Under False Colors

Lord Somerton's Ally.

CHAPTER XXXVIII.

Noel, when once aroused, was a young man of rapid action. In times of extreme danger he became cool, and outwardly calm. In Lawyer Grant he knew that he had a cunning and merciless foe—an enemy whom it would be fatal to strike unless the blow utterly annihilated him.

He would see Miss Cleveland. The interview was due to her, even if he profited nothing by it. He did not believe that her affection for himself went any deeper than the advantages which she expected to enjoy as his wife. She was handsome, accomplished, but, withal, a worldly young woman. It had long been her ambition to shine as one of the leaders of the beau monde, but so far her great wealth had not entitled her to a recognized place even on the outer fringe.

As Miss Cleveland, it was remembered that she was the daughter of a man who had made his money in pork, or soap, or something of the kind. As the wife of Noel Campbell, the barrister, the artist, the future master of Blairwood, she would no longer mingle with the aristocracy that moved in the orbit of Fashion's splendid circles. Besides, Noel Campbell was good to look upon; he was young, handsome, and, what is inexpressibly dear to most women, had escaped the follies that beset the way of many young men—he had no wild oats to spring up in the future.

Noel was by no means insensible to the advantages that would accrue to Miss Cleveland by an alliance with himself. She had assisted him with her money, and he was very grateful to her for it, and it was this gratitude that had made him consent to marry her. He had never given any thought to love, because he believed that it existed only in his dreams. The manly sentiment that inflamed the minds of many who jumped into matrimony was repulsive to him. In how many instances had he read of the so-called romantic attachments of young couples in the newspapers. A brilliant marriage followed with portraits of the bride and the bridegroom. A few months later the same portraits held duty in divorce suits.

Therefore, Campbell considered that in Miss Adeline Cleveland he would have a wife who was too clever and clear-headed to go wrong in any way. She was undeniably handsome, she was accomplished; she was wealthy, and regarded him as a very unique specimen of the genus man, which,

being of personal value to herself, she would value accordingly.

Thus thinking, he left his chambers, with swift strides, and although his mind was well occupied, he did not forget that it was quite possible that Mr. Grant would have one of his spies about, with a policeman within call. At the present time it would suit the lawyer to have Campbell rendered temporarily inactive, for many reasons. The assault had clearly been committed as an assault of a most violent nature, in evidence of which there was not only Mr. Grant's disordered appearance, but the broken door.

Noel slipped quickly through Fountain Court, and made his way to the Thames embankment, where he waited until an empty hansom passed. The driver pulled up in obedience to his signal, and he jumped into the cab, saying:

"Arundel House, Hyde Park."

Then he added to himself as the vehicle bowed away:

"I shall get there before Grant, at all events, though I have no doubt that Adeline and her precious step-father have already compared notes!"

His mind was in a continual whirl until the hansom rattled through the splendid drive toward the pretentious stone edifice known as Arundel House.

Here dwelt Lawyer Grant, his wife, and stepdaughter, with a retinue of well-trained servants, most of whom had graduated in the houses of the nobility.

By EDGAR A. GUEST

THE FIRST STEP
Last night she hurried out to say:
"The baby took a step to-day!"
A step toward "those little feet".
Walked out two waiting hands to greet.
Walked boldly out, and left the chair
Which little hands had slung to there,
A very glorious hint to make
Of many steps she soon will take.

As she hurried out to say:
"The baby took a step to-day!"
What mattered letters, friendly calls,
And all the care which daily falls,
The news by phone, the gossip heard?
One thing important had occurred.
One big deed swept all else away:
The baby took a step to-day!

The baby took a step. Ah, me!
The first of millions that will be!
Those little feet will walk and climb
And run along the road of Time;
They've started out, and where they'll
go
'Tis not permitted us to know.
Out of arms she turns away—
The baby took a step to-day!

Dear Lord, now hear me as I pray:
Our baby took a step to-day!
Great that her little feet shall find
No cruel pathways, or unkind,
Be Thou her guide through life, that she
May walk in safe security.
Let light and beauty light her way—
Our baby took a step to-day!

Immunity From Diphtheria Seen

TORONTO HEALTH MINISTER ADVOCATES USE OF SCHICK TEST.

TORONTO, Nov. 23.—(Canadian Press)—"By the intelligent application of the knowledge we now possess the human race shortly can be made immune to the disease of diphtheria, and it need no longer be retained on the list of communicable diseases," says a statement just issued by Dr. C. J. O. Hastings, Minister of Health for the city of Toronto.

By the application of what is known as the Schick test, the statement says, it is now possible to determine what number of children in a group are susceptible to diphtheria, and by the use of toxin-antitoxin they can be made immune and will not contract the disease, no matter how much they may be exposed to it.

Dr. Hastings asks for the co-operation of parents or guardians with the medical profession and the Department of Public Health in safeguarding the lives of the children through application of the test. The Ontario Government has stated that it supplies the preparation for the Schick test and also the toxin-antitoxin for developing immunity, free of charge.

Happier, Healthier Women

by thousands are known to exist in this country because they have been relieved from pain and suffering by taking Lydia E. Pinkham's Vegetable Compound. Science in surgery and electricity have advanced greatly during the past fifty years, but treatment of diseases by old-fashioned root and herb medicines has never been improved upon. The leader of them all is Lydia E. Pinkham's Vegetable Compound which after fifty years of success is today recognized as the standard remedy for female ills and sold everywhere for that purpose. Replies to a questionnaire recently sent out to 50,000 women by the Lydia E. Pinkham Medicine Co., of Cobourg, Ont., proved that it benefits 98 out of every 100 women who try it. Here is a marvelous record for any medicine to hold!

She paused, and he fancied that tears were glittering in her eyes. Did she really care for him, after all? There was a sharp pain at his heart. Had he acted the part of a despicable villain?

"I had dressed for an early dinner," she went on. "Lord Enderby is coming, and had arranged to escort me and mamma to the Lyceum; but I will not go. Noel; I could not enjoy myself seeing that you are unwell. The music, the glitter, and the insane snappings of his effete lordship would be maddening."

She laid her hands upon his shoulders and looked up into his face with misty eyes. Her setting was superb.

"I will come again to-morrow," Noel said. "Do not let me spoil your enjoyment. Adeline, I cannot stay to dinner; I am not dressed; besides," he added, wildly, "it is impossible now—after what has passed! I have quarreled violently with Mr. Grant. We are sworn enemies. I have no business in this house at all!"

Miss Cleveland gave a little cry of dismay, and opened her splendid black eyes in seeming wonderment. Then she said, proudly:

(To be continued.)

PLAYTIME.

The people all are playing; I see their autos pass, and wonder who is paying for the oil and gas. A million autos journey before my pump a day, and I am glad to see them.

New York Police on the Trail of a Syndicate of Criminals.

Liberals and Conservatives train their Guns on the Labor Party--Dr. Marz Succeeds Stresemann--Treaty Extending the 3 mile Limit Practically Finalized.

MARZ SUCCEEDS STRESEMANN
BERLIN, Nov. 29. A three party Coalition, comprising clericals, People's Party and Democrats, with Dr. Wilhelm Marz, clerical leader, as Chancellor, will succeed the Stresemann Ministry. It was stated to-night cabinet posts have not been allotted, but it is believed Dr. Stresemann will be given the foreign portfolio.

ELECTIONS AT FEVER HEAT.
LONDON, Nov. 29. With the election date only a bare week ahead, the political situation is becoming intensely acute.

SYNDICATE OF CRIMINALS UNCOVERED BY N. Y. POLICE.
NEW YORK, Nov. 29. With eight men in custody and the plot unraveled, the police believe today they are near a complete solution of the double crime on November 14, in which two west end bank messengers were shot down without warning in Brooklyn subway station and robbed of \$43,607. As the police unfolded chapter by chapter of the most startling murder and robbery plots in the history of the city they found it intertwined with stories of other bold crimes, and yesterday they uncovered clues pointing to a syndicate of criminals. In the arrests already made the police believe they have opened a way for the solution of a number of murders, hold-ups and automobile thefts committed in the past few months.

TREATY VIRTUALLY AGREED TO.
LONDON, Nov. 29. Great Britain and the United States have virtually reached an agreement on the form of the proposed treaty granting the United States special extension of the three mile limit for confiscation of the illicit liquors in British owned vessels and conferring upon Great Britain the right to ship legitimate alcohol stores in passenger liners to United States shores under seal for consumption on home ward voyages. Secretary Hughes found no substantial objection to the fundamental points of the treaty as formulated by Foreign Secretary Curzon and the British legal experts, and he was able to reassure the British Government on certain constitutional features of the treaty which it had been thought by the latter might not be in strict accordance with existing U. S. laws and practices.

GERMAN SPY RELEASED.
NEW YORK, Nov. 29. Pardon by President Coolidge and freed from a life sentence at Leavenworth Penitentiary, Lothar Witzke, the only German spy convicted in the United States during the war, was deported to-day on the Hamburg liner Alberton. He was convicted of Espionage and sentenced to death, but the sentence was commuted to life in prison. Eight days ago he was released, and ruddy and robust after five years in prison, sailed for home a free man.

