SENATE LIKELY TO GRANT FULL POWER TO ACT

Debate on Wilson's Bill Continues Into Hours of Morning.

PACIFISTS GIVE WAY

Passage of Armed Neutrality Measure Deemed Prelude to War.

Washington, March 2.—Early this morning after more than 8 hours' debate in the senate, leaders reached an agreement for a recess until 10 a.m. without setting a time for a vote on the measure.

Washington, March 2.—President Wilson's bill to authorize a policy of armed neutrality was pressed toward passage in the senate tonight, with a debate running the whole scale of the nation's foreign relations.

The measure, which the White House has announced it desires to pass by the house last night, developed little evidence of determined opposition.

There were no party lines, and most of the pacifist element of the senate declared a willingness to fall in behind the president in his move for an armed policy.

As the debate proceeded into the night, there were many predictions that it would be well toward morning before a vote could be reached.

The dramatic features of the situation were heightened by crowded galleries and the attendance of several cabinet members and many representatives on the floor as spectators.

Among those in the diplomatic gallery, early in the night, was Sir Cecil Spring-Rice, the British ambassador.

Ready to Accept War. The senate bill, in addition to authorizing the arming of merchantships, would extend the authority requested by the president for use of "other instruments of war."

More than one senator declared passage of the senate bill would mean war sooner or later, but almost without exception they added that they were ready to accept war on those terms.

A few insisted that it would not mean war. None expressed any other expectation than that it would be passed, and then be accepted some time tomorrow by the house.

Arming of American ships to defy the German submarine menace waits only upon authority which probably will be given before another day passes.

It became known tonight that President Wilson is ready to give the order and that the administration has made its preparations to begin equipping merchantmen for defense at a moment's notice.

The cabinet met this afternoon and discussed every phase of the international crisis. There was no announcement after the meeting, but it was learned that the administration considered that there was nothing more to be done until congress acted.

About the only new development of importance being the issuance by communication announcing that Germany would release the American prisoners of the Yarrowdale on March 7, upon the expiration of a quarantine established, because a British sailor detained with the Americans had developed typhus fever.

The British have now come in close contact with the new German defensive line and they have found that it runs thru Les Essarts and Achiet-le-Petit, in front of Achiet-le-Grand, to a point about 1000 yards southeast of Bapaume.

The position has as its chief central defensive point the Loupart Wood, situated on high ground. The Germans have converted this wood into a field fortress of their usual style and they will hardly yield this position until the British drive them out by the exertion of powerful pressure again.

As the German retirement has left a two-mile gap between the old British positions and the new line, the British are laboring strenuously to join their new positions to the old ones by constructing roads and trenches. It will take them several days to consolidate the new positions.

King George, who has correct information about the German retreat, regards the operations on the Ancre as a fitting sequel to the achievements of the British army in the battle of the Somme last year.

His Majesty has cabled to Sir Douglas Haig to express admiration of the splendid work of all ranks in forcing the enemy, by steady pressure, to quit his carefully-prepared and fortified positions. These successes, the King says, reflect

Business Topics of Toronto

Notwithstanding war conditions the business outlook is brighter and better than at any similar period since 1912. Briefly, the wholesale drygoods houses have ample stocks of staples and with the exception of certain lines of linens and dress goods are able to supply customers' demands.

In hardware, shelf and heavy are in good demand with prices well maintained; builders quiet but firm. Collections are reported good for this season.

In groceries, all lines are firmly held with an upward tendency in tin and canned goods. Orders are larger and better than a year ago, and the opening of navigation will give business an impetus. Collections are fair but slow.

In hides, leather and tanned goods business is brisk. In some lines its demands exceed the supply, with fluctuating and high prices expected. Collections are reported good.

Paints, oils and greases are in good demand and firm. If stocks are not replenished further advances in price may be expected.

The retail trade awaits more seasonable weather to increase the volume of business. Between seasons makes business slow and uncertain, and no change can be expected until late in March, when spring novelties will be placed on sale.

CAPTURE MUCH BOOTY

British Take Over Four Thousand Prisoners in Few Days.

London, March 2.—The Turks are continuing to retreat before the victorious British on the Tigris front. Official announcement was made here today that the retreating Turks on Tuesday evening passed thru Aziziyah, 52 miles north of Kut-el-Amara.

More than 7000 prisoners have been taken since December. The statement issued by the official press bureau says: "Wednesday's report of the officer commanding in Mesopotamia gives the following: 'Pursuit of the retreating enemy still continues, and the Turks in great confusion passed thru Aziziyah on the evening of Tuesday. The clearing of the battlefield is being systematically carried out, but as fresh booty is being brought in from hour to hour it will be some days before a complete list of our captures can be compiled.'

"Since February 23 the approximate figures are: Prisoners 4800, missing a total of over 7000 since last December; guns, 28; trench mortars, 19; machine guns, 11; H.M.S. Firely recaptured; Turkish ships, 8; tugs, 2; barges, 10; and pontoons, 20."

A regulation covering the confiscation of aluminum cooking utensils is also published.

BANGOR DEALERS FEAR LOSS UPON POTATOES

Have Quantities Stored in Canada—Embargo to Cut Prices.

Bangor, Me., March 2.—Reports from Ottawa that Canada had virtually decided to prohibit the exportation of potatoes from Canada caused considerable concern today among Aroostook County shippers, who have stocks stored just across church bells at Houlton dealer. It was said tonight that \$35,000 worth of potatoes stored at Woodstock, N.B. Many others have stocks stored at other shipping points in New Brunswick, which, in the event of an embargo, would be disposed of at prices less than are paid on this side of the line.

The potato market today was sluggish at \$6 a barrel, compared with \$9 and \$3.50 a barrel last week.

Germany Withdraws Offer To Replace Dutch Vessels

London, March 2.—A despatch to The Daily Mail from The Hague says: "Germany's suggestion to lend its ships to replace those sunk apparently has been withdrawn, probably because it was realized the ships would be treated by the entente as German and seized. It is understood that Holland required compensation for the loss of the vessels sunk, as well as their replacement during the war."

SPIES WEAR GUISE OF NEWSPAPERMEN

Sander and Wunnenberg Are Accused of Promoting Extensive Plot.

INVISIBLE INK USED

Information Smuggled From Britain to U. S. and Sent to Berlin.

