DOMINION ALLIANCE DECIDES TO ENTER POLITICAL ARENA ON THE LIBERAL PLATFORM

Ontario is in for the Biggest Prohibition Fight in Its History—Temperance Party Will Be the Second So Far as Politics Are Concerned—Rev. Canon Greene Is New President.

Ontario is now in for the biggest prohibition fight in its history. Yesterday, the Alliance executive, with 1175 registered delegates, created itself the second party in the Ontario political arena, and adopted the Grit platform, its leader and machinery as an alliance annex.

Last night visitors to the Massey Hall might almost have thought that the wave of "banish-the-beer" sentiment had already overwhelmed its opponents.

Money and Effort. Joseph Gibson, the retiring president, pointed out at the close of the convention that the delegates were in a frame to scatter throughout the province, and that the delegates were given a banquet, free of charge, by the local committee, with the ladies of the local temperance societies as hostesses.

The convention responded by adopting a motion to raise \$5000 to wipe out the deficit, and \$15,000 for the campaign expenses of the present year.

Then F. S. Spence presented the political action report at the afternoon session. There was a momentary note of hesitancy about taking the plunge for Rowell. Rev. John B. Anderson said, "Leave out the names of Mr. Rowell and Sir James Whitney."

The committee's report was then adopted unanimously. "God be praised," exclaimed Rev. Dr. Carman, "I am glad beyond all words that I have lived to see this day."

The political action platform adopted was as follows: "That this convention hail with delight the advanced position taken by the Liberal party in the resolution by which N. W. Rowell, K.C., leader of the

EAST END STUB FARES ARE OUT

Five Cents Cash or Six Tickets For a Quarter to Ride Twenty-Two Hundred Feet.

To ride on a street car any distance up to 2200 feet will cost east ends five cents.

Following the order of the Ontario Railway Board that the Toronto and York Radial Railway must transport passengers on the East Queen street stub line beginning March 1, the company has given notice that the rates will be five cents cash, or six tickets for 25 cents, and children under ten years, and not in arms, 3 cents each. The car will be run from Scarborough Beach Park to Willow avenue, a distance slightly less than two-fifths of a mile.

To pay a double fare for persons so unfortunate as to live any distance east of Scarborough Beach will be something out of the ordinary and also the infliction of a hardship. Fully 6000 people have been using the stub line under the transfer system, but it is likely that there will be a "we walk" order adopted by quite a number, who will board the westbound cars at the Scarborough loop and thereby get away with a single fare.

Having Worked BY NE TEMERE. Decree Operates to Make Home a Hell Says Member of Relief Board.

LONDON, Feb. 28.—(C.A.P.)—At a meeting of the board of guardians at East Stonehouse yesterday, two urgent cases of relief were dealt with, where trouble had arisen between husband and wife upon religious grounds. A member of the board said it was apparent difficulties had arisen from the refusal of the wife to leave her home, and she was causing more trouble than generally imagined. It played havoc with the household and was made to operate in such a way that home became a hell. It behooved guardians and everyone concerned with the welfare of the people to try to operate wherever this kind of thing is reported.

West Toronto Y.W.C.A. For the purpose of forming a Young Women's Christian Association in Ward Seven and the vicinity a meeting will be held in the Y.M.C.A. rooms at 1654 Dundas street at 2.30 on Tuesday afternoon. For a long time the need of such an organization in the west end of the city has been felt, and at the meeting on Tuesday the plans for the work will be outlined and discussed. All those who are interested in the work are invited to attend.

TAX EXEMPTION

H. C. Schofield, Conservative member for South Wellington, introduced a bill in the legislature yesterday to provide exemption from assessment up to \$1000 on all residences in cities with over 10,000 population. By this bill Mr. Schofield believes that assessing a house at its selling value, minus \$1000, would ease considerably the burden of taxation and encourage workmen to build their homes instead of renting them.

TURKEY WILLING TO MAKE PEACE

Porte Is Apparently Prepared to Cede Adrianople, Where Bombardment Still Continues.

LONDON, Feb. 27.—(Can. Press.)—The report of fighting at Bulair yesterday appears to have been inaccurate. An official announcement issued at Constantinople today states that the situation has not changed either at Bulair or Tebalta, but the bombardment of Adrianople continues.

Turkey has renewed her overtures for peace on the basis of the cession of Adrianople, employing the good offices of Ruzista for that purpose. The Bulgarian cabinet has taken the proposal under consideration, but no decision has yet been reached.

It is reported through Vienna that Serbia is sending 30,000 troops with siege and field guns by sea from Salonika to assist the Montenegrin attack on Scutari.

DR. A. R. PYNE WAS STRICKEN DUMB

Well-Known Physician Suffering From Peculiar Ailment As Result of Fall on Steps.

With an affliction so mystifying that his physicians have so far been unable to effect a cure, Dr. R. A. Pyne lies at his home, 124 Carlton street, in a serious condition. The doctor has just recovered the power of speech which he lost when he became ill.

Dr. Pyne received his injuries in such a peculiar way that a form of paralysis affected the muscles of his mouth and the back of his head. He was leaving the home of one of his patients not long ago when he slipped on the steps.

Altho he recovered his balance without falling, Dr. Pyne felt a peculiar sensation in his neck and head. When he arrived at his home he was practically dumb. Mr. I. H. Cameron was called in and has been attending Dr. Pyne since.

Dr. Cahern was very reticent when spoken to by the World last night and would not discuss the case. Hon. Dr. R. A. Pyne did not care to go into particulars.

WILL INVITE DR. FRIEDMANN TO DEMONSTRATE "CURE" IN CANADA

OTTAWA, Feb. 27.—(Special.)—In the house this afternoon A. K. Maclean (Halifax) enquired what action the government intended to take in regard to securing for Canada the new Friedmann cure for tuberculosis.

Mr. Maclean read a newspaper report which stated that the United States Government had sent an army surgeon to meet Dr. Friedmann upon his arrival in America. This surgeon had secured samples of the new cure, and the United States Government was at present having it tested. He advocated the sending of a qualified man by the Dominion Government to see Dr. Friedmann, and, if possible, secure some of the new serum.

The prime minister in reply stated that the government would give its immediate attention to the subject. He doubted, however, the expediency of sending a doctor to see the scientist, stating that he thought the more practical plan would be to endeavor to induce Dr. Friedmann to come to Canada and establish a station where he could administer the new remedy.

NAVAL DEBATE IS CARRIED ON INTO EARLY MORNING HOURS

LEADERS REVIEW ARGUMENTS

Galleries Crowded in Anticipation of Second Division on Bill, But No Intense Excitement Manifested—Laurier Charges That Government's Course Is Not One of True Canadianism.

OTTAWA, Feb. 27.—At an early hour this morning a vote on the naval policy of the government had not been reached. The galleries were crowded to capacity, probably half of those present in the Speaker's gallery being in full evening dress, in anticipation of the vote.

There was not, however, the same excitement which prevailed when the vote on the first reading of the bill was taken two weeks ago. On that night the leaders merely contented themselves with a brief summing up of their policy, and the condemnation of their opponents' policy. Tonight, however, both prime minister and Sir Wilfrid Laurier exerted themselves to the utmost to make a clear and concise case for their party.

Hon. Mr. Borden declared that if there was an election at the present time, the Liberals would fare worse than they did in the one of 1911.

Policy is Permanent. In taking up the subject of redistribution, Premier Borden pointed out that in the 15 years Sir Wilfrid had been in power he had never brought down a redistribution bill the year after the election. He enquired of Sir Wilfrid if the bringing down of a redistribution bill would necessarily mean an election. Personally he thought not.

The prime minister declared that his policy embraced a permanent policy of naval defence, as well as the present emergency contribution. He declared that the average Canadian young man was not keen for a life on the sea, but if ever there arose an emergency he would be debilitated for an instant but that there would be plenty of men available.

The prime minister advocated an imperial unity, one flag, one fleet and one imperial policy. He did not believe in the idea of five fleet units.

Past Day of Tutelage. Sir Wilfrid Laurier in his speech declared that Canada had passed the day of infancy and tutelage. We are now a nation and as a nation should accept the defence of ourselves.

He denounced the German war scare as absolutely without foundation. He reviewed the history of Germany and the growth of her commerce. He thought that it was only natural that she should increase her navy in order to protect her commerce on the high seas.