ALBERTA'S COAL STRIKE.
COALSPUR, Alta., Nov. 29. One hundred and fifty employees of Sterling mine, near here, went on strike to-day, as a result of failure to agree with the Directorate, and 90 miners of the Coal Valley mine, who have been out on strike for several days, were to-day notified by the Company that as the mines were closing their services were no longer required. The men were recently organized by the United Mine Workers of Am-

erica, District 18, and are striking for District Union scale of pay, or about thirty cents an hour more than they have been getting. Officials assert they intend to operate the mines with men who are willing to work and they are determined to keep the mines out of control of the United Mine workers.

FLEECE BY QUACKS.
NEW YORK, Nov. 29. Quack doctors are fleecing immigrants out of millions of dollars by frightening them into the belief that they suffer from tuberculosis or other diseases which will require long and expensive treatment, Dr. Antio Stela, asserted. It is impossible to secure legal action against quacks, he said, under present laws.

CABLE ARRANGEMENT.
LONDON, Nov. 29. A satisfactory understanding regarding the landing of cables at the Azores has been reached between Newcomb Carleton, President of the Western Union Telegraph Company, and Sir John Pender, Chairman of the Western Telegraph Company, the latter announced to-night. He did not give any particulars.

Fritz Bruch and Pauline Thurston Score Again
"GET RICH QUICK WALLINGFORD" AT THE MAJESTIC NEXT WEEK.

Miss Pauline Thurston the beautiful dancer and Fritz Bruch the talented cellist delighted the large audience at the Majestic Theatre last night. Miss Thurston's dancing as a Gipsy boy received a cordial greeting as also did the recitations of Mr. Bruch particularly that of "The Rosary" which was roundly applauded and encored Miss Thurston's recitation "The Land of Beginning Again" was very pleasing and we look for similar numbers during the coming week. The picture is "The Man from Home" and some big moments in "The Man from Home" are:

When Daniel Pike, in despair over the leaving of his ward for Europe finds a little compensation in the admission of her love for him.
Faustina's avowal of her passionate love for Prince Leone and his spurning of her.
The murder of Faustina by Prince Leone and his desperate flight.
Ribiere's finding of his wife's body his crazed flight through the night with the Cabanerl and bloodhounds at his heels and his begging of refuge in the rooms of Daniel Pike.
The dastardly scheme of the Prince and his sister to force Pike to sanction the marriage of his ward.
Gensievere's discovery that the pearls which she has accepted from the Princess as security for a huge loan are false and the adept manner

Scientific baking by Bakers

requires the choicest ingredients and mixing them according to the most carefully studied recipes. There is something even more important—the artistic side of baking—knowing how to bake, when to take the cake from the oven, how to handle the cake so that it will not "fall." Drake's Cake is the result of personality in the baking.

Goldwyn Brings "Christian" Up-to-Date

IS SET IN 1922 BACKGROUND, INSTEAD OF LATE NINETIES, WHEN NOVEL WAS WRITTEN.
Is a story with a great theme bound to any period?
This question was answered in the negative by the Goldwyn editorial board and Director Maurice Tourneur during the preparation for filming Sir Hall Caine's novel, "The Christian," which will be screened at the Nickel Theatre for three days, beginning Monday. Producers are reluctant to burden their photodramas with out-of-date styles in garb.
It is not surprising that occasionally the fact is overlooked that producers of pictures cannot tell in advance what will be a popular success, but that by previous non-successes they have fairly reliable grounds for believing they can tell what will not be a success. Costume plays, particularly where the action is laid in foreign countries, have seldom received a warm welcome from the American public.
Other reasons than avoiding the costume problem, however, actuated those in charge of the enterprise. Goldwyn's editorial board and Tourneur agreed at once in the preliminary discussions that aside from the costume question, "The Christian" would have more force with present-day audiences if John Storm, as "The Christian," should be confronted with present-day temptations readily understood by the present day public, and also that as the story is predominantly a psychological study, nothing would be gained by hampering it with the clothing of its original period.
"A story with a great theme," said Mr. Tourneur in discussing their decision, "is not bound to any one period."
So "The Christian," in this screen version is a man of this hour, living his devoted life under the conditions which now prevail, and meeting obstacles which we of to-day know.

The Fisheries of Newfoundland

In my last letter on the fisheries on October 15th I referred to the great need of Bait Depots and the loss we suffer because we have not established them. Since then I have gathered information on this matter which goes back to 1871. In that year the late Sir Ambrose Shea, afterwards Governor of the Bahamas, had the first steamship built in Newfoundland and my father, Daniel Condon, was the builder. She was called the "Isabella" and was used to bait fish—caplin—to the fisheries. In 1873 under the command of Capt. Matthew Reddy she supplied, among others Martin Bolger who was fishing at Red Head Cove near Cape St. Francis with wonderfully successful results.

The bait depots created over twenty years ago by the Rt. Hon. Sir Robert Bond and Lord Morris failed for the obvious reason that no systematic method was adopted to keep them supplied. I have it on the authority of Capt. Robert Pike, the representative of Messrs. Harvey & Co. at Belleoram for over 20 years, that their bait freezers at Rose Blanche was a great success. The late Hon. W. J. Gibson was a firm believer in bait depots as was the late Hon. A. F. Goodridge, and the prominent business men to-day have taken the greatest interest in my proposal to establish them.

I feel satisfied that it would go far to solve the difficulties that our fishermen have to contend with and were a constant supply of bait available they would not be deserting their calling. In a matter such as this politics can play no part. It is necessary and should be supported by the full co-operation of all parties.

Yours truly,
M. E. CONDON.

From Our Point of View

Politics and Social Reform.

It is satisfactory to note that Mr. Ramsay MacDonald, speaking for the Labour Party, has denounced Protection as a cure for unemployment or anything else. The Liberal Party has always stoutly opposed Protection, and defeated it in the past; so Mr. Ramsay MacDonald and his followers find themselves in good company. To preach Protection as a panacea for the country's ills is a policy of despair. But it will not suffice for the other parties to adopt a negative attitude. It is a simple matter to oppose, but in order to construct clear and convincing thinking is necessary. Any party that takes office is faced with a heavy task, and those who oppose the Government's policy must be prepared to submit a better one of their own.

If we ask ourselves what the people of this country particularly need, there is widespread agreement as to the answer. The majority are asking for work, houses, and cheaper food. Any party that hopes to gain the support of the country must produce a policy designed to supply these needs. We must not, however, delude ourselves that any party can produce houses, or work, or cheaper food without the co-operation of the workers. The politician may draw up the plans, but it is the workman who does the job. Can any method, strikes, or any form of inefficiency will wreck any programme for social improvement, no matter how wisely it is drawn up. This is often overlooked, and more is expected of politicians than they are ever in a position to perform. Social improvement depends more on personal effort than on Acts of Parliament.—*Liverpool Weekly Post.*

German Internal Position Stated to be Hopeless

LONDON, Nov. 22.—(Associated Press.)—In his address before the Reichstag to-day Chancellor Stresemann is quoted as declaring that his Government would relinquish office if it were considered necessary; and that he hoped the Reichstag would make up its mind quickly in order that he might know whether he should continue.

He declared that Germany's internal position was hopeless, and so far as he could see there was not the slightest prospect of effecting improvement.

France has expressed fear of serious German developments arising from recent incidents, but he could assure France that any developments that might occur would be the entirely to France herself.

The Communist deputies constantly interrupted the Chancellor.

Dr. Stresemann said that, despite Germany's serious position, efforts would be made to continue negotiations with France, because the German Government desired to leave no stone unturned in its efforts to effect an agreement and improvement in the situation.

The Reichstag, however, must not be led away by the idea that concessions to France would do much to help Germany. The Reich was in too weak a condition to force counter-concessions from France.

North Sea Almost Fished Out

There has been such an enormous catch of whitefish in the North Sea recently that many fishermen temporarily abandoned their potato harvesting. Prices went enormously. Although the scarcity is probably due to temporary causes, it has been reported for the first time that the North Sea is being fished out. British trawlers have been forced to go farther afield, a circumstance which has led recently to trouble between the trawlers and the Russian fishermen in the White Sea. It is predicted that in a few years these conditions may lead to a stable trade in Canadian fish to the English market in chief. Canada's Atlantic fishing grounds are not much farther from England than the White Sea.

A Record to be Proud of

INSURANCE ONE OF THE MARKS OF CIVILIZATION. Over 25,000 agents have company intimately to the length and breadth of North America. The agents, chosen with painstaking care for their character and ability, are interpreting the ideals and aims of the company to their various communities, and are placing the wide facilities of the company within quick reach of individuals and institutions.

The best work of these agents, in fact, is not kept in their books but in the hearts of the people. It is a record of proficiency, of compact, highly organized force, of about a thousand officials and employees. No other insurance company has such extensive foreign connections as the Liverpool and London and Globe.

If the company had actually been able to look clairvoyantly into the future, it would foresee the fire that was to rage in Chicago, Boston, New York, San Francisco and St. Louis. It could scarcely have cleared decks more definitely for the fire that was destined to play in concert with the restoration of those cities and ruined areas.