New York, March 2.—The sending of supposed newspaper correspondents to England, but whose real purpose was to serve as spies and supply Germany forbidden information as to civil and military conditions in England, was charged against Albert A. Sander, Carl W. Wunnenberg and George Vaux Bacon in indictments found here today by the federal grand jury.

Arrangements were made in this city, the indictments alleged, by which this information could be sent out of Great Britain thru the use of a writing fluid which remained invisible until certain chemicals were applied to the paper containing the writing. Bacon, it is charged, was hired to go to England as a supposed newspaper correspondent.

He was supplied by Sander and Wunnenberg, it is charged, with names and addresses of persons in Holland and Denmark to whom letters on apparently trivial subjects could be written in invisible ink, while information of military value could also be written in the invisible ink to be forwarded to Germany.

Bacon, it is set forth, was given at least \$1000 to defray his expenses on a journey to England and in that country.

The indictments declare that the defendants knew and believed that for the purpose of carrying on the military operations by land and sea of the forces of the German Empire, it was desirable and necessary that spies should be sent to England, and send out information of the nature it is charged, they transmitted. They are accused of "setting on foot a military enterprise in this country, directed against a country with which we are now at peace."

Sander and Wunnenberg furnished bail bonds and were released.

Tokio, March 2.—Japan has received no proposition from either Mexico or Germany, directly or indirectly, to join in a possible war against the United States, Viscount Motono, Japanese foreign minister, informed the Associated Press today.

Viscount Motono said he considered such an idea ridiculous, it being based on the outrageous presumption that Japan would abandon her allies. If Mexico received the proposal, Viscount Motono added, that country showed intelligence in not transmitting it to Japan.

WRECK PERIL ESCAPED BY HAMILTON EXPRESS

Engineer's Quickness Averts Disastrous Collision on Bridge Near Oakville.

Special to The Toronto World. Oakville, March 2.—Thru the quick action of Engineer Parker of the C.P.R. passenger express, which left Hamilton for Toronto at 9.40, three hundred passengers were saved from almost certain death when the train crashed into a number of derailed freight cars on the high level bridge last night. The freight train, which was going west, jumped the tracks when a few yards on the bridge, leaving the topcar on the eastbound rails. The passenger train, which had left Hamilton 40 minutes behind schedule, was traveling at more than 40 miles an hour. Approaching the bridge, the engineer noticed the derailed cars and immediately applied the emergency brakes. The train slowed up, but the momentum caused it to crash into the cars. The impact was not of such a nature as to cause serious damage to the eastbound express and the passengers escaped injury.

Had the collision occurred with greater force or ten yards further west the passenger train would have jumped the tracks and toppled over the viaduct, probably resulting in the loss of many lives.

A number of the passengers obtained motor cars, rigs and other vehicles at Oakville and journeyed to Port Credit, where they proceeded to Toronto on the radial cars. The C.P.R. sent out a yard engine and two engines to convey the remaining passengers to Toronto, where they arrived at 1 o'clock this morning.

Both lines are blocked as a result of the wreck, and the Detroit and Chicago trains were sent by way of Georgetown and reached the city at 1.30.

FINDS MEXICO PRO-ALLY GERMANS ARE DISLIKED

Andres Garcia Declares Carranza Will Discharge Any Propagandists.

El Paso, Tex., March 2.—"Mexico is pro-ally in its sympathies, and any effort to spread German propaganda there would meet with little encouragement among the Mexican people," Andres Garcia, inspector general of Mexican consulates, said tonight upon his return from Mexico City, where he was in conference with Gen. Carranza, Minister Candido Aguilar, of the department of foreign relations, and Gen. Alvaro Obregon, minister of war.

"If there are any Germans or Mexicans with German sympathies trying to influence public opinion in Mexico, thru official or semi-official positions, they will be discharged as soon as discovered, I am sure," said Mr. Garcia.

Wives of French Soldiers To Carry Mails in Paris

Paris, March 2.—Women letter carriers will soon be delivering mail in Paris. The method will be an experiment and preference will be given to wives of soldiers.

Some doubt has been expressed as to whether the women will be able to shoulder the wooden box that the Paris postmen carry without being too greatly fatigued. Recently women tried to replace the postmen at Neuilly, a suburb of Paris, but they lasted only three days.

Germans Now Ready for Fighting on Line From Essarts Thru Achiet-le-Petit to About 1000 Yards Southeast of Bapaume—Further Progress Reported by British With 128 Prisoners Taken.

London, March 2.—Further progress was made today by British troops north of Warlencourt and Aucourt and northwest of Puisieux-au-Mont, says the official statement from the war office tonight. Local German attacks in the Ancre region were repulsed and as the result of the fighting the British captured 128 prisoners, three machine guns and four trench mortars.

The statement reads: "Our troops made further progress today north of Warlencourt and Aucourt and northwest of Puisieux-au-Mont. Local German attacks made against our advanced positions northeast of Gueudecourt and northwest of Ligny-Thilloley early this morning were repulsed with loss. As the result of the fighting on the Ancre today we captured one officer, 127 men of other ranks, three machine guns and four trench mortars."

"This morning our troops raided German trenches near Angres and Calonne and northeast of Loos, capturing 20 prisoners. An enemy raiding party made an unsuccessful attempt last night to enter our trenches southeast of Rocincourt.

"Hostile artillery showed considerable activity today in the neighborhood of Sully-Sailliel, Armentieres and Ypres."

GERMANS MAKE DEFINITE STAND

What may be termed the first stage of the German retirement plan on the Arras-Somme sectors seems to have been about completed and the Germans are making a definite stand. Their line runs from Essarts, thru Achiet-le-Petit to about 1000 yards southeast of Bapaume.

Along this line is the Loupart wood, situated on high ground, which is a typical German field fortress. The Germans are not expected to yield this line until further pressure is brought to bear against them.

Meantime the task of connecting up their new positions and building roads thru the former No Man's Land is proving an enormous one for the British, as all the Somme and Ancre area presents an aspect more or less of liquid mud, resulting from the week's thaw. The Germans undoubtedly timed their retirement to coincide with this condition of terrain. In other words, the Germans got started while the ground was in good condition, knowing that the British would have to pursue them when it was at its worst.

HELD ON TILL BITTER END. In occupying the evacuated territory British patrols time after time have encountered isolated groups of German defensive troops, who were carrying out to the letter their instructions to hold positions to the bitter end. The remnants of these groups, when captured, have been loth to believe that their main armies had been withdrawn, declaring that they had no idea of the plans. One German who had been totally blinded by the British artillery fire was found in a shell hole into which he had crawled and remained for 30 hours, hoping his comrades would find him. When told they had retreated several miles to the rear, the man broke down and cried bitterly.

