Next meeting to be held at the home of Mrs. Hay on July 11th.

No one can visit Watford cemetery nowadays without a feeling of pride in its improved appearance. Not since the place was set aside as a burying ground in the early eighties has there been evidence of such thoroughness and care in its upkeep as has been developed under the system by which funds from the sale of lots and from fees for plot owners and kept in a separate fund for cemetery purposes only and expended by a committee. Up to a few years ago receipts from cemetery users went into the town treasury, for which also funds necessary for expenses were taken. The present system provides a fund that is rightfully expended upon beautifying the property and affords an incentive to keep up this good work. The committee in charge should receive the thanks and financial support of all concerned.

Mr. and Mrs. P. J. Dodds celebrated their 25th wedding anniversary recently at their beautiful residence, Winyard Cottage. The Watford and Strathroy branches of the Andrews Wire Works held their annual picnic on Saturday, June 23rd at Arcadia Beach, leaving Watford about 100 strong in cars at 7.30, arriving at 9.00. The day being extremely warm nearly everyone enjoyed the bathing until the dinner hour. After dinner the single and married men's ball game was the next exciting event. Lunch was served at 5 p.m. after which a long list of sports brought the program to a close with the general feeling that this picnic was one of the most enjoyable the firm ever held.

Oke Elected by a Good Majority

Considerable interest was taken in the contest in this riding on Monday and the workers for the different candidates were kept busy all day. Definite figures are not yet obtainable, many of those to hand, supposed to be authentic, failing to harmonize, but all show that Leslie W. Oke is elected by a majority of between four and five hundred. His majority last election over Dr. Martyn was 2400. The vote polled was a small one, over a thousand less than the previous contest. We hope by next week to be able to give the official figures in detail.

#### NOTE AND COMMENT

**Meaford Mirror:** Who do you love most in the world? Your wife? We thought so. Well, do you agree with everything she says? No! Then how in thunder do you expect the Mirror to please you in every utterance?

Geography may soon be taught to children all over Canada from the same text book. Less than a year ago a new geography and atlas were published by Prof. Geo. O. Cornish, of the University of Toronto, and already it has been authorized in six of the nine Provinces.

Britain is building a submarine more powerful even on the surface than most surface warcraft. Other nations cannot complain. Britain offered to abolish submarine warfare entirely, but the other countries represented at the Washington Conference would not concur.

**Woodstock Sentinel-Review:** When we are not complaining about the cold we are complaining about the heat, and when it isn't too dry it's too wet. But, on the whole, conditions are fairly reasonable, and we manage to get a good deal of satisfaction out of our complaining.

After a seven-year trial the province of Manitoba discarded the prohibition law Thursday and by a large majority adopted the Moderation League liquor bill which places the sale of liquor under government control. There was a very large vote polled and in Winnipeg only six votes gave dry majorities.

Any person who has taken an active part in a political campaign often wonders at the indifference displayed by many voters as to the issues before the electorate. Many of them have to be dragged to the polls like sheep to the slaughter. It will be well for this, or any country, when the time comes, if ever, that every voter will take such an interest in the franchise entrusted to his keeping as to deem it his duty and sacred privilege to discharge it.

Traffic officers have been instructed by departmental heads to be especially vigilant this year and apprehend all reckless drivers. It is pointed out that speeding is not the most serious danger feature, but drivers will dodge in front of other cars and make dangerously sharp turns, thus imperilling not only their own lives but also of others on the highway. Young men, accompanied by young women, are declared to be the greatest offenders along this line. "We are out to get the dangerous drivers and thus make the provincial highways safe for the travelling public" is a statement made.

**Kingsville Reporter:**—We do not believe in too much corporal punishment, but there are times and occasions when it seems to be quite proper—in fact an absolute necessity. A certain truant officer in Gosfield South was complained to by parents, about their children being sent home from school and playing hooky. He investigated, and found the teacher, when the youngsters became unruly, sent them home and if they persisted in coming back, would not teach them. He went to the teacher for an explanation of her failure to enforce discipline. That lady promptly slapped his face. This was the "straw that broke the camel's back"—or nearly so. He immediately took her across his knee and spanked her soundly. This was perhaps a little unceremonious, but it evidently had the desired effect for the obstreperous kids now toe the chalk line.