New Orleans had a fire in 1856 that cost the company \$90,000, which was considered a good-sized loss at the period. Eight years later there was a fire in Troy, New York, which cost the Liverpool and London and Globe more seriously than any other insurance company. And again, as a result of a Fourth of July fire in Portland, Maine, in the year 1866, the company and took prompt care of the loss that was considered heavy.

On each of these occasions, the Liverpool and London and Globe Ltd., paid its losses promptly in full; and by 1867 its service in the United States was held in such public confidence and esteem that its premium income in that year was exceeded by only two insurance companies in the entire United States. MESSRS. BOWRING BROS., LTD. are the Agents for Newfoundland.

The Lighter Side.

HOME.
I want to go home.
To the dull old town
With its shaded streets
And the open square,
And the hill,
And the flats,
And the house I love,
And the paths I know—
I want to go home,
I can't go back
To my happy days,
Yet I can't live
Where their shadows lie,
Under the trees
And over the grass—
I want to be there
Where the joy was once,
Oh, I want to go home,
I want to go home.

Mysteries and Tragedies of the Docks

DOCKSIDE MEN WHO DISAPPEAR—WHAT BECAME OF LONG JOHN, THE BO'SUN'S MATE!—THE STORY OF "SCOTCH HARRY."

(By MUNRO BLAIR, in Liverpool Weekly Post.)

Sweetheart's Quest For Her Lover. Dockside men who disappear! This is a phrase quite familiar to the riverside police and to all whose business takes them down to the wharves and by the long sheds and warehouses down by the docks. Sometimes a mystery is solved; often it is not. Of the many instances of men who have vanished, all too many have this note attached to the official entry—"Case of disappearance; no explanation."

Or it may be that there is a terse entry in the captain's log: "Deserted ship, Port of London." This is the only memorial of many scores of poor sailor men who have returned from going down to the sea in ships, who taste the garish joys of land freedom—and vanish!

The Case of "Long John McKenna." Police records yield some very typical cases. Such a one is that labelled "The Vanishing of Long John McKenna," bosun's mate of the s. s. Messaba. "Long John" was a big, bluff Irishman with a touch of American blood in his veins and a real sailor to the tips of his fingers. His fate had been a sealed chapter for more than five years, and it is but one of many thousands of mysterious disappearances in that vast area known as the Docks.

A seasoned, tough seaman, McKenna had been on the regular Atlantic run between London and New York for many years. After discharging her cargo of live cattle at Deptford, the transport liner, of which he was bosun's mate, proceeded upstream and was finally berthed in the Royal Albert Dock.

On the same day that the vessel reached port, McKenna wrote to his sweetheart, a Soviet's assistant in the Midlands, telling her to expect him on the following day after the crew had been "paid off." He also mentioned that he had won a considerable sum of money at poker during the voyage from the cattlemen aboard the ship.

Had £100.

With the rest of the crew, McKenna received his wages and was known to have over £100 in his possession.

He was last seen the same evening by a cattle foreman, named Carson, in a public house at Cannon Row in company with strangers. McKenna stood Carson several drinks and said he was shortly going on to St. Albans. From then all traces of him was lost.

A week passed, but still no news reached his anxious fiancée. His ship, meanwhile, had left port. Then the distracted girl began a quest for her sailor lover. She took a room in the East-end and from early morning till late at night she haunted the quays and public-houses in search of McKenna, but all in vain.

At last, fearful for her safety, relatives persuaded the unhappy girl to abandon her nightly expeditions, to the dangerous districts of the East-end. Miss W. then made a journey to New York but the voyage proved fruitless. John McKenna, jovial messmate and bosun's mate of the s. s. Messaba, had disappeared from mortal ken.

Then came a sinister sequel.

The Battered Body. In process of time, the body of a man who had evidently been wounded, was recovered from the River Thames at the entrance to Shadwell dock. He was evidently a sailor, and his injuries suggested that he had been stabbed from behind.

A statement issued by the police described the man as 6ft. in height, and of stout build. He was aged about 35. There was, according to medical evidence, one deep incision under his left ear, and his neck had been fractured, evidently with a blow from a knife. He was stripped to the waist, and had only a shilling in his possession. The body had been in the water approximately ten days.

The description tallied exactly with that of the missing John McKenna. But such was the condition of the corpse that no one could identify it positively.

A Sudden Stab!

It was thought that he may have been the victim of landsharks, and that he had been partly stripped before being thrown into the water. No doubt he was marked down as having a big sum of money in his possession and was followed by the ruffians who meant to stab and rob him. His drink may have been "hooched"—a favourite pastime practised on sailor men in Docktown—and he may have been robbed. Or it may have been that he grew suspicious and showed fight; in that case a sudden stab and a shove into the docks would have ended his career.

We must not think the case of this unfortunate man very singular. Police records show that over a hundred bodies have been taken out of the Thames in twelve months. All were evidently seafaring men, and in many

instances there was no evidence to show how they came into the water. But each was stripped to the shirt. Robbery was all too clearly the motive for the murder.

Baffled Searchers.

Great indeed are the difficulties confronting those who seek to unravel dockside mysteries and the cases of men who disappear! The population of dockland is necessarily shifting from day to day, rendering the task of the dock police an extremely difficult one. To a seaman knowing that his ship was on the point of sailing for a far-off destination, it would seem devoid of much risk to get rid of someone who was inconveniently alive. The Thames usually keeps its secrets for some days before giving them up.

There is another aspect of this matter, which shows with what obstacles the dock police have to cope. Shipmasters take a sailor's failure to rejoin his ship as part of the troubles of commanding a vessel. The missing man may be on the spree, or under the influence of Bacchus, or Venus, or both combined, or he may be in some sore of trouble which he prefers to keep to himself. Or he may have joined some other ship. Therefore, a missing man is very seldom reported to the police. Only when there are circumstances of very grave suspicion, when foul play may be assumed, are the police communicated with.

There are other reasons why captains of vessels are reluctant to come into contact with the authorities in suspicious cases. There would, of course, be a thorough and searching investigation, during which time the vessel would be detained in port. In the case of an inquest, the captain, and perhaps other officers, or ship-

mates of the dead man would probably be needed.

"Scotch Harry." The story of "Scotch Harry" is still whispered among the dockside denizens. He was a sailor who hailed from Dundee, where his father was well known in that port as one of the old whaling men. The son was bred to the sea, and eventually became first mate on a steamer which plied between Barry and Spalds with iron ore. He was a fine healthy man of about 40, jovial and happy-go-lucky, and very much liked by all who came in contact with him.

On the occasion of his last voyage he came up to London to see some pals down at Wapping. He was flush with money, for that last evening he was playing cards in a local public-house, and was heard to say that he had over ninety pounds with him. At eleven o'clock he went off with his friends. They parted in a friendly way and promised to meet again the next evening. From that day to this "Scotch Harry" has not been seen again. He has just—vanished. The police have searched for him; his friends have done the same. But all in vain. No doubt he was set upon, robbed, and cast into the dark waters of the docks, with perhaps an iron bar tied to his feet to keep him down in the oozy river bed. His case is just another mystery of the docks, while his mother in Dundee waits hopelessly for the return of her son. She has waited for nearly six years.

Wary Scoundrels.

The fact must be recognised that dockside swarms with crooks, both male and female, who batten upon the returned seafarer when his pockets are full of money. It is a case of "It's your money we want!" and drugged drink, assault, &c., is the prelude to

robbery. Wary scoundrels, they know they run a risk—but the returns are high and they face possible imprisonment and the infliction of the dreaded "cat." Fear of capture renders them difficult customers to capture. To-day the dockside police are armed—and this fact is little relished by the law-breakers.

Sailors and firemen of the old days were tough, hard-drinking, hard-fighting men, yet the simplest of beings and easy game for the shark. Nowadays, the class of men who follow a seafaring life are not so gullible and have a wider knowledge of the world and its ways. Long voyages have given place to the short trips across the "Western Ocean," as sailors still term the Atlantic, while comfort and security are provided by "Jack's Palace," and scores of reputable, registered lodging-houses in each shipping district.

Ingratulating Strangers.

Frequent return to the same port also adds to the knowledge of spots it is wiser to avoid. Furthermore, sailors are advised to travel in company with their own shipmates rather than associate with ingratiating strangers who make it their business to ingratiate the districts around Board of Trade offices, seamen's homes, and other places where sailormen with money are likely to be found when crews have been paid off.

The result has been that the dockside crooks have become more artistic in their methods. They meet the sailors with stories of "soft berths" on shore, which may be secured by payment of "grat" and even back up their lies with printed matter setting forth particulars of non-existent jobs. No matter how vigorously the police keep watch, these confidence tricksters always do a certain amount of "business," and almost daily complaints are laid at the police offices by men who have been "done brown."

Open-aid education is being more widely adopted by the London County Council, which has now three day schools in the metropolitan area, and three residential schools—at Marrate, St. Leonard's-on-Sea and Bushey Park—run on this principle.

The Situation at Bell Island.
WHAT OF THE RESPONSIBILITIES OF THE CORPORATION?