In conclusion, Sir Wilfrid supported the "tuff" amendment, declaring that the important subject now before the house should be first submitted to the people before action was taken.

More Talk Needed. Hon. H. R. Emmerson declared that there could not be too much discussion on an important measure like the one before the house. He intimated that if the government had allowed more freedom of discussion there would now be less support of the government's naval policy.

Mr. Emmerson finally won his point, and read from a speech made by Sir John A. Macdonald, in Charlottetown, P.E.I. in 1864. In this speech Sir John had strongly advocated the establishment of a Canadian navy and the independence of Canada. Mr. Emmerson declared that all the fathers of confederation had favored the local navy idea. Mr. Emmerson declared himself to be opposed to that school of imperialism which would make of Canada a small province in a big fed.

"If you suppress the nationhood of this country he continued, 'you sow the seeds of destruction so far as the empire is concerned.' The sum of \$35,000,000, the member

Hon. James Duff Says Readjustment of Burden of Cost Must Soon Be Made.

ST. CATHARINES, Feb. 27.—(Special.)—That the most effective way to solve the question of boys leaving the farm is to make the farm conditions more attractive that they may be induced to stay, was the declaration of Hon. Jas. Duff, minister of agriculture at the banquet of the Niagara Peninsula Fruit Growers' Association at the Willard House tonight.

One of the mediums of improvement he declared was better roads and he felt that the motorists must in the future bear their share of the burden. He would make a source of revenue whereby the conditions could be remedied. The banquet was held in connection with a convention held here this afternoon when addresses on questions of interest to fruit growers were given by experts from a distance.

MONTREAL JAIL TO BE PROBED

Two Prisoners Died Within Two Days and an Investigation Has Been Ordered.

MONTREAL, Feb. 27.—(Can. Press.)—The fact that two prisoners have died in the Montreal Jail within two days may result in an investigation being made into the manner in which prisoners are treated. Both men died without having received proper medical attention, owing to the fact that Dr. Benoit, the jail physician, was absent from the city.

An inquest was held at the morgue into the death of Adolphe Marchand, who died in the jail Tuesday. Before the inquest was adjourned, the body of John Cutler, who died in the hospital ward of the jail last night, was brought to the morgue.

The autopsy held on the body of Marchand showed that the man had died from typhoid fever.

LIBERALS AFRAID OF AN ELECTION

Premier Taunts Opposition With Lack of Sincerity in Urging Appeal to the Country.

OTTAWA, Friday, Feb. 28.—(Special.)—Premier Borden when he arose was cheered for several minutes by his followers. He said that ever since the beginning of the session the Liberals had declared themselves to be in favor of a general election. His own opinion was that they were voicing the opinion of some hot gentlemen who were outside the house and that there were many members opposite who would be exceedingly disturbed if they really thought there would be an election. Some one on the Liberal benches cried, "Try it!" Mr. Borden went on to say that if they did try it, and if there was an election he believed the result would be much worse for the Liberal party than that of September, 1911.

NAVAL BILL HAS THIRTY MAJORITY

Second Reading Result Is Practically Same as in First, Nationalists Deserting.

OTTAWA, Feb. 28.—(Special.)—The second reading of the naval bill was carried at 2 o'clock this morning. The division was: Yeas, 114; nays, 84. Col. McLean of Queens and Sunday voted with the government, while the seven Nationalists voted with the opposition, giving the government a majority of 30.

HOUSES DAMAGED BY SMALL FIRES

A lighted match dropped into a basket filled with waste paper resulted in a fire at 21 Admiral road last night. Before the flames were extinguished \$200 damage had been done to the building and \$60 to contents. The house is owned by J. J. Asharth.

A house owned by G. M. Miller at 117 Warren road, was damaged to the extent of \$400 last night by fire. The loss to contents was about \$100. An overcasted furnace caused the fire.

Big Convention at London Unanimous in Endorsement of Public Ownership—Further Granting of Power to Municipalities to Govern Themselves by Commission Is Also Favored.

LONDON, Feb. 27.—(Can. Press.)—A network of radial railways, covering the whole of the Province of Ontario, running in every direction, as advocated by Hon. Adam Beck, and the extension of the T. and N. O. by branch lines in Ontario, were unanimously favored by the Associated Boards of Trade of the Province of Ontario, whose annual convention opened today at noon in the board of trade rooms on Richmond street.

The introduction of a system of parcels post, municipal government by commission, a progressive policy of reforestation, a uniform insolvency Act, the encouragement of the stock industry, the appointment of a provincial fire marshal, and a progressive policy of good roads, are outlined by the Ontario Government, were also favored by the delegates. There are about 150 representative men from the province attending the gathering, and the keenest interest is being manifested in the proceedings. A big program remains for Friday's sessions.

Civic Welcome. The convention opened shortly before noon, with Dr. Harry T. Reason, president of the board, in the chair. Mayor Graham was introduced to the gathering and welcomed the delegates to the city. The litchkey was on the outside and all were invited to have the best possible time. Col. Fount of Belleville, first vice-president, responded on behalf of the delegates, declaring that the convention had been properly started by his worthy predecessor.

Dr. Reason then read his annual address. In it he thanked the delegates for the honor done him in electing him president, and also for selecting him home town, London, as the place of convention. He spoke of the progress made by the organization during the year of the interviews with Premier Borden and Sir James Whitney, and the introduction of a resolution along lines suggested by the board.

Secretary G. F. Morley presented the report of the executive, which showed a good balance in the treasury and an increase in membership during the year. The request for Ontario towns that the board visit the northern country during the summer was left to the incoming executive.

Mr. H. Champ, chairman of the board, also presented a resolution along the same line, which asked that legislation be passed to provide demurrage for coal choppers and consider a full load lots. It was but a section of the main resolution passed formerly.

For State Radials. The system of radials proposed by Hon. Adam Beck some time ago was approved by the convention. On the motion of R. Home Smith it was decided to ask the provincial government to consider and issue a full report by competent engineers on the following questions:

1. The extension of the provincial railway to James Bay and the construction of branch lines in Northern Ontario.

2. The construction of a complete system of radial electric lines thru eastern and western Ontario, controlled and operated by the government and the local municipalities, the said radial electric lines to act as feeders of the main line to be constructed from a southern terminus to a northern terminus.

3. To introduce legislation that will enable the government and the various municipalities interested to construct and operate such lines.

Forestal Mackenzie and Mann. Mr. Smith, Ex-Mayor of Thorpe of Guelph, J. H. Fryer, Galt, and others urged that the activity of Mackenzie and Mann at the present time made immediate action necessary. The introduction of the Hydro-Electric Commission had saved the province of Ontario from the electric ring, and the introduction of government radials would mean the salvation of the industrial future of the province. There was no objection whatever to this resolution was presented to the meeting.

Ex-Mayor Thorpe of Guelph also introduced a resolution.

The only joy I get out of acting is trying each night to get a little more out of the lines than I got before. Press them, squeeze them, but I try to make them give up a little more every time I speak. It is true that a good laugh in a line is worth a thousand dollars."

MOTORISTS PREPARED TO PAY ONLY STARTING ON GOOD ROADS

They Will Not Be Disappointed, Said Hon. Dr. Reaume, Who Praised the Motor League—Membership Campaign Is Closed With Banquet—Seven Hundred New Members.

The day is not far distant when every automobile owner in Ontario will be obliged by law to pay a maintenance tax for the building and maintenance of good roads throughout the province.

On rising to speak Mr. Rowell said he felt it quite a responsibility to have to respond to the Ontario Motor League. He said he had asked me two years ago for that matter. "As motorist you are accurate in your estimate of the distances in short periods, I ask you, therefore, to sympathize with me, who the long and weary road has to get there in the quickest possible time."

Some Suggestions. He said that pending consideration of good roads legislation by the government he was going to make a few friendly suggestions. First, he suggested that, first, the province should decide to build roads of various grades according to the local requirements.

party has given notice in the legislature. "That this convention calls upon all friends of the temperance cause to take steps to secure the nomination and election in every constituency of a representative who can be relied upon to do all in his power to secure the enactment of legislation for the suppression of the liquor traffic, and declares that the advocacy of anything less than the proposal of Mr. Rowell could not be looked upon as sufficient to entitle any candidate to the support of temperance electors."

Moved and seconded that a committee composed of Joseph Gibson, R. Whittam, W. S. Spence, E. E. Barrett and J. W. Cooley, be appointed to draft a code of rules for political organizers to assist them in their work.