#### COUNTER CHECK BOOKS

The Guide-Advocate is agent for the Appleford line—a better grade book and at the lowest price. Before you give your order to any travelling agent, phone 11w. There is a tendency among some of the check book firms towards higher prices in the near future; however, we have been instructed to accept orders at present prices for delivery any time in the next three months. Look up your supply and if you will require more in the next six months, give your local agent the order.

#### KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. #### HALL'S CATARRH MEDICINE

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions.

## What Did You Do with That Match?

The suffering and loss caused by forest fires are common knowledge and, yet, carelessness with fire in the forest continues. These forest fires are practically all preventable.

### Save Ontario's Forests They're Yours

Every individual who steps inside the woods should remember he is in the midst of highly inflammable property, for the upper layer of ground in the forest consists of partially rotted wood, which will burn. Lack of consideration for this gave rise to the strenuous situation in Ontario the last week of May and the anxiety for days in some settlements.

Thoughtlessness or bad judgment or carelessness cause practically all forest fires. Your co-operation, as a citizen, is needed to prevent these fires by taking the same care in the woods as in your own home.

One of the most delightful of the Methodist Young People's annual picnics was held on Wednesday afternoon of last week at Hillsboro. The weather was ideal, old Lake Huron in one of her gentlest moods, the young ladies of the party had excelled even themselves in their culinary achievements for the occasion and "all went merry as a marriage bell."

#### FORMER ARKONA WOMAN DIES AGED 92 YEARS

Mrs. Wm. Thomas, widow of the late William Thomas, formerly of Arkona, died in London at the residence of her daughter, Mrs. John Hockin, where she had resided for the past nine years, aged 92 years.

Deceased was well known in Arkona where she had lived over thirty-five years, she had also been a resident of Watford from 1870 to 1879. She is survived by one son, William J. of Sarnia, and two daughters, Mrs. Mary Hockin, London, and Mrs. John Leonard, (Lizzie) of Port Huron.

Mrs. Thomas was a member of the Church of England and the remains were taken to Arkona Saturday morning where interment was made in the family plot.

#### INCH IS NOT GUILTY

At the conclusion of the criminal case of William Inch in county court Friday afternoon, charged with theft of farm stock from the farm of Mrs. Ross Kerr, J. M. McEvoy, K.C., counsel for defendant, moved that the case be withdrawn from the jury on the ground of no intent. Judge Taylor then instructed the jury to return a verdict of not guilty, which the jury did without retiring from the court room.

The jury was made up as follows: Daniel Shay, Plympton; Jas. G. Walker, Sombra; Alex. Jap, Bosanquet; Geo. E. Chester, Sarnia township; Angus H. Welch, Enniskillen; Duncan Black, Brooke; H. J. Park, Plympton; Robert Lean, Bosanquet; Myers Elliott, Euphemia; Joseph V. Enniskillen; John Anderson, Dawn; M. E. Barrett, Warwick.

#### MAXWELL-CRAIG REUNION

Thursday, June 19th, was a day set apart by the Maxwell-Craig families for their annual reunion, which was held at Lake Huron Park, Sarnia. The day was ideal for boating and bathing and the ferris wheel and merry-go-round was well patronized. The program was everyone enjoy themselves in their own sweet way, and they certainly did. It was touching to see the expression of the faces and the tears in the eyes of old friends who had not met for years. Only about two thirds of the families got there, but the hundred or more who were present will have something to look back to with pleasure.

Applegate, Mich., turned out the largest bunch, also Port Huron, Port Sanila, Durand, Flint, Birmingham, and Pontiac were well represented. Some came from Watford, Strathroy and East Williams. It was decided to hold the next reunion at Applegate, Mich., on the third Tuesday in June, 1924, and while we look back with pleasure we will also be looking forward with anticipation for the next meeting. As there was a smattering of German blood in some of the cooks the variety of good things we had to eat can better be imagined than described.—J. C.

On November 15th last a farmer of East Kent purchased a small herd of eleven beef cattle from a Chatham drover. The cattle weighed 13,200 pounds and the farmer paid for them at the rate of 5 1/2 cents per pound. The other day a farmer brought the cattle to the city and resold them to the same drover at 7 cents per pound. Since November the cattle had gained 3,270 pounds, their total weight being 16,470 pounds. After figuring out the cost of feeding and otherwise taking care of the cattle, the farmer realized a net profit of \$426.96, besides feeding a number of hogs which were permitted to run with the cattle.