The weather is the baffling element in the present situation. It cleared beautifully yesterday afternoon with a distinct touch of spring in the air; but during the night the thermometer fell to below the freezing point. Today the battlefield is shrouded in impenetrable fog.

ALL AMERICAN NATIONS SUSPECT HUN POLICY

German Overtures to Mexico Disgust Latin Republics.

Rio Janeiro, March 2.—A Notice in an editorial today says it refuses to believe Mexico would acquiesce in Germany's proposal to make war against the United States. Such action, says the newspaper, would mean the end of continental solidarity.

The Jornal do Commercio in an editorial says: "If Germany has really taken the initiative of suggesting to Mexico a military agreement, the United States will not be in a position to preserve neutrality, and the whole German policy will remain suspicious to all the American nations."

WAR SUMMARY THE DAY'S EVENTS REVIEWED

(Continued From Page 1.)

Great credit on those responsible for the drawing up of the plan of campaign. This message of the King demolishes the belief expressed in some places that the enemy's action was not compulsory.

A week's thaw has converted all the Somme and Ancre area into a zone of liquid mud. The Germans started their retirement while the ground was in good condition, and the continuance of the thaw, a contingency which they might guess at in timing their withdrawal, has compelled the British to pursue the enemy under the worst conditions of terrain.

In Mesopotamia the Turks are still retreating on Bagdad. So fast have they travelled that by Tuesday evening they had passed through Aziziyah, 52 miles north of Kut-el-Amara. They were in great confusion and the retreat was being closely pressed by the British army. The British are clearing the battlefield and they are constantly bringing in fresh booty. They have taken 4300 prisoners since Feb. 23, as well as 28 guns. They also have recaptured the firefly submarine and captured three Turkish ships, two tugs, ten barges and thirty pontoons. The prospects of the making of a stand by the Turks before reaching Bagdad are non-existent, unless strong reinforcements arrive. Turkey can only get reinforcements by weakening her Caucasus front or by recalling men from Europe. She has had two months to do so, but probably she would need three months to form any considerable army drawn from Europe.

Major-General Maurice, who, as director of British military operations, has a close connection with the planning of the British operations in France, declared yesterday that the German retreat was compulsory. This movement, he says, is a retirement forced on the enemy. No army likes to retire, and it is therefore certain that the Germans will make a determined effort somewhere to restore their lost prestige. The British are merely gathering the fruits of their winter's operations. These brought about the formation of a salient between Arras and the Ancre dangerous to the Germans. The British raids on the Somme front gave them commanding positions, and from these the British artillery has been much more effective. The Germans no longer occupy snug and well-constructed dugouts and they are more than anxious to retire to a safer line. They also probably counted on making the preparations of the British for an offensive over this ground abortive, by giving up their front line and by compelling the British to alter their plans. Gen. Maurice believes that the enemy is still capable of resistance and he will put up a strong fight. From a purely military standpoint he sees no reason why the war should not last over another winter, but conditions outside of the military zone may operate to end it sooner.

Woman, Who's House is Burned, Evades Questions Concerning Furniture.

Hamilton, Saturday, March 3.—Deputy Fire Marshal G. F. Lewis conducted an inquiry yesterday into the fire which occurred at the home of Mrs. Mabel Cronin, 83 Stirling street, on January 30. Mrs. Cronin, known previously to her marriage, which she said took place about ten weeks ago, as Mabel Snowden, proved a hard witness. She evaded as far as possible all questions as to the disposal of numerous articles of furniture and considerable clothing, insured by the Hamilton Fire Insurance Co. and supposedly destroyed. She stated that she had taken to Hamilton she resided at 66 Pembroke street, Toronto. She denied owning land on Hamilton, Toronto. At times she was threatened with punishment for contempt of court, her answers being so impertinent. Fire Chief Teneyck was of the opinion that the fire started from a box placed on top of the furnace. Mrs. Greenfield, 41 Patricough avenue, gave evidence that she bought from Mrs. Cronin a bedstead and mattress. Mrs. Stokes, 2 Sanford street, also said she made some purchases. Max Epstein, of the Dominion House Furnishing Co., testified to finding in the house of Mrs. Greenfield and Mrs. Stokes evidence of furniture bought by Mrs. Cronin, but not all paid for. Mrs. Sarah Vine, who is looking after the interests of Mrs. Cronin, owner of 83 Stirling street, said goods had been taken from the house and sold. Deputy Lewis in adjourning the case in the morning said he would refrain from committing Mrs. Cronin, as she was in charge of the magistrate. Mrs. Cronin is at present being held on a charge of attempting to obtain money by false pretences from the Hamilton Fire Insurance Company.

BOYS' BRASS BAND TO AID CAMPAIGN

Visiting Musical Organization From States to Give Open-Air Concert.

MEETINGS TODAY

Returned Soldiers Will Hold Patriotic Rallies Both Afternoon and Night.

Toronto will have its first open air band concert of this season next Monday noon in City Hall Square. The manager of the Californian Boys' State Band, James S. Crandall, a Canadian, heard from friends in Buffalo of the Great War Veterans' campaign for recruits and wired to Toronto offering the services of the band. All the forty boys were most anxious to do something for the allies. They will play from 12.15 to 1 o'clock. Returned men may speak between numbers. The boys, who are all under 14, play at one of the vaudeville houses in the city next week, and have made a great name for themselves during a year's tour.

CLARENCE COOK REMANDED.

Clarence O. Cook, who was brought back to Toronto yesterday from Detroit on a charge of theft, appeared in the police court yesterday and was remanded to the jail hospital. Cook, it will be remembered, was the man who impersonated a lawyer at the cells in the city hall and walked out. T. C. Robbette, who appeared on his behalf, asked that he be removed to St. Michael's Hospital, as his client was ill, but Magistrate Denton ruled that the jail doctor was capable of looking after the prisoner.

FORTY CASES LISTED.

Of the forty cases listed for trial in the sessions before Judge Coatsworth, which will commence next Tuesday, fifteen are for theft, six for wounding, and two for offences against women. William Pellatt and Ernest Riley will also face charges of criminal negligence following a head-on collision between their autos, when George Egan, a boy who was passing on the sidewalk at the time, was injured.