Resolved that this alliance appreciate the action of the provincial government and the provincial government in the advocacy of anything less than the proposal of Mr. Rowell could not be looked upon as sufficient to entitle any candidate to the support of temperance electors.

The following stakes close at the O.J.C. office tomorrow, March 1:

The King's Plate, fifty guineas, the gift of His Majesty King George V., with \$5000 added, for 2-year-olds and upwards, closed in the Province of Ontario.

The Stanley Produce Stakes, \$2500 added, for foals of 1913; to be run in 1916, 8 1/2 miles.

The Breeders' Stakes, \$3000 added, for horses foaled in Canada in 1911; to be run in 1914, 1 1/2 miles.

The Maple Leaf Stakes, \$2000 added, for fillies foaled in Canada in 1911; to be run in 1914, 1-16 miles.

Dominion Y.M.C.A. Fencing.

The Toronto Central Y.M.C.A. second team won the full contest finals for the Diamond Hall trophy on Wednesday evening by a margin of 7 points before a pair signed audience of ladies and gentlemen at the Central fencing room. The interest of the audience was evinced by their remaining until the close of the contest, which continued shortly after, and closed at 10.30.

The personnel of the team was: Lorine, Hiden, Klotz, Rhodes.

The officials were Geo. Lightwood, G. Gleswick, H. H. Troutyetter and Chas. Walters.

Finals for the senior foil and also the epee (quelling sword) will be decided Friday evening, Feb. 28.

LIST OF EXPERTS PROVES UNWIELDY

Banking Committee Decides That Considerable Pruning Is Necessary.

OTTAWA, Feb. 27.—(Special.)—A list of names of men to be called as witnesses was brought down this morning by a special committee of the banking committee. After a short discussion, it was moved that as the list was a lengthy one, it be sent back and cut in two. The motion carried by 24 to 13. The following names were included in the list:

L. O. Murray, superintendent of currency, Washington; J. E. Morgan of the National City Bank, Chicago; Joseph Johnson, late of the United States Monetary Commission; H. C. MacLeod, former manager of the Bank of Nova Scotia; Sir Edmund Walker, Toronto; O. L. Peace, Tan-canville, Montreal; Joseph Henderson, Toronto; John W. Galt, Montreal; E. R. C. Clarkson, liquidator of the Farmers' Bank; the man-agers of the Union and Westbury Banks; G. T. Chipman, editor of the Grain Growers' Guide; C. A. Dem-ing, Regina; E. J. Fries, Calgary; editor Farmers' Advocate, London; W. J. Bell, Guelph; R. G. Willett, Manitoba; Municipal Union; Prof. Swanson, Queen's University; H. M. P. Eckhardt, Montreal; W. R. Strath, Toronto; the presidents of the Manu-facturers' Association and of the Tor-on-to Anti-Monopolistic Boards of Trade.

The list as brought down drew some sarcastic comments. Arthur Meighen, Portage la Proulx, declared it was altogether too long and moved that the report be sent back and cut in two. W. E. Northrup suggested adding the names of Mayor Hocken and Father Burke of Toronto.

E. W. Nesbitt wanted to know why the name of Mr. Strath was includ-ed. On being told the reason was that the committee wished to enquire into the merger in which he was interest-ed, he declared that the committee was not conducting an investigation.

"Well, we ought to be," retorted W. F. Maclean.

Meighen's motion was then vot-ed upon, and the list sent back for re-vision.

Won't Restrict Speeches.

A motion by R. B. Bonar, seconded by Hugh Clark that speeches be re-stricted to five minutes, had to be withdrawn owing to strong criticism from Sam Sharpe and other members. Upon proceeding with the act, Mr. Sam Sharpe, when the clause was read, moved, "that the charter on-ly be extended to 1920 instead of 1923." Other members thought they should wait to hear certain witnesses before deciding how long to extend the charters.

Major Currie pointed out that if the Bank Act was not passed by July 1, the charter would run out, and all the banks would have to go into li-quidation. The charters should be irrevocable as in European nations. W. F. Maclean and other members of the Bank Act committee thought that Graham thought the clause should be held over, it was finally decided to hold it over for further discussion.

A new clause, calculated to prevent the paying out of commissions before the opening of a bank, was read over by Hon. W. F. White, to the effect that \$70,000 was subscribed for a new bank called the Monarch. The organ-izing expenses were high, and some \$40,000 was lost by subscribers and the bank had never opened its doors. A statement of organization expenses, must be submitted to the treas-ury board when application for cer-tificate was made. Prior to the time of the issuing of the certificate, no payments on account of incorp-oration, etc. should be paid out, except clerical and legal expenses.

CONFERENCE TO PLAN PEACE CELEBRATION

LONDON, Feb. 27.—(Can. Press.)—The British committee concerned with the celebration of the centenary of peace between the British Empire and the United States and of the signing of the Treaty of Ghent, has decided to send representatives to participate in a conference at New York and to arrange for joint action between Great Britain, Canada and the United States. The invitation sent by the American committee to the British committee was welcomed most cordially, and formal acceptance is to be sent to New York by next Saturday's mail.

FRIDAY MORNING, FEB. 28, 1913

PROVINCIAL POLITICS.

If all the temperance people who are really temperance and who would vote local option when the opportunity occurred, were willing to constitute a temperance party and carry out a temperance policy, no doubt they could do it, and do it easily. But they are not so convinced that the temperance question is the most important before the country and as a result there is no temperance party as such. The temperance politicians themselves are divided as to whether they should be independent or join one of the existing political parties. It is reported that the temperance brethren were at least temporarily divided into Benjamites and Franciscans on this issue. The Franciscans won and the temperance people decided to ally themselves with the Liberal party under Mr. Rowell.

The Globe had great precedence yesterday in respect of this decision, but, in order to make assurance doubly sure, it became strongly exhortatory. The Globe, of course, advised the temperance people to cast their lot with the Liberal party. "Its great chance has come," is the phrase with which Mr. Rowell's leadership is commended to the temperance people.

The Globe, of course, would not permit readers to suspect for a moment that the situation really is not an offer of salvation to the temperance party by the Liberals, but the frantic effort by the Liberals to get the support of the temperance people in the absence of anything more substantial. But it is very hard to move Ontario people from their party allegiance. Mr. Rowell must not rely too much on the temperance people, or the tax reformers, or the tenant voters. And he should rely less on The Globe.

NEW JERSEY CORPORATIONS.

In order to secure the legislation necessary to protect the public interest it was necessary that President-elect Wilson, as governor of the State of New Jersey, should promote seven bills, now placed on the statute book. The first and leading measure described a trust as a combination of agreement between corporations, firms or persons for certain specified purposes, and was declared illegal and indictable to that extent. These purposes included the creation of restrictions in trade or the acquisition of a monopoly; the limitation or restriction of production or the increase of prices; the prevention of competition; the fixing of prices; the restriction of competition or the entering into secret agreements which might affect prices.

Not only is the company now liable for violation of the statutory requirements, but the officer extends to individual directors ordering or doing any of the prohibited acts, and in addition the charter of the offending corporation may be revoked. The other acts prohibit the purchase and holding of stock in other companies; discrimination in trade; the issuance of fictitious stock; in the case of mergers, the issue of bonds or obligations above the actual payments required, and declare that persons who willfully engage in any of the prohibited acts shall be guilty of a misdemeanor. These acts are entirely in accord with Mr. Wilson's views as disclosed in his campaign speeches. They in no way fetter legitimate business, and, if effectively carried out, should eliminate from New Jersey the worst features of corporation high finance.

PROPER REVOLUTION.

Sir James Wilton pleaded the existence of three great schemes now in hand as a reason for putting off the deputation from Markham and the regions round about which approached him with a plea for a radical ray through their district. Sir James no doubt has a lot of large irons in the fire with the hydro-electric, the good roads plans, the workmen's compensation project and the New Ontario development, but he need not be afraid of any good work that tends to develop the province and especially that will tend to put a stop to depopulation. The construction of radial lines in co-operation with the hydro-electric system is an idea that appeals to the people everywhere. In fact, its success in that respect disturbs Sir James.

"Your idea appeals to me very favorably," he said, "but if adopted it is very likely that it will bring about a revolution in this matter in the province." Sir James would, therefore, hasten slowly. No doubt a revolution would be effected. But the hydro-electric system has already inaugurated a revolution, and it cannot be

stopped. The question is largely who will carry it to a successful conclusion.

