In Bolton and Sutton there are French Catholic dissentients.

*Brome.*—The Knowlton academy is in a flourishing condition under the able management of Mr. F. W. Hicks.

There is also a nominal high school in West Brome, taught by Miss Emma Boright, a very competent teacher, but without a diploma.

There are twenty-one elementary schools in operation, all taught by females, eighteen of whom have diplomas, and three have not. These three schools, I presume, the commissioners will not return as under their control, though they are in districts and schoolhouses under their control.

The above schools are all of a good character, and are managed with ability and success.

As distinguished for good order and progress, I would mention No. 4, taught by Miss Eliza Armstrong; No. 6, by Miss Sarah L. Dow; No. 10, by Miss Mary Taylor; No. 11, by Miss Maria Farmer; No. 12, by Miss R. A. Shephard; No. 13, by Miss Maria A. Seymour, and No. 14, by Miss Milissa Pickle.

The pecuniary affairs of this municipality are in a prosperous state, and the books are well kept.

*Bolton.*—The commissioners have had sixteen schools in operation, and the trustees two; all taught by females with diplomas, excepting two of the former.

I attribute the failure of the commissioners to procure teachers duly qualified by law, for all their schools, to the fact of an unwise resolution passed by them to pay as wages not more than \$1.50 per week. The consequence is, one school is vacant, and two are taught by persons without diplomas.

Their schools, however, are of a respectable grade, and are conducted in a satisfactory manner. No. 1, taught by Miss Mary A. Goddard; No. 8, by Miss Ellen Berry; No. 10, by Miss Emily Largent; No. 11, by Miss Valeria M. Taylor; and No. 12, by Miss Cynthia Currie, are worthy of particular mention, as being well-conducted and prosperous.

Of the dissentient schools, No. 1, taught by Miss Marie Poulin, is prosperous, but that of Miss Philomène Poulin has not been prosperous. The pecuniary affairs of both corporations are managed in a very satisfactory manner, and the books are well kept.

*Potton.*—In this municipality there have been twelve schools in operation the past summer, all taught by females, who all have diplomas.

The teachers in No. 1 had, through mutual dissatisfaction, closed her school after a short time. In No. 2 there was, as usual, dissatisfaction, but, in my opinion, without just cause. In No. 9, with 48 scholars on the journal, I found but six present at the time of my visit, showing something wrong there, but where the fault lay I failed to discover.

With the management of the school in No. 4, taught by Mrs. E. D. L. Turner, in No. 5, taught by Miss R. A. Livingston; in No. 6, by Miss M. E. Manson; in No. 8, by Miss Margaret Donaldson, and in No. 12 by Miss Mary Boyce, I was well pleased; though in No. 5, in the village of Mansonville, the average regular attendance did not exceed, nor has it generally done so, one-fourth the whole number. The other schools are of a medium grade, and conducted in a satisfactory manner. I am confident that it is not altogether the fault of the teachers that there is not more harmony in the several districts of this municipality, and, consequently, a greater degree of prosperity. The secretary-treasurer is doing his duty faithfully, and the teachers are promptly, if not liberally, paid.

*Sutton.*—The High School in Sutton has been ably taught by Miss Sophia Lalanne. There have been fourteen schools under commissioners, all taught by females, and all, with one exception, having diplomas. There is also one independent school.

The dissentient school has not been kept up during the past summer.

In No. 11, a very large school, the teacher did not succeed in governing and controlling it satisfactory, and gave it up after a short trial.

The best-conducted schools were as follows: No. 4, taught by Miss Ellen Westover; No. 5, by Miss Mary E. Sweet; No. 6, by Miss Jennette Barnes; No. 7, by Miss Emily R. Frary; No. 8, by Miss Adeline Dyer; No. 10, by Miss Harriet Chamberlin; and No. 16, by Miss Betsy E. Bigelow.

The other schools are of a medium grade. There is a prompt collection of rates and payment of teachers, and the secretary-treasurer discharges the duties of his office in a very satisfactory manner.

*East Farnham.*—The academy at Adamsville, I learned, had had but a very small attendance the past summer. I called there twice but did not find it in session. It is still taught by Mr. Henry Baker, a competent teacher, but without diploma.

Considering the very small attendance at this school, its near proximity to other high schools, and the grade of scholarship that has generally obtained there, I am constrained again to express the opinion, as I have done formerly, that the public interest would not suffer by the closing of the school, and appropriating the funds to the support of other schools.

There have been ten schools in operation in this municipality the past summer, under commissioners, one of which is taught by a male and the others by females, all of whom have diplomas. There is also one independent school. No. 4, taught by Miss Mary Jane Cameron; No. 5, by Miss Lois Brimmer; No. 7, by Miss Elizabeth Brimmer; and No. 10, by Miss Hester Ann Lawrence, are excellent schools; the others only medium. There are dissentients in Farnham, but they are united with those of Granby, and controlled by the Granby trustees. The pecuniary affairs of this municipality are in a very satisfactory state.

## COUNTY OF MISSISQUOI.

The County of Missisquoi contains seven municipalities, viz.: Dunham, Stanbridge, St. Armand East, St. Armand West, Clarencville, St. Thomas de Foucault, and St. Romuald de Farnham.

In Dunham and Stanbridge there are Catholic dissentients, and in St. Romuald the dissentients are Protestant.

*Dunham.*—This at present is one of the best-managed municipalities in my district. The books are in excellent order; there are no debts due to teachers or others, and the collections are made with promptness, a striking contrast to the state of affairs that prevailed there a few years since.

The Dunham academy has been ably conducted the past year by Mr. S. J. Bryant, with an academy diploma.

The Missisquoi High School, under charge of the Rev. J. C. Davidson, was in vacation at the time of my visit, but I learned that the attendance had been somewhat smaller than usual. This school has, however, always been conducted with ability and success.

The Cowanville Female Academy, under the charge of Miss Isabella Dalgleish, with a model school diploma, I found well conducted and prosperous. The commissioners have had twenty-one schools in operation the past summer, and the dissentients one. This last, taught by Miss Alphonsine Perron, is worthy of particular mention for good order and improvement; also, the school in No. 6, by Miss Hannah Allen; No. 7, by Miss Helen E. England; No. 11, by Miss Catherine Van De Watters; No. 12, by Miss Eliza Kirby; and No. 24, by Miss Susan M. Woodard.

All the teachers in this municipality are females, and have diplomas, and the schools all meet my approbation.

*Stanbridge.*—This is also a large municipality, but by no means in as prosperous and satisfactory a state as Dunham.

The commissioners are in arrears with their collections, and are also somewhat in debt.

At the time of my last visit, the books had just come into the hands of a new secretary-treasurer, and were not in a condition to be audited, nor could the secretary give me any accurate information respecting their affairs.

The commissioners, like those in Bolton, have passed a resolution not to give more than \$1.50 per week for female teachers—a course that tends to discourage the best and most experienced, and to introduce many of only a second grade; and though they have some excellent teachers thus poorly remunerated, they have more of a second grade than they would have under other circumstances.

I may add that I trust I shall find affairs much more satisfactory at my next visit, from the known business character of their present secretary-treasurer, and also of the newly-elected commissioners.

I had conversation with all the commissioners at my last visit, and think the majority will adopt a more liberal course.

The Stanbridge academy has not as many pupils as in former years, though I found the school in good order. The teacher, Mr. Wm. F. Eastwood, as far as I learned, gives good satisfaction, but has neither a model school nor an academy diploma.

I found twenty-two schools in operation under commissioners—two of which are French—and eight under trustees—all French; besides, one flourishing independent school in Bedford, taught by Miss S. A. Thomas. The teachers under control are all females, and all have diplomas. Among those entitled to rank as first-rate are Miss Hannah Gage, in No. 2; Miss Alethia Sheldon, in No. 4; Miss Azerba Gage, in No. 5; Miss Calixta O'Dell, in No. 9; Miss Rhoda A. Robinson, No. 11; Miss Mary McAllue, No. 13; Miss Amelia J. Allen, No. 16; Miss Laura A. Stone, No. 19; Miss Elizabeth Edmonds, No. 21; Miss Anna M. Martindale, No. 23; and Miss Florence Duquette, No. 25.

The affairs of the dissentients are better managed, and of their schools three may be ranked as excellent, viz.: No. 6, taught by Miss Adeline Massé; No. 7, by Miss Sophie Nolin; and No. 8, by Miss Celina Seignory. The other schools of the municipality are only medium.

*St. Armand, East.*—The academy at Freleighsburg, under charge of Rev. J. B. Davidson, was in vacation at the time of my visit. It has unquestionably been well conducted, though the number of pupils has, as I learned, been somewhat less than usual.

There have been seven schools in operation under commissioners, all taught by females with diplomas, and also one independent school.

Three of the teachers, viz., Misses Lucy P. Bell, No. 1, Sarah A. Drew, No. 2, and Angeline Tenney, No. 5, have first-rate qualifications for their calling, and are very successful. The other schools are good and well conducted. The secretary-treasurer is both competent and faithful, and the affairs of the municipality are prosperous.

