Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- Coloured covers / Couverture de couleur
- Covers damaged / Couverture endommagée
- Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- Cover title missing / Le titre de couverture manque
- Coloured maps / Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- Bound with other material / Relié avec d'autres documents
- Only edition available / Seule édition disponible
- Tight binding may cause shading or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- Additional comments / Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured pages / Pages de couleur
- Pages damaged / Pages endommagées
- Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed / Pages décolorées, tachetées ou piquées
- Pages detached / Pages détachées
- Showthrough / Transparence
- Quality of print varies / Qualité inégale de l'impression
- Includes supplementary material / Comprend du matériel supplémentaire
- Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below / Ce document est filmé au taux de réduction indiqué ci-dessous.

| 10x | 14x | 18x | 20x | 22x | 26x | 30x |
|-----|-----|-----|-----|-----|-----|-----|
| 12x | 16x | 20x | 24x | 28x | 32x | |

The copy filmed here has been reproduced thanks to the generosity of:

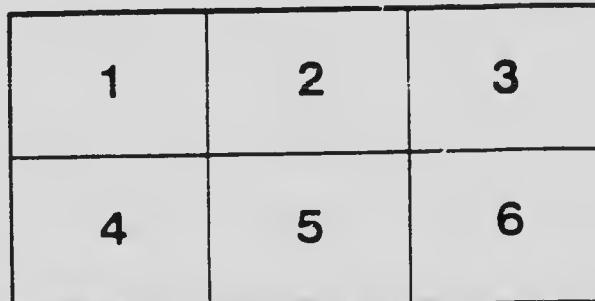

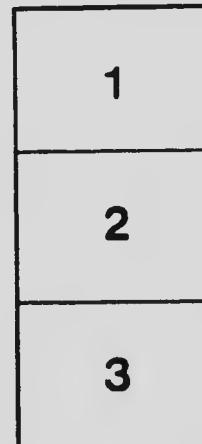

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contains the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plié, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "À SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

BUTTER

LABORATORY
OF THE
INLAND REVENUE DEPARTMENT
OTTAWA, CANADA

BULLETIN No. 281

BUTTER

Wm. HIMSWORTH, Esq.,
Deputy Minister, Inland Revenue.

OTTAWA, March 17, 1914.

SIR.—I beg to hand you a report upon 340 samples of butter collected throughout Canada by our inspectors during the months of November and December of 1913 and January of this year. To this is added as an appendix a report of 26 samples collected in March 1913, in the district of Quebec, for the special purpose of ascertaining whether oleo-margarine was being offered in these markets, as was asserted by some parties who claimed to know ledge in the matter. It was under the especial guidance of these parties that the market was examined; and it is satisfactory to find that all samples obtained were found to be genuine.

Butter is legally defined, by Order in Council of 3rd November 1910, as the clean, non-rancid product made by gathering, in any manner the fat of fresh or ripened milk or cream into a mass, which also contains a small portion of the other milk constituents with or without salt, and contains not less than eighty-two and five tenths (82.5) per cent milk fat, and not more than (16) sixteen per cent of water. Butter may also contain added colour, provided it has a harmless character.

The sum of minimum fat and maximum legal water in butter is 98.5 per cent of its weight; whence it appears that in a butter containing a maximum amount of permissible water, the salt, curd, lactose, albumens and other milk constituents, traces of which are always present in butter, are in the aggregate amount limited to one and one half (1.5) per cent. If it be desired to introduce more than about one per cent of salt into butter, this must be done by cutting down the water content; and as a matter of fact, it is rare to find 16 per cent of water in butter. Only five samples of the present collection exhibit more than 16 per cent of water, namely:—

| Samples No. | Water p.c. | Fat p.c. | Salt p.c. |
|-------------|------------|----------|-----------|
| 56192..... | 16.75 | 78.69 | 4.56 |
| 59201..... | 16.44 | 83.47 | 0.09 |
| 53247..... | 20.28 | 76.68 | 3.04 |
| 53250..... | 16.48 | 80.84 | 2.78 |
| 51821..... | 16.94 | 81.47 | 1.59 |

And the butter fat is necessarily low in all of these samples which contain appreciable amounts of salt. No 59291 contains only traces of salt, and the butter-fat is quite satisfactory.

The fat content is, of course, the most important datum in judging butter, and is that which determines the cost of butter production. It may be reduced by addition of excessive salt or water. For this reason, a limit is placed upon the percentage of water which may be present in legal butter; and although no definite limit is placed upon the salt content, it is evident that the numerical requirements for fat and water effectively determine a limit of about 7 per cent. For the normal content of water in good butter is about ten per cent while the curd and other milk components, always present in traces usually aggregate about one half of one per cent. When butter contains above 7 per cent of salt it is not only unsatisfactory to the taste on this account, but is usually low in butter fat.

When water is present in considerable excess, it is usual for some portion of it to separate on standing; and even when not in excessive amount, water may separate to the extent of one or two per cent. This water was sold and presumably weighed with the butter, and should in strict justice to the purchaser, be reckoned as part of his purchase. In the present instance, I have granted the vendor whatever advantage such moiety of water may give him; but this must not be regarded establishing a precedent for such action.

No foreign fats have been found in any of these samples.

The following synopsis shows the results of this inspection:—

| | Samples. |
|--|----------|
| Found genuine..... | 316 |
| Passed as within reasonable and explicable limits of error..... | 18 |
| Adulterated for excess of water, or for notable deficiency in butter fat..... | 6 |
| Samples reported in appendix | 26 |
| Total | 366 |

I beg to recommend publication of this report as Bulletin No. 281.

I have the honour to be, Sir,

Your obedient servant,

A. MCGILL,
Chief Analyst.