Sir James' tone, however, left it clear that provincial radical lines are not distasteful to him. And we hope that when he gives the idea the further consideration he has undertaken there will follow in due course the action that is so much more important than the most serious consideration. Ontario needs bucking-up. With a deficit of \$250,000 and a falling population in rural districts, something in the way of a revolution would not be amiss. Provincial radial railways would bring about the proper sort of revolution.

CANADIAN CASES FOR CANADIAN COURTS.

Appeals to the judicial committee of the privy council were under discussion in the Dominion Senate on Wednesday, and their abolition in certain classes of cases met with a large volume of favor. So far as The World can judge no valid reason has yet been advanced why litigations that are purely Canadian in character should not begin and end with Canadian courts. Whatever value may be attached to the plea that a more impartial interpretation of the law might be obtained from a tribunal removed from the scene of contention is far outweighed by the argument that a court in touch with the trend of Canadian opinion is more likely to interpret Canadian legislation according to its spirit.

Canada does not need and does not want to be fettered by the traditions and precedents inherited by a country largely dominated by feudal institutions. Progressive Canadians are not inclined to place property above personal rights, and much less to rank the rights of chartered companies above the rights of incorporated municipalities. Canada should at least enjoy equal privileges with Australia, whose constitution, much later in date, secures the supremacy of the Commonwealth supreme court. As the law stands wealthy corporations possess a great advantage over the private litigant, a condition that is directly against democratic principle. In constitutional questions there may have to be appeals to a remote tribunal. All other cases should end in Canada.

OBSTRUCTIONISTS.

Controllers Foster and Church have demonstrated, if that were necessary, that they can obstruct the wishes of the council. There is going to be no systematic attempt to keep in touch with civic affairs. The time-honored method of listening to corridor gossip and sniping civic situations, supplemented by useful journalistic suggestion, will continue to be the means by which the controllers will gain their illumination. They object to the difficulty of devoting particular attention to one or two departments, so that there can be no intention on their part to give the attention required by every department. They thus, at least, escape the necessity of discharging regular duties, and they can always find enough in such important matters as lettering the city's motorists, to make loud and prolonged honest work-dog howls about.

ERECT SILVERWARE FACTORY IN CANADA

Wm. A. Rogers, Limited, Find Move is Necessary After Successful Year.

So great has their Canadian business become that Wm. A. Rogers Ltd. will have to erect a silverware factory here. All the rights, trademarks and goodwill will be transferred to a purely Canadian company and a special meeting of shareholders will be held shortly to consider the plans which the directors have matured. At present all the silverware which this company sells in Canada is manufactured in the States, but the American market has grown so large lately that the factories on the other side of the line were unable to attend fully to Canadian orders. Yet the business done here in 1912 exceeded that of the previous year as shown in the annual report today published. The high price of silver, too, affected the profits slightly. All metals advanced during the year and the average increase in cost of manufacture was ten per cent. Last year, however, the net profits were \$290,000, of which amount \$151,000 was carried forward to 1913. The report shows that the profits were equal to 23 per cent on the preferred stock, and 18 per cent on the common stock, and 15 per cent on the 7 per cent dividend on preferred. An outstanding feature of the year was the increase of a quarter million dollars to the surplus of quick assets.

HUGHES WOULD TAX CIVILIANS

Men Who Don't Enlist Should Pay Tax of Five Dollars, He Contends.

OTTAWA, Feb. 27.—(Can. Press.)—Col. Sam Hughes handed out some straight talk on militarism at the annual meeting of the Canadian Artillery Association today, in the presence of H. R. H. the Duke of Connaught.

"The people of Canada should be ready to defend their country if necessary, he said. They have a right to do so. I am glad they are waking up to their duty," he said. "We have applications from 60,000 men, men we haven't the money to accommodate them. The country should be ready to defend its country. It is not that he ought to pay a tax of \$5 if he will not. The money should be spent in Switzerland and advocated by Premier Louis Botha of South Africa."

PULPWOOD RATES TO BE INCREASED

Contention of Railways Is Upheld by Railway Commission.

OTTAWA, Feb. 27.—(Can. Press.)—A judgment of far-reaching importance to the pulp and paper industry and railways in eastern Canada and the United States, was issued by the railway commission this morning, when it announced that it had decided to increase rates on pulpwood from shipping points in Ontario, Quebec and the Maritime Provinces to points in the western states.

SOME FACTS CONCERNING "DUNLOP"

The story back of the "Two Hands" trade-mark—the phenomenal expansion of the business, the evidence of character of the demand—will appeal to every Canadian from the Atlantic to the Pacific.

While the name "Dunlop" in every part of the civilized world is associated with rubber and while the present Canadian Dunlop Company has been operating in Canada for 19 years, it is nevertheless true that prior to 1901 the company's business was practically confined to bicycle tires. The conception of how the Dunlop idea has been popularized through the world can be gleaned from these 11 years.

ERECT SILVERWARE FACTORY IN CANADA

Wm. A. Rogers, Limited, Find Move is Necessary After Successful Year.

So great has their Canadian business become that Wm. A. Rogers Ltd. will have to erect a silverware factory here. All the rights, trademarks and goodwill will be transferred to a purely Canadian company and a special meeting of shareholders will be held shortly to consider the plans which the directors have matured. At present all the silverware which this company sells in Canada is manufactured in the States, but the American market has grown so large lately that the factories on the other side of the line were unable to attend fully to Canadian orders. Yet the business done here in 1912 exceeded that of the previous year as shown in the annual report today published. The high price of silver, too, affected the profits slightly. All metals advanced during the year and the average increase in cost of manufacture was ten per cent. Last year, however, the net profits were \$290,000, of which amount \$151,000 was carried forward to 1913. The report shows that the profits were equal to 23 per cent on the preferred stock, and 18 per cent on the common stock, and 15 per cent on the 7 per cent dividend on preferred. An outstanding feature of the year was the increase of a quarter million dollars to the surplus of quick assets.

THE STAMP OF PUBLIC APPROVAL

PUBLIC approval of the light beer is most emphatic.

The Philosopher of Folly

BACK TO THE LAND.

The building lots are laughing in the valley on the hill; the garden plots are calling from the plain; they all the way level land, where the mud and muck are again, the suburbs subdivisions have a subtle luring song which carries thru the atmosphere for miles and plays upon our fancy, the elbow-room we long, where kindly Mother Nature ever smiles. We sigh for a sweeter section with a hammock and a book behind the busy city's rush and rear; in fancy we can picture how our little home would look

with honeysuckles growing by the door. We long to hear the lulling of the leaves on the trees; we hunger alone to feel in the soil, we wish to catch the buzzing of the busy bumble bees around our cottage windows at the dawn of day. We long to view a vista of some quiet woodland dell, where buttercups and meadow grasses grow in some scene of rural beauty where the low mosquitoes dwell, and wander unmolested to and fro. How joyful and how pleasant would the satisfaction be to potter round our little garden plot as soon as we had finished our late suburban task and hit our own potato hags a year. We long to push a mower thru a quarter-mile of grass, to pick a bushel basket full of weeds; to dig in the garden, to plant in the catalogs of seeds. We long to rain, and to think of all the varied kinds of mud we'll gather on our persons as we hustle for our train—the back-to-nature fever in our blood!

Like Magic To Weak Nerves

With the nerves exhausted both mind and body are of little use. You feel tired, worn-out and down-hearted, and the organs of digestion fail to perform their all-important functions. Nervous troubles do not go away of their own accord, but gradually grow worse and worse until some nerve analysis is developed. Dr. Chase's Nerve Food can be depended upon to revitalize feeble, wasted nerves in a case in illustration, as can be seen in Mr. A. Seward, Dana, Sask., writes: "When I began to use Dr. Chase's Nerve Food, on the recommendation of a friend, my system was so much run down that I was weak and exhausted, and could not at times attend to my work. The effect of the Nerve Food was almost like magic, for in a few days the weakness wore away and I found strength and vigor being restored to the body. That cure was effected three years ago, but I generally use the Nerve Food in the spring, as I can find no treatment so effective as a spring tonic."