*St. Armand, West.*—The High School at Philipsburg is prospering under the charge of Mr. James H. Johnson, who is an excellent teacher, with a model school diploma.

There are nine elementary schools in operation, all taught by females with diplomas. Three of these I should rank as first-rate schools, viz., that in No. 1, by Miss Harriet E. Munson, an experienced teacher; that in Nos. 5 and 7 united, by Miss Arabell C. Olds, a person of rare ability; and that in No. 10, by Miss Ellen M. McKinney. The other schools are conducted in a satisfactory manner, though not with equal ability.

The collections are well attended to, and the teachers promptly paid; nevertheless, I am not wholly satisfied with the manner in which their school affairs are conducted. Though one of the richest municipalities in my district, the commissioners have passed a resolution to receive payment of all rates in American currency at less than the current discount, and teachers are paid wholly in the same currency, with the exception of that amount accruing to each district from the Government allowance at the rate of \$2.00 per week, which certainly is not a fair remuneration for their services.

*Clarenceville.*—The Clarenceville academy has for two years past been one of the best in my district, as conducted by Mr. A. P. Bissett and his wife, both of whom are persons of unusual ability as teachers.

There is a debt of some hundreds of dollars against the academy building, to pay the interest on which there has been an annual deduction from the Government allowance of fifty dollars, or else the teacher has been required to pay an annual rent from his income of fifty dollars for the use of the building, which amounts to the same thing, and is in reality using funds designed for the payment of teachers, to pay for the building, a thing I imagine not contemplated by the law. In common fairness, the inhabitants, who are amply able, should be required to liquidate the debt against the building as an indispensable condition of their receiving any further Government aid.

Passing to the elementary schools, there are ten in operation, all well conducted and prosperous. All, except one, are taught by females, and all have diplomas.

The school in No. 1, taught by Miss Sarah C. Stott, that in No. 3, by Miss Maria Schutt, and that in No. 10, by Miss Margaret Macfie, are among the best for good management.

This municipality is in a prosperous state, though I very much regret that the commissioners should have thought it advisable to remove their late secretary-treasurer, Mr. Asahel Hawley, a most competent and efficient person for that office. I hope the present one may do as well.

*St. Thomas.*—There have been but five schools in operation in this municipality the past summer. All of them, however, are good schools, and ably managed by female teachers with diplomas. Their affairs are in a very satisfactory state, and the books of the secretary-treasurer are well kept.

*St. Romuald.*—The academy in this place has a large attendance. The male department is under the charge of Mr. H. C. H. Chagnon, and the female department under the charge of Miss Philomène Mackie, both of whom have model school diplomas, and discharge their duties to general acceptance.

When I visited this municipality the commissioners had only four schools in operation, besides two dissentient schools and one independent. All were well kept and the finances were in a prosperous state.

I have thus spoken in detail of each municipality, and if I have not given all the praise that is due to the several parties interested, I have omitted to mention nothing

that is in any degree faulty or reprehensible, so that the picture I have given cannot be said to be too highly colored.

On the whole, I trust you will agree with me in the opinion that the cause of common school education in my district of inspection is decidedly prosperous.

## No. 18.—EXTRACT FROM THE REPORT OF INSPECTOR VALADE.

### COUNTIES OF JACQUES CARTIER, HOCHELAGA, VAUDREUIL, SOULANGES, AND THE ROMAN CATHOLIC POPULATION OF MONTRÉAL.

I venture to hope that this report of my two last visits to the schools will give you a favorable opinion of the state of public education in my district of inspection.

My district of inspection now comprises 48 municipalities, 144 school districts, 142 schools under control, and 204 scholastic institutions of all kinds, attended by 19,008 pupils, an average of more than 90 children to each school, and an increase of about 50 per cent. on the year 1854—that is to say, in the short space of ten years. These different schools are in charge of 107 male and 210 female teachers. The matters taught are uniformly reading, grammatical parsing, spelling, geography, arithmetic, history, singing, etc., etc.

Six thousand four hundred scholars write, 12,000 understand arithmetic, 11,000 learn spelling, 7,900 grammar and French parsing, and 2,500 English grammar.

The rate-payers refuse no sacrifice in order that they may keep up these schools: The country people may, perhaps, be reproached for not sending their children regularly to school, but I impute this failure on their part to the imperious exigencies of field labor. To excuse it, we must confess that the children do, in fact, attend a school of agriculture, and are learning what most of them absolutely need to know to enable them to gain an honest livelihood. I should rather reproach the parents with withdrawing their children from school at too early a period. I reckon 46 libraries in my district of inspection, containing, in the aggregate, 27,000 volumes of well-chosen works. The *Journal of Public Instruction* contributes in no slight degree to the progress of education. The important lessons in morals and the art of teaching found in its columns should make it the constant companion of every teacher.

The distribution of prizes is attended with the happiest results. I consider also that the Savings Bank is an active means of encouraging the teachers, and, therefore, a guarantee of success to the schools.

### COUNTY OF HOCHELAGA.

*Hochelaga.*—This municipality has one school well kept by Mrs. Guy, whose talents and experience ensure the progress of the scholars. One hundred children of both sexes attend the school. I distributed among them seven prizes. The dissentient school is well kept, and attended by 40 scholars, among whom I distributed six prizes. The school rates are collected with great regularity in these two municipalities. Here is the parent establishment of the community of the sisters of the sacred names of *Jesus and Mary*. One hundred and ten scholars attend the institution.

*Côteau St. Louis (Mile End).*—Mr. Côté teaches the boys' school in this municipality gives entire satisfaction to the rate-payers. He has the gift of knowing how to infuse in the minds of his scholars a love of labor and good order. The school for young girls, kept by a sister of Mr. Côté, is all I could desire. I distributed eighteen prizes among the 224 pupils attending these two schools. The state of the finances, although still susceptible of improvement, is, nevertheless, more satisfactory than it was formerly.

The school for the deaf and dumb, taught by the *Clerics de St. Viateur*, is entitled to great sympathy. The peculiar instruction afforded to 20 pupils is attended with the best success, and affords a most interesting spectacle. I distributed four prizes among them.

The dissentient school is in no respect remarkable. It is attended by 30 pupils.

*St. Jean Baptiste.*—The boys' school has been kept successively by Mr. Coutu and Mr. Casgrain, both pupils of the Jacques Cartier Normal School. Mr. Casgrain's talents give us great reason to hope well for the future of this school. The school for young girls is well kept. Four hundred pupils attend these schools. The rate-payers exhibit great interest in the education of their children. They have built a handsome roomy school-house within the year, and, notwithstanding the extraordinary expenses of this building, their finances are in a flourishing condition. I distributed 12 prizes among them. The dissentients opened a school last spring which is attended by 30 pupils.

*Côte Visitation.*—There are two schools in this municipality: one under the control of the commissioners, containing 50 scholars, taught by Miss Lemire; the other, dissentient, consisting of 40 scholars, whose progress is remarkable. I distributed five prizes in each of these schools.

*St. Henri des Tanneries.*—Mr. Hêtu, who has charge of the boys' school, produces very satisfactory results. The Grey Nuns teach the girls' school with the highest success. The pupils of both schools number 406. The commissioners are about taking steps to organize new schools to relieve these two from the excess of their numbers.

The dissentients have a good school kept by Miss Vosburgh, from the McGill Normal School, who has 55 pupils. I distributed 12 prizes among them.

*Côteau St. Pierre.*—The school at Côteau St. Pierre, as well as that at Côte St. Paul, instead of improvement, gives signs of decay. Happily, these two schools have changed their teachers since my last visit. It may well be understood that this locality, which, by its numerous factories employing many hands, is becoming daily more important, as becoming the seat of a still increasing commerce, requires good teachers skilled in both languages, and qualified to prepare their pupils for trade and commercial pursuits. Miss Belle, of River St. Pierre, is highly esteemed by the rate-payers and her school well attended. The pupils in this municipality number 179.

The dissentient school, attended by 30 pupils, would be more prosperous if the teachers were changed less frequently.

*Côte des Neiges.*—The Grey Nuns have a school in the large building lately erected by the Seminary of Montreal. The result of my examination of the model school for boys was not as satisfactory as the rate-payers had a right to expect. The two other schools are well kept. Miss Leduc, who is equally well acquainted with both languages, is very useful in her district. The whole number of pupils attending these schools is 194. I distributed among them 27 prizes. The dissentient school, taught at present by Miss Carmichael, has a high character, and I am bound to certify that it well deserves it. I shall mention the names of Misses Snowdon and Brown as constantly and deeply interested in the success of their schools. It is attended by 36 pupils. I distributed six prizes among them, and found the state of the accounts satisfactory.

*Longue Point.*—Of the three schools in this municipality, two are under control—that at St. Leonard's, which is good, and the boys' school in the village, which has many deficiencies. The convent devoted to tuition, an independent establishment, affords a superior kind of education to the young girls of the parish. The number of children attending these schools is 182. I distributed among them 16 prizes. The affairs of the municipality are well managed by Mr. Morin, the secretary. The dissentient school numbers 22 pupils. The examinations were satisfactory. I distributed four prizes among them.