A situation has arisen in Bell Island which is serious in the extreme for a large section of the community and particularly for those people who reside in Conception Bay. On the authority of Mr. Gillis of the British Empire Steel Corporation we published yesterday their decision to close the mines on November 30th and discharge the eleven hundred miners employed, with the exception of those who are necessary to keep the mines free of water and to look after the property.

The closing down of two of the slopes earlier in the season was serious, but it was never anticipated that a complete stoppage of operations would take place, and consequently the problem of finding employment for such a large body of men at this time of the year places the Government in an awkward quandary.

In one quarter it has been suggested that the Government should provide the cost of operating the mines during the next two months, or, we suppose, until the Corporation finds the markets ready to absorb their output. It would appear obvious on the face of the suggestion that it does not originate with the Corporation, for as a business concern it would have no more right to make such a request than any firm on Water Street or elsewhere, when finding itself in difficulties, it was compelled to discharge its employees.

Naturally the onus of providing for the miners of Bell Island thus deprived of their livelihood must fall upon the Government, already heavily overburdened, but how to provide is a question that requires consideration.

The easiest way is the plan suggested, namely for the Government to shoulder the whole responsibility. But why not bring pressure to bear upon the Corporation which, since the twenty-five cent tax was imposed have again and again laid off men and threatened to close down altogether unless the tax was remitted?

Here is a case of the Government giving away a valuable mineral area in the Dominion in fee simple for a song. Under the Crown Lands Act it says: "Any lessee of a mining location shall be entitled to a grant in fee simple, who shall bona fide expend, during the first five years of his lease, the sum of \$8000 in surface and subterranean mining by the excavation of not less than 10,000 cubic feet of rock or earth on a mining location of three hundred and twenty acres." Section 54 of the same Act stipulates that a nominal rental shall be paid yearly in advance. Blame cannot attach to an individual or a corporation for accepting concessions on favourable terms, but such an Act is a glaring instance of lack of foresight, indifference, igno-

rance, or criminal neglect on the part of those who were responsible for framing it. Almost daily we are passing out similar concessions on the same terms. We are giving away our heritage—for what? the usual mess of pottage in, exactly the same manner as we have parted with our timber areas. Is it any wonder, with legislation of this kind on the Statute Book and similar acts being constantly added, that our people, realizing that there is nothing left for them—the owners—in this country, desert it as rats desert a sinking ship? Is it surprising that the propaganda of Bolshevism finds fertile soil in every land where the public are being despoiled in this manner by ignorant or interested politicians?

About six years ago the matter of fixing a royalty to take the place of the seven and a half cents tax on ore caused considerable discussion in the House and also in the press. The Daily News said at that time, "The export tax on ore should and must be increased. The Companies have been making enormous profits during the past few years largely at the expense of the country, and this should not be permitted to continue." In the House some reference was made to the subject of operating smelters on the island, but we are unable to find any criticism of this suggestion. We are under the impression that it is an economical principle which is invariably followed that iron for smelting purposes goes to coal, and not coal to the iron fields. Such a suggestion could only have been made to dazzle the eyes of the innocents with its regurgitation.

It is well known that the Corporation have not always considered Bell Island a worthless asset. They have had their fat years, and like any other business concern they must expect occasionally to have their lean. How many of our local firms during the last few years discharged the whole of their employees because trade was at a standstill? There are moral obligations that such concerns must recognize, even if they are not laid down in black and white, and if they are observed by a private concern how much more strongly does the responsibility rest upon a company which derives its wealth from lands they really hold in trust?

St. Andrew's
Nicht Celebration

THE MEMBERS OF St. Andrew's Society very fittingly observed their 85th Anniversary by holding a grand Scotch concert and dance at the Grenfell Hall last night. The supper and ball rooms were tastefully decorated with the blue and white colors of the Society. Mr. E. G. Reas, Chairman of the Entertainment Committee, opened the affair by making a brief address. Telegrams of greetings were read from St. John, N.B., Winnipeg, De. Mt. and Montreal; also one from H. D. Reid, President of the Society, who is now in England. Following the arrival of His Excellency the Governor, Lady Allan's and Suite, a delightful Scotch concert was held in which the following artists participated: Mrs. H. Small, Mrs. W. B. Wardlaw, Misses Glendinning, Langmead, Messrs. J. Foster, A. E. Holmes, J. Skinner, F. M. Ruggles and Rev. E. C. Karp. After the concert fully 180 couples indulged in dancing, the music of which was supplied by the Princes' Orchestra. During the interval, the gathering dispersed to the supper room where a turkey supper was served by the Ladies' Auxiliary. The tables were overflowing with the many good things provided, which were thoroughly enjoyed. Dancing was continued shortly before midnight and kept up until 2 o'clock this morning. St. Andrew's Night was voted the season's greatest success. The arrangements were perfect in every detail and the committee and all concerned are to be congratulated on their endeavors.

Rev. Dr. Cowperthwaite
Attains His 80th Birthday.

The many friends of the Rev. Dr. Cowperthwaite, who, thirty-three years ago, came to Newfoundland to engage in the work of the Methodist Church, unite to-day in congratulating the venerable pastor upon his passing the 80th milestone. Although his great age precludes him from taking an active part in the work of his church, he nevertheless manages to keep closely in touch with all that is going on, and as the services progress each Sunday in Gower St. Methodist Church, he is an attentive listener at home by means of the telephone. Since coming to Newfoundland, Rev. Dr. Cowperthwaite has held the parishes of Gower Street, George St. and Cochrane St. Methodist Churches. He has also ministered to the foot in Harbor Grace and Carbonear, and his activities have left their mark in many other directions as well. Born in St. John, New Brunswick, and educated at Mount Allison University, the venerable Doctor found his true vocation and until illness two years ago which made further work impossible, was untiring in his zeal in the cause of Methodism. We trust that as time has dealt gently with him, the autumn of his life will be long extended to enjoy the calm repose which is due those whose labors have been well and faithfully performed.

No New Developments

So far as can be learned there are no new developments in reference to the closing down of Bell Island, which became effective to-day. A petition to the Government which is being circulated on the island is being largely ignored. It is not unlikely that the Prime Minister, Hon. W. R. Warren, will visit Montreal and take the matter up with the Bease directors. It is understood he is leaving England on the 7th December, sailing by S. S. Montrose.

S. S. Palisca leaves Montreal on Dec. 1st for St. John's with a general cargo for A. E. Hickman Co. Ltd.

THE TRAINS.—Thursday's express arrived Bishop's Falls two hours late. The incoming express left Port-aux-Basques 30 minutes late. The local train from Carbonear arrived at 12.55 p.m. The Trepanney train went out at 11.30 a.m. A large number of passengers went out to various points along the Southern shore.

St. John's Lodge
Celebrates Its 75th Anniversary

Last night the Mother Lodge of Freemasonry in Newfoundland, St. John's, No. 878 E.C. celebrated in due and fitting form the seventy-fifth anniversary of its inception.
At 7.30 the lodge met and received with full ceremony visitors from the other lodges, the District Grand Master, and the brethren of the District Grand Lodges of the English and Scotch constitutions. The assembly then joined in singing the 100th Psalm.
The Wor. Master, R. S. Finnest extended an official welcome to the District Grand Master, to which R. W. Bro. J. R. Bennett and Tasker Cook replied. Then followed an address by W. Bro. W. J. Edgar, P.G.D. Eng. District Grand Master, and a Past Master of St. John's Lodge who traced the history of the Senior Lodge from its inception to the present day.
On behalf of the Past Masters of the Lodge, Wor. Bro. W. N. Grey presented the magnificent banner (a description of which has previously appeared in the Telegram) to commemorate the anniversary, and requested the District Grand Master to unveil it. It was received by the Wor. Master, R. S. Finnest to be placed in the safe keeping of the Lodge there to remain as a highly cherished memento.
One of the most pleasing features of the evening was the conferring upon Bro. Henry Blair, Honorary Member, Bro. Blair who had been for 54 years a member of the Lodge was given an enthusiastic reception. He was initiated in 1859, and in recognition of his seniority, in addition to the distinction of Honorary Membership he was invested by the D.G.M. with an apron, the gift of the Lodge. Bro. Blair suitably expressed his appreciation.
The Lodge being then closed in due form, the brethren repaired to refreshments which was served in the Banquet Hall. Here the lady friends of the Fraternity had spared no pains in their preparations and on the tables which had been artistically decorated was laid out such a choice collation of the culinary art as well repaid the brethren for their labours.
Wor. Bro. Finnest presided and two hours of pleasure passed quickly while the following programme and toasts were proceeded with:
"The King and the Craft"—Prop. by Wor. Bro. Finnest. "God Save the King."
The M.W. the Pro Grand Master, H. R.H. the Duke of Connaught, K.C.—The Grand Honours.
The M.W. the Pro Grand Master, the Rt. Hon. Lord Amulph, the R.W. the Deputy Grand Master, the Rt. Hon. Sir Frederick Halsey, and the rest of the Grand Officers. Present and Past—Prop. by R. W. Bro. Canon Bolt; Resp. by R. W. Bro. J. Edgar, P.G.D. and W. Barker, P.G.D.
The M.W. the Grand Master of Nova Scotia, J. H. Winfield—Prop. by Chairman.
The R. W. the District Grand Master—Prop. by R. W. Bro. H. E. Cowan; Resp. by R. W. Bro. J. R. Bennett, D.G.M.
The R. W. the District Grand Master of the Scottish Constitution, the Hon. Tasker Cook—Prop. by R. W. Bro. W. A. Ellis, D.D.G.M.; Resp. R. W. Bro. H. E. Cowan.
To the memory of our Founders and Illustrious Brethren who have passed to the Grand Lodge Above—Prop. by R. W. Bro. J. Alex. Robinson, P.D.G.W. Drunk in attendance.
The Worshipful Master, Wardens and Brethren of St. John's Lodge—Prop. by Bro. Canon Karp; Resp. by R. W. Bro. E. S. Finnest and Bro. A. W. McEvilly.
The Senior Lodge—Prop. by Bro. R. E. Skiser; Resp. by R. W. Bro. B. E. Dundell, and J. A. Winter.
Transient Brethren—Prop. by R. W. Bro. Dr. C. Macpherson; Resp. by Bro. E. R. Watson.
The Lodge—Prop. by Bro. E. E. Rendell, J.W.; Resp. by Bro. T. Soper, R.W.
The Tyler's Toast—During the evening songs were rendered by Bros. Karp, Glass and Williams.
Auld Lang Syne followed by the National Anthem brought a highly successful celebration to a close.