U. S. TROOPS NOT REQUIRED. Forces Being Despatched to Galveston, But Movement Lacks Heart.

WASHINGTON, Feb. 27.—(Can. Press.)—Although the U. S. troop trains are steadily rolling southward converging on Galveston, it was made evident today that the heart had gone out of the movement under the one of the growing conviction that the provisional government in Mexico is going to be able to maintain itself, which seemed to be the general tenor of the reports to the state department from their consular agents in that country.

ALSO quiet resigns in Sonora, that state has given notice that it will not recognize the Huerta regime until it has demonstrated its ability to control the situation through the republic. The governor of Sonora, who has that state under full control, was ordered by the state congress to notify the federal capital that for the present and when a government is established and the state government is officially notified, it will recognize the new order.

JAIL CONDITIONS MUST BE RIGHTED

Government Will Withdraw Grants to Toronto Unless They Are.

In a letter to Sheriff Mowat, the provincial government calls attention to the congestion at the Toronto jail, and intimates that unless the disgraceful condition is relieved, the government will refuse its grant towards the maintenance of prisoners in the jails of the city.

Four years ago the jail was characterized as a nuisance and the city was indicted by the grand jury. The indictment was returned when the city promised to start an industrial farm. The industrial farm is now in operation, but provides accommodation for only a fraction of the 322 cells, but last Sunday there were 358 prisoners housed in it.

It will be two years before the government's new plan for relieving the jail can be completed, and in that time, if the government acts upon its threat, Toronto will lose about \$35,000.

Child Almost Strangled

You never know what minute a child will develop a bad cold or be seized by croup. For this reason, there is a great burden of every mother's mind to have at hand Dr. Chase's Syrup of Limesed and Turbentine.

Mrs. E. W. Silver, South Milford, Annapolis county, N. S., writes: "I have used Dr. Chase's Syrup of Limesed and Turbentine for my little boy, with most satisfactory results. His throat was so sore that he could scarcely make a sound, and I thought he would surely strangle. He grew worse and had frequent bad attacks, so I began using Dr. Chase's Syrup of Limesed and Turbentine. Scarcely had a bottle been used when the strangling ceased. This medicine had a wonderful soothing effect, and when he had taken two bottles I could not tell that he had any throat trouble. We have also used Dr. Chase's Ointment, with equally good results. It is a grand medicine for salt rheum."

There are imitations, but the genuine Dr. Chase's Syrup of Limesed and Turbentine bears the portrait and signature of W. Chase, M.D., the famous Receipt Book author.

DENIED CHARGES OF COAL BRIBERY

School Trustees Indignantly Repudiate Statements Made at Inquiry.

At the school coal contract investigation yesterday before J. B. Winchester, at the city hall, R. R. Davis, ex-school trustee, swore that in 1908 W. H. Smith offered him a load of coal if he would vote for the Council Company at the time. This evidence was the feature of the day's inquiry. Mr. Smith was not a trustee when this happened, a trustee that if he thought he could buy me with a ton of coal he had very poor judgment," said Mr. Davis. "I voted against the Council tender. The investigation dragged on without much interest for some time after this revelation. Earlier in the proceedings Mrs. Raymer, the mother of a dead employee of the Council company, gave evidence that free coal was supplied to a majority of the members of the school board. Her son's memorandum books showed this, she testified. Also Herbert Raymer, her son, had told her that the trustees got coal free of charge, and that he had been instructed by Mr. Wheeler, manager of the Council Company, to have a man go to the warehouse and get the coal for his trustees. She said she had read the receipts that some of the trustees were alleged to have signed for coal. She remembered having seen the signatures of a dozen of the members of the school board on the receipt slips for coal. One was Rawlinson, and another was W. H. Smith, she said. Her son had told her that the trustees were all to get their coal free.

Later in the day W. H. Smith, the witness stand, denied having tried to bribe Mr. Davis. C. A. B. Brown, who has been a school trustee for 20 years, and Dr. Ogden, who has been a member of the board of education for forty years, swore that they had never received coal for nothing, and showed cheques to prove that they had paid their accounts with the Council Company from time to time. Dr. Ogden was told that Mrs. Raymer had made the statement that she had seen the receipts for coal. He said that he had never seen the receipts, and that he had never seen the signatures of a dozen of the members of the school board on the receipt slips for coal. He said that he had never seen the signatures of a dozen of the members of the school board on the receipt slips for coal.

GOMPERS BACKS UP IRON-WORKERS

After Secret Conference He Declares Belief in Officials' Innocence.

INDIANAPOLIS, Feb. 27.—(Can. Press.)—The American Federation of Labor, today held a conference with Frank M. Ryan and other officials of the International Bridge and Structural Ironworkers who were convicted at the recent dynamite trials. Precautions were taken to make the conference secret, and only those who could show credentials as delegates to the ironworkers' convention were permitted to attend.

Mr. Gompers later declined to make known the proceedings, except to say he had expressed a belief that the 22 men sentenced to the federal penitentiary at Fort Leavenworth, Kansas, as conspirators in the McNamara dynamite plots were innocent. He said, in addressing the ironworkers' delegates, he was confident the U.S. circuit court of appeals would grant new trials.

HUMBER RADIAL LINE APPROVED

Railway Board Reserves Right to Deal With Level Crossings.

The Ontario Railway Board yesterday gave its endorsement to the plans of the Humber Valley Electric Railway Company. The order reads as follows: "The board will approve subject to the approval of the board's engineer. We will reserve the right to make orders about any level crossings."

As the city was notified of the sitting of the board, but had no representative present, it was presumed that there was no opposition to the Home Smith scheme and the sitting was very short.

Herbert Price, barrister, and E. A. James, engineer, appeared for the company. The plans show a line parallel to the old belt line running from the section of two and a quarter miles from Bloor to the Humber river. Plans have still to be filed for the construction of the road will begin this spring.

Waterfront Heats Up

The dispute between the Exhibition board and the harbor commission over the waterfront boulevard drive will likely be settled by the Dominion Government, as the patents for the water front needed for the boulevard must be obtained from the federal authorities.

Manager Orr fears that the Exhibition will be cut off from the waterfront, and he says it would greatly injure the fair, because the harbor board want the boulevard open all the year around, and it would have to be fenced off from the grounds.

MRS. PANKHURST GIVEN RELEASE

Will Not Participate in Suffragette Movement Pending Her Trial.

LONDON, Feb. 27.—Mrs. Pankhurst's "hunger strike" will be of even shorter duration than her previous suffragette fasts, it is believed. She will not participate in the suffragette movement pending her trial.

Mrs. Pankhurst, before her release, undertook not to participate personally in the militant suffragette movement pending her trial.

Nearly 800 delegates assembled in London today, representing all parts of the country, in behalf of the National Union of Women's Suffrage Societies. A conference is being held on the future policy of the non-militant party. The annual report says that the membership has increased 12,000 during the year.

The Suffragette Journal states that Sylvia Pankhurst is seriously ill in Holloway jail as the result of a hunger strike and forcible feeding.

Boys Are Located.
 Four youths who ran away from Toronto about a week ago were taken by the Buffalo police yesterday. Detective Tipton will bring the boys back today. Rene Sheenmaker, 25 St. Patrick's square, is alleged to have stolen \$50 from his mother and divided with the three other boys, whose names are: Harold Nelson, 87 McCaul street; Will Phillips, 74 Dundas street; and Charles Chilton, 149 Dundas avenue.

CABINET SYSTEM CAUSES TROUBLE

Controllers Will Advise Council That They Cannot Agree.

SUNDAY CARS WANTED

North Toronto Residents Must Make Application to the Legislature.

The board of control yesterday decided that the so-called "cabinet system" would not work well in practice, and will report to the city council that the members of the board are unable to agree as to carrying out the recommendation of the council as to the allocation of departments, and that in the absence of agreement it is impossible to carry out the directions of council.

The board will meet representatives from the board of education next Wednesday morning to discuss the technical school plans.

It will be necessary to pass a new by-law providing for the purchase of Moss Park, owing to money not having been provided in the regular way. The park will cost \$66,000 and the money will be charged to parks acquisition.

The North Toronto Ratepayers' Association want the Metropolitan Railway to operate Sunday cars, and have written to the board asking for help. Mayor Hocken said the board could not do anything in the matter. They will have to go to the legislature," said the mayor.

Punishment Cells.
 A letter was read from Dr. Bruce Smith, provincial inspector of prisons, endorsing the use of punishment cells at the jail. It would be inadvisable, says the letter, "to discontinue the use of punishment cells altogether. It is strongly urged that at least three properly ventilated dark cells be provided as soon as possible." The letter recommended that the present dungeons in the basement should be done away with. The property commissioner was asked to report on the matter.

