COAL STRIKE IN UNITED STATES? Preliminary Negotiations Fail But Real Test Will Not Come Before March 14

SCRANTON, Pa., March 5.—(Can. Press.)—Word of the refusal of the operators of the mines to accede to today's meeting in New York occasioned no commotion here either in mining or business circles in the upper coal fields...

In a word, today's action is looked upon as a mere formality. The significant action will be that which will be announced at the close of the conference of the sub-committees of miners and operators, which are scheduled to start in New York on March 14.

LEGISLATURE NEEDS BIG EYES SAYS MEMBER FOR HAMILTON

Allan Studholme, in Boundary Discussion, Says He Would Move a Substitute for Main Motion and Amendments—T. H. Lennox of North York Showed That Liberal Members Were Not a Unit in Their Arguments.

Hanging fire since last Wednesday, the Ontario and Manitoba boundary discussion was resumed in the legislature yesterday. J. C. Elliott of West Middlesex resumed the debate. He wanted to know if Ontario had the right to build the government railway into the Province of Manitoba, and still retain control of it. He is of the opinion that the railway would pass under the jurisdiction of the Dominion for Railway Board. "It means," said he, "that we get the port by giving up control of the Ontario Government railway and the whole matter apparently has been carried on without any knowledge of where this province is going to land."

Altho the Speaker had ruled that nothing should be introduced in the discussion beyond what was contained in the original motion, and the two amendments, Mr. Elliott persisted in alluding to the financial end of the settlement. Sir James interrupted to say that as far as Ontario was concerned, there was no such thing as a financial end of it. Manitoba was the only province that secured money from the federal government, and Mr. Elliott was trying to infer, apparently, that Ontario in some way had been related to financial consideration.

Mr. Rowell interrupted that that was just his contention. He claimed that Manitoba had stepped in and secured a cash grant as well as the territory. Sir James explained that the legislature did not know anything about any such financial agreement, and Mr. Elliott was trying to infer, apparently, that Ontario in some way had been related to financial consideration.

Mr. Elliott then moved an amendment regarding the introduction of finance into the question. "Well, it has come to the point that Ontario should assert her rights," said Mr. Elliott. "She has been the victim of neglect, and the time has come when she should not lay the blame on Sir Wilfrid Laurier, the present prime minister of the Dominion, or even the prime minister of this province; but we should sink our political differences in order that Ontario may get the rights to which she is entitled."

Mr. Elliott then moved an amendment regarding the introduction of finance into the question. "Well, it has come to the point that Ontario should assert her rights," said Mr. Elliott. "She has been the victim of neglect, and the time has come when she should not lay the blame on Sir Wilfrid Laurier, the present prime minister of the Dominion, or even the prime minister of this province; but we should sink our political differences in order that Ontario may get the rights to which she is entitled."

Mr. Thompson-Clarke, of Vancouver, Secretary of the B.C. Football Association, has just reached London (Eng.) after riding from Vancouver to Montreal—3,600 miles—on a bicycle. Interviewed after his long ride, Mr. Thompson-Clarke said: "Before leaving Vancouver I played in the Football Championship, and received a nasty kick on my leg. I bandaged it up and thought it was not sufficiently serious to upset my programme for my long cycle ride, but when I got to Salmon Arm, B.C., I was hardly able to use the limb. The wound had been aggravated by the dust and friction of my stockings, and it looked as if I were going to have to abandon my trip altogether."

"At Salmon Arm, an Indian—one of the Thompson Indians—on hearing that I had a poisoned wound, suggested that I should use some salve, which he said possessed extraordinary power. It proved to be a box of Zam-Buk, and he gave it to me in exchange for one of my photographs. I cleansed the wound and applied the Zam-Buk. It soothed the wound wonderfully, and after a little delay I was able to cycle off with only slight discomfort. I continued the Zam-Buk treatment, and in ten days there was hardly a sign of the wound."

"I used Zam-Buk also for chapping of the face, and in future, on my long rides, I shall always carry a box of Zam-Buk."

TERRIBLE HEADACHES

Trenton Merchant Driven to Despair by the Pain.