*Pointe-aux-Trembles.*—This municipality possesses a convent devoted to tuition, under the direction of the Ladies of the Congregation, an industrial academy, kept by the Brethren of St. Joseph, and a mixed elementary school. These three institutions do honor to the parish. The progress made is remarkable, yet regular. They are attended by 220 pupils, to whom I presented 11 prizes. The accounts are well kept. I have no particular information respecting the independent school, but I may mention that it consists of forty pupils of both sexes.

*Rivière des Prairies.*—This municipality possesses two schools: one, a model school, in the village; the other an elementary school, which, by the success which distinguishes it, may almost take rank with the former. Miss L'Ecuyer, who presides over the mode

school, is the object of universal esteem. There are 45 scholars attending both schools. The finances are flourishing.

*Sault au Recollet.*—This parish is divided into three municipalities, and contains five schools under control, attended by 252 scholars. Those at the Côte St. Michel evince great assiduity and zeal for improvement. The teachers deserve the reputation they enjoy for the successful training of their pupils. That at the upper part of the Sault I found very weak; the commissioners had resolved to bring it to a better state. That kept by Miss Duplessis was remarkable for good order and the improvement of the scholars. I distributed 28 prizes among them. The accounts are well kept.

The convent of the Sacred Heart continues to grow and flourish. It is filled with pupils from all parts of the country, and even from foreign lands. The scholars are 100 in number. It is an institution which does honor to the country.

In this parish is the noviciate of the Jesuits, in which a large number of young Canadians are initiated into the laws of science, and qualified for the work of the priesthood.

#### COUNTY OF JACQUES CARTIER.

*St. Laurent.*—This parish is entitled to particular mention for the zeal which the commissioners evince in providing good teachers. The pupils are distinguished for their emulation, the parents for their liberality, and the teachers for their devotion. The college of the Brethren of St. Joseph consists of 180 pupils. There they receive a practical education, which for some time back has also included the study of the classics. Grammar is well understood, and exercise books of the pupils might serve as copy-books for the schools of the country for their beautiful writing. English is a special branch of study, and most of the pupils speak that language fluently. Book-keeping is taught on the most improved principles.

The young girls at the convent receive a no less useful education, of which they are equally eager to avail themselves. The pupils of the convent and the six elementary schools number in all 541. I distributed amongst them 54 premiums. The state of the finances is satisfactory.

*Lachine.*—This municipality has five schools. The school at Côte St. Paul, which was closed last year, has been opened again this year; it is intrusted to a person of talent. The success of the pupils of the convent bears strong testimony to the prosperity of this institution. All the schools work in such a manner as to give satisfaction to both parents and rate-payers. I distributed 30 premiums amongst the 290 pupils who attend these schools. The state of the finances is satisfactory.

Mr. Alley directs, with talent and success, the education of 64 pupils in the dissentient school. I distributed in this school 10 premiums. The accounts are well kept.

*Pointe Claire.*—This municipality comprises six schools, namely, the model school, the convent school—one of the oldest in the country, and always prosperous—and four elementary schools, two of which, conducted by Miss Perrier and Miss Clément, produce excellent results.

The two others exhibit little progress. The teachers of these two schools are about to give up their schools. The total number of pupils is 251. I distributed amongst them 25 premiums. The accounts are well kept.

*Ste. Anne.*—This municipality has three schools, attended by a total of 179 pupils, to whom I distributed 17 premiums. Miss Charast conducts the village school with talent and success. I was particularly struck, in this school, with the respectful and exquisitely polite demeanor of the pupils, which is so pleasing a feature in some of our schools. The school of section Côte Ste. Marie is good, but the school du Bas is very inferior. The young schoolmistress who conducts this school is to leave the section. She is to be replaced by a more competent teacher. The secretary-treasurer was seriously indisposed, and I could not examine the state of his accounts.

*Ste. Geneviève.*—This parish comprises three municipalities and six schools, including the independent school and the convent. With the exception of the Saraguay school, upon which I had the honor to make a special report, all these schools are well kept. The

classes of the convent and the school kept by Mr. Valiquet are deserving of liberal patronage; they are conducted with talent, and making remarkable progress. The pupils number 299. I distributed here 23 premiums. The accounts are well kept.

#### COUNTY OF VAUDREUIL.

*L'Île Perrot.*—This municipality comprises two schools, attended by 140 pupils. The schoolmistress of the village, who devotes herself exclusively to teaching, contributes greatly to the success of her numerous pupils. The school de l'Anse is also a good school. Education is thus making rapid progress on this island, one of the finest and most fertile in the country. I distributed here eight premiums. The accounts are well kept.

*Vaudreuil.*—This municipality has a model school, a convent school, and five elementary schools.

Mr. Moffat, who has conducted the model school for the last twelve or fifteen years, succeeds admirably. The reading is good, and the writing exceedingly neat.

Among the branches taught with superior talent in the classes of the convent, I remarked more particularly the art of letter-writing and composition. Among the elementary schools, which are all good, that intrusted to Mme. Poirier deserves special mention for its excellent results. The pupils number 327. I distributed here 44 premiums. The accounts are well kept.

The dissentient municipality has three schools. That at Côte St. Charles is hardly in operation more than eight months in the twelve, hence the progress of the pupils is but slow.

*Como.*—The school of this municipality has fallen off since Mr. Benson left, notwithstanding that the young schoolmistress who now conducts it exhibits much energy and talent. The school kept by Mr. McNotall produces tolerably satisfactory results.

The number of pupils is 104. I distributed ten premiums here. The accounts are well kept.

*Rigaud.*—This parish comprises two municipalities; that of the parish itself, and the village. The first has seven elementary schools, one of which, the La Chute school, is good and satisfactory in every respect. Four of the other schools in this municipality are satisfactory, but there are two which have made no progress whatever. The female teachers of these two have been discharged, and replaced by persons more competent. The commissioners visit the schools frequently, and enjoy the full confidence of the rate-payers.

The convent, conducted by the Sisters of St. Anne, produces excellent results.

The college of Rigaud, conducted by the Clers de St. Viateur, now holds a distinguished place amongst institutions of the second class.

The number of pupils attending these schools is 551. I distributed here 51 prizes. The accounts are well kept.

The dissentient school has twenty pupils; it is open hardly more than eight months of the year. The success of the school is tolerably good. I thought it well to distribute four prizes in this school.

*St. Marthe.*—This parish is divided into two municipalities. It possesses a primary superior school, an academy, and six elementary schools. Mr. Gélinas, who conducts the model school, puts in practice the useful lessons he received at the Jacques Cartier Normal School, of which he was a distinguished pupil. Miss Quesnel conducts, with success, a very large school. The other schoolmistresses, and particularly Miss David, are highly deserving.

The dissentients have also a good school.

The total number of pupils is 360. I distributed 42 prizes here. The finances are in a prosperous state, and the accounts are kept with order and clearness.

*Newton.*—This municipality has three schools, one of them being exclusively attended by pupils of British origin. This school is specially distinguished in arithmetic and parsing; another of these schools is also tolerably good; but the third, the school on the first range, is utterly worthless. The teacher is to be replaced by an able schoolmistress. The number of pupils is 109. I distributed nine prizes. The accounts are well kept.

## COUNTY OF SOULANGES.

*St. Clot.*—This municipality has four schools; the Ruisseau school, kept by Miss Periard, is the most remarkable. The others are tolerably good, with the exception, however, of the St Emmanuel school, which has this year given no satisfaction whatever to the rate payers. The commissioners have notified the teacher of this section that he must change his mode of teaching or be dismissed. The total number of pupils is 227. I distributed 17 prizes. The accounts are kept in a satisfactory manner.

*St. Polycarpe.*—This municipality has eleven schools under the control of the commissioners, and two dissentient schools. All these schools are well kept. Among the schools under control of the commissioners, four deserve special mention: those kept by Miss Lefebvre and Miss Deveaux, and Messrs. Picotte and Content. The dissentients have a high appreciation of their teachers who were trained at the McGill Normal School. The 13 schools are attended by 599 pupils. I distributed here 52 prizes. The finances are well managed.

*Ste. Zotique.*—This municipality has five elementary schools, attended by 233 pupils. The schoolmistress of St. Thomas range was discharged for her negligence, towards the middle of the year, and advantageously replaced by one of her sisters. The Catholic school at Côteau Landing has suffered greatly through the apathy of the master, a young man who engaged in teaching solely as a temporary expedient while preparing to enter a literary profession.

The other schools have given tolerably satisfactory results. I distributed 16 prizes here. The accounts are in good order.

The dissentient school is more flourishing than ever. All the branches of a primary superior school are taught here with great talent. As a consequence, the rate-payers cheerfully undergo all the sacrifices they are compelled to make for the support of this school. The number of pupils is 52. I distributed in this school 10 prizes. The finances are in a prosperous state.