WILLS PROBATED

Charles Herbert Mortimer died at his home, 12 Crescent road, on Jan. 11 last, leaving an estate valued at \$71,700. Mrs. Sarah Evelyn Mortimer, his widow, is to have the use of the household goods for life, or as long as she remains a widow, and a net income of \$5,000, with which to provide herself and her unmarried daughter. Provisions are made for the two sons and wife, direct that if the net value of the estate exceeds \$50,000, a legacy of \$500 to be paid to each of the two sons and the benevolent fund of Central Methodist Church.

Receipt of Cars is Delayed

Up to the present not one of the thirteen street cars ordered by the city from the Preston Car and Coach Company last May, has been delivered. Commissioner Harris says the delay is due to the right of way being given to the munition orders at the factory. It is not known when the 200 cars ordered by the Ontario Railway Board for the street car service will be received. It is estimated that the cars will cost the company an average of \$6000 each. Only 28 of the 50 cars ordered some time ago have been put on the routes. The new cars will cost the T.S.R. more than \$1,300,000.

Tea is Now Getting Scarce

Prices of tea are steadily increasing owing to the present shipping conditions. Canadian tea brokers have in the past purchased tea from India, and Ceylon thru London, but at present there is no tea coming via this route, and the possibility of bringing tea into Canada from China via Vancouver is being discussed. This routing would cause a delay of about ten weeks and would prove more expensive. The stock of tea at present in the country is being rapidly depleted.

WOULD ENCOURAGE THRIFT.

United Empire Loyalists Pass Resolution in Support of Campaign Aimed to Help Win the War. At the recent meeting of the United Empire Loyalists a resolution was adopted expressing sympathy with the spirit which has prompted statesmen and prominent financiers to impress upon the citizens the paramount duty of self-sacrifice and strong united effort for the promotion of national thrift. The association felt that the appeal should be met with a ready response, and that it is not a question of mere academic interest. The association is of the opinion that every legitimate influence should be brought to bear on all governmental and municipal corporations having control of the public funds to enforce the most stringent economy.

EXCURSION RATES EXPECTED.

Railway officials stated yesterday that the report that the usual reduced rate at Easter would not be made was not an official announcement, and at the next meeting of the Eastern Canada Passenger Association, to be held on Tuesday, it is likely that the usual rate of one fare and a third will be decided upon for Easter.

Employ the Electric Vacuum Cleaner to Do Your Spring Housecleaning

We Recommend the "Electro-Vac," a Durable, Efficient Machine at the Moderate Price of \$27.50

AND THIS moderate price is a very strong argument in its favor, for it is marked at the same figure as the usual selling price in the United States, the place of its manufacture.

To such a point of perfection have its various features been brought, however, that, despite the low price and its lightness (it weighs only eleven pounds), it is remarkably efficient, and is distinguished by these special features:—

- A graded scale bar, making it possible to adjust the suction regulator for rugs of either very short or very long pile.
- A motor that is fully guaranteed by its maker (Independent of the guarantee of the Electro-Vac)—placed horizontally and so assembled that it cannot come out of position.

- A tipping device by which the machine can be raised when necessary to run from one rug to another.
- Two auto roller bearing wheels which do not need oiling.

- Oil reservoir which insures a constant supply of oil, prevents over-heated bearings and needs filling only once a year.
- A self-adjusting brush located in the nozzle and so arranged that it cannot get out of order.

- An enameled nickel pressed steel, which is extremely durable. The price of the Electro-Vac is \$27.50, Extra attachments, 7.00

CAPT. JOE LAWSON IN FAREWELL SPEECH

Dynamic Recruiter Will Appeal for Recruits at Hippodrome Sunday.

Capt. "Joe" Lawson, the dynamic recruiting officer of the 204th (Beavers) Battalion, will make his farewell address before a Toronto audience when he will speak in behalf of the 204th, at two recruiting meetings, to be held at the Hippodrome, Sunday afternoon and evening, under the auspices of the Sportsmen's Patriotic Association. The 204th is going overseas shortly, and it will be Capt. "Joe's" farewell effort. Sert. J. W. Geddes and Corp. W. Harris will also address the meetings, while the following artists will entertain their services: Alma Wynne, Dorothy Sawdy, Muriel Michie and Earl Beebe.

Vice-President of Insurance Co. Joins the Royal Flying Corps

Frank D. Williams, vice-president and managing director of the London Mutual Fire Insurance Company, has taken out a commission in the Royal Flying Corps. Ptes. S. E. Buck, V. G. Snyder and R. H. Williams are transferring from the overseas company of the Officers' Training Corps to the Royal Flying Corps. Sert. A. C. POTATO PRICES DOWN AND MAY COME LOWER

Government Action in Prohibiting Export Would Result in Greatly Decreased Quotations.

If the government prohibits the export of potatoes, as is stated, it will mean an immediate reduction in prices to the consumer, and in the next few weeks potatoes may be obtainable at as low as \$2 a bag. A decline is already noted on the local wholesale market. Under the present conditions many cars of Canadian potatoes, especially from New Brunswick, are being shipped south, where, much higher prices are offered than even in the Toronto market. An order prohibiting export would at once stop this profitable trade for the potato dealer and prices would take a big tumble in Canada. It is believed, however, that there are lots of potatoes in Canada to supply the country until the new crop is ready for marketing, providing the export trade is stopped. Dr. Creelman was informed by W. R. Reek, the assistant commissioner of agriculture, who arrived in Toronto on Thursday, that in Prince Edward Island alone there are one million bushels of potatoes. Dr. Creelman said that investigations conducted by the district representatives indicated that there would be no shortage of seed potatoes in Ontario this spring. Wholesale dealers, when asked yesterday about the effect of the proposed order prohibiting export, were almost unanimously in favor of it, stating that the sections of the country where potatoes were plentiful were holding up Toronto for prices that compared with those offered in the States.

NOEL MARSHALL AGAIN. Expected He Will Be Re-elected President of Exhibition Without Opposition.

It is not expected that there will be any opposition to a second term, as president of the Canadian National Exhibition, for Noel Marshall, when the new board of directors holds its inaugural meeting, on Tuesday next. A new executive has yet to be appointed, and there is keen competition between Ald. Ball, Ald. Basanah and Ald. Robbing for the position of city representative on this body.