The Moore Park, North End Citizens' and North Toronto Ratepayers' Association do not want the proposed winding road through Mount Pleasant Cemetery. Letters of protest against it were read and the board decided to pay a visit to the spot next week.

A street sweeper named Robt. Armstrong, employed in the street department for 25 years, is now ill, and wants sick pay. Commissioner Harris will not recommend sick pay allowance because Armstrong, an asphalt cleaner, works only during the sweeping season and he did not regard him as permanent, kindly instruct me to this effect, as it will concern over 200 men, who will also be entitled to one-half day per week and two weeks' holidays per year," wrote Mr. Harris. The board decided to allow Armstrong three weeks' pay, thus making a rule which will affect several hundred men.

Against Central Heating.
 Works Commissioner Harris yesterday reported to the board of control against the granting by the city of a franchise to The Dominion Steam Heating Company to use the city streets and lanes to operate a central steam heating plant.

The mayor thought that applications of this kind deserved consideration if there was a possibility that they would make heating cheaper for the citizens.

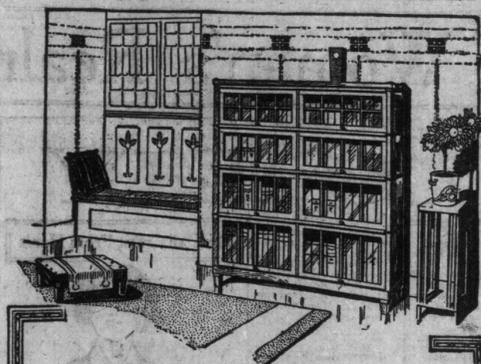

Controller Church was afraid that the enterprise might some day become a competitor of the hydro-electric, if it developed into a lighting as well as a heating company in the future.

The board decided that the company's application would receive more consideration if a petition were presented in its favor.

The Vancouver City Council not long ago gave a franchise to a similar heating company.

Waterfront Boulevard.
 The dispute between the Exhibition board and the harbor commission over the waterfront boulevard drive will likely be settled by the Dominion Government, as the patents for the water front needed for the boulevard must be obtained from the federal authorities.

Manager Orr fears that the Exhibition will be cut off from the waterfront, and he says it would greatly injure the fair, because the harbor board want the boulevard open all the year around, and it would have to be fenced off from the grounds.

LONDON, Feb. 27.—(C.A.P.)—The lord mayor announced in connection with special efforts now being made to save the Crystal Palace and grounds for the nation that Lord Strathcona has undertaken to provide the last fifty thousand dollars of the sum needed, which is over a million dollars, not half of which is yet forthcoming.

Charged With Theft.
 Charged with stealing a quantity of copper wire, tools and other materials from the Canadian General Electric Company, Edmund White, 99 Rydeman street, and Victor Buckley, 77 Shuter street, were arrested last night by Detective Mulholland.

Hon. Mr. Burrell Here.
 Hon. Martin Burrell, minister of agriculture at Ottawa, is in Toronto and will speak at the good roads convention today.

Mitchell

ONE of the strongest features of any exhibit at the Automobile Show is the new T-head motor used in the 1913 Mitchell cars. This new improvement—among the most valuable that have ever been developed in automobile mechanics—is found in few but the highest-priced cars, and in the 1913 Mitchell. Ask to have it shown to you; get a clear idea of the extraordinary power developed by the 6 and 7-inch stroke (extra long) with correctly balanced bore. It's the right idea at last.

The 1913 Mitchell has many other splendid new features; the combination of improvements that constitute the biggest value of any 1913 car.

Here they are:

- Left drive and center control; Bosch ignition; Rayfield carburetor; Firestone demountable rims; rain-vision windshield; Jones speedometer; silk mohair top with dust cover; Turkish upholstered cushions; Timken front axle bearings; gauges on the dash to show air pressure and oil pressure; gauge in the gasoline tank showing amount of gasoline it contains; and a portable electric lamp which also illuminates the instruments on the dash.

All with T-head motor, electric self-starter, electric lighting system and 36-in. wheels

THOS. THOMPSON DIED THURSDAY Well - Known Resident of Ward Seven Was Ill Several Months. The death occurred yesterday morning of one of West Toronto's oldest and best known citizens, when Thomas Henry Thompson passed away at Gravenhurst, Ont. News of his death came suddenly to his wife and grew up family, for altho of late Mr. Thompson has been in very poor health for some months following an attack of pneumonia early in the winter, yet it was not thought that his condition was serious. The late Mr. Thompson was 55 years of age and was very well known in ward seven, especially in Orange circles. He was a past master of Golden Star L.O.L. No. 900, an officer in the MacCormack Black Freemasonry, and a frequent visitor at the many other Orange lodges in this district. He was an enthusiastic Conservative politician and at the same time was the president of the Ward Seven Liberal-Conservative Association. He is survived by a widow and a large grown-up family of whom Dr. J. J. Thompson of 1478 Dundas street is a son. The remains were brought back to his late home this morning by Wm. Speers, and the funeral will be held on Monday afternoon at 3 o'clock to Prospect Cemetery, Orange lodges and Black Freemasons will attend in a body. Mr. F. S. Spence will deliver an address on "The Government by Commission" before the "Class for the Study of Social Problems" in the High Park Avenue Methodist church last night. The public are invited to attend. This is the fourth lecture of a series which are being delivered fortnightly. P. Quigley of 561 West Wellington street was injured in the head yesterday morning while at work in the abattoir of the Swift-Canadian Company on St. Clair avenue. He was removed to his home in Speers' ambulance. The civic works department has received petitions from residents in ward seven living on the following streets, against the proposed construction of macadam roadway: Weston road, south, from Keele street to the north city limits at a cost of \$17,749; Cedar avenue, from the intersection of St. Clair avenue, cost, \$11,664, and St. John's road from Dundas street to Runnymede road, cost, \$12,888. In some cases the proposed roadway desire a more permanent pavement than the proposed macadam surface. A large audience was present last night at the first "Story hour" for the "grown-ups" of Runnymede district, which was held in the library building, Herby street. The board has decided that, on account of the success of this, the first adult entertainment of this nature they will lend their aid to the "Story hour" and be made a separate department in the board's activities.

CHIEF OF POLICE IS SENT TO JAIL Latchford Official, With Two Other Men, Held Responsible For Hotel Thefts. LATCHFORD, Feb. 27.—(Special.)—Chief of Police Charles Fyfe, Frank Marcott and John Legalis, were arrested by Constable J. Lafebre last night, brought before the magistrate this morning, sentenced to six months' imprisonment each and despatched to North Bay this afternoon. For some time past, E. Kingston, proprietor of the King Edward Hotel, has been missing liquor, cigars and tobacco from his hotel, and information came to Constable Lafebre last night which caused him to make the arrests. Legalis was night operator at the T. and N. O. station, and Frank Marcott night porter at the hotel.

QUEBEC DRYDOCK BEFORE SENATE Government Accused of Being Dilatory in Carrying Out Pledges. OTTAWA, Feb. 27.—(Can. Press.)—The Quebec survey and dry dock occupied the attention of the senate today along with routine business. Senator Choquette moved for papers relating to the proposed drydock at Quebec. He said Quebec had heard a great deal of talk about this drydock and he would now like to find out what it was all about. He said that the drydock had been the favorite subject of every minister who had addressed the citizens of Quebec. According to the speaker, the location of the drydock changed with every speaker, and he wanted to find out if there was anything in the report. His colleagues were getting impatient. Hon. Mr. Loughheed said Mr. Choquette was a very important man. His friends, the Liberals, had been in power fifteen years without building a drydock, and the project had been discussed throughout the whole time. The present government had been in office only fifteen months and yet Senator Choquette thought they should have already provided Quebec with a drydock. Any promises which had been made would be carried out within a reasonable time. In the meantime he had no objection to the motion passing for the production of the papers which would give Senator Choquette the information he sought. Senator Power said there was a great dock in Montreal. There did not seem to be justification for the expenditure of a large amount of government money to build another dock so near as the City of Quebec. POPULAR CONCERT TOMORROW EVENING The program of the "pop" concert of the Toronto Symphony Orchestra at the Massey Hall tomorrow night is not lacking in variety. Mr. Weisman will play the Overture 1812, descriptive work by Tschakovsky, the Victory of the Russians over Napoleon at Moscow, besides the scenes "Massetenet suite" (Scenes Allegro) and "Sibelius' Tone-Poem 'Finlandia.'" The Glee Club of Victoria College will render several songs by Dudley Buck, Herbert Sullivan and others, and Ernest Sette will be welcomed in his only appearance on any concert platform before returning to Germany, playing the Rubinstein Concerto with the orchestra. As these popular concerts are intended to be in a measure illustrative of the different instruments used in a symphony orchestra, Mr. Weisman is having Frank C. Smith, pianist on any concert platform before returning to Germany, playing the Rubinstein Concerto with the orchestra by Leo Smith.