*St. Ignace.*—This parish has a model school, a convent school, and three elementary schools. The attendance at the model school is small, and it is making but little progress; the teacher is to leave the section. The commissioners were to apply immediately to the principal of the Jacques Cartier Normal School for a new teacher. The convent intrusted to the care of the *Sœurs de la Providence* though but quite recently established, is already of immense service to the parish and county. The elementary schools supply most effectually the wants of their respective parishes. I must state, however, that, generally speaking, sufficient attention is not paid to writing.

These schools are attended by 340 pupils. I distributed 18 premiums here. The finances are in good order.

*Les Cèdres.*—This parish possesses a convent, in which the venerable daughters of Marguerite Bourgeois train up a large number of pupils in knowledge and piety, and four elementary schools. The school of St. Dominique is quite remarkable for the progress of the pupils. The village teacher, Mr. Joacim, died during the past year, after having taught during forty years in this locality. Mr. Tanguay, who succeeds him, is acquainted with both languages, English and French, and discharges his duties well. I distributed 23 prizes amongst the 279 pupils attending these schools. The finances are in a good state.

## CITY SCHOOLS.

There are 68 Catholic institutions in Montreal, attended by 9,892 pupils of both sexes. Eleven schools, with 900 pupils, are under the control of the commissioners.

1st. The commercial academy, under the able direction of Mr. Archambault, assisted by Messrs. Garnot, Anderson and Desjardins, all three highly meritorious teachers. This school is, as heretofore, conducted with talent and success, and is, moreover, distinguished for high discipline.

2nd. The school kept by Miss Poitras, which still sustains its good reputation.

3rd. The school conducted by Mr. Mathews, in which the progress of the pupils is such as to reflect the highest credit on the teacher.

4th, 5th, 6th, 7th and 8th. The schools kept by Mrs. Mulquiney, Mrs. O'Keefe, Mr. Desplaines, Miss Gibeau and Miss Cronin.

9th. The school conducted by Mr. Lacroix, which, though but a year in operation, is now attended by over 100 pupils, thanks to the teacher's zeal and devotedness.

10th. The orphanage of the *Sœurs de la Providence*, with about 80 pupils, who are taught reading, writing, grammar, arithmetic, sewing and cookery.

11th. The day-school of the Ladies of the Congregation, in which elementary instruction is imparted with the greatest success.

#### INDEPENDENT SCHOOLS

Among the independent establishments which are to be found in large numbers in the different wards of the city, apart from the Colleges of St. Sulpice and the Jesuits—which institutions alone are attended by nearly 600 pupils—I must place in the first rank the numerous schools kept by the Brothers of the Christian Doctrine, and those of the Ladies of the Congregation. To these I may add the *Maitrise de St. Pierre*, under the direction of the Reverend Oblate Fathers, the Bishop's Palace School, Mr. Doran's Commercial Academy, the schools of Messrs. Moffat, Jos. Bourgoïn, Lafontaine, Miss Clarke and Miss Lacombe, in which nearly 600 pupils are educated.

Next come the elementary schools, among which I may mention with praise the schools of Misses Lefebvre, Cusson, Lambert, Leduc, Walsh, Lavallée, Boudrias, Lesage, Dubord, Cassant, Tilmas, Read, Mullin, Coderre, Larivière and Richard, and that kept by Mrs. Tessier. The majority of these female teachers have from 90 to 100 pupils each under their care.

I must also mention the schools of the Sisters of the Good Shepherd, of the General Hospital or Grey Nuns, and of the Ladies of the Sacred Heart of Jesus.

### No. 19.—EXTRACT FROM THE REPORT OF INSPECTOR CARON.

COUNTIES OF ST. JEAN, NAPIERVILLE, AND IBERVILLE.

*School year 1863-1864.*

I have the honor to submit my report on the schools of my district for the year 1863 to 1864. I am exceedingly glad to say that everywhere marked progress has been made since last year, and that, with few exceptions, all the schools are kept on a good footing and work well.

In nearly all the municipalities the commissioners and rate-payers understand the advantage to themselves of having good schools. Among the chief obstacles in the way of the proper working of the schools, I must mention the negligence evinced by the rate-payers in furnishing their children with books, paper, and all other indispensable requisites of an elementary school. In the *range* schools, especially, the majority of the children are unprovided with paper, pencils, ink and pens. I recommended the commissioners to purchase the books necessary for each school and to leave them for sale with the teacher, and to furnish, at the expense of the municipality, the other articles, or, at all events, if they could not give them, to deposit them for sale in the same way, in order to enable the pupils to supply themselves more easily.

I have the pleasure to state that there has been a marked improvement in the teaching of reading. In nearly all the schools I found one class, and in some cases two, in which the pupils read with facility and mind the stops tolerably well. The table of weights and measures is more generally taught than heretofore. Everywhere I find pupils who are well instructed in this matter. Mental calculus is also well taught.

I am happy to state, in general, that the parties in charge of the schools in my district have displayed much zeal in the discharge of their duties. The few teachers of both sexes who were not successful have been discharged by the commissioners. In each municipality I made my visit in company with the commissioners. This custom is advantageous to

the commissioners and to the teachers. It is no less an advantage to the pupils. I have noticed that public examinations excite zeal for education. The financial affairs are everywhere well administered. The secretary-treasurers are punctual in rendering their accounts. I have followed your instructions in distributing the books you sent me to be given in the schools.

## COUNTY OF ST. JEAN.

This county comprises nine municipalities, five of which are dissentient. It has a boys' academy and a girls' academy for Catholics; and one Protestant academy, four Catholic model schools, and 32 elementary schools under control of the commissioners, seven dissentient elementary schools, two independent academies and two elementary schools attached to the Protestant academy of St. Jean. The number of children attending the elementary schools under the control of the commissioners is.....2,436

## TOWN OF ST. JOHN.

There are in the town of St. John two academies for boys, one academy for girls, four elementary schools under the control of the commissioners, one dissentient elementary school, and two independent schools. The total number of children attending the schools of this town is 893.

The convent of St. John is attended by 449 pupils, of whom 115 are in spelling, 134 read fluently and 200 read well, 258 are learning writing, 177 learning the simple rules and 85 the compound rules, 140 learning French grammar, 100 English grammar, 125 geography, 150 history, 140 orthography, parsing and letter-writing, 33 instrumental music, 270 sewing, 35 embroidery, 21 drawing, 16 literature, 6 natural history, 10 the biography of remarkable women, 4 the use of the globes.

The examination of the pupils of this institution usually lasts three days, and this occurs twice a year, in addition to the distribution of premiums, which takes place at the close of the school year. The young girls who attend this school receive a most complete education—every branch is taught with the utmost care. The pupils are exceedingly well grounded in the subjects of study. The French Academy for boys is under the direction of Mr. Prioux, a highly competent and zealous teacher. The classes of this institution are attended by 84 pupils, whose success does honor to the teacher.

The Protestant Academy is under the direction of Mr. Andrew Nesbit, a teacher of great ability and great zeal. This institution is attended by 32 pupils, whose progress is highly satisfactory. In the same building are two small elementary schools, attached to the academy, attended by 21 pupils. One of them is conducted by Miss M. Allen, and the other by Miss Colston. These two schools are well conducted.

The Dissentient School, conducted by Mr. Samuel Dewart, is attended by 68 pupils. I remarked a satisfactory degree of progress in this school.

The English school, under the control of the commissioners, is conducted by Mr. Duggan, an able teacher. This school is attended by 44 pupils, and is well conducted.

The Elementary School, for boys, is kept by Mr. Lavigne. This school is well conducted. The absence of marked progress in this school is due to the fact that at the end of each year the more advanced pupils enter Mr. Prioux's class. This school has 61 pupils.

Another school, for very young pupils, is kept by Mme. Dupuis. It is attended by 130 pupils, and produces excellent results.

The Elementary School for young girls is under the direction of the ladies of the congregation. These pious ladies direct 275 pupils with solicitude and success. There are also, in this city, two small independent schools, kept by two young school-mistresses, Miss Maria Marchand and Miss A. Foisy. They are attended by 31 pupils.

*Parish of St. Jean.*—This parish contains four sections, having each a school in operation. There are 207 pupils. Nos. 1, 2, 3 and 4 are within the town of St. Jean. The school in section No. 5, with 65 pupils, is conducted by Mr. Oliver Hébert. This school

is conducted on a good footing. I found the children intelligent and perfectly familiar with the subjects of study. Discipline is well maintained. The schoolhouse is kept extremely neat.

The school in section No. 6, with 42 pupils, is conducted by Mlle. Sophie Surprenant. The progress of this school since last year is very satisfactory. Miss S., who is a young teacher, succeeds better from year to year.

The school in section 7, conducted for some years past by Miss Zénaïde Lacasse, was transferred in January last to Miss Parmellée Lacasse. This school labored for some months of the past school year under the drawbacks resulting from the ill-health of the first teacher. It is now established on a good footing, and rapidly progressing. It is attended by 67 pupils.

The school in section No. 8 is conducted by Mrs. Eloï Roy. It is attended by 33 children. During the first six months this school remained stationary; in the last six months (with the same school-mistress), satisfactory progress has been made.

*St. Valentin.*—This parish has one model school and six elementary schools, under the control of the commissioners, and one dissentient school. The number of pupils attending is 472.