Valuable Dog Killed

A valuable thoroughbred ardale dog owned by Mr. J. R. Robertson, was run down and killed by his own motor car at the junction of Water and Prescott Streets this morning. The canine was purchased by Mr. Robertson at Grossvere in the north of England, where he resided there last year, and there is no other dog of its kind in the country. The dog was quite a favorite and the owner feels his loss keenly.

GERMANY'S MILITARY ACTIVITIES CAUSE CONCERN.

LONDON, Nov. 30.
Disturbing information concerning the extent to which Germany is re-arming and rearming has been received by the British Government says a Reuter item. Although the view is taken officially that this information reveals potential rather than imminent danger the British authorities are frankly concerned over the bearing on the peace of Europe. Newspapers this morning are devoting considerable attention to the news item. The Foreign Office in a statement, however, says the information should not be attributed to any official authority.

TO POULTRY KEEPERS.

WE HAVE ANOTHER CAR OF Purina Poultry Foods NOW DUE.
Experience has shown that you should feed a BALANCED RATION. If you wish to make money in keeping Poultry, 100 lbs. of PURINA SCRATCH FEED is capable of producing 247 Yolks and 142 Whites. 100 lbs. PURINA CHICKEN CHOWDER is capable of producing 182 Yolks and 282 Whites. 50 lbs. of each—fed in equal weights—is capable of producing 214 Yolks and 212 Whites. A hen cannot lay half an egg, so don't feed only half the element necessary to make an egg. You must use a Balanced Ration to make money from hens. PURINA CHICKEN CHOWDER and PURINA SCRATCH FEED is a perfectly balanced ration, so don't use other grain with Purina Feeds. Ten Hens should eat one pound of Purina Scratch Feed and one pound of Purina Chicken Chowder per day.

That victory marked Yale's first win over the crimson in five years. It developed the first Yale touchdown scored in the Harvard Stadium in sixteen years, and it won for Yale a place as a leader of the eastern college football for the season of 1923.

Yale turned three of Harvard's errors into points, scoring a touchdown on a favorable tumble, a field goal on another recovered fumble, and another field goal on a blocked punt.

WITH THE BOXERS.

NEW YORK, Nov. 24.—Roland Todd the British welter and middleweight champion, after long hesitation, has come to the United States to display his defensive wizardry against the best American scrappers of his weight. He will land to-day and will see Tex Rickard regarding a match with Harry Greb for the world's middleweight championship.

Todd won his titles from Ted (Kid) Lewis, the ancient welterweight, who used to take turns with Jack Britton at holding the world's championship. Roland outpointed Lewis in 20 rounds in London and is described as the perfection of the English style of harmless "clever" boxing. He learned his trade under a "professor of boxing" in a London athletic academy.

PEORIA, Ill., Nov. 24.—Jos Lynch, world bantamweight champion, last night knocked out Frankie Murray, of Schreveport, La., in the fifth round of a scheduled ten round bout here.

"Fighting Mike" O'Dowd, of Columbus, won a shade over Jimmy Russo, of St. Louis, in ten rounds of fast fighting.

WORCESTER, Mass., Nov. 24.—John Drew, of Worcester, last night defeated Mickey Travers, of New Haven, gaining the decision after ten rounds of boxing. The men are featherweights.

NEW YORK, Nov. 24.—Carl Duane, of New York, fighting at 127 pounds, won the judges' decision over Frankie Jerome, also of New York, in a hard-fought contest last night. Jerome weighed 119 pounds.

FIRPO MAKES MODEST REQUEST.

BUENOS AIRES, Nov. 30.—Luis Angel Firpo sent a message to Tex Rickard to-day, fixing the date of his meeting with Harry Wells as May 5th. Firpo declared he would take \$100,000.00 and forty per cent. of the gate receipts.

Student Saves Drowning Boy

JUMPS INTO DORCHESTER BAY AFTER HIM.

(Boston Sunday Post, Nov. 11.)

Plunging into the waters of Dorchester Bay yesterday, Albert E. Murray, a Boston University student and Canadian war veteran, saved seven-year-old John Lyons of 7 Greenwich Street, Dorchester, from drowning. Murray succeeded in pushing the boy to the shore where he was taken in charge by some of the score or more persons who arrived in time to witness the rescue.

The incident occurred in the creek at the rear of the Healey & Seaver glue factory at 90 Freeport Street. The boy and several others were playing on the bank when he fell into the water. Murray was the first to hear the cries of the frightened boys, and running to the scene he plunged to the Lyons boy's aid.

Murray was only 15 years old when he enlisted with the Canadian troops. He is a native of St. John's, Newfoundland, and is attending the school of Business Administration at B.U.

THE CHILD WHO STAYS AT HOME.

I saw a funny thing happen the other day. On a second thought I guess funny isn't the right word. All the children in our neighborhood were going to a big bazaar which was to be held in a nearby city. There was to be ice cream at that bazaar, and candy and side shows and a sleight of hand man, and I don't know how many other attractions. About a dozen of the children had gathered at the head of the street waiting for the bus that was to take them over. One group of four were in charge of their uncle. It was his first visit to our neighborhood and he doesn't know the neighbors. But when he saw a little youngster who evidently wasn't going to the bazaar, standing aloof and eyeing the rest of the children wistfully, he immediately made the natural deduction. He drew his own group aside and put it up to them. "Look here," he said, "there's a kid that doesn't seem to be going and it looks to me as if she felt pretty bad about it. What do you say we stake her to a ticket and ask her to go along with us as our guest? I guess we can scrape up the money to give her a good time."

"Betty Never Goes."

The oldest nephew answered this moment offer. "Oh, Betty can't go." he said. "I ain't anything about money I guess 'cause her father has a big auto (how even the children have come to measure financial standing by auto!) but her mother is afraid she might get too tired, or might eat something she ought not to, or we might not get home in time for dinner. Betty never goes. She has lots of

money to spend, only she mustn't ever spend it for candy or pickles or things; but she never goes anywhere or does anything like the rest of us. Her mother is very particular."

Poor little Betty! What a picture of the poor little rich girl!

The uncle was evidently flabbergasted to find how close he had come to offering charity to a well-to-do young person.

But in his day, when a child was left out, lack of funds was generally the reason.

The ultra particular mother existed then but not to the extent she does now.

We know so much about digestion, and getting tired, and germs and all that sort of thing nowadays, that we naturally have a lot more to fear.

Of course Betty's mother might have gone along with her and looked out for her. But Betty's mother has more important things to do. I believe she was taking a mah jong lesson that afternoon. And as Betty couldn't be trusted to anyone else, she just naturally stayed at home.

Peace of Mind at the Child's Expense.

Poor little Betty. We are all sorry for her and would gladly help her out if it were only the money for the bazaar, or the circus, or the picnic she lacked, but as it is, we can't do anything for her.

Of course it's right that parents should be particular and careful of their children. But don't you think there is such a thing as buying one's own piece of mind at the expense of a child's pleasure? A child is perfectly safe in its own yard, then why not keep it there? says a certain type of parent who is too lazy or too selfish to oversee her child's pleasures and make them safe, and too lacking in sympathetic imagination to have any idea what it means to that child to stay at home when all the rest go.

Municipal Council.

WEEKLY MEETING.
The regular weekly meeting of the City Council was held yesterday afternoon. Mayor Cook presided and Councillors Outerbridge, Vinnicombe, Collier and Ryan were present.

After reading and confirmation of minutes of previous meeting, the following business was transacted.

Deputy Colonial Secretary informed the Board that his Excellency, the Governor in Council, had appointed the Hon. F. J. Morris, K.C., and Eli Dawy to be the Court of Revision in connection with the Biennial Appraisal of property in the city.

Mr. W. J. Browne, Solicitor, offered property on Casey Street for street widening purposes for the sum of \$6,000.00. For some time past the Council has been negotiating for the purchase of this property, but owing to the very high price required it is unable to consider same.