GOVERNMENT HOUSE IS FOOLISH EXPENDITURE? Galt Paper Contrasts Outlay With Modest Sums Spent in the United States. GALT, Feb. 27.—(Special.)—The Galt Reporter (Conservative) has the following to say on the Government House at Toronto: "It is truly funny that part of our R. C. is to see that the fess made over the opening of parliament in Toronto, and he must see in the expenditure of hundreds of thousands of dollars in the erection of a house for the lieutenant-governor, a grave mislance of public funds. An American state governor must content himself with a very humble residence. In Illinois the mansion would scarcely sell for \$25,000. In other states the 'dol' of the people is merely comfortably housed, but in Ontario we have a truly dumpy structure with a castle attached, a staff of officials in purple and fine linen, and soldiers, otherwise we might forget that part of our R. C. is to see that our provincial capital follows close on the heels of the federal government. The British Empire might be wrecked. It is a \$30,000 or \$40,000 executive mansion of colonial design is enough for a rich American state which a homeosted for our lieutenant-governor should satisfy the gentleman who is a mere figurehead in possession of a fat salary and renowned chiefly as the leader of Toronto's four hundred."

Moving from sites of new buildings

To build a seven-storey warehouse

Tenants Vacating Old Premises Previous to Big Improvements.

Samuel Yolles Buys Land on William Street From Eaton's.

Tenants in the Marcus-Low Theatre site on Victoria street were moving out yesterday preparatory to work starting on the demolition of the old premises and construction of the new building.

Samuel Yolles has purchased the property at 36 William street from Eaton's at \$250 a foot, the size being 41 feet front by 120 feet in depth.

The St. Charles Hotel will vacate their building in April, and it will be cleared away to make room for the erection of the Dominion Bank.

Corner of Broadway and Yonge Sold - Davisville Frontage Transferred.

The highest figure ever reached by North Toronto property was paid yesterday for the northeast corner of Broadway avenue and Yonge street, which was bought by investors from Saul Ste. Marie for \$23,000.

The highest figure ever reached by North Toronto property was paid yesterday for the northeast corner of Broadway avenue and Yonge street, which was bought by investors from Saul Ste. Marie for \$23,000.

Work on the twenty-storey Royal Bank building will hardly commence before July. The activity being displayed by the lessees of the James building in locating elsewhere might be started sooner than the six months notice, which was given in January, would indicate.

North Yonge street continues to be the active spot in a somewhat quiet market. J. H. Hammill & Co. have sold 430 feet on the east side of David's village - some of it the Glebe manor tract, in a total of \$65,000.

FURTHER RALLY IN TORONTO MARKET Active List Scores Additional Improvement, Tho Some Issues Are Weaker. THE TONE IS IRREGULAR But Sentiment Continues Cheerful—Brazilian Up Nearly a Point.

Prices made a further recovery in the Toronto Stock Market yesterday, the upward disposition which had been in evidence through Wednesday's session being again apparent. Sentiment was favorably affected by a sharp rally in Brazilian in the London exchange, while the continued strength of the Wall street list provided the bulls with additional ammunition. Brazilian opened here at 36 1/2, a net gain of 5-8 overnight, and it wound up the day at the same figure. Meanwhile the shares had at one time sold up to 36 7/8, a quotation just 2 1/2 points above the low level of Tuesday. The close was at 36 1/2 bid.

Workings was shown by such stocks as Toronto Paper, Duluth Superior, Detroit United, Bell Telephone, Spanish River, Maple Leaf, Sawyer, preferred and Interlake preferred, some of which dropped back to new low records for the movement. While the list was somewhat lengthy, such declines as occurred were mainly confined to small fractions, and the downward tendency was not viewed as of any material moment. Sawyer-Massey preferred which closed at dividend 3 1/2 per cent. at 90 in the morning, rallied to 91 3/4 later on. F. N. Burt preferred sold at par for a few days of the month, Maple Leaf was at a new low for the year at 60. Duluth Superior broke below 70 for the first time since 1910.

MACDONALD DOWN AGAIN ON THE CURB In the general downturn which has taken place in the Toronto market many of the usually prominent issues on the curb have been neglected. It is apparent, however, that these are paying the penalty for the uncertainty as well as the more tried securities. Yesterday Macdonald sold at 57 1/2, which is a new low record for the issue. When conditions improve this issue should do much better, as it is assumed that it will not be long until dividends will be commenced. The range follows:

Table with columns: High, Low, Date. Rows: Dec. 60, Jan. 57 1/2, Feb. 62 3/4.

SHORTS IN RETREAT IN NEW YORK MARKET Erickson Perkins & Co. (J. G. Beatty) wired: The rise in stocks, which had become more rapid in the last hour, when highest prices of the day were reached. The shorts appeared to be in retreat. Some of them evidently preferred to cover contracts rather than pay dividends, which come off tomorrow. The old influences which have recently been treated as bear factors were temporarily lost sight of during the rise.

EXPECT REFORM BILL WILL BE DEFEATED NEW YORK, Feb. 27.—It is the general impression here that the reform bill, to compel the incorporation of the New York Stock Exchange and the doubling of the tax on stock transfers, will fail. The opposition is so great and the arguments against it that it is believed that the legislature will not pass either bill. The bill to double the tax on transfers will be given another hearing on March 25.

MORGAN IN GOOD CONDITION NEW YORK, Feb. 27.—J. P. Morgan is in "extremely good condition," according to the report of Professor Bastianelli, the eminent Italian physician who visited Cairo to examine the eminent financier. This is the text of a cable received here today.

BIG DECLINES IN FAVORITE COPPERS Depreciation in Market Values Is Over Two Hundred Million Dollars. At current prices the copper stocks now show an enormous depreciation in market value from the high levels reached in 1912 following the advance in the price of the metal. On twenty-six prominent copper deals in the New York or Boston stock exchanges the loss in total value is approximately \$211,000,000 (excluding depreciation in value of stock of Anaconda held by Amalgamated).

Table with columns: Stock Name, High, Low, Price, Change. Includes Amalgamated, Anaconda, Arizona, Calumet & Hecla, etc.

BANK CLEARINGS ARE LOWER AGAIN Gradual Slowing Up of Business Is Evidenced—Fair Gain Over Last Year. That there has been a gradual slowing up in business during the last month or so is evident from the showing of the bank clearings. In the week ended yesterday clearings in Toronto were only \$36,860,974, which is the lowest weekly record for the year to date from the fact that in the previous week they were \$38,718,266, in the week of Feb. 23, \$41,910,833, and in the week of Feb. 16, \$43,127,411.

MEXICAN CONCERNS HAD GOOD EARNINGS HOLLINGER AT ITS HIGHEST IN YEARS Fair Increases in Net and Gross Reported—Next Statement Awaited Anxiously. The Mexican Light and Power and the Mexico Tramway Companies reported fair increases in their earnings during January, but no means up to the usual standards. However, considering the unsettled conditions last month in the republic, the showing is awaited with considerable interest as the effects of the bloody revolt in the capital will be reflected therein. The January record follows (Mexican currency):

Table with columns: Company, 1912, 1913, Increase. Rows: Mexican Light and Power, Mexico Tramways.

BANK OF ENGLAND RESERVES DECREASED No Change Made in Discount Rate—Big Gain in Deposits. LONDON, Feb. 27.—The rate of discount of the Bank of England remained unchanged at 5 per cent. today. The weekly statement of the Bank of England shows the following changes: Total reserve, increased £20,000,000. Other securities, increased £3,913,000. Other deposits, increased £2,991,000. Notes reserve, increased £2,000,000. Government securities, decreased £1,000,000.