The Model School is under the direction of Mr. O. Lefebvre, a pupil of the Normal School, and an able and zealous teacher. This school is attended by 89 pupils. This school is kept on a good footing. The progress of the pupils, who attend regularly and are provided with books, is very satisfactory. The progress of some of the pupils of this school is greatly retarded by the lack of assistants and the want of objects of necessity.

The school in section No. 1 is under the direction of Mr. Paschal Müller. This school is attended by 60 pupils, and is well conducted.

The school in section No. 2 is under the direction of Mr. Léon Aubin, an able and very zealous teacher. This school is attended by 89 pupils; it is well conducted. The pupils are well grounded in the subjects of study. This school deserves to be classed with the model schools, and is everything that could be desired.

The school in section No. 3 is conducted by Mr. Thomas Simard. The number of pupils attending it is 50. The progress of the school is satisfactory.

The school in section No. 4 is the Model School.

The school in section No. 5 is under the direction of Mr. Molléur, an able and highly zealous teacher; it is attended by 75 pupils. This school is well conducted, and is in a highly satisfactory condition.

The school in section No. 6, attended by 60 pupils, is conducted by Mr. R. L. Fortier. It is making satisfactory progress.

The school in section No. 7 has 39 pupils. It is conducted by Mrs. Burke, who discharges her duties with zeal and success.

The Dissentient School, attended by 19 pupils, is conducted by Miss U. A. Bready, a Catholic teacher. This school is well conducted, and is making satisfactory progress.

*St. Bernard de Lacoll.*—This parish contains 15 sections, five of which belong to dissentients. The number of pupils under the control of the commissioners is..... 483  
Attending dissentient schools..... 288

Total number attending schools..... 766

This parish has a Protestant Academy, a Catholic Model School, nine Elementary Schools, under the control of the commissioners, and four Elementary Dissentient Schools. The Protestant Academy is under the direction of Mr. G. Masten, an able and highly zealous professor. Mr. Masten is aided by an assistant teacher, Miss Mary Cotheringham.

The academy is attended by 139 pupils of both sexes. Many of the pupils exhibit great ability, and the progress of the school is most satisfactory.

The Catholic Model School has been in operation only about six months; it was conducted during that period by Mr. Duggan. During the period immediately following the opening it was attended by 62 pupils of both sexes.

The school in section No. 1 has become a Dissentient School.

The school in section No. 2, with 30 pupils, is directed by Mary Schutt. This school is good, and the pupils are making satisfactory progress.

The school in section No. 3, with 75 pupils, is under the direction of Miss Alice Kelly, an able and very zealous teacher. The school is well kept, and its progress is satisfactory.

The school in section No. 4, conducted by Miss Elizabeth Caulfield, is a good school, which has made remarkable progress since last year.

School No. 5 is united to No. 6, which is a Model School.

The school in section No. 7 has become a Dissident School.

The school in section No. 8 has 40 pupils; it was directed for about six months by Mlle. Philomène Bourgeois. It is closed temporarily, owing to the bad state of the building. The examination of this school for the first half-year was satisfactory.

The school in section No. 9, with 77 pupils, is conducted by Mr. Eusebe Boutin, a good teacher, holding a model school diploma. The school is well kept, and making satisfactory progress.

The school in section No. 10, conducted by Miss Jane Bell, has 38 pupils. This school is good, and its progress remarkable.

The school in section No. 11 has 32 pupils; it is conducted by Mlle. Virginie Laperle. The examination for the first six months was satisfactory. The school was closed when I made my second visit.

The school in section No. 12 has 70 pupils; it is under the direction of Mr. Aristide Simard, a good and very zealous teacher. This school is kept on a very good footing, and the progress of the pupils is well marked.

The school in section No. 13 has 30 pupils; it was conducted by Miss Mary O'Neill, but was only two months in operation, the building having fallen into a state of dilapidation. I have been unable to examine the school, so I can only furnish you the statistics of July, 1863.

The school in section No. 1, dissentient, is the academy. The school in section No. 2, with 50 pupils, is directed by Miss Straker, an able and very zealous teacher. This school is well conducted.

The school in section No. 5, with 25 pupils, is a good school. Miss E. Macallum is the teacher.

Miss Maria Goforth conducts school No. 4, with 18 pupils. I remarked satisfactory progress in this school.

The school kept by Miss Rose McConnell, with 41 pupils, is also well conducted.

*Blairfinnie.*—This parish includes two municipalities, one of which belongs to dissentients. It has a model school, four elementary schools, under the control of the commissioners, one dissentient, an academy, and one independent elementary school. The total number of pupils attending the schools of this parish is 502.

The Model School is under the direction of Mr. Noël Gervais, a pupil of the Normal School, and a skilful and very zealous teacher. The progress of this school is very satisfactory. Mr. Gervais is aided by an assistant, Mlle. Couture. This school is attended by 122 pupils.

The school in section No. 2, with 76 pupils, is conducted by Mr. T. Molleur, a teacher holding a Model School diploma. This school is well kept, and making satisfactory progress. Mr. Molleur is skilful and devoted to his duties. At first he found it difficult to maintain discipline in his school, but now he succeeds better.

The school in section No. 3, with 120 pupils, is under the direction of Mr. Gilbert Martin, a pupil of the Normal School, an able and learned teacher. Progress satisfactory.

The school in section 4, directed by Mr. J. B. L'Heureux, is well kept, and making satisfactory progress.

The school in section No. 5, with 25 pupils, is ably conducted by Mlle. Lemire. This teacher has lost much time through sickness, and the school has suffered somewhat in consequence.

The Dissident School, with 28 pupils, is conducted by Mr. Francis Dowze. Is well conducted, and making satisfactory progress.

*St. Luc.*—This municipality contains five sections, having each a school in operation under the control of the commissioners. The number of children attending the schools of this parish is 204.

The village school, with 72 pupils, is under the direction of Mr. Poissant. This Elementary School is kept on a good footing, and making satisfactory progress. The commissioners were unable, up to the close of 1863, to secure a married teacher holding a model school diploma, and they then engaged Mr. Poissant *no tempore*. It is their intention to re-establish their Model School. They are to take steps to that end for the coming school year. I have reason to think that, in the meantime, the children attending this good Elementary School, will derive benefit and advantage from the instructions.

The school in section No. 2, with 29 pupils, is directed by Miss Hamilton. The school is well kept, and making satisfactory progress.

The school in section No. 3 has 33 pupils, and is making satisfactory progress under the direction of Mr. Joseph Desnoyers.

The school in section No. 4 has 24 pupils, who have made satisfactory progress under the direction of Mlle. Adèle Vaudrain.

The school in section No. 5 has 46 pupils; it is ably conducted by Miss Stéphanie Buisson.

COUNTY OF NAPIERVILLE.

This county includes nine municipalities. It has an academy for girls (a convent), five model schools, twenty-seven elementary schools, under the control of the commissioners, and four dissentient schools.

*St. Cyprien*.—This parish has an academy for girls, a model school, eight elementary schools, under the control of the commissioners, and one dissentient school. The number of children attending the schools of this parish is 796.

The Academy for girls (boarding school and Community of the Sœurs de Ste. Anne), is attended by 64 pupils. All the subjects taught in this institution are well learned and well understood. I was well satisfied with the progress made during the course of the school year.

The day school is placed under the control of the commissioners. This school is attended by 118 pupils. Progress most satisfactory.

The Model School has 60 pupils. Mr. O'Donoghue, an able and very zealous teacher, conducts it. The school is well kept, and making progress. The examination was most satisfactory.

Miss Philomène O'Donoghue conducts the Elementary School for little boys, with 90 pupils. This school is well kept and making progress. It is kept in the same apartment as the Model School, under the direction of Mr. O'Donoghue.

The schools for sections 4 and 5 has 66 pupils, intrusted to Mr. Francis Lavoie. The pupils are tolerably advanced; they are well acquainted with the subjects of study, and making good progress.

The school for sections Nos. 6 and 7 has 74 pupils; it is ably directed by Mr. Malbocuf. Progress satisfactory.

The school for sections Nos. 8 and 9 has 67 pupils; it is taught for six or eight months by Mr. Joseph Dumas, and during the remainder of the school year by Miss Mathilde Bourgeois. This changing of teachers has sensibly retarded the progress of the pupils.

The school for sections Nos. 10 and 11 has 123 pupils; it is conducted by Miss Saphranie Brault and Miss Amélie Paré, two young teachers, who are very successful in the art of instruction.

The school in section No. 12 has 55 pupils; it is directed by Miss Phébé Rémillard. It has made remarkable progress. It is to be regretted that this young teacher has been obliged to give up her school through ill health.

Miss Céline Rémillard teaches 60 pupils in the school for section No. 13. I found its progress satisfactory.

The Dissident School, conducted by Miss Suzanna McClellan, is a good school; it has 15 pupils. Progress tolerably satisfactory.

*St. Rémi.*—This parish has one model school, seven elementary schools, under the control of the commissioners, and one dissentient school. The number of children attending the schools is 631.