IT HAS DONE WONDERS FOR ME

Mrs. W. J. Armstrong of 89 Horton Street, London, Ont., finds Dreco the ideal medicine for regulating her digestive organs.

Once the stomach gets out of order the other organs of the digestive system become "upset". Gastritis, pains in the abdomen and other distresses follow one upon the other. By toning and regulating the stomach, Dreco, the famous herbal remedy, brings quick and lasting relief to all who suffer these ailments. That is what Mrs. Armstrong discovered and tells you about in the following statement.

"No medicine I have ever taken gave me such quick relief as Dreco. I have been troubled with gas in the stomach after meals, heartburn and nausea. I often felt very dizzy and spots floated before my eyes. I was constipated and had pains in my back over my kidneys.

"Two bottles of Dreco have done wonders for me. I never feel dizzy, am free from backaches, have a good appetite and everything agrees with me. My constipation has also been relieved. Dreco gets my hearty approval."

This is the time of the year when the whole body needs a thorough house-cleaning, and thousands who have discovered the value of Dreco as a spring tonic and regulator, will avail themselves of its health giving properties.

Dreco is a new and scientific combination of herbal remedies, designed to correct such stomach disorders as gastritis, acid risings and sourness. It tones up torpid livers and acts gently but firmly on the bowels.

Dreco contains no mercury, potash or habit forming drugs.

Dreco is being specially introduced in Watford by Siddall's Drug Co., and is sold by a good druggist everywhere.

## READING BY INTENSE LIGHT

The light should come through ground glass to soften it. Never use clear glass for either gas or electricity. Oil lamps give out a soft light, therefore clear glass chimneys.

Take our advice—do not read or sew by a dim light—it will be a direct strain upon the sight centres of the brain. On these two things hang the fundamental laws of sight economy. Never use cheap or pick-up glasses—come to us for advice about things optical.

## ITEMS FROM FAR AND NEAR

Some Wise, Some Otherwise Some Newsworthy, All Readable.

Detroit authorities don't mince matters over the wild-cat management of running automobiles. 300 violators were before the bench one day and in 4 hours 150 speeders were fined \$1,400 and some were sent to prison.

Someone with nothing better to do has estimated that a man says eleven million words in a year. Perhaps a college of statisticians could essay the task of estimating how many a woman uses.

A few changes have been made in the Bank Act. One prohibits a bank from making any charge for keeping a customer's account without an agreement with the customer; and the second requires the rate of interest and discount charges by the bank to be stated on the face of the note.

Submarine X-1, the largest and most powerful underwater craft in the world, was launched at Chatham, England, on the 16th inst. The "mystery ship," as she has been called, displaces 2,780 tons on the surface and 3,600 tons submerged, which is greater by more than a thousand tons than any similar craft now afloat. The X-1 will mount a 12-inch gun and with her great speed will be a match for any surface war craft.

Senator Copeland, of New York, says that it takes 63 dozen eggs to pay a New York plasterer's wage for eight hours' work, that 17 bushels of corn are required for a bricklayer's day. The painter gets the equivalent of 23 chickens, the plumber gets the equivalent of 42 pounds of butter, or the output of 14 cows. After eight months of feeding a hog will pay a carpenter one day's wage. These comparisons show that something is wrong in the constitution of industry and agriculture.

The Bank of Montreal crop report dated June 21st says that in the Province of Ontario good growing weather and general conditions have more than made up for the backward spring. The early June rains have made growth rapid. Although more rain is needed now, conditions on the whole are most favorable. Fall wheat heading out and growing fast, a good average crop assured. Spring wheat crop late, acreage slightly below average due to late spring. Oats doing well. Rye a small crop. Barley a little backward. Hay, all varieties, above average. Fruits show promise. Strawberries reported good. Pastures in excellent condition.

A wise old minister, before parting with a young couple he had joined in matrimony, used to slip a card into the bride's hand, on which was printed this advice: "When you marry, love him. After you marry him, study him. If he is honest, humor him. If he is generous, appreciate him. When he is sad, cheer him. When he is quarrelsome ignore him. If he is slothful, spur him. If he is noble, praise him. If he is confidential, trust him. If he is secretive, encourage him. If he is seditious, trust him. If he is jealous, cure him. If he favors society, accompany him. When he does you a favor, thank him. When he deserves it, kiss him. Let him think how well you understand him; but never let him know that you manage him."