Pte. P. M. Campbell, 388 Delaware avenue, is reported as having been wounded but returned to duty. Pte. H. Thornely, who trained at the Exhibition Camp and went overseas with a third contingent unit, is reported as dangerously ill. He lived for more than a year in Rossington avenue before enlisting. He is 25 years old and it is understood his relatives live in England. Corporal James Bryton, whose parents and brothers and sisters live at Oakville, was officially reported wounded Feb. 16 by gunshot in the right foot. He went overseas as a private with a battalion from Barrie.

Lectured on Poultry Raising Before Women of Earlscourt

In connection with the campaign of thrift, the address of Miss Yates, lecturer of the department of agriculture to the women of Earlscourt on the raising of poultry in city gardens was most opportune. Miss Yates spoke not from theory alone but from her own experience in her venture with Miss Beardmore at Clarkson.

Dealing with the 30 by 40 foot garden plots, which are issued by the government, the speaker suggested that six by eight feet poultry houses to accommodate ten hens be placed either at one side or in the centre of the gardens. Until six weeks old chickens cannot scratch, and young hens destroy much of the larvae of insects. Hens must not be penned up and may be allowed to run in any section where the condition of the crop makes it possible. Early crop, late crop, salad and potatoes were the crops suggested for home gardens.

RETURNS FROM FRANCE.

It is reported that Lieut. Walter Menpes, who went overseas with the 92nd Highlanders and was wounded, is returning home. Prior to joining the C. E. F. he was in the head office of the Royal Bank. His parents are now in England.

FORTY-FOUR UNITS WANT VOLUNTEERS

Toronto Alone Has Thirty Organizations Seeking Recruits for Overseas.

MORE FORESTRYMEN

Another Corps Authorized to Enroll Men From Sudbury District.

A total of 44 units of the C.E.F. are at present recruiting in Toronto military district. Thirty units are recruiting in Toronto city alone. These include seven battalions, four artillery batteries, four forestry drafts, and over a dozen other special units, including the Royal Flying Corps, cavalry, navy, army medical corps, army service corps and army veterinary corps. There are approximately 10,500 active service troops and 500 officers in this military district. Seven thousand five hundred are quartered and training in Toronto and Hamilton, the former having about 5500 and the latter 2000.

Authority for the formation of another forestry draft, consisting of a captain, two lieutenants and 125 other ranks, was announced yesterday. W. A. Webster, with rank of captain, will command the new unit. Its headquarters will be at Sudbury, Ont.

Recruiting honors in Toronto yesterday went to the army service corps, the unit sending 15 men up for medical examination, of whom nine were accepted. A total of 78 Toronto men were passed thru the armories depot. Twenty-seven were accepted. The forestry draft secured six of the accepted recruits, 25th Q.O.R. Batt. four, and the following units one each—109th Regiment draft, 204th Batt., 208th Batt., 220th Batt., 256th Batt., artillery, Dragons, and Welland guard.

The various artillery batteries at Exhibition camp received warning last night of the departure of drafts for overseas shortly. The route of the combined church parade of the 109th Regiment and Great War Veterans to St. Anne's Church, Dundas street and Gladstone avenue, Sunday afternoon will be by way of Arthur and Dundas streets from Alexandra Gardens. The return march will be via Dundas, Douglass and Queen to the corner of Spadina, where they will dismount. Arrive at church at 8.45, leave at 5, dismiss 5.30.

The 25th Overseas Highland Battalion of Kingston has been permitted to recruit in the Town of Cobalt up to and including March 15. The cyclists, artillery, Army Service Corps, Army Medical Corps and men attending the bayonet fighting, bombing and signaling classes will parade to Chalmers Presbyterian Church on Sunday morning at 9.30. Nos. 2 and 12 companies of the Canadian Army Service Corps have 60 men taking part in a series of marksmanship contests which commenced at the armories rifle ranges last night. Owing to the C.A.S.C. being at the front, the members here are expected to be efficient in shooting.

OFFICER RECOVERS.

Lieut. F. B. McFarren Expects to Return Overseas in May. Lieut. Fred B. McFarren, 13 Lyndhurst avenue, who received wounds while fighting at Courcette during the battle of the Somme, which necessitated a mastoid operation at the general hospital, is now recovering and expects to return overseas in May if fully restored to health. He went overseas with the 83rd Battalion, being transferred to a mortar battery, he was almost completely buried by a shell explosion. Lieut. McFarren stayed on duty for two more days, but a swollen leg forced him to take hospital treatment in England. He has been home two months on sick leave.

New Manitoba Hotel Law Would Not Be Acceptable Here

When shown an outline of the law in the Manitoba legislature, proposing to give relief to hotelmen and giving municipalities the power to establish and operate hotels, Vice-Chairman Dingman of the license commission, was very doubtful of its success in Ontario. He did not think the province would be justified in going so far. He had sympathy with the deputation from the Commercial Travellers' Association, which had asked that the municipality re-compense the hotels in some manner for providing public lavatories, etc. Mr. Dingman does not favor the proposal in the western act, that hotelmen be given a practical monopoly in the sale of tobacco and the operation of billiard rooms.

Y' SEE

WERE IN THE ORCHARD

CARLTON & SEAL, 17.

And that (with us present-day veterans) explains EVERYTHING. If YOU had been in that orchard—or in any other place just like that orchard—you would understand. If you had seen Bill Heming's platoon up ahead through the mist. . . . If you'd 'a' seen 'em fighting—desperate—and old Dirty-face Doolan leamin' against a stump of a tree wig-waggin' back for reinforcements with his one good arm. . . . If YOU had drilled alongside that platoon. . . . If you had slept in the same tent with Dirty-face at Sal'sbury. . . . and scrapped with him and been licked. . . .

N-if you'd 'a' seen the mist lift! The Germans on three sides of Bill Heming's platoon! . . . Cr-a-awlin' up. . . . If you'd seen our sergeant's face! If you'd heard him yell (though he hated Bill Heming—)

"WHICH OF YOU'LL COME! AND WHICH OF YOU'LL STAY?"

G — — ! YOU'D 'A COME!

'And if you HAD come?

Well—that's the difference. Nothing would ever have been the same to you again. Nothing IS the same to us who are back. We've tasted a drink you've never tasted—a thrill (as we swung over the edge of that parapet) for which you, if you'd had it, wouldn't exchange a year's misery!

Maybe we're wrong.

Maybe it's wiser to 'tend our own business and let Bill Heming look out for himself.