The Model School, with 124 pupils, is under the direction of Mr. H. Bellerose, a pupil of the Normal School, and an able and very zealous teacher. This school is well kept, and its progress most satisfactory. Mr. Bellerose is aided by an assistant-teacher (his brother).

The village school for girls has 134 pupils; it is conducted by Miss Césarie Lamarre. The pupils have made satisfactory progress.

The two schools of the village comprise Nos. 1 and 2. The school in section No. 3 has 76 pupils. It is conducted by Miss Esther Laplaute, who succeeds well.

Miss Philomène Térreault teaches 61 pupils, in section No. 4. Progress satisfactory. Miss Philomène conducts a school with 65 pupils in No. 4; progress satisfactory.

Miss Angele Briault teaches 61 pupils in section No. 6. In this school there is a lack of assiduity on the part of the pupils, and a great want of books. I trust the remarks I made at my last visit, in presence of the commissioners, will have a good effect.

The school in section No. 7, with 35 pupils, is directed by Miss Sophie Ricard. This school is good, and making satisfactory progress.

Miss Césarie Perrot teaches the school in section No. 8, with 41 pupils. This school, which was so weak last year, is now on a good footing and progressing rapidly.

Miss King conducts the dissentient school, which has 34 pupils. There has been satisfactory progress this year, and discipline is well maintained.

*St. Michel Archange.*—This municipality has a model school and five elementary schools under control, and one dissentient school. The number of children attending these schools is 417.

The Model School, with 75 pupils, is under the direction of Mr. Charles Paradis. It is well kept, and its progress very marked.

The school for girls in this village, with 85 pupils, is under the direction of Miss Eliza Létourneau. This school is good and exhibits a satisfactory degree of progress.

The school in section No. 2 has 48 pupils. The school has made but little progress this year, owing to lack of capacity on the part of the teacher, who has been discharged.

The school in section No. 3 has 66 pupils; it is conducted by Miss Georgiana Vanchesting. The degree of progress attained is very satisfactory.

The school in section No. 4, conducted by Miss Héraine Lisabel, has 61 pupils. Progress most satisfactory. Miss Lisabel is deserving of praise for her talent and zeal.

Miss Boire teaches 44 pupils in school No. 5. The school is good and making satisfactory progress.

Mr. James Biscoe conducts the Dissentient School, attended by 36 pupils. Progress of school satisfactory.

*St. Edouard.*—This parish has a model school and three elementary schools under the control of the commissioners. The number of children attending these schools is 287.

Mr. R. M. Martineau, an exceedingly able and zealous teacher, conducts the Model School, attended by 112 pupils. The examination has been brilliant, and the progress of the school most satisfactory.

Miss Adeline Perrier conducts the school in section No. 2, attended by 76 pupils. This school is well kept and making satisfactory progress.

Mrs. Barbeau teaches the school in section No. 3; she has 57 pupils. This school is well kept and is evidently progressing.

The school in section No. 4 is good, and making satisfactory progress. Miss Adeline Lestage is the teacher.

*St. Patrice de Sherrington.*—This municipality has a model school and five elementary schools under the control of the commissioners, and two dissentient schools. The number of children attending the schools under the control of the commissioners is 345; the number for the dissentient schools is 65—making a total of 410.

The school in section No. 1, conducted by Miss L. A. Kelly, has 64 pupils. Progress satisfactory.

Mr. Patrick Clancy, an able and very zealous teacher, conducts the Model School,

attended by 121 pupils. The examination lasted four hours and was a brilliant one. Mr. Clancy is master of his profession, and deserving of special praise. In this excellent school the most perfect order is maintained.

The school in section No. 3, with 17 pupils, is very weak, the teacher being a person of little capacity. She gave up her school before the close of the year, and has been replaced by a master who will soon put the school upon a good footing.

Miss R. Anne Sloane teaches 43 pupils in section No. 4. The progress attained is satisfactory, and the school well conducted.

Miss Denise Demers teaches 53 pupils in the school of section No. 5. The school is well kept and making satisfactory progress. This is the first time I have experienced so much satisfaction in this school. It is at last in the way of prosperity.

The school in section No. 6 has 47 pupils. It is making progress under the direction of Miss Onézime Cuillérier. Nevertheless, the pupils are as yet but little advanced, for the school has been but two years in existence.

*Dissentient Schools.*—The school in section No. 1 has 34 pupils, under the direction of Miss Caroline Bushy. The progress of the school is satisfactory.

The school in section No. 2 has 31 pupils. It is conducted by Miss Pritchard, under whom it has obtained a marked degree of progress.

#### COUNTY OF IBERVILLE.

This county has an academy for girls, four model schools, forty-three elementary schools, under the control of the commissioners, eight dissentient schools, one independent academy, and two independent elementary schools.

The number of children attending the Catholic schools is 2,574. The number attending the Protestant dissentient schools is 234, and the number attending independent schools is 71—making a total of 3,059.

#### TOWN OF IBERVILLE.

This town has one model school for boys, one superior school for girls, one dissentient school, and one independent school. The total number of children attending the schools is 314.

Mr. Odilon Caron, an able and very zealous teacher, directs the Model School, with 40 pupils, and Mme. Caron, a highly-talented school-mistress, conducts the Superior School for girls, with 43 pupils. The public examination of these two schools took place on the same day in the Court House of Iberville, and the result was highly satisfactory.

Miss Cornelia Decoigne conducts the school for little boys, with 64 pupils. The school is good and its progress most satisfactory.

Miss Dina Benjamin conducts with success the school for little girls, attended by 75 pupils.

The Dissentient School, with 52 pupils, is taught by Mr. P. Murphy. This school has only been a few weeks in operation, but it has already given promise of future success.

The Independent School, conducted by Miss Esinhart, is a good school, and making most satisfactory progress. The teacher is entirely devoted to her duties and teaches with success.

*St. Athanase.*—This parish has ten elementary schools under the control of the commissioners, and one dissentient school. The number of children attending the schools of this parish is 412.

The school in section No. 1, with 45 pupils, was open only during the month of July, 1863. It was well conducted during that short period.

The school in section No. 2, conducted by Miss Sophie Patenaude, is a good school, and making satisfactory progress.

The school in section No. 3 is very inferior. The number of pupils is 43. The teacher who conducted this school has been discharged, the state of her health not permitting her to discharge all her duties.

The school in section No. 4 is as inferior as No. 3. The teacher who conducted it has been discharged.

The school in section No. 5, conducted by Miss Florc Généreaux, is well managed, and making satisfactory progress. The number of pupils is 39.

The school in section No. 6, with 37 pupils, is conducted by Mlle. Hermine Duquette. The progress of the school is satisfactory, and it is well conducted.

Mme. Bombardier conducts with success the school in section No. 7, with 48 pupils.

The school in section No. 8 is attended by 33 pupils. Its standing is very low, owing to lack of ability on the part of the schoolmistress.

The school in section No. 9, with 64 pupils, is conducted by Miss Josephine Dorval. Progress very gratifying.

The school in section No. 10 is attended by 20 pupils. It is conducted by Miss Hermine Charpentier. This school has only been one year in existence, and its progress is already most satisfactory.

Miss Flora Stephens conducts with success the Dissident School, with only 10 pupils.

*Henryville.*—This parish includes two municipalities, one of them being for the dissentients. It has an academy for girls (a convent), a model school, eleven elementary schools, under the control of the commissioners, and five dissentient schools. It also possesses an academy and an independent elementary school. The number of children attending the Catholic schools is 785; the number attending Protestant schools is 127, and the number attending independent schools is 31—making a total of 943.

The academy for girls, or convent, under the direction of the Reverend Sisters of the Presentation, is attended by 62 pupils.

The day school of this convent, attended by 110 pupils, is under the direction of the commissioners. The pupils who enjoy the advantage of attending this excellent institution receive a most careful education. Progress most satisfactory.

The model school, attended by 108 pupils, is under Mr. Ed. Lafond, an able and very zealous teacher. Progress satisfactory.

Mr. Morin, an able and conscientious teacher, directs with success the school in sec. No. 1.

The school in No. 2 is attended by 20 pupils. Miss Hébert teaches in a manner to give general satisfaction.

The school in No. 3 is well kept by Miss Eliza Kelly, who succeeds well.

The school for sections 6 and 7 is conducted by Miss Philomène Gosselin. It is a very good school. Number of pupils, 34.

The school for sections 8 and 9 has 83 pupils, taught by Mr. P. Campbell, an able master, who teaches with success.

The school in section 10, with 70 pupils, is taught by Miss Adéline Gosselin. Progress very gratifying.

Mr. David Lafond, an able and zealous teacher, keeps an admirable school, with 44 pupils, in section 11.

The school in section 12, with 60 pupils, is a very inferior school. I attribute this inferiority to a want of application on the part of the school-mistress, who is a mother rearing young children. I consider that a married woman rearing a family cannot suitably discharge the duties of a teacher unless she has a servant constantly in charge of her children. But in order to enable a teacher to employ a servant to mind her children, you must give her a suitable salary. With a small salary it is impossible to keep a servant, and it is quite impossible for a person charged with the direction of a school to discharge simultaneously the duties of a mother and those of a school teacher.

The school in section No. 16, with 58 pupils, was conducted with zeal and success by Miss Céline Poyer.

The school in section No. 18, with 26 pupils, has made but very little progress this year. This lack of progress is due to the teacher who was charged with the direction of this school. He pleads a lack of assiduity on the part of the pupils. I think he states the truth, for at my last visit I found but six children in attendance. However, I cannot attribute all the blame to the parents, for before this young man was intrusted with the school it was tolerably well attended. In pursuance of my advice to the commissioners in March last, the teacher has been discharged.

*Dissentient schools.*—The school in section 1 has 22 pupils. It is directed by Mlle. Martha Ewing, and with success.

Miss Margaret Crother keeps a very good school, with 33 pupils, in section 2. There are 32 pupils in the school in section 3, conducted with talent and success by Miss Ellen Hamilton.

The school in section 4, with 23 pupils, is well kept by Miss Sarah Anne Chilton.

Miss Elvira Clark keeps a good school in section 5, attended by 22 pupils.

The independent academy, known as the mission of Sabrevois, is attended by 21 pupils. I did not inspect this establishment this year; the pupils were enjoying vacations at the period of my visit.

Mrs. Lewis keeps an independent school with 10 pupils, who are making satisfactory progress.

*St. Grégoire.*—This municipality has one model school and eight elementary schools. The model school is conducted with talent and success by Mr. L. A. Anger. It is attended by 55 pupils. The elementary school of the village, conducted by Miss Julie Massé, is attended by 80 children. I remarked a degree of progress in this school. The school in section 2, kept by Miss Céline Besset, has made no progress. It has 40 pupils. The school in section 3, kept by Mlle. Marie Picdalu, with 49 pupils, has made satisfactory progress.

The school in section 4 has 66 pupils, who have made satisfactory progress under the direction of Miss Adéline Foin. The school in section 5 has 58 pupils, and is kept in a satisfactory manner by Miss Olympe Benoit. The school in section 6 is well conducted by Miss Marie Bonneville, but the apathy displayed by the rate-payers in relation to the interests of education is the cause that this school is attended only by a small number of pupils. The school in section 7 is well kept by Miss Hermine Normandin. It has 34 pupils. The pupils are badly provided with books, paper, &c., &c., and their progress is retarded. Thirty-nine pupils attend the school in section 8, conducted by Miss Marcelline Besset. The progress of the pupils is tolerably good, notwithstanding their lack of assiduity. The financial affairs of this municipality are in a good state; generally speaking, I think the progress made is satisfactory.

*St. Alexandre.*—This municipality has a model school and six elementary schools. The model school, kept by Mr. G. T. Plamondon, is attended by 72 pupils of both sexes. Progress very satisfactory. I am also satisfied with the progress of the school for little boys, conducted by Miss Elizabeth St. Germain. It has 143 pupils. The school in section 1, with 95 pupils, has made notable progress since last year; Miss Emilie Hébert is the teacher. The school in section No. 2 is conducted on a good footing; by Miss Alida Marchesseau. Ninety pupils attend the school in section No. 3, kept by Miss Marie Demers. The school is good and making satisfactory progress. The school in section 4 has not made progress. This is owing to lack of capacity on the part of the school-mistress. There are 75 pupils in this school. The school in section 5, kept by Miss Eveline Langevin, is good and progressing tolerably well. It has 35 pupils. The school in section 7, though recently opened, is making very good progress. Miss Marie Hébert teaches 62 pupils in this school. The financial affairs of this municipality are in a good state.

*St. Brigitte.*—This municipality has six elementary schools, one of them being dissentient. The school in section 1 has made but little progress, owing as well to want of ability on the part of the teacher as to lack of assiduity on the part of the pupils. This school is attended by 68 pupils. The school in section 2, kept by Miss Julie Chamberland, with an assistant who teaches English, has 24 pupils. The school is well kept, and the pupils are making satisfactory progress.

The school in section 3, conducted by Miss Philomène Ostilly, with an assistant who teaches English, is a good school, and the pupils are making satisfactory progress. The school in section No. 4, kept by Miss Céline Lafontaine, has 32 pupils, whose progress is very satisfactory, especially inasmuch as the school has been but recently opened.

The pupils of the school conducted by Mme. Giroux, numbering 53, are progressing tolerably well. The Dissentient School is conducted on a pretty good footing by Miss Catherine Nolan. It is attended by 45 pupils, seven of whom are Catholics. The finances of both municipalities are in a good state, and the commissioners and trustees display much zeal in the work of education.

The general appearance of the schools in my district is very encouraging; but they require active supervision on the part of the inspector. Progress is gradual, no obstinate determination is manifested, and the advice given is obediently followed. I must observe, however, that the reduction of the salaries of the teachers has sensibly affected the cause of education in this district. In all transactions we can but get our money's worth. It is the same with teachers, their work may be estimated by their salary, and the progress of the school is generally in proportion to the salary allowed to the teacher.

## No. 20.—EXTRACT FROM THE REPORT OF INSPECTOR ARCHAMBAULT.

### COUNTIES OF CHAMBLY, VERCHÈRES AND RICHELIEU.

The municipality of Chambly is divided into nine school districts. At the Basin there is an academy for girls, under the charge of five religious ladies of the Congregation of Notre Dame, and two lay teachers. The education given there is as varied and complete as that given in the best convents of the country. One hundred pupils attend this institution.

There are two other schools in the same locality, one, an English school, in the skillful hands of Mr. Kelly, the holder of a diploma for model schools. This school has 48 scholars. Mr. Joseph Autier keeps the other, a French school, with much success. His pupils number 52. Mr. Autier holds a diploma from the Jacques Cartier Normal School.

There are two schools in the district of the *Canton*. One of them, attended by 44 children, is a dissentient school; four Catholic children attend it; the 40 others are Protestants. The school is well kept by Mr. Cooper, the holder of a diploma from the McGill Normal School. The other is a French school. Mr. Pierre André Ouellette teaches 60 children, 47 boys and 22 girls. The constant absences of the children prevent this school from making much progress.

The other districts are formed of the ranges of the parish.

No. 5.—Mr. Hypolite Chagnon, a worthy young teacher, took charge of this school when it was in a very backward state, and now I consider it one of the best schools in my district. Sixty-eight children, 41 boys and 27 girls, attend it.

No. 6.—This school is successfully kept by Miss Azilda Chagnon. It has 40 pupils, 24 boys and 16 girls.

No. 7.—Miss Octavie Beauchemin, the holder of a diploma, has charge of this school, attended by 47 pupils. Progress is made.

No. 8.—This school is kept by Miss Aglae Lagarde. Twenty-seven pupils, 20 boys and seven girls. Progress satisfactory.

No. 9.—Miss Philomène Adrien has charge of this school. This person, endowed with great capacity, displays great zeal in the discharge of her duties, but the want of industry on the part of the children render all her efforts useless.

*St. Bruno*.—This parish contains six districts, and the same number of schools. Two male and four female teachers have charge of them.

No. 1.—Désiré Brodeur teaches 94 children, who are steady enough. Success satisfactory.

No. 2.—Miss Josephine Dessier manages her school well; it contains only 20 scholars, but unfortunately they are very unattentive.

No. 3.—I can make a most satisfactory report of this school; it contains 45 scholars, under the care of Miss Lumina Lacroix.

No. 4.—Miss Ermenia Fontaine manages this school with great care. Her 65 pupils passed a good examination, but it is to be regretted that they are not more assiduous.

No. 5.—Mr. Bertrand teaches 67 children, who are very irregular. Progress made, but it is due only to the zeal and talents of the teacher.

Mrs. Philomène Aubé succeeds in getting her 35 pupils on, notwithstanding their irregularity.

*St. Hubert* contains four school districts, a model school and three elementary schools, attended by 198 children.

No. 1.—Fifty-five scholars are in the skilful charge of Mr. Medard Emard, who teaches French and English, and everything practicable in arithmetic, such as the distribution of public work. His success is admirable, but not equal to his efforts and the talents he displays. This gentleman receives a salary of \$410.

No. 2.—Mr. Amable Dalpé has succeeded in forming a good school in this locality (at *Les Aunages*). Seventy-three children are in attendance.

No. 3.—This school, known as the *Grand Ligne* school, is attended by 48 children; of these, 14 only were present at the time of my visit. These results are attributable to the unpopularity of the teacher, whose capability, however, is well known.

No. 4.—This school, called the *Savane* school, is kept by a good teacher, Miss Philomène Demers. The children, only 18 in number, are very irregular, but their examination was satisfactory notwithstanding.

*St. Lambert*.—The only school here is kept by Miss Emma Blanchard, the holder of a diploma for English and French, both of which she teaches. Sixty-three children, seven of whom are English Protestants, attend this school. The results are successful.

*Longueuil*.—The industrial college, kept by the Clerics *St. Viateur*, under the charge of a priest, contains 337 pupils. This institution is second to none in the country, as regards its standard of education, and its usefulness. The examinations this year were more satisfactory than ever.