Persons who stick postage stamps on cheques and other documents subject to the stamp tax after October 1st will have to step out and do it all over again, using inland revenue stamps. Other changes in the stamp tax act, which go into effect August 1st, include an amendment which makes it necessary to affix a two-cent stamp on post card and form letter receipts. A former ruling had held these exempt, and many ingenious forms of specially folded letters and post cards were devised to take advantage of the ruling and dodge the payment of the tax. On and after August 1st the maximum tax on cheques, bills of exchange payable at sight or after three days and receipts given bank depositors who withdraw moneys from their accounts will be \$1. For promissory notes and time bills of exchange, the tax remains as at present, two cents for each \$50, and no maximum fixed.

**Asthma Victims**—The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

## GENTLE REMINDERS

It's as easy to learn to be happy as it is to be grouchy—and there's a lot more fun in it.

You must manufacture your own joy. The only real joy-factory is with yourself.

The secret of happiness might almost be expressed in one word—Helpfulness.

## THIN, IMPURE BLOOD

Means a General Weakness and Loss of Health.

If people would realize the importance of keeping the blood rich and pure there would be less sickness. The blood is the means through which the nourishment gained from food reaches the different parts of the body. If the blood is impure, the nourishment that reaches the nerves, and organs of the body is tainted with poison and disease follows. The blood is also the medium by which the body fights off disease. If the blood is thin and watery the power of resistance to disease is weakened. If you are weak and run down, if your nerves are frayed, if you lack ambition, have no appetite, and are short of breath after slight exertion, the trouble is almost always due to poor blood. In cases of this kind you should take Dr. Williams' Pink Pills to build up the blood. They help to enrich and purify the blood from first to last dose, and in this way bring new health and strength to weak, rundown people. Mrs. John Timmons, Elmvale, Ont., tells of the benefit Dr. Williams' Pink Pills were to her, as follows:—"I became very weak and was hardly able to walk and had to be helped upstairs. I had no appetite and slept poorly at night. I finally went to a doctor who told me the trouble was lack of blood and that my condition was serious. He gave me medicine, which I took faithfully, but did not improve. I was advised to try Dr. Williams' Pink Pills and did so, and after I had taken two or three boxes felt that they were helping me. I could eat better, and I slept better. I continued using the pills for some time longer and quite recovered my old-time strength and feel that I have to thank Dr. Williams' Pink Pills that I am not an invalid today."

You can get these pills through any dealer in medicine or by mail, post-paid, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**Sores Flee Before It**—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All similarly troubled should lose no time in applying this splendid remedy as there is nothing like it to be had. It's cheap, but its power is in no way expressed by its low price. m

## FOREST

Miss Louella Shannon had the misfortune to run a staple through the forefinger of her right hand, one point penetrating the finger nail. Medical aid was secured, and it is healing nicely.

Mr. Jas. Sadler has purchased N. Dailey's mercantile business at Ravenswood, taking possession at once. Mr. Dailey will manage the hotel that is being erected at Ipperwash Beach at the foot of the 12th concession of Bosanquet.

Mr. and Mrs. Newton Tripp are on an extended visit in the west. They will go to Banff and Lake Louise, and will visit their sons, W. A. Tripp at Milestone, Sask., and J. P. Tripp, at Oxbow.

Miss Ivadell Skinner, a popular bride-elect, was tendered a miscellaneous shower at the home of Miss Thelma Rawlings with about thirty present. Master Grant Rumford and little Leah Ellerker, dressed as bride and groom, presented a gayly decorated basket filled with lovely gifts, to the future bride.

## PETROLEA

H. W. McLeod, reeve of Petrolea, has sold out his barber shop to Mr. Babcock who has been employed with Mr. McLeod for the past four years.

An event of unusual interest took place in Petrolea on June 21st, when Mr. and Mrs. Charles Gregory, of Grand View Gardens, celebrated their golden wedding, having been married fifty years ago at the Baptist parsonage on the sixth line of Markham by the Rev. J. B. Moore, now of Watford, Ontario, who was present at the anniversary.

A stable on the rear of Charles Pearce's premises was destroyed by fire last week, entailing a loss of \$500, which is partly covered by insurance.

Mr. P. W. Hone has been successful in his final examinations at Toronto University, graduating with the degree of B.A., in first class honors, also specialist in mathematics and physics.

A wedding of unusual interest took place in the Marthville Methodist church, on Tuesday, June 12th, when Mary Una, youngest daughter of Mr. and Mrs. W. J. Kerby, became the bride of Angus Edward Dobbie, son of Mr. and Mrs. A. Dobbie, of Georgetown, and associate editor of the Advertiser-Topic.

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

## What is CASTORIA?

### Mrs. Holmberg Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Viking, Alta.—"From the time I was 15 years old I would get such sick feelings in the lower part of my abdomen, followed by cramps and vomiting. This kept me from my work (I help my parents on the farm) as I usually had to go to bed for the rest of the day. Or at times I would have to walk the floor. I suffered in this way until a friend induced me to try Lydia E. Pinkham's Vegetable Compound. I have had very satisfactory results so far and am recommending the Vegetable Compound to my friends. I surely am glad I tried it for I feel like a different person now that I don't have these troubles."—ODELIA HOLMBERG, Box 93, Viking, Alta.

Letters like this establish the merits of Lydia E. Pinkham's Vegetable Compound. They tell of the relief from such pains and ailments after taking it.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and today holds the record of being the most successful remedy for female ills in this country, and thousands of voluntary testimonials prove this fact.

If you doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for Mrs. Pinkham's private text-book and learn more about it.

They keep the child in a constant state of unrest and if not attended to, endanger life. ### WARWICK SUNDAY SCHOOL CONVENTION

The annual convention of the Warwick Township Sunday School Association was held in the Methodist Church, Warwick Village, Wednesday afternoon, June 14th. Rev. A. R. Johnston, pastor of the entertaining church opened the convention with devotional exercises, after which the president, Dr. G. Hicks of Watford, took charge of the business session.

Reports of the year's work were given by the president and the secretary-treasurer, J. F. Smith of Forest; also by the following superintendents of departments: Miss L. Ross, elementary; Miss M. Mansfield, adult Bible class; Miss M. McLeay, home department, and Rev. H. V. Workman, teacher-training department.

Rev. H. V. Workman of Watford gave a demonstration of the best method of teaching the Sunday School lesson to an adult Bible class, resolving the entire convention into a class for that purpose.

The delegates were entertained at supper in the Orange Hall by the ladies of the Methodist and Anglican churches of Warwick.

The evening session opened with a song service and devotional exercises conducted by Rev. T. DeCourcy Rayner of Watford. Rev. L. P. Hagger of St Mary's church, Warwick, was the first speaker, and made an eloquent plea for a whole-hearted co-operation in the work of the Sunday school.

Rev. W. P. Fletcher of Toronto gave the closing address of the convention, and in a message full of inspiration, pleaded for as much earnestness to be given to Sunday school work as is given to secular education, to good roads, or to any modern business or commercial proposition.

The following officers were appointed for the year: President, T. McCormick, Kingscourt; vice president, J. Thomas, Watford; secretary-treasurer, J. F. Smith, Forest; children's work superintendent, Miss L. Ross, Warwick; boys' work superintendent, Miss F. E. Edwards, Warwick; adult Bible class superintendent, Miss M. Mansfield, Watford; home department superintendent, Miss M. McLeay, Watford; superintendent of teacher training, Rev. H. V. Workman, Watford; superintendent of temperance work, Dr. G. Hicks, Watford; missionary superintendent, J. Robinson, Warwick village.

The Congregational church, Watford, was chosen as the place of the annual convention for next year.

An interesting find was made on June 3rd, by William Hicks, who works for Bruce Litngow, 8th line, Bosanquet. While taking a walk in the woods on the farm he discovered in a tree the remains of a toy balloon with a tag attached, saying that it had been sent out from Lansing, Mich., by the Weather Bureau, on March 25th, 1923, and requesting that it be returned as soon as found.

Three new transformers of 250 R.V.A. capacity have been installed by the Hydro Commission at Strathroy. In 1914 three of 75 capacity were required, but owing to increased domestic consumption the larger ones have become necessary.