Applications were read from Marshall's Garage and Dodd's Garage, Ltd. for share of work in connection with repairs to Council's Motor Sprinklers and Dump Truck. It was ordered that a report and estimate of cost of repairs and parts required be submitted.

Mr. J. P. Ross asked permission to erect bill posting boards for advertising purposes, according to the Municipal Regulations. Permit was granted.

A lengthy communication was read from R. J. Coleman, re the recent order of Council for the removal of garage which he has in course of erection on Circular Road, and asking reconsideration of the matter. His request was not acceded to, and the Engineer was instructed to see that the order of Council is carried out.

Messrs. Foran and Coffey, on behalf of the St. John's City and Bus-

ness Directory, pointed out the advisability of having certain by-laws of the city advertised in this new publication, particularly for the benefit of those who are unacquainted with our City Regulations. It was decided to advertise in same.

The following matters were referred to the City Engineer for inquiry and report—

(1) Application of P. J. Horan, Southside Road, for the placing of a retaining wall to protest premises from landside.

(2) Complaint made by H. J. Burrell of the present condition of Pennywell Road from Rocky Lane and the need of having proper surface drains placed there.

(3) Removal of grating, Cove Road, as requested by John Deer.

(4) Alteration of grading and building of retaining wall, Pleasant Street, as suggested by S. J. Coward.

(5) Application of the Central Bakery for permit to install electric motor for the purpose of driving machinery.

City Solicitor Carter, in reporting on the claims of S. O. Steele & Sons, Ltd., Water Street, H. G. Herder, Pleasant Street, and Messrs. Gibbs and Barron, on behalf of A. G. Andrews, New Gower Street, for compensation for alleged damage to respective properties, stated the Council was not in any way liable.

Tenders.

The contract for painting of interior of new City Stables, Hayward Avenue, as per specifications, was awarded J. R. Reid, and that for supplying of overcoats to the Municipal Inspectors, to T. J. Aylward.

Permits.

Permit is to be given P. J. Reardon to erect signboard at his premises, Theatre Hill, subject to the approval of the City Engineer.

Re the application of the Central Bakery to erect shed, Central Street, and Chas. Lewis to build garage, Freshwater Road, permits were withheld until plans are submitted.

The Medical Officer of Health reported 30 new cases of Scarlet Fever (3 deaths) in the city during the past week.

The new envelope bag is quite flat and, being devoid of any strap or handle, is carried under the arm.

A frock of brown crepe has a wide border of heavy soutache braiding in self colors used on the skirt.

Both the short sleeves and long tunic of a frock of broadcloth are trimmed with heavy bands of fox.

Colors particularly favored for velvet evening wraps are gold, jade, sapphire blue and American beauty.

There is no more becoming frame for the face than the huge collar of fur which is so fashionable.

A sleeveless tunic frock of brocade is worn over a slip of satin with long sleeves attached to the camisole.

Collars and cuffs of grey fox are charming on a suit of light blue woolen material with a very short coat.

Our Montreal Letter.

(From Our Own Correspondent)

PSYCHIATRIC CLINIC AT ROYAL VICTORIA HOSPITAL.

Mental testing is a big subject, and forms one of the phrases of the work which is carried on weekly at the Royal Victoria. It is but an initial step in a series usually leading to the return to normal mental health of those afflicted by some nervous disorder. Some of the cases examined were pathetic, others where the doctors' faces brightened as they heard stories of steady progress toward recovery. A twelve year old boy was examined. He had lived in one of the war torn countries of Europe during the recent upheaval; and, younger than he was, could tell more about the different armies and their leaders than either his father or mother. He walked into the white walled room in which the clinic is conducted, a sturdy, well-dressed little chap, quietly smiling as he faced the doctor. But when he sat down and the two spectators began to dis-

cuss him it was noticed that he paid no attention, his eyes remained fixed on the wall with an unseeing gaze; he had retired completely within himself. Not long ago he was one of the brightest children in the Montreal School he attended, and by degrees the teacher noticed a change coming over him; he became abstracted; he no longer paid any attention to the lessons in which he had once been so interested, and did not even appear to hear when he was spoken to. He was taken to this psychiatric clinic and the mental examination showed that he was in the grip of incurable insanity, an inheritance derived from an aunt. Voices talk to him, he says, and he answers them aloud, but he will not tell what they say to him. He lives in a secret world of fancy; the only indication of what is going on in the brain behind the quiet countenance is when the wide grey eyes—and they are beautiful eyes—lose their brooding stiffness and take on a wild glare, the unmistakable sign of a mind overthrown. A tragic little figure; an example of one of the great mysteries of life. Nothing can be done except

watch him and when the time comes put him where he can do no harm. **FATALLY CRUSHED BY MOTOR TRUCK.** We have quite a large number of very dangerous street corners in this city, where traffic is heavy, and it behooves one to "look, listen, and have his wits about him." Some of the streets are narrow and it requires one to be alert to escape meeting with an accident. Two men while attempting to cross from the Eastern Sidewalk at the corner of St. Peter and St. James Streets, encountered an auto truck going southward on St. Peter Street. One of the men drew back just in time to escape being knocked down. The other not acting so quickly as the first man, was struck by the front of the auto truck and hurled to the pavement; the rear wheels then passing over the victim's body. The accident took place at 10.25 in the morning and at 9 o'clock in the evening the victim had passed away from internal injuries. **HE PLEADED IN VAIN FOR A CHANCE.** In the Recorder's Court a few days

ago, an old offender was brought before the Judge by his wife for drunkenness and non-support. On the 18th of June of this year he was before the Judge on the same charge. On that occasion he pleaded for a chance to make good and the Judge granted his request. When the Judge asked the wife how he had behaved since his last appearance, the wife said it was the same old story. Work for two or three days a week then get drunk and give little or nothing for the support of herself and two little children. Then the prisoner began to cry and said: "Judge, don't send me to jail." "Give me another chance to make good." The Judge asked the wife how long she wanted him sentenced, three or six months. The wife remained silent. Then the prisoner broke out again, "Oh! Judge, give me another chance to make good." The Judge said, "Yes, I'll give you another chance to make good." "Go to jail for six months." The prisoner still pleaded "for the chance," but it was all in vain. A policeman grabbed him by the shoulder and led him to the cells. On his way the wife brought the two little children to their father, and said "Kiss them before you go." The

prisoner looked at his wife with a sorrowful and bade her be gone. He is enjoying prison life, where "the booze" and laziness are not allowed. He has to work for his living for the next six months, and his wife will be obliged either to work or depend on charity for support for herself and the two little tots who are, as yet, too young to know what it's all about. **THE MAD RUSH OF LIFE.** "The best that is in us is always worth giving. If life, as we know it, is made worth the living. Both labor and pleasure will find us most best." If each time, and all times, we give of our best. Life is greatest when it's not too soft or easy. Our whole trouble in our lot in this world rises from the disagreement of our mind therewith. The bother with too many people is that they follow "the Mad Rush of Life." The spirit of the age is the great tendency after pleasures even at the expense of duty. The Boston Pilot says:— A noted man arrived in Boston the other day. He was late for an appointment he made. Leaving the train

he hastily called a taxi and called to the driver, "Drive Fast." The taxi raced down the street and lashed around the corners with undiminished speed until the question suddenly arose in the man's mind whether he had told the driver where to go. The passenger leaned forward and shouted: "Do you know where you are going?" "No, sir," replied the driver, "I don't know where I am going but I'm driving fast." So many people of to-day, fascinated by the pleasure-seeking life about them are "driving fast" without knowing where they are going. They begin by spending more than they can afford on dress, theatre-going, dances, and the myriad indulgences that entice on every side. To pay for these luxuries they must retrench expenditures that duty demands of them. Their contribution to the support of home is minimized indefinitely. Those who should be nearest and dearest to them are in want of many little comforts which ordinarily would be in their power to bestow. But the spirit of extravagance transforms generosity into selfishness and sense of duty into irritation at all restraint. Yet God desires that we enjoy the

many pleasures that life offers, but always with our eyes on the light of our soul. It was Christianity that taught men the secret of real abiding happiness. It gave life a meaning, labor a sanctity, poverty a dignity, and suffering a sweetness. Its message was a good message and it set the hearts of men pulsating to a heavenly music quite unknown before. Once two little boys coming from Sunday School were talking of Elijah's ascent in the chariot of fire. Said one: "Wouldn't you be afraid to ride in that chariot?" "No," said the other, "not if God drove." To-day God drives the chariot of human progress, and it mounts as it advances. In the ride we touch the pleasure and the pain, the Cross of sacrifice and the symbol of love, the material and the spiritual. We temper laughter with tears, sunlight with shadow. But all through our life, with God at the wheel, we shall never drive so fast. Though the road may be filled with dangers, with St. Philip Neril we may say: "I despair of myself, but I trust in God." **FACE LIFE CHEERFULLY.** When the world looks dark and dreary