*Boucherville*.—This parish has a model school, kept by three Clerics of *St. Viateur*. One hundred and eleven scholars attend. A good practical education is given. Success satisfactory.

The convent of the *Soeurs de la Congregation Notre Dame*, one of the oldest establishments of that community, is attended by 124 pupils. It is managed by three Sisters and two lay teachers. The results of their labors are most successful.

Miss *Ch. H. Guimond* keeps the *Perron* school (No. 2), attended by 47 pupils. All answered well at the examination. They are very good in grammar and arithmetic.

Mrs. *François Audette* has kept school No. 3 for 12 years, with constant success; she has 66 scholars.

Mr. *Prudent Bousquet*, teacher of school No. 4, has endeavored to introduce reforms, which have alienated the people in his locality, but reason will conquer ultimately, and they will soon be able to refuse to admit his merit. Thirty-one pupils attend his school.

## 2.—COUNTY OF VERCHÈRES.

*Varenes*.—The *lycée* at *Varenes*, affiliated to the *L'Assomption* College, and directed by a priest and five ecclesiastics, cannot fail to afford a good education. The examination, at which I was present this year, exhibited the most satisfactory results. English and French, and all the most useful and practical scientific branches, are taught here. It is to be regretted that the number of pupils is so limited. One hundred and twelve only attended the classes this year.

Twenty boarders, residing in the college, pay \$10 each per annum; 20 other boarders, residing with their families, but joining in all the exercises, pay \$6, forming a sum of \$320. Add to this the Government grant of \$600, and we have a total of \$920. It may easily be conceived that at the end of each year not much remains in hand.

The convent is in charge of five religious ladies of *St. Croix*. Instruction is given to 124 pupils in French, English literature, drawing, &c., with as much success and care as in the best communities of this kind. Twenty-one pupils board in the house; 36 are half boarders, and the others are day pupils.

There are two independent schools in this municipality, one, in one of the ranges, kept by Miss *Mongcau*, and the other under the direction of the sisters of the *Hospice Lajemmerais*. This latter school is kept for the poor in the neighborhood, and for those in the hospice. I shall not attempt to praise this school, for all that I could say would be quite unworthy of the merits of these ladies, whose devotion amounts to heroism.

There are five schools in the municipality of the parish of *Verchères*, all in a satisfac-

tory condition. The school-houses at Rivière des Pins, Petit Lac and La Baronnie, are good and comfortable; that in La Picardie is inferior, and in the district of Grand Côte there is no schoolhouse.

All these schools are well provided with the objects necessary for the classes, excepting geographical maps. There is a map of Canada only in each school. The teachers have long complained of this, but always in vain. The commissioners pay no attention, and yet the municipality can well afford the necessary outlay.

In the range of La Picardie, Mr. Paul Auger has 92 scholars, to 15 of whom he teaches English and French. He receives \$212 from the commissioners, and 46 cords of wood from the inhabitants, as a monthly contribution.

The school of Rivière des Pins, kept by Mr. Hypolite Girard, is the best in the parish. It is attended by 36 children. Mr. Girard receives \$120 from the commissioners, and half a cord of wood from each child.

Miss Celanire Mongeau keeps the school of the Baronnie range. This young lady holds a diploma. She has 41 pupils, and receives \$72 as salary, and half a cord of wood from each pupil.

Miss Victorie Bousquet, teacher at Grand Côte, is a person of remarkable talent. She has 34 pupils, \$80 salary, and half a cord of wood from each pupil.

*Verchères.*—The Industrial College at Verchères is kept by five Clercs de St. Viateur. There are 143 pupils, who make good progress in English and French. This institution is supported by the annual Government grant, \$356, the amount paid by the boarders, \$480, and \$800 given by the commissioners, the whole amounting to \$1,636.

Five Sisters of the Saints Noms de Jesus, Marie et Joseph, are in charge of the convent in this parish, at which there are 49 pupils, divided into five classes. Education here is on the same footing as in the best institutions of this kind in the country. The commissioners pay them \$300 annually.

Mr. Elie Martel is teacher in the Petit Côteau range. He has 69 pupils, and teaches to the satisfaction of all the contributors. His salary is \$200.

Miss Amelie Tetreault keeps the school in the Beauce range. She succeeds well; she has 72 pupils, 35 boys and 37 girls. The schoolhouses in these two districts are very comfortable, and well provided with tables and benches. They only want maps.

*Contrecoeur.*—This parish has four schools. The Misses Dubois have charge of the village school, and enjoy the respect of all. The number of their scholars has increased from 39 to 72. Their salary is \$200.

No. 2.—The teacher in charge is about to be dismissed by the commissioners, at the request of the contributors. This proceeding is warranted by her want of success. There are 35 pupils at the school.

No. 3.—Mr. Ephrem Tetreault and Mrs. Tetreault begin their career as teachers this year. I think they will be successful. Their 40 pupils appear to get on well.

No. 4.—Mr. Narcisse St. Germain, an old and zealous teacher, is the only one who has hitherto been successful in this district. He has 60 pupils. In this parish the books are provided by the commissioners, which is a great advantage. The houses are well built and suitably furnished.

*St. Antoine.*—Five schools are opened in this parish, a primary superior school for boys, another for girls, and three elementary schools. These schools are managed by competent teachers, who have resided for years in their respective districts.

Mr. P. Bouchard, a pupil of the Laval Normal School, has 58 pupils in the boys' superior school. He gives them a good commercial education.

Miss Edesse Ritcher has charge of the superior school for girls, and has 55 pupils. She displays talent, and is very successful.

Miss Naphette Leblanc teaches at the Acadie school. She has 45 pupils. Miss Josephine Leblanc has charge of 58 children at the end of the Brûlé range. Both are successful.

Mrs. Césarée Guertin has 44 pupils at the school of the Haut du Brûlé. This district does not possess a schoolhouse, but an assessment has been made for the purpose of building one this year. The other schools have everything necessary.

*St. Marc* has four schools: two in the village and two in the ranges.

No. 1.—The model school is kept by Mr. Toussaint Malo, a respectable and talented teacher. The school is well liked and is attended by 42 scholars. The elementary school in the village is also under his superintendence. An assistant mistress in charge teaches 46 children.

No. 2.—Miss Rose Delima Champcau is an educated teacher and possesses a talent for teaching. She has 52 pupils. It is to be regretted that she is about to leave the district.

Miss Clara Ducharme, who now has 57 pupils, was the founder of this school, which does her great credit. These districts are provided with good schoolhouses and with everything necessary for the well-working of the schools.

*Belœil*.—In this municipality there are an academy, a convent, and three elementary schools. The academy is managed by Clercs de St. Viateur, and the convent by Sisters of Jésus et Marie.

These two institutions render great services to the parish, and are universally esteemed. Four professors are in charge of 81 scholars at the college, at which there are 18 boarders and 63 day-pupils. The course of instruction is similar to that followed at Longueuil and Boucherville.

Six *religieuses* form the staff of teachers at the convent. There are 87 pupils, of whom 21 are boarders, 36 half-boarders, and 30 day-pupils. The system of instruction and its success are worthy of all praise.

The three elementary schools in the ranges are successfully directed by skilful persons. All are well provided with requisites. Mrs. Charlotte Choquette, of the district of Bas du Ruisseau du Belœil, has 70 pupils; Miss Henriette de St. Aubin, of Haut du Ruisseau, 48; and Miss Eulalie Champeau, in the Treute range, has 53.

*St. Julie* has three elementary schools. That of the village is kept by Mrs. Eulalie Brodeur and one of her sisters. Their success during the last few years has been quite remarkable. They have 71 pupils.

The school in St. Ephrem range, kept by Mrs. Azarie Fontaine and her niece, has 47 pupils. Results satisfactory. Mme. Florentine Adam, who kept the school in Belle Rivière range, died a week before my visit in the month of June. At the time of my visit there were 43 pupils at this school.

### 3RD.—COUNTY OF RICHELIEU.

*Town of Sorel*.—The Catholic academy has 380 pupils under the direction of the Brothers of the Christian Schools. They teach English, French, mathematics, geometry, and drawing with the greatest care. Their classes are provided with everything requisite. They receive \$600 from the town and derive about the same amount from their boarders. They further receive a grant for superior education.

At the girls' academy, 10 *Religieuses* of the Congregation of Notre Dame are in charge. This institution is attended by 315 pupils. Instruction is carefully and successfully given in English and French. The boarders and half-boarders have classes distinct from those of the day pupils, but the instruction is almost the same. The dissentient academy in Sorel is kept by Mr. H. Edward Roberts, B.A. He has 34 pupils, three of whom are French Canadians. Mr. Roberts teaches English, French, history and geometry. He also teaches latin to five of his pupils. His salary is \$400 and fuel. His school is well kept.

The elementary school in charge of Miss Elizabeth Prairie is also well kept. There are 34 pupils, of whom eight are French Canadians, five boys and three girls.

*Parish of Sorel*.—There are eight schools in this municipality. That kept for several years past by Mr. Lanciault, is a very good school, notwithstanding the large number of his pupils (135) he has managed to divide his classes so well that all make simultaneous progress. His salary is \$200.