But if we're wrong—we're proud of it! We say to you men of Toronto: We've been in the army. We know its drudgery. We know it's hard work—but we never knew fellowship, brotherhood, comradeship—and LIFE—till we enlisted. All of us who can, are going back to the Front—back!

WILL YOU COME WITH US?

LEWIS MACHINES LIKE ROSS RIFLES

N. W. Rowell Transmits Information From Shorncliffe Officers—Names Refused.

GET MONEY BACK

Liberal Leader Says if Guns Were Defective, Province Should Be Reimbursed.

He had been informed by officers at Shorncliffe that the Lewis machine guns bought by the provincial government for \$500,000 to supply Ontario soldiers had jammed like the Ross rifle, said N. W. Rowell in the house yesterday. If these guns had been defective, the province should be reimbursed, said he.

It was the duty of the federal government to provide these weapons. That government had not signified that it could not do this. Mr. Rowell therefore could not see why the taxpayers of Ontario should bear a burden which should be borne by the Dominion as a whole.

Hon. G. H. Ferguson had been misled in saying that the machine guns supplied by the province had been manufactured at the B.S.A. factory in Birmingham. They had been manufactured in the United States by the Savage Company.

When he had been in Shorncliffe he had been surprised to see Canadians using British-made Lewis guns, and not those supplied by the province, said Mr. Rowell. Officers had replied to his queries that those of this kind of United States had not proved satisfactory. In reply to a demand from Hon. T. W. McGarry, Mr. Rowell refused to give the names of these officers.

On his return to Canada, Mr. Rowell said, he had gone to Sir Robert Borden and laid the matter before him. The prime minister had not been aware of these charges, but had promised to have them investigated. Mr. Rowell said he had no personal knowledge of these things. If there had been defects, they might have been remedied, but if defective guns had been supplied the province should be reimbursed, he said.

Provincial Treasurer Replies. Hon. T. W. McGarry attacked Mr. Rowell severely in his reply. The matter was far too important to be brought up in the house on the complaint of an unnamed officer, he said.

If he were Mr. Rowell, before he went to bed that night he would go through that officer and demand that in fairness he should allow his name to be used.

He suggested that the officer who had informed Mr. Rowell was the same one who had written the letter on which C. M. Bowman had made his West Simcoe charges. Mr. Rowell denied this.

The machine guns manufactured in Utica, N.Y., by the Savage Company and those by the B.S.A. in Birmingham were identical, he said. The government was muzzled by the nature of the question from producing all the information on the matter that they were able.

Mr. McGarry charged Mr. Rowell with unfairness in making the attack. He had shown only one-half of the information which he had, and had done it to injure the government and wring the hearts of the people of Ontario. He should think of this next time he made a patriotic address. Mr. McGarry referred to a letter from Sir Robert Borden expressing "greatest appreciation" for the gift, and to a letter from Hon. A. E. Kemp that the British Government too had ordered machine guns from the Savage Company in Utica.

PROVINCE MAY ISSUE NEW POPULAR WAR LOAN

Provincial Secretary Makes Statement in Course of Reply to Attack on Budget.

Hon. T. W. McGarry in replying to N. W. Rowell's attack on his budget said that if the conditions warranted it Ontario would have a popular loan issue to aid in lifting the burden of the \$17,000,000 Ontario securities now held in Great Britain.

Mr. Rowell thru a maze of figures endeavored to prove that Mr. McGarry had either not reduced the debt of the province by \$810,000 as claimed, or else he had used war tax money for public buildings. He was including in his unexpended assets, money from the war tax, he said. Mr. McGarry replied that Mr. Rowell did not know what he was talking about and had better secure the advice of a financial expert.

Mr. Rowell further complained that he was not given a detailed statement of the purposes for which they intended to expend money raised for war purposes. Mr. McGarry was acting in a fraternal and amicable method.

ACT EMPOWERS COUNCILS TO BUY FUEL AND FOOD

Hon. W. D. McPherson Introduces Amendment—Bylaw Needs Vote of Council Only.

Hon. W. D. McPherson yesterday introduced a bill to empower municipalities to borrow money to buy, store and sell fuel and articles of food as designed by order-in-council, such as cereals, bread, butter, milk, eggs and potatoes.

The act also empowers municipalities to buy land, build, equip and conduct depots, appoint staffs and make rules necessary for the business entailed. The necessary bylaw shall not, according to the act, require the assent of the electors, but shall need a two-thirds vote of the council, and the debentures issued for these purposes shall be for not more than ten years.

LIFT NICKEL VEIL IF U. S. FIGHTS

Hon. T. W. McGarry Says Correspondence Regarding Export Will Be Public.

ATTACK ON DEWART

Minister in Savage Speech Impugns the Honesty of "Baby Member."

Hon. T. W. McGarry yesterday made a savage attack on H. H. Dewart, K.C., for his nickel addresses in the house. He spoke of him as a "shifty trial lawyer," the close friend of G. G. Lindsey, who had been refused by the International Nickel Company permission to "traffic and trade with nickel and make huge commissions from the Russian Government." He charged him with dishonesty in saying that he had not seen the newspaper reports of British cabinet ministers' statements regarding the arrangements for handling Canadian nickel. He said that thru these addresses Mr. Dewart had lost much of his reputation as a speaker and broadly hinted that he had lost the confidence of the people of the province. He charged him with attempting to be dramatic and sensational and predicted his early failure. He endeavored to make much capital out of Mr. Dewart's reference to Mr. Rowell as "my leader." Mr. Dewart was but a "baby member" and so he wouldn't treat his criticism of the budget with the contemptuous ridicule of which he is capable.

Through the trade the only item he added to the province's knowledge on the nickel question was that, should the United States declare war on Germany, the veil would be lifted and the correspondence, hitherto suppressed for diplomatic reasons, would be revealed.

Mr. Dewart had asked why no reference had been made in the estimates for the promised retroactive legislation to give the province just taxation on the nickel companies. To this Mr. McGarry replied that these estimates were prepared by the officers of the department on the legislation in force during the preceding year. "The honorable member cannot hide behind a smile his incompetence to discuss matters in this house," he added.

Mr. Supporting Evidence. Mr. Dewart, he said, had not produced a tittle of evidence to support his "foul charges" that Canadian nickel was returning to Canada in the bodies of Canadian soldiers. "I can tell my honorable friend that there never was a man who endeavored to get into public life thru sensational methods who ever did or ever will succeed," he said.