And the clouds are hanging low When you feel forlorn and sad As the shadows come and go If you'll only keep on hoping, Life will have a crimson hue. Soon the shadow clouds will pass And the sunshine come to pass. Hope on, hope on, when the world seems fearful; Hope on, hope on, when the world seems cold; Hope on, hope on, when the world seems cheerful; Hope on, hope on, is better far than gold. There's a happy silver lining For each cloud and dull despair There's a world of sweet contentment For each earnest, soulful prayer There's a joy for every sorrow And a smile in every tear There's a faith for every doubt And a hope for every fear. A little thought will show you how vast your own happiness depends on the way other people bear themselves toward you. The way you talk act towards those you come in contact with every day will tend to make your life miserable or happy. Missionary says: "Don't meddle. Find a noble and a noble some person who is responsible for you." (Continued on page 11)

OUR GREAT CLOSING-DOWN SALE

Is Now at its best for Big Bargains

It's still going "full blast," our Great Closing Sale. The reductions which were unbelievably large, even at first, have on many lines been made still greater, so that we have no hesitation in saying that the prices on all our many lines for this Sale are "the very lowest ever known," and the qualities are so exactly right, that every individual line is a special attraction in itself. New customers, as well as our old friends--to whom we express our appreciation of their liberal patronage--will be heartily welcome, and will receive all courtesy from our staff.

that by building homes for those and other boys. The "People's Paper" is the first to receive any news of this great movement in the press, as your correspondent is doing all the correspondence at present for the Association. Then the first annual meeting for the election of officers takes place and "the big game appointed," the present recording secretary will be dropped, as the work to be handled will require a typist and an experienced person to deal with the many matters pertaining to the opening of the first house. Nothing will appear in the Montreal papers about the movement until probably after the election of officers, directors and governors. R. J. LOUIS CUDDEHY.

PINE-EMBERLY.

On Monday, the festive day of St. Sylvester, the marriage of Miss Johannah Fine of Pownston, Parish of Bar Haven, and Mr. William Emberly of David's Harbour, took place at St. Sylvester's Mission station, David's Harbour, by Rev. Francis Cacciola, Pastor of St. Francis Xavier's Church Bar Haven and rector of the mission. The bride was attended by Miss Nellie Hickey and John Fine, brother of the bride, was best man. Misses Kitty Hiptach and Maria Caul were flower girls. The ushers were John Green, Joseph Brewer, Peter Caul and James Emberly. Following the wedding breakfast for the assembled guests a pleasing entertainment prepared for the occasion lent a brilliant touch to the scene. Before the conclusion the officiating clergyman told the partners for life that success would attain every worthy effort. They must be loyal to God. Sentiment and natural attractions have their legitimate influences, but true and exalted ideals must govern their wedded life. We are approaching the holy season of Advent, viz. the beginning of the ecclesiastical year. These four weeks represent to us the four thousand years that elapsed before the coming of Christ and the sin of Adam. He hoped their lives would be lives of honor.—COM.

STOLE COAT AND DUMMY.
Breaking the plate glass window of the Windsor Hotel branch store of Chas. Desjardins & Company, Ltd., Montreal, and holding up a taxi driver who attempted to prevent them, two bandits stole a fur coat valued at \$600 and the dummy holding it, at 4:30 o'clock in the morning and escaped in an automobile driven by a confederate. The automobile driver who was in front of the Hotel at the

time was kept away by a revolver.

THE ASSOCIATION FOR WORKING BOYS.
"Be careful of the little things you do. For oftentimes they echo back to you across the years. The tiny note you sent one sorry day; The coin that helped the beggar on his way. Ah, always take the time to stop and say 'The word that cheers! Perhaps some little seed may bring you fame; Perhaps the world will learn to love your name. Because of tears you dried of others. And when this life is through

Perhaps the little deeds you thoughtless do, Will be a glowing monument to you For countless years."
"The 'Salve Regina' Association for Catholic Working Boys' Homes," has been launched. The movement is a very worthy one and also a very successful one. The power behind the movement is a very worthy one and also a very necessary one. The power behind the movement is none other than a Sister of the Grey Nuns, one possessed of wonderful executive ability, one that has spent nearly forty years of a devoted, self-sacrificing life to the great cause of suffering humanity from the babe of a few days old to the old and decrepit man of eighty. She has seen and cared for life in many forms. She has come in contact with many generations, and, after twenty years of prayer, watching, and waiting, she's about to see her life's dream at last realized. A few days ago she laid her plans before Archbishop Gauthier, who warmly approved of them, gave his full consent and blessing on the work, and told her to start the great movement immediately. The Sister is selecting a body of devoted men, men of influence and practical ability as Directors and Governors who will manage and direct the movement under her guidance. The idea is to have a chain of fifteen houses scattered throughout the city for English speaking Catholic working boys in Montreal. None of the officials in charge of those homes will be paid a salary as it is a labor of love and sacrifice. Many think even before the work starts that it is doomed to be a failure. They base their opinions on other works of the past. The late Father Daniel Holland, C.S.S.R., began a similar work, a few years ago, but owing to indifference and non-support, it had to be abandoned. It is a curious fact, yet a well known and true one, that over forty years ago the English speaking Catholics had far more power in Montreal with a much smaller population than they have today with an increase of nearly fifty per cent. In the good old days they had representative and able men in every walk of life, but alas! they can't measure to that standard at the present time. Three great obstacles stand in the way: Selfishness, Jealousy and Indifference. True, the Jews have taken the Irishmen's place in Montreal. Instead of progressing they are simply retrograding owing to the great factors enumerated above. Your own city of St. John's, with its Catholic population just one-third of our English speaking Catholics here, can show twelve times the activities than we can. Toronto with the same population as Montreal can show six times the activities, and Halifax with about one-half our Catholic population can show ten times the activities. Two things are needed to remedy the state of affairs here, leaders in the Clergy and leaders in the Laity. To my mind I see a ray of hope for the future betterment in the Knights of Columbus. To them I look for a very desirable change from the present condition of things. At a concert given at the Ladies' Ordinary of the Windsor Hotel by the Variety Musical Club in order to procure funds for the Association, I noticed a large number of Newfoundlanders, including: Very Rev. Dean O'Rourke, P.P., Bay of Islands; Dr. Leo Jackman, Montreal General Hospital, the Misses B. and P. Vialombe; Miss B. Raymond; Miss Harrington of the Windsor Hotel; Miss Gertrude Mullally, Mr. V. Nash, Mrs. Coleman, Miss D. Fox, Provincial Inspector of Schools Thomas H. Cuddy, Mr. A. J. Grubert, Frank J. Jackman. The chairman, in addressing the audience on the nature and scope of the work, turned to the forty-five choristers who were seated at the side of the stage and said, "When I look at those bright, intelligent and manly boys, who have charmed us to-night with their fine programme of songs, recitations, dances and boxing, and think of boys of 12 years who have to leave St. Patrick's Orphanage with their little bundles under their arms to go out to fight life's battles all alone, it's indeed sad. But we want a remedy

The Annual

Poultry Show

The poultry exhibition at the C.I. B. Armoury closes to-night when the prizes will be distributed by Lady Allardice.

The Rhode Island Reds cup has been won this year by Mr. Errol Munn. The White Leghorns cup by President Williams, White Plymouth Rock cup by Mr. Herbert Winter, Brown Leghorns cup by Capt. Goodfellow, Government House, the Wyandottes cup by Mr. John Duff, and the Buff Orpingtons cup by Mr. James Pike, Crabbes Station. The attendance yesterday was much larger than on the opening day and there was much favorable comment on the exhibits. In addition to the poultry other items which attracted much attention were the automatic feeders, an oat sprouter in which was shown a splendid head of green feed over 6 inches high and grown in fourteen days. A lot of carrier pigeons some of which have been used locally to carry messages, several cages of rabbits and a comparison pair of White Leghorn hens. A note on the exhibition that one bird had a trap nest record of 182 eggs for the season 1923, the other birds record for the same period was 83. The business bird showed all the characteristics of her industry and alongside of her well-groomed companion, cut a sorry figure. The yellow pigment had disappeared from her back and legs and her feathers were ragged that is she had not moulted. From a practical standpoint this exhibit was the best of the whole show.

The annual dinner was held last night at 6.30 and was attended by Judge Freehill, Secretary Bayly of the Board of Agriculture, Capt. Goodfellow, Private Secretary to his Excellency the Governor, Rev. G. E. Rusted and son, and several others, including Mr. S. Cohen, who represented Grand Falls. President Williams presided.

The toast "Our Guests" was proposed by the chairman and responded to by Judge Freehill and Mr. A. J. Bayly. Our feathered friends were proposed by Dr. Tait, Vice-President and responded to in a very humorous strain by Mr. W. R. Butler. Mr. George Tucker proposed the health of the show officials, Secretary Carter and show manager Butler, which was responded to by these gentlemen. The Newfoundland Poultry Association was proposed by Rev. G. E. Rusted and responded to by Secretary McCarter. The President read a telegram from Mr. J. Pike, of Crabbes Station, an honorary member of the Association, extending greetings and good luck and also one from Mr. Walter Clayton, of Deer Lake advising that there will be a large number of standard bred birds on exhibition in next year's show from the new paper city. A vote of thanks was proposed to Spencer Club for their kindness in catering, after which a flash light photo of the dinner party was taken as a souvenir of the 1923 show.