"FRUIT-A-TIVES" CURED HIM
TRENTON, Ont., Jan. 23, 1909.
"It was a dreadful sufferer for many years from Stomach and Liver Troubles—but my greatest suffering was from violent headaches. They were so distressing that I almost had to give up my business. I went to Toronto and consulted specialists and wore glasses, but nothing did me any good and the headaches became intolerable."

"Fruit-a-tives" not only cured my headaches, but completely cured me of all indigestion, and restored me to perfect health again." W. J. McCOMB.
"Fruit-a-tives" is the greatest cure for headaches, indigestion, and all stomach troubles. It is a natural, vegetable, and fruit juice, and is the only medicine made of fruit juices. "Fruit-a-tives" will always cure Headaches, Indigestion and all Stomach and Bowel Troubles. See a box for \$2.50, or trial size 25¢. At all dealers, or from Fruit-a-tives Limited, Ottawa.

kept the Hudson Bay port as the main issue. No Legal Right.
The Liberal members had admitted that there was no legal right in the matter so far as Ontario was concerned, but that the case for Ontario was imperfectly set forth to the Dominion Government. If there was no legal right, and the whole matter hinged merely on justice, fair play and equity, why was any argument needed at all?

Mr. Lennox (North York) said that one would almost think from the remarks of Mr. Elliott that he was actually in earnest, and that he wanted a vote of censure passed upon the government for the terms of the settlement of the Manitoba boundary. Mr. Macdonald, however, took a different view, and would have conducted the case in practically the same way as the government.

Strenuous Opposition To Cheap Power Policy

Representatives of Various Electrical Interests Object Strongly to Added Powers Given to Hydro-Electric Commission, and Hon. Adam Beck Had to Stop One Spokesman When He Talked of "Pernicious, Dishonest and Immoral Legislation."

Hon. Adam Beck and the other members of the hydro-electric commission yesterday met with the most strenuous opposition to the cheap power policy that they have encountered since the project was first launched. Representatives of various electrical interests through the province went to the parliament buildings in scores to voice their protest against the added powers given to the hydro-electric commission by the introduction of Mr. Beck's amendment to the Hydro-Electric Act.

Among the speakers were Wallace Nesbitt, K.C., representing the Canadian Electric Association; A. W. Anglin of the firm of Blake, Anglin & Cassels, representing the hydro-electric Light Co.; F. Johnston, representing the Trent Valley interests. The railway committee room was crowded with representatives of the various companies affected by the passage of the new bill, and many municipal officials from various parts of the province.

Mr. Nesbitt, K.C., said that he represented 128 companies, with an aggregate capital of \$55,000,000. What had struck him most, in the legislation of the past few days, was that the commission had two aspects, one was commercial, in which it was competing with private enterprise; the other was governmental. He stated that he would like a definite line of demarcation between the two, and he thought that as a commercial competitor the Hon. Adam Beck and his fellow-commissioners should not exercise their governmental authority.

Mr. Beck said that before any legislation of that kind was put in force an order in council passed upon it. He said he had found confiscation necessary, and he said he had no objection to the power being given to the commission to acquire any private property, and stop after continuing them for considerable time. This was the only concession that he had made, and there was no recompense to be obtained.

Mr. Nesbitt maintained that an independent authority, one who is not in the competitive business, should be given the power to decide between the competing companies. He stated that the railway board power to order all wires underground, Mr. Nesbitt asked Mr. Beck to give up the power to act in his commercial or his judicial capacity.

Mr. Nesbitt argued that where private interests were not protected, even if the private interests had the powers by a vote of the people, the government should get full and free compensation. He continued, "but it is the function of the government to guard individual and property rights."

Mr. Beck enquired if Mr. Nesbitt did not think the commission was assuming "To Guard Rights."
Mr. Nesbitt argued that where private interests were not protected, even if the private interests had the powers by a vote of the people, the government should get full and free compensation. He continued, "but it is the function of the government to guard individual and property rights."

The Gas Range Is Built to Save Money for the People

From the factory to the consumer—all the way down the line—every effort is exerted to make gas cooking cheap. Engineers and designers are continually at work on the proposition of lowering the cost of using gas. With millions of gas ranges pleasing their owners, the problem has been reasonably solved. Careful use of the gas range will reduce living expenses in any family now using other fuels. Let our salesmen tell you more about our plans.

WEDNESDAY MORNING, MAR. 6 1912

METERING THE CORPORATIONS.

When a public measure is shown to be obnoxious to the corporations, the people have no need to worry. The objections raised against the new hydro-electric commission bill by the private electric interests provide all the assurance needed by Hon. Adam Beck and the government that he and they are headed in the right direction.

The higher critics do not tell us that the capitalistic interests interpolated the text: "If any man will sue thee at the law and take away thy coat, let him have thy cloak also," but the corporations act as if they believed the rest of the world should act towards them in that spirit. Having obtained franchises, they assert rights in connection with them that no individual would be allowed to assert, and they very often obtain them whether by default or carelessness, or connivance of those who should protect the people's interests.

There is not the slightest chance of any injustice being done to the corporations. They bargain for their pound of flesh and they get it, and they get the warm blood as well.

All that the commission with its new powers could do is to see fair play, and that no more than the pound of flesh is exacted, and it is possible that a little of the blood be saved.

The sacred rights of property have become a modern legal fetish, and the far more sacred rights of humanity are pushed aside in the greedy struggle of some of the people associated in corporations. Dealing with their selfishness to officials, who take pride in representing their organized greed and regard it as a duty to carry out its behests, the people in the corporations do not as a rule appreciate the unreasonable demands they make through their officials on their neighbors. "Is it fair to take property without compensation?" asks an able advocate. But what else are the corporations doing all the time. The corporations cannot deny that they got their agreements for the most part without a proper understanding by the people of what was involved in them. If they had kept to the spirit of the bargains, there would have been no quarrel over the letter. But as it is, the constant encroachment on plain common sense and justice and reason in the interpretation of agreements, has created such a temper in public spirit that the corporations are endangering the rights they have by exactions from the people to which they have no right.

No one opposes for a moment that the hydro-electric commission will do anything that is not perfectly fair, reasonable, just and equitable.

The corporations cultivate the mood of the cabman to whom it is a pleasure to offer his legal fare. As a result came the taxicab. The hydro-electric commission will simply put the corporations on a taxicab basis. Doubtless they will sometimes find means affer that to back up on them and across the street sufficiently to double the fare.

WHY WORRY ABOUT IT?

The Regina Leader and other Liberal newspapers are warning Canada that pressure is being brought upon congress to withdraw the offer of reciprocity. It is not surprising that the newspapers in the border states are clamoring for a repeal of the act. The people in these states were never friendly to reciprocity and they see nothing to be gained by continuing to hold out the unshaken hand. They concede that Canada is not likely to accept the offer, but for all that they wish it to be withdrawn.

The matter is entirely one for the United States to decide, and its decision will not be affected by the lamentations of The Manitoba Free Press, The Regina Leader, The Halifax Chronicle, and other Liberal newspapers. There is every reason to believe that free grain, free flour and free cattle and meat may be added to free sugar by the next congress. Should Mr. Taft be re-elected, he will no doubt endeavor to save something of Canadian reciprocity out of the free trade deluge. Mr. Roosevelt, on the other hand, is said to be against reciprocity, and might favor its repeal, if only to repudiate the policy of Mr. Taft.

In any event the people of the United States will probably frame a tariff to suit themselves. Nobody can object to their doing so, and it is worse than idle for anyone to worry about their withdrawing an offer which we have refused to accept.

BIG MEDICINE BOURASSA: I fear me, Armand, the bucks in the reservation are not coming out to join us.

MANY ACQUIRING THE HABIT

Hunt Daily for New Words in The World Dictionary.

NO LET-UP IN DEMAND.

How many times have you said, "I can't just find the word I want?" It does not do any good to look into the air or to speculate impatiently. You will not find words floating in the air, but you will find them in The World's dictionary. Don't go groping about for words—keep them at your elbow. Get the dictionary in exchange for six coupons clipped from consecutive issues of the paper and a small expense bonus. Open the book at random and see how many things you did not know stare at you from the pages.

WORD-HUNTING HAS A DOUBLE REWARD.

Not only does financial and business success reward those who improve their knowledge of the language, but they are immediately rewarded by the increased enjoyment they get out of life. One of those who write their thanks in a message of appreciation to the editor of the "World" says: "The World upon the great educational value of the dictionary has sent me a copy of the dictionary for my own use and I am glad to say that she would be kept by me as a treasure and I am glad to say that she would be kept by me as a treasure and I am glad to say that she would be kept by me as a treasure."

COURTIAN, BABAYAN & CO.'S SALE.

Great public interest is still being taken in the disposal by auction of the vast stock of Persian and Oriental rugs and other products of eastern art, which on Monday the famous \$100,000 silk rug, once in the three-room of the late Shah, was sold to Mr. Sinclair for \$350. It was a remarkable bargain, but there are many almost as good bargains still to be had. Monday next will see the beginning of the sale of the fine Oriental bragswork.

THE RIGHT ROAD.

Evening Telegram: Councillor Ball is pointing North Toronto to the right path when he advocates building new car lines in the town as a municipal enterprise, rather than granting franchises to private companies. The usefulness of North Toronto's car line depends upon facility of connection with the city car lines. The city car lines will be an entirely municipal enterprise, and young from now, and the lines with which North Toronto lines can connect directly will be municipal lines long before that date. North Toronto enters the business with one powerful asset—a strong, capable municipal engineer. Mr. James' merits as a traction expert have not yet been fully revealed, but he has shown himself an efficient municipal officer. The town is proportionately quite as well equipped for a transportation venture as is the City of Toronto for its similar problem.

This is Your Opportunity for a Week-end in Buffalo.

Only \$2.70 return from Toronto, Saturday, March 9, via C.P.R. 9:30 a.m. train. Tickets good returning from Buffalo until Monday, March 11, inclusive. Fastest time to Buffalo. First-class coaches and the popular chair seated smoking car. See that your ticket reads C.P.R. Toronto city office, 16 East King-st.

herly, minister of justice, to-day
from the provincial government.

PARCEL POST AND R. F. D.
Editor World: Considerable incon-
sistency was shown by some members
of the Ontario Hardware and Stove-
dealers' Association in session at
Guelph on Tuesday when they strenu-
ously objected to the proposed cheap
parcel post and at the same time ad-
vocated rural free delivery to every
farmer—the more inconsistency when
we find the cheap parcel post a real
necessity, while on the other hand the
rural free delivery to every farmer
can be truthfully called a luxury.

Real Estate and Building--News and Opportunities

O'BRIEN FARM ON BLOOR W. SOLD AT \$3500 ACRE

Great Activity in Land on East Side of Humber River—Car Service Is Yet to Come—But Fields Are Filling Fast and Will Soon Be Built Up.

Property east of the Humber River for six or seven miles north of the lake shore is decidedly active, and recent deals show the rapidly ascending trend of values.

Negotiations are practically concluded for the purchase of the O'Brien farm at the southwest corner of West Bloor-street and Windemere-avenue at \$3500 an acre. The farm is of 22 acres and the deal approximates \$50,000. The O'Brien family have held the land for over fifty years, and during the last few years it has remained almost unworked, while property all about has changed from market gardens to building sites.

Three years ago land could be bought here at \$4 and \$5 a foot—the purchasers of this farm expect to sell it at \$25 or more a foot. A syndicate is being formed to handle it, the purchase being made by R. S. Chappell & Company.

The property is just south of the city boundary. Dr. Atkins a month ago bought five acres nearly opposite in the city limits, at \$5000 an acre.

Property on Jane-street, which is five miles west of Yonge-street, between Bloor and Dundas-streets, is selling at from \$25 a foot up. There are still many big fields east of the Humber and south of Lambton, but they will be nearly solidly built up by the end of the year. The district is without car service, half-hour walks being quite the usual thing.

It was reported that the twelve acres belonging to E. D. Barton in the southeast corner of Jane-street and Western-avenue had been sold to a subdividing syndicate for \$2500 an acre, but Mr. Barton says the transaction is not finally closed.

CITY LOTS \$150 33 FEET FRONTAGE

A First payment of \$30, then \$30 at the end of 3, 6, 9 and 12 months buys a Home Lot in

St. George's Heights Guelph

OUR property is in the east section of the city, less than a mile from down-town and right in the path of the Royal City's wonderful industrial development. These lots are certain to be worth much more in a very short time.

Come in now, before the price is advanced and choose your lot from the plan. We feel sure that when you learn of the great strides Guelph is taking you will buy at once. But if you want to see the property for yourself we'll pay your expense there.

Dominion Government Buys Site for Garage
The Dominion Government have bought sixty feet on the south side of

Duchess-street, Nos. 55 to 61, at \$250 a foot. A garage for the mail motors will be built on the property. The deals have been pending since last July, purchasing privileges being secured then. The land is occupied by old houses, some vacant.

You Can Become a Land Owner

Invest 17 cents a day

YOU can buy Welland land—land adjacent to the big factories—land that must be used for workmen's homes.
Big capitalists are looking to Welland to invest their money. They are building big manufacturing plants. You can follow their lead and buy the land that Welland will need for homes.
They must invest millions—you can benefit by the work they are doing. You can share in Welland's growth by investing 17 cents a day.
Fortunes Have Been Made in Land.
On every hand we see wealthy people and others comfortably situated who have made money in land—who bought when values were low.

Welland Land is Low Now.
But watch the values grow. Five years ago Welland was a village of 1,700. Now it has over 8,000 people. Investigate and see for yourself the activities that are going to make Welland a big city.
Get our maps and booklets about Welland. Take the train over and see the way things are moving.
See the natural advantages of the place—cheap power—laks and rail shipping to attract factories. You will see that factories employing thousands of men now occupy what was farm land a few short years ago.
You will see that new factories are projected—that sites have been secured, and that there is no land near the factory districts as suitable or as convenient for homes as the land we offer.
You will agree that the land we hold in Welland must be built on.

Land in INDUSTRIAL PARK and in ROSEDALE PARK is the best buy in the best town in Canada

Prices range from \$160 up—10% down, \$5.00 per month. No interest or taxes for one year.
The Street Railway, which was completed last fall, and which is controlled by the directors of the Laughlin Realty, Limited, will be extended into both of these subdivisions as soon as possible, greatly enhancing the value of the lots.
If you can invest 17 cents a day get some of this land. Don't wait until it has increased to its real value. Buy now.
Call, phone or write for complete information.

100% PROFIT IN 60 DAYS

or 600 per cent. per annum on cash invested
This is the profit all the investors in the undersigned's Edmonton Syndicate could now take. Several have already, within 60 days, received 150 per cent. profit on their cash invested.

The advance in the last three months in

EDMONTON PROPERTY

has been most phenomenal, and the prospects for the balance of 1912 are the brightest in the city's history. Having purchased prior to these recent sharp advances over 1,000 acres, within and close to the City of Edmonton, we still have three choice subdivisions for sale at prices attractive for syndicate propositions, viz.:
150 acres inside proposed new city limits.
85 acres inside proposed new city limits.
160 acres ½ mile from proposed new city limits.
Look this up within the next 5 days.
WE SPECIALIZE IN EDMONTON REALTY.

STOCK MARKET HOLDING ITS
International Sentiment More Confident—Rio de Janeiro Slightly Easier

World Office, Tuesday Evening, 5:30
The price of the coal mines apparently was one market influence in the day's movement. It was itself a condition for higher prices with consequent sentiment on Wall-street to the extreme and the market was not quite so prosperous as yesterday.

The general speculative interest in the market was not very active in the morning, and the shares were not well supported. The low price of the day, and the fact that the market was not quite so active as yesterday, were the main factors in the movement.

LONDON, March 5.—New York and discount rates were steady. The stock market was decidedly cheerful tone, owing to the fact that the coal conference has been adjourned, and the market on the whole as a result of anything to-day, but the sentiment was somewhat in view of the fact that the market was not quite so active as yesterday.

LONDON, March 5.—Speaking of the British North American market, Chairman Hoar's statement offered the one best investment opportunity in the world. Canada would be one of the best investments in the world.

Commercial Reports---Porcupines Come in for More Activity

Public Confidence in Market Shows Signs of Increasing

Porcupine Stocks Adopt Cheerful Tone and Prices Advance Sharply—Sentiment on More Favorable Plane.

World Office.
Tuesday Evening, March 5.
 The mining market appeared almost universally cheerful throughout the session today. Porcupine stocks came in for more activity than for some time, and on the whole displayed an attitude of buoyancy such as has not been equaled for some weeks. Most of the cheaper issues shared in the advance which ran practically throughout the whole list. Closing prices were generally at sharp gains for the session.

The most outstanding feature of the day in respect to the Porcupine stocks was a decided upward movement in West Dome, which sold up 18 points to 60, and closed bid at 57, a net gain of 17 points for the session. The announcement that the inside interests had taken up a large block of treasury shares of West Dome, or, considerably above the market, was held responsible for the movement. The feeling of confidence which this action implied also had a decided influence on the sentiment in respect to the whole market.

The West Dome incident was reflected throughout the cheaper section of the market and advances from a fraction of a point as much as seven points were noted in Roscoe, McMartin, and DeWitt. Extension was up 2 points at 47 1/2; Vipond advanced to 48; Roscoe was up to 54, and some of the other issues showed similar advances. Porcupine Central and Southern showed further buoyancy, both scoring sharp gains. Hollinger was up above the eleven dollar mark again. The upward movement had a decided effect on market sentiment, and at the close it was felt that the way had been paved for a general recovery throughout the whole list. There is undoubtedly a material short interest outstanding, and a continuation of buoyancy would, in the natural order of things inspire a covering movement. On this account, the general feeling is one of confidence in market conditions.

Cobalts were quiet and generally unchanged, with strength in silver-leaf the only feature of any note.

INSIDERS "PLAY THE GAME."

No more significant instance of the confidence which Canadian financial and mining men have in the Porcupine gold camp could be adduced than the recent action of the directors of the West Dome Mines, Ltd., in taking over a block of upwards of 55,000 shares of that company at a price 25 cents a share above the stock market quotation. Nor could any more certain proof of the utter fallacy of the popular idea that the "insiders" always beat the public at their own game be found in the annals of mining in Canada. By their action, inside interest shows its confidence in the Porcupine in general, and in the West Dome in particular, and the incident should do not a little to inspire a more general feeling of confidence on the part of the public at large. The directors of the company include such men as Sir Henry Elliott and Mr. Hugh Blair of Toronto, and F. A. Heinz, the erstwhile "copper king" of Butte, Montana.

TIMMINS INTERESTS INSPECT HOLLINGER

Porcupine, March 4.—(From Our Man Up North.)—With a keen interest in the work now on at the Hollinger and the privately owned Timmins-McMartin Syndicate, L. H. Timmins, Noah A. Timmins, John McMartin and David Dunlop of Montreal and Toronto, visited the camp last week. They closely inspected the work on the stamp mill, and observed something as to the time it will take to complete the job. There was nothing new seen out before the distinguished gold mining party left for the south. *Chas. Fox.*

A NATIONAL PATRIOTISM

From all present indications the year 1912 will go down in history as the period marking the inception of gold production in the Porcupine Camp. And with the new gold district actually sending out the precious metal, it is highly probable that much of the stigma attaching to the name of Ontario in regard to gold mining will be removed.

In view of this fact it behooves every loyal Canadian to make himself acquainted with the salient facts in respect to the Porcupine Camp, viz.: The story of its discovery, its geological peculiarities, its progress to date, and the possibilities of its future. A concise summing-up of these and other data are supplied in The Porcupine Handbook.

SWASTIKA MINER IN PORCUPINE CAMP
 Superintendent Vandegrift Highly Impressed—Development at Lucky Cross Properties.

Porcupine, March 4.—(From Our Man Up North.)—Superintendent J. W. Vandegrift, of the Lucky Cross Mines at Swastika, visited the camp last week, and the Dome, Hollinger, Dome Extension, West Dome and Crown Chart were looked over. Mr. Vandegrift was impressed with the large amount of prospecting that has been accomplished on all the working mines in so short a time, and carried away a decidedly favorable impression of the camp.

At the Lucky Cross the main shaft is down to the 100-foot level, with a super-drift from the main shaft in several different directions has opened eight veins underground that can be worked from one main shaft. Drifting on these veins to the extent of 400 feet has been done since the last of the year. The main ridge at the Lucky Cross is ribboned with surface indications, and the underground work in every case has brought to light a good lead at the 100-foot depth. Free values show in the underground equally as in the surface, and in some places the most spectacular gold showings in the north were found. Extent of veins, bodies, etc., is now being worked out. A custom mill for the treatment of the area that may be mined at Swastika, is talked of and those engaged in the work of prospecting in the Swastika district favorably of the proposition. In the near future the Swastika camp will be in the hands of a man who kind to handle the production. *Chas. Fox.*

Will Woo Fortune In Unknown North

Porcupine, March 4.—(From Our Man Up North.)—Ungeva, the unknown, is the name of a man who is expected to be gone over there, and who will be accompanied by a number of prospectors, who are prospecting for gold in the unknown. It is supposed that the man is a former prospector in the West, and that he is now in the hands of a man who is expected to be gone over there, and who will be accompanied by a number of prospectors, who are prospecting for gold in the unknown. *Chas. Fox.*

Four Proven Mines in Porcupine Camp
 PORCUPINE, March 4.—(From Our Man Up North.)—Actual development of a very large number of properties, some of them yet in the infant class, is going ahead quickly but steadily. Mine men consider that Porcupine now has four mines whose values are sufficiently demonstrated to allow of men-in-the-future in the strictly "mine" class. It is from these mines that must come the stimulus which will bring a healthy tone to speculative activity. And that interest is well-justified, for the fact that the production of the year 1911 was \$13,000,000, and the expenditure for that year on development and so on was \$13,418, in addition \$10,475 was spent in purchasing a Porcupine lot and doing some work thereof. The cash-on-hand at the end of December, 1911, was \$14,311, and the proceeds of bullion sales and interest during 1911 were \$43,223, making a total of \$13,254. Expenditure as indicated above was \$29,936, so that \$32,564 cash was left in the bank at the end of the year. In addition to the cash there is on hand at the end of the month amounts to about \$60,000.

Regarding the result of the year's operations, Manager Neelands says: "The year's work may in a measure be regarded as disappointing, inasmuch as the production is less than that of the previous year. It has, however, some satisfactory aspects; the mine was able to earn a small profit while carrying on a much more extensive system of development than hitherto, and the continual occurrence of small ore bodies suggests the probability of more important discoveries being made by future exploration."

DOMINION OIL COMPANY

(Incorporated Under the Laws of Arizona)
AUTHORIZED CAPITAL - \$1,000,000

Divided into 1,000,000 shares of the par value of \$1.00 each, 500,000 shares of which are Treasury shares, and all of which are fully paid and non-assessable.

PROVEN OIL LANDS
 Consisting of 240 acres, King's Co., Coalinga, California, U.S.A.

Why You Should Buy Dominion Oil Now and What We Intend to Do With Your Money

You should buy Dominion Oil because it is a first-class investment. Because it is a field where every "oil perfection" is to be found. Because the properties are surrounded by producing wells, some of them the greatest the world has ever known.

Because it is estimated that under every acre of California oil lands lie over five hundred thousand barrels of oil.

Because there are the world's greatest corporations buying property all around the Dominion Oil Company's land, and these same companies have many producing gushers.

Because the Directors of this Company are men whose records are above reproach.

Because to-day is the logical time to buy these shares.

Because the Dominion Oil Company has a well that is down 2480 feet in a field that is surrounded by producing wells, and may strike oil almost any week now.

Because pipe lines run through the property, thus making their wells in line for rapid shipment of oil to market.

Because the supply is hardly keeping up with the demand.

Because on all sides of their property many companies are drilling wells that will prove up all the Company's holdings and increase their value.