NEW STOCK EXCHANGE IN PHILADELPHIA PHILADELPHIA, Feb. 27.—The new Philadelphia Stock Exchange was opened for the first time on March 1, and a banquet and celebration will be held that night in commemoration of the event. President F. T. Chandler has invited President Mabon and all the governors of the New York Stock Exchange to attend. A special detachment of Wall st. men will be present.

FURTHER GAINS BY NEW YORK STOCKS Movements Were Somewhat Irregular, But General Tendency Was Upward. INVESTMENT BUYING Advices From Europe Continue of Reassuring Character.

NEW YORK, Feb. 27.—Further progress upward was made by stocks today, although the market did not possess the degree of sustained strength shown yesterday. Prices fluctuated irregularly, some stocks at times showing net losses, but the tendency was towards higher level, and an outburst of strength in the final hour lifted the list well above yesterday's close. Gains among important stocks ran as high as 2 points, and among a score or more of specialties to over 6 points. While the improved tone during the last two days doubtless has been due largely to short covering, there were evidences today of a better demand for the long account. Some investment of standard dividend-paying shares was reported, although the recent low prices have awakened no comprehensive public demand. One of the chief reasons for a steady feeling was to be found in the tenor of advices from Europe, indicating that the Balkan difficulties may soon be settled. The improvement in all the principal European markets this week is regarded as indicative of a belief that the long period of strain is nearing its end.

GAN STOCKS STRONG Wide fluctuations in Can shares once more made them conspicuous. The common stock rose 4 points to 39 3/4, after having sold at 37 1/2 earlier in the week. The preferred gained 3 points. Both issues weakened later, their gyrations being influenced by the latest news as to what the directors would or would do toward paying the accumulated dividend on the issue.

HIGH GRAVITY OIL Dominion Oil Company Said to Have Struck It Rich in California. There has been a persistent rumor during the last few days that the Dominion Oil Company have completed their first well, which is said not only to be a big one, but the oil is of the heavy gravity so far discovered in California.

DOUBLE CAPACITY OF DOME STAMP MILL Big Addition to Plant Will Be Made—Ore Is Richer at Lower Level. It has been definitely decided to double the capacity of the mill at the Big Dome mine in Porcupine, and possibly 80 stamps will be added instead of 40, which would mean that the production would be increased by 150 per cent.

ANOTHER AEROPLANE MOVE IN BIG PORCUPINE ISSUE—OTHER GOLD STOCKS BUOYANT. The Porcupine issue supplied all the fireworks in the mining changes yesterday. Hollinger went soaring again, and attained a new high record since 1911 before the present year. Porcupine Imperial moved into the limelight, with the price at 47 in its mill. The grade of ore, too, on the Dome proper, by Porcupine Extension, while Pearl Lake was reported to have after its sensational bulge. The Cobalt and Dome hill into their own devices, speculative left over more concentrated in the gold mining stock, and little room was left for attention to be paid to the former favorites.

EXCELLENT DEMAND An excellent demand for Porcupine Gold carried the quotation up to 2 1/2, indicating a gain of 1 1/2 for the day. Some stock held for "cash," leading to the belief that the shorts had been run in again. Porcupine Imperial had been run in to a rumor that arrangements were being made to reopen the property, and the shares rose to 47. Pearl Lake sold up to \$2.25. Dome Extension held 5 1/2, and 5 1/2. Pearl Lake was in good call throughout.

THE PRICE OF SILVER IS OF MOST IMPORTANCE TO THE COBALT CAMP, WHERE MEANS SOMETHING OF A CENT AN OUNCE IN UNPAID ACCOUNTS, LEAVING A SURPLUS TO BE CARRIED FORWARD OF \$103,346. This is approximately \$7000 less than was carried forward the previous year.

MONTREAL BANK CLEARINGS. Bank clearings for the week ended today (Feb. 27) were \$43,837,148 for the corresponding week last year.

ANNOUNCEMENT OF A NEW BOND COMPANY

Of interest to financial men and to the public generally is the formation of the Bankers Bond Company Limited, with a capital of One Million Dollars, headquarters at Toronto.

The President of the Company is Mr. F. W. Baillie, the Vice-President, Mr. F. P. Wood, and, in addition, a group of prominent Canadian banking men are interested both as investors and advisors.

The Bankers Bond Company will conduct the customary bond and preferred stock business, and aims to be of special service to the public in other ways.

It will assist worthy industries, business men and others who have not access to the customary channels for capital, to expand by financing the needed money. Canada has many industries only needing capital to become large and prosperous concerns.

Directed by men experienced in both investments and banking, the Bankers Bond Company should render valuable service to investors and business men. This should especially apply in a country such as Canada, so replete on one hand with opportunities for investment wherein judgment and foresight are needed, and, on the other, with opportunities for business expansion, provided financial assistance is forthcoming in either small or large amounts at special rates.

The Bankers Bond Company is the outcome of steady and important growth of the investment business done by the firm of Baillie, Wood and Croft, Bankers and Brokers, Toronto, during a period of ten years. The latter firm will hereafter confine themselves to Stock Exchange business.

The Bankers Bond Company Limited, have engaged as premises the ground floor of the Imperial Life Building, Victoria St., Toronto.

BANKERS BOND COMPANY LIMITED TORONTO, CANADA.

HARGRAVES PLAYED IN BAD LUCK AGAIN

Last Year's Operations Not Very Satisfactory—Company Managed to Split About Even. The results of development operations by the Hargraves Silver Mines, Limited, in 1912, were not very satisfactory, says President W. N. Ferguson, in his report, which will be presented to the shareholders at the annual meeting in Toronto, on March 7. The plan of campaign was the very best possible, but the outcome was not inspiring. We have a sufficient year's work to allow another out counting at all on any silver which may be recovered.

TWO CENT DROP IN BAR SILVER PRICES The value of silver metal has depreciated exactly two cents an ounce during the past week, yesterday's closing quotation in New York, 60 cents, comparing with 62 cents last Thursday. The decline commenced in the London, Eng., market, and is believed to be due to the unloading of stocks by some of the bull traders who bought in prior to the recent sharp advance.

FOR SALE One hundred shares of stock per value one hundred dollars per share in a good going progressive well-managed manufacturing company in Toronto. This business is in good shape, producing goods in constant demand, is making money and is offering a dividend payer. Nothing safer offered in the manufacturing investments. Money returns, as the output has to be increased to keep up the demand. This business will stand the fullest investigation. For further information and prospectus write or see J. E. HUTTON, Investment Broker, Room 24, Manning Arcade.

NEW VEIN PICKED UP AT THE PEARL LAKE A wire from Porcupine yesterday stated that in the crosscut at the 600-foot level of the Pearl Lake Mining Co. property, a small vein was picked up. After drifting the vein was picked five feet in width on this far about 100 feet, and the vein shows five feet in width out to eight feet. Now in 30 feet, and the vein shows uniform width and values. The complete assays of the ore in the big vein struck at the 600-foot level will be available in a few days. It is reported that some of the assays run over \$100 sold to the ton.

Again Forcupines Go Soaring--Hollinger Continues Its Advance

FOREIGN DEMAND NOT IN EVIDENCE

Wheat Reacted at Chicago as a Consequence—Heavy Argentine Shipments.

CHICAGO, Feb. 27.—Shutting down of export demand caused weakness today in wheat. The market closed heavy at a decline of 1-4 to 3-8 net. From the outcome was the same as last night to 1-8 down, and for oats a drop of 1-8 to 1-4. Provisions wound up dearer by 7-16 to 8-16. Bearish sentiment ruled the wheat market throughout the day. Cables were decidedly disappointing, the bull side and gave quotations a setback that became gradually worse under free selling on all the hard spots. Not only had foreign inquiry been slack by the previous day's advance, but there were predictions of more liberal shipments from Argentina. In addition reports came that the crop outlook for India had greatly improved in consequence of rain, while, as for the United States winter wheat belt, the prospect was declared to be nearly ideal.

Reaction in Corn.
After a fair advance due to stormy weather corn reacted under free realizing, as well as aggressive short selling brought about by the break in wheat. Leading shorts covered around the top, and then buying orders suddenly gave out. Relative weakness in 3's was explained by some increase expected in the movement from the farms. Despite weakness in the hog market speculative buying carried quotations sharply higher. The purchasing was based on gossip that the monthly statement Saturday would be bullish in regard to stocks on hand.

Northwest Receipts.
Receipts of wheat at northwest points, with usual comparison, follow:
