THE Advantages offered to the Public by this Institution are MANY and IMPORTANT, and the Rates of Premium quite as LOW as security to the Assured, and safety to the Office, will admit of.

The following are some of the advantages offered by this

offered by this Society :-by the ininciple of the LOAN Department.
One half of the Premium for the first five years may be paid by the Assured's own Note. These Notes need not be paid, but may remain on Interest, to be deducted from the Policy on the death

Notes need not de par un avec production to the Arsured.

Insurers can at all times demand, as a right, a Loan to the extent of two-thirds the amount of Premium they have paid—upon deposit of their Policy, and guaranteeing it will be kept in force. This important advantage removes the fear so many entertain of being obliged, through securiary emberrassment, to let their Policies lapse, and at a time such a provision is absolutely needed for their families.

No Charge for Stamp Duty, nor for Medical Examination.

The Bonuses divided Janually, either in Case, Reduction of Premium, or in addition to the sum assured, whichever of these three ways the Assured mayeach gear desire, after being a Palicy holder for Four Years, at which period a Bonus is payable for the Four Years—Annually after wards. THIRTY DAYS allowed after each Payment of Premium becomes due, without Forfeiture et Policy.

The General Agency for the British North.

of Premium becomes due, without Forfeiture et Pelicy.

The General Agency for the British North American Colonice being satablished in Montreal, RISKS will be accepted by the General Agent and Temporary Policies at once granted.

The Local Board meet regularly at the Office, and by them the business of the Colonies confucted, thereby affording to the Assured every facility.

LOANS will be Granted, and LOSSES PAID, at the General Agency, without referring to London.

Fumphlets, Blanks, and all requisite information, may be had on application at the MONT-REAL OFFICE, or to the AGENTS throughout the Province, through whom proposals for Assurance will be transmitted.

REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Dissectors to REDUCE the RATES originally required in British North America, to the grdinary European Rates. The result of such Reduction is to enable parties it avail themselves of the important benefits to Life Assurance at much lower Rates of Premium than those of only other Assurance. Company's amenatics business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are like wise officed to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in PETER MURRIPOUN.

TURRISH BLACK SALVE. ER THE PATRONAGE OF THE RONOR THE EAST INIES COMPANY

IVOL. XVI.-New Series, No. 193.

THIS SALVE, prepared from the original Receipt procured from a celebrated Turkish Hakim, (physician) of Smyras, in Asia Minor, and which has obtained an ausprecedented substrity in Great Britain and the East Indies, from the astonishing Cures performed by it in both these countries, has lately been introduced into Montreal. As might be expected, its popularity has followed it, and its use is becoming general among all classes. The Proprietors, prompted by the very flattering reception it has met with in the Metropolis, have determined on extending its usefuiness to all other pasts of Canada ; and, for that purpose, have established Agencies in all the principal Cities. They flatter themselves that when its wonderful properties shall become more generally known, they will meet with that encourage-ment which the introduction of such a valuable medicament into a country justly entitles them .-The contracted limits of an advertisement necesazily procludes their entering into any adequate public, they intend to publish from time to time, such statements of cores as have or may occur, and for the present will content themselves with merely enumerating some of the complaints for which it has been used with the most complete which is no continued with an most compacts success—Such as Swellen Glands, Broken Breasts, White Swellings, Whitlews, Scalds from Steam-least explosions, or other causes, Burns, Fever Sures, Scrofulous Sones, Sore Nipples, Carbuncles, Scald Head, Gun-slot Wounds, Bruises, Boils, Frostbites, Wens, Chilibains, Ulcerated and Com-mon Sore, Throats, and Bonions. If used in time, it will prevent or cure Cancers, also, Swellings arising from a blow on the Breast, Ring Worm, Pains in the Back, Rheumatism, Gout, Pains, in the Chest, Palpitation of the Heart, Complaints in the Liver, Spine, Heart and Hip, Rushing of Blood to the Head, Swelled Face and Toothache. In fact, it is impossible to enumerate half the com-plaints that have been cured by the application of this Salve. It is very portable-will keep in any climate, and requires little or no care in its appli-

cation, as it may be spread with a knife on any substance, such as chamois leather, linen, or brown paper. d'Armes; SAVAGE & Co., Notre Dame Street; URQUHART & Co., Great St. James Street; W. LYMAN & Co, St. Paul Street, and in all the principal Cities in Canada.

When men undertake to write history, they should be careful to write it correctly. We say this because we have recently seen two gross blunders; our of them, it is true, occurs merely in a French newspaper published in the United States, but the other is in a work of more pretension, by the well knows writer. Healtly, in a sketch of the hife and character of Counwell.

Latest from Toronto, The following opinion of the beneficial effects of the Plantagenet Water, is from the last number of the British American Medical and Physical Journal, edited by Br. Hall. The Dector recommends the employ on it of this water to the special attention of the Profession, both in Canada and the United States. Nothing further is required to chaute their general use by all clauses of our citizens.

chisure their general use by all classes of our citizens:—

Remedus nostra, or ma'ters professing to be such, and depending for their employment upon the extensiveness of the circulation of handarcy, adversisements, and the amount of moties consequently gold by their proprietors for these, have at no time, since we those too the handarcement of a Journal intended solely for the advancement of medical cience, found favor in our eyes. Nor shall they. We have always adhered to the old maxim, "Ne sutor ultra criptions." We have always hought, and are disaly more convinced of the trushfulness and correctness of our opinion, that all the world was never intended to practice he medical art, insamuch as all mean—aye, and all women on—are unable to make themselves masters of the cience of modicine; stud it must be admitted, without a cavit, that without a foundation, there can be no super-structure. Not that we would due to question the quisi-fications of all to becomes, periaps, even, scientific practiciness of the Healing Art—far from it; but seeing that liferest girls have bours assigned to different individuals, from the foundation of our cyclid, and that, one class is accessarily department ultru attorier for its cistific; and support—the rich and poor, the educated and illustrate, the professor of science and the simple mechanics—as we hold, that the public should be directed, maic fout, in the main tenance and preservation of healths, by most who have given, and countines to give, the bost energies of their must be particular study. It is under impressions of this kind that see diversities and of the favore of the favore. MINERAL WATERS OINT DU JOUR, PARISH OF LARSOMPTIO

Point Du Jour, Parish of Lassomption.

THESE truly valuable WATERS are distinguished for the singe quantity of Bromine and Indian they contain, and are acknowledged superior to all other Medicinal Waters. They are the most agreeable retreshment of the description that have yet appeared. They can be used cold to the greatest degree in the most oppressive heat of Summer, and that without altering or affecting injuriously the health of the person using them, apon the contrary, hey are found to improve and strengthen. The large number of cures effected by the use of the above Waters, enable us to recommend them to the public as an excellent remedy in a very great number of cases. The names of a few only of the persons of celebrity, who have given their written recommendation of the Waters, are here given. These, however, show the happy results arising from their application:—

BOSTON, Feb. 15, 1847.
Mr. Will Boston, Sir The preparation invented.

Mr. Wm. Boct.s.—Sir.—The preparation invented by you for the hair, has been extensively used in m., family and they give at the decided preference over all other compositious of the kind. A invaporates and beautified the hair, and clears the skin of all imparatices, without preducing any unimate deleterious effects, which are acrequently the result of many well-known patented communication. WINSLOW LEWIS.

It is an indepensable article for the Ladies, as it keep the hair in place and curl, and the skin or garting of th hair fee from dandraff and, sourf. For children, it lay the foundation of a good head of hair.

BOGLE'S AMOLE,

A COMPOUND FOR BHAVING.

This delighted article is totally different and far superior to anything yet invented for shaving. The base of it is derived from the dande, or "some plant," of California, an article need by the maives of that country for washing; and thus the use of strong Bladi, so butful to the skid, is avoided. Its vegetable and delegated properties have the purest and most stourishing effects on the skin,—it soothes and allays irrustions, and has a fire, there, creamy lather, which does not dry on the face. It is a decided inxury to be shaved with this incomparable sing. It is adopte up in elegibin style, calculated either for the dressing case of the "rough and ready": traveller, or the toilet of the most fastifious cosmolosseur. BOGLE'S AMOLE.

BALDNESS CURED.

The following is from Summer F. Enrett, Saratoga
Street, East Boston, Peb. 8, 1847.

Mr. William Begte, Dear Sir. Pen-gaveral years past
by wife has been troubled with baldness on the Cruw Mr. William Bogle.—Dent Sir.; For averal years par my wife has been involved exist. Baldusses on the Crow of the head, shoultaix or seven incluse in circumference. After repeated failures of other so-called remedies, as by the advice officients, she was induced to use your II perion we a wash, for the purpose of restoring her lo hair, and I am happy to say that its effect has been cause the hair to grow all over the part affected. She by need only two footles, and that yery irregularig; had at seed it officiar and more regular, I sus convinced that growth of the hair, would have been accelerated. If in Sic, yours respectfully, SUMNER F. BARRETS.