Because the Company's stock may be drawn from the market at any time.

Because this is a Canadian Company, whose charter is the best in the land.

Because oil wells require but little expense to operate and the earnings are almost all profit.

Because this Company desires to sell only 100,000 shares now, and they are Treasury Shares.

Because this is an all company and not a stock selling one.

Because no matter what your question may be, this company can answer to your complete satisfaction.

WHY WE WANT TO SELL SOME OF THESE SHARES.
 We want to push every bit of development necessary toward the utmost production from our holdings.

Because we only want to sell 10 per cent. of this company's shares.

Hargrave Company Broke About Even
 The report of the Hargrave Company for 1911 shows that the company about broke even on the year's operations. The total production was 113,000 ounces of silver, of a gross value of a little over \$58,000, and the expenditure for the year on development and so on was \$39,418. In addition \$10,475 was spent in purchasing a Porcupine lot and doing some work thereof.

THE SIMPSON STORE

Matters for Earnest Consideration at

Correct Modes in Mantle Section

In arranging our plans for the Spring selling, we kept in mind constantly the fact that every cent spent should receive its full value in quality of material and finish, but never at the expense of either style or newness. The result you will see in hundreds of garments that have distinction and will bear the closest inspection with credit.

Dainty Dress at \$4.35

Misses' or Small Women's Sizes
A high waistline and three-quarter sleeves, a collar cut down at the throat to a point and lying square over the shoulders are features.

Imported figured lustre is cleverly matched with mesaline silk in collars and cuffs, and there are narrow lines of plaid, silk, and tiny plaid buttons to give the needed contrast. A remarkable value at **4.35**

In Our Skirt Section

is found a wide range of styles of imported fancy tweeds, mixtures, panamas, and vigorous cloths, in all of the leading styles. Many have the high waist lines or the new one-sided effect, ornamented with buttons.

WOMEN'S TAILORED SUITS FOR SPRING.

Women's and misses' suits of imported English serge and pretty tweed mixtures, lined throughout with colored silk, have long revers, collar, smart slash pockets. Skirts have the one sided apron effect.

Waists at \$1.95

From amongst the wealth of new lingerie waists we select two that give exceptional value:
Very dainty waists of fine lawn, whole front of fine, Val. linen. Cluny, and embroidered, with group tucking back and front. Short set in sleeves, lace trimmed. All sizes to 42. Thursday **1.95**

Plainer waists of white lawn, daintily pin-tucked, all-over shadow embroidered, yoke or jabot style, short sleeves. All sizes to 42. Thursday **1.95**

Hundreds of Rolls of Scotch Linoleum

We have received a new spring shipment of splendid linoleums from the best makers of Scotland, whose names are a guarantee of quality.

The Inlaid Quality, where the colors go right through to the canvas back, are specially suited for the very hardest wear in kitchens, halls, shops, and offices. There is a delightful range of clean, bright, fresh looking tile, mosaics, hardwood floor designs, and carpet chintzes at very moderate prices, all 6 feet wide, but sold by the square yard at 85c, \$1.05, and \$1.25.

One Special Quality of hand-grain finish in hardwood floor effect, in several different designs at \$1.35 per square yard, has the most natural effect we have seen in a linoleum pattern. In the surface printed qualities we have probably the largest range of designs and colors ever shown in Canada, and they comprise such a variety of different styles that everybody can surely be suited.

Japanese Matting Designs, oak floors, clean, bright tiles, special bathroom tile, at 40c, 45c, and 50c per square yard.

A Splendid Range of the best Canadian manufacturer in similar designs to the imported ones in four-yard wide linoleum, which enables you to have a big room covered without join, at 45c and 55c per square yard; 2 yards wide, 36c and 45c per square yard.

Good, Sturdy, Bright, Clean, New Oilcloths, 3/0, 3.9, 6.0, and 7.6 wide, at 27c and 32c per square yard.

Big shipment just in of the Printed and Canvas-Back Passage and Stair Cloths, in all manner of designs and colors. Canvas-back, 18-inch, 12 1/2c; 22 1/2-inch, 17c.