In the Gymnasium the Committee gave a lantern lecture, Mr. A. J. Bayly spoke on potato diseases and Vice-President Tait gave an interesting talk on the various breeds of poultry illustrated by the lantern on the screen.

The critics call it the greatest story ever told in pictures.

Another Big Amateur Contest To-Night

CRESCENT THEATRE HAS BIG VARIETY PROGRAMME.

To-night, patrons of the Crescent Theatre are in for another feast of entertainment, it being the occasion of the weekly Amateur Contest. Dan Delmar says that a large list of competitors has been sent in to him, and among them are some excellent talent and therefore a good night's amusement is anticipated. It is advisable that patrons attend early so as to secure good seats.

Very few pictures of the present season can approach for dramatic thrill the smashing and terrific climax that is contained in the last scene of "Trifling Women" now at the Crescent. The story is about Zareba, a beautifully mysterious sorceress, for whose favours father conspires against son, and friend against friend. You will find it the most remarkable photoplay of the year, as well as one of the most beautifully set, well acted, and skillfully photographed. Two added features to this well-balanced bill are Dan Delmar in classy songs and Martha Day in step dances.

A motion picture that will startle the world—

The Mine of the Sea

THE FISHERIES OF NEWFOUNDLAND.

(By M. E. CONDON.)

Dear Sir—This is my last letter on the fisheries of my native land in the local papers, as my pen will be in the press abroad. In my former letters I made reference to the Codfish and Herring and in a condensed form to the future possibilities of same. Now I will make reference to Nid. Caplin which will in the future fisheries of our island home take third place or in other words take precedence to our Salmon Fishery. The financial value of our caplin as a food fish, put up and marketed under modern ideas will be worth millions of dollars to Newfoundland, and give employment to thousands, in handling of same in various ways for the consumer. To my mind God never ordained that caplin should be used as a fertilizer and wasted as it is to-day, and I am endorsed by Lord Morris one of Newfoundland's brightest sons. As is the commercial value of caplin as a good fish, Lord Morris is continually writing as to its quality. Caplin is the premier bait or food fish in the codfish in its season. Personally I have helped to seine fish millions of caplin for the Gloucester U.S.A., Nova Scotia and Newfoundland banking fleets in my thirty years experience, and I can further state that the tens of thousands of Newfoundland residing in the United States and Canada would purchase enormous quantities of caplin frozen, smoked, dried or put up in glass, also codfish, salmon and herring the products of their native land. As to quality they have no equal as food fish in the world to-day. As to our salmon it is the best in the world, principally owing to the abundance of food fish in our waters. The killing or bleeding of salmon would be a great improvement and make it a superior article of fish food, and the curing of salmon under modern ideas would make same a very valuable asset as to our fisheries, and a ready market to the consumer on the continents of America and Europe. We could utilize flat fish and numerous other fish in Newfoundland waters, inclusive of shell fish with the bye-products fertilizer; human and cattle, or good for cattle could be manufactured. Newfoundland wasteage for hundreds of years is colossal, and it is still going on year in year out. I will now make reference to Newfoundland's valuable seal fishery. As to our seal fishery, harvested from the icefields, the oil and skins of the seal, could equal one million of dollars, and the flipper and carcass of the white coat or harp seal, when taken fresh out of the icefields, as articles of food are delicious. The loss through wasteage turned to account should be worth hundreds of thousands of dollars annually. The cause of our great wasteage is the great lack of education by the Governments and the politicians of the past and present in not studying and exploiting Newfoundland's greatest asset, its fisheries by utilizing our colossal wasteage in our fisheries. Let them take a lesson from the other fish producing countries that are utilizing their wasteage. Newfoundland's neglect of its great "mine of the sea" the most valuable mine in the world is a standing reproach. Trade Agents As to Our Fisheries. The Government sent abroad as Trade Agents, in the foreign markets, men in many cases without any experience, to the amusement of our customers. Our competitors, Norway—the Norwegian Government sends their most experienced sons to the foreign markets to find out and cater to their requirements. It is my intention to make an application to Geo. F. Grimes, M.H.A. Minister of Marine and Fisheries, to go as a representative of my country in the foreign lands, and I will let you know the results. I have never received any compensation from a Government in my life. The British and Norwegian Flag. I must now make reference to the Norwegian Flag—Norway. What is Newfoundland doing to-day particularly with reference to exporting the fish products of the country? Is it shipped abroad in Newfoundland or British steamships—the Union Jack or ships of the Allies? United States, Italy, etc. We see fish shipped to the Mediterranean in Norwegian steamships, our keenest competitors who are trying their utmost to supplant Newfoundland in the fish markets. I maintain that we show no loyalty in employing the Norwegians to convey our fish to market, it's not good enough, and the loyalty must be only skin-deep. Let preference be given to the British flag and her Allies instead of leaving our men ashore. We have four great evils in Newfoundland to-day, lack of Compulsory Education, local jealousy, too much Religion in Politics, and too much politics in religion. For over thirty years I have advocated a compulsory system of education, God commands us to love one another. Do we do so? I say not. Now I must make a short reference to the Empire Exhibition to be held next year. How many Newfoundlanders do you see the Norwegian Government appoint on its fishery

board? Not one, but you will see a health that I lost in connection with my life work, the fisheries of our Native land. In the very near future I will be leaving for the continents of America and Europe to demonstrate to the investor, consumer and distributor of fishing products that M. E. Condon, your countryman has a gilt-edged proposition that has no equal on either side of the Atlantic in producing fish food; which when properly prepared is second to none. I ask my readers to overlook my errors in this letter and to remember that I have given over thirty years of my life amongst the fishermen and workmen and have just recovered my

District Grand Lodge S. U. F. at Ireland's Eye

The District Grand Lodge of the Society of United Fishermen was held in St. George's Lodge, No. 60, at Ireland's Eye, which lasted from Friday noon until Saturday evening. The District Grand Lodge officers and delegates from the ordinary lodges under the jurisdiction of this D. Grand Lodge, arrived by the S.S. Malakoff on Friday, Nov. 23rd, and were met by members of Lodge No. 60 who accompanied their hosts to their respective homes.

The District Grand Lodge opened in the usual way at 2 p.m. After an address by W.D.G.M. Albert Haynes, and the Minutes of the former meeting being read the Lodge went into general business for the benefit of the order. Many speakers expressed their views of the Society of United Fishermen, speaking of it as one of the best Societies in the world if the members would unite and live up to the principles of the Order. A report from the Supreme Grand Lodge was received and many items of interest were discussed in the D. Grand Lodge. The session adjourned at 9 a.m.

After an interval of two hours, the D.G. officers, delegates and members of St. George's Lodge, No. 60 met in the Lodge room for an ordinary meeting of the Lodge. The various degrees were worked, two members being initiated and obligated in the third degree. The meeting lasted till an hour too late or rather too early to mention.

Pursuant to adjournment, the District Grand Lodge met again at 9.30 a.m. Saturday, and continued until 12.30, when it closed. We were sorry that owing to inconveniences of some of the officers they were unable to attend, but nevertheless members of Lodge No. 60, who were District Grand Lodge members, acted in their places and the meeting was a very pleasant and enjoyable one. The District Grand Lodge officers were as follows:

D.G. Lookout—Bro. W. G. Hayter.
W.D.G. Master—Bro. A. E. Haynes.
A.D.G. Chaplain—Bro. W. Randell.
D.G. Chief Officer—Bro. S. Randell.
D.G. Second Officer—Bro. N. Toope.
A.D.G. Quartermaster—Bro. L. Toope.

A.D.G. Secretary—Bro. L. Hodder.
D.G. Purser—Bro. J. Shelly.
On Sunday morning a motor boat was ready to carry the outgoing officers and delegates to Trinity, where they joined the train and proceeded to their respective homes. This is the third time that a District Grand Lodge has been held at Ireland's and we hope it will not be the last. We wish the Society of United Fishermen every success.—O.P.

The next District Grand Lodge meeting will meet at St. Paul's Lodge No. 49 Trinity, sometime in February, where the annual meeting will be held, and the election of officers will take place.

Wei-Hai-Wei to Become Chinese Again, is Report

NO CASH DEMANDED.

New York, Nov. 25.—The agreement providing for the restoration by Great Britain of Wei Hai Wei to China, the text of which was received yesterday from Peking, contemplates full Chinese administration with certain privileges reserved for the British navy. The British navy is to be allowed to use a suitable anchorage for a specific period, with the privilege of renewal. Some lands and buildings are to be leased back to the British navy for purposes of drilling and recreation.

Chinese maritime customs officers will collect dues and control the port as in other trading ports, part of the customs revenue to be used for the administration of the city as well as for the construction and upkeep of roads.

Permanent leases held by foreigners in the territory will be changed into thirty year leases, with the privilege of another extension for a like period on request. No monetary demand will be made by Britain on account of expenditures made in the development and upkeep of the leased territory, but the Chinese Government will consent to the construction of roads for automobiles and carts connecting Wei Hai Wei with the interior of China to insure the trade of the port—Montreal Star.