He resented Mr. Dewart's shaking his fist at him in the absence of the minister of lands, forests and mines and asking why the nickel report was not yet brought down. Using the gesture complained of, Mr. McGarry asserted vehemently that these methods would not hasten the report a particle. The report would come down when it was ready, and on it would be framed the legislation of the government regarding nickel. Then the people could judge between the experts and the "trial lawyer." He then advised Mr. Dewart to remain silent if he could restrain his impudence so long. These remarks were received with immense approval and relief all over the government side of the house.

ON SHOPBREAKING CHARGES.

On four charges of shopbreaking two boys, aged 15, were arrested yesterday afternoon by Acting Detective Crowe and P.C. Whitelaw. The youths are said to have entered three houses and one store at midnight. The police found several articles of jewelry on them, and a revolver. They were taken to the shelter, and will appear before Commissioner Boyd this morning in the juvenile court.

TEETHING TIME A TIME OF WORRY

When baby is teething is a time of worry to most mothers. Baby's little gums become swollen and tender; he becomes cross; does not sleep well; is greatly troubled with constipation, colic or diarrhoea and sometimes even convulsions seize him. During this period nothing can equal the use of Baby's Own Tablets. They regulate the bowels and stomach and make the teething so easy that the mother scarcely realizes baby is getting his teeth. Concerning the Tablets, Mrs. Arthur Archibald, New Town, N.S., writes: "I used Baby's Own Tablets when my baby was getting his teeth and I found them an excellent medicine." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

New System of Fat Reduction

Here's a new way for all fat people to laugh together at that old bugaboo—Obesity. The saying that "there is nothing new under the sun" does not now apply to fat people any more. Here is something new for them—a new sensation, a new pleasure, a new and graceful figure, easily found by anyone who is passing beyond the limits of slenderness.

Mrs. J. M. Gardhouse, convener of the sock committee, reported large bundles of sock and shirts forwarded, each package containing a list of its contents, which is signed by the adjutant in France and returned to the women, showing safe arrival. Special mention was made of the contributions of socks from the Churchill and T. L. knitting clubs. Miss Margaret Sarr, the assistant secretary, read letters of appreciation from Lieut.-Col. King, and Capt. Rawlinson wrote that tournaments, games, and boxing bouts had been arranged among the 750 men of the brigade in their quarters in France to win as prizes the Christmas stockings sent by the auxiliary. Mrs. Mann's husband died six weeks ago, and Mrs. Mann lived in the house by herself. For some time she slept at the home of friends named Pickton at 485 Concord avenue. On Wednesday night Mrs. Mann did not go to the Pickton home, and the neighbors became alarmed. At one o'clock yesterday afternoon Mr. Pickton climbed in one of the windows at the Mann residence and searched the house. The bathroom door was locked, and on forcing the door Pickton found the woman dead on the floor with a gas tube in her mouth. The chief coroner was notified, and decided that an inquest was not necessary.

Lajoie Made Errors But One Lone Booster In Grand Stand Stuck

Umpire Billy Evans tells a good story on Toronto's new manager that has a real touch of human nature, even if it does intimate that Larry is slipping.
Larry Lajoie unquestionably put Cleveland on the baseball map. No greater player ever lived than the big Frenchman. His wonderfully graceful style in the field, and his apparent ability to hit any and all kinds of pitching, made him a popular idol with the fans, not only in Cleveland, but all over the American League circuit.

DILLON'S KICK GONE.

The New York critics of boxing seem pretty well agreed that Jack Dillon has lost a good deal of the kick in his punch. He seemed to hit Al McCoy when and where he pleased in their bout the other night, but the plant-kicker force did not seem to be there, the Jack seemed to be trying his utmost to tuck his lighter opponent safely away into the Land of Nod. He buffeted McCoy ferociously in the early rounds, and it looked to be all off with Mr. Rudolf, which is McCoy's private life name, but Al's weathering the storm, and after the third round Dillon's attack seemed to fall, and it is declared that McCoy was never in further danger, and that if the bout had gone over a distance McCoy would have outlasted his man.

"Mooney," he raged, "I'm going to know all there is to know—even if I have to choke the information out of you! Do you understand?"

The Marguerite Clarke Fund

There are still some who are thinking of the little girl, Marguerite Clarke. Perhaps there are many who reading this issue and not having followed the case from the beginning may not know that the child for whom The World is making this appeal completely lost her sight thru the criminal negligence of someone who left cartridges half-filled with dynamite in the lane.

A box shower held by the Broadway Tabernacle Patriotic Society for the Broadway boys who are overseas, brought 188 pairs of socks and \$18.50 in money.

GERMANS RETREAT THRU COMPULSION

General Maurice Says Movement on Ancre is Forced on Enemy.

MAY LAST YEAR YET

War Conceivably May Run Over Next Winter—Huns Still Strong.

London, March 2.—The war may easily extend over another winter as far as purely military factors are concerned, according to a statement by General Frederick B. Maurice, director of military operations for the imperial general staff, today.

"Strategy as immutable as time," he said, "is dominating this war as it has dominated all other conflicts. People wonder frequently why, with the superior resources in man-power undoubtedly possessed by the allies, more progress toward victory is not made. The reason lies in the form of strategy which made the civil war so long and enabled Napoleon to keep his back to the wall so long when he had a coalition of Europe against him.

"I see no indication of what has been asserted, that the Germans are withdrawing at some places along our front because of a desire to force open fighting. This movement is a retirement forced upon them. They do not like it any more than we did when we had to retire a short distance to straighten our line. You can be sure no army likes to retire, and therefore it is certain that the Germans will make a determined effort somewhere to restore their lost prestige.

ST. VITUS' DANCE AFFECTS MANY CHILDREN

This Trouble Can Be Cured Through the Use of Dr. Williams' Pink Pills.

St. Vitus' Dance is much more common than is generally imagined. The trouble is often mistaken for mere nervousness, or awkwardness. It usually attacks young children, most often between the ages of six and fourteen—though older persons may be affected with it. The most common symptom is twitching of the muscles of the face and limbs. As the disease progresses, this twitching takes the form of spasms in which the striking motion may be confined to the head, or all the limbs may be affected. The patient is frequently unable to hold anything in the hands or walk steadily, and in severe cases the speech may be affected. The disease is due to impoverished nerves, owing to the blood being out of condition, and can be cured by the use of Dr. Williams' Pink Pills, which enrich the blood, strengthen the nerves, and in this way restore the sufferer to good health.

You can get Dr. Williams' Pink Pills from any drug dealer or by mail at 50 cents per box, six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

FRENCH REPULSE FOE IN SURPRISE ATTACKS

Ally's Troops Penetrate German Trench in Argonne, Near Vauquois.

Paris, March 2.—Today's official statement reads: "West of Soissons two simultaneous surprise attacks were directed by the Germans yesterday evening against our positions northeast of Vingre. They were repulsed by our fire, costing the enemy losses. In the Argonne we penetrated a German trench near Vauquois and brought back prisoners. Artillery shelling was rather lively in Arcourt Wood. Elsewhere the night passed quietly.

CLAIM SOUCHEZ ATTACK SUFFERED REPULSE

Germans Report Hand-to-Hand Fighting With Clashes on Ancre.

Berlin, March 2.—The army headquarters announced today that "between Ypres and Arras several reconnoitring advances of the enemy were fruitless. After lively fighting, British detachments advanced against our trenches east and southeast of Souchez. They were repulsed. In hand-to-hand fighting, 20 prisoners, with one machine gun, were taken.

ITALIANS RAID ENEMY IN SMASH NEAR TIVOLI

Artillery Activity Develops Considerable Violence East of Gorizia.

Rome, March 2, via London.—Violent artillery fighting east of Gorizia is reported by the war office today. "There was considerable artillery activity yesterday," says the statement. "It was especially violent in the area east of Gorizia. Our batteries replied vigorously. In the evening one of our detachments suddenly raided the enemy lines near Tivoli and destroyed a small part of them.

FINANCIAL AID OF U. S. IS DESIRED BY ALLIES

Northcliffe Hopes Portion of Huge Burden Will Be Lifted.

London, March 2.—Lord Northcliffe, the publisher, said in an address today before the American Luncheon Club, he had every assurance the British could finance the war, but that he would welcome some shifting of the enormous financial burden, and would be glad if America showed some of its historic sympathy with France by bearing some of the crushing financial strain which had been imposed on her. Lord Northcliffe also said he was certain the allies could win the war by themselves, but that any neutral aid, which would be like to see America in the war, side by side with us.

RUMANIANS WITHDRAW BEFORE ENEMY ATTACK

Ally Evacuates Height Near Ruzko Village After Fighting.

Petrograd, March 2.—The Russian official statement today reads: "The Rumanian front in the region north of the Tisza River is quiet. The Rumanians evacuated their positions near Ruzko village after fighting. The Rumanians evacuated their positions near Ruzko village after fighting. The Rumanians evacuated their positions near Ruzko village after fighting.

JAPAN CANNOT FORGET BERLIN'S GROSS INSULT

German Chancellor Guilty of Unpardonable Blunder, Says London Globe.

London, March 2.—The Globe says: "Whenever Germany attempts a delicate maneuver in diplomacy she irresistibly suggests to the imagination the Rumanian eggs for clamour performance it is his a nose as possible. The Japanese are a proud, chivalrous people, and they are not likely to forget the insult which they have suffered from the German Chancellor. At one stroke Chancellor von Bethmann-Hollweg has irreparably injured the honor of the Japanese, and has convinced the Japanese people that Germany is their enemy, and has inflicted upon his own people ineffaceable disgrace."

WOULD AVOID BREAK.

Austria Strives Hard to Prevent Rupture With United States. Bern, Switzerland, via Paris, March 2.—The recent reports that the Austro-Hungarian Government has determined to make every effort to maintain diplomatic relations with the United States is corroborated by information reaching here from Paris that Austria-Hungary intends to make every sacrifice to avoid a rupture with the United States, apparently not without some prospect of success.

PLANS TO DEVELOP EMPIRE RESOURCES

Dominions Royal Commission Advocates Establishment of Permanent Board.

STATE CABLE URGED

Alienation of Canada's Great Timber and Mineral Wealth Deployed.

Ottawa, March 2.—Co-ordination and correlation of all the resources of the British Empire is the purpose of the Dominions Royal Commission, now closing the fifth year of its existence, and the final report of which, interrelating the features of all the dominions and the United Kingdom, is now at hand. Issued contemporaneously with this report is the fifth interim report, the subject being a permanent board of the work under a permanent imperial development board, representing all parts of the empire, and advocates the completion and continuation of the work under a permanent imperial development board, representing all parts of the empire, and advocates the completion and continuation of the work.

The report, dealing with the subject of overseas communications, embraces uniform harbor development for vessels of the length, beam and draught required for the coast and inland transport of the empire's merchandise, mail communication and telegraphic communication. The development of imperial mail routes which do not pass over foreign soil is advocated and it is shown time may be saved in the delivery of mail in the Antipodes. It is suggested the government should arrange matters so that in 1921, when the time for giving notice to terminate existing contracts expires, they may be ready to initiate imperial services.

"We suggest," the report says, "that immediate use should be made of the existence of a state-controlled cable to facilitate the distribution of press news to Canada and thru Canada to other parts of the empire. In our judgment, few tasks are more urgent than that of securing the dissemination of imperial news as widely and as fully as possible. We therefore recommend and advocate the lowest possible rates for news sent over the state-controlled Atlantic and Pacific cables.

The commission deals with the difficulties of news dissemination thru the Dominion. "The present system," it says, "is the subject of much heart-burning, and is viewed with grave apprehension by newspaper proprietors and development interested in the future of the Dominion and its relations to the empire as a whole."

LOOK AND FEEL Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons. Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain! Well, yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

WILL AID THE BLIND.

A RECOMMENDATION!

The Porcupine mining companies will produce close to \$14,000,000 this year, against \$9,800,000 last year, and will pay \$5,060,000 in dividends, against \$4,160,000 in 1916.

The outlook is for much higher prices for many of the Porcupine issues, and the prospects are that big profits will be made in the mining market.

3.24 for Women's Boots Made by Leading American and Canadian Factories

We went to several of our leading boot factories and made a very advantageous deal for all the left-overs and odd lots that they had—and you know there are enormous quantities of such boots in factories where millions of pairs are produced each year. If we were to buy the same boots in the regular way we'd have to get \$4.50, \$5.00 and \$5.50 for them, but this clearance purchase makes possible the low price of \$3.24. Included are boots of patent colt, gummetal and vicil kid leathers, the various heel and toe shapes. All sizes. There are thousands of pairs, but come at 8.30 a.m. for first choice.
